1 And I'm like, did you hear something? And we like,
2 we were like telling the police had just shot a
3 guy out there. After that we just got back in the
4 car and we came back. I didn't get out of the car,
5 we was just sitting there for a few minutes to see
6 what was going to happen. We pulled right back out
7 and started down the street.

8 Q And you left?

9 A Yes.

10 Q So you didn't talk to the police that day?

11 A Huh-uh.

12 Q How did the police know to contact you?

13 A I can't remember.

14 Q If you --

15 A I think I called them.

16 Q You called the police?

17 A I called the police and told them that I
18 had saw the shooting and.

19 Q And then you met with them at
20 or somewhere?

21 A Yeah, I met with them at

22 Q Okay, all right. Based on what you saw,
23 did it appear that the officer had to shoot him to
24 protect himself?

25 A I don't know.

1 **Q** You don't have an opinion about that?

2 **A** I don't have an opinion about that because
3 I couldn't tell whether or not the guy was charging.
4 I wasn't as close to him as the officer, I wasn't as
5 close to the scene as the officer and Mike was so, I
6 don't know what he could have been thinking. I
7 don't know if he was thinking that he was trying to
8 charge him or not.

9 **Q** And when you saw him shoot him, the last
10 shots to be fired when you saw the blood spray, how
11 far did it seem that the officer and Mike Brown were
12 apart from each other?

13 **A** About as far as me and you are.

14 **Q** Oh, okay. This close? (indicating)

15 **A** Uh-huh.

16 **Q** And we're like less tan 10 feet apart
17 okay.

18 **A** Yeah, because he was pretty much staying
19 back away from him. Mike was pretty much bigger, he
20 was a little bit bigger than the cop was.

21 MS. WHIRLEY: Okay, all right. Thank you.
22 That's all I have. Kathi?

23 MS. ALIZADEH: Just a couple. Ma'am, did
24 you ever watch, I know you don't watch TV, did you
25 ever hear or did anybody ever talk to you about the

1 autopsy report?

2 **A** I think I heard about it, but I'm not
3 really sure what it was about because I didn't try,
4 I probably felt like I was going to be asked
5 questions about it eventually, but since I didn't
6 really, that was like pretty much nothing that I
7 really witnessed, so I didn't really pay attention
8 to it.

9 **Q** So to this day, do you know where Michael
10 Brown was shot on his body?

11 **A** I heard that it was in his arm and in his
12 head.

13 **Q** Okay. And you heard that where?

14 **A** Everywhere.

15 **Q** Okay.

16 **A** Anywhere, and I did see a couple of things
17 on the internet.

18 **Q** Okay. From the time that Michael Brown
19 turned around and until the time he eventually
20 collapsed in the street.

21 **A** Uh-huh.

22 **Q** Can you give me an idea, I know how close
23 they ultimately got, but how far did he travel?

24 **A** I couldn't really tell you because it
25 looked like from where I was standing, where I was

1 sitting, I'm in the car, I'm trying to think. I'm
2 not even exactly sure. I think that where his body
3 landed was like right about here. (indicating)

4 Q Okay.

5 A This is so hard to tell, especially not
6 being there.

7 Q Do you know about where he was when he
8 turned around?

9 A It was almost to like the end, I'm not
10 sure if it was the end of this street or what, I
11 can't remember.

12 Q Okay. When you say this street, I didn't
13 see the pointer?

14 A He hadn't made it around. He hadn't made
15 it around this corner, I know that it had to be
16 within this same stretch right here. (indicating)

17 Q Okay.

18 A Because I could see him clearly.

19 Q If you are saying his body was here,
20 that's where he collapsed, so he was someplace west
21 of that and then he ran east?

22 A Uh-huh.

23 Q And you don't have any good idea of like
24 if I keep walking back if you're going to say stop
25 if you want to say how far he ran?

1 **A** I think he ran a pretty good distance.

2 **Q** Okay. Farther than I can walk back?

3 **A** Um, I can't think right now. I don't even
4 remember how far it was.

5 **Q** Okay.

6 **A** Only thing I can remember is hearing the
7 gunshot, seeing him being shot and it was just like,
8 it was surprising.

9 **Q** Okay.

10 MS. ALIZADEH: I don't have anything else.

11 MS. WHIRLEY: Anything else?

12 : You said he had his hands
13 up for a brief moment?

14 **A** He had his hands up when he stopped, when
15 he was running away from the officer. I don't know
16 if he got tired or what, but he threw his hands up.

17 Were they like this or
18 were they like this? (indicating)

19 **A** Up in the air just like that.

20 (indicating)

21 Okay. That's it.

22 . With it
23 being a hot, summer afternoon, were your windows,
24 did you have your air on were your windows up?

25 **A** No, I like my windows down because I have

1 people in the back seat and I think what happened
2 was, as a matter of fact I knew I didn't have them
3 up because, um, it wasn't that hot because it was
4 before noon when we left. It was around noon when
5 we got there and it wasn't that hot that time of
6 day.

7 And one more thing. Do
8 you remember if the sirens was on the police car?

9 **A** On which police car? The one that the
10 officer was in?

11 Yes.

12 **A** No, it was just sitting there.

13 MS. ALIZADEH: Anyone else?

14 MS. WHIRLEY: Was it a car or was it a
15 truck?

16 **A** Oh, it was a car that the officer was in.

17 MS. WHIRLEY: That you saw Michael Brown
18 standing next to?

19 **A** Yes, it was a car.

20 MS. WHIRLEY: When you say car, when I say
21 truck, I'm talking SUV or was it a car?

22 **A** It was a car.

23 MS. WHIRLEY: It was not an SUV?

24 **A** No, it was a car.

25 MS. WHIRLEY: Okay.

1 **A** Because I remember him getting up out of
2 it.

3 MS. WHIRLEY: Do you know what kind of car
4 it was?

5 **A** You mean make and model?

6 MS. WHIRLEY: Yeah.

7 **A** No.

8 MS. WHIRLEY: Okay. That's all right.

9 **A** It was a white police car with the blue
10 police sign.

11 MS. WHIRLEY: It was not like a SUV like a
12 Ford Explorer or --

13 **A** No, because that's what came past me when
14 I was sitting there.

15 MS. WHIRLEY: You know what a SUV is?

16 **A** Uh-huh.

17 MS. WHIRLEY: And it was not a SUV that
18 you saw Michael Brown standing next to?

19 **A** No.

20 MS. WHIRLEY: When he was talking at the
21 police car?

22 **A** No.

23 MS. WHIRLEY: Okay.

24 You said he had
25 trouble getting out of the car, the police officer,

Page 193

1 can you describe what you saw?

2 **A** He was just looking like he was, he had
3 opened the door and was trying to get out of the
4 car. I didn't know what was going on, I figure he
5 might have been disoriented. I don't know what was
6 going on, I couldn't tell you what was happening.
7 All I know is he looked like he was coming out of
8 the car and he got up and yeah, he did close the
9 door behind him and he took off running. All right.

10 Did you

11 ever see anybody else by the car?

12 **A** No. The only other people that I was
13 looking, I seen were pretty much just bystanders and
14 watching everything.

15 MS. WHIRLEY: That concludes the testimony
16 of

17 (End of the testimony of

1 GRAND JURY HEARING VOLUME XII

2

3 MS. ALIZADEH: Good morning.

4 (Everyone says good morning.)

5 MS. ALIZADEH: Let's see, Monday,

6 October 13th, at 8:38 a.m. This is Kathi Alizadeh
7 with the prosecutor's office, present is Sheila
8 Whirley, all 12 grand jurors are present, as is
9 , the court reporter. He's taking down what is
10 being said and recording, audio recording.

11 So for today, the first witness, let me
12 back up a little bit and talk about scheduling.
13 There was a question brought up, I think it might
14 have been during a break we had last week about
15 whether or not three days a week was helpful or if
16 it was not very productive. And so Sheila and I
17 have talked about it, as well as with some of our
18 investigators.

19 You know, as I mentioned to you that some
20 of these people are reluctant to come in and that
21 means going out and serving them subpoenas and even
22 then, that's not a guarantee they're going to show
23 up.

24 We have been lucky so far. We have been
25 able to get the people in, but, you know, every day

1 is going to be a challenge. We talked about it and
2 first of all we felt that it was, it was going to be
3 problematic for us to try to corral or wrangle up
4 enough people to fill three days of your time.

5 Neither Sheila nor I wants you sitting
6 here. I know you have taken out from your personal
7 lives and from your jobs and it is just really wrong
8 for us to waste your time for you to sit here for
9 two hours when we don't have anything scheduled for
10 you or anything to put on.

11 I think the two day a week is going to be
12 better, hopefully we will use that time
13 productively.

14 Another reason for it is because we have
15 doing the transcripts and we need those done
16 as quickly as possible, because there's another
17 investigation going on, that as you know, there's a
18 federal investigation that's kind of parallel to
19 ours. And doesn't just work when he's in the
20 room with us, he goes home and he works to try to
21 transcribe everything that is going on. And news to
22 me, he mentioned the other day one hour of testimony
23 may take him three hours to transcribe.

24 He's working diligently to try to get
25 these transcripts out. And when we have back to

1 back days, he's not able to work on the transcripts
2 and the three days a week, we're finding he's not
3 able to keep up with the transcripts the way we need
4 them.

5 Another reason is, you know, once this
6 case is concluded and given to you for your
7 deliberation, once, assuming you arrive at a
8 decision, we don't want to have to delay that
9 decision for two or three weeks while we're waiting
10 for the transcripts to be done.

11 So he's, , trying to do those as we
12 go so we can keep up on those. So we felt that that
13 was another reason why the two day a week would be
14 better for just our purposes and getting this done
15 efficiently and as quickly as possible.

16 So I think the word went out to you last
17 week after we canceled Thursday, that we also are
18 canceling tomorrow, but we do have witnesses lined
19 up for all day today, assuming they show up and then
20 we have witnesses lined up for all day Thursday.
21 Including, you know, we're going to hear statements
22 when we're not having witnesses boom, boom, boom
23 there will be times that you are listening to
24 statements of witnesses that we anticipate that are
25 going to be called.

1 So with that being said, thank you for,
2 did they already do the rest of October?

3 MS. WHIRLEY: How far, the 16th?

4 MS. ALIZADEH: Today, this week is today
5 and Thursday. I don't know if we have the next two
6 weeks actually written in stone. So if you guys,
7 I've got a calendar in my office, but is that
8 completed for the month.

9 No jury duty on the 30th.
10 We have it up through the 28th, that's three days.

11 : We need to talk about it.

12 We need to confirm it.

13 MS. ALIZADEH: Yeah, why don't you all
14 keep in mind two days a week is going to be the best
15 way to go during your lunch break, and something you
16 can kind of talk about your schedules and redo the
17 calendar as you have.

18 I will tell you that whatever days you
19 pick, like I said, we are going to work with those.
20 Doesn't matter to me, however, I do believe that it
21 can be helpful for us if at least one of those days
22 at least till 5:00. We've found that there are
23 witnesses who have said, you know, well, I can't be
24 here till 4:00 because my kids off the bus and blah,
25 blah, blah.

1 We understand that these people are
2 witnesses, you know. They happen to be, what they
3 may feel now is at the wrong place at the wrong
4 time. So, I'm trying my best, especially the ones
5 that are cooperative, to work with them if they
6 have, you know, work or child issues that, you know,
7 we'll get you here, when does your son get off the
8 bus. Okay. How about if we have the cab pick you
9 up at 3:00, get you here at 3:30 that way we can get
10 some of these people on.

11 So when you do your schedule, I know that
12 a lot of these days you have a 2:30 cutoff because
13 of work and that's fine, but if there is a day
14 during the week that you can go till 5:00, that
15 might be a good second day for us because then we
16 can maybe accommodate some witnesses that need to
17 work later.

18 Is there anything else that anybody had to
19 bring up or talk about before we get started?

20 All right. So today we are going to hear
21 first . We heard from his wife
22 last Tuesday. And he was here
23 with her, we didn't have time to get to him. You've
24 already heard his recorded statement so we will call
25 him as our first witness.

1 We also have , she has a
2 couple of statements that we will play before she
3 testifies. One of them is very brief, like three
4 minutes long, but the other one I have to tell you
5 we just got because it was the result of a federal
6 interview.

7 I can't remember if it was done by the FBI
8 or Department of Justice, but we have that, we have
9 the recording of that, but I don't have a transcript
10 of that. So we'll just listen to the recording of
11 that statement before she testifies.

12 And then we have a witness that's
13 scheduled to be here at 1:00 in the afternoon. His
14 name is . He's made a number of
15 statements as well.

16 So after testifies, we'll
17 go on with the statements, recording statement for
18 the next witness, all right.

19

25

THE WITNESS: I want to be sure that I understood what it was.

Q Would you state your name and spell it for the court reporter, please?

A It is one ,
please, in .

Q Mr. , good morning.

A Good morning.

Q We've met before. I'm Kathi Alizadeh and you know that I'm one of the prosecuting attorneys who is putting on the grand jury investigation with Sheila Whirley as well, right?

A Yes.

Q And I know you were here last week and you and your wife came in, and I apologize that we didn't have time to get to you, but you were good enough to come in today. So we will get you out of

1 here as soon as we can, okay?

2 **A** Sure.

3 **Q** The microphone that's in front of you,
4 does not amplify your voice. So just make sure you
5 keep your voice up so we can hear you all the way
6 back here.

7 **A** Okay. Most people tend to tell me to tone
8 it down because I project. So I don't think that
9 will be a problem.

10 **Q** Okay. You've got a nice voice there,
11 everybody will raise their hand and let you know if
12 they can't hear you or need you to repeat something.

13 Sir, how old are you?

14 **A** .

15 **Q** And are you married?

16 **A** Yes, I am.

17 **Q** Who are you married to?

18 **A** .

19 **Q** And do you and have any children
20 together?

21 **A** We have,

22 .

23 **Q** Okay. So what is your biological child?

24 **A** They're .

25 **Q** What is her name?

1 **A** There's

2 .

3 **Q** And those are your step or biological?

4 **A** Those are my biological.

5 is my stepdaughter.

6 **Q** Okay. So you --

7 **A**

8 **Q** You and , and who is the
9 other daughter?

10 **A** and she's our youngest and
11 is my stepdaughter.

12 **Q** And are , are they both
13 adults or are they minors?

14 **A** They are all adults. The youngest is
15 currently years old.

16 **Q** And are you familiar with the Canfield
17 Green Apartment Complex?

18 **A** Only that I've ridden out there a couple
19 of occasions with the family. has a friend who
20 lives there.

21 **Q** So you don't have live in the complex?

22 **A** No, I live in north St. Louis.

23 **Q** And none of your family lives in the
24 complex, correct?

25 **A** No, they do not.

1 Q Okay. And so do you recall the morning of
2 August 9th of this year?

3 **A** The day of the shooting?

4 ☐ Yes.

5 **A** Yes, I do.

6 Q Was there anything special or unusual
7 about that morning?

8 **A** We were taking

9 And
10 as we were driving down Canfield toward the complex,
11 we heard what first sounded like overly loud
12 fireworks. And we looked up, saw the flashing red
13 and blue lights.

14 At this point I noticed the officer
15 and a large black man, about my size, who appeared
16 to be pointing a gun. I believe they were having a
17 shootout at the time, I believe they were having a
18 shootout. And the young black man appeared to be
19 pointing in our direction and I was afraid for my
20 family at the time.

21 **Q** Okay. Let me stop you.

22 **A** Uh-huh.

23 Q And we're going to start --

24 **A** Sure.

25 Q -- at the very beginning. So you were

1 going into the complex, do you remember what time,
2 approximately, what time of day it was?

3 **A** It was bright and sunny, that's all I can
4 remember.

5 **Q** Do you remember this being a Saturday?

6 **A** Uh, at this point, no, I don't remember
7 what day of the week it was.

8 **Q** Okay. And so were you in a vehicle?

9 **A** My wife's .

10 **Q** And who was driving?

11 **A** My wife.

12 **Q** Where were you in the car?

13 **A** Front passenger.

14 **Q** Were there any other people in the van
15 with you?

16 **A** and I believe two of the
17 grandchildren, but I don't recall which two.

18 **Q** Are the grandchildren, are they minors?

19 **A** They are minors. The oldest one is
20 .

21 **Q** Okay. And so you said you were coming
22 into the complex, was driving into the
23 complex?

24 **A** Yes, she was. We were in traffic.

25 **Q** And do you remember, I'm going to direct

1 your attention to Grand Jury Exhibit Number 25,
2 which is an aerial view of the streets and buildings
3 that comprise the complex?

4 **A** Which way is Florissant?

5 **Q** So what I'm going to tell you is that this
6 is north, up is north?

7 **A** Okay.

8 **Q** And so if you were to see that this is
9 Canfield Drive that goes through the complex, if you
10 continue on here you are going to West Florissant?

11 **A** Okay, okay. We were coming from
12 Florissant down the drive.

13 **Q** Okay.

14 **A** Our destination was this parking area back
15 here behind one of these two houses. We always pull
16 up from the back, so I'm not sure which house it is,
17 but lives in one of these houses.
18 (indicating)

19 **Q** Here, let me have you, let me show you
20 here, this is a laser pointer. So instead of having
21 you stretch yourself, you can use that?

22 **A** Okay, sure.

23 **Q** So you were in the van and you were coming
24 east on Canfield?

25 **A** Yeah. This curve here is, we were coming,

1 we were on this curve when we heard the first shots,
2 which called our attention to it. And we began
3 scanning the distance down the hill here looking for
4 the source of the, looking for the source of the
5 sound.

6 Q Okay. Now, let me tell you and remind you
7 that I know that you had other people in your
8 vehicle.

9 A Yes.

10 Q And I know they all saw things as well.

11 A Uh-huh.

12 Q What is important is that you testify
13 about what you saw.

14 A Right.

15 Q And what you heard and observed as opposed
16 to if maybe you and your wife?

17 A Right.

18 Q Or your daughters talked about this later
19 and they talked about what they saw.

20 A I understand.

21 Q You're saying we did this and we were
22 scanning the area, what is important is what you
23 did.

24 A Right.

25 Q Okay. So as the vehicle comes to this

1 bend, which is at the northwest corner of the map,
2 right around Coppercreek Road, you said that having
3 heard what you believed to be fireworks?

4 **A** Right. They sounded a little too loud for
5 fireworks.

6 **Q** Okay.

7 **A** And looking down further down the street,
8 I saw the lights from the squad car.

9 **Q** Okay. So let me stop you. Get some
10 details before we get to that point.

11 **A** All right.

12 **Q** Were your van windows up or down or do you
13 recall?

14 **A** Um, a couple of inches. I like the fresh
15 air, but I don't like the wind blowing in my ear
16 when we drive. It is usually cracked two or
17 three inches.

18 **Q** Okay. Do you recall would you of had the
19 radio on or music playing?

20 **A** No radio, but I had four adults and two
21 children in the car

22 There was a lot of noise.

23 **Q** A lot of chatter?

24 **A** Yes.

25 **Q** Okay. So, and then how is your hearing,

1 Mr.

2 **A** My hearing is pretty good.

3 **Q** What about eyesight, do you wear glasses?

4 **A** I do not wearing glasses. I have trouble
5 reading, uh, I have trouble reading street signs
6 when we're driving.

7 **Q** Okay.

8 **A** But other than that, I don't have any
9 problem. I can read, uh, united we fall, divided we
10 -- united we stand, divided we fall is kind of fuzzy
11 on the seal.

12 **Q** Okay.

13 **A** I can see the MDCCXX, the roman numerals
14 at the bottom. I don't wear glasses.

15 **Q** Okay. So now, as you come around the bend
16 and you said that you looked down, kind of scan down
17 Canfield, which at that point as you are coming
18 around is kind of a straight shot, correct?

19 **A** Right.

20 **Q** And you see, you said you see a squad car?

21 **A** Now, I do not, I still don't know for
22 sure. I didn't recall when I gave my first
23 statement, whether it was a car or an SUV. I didn't
24 pay that much attention to the vehicle, but I saw
25 the lights.

1 **Q** Okay. So lights meaning like the light
2 bar on top of the car?

3 **A** Right, the red and blues.

4 **Q** You saw those were going off?

5 **A** Yes.

6 **Q** And what did you see as far as people at
7 and/or around the vehicle, please vehicle?

8 **A** Um, I saw people, residents and citizens
9 coming from various different directions. I saw the
10 officer out of his vehicle, I didn't see him exit
11 his vehicle. When I first seen the officer, he was
12 already, uh, several feet from his vehicle.

13 **Q** Okay. So can you use the pointer and
14 point to where you believe you first saw the
15 vehicle, not where you were, but where was the
16 police vehicle?

17 **A** There's an image of a vehicle on your map
18 here and it is near that one, it is near this side
19 road here in between this one and this side road
20 here. (indicating)

21 It was in this area here.

22 (indicating)

23 **Q** Okay. So was the vehicle when you first
24 observed it, was it moving or was it stationary?

25 **A** Stationary.

1 **Q** Okay. Did you ever see it move after
2 that?

3 **A** No, I didn't.

4 **Q** Okay. So when you came around, you said
5 you saw the officer and he was already out of the
6 vehicle?

7 **A** Yes, with his back to me.

8 **Q** And you said he was a ways away from the
9 car?

10 **A** Yes.

11 **Q** So in what directional was he away from
12 the car?

13 **A** He was down the street because he was
14 moving down the road away from his vehicle. The
15 officer was near the yellow line.

16 The vehicle was about 45 degrees from
17 the curb and the officer was out near the yellow
18 line moving down the road away from the vehicle.

19 **Q** Okay. So when you say the vehicle was
20 about 45 degrees away from the curb, do you mean
21 that the vehicle was angled or do you mean that it
22 was, I don't understand?

23 **A** It had been like it had been pulled in and
24 the right front wheel was at the curb and the
25 vehicle was about 45 degrees, like it had been

1 parked at an angle.

2 Q Okay. So it wasn't in the lane as if, you
3 know, if you were driving down that street, you
4 would be going straight down the lane?

5 A You will have to see people parked at an
6 angle on Sundays out in front of churches, it was at
7 an angle by the curb.

8 Q Was the officer's vehicle blocking the
9 road so that other vehicles could not go past?

10 A Uh --

11 Q Or do you know? Don't guess if you don't
12 know.

13 A I don't think it was blocking. I'm not
14 positive, but I don't believe it was blocking the
15 road. It was closer to the curb.

16 Q Okay. So you said when you first saw the
17 officer, he was, his back was toward you?

18 A Yes.

19 Q And he was moving away from you?

20 A He was moving away from us toward the guy
21 that he was shooting at. I first seen the officer,
22 the officer was between me and the guy he was
23 shooting at. The officer was facing the other guy
24 and guy that he was, I'm sorry, I don't know what to
25 call the other guy.

1 **Q** We now know that the person who died was
2 named Michael Brown.

3 **A** Okay.

4 **Q** So it is okay --

5 **A** Mr. Brown.

6 **Q** And just to be clear, so you didn't know
7 Mr. Brown before that day?

8 **A** No, I did not.

9 **Q** And is that the bigger black gentleman
10 that you described having seen?

11 **A** Yes, the one that was shot.

12 **Q** Okay. So let's back up for a second so
13 when you see the officer.

14 **A** Uh-huh.

15 **Q** You said he's a ways away from the car
16 with his back towards you and he's moving away from
17 you.

18 **A** Yes.

19 **Q** So are you good at distances?

20 **A** Not that good.

21 **Q** Okay. Can you give me an idea how many
22 feet or car lengths or a football field?

23 **A** A car length, maybe two, between them or
24 between us.

25 **Q** Between the officer's vehicle and where

1 you first saw the officer you said he was aways from
2 his car?

3 **A** Not more than a car length from his
4 vehicle.

5 **Q** Okay.

6 **A** A couple of strides.

7 **Q** And when you say he was moving away from
8 you, can you describe how he was moving? Was he
9 running, was he walking, was he walking quickly,
10 jogging?

11 **A** Uh, a trot, a brisk trot.

12 **Q** Did you see at that time if he had a gun
13 in his hand?

14 **A** I couldn't see what he had in his hands,
15 his back was to me.

16 **Q** Okay. And so, now as you look and you
17 said you saw the officer, did you also, when you
18 first looked, could you also see Michael Brown?

19 **A** Yes, my first, that was my first view of
20 Michael Brown. He was in direct line just past the
21 officer and he was pointing in our direction.

22 **Q** Okay. So he was facing in this direction?

23 **A** Yes, ma'am.

24 **Q** Okay. So the first time you saw him, you
25 saw his front?

1 **A** Yes.

2 **Q** Okay. You never saw the back of him?

3 **A** No, I did not.

4 **Q** Okay.

5 **A** He appeared to be pointing directly at the
6 vehicle we were in, he was pointing at the officer
7 in the officer's direction and because of our point
8 of view, he appeared to be pointing at us.

9 **Q** Okay. Did you see anything in his hands
10 or anything that he was doing with his hands?

11 **A** I believe I saw a flash of light off of
12 something.

13 **Q** Okay. And now you had mentioned earlier,
14 and I believe in your statement as well, you said at
15 first you thought he had a gun?

16 **A** Yes, that was my belief.

17 **Q** So that was an impression you got --

18 **A** Yeah, I was scared the bullets were going
19 to start coming through the windshield.

20 **Q** Now, let's back up just a bit. When you
21 were coming around that bend and you heard what you
22 now know are gunshots, how many shots do you think
23 you heard?

24 **A** Three or four.

25 **Q** Okay. And then when you saw, you first

1 saw the officer, did you see him after you heard the
2 gunshots?

3 **A** After.

4 **Q** After, okay. So when you saw the officer
5 and he's moving away from you, could you tell was he
6 firing a weapon as he was moving away from you?

7 **A** Uh, the next shot I heard was after
8 Michael Brown started running, the officer fired and
9 I saw Michael Brown stagger and fling his arms out.
10 At which point he turned around and came back toward
11 the officer.

12 **Q** Okay. Now, let's back up. When you first
13 see Michael Brown, he's facing the officer?

14 **A** Yes.

15 **Q** And you said it appeared that he was
16 pointing?

17 **A** He looked like he was pointing at us, yes.

18 **Q** Can you stand up and show the grand jurors
19 how you saw what it looked like he was doing?

20 **A** He's about my size, young black guy and he
21 looked like he was pointing. I can't tell one
22 finger or two, I can't tell what he had in his hand,
23 but I thought I saw a glint. I believe it was a
24 gun.

25 **Q** Okay. Now, when you saw him, when you

1 first saw him, was he moving or was he standing
2 still or standing in place?

3 **A** I'm not certain.

4 **Q** Okay. As you then come around the bend
5 and you see this, describe for me, you can sit down,
6 we'll go through this again step by step, but
7 describe for me what you see next happened?

8 **A** Well, after seeing him and the officer and
9 seeing him point and getting this impression that he
10 was going to start shooting in our direction, uh,
11 like that, Mr. Brown spun and started to run away
12 down the street going this direction.

13 **Q** Okay. So that would be east down
14 Canfield?

15 **A** Yes, down Canfield away from Florissant
16 and away from our vehicle. At which point the
17 officer fired one shot and I saw Mr. Brown stagger.

18 **Q** Okay. Let's back up now then. You had
19 said when you saw the officer he was, his back was
20 to you, he's moving ago way from --

21 **A** Moving away from us, moving toward
22 Mr. Brown.

23 **Q** And you said he was near the yellow line?

24 **A** Yes.

25 **Q** Where was Michael Brown standing when you

1 first saw him? Was he in the street, was he in the
2 grass?

3 **A** Out in the middle of the street.

4 **Q** Okay. And what was the distance when you
5 first saw them between Michael Brown and the
6 officer?

7 **A** Uh, perhaps the length of this courtroom.

8 **Q** Okay. So maybe --

9 **A** From me to the flag.

10 **Q** Okay.

11 **A** 15, 20 feet.

12 **Q** Okay. And so then you say you saw Michael
13 Brown, he was pointing when you first saw him?

14 **A** Right.

15 **Q** You saw him spin around?

16 **A** Spin and run.

17 **Q** And run where?

18 **A** Down the street.

19 **Q** So he stayed in the street?

20 **A** Um, he might have been angling toward this
21 side of the street, but he was running straight down
22 the center of the street that's turning, so, he was
23 running straight away from us.

24 **Q** Okay. When you saw him, did you notice
25 how he was dressed, and I mean, Michael Brown, did

1 you pay any attention?

2 **A** Blue jeans, white T-shirt, tennis shoes.

3 **Q** And so, and you said you thought you saw a
4 glint in his hand, but did you see anything once he
5 turned around and was running, did you notice
6 anything in his hands?

7 **A** I thought I saw him throw something or
8 lose something when the officer wounded him and he,
9 when he was wounded, he flung his arms out and spun
10 back around. And I thought something might have
11 flung from his hands. I wasn't certain at the time
12 I gave my original statement. This was an
13 impression that I got that I thought he may or may
14 not have lost what he had in his hand.

15 **Q** Okay. Could you tell when you first saw
16 Michael Brown, did he have a hat on?

17 **A** I don't remember a hat at all.

18 **Q** Okay. And so you say that he was running
19 away from the officer and the officer was, you said
20 a fast trot, I think?

21 **A** A trot or a jog.

22 **Q** A jog?

23 **A** He was trying to close the distance.

24 **Q** And when the officer was running, after
25 Michael Brown spun around and started to run east

1 down Canfield Drive, did the officer fire at him?

2 **A** Yes.

3 **Q** And then you said, you had said something
4 about Michael Brown being wounded.

5 **A** Yeah, when Mr. Brown was running away from
6 the officer, one shot was fired. Mr. Brown
7 staggered a little to the left and his arms went
8 out. It looked to me like he was shot in the left
9 leg or low on the left side and he spun around.

10 **Q** Did you see any blood coming from him?

11 **A** No, I wasn't close enough to see blood.

12 **Q** So it was just by the way he reacted that
13 you thought he was shot?

14 **A** The way his body jerked.

15 **Q** Okay. And so you say he spun around, so
16 when he spun around, was he facing the officer at
17 that point?

18 **A** He spun 180 degrees and came back toward
19 the officer.

20 **Q** All right. When you say he came back
21 toward the officer?

22 **A** Several steps back toward the officer.

23 **Q** Okay. Now, can you stand up again, sorry,
24 up down, up down.

25 **A** That's okay.

1 **Q** It is like church.

2 **A** It's all right.

3 **Q** So can you describe for me when you say he
4 spun around and he flung his hands out.

5 **A** Yeah.

6 **Q** Show the grand jurors what you mean by
7 that?

8 **A** Okay. Pardon me. His left leg kind of
9 jerked a little and his arms went out as he was
10 running. He kind of, and he came about.
11 (indicating)

12 **Q** Okay.

13 **A** He continued the turn.

14 **Q** Now, you're doing something with your
15 hands, is that what he was doing?

16 **A** His arms came down.

17 **Q** Okay.

18 **A** After he completed, after he completed his
19 turn and recovered his balance, his arms came down.

20 **Q** Okay.

21 **A** And he proceeded to take several steps
22 toward the officer with his arms down.

23 **Q** Okay. And did you, so at this point when
24 you say down, do you mean at his side?

25 **A** I mean hanging loosely at his sides.

1 **Q** And the steps that he took toward the
2 officer, can you describe how he was doing that,
3 walking, walking quickly, running?

4 **A** Walking.

5 **Q** Walking?

6 **A** Yeah.

7 **Q** And about how many steps did he take
8 toward the officer?

9 **A** He got three, maybe four steps.

10 **Q** From where he had turned around?

11 **A** Yes, he had gotten three, maybe four
12 steps.

13 **Q** Was the officer still going toward him?

14 **A** Yes, they were still closing the distance.

15 **Q** Okay. Did you hear anybody saying
16 anything at all during this time?

17 **A** At this point lots of bystanders had
18 started screaming, but I couldn't make out what they
19 were saying.

20 **Q** Okay. Could you tell if there was any,
21 whether the officer or Michael Brown was saying
22 anything?

23 **A** I couldn't hear them.

24 **Q** Okay. Could you tell if they were saying
25 anything, like did you see?

10 **A** Uh, I was sitting as low as my seat belt
11 would allow me to. I wasn't, I was in a bucket seat
12 of a with the seat
13 belt on. I couldn't go, I couldn't move very far.

18 **A** I was intent on the shootout or what I
19 believe, what I believed to be a shootout in front
20 of me because I was worried about stray bullets
21 coming through the windshield.

25 **A** Down at his sides.

1 **Q** And he's taking a few steps toward the
2 officer?

3 **A** Yes.

4 **Q** What happens then?

5 **A** The officer unloaded on him.

6 **Q** And what do you mean by that?

7 **A** I mean, he fired four or five shots in
8 rapid succession. He gunned him down.

9 **Q** And what did you, did you see, what did
10 you see Michael Brown doing as the officer was
11 firing his weapon?

12 **A** Fall.

13 **Q** In what direction did he fall?

14 **A** Uh, he crumpled, he crumpled in, well, on
15 the map he would have crumpled to the north, but
16 basically he crumpled to his right going this way
17 and fell and collapsed.

18 **Q** Was he in the street or in the grass or on
19 the sidewalk?

20 **A** He was still in the street.

21 **Q** In the street. Did he fall forward or on
22 his side?

23 **A** He crumpled to the right and I believe he
24 landed on his back, but he appeared, it looked like
25 his right leg gave out. He crumpled to the right

1 and fell away from the officer who at this point was
2 a little more to one side of him.

3 Q Okay. Now, let me ask something I haven't
4 clarified yet.

5 When you were coming around the bend
6 and driving, correct?

7 A Uh-huh.

8 Q Did you all, did she continue to drive as
9 this was going on?

10 A No, no.

11 Q Did she stop the ?

12 A No, we saw, we saw the police and the
13 crowd and we turned onto, excuse me, we turned onto
14 this side road here and drove around the back to
15 house. I still can't remember which one of
16 these two houses it is, but we drove around to avoid
17 the scene.

18 Q Okay. So you took a left onto Coppercreek
19 Road?

20 A Right.

21 Q You drove around Coppercreek Road, all the
22 way to Stonefield Road?

23 A Uh-huh.

24 Q All right. So fair to say then that you
25 never got farther east than this intersection?

1 **A** Right. And was never more than, was never
2 any closer than two blocks from the shooting.

3 **Q** Okay.

4 **A** Like I said, I wasn't close enough to see
5 any blood or to hear any verbal exchange between.

6 **Q** Okay. So after you saw Michael Brown
7 collapse you said and he landed in the street.

8 **A** Uh-huh.

9 **Q** At that point, were you already on
10 Coppercreek Court or --

11 **A** That's the point where we were looking for
12 somewhere to turn off because we were like, we got
13 to get out of here. Traffic had held us up at this
14 bend.

15 **Q** So there were other cars?

16 **A** The street was blocked all the way down to
17 this point here. The whole street was lined with
18 traffic.

19 **Q** So there were other cars in front of your
20 van?

21 **A** Yes, we were caught in traffic.

22 **Q** And so I'm guessing, or I shouldn't guess,
23 so when you were driving down here, did you
24 immediately turn or was there a time where you were
25 stuck in traffic or stopped in the road?

1 **A** We turned, we turned a few seconds after
2 Mr. Brown hit the street, after he collapsed because
3 as soon as he collapsed, we started looking for an
4 exit.

5 **Q** Okay. As you went left onto Coppercreek
6 Road and traveled in this direction north and then
7 east, could you see any more what was going on over
8 there on Canfield Drive?

9 **A** Uh, I didn't have any feel, I didn't have
10 any clear line of sight. We saw people running and
11 walking to and from, and we saw police cars coming
12 from every different direction, but I couldn't see
13 anything beyond that.

14 **Q** From the time you came around this bend
15 and you said you saw the officer's car?

16 **A** Uh-huh.

17 **Q** I know you said police came later, but was
18 that the only police car that you saw when you came
19 around the bend?

20 **A** That is the only car that I observed.

21 **Q** Okay. And then you said you saw an
22 officer, was he in uniform?

23 **A** Yes.

24 **Q** And do you know any Ferguson police
25 officers?

1 **A** No, I don't.

2 **Q** So did you see any other uniformed
3 officers at that time when you first looked down the
4 street? Were there other officers with him?

5 **A** I don't remember.

6 **Q** Okay.

7 **A** I don't recall. My attention was focused
8 on where the shots were coming from.

9 **Q** And so when you say you saw Michael Brown
10 turn around or now, you see him turn actually twice,
11 correct? You first see him, he's looking toward the
12 officer?

13 **A** Right, he turned to run and he spun back
14 around when he was wounded or like, I still think he
15 was, I still think he was wounded when he was
16 running.

17 **Q** How, from the time he first turned around
18 and ran away from the officer until he stopped and
19 spun around.

20 **A** Uh-huh.

21 **Q** How much distance did he cover in that
22 time?

23 **A** 50 feet maybe.

24 **Q** Okay.

25 **A** Give or take a little bit. I'm two blocks

1 up the street. I'd say about 50 feet.

2 Q Now, you have demonstrated for us that
3 when he was, when Michael Brown was running away,
4 and you said he kind of?

5 A Staggered.

6 Q Staggered and his arms flung up and you
7 demonstrated that.

8 A Uh-huh.

9 Q Can you just stand up and put your arms in
10 that position so I can describe it?

11 A Sure.

12 Q Let me turn around.

13 A Okay.

14 Q Put your arms up the way he had them?

15 A Okay. The way the flung out, yes.

16 Q So your left arm is extended away from
17 your body at about a 45 degree angle?

18 A Down and out.

19 Q Down and out?

20 A Yes, and the right arm was higher,
21 shoulder level as he spun.

22 Q Okay. And, okay, thank you. And then
23 when he spun around, what did his hand do?

24 A As he came about to face us again, his
25 arms came down to his sides and hung loosely at his

1 sides.

2 **Q** All right. Did you ever see Michael Brown
3 clutching his torso or have his hands anywhere in
4 his mid section after he turned around and faced the
5 officer?

6 **A** Not that I recall.

7 **Q** Did you ever see Michael Brown put his
8 hands up?

9 **A** No, I never saw his arms up.

10 **Q** Never saw his hands up like that?

11 **A** Never saw his hands up.

12 **Q** Other than the way you have demonstrated?

13 **A** Only when he flung them out in spinning
14 around. I never saw him put his hand up.

15 **Q** Okay.

16 MS. ALIZADEH: Sheila, do you have any
17 questions? I'm out of questions, thanks.

18 MS. WHIRLEY: Okay.

19 **Q** (By Ms. Whirley) So you first saw the
20 officer when he was out of his vehicle, correct?

21 **A** Yes.

22 **Q** So you did not see any tussling or
23 altercation at the police car with Michael Brown?

24 **A** No.

25 **Q** All right. Um, can you describe the

1 officer's demeanor when you first saw him and by
2 that I mean, can you show us what he was doing? You
3 know, like did he have a gun pointed, was he, what
4 was he looking like when you first saw him?

5 **A** When I first saw him, I was looking at his
6 back as he was walking away from me or trotting,
7 toward Mr. Brown.

8 **Q** Okay. And from behind, that's what you
9 could see, could you see his hands from behind, from
10 his behind, I mean, his behind was facing --

11 **A** They looked like they were up. He
12 probably had his, probably had his gun in his hands.

13 **Q** It appeared --

14 **A** I couldn't see the gun. They looked like
15 they were up.

16 **Q** As if he was holding a gun and pointing a
17 gun?

18 **A** Yes.

19 **Q** And just to be clear, the officer was
20 shooting at Michael Brown when he was running away
21 from the officer?

22 **A** One shot.

23 **Q** One shot. And you think that shot
24 actually struck him?

25 **A** The way he staggered, I do believe it

1 struck him.

2 Q But you couldn't tell where?

3 A No.

4 Q Okay. And as Michael Brown was running
5 away, it appeared he had a gun in his hand as he was
6 running away, because you said?

7 A I saw, I saw what I thought was something
8 fly from his hand when he spun, but it was an
9 impression I got and since my original statement to
10 the police, I said that I wasn't certain because of
11 the distance, but I got the impression that
12 something flew out of his hand when he was struck
13 and spun around.

14 Q Okay. So while he's running away, is he
15 facing you or not?

16 A His back, because he was running almost
17 directly away from us down the road.

18 Q Okay. So both the officers back and his
19 back was to you as they were running away?

20 A Yes.

21 Q And the officer was closest to you?

22 A Right.

23 Q But it looked like to you that from the
24 back, Michael Brown had a weapon?

25 A Um, I didn't see anything in his hands

1 when he was running.

2 Q Okay.

3 A I saw what I thought was something fly
4 from his hand when he spun.

5 Q Okay.

6 A And I saw a glint off of something in his
7 hand when I first saw him because the first time I
8 laid eyes on Mr. Brown, he was pointing at us. And
9 I thought I saw a glint off of something in his
10 hand.

11 Q Okay. All right. So as he ran and the
12 officer fired a shot, he thought he was hit, he
13 staggered?

14 A Yes.

15 Q He turned around, as you demonstrated for
16 us how he turned around.

17 A Yes.

18 Q So once he turned around and he was
19 walking towards the officer, you said a few steps,
20 was he staggering still?

21 A He did not seem to be staggering. He was
22 walking fairly well.

23 Q Okay. He no longer seemed to be
24 staggering?

25 A He wasn't moving very rapidly, he was

1 walking slow. At a much more normal walk.

2 Q Can you kind of show us what you mean,
3 please?

4 A After he spun around and walked back
5 toward the officer, it cars more of a, it was more
6 of just, you know, walking across the room. It was
7 just walking like, you know, I'm walking back toward
8 the officer. (indicating)

9 Q Not like he was injured or anything?

10 A It was a fairly normal walk.

11 Q Okay.

12 A It did not appear that he was --

13 Q Okay. As he's walking, that is when the
14 officer said what?

15 A Open fire.

16 Q Open fire. And that's when Michael Brown
17 went down?

18 A Yes.

19 Q Okay. Did it appear to you that Michael
20 Brown was charging the officer?

21 A I didn't get the impression of a charge
22 because it wasn't fast enough to be a charge.

23 Q Okay. Did it appear to you that the
24 officer had to shoot Michael Brown in order to
25 protect himself?

1 **A** I wouldn't say had to. At the time I was
2 relieved because I believed at the time, I still
3 stand by my original statement, but my impression at
4 the time was that it was a shootout between the
5 officer and Mr. Brown in a residential neighborhood
6 surrounded by bystanders who were all stupidly
7 running toward a gun fight.

8 **Q** But you never saw Michael Brown fire a
9 gun?

10 **A** I never saw him fire anything.

11 **Q** So it was just your assumption that it was
12 a gunfight?

13 **A** Right.

14 **Q** Okay. So my question is, when the officer
15 opened fire, did it appear that he had to do that to
16 protect himself in your opinion?

17 **A** Um, I couldn't see Mr. Brown's hands and I
18 wasn't sure if he lost the weapon, if there was a
19 weapon.

20 I felt, at the time I felt the
21 officer did what he had to do.

22 **Q** Is that what you think here today?

23 **A** I still feel that the officer did what he
24 believed was the right thing.

25 **Q** Okay. And I noticed in your statement

1 that you gave to the police back on August 13th of
2 2014, you said you did ?

3 **A** Yes.

4 **Q** Tell us about that, what was that for?

5 **A** I'm a . I'm a
6 convicted felon and I don't have any love for the
7 police.

8 **Q** Okay.

9 **A** My wife and I felt that we should do our
10 civic duty and come forward and tell everybody what
11 we saw. I'm not comfortable being here, but I'm
12 trying to do the right thing.

13 **Q** Okay. Questions?

14 MS. ALIZADEH: Let me ask a couple just to
15 clarify, and I didn't ask you about this earlier,
16 Did you see another black younger
17 male that was smaller than Mr. Brown at, near,
18 around the vehicle or running in that area?

19 **A** I have no idea who you might be speaking
20 of. The neighborhood was filled with young black
21 people. They were all over the place. It is a
22 neighborhood full of them.

23 MS. ALIZADEH: So you don't recall seeing
24 anybody near, or besides Mike Brown, and you've
25 already described where you saw him, did you ever

1 see another black gentleman at or near the police
2 vehicle?

3 **A** No, my attention was on the officer and
4 Mr. Brown. I did not.

5 **Q** Okay. And, you know, from what you've
6 stated, you didn't see anything that occurred prior
7 to you coming around that bend, correct?

8 **A** Correct.

9 **Q** So if there was anything that happened
10 prior to you coming around the bend, whether it was
11 between the officer and Mike Brown or anyone else
12 that was there, you didn't witness that?

13 **A** Correct.

14 **Q** And let me ask you because Sheila Whirley
15 had asked you about whether or not you felt the
16 officer had to fire, if there was something that
17 occurred prior to the officer running after Michael
18 Brown, you have no idea what that was?

19 **A** No, I do not.

20 MS. WHIRLEY: Just one last follow-up. As
21 Michael Brown is running away from the officer and
22 he fired at him.

23 **A** Uh-huh.

24 MS. WHIRLEY: Did it appear that Michael
25 Brown was a threat at that time in your opinion?

9 What
0 were you doing when you entered the complex? You
1 said your wife was driving and you were in the
2 passenger seat, what were you doing at that time,
3 were you looking around, were you talking?

18 **A** And we heard shots.

23 **A** Right.

24 And where on the map was
25 Michael Brown when he turn around or spun around as

1 you said to face the police officer?

2 **A** He had started around here and was running
3 this way.

4 Okay.

5 **A** And had gotten perhaps 50 or 60 feet.

6 : Okay. And then he
7 started walking back and where was he at when he
8 fell, did you see where he fell?

9 **A** Somewhere in this area. (indicating)

10 Okay. And you said
11 throughout everything that Michael Brown spun
12 around, do you feel that he spun around on his own
13 accord or do you feel it was due to the impact of
14 being shot.

15 **A** The bullet, the impact of being shot, uh,
16 certainly appeared to have started him turning. And
17 whether he continued of his own volition or not, I'm
18 not certain. It looked like the impact started to
19 spin him around and when he completed the turn, he
20 was facing us again and came back toward the
21 officer.

22 : Okay. So you feel that
23 maybe if he hadn't been shot, he might have
24 continued to run that way?

25 **A** Right.

1 Were you able to see
2 Michael Brown's face after he spun around?

3 **A** From that distance, it was just a large
4 black guy.

5 Okay. This question is
6 going to be uncomfortable for you to answer, but
7 Michael Brown you said was your size?

8 **A** That was the impression I had.

9 How tall are you?

10 **A** I'm 6'1".

```
11             Okay.  How much do you
12 weigh?
```

13 **A** 210.

14 Thank you, I'm done.

15 You

16 mentioned that you are a big guy and we know Michael

17 Brown was a big guy, and do you think that anything

18 to do with the threat towards the police officer

19 because he was a big guy?

20 **A** It's possible, it's possible. I don't
21 believe the officer was as tall. My impression was
22 that the officer was perhaps 3 or 4 inches shorter
23 than Mr. Brown. I'm not certain how tall either one
24 of them are, but I got the impression that he was
25 about half a head shorter.

1 Okay. With him having a
2 gun that you perceived he had?

3 **A** And physical size.

4 And physical size.

5 MS. ALIZADEH: Anyone else have a
6 question? Okay. This will conclude the testimony
7 of Mr.

8 (End of the testimony of)

9
10 of lawful age, having been first duly sworn to
11 testify the truth, the whole truth, and
12 nothing but the truth in the case aforesaid,
13 deposes and says in reply to oral
14 interrogatories, propounded as follows, to-wit:

15 EXAMINATION

16 BY MS. ALIZADEH:

17 **Q** Could you state your name, please?

18 **A**

19 **Q** And how are you employed, sir?

20 **A** I'm a special agent with the FBI assigned
21 to the St. Louis field office.

22 **Q** How long have you been an agent with the
23 FBI?

24 **A** Almost 24 years.

25 **Q** And have you always been assigned to the

1 St. Louis office?

2 **A** Yes, I have.

3 **Q** And so were you assigned as a special
4 agent with the FBI St. Louis office back in the
5 month of August of this year?

6 **A** Yes, I was.

7 **Q** Have you had occasion to assist in the
8 investigation into the shooting of Michael Brown?

9 **A** Yes, I have.

10 **Q** And have you as part of that
11 investigation, have you interviewed some witnesses?

12 **A** Yes, I have.

13 **Q** Did you interview a witness named
14 ?

15 **A** Yes, I did.

16 **Q** And did you do that by your yourself or
17 with another agent?

18 **A** There was another agent assigned with me
19 to do that interview.

20 **Q** Where did that interview take place?

21 **A** At residence at the Canfield
22 Green Apartment Complex.

23 **Q** How is it, how is it that you knew to
24 contact , do you recall?

25 **A** We were assigned, every team of agents was

1 assigned a specific building and a specific venue.

2 And that particular apartment was in our venue.

3 Q And so was this then as a part of an area
4 canvas?

5 A Yes, it was.

6 Q And just to be clear, so a canvas is
7 basically you're going door to door and knocking on
8 doors and stopping people when they pull into the
9 parking lot, get out of their cars, asking them if
10 they saw anything or know anything; is that right?

11 A That's correct.

12 Q And so when you went to see ,
13 this wasn't as a specific purpose to interview

14

15 A That's correct.

16 Q So when you went to '
17 apartment, was someone home?

18 A Yes.

19 Q Who was there?

20 A We knocked on the door and
21 answered the door.

22 Q Do you recall what day this was?

23 A It was on a Saturday following the
24 shooting, I believe it was on the 18th.

25 Q So this is a week after the shooting, the

1 shooting happened on the 9th, which was a Saturday,
2 so this would have been the following Saturday?

3 **A** Correct.

4 **Q** And so when answered the
5 door, were you dressed similarly as to how you are
6 now?

7 **A** Yes.

8 **Q** Did you identify yourself as an FBI agent?

9 **A** Both of us did.

10 **Q** Did he invite you into his apartment?

11 **A** Yes, he did.

12 **Q** Was anyone else in the apartment?

13 **A** His fiancée was there and her younger
14 brother was also there.

15 **Q** Do you recall the fiancée, is it
16 ?

17 **A** Yes.

18 **Q** And her younger brother, was he a child,
19 was he teenager, was he a young adult?

20 **A** He was a teenager who did not live there,
21 he was just there for the weekend.

22 **Q** Okay. And so did you talk to
23 about whether he was home on August 9th and
24 heard or witnessed anything involving the shooting?

25 **A** Yes, he did.

1 **Q** He told you he witnessed a part of it; is
2 that right?

3 **A** That's correct.

4 **Q** And specifically, well, let me ask you
5 this, did you record your interview with
6 ?

7 **A** Yes.

8 **Q** All right. And did you later listen to
9 that recording?

10 **A** Yes.

11 **Q** And did that, your recorder accurately
12 record the interview that you had with

13

14 **A** No.

15 **Q** So your recorder malfunctioned or didn't
16 work for some reason?

17 **A** It was either a mechanical malfunction or
18 operator error.

19 **Q** So you don't have a recording of the
20 interview you had with ?

21 **A** That's correct.

22 **Q** Shortly after your interview with him, did
23 you, let me ask you this. Did you make notes as you
24 were interviewing him?

25 **A** Yes, we did.

1 **Q** And shortly after that, did you go and use
2 your notes and your recollection to prepare a report
3 about that interview?

4 **A** Yes, we did.

5 **Q** And did you do that within a couple of
6 days after the interview?

7 **A** Yes.

8 **Q** So when you made your report, that
9 interview was fresh in your mind?

10 **A** Absolutely.

11 **Q** Okay. And so, and did you also have your
12 partner on that day review your report after you
13 completed it in order for him to see if he recalled
14 the same thing that you had recalled?

15 **A** Yes.

16 **Q** Okay. And so how long were you talking to
17 in his apartment, approximately?

18 **A** We were probably there for 35 minutes.

19 **Q** And was he cooperative with you?

20 **A** Yes, he was.

21 **Q** And so he told you that he saw, he was in
22 his apartment when he heard some shots, correct?

23 **A** Correct.

24 **Q** And what did he say he did after he heard
25 the shots?

1 **A** He initially heard the shots, he was
2 sitting on the couch when he got up, he heard the
3 shots, he went up and looked out his window and he
4 had a partial view of Canfield Drive from his
5 apartment window.

6 **Q** All right. And what did he tell you who,
7 if anybody, did he say he saw when he looked out the
8 window?

9 **A** He saw who he now knows to be Michael
10 Brown in the street walking away from the apartment
11 building, kind of walking going down the street.

12 **Q** Okay. There is a laser pointer in front
13 of you, you were gesturing with your hands toward
14 the map, which is Grand Jury Exhibit Number 25. Do
15 you recall, does this look familiar, these
16 buildings?

17 **A** Yes.

18 **Q** Do you know what buildings he was in?

19 **A** , which is right here. (indicating)

20 **Q** Okay. And so you had gestured that he saw
21 Michael Brown walking and you went like that?
22 (indicating)

23 **A** Correct.

24 **Q** What direction did he see Michael Brown
25 walking?

1 **A** His apartment window would have been right
2 here. He would have seen Mr. Brown walking this
3 direction. (indicating)

4 **Q** So he would have been facing west on
5 Canfield Drive walking in a westerly direction if
6 this is west?

7 **A** That's correct.

8 **Q** Okay. And did he see any police officers
9 from that vantage point?

10 **A** Initially, no.

11 **Q** And what did he say he saw Michael Brown
12 do?

13 **A** He heard the first couple of shots, three
14 shots, went to his window, looked out and saw
15 Mr. Brown walking westward down Canfield Drive. He
16 heard approximately six more shots, saw Mr. Brown
17 grab his torso with one hand and had another hand
18 up, drop to his knee and fall to the ground.

19 **Q** And so when you interviewed
20 let me ask you this. Had he just like gotten up out
21 of bed or was he intoxicated or under the influence
22 of something that you thought might make it, might
23 affect his ability to recall what he told you?

24 **A** No, he answered the door, he was alert and
25 willing to answer any questions.

1 **Q** Okay. And so he told you that he saw
2 Michael Brown walking away from him. In other
3 words, away from where he was in his apartment. And
4 then in the direction where he would have been
5 walking west on Canfield Drive?

6 **A** Correct.

7 **Q** Okay. Did you ever go back and actually
8 clarify that with him as far as whether or not he
9 saw Michael Brown moving in the direction, moving in
10 that direction or whether or not Michael Brown was
11 standing still?

12 **A** We clarified that with him at least three
13 times during the interview just to make sure that we
14 understood what he was saying, and the other agent
15 made sure what he was saying.

16 He was very clear that he saw
17 Mr. Brown, he now knows it's Mr. Brown, at the time
18 he did not know who it was, walking, walking west on
19 Canfield.

20 **Q** And this was after he had heard a series
21 of gunshots, correct?

22 **A** Correct.

23 **Q** And then he observed him, he heard another
24 series of gunshots, did he tell you if he could see
25 who was firing the weapon?

1 **A** He could not see who was firing the
2 weapon.

3 **Q** And then did he say he saw Michael Brown,
4 you said, clutching his torso or holding his torso
5 and then one hand up. I can't recall which hand,
6 you demonstrated. I think you demonstrated your
7 right hand up?

8 **A** That's how he demonstrated it.

9 **Q** Okay. And then he went down to one knee
10 and collapsed in the street?

11 **A** Yes.

12 **Q** Did he tell you then he saw a police
13 officer after that?

14 **A** After Michael Brown had fallen to the
15 ground, he saw an officer approach Michael Brown
16 from the west and approach Michael Brown.

17 **Q** And so the officer was coming from the
18 west, was he walking east on Canfield then?

19 **A** Correct.

20 **Q** Did he approach the body of Michael Brown?

21 **A** Yes.

22 **Q** And so from vantage point, he
23 could see where Michael Brown came to rest in the
24 street?

25 **A** Correct.

1 **Q** And after Michael Brown collapsed, he saw
2 the officer walk up towards him?

3 **A** Correct.

4 **Q** Did you clarify with him that the
5 direction that Michael Brown was traveling, walking,
6 was in the direction from where the officer
7 eventually came?

8 **A** Yes.

9 MS. ALIZADEH: I don't have anything else.

10 MS. WHIRLEY: The only thing I have, I
11 don't think it was addressed,

12 **A** Yes.

13 MS. ALIZADEH: I didn't ask that, good
14 call.

15 MS. WHIRLEY: was there at the time,
16 correct?

17 **A** Yes.

18 MS. WHIRLEY: And did you have occasion to
19 speak with her?

20 **A** Yes.

21 MS. WHIRLEY: What was the nature of that
22 conversation?

23 **A** As part of the canvas, we were asking
24 anybody if they saw anything and, um, talking to
25 , he said that he had called her into the

1 living room during the encounter, during the shots.
2 So we asked her specifically, she was in the
3 kitchen, we asked her specifically if she saw
4 anything. She said no. We asked her why, she said
5 well, by the time she had gotten into the living
6 room by the window, it was over.

7 She was in the bedroom at the time,
8 he had summoned her into the living room and at that
9 point it was over, she didn't see what happened.

10 MS. WHIRLEY: You gave her an opportunity
11 to tell you whether or not she saw something and
12 she, in fact, told you she did not?

13 A Correct.

14 MS. WHIRLEY: That's all I have. Anybody
15 else have questions?

16 I just
17 want to verify the date. This was, this took place
18 on 8/16?

19 A It was a Saturday, our interview was the
20 Saturday after the incident took place.

21 MS. WHIRLEY: The same Saturday that the
22 incident took place?

23 A A week later.

24 MS. ALIZADEH: My math is terrible, but 9
25 plus 7 was 16. I had to do it in the sky.

1 Any other questions for the agent?

2 Did you look out
3 the window that they looked out of, did you see the
4 area where Michael Brown was, was he able to see
5 what he reported seeing?

6 **A** Yes. That street was not completely
7 visible from his apartment. You could only see
8 parts of it. So as far as what he was telling us,
9 what he could see, I would believe would be
10 accurate.

11 Okay, thank you.

12 **A** You couldn't see the whole thing.

13 MS. WHIRLEY: Anyone else?

14 You said
15 he could only see part of the road there in
16 Canfield. What exactly was blocking his view?

17 **A** I can't recall if it was the building or a
18 tree there, but all I can recall is the view of
19 Canfield was very limited from his apartment window.

20 MS. ALIZADEH: Anyone else? All right.

21 This will be the end of the testimony of Special
22 Agent .

23 (End of testimony of .)

24 MS. ALIZADEH: This is Kathi Alizadeh,
25 October 13th, 10:11 a.m. All 12 grand jurors are

1 present, myself, Sheila Whirley and the court
2 reporter , and we just had a small break after
3 a witness testimony. And I want to make sure we put
4 on the record that there was some questions that
5 were asked after the witness testified about some
6 dates and when certain witnesses were interviewed.
7 And I think what we discussed and kind of clarified
8 is that according to what you've heard so far,
9 who is the fiancée of , was
10 interviewed by the County Police on August 9th, the
11 day that Michael Brown was killed.

12 And that then Agent and his partner
13 went to their apartment and as a part of an area
14 canvas with no specific purpose of looking for
15 anyone in particular other than any witness that saw
16 this.

17 And that he then interviewed
18 on the 16th of August. He also said that
19 was present in the apartment at the time and
20 said she didn't see anything.

21 And then you all have also heard from a
22 statement that was interviewed by the
23 FBI, like on September 30th or something, and that
24 during that interview she described what she says on
25 the 30th she saw.

1 So there was some question about whether
2 or not the FBI knew that the FBI, meaning Agent
3 and Agent , whether they knew that
4 had been talked to by agent and his
5 partner, and/or whether or not agent was
6 aware that had been interviewed by the
7 County Police prior to their interview of her.

8 And what I explained to you is, to the
9 best of my knowledge and guess would be that they
10 did not know of the other interviews that had taken
11 place, however, I will tell you that's only until
12 the best guess on my part based upon my
13 understanding of how the investigation was going at
14 that time.

15 The FBI was working independently of the
16 County Police at that time. And the County Police
17 were not involved in that canvas that took place on
18 the 16th.

19 Originally, there was talk that was, they
20 were going to do the canvas together, the County
21 Police and the FBI. And then the FBI said, no, we
22 are going to do the canvas just on our own. So the
23 County Police are not a part of that canvas.

24 And so I can clarify this with Detective
25 and, of course, Detective will

1 probably testify again before your investigation is
2 completed, but you certainly can ask him that.

3 It is my belief and thought is that
4 probably agent was not aware that

5 had been interviewed by County Police when
6 he went to go see, he knocked on their door on the
7 16th. And then also I would have to verify with
8 Agent and , it is my guess that they
9 were not aware that Agent had seen
10 and had spoken to her on the 16th because
11 Agent did not put that in his report because
12 he, according to him, and I discussed this with him,
13 since said she didn't see anything, he didn't
14 include that. It is like he just didn't.

15 Whether he should or not is not for me to
16 say, but he just didn't. So I don't think that
17 Agent and Agent were aware that he
18 had talked to when they interviewed
19 on the 30th.

20 I will certainly try to clear that up for
21 you, but that's only my thought and opinion at this
22 point. All right.

23 So now, yes.

24 To so
25 clarify, on August 9th, Miss was interviewed

1 by Detective not Detective

2 MS. ALIZADEH: Correct, yes.

3 . When I said , what I was thinking of
4 for him to testify about the lack of information
5 flowing back and forth at that time because he was
6 from the get-go, Detective has been in charge
7 of the investigation, but of course, he's only in
8 charge of the county officers. But as the primary
9 detective, he was talking to the FBI, but again, he
10 could clarify this for you, but I believe that at
11 that time on the 16th, there wasn't a lot of back
12 and forth going on. Sharing of information so to
13 speak between the County and the FBI about who had
14 been talked to and what they said and the FBI did
15 this area canvas on their own.

16 It was their desire that the County not be
17 involved. They wanted to have their own independent
18 investigation so they said we're going to do this,
19 we don't want County coming with us or being
20 involved in that for whatever reason.

21 So you're right, it was that
22 did the interview with

23 Okay, at this time we're going to --

24 So when
25 two different departments are doing these

1 interviews, so how do they determine like, I mean,
2 it is freshly on their mind on the 9th or three days
3 after, but then when you come behind like weeks
4 later, how beneficial is that?

5 MS. ALIZADEH: Well, that's going to be up
6 for you all to talk about when you begin your
7 deliberations. If there's a difference in a
8 statement that's given closer to the time and then
9 there's a statement that was done after that, how
10 long after that, what are the circumstances of the
11 statement, what about, you know, these are all
12 things for you to consider. If there are
13 differences, why are there differences, you know.

14 Could it be that the first statement was
15 done because it is brief and then as you know, the
16 FBI has come along and Department of Justice have
17 done subsequent interviews that seem to be longer in
18 duration. Are they being more detailed? These are
19 all things that you are going to have to decide for
20 yourself. If there are differences, what do you
21 make of those differences.

22 So now we're going to listen to a recorded
23 statement of , and if you will recall
24 we've heard from a who testified that
25 he was in a white Monte Carlo that was driven by

1 her. It was at the scene on Canfield Drive on that
2 day. is here, she will testify when we
3 listen to her statement. The first statement is
4 about three minutes long and was done by St. Louis
5 County police officers, or detectives.

6 At this time we'll have cease the
7 recording and I will pass out a transcript of this
8 interview. And so, , you do not need to take
9 down the statement as it is being played and I will
10 give you a copy of the transcript.

11 (The interview of is being
12 played at this time.)

13 MS. ALIZADEH: We just needed to mention
14 that statement that we heard was actually about
15 eight minutes long and it was contained on a disc
16 that is marked Grand Jury Exhibit Number 17, and it
17 is a file folder on that disc labeled

18 .

19 The next statement we are going to hear is
20 also a recorded statement on a disc that's marked
21 Grand Jury Number 36.

22 (Grand Jury Exhibit Number 36
23 marked for identification.)

24 MS. ALIZADEH: It is also a recorded
25 statement of

1 I do not have a transcript of this
2 statement. And so at this time I can have , I
3 will have you pause the recording, but if you can
4 transcribe what you are hearing and we can make a
5 record of that then.

6 MS. : It is 6:26 p.m. on
7 October 13th. This is special agent
8 at FBI building at 2222 Market Street. I am with
9 DOJ trial attorney , and USA
10 here to interview. Will you state your name.

11 MS. :

12 MS. : And , will you spell
13 your name?

14 MS. : last name,
15

16 MS. : You just listened to your
17 recorded statement and is the birthday and social
18 security number correct that you gave the detective?

19 MS. : Yes.

20 MS. : Okay.

21 , before we get into some
22 additional questions that we have, I just wanted to
23 just go over some preliminary stuff with you.

24 When we ask you a question, if for some
25 reason you don't understand the question or you are

1 confused by our asking it, feel free to stop us
2 because we are going to assume that you understood
3 when you answer it. And sometimes we trip over our
4 words and don't make sense anyway, so don't think
5 that you are insulting us by correcting us.

6 MS. : Okay.

7 : And all your answers need to be
8 out loud because it is being recorded. There may be
9 a transcript made. So if you nod your head, I may
10 ask is that a yes or is that a no.

11 MS. : Yes.

12 : So it is totally normal to do
13 that. If I do that, I'm not doing that to you to be
14 rude, okay?

15 And just referenced that you just
16 listened to your statement is about 8 and a half
17 minutes long. We have a transcript that you are
18 following along with. Do you remember hearing that
19 statement and is it fair as much as you remember
20 with what you said?

21 MS. : Yes.

22 : Okay. And so we don't want to
23 really make you rehash everything, we just wanted to
24 ask you some follow-up questions from it. You know,
25 everybody has a piece of the puzzle so to speak. We

1 know you only saw, you know, the beginning and the
2 end, we don't want you to think that we're looking
3 for anything and everything possible, just what you,
4 yourself, know, okay.

5 So, therefore, we just have some follow-up
6 things for you. And one of the reasons we wanted
7 you to listen to your statement is because it has
8 been seven and a half weeks and as you know, this
9 has been on the news and people talk a lot about it,
10 but our goal is to find out what you, yourself,
11 know, not what you may have heard on the news.

12 So a lot of times it helps to refresh your
13 memory and kind of separate out what you said at the
14 time and what you, yourself, versus what you may
15 have heard based upon the news or the police report,
16 does that make sense?

17 MS. : Yes.

18 Okay. Also, we know it is
19 late, you came here from work. At any point you
20 think I've had enough, even though you're in the
21 FBI, feel free to say I've had enough, I don't want
22 to talk any more being, okay?

23 MS. : Okay.

24 This is entirely voluntary. We
25 certainly don't want to force you to be here.

1 Basically we are just looking for what happened and
2 the truth.

3 So we have to tell you as I tell everybody
4 that, it's a crime to make false statements to
5 federal agents. So we always say people are very
6 honest people. If you're going to exaggerate or
7 lie, you are better off not saying anything at all
8 then like a lie, okay?

9 MS. Okay.

10 : And so basically, like I said
11 we just want to know what happened. If you assume
12 something or you're guessing at something, or you're
13 talking about what other people heard, that's fine
14 as long as you let us know that you are assuming,
15 okay?

16 MS. : Okay.

17 : We just really want to know
18 what you know and what you remember. If you don't
19 remember something, it is fine to say you don't
20 remember it. If you don't know the answer, I don't
21 know is a perfectly acceptable answer if you truly
22 do not know.

23 MS. Okay.

24 : All right. So I just want to,
25 uh, so I have some follow-up questions based upon

1 the original statement that you gave. You had said
2 that initially you saw kind of the beginning of the
3 action, correct?

4 MS. : Yes, ma'am.

5 : And then looking in your rear
6 view mirror you ultimately saw the end where Michael
7 Brown ultimately fell and died; is that correct?

8 MS. : Yes, ma'am.

9 : At the time did you know
10 Michael Brown?

11 MS. : No, ma'am.

12 : You have since learned the
13 individual who died is that victim, is that fair to
14 say?

15 MS. : Yes, ma'am.

16 : Have you since given your
17 statement, you described the thing, the guy that was
18 with him with the dreads, that is how you described
19 him, do you know his name or do you --

20 MS. No, ma'am, I actually, I have
21 heard of his name, but I forgot.

22 : That is fine. We will just
23 keep referring to him as the guy with the dreads.

24 MS. : Okay.

25 : We will refer to Michael Brown

1 by his name, is that fair?

2 MS. : Yes, ma'am.

3 : If I do that, will you
4 understand who we are referring to?

5 MS. : Yes.

6 : So, you had said in your
7 initial statement that you were driving behind the
8 police car SUV; is that correct?

9 MS. : Yes.

10 Who else was in the car with
11 you.

12 MS. : One of our friends.
13 And who is that?

14 MS. : His name is , I don't
15 know the last name.

16 : Okay. And was there anybody
17 else in the car with you?

18 MS. : No, ma'am.

19 : And when you were driving, do
20 you remember if your windows were up or down?

21 MS. : They were down.

22 : And you had mentioned that, um,
23 that the SUV stopped on the side of the two
24 individuals of Michael Brown and the individual with
25 the dreads; is that correct?

1 MS. : Yes.

2 : Okay. And you said, once, uh,
3 once the vehicle was stopped, can you describe, do
4 you remember, um, you described that tussle, do you
5 remember how it started?

6 MS. : Um, actually, like I said, as
7 I was behind the police officer, I noticed that he
8 did stop because I was directly behind him, so I had
9 to slow down also.

10 : Okay.

11 MS. : In the process of up to two
12 young men walking, Michael Brown and the friend with
13 the dreads walking down the street, he did stop.

14 : Okay.

15 MS. : Like I said, I don't know
16 what was said, I didn't hear anything, my radio was
17 down and my windows was down.

18 : Your windows was down, was your
19 radio on?

20 MS. : At the time, yes, ma'am, but
21 once we stopped, I wanted to know what was going on
22 so I did turn my radio all the way down.

23 Okay.

24 MS. : It was completely down.

25 : Now, you mention that you don't

1 know what was said, is there anything that gives you
2 the indication, anything that you saw that you
3 thought something was said?

4 MS. : Actually, just by the car
5 just rocking back and forth.

6 : Okay.

7 MS. : And that was it. But no,
8 ma'am, I didn't hear anything.

9 : Before the car started rocking
10 back and forth, did you see any sort of interaction
11 between the guy with the dreads, Michael Brown and
12 the police officer?

13 MS. : Actually, I did not because
14 how my car sits and how tall the truck was, so I
15 didn't see directly what was going on inside.

16 : So from your vantage point as
17 soon as you stopped, what's the first thing that you
18 remember seeing?

19 MS. Um, I just remember the car
20 just stopping.

21 : Okay.

22 MS. : And the two, the two young
23 men, just, I didn't see them. So they was kind of
24 out of my vision at the time.

25 Okay. At the time that's when

1 you said you looked under and you saw feet moving,
2 kind of tapping?

3 MS. : Yes, ma'am.

4 : Okay. And you also said that
5 the guy with the dreads looked like he didn't know
6 what was going on, what do you mean by that?

7 MS. : Actually, what I mean by that
8 is because had he like proceeded to go, he came back
9 out.

10 : So the recording can't pick
11 that up, you are kind of saying, you said he
12 proceeded to go, you we are taking about the guy
13 with the dreads?

14 MS. Yes, ma'am.

15 : He proceeded to go, he was
16 going toward the police car?

17 MS. : He was actually, it looks
18 like he wanted some help.

19 : Okay.

20 MS. : But then, I don't want help.
21 It was like back and forth. It happened so fast.

22 : He moved forward really quickly
23 and moved backward.

24 MS. : He moved back and his eyes
25 kind of got a little big, a little big.

1 : Okay. And that's what he
2 looked like, the guy with the dreads didn't know
3 what was going on?

4 MS. : Yes, ma'am. Like probably
5 knew what was going on, but you know, probably
6 didn't, you know, something like that.

7 : So looks like he was going
8 forward and then stops, like changing his mind now?

9 MS. : Yes, ma'am, like he's
10 shocked.

11 : While this is going on, were
12 you able to see Michael Brown?

13 MS. : No, ma'am, I still wasn't
14 able to see him.

15 : But you saw his feet at that
16 point; is that correct?

17 MS. Yes, ma'am, I saw a pair of
18 feet just like tapping.

19 : Okay. Do you know whose feet
20 it was?

21 MS. : Actually, to be honest, no,
22 ma'am, but I can say the young man with the dreads
23 was towards the back, he was towards the back once I
24 saw come in and out, I just figured that he was
25 towards the back of the truck and wasn't so close to

1 the driver's side of the door.

2 : Okay. So the only two people
3 on the street you saw Michael Brown and the guy with
4 the dreads?

5 MS. : Yes, ma'am.

6 : And so since you're describing
7 the other guy with the dreads, the only other
8 person's feet that could have been was Michael
9 Brown?

10 MS. : Yes, ma'am.

11 : Okay. So you describe what you
12 saw these feet they were like moving and tapping,
13 and you said some kind of confrontation?

14 MS. : Yes, ma'am.

15 : Why do you say confrontation?

16 MS. : Just because of how feet was
17 moving, how the truck was rocking walking.

18 : Okay.

19 MS. The vehicle was rocking.

20 What about how it was rocking?

21 MS. : It was just like side by
22 side.

23 : And this is while the police
24 officer is still in the driver's side?

25 MS. : Yes, ma'am.

1 : Okay. And then you said that
2 the guy with the dreads is looking to see what was
3 going on. What do did you mean by that?

4 MS. : Actually, what I mean by that
5 because, like I said, he was kind of, like he wanted
6 to go, but he don't.

7 : Like he wanted to go towards
8 the vehicle?

9 MS. : Towards, probably try to
10 help, you know.

11 : Did you actually see what he
12 was doing?

13 MS. : Uh, yes, ma'am, like back and
14 forth.

15 : Okay. And then while you are
16 describing all of this, this tussling is still going
17 on between Michael Brown and the police officer as
18 far as you can tell?

19 MS. : Yes, ma'am.

20 That's when you heard the
21 gunshot go off?

22 MS. : Yes, ma'am.

23 : And then you said that the
24 suspect got shot back up, you talking about Michael
25 Brown when you said that?

1 MS. : Yes, ma'am.

2 : You said the suspect got shot,
3 what about, what made you say that he got shot?

4 MS. : Actually, I just heard the
5 gunshots. It was just like when I heard the gun go
6 off, he kind of like came off of the truck.

7 : Okay.

8 MS. : So that's what made me think
9 at the time that he probably was hit at the time.

10 : And then, how were you able to
11 see when Michael Brown backed up, were you able to
12 see him?

13 MS. : Yes, ma'am.

14 : And why were you able to see
15 him, what move allowed from your vantage point to
16 see him?

17 MS. : Actually, at this time the
18 truck had kind of came back a little bit more, came
19 back on like hit on the brakes a little bit more. I
20 don't know if he was trying to run or not because
21 actually I couldn't see over that way.

22 : Can you point out for me a
23 little bit, so Michael Brown, you were able to see
24 him?

25 MS. Yes, ma'am.

1 : Right after the shot because he
2 backed up?

3 MS. : Yes, ma'am.

4 : And that was because the truck
5 moved a little bit?

6 MS. : Actually, when he backed up,
7 he kind of backed, at this time he backed all the
8 way up from a distance to where I can just see his
9 body.

10 : Okay.

11 MS. : Like back up.

12 : Okay.

13 MS. You know.

14 : You talking about him
15 backing away from the side of the police car?

16 MS. : Yes, sir.

17 : The police vehicle?

18 MS. : Yes, sir.

19 : Okay. Then you said he looked
20 amazed?

21 MS. : Like he was shocked, yes
22 ma'am.

23 : And then you said, um, that
24 they both, the guy with the dreads and Michael Brown
25 then ran towards to find out what was happening.

1 MS. : Yes, ma'am.

2 : At this point is when you start
3 ducking; is that right?

4 MS. : Right. After I heard the
5 first shot and I see Michael Brown jump out of the
6 car, yes, ma'am, I was terrified. When they start
7 running because actually, they ran past my car, so I
8 didn't know what was going on.

9 : And that makes sense. They are
10 running past your car and you just heard gunshots
11 and you were terrified?

12 MS. : Yes, ma'am.

13 : You started to duck, correct?

14 MS. : Yes, ma'am.

15 You said you were able to see
16 that the police officer ran past as well, correct?

17 MS. : Yes, ma'am.

18 : And was there a pause between
19 the time that the boys started running past you and
20 the police officer?

21 MS. : There actually was. Just
22 because we was trying to get out of the truck at the
23 time. So once we took off running, once Michael
24 Brown and the guy with the dreads took off running,
25 that's when I noticed the police comes out.

1 Okay. So there was a little
2 bit of a break?

3 MS. Yes, ma'am, just enough time
4 to open up the car door.

5 For you to open up the car
6 door?

7 MS. No, no, for the police
8 officer to open the car door and get out.

9 : Did you actually see him open
10 up the car door?

11 MS. : I could not see from the
12 other side of the car.

13 : Okay.

14 MS. : But once he came from away
15 from the car in my view where I can actually see
16 him.

17 : You already were down inside
18 the vehicle?

19 MS. Yes, ma'am, at that time I
20 was down.

21 : At any point did you open your
22 car door?

23 MS. : Oh, no, ma'am, I did not open
24 up my driver's side of the car.

25 : How about , did he open

1 his door?

2 MS. : Yes, ma'am, he did.

3 : Do you know why?

4 MS. : Actually to get down. We
5 were scared, terrified. I mean, I can't tell why he
6 did it, but I know he was hanging outside of the car
7 trying to get, you know, shelter or whatnot.

8 : Okay. And so you said that
9 once you saw the police officer kind of go past you,
10 you said you instantly ducked. (inaudible)

11 MS. : Yes, ma'am, I was down, my
12 whole head was in the passenger seat. So I'm almost
13 on lap.

14 : Okay. Obviously, you are
15 terrified.

16 MS. : Yes, ma'am, my hand is on the
17 steering wheel, my feet is on the brake, I couldn't
18 even put my car in park, that's how quick it
19 happened and I just ducked down.

20 : Okay. So you are not looking
21 out the window at this point?

22 MS. : No, ma'am, no, ma'am, I
23 blacked out just a little bit. And then, yeah, just
24 -- I blacked out just a little bit. I mean, I don't
25 know why, but I did.

1 And you don't how long you
2 blacked out for?

3 MS. Actually, it was for a short
4 period of time because once I proceeded to sit up
5 and I looked out my rear view mirror, that's when I
6 saw the end, when actually him running, his back was
7 turned and he turned around.

8 : I'm going to ask you, that part
9 that you blacked out, you don't know what went on
10 from the time --

11 MS. : No, ma'am, because I'm down.
12 Right.

13 MS. Because I'm down.
14 As you describe it as blacked
15 out.

16 MS. : Right.

17 : Okay. And so you don't know
18 what went on prior to the time where Michael Brown
19 turned around?

20 MS. Actually, I was up at that
21 time, yes, ma'am.

22 : While he was on the ground?

23 MS. : Yes, ma'am.

24 MS. : Okay. But leading up to
25 that?

1 MS. Leading up to that, no, he's
2 running from him with his back from him, with his
3 back from him.

4 : All right.

5 MS. : I do know that.

6 : But you didn't see any of this
7 go on because you were ducking?

8 MS. I was ducking as the police
9 officer came towards my car, I got down, yes, ma'am.

10 : Okay. And you heard that
11 initial shot from the SUV, correct?

12 MS. : Yes, ma'am.

13 : And then you heard, as you
14 describe, those three shots at the end?

15 MS. : Yes, ma'am.

16 : Okay. And you describe that
17 the guy with the dreads came over to the passenger
18 side of your car trying to get in?

19 MS. : Yes, ma'am.

20 : And now where in what you just
21 described in the ducking and the blacking out and
22 the looking back up, at what point did the guy with
23 the dreads come over to the car?

24 MS. : Actually, when I did go out
25 for a little bit, like I said, I just blanked out a

1 little bit, but when I was down, I did open up my
2 eyes. I was still down, and that's when I saw the
3 young man with the dreads, where had the door
4 open, he had it slung open. He was on the curb, but
5 he had -- he crawled. You could tell that he
6 crawled. He was in the car and he just basically
7 asked me could I get him away from here because it
8 is crazy.

9 : Is that what he said?

10 MS. Yes, ma'am.

11 : Get me away from here, it's
12 crazy?

13 MS. : Yes, ma'am.

14 : Do you have a two-door car?

15 MS. : Yes, ma'am.

16 : So when passenger door
17 is kind of opened?

18 MS. : It's opened wide.

19 : Okay.

20 MS. Uh-huh.

21 : So the guy with the dreads kind
22 of crawled over?

23 MS. : Yes, ma'am.

24 What was your response to him?

25 MS. : Actually, I told him to get

1 down. That's all I had, I mean, that was the only
2 thing that came to my mind, just get down.

3 : Okay. And then --

4 : Obviously, you didn't let
5 the guy with the dreads in your car?

6 MS. : No, sir, I did not.

7 : Why was it that you wouldn't
8 let him in your car?

9 MS. : Actually, I didn't know what
10 was going on for one and I was actually, didn't have
11 a clue if he had or who had it, I just didn't know.
12 It wasn't something that I was willing to do.

13 : If he had what?

14 MS. : Actually, I didn't know if he
15 had a gun, I didn't know what was going on.

16 : You didn't know what was
17 going on?

18 MS. : Actually, I didn't know what
19 was going.

20 : And so for that reason you
21 didn't allow the guys with the dreads in the car
22 with you?

23 MS. : Yes, sir.

24 MS. Do you know if he stayed
25 there or he went elsewhere?

1 MS. : Actually, just for a few
2 minutes, just for a few minutes, like I said, after
3 I told him no, he disappeared.

4 Now, I don't know where he went, I wasn't
5 focusing on him. I was trying to see what was going
6 on.

7 : So I was trying to ask you
8 this, when he said to you get me out of here, it is
9 crazy, and you said, get down. Did he say anything
10 else?

11 MS. : No, ma'am, he did not.

12 : Did you guys say you can't get
13 in the car?

14 MS. : No, ma'am, I did not, get
15 down, that was it.

16 : Okay. Did you know that he
17 wanted to get in the car?

18 MS. : Actually, just by what he
19 said, the statement that he made to me.

20 : I guess what I'm trying to
21 figure out is, how did you let him know that you
22 weren't letting him in the car?

23 MS. Actually, for one, I wasn't
24 moving it at the time.

25 : Okay.

1 MS. : So he wasn't going to go
2 anywhere anyway.

3 : Did say anything to him?

4 MS. : No, just get down. We both
5 just hollered the same thing, get down.

6 : Okay. All right. At some
7 point you looked up and you were looking in your
8 rear view mirror?

9 MS. : Yes, ma'am.

10 : So everything that you observed
11 after that was with regard to Michael Brown and the
12 police officer was through your rear view mirror?

13 MS. : Yes, ma'am.

14 : And your review mirror is for
15 reverse, correct?

16 MS. : Is it reverse?

17 : I don't want to misstate it.

18 (inaudible)

19 MS. : Oh, yeah, oh, yeah.

20 : (Inaudible) So when you are
21 looking in your review mirror, you said you saw the
22 male turn around and basically stop, this is Michael
23 Brown, correct.

24 MS. Yes, ma'am.

25 : That's when you heard two or

1 three more gunshots, and Michael Brown went down to
2 the ground.

3 MS. : Yes, ma'am.

4 : And then after that you, you
5 drive away?

6 MS. : Yes, ma'am.

7 : You describe yourself at that
8 point, were you still terrified?

9 MS. : My leg was shaking.

10 : Okay. And so how did you
11 manage to driveway then?

12 MS. With , just calm me
13 down, my legs were moving.

14 Okay.

15 MS. : And I just cried because,
16 like I said, I've never seen nothing like that in my
17 life.

18 : Okay. And so you describe and
19 you drove away, um, and there was another truck, do
20 you mean a police SUV.

21 MS. : Yes, ma'am. In the process
22 of me, after the incident had happened, probably
23 about two or three cars pulled up and they came
24 towards my car. So I had to basically yell, like
25 somebody is in here, you know, because he was real,

1 real close.

2 : So just so I can understand.

3 So you started to drive away and as you were

4 driving --

5 MS. : No, actually at this time, I

6 didn't even get a chance to even move at this time.

7 They were coming towards the way, towards me.

8 : You were stopped in the middle

9 of street because you had to stop?

10 MS. : Yes, ma'am, right at the

11 curb, yes, ma'am.

12 : Okay.

13 MS. : Right by the complex.

14 : And then you drove away?

15 MS. : Yes, ma'am, I did.

16 : All right. How did it come to

17 you that you then met with the St. Louis County

18 Police Detective?

19 MS. : Actually, I stay in that area

20 at the time and my mom basically, basically got the

21 news. So she came to see was her daughter okay. So

22 in the process of seeing was her daughter okay, I

23 was up in the house, the house is right before you

24 get to Canfield Green.

25 Okay.

1 MS. : And one of the young men,
2 like I said, I don't know nobody over there or
3 whatnot, but he the one that brought the police to
4 me. The FBI, like I said, I don't know but they
5 were the ones in the car, I guess. Somebody was out
6 there and probably remember my car or something
7 because he came directly to me.

8 : The police did?

9 MS. The FBI,

10 : Okay. He's St. Louis County.

11 MS. Okay, okay, the detective.

12 : So he came to you?

13 MS. : Yes, ma'am. I was on the
14 front of the neighbors. I don't even know the
15 people, but they stayed in the house right there.

16 : Okay. You said something about
17 brought him to you?

18 MS. : Actually, a young man, I
19 mean, like I said, I don't know anybody that stays
20 in Canfield Green. I didn't know him exactly.

21 : What do you mean exactly?

22 MS. : I've probably seen him like
23 around in the complex, but I don't know him. As
24 talking to him on like a daily basis.

25 : Okay. Is it fair to say that

1 what you know that happened that day is limited to
2 that initial, you describe the confrontation or
3 tussle at the car, correct?

4 MS. : Yes, ma'am.

5 And then you saw through your
6 rear view mirror at the end when Michael Brown was
7 facing the police officer, you heard the shots and
8 he went down to the ground?

9 MS. Yes, ma'am.

10 : Okay.

11 : Just to be clear, you heard
12 that first shot when the tussle was going on at the
13 side of the police SUV?

14 MS. : Yes, sir.

15 : And you saw those final two
16 or three shots?

17 MS. : Yes, sir.

18 There wasn't any other shots
19 in between?

20 MS. : Not to my knowledge. I'm
21 just going to be honest, that's probably when I was
22 blacked out.

23 : Okay.

24 MS. : Once, I raised up --

25 : And you mentioned, I know

1 that that you were ducked down, and you basically
2 was trying to get down as low as you could, is that
3 fair.

4 MS. : Yes, sir.

5 : But you mention that you
6 were able to see the police officer run by your car?

7 MS. : Yes, sir.

8 : And could you tell at that
9 time where his gun was or could you see any of that?

10 MS. : Actually, when he ran by it
11 was drawn.

12 : Okay. Did he have it at his
13 side?

14 MS. : No, he had it drawn up
15 toward, I'm going to say aimed.

16 : Okay. But at that time you
17 didn't hear any other shots?

18 MS. : Not to my knowledge.

19 : You want to take a break?

20 : We can we take a break.

21 MS. : Yeah, I have a couple of
22 questions.

23 : If we with can, we will take a
24 break for just a second.

25 MS. : Sure. I am going to leave

1 this on because it makes it easier, okay?

2 MS. : Okay.

3 : You mentioned early on you
4 turned the radio down to see if you could hear
5 anything?

6 MS. : Yes.

7 : Anything, you hear anything
8 from Michael Brown or the officer or the guy with
9 the dreads, other than what you've described?

10 MS. : No, ma'am.

11 : Okay. And right after that
12 first shot when you said Michael Brown stepped back
13 and what did he do right after that?

14 MS. : He took off running.

15 : Okay. Did he go back to his
16 car, did you see him briefly going toward the car or
17 did he immediately run away?

18 MS. : He immediately took off
19 running down the street.

20 : Was there anything else,
21 ?

22 MS. : Sorry.

23 : The guy with the dreads?

24 MS. : You say you saw Michael
25 Brown, you saw the guy with the dreads just when

1 took a step back, you saw him look?

2 MS. : Yes, ma'am.

3 MS. : When he came back, what, did
4 he just stay there, did he move?

5 MS. : No, actually, when he went
6 forward, then he came back, he actually took off.

7 MS. : Okay.

8 MS. : He starts to take off to get
9 away.

10 MS. : But your focus is still on
11 that car?

12 MS. : Yes, ma'am.

13 MS. : Now, when he took off to get
14 away, was it before or after the gunshot?

15 MS. : It was after, it was right
16 after.

17 MS. : Okay.

18 MS. : It was right after the first
19 shot.

20 MS. : You see the guy with the
21 dreads?

22 MS. : Okay.

23 MS. : Go in like, and then come
24 back?

25 MS. : Uh-huh.

1 MS. : Gunshot, or does he come
2 back? At what point was the gunshot?

3 MS. : Actually, it was the shot and
4 then it was like back, once he came forward, it was
5 like back.

6 MS. : You saw both of them at the
7 same time?

8 MS. : No, ma'am. I saw the one
9 with the dreads come back. Now, that's when, when
10 he came back and he kind of like hesitant, that's
11 when I saw Michael Brown.

12 MS. : Okay.

13 MS. At the car and then that's
14 when they proceed to take off.

15 MS. : Together.

16 MS. Actually, the one with the
17 dreads kind of got away just a little bit extra.

18 MS. : Okay.

19 : Okay.

20 : When is next time you see
21 the guy with the dreads then?

22 MS. : After I saw him on the side
23 of the car, on the news.

24 : Okay.

25 MS. : On the news.

1 : We don't have any more
2 questions for you. I just want to ask you, is there
3 anything that you want to add that we think we
4 should know that we haven't asked you or they didn't
5 ask you that day?

6 MS. : No, ma'am.

7 : You feel like you have given us
8 all the information that you know?

9 MS. : Yes, ma'am.

10 : Anything you think is
11 important that we've missed at all?

12 MS. : Uh, not to my knowledge. I
13 gave you all I have.

14 : Okay. Do you think we have
15 treated you fairly?

16 MS. : Yes, ma'am.

17 : Did we force you to say
18 anything that you didn't want to say?

19 MS. : No.

20 : We didn't make you any promises
21 about anything?

22 MS. No.

23 : Okay. So you feel comfortable?

24 MS. Yes.

25 : Well, thank you so much for

1 your time, we appreciate it.

2 MS. : We will end the interview.

3 (That was the end of the interview.)

4 MS. ALIZADEH: This is Kathi Alizadeh, it
5 is about 11:03. We just took a pause for the
6 recording while we listened to the statement of the
7 Department of Justice and FBI and U.S. attorneys did
8 with and then I just had a brief
9 question about your lunch break and that's why we
10 paused again. So now we are ready to hear from
11 .

12 ,
13 of lawful age, having been first duly sworn to
14 testify the truth, the whole truth, and
15 nothing but the truth in the case aforesaid,
16 deposes and says in reply to oral
17 interrogatories, propounded as follows, to-wit:

18 EXAMINATION

19 BY MS. WHIRLEY:

20 Q Sheila Whirley, Kathi Alizadeh, all grand
21 jurors, , and would you introduce yourself to
22 the grand jurors for us, please?

23 A I am .

24 Q Okay. , you know why we're
25 here?

1 **A** Yes, ma'am.

2 **Q** This is about the Michael Brown shooting.
3 Where do you live?

4 **A** Actually, I say in Northwinds Apartments.

5 **Q** All right. Is that where you lived on
6 August 9th 2014?

7 **A** Yes, ma'am.

8 **Q** I don't believe Northwinds is on this map.
9 You see this map, Grand Jury Exhibit Number 25, does
10 it look familiar as far as the Canfield Green
11 Apartments are concerned?

12 **A** Yes, ma'am.

13 **Q** Okay. Which way would Northwinds
14 Apartments be based on this map, if you could tell
15 us? If you can't, that's fine.

16 **A** Um, um.

17 **Q** You can't really tell on this map?

18 **A** Huh-uh.

19 **Q** I'm going to ask you some more things
20 about the map, so I want to show you how this works.
21 This is a pen light, I guess, and you push that
22 button and you can direct it wherever you it to go,
23 okay. Can you push the button? Yeah, all right.
24 So you live in Northwinds which is,
25 is that east of the Canfield Green Apartments?

1 **A** Um, yes, it is towards the back by Glen
2 Owen.

3 **Q** This would be east and this would be west.

4 **A** I'm closer to Glen Owen.

5 **Q** Glen Owen. I don't think that's on the
6 map either. So tell us what you were doing on
7 August the 9th, what did you do that morning when
8 you first woke up?

9 **A** Actually, got up for the day.

10 **Q** What did you have planned?

11 **A** Actually, just going to ride around and
12 just enjoy the day on a Saturday.

13 **Q** Okay. You and who, who were you with?

14 **A** I was with .

15 **Q** Just ?

16 **A** Yes, ma'am.

17 **Q** ?

18 **A** Yes, ma'am.

19 **Q** And nobody else was in the car?

20 **A** No, ma'am.

21 **Q** And you were driving that day?

22 **A** Yes.

23 **Q** What type of automobile were you in?

24 **A** Um, I had a '99 Monte Carlo.

25 **Q** What color?

1 **A** It is white.

2 **Q** It is white, okay. Is it a two-door?

3 **A** It is a two-door.

4 **Q** I think most Monte Carlos are two doors.

5 I guess it was a two-door white Monte Carlo?

6 **A** Yes.

7 **Q** When did you first see the police officer
8 in this case?

9 **A** Actually, I saw the police officer as I
10 was coming across the bridge coming towards the end
11 of Northwinds going towards Canfield Drive.

12 **Q** You don't know what street that would have
13 been?

14 **A** Actually, that would have been Glen Owen.

15 **Q** That's Glen Owen?

16 **A** Yes, ma'am.

17 **Q** Which, I don't think we see on this map.

18 So you saw him, he was driving coming from the
19 Northwinds area also?

20 **A** Um, yes, ma'am, just like right, just
21 actually right past the little bridge thing.

22 **Q** Okay. Was he driving, I don't want to
23 talk at the same time you talk, so forgive me if I
24 did.

25 Was he driving fast when you saw him?

1 **A** No, ma'am.

2 **Q** Just normal?

3 **A** Yes, ma'am.

4 **Q** He didn't have red lights and sirens?

5 **A** No, ma'am.

6 **Q** As if he was answering a police call or
7 anything like that?

8 **A** No, ma'am.

9 **Q** Okay. So did he appear to be alone?

10 **A** Yes, ma'am.

11 **Q** And what made you notice the police car?

12 **A** Um, actually, when I was coming, like I
13 said, across the bridge, I saw him coming out of the
14 street. One of the side streets, I really don't
15 know what the side street right there, but he was
16 coming, proceeding to turn to come the same
17 direction that I was going.

18 **Q** What direction were you going?

19 **A** Actually, I was going toward, this time I
20 am going towards Canfield, like going towards West
21 Florissant.

22 **Q** Okay. So this is Canfield Drive, does
23 that look familiar?

24 **A** Yes, ma'am.

25 **Q** Which way were you traveling?

1 **A** Um, actually --

2 **Q** Show us with the light.

3 **A** I was coming approximately, like I said, I
4 believe, I can't tell which way is West Florissant.

5 **Q** This is West Florissant?

6 **A** That's West Florissant. Actually, I was
7 coming from this direction, going wards West
8 Florissant.

9 **Q** Can you tell us, is it on this map at the
10 time that you noticed the officer pulling out? If
11 it's not, just tell us.

12 **A** Actually, I really cannot tell.

13 **Q** Was the officer in front of you though?

14 **A** Yes, ma'am, he was.

15 **Q** So at some point the officer's car
16 stopped, correct?

17 **A** Yes, ma'am.

18 **Q** Were you behind the officer when the
19 officer's car stop?

20 **A** Yes, ma'am, I sure was.

21 **Q** Where about was that on the map?

22 **A** Probably like right in between the
23 apartment complex. Just like right actually he fell
24 out is actually where I stopped, probably right up
25 in here closer to the apartment complex.

1 **Q** Okay. But you're not absolutely certain
2 looking at this map?

3 **A** No, ma'am.

4 **Q** So when you first saw the officer stop,
5 what did you observe?

6 **A** Actually, I just observed there are two
7 gentlemen walking down the street.

8 **Q** Which way were they walking?

9 **A** They was walking my direction, going back
10 towards Northwinds.

11 **Q** So if this is West Florissant, which way
12 were they walking?

13 **A** They was walking this way.

14 **Q** That way?

15 **A** Yes, ma'am.

16 **Q** East. And they were in the middle of the
17 street?

18 **A** Yes, ma'am.

19 **Q** Can you describe the two gentleman you saw
20 walking in the middle of the street?

21 **A** Can I get up?

22 **Q** Sure.

23 **A** Actually, right behind the police officer,
24 they was just walking.

25 **Q** Okay.

1 **A** Directly down the middle lane.

2 **Q** Just kind of casually walking?

3 **A** Yes, ma'am, not running.

4 **Q** Tell us what they looked like?

5 **A** Actually, one guy was a pretty big
6 gentleman, tall in size, the other one was kind of
7 probably my height, probably a little bit shorter, I
8 don't know, with dreads and basically that was it.

9 **Q** Okay. And the guy that was taller, was he
10 a lot taller than you?

11 **A** Oh, yes, ma'am.

12 **Q** Was he bigger?

13 **A** Yes, ma'am, bigger and a lot taller.

14 **Q** Do you recall what he was wearing?

15 **A** Actually, I can remember khaki shorts, um,
16 I know he had on a baseball cap.

17 **Q** What color?

18 **A** Uh, the baseball cap was dark in color.

19 **Q** Did he have it on when he started walking?

20 **A** Yes, ma'am it was like a dark, dark hat,
21 like a baseball cap.

22 **Q** Okay. And you know that person to be Mike
23 Brown as we stand here today talking about it?

24 **A** Yes, ma'am.

25 **Q** Okay. And so we'll refer to him as Mike

1 Brown?

2 **A** All right.

3 **Q** So Mike Brown and the other guy Dorian
4 Johnson, walking down the middle of street and what
5 happens?

6 **A** Actually, as they was walking down the
7 middle of the street, that's when the officer
8 stopped in front of me and stopped behind him. In
9 the process of them walking down the middle of the
10 street, that's when I saw the officer actually stop
11 the vehicle. It wasn't a jerk stop, it was a slow
12 stop at the time.

13 **Q** Was he driving --

14 MS. ALIZADEH: , can I get you just
15 in case, you are soft spoken because the microphone
16 is recording is at the desk, so unless Sheila needs
17 you to stand up and demonstrate something, would you
18 be good enough to sit?

19 **A** Yes, ma'am.

20 MS. ALIZADEH: That way we are getting
21 your voice picked up because you are kind of soft,
22 sorry.

23 MS. WHIRLEY: No problem.

24 **Q** (By Ms. Whirley) When you saw him walking,
25 the two walking and the officer stopped, what kind

1 of car was the officer in?

2 **A** Like a SUV.

3 **Q** What color?

4 **A** It was white.

5 **Q** A white SUV with police?

6 **A** Ferguson.

7 **Q** It was like a marked police car?

8 **A** Yes, ma'am.

9 **Q** When you saw that car stopped, was the car
10 stopped just driving in the natural, you know, down
11 the lane stopping or did it stop some other way?

12 **A** Oh, no, it was straight down the lane.

13 **Q** Straight down the lane. And what happened
14 at that time when you saw the car stop, I mean, did
15 he appear to be talking to anybody?

16 **A** Um, yes, ma'am, but I didn't hear
17 anything.

18 **Q** Okay.

19 **A** I didn't hear anything.

20 **Q** Okay. And then what happened next?

21 **A** After he, after the actual stop, um, quick
22 seconds, it wasn't really a long period of time and
23 that's when, um, I saw the truck or the SUV slightly
24 go like in reverse. I saw the reverse lights on and
25 it came to like the, the two guys are right here and

1 they like, like jump back. He put it in reverse,
2 but it went back.

3 **Q** Okay.

4 **A** And that's when it went to an actual stop
5 just like that, and the truck shook just a little
6 bit, but you could tell that somebody pressed down
7 on the brake really hard.

8 **Q** So at first when the car stopped, it was
9 just driving the normal lane, you were behind the
10 car and there looked to be some conversation between
11 the officer and the two people walking down the
12 middle --

13 **A** Yes, ma'am.

14 **Q** -- of the street. Then the car drives
15 away and goes in reverse?

16 **A** No, it never drove away. I guess as the
17 two suspects start to actually keep proceeding
18 walking.

19 **Q** Okay.

20 **A** That's when it looks like he's trying to
21 stop them from walking away from the truck.

22 **Q** I see. And they're walking away, so he
23 has to go in reverse to get up to them?

24 **A** Yes, ma'am.

25 **Q** Did he hit them, hit either one of them?

1 **A** Actually, I couldn't tell if he hit them
2 or not. I just know that the truck actually stopped
3 at, like a hard stop at that time.

4 **Q** Was the car straight as if it was going
5 toward West Florissant or some other way?

6 **A** Actually, when it went back to stop them
7 again, it was like in a catty-corner.

8 **Q** Like an angle?

9 **A** Yes, ma'am, like an angle.

10 **Q** And then what happened?

11 **A** And then after that, that's when I notice
12 that the truck got to rocking back and forth.

13 **Q** Was anybody at the truck from the outside?

14 **A** Oh, yes, ma'am.

15 **Q** Who was at the truck?

16 **A** Um, it was Michael Brown at the time.

17 **Q** You know his name as Michael Brown?

18 **A** Yes, ma'am.

19 **Q** What did you see, actually observe?

20 **A** Actually, I didn't see anything for, just
21 feet, a set of feet just moving up under the truck.

22 **Q** Your car is still behind?

23 **A** Yes, ma'am, still stuck behind.

24 **Q** Okay. And when the officer drove back at
25 the diagonal and hit the brake real hard, was he

1 close to hitting you, your car?

2 **A** Actually, he was close enough, but he was
3 like right there to where I couldn't even move. So
4 I thought, you know, as it was coming, you know, I
5 was kind of shocked if he would have hit my car, but
6 he didn't.

7 **Q** Were you concerned that he was going to
8 hit it the way he came back?

9 **A** Yes, ma'am, I had to swerve over.

10 **Q** You swerved over?

11 **A** No, ma'am, I was there.

12 **Q** You stopped?

13 **A** Yes, ma'am.

14 **Q** So you see feet and what else?

15 **A** Actually, I just see the feet like
16 tapping, like tapping type of.

17 **Q** Did the car move?

18 **A** Actually, it was rocking back and forth,
19 like side to side. I'm not going to say back and
20 forth, I'm going to say side to side.

21 **Q** Were you are windows down?

22 **A** Yes, ma'am.

23 **Q** Could you hear anything?

24 **A** No, ma'am, at that time, no, ma'am.

25 **Q** You didn't hear the officer or the person

1 outside the window say anything?

2 **A** No, ma'am.

3 **Q** And Mike Brown was right at the officer's
4 driver down window?

5 **A** Yes, ma'am.

6 **Q** Did that windowed seem to be down?

7 **A** Oh yes, it was down.

8 **Q** Could see his hands or see just his feet?

9 **A** I just saw feet.

10 **Q** You couldn't see the top of his head or
11 anything?

12 **A** No, ma'am.

13 **Q** And then what?

14 **A** And then after that, that's when I, short
15 period of time, of like some seconds went past, I
16 heard the first gunshot.

17 **Q** Okay. Did you just hear one shot?

18 **A** At that time, yes, ma'am.

19 **Q** And where was Michael Brown and the
20 officer when you heard the shot?

21 **A** He was still at the window.

22 **Q** The officer was inside the car?

23 **A** Yes, ma'am.

24 **Q** And Mike Brown was at the window when you
25 heard the shot?

1 **A** Yes, ma'am.

2 **Q** What happened then?

3 **A** After that, that's when I saw a young man
4 with the dreads, I really can't get his name, but
5 that's when I saw him like hesitant, like going,
6 coming back and that's when I actually saw him step
7 behind the truck at this time.

8 **Q** The guy, his name is Dorian Johnson?

9 **A** Dorian Johnson.

10 **Q** When the shot went off, you saw him go
11 behind?

12 **A** No, he was like hesitant, you try to go
13 help somebody, but you jump back like he was
14 surprised or something.

15 **Q** Okay. All right. Where did you go, where
16 did you see him go?

17 **A** Actually, after that I saw him like take
18 off. That's when he took off. He kind of like
19 ducked down, he was out of sight, I didn't see him
20 any more until he proceeded on the side.

21 **Q** On the side of what?

22 **A** My car.

23 **Q** What side of your car?

24 **A** The passenger side.

25 **Q** Of the front passenger side?

1 **A** Yes, ma'am.

2 **Q** Who was at the front passenger side of
3 your car?

4 **A** Actually .

5 **Q** Because he was riding in the passenger
6 seat in the front?

7 **A** Yes, ma'am.

8 **Q** Okay. All right. So let's go back to
9 Michael Brown, you hear the shot, what did Michael
10 Brown do?

11 **A** Actually, when I heard the first shot, I
12 didn't even see Michael Brown at the time because I
13 was so focused on the other gentleman, but once
14 after that, after Dorian had came over to the side
15 of the car, that's when I saw Michael Brown kind of
16 back up off of the SUV. I could see him at this
17 time. He had got back enough so where I could see
18 his body.

19 **Q** Did it look like he was injured?

20 **A** It happened so fast, no, ma'am, I couldn't
21 even tell if he was shot at that time.

22 **Q** You didn't see blood or anything?

23 **A** No, ma'am, I did not.

24 **Q** So when you heard the shot at the car, you
25 said Michael Brown backs off the car. Does it

1 appear to you that the shot is coming from inside
2 the police car?

3 **A** Yes, ma'am.

4 **Q** Okay. And when he backs off the car, what
5 happens then?

6 **A** Um, when he backs up off the car, that's
7 when Michael Brown actually just took off running.

8 **Q** Which way did he run? Show us with the
9 penlight or whatever?

10 **A** This is West Florissant.

11 **Q** This is West Florissant?

12 **A** He started to come this way. (indicating)

13 **Q** He's running east?

14 **A** Yes, ma'am.

15 **Q** And what did you do?

16 **A** Um, actually, when he started running,
17 that's when, when he started running, I ducked.
18 When I ducked down, um, actually, I got all the way
19 towards the ground like in the car.

20 **Q** Okay. That was my question.

21 **A** When I was inside the car, I actually
22 ducked down, me and ducked. And in the
23 process of us ducking, that's when I heard like a
24 second gunshot. And after this, that's when Michael
25 Brown had already ran past the car.

1 **Q** Let me ask you a question. When you heard
2 that second gunshot, could you see what was going
3 on?

4 **A** Actually, when I heard the second gunshot,
5 to be honest, no, ma'am, my head was down.

6 **Q** That's what we want is honesty, that's all
7 we went.

8 **A** I understand.

9 **Q** You are ducking down inside the car?

10 **A** Just like this. (indicating)

11 **Q** When you hear the second gunshot?

12 **A** Yes, ma'am.

13 **Q** You don't know what's really happening at
14 that point?

15 **A** No, ma'am.

16 **Q** Did you see the officer exit his car?

17 **A** Actually, once I proceeded to get up and
18 look, that's when I saw the officer running directly
19 down the street after him.

20 **Q** Was that after you heard the second
21 gunshot?

22 **A** Yes, ma'am. Straight down the street.

23 **Q** All right. So you saw the officer get out
24 of his car?

25 **A** Actually, I couldn't see him get out of

1 his car, I couldn't see him get out.

2 Q Okay. When you, after you ducked down,
3 you heard a second gunshot, once you get back up,
4 you see the officer chasing or running after Michael
5 Brown; is that right?

6 A Yes, ma'am.

7 Q And then what do you see?

8 A And that's when I proceeded to look out my
9 rear view mirror, he was running, shots was fired, I
10 saw Mike Brown turn around facing the officer at
11 this time. Hands was up probably about like this,
12 they weren't all the way up, but they was probably
13 just like this. And that's when I looked at the
14 review mirror, heard about two or three more
15 gunshots, Michael Brown fell to the ground.
16 (indicating)

17 Q When you say your rear view mirror, are
18 you talking about the mirror that's in the center of
19 your window?

20 A Yes, ma'am.

21 Q You are not talking about the windows on
22 the outside?

23 A No, the window.

24 Q So you are looking behind you at this
25 point?

1 **A** Yes, ma'am.

2 **Q** You're parked facing west looking through
3 your rear view window or mirror as they're running
4 this way?

5 **A** Yes, ma'am.

6 **Q** Could you tell how far you were, your car
7 was at that point when you saw Michael Brown turn
8 around, how far you were from them?

9 **A** Uh, actually, no, ma'am.

10 **Q** Okay. All right. So now we want to get
11 more specific about when you saw him turn around.
12 So you heard the second shot, you don't know what
13 was going on, then Michael Brown turns around, can
14 you hear the officer say anything?

15 **A** No, ma'am.

16 **Q** Can you hear Michael Brown say anything?

17 **A** No, ma'am.

18 **Q** Do you know where Dorian is at this point?

19 **A** Dorian was actually on the side and at
20 that time, no, ma'am, I didn't even look no more, I
21 didn't look, you know, down.

22 **Q** You're watching?

23 **A** I'm watching.

24 **Q** Okay. And show us exactly, stand up for
25 us again, please, and show us about how the hands

1 were, show us when he turned around?

2 **A** Actually, he just turned around like this.
3 I heard the other three gunshots and then when I saw
4 him boom, hit the ground. (indicating)

5 **Q** So when he turned around, he wasn't
6 staggering or anything?

7 **A** Not to my knowledge, no, ma'am.

8 **Q** Was he coming toward the officer?

9 **A** No, ma'am.

10 **Q** He wasn't walking towards the officer?

11 **A** No, ma'am.

12 **Q** He wasn't charging the officer?

13 **A** No, ma'am.

14 **Q** All right. And his hands were up?

15 **A** Just like, like he's trying to throw them
16 up. They wasn't all the way up like this, they was
17 just turned around like this. (indicating)

18 **Q** In your mind, did it appear he was injured
19 or staggering or something?

20 **A** Actually, at that time, no, ma'am. The
21 only way I could see is once he just hit, hit the
22 ground.

23 **Q** Okay. But at the time that the officer
24 fired those successive shots, he had his hands up,
25 was his palms facing, you know, the officer?

1 **A** Yes.

2 **Q** And the officer shot?

3 **A** (Shakes head.)

4 **Q** And when you saw the officer get out of
5 the car, what was the officer's demeanor, or how was
6 he standing or walking?

7 **A** Actually, he was running.

8 **Q** Did he have his gun out?

9 **A** Drawn, he was running with the gun drawn
10 past the car, just drawn. I heard the three shots
11 and that's when I saw, and he just fell to the
12 ground.

13 **Q** Okay, all right. Now, at some point,
14 well, two things. One, at some point I think you
15 told the FBI agent, you remember interviewing with
16 them?

17 **A** Yes, ma'am.

18 **Q** And the police officer too, I think you
19 interviewed with that day; is that right?

20 **A** Just a detective.

21 **Q** Detective?

22 **A** Yes, ma'am.

23 **Q** That you blacked out, at what point did
24 you black out?

25 **A** Actually, when I went down for a short

1 period of time, when I hit and I went down, that was
2 it. And then I instantly got up and I got to
3 looking.

4 **Q** Okay. Describe for us what you mean when
5 you say blacked out because that can mean different
6 things.

7 **A** Actually, I just went, basically, just
8 went blank like. I mean, I can't describe it. It
9 was just like, just like a blank like, I could still
10 hear, but everything just went blank. I can't even
11 explain it. I was in just shock. I probably could
12 just say I was more shocked than anything.

13 **Q** When you said blacked out, you mean
14 shocked?

15 **A** Just -- just -- blanked out a little bit.
16 I really can't explain it, but I just lost focus, if
17 you could just say that, I was just like down a
18 little bit.

19 **Q** Were you aware of what was going on during
20 this period that you blacked out as you describe it?

21 **A** For a short period of time, no, no, ma'am.

22 **Q** Okay. How short a period of time?

23 **A** It was real short, it was short enough to
24 where that I could see everything else. It was
25 short, it wasn't like I was down there for a long

1 period of time. Probably after the first shot, I
2 mean, after the second shot.

3 Q Okay. After the second shot you blacked
4 out for a short period of time?

5 A Yeah, a short period.

6 Q Less than five seconds?

7 A It was short, it was just like a, like a
8 shocking type of thing.

9 Q Seconds we're talking?

10 A Yes, ma'am, seconds.

11 Q And then you get back up, you are looking
12 out the rear view and you see Mike Brown turn around
13 with his hands up and the officer fires several
14 shots at him?

15 A Yes, ma'am.

16 Q What happened then when Mike Brown fell
17 down?

18 A Actually, he fell to the ground. I saw
19 that and basically that's was it, that was it.

20 Q What did you do?

21 A Actually, I took off.

22 Q So when you saw him fall to the ground,
23 which way did he fall, how did he fall rather?

24 A Just face first.

25 Q Face first.

1 **A** Just down, flat down to the ground.

2 **Q** So when you saw that, you drove off?

3 **A** Not instantly drove off, but yes, I was
4 driving off. That was when the other officers was
5 coming towards my way.

6 **Q** Were you able to drive with the other
7 officers coming your way?

8 **A** Yes, ma'am, just up the curb a little bit,
9 I did go up on the sidewalk, up on the curb just a
10 little bit, up on the grass.

11 **Q** Can you show us on this map?

12 **A** It was probably like just up on the curb.
13 I know I was close to an apartment building, but
14 just up on a curb like the grass.

15 **Q** Like around the police car?

16 **A** Yeah, like around, yes, ma'am because I
17 was blocked in there. So I had to just slide my car
18 just up a little bit and then just take off down the
19 street.

20 **Q** Okay. So you didn't see the officer
21 shooting at Brown as he was running away?

22 **A** Um, I know the gun was drawn. That was
23 when the second shot was fired.

24 **Q** Is that no?

25 **A** Yes, ma'am.

1 **Q** Okay. Tell us what Dorian was doing at
2 your car and when, at some point he tried to get a
3 ride from you; is that right?

4 **A** Yes, ma'am.

5 **Q** Tell us about that?

6 **A** At the time the confrontation is going on.

7 **Q** What part of the confrontation?

8 **A** When they first started at the SUV. When
9 the first gunshot, that is when Dorian ran. I guess
10 he ducked down, I didn't even know where he come
11 from. I just know when had the door open,
12 because he had my passenger door wide open so he can
13 get down and that's when I seen Dorian like right
14 there like on the sidewalk. Like he crawled on the
15 side and that's when he was telling me, get me away
16 from here, it's crazy.

17 **Q** That's what he said?

18 **A** Yes, ma'am, to me.

19 **Q** Had Michael Brown been shot dead at that
20 time?

21 **A** No, ma'am, he wasn't shot dead.

22 **Q** Did you give Dorian a ride?

23 **A** No, ma'am, I sure didn't.

24 **Q** Why not?

25 **A** Actually, I didn't know what was going on.

1 I just told him to get down, that was my concern.

2 Q Okay. Did you ever see Michael Brown with
3 a weapon?

4 A No, ma'am.

5 Q Did he ever appear to be going for a
6 weapon like, you know, grabbing at his body like he
7 was getting ready to get a gun or something?

8 A No.

9 Q Did you ever see Dorian with a weapon?

10 A No.

11 Q Did it appear to you that the officer was
12 threatening, that his life was threatened by Michael
13 Brown at any time that you could see?

14 A No, ma'am.

15 Q But you don't know exactly what was going
16 on at the car?

17 A At the SUV at that time.

18 Q You don't know what exactly because you
19 could just see feet?

20 A Yes, ma'am.

21 Q When Michael Brown was running away going
22 east on Canfield Drive, did the officer seem to be
23 threatened by Michael Brown?

24 A Um, no, ma'am, not to what I can see.

25 Q When Michael Brown turned around with his

1 hands up, did the officer seem threatened by him to
2 you?

3 **A** No, ma'am.

4 **Q** And you said you did not see Michael Brown
5 charge at the officer?

6 **A** No, ma'am, I did not.

7 **Q** Or attempt to pull a weapon from
8 somewhere?

9 **A** No.

10 **Q** He appeared unarmed to you?

11 **A** Yes.

12 **Q** Have you ever blacked out before?

13 **A** Um, actually no, I mean, no. Because I
14 have never been around nothing like that before in
15 my life, so, no, I can't say.

16 **Q** When you blacked out, you mean in shock
17 you said?

18 **A** Just basically like in shock. Just don't
19 know what's going on, like I said, I can't explain
20 it.

21 **Q** Do you think, I don't want to talk at the
22 same time, I'm sorry,

23 Do you think you lost consciousness,
24 you know what I mean?

25 **A** Like I said, I don't know. I mean, I

1 can't explain.

2 Q And, again, how long do you think it was
3 that you were blacked out?

4 A Like seconds.

5 Q How many seconds?

6 A Um, probably about two, one or two
7 seconds.

8 Q Okay.

9 MS. WHIRLEY: I don't have anything else.

10 MS. ALIZADEH: I just have a couple of
11 questions.

12 Q (By Ms. Alizadeh) Miss hi, this
13 is Kathi Alizadeh. On the day that this happened,
14 I'm going to move over here so you don't have to
15 keep looking around. On the day that this happened,
16 which was a Saturday on August 9th, it was around
17 the noon hour when this happened, do you recall
18 that?

19 A Yes.

20 Q Like middle of the day?

21 A Yes.

22 Q And you left, you got out of there before
23 the police could question you; is that right?

24 A Yes.

25 Q And where did you go immediately after

1 that?

2 **A** Actually, that's when I dropped off.
3 I took home.

4 **Q** So you took him home first?

5 **A** Yes, ma'am.

6 **Q** And then you mentioned, and I can't
7 remember if it was today or if it was in your
8 interview with the FBI, but that you were somewhere
9 around the area because your parents, or your mom
10 was, kind of had come to see if you were okay?

11 **A** Yes, ma'am.

12 **Q** Where were you when the police talked to
13 you that day?

14 **A** Actually, I was right where the, well, I
15 was on Glen Owen. I was like right at this house.
16 It was right there where Canfield begins coming off
17 of West Florissant, I was just at that house right
18 there.

19 **Q** Okay. So you know Canfield Drive goes
20 through like a residential area?

21 **A** Yes, ma'am.

22 **Q** Before it hits West Florissant?

23 **A** Yes, ma'am.

24 **Q** You were somewhere at a house up near West
25 Florissant at the intersection of Canfield Drive?

1 **A** Yes.

2 **Q** And so were you in your car?

3 **A** No, ma'am.

4 **Q** You were on a friend's porch, I think you
5 said?

6 **A** I don't even know the people, but they did
7 allow me to stay there.

8 **Q** And so do you remember when the officer
9 talked to you, it was around after 6:00 in the
10 evening?

11 **A** Yes, ma'am.

12 **Q** Okay. So a few hours had passed; is that
13 right?

14 **A** Yes.

15 **Q** I know you were probably very scare and
16 frightened when this happened, correct?

17 **A** Yes.

18 **Q** Between the time you saw it and the time
19 that the county officer talked to you, did you talk
20 to anybody else about what you had seen?

21 **A** Um, actually, I discussed it with the
22 people that were standing outside.

23 **Q** How about , did you and , before
24 you talked to the County Police, did you and
25 talk to each other about what he had seen and what

1 you had seen?

2 **A** Oh, no, ma'am, we was just shocked at the
3 time and we did discuss that, what we seen that day,
4 we did talk about that.

5 **Q** Okay. Before you talked to the officers?

6 **A** Yes, ma'am.

7 **Q** Okay. And so he had told you about what
8 he had seen?

9 **A** Actually, like I say, we just discussed
10 the situation that we were just in together.

11 **Q** Okay. In general terms then?

12 **A** Yes, ma'am.

13 **Q** Not like the details we've been going
14 over?

15 **A** No, ma'am, just talking in general.

16 **Q** Now, you know today, don't you, that there
17 are, there is an issue about whether Michael Brown
18 had his hands up, such as in a surrendering pose,
19 versus whether his hands were in some other
20 position, you know that today, right?

21 **A** Yes.

22 **Q** You watch the news?

23 **A** (Nods head.)

24 **Q** Do you take part in any of the activities,
25 whether it is protesting or anything else or with

1 any of the groups that have a position one way or
2 another on this, you know what I mean? The
3 protestors, I don't want to lump them altogether. I
4 know there is a bunch of different factions let's
5 say. Do you take a part in any of that?

6 **A** Actually, no, ma'am.

7 **Q** Okay. But you know from watching the news
8 that hands up has kind of been a mantra of the
9 people protesting, right?

10 **A** Yes.

11 **Q** When you gave your statement to Detective
12 , just about six hours after this happened, you
13 didn't say anything to him about Michael Brown
14 having his hands up. Do you recall that?

15 **A** Um, no, ma'am.

16 **Q** Okay.

17 **A** I'm not sure.

18 **Q** Do you remember you were at the FBI and
19 before they talked to you, did they let you listen
20 to your statement?

21 **A** Yes.

22 **Q** Okay. And did you see a transcript of
23 your statement at all?

24 **A** Yes.

25 **Q** Okay. And when you listened to your

1 statement and followed along on the transcript, did
2 you think the transcript was accurately recording
3 your statement?

4 **A** Yes.

5 **Q** So I'm going to show you, this is a copy
6 of the transcript of when you talked to Detective
7 . Up here it says August 9th, about 6:40 p.m.
8 and it starts out him saying this is Detective
9 . It says he's at 9300 West
10 Florissant. Does this look like the transcript that
11 you saw when you listened to your statement?

12 **A** Yes, ma'am.

13 **Q** Okay. Now, I'm going to direct your
14 attention to page seven, and you can look through
15 this all you want. I'm just getting to a point
16 where you start talking about, oh about halfway, a
17 little more than halfway down. You are talking
18 about having seen him get shot at the car and then
19 you said after he did that, I looked up and now by
20 this time, I'm looking up because I'm terrified.

21 Now, I'm looking up in my rear view
22 mirror, that's when I see the young man. Well, he
23 already ran past and then a police officer ran past.
24 So when I looked up, I saw the young man turn, he
25 was facing the police officer, he was towards the

1 police officer.

2 Did I read that accurately?

3 **A** Uh-huh.

4 **Q** And then the detective says, Okay. So you
5 saw the young man's face?

6 And you say, yes, sir.

7 And he said, but you saw the police
8 officer's back.

9 And you say, in my rear view mirror?

10 And he says, the officer says okay.

11 And then you saw, and I saw I heard
12 just three more gunshots, I don't know if it was two
13 or three, I know it dot dot dot, and I think you are
14 making the sound of gunshot, right? Dot dot dot.

15 And then I saw when the young man just hit the
16 ground. When he hit the ground, I just got terror,
17 I mean, I was just stunned. And I never seen
18 nothing like that in my life. So I just end up
19 proceeding to get away.

20 In the process of me getting away,
21 another truck came to me and almost hit me head-on.

22 Did I go over that accurately?

23 **A** Uh-huh.

24 **Q** Okay. So, and I know this was very, very,
25 when I say exciting, I don't mean happy exciting, it

1 was an exciting thing that you saw. And your
2 emotions were high, wouldn't you say?

3 **A** (Nods head.)

4 **Q** So you didn't mention to Detective
5 when he talked to you that Michael Brown had his
6 hands up?

7 **A** Okay.

8 **Q** And he asked you at the end of your
9 statement is there anything else that you can think
10 of that, you know, that you saw that's important.
11 And you said, no, you didn't think of anything else?

12 **A** Uh-huh.

13 **Q** Wouldn't it have been important to tell
14 Detective Brown that he had his hands up?

15 **A** Um, yes.

16 **Q** Okay. Let me ask you this. Do you think,
17 I think everybody agrees that our memories change
18 over time. Something that I saw, if I go to see a
19 movie, I remember the movie better right after I see
20 it than a year later. I might not remember who
21 starred in it or all the details about it, and I
22 know we're not talking about a year later, but do
23 you understand what I'm talking about, memories
24 changing?

25 **A** Yes, ma'am.

1 **Q** Do you think that you didn't tell
2 Detective about Michael Brown's hand because
3 you didn't see them that day and now in your head
4 you remember it that way because you have heard
5 people talking about that or did you just not tell
6 him that because it was just too much for you and
7 you were overly excited or what have you?

8 **A** Actually, I'm not going to say that I was
9 overexcited. In my mind, my mind was gone, like I
10 said, I have never seen nothing like that in my
11 life. So, therefore, that was probably something
12 that I didn't mention at the time. But I saw what I
13 saw in the rear view mirror and that's basically all
14 that I can say.

15 **Q** Okay. And, you know, you and I talked
16 about before you testified, and didn't I tell you
17 all we are trying to do is piece together what
18 everybody saw so we can, so the grand jurors can
19 eventually try to figure out what really happened as
20 best as we can without actually having been there
21 ourselves.

22 And so you understand, you believe me
23 when I say I just want you to tell me what you
24 remember and tell the truth. I'm not trying to get
25 you to change what you have to say, or change your

1 recollection in anyway, but you would agree with me
2 that you didn't mention to Detective about
3 Michael Brown's hands being up?

4 **A** Yes.

5 **Q** But today as you sit here today, in your
6 mind you remember Michael Brown's hands being up?

7 **A** Yes.

8 **Q** Okay. Do you recall, I'm sorry, I stepped
9 out of the room for a time when your statement to
10 the FBI was playing, when you made your statement to
11 the FBI, did you tell them everything that you could
12 remember?

13 **A** Um, to my knowledge.

14 **Q** Okay.

15 **A** To the best of my knowledge I did.

16 **Q** Okay.

17 MS. ALIZADEH: I don't have anything else.

18 I guess

19 we're at the point you were behind the police
20 officer and you said he puts his car in reverse. At
21 that point did he ever put his siren on?

22 **A** No, sir.

23 Or lights?

24 **A** Nothing.

25 After Michael Brown is in

1 the street, the other police cars you saw are
2 coming, did they have sirens on?

3 **A** Yes, they did.

4 Okay.

5 When the
6 officer put his car in reverse to kind of, I think
7 you said kind of cut off the two men, did he spin
8 his tires, did you hear the tires squealing at that
9 point?

10 **A** It just went to like a halt, just like a
11 stop, just a sudden stop.

12 It wasn't real aggressive
13 backwards then where the tires were spinning?

14 **A** Actually, when he went back to reverse, it
15 was pretty quick. It was a fast reverse, like you
16 hit your accelerator and hit the brakes, just
17 quickly.

18 Okay. And in your rear
19 view mirror, were there other vehicles lined up
20 behind you at that point after the officer ran past
21 you and you saw the shooting, were there other cars
22 immediately behind you that might be partially
23 blocking your view or anything?

24 **A** To my knowledge, no, no, sir.

25 Okay. Thank you.

Page 141

1 When Dorian came
2 up on the passenger side of your car and he said
3 something, get me out of here or something along
4 those lines, do you remember exactly what he said?

5 **A** Actually it was, uh, can you get me up out
6 of here, it is pretty crazy around here.

7 You think the scene being
8 crazy or a certain person being crazy?

9 **A** Actually, the scene.

10 Okay.

11 On page seven it also
12 says that the police officer, when I the saw young
13 man turn, he was facing the police officer, he was
14 towards the police officer. And Detective
15 asked you, so you saw the young man's face. You
16 said, yes, sir. What did you -- what did you see
17 his expression, did he look scared or angry? I know
18 you said he didn't walk toward him, but what kind of
19 facial expression did you see?

20 **A** Actually, it was just a shock like.

21 He didn't look
22 aggressive?

23 **A** It was just like, just shock like.

24 Thank you.

25 How

1 far, how many feet from where you were to Michael
2 Brown, how many feet were they or how far, maybe two
3 cars, three cars?

4 **A** I probably will say it was probably about
5 three, three to four cars distance.

6 Three or four cars?

7 **A** Yes.

8 From three to four cars,
9 maybe double the size of this room, maybe double
10 this room.

11 **A** Right, to where, probably about, like I
12 say, probably about three.

13 You can see his face
14 completely in the rear view mirror?

15 **A** In the rear view mirror, yes, ma'am. It
16 was far that I could see his face.

17 Um, a
18 couple of questions. The first question is when
19 Dorian stooped down at your car and asked to get in,
20 did you see anything in his hands?

21 **A** At that time, no, ma'am.

22 : Second question is, when
23 the officer came back at a fast speed and he stopped
24 instantly, um, how long can you say the seconds was
25 when you thought there was a confrontation going on.

1 Did it start immediately or?

2 **A** It was immediately.

3 **Q** Immediately?

4 **A** Immediately after that, after the car did
5 that, made the complete stop.

6 : Okay. That's it.

7 . From your
8 perspective, would you say the officer used, I'll
9 let you use the description, what amount of force
10 would you say the officer used in this situation?

11 **A** Um, excessive force.

12 : Okay.

13 . When you
14 sat down with Detective , is it safe to say he
15 never asked you where Michael Brown's hands were?

16 **A** Correct, that's correct. He never really
17 asked me that question.

18 . In
19 answer, dovetailing off question,
20 if I heard you correctly, you said that the officer
21 did use excessive force; is that correct?

22 **A** Yes, ma'am.

23 : Can you tell me why you
24 feel that way.

25 **A** Actually, I think he used excessive force

1 because it was after he chased him down, that's
2 where my actions come in, when he chased after him,
3 that's what I mean by excessive force because he was
4 running away from him.

5 Okay. So after he ran
6 away from him and then the second shots, or the
7 second series of shots, okay. And are you saying
8 after that there shouldn't have been any more shots?

9 **A** Actually, I'm saying once he ran away and
10 got a nice little distance, there shouldn't have
11 been any more shots.

12 : Okay.

13 . Just to clarify
14 one question, when gave his statement to the
15 County, they asked him about after Wilson had moved
16 past the car and brought up that there were
17 two or three, up to four cars behind you. They
18 started lining up after that, but you are saying
19 there were no cars behind you?

20 **A** I didn't see any cars.

21 . I have a
22 question about after what she said. You are looking
23 at all of this through the rear view mirror, right?

24 **A** Yes, ma'am.

25 : So you said excessive

1 force and you said that after he ran away there
2 should have been no more shots. What do you think
3 should have happened, do you think he should have
4 let Michael Brown just run away? You didn't hear
5 anything being said like stop or you didn't hear
6 what was going on.

7 **A** Halt, none of that.

8 : You didn't see the
9 tussle, so you don't know what happened. Do you
10 feel like the police officer should have just let
11 Michael Brown run away and get away and not try to
12 stop him even if he did break the law?

13 **A** In somewhat, and the reason why I say that
14 is because if he would have let him get away, if he
15 was shot at any time, he would have been found. Had
16 the police have swarmed in, they would have got him
17 even if he would have run, even if he would have got
18 away, they would have captured him.

19 : So you feel like he would
20 have gotten away and then they would have captured
21 him and he would have been arrested, not killed?

22 **A** Yes, ma'am, that's my purpose, yes, ma'am.

23 : Okay.

24 MS. ALIZADEH: Any other questions?

25 MS. WHIRLEY: I just want to the make sure

1 I'm clear, and I'm clear with what you said about
2 the hands up, but that's the absolute truth here
3 today is what you're saying, you just didn't make
4 this up today?

5 **A** No, ma'am, no, ma'am, not at all.

6 MS. WHIRLEY: Okay, all right. I don't
7 have anything else.

8 MS. ALIZADEH: Any other questions? All
9 right. This witness is concluded.

10 (This is the end of
11 testimony.)

12 MS. WHIRLEY: All right. Again, it is
13 October 13th of 2014, it is approximately 1:15 p.m.
14 We're starting our afternoon session with testimony
15 regarding the shooting of Michael Brown. I'm Sheila
16 Whirley, Kathi Alizadeh will be in shortly, grand
17 jurors are here and is here.

18 I'm passing around the transcript of the
19 next witness' statement. His name is
20 and his name is spelled correctly on the transcript.
21 His recorded statement is marked as Grand Jury
22 Exhibit Number 17.

23 (Grand Jury Exhibit Number 17
24 marked for identification.)

25 MS. WHIRLEY: Once they are passed around,

1 we'll stop the recording and , you can pause
2 that recording since we have a transcript.

3 (Playing of the interview of
4)

5 MS. WHIRLEY: We're going to play this
6 witness' second statement, , is also
7 from Grand Jury Exhibit Number 17.
8 . Do we know the
9 correct date and time this first one we just
10 listened to took place?

11 MS. ALIZADEH: No, I will have to get that
12 information for you.

13 : Okay.

14 (Playing the interview of .)

15 MS. WHIRLEY: Now we're going to play, it
16 may take just a minute, I'm not sure how cooperative
17 the equipment is going to be, but we're going to
18 play his media interview. I'm not sure if these are
19 video or audio, so I need to figure that out first.
20 This is on Grand Jury Exhibit Number 3.

21 (Audio clips are being played at this
22 time.)

23 MS. WHIRLEY: So the three video clips
24 that we call were from Grand Jury Exhibit Number 39,
25 and they were from KTVI, two of them, the first two

1 clips and the third clip was a clip with Anderson
2 Cooper. I'm not exactly certain of the dates that
3 it occurred. It looks like 8/12 for the first
4 video, 9/8, which is September the 8th for the
5 second and September the 10th for the third. So
6 that will conclude that from Grand Jury Exhibit
7 Number 39.

8 MS. ALIZADEH: I just want to point out
9 that there is a fourth clip on there that you can
10 see. If you can see the file up there. That clip
11 is basically some attorneys and some news reporters
12 kind of commenting on the statements that were made
13 and again, it is really not evidence and we don't
14 really, I don't feel it is helpful to have other
15 persons' perspectives what they think these
16 statements mean. So we did not play that last clip
17 for you. It really isn't a statement of a witness.

18 MS. WHIRLEY: Okay.

19 MS. ALIZADEH: I think we're ready to
20 call, we're going to call the next witness,
21
22
23
24
25

1 of lawful age, having been first duly sworn to
2 testify the truth, the whole truth, and
3 nothing but the truth in the case aforesaid,
4 deposes and says in reply to oral
5 interrogatories, propounded as follows, to-wit:

6 EXAMINATION

7 BY MS. ALIZADEH:

8 Q Could you state your name, please, and
9 spell it for the court reporter?

10 A

11 Q And , how old are you?

12 A .

13 Q And are you married or single?

14 A Fiancee.

15 Q And where, I'm not asking for an address,
16 but whereabouts do you live in the metropolitan
17 area?

18 A South of .

19 Q So you live in ?

20 A Yes.

21 Q Is that the area that you grew up in?

22 A No, I was raised in North Dakota.

23 Q So how long have you lived in the St.
24 Louis area?

25 A Since '91, I believe, '91 or '92.

1 **Q** What do you do for a living?

2 **A** Retaining walls and brick patios,
3 landscaping work.

4 **Q** And is a lot of times your work outdoor
5 work?

6 **A** Just about all of it.

7 **Q** Do you work for a company or do you work
8 for yourself?

9 **A** For a company. I was commercial forever
10 and I wanted to get out of the commercial, so I went
11 to a smaller company to do back yards and stuff.

12 **Q** So were you working for the same company
13 back in August of this year?

14 **A** Yeah, the same one I'm with now, yes.

15 **Q** Okay. How is it that you get assigned or
16 how is it it's determined that you are going to go
17 to a certain location and do a job?

18 **A** They just tell us where to go.

19 **Q** Someone in the company assigns out --

20 **A** The boss.

21 **Q** The boss assigns the work?

22 **A** Yeah.

23 **Q** Okay. And so you were assigned in early
24 August to do some work at an apartment complex in
25 Ferguson called Canfield Green Apartments?

1 **A** Yes, I was.

2 **Q** Now, you were present at that apartment
3 complex on the day that Michael Brown was shot; is
4 that right?

5 **A** Yes, I was.

6 **Q** So we know now that that date was
7 August 9th. How many days prior to that, if any,
8 were you actually there at the complex working?

9 **A** I believe that was my fourth day there.

10 **Q** Okay. And so what were you doing at the
11 apartment complex, what was the job you were doing?

12 **A** Installing plastic gutters to bring the
13 rain water out of the gutters further away from the
14 building so it would stop flooding the bottom
15 floors.

16 **Q** Were you working by yourself or was there
17 someone else on the job with you?

18 **A** Most of the week there was like four of us
19 there and then Saturday it was just me and one other
20 guy.

21 **Q** All right. So the shooting happened on a
22 Saturday and you were working that day?

23 **A** Yes.

24 **Q** And is that typical that you would be
25 working on a Saturday?

1 **A** It has been lately.

2 **Q** So there is enough work that you need to
3 work on Saturdays to get stuff done?

4 **A** Yeah.

5 **Q** Would that be fair to say?

6 **A** Yes.

7 **Q** And so when you were working on that
8 Saturday, who was working with you?

9 **A** My laborer whose name is

10 **Q** Had you worked with him before that day?

11 **A** Just those first few days I was there. I
12 knew him, but I didn't work with him. Those were my
13 first days working with him.

14 **Q** So the Ferguson job, I will call it, the
15 Canfield Green Job, that was the first job you had
16 ever worked with ?

17 **A** Yes.

18 **Q** How long had you known before that?

19 **A** I'd known of him for probably a week, two
20 weeks.

21 **Q** Okay. Would you say at this time on the
22 9th, were you and friends or were you just
23 co-workers?

24 **A** We were getting to know each other kind of
25 after being out there together, but we barely ran

1 into each other at the shop.

2 Q Do you know whereabouts in the St. Louis
3 metropolitan area lives?

4 A I believe in I don't have any
5 idea where though. He said it was close by the shop
6 is all I know.

7 Q So he also lives in or
8 south ?

9 A I believe so.

10 Q You've never been to his house?

11 A No.

12 Q Has he ever been to your house?

13 A No.

14 Q And so on this particular day, um, you
15 were doing work. Had you ever been to the Canfield
16 Green Apartment Complex before this job?

17 A No.

18 Q Were you familiar with the Ferguson area?

19 A The only thing in Ferguson I ever went to
20 work at was the Emerson Electric building. I
21 replaced some pavers over there probably eight or
22 nine years ago.

23 Q So you said you had been working up at the
24 apartments for a few days, like four days or five
25 days?

1 **A** I believe it was four days, it might have
2 been five. I was real new to working with him.
3 The boss wanted me to go up there to go up there to
4 see what was taking so long.

5 **Q** Prior to August 9th, did you know any of
6 the residents in the apartments?

7 **A** Not really.

8 **Q** Would you see people on the street and
9 just --

10 **A** The ones that would talk would be the
11 maintenance crew.

12 **Q** Okay.

13 **A** We'd see them in the morning and sometimes
14 at night, and sometimes they would be walking by.

15 **Q** What about Ferguson police officers, did
16 you know any Ferguson police officers at that time?

17 **A** No, ma'am.

18 **Q** Do you have any police officers in your
19 family?

20 **A** No.

21 **Q** So what time did you get to work that day
22 in Ferguson?

23 **A** Probably 7:30.

24 **Q** A.m.?

25 **A** A.m., yes.

1 **Q** That was in August, was it heating up,
2 getting to be a hot day around noontime?

3 **A** No, it was Saturday, I just remember it
4 being slow.

5 **Q** Okay. I'm going to show you, this is a
6 laser pointer, so if you press on this button here
7 you can use it to point.

8 **A** Okay.

9 **Q** So this is a map, Grand Jury Number 25, it
10 is an aerial view of the Canfield Green Apartment
11 Complex. Do you recognize the streets and the
12 buildings, does that kind of make sense to you?

13 **A** Yes.

14 **Q** Can you use that pointer and show the
15 grand jurors on the 9th where were you working? I
16 assume you were working outdoors?

17 **A** Yes.

18 **Q** Where were you working on the 9th?

19 **A** We started over here in the morning just
20 extending out little things. By 11:00 we got over
21 here where this tree is and that was where, that is
22 where all the roots that were giving me trouble is
23 where they end up being.

24 **Q** So you were digging, is that what you were
25 doing?

1 **A** I was digging and trying to chop through
2 roots and finally I gave up. My chain saw wouldn't
3 start and my generator wouldn't carry the sawzall
4 and I didn't have nothing to cut it but a hatchet
5 and a shovel.

6 **Q** Now, this street that I'm pointing to
7 right here, which is Canfield Drive, which is the
8 main drag through the complex?

9 **A** Yes.

10 **Q** When you were working that day, did you
11 have a company truck?

12 **A** Yes.

13 **Q** Would you move your truck as you would
14 move your job around the complex?

15 **A** Yes. All the pipes and the tools were in
16 the truck.

17 **Q** How about did he have a truck of
18 his own?

19 **A** He had a truck, but it was parked up
20 there.

21 **Q** Okay. So he had left his truck and as you
22 worked your way around the complex you moved your
23 truck?

24 **A** Yes, his was a truck that had a big
25 dumpster on to haul wood out. We were going to load

1 it with wood at the end of the day.

2 Q You said that you were around, this is
3 Building Number 9?

4 A Uh-huh.

5 Q If up is north?

6 A Yes.

7 Q So were you on the north side of that
8 building?

9 A Yes.

10 Q So you were digging in the earth around
11 this area?

12 A Right there.

13 Q Okay. And from where was your truck
14 parked as you were digging?

15 A Right in the parking spot right in front
16 of it.

17 Q So we can kind of see these parking spots
18 along here. You can kind of see yellow lines?

19 A Right there.

20 Q So your truck was right around here?

21 A Yes.

22 Q Right on the north side of the building?

23 A Yes.

24 Q Okay.

25 A Backed in.

1 **Q** Now, during that day, do you recall did
2 you take a lunch break that day?

3 **A** It wasn't lunch time yet. We didn't.

4 **Q** Before this happened you hadn't taken a
5 lunch break?

6 **A** No.

7 **Q** So earlier that day, did someone stop and
8 talk to you?

9 **A** First, some lady stopped and was letting
10 her kid go with her grandparents. She talked for a
11 minute and then took off over here somewhere.

12 Right after that, I went back to
13 digging, that's when Michael stopped. I didn't know
14 his name at the time. He was just some guy stopping
15 wanting to talk.

16 **Q** And you now know that the person that you
17 are talking about being Michael, that's the person
18 who got shot and killed that day?

19 **A** Yes.

20 **Q** Had you seen him in the complex before he
21 stopped to talk to you?

22 **A** No, I did not.

23 **Q** So the first time you ever had contact
24 with him was when he stopped and to talked?

25 **A** Yes.

1 **Q** Where was when Michael stopped to
2 talk with you?

3 **A** was over looking at these other ones
4 and digging up like this one, adding to this one and
5 adding to this one. We were kind of trying to stay
6 in the same little areas and run those four out and
7 move to the next area and run those four out.

8 **Q** Okay. So when Michael stopped to talk to
9 you, was he alone or was he with somebody?

10 **A** He was alone when he come out.

11 **Q** So describe him for me, what did he look
12 like first off?

13 **A** He just looked like a big guy. When I
14 first seen him I thought he was 25 to 30 years old
15 or something. And was asking me why I was so angry,
16 I told him I was digging through big roots with a
17 shovel and a hatchet.

18 **Q** Were you angry?

19 **A** I was pretty angry, those were some big
20 roots.

21 **Q** Why do you think he picked up on the fact
22 you were angry?

23 **A** A little bit of cussing and swearing going
24 on and changing tools, trying to find a sharper
25 shovel, mad because my chain saw wouldn't start.

1 **Q** So do you think you were loud enough that
2 he heard you cussing?

3 **A** I tried not to cuss real loud for people
4 to hear, but after you come outside, you can here
5 it.

6 **Q** So where did he come out from you say he
7 came outside?

8 **A** On the, he came down the steps on the
9 northwest staircase. I don't know which building or
10 which --

11 **Q** Which apartment unit?

12 **A** Which apartment he came out of, no.

13 **Q** It was this Number apartment he came
14 down?

15 **A** Out of the side is the side he came
16 down.

17 **Q** Okay. About what time of day was this, do
18 you know?

19 **A** I believe it was around 11 or 11:30 or
20 somewhere in there.

21 **Q** And I notice that you don't have a watch
22 on today?

23 **A** No.

24 **Q** Do you normally wear a watch?

25 **A** No, I can't wear watches.

1 **Q** How do you tell time?

2 **A** Uh, mostly my laborers tell me what time
3 it is. I have a clock on my phone, but I don't
4 really look at my phone too much.

5 **Q** So when you say it was around 11:00, is
6 that like your best guess or had you recently looked
7 at the clock?

8 **A** No, when all of that went down and then I
9 looked at the clock to see when it is over with. I
10 thought it took this long to get a machine and I
11 don't know, it was like 11:30 or 12:00, I can't
12 remember the exact time.

13 **Q** Okay. When you saw Michael Brown, he was
14 coming down the steps?

15 **A** No, when I first saw him he was standing
16 next to my truck looking at me.

17 **Q** So you just mentioned earlier you saw him
18 emerge from an apartment, or emerge from some place,
19 did you see him --

20 **A** That's where he went up.

21 **Q** Okay.

22 **A** I didn't see him come out of there, but
23 that's where he went up. He said he was going back
24 up to his apartment.

25 **Q** Let's start with you first saw him. Where

1 was he when you first saw him?

2 **A** Standing next to my truck looking at me.

3 **Q** So is this in the same area that that you
4 already described, your truck was in front of this
5 Building Number 9?

6 **A** Yes.

7 **Q** And you said he was a big kid?

8 **A** He was bigger than I am, I looked up when
9 I talked to him.

10 **Q** He was standing and you stood next to him?

11 **A** When I'd get up to try to grab a different
12 tool, I'd stand by him.

13 **Q** How take tall are you?

14 **A** About 5'11".

15 **Q** At the time --

16 **A** At the time he looked like he was 25 to
17 30. I didn't find out until later he was, you know.

18 **Q** An African-American?

19 **A** Yes.

20 **Q** How was he dressed when you saw him?

21 **A** Just some easy going shorts, I believe a
22 white shirt and he had these yellow socks with pot
23 leafs on them.

24 **Q** Did you notice he had a hat on? Does he
25 have anything in his hand when you first saw him?

1 **A** Not when I first saw him.

2 **Q** So you said that he stopped and talked to
3 you. Who said something first, did you first speak
4 or did he first speak.

5 **A** I think I said what's up to him. And then
6 he told me that the Lord Jesus Christ would help me
7 with my anger problem, you seem pretty angry down
8 there. I said, boy, you can grab a shovel and come
9 down here and you can get picking at these roots.

10 **Q** He didn't pick up a shovel and help you,
11 did he?

12 **A** Oh, no.

13 **Q** How long did you and he speak to each
14 other at this time?

15 **A** I believe he was there for 30 minutes, but
16 that doesn't mean we sat there and talked for 30
17 minutes.

18 **Q** Okay.

19 **A** I was still digging at the roots. I would
20 get up and say something and then I'd get back down.

21 **Q** Was he standing the whole time --

22 **A** Yes.

23 **Q** He didn't like sit on the ground or like
24 sit on a step?

25 **A** No.

1 **Q** Did you ever see anybody with him during
2 the time?

3 **A** Not that time, no.

4 **Q** Did you ever see him do anything other
5 than standing there?

6 **A** No, just talking.

7 **Q** All right. So you mention he had talked
8 about Jesus Christ helping you with anger problem,
9 any other things that you recall about the
10 conversation?

11 **A** That would have been it. I thought he
12 wanted to get into a Jesus argument or conversation,
13 but I don't like getting into those because it is
14 just one you can never win.

15 **Q** Okay.

16 **A** Everybody has their own belief.

17 **Q** So during the time you were there, you
18 never saw another person with him?

19 **A** Not that first 30 minutes.

20 **Q** What happened after that 30 minutes
21 expired?

22 **A** came over and I told him I was
23 getting sick and tired of digging through these
24 roots and we need to go find some easier spots so we
25 can get something done that day.

1 So we started loading up the garbage
2 I had thrown out, try to pick at it and we're
3 getting ready to move the truck over and I seen him
4 over there, I told him to go get the Bobcat over by
5 the storage yard where the maintenance people hang
6 out.

7 **Q** So was Michael still around in the same
8 area.

9 **A** No, right when I was getting ready to come
10 back out, that's when he came out with some other
11 kid.

12 **Q** So let's back up. So Michael was there
13 talking to you for you think maybe about 30 minutes?

14 **A** And then he had to go up into the
15 apartments.

16 **Q** So he leaves, where does he go?

17 **A** Up that one staircase.

18 **Q** In Building Number

19 **A** Yes.

20 **Q** Did you notice what apartment he went
21 into?

22 **A** No, I started talking to and picking
23 up tools and telling him we're going to go somewhere
24 else do what we need to do and get the machine.

25 **Q** At the time that you and Mike were saying

1 things to each other, was in the vicinity
2 where he would have heard ---

3 **A** Towards the end he was.

4 **Q** Okay. So he may have heard some of the
5 things that were being said?

6 **A** He probably heard some of it. Towards the
7 end he was standing at the back of the truck.

8 **Q** That would be when you say he?

9 **A** Yes.

10 **Q** So then you said Michael ran up the stairs
11 and disappeared into the building, and then you and
12 were kind of collecting tools?

13 **A** Yes.

14 **Q** How long before you say someone else in
15 the area or anyone else?

16 **A** Michael and that other kid come up when I
17 was trying to pick up a few shovels and talk about
18 where we're going to go in a couple minutes.

19 **Q** Okay. So can you describe the other kid?

20 **A** He's an African-American kid. He was
21 probably my size, but skinny.

22 **Q** So shorter than Michael?

23 **A** Yes.

24 **Q** And skinnier than you.

25 **A** Yes.

1 **Q** Would you say that he was a teenager,
2 20's, 30's?

3 **A** He looked like a young kid. I don't think
4 he was 20 yet.

5 **Q** Is that the first time you had ever seen
6 that kid?

7 **A** Yes.

8 **Q** And today do you know who that is?

9 **A** I've heard of his name, but I don't know
10 the name off the tip of my tongue.

11 **Q** You've seen him on the news since then?

12 **A** A couple of different times.

13 **Q** If I said the name, you think you might
14 recognize it?

15 **A** Yes.

16 **Q** Dorian Johnson?

17 **A** Yes. I only remember that because I was
18 at the FBI's office this morning.

19 **Q** Okay.

20 **A** Otherwise, I wouldn't have known.

21 **Q** So you didn't know Dorian Johnson before
22 this day?

23 **A** No.

24 **Q** But have you seen him on the news?

25 **A** I've seen him a couple times on the news,

1 but my fiancée doesn't allow me to watch the news
2 any more.

3 Q The person that you saw on the news, you
4 recognize him as the same guy that had come out of
5 the building with Michael?

6 A I didn't recognize him exactly, you know,
7 they said that's who it was. I didn't really stare
8 at him and they walked right by me when they were
9 coming out. There was some stuff talked about, but
10 it was talked about as they were walking by. We
11 didn't hang out and talk for another 10 minutes.

12 Q Do you recall what this other smaller guy
13 was wearing?

14 A No.

15 Q So did the two of them, Michael and this
16 other guy, come out of the building at the same
17 time?

18 A Yes.

19 Q And so did they have to pass you or did
20 they walk past you?

21 A They came out and were heading to the
22 store they said.

23 Q Okay. So you said there was something
24 else said or talked about, a brief conversation as
25 they passed you?

1 **A** Correct.

2 **Q** What was said?

3 **A** Michael had just a little bit of marijuana
4 and he was rolling it up in like a newspaper, not a
5 newspaper, but a regular notebook paper with lines
6 in it. I said, you're going to smoke it out of
7 that? And he just said, no, we're going to go to
8 the store and get some skins or a blunt or something
9 is what he said.

10 **Q** Okay. So now when you say he had a little
11 marijuana, describe for me exactly what you saw?

12 **A** I just saw a folded up piece of paper with
13 some marijuana that was rolling up to put in his
14 pocket, but he didn't have any pockets in his
15 shorts.

16 **Q** So you didn't see any like baggy or
17 anything like that?

18 **A** Huh-uh, no.

19 **Q** And so the stuff that you saw in the paper
20 looked like marijuana to you?

21 **A** Yes.

22 **Q** And the paper you said was like regular
23 notebook paper?

24 **A** Yeah, like with lines on it. Like the
25 stuff she's writing on right there.

1 **Q** Okay. And you had made a comment to
2 Michael, are you going to smoke that --

3 **A** Out of that.

4 **Q** Out of that. And he said he was going to
5 the store?

6 **A** Yeah, to get some skins or blunts, I don't
7 know which one he said, he was going to go get
8 papers.

9 **Q** So what about the other guy that was with
10 Michael. Did he --

11 **A** He didn't say much.

12 **Q** He didn't say much or you don't remember?

13 **A** I don't remember what he said. He didn't
14 say hardly anything, but when he said blunt, I said,
15 blunt? I said, yeah, I said, those things ain't no
16 good. I said, you ought to try this wax stuff and
17 then he turned and said, I don't know what that is
18 and just kept on walking.

19 **Q** Okay. So when you say he turned, I don't
20 know what that is, who is he?

21 **A** He's the D word guy.

22 **Q** The smaller guy?

23 **A** Yeah.

24 **Q** So you said you ought to try this wax
25 stuff and --

1 **A** And he just turned and said, I don't know
2 what that is, and they just kept on walking.

3 **Q** What about Michael, did he say anything to
4 you when you said you ought to try this wax stuff?

5 **A** No, they just kept on walking after that.
6 That was about the extent of the conversation when
7 they came by.

8 **Q** Okay. Prior to this day, what did you
9 mean by wax stuff, do you know what wax is?

10 **A** I have seen it.

11 **Q** Would you describe for the grand jurors
12 what you know wax to be, or what is it?

13 **A** It is marijuana that is crushed into a
14 wax.

15 **Q** Have you ever seen anybody ingest that?

16 **A** Yes, no, you smoke it.

17 **Q** Have you ever seen what effect that has on
18 people?

19 **A** Yes.

20 **Q** What happens to people?

21 **A** Makes them really high.

22 **Q** Okay. When you spoke with Michael the
23 first time before he went up into the building, to
24 you did he appear to be high?

25 **A** No, he appeared to me to be slow in

1 nature, like he needed somebody to talk to.

2 Where I thought he was just bored up
3 there in his apartment, heard me down there and
4 wanted to come down and just talk.

5 Q Why do you think that, why do you say --

6 A Whenever he would talk and give me an
7 answer, he would always put his head back and his
8 eyes would flicker. I'm like, oh geez, I don't
9 know.

10 Q And you had never spoken to him before
11 this, right?

12 A Right.

13 Q So you wouldn't know what he would have
14 sounded like on another day, right?

15 A Right.

16 Q When he would speak to you, would he speak
17 rapidly or slow?

18 A No, it was real slow, but when he talked
19 his head would go back and his eyes, I just thought
20 he had an issue up there or something.

21 Q Okay.

22 A Was he high? I don't know, but it didn't
23 seem like he was high to me. It just seemed like he
24 was a little bit slow and was just wanting to talk
25 to somebody.

1 **Q** So what about when he came out of the
2 building, you saw him briefly, did he say anything
3 to you the second time when he came out of the
4 building?

5 **A** They say they were going to the store to
6 get the skins or the blunt or the papers.

7 **Q** So did Michael speak at that time?

8 **A** Michael said that.

9 **Q** Okay. Did he speak in the same manner
10 that you had heard before?

11 **A** I didn't notice the head going back, but
12 he talked real slow.

13 **Q** From what you observed or the time you had
14 to observe him on the second time when he came out
15 of the building, did you have any impression that he
16 was high or intoxicated or anything?

17 **A** I didn't think so. I mean, I didn't have
18 that. When they're walking away, they just walked
19 away and I got in my truck drove it across the
20 parking lot to the next building.

21 **Q** So when you saw him and the other guy walk
22 away, where did they walk? You can use the pointer.

23 **A** They took off right here and started
24 cutting through here and up that way. I don't know
25 what happened after here, this is the way they took

1 off.

2 I figure if they going to the store,
3 they are going to that QuikTrip. That's the only
4 store I know of around there. (indicating)

5 Q So you saw them walk toward Canfield Drive
6 and then in a somewhat easterly direction?

7 A Yes.

8 Q As if they were going to be walking up
9 Canfield?

10 A Yes.

11 Q Um, so how much time passed before
12 something happened?

13 A I thought it would have been like 15
14 minutes. When they left, I drove my truck to right
15 here, there was no cars there, so I pulled it right
16 up over here, and started walking over here to
17 get the Bobcat.

18 So however long it took to walk there
19 to come back and take three little scoops out. I
20 figured it would be 15 minutes. In my eyes I'm a
21 foreman, so I would think that stuff takes less time
22 than you know.

23 Q You didn't have a watch?

24 A I didn't have a watch. I would have just
25 figured it took 15 minutes to go there, bring a

1 machine back and dug those things up.

2 Q And then what's the next thing, were you
3 still in this general area when something happened?

4 A Yeah, I was right here. He had just dug
5 that out and we dug this one out.

6 Q He, meaning ?

7 A Yes, . And I was cleaning the crumbs
8 out of that back hole when I heard the first pop.

9 Q Okay.

10 A By then was getting out of the
11 machine, and I got up and walked over to my truck
12 and I asked , did you hear that? And he said,
13 yeah, it sounded like a gunshot. Then all of the
14 sudden by the time I got to my truck there was
15 another one. By that time that pop happened, he was
16 back by my truck with me. I don't think he was next
17 to me yet.

18 Q Now let me back up. So when you're over
19 in this area and you are now working in a different
20 hole and digging the crumbs out as you said.

21 A Yes.

22 Q Did you notice anything going on over
23 here, did you notice a police car or any other
24 vehicle or anything?

25 A No. When I heard that pop, I looked that

1 way, I didn't see anything.

2 Q Okay.

3 A There was nothing.

4 Q So nothing drew your attention to this
5 area before that?

6 A Not before that until that first pop.

7 Q Okay. And so you said was also in
8 this general area?

9 A He was just getting out of the machine
10 right there. (indicating)

11 Q What kind of machine are you talking
12 about?

13 A Like a Bobcat, but it's a Mustang. We
14 call it a Bobcat, but it's not, it's a Mustang.

15 Q So it is a smaller earth moving --

16 A Front end loader.

17 Q Does it make noise when it's turned on?

18 A Yeah.

19 Q Was it somewhat loud?

20 A Yeah.

21 Q Was it on when the pop happened?

22 A No, he was just getting off of it, he was
23 all done.

24 Q Okay. So he had turned it off?

25 A Yeah.

Page 177

1 Q What about, let me ask you, ,
2 how is your hearing?

3 **A** Pretty good.

4 Q What about your eyesight?

5 **A** My eyesight is, I have to wear these
6 glasses.

7 Q Okay. So were you wearing your glasses
8 that day?

9 **A** Yes.

10 Q And when you wear your glasses, is your
11 eyesight good?

12 **A** I believe it is pretty good. They say it
13 is not 20/20 but they try to get it as close as they
14 can.

15 **Q** Why do you wear glasses?

16 **A** Stigmatism.

17 Q It is not that you need them to read?

18 **A** Oh, yeah.

19 Q I wear reading glasses, but I can see far
20 away. You wear them all the time; is that right?

21 **A** Yes.

22 Q And you need them to read things far away?

23 **A** And close up.

24 Q And close up. So on this day you said you
25 heard a pop?

1 **A** Yes.

2 **Q** Before this day, had you ever heard
3 gunshots?

4 **A** I've heard gunshots, but it didn't sound
5 like that. I've heard shotguns and .22's.

6 **Q** What did it sound like to you?

7 **A** Just a pop. I mean, like a firecracker.

8 **Q** Did you look in the direction of the pop?

9 **A** Yes.

10 **Q** Use the pointer and point out where you
11 thought the pop was coming from?

12 **A** I thought it was coming from over here,
13 that's why I turned my head and looked. And then he
14 started coming, started coming out of the
15 machine, so we started walking over to my truck,
16 that was right here. By the time we got to my truck
17 and then there was a second one.

18 **Q** Okay. How much time do you think there
19 was between the first pop and the second pop?

20 **A** Barely a minute.

21 **Q** Between the two pops did you see anything?

22 **A** No.

23 **Q** And then you said you heard a second pop,
24 what happened then after you heard the second pop?

25 **A** Then said that does sound like a

1 gunshot and just then we saw the victim guy,
2 Michael, come running through right here. As he
3 come running, it looked like he was hit or looked
4 like he trip and fell. As he fell to the ground, he
5 caught himself with one hand and then turned around
6 and threw his hands up and started yelling, said
7 okay.

8 Q So let's back up. So you are looking in
9 that direction because you had heard the pops.

10 A Yeah, when said that does sound like
11 a gunshot, then we said, they're shooting at that
12 guy.

13 Q So you are already looking in that
14 direction when you see Michael come running?

15 A Yes.

16 Q Did you see what was going on before he
17 came running?

18 A No, the building is blocking it.

19 Q Okay. So you didn't see anything until
20 something comes around that building area?

21 A My line of sight was from right here.
22 (indicating)

23 Q Okay. So point to where you first saw
24 Michael, where was he?

25 A Coming right from around this building

1 about right there. (indicating)

2 **Q** Was he in the street, on the grass, on the
3 sidewalk?

4 **A** In the street.

5 **Q** In the street, okay. And so --

6 **A** Here again, I believe he was on the
7 street. That mountain right there is pretty high
8 where I couldn't really see the street.

9 **Q** So this is an elevated area; is that
10 right, this is a little hill?

11 **A** Yes.

12 **Q** Okay. So you believe he was in the
13 street, but you couldn't see the street from where
14 you were?

15 **A** Huh-uh.

16 **Q** Assuming his feet are on the street, I
17 mean, if you can't see his feet in the street, I
18 assume you can't see his feet?

19 **A** No.

20 **Q** So how much of his body could see from
21 that hill?

22 **A** At least a little bit below his knees.

23 **Q** Okay. So when you first saw him, you said
24 he was running?

25 **A** He was staggering running, falling down

1 running.

2 Q Okay. So did you recognize him
3 immediately as the guy?

4 A No, I did not. did after all was
5 done, he said that that's the dude that you were
6 just talking to.

7 Q Okay. So when you first saw him, you
8 didn't recognize him as the guy?

9 A No.

10 Q And so you said, okay. Then he was
11 running or staggering. Did you believe that he was
12 injured at that point?

13 A I had thought that beings he was tripping
14 and falling like that, that he had been shot.

15 Q Okay.

16 A Then he figured I've been shot once, I
17 better give up, so that's what he was trying to do.

18 Q So let's back up. So you figure he must
19 have been shot?

20 A Yeah, I don't know for sure.

21 Q Okay. And you figured that based upon the
22 fact --

23 A He was tripping and falling.

24 Q He was tripping and falling. Now, you
25 didn't know if he had shoes on his foot at that

1 point?

2 **A** I didn't know he had shoes on until after
3 we were leaving the job and then I seen the red hat
4 and the shoes laying on the ground.

5 **Q** So you couldn't see his feet at that point
6 where he is running or tripping or falling toward
7 you in your direction? And is he running toward you
8 or is he running in this direction? (indicating)

9 **A** No, he was running straight down the
10 street.

11 **Q** Straight down the street.

12 **A** As soon as he cleared that building where
13 I could see him, that's when he just kind of almost
14 fell, almost fell down and caught himself and stood
15 back up.

16 **Q** Did he actually, did his knees or his
17 hands touch the ground?

18 **A** See, I don't know if his hand, I know he
19 put his hand down, I couldn't see the rest. I don't
20 know if his hand touched the ground or not.

21 **Q** Okay.

22 **A** I know he put his hand down, which I
23 thought maybe caught his balance and then turn and
24 faced the officer.

25 **Q** About how far did you see him from the

1 point you first saw him running to where he
2 staggered and had to catch himself?

3 **A** I believe, the distance I was at?

4 **Q** Well, no, how far did he travel?

5 **A** Oh, that was about 25 feet probably.

6 **Q** Okay. And then you said you thought he
7 was staggering because he was hit or shot?

8 **A** Yes.

9 **Q** And at this point, did you believe that
10 those were gunshots you heard?

11 **A** I don't know what I believed. I believe
12 that said those are gunshots.

13 **Q** Okay.

14 **A** And then as soon he staggered and fell
15 like that, that's when the officers came.

16 **Q** Okay. So could you see blood anywhere on
17 Michael?

18 **A** No.

19 **Q** All right. So you say he was staggering
20 and fell, but caught himself in a way, right?

21 **A** Yes, and turned around.

22 **Q** He didn't totally fall?

23 **A** No, he didn't fall, he caught himself and
24 stood back up and tried to get back up from what I
25 hear.

1 **Q** When he fell, was he still facing in your
2 direction, or had he turned around?

3 **A** No, when he fell, he turned away from me
4 and then stood up.

5 **Q** Okay. So when he turned away from you,
6 what direction was he facing?

7 **A** It was almost like a full circle. He
8 turned all the way around to face the officer.

9 **Q** You said to face the officer?

10 **A** No, that way he was facing, I guess, west
11 almost, like a northwest on Canfield.

12 **Q** Okay. So he was facing in that direction
13 like looking up the street?

14 **A** Yes.

15 **Q** And at this point, let me ask you this,
16 when he was coming toward you, could you see his
17 face?

18 **A** No.

19 **Q** And is it because you couldn't see his
20 face, it was too far away?

21 **A** Too far, I believe.

22 **Q** Okay. Now, you said that he staggers,
23 kind of falls, but catches himself, but he turns
24 180 degrees around?

25 **A** Yeah.

1 **Q** And then what happens?

2 **A** And then he throws his arms up and starts
3 yelling, okay. And within a couple of seconds the
4 three officers came up and the one just pulled up
5 and shot him.

6 **Q** Okay. Let's back up. When you say he
7 kind of staggered down and then he was turning
8 around. I'm going to ask you to stand up so we can
9 see what you're going to demonstrate here.
10 Show me with your hands and body how
11 you saw him turn around?

12 **A** From the fall?

13 **Q** After he staggered and then you said he
14 then kind of caught himself and then stood up?

15 **A** It was almost like he was falling to the
16 ground and then came like that, and then just
17 started yelling okay, like that. (indicating)

18 **Q** Okay.

19 **A** When he caught himself like that, he was
20 still trying to catch himself, but he was coming
21 towards the officer, but he wasn't, I mean, I think
22 he was still, that's what I thought he was shot and
23 then he was still trying to catch his balance.

24 **Q** Okay. So when you saw him as he was
25 turning around kind of coming back up, you said he

1 put his hands up?

2 **A** Yeah, as soon as he started coming back
3 up, he started yelling okay.

4 **Q** Okay. He was yelling okay?

5 **A** Yes.

6 **Q** Did you hear anybody, before he yelled
7 okay, did you hear anybody else say anything?

8 **A** I heard nothing else.

9 **Q** All right. So you just, if you can stand
10 up again and put your hands up the way you saw his
11 hands up?

12 **A** I got this side view of him, so he was
13 kind of leaning forward a little bit, but his hands
14 were up like that. (indicating)

15 **Q** So I've got to describe this since we
16 don't have a video of this or picture. So you're
17 standing --

18 **A** He was kind of coming forward still, so he
19 was going with his feet, shuffling to catch himself.

20 **Q** And so you're standing with your arms up?

21 **A** And out a little.

22 **Q** And out forward a little bit, palms are
23 facing forward?

24 **A** Yes.

25 **Q** And your hands are well above your head,

1 would that be fair to say?

2 **A** Yes.

3 **Q** Okay. And so, but you said that he was
4 kind of moving forward or bent forward?

5 **A** When he came up from catching himself, he
6 came up and was probably still trying to catch
7 himself, but he was coming forward when he was
8 yelling.

9 **Q** Okay. And you heard him say okay, okay,
10 okay, okay?

11 **A** About seven or eight times.

12 **Q** You can sit down. He's facing away from
13 you at that point; is that right?

14 **A** I'm looking at his side.

15 **Q** Okay. And you just motioned onto, from
16 your right side?

17 **A** Yes, it would be his right side.

18 **Q** Okay.

19 **A** I'm getting the side view of him, not the
20 front or the back.

21 **Q** Okay. And when he turned around or at any
22 point yet have you seen any injuries or have you
23 seen blood on him anywhere?

24 **A** No.

25 **Q** When he put his hands up, did you see

1 blood on his hands or anything in his hands?

2 **A** No.

3 **Q** And he's facing away from you at that
4 point, right?

5 **A** Yeah.

6 **Q** Okay. Do you remember?

7 **A** Just facing the side.

8 **Q** Okay.

9 **A** I didn't have a back view or anything.

10 **Q** So now at this point, I'm talking now
11 about right at the point where now he's turned
12 around, had you seen any police officers yet?

13 **A** Not yet.

14 **Q** All right. And you heard two gunshots at
15 that point, correct?

16 **A** Yes.

17 **Q** And so then from the time you saw Michael,
18 first saw him in your view to the time he turned
19 around, did you hear any gunshots?

20 **A** Not after the second one.

21 **Q** Okay.

22 **A** So no.

23 **Q** At some point, like I said, he's turned
24 around and at some point you see police?

25 **A** Yes.

1 **Q** So describe what you see when you say you
2 saw three police officers?

3 **A** Yeah, there was one in the front with his
4 gun out and pointed down at the ground and then two
5 more were just coming in behind. They didn't have
6 their guns drawn.

7 **Q** Okay. Were these uniformed officers?

8 **A** Yes.

9 **Q** All three of them?

10 **A** Yes.

11 **Q** So you said there was one that had his gun
12 out, but pointed down?

13 **A** Yeah, come walking towards him.

14 **Q** So where is he, is he in the street, on
15 the grass?

16 **A** All three of them are in the street.

17 **Q** Is there one officer that's closer to
18 Michael than the other two at that point?

19 **A** Just the one with the gun. The other two
20 were back about five or six feet, seven feet.

21 **Q** And the other two on either side of him,
22 the officer with the gun?

23 **A** No.

24 **Q** So where are they?

25 **A** They are just behind him.

1 **Q** Okay. So if the officer with the gun were
2 to stand and look forward?

3 **A** There would be one on each side in the
4 back about five or six feet back.

5 **Q** Okay. And so did you hear any of those
6 three officers at this point say anything?

7 **A** No, I didn't.

8 **Q** And then you recognized them as police
9 officers because of their uniforms, is that fair to
10 say?

11 **A** Yes.

12 **Q** You hadn't seen them before that day
13 though?

14 **A** No, I don't really, an officer could drive
15 by me and I wouldn't recognize him the next day.

16 **Q** Okay. But you hadn't seen them in the
17 complex earlier doing things that day or anything?

18 **A** No.

19 **Q** And so when you saw these three officers,
20 describe physically the one that had the gun drawn?

21 **A** What I saw, I thought it was either gray
22 headed or blond headed, marine haircut and a little
23 heavier set than the others.

24 **Q** How about, use yourself as reference
25 point. Do you think he was taller than you?

1 **A** Uh, I would maybe say he might have been
2 an inch or two taller than me or the same size.

3 **Q** And you are 5'11"?

4 **A** Yes.

5 **Q** Was he your build, skinner --

6 **A** He was chubby, but a bigger guy. I don't
7 think he was chubby, but then I think he had a vest
8 on too, and I think that makes them look a little
9 bigger too.

10 **Q** Okay. And about how old did you think he
11 was?

12 **A** The officer, I didn't even have a guess,
13 but his hair was either gray or blond.

14 **Q** So he didn't have a hat on?

15 **A** No.

16 **Q** What about the other two officers, what
17 did they look like, were they all white, all three
18 of them white?

19 **A** Yes.

20 **Q** Okay. What did the other two officers
21 look like?

22 **A** One had dark hair and a mustache from what
23 I remember and then the other one, I didn't know if
24 it was a woman cop or a little, a little, new little
25 boy cop, or a young, I don't know, like that.

1 **Q** The other one you are describing was
2 smaller built?

3 **A** Yeah, a lot smaller.

4 **Q** Could have been a women?

5 **A** Yeah, and then when we were driving out,
6 when I looked over and seen Michael's shoes, there
7 was a woman cop there. That would lead me to
8 believe it was a woman cop.

9 **Q** Did you recognize her when you were
10 leaving as the woman you saw?

11 **A** No.

12 **Q** So you are just kind of thinking that
13 might be the same one?

14 **A** I just, I didn't know. Yeah, I would just
15 think. I couldn't honestly say.

16 **Q** Okay. And remember when I said it is okay
17 for you to like guess or assume things so long as we
18 explain why you think those things?

19 **A** Yeah.

20 **Q** You really can't say that female police
21 officer that you saw was the same officer that you
22 described that might be a woman?

23 **A** Yeah, well, it all happened so fast and
24 then they were out of there. I can only catch just
25 a little bit, you know. I'm not even real sure the

1 other guy had a mustache. He was one of the three
2 that I could look at that wasn't like the other one.
3 This is the one that talked first. I mean, I seen
4 this twice so.

5 Q All right. So after you say you saw
6 Michael turn around and he had his hands in the
7 manner that you demonstrated and he said okay, okay,
8 okay, okay, several times and then you see these
9 three officers, are they coming down the street?

10 A Yes.

11 Q And how are they moving, are they are
12 running, walking?

13 A Pretty swift. They weren't running, but
14 it was a pretty quick walk.

15 Q And you said that the officer that was in
16 front had his weapon drawn and you were kind of with
17 your motion with your hands like this somewhat?
18 (indicating)

19 A Yeah, he was pointing it down towards the
20 street until he got within about 10 feet of Michael.

21 Q Did these three officers continue to move
22 in Michael's direction?

23 A The two slowed down when he started
24 shooting.

25 Q When who started shooting, the officer

1 with the gun drawn?

2 **A** The officer with the gun.

3 **Q** Did the other two officers ever shoot?

4 **A** No.

5 **Q** Did you see them with their guns drawn?

6 **A** After the one officer's gun emptied, the
7 other guy pulled his gun for probably a couple of
8 seconds until Michael fell. Once he fell then they
9 put it away and whisked the other guy out of there.

10 **Q** Okay. So now as you say the other
11 officers were moving swiftly toward Michael and
12 Michael had turned around.

13 **A** Yes.

14 **Q** Did Michael move in a direction?

15 **A** He was still catching his balance from
16 standing up and he was coming towards him, but it
17 wasn't like he was running towards him.

18 **Q** Okay. How many steps did he take towards
19 the officers?

20 **A** By the time the shot was, I'd say about
21 four, maybe five to catch up on his balance.

22 **Q** And was he, when you said that he was kind
23 of catching himself, was he, you kind of had hands
24 up, but you were kind of going forward, was he
25 falling at that point?

1 **A** No, he was just. I think he was a big kid
2 and was coming up. I thought that he had been shot,
3 so I don't know what it feels like to be shot. So
4 maybe wherever he got shot was kind of bothering him
5 too. He wasn't really falling, he was just --

6 **Q** He was moving towards the officers?

7 **A** He was moving towards the officer.

8 **Q** Okay. And you said about how many steps,
9 three or four?

10 **A** Yeah, there was like no gap between his
11 heel and toe, he was just kind of staggering
12 forward.

13 **Q** And then what happened after he moved
14 three or four steps?

15 **A** Then the officers got up to him.

16 **Q** What does that mean?

17 **A** Well, by that time the officer was there,
18 as soon as the officer got there, I didn't hear the
19 officer say anything because he was yelling okay and
20 then just pulled up and started shooting.

21 **Q** So the officer you're talking about who
22 pulled up and started shooting was the one who had
23 his gun drawn?

24 **A** Yes.

25 **Q** So how close was he to Michael Brown when

1 you saw him starting to shoot?

2 **A** About 10 foot when he started and about
3 five to seven feet when he ended.

4 **Q** How many, now this is after those first
5 two shots, this is the second?

6 **A** This would have been the third, fourth,
7 fifth, sixth.

8 **Q** Okay. How many shots do you think at that
9 time?

10 **A** I think it was seven, and the reason I
11 think that is most officers carry guns with nine
12 bullets. So if there was two to start with and then
13 he emptied his gun, that would have been seven.

14 **Q** Okay. So, now, this is where I don't want
15 you to get into assuming things.

16 **A** Okay.

17 **Q** I can tell you that his gun didn't carry
18 nine bullets?

19 **A** Okay.

20 **Q** So don't get stuck on a number --

21 **A** Oh, no, no, no.

22 **Q** -- or make an assumption. Think in your
23 head how many shots you think you heard?

24 **A** My first guess was six or seven, when I
25 first --

1 **Q** Okay.

2 **A** -- wrote down on that piece of paper, I
3 think I wrote down six or seven.

4 **Q** All right. And so was there, were these
5 six and seven shots one after another?

6 **A** Real quick.

7 **Q** Or was there a pause?

8 **A** Real quick.

9 **Q** So it wasn't like three and then pause and
10 then three more or six or four more?

11 **A** Real quick. All of that happened so fast,
12 I think I was probably in shock at what I just
13 witnessed and I didn't know what to think was going
14 on.

15 **Q** So when Michael, when the officer started
16 shooting, did you see Michael Brown get hit with
17 bullets?

18 **A** Yes.

19 **Q** And why do you say that?

20 **A** Because I seen stuff spraying.

21 **Q** Okay.

22 **A** My eyes were focused on the smoke coming
23 out of the gun and the back of him just, to this day
24 still bothers me looking at that.

25 **Q** Now, you know that you have made a

1 previous statement where you said you saw his shirt
2 and that you saw the bullets going through him
3 because you saw his shirt pop or something like
4 that. Did you think that you saw bullets coming out
5 of his back?

6 **A** That's what I thought.

7 **Q** Okay. Do you think that today?

8 **A** I don't know what I think today. Because
9 I still, I've never seen somebody get shot before
10 and when I watch it on TV they make all of these
11 crazy movements when they get shot. He didn't make
12 one single movement. It was like the bullets went
13 right through him and he didn't know they were going
14 through him.

15 **Q** Okay. But did you see bullets come out of
16 his back?

17 **A** I didn't see the bullets. I seen what
18 looked like might have been.

19 **Q** Okay. But now you know that there were no
20 injuries, bullet holes on his back, don't you?

21 **A** I don't know that, no.

22 **Q** Now, you've heard about the autopsy that
23 was on the news, correct?

24 **A** They said six holes, that's all I know.

25 **Q** Did you ever see that on the news?

1 **A** I think I saw that in the newspaper.

2 **Q** Okay.

3 **A** I didn't see it on the news, but I seen
4 like the headline on the newspaper, parents do
5 autopsy or something like that.

6 **Q** Okay. And so, at some point you read that
7 there was no bullet holes in his back, right?

8 **A** I didn't read that at all. I have no
9 idea. That's what it looked like. What got me he
10 wasn't moving, it didn't bother him.

11 **Q** Okay.

12 **A** I was more confused than I was anything.

13 **Q** And I understand this happens very
14 quickly, right?

15 **A** Yeah.

16 **Q** It is something you're not expecting, kind
17 of catches you offguard, right?

18 **A** Yes.

19 **Q** And it is very important and I understand
20 that sometimes you think you see something and then
21 maybe you realize that you didn't actually see it or
22 what have you, but my point is, at some point you
23 had described it as if the bullets were coming out
24 of his back?

25 **A** That's what I swore I saw.

1 **Q** Okay. But you now know --

2 **A** You believe I wrote that on my first thing
3 I wrote down. I mean, I believe that's what I saw.

4 **Q** Okay. I'm not doubting that you believe
5 that that's what you saw?

6 **A** I know. That's what confuses me too. The
7 more stuff you hear, that's why my fiancée won't let
8 me watch the news any more.

9 **Q** But you now know, don't you, that there
10 were no bullet holes in his back?

11 **A** I know because you told me.

12 **Q** Okay.

13 **A** That's why I only knew there were only six
14 holes.

15 **Q** And you had mentioned earlier that you had
16 talked to the FBI this morning?

17 **A** Yes.

18 **Q** And they talked to you for a couple hours,
19 right?

20 **A** Yes.

21 **Q** And did they record you by the way?

22 **A** Yes.

23 **Q** Okay. During that conversation, did they
24 ask you if maybe you've kind of changed your opinion
25 about whether there were bullet holes in his back

1 because you learned at some point --

2 **A** Yes.

3 **Q** And you admitted that that's possible,
4 right?

5 **A** Yeah, I changed my thought on a lot of it
6 after you hear things. It is not really my thought,
7 it is, I think, when it first happened, I was more
8 in shock on what I saw. And now when you have time
9 to give it time to get out of your head for a while,
10 it changes.

11 **Q** Sure. But my point being is that, you
12 know, when you saw something and you think, you
13 know, in your brain it is recording or registering
14 and then later you learned that it might not have
15 been exactly the way you saw?

16 **A** Yes.

17 **Q** Because there were no bullet holes, I'm
18 telling you, and you heard on the news, there is no
19 bullet holes in his back. It looked to you like
20 bullets were going through his body, is that fair to
21 say?

22 **A** That's what it looked like.

23 **Q** Okay. Now, you had said there's things
24 now that you are thinking that you changed your
25 opinion on or your thoughts about. Is there

1 anything else other than that?

2 **A** Uh, it is just that autopsy thing. When I
3 heard the six shots, I don't know what happened on
4 the first two shots, but then the rest of the shots,
5 maybe it wasn't that many shots. I don't even know.
6 I know there was two in his head, but I don't know
7 where the other ones were.

8 **Q** Okay.

9 **A** Whatever I read on the big line of the
10 newspaper is what I read.

11 **Q** Okay. So now, you seen, haven't you, some
12 video that shows you and standing like next to
13 your truck or in the parking area?

14 **A** Yes.

15 **Q** Where you are looking into the distance?

16 **A** Yes.

17 **Q** And we can see you from behind, we see
18 your back; is that right?

19 **A** Yes.

20 **Q** You have a pink shirt on in that video?

21 **A** Yes.

22 **Q** You have seen that, haven't you?

23 **A** Yes.

24 **Q** That's you that's doing that? (indicating)

25 **A** Yes.

1 **Q** Okay. Now, so in the video, in the video
2 you kind of motion like this?

3 **A** Well, I threw my hands up, he had his
4 hands up.

5 **Q** Do you recall in the video what you were
6 doing with your hands?

7 **A** I just raised them up, but the guys at the
8 FBI pointed that I was also on the cell phone at the
9 time, which I don't remember being on a cell phone.

10 **Q** Okay.

11 **A** I don't talk on the cell phone a lot. I
12 don't remember being on it and they wonder who I was
13 talking to, and I wouldn't have any idea. If I was
14 talking to anybody, it would have been my fiancée.

15 **Q** So you could see on the video that you had
16 a cell phone?

17 **A** You can't really see the cell phone, but
18 what else are you doing when you have your hand up
19 like that.

20 **Q** Okay. But you don't remember talking on
21 your cell phone?

22 **A** No, I don't recall that at all.

23 **Q** Did you video anything with your
24 cellphone?

25 **A** No, I'm not that fast. I don't even know

1 how to video with it. Sometimes I make a mistake
2 and get lucky and hit it.

3 **Q** Now, I'm going to show you,
4 you talked about your written, what you had written
5 down, okay. Now, sometime after this happened you
6 wrote this down on a piece of paper; is that right?

7 **A** Right.

8 **Q** The police didn't ask you to do that?

9 **A** No.

10 **Q** You did that on your own?

11 **A** My old boss told me to write down what I
12 think I remember of it.

13 **Q** Okay. Is this your statement?

14 **A** Yes.

15 **Q** Okay. Now, it is not signed or anything,
16 but you recognize that's your handwriting?

17 **A** Yes.

18 **Q** You recognize this piece of paper to be
19 like, is this perhaps on the back of this?

20 **A** The whole long piece of paper.

21 **Q** Okay.

22 **A** This paper I think, they made it smaller,
23 I guess. In my truck it is about this long.

24 **Q** But this is, I mean, this is just a copy
25 of it?

1 **A** Here is the other half of it.

2 **Q** You recognize that is your handwriting; is
3 that right?

4 **A** Yes.

5 **Q** So this says at the top, witness cop
6 shooting 8/9/14, when did you write that?

7 **A** Approximately 35 or 40 minutes afterwards.

8 **Q** Okay.

9 **A** Maybe even an hour.

10 **Q** So on the same day?

11 **A** Yes.

12 **Q** Well, let's back up then. Before we get
13 to you writing that statement. So you actually see
14 Michael Brown fall?

15 **A** No, I did not see him fall.

16 **Q** Okay. And why not, did you look away?

17 **A** No, he staggered forward and then was out
18 of the sight going around that building.

19 **Q** When you lost sight of Michael Brown
20 because he was beyond the building, were the
21 gunshots still going off at that point?

22 **A** No.

23 **Q** The gunshots had stopped?

24 **A** Yes.

25 **Q** And so did you ever walk down to where his

1 body was in the street?

2 **A** When I did that, I did it from, I believe
3 right here. That's as close as I got on top of
4 that. (indicating)

5 **Q** Did you walk there or drive there?

6 **A** We were driving out over here, but this
7 was blocked off by a firetruck. Then we had to come
8 back around over here and there was kind of some
9 congestion right there. So and I walked over
10 to here, that's when I gave somebody my card that I
11 thought was the kid in the red car, but I wasn't
12 sure. That's where I could see his hat and shoes,
13 and I could see the body laying there, I still
14 didn't know that it was Michael, the guy that I
15 talked to.

16 **Q** Okay. So when you went back down to the
17 street, let's go back then. Michael is out of your
18 vision before he falls to the ground?

19 **A** Yes.

20 **Q** When is it you see the officers walking
21 towards him and shooting?

22 **A** They shot him first and he stumbled
23 forward.

24 **Q** Did he stumble past them?

25 **A** No, they were backing up with him as he

1 was going. And then the officers went out of sight
2 and he went out of sight.

3 Q At some point they are moving swiftly
4 towards him and then they began to back up?

5 A He was stumbling forward.

6 Q All right. And were they firing when they
7 were moving forward?

8 A Uh --

9 Q The one officer?

10 A That officer probably took one or two
11 steps maybe while he was firing. The other ones had
12 stopped.

13 Q So when the officer who was firing, when
14 he started to move backwards, did he walk backward
15 or did he turn around and go backward?

16 A He was walking backwards and that's when
17 the other guy just took his gun out and then they
18 went out of sight. I didn't see anything else after
19 that until we put all of our stuff away.

20 Q So you said he might have taken a couple
21 of steps while he was firing, moving forward?

22 A Yeah, it looked like he was about 10 feet
23 away, but by the time he got finished, it was like
24 eight to seven, seven to eight feet away from him,
25 six feet away.

1 **Q** What do you mean by the time he got
2 finished?

3 **A** When the gun emptied.

4 **Q** Was he still in your sight when the gun
5 emptied?

6 **A** Yes.

7 **Q** How do you know the gun emptied?

8 **A** I don't know if it emptied, he just
9 stopped shooting.

10 **Q** Rather than make that assumption?

11 **A** Okay, okay, you're right.

12 **Q** Let's just say he stopped shooting?

13 **A** He stopped shooting.

14 **Q** And so you could see the officer when the
15 shooting stopped?

16 **A** Yes.

17 **Q** So how is it that he can move backwards
18 out of your sight then?

19 **A** Everything started moving that way. There
20 was only like about 15 or 20 foot window of my sight
21 before they went behind that building.

22 **Q** All right. So Michael Brown then after
23 the shooting stopped, he continued to move in the
24 direction of the police officer?

25 **A** Yes.

1 **Q** How long did that, how long did he walk or
2 stagger or stumble?

3 **A** They were out of my sight in just a couple
4 seconds.

5 **Q** I mean, distance wise?

6 **A** Oh, I thought he staggered for 25 feet,
7 maybe 30.

8 **Q** Okay. Did you hear any shots after that?

9 **A** No.

10 **Q** Okay. The officer stopped firing, you see
11 Michael Brown continuing to move in the direction
12 that the officers had come from, so somewhere around
13 here? (indicating)

14 **A** Yeah.

15 **Q** About 25 to 30 feet and then he's out of
16 your sight?

17 **A** Yeah, when they went around the back of
18 that building, I didn't see anything again. Two
19 minutes later, the other officer with the mustache
20 came out with the tape and started taping off the
21 whole thing.

22 **Q** Two officers that were on either side of
23 the officer with the gun?

24 **A** Yeah.

25 **Q** Did they move back with the officer?

1 **A** Yeah, they stayed back a little bit when
2 he got up to him. They were like seven, eight feet
3 back already. Then when he started staggering
4 forward, then they all move back.

5 **Q** Okay.

6 **A** Those two were out of my sight real fast.

7 **Q** Did you ever see the officer after he
8 backed up and he was out of your sight after that?

9 **A** The one that did the shooting, did I ever
10 see him again? No.

11 **Q** You don't know where he went or what
12 happened to him?

13 **A** I don't know. Somebody said they whisked
14 him out of there.

15 **Q** You didn't see that?

16 **A** No, I didn't see that.

17 **Q** What about the other two officers, did you
18 see them again?

19 **A** He was there taping all the stuff off for
20 a while and dealing with a lot of angry people.
21 That's when I saw a female cop there and by then
22 there was the firetruck there, five or six more
23 officers.

24 **Q** Is that when you are up here?

25 **A** Yes.

1 **Q** Let's stay down here until we get done
2 with this area. Now, you mention something about
3 that you gave a guy a card when you were in this
4 area. You thought it was a guy in the red car?

5 **A** Yes.

6 **Q** Tell me about when you first see a car,
7 that red car?

8 **A** When the officer was taping it off, he
9 pulled up and started yelling at him out the window
10 and that officer yelled he was a threat, and he sped
11 up and parked by over where I originally parked at.
12 And he got out of his car and started yelling stuff
13 and started screaming on his way over there to get
14 closer to where he was taping off. He kept yelling.
15 That's when I told we better get out of here.

16 **Q** So the guy in the red car, do you know
17 what kind of car it was?

18 **A** No, a little red thing.

19 **Q** Was the guy African-American or white?

20 **A** African-American.

21 **Q** About how old?

22 **A** He just jumped out of his car and started
23 screaming and started walking towards the road.

24 **Q** Where was his car when he jumped out of
25 it?

1 **A** He didn't park in a parking stall. He
2 parked right there, just right on the road.

3 **Q** Okay. Now you say later when you were
4 walking back down here, you saw somebody and gave
5 them your card and you thought it was the guy?

6 **A** He had a blue shirt on.

7 **Q** All right. Was he still in the red car
8 when you saw him up here?

9 **A** No, he was standing on top of that hill.
10 They already had that flagged off or taped off.

11 **Q** So you just thought it was the same guy?

12 **A** I just saw a blue shirt.

13 **Q** So just by the shirt, that's what you
14 thought?

15 **A** Yeah.

16 **Q** So had you ever seen the guy in the red
17 car before that day?

18 **A** No.

19 **Q** Other than before that, had you ever seen
20 him?

21 **A** No.

22 **Q** So how long did you and stay at that
23 location in the parking lot area before you got in
24 your truck and drove around here?

25 **A** A couple minutes. We just threw some

1 shovels in the back and he jumped in the Mustang and
2 drove it over there and parked it and we unloaded
3 most of the pipes.

4 Q So drove the earth moving machine,
5 the Mustang?

6 A Yes.

7 Q Back to around back here? (indicating)

8 A Yeah. He could take the short cut, but I
9 had to drive all away around the whole thing.

10 Q Can you guesstimate how many minutes you
11 thought it took you from the time you saw the
12 shooting until you got your truck loaded up and you
13 moved out of that area?

14 A Out of that area?

15 Q Uh-huh.

16 A Maybe three minutes.

17 Q So the video where we see you standing
18 there going like this in the pink shirt, are you
19 still in this area when that video is taking.

20 A Yeah, that was pretty quick after.

21 Q Okay. And so you only stick around there
22 though for two or three minutes?

23 A Yeah. As soon as the guys started taping
24 off, I told we better get our tools and get
25 going, it is going to be pretty messy around here.

1 **Q** So when is it that you first talk to the
2 police?

3 **A** In person, I think the next day.

4 **Q** Okay.

5 **A** Came out to our office, or
6 something.

7 **Q** So we're talking the next day now. Let's
8 finish up with August 9th. You wrote this statement
9 on that day?

10 **A** Yes.

11 **Q** Where did you go, when you went around
12 here and you had walked down closer to the scene,
13 how long did you stay in this area?

14 **A** I just went up and handed him the card and
15 took off.

16 **Q** So you went back and got your truck?

17 **A** Got my truck. And some maroon car was
18 trying to get through, when she went through then me
19 and could leave.

20 **Q** So you know that there were a lot of
21 police officers arriving at the scene at that point?

22 **A** Yes.

23 **Q** You didn't stop and tell anybody you saw
24 this?

25 **A** No.

1 **Q** Why not?

2 **A** I just wanted to get out of there.

3 **Q** What about, I mean, do you have any fear
4 of police officers yourself?

5 **A** No.

6 **Q** Or distrust?

7 **A** No. There is something I don't like
8 probably, but I just want.

9 **Q** You just wanted to get out of there?

10 **A** I just wanted to get out of there.

11 **Q** When you left, where did you go?

12 **A** Back to the office.

13 **Q** In ?

14 **A** , yeah.

15 **Q** . Did you drive back?

16 **A** No, he drove the dump truck.

17 **Q** Did you and ever have a conversation
18 about this after it happened?

19 **A** When we got back to the shop, we were
20 talking about how freaked out it was.

21 **Q** Did you talk about details or just in
22 general I can't believe I saw that.

23 **A** Not to much on details. That's when he
24 told me it was 30 minutes and I thought it was 15.

25 **Q** The 30 minutes versus 15 when you thought

1 how long?

2 **A** Took him to go get the machine and bring
3 it over there.

4 **Q** And that was the same time period where
5 you say after Michael Brown and his buddy left and
6 walked up the street before?

7 **A** Before they came back.

8 **Q** You saw him getting shot?

9 **A** Yes.

10 **Q** Okay. You estimated that as more like 15?

11 **A** Yeah, I just figured it take them 15
12 minutes to walk over there and get that and come
13 back. Basically that's what I think that took.

14 **Q** Now, let's talk about the statement that
15 you write there.

16 **A** Okay.

17 **Q** And you said that a friend of yours or a
18 former boss had told you to go ahead and write it
19 down?

20 **A** Yes.

21 **Q** Have you seen it before today?

22 **A** I haven't read it since I wrote it.

23 **Q** Okay. Since I don't want to, you know,
24 you have got decent handwriting. I don't want to
25 misread something since it is in your handwriting.

1 Can you read out loud what you have given in that
2 statement starting with up at the top, witness cop
3 shooting 8/9/14.

4 **A** Witness cop shooting 8/9/14, 12:00.
5 Talked with victim for 25 or 30 minutes about God.
6 He says the Lord Jesus Christ will help me with my,
7 through my problems. And he said he was going to
8 the store and he would be back.

9 Then I heard a pop, thought nothing,
10 then I heard another and looked over and saw the
11 victim stumbling and running through gunfire,
12 figured that he was running from who had the gun.

13 Then he threw his hands up and yelled
14 okay, okay, okay, and the police officer who said
15 nothing emptied his gun into the guy. I believe
16 seven more at close range.

17 What happened before the first two, I
18 don't know, but from when, from when he said that he
19 would be back, I would say 25 to 30 minutes, that's
20 what I changed when I talked to

21 **Q** Okay.

22 **A** Minutes passed before shots fired.

23 **Q** So the 25 to 30 minutes that you write on
24 there, that was something that you changed because
25 had talked to you about?

1 **A** Yeah, I told him it was 15, he said no.

2 **Q** So someone else kind of, after talking to
3 someone else, you kind of changed your thought on
4 that?

5 **A** Yeah. I circled it to remind myself I
6 changed that.

7 **Q** Okay. And because I'm not sure because
8 nobody's name is on here, is this a map that you
9 did?

10 **A** Yeah -- no, this is what, when we started
11 out that morning, this is where we crossed off that
12 we finished.

13 **Q** Okay.

14 **A** This was something where we were working
15 too. I don't think there is anything on here but
16 work.

17 **Q** Okay.

18 **A** I don't know what that is.

19 **Q** Okay.

20 **A** When we were working our way around to get
21 over here.

22 **Q** Okay. And so this is something that you
23 used just while you were working to keep track of
24 what you've already done?

25 **A** Yeah. Just where I scratched them off

1 where I put an X to breakdown what we did.

2 Q Do you remember when you talked to the
3 officers at one point, did you use this map to kind
4 of show them?

5 A The first officer, not that map I don't
6 think, the first officer didn't even ask.

7 Q Okay.

8 A He just took a quick recording and left.

9 Q You spoke to an officer?

10 A Or detective.

11 Q Pardon me?

12 A A detective.

13 Q And that was a county detective, correct?

14 A St. Louis County, yes.

15 Q And then after that you talked to another
16 county detective, correct?

17 A Yeah, that was a ways later though.

18 Q So just so, on that, did you talk to an
19 officer on the day of the shooing at like maybe
20 10:00 at night?

21 A That would have been , I believe.
22 They wanted to get ahold of me and were trying to
23 set up a when or a where or something.

24 Q So there is a statement that you made that
25 was at , is that

1 where you work?

2 **A** Yeah, I think so. I don't know the exact
3 address off the top of my head.

4 **Q** Okay. And do you remember talking to, the
5 first time you talked --

6 **A** His name was , yes.

7 **Q** Okay. , does that ring a
8 bell?

9 **A** I don't know his last name.

10 **Q** Okay.

11 **A** I've just got his phone number is all.

12 **Q** Okay. And then you recall on August 18th
13 talking to a Detective and Special Agent
14 ?

15 **A** Yes.

16 **Q** And that was the second time you talked to
17 the police, correct?

18 **A** Yes. That's when they took that piece of
19 paper.

20 **Q** Okay. Your written statement?

21 **A** Yeah.

22 **Q** All right. And then after that, you had a
23 conversation with detectives where you came down to
24 the Clayton?

25 **A** Yeah, they came and got me.

1 **Q** All right. And they brought you into
2 Clayton and they put you in an interview room and
3 they actually read you your Miranda Rights and they
4 talked to you; is that right?

5 **A** Yeah.

6 **Q** And then after that conversation you, as
7 recently as today, had like a two hour interview or
8 conversation with FBI agents?

9 **A** Yeah, and U.S. attorney or something.

10 **Q** Okay. , does that ring a bell?

11 **A** rings a bell, the other guy I can't
12 really thing of his name.

13 **Q** , does that ring a bell, dark
14 headed guy?

15 **A** Yeah.

16 **Q** Okay. And other than those conversations,
17 have you talked to any other law enforcement people
18 about this?

19 **A** No.

20 **Q** Okay. Now, you made a number of
21 statements to the media about this; is that right?

22 **A** I don't know if I would say a number of
23 them. I think the lady from Channel 2 pretty much
24 upset me.

25 **Q** So you talked to somebody from Channel 2.

1 Now, you never, your face has never been on the TV
2 that you know, correct, other than that video where
3 you can see you from behind?

4 **A** Yeah.

5 **Q** You have never given an interview where
6 your face appears?

7 **A** No.

8 **Q** You told reporters or journalist about
9 what you saw?

10 **A** I talked to that Shirley Washington and
11 then sometimes when I go back out to Canfield,
12 people would come out, and like one of the
13 maintenance guys would point out there's that guy,
14 and then they would come over and start talking.

15 **Q** They, meaning reporters?

16 **A** Yeah.

17 **Q** So you went back to Canfield after this
18 day?

19 **A** I went back there a couple of days and
20 people kept bothering me, so they pulled me out of
21 there for a while. And then I waited a couple of
22 weeks, he sent me back up there again, and it was
23 the same stuff, so I just left.

24 **Q** So you talked to a few reporters about
25 what you saw; is that correct?

1 **A** I told them I didn't want to do any bull,
2 I didn't want to do no talking.

3 **Q** I understand.

4 **A** They came up to me, a lot of them did.
5 From Connecticut, from Florida, all of them coming
6 from everywhere, they wouldn't leave my phone alone.

7 **Q** Now, at one point though, did you contact
8 the media because you were upset?

9 **A** I contacted Channel 2.

10 **Q** And why is it that you contacted the
11 media?

12 **A** They said something on the TV that I
13 didn't feel was right. That was about the time all
14 of that rioting was going on and I thought, you
15 know, if you don't print that stuff like that, it
16 wouldn't be, that's when Shirley wanted to keep
17 calling me.

18 **Q** Shirley, meaning the gal from Channel 2?

19 **A** Yeah.

20 **Q** So do you think the media has kind of
21 inflamed this?

22 **A** I believe it has. That's just what I
23 believe and I believe that on my own.

24 **Q** Now, when you contacted the media, it was
25 because you thought they were getting some things

5 Q Like, for example?

9 Q What about have you seen any of the other
0 people who were there said they saw this, like
1 Dorian Johnson,

15 Q That would be

16 **A** , yeah.

17 Q You remember having a conversation with
18 ?

19 **A** He was cooking pork steaks and ribs one
20 morning when I was making my final list.

24 **A** Yeah, we talked about that, but we really
25 didn't talk about that for very long. We might have

1 said something for a couple of minutes while we were
2 talking and then we just switched over to barbecuing
3 and not wanting to live at that apartment complex.
4 He's been wanting to move out. The first time I was
5 ever there he came up and said he lived there
6 years, he's ready to go because the kids are moving
7 in and the kids don't have any respect.

8 Q What about anyone else, other than media,
9 have you talked to anyone else about what you saw?

10 A Other than my family and a couple of
11 friends.

12 Q I'm asking specifically about Michael
13 Brown's family?

14 A I talked to his mom. That Shirley gave
15 her my number, they called me. It wasn't her mom
16 that called, it was the name comes to mind. I
17 don't even know if that was his name. She said hi
18 on there and the first thing --

19 Q Let's back up. How is it that you were in
20 touch with Michael Brown's mother?

21 A Shirley Washington said she wondered if I
22 wanted to talk to her. I said I don't know, I don't
23 see why I would have to.

24 Q So how is it that you spoke to her, was
25 this in person or on the phone?

1 **A** On the phone.

2 **Q** Do you know about when that conversation
3 took place?

4 **A** It was at night.

5 **Q** I mean, was it like the day of?

6 **A** No, it was the day after I talked to
7 Shirley.

8 **Q** Okay. So you were speaking to a woman on
9 the phone and you were told that that was Michael
10 Brown's mother?

11 **A** She asked about Michael and I told her, we
12 talked for a little while and then she broke down.
13 I said this is going to be hard. We'll just talk
14 later when all of this blows over. The other guy
15 started talking a little bit. I just said I'm going
16 to have to get going.

17 **Q** So let's talk about that first phone call,
18 did you talk with her about details about what you
19 saw?

20 **A** No.

21 **Q** How long did you talk to her on that
22 occasion?

23 **A** Just a couple of minutes, I believe.

24 **Q** And then what about you said --

25 **A** She started breaking down crying, so there

1 was no really use talking to her, I didn't call her,
2 or she didn't call me to have her tell her stuff to
3 make her cry and breakdown.

4 **Q** So who called who?

5 **A** She called, or he called me and she was
6 there.

7 **Q** Okay.

8 **A** I don't remember this guy's name.
9 comes to mind.

10 **Q** You believe he was the media?

11 **A** No, he was with her, it was either her
12 brother, husband, I don't know.

13 **Q** So then did you have another conversation
14 with her?

15 **A** No.

16 **Q** I thought you said that you called her?

17 **A** No, I said we'll talk later after all of
18 this cools over because I didn't want to talk to her
19 to make her cry and go over the whole thing. I was
20 just going to tell her that I thought Michael was a
21 good kid. That's what I told Shirley, I'll do that.
22 I don't really want to get into details.

23 **Q** Okay, I'm just going to ask you a
24 couple more quick questions. We had a conversation
25 before you came in and I know you don't want to be

1 here, is that fair to say?

2 **A** I just want this all to be over with. I
3 want to be left alone after this day.

4 **Q** And I told you that I'm not accusing you
5 or anything, or you're not in any trouble for
6 anything; is that right?

7 **A** Right.

8 **Q** Do you believe me when I told that?

9 **A** I believe you when you told me that.

10 **Q** So my question to you is, is that when you
11 initially talked to the police the first couple of
12 times, you didn't say anything in those first two
13 statements about Michael having the marijuana that
14 you saw that he had and that he was going to go to
15 the store and buy a blunt or something of that
16 nature. You didn't mention that or a conversation
17 about wax or anything like that. Why did you not
18 mention that when you first talked to the police?

19 **A** I don't know. The FBI asked me that
20 question too. I probably didn't feel that I needed
21 to stick him into the ground what little bit of
22 marijuana he had, I didn't think that was that much.

23 **Q** So you just didn't think that was a big
24 deal or relevant?

25 **A** I didn't think so.

1 **Q** And you thought that that might make him
2 kind of shed a bad light on him after he passed and
3 you didn't see the point of doing that?

4 **A** I didn't think of it that way. I just
5 didn't think throwing more gas on the fire was going
6 to help.

7 **Q** Okay.

8 **A** The first interview was like the next day,
9 I didn't even think about that.

10 **Q** Okay.

11 **A** He asked me a few questions, I answered
12 him and we were done.

13 **Q** You understand that when the officers had
14 you come down to Clayton and they talked to you in
15 Clayton.

16 **A** Oh, yeah.

17 **Q** They were asking you a lot of questions
18 about the marijuana and the wax and stuff like that;
19 is that right?

20 **A** Yes.

21 **Q** And that was all stuff you hadn't told
22 them before, right?

23 **A** No, they had to find that out themselves,
24 I guess.

25 **Q** And so that interview with them, did you

1 feel like they were accusing you of things?

2 **A** Oh, yeah.

3 **Q** Okay. And, but you understand that is
4 information that they got from somebody else that
5 you had not provided, so they wanted to talk to you
6 about it?

7 **A** Yes, I understand that.

8 **Q** Okay. , is there anything that you
9 can think of that I haven't asked or that you think
10 is important that this grand jury should know to
11 understand what happened that day?

12 **A** Not that I can, if I'm forgetting
13 something or you know something, let me know. Not
14 that -- it all just happened so fast, it is like in
15 and out and gone. And then all of the sudden all
16 the chaos with people calling and, you know, I
17 believe the first couple days I was more in shock
18 than anything. And then going home and arguing with
19 the wife because I should have just not said
20 anything.

21 **Q** And you believe that you should have not
22 said anything?

23 **A** I don't truly believe, but then again,
24 I've been accused of not thinking before I talk. So
25 sometimes I might say stupid stuff.

1 **Q** Okay. But you admit that you have made
2 several recorded statements and we have those
3 recordings?

4 **A** Yes.

5 **Q** So those would have details in them. Is
6 there anything that you've told the police that you
7 now want to change or that you want to say, yeah,
8 you know what, that really wasn't what I saw or
9 that's not true or I kind of elaborated on that?

10 **A** Other than what I already said?

11 **Q** Uh-huh.

12 **A** Oh, I don't know. I think over the time,
13 my thought on the whole thing has gotten softer.

14 **Q** What do you mean by that?

15 **A** I don't, I don't know what happened to
16 start with. But something had to happen for an
17 officer to shoot at somebody. So I don't know, I
18 don't know what happened.

19 **Q** Okay.

20 **A** You know, I just saw the officer shoot. I
21 don't remember him saying anything, I don't know
22 anything. I don't know what happened. Something
23 had to happen, I mean.

24 **Q** So regardless, I mean, there is all kind
25 of possibilities as to what could have happened, but

1 you don't know anything other than what you have
2 testified here today?

3 **A** Yes.

4 **Q** And you now know, we talked about you
5 making assumptions about certain things, you said he
6 had emptied his weapon?

7 **A** Yeah.

8 **Q** But you're only assuming that?

9 **A** I would assume that, I never did go check
10 his weapon, no. I would have just --

11 **Q** So those are things that you just are, you
12 always assume because of what you might know about
13 guns and so forth?

14 **A** Yeah. That and when I wrote that
15 statement down, I was probably in shock.

16 **Q** Okay.

17 **A** Just thinking about what I saw.

18 **Q** And the same thing with the shot that you
19 saw fired, you at the time were assuming something
20 and now maybe you think that that wasn't correct?

21 **A** That's what I thought I saw.

22 **Q** Okay.

23 **A** If that didn't happen, I still can't take
24 that back because that's what I thought I saw.

25 **Q** Right. And I told you, you're to testify

1 about what you saw that day, right?

2 **A** Right. That's what I thought I saw.

3 **Q** Okay.

4 **A** I mean, it was all real quick and it was
5 gone.

6 **Q** All right.

7 MS. ALIZADEH: I don't have any more
8 questions.

9 **Q** (By Ms. Whirley) I believe in your
10 statement you said you saw the bullets went right
11 through him, I could see his shirt popping back.
12 What did that mean to you, did that mean they were
13 going through his back or popping back in the front
14 or what did that mean?

15 **A** I just assumed when he was shooting that
16 close they were going out the back and it seemed
17 like everything, but within two or three seconds, or
18 whatever, four seconds, it was all done and over and
19 they were heading the other way. So I just assumed
20 that.

21 **Q** Did you ever see the officer shooting at
22 Michael Brown while he was running and he had his
23 back to the officer?

24 **A** No.

25 **Q** Okay. When you talk, you spend 25, 30

1 minutes or so with Michael Brown, did he seem
2 aggressive to you?

3 **A** No, he just seemed laid back.

4 **Q** You talked about God?

5 **A** He did a lot and I didn't want to get into
6 a bible conversation.

7 **Q** Did he seem like he was in an agitated
8 state?

9 **A** No.

10 **Q** That he was like pissed off or something?

11 **A** No, it just seemed like he was a little
12 bit slow and I thought he wanted to come out and
13 talk to somebody.

14 **Q** Did you see him with a weapon?

15 **A** No.

16 **Q** Did he appear to have a weapon?

17 **A** No, he didn't have any shorts on that
18 would have been able to hold one.

19 **Q** You saw the officer at some point, you
20 said when he was shooting at Michael Brown, you
21 could see the officer?

22 **A** The one that did the shooting, I saw him.

23 **Q** Did you see any blood on that officer?

24 **A** No, I would have been too far away and he
25 left too quick. I'd only seen that officer for

1 probably 14 seconds and he was gone.

2 **Q** Okay.

3 **A** Out of my sight.

4 **Q** You saw blood on Michael Brown?

5 **A** No, I never did.

6 **Q** You didn't see blood either?

7 **A** I didn't ever see any blood.

8 **Q** Okay. You could see shots happening?

9 **A** What it looked like, I could just see
10 blowing out of him is what I, that's what I just
11 assumed.

12 **Q** Okay. You're gesturing towards his head?

13 **A** I assumed that because when you are that
14 close with a gun, the bullet has to go through you.

15 **Q** All right.

16 **A** That was just my assumption and I would
17 think that that's what happened.

18 **Q** Okay. Did you see anything coming out of
19 his head?

20 **A** That's what I thought.

21 **Q** I mean, what did you think?

22 **A** That's what I thought.

23 **Q** What?

24 **A** That stuff was coming out.

25 **Q** Out of his head?

1 **A** Probably from his waist up.

2 **Q** Okay. Um, and you say you never heard any
3 of the officers say anything?

4 **A** Not until the one officer was taping off
5 and he yelled he was a threat.

6 **Q** And that officer yelled that Michael Brown
7 is a threat, is what you assumed he was saying?

8 **A** And he was telling that to the kid in the
9 red car.

10 **Q** Okay.

11 **A** The kid or the guy, I don't really know
12 how old that person was.

13 **Q** Now you said you heard Michael Brown say,
14 okay, okay, okay. When he had his hands up, he was
15 close enough for you to hear that?

16 **A** He was yelling it.

17 **Q** He was yelling it very loudly?

18 **A** Yes.

19 **Q** And you couldn't hear the officer say --

20 **A** That's why, when I say I didn't hear the
21 officer say anything, maybe the officer wasn't
22 yelling as loud as he was.

23 **Q** But you couldn't hear the officer?

24 **A** I couldn't hear him say nothing.

25 **Q** And you heard Michael Brown?

1 **A** Yes.

2 **Q** And that statement that you wrote on
3 August the 9th, you said you wrote that what, when
4 you went back to the office or where did you write
5 that?

6 **A** It was about 40, 50 minutes back to the
7 office.

8 **Q** Where were you when you wrote it?

9 **A** At the office.

10 **Q** At the office in .

11 **A** , yeah.

12 **Q** Do you think that's the most accurate
13 statement that you have since that was prepared the
14 soonest?

15 **A** At the time I thought it was, but I really
16 don't think I should have wrote anything down like
17 that and the stuff that was going through my head.
18 I've never seen anything like that. I truly believe
19 I was probably in shock for a little while after
20 that.

21 **Q** Okay. You've seen this statement,
22 correct?

23 **A** I've seen that statement, but then after,
24 you know, a month and a half later or whatever, you
25 start reading stuff that comes out on the TV, it

1 makes you start wondering if that's what you really
2 saw.

3 Q Well, when you wrote that statement you,
4 you had seen nothing on TV, correct?

5 A No, nothing.

6 Q This was right after it happened, correct?

7 A Yes.

8 Q That was probably your best memory?

9 A That's what I believe happened right there
10 at the time.

11 Q All right.

12 MS. WHIRLEY: I don't have anything else.

13 MS. ALIZADEH: Just real quickly.

14 Q (By Ms. Alizadeh) , you had
15 said something interesting just now, you said
16 something about he didn't have a weapon because he
17 didn't have any pockets, and you are talking about
18 Michael?

19 A Yeah, Michael. I don't know what you call
20 them, wear around the house shorts, just comfortable
21 shorts.

22 MS. ALIZADEH: Did he change clothes from
23 the first time you saw him, until the shooting?

24 A I don't believe so.

25 MS. ALIZADEH: Looked like the same

1 clothes?

2 **A** I don't even remember what color his shirt
3 was. I just remember the shorts were gray.

4 MS. ALIZADEH: So now, if I were to tell
5 you that, you know, of course we know what shorts he
6 had on when he was shot because, of course, those
7 clothes have been seized. If I were to tell you
8 that his shorts had pockets in them, does that
9 change your opinion of when you said he couldn't of
10 had a weapon because he didn't have any pockets.

11 **A** That wouldn't change my theory on that
12 because they were those really light, you know, soft
13 towel looking shorts, I believe. Where there is no
14 thread to tie them. I didn't look in there, but I
15 wouldn't think you could put a gun in there. I
16 don't have a pistol, I don't own a gun.

17 **Q** (By Ms. Alizadeh) Do you know what cargo
18 shorts are, khakis, cargo?

19 **A** I don't think that's what he was wearing.
20 He might have been, I mean really, I don't think
21 that's what he was wearing.

22 **Q** Okay. But when you saw him, and trust me,
23 I'm not saying he had a weapon, we now know he
24 didn't have a weapon, my question is, when you saw
25 him, you just said that he didn't have a weapon

1 because he didn't have any shorts with pockets in
2 them?

3 **A** Oh, when you ask if he had a weapon, I
4 would say no because I don't think those shorts
5 would be able to hold it.

6 **Q** Okay.

7 **A** But then again, you know.

8 **Q** But that's an assumption on your part,
9 right?

10 **A** Okay, all right. I see where you are
11 going, I understand.

12 **Q** So we don't know, and like you said, we
13 don't know what happened before you saw him run past
14 that building into your view, correct?

15 **A** Yes. So then I just say, I didn't
16 physically see a weapon on him.

17 **Q** Okay.

18 MS. WHIRLEY: So when the officer, when
19 Michael Brown turned around and was staggering as
20 you said, moving toward the officer, did it appear
21 to you that he was charging the officer?

22 **A** No, it appears to me that he was just
23 catching his balance. That's when I thought, where
24 I assumed again that he had been hit with the second
25 shot, which I don't know.

Page 241

1 Q (By Ms. Whirley) I don't want to talk at
2 the same time.

3 **A** I'm sorry.

4 Q I'm sorry. Did it appear that the officer
5 was being threatened by Michael Brown when you saw
6 him stagger?

7 **A** At the time, no, but I don't know what
8 happened.

9 Q I mean, when you saw him?

10 **A** When I saw him, it didn't appear that way.
11 It appeared like he was just giving up.

12 ○ It was what?

13 **A** It appeared like he was just giving up.

14 Q All right.

15 **A** Yes, sir -- ma'am, I'm sorry.

16 You
17 mentioned in your statements that when you spoke
18 with Michael, that you thought he was mentally slow.
19 And you said you observed that by the way that he
20 spoke, he spoke very softly.

21 **A** Yes.

22 As he spoke, he raised his
23 head back and fluttered his eyelids and stuff like
24 that. Have you ever had the opportunity to deal
25 with someone that might be labeled or diagnosed as

1 autistic?

2 **A** No, I have never met anybody autistic
3 other than on TV or something. I don't know what
4 autism is actually really.

5 **Q** The reason why I ask is, I have personal
6 experience with it and sometimes when you come
7 across people or adults that have autism, they tend
8 to do repetitious kind of actions. So you
9 mentioned, you mentioned that kind of brought it to
10 mind when he spoke, he raised his head back and
11 fluttered his eyelids. I'm assuming, since you
12 brought that up, it was more than once that he did
13 that?

14 **A** Every time he talked.

15 **Q** Every time he talked?

16 **A** Except for when he was walking to the
17 store. He might of, but I didn't pick up on it when
18 him and the other guy went walking away, I didn't
19 pick up on it.

20 **Q** Okay.

21 **A** But he would just be standing there
22 watching.

23 Okay. And this is the
24 first contact you had or opportunity you had to
25 actually have more, have any conversation with

1 Michael Brown?

2 **A** I didn't even know who he was, he just
3 walked up and started watching me working.

4 This is first time you two
5 met, is that my understanding?

6 **A** Yes.

7 You had
8 opportunity to see a person just a few minutes, 10
9 minutes, 15 minutes ago, take marijuana or some
10 other drug in his system, you happen to see sometime
11 in person like that?

12 **A** I didn't hear.

13 A person who has drugs,
14 he use drugs, marijuana, cocaine or maybe --

15 **A** Do I know people that used that?

16 : You see people who use
17 that, say 15, 20 minutes after they use the drug,
18 you see people like that?

19 **A** I know people like that.

20 : What do you see in that
21 person?

22 **A** They're just high. I don't know how to
23 explain high, they're just --

24 Usually a slow person,
25 maybe walking slow, talking slow, enough to maybe 40

1 to 45 minutes they take the drug, he get high, but
2 it will walking slow, talking slow, move his eyes
3 up, sometimes you look like a zombie?

4 **A** Some people, I would say it all hits
5 everybody a little different.

6 Thank you.

7 I'm
8 going to go on there. I have seen people that have
9 been high on marijuana and this is not meant to be
10 funny, sometimes it is hard to tell the difference
11 between high and being slow because that's what it
12 does, it slows you down, it makes you mellow. Could
13 that have been, you assumed he was slow because you
14 didn't know whether or not he had smoked, was there
15 something that made you think he was slow versus
16 high?

17 **A** No, I just didn't feel he was high.

18 : Okay.

19 **A** At the time.

20 : It was just the
21 impression you got at the time, he was slow and not
22 high at the time?

23 **A** I mean, he may have been, I would just
24 assume, I'm assuming that he was slow too, but
25 that's the first impression that I got from him is

1 that he was slow and came outside, seen me working
2 and wanted to talk to somebody.

3 Okay. And I have a
4 question about you said in your statement on the
5 18th of August that you were working at and
6 then today you indicated that you were working
7 and So I'm wanting to verify where you were
8 when you saw this?

9 **A** When he got back with the machine, he
10 started right here, he dug the first scoop, took the
11 second scoop right there and the third one right
12 over here, and then got off, parked the machine and
13 my truck was parked right there. (indicating)

14 And where were you?

15 **A** After the first pop, I was right there
16 cleaning the loose stuff out of the hole.

17 So you don't think you
18 ever were working at ?

19 **A** is right there.

20 : Right.

21 **A** I already cleaned that out while he was
22 working right there.

23 Okay. So you were
24 working there to begin with and then you moved over
25 here?

1 **A** All we were doing, he would come through
2 with the bucket, pop it in the ground and scoop a
3 little out. I clean the loose stuff out and we add
4 a little piece of pipe to it to get it further away
5 from the building.

6 Can I ask you how fast
7 those Mustangs go?

8 **A** Five to seven miles an hour.

9 : How far is it from where
10 you were to where his truck was?

11 **A** He parked here and he had to go out this
12 way. I don't know how far that is. (indicating)

13 : A little bit ago you said
14 maybe two or three minutes. If it goes at the very
15 most 5 miles an hour, it would have been probably at
16 least five minutes, right?

17 **A** I don't know.

18 : Okay. That's okay, I'm
19 just trying figure out what happened.

20 **A** I know by the time he got over there with
21 the machine, I already had the pipes out of my truck
22 and put away so he could just park that and get
23 right into his car.

24 : I have another question.
25 You said, no, this is in the very first interview.

1 No, he had his hands up, he was just kind of taking
2 the shots, this is on page four. And then they
3 asked, and once he was empty, then the bad cop
4 pulled his gun and just staggered forward and
5 dropped to his face.

6 In this interview you say you saw Michael
7 drop to his face, but today you say didn't see, you
8 saw him leave, you didn't see Michael drop to his
9 face, correct?

10 **A** I saw Michael laying on the ground, so I
11 assume that he fell on his face.

12 : So you didn't see him
13 drop to his face?

14 **A** I didn't see him fall. When I came around
15 and gave that kid a card, I could see him laying on
16 his face.

17 : When you said I think he
18 was dead on his feet and just fell forward, that was
19 an assumption?

20 **A** I don't know if he was dead.

21 Okay. One more question,
22 I'm sorry.

23 **A** That's okay.

24 You said in your initial
25 two interviews, you said that the police officer was

1 walking forward and stopped and at one point you
2 said 8 feet and another one you said about 5 feet
3 and then shot him.

4 In the media interview and today, you
5 mention that the cop had his gun drawn and was
6 walking backward. I'm just trying to figure out was
7 me stopped?

8 **A** He had it down and was walking toward him.
9 He started shooting at about 10 feet or so.
10 Okay.

11 **A** By the time he stopped shooting was about
12 6, 7 feet, 8 feet.

13 When you talked here and
14 said he was backing up.

15 **A** I was doing a lot of assuming apparently
16 from what I'm learning today.

17 I don't blame you, I
18 assume all the time, but I'm just --

19 **A** When he stopped shooting, that's when they
20 started backing up.

21 He started backing up
22 after he stopped shooting?

23 **A** After the shots and then I never heard
24 another shot after that.

25 This is the last one, I

1 promise. You said he was coming, this is on page
2 five of the August 18th interview. You said I think
3 when I first seen him stumbling, fall, come out of
4 that building, what building, I'm confused?

5 **A** When he come out of the building, come out
6 from behind the building. By the time the second
7 shot went off, he all of the sudden appeared out of
8 nowhere from around that building.

9 Michael did?

10 **A** Yes.

11 : And then you saw the
12 police officers?

13 **A** Yes, after he got turned around.

14 : You saw three of them?

15 **A** Yes.

16 : One of them had their gun
17 drawn --

18 **A** Just one.

19 The other one drew his
20 gun later, you didn't know if it was a boy or girl,
21 never drew his or her gun?

22 **A** No.

23 : All right, thank you.

24 MS. ALIZADEH: Let me just cut in right
25 here because we need to recess for today because one

1 of the grand jurors has a time problem. Is there a
2 quick question and if you think of something later,
3 I can give a call and see if he would be good
4 enough to come back to answer additional questions
5 at a later date. I know he wants this over with
6 today, but is there any important burning question
7 that you want to ask now and if you think of
8 something later, we'll see what we can do about
9 later. Anyone?

10 Okay so this will end the testimony of

undetermined in the County of St. Louis, State of

12

Missouri.

13

The said witness, being of sound mind and being

14

by the grand jury first carefully examined and duly

15

cautioned and sworn to testify to the truth, the

16

whole truth, and nothing but the truth in the case

17

aforesaid, thereupon testified as is shown in the

18

foregoing transcript, said testimony being by me

19

reported in shorthand and caused to be transcribed

20

into typewriting, and that the foregoing page

21

correctly sets forth the testimony of the

22

aforementioned witness, together with the questions

23

propounded by counsel and grand jurors thereto, and

24

is in all respects a full, true, correct and

25

complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XIII

2 MS. ALIZADEH: Good morning.

3 (All say good morning.)

4 WITNESS 34,

5 of lawful age, having been first duly sworn to

6 testify the truth, the whole truth, and

7 nothing but the truth in the case aforesaid,

8 deposes and says in reply to oral

9 interrogatories, propounded as follows, to-wit:

10 EXAMINATION

11 MS. ALIZADEH: Now, this is Kathi

12 Alizadeh. It is October 16th, 2014, it is 9:14.

13 This is the first of the day. We had a little late

14 start today. I'm present, with Sheila Whirley from

15 the prosecutor's office, all 12 grand jurors are

16 present, as is the court reporter and we're getting

17 ready to hear from the first witness of the day who

18 has been sworn.

19 BY MS. ALIZADEH:

20 Q You and I met with your attorney and

21 Sheila prior to you coming in here today; is that

22 right?

23 A That's right.

24 Q And remember that I told you that the

25 court reporter is taking things down and there will

1 be a recording, but before we start the recording
2 I'm going to have you introduce yourself. Do you
3 remember me telling you that?

4 **A** Yeah, uh-huh.

5 **Q** And then I told you that after we start
6 the recording, we are going to refer to you by a
7 number instead of your name, okay?

8 **A** Right.

9 **Q** And your number is going to be 34, okay?

10 **A** Okay.

11 **Q** So could you please state your name for
12 the grand jurors?

13 **A** Witness 34.

14 **Q** And how old are you, sir?

15 **A** .

16 **Q** And whereabouts do you live?

17 **A** (Redacted)

18 **Q** Okay. (Redacted)

19 **A** (Redacted)

20 **Q** How long have you lived in the St. Louis
21 area?

22 **A** I have been in St. Louis since .

23 **Q** Do you live in the Canfield Green
24 Apartment Complex?

25 **A** No, I have a .

1 **Q** Okay.

2 **A** .

3 **Q** And what do you do, what kind of work to
4 do you do for a living?

5 **A** Sort of like work.

6 **Q** Okay. All right.

7 Now having been identified, I will
8 have the court reporter start the recording and then
9 we will have you, we will refer to you by your
10 number, okay?

11 **A** All right.

12 **Q** (By Ms. Alizadeh) Sir, prior to the
13 recording being started, you identified yourself and
14 for the recording purposes we're going to refer to
15 you as Witness Number 34; is that right?

16 **A** That's all right.

17 **Q** And, sir, just back up a little bit and
18 restate what you already said, how old a man are
19 you?

20 **A** .

21 **Q** And you live ?

22 **A** Right.

23 **Q** All right. Are you familiar with the
24 Canfield Green Apartment Complex?

25 **A** Part of it, yes.

1 0 You've been there before?

2 **A** Yes.

3 Q I'm going to show you Grand Jury Number
4 25, which is a map, an aerial view of some streets
5 and buildings. This being Canfield Drive, do you
6 recognize that as being streets and buildings that
7 will be Canfield Green Apartment Complex?

8 **A** Yes, uh-huh.

9 Q Okay. And, sir, do you remember
10 August 9th of this year, which was a Saturday?

11 **A** Yes, uh-huh.

12 Q And earlier that morning, did anything
13 special happen?

14 **A** Yes.

15 Q Prior to what you ended up seeing that you
16 are here for today, prior to the shooting, did
17 anything unusual or special happen in the morning?

18 **A** Before the shooting?

19 Q Right.

20 **A** Uh, well, nothing. I was on my way to
21 work and I had
22 to come back and get it.

23 Q Okay. So you

24

25 **A** Uh-huh, yeah.

1 **Q** And so you said you were leaving for work?

2 **A** Right.

3 **Q** Do you remember about what time of day it
4 was that you were leaving for work?

5 **A** I don't know exactly what time, but it was
6 in the morning.

7 **Q** And do you recall this being a Saturday?

8 **A** As far as I can remember, yes.

9 **Q** Was it light outside?

10 **A** Yes, it was light.

11 **Q** Okay. And how was it that you were
12 leaving for work?

13 **A**

14

15 I turned around to
16 come back the Canfield
17 Apartments.

18 **Q** So you were all the way to
19 and then you had to return around and come back to
20 the Canfield Apartments?

21 **A** Uh-huh.

22 **Q** When you were coming back to the
23 apartments, when you got to the apartment complex,
24 were you coming from West Florissant or were you
25 coming the back way?

1 **A** No, I was coming from West Florissant.

2 **Q** Okay. If this is West Florissant over
3 here, and I'm motioning to the left of the map.

4 **A** Right.

5 **Q** You can't see West Florissant on this map.

6 **A** Right, okay.

7 **Q** You came in from this direction?

8 **A** Right, right.

9 **Q** What kind do you have, at least
10 back then, what were you driving?

11 **A** A .

12 **Q** Okay. And is this a ?

13 **A** Right, it is a .

14 **Q** Does it have anything on
15 ?

16 **A** It has a .

17 **Q** And what about, is it a four-door or
18 two-door, ?

19 **A** It is

20 **Q** And about what year is it?

21 **A** .

22 **Q** And so when you were coming back to the
23 Canfield Green Apartments, were you driving that
24 ?

25 **A** Yeah.

1 **Q** And you were driving this direction on
2 Canfield Drive? (indicating)

3 **A** Right.

4 **Q** Okay. Now, right here in front of you is
5 a laser pointer.

6 **A** Uh-huh.

7 **Q** And there's a little gray button right
8 there. So if you press it, you can use that to show
9 on the map.

10 So as you were, let me ask you this,
11 were you with somebody in your ?

12 **A** Yes, one of the guys that work with me.

13 **Q** Is this guy somebody that is a friend of
14 yours?

15 **A** Well, I call him a friend. I help him out
16 a lot.

17 **Q** Do you know his name?

18 **A** , he goes by. I never question him
19 too much, he never likes me getting into his
20 business too much.

21 **Q** You call him ?

22 **A** Right.

23 **Q** And he's

24 **A**

25 **Q** And you've worked with him though?

1 **A** Yeah, I've worked with him several times.

2 **Q** So was he going to work with you that day?

3 **A** Yes, uh-huh, right.

4 **Q** Do you know is he African-American or is
5 he Caucasian?

6 **A** African-American.

7 **Q** Okay. So is just a name you call
8 him?

9 **A** Right, uh-huh.

10 **Q** So as you entered, were coming into the
11 Canfield Green Apartment Complex, did you see
12 anything unusual?

13 **A** Yes, when we got turned into Canfield,
14 coming up Canfield, all of the sudden, I call it a
15 truck, but it is like a van, more like a van, you
16 know what I'm saying? And it is parked kind across
17 the street and there is a car in front of us, okay.
18 And we saw the police and a young man struggling.

19 **Q** Okay. So let me stop you. Use that
20 pointer and show me was the police car on Canfield
21 Drive on this main street?

22 **A** Yeah, it was headed back towards West
23 Florissant. It is on this street. If this is West
24 Florissant, it is on this street here. I can't
25 think of exactly whereabouts in there, but somewhere.

1 But anyway, his car was headed back towards West
2 Florissant.

3 Q Okay.

4 A The police car was. There was one car
5 right in front of me when I was there. My car
6 there, I'm just not saying definitely this is the
7 spot. My car there and another car right there and
8 the police car right there headed back that way.
9 (indicating)

10 Q Okay. So he was, you were facing the
11 police car?

12 A Right.

13 Q And his police car was facing you?

14 A I'm sorry, say that again?

15 Q Was the police car then facing?

16 A Right, right, right, like coming back
17 toward West Florissant.

18 Q Okay. Now, was this a marked police car?

19 A It had police on it, Ferguson Police.

20 Q You could tell by looking at it, it was a
21 police car?

22 A Yeah, uh-huh.

23 Q And did it have like a light bar on it, do
24 you remember?

25 A Yeah, yeah, it was one of the regular

1 police cars of Ferguson, like the van thing like.

2 You know, it looked like a SUV or something like
3 that. I'm not for sure.

4 **Q** Were the lights on the car going, like the
5 red and blue lights, do you recall them being on?

6 **A** No, I don't, I don't recall that.

7 **Q** Okay. So was that police car when you
8 first saw it, was it moving or was it standing
9 still?

10 **A** It was sitting still, but it was kind of
11 like across the street so nobody can really get by,
12 you know what I'm saying?

13 **Q** Okay. So did you have to stop your car?

14 **A** Yes, yes, we had to stop.

15 **Q** And the car in front of you, was it
16 stopped also?

17 **A** Yes, it was stopped.

18 **Q** Do you remember anything about the car in
19 front of you?

20 **A** It was white and he turned around and then
21 I remember, I had to be close to one of those exits
22 there, one of those because I turned around in one
23 of those exits and went back out. And then I came
24 around to the back part and came in off of Chambers,
25 I came in off of Chambers back there.

1 **Q** So we'll get to that part. That happens
2 in a little bit, right?

3 **A** Right, uh-huh.

4 **Q** So you don't turn around immediately?

5 **A** No, no, I don't turn around immediately.

6 **Q** Okay. So there is a white car in front of
7 you?

8 **A** Uh-huh.

9 **Q** And could you see the people in the white
10 car, people or person?

11 **A** I wasn't really paying attention to them,
12 you know, I don't remember seeing them. I was
13 looking at the police truck really.

14 **Q** What did you see at the police truck?

15 **A** Well, the police and the young man, they
16 were struggling. The young man was standing outside
17 the window and the police inside the window. And he
18 had ahold of the young man, and the young man had
19 ahold of him, and they are struggling with one
20 another.

21 **Q** Okay. So could you see the police officer
22 inside the truck?

23 **A** I could see him, but not clearly, you
24 know, I could see him.

25 **Q** And how many police officers were inside

1 the truck?

2 **A** As far as I could tell, one.

3 **Q** Now you say there was a young man standing
4 outside the truck?

5 **A** Yeah, uh-huh.

6 **Q** Was he the only other person you saw
7 outside or around the truck?

8 **A** Yes, he was the only person that I really
9 saw, you know, by the police.

10 **Q** Can you describe anything about the man
11 that was standing outside the truck?

12 **A** Uh, as far as I could tell he was a young
13 man, tall, you know, and like I say, at the time,
14 you know, like I couldn't really see him clearly,
15 you know what I'm saying? I could see he was a
16 black young male standing there. I turned to Mr.
17 , I said, man, you see this, we've got to get
18 out of here.

19 We didn't leave immediately, you know
20 what I'm saying? I didn't want to get blocked in.
21 I had an appointment to be at, you know what I'm
22 saying?

23 **Q** Okay. Now, when you say that they were
24 struggling.

25 **A** Uh-huh.

1 **Q** And you said he had ahold of the officer's
2 shirt and the officer had ahold of his shirt?

3 **A** Right, uh-huh.

4 **Q** Okay. Was the officer sitting in the
5 driver's seat of the police car?

6 **A** Yeah, uh-huh.

7 **Q** All right. And as best you could tell,
8 was the police officer' window down?

9 **A** Yeah, uh-huh.

10 **Q** So each one is reaching through the
11 window?

12 **A** Right, uh-huh.

13 **Q** Did you see anything else going on in this
14 struggle?

15 **A** The next thing I heard was a shot, pow,
16 and then the young man took off running.

17 **Q** When they were struggling, did you see
18 anybody, either one of them punching or hitting the
19 other one?

20 **A** It looked like, looked like they were
21 going at it because I could see the young man, you
22 know, I could see him hitting at the policeman and
23 the policeman, you know, as far as I could tell was
24 going like this. And it looked like he was going
25 for his gun, you know what I'm saying? So I was

1 like.

2 **Q** Okay. So when you say it looked like he
3 was going --

4 **A** I say looked like it, I'm not for sure,
5 I'm not for sure.

6 **Q** Sure. And that's what we want to make
7 sure you describe why you think that.

8 **A** Right.

9 **Q** What was he doing that made you think --

10 **A** Because like when he leaned over like
11 this, I see his right hand disappear, you know, and
12 when we heard the shot, that's when I said, hey, it
13 is time for me to go. You know, I turned around,
14 like I said, one of those driveways down there it is
15 to the left, because I was headed on West Florissant
16 is from behind.

17 I was going up this way, I turned
18 around in one of them driveways. I see people
19 standing out and stuff like that. And then I backed
20 out and I headed out. As I was leaving, I heard
21 three more shots as I was leaving. I didn't see
22 them, I heard three more shots as I was leaving.
23 (indicating)

24 **Q** Let's go back to the point where you are
25 still on the street.

1 **A** Right.

2 **Q** Did you ever get out of your car?

3 **A** Oh, no.

4 Q Okay. So you're still, yes.

5 It is really
6 helpful, there is a lot of he, he went for his gun,
7 if we could use the officer's name, as we know now
8 Michael Brown, it would really help.

9 **A** I'm sorry, I couldn't hear a word.

10 If you could, maybe you
11 can report it better.

12 MS. ALIZADEH: Okay. You know what, what
13 I'm kind of letting him do is to kind of let him
14 narrate what happened and then I'm going to go back
15 hopefully and clarify when he says this, who are you
16 are talking about.

17 Thanks.

18 MS. ALIZADEH: If I don't make it clear to
19 anybody, please raise your hand and ask.

20 Q (By Ms. Alizadeh) So, sir, what the
21 was referring to when you say he did this and he did
22 that and he did this and he did that.

23 **A** Uh-huh.

24 Q We don't know which he you are talking
25 about.

1 **A** Okay.

2 **Q** So the police officer was a man, correct?

3 **A** Right.

4 **Q** And the guy outside the truck, he was also

5 a man?

6 **A** Right.

7 **Q** Did you know, when you saw the man at the

8 truck.

9 **A** Uh-huh.

10 **Q** Outside the truck?

11 **A** Right.

12 **Q** Had you ever seen him before that day?

13 **A** No, I haven't.

14 **Q** Was he white or African-American?

15 **A** African-American.

16 **Q** Could you tell whether the officer was

17 white or African-American?

18 **A** He's white.

19 **Q** Okay. So do you now know that the guy

20 outside the truck, do you know what his name is?

21 **A** Yes, uh-huh.

22 **Q** What do you know now his name was?

23 **A** Michael Brown.

24 **Q** Let's use his name, even though you didn't

25 know him back then.

1 **A** All right.

2 **Q** And that way we will know, we will be
3 clear on who is doing what. Had you ever seen that
4 police officer before?

5 **A** No, I haven't.

6 **Q** Do you know any Ferguson police officers?

7 **A** No, I don't.

8 **Q** Do you know that officer's name now?

9 **A** No, I still don't know his name. I heard
10 it on TV, like I say, it don't stick with me, you
11 know.

12 **Q** So for now let's call him the police
13 officer?

14 **A** All right.

15 **Q** And then we will talk about the other man
16 being Michael Brown, okay?

17 **A** Uh-huh.

18 **Q** So when you say, let's go back then just
19 to clarify. Michael Brown had his hand on the shirt
20 of the officer?

21 **A** Yes.

22 **Q** And the officer had his hands on Michael
23 Brown's shirt?

24 **A** As far as I could tell, looks like both of
25 them had ahold of each other.

1 **Q** Okay. And you describe somebody is
2 punching or doing punching motions, which one was
3 doing the punching or both?

4 **A** I saw Michael punching a couple times
5 through the window, I would say a few times.

6 **Q** Okay. And did you ever see the officer
7 punching Michael?

8 **A** No. It seemed like, first when hitting
9 and stuff and the officer hand disappeared, I saw
10 the officer hand disappear and I heard a shot, that
11 was it.

12 **Q** Okay. About how long from the time you
13 came around here to see the officer, when you came
14 around and first saw the truck, was Michael Brown
15 already at the driver's --

16 **A** He was already there at the truck. They
17 was right in the middle of the street.

18 **Q** Okay. When you first saw them, were they
19 already struggling?

20 **A** Yes, uh-huh.

21 **Q** So for the time you first saw them until
22 you heard the gunshot.

23 **A** Uh-huh.

24 **Q** How long did you see that struggle?

25 **A** To me it look like they struggle before

1 the officer got his hand on his gun. They struggle
2 probably about, I don't know what, as far as I could
3 see two or three minutes, I say two or three
4 minutes.

5 Q Okay. And from what you could see.

6 A Uh-huh.

7 Q And I'm asking you to give me an
8 assumption, and if you can't, then say I couldn't
9 really tell you.

10 A Okay, all right.

11 Q Did it look like one person was winning
12 the struggle or one person had the advantage in the
13 struggle or was it even?

14 A I really can't answer that because like it
15 was happening so fast. And like I told you, you
16 know, if I can't tell the story right away,
17 sometimes I forget things, you know, so I don't want
18 to put that, but as far as I could tell, you know,
19 like Michael hit him a few times. He had ahold of
20 Mike real close through the window and the officer,
21 both of them struggle to hit one another.

22 And I see Michael hit him a couple
23 times and then all of the sudden I see the officer
24 lean over, one of his hands disappear and then the
25 guy I was with , I heard a shot, pow, and Mike

1 Brown took off running.

2 Q Did you ever see the officer's gun when
3 you heard that pow?

4 A I didn't see it when I heard the pow, I
5 heard the gun once the officer got out of the truck.

6 Q Okay. So when you heard the pow, you
7 didn't see the gun outside the car?

8 A No, no, no, no, I didn't see it outside
9 the car. All I heard was a pow. I was in the midst
10 of getting out of there then.

11 Q Okay. And when you heard the pow, is that
12 when you're like, okay, I got to get out of here?

13 A Oh, yeah, I said it was time to go. As
14 soon as we got room enough to turn around, we left.

15 Q But you saw some things before you got
16 turned around?

17 A Before I got turned around, yes.

18 Q So let's go back now. From the time of
19 the pow, the gunshot. Did you recognize that as a
20 gunshot, had you ever heard a gunshot before?

21 A Oh, yes, yes, I recognize the gunshot.

22 Q Okay. You just heard the one at that
23 point?

24 A At that point in time, yeah.

25 Q And so what did Michael Brown do when you

1 heard pow?

2 **A** He took off running, and then the officer
3 got out of his truck and the officer had his gun
4 down to his side like that. Looked like the officer
5 was reaching up to his thing he had on his shirt
6 that he talked through, and then the kid ran a piece
7 off. And he stopped, he was behind a car, looked
8 like he had both of his hands on the car.
9 (indicating)

10 **Q** When you say he, are you talking --

11 **A** Michael Brown.

12 **Q** Okay.

13 **A** And then the officer was coming towards
14 him and then look like Michael Brown started coming
15 back towards the officer, right. And then that's
16 the last I saw of him, right. And then I was turned
17 around like this, I was backing out, turned around,
18 I seen it was clear, I took off. I heard three more
19 shots right before I started forward, like pow, pow,
20 pow, like that. And that was the last that I saw
21 until I heard the rest on the news.

22 **Q** Okay. So let's go back then from the time
23 that you saw Michael Brown start to run away, which
24 direction was he running?

25 **A** He was coming back this way. Michael

1 Brown, say if the police car was sitting right
2 there, he was coming back this way and then there
3 was another car sitting like here or something, I'm
4 not for sure, but that's where he stopped at. And I
5 said to myself in my head, you know, I think that
6 kid probably got hit, man. (indicating)

7 Q Hit, what do you mean hit, by a car?

8 A Got shot, got shot.

9 Q Got shot. Okay. When you say, man, that
10 kid probably got hit?

11 A Right.

12 Q You mean Michael Brown?

13 A I mean Michael Brown.

14 Q Okay. So let's go step by step here. So
15 when you saw Michael Brown turn, run away from the
16 police car.

17 A Uh-huh.

18 Q Did he stay in the street or did he run to
19 a building?

20 A Right in the middle of the street.

21 Q Running down the middle of the street?

22 A Right.

23 Q You said saw the officer get out of his
24 car?

25 A Yeah.

1 **Q** Did the officer get out of his car right
2 away or was there a few moments before he got out or
3 do you recall?

4 **A** As far as I can recall, after Michael
5 Brown took off running, the officer got out of his
6 car. It was pretty quick, you know what I'm saying?
7 I couldn't say he sit there a long time, it was
8 pretty quick he got out of his car.

9 **Q** Okay. I'm just guessing, you tell me if
10 I'm wrong. So if Michael Brown started running.

11 **A** Right.

12 **Q** By the time the officer got out of his
13 car, Michael Brown had a little bit of a head start?

14 **A** He wasn't that far away from him as far as
15 I could remember. Michael Brown probably run about
16 two and a half car lengths or maybe three, something
17 like that.

18 **Q** Okay. And so you said the officer had his
19 gun when he got out of the car?

20 **A** Yes, uh-huh.

21 **Q** Where was his gun, in his hand?

22 **A** Yeah, he had it in his hand down by the
23 side.

24 **Q** All right. And you used your right hand,
25 do you recall it being his right hand?

1 **A** As far as I can tell. When he got out of
2 the door, he's in front of me and he had the gun
3 down to the side of his leg like this, and you know,
4 watching which way they run and he started to chase
5 Michael Brown too. (indicating)

6 **Q** Okay. So when you say he started to chase
7 Michael Brown.

8 **A** Uh-huh.

9 **Q** Let's clarify also. Was Michael Brown
10 running, was he walking?

11 **A** He was running. And then it looked like
12 he couldn't go no further, he stopped and put his
13 hand on the back of the car. And I recall that car
14 was brown or gold or something like that, as far as
15 I can recall.

16 It looked like Michael Brown, when
17 he's coming toward Michael Brown, Michael Brown took
18 his hands off the car and was coming towards the
19 officer.

20 **Q** Okay. So when you saw Michael Brown
21 running away.

22 **A** Uh-huh.

23 **Q** Could you tell if he had been shot? Could
24 you see anything?

25 **A** I couldn't tell if he had been shot.

1 That's when I said, well, he must have got hit
2 because that's all the further he ran. I know if
3 somebody shot at me, I would run further than that.

4 Q Sure.

5 A You know what I'm saying?

6 Q So you only are guessing that he might
7 have been hit because he didn't keep running?

8 A Right, he might have been hit from the
9 first shot in the car.

10 Q So from the time the officer got out of
11 his car, and you said he chased Michael Brown, so
12 describe how he was moving, was he running, was he
13 walking?

14 A The officer?

15 Q Yes.

16 A The officer, can I stand up?

17 Q Yeah.

18 A The officer kind of got out of the car, he
19 is doing this over here, looks like he was talking
20 through his thing and Michael Brown was running
21 probably from here to that young lady there. And
22 he's coming behind him and look like Michael Brown
23 just got tired all at once or couldn't run no
24 further, put his hand on the back of the car.

25 And then the police still coming at

1 him, he took his hand off the car and was walking
2 towards the police, I guess, it was walking or
3 running, I'm not sure, but he was coming towards the
4 officer and that's the last I saw.

5 Q Okay. When you saw the officer, you said
6 you saw him chasing Michael Brown, but what you did
7 was kind of like, I'm doing this? (indicating)

8 A It was a trot.

9 Q A trot?

10 A Yeah, a trot.

11 Q So you describe that as a trot?

12 A Right, uh-huh.

13 Q He had his gun down at his side.

14 A Right.

15 Q Did you ever see him once he got out of
16 the car, did you ever see the officer point his gun
17 at Michael Brown or in Michael Brown's direction?

18 A Not after he got out of the car.

19 Q You never saw that?

20 A I never saw that.

21 Q Okay. Did you ever hear the officer say
22 anything?

23 A I wasn't close enough to hear.

24 Q What about Michael Brown, did you ever
25 hear him say anything?

1 **A** No, I couldn't hear him say anything.

2 **Q** How about at the truck, could you hear
3 yelling cursing --

4 **A** No, I couldn't hear nothing.

5 **Q** When you saw Michael Brown, you said he
6 ran a good piece or a piece, and then he stopped and
7 he put his hands on the back of the car?

8 **A** Uh-huh.

9 **Q** Was this a car that was in the roadway?

10 **A** Yes, it was parked back towards West
11 Florissant the car was.

12 **Q** Okay. Did it appear that it was parked
13 out in the street?

14 **A** It was stopped like somebody stayed there.

15 **Q** Like somebody else who had to stop?

16 **A** No, there was no one in that car, I
17 remember that.

18 **Q** Okay. You didn't see anyone?

19 **A** I didn't see anyone in that car.

20 **Q** Let's be clear on this. Could you see
21 inside the car and say no one was in it?

22 **A** It was clear. Usually you see a shadow.
23 I was further enough away from the car if someone
24 was sitting in there, I probably could have seen a
25 shadow. I didn't even see an shadow from someone

1 sitting in it. So I can't say 100 percent there was
2 someone in there or not.

3 Q So you didn't see anybody in that car?

4 A No, I didn't see anybody in that car.

5 Q You think it was a brown or gold car?

6 A Right, it was a brown or yellow car.

7 Q Was it regular car or was it a SUV or a
8 van?

9 A It look something like a Mercury, you
10 know, like one of the older Mercuries. I'm not for
11 sure it is even a Mercury or not, maybe a Ford. It
12 was something on this side of the street headed this
13 way. (indicating)

14 Q Okay. And so, and the way you described
15 it that he put, Michael Brown put both of his hands
16 on the back of that car?

17 A Right, right, uh-huh.

18 Q Now, we know Michael Brown was a tall guy,
19 big guy?

20 A Right.

21 Q When you say the back of the car, was it
22 like on the trunk area?

23 A Right, it was on the trunk.

24 Q So was he leaned over at all?

25 A Right, right, he had his hands on the

1 trunk. (indicating)

2 Q All right. And so how long in seconds or
3 minutes, if it was minutes, did he stay there,
4 Michael Brown, stay there with his hands on the
5 trunk of that car?

6 A As far as I know maybe a minute and a
7 half, two minutes maybe.

8 Q When he was staying there with his hands
9 on the trunk of the car, did the officer continue to
10 move toward him?

11 A The officer continued towards him.

12 Q Was the officer firing his weapon as he
13 was moving towards him?

14 A No, I didn't see him fire.

15 Q And then you said at some point you see
16 Michael Brown walk towards the officer or come
17 towards the officer?

18 A Right.

19 Q So can you describe how he was coming,
20 running, walking, trotting, staggering, stumbling?

21 A He was walking towards the officer, but it
22 wasn't trotting. Can I get up?

23 Q Sure.

24 A Say he was the officer, and he has got his
25 hands like that, so the officer started coming

1 toward him, so he got off the trunk and he was
2 coming towards the officer like that. (indicating)

3 Q Okay. So when he was, had his hands on
4 the trunk.

5 A Uh-huh.

6 Q Was he totally behind the car?

7 A Yeah, yeah, he's behind the car. But the
8 right on the edge. Say this is the car there and
9 that's West Florissant over there, he was like on
10 this side, you know what I'm saying? That side was
11 toward the curb and he didn't have to walk too far
12 around the car.

13 Q So when he had his hands on the trunk,
14 would he had been facing the officer at that point?

15 A Yes.

16 Q So when he was running away, at some point
17 then he had to turn to get behind that car and put
18 his hands on the car?

19 A Excuse me, as he's running away, looked
20 like he got tired, and he did like that. He just
21 got turned like that. (indicating)

22 Q After a minute or two, or whatever, you
23 said he had his hands on the back of the car?

24 A Uh-huh.

25 Q On the trunk of the car, did he then stand

1 back up and come towards the officer?

2 **A** He never did go down. He was just
3 standing behind the car. The officer --

4 **Q** I stand back up, that was my choice of
5 words, that was wrong. I meant, you know, you
6 talked about he was leaning over a little bit.

7 **A** Yeah.

8 **Q** So did he come back up standing upright
9 and then move towards the officer or did he stay in
10 that leaning position?

11 **A** He wasn't bent over coming towards the
12 officer, as far as I could tell. That's about the
13 last I saw of him.

14 **Q** Okay. When he was coming toward the
15 officer, and I know you're in the process at this
16 point of thinking, how can I get out of here, right?

17 **A** Oh, yeah.

18 **Q** And there was a car in front of you and
19 you were worried about hitting that car, right?

20 **A** Right, uh-huh, right. Before I turned
21 around, as the car was turning around, I was turning
22 around, you know what I'm saying?

23 And I seen a bunch of people out
24 there and I was backing out and was telling
25 me, come on back. And, you know, I came on back and

1 I turned around. By the time I got back to West
2 Florissant, there was a bunch of other officers car
3 coming.

4 Q Okay. So was there a car behind your
5 truck?

6 A Oh, yeah, there was a car behind me, but
7 they wasn't right up on me, you know what I'm
8 saying?

9 Q So when you saw Michael Brown coming
10 towards the officer, how were Michael Brown's hands?

11 A As far as I can tell, you know, after he
12 got out of the car, the last I saw him, that's the
13 last I saw him. (indicating)

14 Q And at that point, at some point towards
15 the end of this, though, are you looking at cars so
16 that you could try to back up?

17 A Yeah, because I made one turn. I make
18 that one turn up in here, I backed out and then I
19 head on out.

20 Q Okay.

21 A I never looked back after that. But after
22 I was backing out, I heard pow, pow, pow, I took
23 off.

24 Q So you heard another round of gunfire?

25 A Uh-huh.

1 **Q** Were you still on Canfield Drive?

2 **A** I was still on Canfield Drive, right.

3 **Q** And so when you saw Michael Brown walking
4 toward the officer, can you give me a guess or
5 estimate as to how many steps he took or how far he
6 walked?

7 **A** As far as I can tell it looked like two or
8 three steps to me, you know, something like that.

9 **Q** And then you took your eyes off of what
10 was going on?

11 **A** Yes, yes, ma'am.

12 **Q** So whatever happened after that you didn't
13 see it?

14 **A** Right, no. All I heard, when the police
15 officer coming, most of them, say if this was to
16 turn, I backed out and I turned and I was headed
17 that way. By the time I got up in there, all I
18 heard was pow, pow, pow.

19 **Q** So were you, when you heard pow, pow, pow,
20 this round of gunfire?

21 **A** Right.

22 **Q** Were you already facing --

23 **A** Yes. And the gentleman with me that I
24 call , he was looking back, you know. He said,
25 I think he just shot him again, you know what I'm

1 saying? I was watching traffic and trying not too
2 run into the policemen coming.

3 Q Okay. So the last time you saw Michael
4 Brown he was still walking?

5 A Right, he was still walking.

6 Q He wasn't on the ground?

7 A No, he wasn't on the ground.

8 Q Okay. And you heard a series of shots,
9 pow, pow, pow?

10 A Something told me like, to me it sounded
11 like three.

12 Q Okay.

13 A It sounded like three to me.

14 Q Did you ever hear any more shots after
15 that?

16 A No, after the three, I was almost at the
17 curb. I was West Florissant again, I was trying to
18 turn right to come in the back. Police cars was
19 coming with their sirens and stuff on, you know.

20 Q Okay. Number 34, do you remember seeing
21 another young African-American guy at or near those
22 cars that you described?

23 A I can't remember if there was somebody
24 else there or not, you know. Only somebody I seen,
25 I can't really remember.

1 **Q** Okay. Do you remember that when you, and
2 you remember September 3rd, so it was over a month
3 ago, but you remember on September 3rd, or
4 thereabouts, going and talking to a FBI agent and an
5 attorney named ?

6 **A** Right, right, right.

7 **Q** Do you remember telling them back then,
8 and I told you I was going to have a transcript of
9 your statement.

10 **A** Right.

11 **Q** But to be fair, you haven't heard your
12 statement?

13 **A** No.

14 **Q** Since you gave it, right?

15 **A** No, I haven't.

16 **Q** You know they recorded it right?

17 **A** Yes.

18 **Q** But you haven't had an opportunity to
19 listen to it?

20 **A** No, I haven't.

21 **Q** You haven't got a copy of the transcript?

22 **A** No.

23 **Q** But I told you I was going to maybe talk
24 about this if there were things that you didn't
25 remember?

1 **A** Right.

2 **Q** So when you say these things, you know,
3 you have to tell me if you remember saying this.

4 **A** Right, okay.

5 **Q** So do you remember on page seven, and I
6 will give you a copy that doesn't have my highlight
7 on it. So here is a copy of your transcript so you
8 see your name right there.

9 **A** Right.

10 **Q** And that's your attorney's name?

11 **A** Right.

12 **Q** So I'm just going to take you to about
13 page seven.

14 **A** Uh-huh.

15 **Q** And I don't say this to embarrass you, can
16 you read, okay?

17 **A** No.

18 **Q** Okay. You want me to go ahead and read it
19 for you?

20 **A** Yes, please do.

21 **Q** Okay. So on page seven, do you remember
22 the county police officer's name, Detective ,
23 do you remember that at all, ?

24 **A** No, I don't remember his name. I remember
25 him coming to me.

1 **Q** Okay. So do you remember up at the top
2 and saying, okay. How many people did you see
3 outside the car?

4 And then you say, outside the car?

5 And he says, uh-huh.

6 And you say, there was just him and there
7 was another black guy standing back behind the
8 police car.

9 **A** If I said it, you know, like it is true.
10 But like I say, you know, I do have a problem with
11 my memory sometimes like I say, let me go too long,
12 I can't tell you what I ate for breakfast this
13 morning.

14 **Q** And that's me to.

15 **A** Yeah, uh-huh.

16 **Q** Remember I said I'm only using this to see
17 if you remember saying that.

18 **A** Okay, uh-huh.

19 **Q** Now, and you're saying, hey, if I said it,
20 I said it, I believe you, right?

21 **A** Right, right, I believe you, right.

22 **Q** But what I'm saying is that me saying
23 that, does that remind you of it?

24 **A** All right. Well, as far as I can tell,
25 really, I can't recall the other black guy. But

1 like I said, the gentleman with me, he told me, you
2 know, me and him, you know, we had talked about it.

3 Q Okay.

4 A And he said, yeah, there was one black guy
5 that was standing back there by the car also, you
6 know what I'm saying?

7 Q Okay.

8 A If I said it to them like at that time,
9 you know, that's what I said.

10 Q Okay. So when you spoke to the federal
11 agents and the county detective back on
12 September 3rd. At that time were you telling them
13 as best you could what you remember from that day?

14 A As best I could, right.

15 Q So did you, were you truthful about
16 everything as best you could?

17 A I was truthful about everything that I
18 remember, that I could remember.

19 Q All right. And so after you and got
20 out of there, where did you go?

21 A Uh, I came back around and I came into the
22 back of the Canfield Apartment, came back up to
23 Chambers, I came back up West Florissant to
24 Chambers, took a right on Chambers and I went down
25 right there by the fire station, I think it is Green

1 or something like that you come in, I'm not for
2 sure. I think the name of the street is Green.

3 I came into the back of the Canfield
4 Apartment, back there where they have that gate,
5 they have a gate back there like a railroad
6 crossing, you know, I came through that.

7 Q So it is blocked, there is a gate?

8 A It was open that day.

9 Q Okay.

10 A So I came through there. I went on back
11 around to the

12 Then

13 left, coming up there to see, you know, how
14 people come to see what's happening, you know. I
15 went back, went out the same way I came in and went
16 on to work.

17 Q So when you left, you left out west?

18 A Coming back toward West Florissant.

19 Q And then you somehow?

20 A Took a right on West Florissant and took a
21 right on Chambers and then I came into the back of
22 Canfield.

23 Q Okay.

24 A There's only two way in there that I know
25 of from right there and from the back side.

1 **Ω** And in the
2 complex here?

3 **A** Right, right, uh-huh.

4 Q Can you use the pointer and tell me do you
5 know what building they live in?

6 **A** No, but outside. could tell you
7 what street.

8 Q All right.

9 **A** I can't tell you what the name of the
10 street, I'm not that good really.

11 Q Do you know is it a building that is on
12 this side?

13 **A** Well,

14 Q This side?

15 **A** Say like coming up here and there is a

16

17 I come around here, where is the office. Do
18 you have the office on here?

19 Q I don't know.

20 **A** There is an somewhere, but I come
21 to a stop and then, and either this is it, I'm not
22 for sure which one you have to come down and go into
23 the back like that. (indicating)

24 Q When you came back into the Canfield Green
25 Apartment Complex, did you ever seem Michael Brown

1 again?

2 **A** No.

3 **Q** You didn't see his body in the street or
4 anything when you came back?

5 **A** No, no.

6 **Q** From where you were?

7 **A** I wasn't on this street any more where him
8 and the officer were. I never did come back to that
9 street until afterwards, maybe the next day or
10 something, you know. I seen where they had the
11 flowers and stuff like that out there.

12 **Q** But that day when you came back and went
13 to your ?

14 **A** Right.

15 **Q** From you could not see this?

16 **A** No, huh-uh. You couldn't even get back in
17 there no more, I just use the back way, I always use
18 the back way.

19 **Q** Did you ever see that police officer
20 again?

21 **A** No, I never saw him again.

22 **Q** Now, when you said that when you got out
23 of there, you saw officers coming into the complex?

24 **A** Right, uh-huh.

25 **Q** But the whole time you watch what was

1 going on between Michael Brown and the officer, was
2 he the only officer there?

3 **A** Yeah.

4 **Q** Okay. And then, so you say you went to
5
6

7 **A** Yeah, right.

8 **Q** And did you then walk down to this area at
9 all?

10 **A** No, not at all.
11
12
13
14

15 **Q** Okay. So --

16 **A** So that was that evening I had went to
17 work for about two or three hours and I came back.

18 **Q** All right. Now, so you know that there
19 were a bunch of police down here later after the
20 shooting?

21 **A** Oh, yeah, I seen them coming in and
22 passing me. As I was making it to Chambers, police
23 started coming, you know.

24 **Q** But you didn't tell the police, you didn't
25 stick around that day to tell them what you saw?

1 **A** No, I didn't stick around to tell nobody
2 nothing.

3 Q Why not?

4 **A** Number one, you know, like I figure, you
5 know, like I already been in trouble with the
6 police, right.

7

8

9 , he, what you call
10 that, when they let you go, what they call that.

```
11      Q      You did your sentence?
```

12 **A** He said I didn't do the crime, okay. And
13 they figure me no way in that case, you know what
14 I'm saying?

15 Q Okay.

16 **A** I kept telling them that. When I came to
17 talk to officers like I'm talking to you now, try to
18 tell them. Then they just throw me right now, just
19 because I wouldn't testify against people, you know
20 what I'm saying?

21 Q So --

22 **A** I did
23 that I will never get back, you know what I'm
24 saying?

25 **Q** So do you have a general distrust of

1 police officers?

2 **A** Yes, I do.

3 **Q** So you don't like to be --

4 **A** I don't like them. I know we can't live
5 without the police, okay, because this world would
6 be messed up, you know. You turn the TV on all the
7 time people killing people every day, but I don't
8 like it when they make a mistake like that and don't
9 try, you know, to straighten them out.

10 If someone is telling you over and
11 over, hey, I didn't do it. At least take the time,
12 you know, try to see what's going on, you know what
13 I'm saying?

14 Like I say, I don't want to see
15 Michael Brown's family, I don't know how to say
16 this, I don't want to see nobody hurt. I'm the type
17 of person, I don't believe in convicting nobody. I
18 don't believe in accusing nobody of nothing, I don't
19 really know, you know, what I'm saying. I just
20 don't like hurting people.

21 **Q** So that day you didn't go talk to the
22 police, but at some point you were talking to
23 federal authorities and a county detective on
24 September 3rd, how did that come about?

25 **A** They came to my house, they came to my

1 house and because, I guess, they seen the
2 or they heard somebody saying that I told I
3 know something or something, I don't know, but
4 anyway, but Wednesday they showed me a picture of my

5
6 They got my , which is my
7 , but I drive it. They went to my
8 and they talked to

9 As far as I can tell, he told
10 them

11 He told them my name and stuff so they start
12 looking me up. I used to live on , I moved
13 off , I moved to a different street and now,
14 you know.

15 Q I don't want you to stay where you live,
16 okay?

17 A Right, right.

18 Q So you're saying that basically the police
19 found you?

20 A Right, right.

21 Q It was because of your ?

22 A Right, right, and then I went to talk to
23 them then because I didn't want to get involved and
24 they gave me a subpoena to come down there to talk
25 to them. The subpoena, I guess, like you sent me,

Page 50

1 you know what I'm saying? So I called my lawyer and
2 asked him, you know, could they do that, you know.
3 I said, man, I'm here to mind my own business just
4 trying to enjoy my life, you know what I'm saying?
5 I want to live what I got left. He said, yes, you
6 got to go, he said instead of going, he called the
7 officer and I don't know if he called the officer or
8 the officer called them so he could meet with them.
9 So we met with them and talked to them and then I
10 didn't have to go to this thing here, right. So we
11 met them the day before or two days before, I'm not
12 for sure.

13 Q Let's go back just to clarify. You
14 actually were given a subpoena to testify in a
15 but a
16 different one?

17 **A** Right, right, right, not this one.

18 Q And that's because the police somehow
19 found you because of your ?

20 **A** Right, that's what I'm figuring.

21 Q And that's what they told you, they showed
22 you a picture of your and said this is your

24 **A** Yeah.

25 Q And you said, yeah?

1 **A** Yeah, I was driving.

2 **Q** And here is the subpoena?

3 **A** Right. They want something that I didn't
4 really care for, they said, you come down here of
5 your own free will. No, I didn't come on my own
6 free will, I came because you told me I had to, you
7 know what I'm saying?

8 **Q** So once you got the subpoena, you talked
9 to your attorney and your attorney arranged for you
10 to come in and be interviewed?

11 **A** He said he would be there with me because
12 like, like you say, I don't trust the police to sit
13 there and talk to them. There's some type of way,
14 you know, I don't use all my words right like most
15 people, but, you know, like they take what I say and
16 twist it towards me, you know, like ever since then,
17 I just haven't been comfortable.

18 **Q** Okay. So that's how you ended up making a
19 statement to federal agents is because your attorney
20 worked it out that you could come in and be
21 interviewed rather than testify, right?

22 **A** That's right.

23 **Q** And now you know that I had you served
24 with a subpoena to come here today, right?

25 **A** Okay, uh-huh.

1 **Q** And so when you say you're here of your
2 own free will, you are only here because I
3 subpoenaed you?

4 **A** Right, correct.

5 **Q** Are you telling the truth today?

6 **A** Yes, yes, you know, like I said, you know,
7 I've been called a lot of names, but lying isn't one
8 of them.

9 **Q** I told you are not in any trouble?

10 **A** Right, right.

11 **Q** We want you to tell us what you saw,
12 right?

13 **A** Right, right.

14 **Q** Have I treated you fairly?

15 **A** Oh, yes, you know, right, but do you
16 believe me when I say I just want to be left alone
17 and just live my life, you know, treat everybody
18 nice, go to church every now and then. I just want,
19 that's all I want, you know.

20 **Q** I think a lot of people would have really
21 rather not have been involved in this?

22 **A** Yeah, you know.

23 **Q** But here we are, right?

24 **A** Yeah, you know.

25 MS. ALIZADEH: I don't have any further

1 questions and I told you Sheila may have some
2 questions.

3 **A** Right, uh-huh, okay.

4 MS. WHIRLEY: Okay. Number 34, using that
5 map, when you heard the first shot at the car.
6 First of all, do you have a good idea looking at
7 this map where you were when you heard that first
8 shot?

9 **A** Map, I can't really be sure, but it was
10 somewhere. I figure it was somewhere in between
11 here and here. (indicating)

12 **Q** (By Ms. Whirley) The car was here?

13 **A** I can't say definitely, you know what I'm
14 saying? But it was somewhere between there I was,
15 you know what I'm saying?

16 **Q** Can you say in car lengths how far away
17 you were?

18 **A** Yeah, from the police, about from I say --

19 **Q** About how many car lengths would you say?

20 **A** One car was in front of me, I say about
21 two, three car lengths.

22 **Q** Okay. From the police car?

23 **A** Right, uh-huh.

24 **Q** You didn't see the beginning of the tussle
25 is my understanding?

1 **A** No, ma'am.

2 **Q** How is your eyesight?

3 **A** Well, it is not good.

4 Q What do you mean?

5 **A** I wear glasses, but I lost my glasses and
6 I can't afford any more right now so, but during the
7 time they had me they gave me some
8 free ones. I accidentally broke them once doing
9 work. And the government, I got some free ones,
10 they won't help me get no more until a certain
11 length of time.

12 Q When you say it is not good, what do you
13 need glasses for?

14 **A** I'm kind of like farsighted you know what
15 I'm saying? Like something close up I can see
16 pretty good, but something a distance off.

17 Q So when you're looking at longer distances
18 you don't see well?

19 **A** No, no, I don't.

20 Q All right. How about your hearing?

21 **A** Hearing is not good at all.

22 Q What do you mean?

23 **A** I mean, I've been having problems with my
24 ear for the longest, you know. Like the gentleman
25 there right here, I guess, was saying something, I

1 could hear him mumbling, but I couldn't hear him,
2 you know what I'm saying? Sounds like he was
3 mumbling, I'm not say he was mumbling, you know what
4 I'm trying to say?

5 Q You can hear me pretty well I can tell?

6 A I can hear you very well.

7 Q And you mention your memory, tell us what
8 problems do you have with your memory?

9 A Well, you know, , my
10 and God knows I pray I don't
11 have it. I forgets a lot of things.

12 I just
13 told you, my , I'm with my tells me
14 I just told you, you know, like that. And some of
15 the for, I had to go back to them like
16 a few times and asked them is this what you said you
17 wanted. I think they may have told me.

18 Q You say you have a family history of
19 ?

20 A Yes, I do.

21 Q You have problems with your memory now?

22 A Yes, uh-huh. I have a doctor appointment
23 for the that was the earliest he could get me
24 in there. I'm on different medications.

25 Q Are the medications for your memory?

1 **A** No, not yet, but I have seen a
2 before and now they're sending me to, I
3 guess, you call it a memory doctor, you know. I'm
4 supposed to meet with them on the that I can
5 think of.

6 **Q** Were you having memory problems back in
7 August, when did your memory problems start, is the
8 question?

9 **A** Oh, it has been before then. It has been
10 with me for a while, you know what I'm saying? Off
11 and on.

12 **Q** Okay. You take, you do or you don't take
13 medicine for it?

14 **A** No, not for the memory yet.

15 **Q** Okay.

16 **A** I take medicine for those migraines I have
17 like every morning, I mean.

18 **Q** Okay. At some point it sounded like you
19 said it appeared that Michael Brown was injured when
20 he, you know, ran and then stopped at the car. What
21 made you think he was injured?

22 **A** Because like anybody, I know I was a young
23 man once before myself. I know if I got shot at by
24 anybody, police or anybody, I would have ran farther
25 than that, you know what I'm saying?

1 **Q** Right. Was there anything physically that
2 he was doing that made you think he was shot?

3 **A** It looked like he was kind of out of
4 breath or something, you know, or just couldn't go
5 no further to me.

6 **Q** Okay. And that was the reason why you
7 thought he was injured?

8 **A** Right, uh-huh.

9 **Q** Okay. When you said that, let's go back
10 to the car when they were tussling at the car and
11 you saw the officer with one hand trying to, I
12 guess.

13 **A** I don't know what he was trying to do, but
14 I know both of them had ahold of one another's
15 shirt.

16 **Q** I want to go to the part where you said
17 that the officer, you could see him as if he was
18 going for his gun?

19 **A** I saw him like this, I seen him lean over
20 like this, right, and next thing I heard was a shot,
21 pow. (indicating)

22 **Q** Okay. Let me ask you a question. When
23 you saw him leaning as if he was getting a gun right
24 before you heard that shot, could you see Michael
25 Brown's hands?

1 **A** Yes, you know, he was outside the window,
2 you know, looked like he was -- was staring at the
3 officer too.

4 **Q** Were both his hands outside the windows?

5 **A** No, looks like one of them trying to hit
6 the officer.

7 **Q** He was hitting the officer?

8 **A** Looks like he was trying to hit him, okay,
9 right. But to me the officer was like this and the
10 officer went like this, there wasn't no time I heard
11 pow. (indicating)

12 **Q** Okay. So the officer went like, the
13 officer -- Michael Brown's hands and the officer's
14 hands are kind of at each other?

15 **A** Right, uh-huh.

16 **Q** And then the officer goes like towards the
17 gun?

18 **A** He leans inside.

19 **Q** Let me finish that question. He appears
20 he goes to get his gun?

21 **A** Uh-huh.

22 **Q** You don't see Michael Brown inside the car
23 going like to the gun too?

24 **A** No, I didn't see that, no.

25 **Q** Okay.

1 **A** As far as I can remember I didn't see
2 that.

3 **Q** All right. You mention, I thought you
4 said, I'm not sure that you did, you
5 for something you didn't do?

6 **A** Right.

7 **Q** What was that, what was the crime?

8 **A** They

9
10 , okay, but I was somebody
11 walking around every day without a car and without
12 good clothes to wear. How I had all of that, you
13 now what I'm saying?

14 **Q** And you said you had been in trouble with
15 the police, do you have any convictions?

16 **A** Yes, I do.

17 **Q** What do you have?

18 **A** I have a drug conviction also.

19 **Q** A drug conviction that you were guilty of?

20 **A** Yeah, I was guilty of that one, yeah,
21 uh-huh.

22 **Q** Anything else?

23 **A** Well, I had, I had some other things that
24 come through life, as I was coming to life, me and
25 this guy got into it. They got me for firing a

1 weapon at this guy, like this guy had threatened my
2 life, okay.

3 Q Okay.

4 A That was back in the day, that was back in
5 the early, late , it was late , right.

6 Q Anything else, any burglary or stealing?

7 A No, no, that was about it.

8 Q Okay.

9 A I'm sorry, I'm sorry, ma'am, yes, I did.
10 They charged me with a burglary crime also.

11 Q Was that an unjust charge?

12 A Uh, well --

13 Q Did you get convicted of it?

14 A No, I don't think I did, but it is still
15 on my record, it still was on my record. Now it is
16 probably off it has been over years ago.

17 Q Okay. That day when you talked to the
18 federal agents, I think it was back in September I
19 think Kathi said. Let me see, I have September 3rd.

20 A Uh-huh.

21 Q Did they ask you was anyone with you and
22 you said no?

23 A I said no at first because I didn't want
24 to put nobody else in that, you know what I'm
25 saying? But my lawyer stopped it. He told me, he

1 said, , you know, tell them the truth. Was
2 somebody else with you? I told my lawyer no, I
3 don't want to put nobody else into, you know, the
4 mess. I didn't even want to be there.

5 **Q** That's why you didn't want to tell them
6 about that person that was with you?

7 **A** Right, uh-huh.

8 **Q** Okay. When you said that there was a shot
9 and then Michael Brown ran and then you saw Michael
10 Brown hesitate on the car as if he's maybe injured
11 or something, and then he turns around and faces the
12 officer?

13 **A** When he was on the car, he could see the
14 officer coming. Like I say, if this is the car,
15 that gentleman right there, the policeman coming at
16 me with the glasses on, okay. Michael Brown, the
17 whole car, he was on this side of the car and if the
18 car, West Florissant down here and Canfield right
19 like this, he is on this side of the car. And the
20 officer was trying to come up towards Michael.

21 **Q** The officer was trotting towards Michael?

22 **A** Right, right, right, with his gun down to
23 the side.

24 **Q** Was Michael facing the officer?

25 **A** Yes, oh, yeah, he was there, you know what

1 I'm saying?

2 Q Okay. At this point he had turned around
3 from running?

4 A Right, right.

5 Q So he's facing the officer and the officer
6 is trotting towards him?

7 A Right, uh-huh.

8 Q And then Michael is then walking towards
9 the officer?

10 A Right, uh-huh.

11 Q What I want to know is what the officer
12 was doing when Michael was walking toward him, you
13 said he was trotting?

14 A Yeah, yeah, he was coming up toward him.

15 Q Show us, please, I'll walk towards you.

16 A Right, right. You come closer.

17 Q Okay.

18 A Michael Brown like that, and Michael Brown
19 came off the car and then by that time everybody --

20 Q I'm walking towards you, I want you to be
21 the officer and show me what the officer is doing.

22 A All right. You know, he's like this.

23 Q Okay. He did not have his gun?

24 A He had his gun holding it right here.

25 (indicating)

1 **Q** He's holding it down, that's what you saw?

2 **A** Right, that's what I saw.

3 **Q** And is that the last thing you saw?

4 **A** That's the last thing I saw.

5 **Q** You didn't see Michael Brown's hands up?

6 **A** No, I didn't. Like I say, when I seen
7 Michael Brown, he was one or two steps from the car.

8 **Q** Okay.

9 **A** As a matter of fact, when I seen him
10 coming off the car like this, that's the last I saw
11 of him. (indicating)

12 **Q** You didn't see Michael Brown charging the
13 officer?

14 **A** No, no, I didn't see him charging.

15 **Q** Okay.

16 **A** As far as I can remember, I don't remember
17 him charging. I remember he was coming off the car
18 and when I turned around, like I said, I heard three
19 shots and my friend was looking back. And he said,
20 I call him my friend, but anyway oh, man, he shot
21 him again, you know. Hey, I'm trying to watch these
22 policemen coming in and watch the people, you see
23 what I'm saying?

24 **Q** You didn't see if he was shooting at him
25 when he was running away from him?

Page 64

1 **A** I heard three shots, I think it was three.

2 Q And again, just for clarity. From what
3 you saw, there was no struggle for the gun, the
4 officer just grabbed the gun and shot?

5 **A** I don't think there was a struggle for the
6 gun that I could tell.

7 Q Okay. All right, questions?

8 You
9 had mentioned before when you first say, you said
10 that the officer had the gun in his right hand?

11 **A** Yes, ma'am.

12 : When he's out of the
13 vehicle?

14 **A** Right.

15 : He had his gun in his
16 right hand, his hand is down by his side, by his
17 right side.

18 **A** Right, uh-huh.

19 : And the gun is pointed, I
20 guess, basically towards the ground?

21 **A** Right.

22 : Is that correct?

23 **A** Right.

24 : And then you made a motion
25 that he spoke into his shoulder mike?

1 **A** Right, right, uh-huh.

2 : Okay.

3 Did you

4 see any cars lined up behind the police vehicle

5 coming the opposite direction other than the one he

6 put his hand on?

7 **A** To tell the truth, I really can't say I
8 did. I don't remember. On the car I was paying
9 attention to was the one he had his hands on. I
10 thought the kid was hit, I thought Michael Brown was
11 hit, you know. I told Mr. I said that kid
12 must have got hit, you know.

13 MS. WHIRLEY: Anything else?

14 . Why do you
15 think, a couple questions, my first question for
16 you. When Michael Brown was walking towards the
17 officer, how would you describe that. You showed us
18 he was walking, how would you kind of describe, was
19 he walking aggressively, did he seem to be charging
20 in any sort of manner, was he just casually walking,
21 how would you describe his movement toward the
22 officer?

23 **A** Well, I can't say it was aggressive, but
24 you know, what I could not understand, you know
25 like, well, good God, after he got hit fall, he just

1 fall on the ground or lay on the ground, you know,
2 like that's what I am used to from police come up,
3 keep your hands clear or lay down on the ground or
4 something, you know what I'm saying?

5 MS. WHIRLEY: That makes me think of a
6 question. Did you see Michael Brown ever go for, as
7 if he was going for a weapon?

8 **A** No, I never saw that.

9 MS. WHIRLEY: You never saw a weapon?

10 **A** No, I never saw.

11 MS. WHIRLEY: Did you ever see him like
12 reach in his pants as if he is going for a weapon?

13 **A** No, I didn't.

14 MS. WHIRLEY: All right.

15

16 It is about the timeframe, the amount of time that
17 you said that this all took place. I do this too, I
18 will say a minute or two. A minute or two is kind
19 of long.

20 **A** Yes, uh-huh.

21 : So do you think that
22 Michael Brown was behind that car holding on for a
23 full minute or two, or do you think you were just
24 doing that to describe, you know, like a minute is,
25 the police officer would have plenty of time to get

1 to him if it was a full minute or two?

2 **A** Right, it may have been quicker, I can't
3 really say, but you know, I say a minute or two
4 cause I tell you at home, I see you in a couple
5 seconds. I know it isn't going to be a couple
6 seconds but I say a couple seconds, you know what
7 I'm saying?

8 : Right.

9 **A** I say a minute or two, that's the best of
10 my knowledge.

11 : Okay. And on your
12 recorded statement, they have asked you what was
13 going through your mind and what was happening as
14 you were turning around. And you said it just blows
15 your mind. What blows your mind. And you said, it
16 blew my mind because like I couldn't believe, you
17 know, like this ain't happening, why are people
18 tussling with the police, just talk to them, you
19 know.

20 So do you believe that if he would have
21 stopped and gotten on the ground, do you believe
22 that things would have turned out differently or do
23 you believe that it still would --

24 **A** I believe it would have turned out
25 differently as most people, when the police stop

1 you, first thing you do, put both hands out and put
2 both of your hands on the steering wheel. When I
3 say that, because I've been through things with
4 police officers and by police officer telling me,
5 you know, by me making a mistake not putting my
6 hands up, I made a mistake, have thrown my hand back
7 like this, and police have pulled guns on me, you
8 know what I'm saying?

9 He said well, hey, keep your hands on
10 the wheel at all times. But you know, like I said,
11 you've some police officers are not that bad, but I
12 have ran into some nasty police officers, you know
13 what I'm saying? But I still don't get nasty with
14 them, but that's my attitude.

15 You take these young people coming up
16 today, you know, they're not going to take it like I
17 took it, you know what I'm saying?

18 See where I come from, I mean, I
19 couldn't even walk on the sidewalk when the police
20 come. I had to get off the sidewalk, you know what
21 I'm saying?

22 Without being asked?

23 **A** Right, right, without being asked. I just
24 had to get off, you know what I'm saying? I
25 couldn't understand that, but my father would tell

1 me, you know, like this is what you got to do.

2 Cause I come up in rough time, you

3 know.

4 I understand, thank you.

5 . To

6 get some clarification on something. You had let me

7 see, from the time that first, the shot went off,

8 Michael is down the street, he is, hands on the back

9 of the brown car and he's actually facing the

10 officer still at that time, okay.

11 **A** Uh-huh

12 : You see him come away from

13 the back of the car?

14 **A** Uh-huh.

15 : And his hands are down by

16 his side, is that the correct stance?

17 **A** As far as I can tell, I couldn't swear on

18 they were down by his side. It looked, you know, to

19 me like when he took his hand, you first take your

20 hand off the car, you know, you're standing. He

21 took a step and that's when everything just sped up.

22 : Okay. And you see him at

23 that time, he said it appeared to you that he took

24 maybe about two or three steps forward?

25 **A** Right, uh-huh.

1 : That's what you said?

2 **A** Uh-huh.

3 : Then you said that you
4 want to get the heck out of Dodge?

5 **A** Right.

6 : You had to back your car
7 up?

8 **A** Right.

9 : Do you recall when you are
10 backing your vehicle up, this is a two-lane road?

11 **A** Right, right.

12 : The officer's vehicle is
13 already obstructing the roadway.

14 **A** Right, right.

15 So when you're backing up,
16 are you looking in your side view mirror, your rear
17 view mirror, side or did you actually turn around?

18 **A** Gotcha. Let me say this before, when I
19 backed up, , I said look to the right, what's
20 coming to the right. I mean, I was looking to the
21 left, right, because I couldn't hit nothing coming
22 out the back because the back was just the sidewalk
23 back there. So I took off ahead this way, and
24 police hadn't made it there yet, the police hadn't
25 made it in there until I got back to West

1 Florissant, that's when the police start coming in.

2 Okay. So you didn't
3 encounter the other police cars?

4 **A** When they got there, no, no, I just see
5 them coming in past me.

6 Coming in past you?

7 **A** Yes, ma'am.

8 : And then from that point
9 in time, when you are backing up, at what point did
10 you hear -- you heard the three shots?

11 **A** When I backed up, I got like that, by the
12 time I got straight, pow, pow, pow, I just kept
13 going.

14 : So you are facing the
15 other way on Canfield?

16 **A** On the last three shots. I'm facing West
17 Florissant on the three shots, I got turned around.

18 : So during that particular
19 point in time you can't honestly say, if I can word
20 this correctly, I don't want to put words in your
21 mouth or anything like that.

22 **A** Right, uh-huh.

23 : It was asked if you ever
24 saw Michael Brown approach the officer aggressively,
25 but you said you couldn't see that?

1 **A** No.

2 : Would that be the reason
3 why you couldn't have seen that happen?

4 **A** Oh, yeah, it could be because my back's
5 turn, you know what I'm saying? That's the reason
6 why I tried to get my friend whatever he saw after
7 that to talk to the officer, you know what I'm
8 saying? But you know for some reason, he just don't
9 want to talk to them, you know.

10 I did get him to call one of the
11 officers because the officer asked me to tell him to
12 call him because he kept telling me to tell him to
13 call him if I saw him. The last two times I saw him
14 I told him, I say, man, why don't you call these
15 people so they will leave me alone, you know what
16 I'm saying? So he said, okay, I'll call them, give
17 me the number. He said he called and talked to
18 them, and even my lawyer told me that they had
19 talked to him.

20 Okay. Do you know if
21 Mr. , your passenger, do you know at the time
22 that you're backing up, I mean, is he still looking
23 back at the scene as to what's going on?

24 **A** Yes, yes, he had to see the rest of the
25 scene because he was looking to the right for me

1 and, you know, for me watching the street, watch the
2 other cars as they start coming in, you know what
3 I'm saying? He was looking back yeah, uh-huh.

4 As far as I could tell, he was
5 looking back like this like towards, the passenger
6 look like that. (indicating)

7 All right. Thank you.

8 **A** All right.

9 Again, when you
10 were leaving the scene in your vehicle you said you
11 passed multiple police cars as they were arriving on
12 the scene?

13 **A** Right.

14 : Do you recall if they had
15 their lights and sirens on?

16 **A** Yeah, some of them did. The first one I
17 think, I scene the second one, I'm not for sure, but
18 he was behind the first one that had a light on and
19 then his siren and stuff coming on down, it seemed
20 like it was coming from the police station right
21 there on Chambers and across West Florissant on the
22 other side. I think that's Dellwood, I'm not for
23 sure.

24 : Thank you.

25 MS. ALIZADEH: Just real quickly. Number

1 34, I think we understand and it is pretty clear
2 that you were not looking, you didn't see the very
3 end of this; is that correct.

4 **A** No, ma'am, I didn't.

5 MS. ALIZADEH: Correct. Do you remember
6 when you were talking to the federal officers back
7 on September 3rd on page 15. Do you remember when
8 they were asking you, they asked you, did it look to
9 you like Mike was coming back to talk with the
10 officer or did it look like Mike was coming after
11 the officer, what did it look like to you cause you
12 said you were scared.

13 Do you remember saying, you know, I,
14 something to myself an awful lot, ma'am. Really
15 honest to God truth, I can't say either way, but you
16 know, if I was the officer, I would look nervous
17 too. You coming back toward me and you just hit me,
18 and you know what I'm saying? You know how like,
19 you know, but, but I really can't say about that,
20 ma'am. I'm telling you the truth, do you know what
21 I'm saying?

22 Do you remember kind of describing that to
23 them?

24 **A** Oh, yes, ma'am, I remember saying that.
25 It is just like now, if you slap me now, you walk

1 back over here again, I'm going to be ducking. I'm
2 going to be getting out of your way, you know what
3 I'm saying? I mean, that's just instinct, do you
4 know what I'm saying?

5 If someone hit me and I see you, you
6 know like coming out or whatever, you know, like
7 that's the way I feel. I'm speaking for me now, you
8 know what I'm saying?

9 Q Okay. So if someone had punched you and
10 then ran away from you, but then turned around and
11 came back in your direction, you would be a little
12 on edge or fearful?

13 A Oh, yes, ma'am. If I had a gun, I
14 probably would have shot too, really, I'm just
15 telling you like it is, you know what I'm saying?
16 You know like, that's just like, I would call it
17 like, uh, violating. I'm sure if I go to punch that
18 young fellow, he ain't going to just sit there, you
19 know what I'm saying? He's going to get up and
20 knock my teeth out, you know what I'm saying? So
21 something, you know.

22 MS. ALIZADEH: All right, thank you.

23 That
24 begs a question from me. So do you feel like it
25 was, um, it could have possibly been self-protection

1 that caused him or do you feel like it was anger
2 that caused the police?

3 **A** Caused the police to shoot him?

4 Yeah. If somebody's
5 going to hit me, I'm not going to turn --

6 **A** I never thought about it like that, I
7 never thought about it being prejudiced or nothing
8 like that. I feel in my heart if I was the officer
9 and if I seen somebody coming towards me and they
10 don't have a weapon or something, I'm going to try
11 to shoot both your legs out first if I can hit them,
12 you know what I'm saying? I want to make killing to
13 be the last resort because I don't believe in
14 killing, you know. I know if I hit you in both your
15 legs or one of your legs, you got to go down, you
16 know what I'm saying?

17 Let me ask you one more
18 question about that.

19 **A** But I can't say for him because I don't
20 know what's going through the police mind, you know
21 what I'm saying?

22 So do you think if it was
23 a police officer, a person of authority and somebody
24 that was attacking the police officer, that that
25 would have changed the whole way that the officer

1 might have thought?

2 **A** I'm sorry, ma'am, I didn't catch the whole
3 thing.

4 Since the police officer
5 was of authority and that authority was being
6 disregarded.

7 **A** Right.

8 Do you think that would
9 change the way he was thinking?

10 **A** You saying if somebody else would have
11 been at the police?

12 No, no, no. I'm saying
13 since he was a police officer, do you think that
14 would have made him more afraid of the person coming
15 toward him was because he was a police officer?

16 **A** I don't know. But, you know, like --

17 Because the man had no
18 regard, if he had no regard for his authority, would
19 that mean --

20 **A** Right, right. You asking me do I believe
21 the police shot him because he had the authority to
22 shoot, is that what you're asking me?

23 If I think he maybe, that
24 because of Michael Brown's disregard for his
25 authority.

1 **A** Oh, now I see now where you are coming
2 from. Because Michael Brown disrespect him?

3 : Right.

4 **A** Okay. Well, I don't know, you know like,
5 they do make me angry when people disrespect me,
6 especially, you know, if you know you're right, you
7 know what I'm saying? And then sometimes, you know,
8 like, you can never tell what their frame of mind is
9 in when they disrespect you, you know what I'm
10 saying?

11 Like I say, if I go there and punch
12 that man, that's disrespecting him. I don't know
13 how his reaction is going to be. He might say,
14 well, hey, don't do that no more. He might just
15 jump up and lay me out, you know. So I don't know,
16 you know. So yeah, you know. I can't say, you
17 know, yes, ma'am.

18 Thank you.

19 MS. ALIZADEH: But just to be clear,
20 Number 34, there were moments before that series of
21 gunshots where you don't know what happened?

22 **A** Right, that's true, yes, ma'am.

23 MS. ALIZADEH: Hands up, hands down.

24 **A** Right.

25 MS. ALIZADEH: What his hands were doing?

4 **A** That's true, ma'am, right, uh-huh.

6 MS. WHIRLEY: All right.

9 MS. ALIZADEH: It is October 16th at
10 10:51 a.m. This is Kathi Alizadeh with the

15 And what's being said here next I am going
16 to play a recorded statement from a witness, his
17 name is _____, I
18 believe. This is on Grand Jury Exhibit 24 which is
19 a disc that I'm going to play and we have a
20 transcript of that statement.

Gore Perry Reporting and Video

1 (Playing of the audio recording of the
2 interview of is being played at
3 this time.)

4 MS. ALIZADEH: All right. We just
5 completed playing a statement on a disc labeled
6 Grand Jury Exhibit Number 24, statement of
7 or

8 Now we're going to play a statement that
9 is contained on Grand Jury Exhibit Number 36. It is
10 a statement of I don't have a
11 transcript for this. And then so as soon as I get
12 this set up, I'll have pause the audio
13 recording, and yet I will ask that you transcribe it
14 as best you can the conversation. There is no
15 transcript of this and this is the audio recording
16 of

17 MS. : Today is October 3rd, 2014,
18 the time is 10:48 a.m. We are at the FBI building
19 at 2222 Market Street. This is Special Agent
20 , DOJ trial attorney ,
21 assistant U.S. Attorney . Attorney?

22 MS. : .

23 MS. : And we're going to interview.

24 MR.

25 : All right. , we're

1 here, we wanted to meet with you, we had some
2 follow-up questions from the last interview you
3 gave, okay. We had some specific questions we
4 wanted to ask you about.

5 Keep in mind the interview is being
6 recorded, okay, so you have to keep your voice up.
7 I know you are kind of soft spoken.

8 MR. Yeah.

9 : When I ask you a question
10 that calls for a yes or no answer, you have to be
11 sure to answer out loud, okay, instead of shaking
12 your head or nodding, okay, because the recorder
13 wouldn't pick that up, you understand.

14 MR. : All right.

15 : Okay. Don't answer any
16 questions that you don't understand, okay. If I ask
17 you a question and you're not getting exactly what
18 I'm trying to ask you, you can ask me to explain it,
19 okay. I don't want you to answer any question you
20 don't understand, got it?

21 MR. : Okay.

22 : And then also a lot of times,
23 and I know in the prior interview that happened
24 there were times where you might state some things,
25 I will go back and restate it to you just to make

1 sure I understand. If I misstate anything at any
2 time correct me, okay, this is your statement.

3 If I get any detail wrong or whatever, you
4 feel free to say no, that's not what I meant, or no
5 that's not exactly what I said. Okay, will you do
6 that?

7 MR. : Yeah.

8 : We're not trying to trick you
9 or confuse you at any point. So we want to make
10 sure that at any point you feel confused, you let us
11 know. We just want to get out what happened, all
12 right?

13 MR. All right.

14 : We're the prosecutors
15 assigned to this case, okay. And I will just remind
16 you this is a federal investigation, okay. So
17 you've got to be sure to tell the truth here today.
18 This is basically a blank slate. I'm not all that
19 concerned what was said before, you just tell us
20 what you know today, all right? You need to be sure
21 it is the truth, you understand?

22 MR. : Uh-huh.

23 : Okay. That's basically our
24 goal here. We're investigating the case, we are
25 just trying to find the truth.

1 Now, you came down here with your lawyer
2 today voluntarily, right?

3 MR. : Yeah, she told me to come,
4 so I'm here.

5 : You agreed to come down and
6 talk to us?

7 MR. : Yeah.

8 : Okay. You have got to keep
9 your voice up, okay?

10 MR. : All right.

11 : No one threatened you in any
12 way or promised you anything to come down here
13 today?

14 MR. : No.

15 : All right. You are not
16 under the effects of any drugs or alcohol today?

17 MR. : No.

18 : And I ask everybody that,
19 don't be offended by it, I generally ask that
20 question. Anything else that would affect your
21 ability to be truthful today?

22 MR. : No.

23 : Okay. All right. Well,
24 let's get down to it then here. You, can you tell
25 me what was your relationship with Michael Brown,

1 how did you know him?

2 MR. : He was one of my best
3 friends. We went to high school together, he was
4 around me every day. And come to find out, I found
5 out he was a family member after the fact of him
6 getting killt. (sic)

7 : How was he a family member?

8 MR. : He was one of my cousin's
9 cousin. His little brother and his little sister's
10 daddy got killed in about, I think about 2006. Come
11 to find out that was my cousin.

12 : Okay. So you are actually a
13 blood relative of Mike Brown.

14 MR. : Yeah.

15 : But you didn't know that
16 until after he was killed?

17 : I didn't know until after.
18 After my cousin popped over there and that's when I
19 found out that.

20 : Okay. But you basically saw
21 him every day?

22 MR. : Yeah, he was with me every
23 day. The day before he was being killed, he was
24 living with me.

25 : Okay. How long did he live

1 at your house?

2 MR. Just about a week. His
3 granny was in the hospital. He didn't have nowhere
4 else to go.

5 : And even before he was
6 living at your house, you would see him every day?

7 MR. Yeah, every day we will go
8 record music, play video games, everything.

9 : Okay.

10 MR. It was just like he knew all
11 my family, I knew all his family.

12 : Uh-huh.

13 MR. : And just we were --

14 : You were tight?

15 MR. We were real, real close.

16 : When you see him every day,
17 how much time did you spend together? I know every
18 day is different.

19 MR. : All day.

20 : All day long?

21 MR. : Just walk to the store, come
22 home, playing games and just being kids.

23 : Okay, all right. And how
24 about Dorian Johnson, what was your relationship
25 with Dorian?

1 MR. : That's, that's like a friend
2 of the family. I knew him and all his brothers and
3 sisters and all that so.

4 : He's actually a blood cousin
5 also, is that right, Dorian?

6 MR. : He's not blood, but we grew
7 up around each other, so to me it is blood.
8 I thought before you
9 described it as a blood cousin, but he was basically
10 kind of a friend of the family?

11 MR. : Yeah.

12 : Okay, all right. Can you
13 just tell us basically what you saw on August 9th
14 when Michael Brown was killed?

15 MR. : The day of it happening, it
16 was around 4:00 in the morning. I was on the phone
17 with a lady friend of mine and something came over
18 my body and I felt, I didn't feel right. I was like
19 something was going to happen. And Mike, he's on
20 the couch right next to me, so he just told me to go
21 to sleep, nothing going to happen, that's all right.

22 So in the morning, the reason why we woke
23 up was because my mother called and was like, she
24 needed me to help her put my nephews in the car for
25 her and my sister. So I was asleep at that point, I

1 didn't feel like getting up. Michael Brown put my
2 nephews in the car for me and everything.

3 And he can use my phone cause I told him
4 to call his grandmother to make sure she's okay
5 before you do anything cause he wasn't talking to
6 her because they had a little dispute the day
7 before. So I told him to call her and make sure --

8 : He had a dispute with his
9 grandmother?

10 MR. Yeah, you know, just her
11 telling, you know how it is with family.

12 : Do you know what the dispute
13 was about?

14 MR. : No, sometimes just have, you
15 know, families have little arguments from time to
16 time. So I guess it was a little argument and she
17 went to the hospital that day. So he was staying
18 with me for that week.

19 : Was he staying with you
20 because she was in the hospital or because of this
21 dispute?

22 MR. Because she was in the
23 hospital.

24 : Okay. Let's talk about then
25 what happened though, what did you see on

1 August 9th.

2 MR. Yeah, I was leading up to
3 that. So he had put my nephews and everything in
4 the car. He used my phone, he came back and threw
5 me my phone. He was like, me and Dorian is going to
6 walk to the store and we will be back. I'm like,
7 all right, hopefully I will be up by the time you
8 all get back from the store.

9 I say it was about, I say about 15, 20
10 minutes after they had left for, I guess they was on
11 their way back from the store, that's when I heard
12 the first gunshot.

13 : Where were you when you
14 heard the first gunshot?

15 MR. I was in my room.

16 : Were you still in bed.

17 MR. : Yeah, I was still laying
18 down. It was loud and close to where I could hear
19 it enough to where it would wake me up like to see
20 what was going on.

21 : So that first shot actually
22 woke you up?

23 MR. Yeah, the first shot
24 actually woke me up. I wasn't in no deep, deep
25 sleep, it was enough to hear what was going on.

1 : Okay. Then what happened?

2 MR. : I heard the first shot, and
3 then I went to the window and what I saw was the
4 officer had a gun drawn and Michael Brown's facing
5 him on his knees.

6 : And you actually personally
7 saw this?

8 MR. : Yes, I personally saw him on
9 his knees with his hands in the air?

10 : Okay. And then what
11 happened?

12 MR. And then I say maybe about a
13 few seconds later, I looked and I was still looking
14 out the window and I seen him shoot him in the head.
15 By the time I tried to get out of the house, like by
16 the time I hit the stairs, I heard four more shots
17 go off.

18 And then I live all the way on the third
19 floor, so I say when I first came out of the house,
20 I heard the four gunshots and then by the time I got
21 to the end, when I got to the end of the steps, I
22 heard seven more shots.

23 : How many shots did you see?

24 MR. How many shots did I see?

25 : Right.

1 MR. : I saw one.

2 : Okay.

3 MR. : But I heard multiple.

4 : Okay. All right. So you
5 just saw, you heard the first shot?

6 MR. : I heard the first shot.

7 : You go to the window and
8 right, yes or no?

9 MR. : Yes, yes, yes.

10 : And then you go to the
11 window?

12 MR. Yes.

13 : And when you look out the
14 window, what do you see?

15 MR. : Michael Brown on his knees
16 with his hands up and I couldn't even, from my angle
17 I could not even see if it was him or not. The way
18 I found out it was him because I knew everything he
19 had on because he was just at my house 20 minutes
20 prior to what happened.

21 The reason why I really new who it was
22 cause he had on some socks, and I remember exactly
23 what socks cause he loved wearing them.

24 : What socks were those?

25 MR. : They were some yellow and

1 green like marijuana leaf socks.

2 : Okay. They had marijuana
3 leafs on them?

4 MR. : Yeah.

5 He loves to wear those?

6 MR. : Yeah, like a month prior to
7 that he had bought a whole bunch of them. I don't
8 know why, that's what he wore. I can tell you
9 everything he had on, he had on a gray T-shirt, he
10 had on some khaki pants, or khaki shorts, some Nike
11 white and black flip flops and then them specific
12 socks I just mentioned.

13 : Okay. So today what you're
14 indicating is as you look out the window, you
15 actually saw Michael Brown out there?

16 MR. Yes.

17 : Okay. And you could
18 recognize him by what he was wearing?

19 MR. : Yes.

20 : Do you see the police
21 officer shoot him one time?

22 MR. : Yes.

23 : And where did he shoot him?

24 MR. In his head.

25 : What did Michael Brown do at

1 that time?

2 MR. : By that time when I seen the
3 gunshot go off, he fell. He got shot in the head,
4 it looks like he was already gone.

5 : So he fell down?

6 MR. : Yeah.

7 : When you looked out the
8 window was he already down or you actually saw that
9 shot?

10 MR. : No, when I looked out my
11 window, he was on his knees.

12 : Okay.

13 MR. : I don't know if he had
14 already got shot before then because I heard the
15 first gunshot, I don't know, I'm just stating what I
16 saw.

17 : All right. When you looked
18 out the window, did you think that he had been shot
19 from that first shot?

20 MR. : Yeah.

21 : Why did you think that?

22 MR. : Because I knew it, why would
23 he be on his knees like surrendering like.

24 : Did you see any kind of
25 injuries that would lead you to believe he was shot?

1 MR. : No, cause like my window, it
2 was facing towards his back, it wasn't facing toward
3 his front to see if he had got shot. From his back
4 I didn't see anything.

5 : Okay. You couldn't see any
6 blood or anything?

7 MR. Not from his back.

8 : Any wounds or anything like
9 that?

10 MR. No.

11 : Then you say the police
12 officer shot him in the head one time?

13 MR. : Yeah.

14 : And he fell to the ground?

15 MR. : Yeah.

16 : How did he fall when he
17 fell?

18 MR. : He just fell. Like I
19 couldn't explain.

20 : Did he fall on his back or
21 his stomach.

22 MR. He fell like this.

23 (indicating)

24 : And you are motioning face
25 like down?

1 MR. : Yeah, he fell facedown.

2 Question, were both hands on
3 the side?

4 MR. I couldn't tell you, I just
5 know he fell face first.

6 : Okay. And so when he was
7 laying in the street, he was face first?

8 MR. : Yeah.

9 : He wasn't on his back or on
10 his side?

11 MR. : No, he was face first.

12 : Okay.

13 MR. : Even when they show what
14 happened on the news, he still is face first and you
15 can see the blood rushing from his head.

16 : What you are telling me
17 today you only saw that one shot to the head?

18 MR. : Yes.

19 : You heard the first shot
20 that woke you up?

21 MR. : Yes.

22 You were looking out the
23 window and saw the shot to the head.

24 MR. Yes.

25 And then after that, after

1 Michael Brown falls to the ground what do you do?

2 MR. : I run outside.

3 : Okay.

4 MR. (Inaudible) To the end of
5 the steps.

6 : And what happens when you
7 get to the end of the steps?

8 **A** I ran out there, I ran because there is
9 like a grass hill right there. And I said they just
10 killed my little brother for nothing. Those were my
11 exact words.

12 : Okay. And did you see any
13 other shots after you got inside there?

14 MR. : No.

15 : So you saw a total of one
16 shot that day?

17 MR. : I saw one shot, but I heard
18 several.

19 : Okay, all right. You're
20 sure you didn't see four shots after that shot to
21 the head?

22 MR. : I didn't see it, I ran
23 outside.

24 : Okay.

25 MR. : I didn't see it, I heard it.

1 : Okay.

2 MR. : I was close enough to it
3 where I could hear everything that was going on.

4 : Let's back up a little bit.

5 You mention that he was staying with you about a
6 week before all this happened?

7 MR. : Uh-huh.

8 : And, in fact, I think you
9 said before you and your mom were kind of taking
10 care of him?

11 MR. : No, it wasn't my mom, he was
12 at my sister's house. I wasn't even living with my
13 mom during that point in time.

14 : You and Michael were staying
15 at your sister's place?

16 MR. : Yeah.

17 : You were with him every day
18 at that time?

19 MR. : Yes.

20 : (Inaudible)

21 MR. : It was every day because he
22 lived right across the street.

23 : Pretty much all day?

24 MR. : Yeah, all day.

25 : You mentioned his socks, the

1 marijuana leaf socks.

2 MR. : Yeah.

3 : He liked to wear those, did
4 you know him to be involved in marijuana at all?

5 MR. : Yeah.

6 : How so?

7 MR. : He just started smoking I
8 guess about four months ago.

9 : Okay. Four months before
10 this happened?

11 MR. : Yeah. He wasn't no head, he
12 wouldn't do it like just on a regular day basis, I
13 would say occasionally.

14 : Occasionally, how often,
15 once a week, twice a week?

16 MR. : Just holidays, birthdays,
17 stuff like that. It was not like he smoked regular
18 everyday thing.

19 All right. Would you ever
20 smoke with him?

21 MR. Yeah, I have.

22 : Okay. Would you smoke with
23 him basically the same kind of occasion?

24 MR. : Yeah.

25 : Did you smoke the same as

1 Mike, would you smoke more often than him or less
2 often?

3 MR. : Less often.

4 : Less often than Mike?

5 MR. : Like I'm saying, holidays
6 and special occasions.

7 : Do you have any idea where
8 he would get it from?

9 MR. No.

10 : Okay. Did you know any
11 white contractors or workers that were working there
12 that were digging out the trenches to put drain tile
13 or drain pipes in there, did you know those guys at
14 all?

15 MR. : No, I didn't, but it's funny
16 you mentioned that because my sister was just
17 telling me that he was taking my nephews out to the
18 car, she was talking to some construction workers
19 and they was talking about that and police and all
20 this type of the stuff. It's funny that you
21 mentioned that.

22 : That's just something that
23 you've heard?

24 MR. Yeah, that's something I was
25 asleep most of the day until actually heard the

1 gunshot.

2 : Okay. Did you know those
3 guys, the construction workers to be involved with
4 weed at all or anything like that?

5 MR. : No.

6 : Have you ever heard of wax,
7 do you know what wax is?

8 MR. No, I don't know what that
9 is.

10 : Had you ever heard Mike talk
11 about wax or anything like that, Mike Brown?

12 MR. : No, I'm thoroughly confused.
13 I don't know what that is.

14 : Okay, that's fine. You're
15 not aware of what wax is?

16 MR. No.

17 : And so you and Mike, you
18 would smoke together sometimes?

19 MR. : Yeah.

20 : That morning before he left
21 there, did you guys smoke that morning or overnight?

22 MR. No.

23 : You're sure about that?

24 MR. Yeah.

25 : Okay.

1 : What about Mike, do you know if
2 he did even if you didn't?

3 MR. : Yeah, he could have cause he
4 left my house a couple of hours before we actually
5 went to sleep. I can't vouch for what he did, you
6 know what I'm saying?

7 : Nobody asked you to.

8 MR. : So I can't tell what he did
9 when he wasn't around me.

10 : Okay.

11 MR. I'm just telling you my
12 experience.

13 : We're not expecting you to tell
14 us.

15 MR. I just telling you just my
16 experience.

17 : I'm just talking about when
18 he was around you, did he smell like weed that day
19 at all or did you have any reason to think he smoked
20 weed that day?

21 MR. I don't know, he could have,
22 I don't know.

23 : Okay. I'm just asking if
24 you know.

25 MR. : He could have, I don't know.

1 : Okay. What makes you think
2 that he could have? Just that it's possible?

3 MR. : Anybody can smoke at any
4 time.

5 : What I'm asking you though,
6 is there anything that led you to think that maybe
7 he smoked that morning?

8 MR. I don't know, he was with me
9 this morning, so I didn't smoke I was still in bed.
10 : Okay.

11 MR. : I can't tell you what he did
12 when he wasn't around.

13 : I can tell you that the
14 evidence was that he had smoked weed or basically
15 THC somehow that day, all right, that's the
16 ingredient in weed or marijuana. The two of you had
17 smoked before, I'm just curious about, when you were
18 up overnight, did he smoke at that time maybe?

19 MR. : Neither one of us smoked
20 that day. Neither one of us had no money.

21 : Okay.

22 MR. : Well, I didn't have no money
23 at that time.

24 : Do you know if he had any
25 weed, any marijuana that day?

1 MR. : I don't know.

2 : Did you see any?

3 MR. : No, I didn't see none

4 though. (inaudible) He didn't make it his

5 obligation to tell me if he had some or not. I

6 honestly don't know.

7 : When he got up to get dress
8 that day or when he was getting ready to leave, did
9 you see him with any weed or put any weed in his
10 pocket?

11 MR. : No, he just said he was
12 going to walk to the store and he'd be back, him and
13 Dorian.

14 : Let's talk about that. My
15 understanding is he was going to the store to get
16 some Cigarillos. Did he tell you that he was going
17 there to get those?

18 MR. : No, but I wasn't sure if he
19 had it already or that he was going to go get it or
20 I didn't know. All right. I will just be here when
21 you get up. I'll open the door for you.

22 Do you know why he was going
23 to get Cigarillos? Was that for marijuana?

24 MR. Who knows. He had none of
25 that at the point in time he woke me up to let me

1 know that he was going to the store. I didn't see
2 none of that.

3 : Okay. But he did tell you
4 that is why he was going to the store?

5 MR. Yeah, that's what he tell
6 me.

7 : Did you know him to use
8 Cigarillos to smoke weed.

9 MR. : Yeah.

10 : To make a blunt?

11 MR. Yes.

12 : Is that the way the two of
13 you would normally smoke?

14 MR. : Yes.

15 : With Cigarillos? Is that a
16 yes?

17 MR. : Yes.

18 : You have to speak up for the
19 tape, I'm sorry. Okay. And so when you and Mike
20 Brown would actually, when you would smoke weed, you
21 would use Cigarillos to smoke it?

22 MR. : Yeah.

23 : How do you do that? I mean,
24 what do you do with the Cigarillos? I just have to
25 lay the groundwork.

1 MR. : You just take the tobacco
2 out and then role the marijuana into it.

3 : Okay. You take the tobacco
4 out of the Cigarillo and put the marijuana into it?

5 MR. Yeah.

6 : Okay. And basically you
7 pull all of that tobacco out and fill it with
8 marijuana?

9 MR. Yeah.

10 : The whole Cigarillo?

11 MR. : Yeah.

12 : Okay, all right. Now,
13 Dorian was there that morning too at your apartment;
14 is that right?

15 MR. : He wasn't in, actually in,
16 he was sitting outside waiting. He didn't actually
17 come in my house.

18 : Okay.

19 MR. He was just waiting. Mike
20 came and gave me my phone back and we are off to the
21 store, we be back.

22 : All right. When Mike was
23 talking about going to the store to get Cigarillos,
24 I mean, was he talking about that he was going to go
25 smoke, you knew why he was going to get the

1 Cigarillos?

2 MR. : Yeah, I knew why.

3 Okay. Did he talk about,
4 hey, when I get back, let's smoke, I'm going to go
5 smoke with Dorian, or did he say anything like that?

6 MR. He was like, I'll be back,
7 me and Dorian are going to be back. I don't know if
8 they was going to come smoke with me or not.

9 Mike said when he left they were going to
10 come right back, be about 30 minutes. I make sure I
11 be up so I be up so I can come open the door for
12 'em.

13 : Okay. They were going to
14 come back to your place after the store?

15 MR. Yes.

16 : Both of them were going to
17 come back together?

18 MR. Yeah.

19 : Did Mike say anything else
20 to you that morning?

21 MR. No, he didn't say nothing.

22 : Let me ask you, that morning
23 now, you said you were up overnight that you
24 couldn't sleep and Mike spent the night that night?

25 MR. Oh, yeah.

1 : And he was up with you at
2 that time?

3 MR. Oh, yeah.

4 : Did he say he couldn't sleep
5 or do you know why he was up?

6 MR. I didn't know why he was up,
7 I knew why I was up cause I had an intuition, like a
8 feeling that something was going to happen. I
9 didn't think it was going to honestly happen to him,
10 I knew God send me a sign and I knew something was
11 going to happen the following day.

12 : The two of you were up
13 overnight?

14 MR. : Yeah, I knew it was going to
15 be something, see, I don't sleep at night.

16 : That's what I was going to
17 ask. Do you normally stay up throughout the night
18 or sleep during the day or what?

19 MR. : No, I'm usually the person
20 who just stay up late at night. I don't get too much
21 sleep.

22 : Would Mike stay up with you
23 too late at night?

24 MR. No, he be the one to go to
25 sleep first.

1 : Okay.

2 MR. : So it was kind of strange
3 that he was up all night.

4 : So at some point, though,
5 you fell asleep?

6 MR. : Yeah.

7 : Whatever time you think that
8 was if you know.

9 MR. : Around 4:30, 5:00.

10 : In the morning?

11 MR. : Yeah.

12 : And where was Mike at that
13 time?

14 MS. : He was on the couch, I don't
15 know if he was asleep by then or not. I just know I
16 couldn't take no more and I just passed out.

17 : You were sleeping in your
18 bed?

19 MR. : Yeah.

20 : He was on the couch?

21 MR. : Yeah.

22 : Okay. And so you fall
23 asleep and what's the next thing you remember from
24 that morning?

25 MR. : He came and woke me up and

1 he was like, he said let me see your phone. I'm
2 like all right, man, and take the phone out, unlock
3 it for him, and I went right back to sleep.

4 : Do you know who he was
5 calling on his phone?

6 MR. : I think his grandmother.
7 Yeah, his grandmother. I had told him before he had
8 went to sleep, I'm like, man, when we wake up in the
9 morning.

10 : Uh-huh.

11 MR. Call and check on her to
12 make sure she's all right. Before you do anything
13 call and check on her to make sure she's all right.

14 : Okay.

15 MR. I always told him he had a
16 grandmother and all of that. He didn't need to take
17 her for granted. And that's one thing I always push
18 from our people is to stay with your family.

19 : Okay.

20 MR. : To be --

21 : And let me just, you know,
22 you just try to answer the question, okay. That way
23 we won't spend a lot of time here today, okay. I
24 don't want to have to have you here all day. So
25 just try to answer the question I'm asking, you

1 understand, is that okay?

2 : Uh-huh.

3 : So he borrows your phone,
4 you think to call his grandmother?

5 : He came and tossed me my
6 phone. Me and Dorian is going to walk to the store
7 we'll be back. And I said about 30, 45 minutes.
8 I'm like, all right. I got up, locked the door,
9 went back to my room and went to sleep.

10 : Is that when he said they
11 were going to get Cigarillos?

12 : Yes.

13 Let me ask you this, when
14 you smoked weed with Mike, where would you get it
15 from?

16 Uh --

17 I mean, I don't think he
18 wants to answer that

19 : I don't want to answer that
20 question.

21 : I'll tell you right now you
22 are not going to be in any trouble, okay.

23 (inaudible) To be smoking weed or whoever you get
24 it from or whatever. I'm just curious about, you
25 know, who supplies it to you?

1 : I'm not going to answer that
2 question.

3 : Well, that's kind of up to
4 me to determine, okay, legally whether it matters or
5 not, okay. I'm just asking you, you know, you
6 basically refusing to tell me?

7 : This ain't got nothing to do
8 with this interview.

9 : Basically you're not going
10 to tell me; is that right?

11 : Yeah.

12 : Okay, that's fine.

13 : Can I ask you a question? You
14 describe what it is, what his demeanor was when he
15 got high, what was he like?

16 He was a funny person, like
17 he would sit there and talk about each other, get on
18 the phone with females, play video games, he wasn't
19 no aggressive person at all. At all, like towards
20 nobody.

21 : He wasn't angry towards
22 anybody?

23 : No, he was a big fun person,
24 that's all he was. Whenever we was together, there
25 was no drama, there was no nothing. We would just

1 sit in the room and play the games and just get on
2 her nerves all day. She would be in there going off
3 on him. (inaudible)

4 : When you guys would smoke
5 weed together, did you ever get or did he ever get
6 like scared or paranoid at all from smoking weed?

7 No.

8 : Okay.

9 : If we did do it, it was an
10 enclosed area around his family, it wasn't like,
11 when we did smoke, it was no public thing.

12 : Okay.

13 : We go outside smoke, come
14 back in, play video games, play with his little
15 brother, little sister. There was never nothing out
16 of line or anything like that.

17 : Um, now, after you mention
18 on August 9th you saw the police officer shoot him
19 once in the head and he falls to the ground. And
20 then you ran outside, down the steps and outside,
21 right; is that right?

22 : Yeah.

23 : All right, you have to say
24 so.

25 : Yes, yes.

1 : You ran down the steps to
2 get downstairs?

3 : Yes.

4 What floor were you on?

5 : I live on the third floor.

6 : So you ran down the steps to
7 get down there?

8 : Yeah.

9 : You mention before that by
10 the time you got down there, there is kind of a
11 crowd gathering; is that right?

12 : Yeah.

13 : Tell me about that?

14 : There was people out there
15 before I had even got outside. It was a regular
16 day. There was people walking their kids. It is
17 hot outside, it is just a normal day like.

18 : I'm talking about after the
19 shooting when you got out there?

20 : There was crowds gathering,
21 there was just a whole bunch of chaos after that, a
22 whole bunch of chaos.

23 : What was going on, what were
24 people saying?

25 They were crying, yelling

1 and screaming. They killed him for nothing, they
2 killed this baby for nothing, just everybody was
3 outside.

4 : Okay. And you mention
5 before also that you talked to Dorian a little bit
6 about all of this after it happened?

7 : Yeah.

8 : He said something to you
9 about hiding behind a Monte Carlo?

10 : Yeah.

11 : What else did he tell you
12 about what happened, did he tell you about what
13 happened down there?

14 : We didn't really get a
15 chance to talk to too much, there was too much going
16 on, too much commotion.

17 : What about since that time,
18 there has now been, it has been over a month now.

19 : Eight weeks.

20 : Almost two months. Did you
21 talk to Dorian about it? Other than hiding behind
22 the Monte Carlo?

23 : I haven't had a chance to
24 catch up with him.

25 : He hasn't told you anything

1 other than he hid behind a Monte Carlo?

2 : He said he shoot at Mike.

3 (inaudible) He said he went and hid behind the
4 Monte Carlo.

5 : Did he tell you what he saw?

6 : He said he shot him multiple
7 times, couldn't really do nothing, too much talking.
8 There was too much going on, just like he said, like
9 too much going on. I had no chance for me to talk
10 to him and for him to talk to me.

11 : Did he give you any other
12 details other than he was shot multiple times and
13 that Dorian hid behind the white Monte Carlo?

14 He told me, he told me that
15 it was like he was telling everybody. Like he
16 didn't have no choice but to try and run and hide
17 behind the Monte Carlo while the shooting was
18 occurring. We haven't had a chance to talk.

19 : So was he able to see the
20 shooting then while he was hiding behind the Monte
21 Carlo.

22 : That's what he said, I
23 haven't talked to him.

24 : Okay. Have you seen any of
25 the media coverage of this?

1 : Um, not for real, I try not
2 to watch TV too touch.

3 : Okay. You mentioned before
4 you saw Dorian giving statements on CNN and MSNBC?

5 : Yeah.

6 : Do you recall that?

7 : I don't recall what he
8 actually said, people was just telling me and I saw
9 a YouTube clip of it of him on TV.

10 : Do you know what people were
11 talking?

12 : Like my mother and like
13 people was just talking, he was on TV.

14 : Now, , I've got to be
15 honest with you, okay. I mean, based on what you
16 are telling me today, it is substantially different
17 than what you told the FBI before, okay. You talked
18 about seeing one shot to the head before and then
19 you talked about seeing the police officer stand
20 over Mike Brown and shoot four more times into his
21 body, do you recall that?

22 : Yeah.

23 : Did you see that or did you
24 not?

25 : I heard.

1 : Okay. So you didn't
2 actually see the police officer fire four more shots
3 into Michael Brown?

4 : I didn't actually see it
5 because I was going down the steps.

6 : Okay.

7 : But his --

8 : That's why we need to clarify
9 what you actually saw versus these things that you
10 assume or what you think you heard because it is
11 important.

12 : It is not assuming if I'm
13 going down the steps and I hear boom, boom, boom,
14 but ain't nobody else out there got hit. Ain't no
15 one else out there injured. That is just common
16 sense.

17 : Back when you talked to the
18 FBI previously, that was on August 13th, okay, just
19 a few days after this happened, about four days
20 after this happened. You told them that after the
21 officer shot Brown in the head, he shot him eight
22 more times.

23 Yeah.

24 : And you said that you saw
25 him fire four more shots into Mike Brown's body as

1 Mike Brown's laying there lying on the ground?

2 Yeah.

3 : Do you remember that?

4 Yeah.

5 : Today you are telling me you
6 didn't see those shots; is that right?

7 More importantly I heard.

8 : That's what I'm just trying
9 to determine. Did you see those shots or did you
10 hear them?

11 : I didn't see them, but I
12 heard them on my way running downstairs.

13 : You said there was a 10
14 second pause and more shots?

15 Yes.

16 : Okay. We're talking about
17 now and then a total of ten shots is what you were
18 talking about?

19 : Yes.

20 : So as you sit here today,
21 how many shots did you actually see.

22 I saw one, but heard nine.

23 : Okay. So you are saying
24 today that you just saw one shot?

25 : When he got shot in the head

1 he fell when he was already basically deceased.

2 : On August 13th when you said
3 that the police officer stood over him and shot him
4 four more times, you didn't actually see that; is
5 that right?

6 Yes.

7 : Okay. You told me today
8 that you actually didn't see any injuries to Michael
9 Brown before the shot to the head; is that right?

10 Yeah.

11 : You didn't see any bleeding
12 or wounds or anything like that.

13 : I couldn't see because his
14 back was turned towards that way.

15 : Okay. See, that's a problem
16 I have today is that back on August 13th you told
17 the FBI that Mr. Brown had blood flowing from his
18 shoulder or rib cage on his left side. Did you
19 actually not see that?

20 : I didn't see exactly where
21 he got shot at. I said, I knew he had got shot I
22 heard the first shot cause he stopped and he was
23 sitting in the middle of the street. Like I told
24 you, with his hands in the air.

25 : Right. But what I'm telling

1 you is that you've told me today you didn't see any
2 injuries to Michael Brown when he was down on his
3 knees in the street. Before you had told the FBI
4 that he had blood flowing from his shoulder and rib
5 cage on his left side, somewhere on his left side,
6 do you recall that?

7 : Yes.

8 : Did you all actually see
9 that or not?

10 No, I didn't actually see.

11 : Okay. So when you told the
12 FBI that on August 13th, you actually did not see
13 that?

14 That was something that I
15 heard. That's why you told me to tell you what I
16 actually saw, so I'm telling you what I actually
17 saw. Someone in the community --

18 : Who was that?

19 : Who told you?

20 I don't know. There was a
21 whole bunch of crowds, people was telling me all
22 type of stuff.

23 : That's why we want to talk to
24 you. You understand that there is a lot of people
25 talking --

1 **A** I'm just telling you what I saw.

2 : Okay. What else were people
3 saying?

4 That's what people were
5 saying, they saying he got shot somewhere in his
6 body at the top, but from my vision I seen his back
7 was toward me and the officer's shooting.

8 : Okay. As you sit here today
9 then, you actually did not see blood flowing from
10 his shoulder or rib cage before he was shot in the
11 head?

12 : No.

13 : Okay. And you say that
14 Michael Brown had his hand in the air at the time he
15 was shot?

16 : Yes.

17 : Did he say anything?

18 : Please, don't shoot.

19 : Okay. And did you actually
20 hear that?

21 Yes.

22 : You said he was pleading for
23 his life?

24 Yes.

25 : And the police officer shot

1 him in the head?

2 : Yes.

3 : I think you described before
4 that the police officer was basically standing right
5 in front of him when he shot him; is that right?

6 Yes, his gun was close to
7 him.

8 : His gun almost touching his
9 head?

10 Not almost touching, I said
11 like that far away, but it was point blank range.
12 (inaudible)

13 : You've described it as very
14 close or point blank range?

15 : Point blank range.

16 : Basically the police
17 officer, from what you described before, he just got
18 out of his car and walked over to Mike Brown and
19 shot him in the head?

20 : I didn't see any of it.

21 : You didn't see the police
22 officer get out of the car?

23 I didn't see it.

24 : Okay. You've described on
25 August 13th that the officer got out of the car and

1 shot Mr. Brown?

2 (Inaudible)

3 : That's why we are here today.

4 : We're trying to determine
5 exactly what you saw, okay.

6 Uh-huh.

7 : But basically you said
8 before that the officer shot Brown in the head as
9 soon as he exited the police truck. You saying
10 today you didn't see the police officer exit the
11 truck?

12 I didn't see him get out of
13 no truck. His police cruiser was a couple of feet
14 going up towards West Florissant.

15 : Uh-huh.

16 But I didn't see him get out
17 of no truck.

18 : Okay. So when you looked
19 out there on August 9th, the police officer is
20 already out of the truck?

21 Yes.

22 : And was standing in front of
23 Mike Brown?

24 : Yes.

25 : And then he shoots him once

1 in the head?

2 Yeah.

3 : While Mike Brown was
4 pleading, please don't shoot me.

5 : Yeah.

6 : Again, the officer is very
7 close, basically point blank range at the time of
8 the shot?

9 : Yes.

10 : I think you said before too
11 they were basically right next to the police car at
12 that time the; is that right?

13 : It was not right next, but
14 it was enough to where I could see the police
15 cruiser.

16 : I think before you said it
17 was probably five or six feet away?

18 Yeah, It wasn't too far, it
19 was down toward like West Florissant.

20 : He was actually moving; is
21 that right?

22 Yeah, he was moving, he was
23 facing towards West Florissant.

24 : At the time that the police
25 officer shot Mike Brown in the head and he fell,

1 they were about five or six feet away from the
2 police car?

3 : Yeah.

4 : Okay. And you say today
5 that Mr. Brown, when he was shot in the head, he
6 dropped to the ground flat on his face?

7 Yeah.

8 : Basically facedown?

9 : Basically, yeah.

10 : Do you recall on
11 August 13th, it is another concern I have okay, and
12 I'm just being honest with you, okay?

13 All right.

14 Is it at that time you said
15 you he fell on his side. You said he fell on his
16 side and the police officer shot him four more times
17 in the side.

18 That's what I heard.

19 Okay. Who did you hear that
20 from?

21 : Somebody in my complex.

22 : Okay. Those people were
23 just telling you that?

24 : Yes, there was a whole bunch
25 of people outside, so it is a whole bunch of

1 stories. But I will tell you from what I seen, from
2 what I seen, what I seen he dropped and I heard more
3 shots as I was going downstairs.

4 : So basically you didn't see
5 Michael Brown when he turned or dropped to the
6 ground, you didn't see him turn on his side?

7 : No.

8 : You didn't see that?

9 No. When I got down to the
10 end of the steps, he was facedown.

11 : Okay. All right. So you
12 never saw him turned on his side?

13 No, when I got down he was
14 facedown and blood was rushing from his head out in
15 the street.

16 : And just to be clear here,
17 then you didn't see the police officer stand over
18 him and fire four more shots into his body?

19 Obviously, I didn't see him,
20 I heard eight more shots after the two gunshots from
21 inside the house.

22 : Let me ask you this ,
23 and again, I just want to be upfront here. Are you
24 sure that you saw the police officer fire any shots
25 as oppose to just hearing shots?

1 Yes, I saw him.

2 : You saw one shot?

3 : The one to the head that
4 killed him.

5 : You actually witnessed that?

6 : Yes.

7 : That's not just something
8 that someone told you?

9 No, I actually seen it.

10 : Because my issue is and
11 coming into today, before you were even telling me
12 some things different from before, and I understand.
13 Some of the things you heard you saw before you
14 actually just heard from other people; is that
15 right?

16 : Yeah.

17 : Is that correct.

18 Yeah.

19 : So you didn't actually see
20 those things?

21 : No.

22 : Okay. I just want to make
23 sure you are in here today and you are telling me
24 you saw that one shot, I want to make sure that's
25 just not what someone told you versus what you

1 actually saw, because now is your opportunity, okay?

2 Okay.

3 : You can see our concern, right,
4 because beforehand you told us what you saw that you
5 saw and now you came in here and say you actually
6 heard it, you said that initially. We need to be
7 sure, you know, if we are going to put a case
8 together and put you on the witness stand, we need
9 to be sure that you are telling us what you actually
10 saw versus what you heard from people on the street.

11 : You understand?

12 Yeah.

13 : So, I mean, now is your
14 opportunity, okay?

15 I'm telling you I just told
16 you everything.

17 : You said you heard two shots
18 inside the house and you came out --

19 : And heard eight more, yes.

20 : Okay. But as said,
21 what we are trying to do is evaluate witnesses here
22 and evaluate this case, okay. And I can tell you at
23 this point if we were going to charge this case and
24 go to trial there is just no way I could put you on
25 the witness stand and there's a couple reasons for

1 that, okay.

2 The first is, basically just about
3 everything that you said on August 13th, and much of
4 what you said today isn't consistent with the
5 physical evidence that we have in this case, okay.

6 And now what you are telling us today is
7 actually substantially less detailed than what you
8 said on August 13th and I understand that and we
9 talked about it, all right. But then also what you
10 told us today is quite a bit different from what you
11 said on August 3rd. So those are the issues we
12 have, okay.

13 What you are telling me today or on
14 August 13th is not consistent with the physical
15 evidence we have, okay. Evidence that is not going
16 to change, that's just not just someone else
17 talking, okay. That's what the evidence is.

18 : And is talking about the
19 evidence, he is talking about the scientific
20 evidence and things like that, not what other people
21 are saying.

22 : Right. I'm talking about
23 DNA evidence, I'm talking about just simple things
24 like the way the scene was laid out, right. What
25 you're telling me, it is just not consistent with

1 what happened that day. All right. And that's our
2 concern, you understand?

3 Yes.

4 : I mean, can you explain that
5 to me?

6 : I want to know if you say
7 from a different perspective, why would you ask the
8 witness everybody's perspective wouldn't be the same
9 because there is different angles.

10 : Exactly, that's why I'm
11 saying.

12 : (Inaudible)

13 : I'm not saying other people
14 are saying other things you must be lying here,
15 that's not what I'm saying. What I'm telling you is
16 not from someone else's perspective, okay, or what
17 another witness said. I'm talking about actual
18 physical, forensic evidence at the scene, okay.

19 : So what am I saying that
20 don't match up?

21 : That's what you need to tell
22 me.

23 There's no telling you.

24 : That's what I'm wondering
25 is, can you explain to me why that's the case?

11 Didn't you all just say let
12 you know that we were outside to tell you what I
13 seen and not heard.

18 : And let me make it very
19 clear about that, there is certain things that you
20 said you saw back on August 13th, we're actually
21 thinking --

www.goreperry.com

Page 131

1 And honestly, you have never done this
2 before, correct, you have never been before a court
3 or anything like that?

4 : No.

5 Would you lie if you didn't
6 see Michael Brown shot if you didn't, would you lie
7 about that?

8 No.

9 : That's all well and good,
10 okay, that's fine. But the point is that on
11 August 13th you told the police, you told the FBI
12 things like you saw the police officer after that
13 first shot to the head. The shot that you saw, the
14 first shot you saw to the head that Michael Brown
15 fell to the ground on his side and the police
16 officer stood over him and fired four more shots
17 into his body. You said that you saw that, okay.

18 Now today, to your credit, you've told us
19 no, that's not what I saw, that's just something
20 that I heard, but you understand that you told the
21 FBI that back on August 13th that you saw it.

22 What I'm telling you about
23 what I heard, I'm telling you about how I was going
24 down the steps and I'm hearing shots still ringing
25 off and terrifying to get even to the bottom of the

1 steps because I still hear shots ringing off.

2 : That's understandable. That is
3 all we are trying to figure out what you, yourself,
4 actually saw versus what you thought might have
5 happened based on what you were hearing.

6 What I'm going to say --

7 : You understand --

8 Just listen to me. There is
9 not no thought if I know for a fact --

10 : Can I explain generalities of
11 forensics. Not discussing, we're not here to
12 discuss or argue about it. But everything we
13 measure against every testimony here is what we know
14 to be forensics because that is irrefutable.

15 It is not he was at this perspective or
16 that perspective, but here is how he changes. We
17 know whether or not Michael Brown was shot at point
18 blank range in the head based on that, yes or no, we
19 know that.

20 We are here today to tell you what you are
21 saying you saw isn't forensically possible based on
22 the evidence.

23 : And that's just an example.
24 Virtually everything that you told the FBI on
25 August 13th doesn't match up with the evidence,

23

24

25

: So you're telling me he

didn't get shot in the head at point blank range?

: What we are telling you is

that the physical evidence doesn't match up with

what you are telling us. That's just an example,

okay.

The entire layout of the scene is entirely

different than what you described, okay. And when

you come in here today and substantially change you

say you saw and what you claim you saw on

August 13th, that leads me to believe that maybe you

didn't see this. And if that's the case, you need

to tell me, okay.

: We're not even saying this,

first of all. When you are running down the stairs,

you say a lot of people were out there, you said you

were scared, that's --

I tell you can I leave? I

don't feel too comfortable right now.

: Okay. Now, if you want to

go, that's fine.

: You can go outside.

: I ain't feeling comfortable.

: Why aren't you feeling

1 comfortable?

2 You are telling me I didn't
3 see what I saw. This is not the first time that it
4 happened, they did it to me last time I was here and
5 try to tell me.

6 : The reason the FBI
7 challenged you when you gave the statement before
8 was because they knew at that time that what you
9 were saying didn't add up with the physical
10 evidence, okay.

11 : You would agree that is right?

12 : If you all knew the physical
13 evidence, why would there be a need for a witness if
14 you have the evidence already.

15 : You have to have people that
16 actually saw it, that's what we are trying to say,
17 okay. We're the prosecutors on this case,
18 okay. And we have to evaluate the case and
19 determine whether or not there are going to be
20 charges and whether or not we would take it to
21 trial.

22 And so we would have to meet with the
23 witnesses and talk to them, particularly the ones
24 who were concerned that what their saying doesn't
25 match up with the physical evidence. We have to

1 evaluate that.

2 : If I didn't see what I saw,
3 why for the first two or three weeks I was being
4 harassed.

5 : Who were you being harassed
6 by?

7 : Police go to my mother's
8 house if I didn't see what I saw?

9 : To try to interview you, you
10 mean?

11 : No, they came to my mother's
12 house, tried to swarm my mother's house. People at
13 my back door, at my side window and at the front
14 door and I didn't even live there at the time.

15 : When was this?

16 : It happened in the same week
17 of him getting killed, the same week. And then to
18 know for a fact that someone came down and burnt his
19 memorial.

20 : That happened more recently,
21 right.

22 : Yes, I smelt it burning.
23 Didn't nobody try to put the fire out, no nothing.
24 It took an African-American Ferguson police officer
25 to come with a fire extinguisher to put it out after

1 it was burning for 30 some minutes.

2 There were other people, other Ferguson
3 police sitting on their cars looking at it. And
4 then to tell me I'm lying.

5 : There is a lot that went on
6 in the aftermath of the shooting. A lot of people
7 were scared because they heard gunshots. A lot of
8 people were talking, so the problem is that
9 sometimes people, you know, thought they saw
10 something, really it was because other people were
11 talking so much.

12 So our job is to figure out what each
13 individual actually saw and noticed. Not what was
14 going on in the community, so that's why we wanted
15 to meet with you.

16 : I'm telling you all right,
17 I'm sorry, I'm telling you what I saw, I seen the
18 man execute my best friend.

19 : You don't have to speak any
20 more, it was voluntary. So we certainly don't want
21 you to talk to us any more. So we do thank you for
22 coming in, thank you.

23 Thank you.

24 MS. : End recording at 11:26 a.m.

25 MS. ALIZADEH: And actually, it is

1 12:26 p.m., and I imagine your lunch is here. So
2 we'll go ahead and take a lunch break and, ,
3 can you finalize whatever the disc that we need to
4 do and then let us know when you are done with your
5 lunch break and we'll start up with more evidence
6 and witnesses.

7 (End of the audio recorded interview of
8 .)

9 MS. ALIZADEH: This is Kathi Alizadeh with
10 the prosecutor's office. It is October 16th, 2014.
11 It is one 1:11 p.m. Sheila Whirley is also present
12 from the prosecutor's office, as well as all 12
13 grand jurors are present and the court reporter, who
14 is taking down the testimony of witnesses and
15 recording proceedings in the grand jury.

16 We have our first witness for the
17 afternoon and he is ready to be sworn.

18 ,
19 of lawful age, having been first duly sworn to
20 testify the truth, the whole truth, and
21 nothing but the truth in the case aforesaid,
22 deposes and says in reply to oral
23 interrogatories, propounded as follows, to-wit:

24 EXAMINATION

25

1 BY MS. ALIZADEH:

2 Q why don't you state your name and
3 then you're going to want to spell it so we get it
4 right.

5 A How you guys doing? My name is
6

7 Q Okay. Now, , I'm going to stand all
8 the way back here. And, um, the microphone that is
9 in front of you it doesn't amplify your voice, it is
10 only recording, so you're going to have to keep your
11 voice up. You tend to have a softer voice, so if
12 the grand jurors can't hear you, they're going to
13 raise their hand and say what, we can't hear. It is
14 best to just try to speak loudly enough, you know.
15 I naturally do anyway, my kids say I'm yelling at
16 them, but I don't want you to not be heard, okay?

17 A Okay.

18 Q So, can I call you ?

19 A Yes.

20 Q , how old are you?

21 A I'm years old.

22 Q And I want to just clarify something, you
23 introduced yourself to the grand jury as

24 ?

25 A Yes.

1 **Q** Is that the name you were born with?

2 **A** Yes.

3 **Q** Okay. Now, a recording of a statement
4 that was made by you on August 13th, where you said
5 your name was , , or
6 something like that. Is that the same person?

7 **A** Um, no, it was just a heritage thing. I
8 just had where my roots was from, so I was just
9 learning about it.

10 **Q** Okay. You're going to have to talk
11 louder.

12 **A** No, it was just a heritage thing that I
13 had just learned about, me and my uncle were
14 discussing it, so me and my lawyer.

15 **Q** But the person that was in that statement
16 who said his name was , that's you?

17 **A** Yes, that's .

18 **Q** Okay. And so today do you prefer that we
19 call you or do you want to be
20 ?

21 **A** I want to be , that's my
22 name.

23 **Q** All right. So, , where do you live?

24 **A** I live in Northwinds Apartments in
25 Ferguson, Missouri.

1 **Q** How long have you lived in Ferguson?

2 **A** Since I was about . I guess since
3 eighth grade or middle school.

4 **Q** Okay. Do you currently, do you go to
5 school?

6 **A** No.

7 **Q** Did you go to high school?

8 **A** Yes.

9 **Q** Where did you go to high school?

10 **A** .

11 **Q** And when you were in high school, did you
12 have a friend named Michael Brown?

13 **A** Yes, he was one of my best friends.

14 **Q** And how long have you known Michael Brown?

15 **A** Um, it goes back to me knowing his family
16 when I was young, but we had just reunited like
17 around, I say around my freshman year of high
18 school. And his uncle really recognized me from the
19 old neighborhood and that's how I found out that I
20 knew him and his family for a long time.

21 **Q** So did you and Michael Brown start
22 becoming good friends like early high school?

23 **A** Yes, we was around each other every day up
24 until the day he died.

25 **Q** Okay. Now, did he also go to

4 Q Was that like his last year or his
5 freshman year?

8 **A** Yes, he did. He lived with his
9 grandmother directly across the street from me.

14 Q Okay. But before he was staying with you,
15 he was living with his grandmother in Northwinds?

24 Q Do you know, did he have a car at the
25 time?

1 **A** No, he did not have a car. We actually
2 had a friend that used to chauffeur us around. We
3 used to give him gas money when we needed rides to
4 go places.

5 **Q** So when he was staying elsewhere, you guys
6 would still see each other every day?

7 **A** Uh, yeah, he would come over after school.
8 We would just go to his granny's house and play
9 video games and just hang out and just chill.

10 **Q** Okay. And are you, were you and Mike the
11 same age?

12 **A** No, I was a year older than him.

13 **Q** A year older than him?

14 **A** Yes.

15 **Q** Do you know Dorian Johnson?

16 **A** Yes.

17 **Q** And how do you know Dorian?

18 **A** A friend of the family again. I known
19 from my old neighborhood since I've been young.

20 **Q** And now Dorian is a few years older than
21 you?

22 **A** Yes, yes.

23 **Q** How long have you known Dorian?

24 **A** A couple, few years. It has been since I
25 have been young.

1 **Q** Since you were --

2 **A** Yes, I guess about middle school years.

3 **Q** Okay. And you made some statements in the
4 past, and I told you we're just going to clarify
5 some things.

6 **A** Yeah.

7 **Q** You said before that Dorian was your
8 cousin?

9 **A** He was basically family, like blood could
10 not make us any more related. I grew up around him
11 and all his brothers, so I look at him as family.

12 **Q** There is no blood relation?

13 **A** Not really blood, blood.

14 **Q** All right. But you feel like he's family?

15 **A** Yeah, I feel like he's family.

16 **Q** What about Michael Brown, are you related
17 to Michael Brown?

18 **A** We are not blood related. Only way we
19 would have blood relation is through his youngest
20 siblings, his younger brother and his younger
21 sister.

22 **Q** Okay. And how so, how are you related
23 through siblings?

24 **A** I had found out after he had got murdered
25 that we was all at his granny's house in Northwinds.

1 And one of my relatives that I know for a fact is my
2 relative showed up and he was like, you didn't know
3 these were your little cousins, honestly I didn't
4 know until he told me. And that's how I found out
5 after the fact we kind of are relation.

6 Q Do you know how it is that your relation,
7 your father's sister is married to?

8 A No, no, it is my father's nephew kids.

9 Q Okay. So your father's nephew is Michael
10 Brown's father?

11 A No, it was his, not his father, his two
12 youngest siblings father.

13 Q Okay.

14 A They had different fathers.

15 Q Gotcha. So Michael Brown has siblings
16 that have a different father?

17 A Yes.

18 Q So you're related?

19 A To his younger siblings, yeah.

20 Q Okay, gotcha. You didn't learn that until
21 after you said that he had passed, right?

22 A Yes, it was after.

23 Q So when you knew Michael Brown, you just
24 consider him a friend?

25 A Yeah, one of my best friends. We was

1 together almost every day.

2 **Q** Okay. And so what about Dorian Johnson,
3 do you know how long prior to Michael's death that
4 Dorian Johnson had moved into the Canfield
5 Apartment?

6 **A** I knew he was living over there for a
7 while, it is just I never did see him or get in
8 contact with him until about two months before this
9 end up happening. So I would have to say around
10 either May or June.

11 **Q** Okay. How close a friend were you prior
12 to Michael's death, how close were you and Dorian?

13 **A** We were close, but I knew him more because
14 of his little brother. His little brother is the
15 same age as me. So that's really how I knew Dorian
16 Johnson mostly was through his younger siblings.

17 **Q** So he was a family friend?

18 **A** Yes.

19 **Q** But you were closer to his younger
20 brother?

21 **A** Yes.

22 **Q** Okay. So Dorian Johnson didn't hang out
23 with you and Mike every day?

24 **A** Uh, the two months prior to it happening
25 when we found out he moved over there, he was also

1 with us every day.

2 Q He would be with you every day too?

3 A Yes, we go over to his house and play
4 video games, same thing that me and Big Mike I
5 called him.

6 Q Okay.

7 A That's what I call him.

8 Q Is it okay if I call him Big Mike?

9 A Yeah, it is all right. I don't have no
10 problem with it.

11 Q So let's talk about then the early morning
12 hours of August 9th. We've heard your statements
13 that you and Mike, he was staying at your house; is
14 that right?

15 A Yes.

16 Q And let me ask you this; where were you
17 staying at the time?

18 A I was staying with my sister at the time
19 where she lived in Canfield.

20 Q So your house was in Northwinds?

21 A My mother's house was in Northwinds. My
22 sister also had her own apartment in Canfield.

23 Q And you were staying with her?

24 A Yeah, I was staying with her. He was
25 going through a couple things with his family and

1 since we was just best friends, he was just with me
2 every day staying over there. If he needed
3 something, I helped him out. I basically look at
4 him just like a little brother.

5 **Q** And so prior to August 9th when he got
6 killed, how long had he been staying with you at
7 your sister's house?

8 **A** It was about two weeks.

9 **Q** Okay. So right in front of you is a laser
10 pointer, right here. So if you press on that gray
11 button right there, see how you can point at things
12 at the map, okay?

13 **A** All right.

14 **Q** So I'm going to give that to you. I'm
15 going to direct your attention to this map, which is
16 Grand Jury Exhibit Number 25. Do you recognize the
17 streets and the buildings and stuff as being the
18 Canfield Green Apartment Complex?

19 **A** Yes.

20 **Q** Okay. Using the laser pointer, can you
21 point to the building where your sister's place is?

22 **A** I would say it would have to be around, I
23 don't know, it looks different from the sky view, it
24 looks kind of different. I would say it would have
25 to be over, okay, it had to be over here.

1 (indicating)

2 **Q** So let's just, for clarity sake, West
3 Florissant is over here. (indicating)

4 **A** It was over here exactly then.

5 **Q** All right. And so you're pointing at
6 Building Number

7 **A** Yes.

8 **Q** And so what floor did she live on?

9 **A** She lives on the third floor so I could
10 see looking out of the window that I was in, I could
11 see the whole Canfield Drive.

12 **Q** So can you tell me what, where in this
13 building, I guess, obviously, there's units that
14 face this way, right?

15 **A** (Nods head.)

16 **Q** Or east, and there's units that face west?

17 **A** It was a unit that's facing directly
18 towards the street, directly towards Canfield.

19 **Q** All right. I know you don't necessarily
20 want to give her address, but this one unit that's
21 on the northern part of the building, that's
22 and then the southern part of the building is
23 was she on northern part or southern part?

24 **A** She had to be on the southern part, the
25 closest to Canfield Drive, the closest.

1 **Q** Okay. And we've heard some testimony
2 already about these apartments. These apartments
3 have a front door that you go into?

4 **A** Yes.

5 **Q** And there's also a sliding door?

6 **A** Yes.

7 **Q** And there's bedrooms that have windows?

8 **A** Yes.

9 **Q** So from the sliding glass door in your
10 sister's apartment, can you see down onto Canfield?

11 **A** Um, no, not through the sliding glass
12 doors, but through the bedroom window you can.

13 **Q** Okay. Is it a bedroom window that faces
14 west or is there a window on this side on this other
15 side?

16 **A** This is a window on this side that faces
17 right towards Canfield.

18 **Q** Here?

19 **A** Yes.

20 **Q** Or here?

21 **A** The sliding door is on that side.

22 **Q** Right.

23 **A** But the window is right there, which would
24 be my nephew's bedroom which I was staying in.

25 **Q** So the window that you are going to talk

1 about here in a minute is on the southern side of
2 the building?

3 **A** Yes.

4 **Q** And from here you can look out onto
5 Canfield?

6 **A** Yes.

7 **Q** Okay. So on the early morning hours on
8 August 9th, that evening, like the night before and
9 into the early morning hours, was Mike with you?

10 **A** Yes, he was.

11 **Q** What were you guys doing?

12 **A** Um, we really was not doing too much. He
13 was just, I don't know if he was going through a
14 phase, but we just, mostly we did a whole lot of
15 talking that night. We did a whole lot of talking
16 about God, just about the problems that we've been
17 going through. We just did a whole lot of talking.
18 Because the cable was off at that time, we didn't
19 really have nothing to do. We just did a whole lot
20 of talking.

21 **Q** Was anybody else with you?

22 **A** Yes. My sister and my sister's fiancée
23 and my two nephews, that's who I live with at the
24 house.

25 **Q** Are your nephews, are they teenagers?

1 **A** No, they're little, little kids.

2 **Q** Does your sister's fiancée live in that
3 apartment too?

4 **A** Yes.

5 **Q** And your sister lives there?

6 **A** Yes.

7 **Q** So you said that you were talking about
8 things you were going through, problems?

9 **A** Yeah, just like little problems. I was
10 having problems with my mother, he was having
11 problems just trying to find himself. Just little
12 arguments he would get into with his family, you
13 know, just basically family problems.

14 **Q** Okay. And I know you've talked about in
15 your interviews and stuff, they asked you were you
16 guys smoking any weed that night?

17 **A** Not that night I didn't smoke with him,
18 no.

19 **Q** Did you see Mike smoking any weed that
20 night?

21 **A** No, I did not.

22 **Q** Did Mike ever leave the apartment and then
23 come back?

24 **A** He did. He left for about 30 minutes and
25 came back.

1 **Q** About what time of night was that?

2 **A** It was around 11 something when he left,
3 and came back it was around 11.

4 **Q** Okay. Did you guys stay up most of the
5 night?

6 **A** Yes, we did stay up most of the night just
7 sitting up talking. I was on the phone with a lady
8 friend, he had my sister's phone, I don't know what
9 he was doing at the time, but he had my sister's
10 phone. I don't know if he was on Facebook, I don't
11 know what he was doing at that time.

12 **Q** Okay. So Mike didn't have his own phone?

13 **A** He had his own phone, but a couple days
14 prior to that his battery had went out on his phone,
15 and I guess it had fried his phone out or something.
16 He didn't have no phone at the time.

17 **Q** Okay. So what time did you go to sleep
18 that night?

19 **A** I didn't go to sleep until 5:00 that
20 morning.

21 **Q** But you did eventually go to sleep?

22 **A** Yes.

23 **Q** Where did you go to sleep, did you go to
24 bed or did you just kind of pass out in a chair?

25 **A** No, I had passed out in the love seat in

1 the living room, and I say around about 7:00 or
2 8:00 I got up and went and laid with my nephews.

3 Q Where was Big Mike when you passed out on
4 the sofa?

5 A He was on the bigger sofa, longer one. He
6 was laying there sleeping when I had woke up from
7 when I went in there to get in bed with my nephews.

8 Q Okay. Just again to clarify, I cannot
9 remember if it was my term or your term, you said
10 passed out. Were you drinking any alcohol that
11 night?

12 A No, I don't know. I was just, I'm more of
13 a staying up at night person. I'm a night owl. So
14 sometimes I just can't help it, I just pass out
15 sometimes because I stay up most of the nights.

16 Q When you say pass out, you just kind of
17 like fall asleep?

18 A I just dozed off.

19 Q Dozed off, wherever you were sitting?

20 A Yeah, basically.

21 Q So when you got up at 7:00, let me back
22 up, passed out or fell asleep, was Mike Brown in
23 your apartment?

24 A Yes, he was already sleeping by the time I
25 had passed out.

1 **Q** When you woke up like at 7:00 in the
2 morning, or whatever, and went to your nephew's
3 room, was he still in the same place?

4 **A** Yes, he was still asleep.

5 **Q** Okay. And just again, so I can clarify,
6 did Mike Brown like go to sleep, was he wearing
7 pajamas or was he wearing street clothes?

8 **A** No, he had on the same clothes that he got
9 killed in, he had on the same clothes.

10 **Q** So you went to your nephews' room and went
11 to bed?

12 **A** Yes.

13 **Q** What's the next thing you remember
14 happening?

15 **A** Uh, he came in there, my sister had asked
16 him because I was being lazy at that time, my sister
17 had asked him could he put my nephews in the car
18 because my mother came to come get my nephews and my
19 sister, and my sister is pregnant now. So she
20 couldn't carry them down the stairs, so he went and
21 put them in the car and he came back upstairs and he
22 asked me could he use my cell phone.

23 **Q** Okay. Let me stop. Remember when we
24 talked about assuming things, you only need to say
25 what you know or saw, okay.

1 I asked you what's the next thing you
2 remember, okay. So you woke up?

3 A Yeah, he woke me up to use my cell phone.

4 Q Okay. So Michael Brown came into the
5 room?

6 A Yes.

7 Q And the stuff about him helping your
8 sister, you didn't see that?

9 A I was asleep at the time.

10 Q Okay.

11 A I just woke up and there was nobody there
12 but just him.

13 Q All right. You woke up, he's in your
14 bedroom and he asked to use your cell phone?

15 A Yes.

16 Q Do you know what time it is at this point?

17 A I guess it was around, 10:00, 11:00,
18 between 10:00 and 11:00.

19 Q All right. And was Mike Brown wearing the
20 same clothes you seen him in the night before?

21 A Yes.

22 Q Was there anyone with him when he came
23 into your room?

24 A Not when he came into my room.

25 Q Did you know, did you get up from the

1 bedroom and go out into the apartment?

2 **A** No, he stepped out of the room and used my
3 phone, and tossed me back the phone and told me, me
4 and Dorian's going to walk to the store, I'll be
5 right back. That's the last thing he told me.

6 **Q** So at this point had you seen Dorian that
7 morning?

8 **A** No, he didn't come in.

9 **Q** Don't guess.

10 **A** He wasn't in my house because I was up by
11 that time moving around.

12 **Q** You didn't see him?

13 **A** No, he wasn't in the house at the time,
14 no.

15 **Q** All right. Did Michael Brown leave?

16 **A** Yes, he left.

17 **Q** All right. What did you do after Michael
18 Brown left?

19 **A** Um, I still was laying down, but I wasn't
20 asleep, I was on the phone with a lady friend of
21 mine and we were just talking.

22 **Q** Did something happen that drew your
23 attention to the outside?

24 **A** Yes. I heard, um, I say around, I say at
25 least 30 minutes later I heard a gunshot. And

1 that's what draw my attention to look out the
2 window.

3 Q Now, when you heard this, did you
4 immediately realize it was a gunshot?

5 A Yes, yes, no, I'm familiar with gunshots.
6 The difference between fireworks and gunshots. I
7 mean, it was loud, it echoed through all the
8 apartments, it was very, very loud.

9 Q Was it one gunshot or more than one
10 gunshot?

11 A I heard more than one gunshot, that's what
12 drew my attention.

13 Q Did you get up from the bed?

14 A Yes.

15 Q What did you do?

16 A I went and looked out the window.

17 Q So the window, is it in your nephew's
18 bedroom?

19 A Yes.

20 Q Is there a window covering on the window?

21 A Yes.

22 Q Blinds, drapes?

23 A Yeah, there's some blinds.

24 Q Were the blinds open or closed?

25 A They were closed, but I was looking

1 through the blinds.

2 **Q** Do you remember was the window open or
3 closed?

4 **A** Uh, I can't recall.

5 **Q** Would you, now, this would have been
6 around noon on an August day. Did your sister, did
7 she have air conditioning in the apartment?

8 **A** Yes.

9 **Q** Okay. Did she run the air conditioning,
10 did she use it?

11 **A** At the time it was broke.

12 **Q** Bolt?

13 **A** Broke.

14 **Q** Oh, it was broke?

15 **A** Yes.

16 **Q** Do you remember when you made your first
17 statement to the police? Do you remember saying the
18 window was closed, or do you not remember?

19 **A** I don't remember saying the window was
20 closed. I just know I heard the gunshot was really
21 loud, that's what got my attention.

22 **Q** I get that, I understand. My question is,
23 do you know today, do you have a recollection of
24 whether the window was open or closed?

25 **A** No.

1 **Q** You don't know, okay. But you did hear
2 the gunshot?

3 **A** Yes.

4 **Q** And then when you looked out the window,
5 what did you see?

6 **A** I seen my friend Big Mike on his knees
7 with his hands in the air.

8 **Q** Okay. So can you pick up that laser
9 pointer and with the laser pointer show me where Big
10 Mike was on his knees, where you saw it?

11 **A** I was right here, he was around this area
12 right here. (indicating)

13 **Q** Was he in the street, on the sidewalk, in
14 the grass?

15 **A** He was on the street, smack dab in the
16 middle of the street down the yellow line.

17 **Q** Okay. Now, you moved the pointer quite a
18 bit while you were doing that. If you can, I know
19 it doesn't have to be exact, but the best you can
20 recall?

21 **A** He was right there in the middle of the
22 street. (indicating)

23 **Q** So you've got the pointer right around the
24 E or L of Canfield?

25 **A** Yes.

1 **Q** Okay, all right. And so from your vantage
2 point, you could see his whole body?

3 **A** No, I could just see like the back part of
4 it from where I was standing, I couldn't see, I
5 could only see an officer.

6 **Q** Okay.

7 **A** But I could see his back with his hands in
8 the air.

9 **Q** So if Mike Brown's back was to you.

10 **A** Yes.

11 **Q** Where was the officer?

12 **A** In front of Mike Brown.

13 **Q** So use the pointer for me and point, I'm
14 going to show you how I want you to do this. So if
15 Mike Brown is here, was he facing that way, was he
16 facing that way, so point where he is and then make
17 a line in the direction that Mike Brown was facing.

18 **A** He was facing this way.

19 **Q** So he was facing like Caddiefield Road
20 right here?

21 **A** Yes, but from my vantage point, like from
22 my window, it was like his back was turned towards
23 me.

24 **Q** What about the officer, what direction was
25 he facing?

1 **A** He was directly in front of Mike Brown. I
2 say about four to five feet.

3 **Q** So he was in front of Mike Brown?

4 **A** Yes.

5 **Q** But which way was the officer facing?

6 **A** He was facing towards him.

7 **Q** He was in front of Mike, but facing
8 towards him?

9 **A** Yes.

10 **Q** Okay. What about a vehicle, did you see
11 any cars?

12 **A** The vehicle was parked a little bit
13 further up, and I didn't notice the vehicle until
14 after I got outside and got to the bottom of the
15 steps and came outside. The vehicle was up a little
16 bit, going towards West Florissant like it had come
17 from the other way.

18 **Q** Okay. So let's stop there. So you said
19 that you didn't notice the vehicle until you came
20 down afterward?

21 **A** Until I actually got down after, after he
22 was already assassinated.

23 **Q** Do you remember when you made a statement,
24 you drew a picture and you said they were right next
25 to the vehicle?

1 **A** I didn't say they were right next to the
2 vehicle, now I remember saying that, but I didn't
3 say they were right next to the vehicle. I said
4 they was parked a couple feet away from him, but it
5 wasn't right next to him, like it was going towards
6 West Florissant.

7 **Q** Do you remember the picture that got
8 drawn? I'm going to show you, I haven't marked it
9 yet and I will, but I'm going to show you a picture.
10 Do you remember this, is that your signature?

11 **A** Yes.

12 **Q** Do you remember doing that?

13 **A** Yes.

14 **Q** So you remember that this square here was
15 supposed to be the officer's car?

16 **A** Yes.

17 **Q** And then this MB, that circle is where
18 Mike Brown was, you told the officer that's Mike
19 Brown, right?

20 **A** Yes.

21 **Q** And you told the officer that was labeling
22 this, that the distance between Mike Brown and the
23 officer's car was approximately 5 feet?

24 **A** Yes.

25 **Q** Okay.

1 **A** But that wasn't close. The car was
2 pointing towards West Florissant, I didn't say it
3 was right next to him.

4 **Q** Okay. Do you know how long 5 feet is?

5 **A** It is not really that long.

6 **Q** Like I'm 5'1". So if I'm this far away
7 from you, that's like 5 feet. Was the car that
8 close to Mike Brown?

9 **A** Yes.

10 **Q** Okay. So you realize that if Mike
11 Brown --

12 **A** But if he was right here, I couldn't
13 really tell because the building is in the way. I
14 can only see what I saw was the officer and Mike
15 Brown until I got all the way to the bottom of the
16 steps and came and come across the parking lot.

17 **Q** In your statement that you said that he
18 was next to the vehicle and you helped them draw the
19 picture and you said the vehicle was behind Mike
20 Brown about 5 feet, you didn't see the vehicle
21 behind Mike Brown?

22 **A** No.

23 **Q** Okay. So that wasn't correct?

24 **A** No, until I got down there that I actually
25 saw the car.

1 **Q** What about the officer, did you see the
2 officer get out of the vehicle?

3 **A** No, by the time I got all ready, by the
4 time I looked out the window, he was already out of
5 his vehicle with a gun drawn.

6 **Q** Okay. So now the officer was close to
7 Mike Brown when you say he's in front of him facing
8 Mike Brown?

9 **A** Yes, it was point blank range.

10 **Q** Since I don't know what you mean by point
11 blank range, were they this close?

12 **A** It was about, yes.

13 **Q** So maybe 4 feet away?

14 **A** Yeah, 4 to 5 feet away.

15 **Q** Was it close enough that the officer had
16 reached out he might be able to touch Mike Brown's
17 head or face?

18 **A** Yes.

19 **Q** All right. And you say that the officer
20 had his gun drawn?

21 **A** Yes.

22 **Q** And where was the gun pointing?

23 **A** Towards the top of his skull.

24 **Q** Mike Brown's?

25 **A** Yes.

1 **Q** And at this point you say Mike Brown is
2 kneeling?

3 **A** Yes, he is on his knees. For him to kneel
4 down, he was still tall, he was at least about 6'3"
5 or 6'4".

6 **Q** He was tall?

7 **A** He was real tall.

8 **Q** So do me a favor, , so we can get an
9 idea of what you mean. Can you come across here and
10 maybe like right here so that everybody can see you.
11 Position yourself the way you saw Mike Brown when
12 you first looked out your window.

13 **A** I looked out my window, I saw Mike Brown,
14 he was on his knees like this.

15 **Q** Okay. So, for the record, you're kneeling
16 down and that your hands are at about the height of
17 your face, correct?

18 **A** (Nods head.)

19 **Q** And your palms, your fingers are pointing
20 to the ceiling?

21 **A** He was surrendering.

22 **Q** And your palms are facing forward; is that
23 right?

24 **A** Yes.

25 MS. ALIZADEH: You can go ahead and sit

1 back down.

2 Q (By Ms. Alizadeh) And now, at that time
3 could you tell if Mike Brown had been shot?

4 A See, again, that was speculation that I
5 heard. I couldn't actually you tell if he had got
6 shot, but from what I heard he did get shot. I
7 didn't know that personally.

8 Q Well, you know, it is important to talk
9 about --

10 A That why I say I didn't see him shot
11 personally, but that's what I was told.

12 Q All right. I'm not asking you what people
13 told you or what you think happened. I want to know
14 what you saw. So you said Mike Brown's kneeling
15 with his hands up and the officer is in front of
16 him?

17 A Yes.

18 Q About 3 or 4 feet away?

19 A Yes.

20 Q With his gun pointed at Mike Brown at the
21 top of his skull?

22 A Yes.

23 Q What color was the gun?

24 A I was a little too far back to tell,
25 honestly, tell what color the gun was.

1 **Q** Okay. You saw Mike Brown leave your
2 apartment that day, when you looked out and saw him,
3 can you recognize that that was Mike Brown?

4 **A** Yes, the reason why I recognize it was
5 Mike Brown is because, first off, I didn't know
6 nobody that big was that young. Like he had been
7 that big since we have been freshman. So that's
8 another reason why I knew it was him.

9 The second reason why I knew it was
10 him, I recognize him by his socks and his khaki
11 pants that he had on when he left my apartment.

12 **Q** But with him kneeling down, you mean, you
13 weren't getting a full body view of him?

14 **A** But his legs were long and him on his
15 knees and his back was towards me, I could see the
16 lower half of his body.

17 **Q** Okay. When he left your apartment that
18 day, how about, was he wearing a hat?

19 **A** Yes, yes, he was.

20 **Q** Okay. What kind of hat?

21 **A** St. Louis Cardinals hat.

22 **Q** What color was it?

23 **A** Red, it was snapback, it wasn't a fitted
24 cap.

25 **Q** All right, was it a baseball style cap?

1 **A** Yes, it was a snapback. It is the hat
2 with the snaps on the back like you can adjust it.

3 **Q** Sure. Could you see that hat on him when
4 he was kneeling down?

5 **A** No.

6 **Q** You didn't see the hat?

7 **A** He didn't have a hat on.

8 **Q** Did you see the hat at all when you looked
9 out?

10 **A** No, I didn't see the hat until I actually
11 got there close enough to see everything.

12 **Q** So when you saw him kneeling down, he was
13 wearing what you remember he was wearing what he had
14 on, but no hat?

15 **A** Yes, he had on a gray T-shirt, he had on
16 some khaki shorts, he had on some marijuana socks,
17 they were yellow with green marijuana leafs on it,
18 and he had on some white and black Nike flip flops.

19 **Q** Now, this is one of those things I want to
20 make sure that this is what you remember seeing as
21 opposed to, like that day, as opposed to after you
22 got down to the scene.

23 You remember that's what he had on?

24 **A** Yes, I know exactly that's what he had on
25 when he left my apartment that day.

1 **Q** Do you remember what your sister's fiancée
2 was wearing that night?

3 **A** No, I can't recall that. I cannot.

4 **Q** How about what your sister was wearing
5 that night?

6 **A** She was in the bed, I don't think she was
7 doing too much, she was pregnant so, she wasn't
8 really doing too much moving around at the time.

9 **Q** So, you know, , one of the things I'm
10 wanting to kind of figure out is if your memory of
11 what he was wearing is based upon the fact that you
12 saw him down at the scene when you went down there
13 as opposed to what you really remember that he had
14 on the night before?

15 **A** I know exactly what he had on cause he
16 didn't change clothes because he couldn't get into
17 his grandmother's house to get more clothes, cause
18 that's where his clothes and belongings were at.
19 Only thing he had brought to my house was some
20 stereo speakers and his laptop.

21 **Q** So he wore those same clothes for like the
22 two weeks he was staying at your house?

23 **A** No, not for two weeks, just like a couple
24 days.

25 **Q** So then did you see the officer actually

1 fire his weapon point blank at Michael Brown?

2 **A** Yes.

3 **Q** And did you see the bullet hit him?

4 **A** Yes, I seen his body drop. And when I
5 seen that, I ran outside. On my way downstairs, I
6 heard several more shots. I didn't actually see
7 them, but I heard.

8 **Q** So did you actually see Mike Brown fall?

9 **A** Yes.

10 **Q** Was he still on his knees when the shot
11 was fired?

12 **A** As soon as the bullet hit him, he dropped.

13 **Q** Okay. And you just made a motion forward?

14 **A** Yes.

15 **Q** Did he fall forward?

16 **A** Yes.

17 **Q** Was he then on his front?

18 **A** Yes.

19 **Q** On his stomach?

20 **A** Yes, on his stomach.

21 **Q** Facedown?

22 **A** When I got downstairs, he was on his
23 stomach.

24 **Q** Okay. And so you said you heard after
25 that first shot, or the second shot, you saw the

1 second shot and after that you saw him fall onto the
2 front, his front?

3 **A** Yes.

4 **Q** And then you said you started running
5 downstairs?

6 **A** Yes.

7 **Q** Okay. When did you first hear another
8 series of shots, were you already out of the
9 apartment?

10 **A** I was out of the apartment. As soon as I
11 hit the front door and got onto the balcony I heard,
12 at least, I say about three to four shots. It was
13 like a pause of me running down the steps, and then
14 when I got to the end of the steps I heard several
15 more shots.

16 **Q** Okay. At that point then did you see what
17 was going on?

18 **A** I didn't see what was going on, but I
19 could hear it. I can't honestly say I did see hit.

20 **Q** After you ran down the steps, did you come
21 out to the front of the building?

22 **A** Yes, I ran, it was a grass hill cause they
23 were getting ready to come across, I guess they was
24 getting ready to come across the grass hill.

25 **Q** Who is they?

1 **A** I guess Dorian and Michael Brown.

2 **Q** Remember, don't guess.

3 **A** When I ran out of the house, I ran over to
4 the grass hill, people were out there crying and
5 yelling. I was just like, they just kill my home
6 boy for nothing, those were my exact words.

7 **Q** Did you see Dorian Johnson when you were
8 out there?

9 **A** No, I didn't see him until I say about
10 five minutes later because I was more worried on
11 going to go tell his family what happened, but by
12 the time I tried to get down to his family's house,
13 his uncle's girlfriend was already coming up the
14 street.

15 And I don't know if she heard about
16 what had happened or if somebody had told her, but
17 she was coming and running up the street.

18 And I guess when she found out it was
19 him, she broke down in tears. And then Dorian
20 walked up to me and he started crying. And he was
21 like sick to his stomach, so he honestly threw up in
22 the parking lot.

23 **Q** Okay. So let's back up a little bit. In
24 your other statement before your first one, you said
25 that you saw Dorian crouching behind a car, a white

1 Monte Carlo, and then you later said, no, you didn't
2 really see that?

3 **A** That's what the community and what people
4 was telling me.

5 **Q** Okay.

6 **A** This is actually what I saw.

7 **Q** So when Dorian ran up to you after you
8 were already out on the street, Michael Brown is
9 already dead in the street?

10 **A** Yes.

11 **Q** That's the first time you saw Dorian that
12 whole day?

13 **A** Yes.

14 **Q** He told you what happened then?

15 **A** He really couldn't tell me. It was a
16 neighbor that honestly told me what happened.

17 **Q** Who told you what happened?

18 **A** It was a neighbor, I don't honestly know
19 his name. It was just a person I used to see. When
20 he had got killt (sic) people thought it was me.
21 People were thinking it was me. He just left out of
22 here, he just left out of here. And that's what I
23 was hearing as I was coming down the steps.

24 **Q** Okay. So when you went down to the
25 street.

1 **A** Yes.

2 **Q** How close did you get to Michael Brown's
3 body?

4 **A** I couldn't get that close. There's police
5 right there by the time I got all the way down there
6 enough to go to the scene when his family arrived,
7 it was already, the tape was up and all that. So I
8 had called my mother first, and then I had called my
9 sister, and then I called my cousin and met up with
10 my cousin.

11 **Q** So by the time you got down like onto the
12 ground level, the tape was already up?

13 **A** No, not when I got down to the ground
14 level. I didn't go close enough to his body. I
15 stopped in the middle of the grass hill and I just
16 broke down.

17 **Q** Okay. So did you see the officers putting
18 the tape up?

19 **A** No, I honestly didn't. I was down trying
20 to go tell his family what happened. I was talking
21 to his auntie actually.

22 **Q** Okay. Use the laser pointer for me and
23 show me where you walked down to when you came down
24 to see what was going on in the street?

25 **A** There is a grass hill right here. I came

1 across. (indicating)

2 Q Okay, now --

3 A Grass hill was right here. Specifically,
4 I know this grass hill. I came across and I
5 stopped. (indicating)

6 Q You're saying you came across?

7 A I came across right here. (indicating)

8 Q From up here? (indicating)

9 A Yes, I came across right here and I
10 stopped and looked, and I just broke down.

11 Q Okay.

12 A On the grass hill, and then I tried to go
13 back to Northwinds and try to go the Northwinds and
14 try to go talk to his family.

15 Q Okay. So when you came down to the scene.

16 A Yes.

17 Q Was Michael Brown's body covered?

18 A No.

19 Q Did you see the officer?

20 A I couldn't recall, but I did, there was a
21 couple officers there. I don't know if he called
22 backup at first when it first got started or
23 something.

24 Q Again, don't guess.

25 A I'm just saying, there was officers on the

1 scene almost immediately.

2 Q So by the time you got down there, there
3 was more than one officer there?

4 A Yes.

5 Q All right. Do you think you got a good
6 enough look at the officer that shot Michael Brown
7 that you would know which one is which?

8 A I couldn't even tell. The only thing I
9 can remember is he had on a black hat, and I think
10 had on glasses, that's the only thing I can honestly
11 remember.

12 Q Okay, so backup, I don't know if I
13 understood you. He had on what?

14 A A black hat, like a black regular hat and
15 some glasses.

16 Q A black hat and glasses?

17 A Yes. I guess his police uniform.

18 Q Okay. And so the officer, is that the
19 officer that shot Michael Brown?

20 A Yes.

21 Q Was he wearing a black hat and glasses
22 when he shot him?

23 A Yes.

24 Q Okay. Was he white or black?

25 A He was Caucasian.

1 **Q** With the hat on, could you tell what his
2 hair looked like?

3 **A** No, I could not.

4 **Q** And so at some point then you said you
5 went to Northwinds to tell Michael Brown's family?

6 **A** Yes, really I went up to go talk to his
7 granny. By the time I came down, his auntie was
8 already coming up the street, and I couldn't see, I
9 guess --

10 **Q** So you went to tell his grandmother what
11 happened?

12 **A** Yes. By the time I got to Northwinds, she
13 was already walking out of her parking lot.

14 **Q** The grandmother or the aunt?

15 **A** The grandmother. I had walked past the
16 aunt, I gave her a hug, she bust out crying. And
17 then I'm like, where's grandma? I don't know, I
18 think she's down there.

19 So I'm walking towards my house,
20 again, she lives directly across the street from me.
21 And by the time I got to her parking lot, she was
22 already walking.

23 **Q** So when you first talked to the police on
24 the 13th.

25 **A** Yes.

1 **Q** That was because they came to your house,
2 right?

3 **A** Yes.

4 **Q** So you never said anything to the police
5 or called them and say, hey, I saw it, I need to
6 talk?

7 **A** I did not. I was more intimidated because
8 after what I had saw and then I was at a family
9 member's house that lives in Jennings.

10 And my mother called me and she was
11 like, the police are looking for you. I'm like, for
12 what? She was like, I don't know. Even my
13 neighbors told me. They told me there was people at
14 the back door, police officers at the back door at
15 my side windows and at the front door. I don't know
16 how many it was, but people was calling me and
17 warning me. Like they said, they came to my house
18 like I'm the one that had something to do with
19 killing him.

20 **Q** Okay.

21 **A** That's how I can say how deep they tried
22 to swarm my house.

23 **Q** They didn't have a SWAT team?

24 **A** No, it wasn't nothing like that.

25 **Q** With AK-47s.

1 **A** That wasn't necessary if only thing you
2 want to do is talk to me.

3 **Q** All right. And I understand you were not
4 wanting to come talk to the police, I get that. But
5 at some point you did go and talk to the police and
6 you told them about what you saw?

7 **A** Yes.

8 **Q** And you admit today that at lot of what
9 you told them on that day you didn't really see it?

10 **A** Yes, it was more of me just finding out
11 stuff here and there.

12 **Q** , did you feel any pressure from
13 other people in the complex or Michael Brown's
14 family or did you feel like it was an obligation
15 that you had to say that you saw those things when
16 you really didn't?

17 **A** I didn't think it was, I don't think
18 nobody would lie about something.

19 So in my mind, I honestly believe
20 that's what happened.

21 **Q** Okay. You now know that you didn't see
22 those things?

23 **A** I did not.

24 **Q** At some point did you hear about the
25 autopsy that was performed by someone that the

1 family had hired?

2 **A** No, I didn't. I didn't hear about
3 nothing.

4 **Q** You didn't hear about that?

5 **A** No.

6 **Q** You originally told the officers, or told
7 the police that you saw the officer stand over Mike
8 Brown after he fell in the street and stand over him
9 and shoot him four more times.

10 **A** Yes, that is what I was told, yes.

11 **Q** And that would mean he had gunshot wounds
12 in his back, right?

13 **A** I guess.

14 **Q** He's laying on his front, right, facedown.
15 So any gunshots wounds would have to be entry wounds
16 somewhere on his backside, right?

17 **A** Yes.

18 **Q** But you didn't see that?

19 **A** No.

20 **Q** But you did hear eight more shots fairly
21 quick in succession, right?

22 **A** Yes, I don't know if it was eight, but I
23 could say it was more than five.

24 **Q** This is after he was already laying on the
25 pavement?

1 **A** Yes, after I seen him drop, yes.

2 **Q** If the officer were to have hit him with
3 those bullets, again, those bullets would of had to
4 have come, enter his body from behind, don't you
5 agree?

6 **A** Yes.

7 **Q** Okay. Um, and first of all, not first of
8 all, I wanted to tell you, and Sheila and I talked
9 to you before you came in. We're really sorry for
10 your loss of your friend, and I know that he was
11 your best friend and the two of you were very close.
12 You understand when Sheila and I were talking to
13 you, one of the things we said is we want to have
14 everybody who said they saw part of this come
15 forward so we can figure out what happened.

16 **A** Yes.

17 **Q** Okay?

18 **A** Yes, ma'am.

19 **Q** You're not in trouble, we just want to
20 hear what you say you saw and they're going to have
21 to figure out what happened, okay.

22 Is what you said today truthful?

23 **A** Yes.

24 **Q** Is there anything important that you're
25 leaving out?

1 **A** No.

2 **Q** Is there anything else that you think this
3 grand jury needs to know that maybe I didn't ask you
4 about?

5 **A** It's just about, not just, I've been
6 dealing with, trust me, I've lived out in Ferguson
7 for, I can honestly say about almost six years.
8 Harassment, yes, I dealt through that growing up
9 over there in that area.

10 I was even like pulled off of my
11 school bus one time telling me I broke in someone's
12 house. And when I asked them why would I break in
13 someone's house when I was at school, it is always
14 harassment. They pull up on you and just ask you
15 questions. Where you going and just all type of,
16 just harassment like.

17 I should be able to live, I should be
18 able to feel safe where I live. I've got nephews
19 growing up around this area. I feel like it's not
20 the right environment for kids to even have to grow
21 up like. Even Michael Brown being shot, that was a
22 regular day, people walking dogs, kids out there
23 playing, that's not the type of scene for anything
24 to go down like that.

25 And then to leave him sitting outside

1 for hours so the whole community can see it, kids
2 and all, I feel like that's the most form of
3 disrespect. Not just to Michael Brown, but to his
4 family. That's not something they should just have
5 to sit there and look at.

6 And then another thing, for his
7 memorial to be burnt down and for me to honestly see
8 that with my own eyes, his memorial going up in
9 flames. Like there was gasoline poured on it. Like
10 they tried to say on the news, I don't know if they
11 said on the news, but they said that candles started
12 the memorial to burn it down.

13 Now, I'm out there, I live out there
14 every day. The candles are always in the middle of
15 the street. There was not a candle over there by
16 the light pole for it to blow up and make that type
17 of explosion and it's on videotape. One of my
18 family members actually got a video tape of it, he
19 put it on viral, he put it on Facebook viral.

20 For me to go out and see two
21 Caucasian Ferguson officers sitting by my sister's
22 parking lot sitting on the car looking at it go up
23 in flames.

24 And it took the only African-American
25 that was out there to come put it out with a fire

1 extinguisher, that's disrespectful. And I honestly
2 feel like that.

3 And he already got killed, people
4 throwing dirt on his name and all of this, for his
5 memorial to be burnt down. I don't think that
6 that's right at all.

7 For a person that was kind hearted
8 who did nothing to nobody. Just because he was big
9 didn't mean a thing, that man had a heart of gold.
10 If he had it, he would given you his leg or vice
11 versa because that was like my brother.

12 **Q** You know, , I think what you are
13 talking about, what has happened since Michael
14 Brown's death.

15 **A** Since the death that I have been going
16 through out there at Ferguson.

17 **Q** But it has opened a lot of people's eyes
18 about what really has been going on. And I
19 understand that both before and after Michael Brown
20 died.

21 What this grand jury is going to have
22 to decide is what's going to happen involving the
23 death of Michael Brown. We can't fix the problems
24 that happened before that and we can't necessarily,
25 you know, we're not responsible in this proceeding

1 to change the future.

2 I understand what you're saying and a
3 lot of people are saying the same thing. What I
4 need to know, and they might need to know, is there
5 anything you might have left out and forgotten about
6 and now you remember?

7 **A** No, no, that's what I remember seeing.

8 **Q** Okay.

9 MS. ALIZADEH: I don't have anything else.
10 Sheila, do you have any questions?

11 MS. WHIRLEY: I don't. Grand jurors?

12 I
13 had a question. Was Michael Brown ever with you
14 when you were harassed by the police or do you know
15 of any situations where he told you a story that he
16 had been harassed?

17 **A** Not him personally, but me, yes. Not with
18 him, but we were harassed by -- because Northwinds
19 has and Canfield have security guards. We both were
20 harassed by the security guards that legally got the
21 right to hold guns and all that type of thing.

22 Police-wise me and him together, no. If I was ever
23 harassed, it was either by myself type of situation.

24 MS. ALIZADEH: , I forgot to ask you,
25 do you wear glasses?

Page 186

1 **A** No, I do not.

2 MS. ALIZADEH: Is your vision good without
3 glasses?

4 **A** Yes, my vision is very good.

5 Do you

6 know if Michael Brown --

7 **A** Excuse me, I didn't hear you.

8 Michael Brown, has any
9 kind of job during the summer, after he finished the
10 school he work?

11 MS. ALIZADEH: Did he have a job?

12 **A** No, he did not at the time, no.

13 Do you know where did he
14 get the money for the Cigarillos and the marijuana?

15 **A** Personally, no. I can't vouch for that, I
16 don't honestly know.

17 No, thank you.

18 Do you
19 know if Michael had smoked that morning on August
20 the 9th.

21 **A** I honestly don't know, I honestly don't
22 know. I don't know the night before if he had
23 smoked when he had left my house and did what he
24 did, I don't know honestly know, but me and him
25 together, we did not smoke that morning, at least

1 not with me he didn't. I can't honestly say if he
2 did or didn't, but with me personally he didn't
3 smoke.

4 You had
5 mentioned before that you guys were talking?

6 **A** Yes.

7 Talking, or early that
8 morning talking and talking over things of life,
9 life lessons or whatever?

10 **A** Yes.

11 You and Michael. And I
12 believe you had mentioned that he was, you're
13 talking about family problems or whatever that some
14 difficulties that you each were experiencing?

15 **A** Yes.

16 In your own lives. Can
17 you tell me why it was that Michael was living with
18 his grandmother at this point?

19 **A** I honestly don't know. From my
20 understanding, him and his mother was always in tit
21 for tat. But I don't know honestly why he was
22 living with his grandmother, I honestly don't.

23 It was like he was bouncing around
24 from house to house. Cause at first he was with his
25 grandmother in Pine Lawn when he graduated from high

1 school, that's where he was living, but during the
2 summer he was out there at Northwinds at his other
3 grandmother's house, which is his mother's house
4 with me basically almost every day. I honestly
5 don't know why.

6 MS. ALIZADEH: where did his mom
7 live?

8 **A** I know currently right now --

9 MS. ALIZADEH: Not now, last summer, where
10 was his mom living?

11 **A** She had just got a house I say, I have to
12 say it was about May she was living on
13 in Dellwood. It really was nothing but like about
14 five minutes away from his grandmother's house.

15 MS. ALIZADEH: But Michael wasn't living
16 with her?

17 **A** No, we would go over there sometimes and
18 go hang out with his little brother and his little
19 sister, which is basically my little cousins now.

20 MS. ALIZADEH: Did Mike ever talk to you
21 about why he didn't live with his mom? Was it
22 because he, they had problems, or was it because he
23 liked living with his friends?

24 **A** I honestly don't know what they were going
25 through between the mother and son relationship,

1 that wasn't really none of my business to, you know,
2 ask him or anything.

3 MS. ALIZADEH: He was like your best
4 friend, you didn't talk about that?

5 A But that wasn't none of my business, that
6 was his family. I couldn't really come in between
7 like put some thoughts in his head or none of that.
8 So we ain't never talk about that.

9 Q What about why he wasn't living with his
10 grandma? You said you knew.

11 A That last little week, I don't know, they
12 was just bickering and arguing a whole lot. And he
13 got mad, I guess, they had an argument, he stormed
14 out of the house and then he was at my house.

15 Q Do you know what they argued about?

16 A I don't, because I was already at home, he
17 just came and told me. She don't believe in me and
18 I don't know what she said she was going to believe,
19 I don't know if was the music thing we were doing. I
20 honestly don't know, but he was just like she don't
21 believe in me or something.

22 MS. WHIRLEY: Is this the same grandmother
23 that was in the hospital that you are talking about?

24 A Yes, yes.

25 MS. WHIRLEY: So she was in the hospital

Page 190

1 at the time?

2 **A** Yes. I don't know if him storming out had
3 something to do with her going to the hospital or if
4 it was just a whole bunch of stuff just adding up.
5 But, yeah, she was in the hospital at the time,
6 that's why he couldn't go to her house and get any
7 more clothes because there wasn't nobody there.
8 There was no family member there or nothing because
9 she was at the hospital.

10 MS. WHIRLEY: So she went to the hospital
11 after he stormed out?

12 **A** Yes.

13 MS. ALIZADEH: But she was there, she was
14 home on the day of the shooting?

15 **A** Yes, she had just came home that day.

16 MS. ALIZADEH: I'm sorry.

17 You know,
18 I think part of the responsibility of the grand jury
19 is to find the truth in all of this.

20 **A** Yes.

21 We are here also to get to
22 know Mike. We didn't know him.

23 **A** I can guarantee you if he was here today
24 you would all love him. He was a fun, outgoing
25 person. He was never uptight, I'm the one usually

1 with the attitude. He would have to tell me, he
2 used to have to tell me to calm down and stop being
3 so serious about things.

4 We didn't do nothing. We did smoke
5 marijuana, but if we did, it was in an enclosed
6 place, it wasn't like we was out in the public with
7 it, we would just smoke and play video games and
8 just chill like we normally would do.

9 One thing I did want to
10 ask if I could, was there, to your knowledge,
11 or do you know any of the family history, was there
12 any history that Michael Brown may have any type of
13 like what they call ADD, Attention Deficit Disorder,
14 hyperactivity, or anything of that nature?

15 **A** ADD is when you like can't stop moving and
16 got to move around all the time.

17 Well, yeah, lose focus.

18 **A** No, he was more of a home body. I used to
19 have to like go get him and make him put on clothes
20 and walk to the store like. And really and truly
21 his granny was overprotective of him.

22 At that time I was one of them like
23 why is she overprotective, now I know. Now after
24 the fact, I know why she was being so overprotective
25 of him.

1 MS. WHIRLEY: Why was it?

2 A Because of situations like this. Because
3 if you notice, the people that don't deserve it, it
4 usually happens to them. He didn't deserve it.

5 There's been testimony
6 that in speaking with Michael and he was giving a
7 response back to somebody, that Michael would have
8 the action of raising his head and fluttering his
9 eyes while giving a response and doing that
10 repetitively, you know, whenever he gave a response,
11 he would raise up his head and, you know, flutter
12 his eyes. Was that a common practice that you
13 noticed of him?

14 A I honestly, I never really paid attention
15 to that type of thing. I honestly didn't. I can't
16 honestly say I have. But whatever he say he usually
17 meant it and whenever he said something, it usually
18 was deep and had meaning behind.

19 All right. Thank you,
20

21 MS. ALIZADEH: I just want to ask you
22 something because we talked about, you know, knowing
23 something about Michael Brown because, obviously,
24 none of us knew him and you knew him very well.

25 A Yes.

1 MS. ALIZADEH: Have you seen or have you
2 heard that there was video that was aired that
3 showed Michael Brown stealing some Cigarillos.

4 A Me, honestly, I wasn't there. I ain't
5 never see the tape so I can't honestly speak on
6 that, I really can't.

7 MS. ALIZADEH: Okay. Would you think that
8 that was out of character for him?

9 A Honestly, I don't think that was the case.

10 MS. ALIZADEH: So you don't think that he
11 did that?

12 A No, I can't really speak on it, I didn't
13 see the tape or anything. It was just a lot of
14 speculation I heard.

15 MS. ALIZADEH: Okay. I'm saying if you
16 assume that that was him in the video.

17 A Me, personally, I couldn't see him doing
18 nothing like that, no.

19 MS. ALIZADEH: So that would be something
20 you wouldn't expect Michael Brown to do?

21 A No, huh-uh, that ain't the type of person
22 he was, at least around me.

23 MS. ALIZADEH: You've seen him high
24 before?

25 A Yes.

1 MS. ALIZADEH: Did he do things out of
2 character when he would be under the influence of
3 drugs?

4 A No, usually he would just fall asleep.

5 MS. ALIZADEH: Okay.

6 A He usually just fall asleep and I fall
7 asleep right along with him. And she would come in
8 there waking us up and kick me out of the house like
9 she always do.

10 MS. ALIZADEH: Did you ever know him to
11 have like a quick temper?

12 A No, I'm the one with the quick temper. It
13 was usually always him telling me to calm down.

14 MS. ALIZADEH: So like never heard about
15 him getting in any fights or anything like that?

16 A No.

17 MS. ALIZADEH: Okay. All right.

18 So you
19 say you don't know why he couldn't live with his
20 family, it was none of your business. I don't mean
21 to disrespect your friend, the problem I have with
22 that is you say he's your best friend and he is
23 living with your sister who is pregnant and has two
24 small children in the home.

25 A Yes.

1 : And you never thought to
2 ask him why he couldn't live with his family member,
3 did you think it could be some type of volatile
4 situation your family could be put into?

5 **A** No, cause I didn't think about it like
6 that. We was together all day anyway, so my sister
7 was the one that told me it wasn't no problem with
8 him coming over.

9 : Okay. And you did say
10 that you did --

11 **A** As long as I've known him, he was never
12 living with his mother from the get-go. He was
13 always living with his grandmother, that's how we
14 met from his grandmother's house because we went to
15 school together.

16 You don't know why his
17 grandmother was in the hospital, could it possibly
18 have been from their argument?

19 **A** I don't know. I don't know if it was
20 slowly just building up, building up, I don't know
21 if she was depressed, whatever sent her to the
22 hospital. At that point in time she was in the
23 hospital for a few days.

24 : This is his grandmother,
25 he told you he stormed out and left, he couldn't

1 live with her.

2 **A** Yes, they was arguing.

3 Again, I don't mean to
4 talk bad about your friend, you feel like that is
5 okay behavior to do with his grandmother, find it
6 hard to believe he had similar behavior with a
7 stranger?

8 **A** No, it is not like that cause I was going
9 through problems with my mother at the time also,
10 that's why I was living down at my sister's house.

11 I really don't know what their
12 problem was, but I know I was already going through
13 my own little situation to be in his life at that
14 time. I just knew he was my friend and I was going
15 to look out for him. I guess just the way I know he
16 would look out for me.

17 Regardless?

18 **A** Yes.

19 I have on page 16 of your
20 recorded statement, you said with his hands on his
21 knees like this.

22 And then later you said he was on his
23 knee, he was on his knee, he was on his knees, and
24 then today you say he was on his knees with his
25 hands up. Those are three very different.

1 **A** No, I know what I said, and I said he was
2 on his knees with his hands up. When I looked out
3 the window every single time that part has never
4 changed.

5 So you are saying that
6 what we heard is wrong, what we heard you say?

7 **A** I said every time he had his hands up in
8 the air on his knees. I can vouch for that, I know
9 specifically what I said.

10 Okay. And today you said
11 that you heard Michael tell Dorian Johnson to run
12 for his life and you saw Dorian Johnson leave. Now
13 today you are saying you didn't see Dorian until you
14 went downstairs. Did you not actually hear him say
15 run for your life?

16 **A** I didn't, that's what Dorian told me.

17 Okay.

18 **A** He said that's the last thing he heard him
19 say, "Bro, run for your life."

20 Okay. So, again today,
21 let me just check, because I don't remember you
22 telling us in today's statement that Michael was
23 pleading for his life. Because in your past
24 statement you said you heard Michael pleading for
25 his life. Please don't shoot, please don't shoot,

1 but you couldn't hear the police.

2 **A** It is just like what I told her earlier,
3 she told me not stuff that I heard and I admitted
4 the first interview was most speculation and stuff
5 that I heard either from Dorian, neighbors, it was
6 just a whole lot of talk.

7 : And that's why I'm asking
8 you because we don't know, there is three different
9 things that you said and I'm going to ask you this
10 as well, it is a hard question for me to ask, but
11 the first one you have admitted is not really what
12 happened.

13 **A** Yes.

14 And the second one, which
15 is a little less intricate, yeah, it happened, but
16 not so much. How are we, in the first statement you
17 even told somebody to look into your soul and to
18 look into your eyes, that you would never ever lie,
19 how do we know that today's statement is the truth?

20 **A** It is not a lie if the person was actually
21 there, told me exactly what happened. So I didn't
22 feel like it was a lie. I didn't feel like it was a
23 lie at all. And the way that Dorian came to me, the
24 look he gave me in his eyes, he wouldn't lie to me
25 about something like that knowing that that was my

1 best friend.

2 : So you don't feel what
3 you said on the first interview was a lie because
4 somebody you trusted told you the truth?

5 **A** I don't think it was a lie, no.

6 You don't believe you
7 lied?

8 **A** No, I don't.

9 : Thank you.

10 MS. ALIZADEH: Just to clarify then.
11 After that question, you didn't hear Michael
12 pleading for his life?

13 **A** No, that's what I was told.

14 MS. ALIZADEH: Okay. So from where you
15 were you could hear the gunshots?

16 **A** Yes, that's the only thing I could hear.

17 MS. ALIZADEH: You couldn't hear, you
18 didn't hear the officer say anything?

19 **A** No.

20 MS. ALIZADEH: You didn't hear Michael say
21 anything?

22 **A** No.

23 MS. ALIZADEH: You didn't hear Dorian if
24 Dorian was out there, you didn't hear anything from
25 him?

4 I'm sorry, _____, but are you telling us that the
5 only thing that's true about all of your statements
6 before this is that you saw that police officer
7 shoot him at point blank range?

```
9             That's the only thing
10 that's true?
```

13 . So you've
14 explained point blank shot that you saw took place
15 about 5 feet or so from the car, the police officer,
16 correct?

18 : And you also explained
19 that immediately after it happened you were down
20 there, were you able to see exactly where that
21 police car was located?

25 Could you show us with the

1 laser where you saw that car as soon as you walked
2 out?

3 **A** Michael Brown was right here, the car had
4 to be where the C was at. If he was right here, it
5 had to be in front of the C or where the C was at.

6 : So if we had photograph
7 evidence and again, the FBI, if we have evidence
8 showing the car is not in that location, how would
9 you explain that?

10 **A** Um, really and truly, where the car was
11 located really doesn't have anything to do with what
12 honestly happened because he was unarmed, he didn't
13 put up a fight, and he was assassinated for what
14 reason. So, honestly, what does the car have to do
15 with it?

16 The only reason
17 I ask that is if the car was not moved and it was in
18 that location that we've seen the photographs, then
19 you would have been able to see any altercation if
20 there was a fight by the car?

21 **A** I wasn't really, let me ask you a
22 question. If you just seen your best friend get
23 murdered, you really would be thinking about where a
24 car was located? That's an honest question.

25 I understand you. This

1 is , I know I empathize with you, really I
2 do, but I think what we're trying to determine is
3 what happened. So if the car wasn't where you think
4 it was, where I believe you believe it was, and you
5 couldn't see the car and all you saw was a split
6 second of what happened, you don't know if there was
7 an altercation between Michael Brown and the police
8 before you looked out the window, you don't know
9 that there was or was not?

10 **A** I never said that at all.

11 : That was my question to
12 you, you don't know?

13 **A** I never said that.

14 Okay.

15 MS. ALIZADEH: Any other questions?

16 (End of the testimony of .)

17 ,
18 of lawful age, having been first duly sworn to
19 testify the truth, the whole truth, and
20 nothing but the truth in the case aforesaid,
21 deposes and says in reply to oral
22 interrogatories, propounded as follows, to-wit:

23 EXAMINATION

24 MS. WHIRLEY: It is April 16th, I'm Sheila
25 Whirley.

1 MS. ALIZADEH: April?

2 MS. WHIRLEY: I'm sorry, October 16th,
3 2014. Let's make sure we are in the right year.
4 I'm Sheila Whirley, Kathi Alizadeh is present, 12
5 grand jurors are present, and we are here with
6 .

7 BY MS. WHIRLEY:

8 Q Can you spell your name for the court
9 reporter, do that for us, please?

10 A Spelled, .

11 Q All right, You know why we're
12 here, I just like to go right to it. You know why
13 we're here, right?

14 A Yes.

15 Q Because of the Michael Brown shooting that
16 would have occurred August the 9th of 2014; is that
17 right?

18 A Correct.

19 Q Where were you working August 9th?

20 A At the Canfield Apartments.

21 Q In what capacity, what were you doing?

22 A We were trenching downspouts.

23 Q Okay.

24 A Piping out downspouts.

25 Q What company did you work for?

1 **A**

2 Q What was your job, I mean, your title,
3 your job title?

4 **A** I actually was in sales, so lawn
5 maintenance, I was helping out in the field that
6 day.

7 Q Okay.

8 **A** So more of an account manager than, you
9 know, a laborer, but I was helping out in the field
10 that day.

11 Q So you were acting as a laborer that day?

12 **A** Correct.

13 **Q** Were you a supervisor?

14 **A** Yes.

15 Q Who did you supervise?

16 **A** The laborers.

17 Q Okay. Were you working with an individual
18 or a group of people on Saturday?

19 **A** On that day, one person.

20 Q What person was that?

21 **A**

22 Q You were actually his
23 supervisor?

24 **A** In essence. He had more experience, but I
25 was lead man on the job.

1 **Q** I understand. Are you college educated?

2 **A** Yes, I have a bachelor of arts, graduated
3 from Webster University, majored in marketing, minor
4 in advertisement. And, like I said, that's the
5 sales is what I was there for.

6 **Q** All right.

7 **A** Happen to be working in the field that
8 day.

9 **Q** How long had you been working for this
10 particular company?

11 **A** Um, since November, so nine months
12 roughly.

13 **Q** Had you known , right, had
14 you known him the whole time?

15 **A** I knew him for two months at most.

16 **Q** At most. Was this your first time working
17 with him in the field as a laborer?

18 **A** I believe that was the first time we were
19 out in the field together. I don't recall being, it
20 might have been the second time out there.

21 **Q** Okay.

22 **A** We might have been out there through the
23 week. It was really the first time I worked with
24 him.

25 **Q** Tell us how your day started that Saturday

1 morning, what time did you start at Canfield Green
2 working?

3 **A** I'd say we got there about 8:00, 8:15.

4 **Q** In the morning, of course?

5 **A** Right. And we moved, we parked at the
6 office, top left up there.

7 **Q** Okay. Before you move on, we're looking
8 at Grand Jury Exhibit Number 25, and it is a map of
9 the Canfield Green Apartment Complex; is that
10 correct?

11 **A** Yes.

12 **Q** And you recognize it as that?

13 **A** Yes.

14 **Q** Where is the laser, you know how to use
15 that laser pen, right?

16 **A** Sure.

17 **Q** Okay. Now talk us through what you were
18 saying, where were you working?

19 **A** We were working right on this Building
20 here. (indicating)

21 **Q** In the very beginning when you first got
22 there that morning?

23 **A** No.

24 **Q** I want to start --

25 **A** In the morning at 8:00 when we pulled in

1 and parked right about here, you know, we did some
2 work around this building here, up to about 10:00.
3 Moved around Building and Building We kind of
4 were working on these downspouts in this area.
5 There was a big root where this tree was and about
6 11, 11-ish, that's when we first encounterer Mike.
7 (indicating)

8 Q Okay. Were you with the
9 whole time while you were working, or were you
10 working --

11 A No, we were working together. We had our
12 truck parked here initially, you know, about 10:00,
13 11:00. We were working on this corner of the
14 building.

15 Q You said you were at that location, which
16 you identified on the map as Building

17 A Right.

18 Q Near Building when you first saw Michael
19 Brown?

20 A Yeah. It was, we had moved over to the
21 middle of the building, and when we first saw him,
22 he came down, and was actually cutting some
23 roots, and that was the first time we saw him.

24 Q Where was he coming from?

25 A He came down the stairwell.

1 **Q** From that apartment building?

2 **A** Correct.

3 MS. ALIZADEH: I'm sorry, can you show me?
4 I was looking down, what stairwell?

5 **A** This one right here. (indicating)

6 MS. ALIZADEH: Okay.

7 **Q** (By Ms. Whirley) So he comes down the
8 stairwell, do you remember how he's dressed?

9 **A** Yes, he was wearing a gray shirt, jean
10 shorts, Cardinals cap, he had yellow socks with pot
11 leafs on them and sandals.

12 **Q** With pot leafs on them?

13 **A** Yes.

14 **Q** You recall him wearing jeans?

15 **A** Jean shorts.

16 **Q** Jean shorts, okay. When he comes down, is
17 he alone?

18 **A** He was alone.

19 **Q** All right. And what made you even notice
20 him?

21 **A** Uh, he mentioned something, said something
22 about cutting through a root and how he was a
23 little frustrated with having to cut through it.
24 You know, he said one of you two mad about
25 something? I'm getting a bad vibe.

1 **Q** He was talking to ?

2 **A** Yeah.

3 **Q** But you were in earshot?

4 **A** I was standing right behind him getting
5 ready to hand him whatever tool he needed to get the
6 job done.

7 **Q** I see. And when he said, he said what now
8 again?

9 **A** He said, one of you two mad about
10 something I'm getting a bad vibe.

11 **Q** And did say anything back or did
12 you?

13 **A** said something to him in the effect
14 of, it was what he told me and what he told him were
15 two different things. It was something to the
16 effect that my boss shorted me 60 cents on my
17 paycheck, you know, just making light of the
18 situation.

19 **Q** Did he say that in your presence to Mike
20 Brown?

21 **A** Uh, I didn't hear what said, but
22 that's what told me he said. That's kind of
23 hearsay, I don't know exactly what he said to him,
24 it was something to diffuse the situation. Just
25 kind of a light comment.

1 **Q** Okay. To diffuse the situation, was there
2 a situation?

3 **A** He came up and said, one of the two of you
4 mad about something, I'm getting a bad vibe.

5 **Q** Did you hear them discuss anything else?

6 **A** At that point, no. I know that they had a
7 long conversation in this area right here where the
8 truck was initially parked. I was working on
9 digging the trench.

10 **Q** But at that point, they weren't talking,
11 they didn't have a long conversation really when he
12 first came down the stairs?

13 **A** After said something, I didn't
14 really catch what said, but I heard Mike say,
15 you know, if you turn to Jesus, he'll save you,
16 whatever, something to that effect.

17 **Q** So Mike is talking about Jesus?

18 **A** Right.

19 **Q** And did they continue to talk, or what
20 happened next?

21 **A** Uh, yeah, the conversation kind of, you
22 know, started here and then went back to the
23 truck for a tool or something, and Mike followed him
24 over there. And they talk and I continued to work
25 on the hole, I don't know what all they talked

1 about.

2 **Q** You couldn't hear them?

3 **A** Not from the other side of the truck. I
4 did go over after a few minutes and kind of go, hey,
5 we're trying to work here. You know, they were
6 talking about pictures of Jesus on the wall and
7 different things.

8 **Q** Okay. Did Mike, and we know who we are
9 talking about Mike Brown, the young man that was
10 killed. Did he appear to you to be in an agitated
11 mood or aggressive, or anything like that?

12 **A** He flinched his fist a couple times and
13 looked up at the sky when they were over here
14 talking, I came around to see what's going on, he
15 flinched his fist a couple times and like looking
16 up. I kind of found it odd.

17 You know, take a step back whenever
18 we were over here in this conversation, they were
19 talking about the socks, and Mike said, you know,
20 you've got to try everything in this life, you know,
21 everything to figure out where you want to go in
22 this world. And that kind of led me to believe he
23 is probably high.

24 **Q** Okay.

25 **A** And he kind of seemed that he came down

1 when he was talking to over here, like he came
2 down from the high.

3 **Q** Describe what that looked like, him coming
4 down from a high?

5 **A** It was them talking about pictures of
6 Jesus on the wall and said something to the
7 effect of how you might have a picture of Jesus on
8 your wall, well, the devil has got a picture of me
9 on his wall. Whenever I come down, he's going to be
10 the person in charge. he's a character. I
11 don't know if you guys have seen him.

12 At the end of the conversation when
13 it was all said and done, Mike said, you know, nice
14 talking to you, and he shook hand. I could
15 kind of tell that he was grounded, you know.

16 **Q** Okay. Describe to me why you think he was
17 coming down from a high, what was he doing that made
18 you think that he was high?

19 **A** I can't say for sure.

20 **Q** Because of the socks?

21 **A** It is more of an assumption.

22 **Q** Let me ask a question or two. Did you
23 smell marijuana?

24 **A** No.

25 **Q** All right. Did you see him smoking any

1 marijuana?

2 **A** No.

3 **Q** Did you see him handling marijuana?

4 **A** No.

5 **Q** Okay. So tell me about your assumption
6 again.

7 **A** The socks.

8 **Q** Oh, the socks, okay. He said nothing was
9 wrong with smoking?

10 **A** I was up there for four weeks and it was a
11 day-to-day thing I smelled marijuana a lot around
12 all of the apartment buildings. Don't get me wrong,
13 you know, I don't want to stereotype anybody, but a
14 guy with marijuana leafs on his socks is probably
15 smoking marijuana.

16 **Q** I was curious about whether you thought he
17 appeared high though that morning when you saw him,
18 and that's why I was asking a few detailed questions
19 about it. There was nothing that made him appear
20 high except for the socks?

21 **A** Right. And the fact that he came down
22 asking if one of us were mad, you know, kind of
23 paranoid, you know.

24 **Q** To you that seem kind of paranoid?

25 **A** Right.

1 **Q** All right. You said, show us again where
2 he followed .

3 **A** So our truck was parked kind of
4 catty-corner to this building here, you know,
5 directly out. And they were on the driver door
6 here, they were over here talking. I was over here
7 digging this trench. I walked around and kind of
8 came up and heard the end of the conversation.

9 **Q** What was that, is that when they're
10 talking about Jesus on the wall you mean?

11 **A** Right.

12 **Q** And then what happened?

13 **A** He said he was, see, at this point he went
14 back up into the apartment.

15 **Q** Went back upstairs?

16 **A** Yeah, he went back upstairs. And, you
17 know, we went back to work after that.

18 **Q** Do you recall when you saw him the next
19 time?

20 **A** We were moving around this L shape here
21 and moving up into this corner and into that. And
22 he came walking from this direction. Next time I
23 saw him, he came walking from this direction with
24 that fellow with the dreadlocks. What's his name?

25 **Q** We know him as Dorian Johnson.

1 **A** Dorian, right. They came up and was
2 back over here talking to them.

3 **Q** And how long ago, tell me the timeframe
4 from when you, when he went back upstairs and then
5 you saw him later with Dorian?

6 **A** I would say 10, 15 minutes, you know,
7 somewhere roughly in there.

8 **Q** Had he changed clothes, Michael Brown, or
9 was he in the same clothes?

10 **A** Same.

11 **Q** Okay. All right. So he comes back with
12 Dorian, do they come and talk to you?

13 **A** No, they had a conversation over here with
14 . I was over in this area by then moving my
15 way around.

16 **Q** So you weren't within earshot to hear what
17 they were saying?

18 **A** Correct. And you know after a while I
19 came back over to the truck, kind of see what's
20 going on, hey, let's get back to work here and they
21 dispersed.

22 **Q** You say they dispersed, describe --

23 **A** Well, I walked over and, you know, hey,
24 let's get back to work. was like, all right.
25 The two guys, Mike said that they were going to

1 continue the conversation when they got back. And
2 that's when they went to the convenience store.

3 Q Which way did they travel?

4 A Uh, they just went up the street here.

5 Q This would be West Florissant here?

6 (indicating)

7 A Right.

8 Q Okay. And then what was the next time you
9 saw them?

10 A I never saw Darian?

11 Q Dorian?

12 A Dorian, I never saw him again.

13 Q Okay. When is the next time you saw Mike
14 Brown?

15 A He was in this vicinity right here.

16 (indicating)

17 Q And what was he doing?

18 A He was moving down the street.

19 Q Okay. Did you ever see him in a tussle
20 with a police car?

21 A Never did.

22 Q Police officer?

23 A No, I think that happened back here. And,
24 like, I said, at this point, so they went just to
25 timeframe here. So they went to do whatever, and I

1 had to go get the bobcat, which was parked up here
2 and in my process of going over here and coming back
3 and started digging some trenches with the bobcat, I
4 was in about this location here and heard a gunshot.
5 (indicating)

6 Q Okay.

7 A I heard a loud bang. I didn't know what
8 it was. It sounded like a bunch of PVC pipe hitting
9 the ground, if you know what I'm talking about.
10 I stepped out in about this location.
11 We had our truck parked right about here. At this
12 point, like I said, we were moving around. I
13 stepped out, I was about right here. I saw Mike
14 Brown come out behind the building, he was moving at
15 a pretty good clip. (indicating)

16 Q He was doing what?

17 A He was moving at a pretty good, you know,
18 kind of getting away.

19 Q Like trotting or walking fast?

20 A Right.

21 Q Okay. And what else did you see?

22 A I saw what appeared to be him getting shot
23 in the back.

24 Q Shot in the back. Why do you say it
25 appeared that way?

1 **A** Well, he was running, I heard a gunshot.
2 He was about here at this point. I heard a gunshot
3 and he kind of stumbled, and then he turned around.

4 **Q** Can you do us a favor and stand up,
5 please?

6 **A** Sure.

7 **Q** And show us, you know, what happened that
8 made you think he might have been shot from the back
9 or somewhere in the back, and then turn around for
10 us the way he did?

11 **A** It was more of --

12 **Q** Why don't you face the door?

13 **A** It was more of a, you know, kind of like,
14 I don't know how fast he was moving exactly, he was
15 going like this. I saw him, you know, kind of take,
16 you know, take a little step down and he caught
17 himself and turned around and had his hands up.
18 (indicating)

19 **Q** He had his hands all the way up like that?

20 **A** Right.

21 **Q** Sure of that?

22 **A** Positive.

23 **Q** Did he say anything?

24 **A** He yelled okay, okay, okay, multiple
25 times.

1 **Q** Okay. And at that point, what is the
2 officer doing?

3 **A** His gun's drawn, standing there pointing
4 at him. I never heard him say anything.

5 **Q** But you were within earshot to hear
6 Michael Brown?

7 **A** I heard him screaming.

8 **Q** And you never heard the officer say, did
9 it appear that the officer was saying anything, you
10 just couldn't hear it, it didn't appear he was
11 saying anything?

12 **A** Right.

13 **Q** And what was he doing, I know you said he
14 had his gun drawn, did he just stand there with the
15 gun drawn?

16 **A** Yes.

17 **Q** And never did anything else?

18 **A** Well --

19 **Q** Why don't you tell us what happened?

20 **A** So they were about right here at that
21 point kind of, you know, on the street, and Mike
22 Brown started walking back at him okay, okay, okay,
23 hands up and he just started shooting at him.

24 **Q** Okay. If I'm the officer, how was Michael
25 Brown walking toward him with his hands up?

1 **A** Like this. (indicating)

2 **Q** Okay, all right. Was he saying, stop, get
3 down, nothing?

4 **A** No.

5 **Q** Okay. And any idea how many shots were
6 fired at Michael Brown as he was walking towards
7 him?

8 **A** Six to seven, and I would say after the
9 third shot he kind of went like this and it was more
10 of a, he moved a little quicker, and then kind of, I
11 saw him falling and disappeared behind a building.
12 I was right here behind the truck at that point, and
13 then the shots must have been, you know, right here
14 going towards this building, and I'm standing right
15 here.

16 And I'm seeing, I'm like, what the
17 heck, I'm standing behind this truck and, you know,
18 they kind of come together there and he, I don't
19 know what else to say.

20 **Q** Okay.

21 **A** He fell, he fell on his face behind that
22 building, but I didn't see.

23 **Q** You saw him going down, you couldn't see
24 him hit the ground is what you mean?

25 **A** (Nods head.)

1 **Q** Later at some point you came from behind
2 that building and could see him on the ground?

3 **A** After it all happened, we walked up to
4 this knoll right about here and that's when they
5 were taping it off and everything.

6 **Q** Could you see the officer when he hit the
7 ground, from your vantage point?

8 **A** Where this car is at, I mean, they were
9 about 10 feet apart. And the officer kind of backed
10 up. He might have been standing right here at this
11 corner, the officer and I didn't see the final part
12 of that so.

13 **Q** Could you tell, and maybe you just told
14 us. I'm going to ask to make sure, could you tell
15 how far apart Mike Brown and the officer was when
16 you saw him shoot him six or seven times?

17 **A** I'd say less than 15 feet.

18 **Q** You see where we are, I'm going to walk
19 out.

20 **A** That's about it.

21 **Q** Not any further back?

22 **A** No.

23 **Q** From where you are to me?

24 **A** Right.

25 **Q** Is about how close they were?

1 **A** Yeah.

2 **Q** All right.

3 **A** And the officer was backing up as he was
4 firing.

5 **Q** As he was firing. Okay. Now, you wrote a
6 written statement, you made a written statement; is
7 that right?

8 **A** Yes.

9 **Q** And when did you write your statement?

10 **A** Uh, approximately 2:00, August 9th.

11 **Q** That day. So right after it happened you
12 wrote a statement?

13 **A** Yes.

14 **Q** Why did you do that?

15 **A** The guy I was working with, he was talking
16 to his old boss. Well, you should probably write
17 that down what happened, and then I probably should
18 too.

19 **Q** Did you guys sit down and write your
20 statements together at the same time?

21 **A** Uh, probably about as far apart as him and
22 I, but no words were spoken. It was our own
23 judgment or our own take on the matter.

24 **Q** So you didn't like talk about, hey, what
25 are you going to write, I'm going to write this,

1 what are you going to write, that kind of thing?

2 **A** Right.

3 **Q** You each wrote independently of one
4 another?

5 **A** Yes.

6 **Q** Did you look at his statement when you
7 finished writing?

8 **A** I did read it.

9 **Q** Did he read yours?

10 **A** I read it to him.

11 **Q** You read your statement to him and did
12 that make him change his statement?

13 **A** No.

14 **Q** And you reading his statement, did you
15 change yours?

16 **A** No.

17 **Q** Why don't you have a seat for us. I'd
18 like you to read that statement. You have it,
19 right?

20 **A** Yes.

21 MS. WHIRLEY: We have copies for you. I
22 just want him to read it now.

23 **A** On Saturday, August 9th, at approximately
24 12:15, I witnessed one white male police officer gun
25 down and kill one black male.

1 Initially, I heard a single shot
2 fired and peered around the corner to see a black
3 male walking away, at which time I heard another
4 shot and saw the white cop behind the black man. I
5 was about 50 to 60 yards away watching the black man
6 stumble away from the officer and turn with his
7 hands raised yelling, okay, okay.

8 Officer proceeded to unload his clip
9 into the black man, at least six to seven more
10 shots.

11 Thirty minutes before the incident,
12 fellow co-worker spoke with the black
13 man who spoke of Jesus and life and honest people.
14 Mike was his name. He was wearing a Cardinals ball
15 cap, gray shirt, jean shorts, with yellow pot leaf
16 socks and sandals.

17 At the time of the incident after
18 hearing the first and second shots, I stood there
19 like a deer in the headlights, stunned to see and
20 believe what was happening.

21 Mike said he was going to the
22 convenience store to get a few things and would be
23 right back. We were working on his building and
24 engaged in conversation. He seemed like a nice guy.

25 Q That is accurate as to how you remembered

1 it that day?

2 **A** Yes.

3 **Q** Okay. Now, you didn't mention anything in
4 your written statement about him appearing high or
5 intoxicated or anything?

6 **A** Right.

7 **Q** You didn't think about it then or what
8 made you think about it later?

9 **A** Just the pot leafs on the socks.

10 **Q** Okay.

11 **A** It was more, you know, I got to thinking
12 about it, you know, why was he questioning if we
13 were upset and why was he, not that I have a lot of
14 experience with it, I've seen it. That was the
15 evidence for me.

16 **Q** He didn't try to sell you any pot or have
17 a smoke with you or Steve or anything?

18 **A** No.

19 **Q** Okay. Did he appear at the time that you
20 saw him to be a threat to the officer when he was
21 being shot, when he was coming toward the officer?

22 **A** No.

23 **Q** Okay. Did he appear to be coming toward
24 the officer in an aggressive way?

25 **A** I mean, that's subjective.

1 **Q** I'm talking your opinion?

2 **A** See, I kind of have a mixed opinion on it.

3 **Q** Okay.

4 **A** I take the hands going down and kind of
5 moving quicker towards the cop as either I'm falling
6 to my death or okay, you've already shot me a couple
7 times, I'm coming at you.

8 **Q** So it could be either of those. So when
9 he had his hands up, what was your impression then
10 when he was saying okay, okay, okay?

11 **A** Initially I was like okay, he's giving up,
12 you know, that was my impression.

13 **Q** Okay. And did you ever see a weapon in
14 his hand?

15 **A** No.

16 **Q** Were you close enough to see if he had a
17 weapon?

18 **A** Yes.

19 **Q** How is your eyesight?

20 **A** I wear contacts, so it is 20/20.

21 **Q** You had them on that day?

22 **A** Yes.

23 **Q** And your hearing is good?

24 **A** As far as I know.

25 **Q** You hear me pretty well, right?

1 **A** Yes.

2 **Q** The other person, and his name is Dorian
3 that we talked about, did you see him at any point
4 when the shooting was going on?

5 **A** No, like I said earlier, I never saw him
6 after he was, they were going to the convenience
7 store.

8 **Q** Okay. You never, I think you already
9 answered this too, so bear with me. You never, once
10 you came back after the shooting was over and you
11 came out, what did you see as far as the scene was
12 concerned, describe that for us after the shooting
13 was over.

14 **A** All I saw was there was, at this point,
15 there was three cops. The other two cops showed up,
16 it must have been as it was happening or right
17 after. They came up and they are all staring,
18 looking at the ground. Mike Brown's laying about
19 right here, and one of the cops grabs a roll of tape
20 and starts taping it off.

21 **Q** Did you notice a police car or just a lot
22 of police cars around at that point?

23 **A** There was an SUV, I believe, right about
24 in this vicinity and that was --

25 **Q** Near the body?

1 **A** Yeah, a little past it. He bled out on
2 the street.

3 **Q** Were you there much longer after this
4 shooting occurred or did you get out of there soon
5 after?

6 **A** We got out pretty quick. and I, you
7 know, he said we probably should go, you know, being
8 two white guys, that's just my feeling. He said we
9 should probably get out of here. I think things
10 about to go -- sorry.

11 **Q** I'm sorry.

12 **A** Things are about to escalate, all kind of
13 people out here.

14 **Q** Was it escalating?

15 **A** Yeah, people coming out of the freaking
16 apartments like nobody's business.

17 **Q** Were they saying anything?

18 **A** Um, there was a fellow that came up here
19 in a red car, he pulled up about right here, he
20 jumps out and he yells, he was no fucking threat.
21 If you saw the video, goes, yeah, he had his
22 hands up. He had his fucking hands in the air, or
23 whatever he said.

24 **Q** Right. And that was you and in that
25 video?

1 **A** Yes.

2 **Q** was wearing the pink shirt?

3 **A** Yeah.

4 **Q** Okay. You're not still working for that
5 same place; is that correct?

6 **A** Correct.

7 **Q** And does it have something to do with the
8 shooting?

9 **A** Yes.

10 **Q** Tell us a little bit about that.

11 **A** Uh, essentially my anxiety was so high I
12 couldn't return to work, took off that Monday, the
13 11th, filed I didn't want to
14 miss pay for that day and my boss let me go.

15 **Q** Did he tell you why he let you go, did he
16 actually tell you he let you go because you filed
17 ?

18 **A** It was, he said it was my performance.

19 **Q** Okay. And you had worked for him for nine
20 months?

21 **A** Right.

22 **Q** Had he ever complained about your
23 performance before this day?

24 **A** No, and I wasn't a laborer, I was out
25 there making sure the job got done.

1 MS. ALIZADEH: I couldn't hear what you
2 said, that last part.

3 A I said that I wasn't a laborer, my job
4 wasn't to labor, I was out there just to make sure
5 that the job got done.

6 Q (By Ms. Whirley) Now, how did you come to,
7 since you left that, you did write a statement that
8 same day, but you left. How did you get to talk to
9 the police or the FBI about what you saw, how did
10 that happen?

11 A Uh, they showed up at my house. I had a
12 St. Louis County detective show up, and after that
13 another St. Louis County detective, along with an
14 FBI agent. And then a third time they picked me up,
15 took me down to Clayton down here and put me in an
16 interrogation room and asked me a bunch of questions
17 that I answered the best I could.

18 Q Do you know how they found out about you?
19 How they knew to come to your house?

20 A I don't know for sure, but if I had to
21 guess, I'm thinking they probably got the name of
22 the company I work for from the apartment complex
23 and so on and so forth.

24 Q They are the police, they can find out,
25 sure. When you say the first shot is what drew your

1 attention that something was going on and then I
2 believe you said you heard a second shot; is that
3 right?

4 **A** Yes.

5 **Q** And where were you when you heard the
6 second shot?

7 **A** At that point I was behind the truck which
8 is parked about where that white car is. I'm
9 standing about where the driver door is in that
10 white car.

11 **Q** And as you're hearing, I'm sure the first
12 shot got your attention as you just said?

13 **A** Right.

14 **Q** When you hear the second shot, are you
15 looking in any particular direction to try to figure
16 out what is going on?

17 **A** I was back here, I kind of came out here
18 and was over here working on something. And,
19 um, you know, I'm looking over at , you know,
20 thinking is that a bunch of pipes going on the
21 ground, which didn't make sense to me we had a lot
22 of pipe on the ground. So I didn't know what it
23 was.

24 **Q** All right. Could you see anything
25 happening when you heard the second shot?

1 **A** Yes.

2 **Q** Tell us what you saw.

3 **A** I saw Michael Brown, just Michael Brown
4 walking to the right as we are looking. He was
5 walking down the street here.

6 **Q** Like going east?

7 **A** Right.

8 **Q** Away from the officer?

9 **A** I couldn't see the officer, but yes, it
10 was away from the officer.

11 **Q** Was he walking or running?

12 **A** It was a fast pace.

13 **Q** Fast pace?

14 **A** Like we talked about earlier.

15 **Q** You heard a shot as he is moving away from
16 the officer and that's why you thought he was shot
17 in the back?

18 **A** And that's when he stumbled.

19 **Q** Okay.

20 MS. WHIRLEY: Kathi, do you have anything?

21 **Q** (By Ms. Alizadeh) I stepped out and I
22 missed part of this so I don't want to get too
23 repetitious, but did you hear when Michael Brown, at
24 any time Michael Brown was talking to
25 did you hear them talking about marijuana or weed?

1 **A** Just the comment of the socks.

2 **Q** Okay. Did you hear say
3 anything about wax?

4 **A** No.

5 MS. ALIZADEH: Did you already ask about
6 that, Sheila?

7 MS. WHIRLEY: Not about wax.

8 MS. ALIZADEH: I didn't want to repeat
9 things if that was already covered.

10 **A** I was asked that by the detectives when
11 they brought me up here, but I never heard anything
12 like that that day.

13 **Q** (By Ms. Alizadeh) So just so I can be
14 clear, you first saw Mike earlier in the morning and
15 he was by himself and he spoke to a little bit
16 and you were kind of not involved in the
17 conversation?

18 **A** Right.

19 **Q** All right. And what you heard of that
20 conversation was basically him talking about what,
21 Jesus and being angry or something, you're shaking
22 your head, but that doesn't, nobody --

23 **A** Oh, yeah, that is correct.

24 **Q** You have to say out loud.

25 **A** Yes, that's what I got from it.

1 **Q** All right. At that point did you see them
2 touch each other, shake hands, exchange pieces of
3 paper with anything, did you see them in any contact
4 with each other?

5 **A** No, just the end of the conversation when
6 Mike shook hand and said, you know, we'll
7 continue this.

8 **Q** So I'm trying to get at, there is this
9 first encounter where he's talking to and then
10 he goes, he leaves and then there is a second
11 encounter where he and Dorian are talking to ,
12 okay, right?

13 **A** Right.

14 **Q** So did Dorian shake hand after the
15 first encounter or after the second encounter?

16 **A** Dorian never shook his hand.

17 **Q** I'm sorry, Michael Brown?

18 **A** That was the first encounter, Mike shook
19 his hand.

20 **Q** Okay. And then you also talked about that
21 at some point Mike and went over by his truck,
22 on the side of Steve's truck?

23 **A** The initial conversation.

24 **Q** That was the initial conversation?

25 **A** Yes.

1 **Q** Okay. Could you see what was happening
2 when they were by truck?

3 **A** I saw them talking.

4 **Q** Okay.

5 **A** I mean, until I went over there and heard
6 them talking about pictures of Jesus, I really
7 didn't, you know, I just kind of saw them over there
8 talking.

9 **Q** Okay. So you really weren't paying that
10 much attention at that point?

11 **A** Right.

12 **Q** So when I said though, when I said could
13 you see them, what I'm trying to get at is, were
14 they at a place where your view of them was
15 obstructed by anything?

16 **A** Yeah, they were on the other side of the
17 truck.

18 **Q** Okay. So there is a time when the two of
19 them walked to the other side of the truck and you
20 can't see what's going on?

21 **A** Yeah, the whole initial, the first
22 conversation, they were on the other side of the
23 truck. I mean, I came in on the last bit of it, but
24 I really couldn't see them except their heads
25 through the windows.

1 **Q** Okay. So, and then Mike Brown leaves, you
2 said when he initially came out, did you say he came
3 out of this building, Number

4 **A** Yes.

5 **Q** And then when he left, did he go back in
6 that building or leave?

7 **A** Yes, yeah, yeah.

8 **Q** Yes? And then you said then the next time
9 you saw him he was somewhere around here?
10 (indicating)

11 **A** Right.

12 **Q** You didn't see how he came out of that
13 building --

14 **A** Correct.

15 **Q** -- at some point? So the next time you
16 see him he's around here? (indicating)

17 **A** Right.

18 **Q** Is that when he's with Dorian?

19 **A** Yes.

20 **Q** Do they walk back to your direction?

21 **A** Yeah, they walk to about right here where
22 the truck was parked. (indicating)

23 **Q** And they start talking to again?

24 **A** Yeah.

25 **Q** Do you see either of them go back into

1 this building?

2 **A** No.

3 **Q** So my question is, they could have, but
4 you didn't see it or they did not go back into the
5 building?

6 **A** I can't say, I mean, I was over here doing
7 some work, I don't know. I mean, I don't know if
8 they went back up here and they came back down here.
9 I saw them.

10 **Q** Okay.

11 **A** I just saw them. I don't know how they
12 got there.

13 **Q** Okay. And so at that point then, after
14 they left and they said they would be back, was it
15 Mike that said that or was it the other man, Dorian?

16 **A** It was Mike.

17 **Q** And then the next thing you notice, you
18 hear a gunshot, correct?

19 **A** (Nods head.)

20 **Q** And that's several minutes later, I guess?

21 **A** Yeah, I'd say 10, 15 minutes, somewhere
22 around there.

23 **Q** All right. And when your attention is
24 directed in that location or in that area, do you
25 see Mike Brown before you hear the second gunshot,

1 or do you hear the second gunshot and then see Mike
2 Brown?

3 **A** No, the first.

4 **Q** So you turn and you see Mike Brown and
5 he's, I want to be clear on how he's moving because
6 at one point you said a good clip, and then you said
7 walking and then you said walking fast?

8 **A** He was running from the cop. I mean, it
9 wasn't a run, but it wasn't a walk.

10 **Q** Okay. All right.

11 **A** He was moving away going down the street.

12 **Q** Okay. And then --

13 **A** He's a big guy, I mean, you know a run for
14 him might be a jog to me.

15 **Q** I'm not trying to be argumentative, I'm
16 just trying --

17 **A** No, I just want to explain the difference.

18 **Q** So then you hear the second gunshot?

19 **A** Yes.

20 **Q** And you said at that point you think that
21 that second gunshot hit him?

22 **A** Yes.

23 **Q** And that was because of what?

24 **A** Why I think that?

25 **Q** Yeah.

1 **A** Because he stumbled.

2 **Q** And then he turns around, okay. Now at
3 this point, have you seen the officer at all?

4 **A** Not yet. I mean, it was shortly after he
5 turned around that I saw the cop.

6 **Q** Okay. So when he turned around, is Mike
7 Brown's back to you?

8 **A** Uh, they're kind of maybe at a 45 degree
9 angle from me.

10 **Q** Okay. When he was coming in your
11 direction, whatever pace that is, I didn't want to
12 say running, okay, coming toward your direction,
13 could you see his face?

14 **A** No.

15 **Q** Is that because of your position?

16 **A** Well, I mean, I saw the side of his head.
17 I'm standing right here where that white car is and
18 he's right here and that's a pretty good distance.

19 **Q** Okay.

20 **A** I mean, I couldn't see his facial
21 expressions or whatever.

22 **Q** All right. And you said you heard Michael
23 Brown screaming?

24 **A** Yes.

25 **Q** Was that before he turned around or after

1 he turned around?

2 **A** Before I turned around.

3 **Q** No, Michael Brown.

4 **A** Oh, that was after he turned around.

5 **Q** Okay. Could you make out what he was
6 screaming?

7 **A** He was yelling, okay, he said it about
8 six, seven times.

9 **Q** All right.

10 **A** I wrote it down.

11 **Q** Okay.

12 MS. WHIRLEY: If I can just ask something
13 while you are looking, Kathi. Was his hands up and
14 he's saying, okay, okay, okay, before he was shot
15 again?

16 **A** Yes.

17 MS. WHIRLEY: So when he was being shot,
18 his hands were up?

19 **A** Yes.

20 MS. ALIZADEH: And so when he turned
21 around, he moved in toward where the officer comes
22 from in that direction, right?

23 **A** Yes.

24 MS. ALIZADEH: About how many steps or
25 feet did he move?

1 **A** In total? I would say about 20.

2 MS. ALIZADEH: 20 feet or 20 steps?

3 **A** 20 feet.

4 MS. ALIZADEH: Okay. And so at some point
5 you see the officer appear beyond the building,
6 correct?

7 **A** Yes.

8 MS. ALIZADEH: And then Michael Brown
9 turns and moves towards the officer. Does the
10 officer move then? Is he still coming toward
11 Michael Brown?

12 **A** I mean, after he turned around and had his
13 hands up, he kind of just stopped and stood there.
14 And then that's when the shooting occurred. I mean,
15 he was going, turned around and then started
16 shooting, and then Michael Brown, Michael Brown was
17 kind of moving at him like I'm giving up, hands up.

18 MS. ALIZADEH: So, now, you said I'm
19 giving up, hands up. You didn't hear him say that?

20 **A** He said, okay, okay, okay, that to me
21 means --

22 MS. ALIZADEH: I just want to be clear.
23 When you said that, that was what you are
24 interpreting, right?

25 **A** Yes.

1 MS. ALIZADEH: So what I'm trying to
2 figure out is you didn't see Michael Brown fall,
3 correct?

4 A He was falling and then he went behind the
5 building.

6 MS. ALIZADEH: So the building blocked, he
7 goes beyond the building from your vantage point?

8 A Yeah, about this area right here.
9 (indicating)

10 MS. ALIZADEH: Right.

11 A I saw him to about where that white car is
12 and then he was going down.

13 MS. ALIZADEH: So where is the officer
14 when that happens?

15 A He was about, right about this
16 intersection right here. (indicating)

17 MS. ALIZADEH: So you can still see the
18 officer when Michael Brown disappeared from your
19 view?

20 A That is correct. He was kind of going
21 straight when the officer was kind of moving back
22 and sideways, and he kind of moved at an angle. At
23 one point, the shots were this way and more went
24 almost at me.

25 MS. ALIZADEH: Okay. And once Michael

1 Brown disappeared from your view, did you ever hear
2 any more gunshots?

3 **A** No.

4 MS. ALIZADEH: I don't have anything else.

5 MS. WHIRLEY: When you mention anger, or
6 Kathi said something about angry, just to make sure
7 I'm clear, it was that was angry about
8 some work he was doing and Mike Brown said he could
9 feel anger, is that what you told us?

10 **A** Yes.

11 MS. WHIRLEY: Questions?

12 MS. ALIZADEH: I thought you said he's
13 getting a bad vibe?

14 MS. WHIRLEY: That's the words. Those
15 were my words, I said angry, but you said vibe. I
16 meant the same thing. Those are not your words?

17 **A** I'm getting a bad vibe, were you two angry
18 about something, that's what he said.

19 MS. ALIZADEH: I'm sorry, I just want to
20 say, this is very important.

21 **A** I hear you.

22 MS. ALIZADEH: All we're trying to do is
23 best figure out what happened, okay. I know it
24 feels like we are picking at you and we're not.
25 Some of this stuff is very important and if you

1 don't remember exactly, it is best to say I'm not
2 sure, I don't remember exactly. That's why when we
3 ask you exact specific things, okay.

4 **A** I'm just trying to be honest.

5 MS. ALIZADEH: Okay.

6 At the
7 point when Michael Brown turns around with his hands
8 up and the police officer, I guess, starts shooting
9 at him, did you ever see him or appear that he was
10 reaching in his shirt or reaching in his pants like
11 he had a weapon?

12 **A** No.

13 Thank you.

14 MS. ALIZADEH: Did you ever see Michael
15 Brown clutching his torso or with his hand where he
16 might have been touching his torso?

17 **A** After about the third shot, he did have
18 his hands kind of over his belly, you know, like,
19 oh, I've got shot in the belly.

20 MS. ALIZADEH: Okay. So after the third
21 shot, the total third shot, or after the third shot
22 when you saw him?

23 **A** Yeah, it would have been like the fifth
24 shot then.

25 MS. ALIZADEH: Okay. So from this

1 position his hands came down to clutch his torso at
2 some point?

3 **A** (Nods head.)

4 MS. ALIZADEH: That was about the fifth
5 shot?

6 **A** Yes.

7 MS. ALIZADEH: Did you, could you see any
8 blood or anything on him?

9 **A** Uh, no, I didn't see any blood. I did see
10 the back of his shirt, you know, like somebody
11 pinched your shirt or whatever, looked like a bullet
12 went through him.

13 MS. ALIZADEH: Okay. And when you said,
14 you said, uh, I'm shot, something like that just
15 now, was that you interpreting his actions or did
16 you hear him say that?

17 **A** No, that's my interpreting.

18 MS. ALIZADEH: I just want to make sure.

19 **A** That's the gray area. I don't know, it
20 all happened so fast.

21 MS. ALIZADEH: I understand. That's why
22 I'm asking is this something you heard or was that
23 just something that was just your impression?

24 **A** That was my impression.

25 MS. WHIRLEY: Questions, anyone?

1 After
2 Michael turned around and he's advancing towards the
3 officer and you hear the shots, was it a continuous
4 burst of shots, was there a shot and a pause and
5 more shots?

6 **A** It was continuous.

7 You think it was three or
8 four, or how many?

9 **A** It was at least six, maybe seven, like I
10 said, he unloaded his clip it seemed like. It was a
11 barrage. It seemed unnecessary.

12 Again,
13 after Michael Brown turned around, his hands are up,
14 either he started walking first or the gunshots
15 started first, that series of shots?

16 **A** He was advancing prior to the shots.

17 MS. WHIRLEY: And just to be clear, how
18 long had you worked in that Canfield area?

19 **A** Four weeks.

20 MS. WHIRLEY: Four weeks. Had you met
21 Mike Brown before that day? You may have told us
22 already.

23 **A** No.

24 MS. WHIRLEY: Had you met Dorian?

25 **A** No.

1 MS. WHIRLEY: Did you know any of the
2 Ferguson police officers?

3 A No.

4 MS. WHIRLEY: And the officer that did the
5 shooting then, you wouldn't have known him?

6 A Correct.

7 MS. WHIRLEY: You don't know any of these
8 people involved?

9 A I have no connection to anybody up there.

10 MS. WHIRLEY: All right.

11 Having
12 worked there for four weeks, like you said, and it
13 sounded a bit like PVC hitting the ground or
14 something like that. Have you ever had occasion to
15 hear another sound essentially echo off any of those
16 buildings, any loud sound or anything like that, you
17 know, when you're working you drop a tool or
18 something like that?

19 A Uh, no.

20 Nothing remarkable in that
21 respect?

22 A I mean, it was right after the 4th of
23 July, heard some fireworks, but they didn't bounce
24 off the building. I didn't hear it echoing or
25 anything. I don't quite understand what you're

1 asking.

2 I'm trying to get a sense
3 the way that's it laid out, it is tough for us to
4 kind of visualize how it is laid out. If sound
5 echos or travels through there very easily or it is
6 absorbed by the buildings?

7 **A** Well, it wasn't like a normal gunshot. It
8 sounded different and, you know, that's kind of why
9 I thought PVC to begin with, but that wasn't the
10 case.

11 MS. WHIRLEY: Anybody else?

12 . You
13 said sound different. You were there, you have
14 experience in all of those kind of things that you
15 say this is something different to you.

16 **A** I never said I was in the Army.

17 That is not what I asked.
18 You answered with him that the sound of it was
19 different to you?

20 **A** Right.

21 Different with compared
22 to what?

23 **A** It sounded far away. It sounded far away.
24 You don't have experience
25 in those kind of arms?

1 **A** I'm a hunter.

2 What is different?

3 **A** I've shot guns before, I'm not a stranger
4 to them.

5 That's what I want to
6 know.

7 **A** I know what a gunshot sounds like.

8 All right, thank you.

9 One more
10 question. Just before you heard the first shot,
11 were you operating a bobcat, making loud noise where
12 you may not have heard if there were shots before
13 that?

14 **A** That's a good point. I had just gotten
15 out of the bobcat and --

16 Turned it off.

17 **A** Turned it off and jumped out, and then I
18 heard that. It could have been more before, I don't
19 know.

20 MS. ALIZADEH: Do you wear ear plugs when
21 you are working around that?

22 **A** No.

23 (Deposition Exhibit Number 45
24 marked for identification.)

25 MS. ALIZADEH: I just want to tie this in.

1 Since you read from your statement, I'm going to
2 show you Grand Jury Exhibit Number 45. Is that a
3 copy of it?

4 **A** Yes.

5 MS. WHIRLEY: We will pass that out.

6 : Have you really been in
7 trouble with the law before yourself?

8 **A** No.

9 MS. WHIRLEY: Nothing else. Thank you
10 very much.

11 (End of the testimony of)

12 MS. ALIZADEH: This is Kathi Alizadeh on
13 October 16th, it is 3:44 p.m. and Sheila Whirley is
14 here as well. All 12 grand jurors and the court
15 reporter, , and we're going to play now a
16 videotaped statement of , a witness
17 that you heard previously testify. His statement is
18 recorded on a disc that is marked Grand Jury Exhibit
19 Number 40.

20 And, um, before we start recording, I was
21 explaining to the grand jurors that there is about
22 an hour and ten minutes of actual time where
23 is being interviewed by the police. And so
24 there is quite a bit of time where nothing is
25 happening. He will be sitting in a room by himself.

1 We are going to fast forward, as it were, on the
2 counter it will be 16 hours 17 minutes and 45
3 seconds, or whereabouts, as close as Sheila can get.

4 That will be about where the interview
5 begins, and then the interview, there's a break in
6 the interview at 1726, 17 hours, 26 minutes and 38
7 seconds. Where asked for some water and
8 the interview, there is a break in the interview but
9 the interview never resumes after that.

10 So we're going to stop it at the point
11 where he asked for water and the detectives leave
12 the room to get water, all right?

13 So, at this time, also just for the sake
14 of the recording, one of the grand jurors has
15 indicated he is expecting a phone call that he has
16 to take. So if I get the high sign during the
17 recording that he's getting a call, we will go ahead
18 and pause the video so that he can quickly take that
19 call because we have to make sure you all are
20 hearing the same thing, okay. So at this time,
21 you can --

22 MS. WHIRLEY: One last thing I wanted to
23 say, even though we're going to focus on the time
24 when the interview is being conducted, you guys will
25 have access to the whole video. So if you want to

1 watch him just sitting there doing nothing, you can
2 certainly do that at a later time.

3 MS. ALIZADEH: So at this time, , if
4 you will pause the audio while we play the statement
5 on Grand Jury Exhibit 40.

6 (Playing audio recording of
7)

8 MS. ALIZADEH: It is October 16th it is
9 about a quarter after 5:00. Kathi Alizadeh, Sheila
10 Whirley had to leave. And we are finished for the
11 day. I just wanted to make a point in stating that
12 we finished, or we watched a videotape interview and
13 after a few technical glitches, we had started the
14 interview, watched a few minutes of it in the
15 beginning when was put in the
16 interview room, and there was conversation between
17 him and a detective that come in.

18 And then we fast forward to approximately
19 16 hours 17 minutes and 45 seconds when the
20 interview began. We listened to it until just about
21 17 hours 26 minutes and 38 seconds when
22 asked for a drink of water, and then that's
23 pretty much the conclusion of it.

24 There was about five or six statements
25 after that when they brought him some water. You

1 all agreed you didn't need to fast forward to watch
2 that part.

3 Does anybody have any questions or issues
4 about this? And as always, this tape will be made
5 available for you if you wanted to go through it
6 again or watch the whole thing in its entirety, but
7 if that's fine for today, we'll conclude now and see
8 you next time.

9 (End of Grand Jury Hearing Volume XIII.)

depositions, do hereby certify that pursuant to

10

Notice in the civil cause now pending and

11

undetermined in the County of St. Louis, State of

12

Missouri.

13

14

The said witness, being of sound mind and being

15

by the grand jury first carefully examined and duly

16

cautioned and sworn to testify to the truth, the

17

whole truth, and nothing but the truth in the case

18

aforesaid, thereupon testified as is shown in the

19

foregoing transcript, said testimony being by me

20

reported in shorthand and caused to be transcribed

21

into typewriting, and that the foregoing page

22

correctly sets forth the testimony of the

23

aforementioned witness, together with the questions

24

propounded by counsel and grand jurors thereto, and

25

is in all respects a full, true, correct and

complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME 14

2 MS. WHIRLEY: This is Sheila Whirley.

3 Today is October the 20th, 2014. It is
4 approximately 8:41 a.m. I'm here present with all
5 12 grand jurors and , the court reporter.

6 Kathi Alizadeh is out of the room right now, but
7 will be joining us a little later in the morning.

8 We're going to start off this morning
9 playing recorded statements. So I have three
10 recorded statements of . He was one of
11 the contractors that was at the apartment complex
12 that morning and he's already testified, but we
13 didn't get a chance to hear his statements because
14 he was present and we wanted to get the live
15 testimony going. This morning we are going to go
16 ahead and do his statements.

17 After that I anticipate we'll listen,
18 we'll have a live person that will testify and that
19 is , who says that he was in one of
20 the cars driving in when all of this took place.

21 There is also one other witness,
22 that is scheduled to testify hopefully this
23 morning, and then we will probably have recorded
24 statements toward the conclusion of the day.

25 So with that bit of an introduction, I'm

1 going to pass out the first transcript of
2 . I don't recall exactly how long this one
3 is, but I don't believe it is very long. If you
4 find any notes, I guess those are probably Kathi's
5 if you see one with notes on it.

6 There is two short interviews of
7 and then there is a longer interview with
8 the police officer. So those are the three that we
9 will play.

10 Probably an hour and a half total maybe.
11 So with that bit of an introduction, I guess we'll
12 pause the recording and go ahead and listen to the
13 statements.

14 (Playing of three interviews of
15 .)

16 MS. WHIRLEY: This is Sheila Whirley
17 again, still October 20th, 2014. The two recorded
18 statements that we just listened to were from Grand
19 Jury Exhibit Number 24.

20 I'm going to now play the interview with
21 that was conducted by two police
22 officers from St. Louis County. That interview is
23 approximately, well, it is less than an hour long.

24 There's plenty of down time in this
25 interview where he's just sitting in a room. I'm

1 going to skip through that. You have seen us do
2 that before, however, the CD or DVD will be
3 available for your viewing later if you want to see
4 the whole thing, including him just sitting there.

5 This one is not marked, and Kathi has a
6 scheme of numbers. I'm not going to give you a
7 number, we will get it marked once I find out where
8 it falls with the scheme of those things.

9 With that bit of introduction, we'll get
10 started so stop the recording.

11 (Playing of interview Number 3 of
12 .)

13 MS. WHIRLEY: That concludes the interview
14 of . They call it DCI. That's the
15 detectives and that's Detective and Detective

16 As I mentioned, I kind of skipped through
17 just to the part where there was an actual
18 interview. There was a lot of down time and the
19 interview began at 15:27 and then it pretty much
20 ended at 18:08:58. And the exhibit number for this
21 interview is Grand Jury Exhibit Number 47.

22 (Grand Jury Exhibit Number 47
23 marked for identification.)

24 MS. WHIRLEY: While we're on the record,
25 did you want to say anything at this moment?

1 MS. ALIZADEH: Good morning. I've been
2 over in court doing other cases. No, I don't.

3 MS. WHIRLEY: At this time we'll take a
4 break, thank you.

5 (Recess)

6 MS. WHIRLEY: October 20th, 2014. Present
7 is Sheila Whirley, Kathi Alizadeh, all 12 grand
8 jurors, , the court reporter, and a witness
9 . I'm not sure exactly what time it
10 is, but we'll let go on the record with his
11 statement and then swear in the witness.

12

13

14

15

16

17

18

19

20

21 of lawful age, having been first duly sworn to
22 testify the truth, the whole truth, and
23 nothing but the truth in the case aforesaid,
24 deposes and says in reply to oral
25 interrogatories, propounded as follows, to-wit:

1 EXAMINATION

2 BY MS. WHIRLEY:

3 Q All right. I've stated your name, but
4 introduce yourself and spell your name for us,
5 please?

6 A My name is

7
8 Q I'm going to stand close to the back of
9 the room so that you can speak loud enough for us to
10 have a conversation and all the grand jurors to hear
11 you. That microphone that is by you that's sitting
12 up there next to you does not help your voice get
13 any louder, okay?

14 A Yes, ma'am.

15 Q All right. So how old are you, ?

16 A I'm

17 Q And where do you live currently, do
18 you live in Canfield Green --

19 A Yes, ma'am.

20 Q -- Apartments, okay. Now, you see up
21 there, there's a laser light, I believe, looks like
22 a pen. Why don't you pick that up and there's a
23 button right there, why don't you shine it and see
24 if you can get a light to come on. You see the
25 light?

1 **A** Yes.

2 **Q** Okay. Show us where you live?

3 **A** Should I stand.

4 **Q** Yeah, feel free to walk around, stand,
5 before I ask you questions, let me make sure that
6 this map is something that you recognize as the
7 Canfield Green Apartments. And this is Grand Jury
8 Exhibit Number 25.

9 **A** Yes, ma'am.

10 **Q** Okay. Show us where you live?

11 **A** I stay here in .

12 **Q** Okay, . Now, you know why we're here
13 today, correct?

14 **A** Yes, ma'am.

15 **Q** We're here about the Michael Brown
16 shooting. Where were you on August 9th, let's start
17 that morning, tell us about your morning, how the
18 day went?

19 **A** I had left out around 8:00, 9:00 it was
20 early in the morning.

21 **Q** Was it Saturday as you recall?

22 **A** Yes, ma'am.

23 **Q** Okay.

24 **A** I had got a call from my girlfriend to go
25 home and pick up some bills so I can pay them for

1 her while she was at work.

2 Q Did you live with your girlfriend or who
3 did you live with?

4 A Yes, ma'am, I was staying there.

5 Q Okay.

6 A At

7 Q All right. So you got a call from her?

8 A Yes. As I was proceeding to come down
9 Canfield from West Florissant.

10 Q What time of day would this have been?

11 A You know, later in the day, about 11:30.

12 Q Okay.

13 A As I approached Canfield coming from West
14 Florissant, I was, I had stopped because I seen some
15 confusion going on between a young male and an
16 officer.

17 Q Okay. What kind of car were you driving?

18 A Two door .

19 Q Was there any cars in front of you or
20 behind you?

21 A Yes, ma'am. There was a white pickup
22 truck that was behind me.

23 Q And he was stopped too because you
24 couldn't move?

25 A Yes, ma'am.

1 **Q** And you said you were stopped because
2 there was some confusion going on, was it between a
3 police officer, you said, and we know that person to
4 being Mike Brown now?

5 **A** Yes, ma'am.

6 **Q** Where was the police car?

7 **A** In the middle of Canfield.

8 **Q** All right. Where you just shined the
9 light?

10 **A** About there. (indicating)

11 **Q** Okay. And what kind of car was it that
12 the police was in?

13 **A** The mobile reserve truck.

14 **Q** Like SUV?

15 **A** Yes, ma'am.

16 **Q** And how was the car, what position was the
17 car in as it was stopped there between Canfield
18 Drive, near Canfield Drive?

19 **A** He was slanted.

20 **Q** Caddiefield?

21 **A** He was facing towards West Florissant.

22 **Q** Like his front was facing this way?
23 (indicating)

24 **A** Yes, ma'am.

25 **Q** Was it, was he, you know, in the lane as

1 he should have been or was he?

2 **A** He was.

3 **Q** Breaching the lanes?

4 **A** He was in both lanes.

5 **Q** Okay.

6 **A** He was in both lanes.

7 **Q** Okay. He was in both lanes. So you
8 couldn't get around him or could you?

9 **A** I could have, but he was still in both
10 lanes. I could have eased around him if I wanted
11 to.

12 **Q** But you didn't think you should ease
13 around?

14 **A** No, I'm not moving at that moment.

15 **Q** So what are you seeing as you are sitting
16 there?

17 **A** Uh, Mr. Brown struggling to get away from
18 the officer.

19 **Q** Now, I need you to describe what
20 struggling looks like?

21 **A** Like the officer was holding onto
22 Mr. Brown, pulling him towards him as Mr. Brown
23 forcing to get back away from him.

24 **Q** All right. What was Mr. Brown's hands
25 doing?

1 **A** Struggling with the officer to let go of
2 him.

3 **Q** All right. Did you know Michael Brown
4 before this day?

5 **A** No, ma'am.

6 **Q** How long have you lived in the Canfield
7 Green Apartments?

8 **A** Since the beginning of

9 **Q** Okay. So like

10 **A** Yes.

11 **Q** And you had never met him?

12 **A** No, I don't know anybody out there.

13 **Q** You didn't know the police either?

14 **A** No, ma'am.

15 **Q** So as he's struggling, is this the very
16 first time you saw the police car in relation to
17 Mike Brown was when you saw them struggling at the
18 car?

19 **A** Yes, ma'am.

20 **Q** You didn't see what happened before then?

21 **A** No.

22 **Q** All right. So you never saw the police
23 officer drive in reverse?

24 **A** No, ma'am.

25 **Q** Okay. All right. So they're struggling

1 as you put it, did you ever see Mike Brown striking
2 the officer with his fist?

3 **A** No, ma'am.

4 **Q** How close were you to the police car, you
5 know, where the incident was occurring?

6 **A** Uh, I don't know how --

7 **Q** Can you put it in car lengths, uh, like
8 how many car lengths were you from the police car
9 and Mike Brown and the officer?

10 **A** In car lengths, I would say about four or
11 five cars.

12 **Q** Okay. So the distance between four and
13 five cars is how far you were from Mike Brown and
14 the officer?

15 **A** Yes, ma'am.

16 **Q** Could you see clearly though what was
17 going on?

18 **A** No, the only thing I could see was just a
19 struggle of Mr. Brown trying to get away from the
20 police officer.

21 **Q** Okay. And could you see the entire police
22 car?

23 **A** Yes, ma'am.

24 **Q** Could you see one side better than the
25 other side of the police car?

1 **A** Yes, ma'am, which was the side that
2 Mr. Brown was on, which would be the driver's side.

3 **Q** The driver's side of the police car?

4 **A** Yes.

5 **Q** All right. Do you recall what Mike Brown
6 was wearing?

7 **A** I remember flip flops, some high socks and
8 shorts I, can't remember the shirt.

9 **Q** Did he have on anything on his head that
10 you recall?

11 **A** No, huh-uh.

12 **Q** Do you recall, or you saying he did not?

13 **A** I don't recall seeing him with anything on
14 his head.

15 **Q** Could you see the police officer?

16 **A** No, all I could see was his arms mainly.
17 I couldn't see his face.

18 **Q** You couldn't see his face?

19 **A** No, ma'am.

20 **Q** But you saw his arms?

21 **A** Yes, ma'am.

22 **Q** What was his arms doing?

23 **A** Pulling Mr. Brown towards him.

24 **Q** Like with two arms?

25 **A** Yes, ma'am.

1 **Q** So he had two arms where on Mike Brown?

2 **A** Uh, I see he was holding onto his shirt
3 and struggling to hold onto his neck.

4 **Q** You saw the officer with his hand on Mike
5 Brown's neck?

6 **A** Uh-huh. One was holding his shirt.

7 **Q** One holding his shirt?

8 **A** Holding his shirt and struggling with the
9 other one to hold onto his neck to pull him towards
10 him.

11 **Q** Was he saying anything?

12 **A** No, ma'am, not that I recall.

13 **Q** Were you close enough to hear?

14 **A** No, ma'am.

15 **Q** All right. And what's your vision like,
16 do you have good vision?

17 **A** Yes, ma'am.

18 **Q** Do you wear glasses or contacts?

19 **A** No, ma'am.

20 **Q** What's your hearing like, is your hearing?

21 **A** I've got good hearing.

22 **Q** Good hearing? So if they were saying
23 something, I'm not clear, do you think you would
24 have heard it or you weren't close enough?

25 **A** I don't think I was close enough to hear

1 anything.

2 Q But you were close enough to see clearly?

3 A Yes, ma'am.

4 Q And then what happens after the
5 struggling?

6 A Uh, that's why I see the first shot go off
7 and Mr. Brown, I don't want to say I'm guessing,
8 Mr. Brown was hit at close range and he gets loose
9 and proceeds up Canfield.

10 Q Which way?

11 A Towards Northwinds, not going towards West
12 Florissant, going deeper into the apartments.

13 Q Let's talk about when you heard the first
14 shot. So the first shot that you heard, was the
15 officer still in the car?

16 A Yes, ma'am.

17 Q And Mike Brown was still at the driver's
18 side window?

19 A Yes, ma'am.

20 Q Was the window down?

21 A Yes, ma'am.

22 Q Did you see the officer's gun when you
23 fired the shot?

24 A Yes, ma'am.

25 Q Tell us what that looked like, what you

1 were seeing?

2 **A** A black, I say a black handgun.

3 **Q** Did the gun come out of the window or was
4 the gun still inside the car?

5 **A** He came out his window.

6 **Q** Where was Mike Brown when the gun came out
7 the window?

8 **A** Still at the side of the police door
9 window.

10 **Q** So Mike Brown was at the driver's window
11 and the gun comes out the window?

12 **A** Shots fired, when the first shot was
13 fired.

14 **Q** And the first shot, was it right up on his
15 body as you saw it?

16 **A** Yes.

17 **Q** Like I don't want, I'm sorry, I hope not
18 to touch you, but you understand like if this is
19 gun?

20 **A** Close range.

21 **Q** How close?

22 **A** Right there.

23 **Q** My hand was like maybe a foot from you?

24 **A** Yes.

25 **Q** Okay. Actually, a few inches, 6 to

1 12 inches from you?

2 **A** Yes.

3 **Q** It didn't touch?

4 **A** It wasn't too far away from him, it was at
5 close range.

6 **Q** It was out of the car window where you
7 could see it?

8 **A** Yes.

9 **Q** It appeared to you that Mike Brown was
10 hit?

11 **A** Shot, yes.

12 **Q** Why did you think he was hit?

13 **A** Because as he got hit, the officer let him
14 go, he kind of clenched and took off up Canfield.

15 **Q** I want to know what he looked like when
16 the shot went off?

17 **A** Like, I don't know.

18 **Q** You can stand up and show us as much as
19 you can.

20 **A** After the first shot got hit, it hit him,
21 he clenched and turned and took up Canfield.

22 **Q** (By Ms. Whirley) Okay, all right. And
23 which side of his body did it appear to hit?

24 **A** My right side.

25 **Q** Your right side?

1 **A** Yes.

2 **Q** Okay.

3 **A** Yeah, I say my right side.

4 **Q** On your right side, you hit your left
5 side, I mean, you tell us maybe, this is your left
6 here.

7 **A** My left, I'm sorry, my left.

8 **Q** So it appeared to hit him in the left?

9 **A** Yes.

10 **Q** Did he clutch the left, what did you say
11 he did?

12 **A** It impacted him, he kind of gave a fold.

13 **Q** Towards his left?

14 **A** Yes.

15 **Q** And he took off running?

16 **A** Yes.

17 **Q** Was he running fast or stumbling?

18 **A** Slow-ish.

19 **Q** Slow-ish, okay.

20 **A** Like he barely even gave it a pursuit. I
21 want to say that the shot affected him. He barely,
22 like, he barely gave it a run.

23 **Q** Okay. Did you hear just one shot at the
24 car window?

25 **A** Yes.

1 **Q** And then what happened?

2 **A** Uh, that's when I kind of gave it a duck
3 as I see Mr. Brown pursuing up, my passenger that
4 was with me was jumping, scared out of her mind.

5 **Q** Who was your passenger?

6 **A** I don't know her name, I just gave her a
7 ride. She stays in the apartments that's right by
8 the McDonald's, but I have told her I just want to
9 grab my bills first before I dropped her off.

10 **Q** Where did you pick her up at?

11 **A** West Florissant and like Jennings Station
12 Road.

13 **Q** Okay, but you don't know her name?

14 **A** No. I just known her from being around my
15 mother's house.

16 **Q** She saw it too, right?

17 **A** Yes.

18 **Q** Do you know if she's contacted the police
19 or anything?

20 **A** I don't know.

21 **Q** Okay. You know how we might be able to
22 get ahold of her to get her information?

23 **A** I haven't seen her I haven't had a number,
24 if I have a way to get in touch I can give her all
25 your info.

1 **Q** Let her know we want to hear what she has
2 to say too.

3 So at this point there's one shot out
4 the window at Mike Brown, it appears he's hit he
5 runs and then the officer does what?

6 **A** Uh, gets out of his automobile and pursues
7 behind Mr. Brown.

8 **Q** Is he running?

9 **A** Yeah, he gave, he ain't give it too much
10 of a run but he's running.

11 **Q** And what's his position, I mean, show us
12 is he, where is his gun at this point?

13 **A** Whose the step.

14 **Q** Uh-huh?

15 **A** In his hand pursuing behind Mr. Brown.

16 **Q** How is he holding?

17 **A** Like at his side.

18 **Q** At his side, okay. Did Mike Brown have a
19 gun?

20 **A** No, ma'am.

21 **Q** Did you see a gun rather?

22 **A** No, ma'am.

23 **Q** That's my question. Did you see a gun?

24 **A** I didn't see Mr. Brown with a gun, a
25 stick, a knife or nothing.

1 **Q** Okay. And then what happens when the
2 officer is pursuing him with the gun at his side,
3 what hand was the officer holding the gun?

4 **A** I say his right.

5 **Q** All right. And then what?

6 **A** I guess Mr. Brown was getting tired or
7 whatever the cause was, the shot must have affected
8 him, he stopped and threw his hands up.

9 **Q** Show us how he did that. I mean, at this
10 point he's running away from the officer; is that
11 right?

12 **A** Yes, ma'am.

13 **Q** Were shots being fired?

14 **A** His friend that was with him, I took it as
15 he was trying to see where his friend went because
16 Mr. Brown slowed up and looked at him like what you
17 doing, you stopped.

18 **Q** Let me back up a little bit so we can all
19 be clear.

20 **A** Okay.

21 **Q** When did you see his friend?

22 **A** At the same time I was seeing the
23 struggle.

24 **Q** What was the friend doing when Mike Brown
25 was struggling?

1 **A** He was just standing there. I don't even
2 know what was actually being said, but he was
3 standing there like he's confused on what was going
4 on.

5 **Q** Okay. Let me ask a question though. Was
6 he doing anything, the friend?

7 **A** No. As far as trying to help him get away
8 from the officer, no.

9 **Q** He was just standing at the car, where was
10 he at?

11 **A** He was behind Mr. Brown.

12 **Q** The passenger side of the driver's side?

13 **A** No, was behind him. He is with Mr. Brown
14 on the driver's side.

15 **Q** Right behind him?

16 **A** Yes, ma'am.

17 **Q** Was he behind him towards the passenger,
18 the back seat passenger or toward the hood of the
19 car?

20 **A** The back of the SUV.

21 **Q** Okay. What did he look like? Make sure
22 we are talking about the same person.

23 **A** Short guy, dreads.

24 **Q** Do you know his name?

25 **A** No, ma'am.

1 **Q** All right. So when the shot went off,
2 what did he do?

3 **A** The friend, he ducks behind the police
4 car.

5 **Q** To the rear of the car?

6 **A** Yes, ma'am.

7 **Q** And then Mike Brown then runs?

8 **A** Yes, and I seen him, he stopped and looked
9 back at his friend.

10 **Q** Who is he?

11 **A** The friend.

12 **Q** No, you said he stopped and looked back at
13 the friend?

14 **A** Mr. Brown. As he stopped, I guess he
15 realized that the officer was approaching him, he
16 stopped and threw his hands up.

17 **Q** Okay. You said that his friend was behind
18 the police car?

19 **A** Uh-huh.

20 **Q** So how did he stop and look at him?

21 **A** I don't mean to go past anybody, he was
22 jogging, but he stopped like this and if this is the
23 back of the police car.

24 **Q** Yeah, okay.

25 **A** And this is the car that was behind the

1 police car. His friend was ducking behind like
2 this.

3 Q Okay.

4 A Mr. Brown he do like, uh, he turned around
5 and looked, by the time he looked, the police
6 officer was already behind him.

7 Q Okay.

8 A And he was like this. (indicating)

9 Q So did he do like this with the officer
10 behind him?

11 A With the officer? No, he was turned
12 around facing the office.

13 Q Tell me how that happened, that's what I
14 want to know. The last thing I know, if I'm Mike
15 Brown, you're the police officer, you said that Mike
16 Brown was trotting or moving?

17 A By then he turned around and his friend
18 duck down behind the car.

19 Q Okay.

20 A And that's when the officer was
21 approaching him, he stopped and did like that.
22 (indicating)

23 Q So he wasn't facing the officer when me
24 did like this? (indicating)

25 A So as soon as he faced the officer, he

1 threw his hands up.

2 **Q** I want to know how he got to facing the
3 officer since the officer was behind him.

4 **A** Turned around.

5 **Q** Show us, please?

6 **A** As his friend like this behind the police
7 car and the other car that's behind the police car,
8 which was a black, small four door. (indicating)

9 MS. ALIZADEH: Small what?

10 **A** Black four door, small car. Mr. Brown was
11 running, he looks, the officer approached him and he
12 did like this.

13 **Q** (By Ms. Whirley) Okay. So you showed that
14 his hands are above his head?

15 **A** Yes, ma'am.

16 **Q** Raised up toward the sky?

17 **A** Yes, ma'am.

18 **Q** Did he say anything?

19 **A** Not that I know of. I was able to hear
20 him at that time, I was still in the same spot.

21 **Q** He's farther away from you now?

22 **A** Yes.

23 **Q** So show us on the map where he turns
24 around and raises his hand?

25 **A** Right up in there. Right up in there.

1 (indicating)

2 Q Is the light on? Yeah, okay. And then
3 what happens?

4 A That's when I hear another shot fired.

5 Q One shot?

6 A Yes, ma'am, and that's when Mr. Brown hits
7 the floor, hits the ground rather.

8 Q Let me make sure I'm keeping track of the
9 shots. The first shot you heard was when the
10 officer put his gun outside the window and shot at
11 Mike Brown, you said at pretty close range?

12 A Yes.

13 Q No other shots until Mike Brown runs,
14 turns around with his hands up and then he shoots
15 him again?

16 A Yes.

17 Q Is that right?

18 A Yes.

19 Q And do you see any blood or anything?

20 A Uh --

21 Q On that second shot?

22 A Not until he hit the ground.

23 Q All right. Did you see any blood on fist
24 shot, I don't think I asked you that.

25 A No.

1 **Q** So on the second shot, could you tell
2 where he was hit?

3 **A** No, I was too much of a distance. I know,
4 they was facing each other.

5 **Q** How close was the officer and Mike Brown
6 when the second shot went off?

7 **A** Like this, me and you.

8 **Q** As close as we are?

9 **A** Yes.

10 **Q** We are just a couple feet apart, right?

11 **A** Yes.

12 **Q** So the officer shot him, he hits the
13 ground?

14 **A** Yes.

15 **Q** How does he hit?

16 **A** Uh --

17 **Q** I mean, what position is he in when he
18 hits the ground?

19 **A** He is like this with his hands in the air
20 and also -- like this. (indicating).

21 **Q** Okay. So his face is facedown, do it
22 again, I'm sorry, facedown and his behind is kind of
23 poked up a little bit right?

24 **A** Yes.

25 **Q** Okay.

1 **A** I heard another shot fired as he was on
2 the ground.

3 **Q** One more shot?

4 **A** Yeah.

5 **Q** And what was the officer's position could
6 you see the officer at that time?

7 **A** Yes, he was just standing up over up over
8 him.

9 **Q** Like be the officer and Mike Brown is
10 laying on the ground and what is the officer doing?

11 **A** By then he's just standing up on him, I
12 guess, calling.

13 **Q** You said you heard another shot when he
14 was on the ground?

15 **A** As far as another shot, he was like this
16 up on him.

17 **Q** While he is on the ground, facedown?

18 **A** Standing up over him.

19 **Q** He's standing up over him and he shoots
20 again?

21 **A** Yeah.

22 **Q** Where does that shot seem to go?

23 **A** Uh, for just me looking from where I was
24 at, I would say it was in the head because he was on
25 the ground.

1 **Q** You thought he was shooting him in the
2 head?

3 **A** Yeah, he was shooting him in the head.

4 **Q** You only then heard then two shots total?

5 MS. WHIRLEY: That would be three.

6 MS. ALIZADEH: Three?

7 **A** Three, yes.

8 **Q** (By Ms. Whirley) I'm sorry, you have a
9 another shot, that's three. So you overheard, thank
10 you, three shots total?

11 **A** Yes, I was caught up with what was going
12 on, that's all I heard.

13 **Q** So one at the car, one he turns around
14 with his hands up and then one when he's laying on
15 the ground?

16 **A** Yes, ma'am.

17 **Q** Those are the only shots you heard?

18 **A** Yes.

19 **Q** Okay. Did you ever hear the officer say
20 anything?

21 **A** As far as.

22 **Q** Anything at any time?

23 **A** No, not until I was proceeding to go past
24 the parking lot which is

25 **Q** So after the officer you said shoots him,

1 you thought in the back of the head?

2 **A** Yes.

3 **Q** Let me just go back a minute. You've
4 probably been watching this being covered, this
5 being covered on television?

6 **A** I, actually -- actually, I haven't. I
7 don't know what's going on behind it or anything. I
8 just know I been getting talked to or interviewed.

9 **Q** Okay.

10 **A** I try to stay clear just remember as much
11 as I can remember.

12 **Q** And that's good. And you talked to our
13 chief investigator here at the prosecutor's office,
14 ?

15 **A** Yes, and they asked me, it took a family
16 member of mine. Cause I was just going to stay away
17 from it and let them handle it, but an uncle of mine
18 was like, you should at least have somebody hear
19 what you saw or at least tell what you saw. That's
20 what I looked up number and contacted him
21 without anybody.

22 **Q** From our office, you spoke with him on the
23 telephone, correct?

24 **A** Yes.

25 **Q** And then you were interviewed by the

1 police; is that correct?

2 **A** As far as I know, yes.

3 **Q** And maybe FBI?

4 **A** Yes.

5 **Q** Have you only been interviewed once by the
6 police and FBI or were you interviewed more than
7 once?

8 **A** I was interviewed first time by
9 had set it up, the second time probably no longer
10 that know a week ago and today.

11 **Q** Today, you mean being here today?

12 **A** Yes.

13 **Q** You may not have heard since you said you
14 haven't been listening to it, but there were no
15 shots to the back of his head. So do you still
16 think he was shooting at him from the back while he
17 was down on the ground?

18 **A** Uh, okay, when he was on the ground the
19 shot was fired. I don't know whether it was to his
20 head or not.

21 **Q** And, again, there were only three shots
22 that you heard?

23 **A** That I know of, yes.

24 **Q** All right. So after the officer fired
25 that shot at him while he was know on the ground,

1 what did the officer do?

2 **A** Just stood over and, I guess, got on his
3 radio to call for help.

4 **Q** Okay. And then what did he do, were you
5 still watching?

6 **A** Yes, I was. I actually, I actually was, I
7 parked slanted. There was actually a video released
8 of the two construction workers that was up there
9 and that quick glimpse was me walking back over
10 there to see what was going on.

11 **Q** Okay.

12 **A** I had on a white and black stripe shirt.

13 **Q** Okay. Were you saying anything?

14 **A** Yes, I was like, he was no fucking threat,
15 I'm sorry for cursing.

16 **Q** Yeah, we want to hear what you said.

17 **A** I was just letting him know that he was no
18 fucking threat.

19 **Q** So that was you on the --

20 **A** It was just a quick, that's the only thing
21 I had cause somebody came to me like, cause they
22 realized the shirt that I had been wearing. I seen
23 you on CNN when they released a video of the two
24 construction workers, which was working in my
25 parking lot complex where I stay.

1 **Q** Okay.

2 **A** And it was a quick glimpse of me walking
3 past saying, he wasn't no fucking threat.

4 **Q** At that point where was the officer who
5 did the shooting when you were saying that he wasn't
6 no no fucking threat?

7 **A** He was still there until the police
8 officer came.

9 **Q** He was still where?

10 **A** Standing in the middle of Canfield.

11 **Q** Was he near the body?

12 **A** Near Mr. Brown.

13 **Q** Okay. Did he try -- appear to give
14 Mr. Brown any type of emergency help or anything?

15 **A** No, ma'am, no, ma'am.

16 **Q** But it does seem like he was calling for
17 other police?

18 **A** Yes.

19 **Q** And tell us how you got up here closer to
20 the scene, what did you do?

21 **A** Okay. By then I went around.

22 **Q** You were back here?

23 **A** Mr. Brown and the officer was where
24 Mr. Brown was laying at, and that's when I went
25 around Mr. Brown and then went to my apartment

1 complex.

2 Q Okay, slow down just a minute. Where was
3 Mr. Brown laying?

4 A I want to say right where this car is
5 right here. (indicating)

6 Q And you were where when you saw it?

7 A When I first started it was up here.

8 Q How did you get past that?

9 MS. ALIZADEH: Can I ask you to step to
10 the side and use the pointer so we can see?

11 A Yes, ma'am.

12 MS. WHIRLEY: I'm going to go over here,
13 it might make it easier if you step that way.

14 Q (By Ms. Whirley) Show us where the area --

15 MS. ALIZADEH: I didn't see where you said
16 you were when you saw this?

17 A (Indicating)

18 MS. ALIZADEH: You were right there?

19 A Yes, ma'am. And after everything was
20 over, I went on around and that's where I seen
21 Mr. Brown laying on the ground bleeding from his
22 head, I guess from the impact from the ground.

23 Q Okay. And then what?

24 A Him and the officer in the middle of the
25 street, I was able to go around to get to my

1 apartment complex where I was at in here.

2 (indicating)

3 Q Go ahead, what were you going to say?

4 A No, that's how I got around and I was able
5 to get in here. I had parked slanted and that's
6 when I came and I was up here on the little grass
7 watching everything.

8 Q You parked and came back up to see what
9 was going on?

10 A Yes, ma'am.

11 Q And that's when you said, he was no
12 fucking threat?

13 A Yes, ma'am. I was screaming it through
14 the whole thing.

15 Q And did you see any police officers other
16 than the one who did the shooting?

17 A No, not for about, I say about five
18 minutes max.

19 Q All right.

20 A And that's when I see, that's when the
21 rest of the officers came, you know.

22 Q Did you have any interaction at all with
23 Darren Wilson, the officer who did the shooting, did
24 you talk with him at all?

25 A No, ma'am.

1 **Q** Did he say anything to you?

2 **A** No, not until I went past. I go, why in
3 the fuck did you shoot him like that. And he's
4 like, you keep fucking going.

5 **Q** All right. So you go past Darren Wilson?

6 **A** Yeah, in the middle of the street.

7 **Q** You walking or in your car?

8 **A** I'm driving.

9 **Q** So as you drive past?

10 **A** Uh-huh.

11 **Q** Before you parked and got out of the car?

12 **A** Yes. I was like, why the fuck did you
13 shoot him like that. He was like, mind your fucking
14 business. I kept going. That's when I came up in
15 here and I walked across.

16 **Q** So just make sure I'm clear. You're
17 driving by, you shout out, why did you fucking shoot
18 him?

19 **A** Yes, ma'am.

20 **Q** And he said, mind your own fucking
21 business, keep going?

22 **A** Yes.

23 **Q** And then you parked the car?

24 **A** Yes, ma'am.

25 **Q** And you get out and you come up to the

1 area --

2 **A** I ain't go no farther than this.

3 **Q** That's where you say, he was no fucking
4 threat?

5 **A** I was walking across the parking lot to
6 come right here when that video was captured.
7 (indicating)

8 **Q** I'm more interested in what really
9 happened versus the video.

10 **A** Yes, ma'am.

11 **Q** Tell me what you meant, he was no fucking
12 threat?

13 **A** Um, like as far as --

14 **Q** You can have a seat for a minute.

15 **A** As far as being a threat, like if he had a
16 gun or a knife or even if he did assault the officer
17 or what happened, I didn't see him do none of that.
18 So I took it as he was no threat and you gunned him
19 down like that.

20 **Q** And you were clear, in your mind, you were
21 clear what was going on at the police car?

22 **A** Yes, I literally saw Mr. Brown struggling
23 to get away.

24 **Q** You never saw Mr. Brown's hand inside the
25 police car?

1 **A** No, ma'am.

2 **Q** What was he doing with his hand again?

3 **A** Struggling to get the officer's hands off
4 of him. As far as swinging and hitting the officer,
5 I didn't see that.

6 **Q** As he's struggling, did you ever see his
7 hands go in the officer's face?

8 **A** No, ma'am.

9 MS. WHIRLEY: Kathi?

10 MS. ALIZADEH: Yeah.

11 **Q** (By Ms. Alizadeh) So when you said you
12 drove up onto Canfield, you had a passenger in your
13 car?

14 **A** Yes, ma'am.

15 **Q** Have you ever told anybody that before?

16 **A** Yes, ma'am.

17 **Q** And so you were driving this way around
18 here? (indicating)

19 **A** Yes, coming off of West Florissant.

20 **Q** You said you stopped right about here, or
21 thereabouts. You said it was right about here?

22 **A** Yes, ma'am.

23 **Q** So how many cars were between you and the
24 officer's car?

25 **A** Total like in the middle, it was in the

1 middle of us? It was just his car and the car
2 behind him, it was me and the truck behind me.

3 Q So you're saying that there were no cars
4 between you and the police officer's car?

5 A No, ma'am.

6 Q And then you had a white truck behind you?

7 A A white pickup truck was behind.

8 Q A white pickup truck?

9 A Yes.

10 Q Did you see a blue pickup truck?

11 A No.

12 Q No?

13 A (Shakes head.)

14 Q Did you see anybody standing around here?
15 (indicating)

16 A No, not that I remember.

17 Q And so when you came about, you said there
18 was already, I'm guessing, there was already an
19 altercation going on?

20 A As soon as I approach Canfield to go to my
21 apartment complex, the struggle is already going on.

22 Q And you said Mike Brown was trying to get
23 away?

24 A Yes.

25 Q And I don't understand why you conclude

1 that, what was he doing, why did you think he was
2 trying to get away from the officer?

3 **A** Because the officer was pulling,
4 struggling.

5 **Q** Did you see Mike Brown with his hand on
6 the officer's shirt?

7 **A** As far as his arm, yes, trying to get the
8 officer's arm to release him.

9 **Q** You said the officer had him by the shirt?

10 **A** As if you were, if you were just
11 strangling, I'm going to go for your arms to release
12 my neck, that's how it was.

13 **Q** So you know Mike Brown was like 6'5", big
14 guy?

15 **A** Big guy.

16 **Q** 280 pounds or something?

17 **A** Yeah.

18 **Q** And so you're telling me if somebody had
19 ahold of his shirt, you don't think he could get
20 away?

21 **A** I'm guessing if he wanted to he could.

22 **Q** If I grab ahold of your shirt, stand up.
23 How tall are you?

24 **A** I say about 5'9", 5'10".

25 **Q** How much do you weigh?

1 **A** 170.

2 **Q** So do you think if I grab ahold of your
3 shirt?

4 **A** If you got a good enough hold, I can't
5 getaway from you.

6 **Q** If I'm sitting in the car and I grab ahold
7 of your shirt, if you just fell backwards.

8 **A** Uh-huh.

9 **Q** Don't you think that I would lose my grip
10 when the shirt would rip?

11 **A** Not if you got a good enough grip.

12 **Q** Okay. So you say that you think Mike
13 Brown was trying to get away from the officer and
14 that's what you were witnessing?

15 **A** Yes.

16 **Q** And then you said you saw the officer's
17 gun come out of the window of his car?

18 **A** Yes.

19 **Q** And fire one shot?

20 **A** Yes.

21 **Q** The gun was within half a foot?

22 **A** Yes.

23 **Q** Of Mike Brown?

24 **A** Close range, yes.

25 **Q** And that would have been pointed where on

1 his body?

2 **A** Chest, chest.

3 **Q** In his chest area?

4 **A** Yes.

5 **Q** So that would be an entrance wound in his
6 chest and it would be pretty much straight back,
7 right?

8 **A** Yes.

9 **Q** The gun, was the gun angled in anyway, was
10 the gun like this, or was it like this?

11 **A** No, it was pointed right at him.

12 **Q** And then you say Mike Brown at that point
13 pulls back and runs?

14 **A** Yes.

15 **Q** Did you see any blood when he got shot?

16 **A** No.

17 **Q** And then when he ran away and turned
18 around, I mean, could you see the blood then?

19 **A** No.

20 **Q** You said he was shot at point blank range
21 on his chest?

22 **A** Yes.

23 **Q** You telling me when he turned around, you
24 didn't see any blood?

25 **A** Huh-uh.

1 **Q** What about the other guy, did you see
2 anything in his hand?

3 **A** No.

4 **Q** Did you see Mike Brown hand him anything?

5 **A** No, ma'am.

6 **Q** And so you say that you saw Mike Brown as
7 he was running away look at his friend?

8 **A** Uh-huh.

9 **Q** Look at him kind of slow down and look at
10 him and then keep running?

11 **A** No, as he slowed down, turned around,
12 that's when he threw his hands up cause he realized
13 the officer was not that much of a distance from
14 him.

15 **Q** So you're saying it was, his friend was
16 close to him when he turned around? You said he
17 stopped about when he saw his friend is where he
18 turned around?

19 **A** Uh-huh.

20 **Q** Yes?

21 **A** Yes. I mean, he wasn't that far. No
22 further this man right here in this chair.

23 **Q** This man right here?

24 **A** Yes. That's when he turned around and
25 realized that his friend was ducked behind a police

1 car.

2 Q The friend was behind the police car, did
3 the friend ever run away or run behind another car?

4 A No. When I seen him he was ducked between
5 the police car and the vehicle that was behind the
6 police car.

7 Q Now, you have a red car, right?

8 A Yes, ma'am.

9 Q What color was the car behind the police
10 car?

11 A Black.

12 Q And so the friend was not ducked behind
13 that car?

14 A Yes.

15 Q He was behind the police car?

16 A Yes.

17 Q So when you say Mike Brown turned around,
18 the officer was right there; is that right?

19 A Yes.

20 Q Did he walk toward the officer at all?

21 A No.

22 Q He didn't come toward the officer?

23 A No.

24 Q And you say that from the point he turned
25 around is when he got shot?

1 **A** Before he turned around he had his hands
2 in the air. I didn't see him take a forward step,
3 or a back or flench like he was going to try to run
4 at him or nothing.

5 **Q** So you didn't see him move forward or back
6 after he turned around and put his hands up?

7 **A** Put his hands up, that was it.

8 **Q** And the officer was within how close?
9 Tell me to stop when I -- I'm going to walk toward
10 you, you tell me when?

11 **A** Right there.

12 **Q** Right here.

13 **A** Right there.

14 **Q** Okay. So this is probably about four,
15 five feet?

16 **A** Roughly, yes.

17 **Q** Okay. And the officer, was his hand fully
18 extended or was his hand down here?

19 **A** Extended.

20 **Q** Fully extended?

21 **A** (Nods head.)

22 **Q** All right. And you saw him then shoot
23 Mike Brown and you said in the head?

24 **A** Uh-huh.

25 **Q** In his head?

1 **A** That's why I was afraid of them being so
2 close and he just tipped right over.

3 **Q** Are you saying you saw it or you just
4 figure that?

5 **A** I saw him shoot, but I figure that it was
6 in the head, how he just limped over and just fell.

7 **Q** So you don't know where he was shot?

8 **A** No.

9 **Q** You're just guessing because he fell over?

10 **A** Yes.

11 **Q** And then once he's on the ground you see
12 the officer standing right over him and shoot him
13 while he's lying face first on the ground?

14 **A** Yes, ma'am.

15 **Q** So after the police car is a black car you
16 said, is there another car after the black car?

17 **A** Not that I remember.

18 **Q** And you're saying where this white car is
19 on the map is about where Mike Brown stopped running
20 and turned around?

21 **A** Yes, ma'am.

22 **Q** And that would have been where he fell
23 then since you said he didn't move forward or
24 backward at this point?

25 **A** Yes, ma'am.

1 **Q** Now, from where you were then you drove
2 past the officer and parked in your parking space
3 here.

4 **A** After everything was over, yes.

5 **Q** Did you ever come back up here and talk to
6 people up in this area?

7 **A** No.

8 **Q** Did somebody ever give you a business
9 card?

10 **A** No.

11 **Q** Nobody ever gave you a card, told them
12 they saw it too?

13 **A** No.

14 **Q** And you say you did another interview with
15 the FBI a week ago?

16 **A** I don't know the exact date, but it was no
17 longer than a week ago.

18 **Q** Where did that happen?

19 **A** The interview?

20 **Q** Uh-huh.

21 **A** I'm guessing at headquarters on Market.

22 **Q** Downtown?

23 **A** Yes, ma'am.

24 **Q** And the passenger that you said that was
25 in your car.

1 **A** Uh-huh.

2 **Q** So what happened to her?

3 **A** She end up taking off walking up to the
4 apartments where she was going, which is behind the
5 McDonald's, I don't know the name of the apartments,
6 but she had proceeded to go there.

7 **Q** When did she get out of your car?

8 **A** After I had parked.

9 **Q** So you -- she would have been in your car
10 when you passed by the police officer and heard what
11 the police officer said to you?

12 **A** Uh-huh.

13 **Q** You don't know this person's name?

14 **A** No, ma'am.

15 **Q** Why did you give her a ride?

16 **A** She was a familiar face, stayed by my
17 mother's house.

18 **Q** She's somebody you've seen before?

19 **A** Yes, ma'am.

20 **Q** And you know whereabout she lives?

21 **A** No, ma'am.

22 **Q** Is she African-American or white?

23 **A** She's black or African-American rather.

24 **Q** I'm sorry?

25 **A** African-American rather.

1 **Q** She is about how old?

2 **A** I say 20, 21.

3 **Q** You don't have any name for her?

4 **A** No, ma'am.

5 MS. ALIZADEH: All right. I don't have
6 anything else.

7 MS. WHIRLEY: I just have a couple things.

8 **Q** (By Ms. Whirley) When Mike Brown was
9 running, was the officer shooting at him at that
10 point while he was running?

11 **A** No, ma'am.

12 **Q** Okay. Did you ever talk to Mike Brown's
13 mother?

14 **A** I have seen her. She was out there, but I
15 didn't get to talk to her as far as like anything
16 dealing with this.

17 **Q** Did she know you were a witness to all of
18 this?

19 **A** Yes, not from me though, from other people
20 seen me out there or heard me out there yelling.
21 They must have told her that.

22 **Q** How do you know she knew that?

23 **A** I don't know that she knew if I seen it or
24 not.

25 **Q** You said from other people?

1 **A** Yes, yes, from telling.

2 **Q** What makes you think that she knew that
3 you saw it?

4 **A** Other people must have told her that I was
5 out there.

6 **Q** You never talked to her on the phone or
7 anything?

8 **A** No.

9 MS. WHIRLEY: .

10 I'm trying to
11 visualize your perspective but when the scene was
12 kind of concluding. You are still sitting in the
13 driver's seat of your car, when you are viewing, as
14 you said, Officer Darren Wilson, you said he's got
15 his gun aimed, you can see his back, are they
16 perfectly lined up, are they off to an angle, what's
17 your perspective?

18 **A** I can't understand, what's that.

19 I'm trying to understand
20 your perspective of what you saw from your car right
21 as the scene was concluded. I'm going to guess you
22 can see the back of Officer Darren Wilson, but are
23 they standing at an angle, are they perfectly lined
24 up, I guess, what is your perspective?

25 **A** I mean, where you coming from, as far as

1 after the first shot?

2 : The very end of the scene.

3 **A** The very end of the scene?

4 : Yeah. You said you could
5 see Officer Darren Wilson's back, but you were also
6 stating that you could that he see him shot in the
7 head, or you assume he shot him in the head. I'm
8 just trying to understand was that at an angle to
9 where he could see the front of Michael Brown and
10 the back of Officer Darren Wilson. Were they
11 straight on, what was your angle from your
12 perspective with respect to the vehicle?

13 **A** No, he was, whatever the officer name, he
14 was facing toward this way now on his intercom or
15 whatnot.

16 So you could see Officer
17 Darren Wilson's back?

18 **A** No, I couldn't. After everything is over
19 and Mr. Brown is on the ground, I see his face, back
20 side.

21 : You understand what I'm
22 saying?

23 Yeah, I do
24 understand what you are saying. I think you say you
25 could see Michael Brown turn around.

1 **A** Yeah, turned around. Oh, after I see
2 Mr. Brown when he turned around?

3 : Yes. Were you facing
4 Mr. Brown when he turned around and fell?

5 **A** As far as in my car, yes.

6 : And your back was to the
7 police officer at that time?

8 **A** The police officer's back was towards me.
9 Yes. The police
10 officer's back was towards you?

11 **A** Yes.

12 When he shot him while he
13 was laying on the ground?

14 **A** No, while he shot him while he was laying
15 on ground he's facing towards me.

16 : So how did he get from
17 facing Michael Brown and watching him fall, he
18 walked forward and shot him on the ground, how did
19 the officer's face get towards you, did he walk
20 around the body?

21 **A** Yes, he was just proceeding around the
22 body and got on his intercom, yes.

23 : So he was walking around
24 Michael Brown's body and then he shot him after he
25 walked around the body?

1 **A** No.

2 MS. ALIZADEH: I have a question to maybe
3 clear this up. From the point that Michael Brown
4 stops running and turns around, okay.

5 **A** Uh-huh.

6 MS. ALIZADEH: And the officer has been
7 chasing him and he's within 5 feet of him at that
8 point.

9 **A** Uh-huh.

10 **Q** He's directly in front of Michael Brown,
11 correct?

12 **A** Yes.

13 **Q** And you are behind the officer?

14 **A** Yes, facing him. That's the point where I
15 was --

16 MS. ALIZADEH: How could you see what
17 Michael Brown was doing if the officer is between
18 you and Michael Brown?

19 **A** Like you say, he was a big guy and that's
20 a nice amount of street where I can see. I saw him
21 with his hands up, yes.

22 **Q** But wasn't the officer partially blocking
23 your view of Michael Brown?

24 **A** Yes, partially, yes, he was blocking my
25 view, yes.

1 Q There is a part of Michael Brown that you
2 could not see because the officer was in the way?

3 **A** Yes, when I seen that his hands was in the
4 air.

5 Q Could you see Michael Brown's face?

6 A No.

7 Q The officer was blocking your view of
8 Michael Brown's face?

9 **A** Partially, yes.

10 Q Could you see the middle of Michael
11 Brown's thighs?

12 **A** No, no.

13 Q So the officer was blocking your view of
14 really all of Michael Brown's body except you could
15 see his hands in the air?

16 **A** Yes.

17 I think
18 you said that the distance between the officer and
19 Michael Brown, he is stopped and had his hands up in
20 the air was about approximately four to five feet?

21 **A** Uh-huh.

22 All right. And I think
23 you said that the officer had his hands with the
24 gun, right hand with the gun as it is fully extended
25 toward Michael Brown?

1 **A** Yes, ma'am.

2 : And then the officer shot,
3 he shot the gun at that time?

4 **A** He fired, yes, ma'am.

5 And that would have been,
6 I think, the second shot I think you said?

7 **A** Yes, ma'am.

8 : Okay. And then Michael
9 Brown falls forward, he is falling toward the
10 officer then; is that correct?

11 **A** He didn't like fall stumbling towards him,
12 once he shot him with his hands in air, he fell
13 right on the ground.

14 : Okay. All right. Into a
15 dead fall basically?

16 **A** Yes.

17 Okay. And so you said
18 that he never moved, you did not see Michael Brown
19 move any steps forward or any steps backward from
20 the officer?

21 **A** Yes, ma'am.

22 : At any time when you heard
23 that second shot, okay, before Michael fell, did you
24 see the officer move back, or forward or to the
25 right or to the left of Mr. Brown?

1 **A** Once Mr. Brown hits the ground, the
2 officer takes a step back.

3 A step back.

4 **A** Uh-huh.

5 My question is, I don't
6 know if you know the answer to this.

7 **A** I can answer it to the best that I can.

8 With Michael Brown being
9 6'5", and we have four to five foot difference, why
10 did Michael Brown's body not hit the officer when he
11 fell?

12 **A** I mean, I wouldn't know.

13 You wouldn't know, okay.

14 **A** I wouldn't know.

15 MS. WHIRLEY: If nobody else has
16 something, I have something.

17 You talked to the police, well, actually
18 the FBI, two agents on August the 18th. This is the
19 second interview, the first time you talked to
20 someone at our office.

21 **A** Uh-huh.

22 **Q** (By Ms. Whirley) On August 12th you talked
23 to a couple federal agents. Do you recall that, the
24 second time you interviewed?

25 **A** Uh-huh.

1 **Q** And was there too at that interview.

2 And on August the 18th, and I have a transcript of
3 it and nobody's seen it yet, but they will.

4 You told them, and tell me if this
5 refreshes your recollection or not. You told them
6 that there was one shot in the car and Mike Brown
7 was shot at four times while he was running away and
8 then he was shot two more times in the face once he
9 turned around, and then when he fell on the ground,
10 he was shot four or five more times?

11 **A** Uh-huh.

12 **Q** Do you recall saying that?

13 **A** No, ma'am. The majority of it, yes.

14 **Q** What part do you recall?

15 **A** As far as being shot at as he was
16 proceeding to run.

17 **Q** Okay. So today you said he wasn't shot at
18 while he was running, but you remember him being
19 shot at four times while he's running away now that
20 I refreshed your recollection?

21 **A** Yes.

22 **Q** Do you remember telling the officers that
23 he was shot two times in the face?

24 **A** No.

25 **Q** And you actually said face-to-face he was

1 shot, do you remember that?

2 **A** Yes.

3 **Q** Don't you remember telling the officers
4 that after he fell on the ground, he was shot four
5 or five more times while the officer stood over him?

6 **A** Yes, I remember that.

7 **Q** You remember that? Today I think you told
8 us he was shot once, right?

9 **A** Yes, ma'am.

10 **Q** What's the change for you?

11 **A** As far as like the FBI said in my last
12 interview, none of my forensic science added up to
13 it.

14 **Q** Okay. We want to know what you say. You
15 don't have to be concerned with forensic science,
16 none of us are forensic scientist.

17 **A** Yes.

18 **Q** We just want to know the truth and what
19 happened. So tell me why you changed your
20 statements as far as about how many times he was
21 shot or shot at?

22 **A** My calculation was off. How many shots
23 was fired. I had counted as far as how many shots
24 was fired, I had heard about eight or nine shots,
25 yeah.

1 **Q** And today you told us only three?

2 **A** Yes, only three that I know that he was
3 hit.

4 **Q** No, no, I asked you about the shots, this
5 is really important. I mean --

6 **A** Yes, ma'am.

7 **Q** We're here, we're spending a lot of time
8 trying to figure out what happened. And it's okay,
9 I just need to know the truth. I'm not trying to
10 give you a hard time, we just need to know the
11 truth.

12 **A** I understand.

13 **Q** You understand what I'm saying?

14 **A** Yes.

15 **Q** So which one is true, did you hear only
16 three shots total or this is like, he was shot once
17 and then shot four times and he's running away and
18 then shot two more times in the face, and then shot
19 four or five more times. That is like 10 or 11
20 shots total that you told them on August the 18th.

21 **A** Yes.

22 **Q** So was it actually three shots you heard
23 or was it 10, 11 shots you heard?

24 **A** Altogether I heard approximately about
25 eight or nine shots if I ain't hallucinating or

1 making it more than what I heard, about eight or
2 nine shots.

3 Q Now, you weren't hallucinating back when
4 you talked to the police, were you?

5 A Not that I know, no.

6 Q Could you possibly have been
7 hallucinating?

8 A What you mean?

9 Q You used the word hallucinating, what did
10 you mean by hallucinating?

11 A By how many shots was fired, I could have
12 counted more than what it was.

13 Q Do you think that's what happened, you
14 added more?

15 A Yes, how many shots was fired, yes.

16 Q Okay. And why would you do that?

17 A Uh, I mean, I heard about eight or nine
18 shots, but as far as hearing what the FBI was saying
19 and all about how they, how everything was off. I
20 try to push myself to actually concentrate on what
21 actually, how many shots was actually fired.

22 Because after all of this was over, I
23 went into a blur.

24 MS. ALIZADEH: You went where?

25 A I went to a blur of everything.

1 MS. ALIZADEH: After what was over?

2 A The whole shooting and all that.

3 MS. ALIZADEH: After the shooting?

4 Q (By Ms. Whirley) Okay. And again, this is
5 so important so I need to ask you because I'm really
6 kind of confused.

7 A Yes, ma'am.

8 Q How many shots did you really hear after I
9 refreshed your recollection, after what you told us
10 here today, what would you say as far as how many
11 shots you actually heard that day?

12 A I say about seven, eight shots.

13 Q Okay. Tell us where those shots occurred?
14 Like heard one shot at the car you said?

15 A Uh-huh.

16 Q Go ahead and tell us about the rest of the
17 shots.

18 A Well, I heard, as I'm dealing with my
19 passenger, I heard like two more shots.

20 Q What was happening?

21 A Mr. Brown was proceeding away.

22 Q He was running with his back to officer?

23 A Yes, ma'am.

24 Q When you heard two more shots?

25 A Yes, ma'am.

1 **Q** Okay, that's three.

2 **A** Yes.

3 **Q** Then what?

4 **A** That's when the officer and Mr. Brown came
5 face-to-face.

6 **Q** Okay. How many shots when he was
7 face-to-face?

8 **A** That was just the one I heard.

9 **Q** Did he appear to be shooting him in the
10 face the way you thought back on the 18th of August?

11 **A** Yes, I would have thought it was in the
12 face.

13 **Q** Okay. So that's like, now we're in four
14 shots, is that right, that's four?

15 **A** And that's when he hit ground.

16 **Q** He hit the ground and then what?

17 **A** I heard another one, two shots.

18 **Q** Okay. Now, back on the 18th you actually
19 told the police that you talked to Mike Brown's
20 mother, do you remember that?

21 **A** Uh-huh.

22 **Q** So you actually, actually I talked to her
23 the same day, but I haven't talked to her since.

24 **A** Uh-huh.

25 **Q** Did you talk to her?

1 **A** Uh-huh. I haven't heard --

2 **Q** No, no, no, did you talk to her the day of
3 the shooting?

4 **A** No, it was brief. I was there and your
5 son wasn't no threat and then after that --

6 **Q** Wait, wait, wait a minute. Okay. Now, my
7 question is, did you talk to her. Is that answer
8 yes?

9 **A** Like did I say anything to her?

10 **Q** You see how we're talking?

11 **A** Yes.

12 **Q** Okay.

13 **A** We didn't have a --

14 **Q** I'm going to ask you that. Did you speak
15 with her, let me rephrase.

16 Did you speak to Mike Brown's mother
17 at all the day of the shooting?

18 **A** Yes, ma'am.

19 **Q** Okay. Tell me how you spoke to her?

20 **A** Your son was no threat.

21 **Q** Did she ask you anything?

22 **A** No.

23 **Q** You just walked up to her --

24 **A** All she said was for me to just tell the
25 truth. Whether her son was in the wrong or was he

1 not in the wrong, that was all she said and that was
2 that.

3 Q Okay. And you said?

4 A Okay.

5 Q What did you say to her?

6 A As far as I seen her son wasn't a threat.

7 Q Okay. And then was there anything else
8 discussed?

9 A No, ma'am.

10 Q And tell us again how she knew how to come
11 talk to you about it?

12 A Other people in the complex.

13 Q How did they know that you knew anything?

14 A Some people was on the porch, I guess, and
15 some people I heard yelling out there.

16 MS. WHIRLEY: There may be more questions.
17 I just want to ask you, is there anything you want
18 us to know as far as this investigation goes that
19 you think is important to know and, you know, if you
20 want to change anything that you said, we need the
21 truth. We're not going to hold it against you at
22 this point, we want to know what really happened.

23 A Right.

24 Q (By Ms. Whirley) Is there anything you
25 want to change?

1 **A** No, ma'am. I'm just here to give you all
2 a little vision what I saw. I only remember so
3 much.

4 **Q** Okay. Is there anything else that you
5 think is important for us to know?

6 **A** No, ma'am.

7 MS. WHIRLEY: Okay. Other questions?

8 MS. ALIZADEH: So just basically,
9 , you're saying that you changed your
10 recollection of how things happened after the feds
11 told you it couldn't have happened the way you
12 originally described it, is that fair to say?

13 **A** Yes, that's when I went and try to
14 actually go on what I remember.

15 MS. ALIZADEH: And so now your memory has
16 changed?

17 **A** No, I'm remembering what I'm telling you
18 now.

19 MS. ALIZADEH: You told three different
20 stories in the time we've been here today. So I
21 want to know which one is really your memory or did
22 you see this at all?

23 **A** Yes, see, this is one of the reasons why I
24 didn't want to get involved because now I feel like,
25 y'all taking me as liar when I'm not and I was

1 there. I'm going to say once again, I know I was
2 there, I can only remember so much of what I'm
3 telling you. Whether that was two, three different
4 stories, I'm only going on so much that I can
5 remember.

6 MS. ALIZADEH: But you today said that the
7 reason that you changed your story today?

8 **A** Is because the FBI say my forensic science
9 wasn't right. So that's why I went back and try to
10 actually remember what I saw.

11 MS. ALIZADEH: So what is your memory
12 today, what is it? Were there nine shots, were
13 there ten shots, were there three?

14 **A** It wasn't nine, ten shots.

15 MS. ALIZADEH: What do you remember
16 happening as you sit here today, how many gunshots
17 did you hear?

18 **A** I can only remember when Mr. Brown got
19 shot leaving the vehicle, so when he got hit on the
20 ground.

21 MS. ALIZADEH: One shot when he was at the
22 car?

23 **A** Yes.

24 MS. ALIZADEH: And when was the next shot?

25 **A** When he was proceeding to run from the

1 vehicle.

2 MS. ALIZADEH: How many shots?

3 **A** Like two.

4 MS. ALIZADEH: Two now. Okay. And then
5 you saw him turn around?

6 **A** Yes.

7 MS. ALIZADEH: How many shots then?

8 **A** Just that one and that's when he landed to
9 the ground.

10 MS. ALIZADEH: And then he hit the ground?

11 **A** Yes.

12 MS. ALIZADEH: And then after he hit the
13 ground, how many shots?

14 **A** About two or three more shots.

15 MS. ALIZADEH: So now there's seven shots?

16 **A** Yes.

17 MS. ALIZADEH: All right. I don't have
18 anything else. Anybody else?

19 I just want to
20 proceed if you can provide any more context to that
21 statement you made right there at the end that he
22 wasn't a threat. You shared it with the officer,
23 you shared it with Michael Brown's mother, what
24 specifically was it that you personally that day
25 saw, heard, witnessed the actions that made you

1 assume that Michael Brown was not a threat?

2 **A** When he stopped and threw his hands in the
3 air.

4 : I have a couple
5 questions, this is When you first saw
6 this happen, at one point you said you were directly
7 behind the police officer's car?

8 **A** Huh?

9 : You were directly --

10 **A** In front of him.

11 : In front of the police
12 officer's car?

13 **A** Yes.

14 : And then at one point you
15 said you were maybe four or five car lengths away.
16 Did you stop four or five car lengths away?

17 **A** Before I was able to approach them, yes.

18 Okay. When you saw the
19 struggle going on even though there were no cars
20 between you, you were four or five car lengths away?

21 **A** Yes.

22 That is probably longer
23 than this whole room, right?

24 **A** Yes.

25 . At

1 least twice this room or more.

2 Twice this room. And you
3 are saying you can tell from twice the length of
4 this room that Michael Brown was trying to get away
5 from the police officer?

6 **A** Yes.

7 And the police officer
8 was pulling his shirt and his neck?

9 **A** Yes.

10 : And you could tell that
11 that far away and there's no possible way that there
12 was a struggle and Michael Brown could have been
13 frying to fight the police officer?

14 **A** No, that ain't what I saw.

15 : From that far away?

16 **A** Yes.

17 : So that leads me to
18 another question. So you're saying that the police
19 officer had his hand on Michael Brown's shirt?

20 **A** Yes.

21 : And his neck.

22 **A** Yes.

23 : And that is why he
24 couldn't get away?

25 **A** Yes.

1 : Because he had two hands
2 on him?

3 **A** Yes.

4 : And then you saw the gun
5 come out of the car?

6 **A** Uh-huh.

7 : And shoot Michael Brown
8 in the chest?

9 **A** Yes.

10 So whatever hand's left,
11 that leaves him one hand on Michael Brown to get the
12 gun?

13 **A** Yes.

14 : And then he shoots him?

15 **A** Yes.

16 : And it's at that point
17 after Michael Brown is actually injured that he's
18 able to get away?

19 **A** Yes.

20 : Why was he not able to
21 get away with all of his strength, non-injured but
22 he is able to get away injured. If the police
23 officer is that strong from a sitting position and
24 Michael Brown is over him, why was he not able to
25 get away when the police officer let go of one his

1 arms?

2 I mean, you got to understand, and I don't
3 mean any disrespect. I know what you had to see was
4 probably horrific, this is just not making sense to
5 me.

6 **A** Yeah, I got that 150 times.

7 I'm not saying you're
8 lying.

9 **A** If none of my stuff is making any sense,
10 like why do y'all keep contacting me, y'all keep
11 bothering me. I didn't want to get involved in the
12 first place.

13 : This is very important.

14 **A** I understand that and that's what drew me
15 to actually come in to say what I say and tell what
16 I saw.

17 : Can I ask you one more
18 question? Have you ever been in trouble with the
19 police?

20 **A** Yes, I've been to penitentiary and all of
21 that.

22 : Okay.

23 **A** So why would I bring myself here, why
24 would I give myself a free ticket to jail if y'all
25 want to accuse me of lying.

1 : I'm not accusing you of
2 lying, I want you to know that.

3 **A** No, I understand that. I'm just saying
4 that everybody is saying my stuff don't match up.

5 I would be true to
6 myself.

7 **A** I wouldn't bring myself here just let
8 y'all put me away from my family.

9 One more question. How
10 far up were Michael Brown's hands?

11 **A** They was in the air.

12 Were they here, where
13 they here, where they here? (indicating)

14 **A** I don't know, I don't have a direct
15 estimate, they was in the air.

16 Okay. Thank you.

17 From
18 where your position on the roadway on Canfield --

19 **A** Canfield.

20 -- Drive? The roadway
21 there, is it straight and level, or are you looking
22 on a downhill slope or --

23 **A** No, it don't do nothing but swerve.

24 It is straight and level?

25 **A** Yes.

1 It is level and curvy?

2 **A** Yes.

3 One quick

4 question. I think at one point you mentioned the
5 passenger in your car was a distraction. Can you
6 maybe go into what was distracting?

7 **A** She was yelling, screaming and jumping
8 telling me to get away from there, which I wasn't
9 going to pull off, you know, drive away from the
10 scene. I don't know what was capable of happening
11 me moving, so I just stood there.

12 A lot of chaos and
13 emotion.

14 **A** Yes.

15 Could that have distracted
16 you a little bit from the scene in front of you?

17 **A** Yes, sir.

18 Did that go on for how
19 long until you actually --

20 **A** Pulled up and parked, and that's when she
21 proceeded, she was sitting, she was watching what
22 was going on too. She proceeded to do what she was
23 doing. I didn't see her until there was a bunch of
24 police and people everywhere that she had come back
25 with some of her and her folks.

1 Okay.

2 When you
3 drove past the officer there, and you have made a
4 comment to the officer, I don't think I wrote it
5 down correctly, could you tell me what you said to
6 the officer again as you drove by?

7 **A** Why the fuck you shoot him like that.

8 Why the fuck you shoot him
9 like that. At any time did you think, I mean, if
10 you reportedly saw the officer shoot this guy in the
11 head, that he might turn and just shoot you and your
12 passenger?

13 **A** Yes, I felt that, I felt that. But at the
14 time I didn't, I mean, at the time I'm guessing he
15 didn't realize what he put himself into. So I
16 expected him like he might shoot me too, but I
17 wasn't too much worried about it. And that's why I
18 went on and proceeded to park and got out of my
19 vehicle.

20 Okay.

21 MS. WHIRLEY: Anybody else?

22 All right. , thank you for
23 coming. I know it seemed like we were really
24 questioning you.

25 **A** No, you are only doing your job. Like I

1 say, I only come here to give what I can remember.
2 Like as far as what she said, how they were saying
3 it at the FBI, if you wasn't there, just say you
4 wasn't there, but I was there and I'm not going to
5 say that. I'm not going to bring myself here to
6 give you y'all a free ticket to take me away from my
7 family.

8 MS. WHIRLEY: You were there, we don't
9 know exactly when you were there, but we certainly
10 saw on the video you talk about where you said he
11 was no fucking threat, that was you --

12 A Yes.

13 MS. WHIRLEY: -- on the video, okay. So
14 thank you again for coming and that concludes this
15 portion of the question and answer period. Thank
16 you , I'll take you out.

17 (End of the testimony of)

18 MS. ALIZADEH: This is Kathi Alizadeh. It
19 is 11:37 in the morning on October 20th. Sheila
20 Whirley is here with me as well as all 12 grand
21 jurors and the court reporter who is taking down and
22 recording what's being said.

23

24 of lawful age, having been first duly sworn to
25 testify the truth, the whole truth, and

1 nothing but the truth in the case aforesaid,
2 deposes and says in reply to oral
3 interrogatories, propounded as follows, to-wit:

4 EXAMINATION

5 MS. ALIZADEH: At this time we're going to
6 pause the recording and I will have the witness
7 introduce self and identify self and then
8 after that I will refer to by a number, by
9 Witness Number 38.

10 BY MS. ALIZADEH:

11 Q would you introduce yourself for
12 the grand jurors, please?

13 A My name is

14 Q you are a little soft spoken
15 and that microphone in front of you does not amplify
16 your voice.

17 A I'll speak louder.

18 Q If you speak loud enough that I can hear
19 you back here, I know that they can all hear you.

20 A My name is

21 Q And, how old are you?

22 A I'm years old.

23 Q And where do you live?

24 A On Canfield.

25 Q So you live in the Canfield Green

1 Apartment Complex?

2 **A** Yes, I do.

3 **Q** And how long have you lived in those
4 apartments?

5 **A** I have lived in those apartments for
6 years.

7 **Q** And so at this time, I will instruct the
8 court reporter here in a second to begin the audio
9 recording. And after we begin the audio recording,
10 I'm going to refer to you as Witness Number 38, is
11 that all right?

12 **A** Okay.

13 **Q** You understand that?

14 **A** I understand.

15 **Q** So, Witness Number 38, you just mentioned
16 to the grand jurors a bit ago that you live in the
17 Canfield Apartment Complex, correct?

18 **A** I do.

19 **Q** And can you use the laser pointer that's
20 in front of you, and I'm going to direct your
21 attention to a map, which we have marked as Grand
22 Jury Exhibit Number 25. Do you recognize the
23 streets and buildings here as an aerial view of the
24 apartment complex?

25 **A** I guess.

1 **Q** So here is Canfield Drive?

2 **A** Okay.

3 **Q** And this street runs through the complex?

4 **A** Right.

5 **Q** So to the left of the map, out of sight, I
6 guess, not on the map is West Florissant?

7 **A** Uh-huh.

8 **Q** And driving this direction or east you hit
9 the Northwinds Apartments?

10 **A** That's correct.

11 **Q** Now, do these streets look familiar to
12 you?

13 **A** Yeah.

14 **Q** Can you say, can you use that pointer and
15 show me what building you live in?

16 **A** I guess the address.

17 **Q** There are numbers on it if it would help
18 you, I can bring it closer to you if you want to see
19 if you recognize the number of your unit.

20 **A** Oh, yes, I do, sorry.

21 **Q** So using that pointer, can you point where
22 your apartment is?

23 **A** (Indicating)

24 **Q** So this apartment is the front of this
25 apartment on Canfield Drive?

1 **A** Yes, it is.

2 **Q** And is your apartment unit actually facing
3 Canfield Drive?

4 **A** Yes.

5 **Q** What floor do you live on?

6 **A** I live on the

7 **Q** We've had other people kind of, we've seen
8 pictures of the building and had people describe it
9 for us, but am I correct that there's a front door
10 to your unit that leads to like a deck area?

11 **A** Yes, porch, deck area.

12 **Q** Okay. And then there's steps, exterior
13 steps that you would take to get down to the ground
14 level, correct?

15 **A** That's correct.

16 **Q** Is there any other way out of your
17 apartment?

18 **A** One way in, one way out.

19 **Q** Okay. So on the day of August 9th of
20 2014, which was a Saturday, were you home that
21 morning?

22 **A** Yes, I was.

23 **Q** To the best of your recollection, was
24 there anything unusual or special that was going on
25 that day for you?

1 **A** A normal day.

2 **Q** And somewhere during the day, at some
3 point during the day did you leave your apartment
4 building?

5 **A** Yes, I did.

6 **Q** And where were you going to go?

7 **A** To the trash dumpster in the back.

8 **Q** And so did you have some trash with you?

9 **A** Yes, I had a bag of trash.

10 **Q** And do you recall like what time of day it
11 was?

12 **A** I'm sorry, I don't.

13 **Q** Was it light outside?

14 **A** Oh, yes.

15 **Q** And from what we know, is that August 9th
16 was a sunny day?

17 **A** Yes.

18 **Q** No rain, is that your recollection?

19 **A** No rain, sunny day, uh-huh.

20 **Q** And so when you exited your apartment, you
21 would of had to have come out the front; is that
22 correct?

23 **A** Yes, uh-huh.

24 **Q** Did you go directly down the stairs?

25 **A** Yes, I did.

1 **Q** Can you use the laser pointer and show me
2 where the dumpster is that you were taking the
3 trash?

4 **A** Let's see, that's kind of hard to say
5 because it is in the back of the building.

6 **Q** I'm going to use my finger and point, is
7 this the back of the building or is this the back of
8 the building?

9 **A** Let's see, that's kind of hard to say,
10 that's Canfield.

11 **Q** Look at me for a second. Think to
12 yourself when you walk out of the building, which
13 direction do you turn?

14 **A** I turn to the left.

15 **Q** Okay. And then you go downstairs and when
16 you go down the stairs, are you facing Canfield when
17 you come off the stairs or?

18 **A** Facing Canfield.

19 **Q** Okay. So you're facing Canfield. So what
20 direction do you turn to get to the trash?

21 **A** To the left.

22 **Q** To the left?

23 **A** Uh-huh.

24 **Q** Do you turn all away around 180 degrees.
25 So, in other words, you come down here now?

1 (indicating)

2 **A** Right.

3 **Q** Is this a walkway?

4 **A** That's a walkway.

5 **Q** Is this the walkway you take to get to the
6 trash dumpster or did you go this way? (indicating)

7 **A** Let's see, that's a little confusing. All
8 I know is I turn to the left where the parking area
9 is. I go around the building to the back by the
10 trash dumpster.

11 **Q** Okay. So you were walking in this
12 direction down this parking area? (indicating)

13 **A** I would think so.

14 **Q** Okay. So when you came out of your
15 apartment, did you see anything unusual?

16 **A** Well, saw a few people around, you know,
17 and other than two boys walking down the street.

18 **Q** Okay. So you saw two boys walking down
19 the street?

20 **A** Uh-huh.

21 **Q** And did you recognize either of those
22 boys?

23 **A** No, I didn't.

24 **Q** And when you say boys, are we talking
25 about little boys, we talking about teenagers or

1 adults?

2 **A** Well, I assumed they were teenagers, they
3 were big kids.

4 **Q** And where were they walking, what street
5 were they on?

6 **A** They were on Canfield.

7 **Q** And were they walking, if going down this
8 way is east, were they walking east or were they
9 walking that way?

10 **A** West. I would say west because they was
11 headed back towards the Northwinds Apartments.

12 **Q** So they were headed towards the
13 apartment --

14 **A** They wasn't headed towards West
15 Florissant, they was headed away from West
16 Florissant.

17 **Q** Okay. Like they had come from that?

18 **A** Yes, like they had come from the West
19 Florissant area.

20 **Q** And can you use the pointer and show me
21 where they were when you first saw them walking down
22 the street if this is your building?

23 **A** That's my building. I'm sure they was a
24 little east of my building, so I guess maybe right
25 along in there or something. (indicating)

1 **Q** Okay. There's a white car that's in this
2 map, it just happens to be there when the satellite
3 took this picture, was it around the area where that
4 car is?

5 **A** See, I didn't see a car at first until I
6 saw --

7 **Q** Okay. This car wouldn't have been there,
8 this is just a map, this was there when they took
9 the aerial shot. So you saw them and where were
10 they in the street?

11 **A** They were walking along by the sidewalk.

12 **Q** Okay. Could you see the fronts of them or
13 the backs of them?

14 **A** I guess the sides of them, you know.

15 **Q** Okay. And so were they actually in the
16 street or on the sidewalk?

17 **A** They were like along the curb sides of the
18 streets.

19 **Q** Still in the street?

20 **A** Yes.

21 **Q** And when you first saw them, did you
22 notice anything about them?

23 **A** No, I just glanced and came around the
24 building.

25 **Q** Anything about them like one was bigger,

1 one was smaller, one was older, one was younger,
2 anything like that?

3 **A** I couldn't tell their age, but one was
4 bigger, a bigger kid and the other kid, excuse me,
5 was a thinner kid, you know, uh-huh.

6 **Q** Do you remember anything about what the
7 bigger kid was wearing?

8 **A** I sure don't because I didn't focus in on
9 that.

10 **Q** Okay. And what about the smaller kid, do
11 you remember anything about him, like his hair?

12 **A** I think he had maybe like dreadlocks or
13 something, uh-huh.

14 **Q** Do you remember long dreadlocks or shorter
15 dreadlocks?

16 **A** I don't think they were long. Maybe at
17 the end of the neck or a little below that.

18 **Q** Okay. Could you hear if they were
19 speaking to each other?

20 **A** No.

21 **Q** And what did you witness next?

22 **A** Uh, next I notice the police car saying
23 something to them because he had kind of cut in
24 front of them, kind of angled his car in front of
25 them.

1 **Q** So you recognize that car as a police car?

2 **A** Yes.

3 **Q** Do you remember what kind of car? I don't
4 mean like brand or the model, was it a sedan, was it
5 a truck, was it a SUV, was it a van?

6 **A** I probably say it was something like a SUV
7 or something, a cruiser car or something.

8 **Q** All right. And so you said that the
9 officer's car, looked like it cut them off?

10 **A** Yes, he was saying something to them and
11 then he angled his car kind of in front of them.

12 **Q** Which direction was the car, was the
13 police officer's car on Canfield then?

14 **A** Yes.

15 **Q** And which direction was the police
16 officer's car facing?

17 **A** West, I would say just like he came from
18 West Florissant area too.

19 **Q** Just to clarify, this is east and that's
20 west.

21 **A** Okay.

22 **Q** And this is West Florissant over here.

23 **A** West Florissant over there.

24 **Q** Yeah, West Florissant is over here. So
25 does that change what you think about, you still

1 recognize that as where you live?

2 **A** That is where I live, yes.

3 **Q** Okay. Do you know if the officer's car
4 was actually moving and driving, would it be going
5 toward West Florissant?

6 **A** No.

7 **Q** Or toward Northwinds?

8 **A** Northwinds.

9 **Q** So did you see the officer's car moving?

10 **A** Well, I saw the officer pull up next to
11 them and he was saying something to them, I don't
12 know what. And then I saw him just kind of cut
13 angle in front of them.

14 **Q** Okay. And so is it you don't know what
15 because you couldn't hear anything from that
16 distance?

17 **A** No, I didn't hear anything.

18 **Q** Why is it that you said that he said
19 something to them, what makes you think that?

20 **A** Well, I saw him, I mean, I heard, I didn't
21 hear what he was saying, but I saw him talking to
22 the boys, you know. What he said, I don't know.

23 **Q** Okay. So both boys were at the officer's
24 car at that point?

25 **A** Yeah, they were both together walking.

1 **Q** Okay. And so then you said you saw the
2 officer then angled his car and kind of cut them
3 off?

4 **A** Yes.

5 **Q** And what did you see happen then?

6 **A** I kept on going toward the dumpster and
7 then I heard, I guess it turned out to be a shot. I
8 kind of looked over my shoulder and looked back. I
9 didn't see anything, so I kept going around to the
10 dumpster head around the corner.

11 **Q** Okay. So after the officer angled his car
12 and kind of cut the boys off.

13 **A** Yes.

14 **Q** You then continued to the dumpster?

15 **A** Yes, uh-huh.

16 **Q** Does that mean you went around to the back
17 of the building?

18 **A** Right.

19 **Q** After you continued to the dumpster then,
20 was the building in between you and the car and the
21 boys to where you couldn't see them?

22 **A** I couldn't see them, huh-uh.

23 **Q** And now you said you heard a gunshot?

24 **A** Before I turned the corner, yes.

25 **Q** And so before you turned the corner, you

1 heard a gunshot, how many gunshots?

2 **A** I'm sorry, I thought it was only one.

3 **Q** All right. And have you heard gunshots
4 before?

5 **A** Oh, yeah.

6 **Q** Did you recognize that as a gunshot or did
7 you think maybe it was firecrackers?

8 **A** I just assumed it was a gunshot.

9 **Q** Okay.

10 **A** Uh-huh.

11 **Q** And so when you said you looked back at
12 that point.

13 **A** Uh-huh.

14 **Q** And you didn't see anything?

15 **A** I didn't see anything, so I kept going.

16 **Q** And so you kept walking toward the
17 dumpster?

18 **A** Kept walking toward the dumpster.

19 **Q** And then what happened?

20 **A** And then after I turned the corner of the
21 building going to the dumpster, I heard a series of
22 gunshots. And then I ran and I ducked between some
23 cars because I didn't know what was going on, if it
24 was a battle out there or not, and I ducked between
25 the cars.

1 **Q** Can you give me an idea of how many
2 gunshots, when you said it was a series of gunshots?

3 **A** I can't say. I knew it was more than
4 five, I would say I knew it was more than that.

5 **Q** Okay. Were these gunshots in a quick
6 succession like one after another or were there
7 pauses between them?

8 **A** Seemed like one after another.

9 **Q** From the time of the first gunshot until
10 the succession of gunshots, can you give me an idea
11 of how much time past?

12 **A** No, not really because I kept walking and
13 I turned the corner of the building going to the
14 dumpster, so it wasn't that long.

15 **Q** So from the time it would take you to walk
16 and turn the corner toward the dumpster?

17 **A** Uh-huh.

18 **Q** And so you said after you heard the series
19 of gunshots, you ducked behind some parked cars?

20 **A** Yes, I did.

21 **Q** And did you see anything else after that?

22 **A** People coming out of their building.

23 After that, hearing the gunshots, a lot of people
24 started coming out of the buildings. And I stayed
25 back there for a few minutes because I didn't go in

1 the front, but people was coming on the front.

2 Q Okay. So now you know the boy that got
3 shot, Michael Brown, you know his name now?

4 A I know his name, but I did not know him
5 before that.

6 Q Okay. Did you see him get shot?

7 A No.

8 Q All right. So what about the officer,
9 when he was inside his police car, could you see
10 him?

11 A No, I couldn't.

12 Q Did you ever see that officer get out of
13 his car?

14 A See, I wasn't looking then. My back was
15 toward that.

16 Q Okay. Did you ever see the officer at the
17 scene later where you said oh, that's the guy?

18 A No, I couldn't.

19 Q Do you think if you saw him today you
20 would recognize him?

21 A No, even seeing him on television I still
22 wouldn't recognize him.

23 Q From your vantage point he was always
24 inside the vehicle?

25 A Yes.

1 **Q** When you were, when you looked and you saw
2 the boys at the vehicle after the police car cut
3 them off.

4 **A** Uh-huh.

5 **Q** What side of the police vehicle were they
6 on? The driver's side or the other side?

7 **A** Well, they were on the street curb and the
8 car came at an angle, I guess they was on the other
9 side, yeah.

10 **Q** So not the driver's side, but the other
11 side?

12 **A** The other side, right.

13 **Q** Okay. And that's because you think the
14 officer's car was headed towards Northwinds?

15 **A** Yes.

16 **Q** If the officer's car was headed toward
17 West Florissant, what side would they have been?

18 **A** They would have been on the driver's side
19 then.

20 **Q** Okay. When you turn and you saw the boys
21 at the car, were they near the front, near the back
22 bumper or near like a window?

23 **A** Near the door I would think.

24 **Q** And when you turn and look and saw the
25 boys at the car, was the car, was the police car in

1 between you and the boys?

2 **A** Oh, yes.

3 **Q** So could you see if the boys were standing
4 at the car, could you see the boys' hands and what
5 they were doing?

6 **A** No, the car was blocking it.

7 **Q** Okay. Could you see the bigger boy, was
8 his head taller than the police car, could you tell
9 he was standing there?

10 **A** You know, I don't know because I didn't
11 focus in on that, you know. I know people are
12 stopped all the time, so I'm not focusing in on
13 that. I'm trying to get to the trash dumpster, I
14 had food on the stove.

15 **Q** So did you ever make it to the dumpster?

16 **A** Yeah, eventually after I stayed back there
17 for a while and everybody started coming out of
18 their apartments, then I went to the trash dumpster
19 and then I came back around to the front of my
20 building, already they had put the yellow tape up
21 and wasn't letting anybody by. I told the officer I
22 live here in this building, I just went to the trash
23 dumpster, I have food on my stove cooking and he let
24 me beyond the yellow tape.

25 **Q** Okay. So after you came out from where

1 you were crouching or hiding?

2 **A** Uh-huh.

3 **Q** You went and put your trash in the
4 dumpster and then came, walked toward Canfield Drive
5 at that point?

6 **A** Yeah, back around to my building, yes.

7 **Q** You could see the yellow tape was up?

8 **A** The yellow tape was already up.

9 **Q** And then did you go into your building
10 after the officer let you past the yellow tape?

11 **A** Yes.

12 **Q** And then did you ever come out of your
13 building again?

14 **A** Oh, yes. I came back out because people
15 was congregating. I heard all the noise outside and
16 everything. I checked my food and then I came back
17 out on my porch.

18 **Q** So you came outside, but you didn't come
19 down to the ground?

20 **A** Oh, no, I didn't come back down.

21 **Q** So when you came out, well, let me ask you
22 this. When you came back around to get back in your
23 building, did you go in the front way?

24 **A** There's only one way in.

25 **Q** Could you see Michael Brown's body in the

1 street?

2 **A** Yes, I did.

3 **Q** Did you recognize him as the same boy?

4 **A** See, they had a cover on him.

5 **Q** Okay. So by the time you saw him the body
6 was covered up?

7 **A** Covered up, uh-huh.

8 **Q** And then later that day police officers
9 knocked on your door and asked you if you saw
10 something; is that right?

11 **A** Uh, was it that day? I think it was later
12 that day. I'm not sure if it was that day or the
13 next, a detective came up there.

14 **Q** A detective?

15 **A** Yes.

16 **Q** And you talked to him for a couple
17 minutes?

18 **A** Yes.

19 **Q** And then about a week later some FBI
20 people?

21 **A** Yes.

22 **Q** Knocked on your door?

23 **A** Yes.

24 **Q** And you talked to them for a few minutes?

25 **A** I talked to them.

1 **Q** Okay, all right. Ma'am, how is your
2 vision, how is your eyesight?

3 **A** My eyesight is not bad.

4 **Q** Okay. And you and I talk a little bit
5 before you came in here?

6 **A** Uh-huh.

7 **Q** You had told me that sometime after this
8 incident you had cataract surgery?

9 **A** That's correct.

10 **Q** Prior to having the cataract surgery, was
11 your vision impaired by the cataracts?

12 **A** My vision is about the same after I got
13 the cataracts off, uh-huh.

14 **Q** So you didn't think you had a problem with
15 your vision?

16 **A** No.

17 **Q** Did you even know you had cataracts?

18 **A** No, not until the doctor told me they was
19 growing.

20 **Q** Okay. So what about your hearing, ma'am,
21 how is your hearing?

22 **A** I have pretty good hearing.

23 **Q** Okay. And what about, so you don't need
24 anything to aid you with hearing?

25 **A** No, I don't.

1 **Q** And how about your memory, I asked you, I
2 told you I was going to ask you about your memory?

3 **A** My memory is pretty good for a person of
4 my age, I would say my memory is pretty good.

5 **Q** Okay. Is there anything about what you
6 saw that day, anything else that you think is
7 important for us to know?

8 **A** I've told you all I've seen, you know.
9 Nothing else I can tell you other than what I saw
10 that day, you know. And I just got through saying
11 what I saw that day.

12 I didn't see the whole incident, like
13 I told the detective and the FBI. All I can tell
14 you is the little bit that I did see.

15 **Q** Okay. And I told you how important it is
16 that everybody who saw something --

17 **A** Yes.

18 **Q** -- comes in and tells what they saw.

19 **A** Right.

20 **Q** All right. And since this has happened.

21 **A** Uh-huh.

22 **Q** Have you participated in any like protest
23 or vigils?

24 **A** Oh, no.

25 **Q** Do you know Michael Brown's family?

1 **A** Other than seeing them downstairs when the
2 incident happened and seeing them on television, no,
3 I don't know them.

4 **Q** How about Ferguson police officers, do you
5 know any Ferguson police officers?

6 **A** I don't know any Ferguson police officers.
7 MS. ALIZADEH: Okay. I don't have any
8 others request.

9 **Q** (By Ms. Whirley) Witness 38, hi, how long
10 have you lived in the apartments?

11 **A** I have lived there years.

12 **Q** Okay. I bet you've seen a lot change over
13 those years?

14 **A** I've seen a lot change, yeah.

15 **Q** What's the relationship with the police
16 then and the residence in that area?

17 **A** I haven't had any incidents with them, so
18 I can't say.

19 **Q** Okay.

20 **A** You know.

21 **Q** You don't know of any particular incidents
22 that have occurred there with the police?

23 **A** No.

24 **Q** Okay. When the officer, I'm going back to
25 the incident, when the officer was inside the police

1 car, I think you said you were going toward the back
2 to empty the trash?

3 **A** Yes.

4 **Q** You heard a series of shots, you thought
5 about five shots?

6 **A** Five or more.

7 **Q** Five or more?

8 **A** Uh-huh.

9 **Q** You may or may not be able to answer it.
10 What I'm trying to find out is was the officer
11 inside the car when you heard the shot or you don't
12 know?

13 **A** See, I had turned the corner when I heard
14 the shots, and then I ran and duck behind some cars.
15 So I couldn't tell you whether he was outside of the
16 car or inside, because I couldn't see. I was around
17 the corner.

18 **Q** Okay. The first shot he was in the car?

19 **A** Yes.

20 **Q** Okay. The others you don't know?

21 **A** No, I don't know.

22 **Q** And you never saw Michael Brown after he
23 was in the street talking to the officer?

24 **A** No.

25 **Q** Was he in the middle of the street?

1 **A** No, they was along the curb side.

2 **Q** When you saw him walking before the police
3 made contact, he was not in the middle of the
4 street?

5 **A** Not in the middle of the street, they was
6 on the curb side.

7 MS. WHIRLEY: All right. I think that's
8 all I have.

9 Do you recall
10 when the officer's vehicle, Darren Wilson's vehicle
11 was next to the two individuals, do you recall if he
12 had his lights or sirens on?

13 **A** No, he didn't have sirens on.

14 Any lights that you saw?

15 **A** It was daytime, you mean the lights on
16 top? No, no, no.

17 Thank you.

18 MS. WHIRLEY: Anybody else?

19 MS. ALIZADEH: Anyone else?

20 At
21 that time when you first saw the police officer and
22 his car whatever, did you see any other vehicles
23 stopped behind the police officer's car?

24 **A** No, I didn't see any other vehicles.

25 You saw no other vehicles?

1 **A** No.

2 Did you notice any other
3 vehicles coming the opposite direction, like they're
4 coming off the West Florissant direction if they was
5 stopped there?

6 **A** No, I didn't. Because I didn't really
7 focus in on that, you know, this is just an everyday
8 Saturday thing where I'm taking my trash down. So I
9 didn't see any, I just didn't focus in on that.

10 Okay. Thank you.

11 **A** Uh-huh.

12 MS. ALIZADEH: Anyone else? All right.
13 This will conclude the testimony of this witness.

14 (End of the testimony of Witness 38.)

15 MS. WHIRLEY: It is October the 20th, 2014
16 it is approximately 1:22 p.m. We are resuming our
17 evidence in the Michael Brown shooting. I'm Sheila
18 Whirley, the 12 grand jurors are present and also
19 the court reporter. Kathi Alizadeh is out of
20 the room right now, she will join us probably
21 momentarily.

22 We're going to start this afternoon with
23 two statements, as much as we can get through, of
24 . He testified here this morning.
25 And as he testified, he spoke to a chief

1 investigator from our office, his name is
2 , I think he pronounces it ,
3 the G is silent. He actually talked with
4 on the phone. That's Grand Jury Exhibit
5 Number 17.

6 And then we have another statement from
7 , which Grand Jury Exhibit Number 49,
8 where he spoke with the FBI. With that bit of
9 introduction we can stop the recording and we'll go
10 ahead and play the phone call. The phone call is
11 like 16 minutes or so, and I think that his
12 statement is less than an hour, so we'll see how
13 much we can get through.

14 (Grand Jury Exhibit Number 49
15 marked for identification.)

16 MS. WHIRLEY: All right. We're back on
17 the record. We are going to top this recording at
18 39:13, 39 minutes, 30 seconds. And then we'll start
19 up there when we meet again.

20 It is approximately 2:29 p.m. This is the
21 end. I'm Sheila Whirley, here with Kathi Alizadeh,
22 all 12 jurors and the court reporter. That
23 will conclude our day, thank you.

24 (End of Grand Jury Volume 14.)

authorized to administer oaths and to certify to

9

depositions, do hereby certify that pursuant to

10

Notice in the civil cause now pending and

11

undetermined in the County of St. Louis, State of

12

Missouri.

13

The said witness, being of sound mind and being

14

by the grand jury first carefully examined and duly

15

cautioned and sworn to testify to the truth, the

16

whole truth, and nothing but the truth in the case

17

aforesaid, thereupon testified as is shown in the

18

foregoing transcript, said testimony being by me

19

reported in shorthand and caused to be transcribed

20

into typewriting, and that the foregoing page

21

correctly sets forth the testimony of the

22

aforementioned witness, together with the questions

23

propounded by counsel and grand jurors thereto, and

24

is in all respects a full, true, correct and

25

complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XV

2 MS. ALIZADEH: Good morning.

3 (Everyone says good morning.)

4 MS. ALIZADEH: It is Thursday,
5 October 23rd at 9:06 a.m. This is Kathi Alizadeh,
6 Sheila Whirley is also present, all 12 grand jurors
7 are present as well as , the court reporter,
8 and we need to take up a few matters before we begin
9 with witnesses today.

10 Um, I would imagine all of you, I mean,
11 most of you, if not all of you, have been aware that
12 there have been media reports out there that seem to
13 indicate that there are leaks in the investigation
14 and that reports have been leaked and testimony has
15 been leaked and so forth.

16 And first off, as I've said from the very
17 beginning, you all have to be guided by what occurs
18 in this room. We all know sometimes the media
19 doesn't get things right, but you know, if you do
20 read those things, you need to make sure you take
21 that with a grain of salt. You all have heard all
22 the evidence together, so you know what you have
23 heard and seen.

24 But I do want to say, and Sheila and I
25 have had a conference, we've had a conference with

1 Mr. McCulloch, we've had conferences with a lot of
2 others, with the County Police Department and
3 everything, and I can assure you that we know that
4 the leak, that the leaks are not coming from the
5 grand jury. There is no doubt in our minds that
6 none of you are the source of that.

7 And to tell you the truth, one of the
8 reasons that I know that is the medical examiner's
9 report is out there and I've looked at what's out
10 there, what was leaked by the Post-Dispatch, it was
11 put out there by the Post-Dispatch and I can tell
12 you it is not the copy that you have. It is the
13 medical examiner's report, but every medical
14 examiner's report that we get has a stamp on it. It
15 says not for secondary release.

16 And the report that is out there that was
17 published by the Post-Dispatch does have that stamp
18 on there, but it is not the same stamp that I have,
19 and I know it is not the same stamp that is on your
20 copy.

21 So it says the same thing, but their's is
22 in a straight line and it is different looking than
23 our stamp, the stamp that we have on our copies.

24 And the same thing with the County Police,
25 it is different than the stamp that they have from

1 their copies.

2 So wherever this came from, it did not
3 come from our office, it did not come from you guys.
4 You don't have a copy that looks like that, it did
5 not come from the County Police.

6 And the other reason why we're fairly, not
7 fairly, we're 100 percent confident that this is not
8 coming from the grand jurors or from the County
9 Police is that in the very beginning when there was
10 a supposed leak, this was a story that was broken by
11 the New York Times, but it was their Washington
12 Bureau that published the story and they cited their
13 source as a government official who had been briefed
14 on the civil rights investigation.

15 We are sharing our information with the
16 federal government because they are conducting their
17 own independent investigation and so they have all
18 the same reports and the same things that we have.

19 And so we are confident that the leak is
20 someone in probably the Department of Justice and is
21 not coming from St. Louis County Police, not from
22 our office, and not from this grand jury.

23 I know you all maybe were concerned about
24 that, but we are 100 percent confident that we're
25 all good.

1 The other reason being you all don't take
2 your things home with you. We collect your
3 materials before you leave so that being said, I
4 just want everybody to know that we still have
5 complete confidence in the grand jury and the
6 judicial system and we know that you're going to do
7 your duty and you're going to be guided by the
8 evidence that you've heard during your
9 investigation.

10 So that's the first thing. Anything else
11 that we discussed that needs to be said?

12 The other thing that we have talked about
13 at the very beginning of this process we kind of had
14 set a goal for ourselves that we were going to try
15 to complete this by mid November.

16 If you recall that was originally the idea
17 that we could extend the grand jury or that it could
18 be a six month term and that would put you at like
19 mid November. It was then again extended to
20 January, that was done just out of an abundance of
21 caution in case we didn't get done by mid November.

22 We still would like to finish by mid
23 November. I can tell you that the light is at the
24 end of the tunnel so to speak. We have discussed
25 what we have left to put on and I will tell you

1 there are approximately 15 eyewitnesses or lay
2 witnesses who we believe would have valuable
3 testimony to give. However, I will tell you that I
4 don't know, we are making our best efforts to get
5 everyone in, but I can tell you that you some of
6 these witnesses are resisting.

7 Some of them have frankly said there is no
8 way I'm coming in, no way I'm going to testify.
9 We're trying to get witnesses under subpoena, but if
10 you knock on the door and nobody answers, we have no
11 right to, you know, kick in the door and serve them
12 with a subpoena.

13 We can only do so much. So even though we
14 have potentially 15 lay witnesses that we may still
15 call, I expect we are not going to be able to call
16 all of those witnesses. We are going to do our
17 best.

18 But in the event that we want to wrap this
19 up, if we try our best to wrap this up in mid
20 November, we talked about possibly going to again a
21 three day a week schedule. That would, you know,
22 again, we're trying to get this completed and by all
23 means, there is no deadline so you all don't feel
24 that you have the time, there is no magic date,
25 there is no reason this hasn't to be done on a

1 certain date.

2 With that in mind, if you can talk during
3 your lunch break today about your November schedule
4 because we don't have any dates yet for November and
5 think about including an additional day.

6 I know you've been very generous to give
7 us two days a week, and keep in mind as well that
8 from the very beginning we've said if you all need
9 to meet in the evening or Saturday or Sunday, even
10 if it is a half day on Saturday or Sunday, we will
11 be there, we will do it.

12 The other thing that we talked about is
13 that there was a question early on about possibly
14 getting the police vehicle for you all to see for
15 yourself, which I've already investigated that and
16 we can't.

17 It's been repaired, so it has a window in
18 it now and I haven't seen it myself whether or not
19 the demarcation where the bullet hole was, I don't
20 know if that's still there. But I know that you are
21 interested in how big the vehicle is, how tall it
22 is, what it might be like to stand next to it and so
23 forth.

24 We can have that done a number of ways.
25 We can have that done a number of ways. We can

1 bring that here and made available for you in the
2 parking garage for you all to get in, examine, get
3 around. However, if we do it here, it would be wise
4 not to do it during business hours, because there's
5 really no place in the parking garage where we can
6 do this where people won't see you up and around a
7 Ferguson Police car.

8 We have construction workers in the
9 parking garage, there are county employees, we have
10 just members of the public that can park in the
11 parking garage.

12 If you would like to see the vehicle here
13 in this location, I would suggest that maybe if we
14 do that on an evening or weekend where nobody will
15 be down here, no construction workers, very few
16 county employees.

17 The other possibility is that we could
18 bring the vehicle to the St. Louis County Police
19 Academy, which is in Wellston, it is maybe a 15
20 minute drive from here. We put you all in a van and
21 take you out there.

22 They've got a secure garage and you could
23 exit there. If you recall Detective talked
24 about it, they had towed it to their garage which is
25 a secure facility here in Clayton. I can

1 investigate whether or not that garage might be
2 available.

3 The problem with that is, it contains
4 other evidence, there might be things in there the
5 County Police may say, yeah, we can't let these
6 people in here, we have other evidence in other
7 cases and it would be compromised, the integrity of
8 other investigations. So, plus I'm not 100 percent
9 sure that that garage is even still there.

10 They're in the process of demolishing
11 buildings, that might not even be available, but
12 those are a couple options bringing it here and
13 seeing it on a weekend or evening or taking a field
14 trip to the police academy to exit there. So you
15 guys can talk about that as well.

16 Sheila has a better recollection than me,
17 so I have to always ask her did I forget everything.

18 MS. WHIRLEY: She has the gift of grab.

19 MS. ALIZADEH: I do. I'm the mouth and
20 she's the brains. So you all had asked for a
21 topographical map at some point, I have one that I
22 will pass out today. Don't know how helpful it is
23 going to be for you. I looked at it, I don't know.
24 It is the only one that we can come up with without
25 actually, you know, I guess hiring a company to go

1 out there and do that.

2 And then also you had asked for the floor
3 plans of the apartments in the complex, I've got
4 that as well.

5 Also, there was a question about whether
6 or not we were going to call Dr. , the
7 pathologist who was hired by the family of Michael
8 Brown to perform an independent autopsy. It was
9 actually the second autopsy on the remains.

10 There was then later a third autopsy that
11 was done by the Department of Defense medical
12 examiners, which I expect we'll call one of them to
13 tell you what their findings were.

14 We have contacted the attorney who
15 represents the family of Michael Brown and asked
16 that they contact Dr. and invite him to
17 testify.

18 So we haven't heard back if he's going to
19 be available to do that, or if he's willing to do
20 that, but we're going to make those efforts to try
21 to get him here because I know that there was a
22 question about that.

23 What would I do without Sheila. Now, as I
24 said, we have potentially 15 more eyewitnesses who
25 may be testifying. And it's been our habit and our

1 process during this time to play for you every
2 recorded statement that a witness has made.

3 We initially were, our goal and plan was
4 to do that before the witness testified, sometimes
5 that didn't work out, but we've always gotten around
6 to playing it eventually for you.

7 As you know, sometimes these witnesses
8 make two or three recorded statements, sometimes
9 you've got, you know, statements that are in excess
10 of an hour, hour and a half, hour and 40 minutes,
11 two hours.

12 And so our question to you is we can
13 proceed in that manner as we've done in the past or
14 we're wondering if you find it helpful to listen to
15 those statements if those statements are consistent
16 with what the witness testifies to.

17 So if the witness testifies, like if we
18 put a witness on and they testify, and Sheila and I
19 who have listened to these tapes feel that there's
20 really no inconsistency in what they already said.
21 I mean, obviously, any statement there could be, you
22 know, minor inconsistencies, and that will be
23 something that she and I will discuss together about
24 whether we think that there are inconsistencies.

25 And if we feel that there are not, it

1 would be possible if you feel that that doesn't help
2 you to hear this tape statement again, that we then
3 just forgo playing that taped statement.

4 Obviously, it takes up a lot of time and I
5 know it is tiring for you all to sit here and listen
6 and read transcripts.

7 So maybe you can discuss that during your
8 lunch as well. If you think that that would be a
9 way to go to try to speed through this. I don't
10 mean speed through it in a way that's not efficient.
11 I don't want to say we're rushing through anything,
12 but if you are finding that it is not really that
13 helpful and you don't need to hear it, then we don't
14 have to play it.

15 We have it, we have all of them and, of
16 course, if at any time you would have some issue
17 with, you know what, maybe we should hear that
18 witness' statement that they made before, at any
19 time we can play it for you, okay. So that's
20 something for you to consider. All right.

21 Is there anything, you know, that anybody
22 has an issue or question about? You can discuss
23 this during your lunch and then we'll ask questions
24 during the lunch break, especially if we are talking
25 about scheduling issues and things of that nature.

1 Don't necessarily need to afford those kind of
2 things, but let me know after lunch and we have, I
3 think, two people here right now, and going to have
4 to give me a second to get somewhat organized.

5

6 MS. ALIZADEH: Yes.

7 Officer Wilson, he only
8 had one recorded statement? I know we only heard
9 one, if I'm not mistaken.

10 MS. ALIZADEH: If I'm not mistaken,
11 Officer Wilson's statement was not recorded prior to
12 him testifying. Check your folders to see if you
13 have a transcript of the testimony of Darren Wilson?

14 We have one.

15 There was supposed to have
16 been one with Detective .

17 MS. WHIRLEY: Detective did one that
18 wasn't recorded and then there was one that was
19 recorded, you have a transcript of that?

20 We have one that is
21 recorded.

22 MS. ALIZADEH: My recollection is, we can
23 certainly go back and look at the transcripts, but
24 that Sergeant testified about statements that
25 he made right at the scene when he first got there,

1 and none of that was recorded. And then
2 was the detective who went to the police
3 station and did a cursory interview and that was not
4 recorded. And then, you have one?

5 That must have been done on the 9th at
6 10:00 in the morning?

7 August 10th.

8 MS. ALIZADEH: 10th, okay. The 9th is the
9 day of. I knew it was the next morning. All right.
10 And then there was Agent who came
11 in and testified that she had interviewed him, but
12 that their interview was not recorded, I believe.

13 MS. WHIRLEY: Right.

14 MS. ALIZADEH: All right. I forgot about
15 that.

16 Again, if there is a need to bring any
17 witness back that you have already heard from
18 because now you have additional questions, you just
19 need to let us know. We put on things in a way that
20 we think was easier for you to understand the case,
21 but, you know, just the sake of when we put on a
22 witness early on in the process and then now later
23 in the process you might think well, I didn't know
24 that when I heard from that witness before, so now I
25 have a couple of additional questions.

Page 18

1 So if anyone of you feel the need to have
2 any witness who has testified previously return and
3 answer some questions, we will get them here. And
4 obviously, Officer Wilson, I cannot compel him to
5 appear before you, but he appeared previously and I
6 would reach out to his representatives to invite him
7 back if you felt that you would want to hear from
8 him again.

9 Any other questions?

10 Is there any
11 recorded testimony with Officer Darren Wilson and
12 the FBI or the civil rights investigation?

13 MS. ALIZADEH: My understanding is, no,
14 that they did not record that. If you recall it was
15 the brunette female FBI agent
16 who came in and testified that she was present and
17 interviewed him that they did not record that.

18 I know, now this is
19 reported in the newspaper or whatever, there was a
20 statement that was supposedly made by him about the
21 first two shots. In our transcripts he didn't think
22 he hit him on the second shot because he saw some
23 dirt fly up. But then it was reported later on that
24 he said he thought he did hit him with the second
25 shot. I just wondered if there was any recorded

1 evidence of him saying that?

2 MS. ALIZADEH: Not that I'm aware of. And
3 I will tell you that, you know, as you can probably
4 imagine, any news agency is not going to reveal to
5 me who the source of their information is. They
6 have this First Amendment thing, freedom of the
7 press.

8 And so while it might be -- make sense for
9 me to call them and say, hey, where did you get that
10 because we're interested and if you've heard that
11 from another source, we'd like to hear who told you
12 that, but they're not going to tell me.

13 And that might be something that if you
14 would care to have another witness back to testify
15 to ask that question, but I don't know where that
16 information came from for that particular news
17 article.

18 Two quick
19 things. One, Grand Jury Exhibit Number 2 is the map
20 that we use almost daily. I notice also it still
21 says not to scale. Do you know if you would ever
22 get one to scale or even if it is that much of a
23 difference?

24 MS. ALIZADEH: That's another thing. That
25 brings up something else. There was a question

1 awhile back about getting a transparency that maybe
2 would have the diagram images that we could lay on
3 top of the map. I did look into that and the
4 problem that I learned with doing that is that map
5 is not to scale and so just because on the map I'm
6 holding my fingers out, if the map says this is
7 137 feet, I'm just making up a number, of course.
8 There might be another place on the map that says
9 this is 150 feet. And the actual measurement was
10 accurately done, but the map might not be to scale,
11 you know, the entrance, the driveway, you know, to
12 some of these parking entrances might not be as wide
13 in real life as it appears on the diagram. The size
14 of the police vehicle is not necessarily on the
15 diagram the exact size of what it is in the street.

16 I would suggest that, you know, I have all
17 of those crime scene photos and if you ever are
18 curious about, you know, the real size of things,
19 you can sift through those photos to see if they can
20 help you determine or answer some of those
21 questions, but I can ask about the possibility of
22 having a diagram to scale.

23 It is my, this is strictly my belief based
24 upon my experience that when the police officers do
25 these diagrams, they use a computer program that, I

1 don't think they are done freehand, I think they use
2 a computer program to do these diagrams. And so to
3 do one to scale would require someone, actually, a
4 draftsman type of person, I think, to actually make
5 sure that the diagram is to scale.

6 So that would probably have to be done by
7 not the police department, we probably would have to
8 look into whether or not there could be some
9 draftsman that could do that, but I mean, I can
10 investigate that as well if you think it would be
11 helpful.

12 But as far as the transparency goes, I'm
13 afraid it might even be misleading if we had a
14 transparency and you laid it on top of the aerial
15 photograph, it might appear that oh, look, this is
16 actually not where it is in the picture because on
17 the transparency it is past the fire hydrant. Well,
18 that just might be because it is not to scale. So I
19 wouldn't want you to rely on something and be misled
20 by that.

21 Yes.

22 Prior to knowing
23 I was on this case, I remember vaguely hearing in
24 the news there was a gentleman on some sort of audio
25 phone that recorded the succession of gunshots and

1 didn't know, again, I didn't pay much attention to
2 it, I kept it in my memory. I didn't know if that
3 was something even credible or something we will get
4 to.

5 MS. ALIZADEH: Yes. That is something
6 that the police have the custody of that recording
7 and we will be putting that on for you as well.

8 And there was a question quite some time
9 ago about surveillance cameras in the complex and I,
10 believe me, before you guys even got this
11 assignment, that was one of the first questions out
12 of my mouth. Are their surveillance cameras? I was
13 told no.

14 Now, before you complete your
15 investigation, probably the very last witness that I
16 will call for you to hear from is going to be
17 Detective , because as the primary case agent,
18 he knows more about this case than any other person.

19 So there are some things that he's going
20 to testify about that he did himself and whatnot,
21 but he would be the person to ask a lot of these
22 questions to because he was in charge of the
23 investigation.

24 What was done, what did you do about this,
25 did you ever try to get ahold of this person, he can

1 answer a lot of those questions with firsthand
2 knowledge.

3 Me, all my knowledge about this comes from
4 other sources because I was not out there
5 investigating the case. So I don't want to be the
6 person to actually have you rely on what I'm telling
7 you, I'm just telling you that it is my
8 understanding that there were not, but that would be
9 a question better put to Detective about
10 that, all right?

11 Anyone else?

12 Okay. We have a witness here, the first
13 witness we are going to call and I'm not organized
14 this morning.

15 . I know
16 that had asked sometime ago would it
17 be possible for us to see where this happened. And
18 I know we had discussed it before and that probably
19 wouldn't be in our best interest to go there. I
20 think somebody had talked --

21 I think it was

22

23 About getting pictures of
24 the distance and things like that?

25 MS. ALIZADEH: That's one of the things

1 we've had that done. I think that Detective
2 when I put him on last we're going to have him show
3 you those pictures because he'll be able to point
4 out for you in the picture this apartment building
5 right here or this window right here, this balcony
6 right here, that's where witness so and so was. And
7 if you see right here, that's where witness so and
8 so was because he's the one that knows that
9 information and in very intimate detail.

10 So we do have pictures that we have the
11 police and Detective went out with them to
12 take those pictures to make sure we got the vantage
13 points. We weren't able to take vantage point
14 pictures from where the witness was that would
15 require going into people's apartments and they felt
16 that that wasn't going to be safe or welcomed.

17 So the pictures that they took are from
18 the location of where the vehicle was, the location
19 of where Michael Brown's body laying in the street
20 and then the location of the corner near a light
21 post. And those pictures are done in 360, so you
22 might be able to see from here can you see that
23 witness' balcony who says they can see this. That's
24 the best we can do as far as getting vantage point
25 pictures.

1 I guess I do have a
2 question. I know that some of these media reports
3 they're saying that he had marijuana in his system.
4 And I guess that's another way of knowing it didn't
5 come from us because we were never told that he had
6 marijuana in his system.

7 So is there still like evidence out there
8 that we haven't heard like that?

9 MS. ALIZADEH: Yes.

10 The DNA on the gun?

11 MS. ALIZADEH: Yes, there's going to be,
12 you know, our plan was to try to get through the
13 eyewitnesses and then at the end put on some of the
14 scientific evidence because frankly those witnesses
15 are there at my fingertips and are going to come in
16 whenever I tell them to come in.

17 And so I just knew that when it came time
18 to try to wrap things up, we would be able to get
19 them through in and out fairly quickly. So I do
20 anticipate that you are going to hear additional
21 evidence from experts who have tested various
22 things, all right?

23

24

25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 BY MS. ALIZADEH:

9 Q Do you remember the second part of the
10 oath talks about what happens here, okay?

11 A Okay. All right.

12 Q Have a seat, thank you. You're sure you
13 don't want a glass of water.

14 A No.

15 Q Can you introduce yourself to the grand
16 jurors?

17 A My name is

18 Q And, ma'am, I'm going to stand back here
19 because the microphone that is up there is not, it
20 is not going to amplify your voice.

21 A Okay.

22 Q And so you just need to keep your voice up
23 so that I can hear you back here and then if I can
24 hear you, I know that everybody back here can hear
25 you, okay?

1 **A** Okay.

2 **Q** And, ma'am, back in August of this year,
3 were you living in the Canfield Green Apartment
4 Complex?

5 **A** Yes.

6 **Q** And were you home on Saturday, August 9th?

7 **A** Yes.

8 **Q** Now, and I told you when I talked to you
9 that I was not going to ask you to give your
10 address, but there is a laser pointer that is
11 sitting right in front of you there.

12 **A** Uh-huh.

13 **Q** And if you press this gray button here, it
14 makes a laser pointer. Can you show the grand
15 jurors on the map, which is marked Grand Jury
16 Exhibit Number 25, do you recognize these streets,
17 it says Canfield Drive, and for your reference over
18 here is West Florissant, okay?

19 **A** Uh-huh.

20 **Q** And then over here is the Northwinds
21 Apartments. So that does help orient you to
22 understand the buildings that are shown on the map?

23 **A** Yes.

24 **Q** Can you put the laser pointer on the
25 building that you were living in back in August?

1 **A** (Indicating)

2 **Q** Okay. This building right here?

3 (indicating)

4 **A** Yes.

5 **Q** And can you, now, we've heard testimony
6 already how these buildings are, that there's three
7 floors to every building, correct?

8 **A** Yes.

9 **Q** What floor were you living on?

10 **A** Third.

11 **Q** So that's the top floor?

12 **A** Right.

13 **Q** And so this particular building has
14 entrances for units that would be, actually those
15 units would face the west if this is west. And then
16 there's also some entrances to the building that
17 face the east. Was your apartment facing the west
18 or facing the east?

19 **A** I'm kind of confused because the building
20 sits like this and I can see out and see Canfield
21 Court.

22 **Q** Okay. Do you know your apartment number
23 back then?

24 **A** Yeah.

25 **Q** Does it help you to look up here? Can you

1 see the number?

2 **A** Yeah.

3 **Q** And so I'm going to point, I'm not going
4 to say it out loud, but is that your apartment
5 number?

6 **A** Uh-huh.

7 **Q** This one right here? (indicating)

8 **A** Yes.

9 **Q** So you're, this little out jet right here,
10 that's like a little covered stairwell, staircase;
11 is that right? You take some exterior steps up to
12 the third floor; is that right? Is that how you get
13 in your apartment?

14 **A** Right.

15 **Q** So the front door of your apartment is
16 actually right there where that stairwell is,
17 correct?

18 **A** Right.

19 **Q** And so you have a window, you have a
20 sliding glass door that's on the front of your
21 apartment?

22 **A** Yes.

23 **Q** And then there's a window that's also on
24 the front?

25 **A** Yes.

1 **Q** And is there also a window that would be
2 around the corner?

3 **A** No.

4 **Q** No, okay. So you have a sliding glass
5 door and a window, is that like a bedroom window?

6 **A** Right.

7 **Q** Okay. So when you are looking out of the
8 front of your apartment, can you see down to
9 Canfield Drive?

10 **A** Yes.

11 **Q** All right. So do you recall on the
12 morning of August 9th, was there anything special
13 about that day, that morning that you recall oh, it
14 was, I remember it because it was, had these plans
15 to do something or was it an ordinary day?

16 **A** It was an ordinary day. I was just kind
17 of looking out the window.

18 **Q** And do you recall that this was a
19 Saturday?

20 **A** Yes.

21 **Q** Sunny day?

22 **A** Yes.

23 **Q** And does your apartment, did your
24 apartment back then have air conditioning?

25 **A** Yes.

1 **Q** And this was August 9th, and I know that
2 it got warmer in the day, but do you recall if you
3 had your windows opened or closed?

4 **A** Closed.

5 **Q** Do you normally run the air conditioning
6 in the month of August?

7 **A** Yes.

8 **Q** Okay. And so you said that you were
9 looking out the window, was there a reason you
10 looked out the window? Was there anything that drew
11 your attention outside or were you just happening to
12 be working out the window?

13 **A** I just happen to be looking out.

14 **Q** All right. And then once you were looking
15 out, did you see something unusual?

16 **A** Not unusual at first.

17 **Q** Why don't you describe what you saw?

18 **A** Um, these two boys or two guys walking
19 down the street. They were kind of out in the
20 street, but not all the way out. They weren't quite
21 to the yellow line.

22 Then I kind of stepped back a little
23 bit. Then for some reason I looked again and I saw
24 the police car pull up, and he said something to the
25 boys. They, obviously, said something back because

1 you could see the motion of their hands, but I
2 couldn't hear anything because my window was closed.

3 Then the boys kind of went on, walked
4 on and then he backed up, the cop backed up, the
5 policeman backed up.

6 Then, I guess, I'm not sure what else
7 happened after that, but I could see the one boy,
8 the shorter one, he kind of stepped a little bit
9 past the window of the police car. It was actually
10 an SUV, it wasn't just a regular car, but the bigger
11 guy was standing at the window, near the window of
12 the car. And I could see the top of his head and I
13 could see their hands moving. And so it seemed like
14 they were kind of, I guess, tussling through the
15 window of the car.

16 Then the boy, the guy broke loose and
17 began to go down the street and that's when the
18 policeman got out of the car. Then he proceeded,
19 the boy was ahead of him and that's all I could see.

20 **Q** Okay.

21 **A** Because they were past, they were past my
22 building. See, like my building is here, well, I
23 couldn't see, I could only see the police car and
24 him going so far. I could not see after it passed.
25 They I said, um, in a few seconds I heard a shot. I

1 don't know whether it was three or four because I
2 really did not necessarily count them, but I knew it
3 was more than two. Oh, my God. I don't guess, you
4 know, they were shooting. This had anything to do
5 with it and I just went on back and started to put
6 my clothes on.

7 By that time the crowd of people had
8 started, people had started to come, not a lot of
9 them but, you know, I knew something had happened.
10 So by the time I got out, it was all over. The boy
11 was in the street and the police was beginning to
12 put some cones out.

13 Q Okay. So let's, you know, we're going to
14 need to go back. We're going to go through step by
15 step and ask some more detailed questions, okay?

16 A That's fine.

17 Q So when you say you were looking out the
18 window.

19 A Uh-huh.

20 Q First off, was anybody home with you at
21 that time?

22 A No, I was there by myself.

23 Q And so when you said you happen to look
24 out the window, was it the sliding glass door or was
25 it a bedroom window?

1 **A** It was my bedroom window.

2 **Q** Are there any window coverings on that
3 window, blinds, shades?

4 **A** Blinds.

5 **Q** Are they horizontal blinds?

6 **A** Yes.

7 **Q** And were they, were the blinds down?

8 **A** No, I had it pulled up so high because I
9 was just, you know, looking out. Sometimes I just
10 look out to see what's going on, you know.

11 **Q** So did you have to move the blinds in
12 order for you to see out the window?

13 **A** No.

14 **Q** Okay.

15 **A** Because they were high enough and by me
16 being up high, I can see on the street, so.

17 **Q** And so, and that's a good point. When
18 you're on the third floor of this building, is there
19 a little rise, is this a little bit on a hill
20 somewhat, a small hill?

21 **A** The street? You mean my building?

22 **Q** Does the ground, is there any elevation to
23 this, like if you are driving up here and if you
24 walk up to your building, are you walking uphill at
25 all?

1 **A** No.

2 **Q** Okay. So it is pretty level at this
3 point?

4 **A** Uh-huh.

5 **Q** And from the third floor, from your
6 bedroom window, you could see down to the area that
7 you were seeing the police car?

8 **A** Right.

9 **Q** Okay. And so when you look down you said
10 you first saw two boys walking in the street?

11 **A** Right.

12 **Q** Did you know either boy?

13 **A** No.

14 **Q** Hadn't seen them before?

15 **A** No.

16 **Q** What about them do you recall. Can you
17 tell me anything about them?

18 **A** One was short, he had dreads, he was
19 darker skin. The other one was a big guy, over
20 6 feet. You know, he was just a big guy that's
21 basically. I couldn't say whether he was -- the
22 only thing I can say was he was a big guy and that
23 he was a lighter skin than the smaller one and that
24 the smaller one had dreads. Because of the fact
25 that I wasn't that close, I couldn't give you

1 details of what they look like.

2 **Q** Okay. You refer to them as boys. I want
3 to ask you if you have an opinion as to how old they
4 were?

5 **A** Well, I knew they were all under 25.

6 **Q** Okay.

7 **A** One of them seemed like he might have been
8 close to 18, 19 years old, the bigger one. He was a
9 big guy, he didn't really look that old. The other
10 one he looked, I don't know, maybe he could have
11 been just a year or so older than the other one. As
12 far as the size and the way they were dressed, and
13 what have you.

14 **Q** Did you, at this point now do you recall
15 any time when you have seen either of them in the
16 apartment complex before that day?

17 **A** Not to my knowledge I haven't seen them.

18 **Q** And so how about how they were dressed or
19 what they were wearing, do you have any memory of
20 what either one of them had on?

21 **A** Not specific. I really didn't pay that
22 much attention to it. All I know is that they were,
23 let's see, I really didn't pay that much attention
24 to them. Just had normal clothes on.

25 **Q** Okay.

1 **A** I wasn't specifically looking for
2 anything.

3 **Q** Sure.

4 **A** As far as they were concerned they were
5 just people walking down, two guys walking down the
6 street.

7 **Q** And was that unusual that there would be
8 two older teenagers walking down the street?

9 **A** No, no. It's an apartment complex and
10 there is apartments on each side. There are
11 families, there are a lot of youngsters living in
12 the apartment complex at this point. When I first
13 moved in, there wasn't quite as many males, younger
14 males in the apartment.

15 So you see them all day. You just
16 see them when I'm home, you know.

17 **Q** Hanging out, walking around?

18 **A** Hanging out, they're walking around, what
19 is it, they are interacting with each other.
20 Sometimes they have cars parked, they are sitting on
21 cars. I don't really pay a whole lot of attention.

22 **Q** Sure.

23 **A** It is just that particular morning, which
24 I do every morning, I just look out. It is really
25 more of a safety thing. If I'm going to leave out

1 of my house, out of my apartment, I want to know
2 what is surrounding me.

3 Q Okay.

4 A So I don't really always look at features
5 and clothing they have on, this kind of thing. I
6 know this little guy with the dreads, he was so much
7 shorter than the bigger guy.

8 Q Okay. And when you saw them, can you use
9 that laser pointer and show me where on the map here
10 the boys were when you first saw them. Were they on
11 Canfield Drive?

12 A Yes.

13 Q Can you use that and show me where you
14 first saw them?

15 A They were on this, let me see. They were
16 kind of, this map is really confusing me because
17 they were on this side of the street.

18 Q Okay. I don't know if that's, that might
19 be pointing up to high?

20 A I'm just saying they were on this side of
21 the street.

22 Q So on --

23 A They were on this side of the street.

24 Q On the south side of the street?

25 A They were on this side of the street. My

1 apartment, wait a minute, I'm getting confused. My
2 apartment is over there.

3 Q Uh-huh. Over here? (indicating)

4 A Yeah, they were on this side of the --

5 Q Over here? (indicating)

6 A That's too far over. You have Canfield
7 Drive and Coppercreek and all of this over there.
8 They were on the opposite side of the street from my
9 apartment.

10 Q Okay.

11 A There is a fire hydrant on my side of the
12 street. They were like the fire hydrant was right
13 here and they were kind of just a little bit, I'm
14 trying to think now. They were a little bit, not
15 quite even with the fire hydrant.

16 Q But the opposite side of the street?

17 A Okay. So that is kind of confusing me
18 because I'm looking at it from my side.

19 Q Sure, yeah. This is an aerial view.

20 A They were on the opposite side of my
21 apartment.

22 Q Okay.

23 A Which means that when they were coming,
24 they were coming like walking kind of like, not
25 straight, they were kind of walking at an angle and

1 they were like not all the way in the middle of the
2 street, but they were still in the street.

3 Q Okay.

4 A And when the policeman pulled up to them,
5 it kind of like blocked my view of what was going on
6 because of the size of the vehicle that the cop was
7 in.

8 Q Okay. Let's back up then.

9 A Uh-huh.

10 Q So the boys were walking on Canfield?

11 A Right.

12 Q Were they walking in that direction toward
13 Northwinds or were they walking towards --

14 A No, they were walking toward Northwinds.
15 The policeman was going toward West Florissant.

16 Q Okay. So the policeman's vehicle is
17 moving toward them and they are walking to the
18 police vehicle. They're facing each other, the
19 vehicle and the boys as the boys are walking?

20 A Yes, the police were going this way and
21 the boys were running this way.

22 Q Could you tell this was a police vehicle?

23 A Sure, it had the emblems and everything on
24 it.

25 Q Okay. Had how about the lights, you know,

1 police cars have the red lights?

2 **A** He didn't have any lights on.

3 **Q** All right.

4 **A** It seems likes he was coming from
5 Northwinds from that way, that is the way he was
6 coming.

7 He had no signal light on and then he
8 just stopped. He didn't stop all the way because he
9 still had, his car was still running, he just had,
10 like you just know how you pull up to somebody and
11 you switch to put on your brake and he was talking
12 to them.

13 **Q** Okay. So you observed the vehicle come up
14 to the boys and you said it looked like they're
15 talking. You could see their hands moving and
16 stuff?

17 **A** Yeah, that's all I could see was movement.
18 I knew that there was some kind of verbal
19 conversation going on between the three people.

20 **Q** So the car is between you and the boys,
21 correct?

22 **A** Right.

23 **Q** And so does that mean that the boys would
24 have been on the driver's side of the vehicle?

25 **A** Yes.

1 **Q** It looked like they were near the driver's
2 door?

3 **A** At that time the first beginning of it
4 they were kind of a little ways away from him
5 because he was talking to them through the window.

6 **Q** Okay. And so about how long do you think
7 this part of it last?

8 **A** A couple of seconds, not really long.

9 **Q** Could you see the officer inside the
10 vehicle?

11 **A** I could see him inside the vehicle, but,
12 you know, just the shadow of him because, you know,
13 his window on my side was up, so I could only see
14 the shadow of him.

15 **Q** So could you tell if he was white or
16 black, or male or female, or anything about the
17 officer?

18 **A** You mean when he was in the car?

19 **Q** Yeah.

20 **A** Not really.

21 **Q** What about, could you tell if there was
22 anyone else inside the vehicle?

23 **A** There was only one person.

24 **Q** All right. And so you said that this part
25 of it where they appear to be talking to each other

1 last just a couple of seconds and so what happens
2 next?

3 **A** The boys walked away.

4 **Q** Okay. And then at this point are the boys
5 just still walking casually or they running?

6 **A** They still in the street, they still just
7 walking casually.

8 **Q** They're not running?

9 **A** No.

10 **Q** Okay. So then what happens?

11 **A** The cop backs up, he backs up a just a
12 little bit and stops and gets out. He backs up to
13 catch up with them.

14 **Q** Okay.

15 **A** He catches up with them, by then the boys,
16 the little one, he's kind of away from, he was not
17 at the window, he's kind of walking away. The
18 bigger guy was having some kind of interaction with
19 the cop.

20 **Q** Okay. I think you described, initially
21 you described that you could see their hands going
22 back and forth?

23 **A** Yeah, it was like. It was like, if I'm
24 talking to you in the car and we're having a
25 discussion and something happens and you're like

1 wrestling with each other, not wrestling, you know,
2 the hands are going, you can see the hands going.

3 Q Okay.

4 A I could not see what was actually
5 happening, all I could see was the moves.

6 Q Was the police vehicle moving?

7 A No, the vehicle was stopped.

8 Q Was it rocking or anything like that?

9 A No, it didn't look like it was rocking to
10 me.

11 Q And just from your, just from what you
12 could see, could you tell or did you have an
13 impression as to might have initiated the physical
14 part of it, could you tell? Could you see the
15 officer reach his hand out of the vehicle to grab
16 the boy or you saw the boy stick his hand in the
17 vehicle first, could you tell who started it?

18 A No.

19 Q Okay. And so could you tell whether any
20 punches were exchanged?

21 A Not from where I could see because, I
22 never saw anything other than the top of the kid's
23 head and the fact that they were tussling with each
24 other. I never seen him bend or I never seen any
25 movement where there was punching or anything. All

1 I could see was like they were wrestling through the
2 window.

3 Q I want you to think and if you need to
4 close your eyes and picture it in your head, did you
5 ever see the boy that's wrestling at the officer's
6 vehicle with the officer, did you ever see, you can
7 see his head, he's taller than the car then, right?

8 A Yes.

9 Q Did you ever see his head disappear?

10 A No.

11 Q All right. And you couldn't see what was
12 going on inside of the car?

13 A No.

14 Q All right. And then how long did that
15 wrestling part last?

16 A I don't know, maybe, not long, it wasn't a
17 long confrontation. Maybe about ten seconds or
18 something, I'm not sure, that's just a guess.

19 Q And then what happened next?

20 A The boy broke away and started to leave.

21 Q Okay. Now, at this point had you heard
22 any gunshots?

23 A No.

24 Q So when you say the boy broke away, you
25 mean the taller, bigger boy?

1 **A** Yeah.

2 **Q** And I know you said that the smaller boy
3 kind of was not right at the driver's window, but
4 was kind of off to the side?

5 **A** Well, he was out of my sight.

6 **Q** Okay.

7 **A** I don't know where he went, but he was not
8 in my sight, which means he could have just went
9 further down the street and would have been out of
10 my view.

11 **Q** Okay. So you don't know what happened to
12 him?

13 **A** What happened to the other boy?

14 **Q** Right.

15 **A** No. All I know is he's walking away.

16 **Q** And at this point did you notice any other
17 cars that were on Canfield Drive?

18 **A** I didn't see any other cars.

19 **Q** And so you say that the boy broke away and
20 then what happened, what did he do?

21 **A** He just walked away and he walked out of
22 my view.

23 **Q** When he broke away, did he, so if I'm the
24 boy and this is the police vehicle. And, obviously,
25 they were close enough that they were touching each

1 other at the point where they were wrestling?

2 **A** At the window, yeah.

3 **Q** Okay. So when you said the boy broke
4 away, did he step backwards or did he turn back from
5 the vehicle and walk away or did you see any of
6 that?

7 **A** Um, all I saw was whatever they were
8 engaged in, obviously, must have been over or
9 somebody was able to get their hand off of each
10 other and the boy walked away.

11 **Q** Okay.

12 **A** He kind of walked away not real slow, but
13 not real fast.

14 **Q** Okay.

15 **A** And that's when the policeman got out of
16 the car.

17 **Q** Okay. So now at this point, when you say
18 the boy broke away and started walking not real
19 fast, but not slow, which direction was he going?

20 **A** Toward what is the name of those
21 apartments?

22 **Q** Northwinds.

23 **A** Northwinds.

24 **Q** Okay.

25 **A** He just proceeded in the direction he was

1 going before the incident with the policeman.

2 Q Okay. So at this point you see the
3 officer get out of the patrol car?

4 A Uh-huh.

5 Q Or the patrol vehicle. Could you see him
6 at that point enough to tell if it was a man or a
7 woman, white or black?

8 A Yeah.

9 Q Was it a man?

10 A Yes.

11 Q White or black?

12 A White.

13 Q Could you tell if he's wearing a
14 policeman's uniform?

15 A Yes.

16 Q At this point could you see that he had a
17 gun?

18 A I don't remember.

19 Q Okay.

20 A Seeing him with a gun, I'm not sure.

21 Q Did the police officer get out of his
22 vehicle immediately after the bigger boy started to
23 walk away or was there any because before he was out
24 of the vehicle?

25 A It took him, he had to like open the door

1 and get out.

2 Q Okay.

3 A So I'm saying whatever time it took him to
4 get, because if you are sitting in a vehicle you
5 have to step out, get out, and he come out kind of
6 almost at a run. He come out kind of fast.

7 Q And at the time that the officer came out
8 of the vehicle, did he then move in the direction
9 that you saw the boy moving in?

10 A Uh-huh, that same direction.

11 Q At the time that officer got out of the
12 vehicle and you said started, you said kind of
13 started to go kind of fast, kind of run?

14 A Uh-huh.

15 Q Could you still see the big boy?

16 A No.

17 Q When the officer began running in that
18 direction on Canfield, could you see if he had a
19 gun?

20 A I could see his left side and I don't
21 know, I'm not sure if he had anything, but he held
22 his hand like he had something in his hand and I
23 could not see it.

24 Q You are motioning with your right hand.
25 So did it appear to you that he might of had

1 something?

2 **A** He might have had something, but I did not
3 see it. It can if you get out you have something in
4 your hand, you carry in your hand a little bit
5 differently, so I don't really see it then.

6 **Q** Okay. Did the police officer then move
7 quickly or return out of your sight?

8 **A** Out of my sight.

9 **Q** And then how long after you lost sight of
10 police officer did you hear some gunshots?

11 **A** A couple seconds.

12 **Q** You said it was more than two, could have
13 been four?

14 **A** It could have been. It was kind of
15 shocking to hear it because it was such a minor,
16 thought minor thing that I saw before the gunshots.

17 **Q** Okay.

18 **A** And so I know I heard pow, pow, pow, and
19 then I just said, you know, how you say it, I don't
20 believe this, can't be a shooting back here.

21 **Q** So at this point everything that you see
22 at this point are you still looking out the same
23 window?

24 **A** No, I left the window.

25 **Q** From the time you first looked out the

1 window and you saw the officer and the bag boy out
2 of your the window?

3 **A** I moved away from the window.

4 **Q** When did you move away from the window?

5 **A** After the policeman went down and when I
6 heard the shot.

7 **Q** Okay. But before then had you been at the
8 window the whole time, from the time when you first
9 saw the boys talking to the time you moved away, or
10 did you like step away and get your cell phone and
11 then come back to the window?

12 **A** No.

13 **Q** You were at the window the whole time that
14 you said you were watching this. Do you understand
15 my question?

16 **A** Yeah, I understand your question. What
17 I'm trying to say was, when I saw the boys, I kind
18 of backed away from the window a little. When I
19 kind of just look back, I didn't really go back, I
20 kind of look back and that's when I saw the police
21 car. That's the only time I'm at the window until
22 the cop moved.

23 **Q** Okay. And now you said after you heard
24 the shots, you didn't see the shooting, you said you
25 got dressed?

1 **A** Yeah. I just had on some shorts and
2 things in the house, so I couldn't go out like that.
3 I just put on my pants and went out.

4 **Q** You went outside?

5 **A** Yes. I'm hearing the shots and then I'm
6 seeing people, you kind of could hear too, you know.
7 I heard the shots and then I said, I saw people, you
8 could hear people by then, people were kind of
9 screaming.

10 So I could hear them through the
11 window. So that's when I put my clothes on to go
12 out.

13 **Q** Okay. So other than the shots, you
14 couldn't hear anything that was going on between the
15 boys and the officer?

16 **A** No.

17 **Q** You didn't hear anybody yelling or say
18 anything that maybe you couldn't make out?

19 **A** No.

20 **Q** And so when you left your apartment, did
21 you go down to Canfield Drive, did you see the boys?

22 **A** I had just come out of my apartment, still
23 in the apartment lot. I had never left the parking
24 lot where I could see. I wasn't going to get too
25 close to that, so I stayed back.

1 **Q** Could you see someone lying in the street?

2 **A** Yeah.

3 **Q** And did it look like the same big boy that
4 you had seen?

5 **A** Same one.

6 **Q** Could you tell?

7 **A** Yeah, I could tell. It was the same one.

8 **Q** Okay. Did you, when you got down there.
9 Already officers at the scene down there or the
10 police hadn't gotten there yet?

11 **A** That's kind of questionable. I saw this
12 one white cop, blond hair, he looked like the same
13 one that was in the confrontation. He was putting
14 out some cones, put some cones down to make sure
15 that traffic gets, you know, doesn't get through
16 there. And then after that I saw another policeman
17 coming.

18 **Q** Okay. Was it in a police car?

19 **A** Yes.

20 **Q** Did he come from the direction of West
21 Florissant or from the northbound direction?

22 **A** Uh, looked like to me the car was, I'm not
23 sure. I didn't really pay a whole lot of attention
24 to that. All I saw was the two of them standing on
25 the side, the one was like here, my apartment was

1 over here and they was on the other side of the
2 street because they were further down. From further
3 down from where I was.

4 Q Okay. How long did you stay out in that
5 area in the parking lot area that day?

6 A About an hour or so.

7 Q Could you hear people talking, people that
8 gathered, people were coming out of their
9 apartments, right?

10 A Coming out of their apartments. There was
11 too many for them. After a while they were coming
12 from other apartments on the other side.

13 Q Did it appear to you that the people that
14 were beginning to gather, were they becoming angry
15 or agitated?

16 A They were more, more like in shock. You
17 just don't see a body laying in the street every
18 day, you know. There were some people there that I
19 think must have been family members that were real
20 upset. I didn't see anybody who was actually
21 violent.

22 Q Did anyone that was out there ask you if
23 you had seen anything?

24 A No.

25 Q Did you hear anybody saying anything about

1 don't talk to the police?

2 **A** No.

3 **Q** Was it later that day that a police
4 officer knocked on your door?

5 **A** No.

6 **Q** Where is it that you saw the police
7 officer?

8 **A** Never.

9 **Q** No one ever knocked on your door?

10 **A** No.

11 **Q** Anybody leave a card for you?

12 **A** Later on, much later on.

13 **Q** And would that have been like the next
14 Saturday?

15 **A** I saw them, but they never put a card on
16 my door.

17 **Q** But you talked to the FBI?

18 **A** No.

19 **Q** You didn't talk to the FBI?

20 **A** No.

21 **Q** Who did you talk to?

22 **A** I have a son who is in law enforcement.

23 Found out my daughter called him to let him know. I
24 told him I saw that, but I really didn't want to be
25 involved in it. And we went downtown to see and

1 talk to the FBI. The never came to my house, ma'am.
2 The police nor the County Cops, Ferguson Police
3 never asked me any questions.

4 Q Okay. So you did talk to the FBI and talk
5 to them about what you saw?

6 A Yes.

7 Q Was there any other law enforcement
8 officers that you talked about what you saw?

9 A No.

10 Q Any other people besides that came and
11 talk to you about what you saw?

12 A No.

13 Q Do you know any Ferguson police officers?

14 A No.

15 Q Do you know any members of Michael Brown,
16 you know, Michael Brown was the boy that was killed?

17 A Right.

18 Q Do you know any members of his family?

19 A No.

20 Q Anybody in his family or representing his
21 family, ever try to come and talk to you?

22 A No.

23 Q Is there anything else, let me ask you,
24 ma'am. You are wearing glasses today?

25 A Uh-huh.

1 **Q** Do you need those glasses to see?

2 **A** No, ma'am.

3 **Q** I'm not going to test you.

4 **A** The only thing these are for is for me to
5 read.

6 **Q** Yeah, I got the same so. So you can see
7 distance without your glasses?

8 **A** Without my glasses.

9 **Q** And what about that day, do you remember
10 if you had your glasses on?

11 **A** No.

12 **Q** You don't remember or you didn't?

13 **A** I didn't have it on.

14 **Q** You didn't?

15 **A** No.

16 **Q** How about your hearing, do you have any
17 problems with your hearing?

18 **A** No.

19 **Q** Is there anything that maybe I haven't
20 asked you so far that you think is important for the
21 grand jurors to know about what you saw that day or
22 what happened after that?

23 **A** Not really, except for the fact that I'm
24 kind of living in fear. I don't know whether to
25 stay where I am because it wasn't a good place to

1 stay. It wasn't the best in the first place, but
2 now it's like you get all kind of elements, people
3 are always there, it is just bad.

4 Q Have you, do you think that people in that
5 area know that you've seen this, do you talk to your
6 neighbors about it?

7 A No, and the reason for that was that's the
8 only reason why I agreed to make a statement was,
9 and that's why we did it the way we did it. He said
10 it was the safest way. He didn't want to put me in
11 harms way was for me to go to the FBI rather than, I
12 told him I wasn't going to talk to Ferguson.

13 Q And why is that? Did you have any prior
14 experiences with the Ferguson Police Department that
15 would make you feel that way?

16 A No, but I seen things.

17 Q Okay.

18 A And, um.

19 Q You've seen things that make you leery of
20 talking to Ferguson?

21 A Yes.

22 Q And is that, let me ask you this. The
23 thing that you saw, do you know if it had to do with
24 that same police officer?

25 A I really did not know the police officer

1 that was involved in the shooting. I have to kind
2 of give you a background on me. I don't have a lot
3 of interaction with policemen.

4 I think I've gotten a ticket twice
5 and they were completely out of my area. Anything
6 else, I just don't get involved with them. I do
7 what I'm supposed to do, try to follow what I'm
8 supposed to do. I work, I work most of the time,
9 I'm gone five days a week, most of the time working.
10 And when I'm home, when I'm there in that apartment,
11 I stay in my apartment, I mind my own business.

12 I know of maybe one or two of the
13 neighbors that's in the apartments. I speak to them
14 and I keep going.

15 But I sit in my apartment, I see the
16 police coming down the streets. I have a problem
17 with them doing 50, 60 miles an hour coming down the
18 complex where you've got children and people walking
19 all the time and it is five, six, seven, eight cops
20 and they're all speeding down the street. Less than
21 five minutes later you see them coming back. You
22 see them, they all pull up into the parking lot and
23 there will be, oh, I don't know in these funny
24 looking suits and playing cards.

25 They surround the parking lot to go

1 in, and they go into some apartment, and I don't
2 know which one, and then they come back out. I
3 mean, it is just a lot of things that go on.

4 Frankly, I'm really not use to this.
5 This is my first experience with an apartment. I've
6 always lived in a house and never lived in an
7 apartment before.

8 And the things that go on, you know,
9 make me kind of leery of the police because they,
10 when they come in, if you come to go get in your
11 car, get back in your apartment, get back in your
12 apartment. When there is really nothing going on.

13 If you got a warrant for somebody to
14 go in or something, you know, it is for you to talk
15 to people. The little bit that I did do interaction
16 that I did see with them, the tone, the way they
17 talk to you, the way they approach you.

18 I had a couple of them knock on my
19 door because they was looking for somebody. You
20 knock on my door and you want me to give some
21 information, there is certain way you talk to me.
22 I'm not violating anybody.

23 **Q** You feel that the police officers --

24 **A** Sometimes I think they're bullies.

25 **Q** And disrespectful?

1 **A** Disrespectful, very disrespectful.

2 **Q** And so I understand, is that some of the
3 reasons why you didn't feel comfortable talking to
4 Ferguson. Is it Ferguson Police Department that you
5 have that feeling about or is it all police
6 officers?

7 **A** Not all, Ferguson.

8 **Q** And, again, just to clarify, did you ever
9 witness the officer involved in the shooting?

10 **A** No.

11 **Q** Ever see him behave in that manner?

12 **A** No, I never saw him. To know him, I never
13 seen him.

14 MS. ALIZADEH: I don't have any questions.
15 Sheila?

16 MS. WHIRLEY: Yeah, hi.

17 **A** Hi.

18 **Q** (By Ms. Whirley) When you were interviewed
19 by the FBI, that would have been August the 12th, a
20 couple days after this occurred; is that right?

21 **A** Right.

22 **Q** A few days, I guess. When you talked with
23 them, I've read your statement, it indicates that
24 you thought, it appeared to you that Michael Brown
25 was trying to get away from the officer when you saw

1 what was going on in the car. Do you still have
2 that opinion?

3 **A** Yeah, they were, I mean, they were just
4 like, you know, I mean, it is like tussling with
5 each other. And he was like, I guess, he was trying
6 to get away and he finally was able to break away
7 and that's when he walked away.

8 **Q** Okay. It appeared to you that the police
9 officer was actually holding onto Brown as he was
10 trying to get away?

11 **A** Yeah, he was holding, I mean, they was
12 tussling. They were just tussling. And it was like
13 one was trying to hold the other, you know what I'm
14 saying?

15 **Q** I do. And at the time that you were
16 talking to the FBI, you thought it was the officer
17 that was trying to hold onto Brown?

18 **A** Yes.

19 **Q** And Brown was trying to get away, that's
20 what it appeared to you?

21 **A** Uh-huh.

22 **Q** When you saw the officer, once Brown did
23 get away, you said he was kind of, the first you
24 said running, but more walking fast?

25 **A** Walking fast.

1 **Q** Okay.

2 **A** He was a big guy and when he broke loose,
3 he just like went at a fast pace, but not in a total
4 run.

5 **Q** I understand. And he was going in the
6 opposite direction of the officer?

7 **A** Right. Same direction he was going when
8 the policeman approached him.

9 **Q** Approached him, okay. And then you saw
10 the officer get out of the car and I think in your
11 statement you said it appeared that he was running
12 after Brown and his gun was drawn, does that sound
13 familiar that his gun was drawn?

14 **A** I'm trying to mentally see.

15 **Q** Sure, that's what we want you to do.

16 **A** Because it has been a while. I don't
17 really want to deal with it.

18 **Q** I understand.

19 **A** When he got out of the car, he jumped out,
20 I could see him when he was getting out of the car,
21 okay. When he got out of the car, wherever his gun
22 was, he must of had to reach for it because when he
23 got out, I could see his hand on this side and then
24 when he got so far, I could see the beginning of the
25 gun, like he had something in his hand.

1 **Q** Okay. And it looked like a gun?

2 **A** Yeah.

3 **Q** In his right hand?

4 **A** Yeah.

5 **Q** You are motioning with your right hand.

6 **A** Yeah, with his right hand because it was
7 all on that side. That is why nothing is really
8 totally just say clear because he was on the
9 opposite side of me and I'm looking at him from this
10 side.

11 **Q** Okay.

12 **A** From this side.

13 **Q** From the passenger side?

14 **A** Yeah, because he was on the passenger side
15 of the car.

16 **Q** Who is on the passenger side of the car?

17 **A** The cop when he got out, he got out of the
18 passenger side of the car.

19 **Q** Okay. He didn't get out of the driver's
20 door?

21 **A** I mean, I'm sorry, the driver's side of
22 the car. I'm saying on the passenger side of the
23 car.

24 **Q** So your window is facing the passenger
25 side of the car?

1 **A** Passenger side of the car and he's on the
2 driver's side.

3 **Q** Driver's side?

4 **A** That's what I meant to say.

5 **Q** Okay. But you could see the tussle from
6 where you were looking?

7 **A** I can see movement.

8 **Q** Okay.

9 **A** That's why I say it is not clear to me who
10 was doing what.

11 **Q** Okay.

12 **A** All I can see is the top of Michael
13 Brown's head and then I can see figures or --

14 **Q** Can you see their hands?

15 **A** You can, yeah, because I can see them
16 tussling through the car, it is like movement.

17 **Q** Okay. Can you see --

18 **A** You can see Michael's arms and things up
19 here and you can see him moving.

20 **Q** Did you ever see Michael Brown's hands go
21 for the officer's weapon?

22 **A** All the way inside the car?

23 **Q** Yes.

24 **A** No, I didn't see that. I'm not saying it
25 didn't happen, but I did not see that.

1 **Q** Okay. And the other guy that was with him
2 who has identified as Dorian Johnson, where did you
3 see him once Michael Brown walked fast away from the
4 car?

5 **A** I didn't see him.

6 **Q** You didn't see him any more?

7 **A** Huh-uh. He had already went past my view.

8 **Q** Before Michael Brown left?

9 **A** Before he broke loose.

10 **Q** Before he broke loose, okay. Did you hear
11 any shots while the tussling was going on?

12 **A** No.

13 **Q** So at what point did you hear, I think you
14 heard two shots; is that right?

15 **A** I say I counted two and then after that I
16 just didn't count any more.

17 **Q** Okay. At what point did you count two
18 shots, what was going on when you counted hearing
19 two shots?

20 **A** I started hearing two shots, the policeman
21 had already gotten out of my view and next thing I
22 heard was shot.

23 **Q** Okay. So Michael Brown was walking fast
24 away from the officer?

25 **A** Uh-huh.

1 **Q** The officer get out with his gun drawn and
2 was following him, is that when you heard two shots?

3 **A** Right, I heard the shots after that.

4 **Q** Okay. And then after that did you hear
5 some additional shots? Like was there a pause
6 between the first shot you heard and then more shots
7 were fired?

8 **A** I'm trying to think if it was a pause. It
9 was a very little pause between the shots that I
10 heard.

11 **Q** Okay. You heard a certain amount of
12 shots, a very little pause and then some more shots?

13 **A** Uh-huh.

14 **Q** And then I think I read that you heard
15 someone yelling after you heard the last shots?

16 **A** Yeah, there was somebody yelling, but I
17 don't know who it was.

18 **Q** Okay. I think you just said you couldn't
19 make out --

20 **A** I heard some yelling and then I guess
21 that's when whoever heard the shots that was closer
22 to him must have started to come out of their
23 apartments.

24 **Q** But you didn't see any of that?

25 **A** I didn't see anything, but I could hear.

1 By then you could hear some sounds from people
2 hollering because then it was over with.

3 Q Okay.

4 A So you hear the aftereffect of people
5 realizing something has happened they are coming out
6 screaming and hollering, and there was a lot of
7 screaming and hollering.

8 Q How did you know that it was over with,
9 like what happened to let you know it was over with?

10 A You didn't hear any more shots.

11 Q Okay. So when you heard those last shots,
12 then you heard someone yelling?

13 A Uh-huh.

14 Q And no more shots?

15 A No more shots.

16 Q No more shots, okay. When you got dressed
17 and went back out or went out, where did you go when
18 you went out. Did you go like on your porch, did
19 you go down to the street, where did you go?

20 A I come down into the parking lot.

21 Q Can you show us here on the map if it is
22 visible or if you can figure out where you were?

23 A There's a parking lot, see this parking
24 lot here?

25 Q Use the laser pen.

1 **A** This really confuses me.

2 **Q** And if you can't do it, it's okay.

3 **A** When you come out of my apartment, there's
4 a parking lot and a parking lot there and there's a
5 parking on the side, which is like they got there
6 looks like that's the parking on the side, but there
7 is also parking in between.

8 **Q** Okay.

9 **A** I just come down and walked out of my
10 apartment and walked over toward.

11 **Q** Canfield Drive, this is Canfield Drive.

12 **A** But I didn't leave the parking lot, I
13 stayed back on the parking lot because they were
14 already, by the time I got down they were putting
15 out cones.

16 **Q** Okay.

17 **A** So I just stayed back. I was able to see
18 even with me standing back, you can see the boy in
19 the street. All I had to do was walk so far and
20 then I could see down the street.

21 **Q** Okay. So they were putting cones out by
22 the time you came?

23 **A** Uh-huh.

24 **Q** So you saw other police officers and
25 police cars by the time you came downstairs?

1 **A** Well, when I first came downstairs I only
2 saw one policeman and then another one showed up and
3 then another one showed up.

4 **Q** Shortly thereafter?

5 **A** Uh-huh.

6 **Q** But at the time of the altercation, the
7 shooting occurred, you only saw one officer?

8 **A** I saw only one police car.

9 **Q** One police car. Were the people, you said
10 they started coming out, when you came out when they
11 were putting out cones, is that when you saw a lot
12 more people coming out?

13 **A** People started coming out. Boy's laying
14 here, on the side I am, you could see them flowing
15 from back here. And then they started from that
16 side, and then all of the sudden they were coming
17 out, because see, there is apartments back there.
18 So they were coming out, they were coming around
19 into where, where my apartment is into that parking
20 lot.

21 And then there wasn't, I'm trying to
22 think how long after all this happened that I saw
23 his mother come out. She was easy to recognize, she
24 had the blond hair.

25 **Q** Did you know his mother?

1 **A** No.

2 **Q** Never met her before?

3 **A** I heard, the people were saying she kept
4 hollering, my baby, my baby, you know she was the
5 mother.

6 **Q** Right.

7 **A** And they were trying to hold her. There
8 was just a lot of people, a lot of people and a lot
9 of screaming.

10 **Q** Can you show us on the map where you saw
11 his body fall? You didn't see it fall, but where it
12 was when you came out? If you can. Can you tell on
13 this map where his body rested, Michael Brown's
14 body?

15 **A** It is kind of hard for me to say because.

16 **Q** Can you hit that little button. If you
17 cannot --

18 **A** Canfield Drive, why is Canfield Drive up
19 there. Copperfield, should be, I thought that
20 was --

21 **Q** Coppercreek?

22 **A** I thought that was on the other side of
23 where I am, but anyway, he was -- like my apartment
24 is right there, I'm right here, he was down from me
25 somewhere in here. (indicating)

1 **Q** Okay, all right.

2 **A** Cause see right here, right here on this
3 end is the dividing line where my view gets, but not
4 there, but you know what I'm saying?

5 **Q** I do.

6 **A** As you come out of my apartment you come
7 there, right there, I can't see after that.

8 **Q** Okay.

9 **A** That's the end of, like the apartment ends
10 there and then I can't see any more from there. I
11 have to come out of my apartment and come to the end
12 of the parking lot and look down the street.

13 **Q** One thing you mentioned that it was such a
14 minor incident to end up, I think, in somebody being
15 dead?

16 **A** Right, it was.

17 **Q** Tell me what you mean by that?

18 **A** Here is two guys walking down the street.
19 They're in the street. The policeman pulls up and
20 says something to them. They say something back,
21 they start to walk away. Then the police backs up
22 and then there is a confrontation between him and
23 one of the guys. Then the next thing you hear is
24 shots.

25 I mean, it was such a small incident

1 if they were in the streets, he didn't want them in
2 the streets and he told them get on the sidewalk.
3 That should have been it.

4 Q And if they didn't obey and get on the
5 sidewalk, then what are your thoughts?

6 A What are my thoughts?

7 Q Yes.

8 A I don't think he should have died from it,
9 he could have arrested him.

10 Q Okay.

11 A Jaywalking, and that's basically what it
12 was if that's what it was. It just seemed to me it
13 was just such a, I mean, that's just my point of
14 view that it was such a minor incident, the boys
15 didn't have a gun, there was no big deal on just
16 jaywalking and just to me it seems a waste of life
17 to me, that's just me.

18 MS. WHIRLEY: Okay. Questions?

19 MS. ALIZADEH: I just want to clarify some
20 things.

21 Q (By Ms. Alizadeh) Ma'am, I totally
22 understand and agree that as we sit here now some
23 several weeks later and we have learned a lot about
24 what happened that day, it does seem like a waste,
25 it seems terrible that this happened. A couple of

1 questions I have for you though is that when you
2 were looking out your window, you said you could see
3 the hands going back and forth?

4 **A** Right.

5 **Q** Do you remember telling the FBI agents
6 that you could see Michael Brown's hands in the
7 police vehicle?

8 **A** In the window of the vehicle.

9 **Q** Right. Inside the vehicle, past the
10 window. If the window were up, the hands were
11 inside, correct?

12 **A** Yeah, if they're wrestling, there's
13 confrontation, I'm in your window, my hands are in
14 your window.

15 **Q** Okay. From your vantage point, because
16 when Sheila asked you if you could see Michael Brown
17 going for or trying to grab the officer's gun and
18 you said no.

19 **A** I didn't see that.

20 **Q** So what I want to clarify is, are you
21 saying that didn't happen because you could see what
22 was happening, or are you saying, you know, I can't
23 tell what was going on in the car so I didn't see it
24 go on, but I don't know what happened?

25 **A** That's what I'm trying to tell you. All I

1 could see was their hands going back and forth.

2 **Q** Okay.

3 **A** I never saw anybody reaching for a gun or
4 reaching into the car to try to get his gun. In
5 that case from what I could see, if he had to, if he
6 reached into the car, he would of had to have been
7 in some kind of way, no way he could have stood up
8 straight and reach in the car without me seeing it.

9 **Q** Okay.

10 **A** And all I ever saw was the top of his head
11 and them wrestling through the thing. I never saw
12 him bend to reach in the car, I never saw the
13 policeman reaching in his gun holster to get his
14 gun, all I saw was them wrestling at the thing.

15 **Q** Okay.

16 **A** Now, but that don't mean that I didn't,
17 there's something I could have missed something, but
18 I did not see anything beyond that.

19 **Q** Okay. When you first saw the boys, and
20 you just said today you really don't recall what
21 they were wearing in particular. You could see
22 their hands when they were walking, right?

23 **A** Uh-huh.

24 **Q** Did you see anything in their hands?

25 **A** I don't remember seeing anything in their

1 hands, no. I don't recall seeing anything in their
2 hands.

3 Q And now, I mean, we know today, we know,
4 and nobody is disputing that Michael Brown, we know
5 he did not have a weapon, okay. I'm not trying to
6 imply that he did when I ask you these questions,
7 but when you saw him, you couldn't tell if he could
8 of had a weapon in a pocket, in a waistband, from
9 your vantage point you wouldn't be able to tell
10 that, would you?

11 A No.

12 Q And once he ran out of your sight, and if
13 you're here and this building right here, this one
14 right here, once they run past a certain point, you
15 can't see beyond that building to what happens,
16 right?

17 A No.

18 Q And so whatever happened after they ran
19 out of your sight, you can't say one way or another
20 what happened; is that right, is that fair to say?

21 A Fair to say.

22 Q Okay. So at the time, and today I know we
23 know a lot more today than, obviously, people knew
24 as it was going on. But at you sit here today, I
25 know you said it just seemed like such a minor

1 incident, the officer should have arrested him for
2 jaywalking?

3 **A** No, no, that's what I'm saying. I was
4 just saying in the real world or in a good scenario
5 what I saw just seemed like such a minor thing for
6 it to end up the way it did.

7 **Q** Okay.

8 **A** That's all I'm saying.

9 **Q** Okay.

10 **A** Just seemed such a waste. I'm not saying
11 what happened when it got past me because I can't
12 testify to that, I don't know anything about that.

13 **Q** And exactly what was happening inside that
14 car, you really couldn't tell?

15 **A** No, and when I made the statement to the
16 FBI I told them that. I could not see inside the
17 car.

18 **Q** Okay.

19 **A** All I could see was them wrestling at the
20 window.

21 **Q** And from your vantage point, you did not
22 see him, Michael Brown, I mean the big guy, it
23 didn't look to you like he was reaching far enough
24 in the car to where he would be reaching for a
25 weapon?

1 **A** No, but then if I'm looking at you, there
2 might be some things that I don't see.

3 **Q** Uh-huh.

4 **A** Some things that my memory don't record.
5 I'm not going to say what did or did not happen. I
6 can only tell you what I saw.

7 **Q** If, I'm not saying this is true or not,
8 I'm just asking you to think about this. If the
9 officer had drawn his weapon and he was holding his
10 weapon closer to his, the door. In other words, if
11 he has a right handed holster, and then if he had
12 removed a weapon and had it closer to the door,
13 would Michael Brown have been able to, given what
14 you were judging from his height and from what you
15 saw where his head was and everything, could he have
16 touched or reached the weapon if that were the case?

17 **A** Well, I guess if the policeman had the gun
18 up in his, up high enough where he didn't have to
19 bend to get it or to move his body to get it, I'm
20 assuming that could have happened, that could
21 happen. I don't know that.

22 **Q** And I think that, I don't want to imply
23 that you are saying it did or did not happen because
24 I think it is clear that you don't know.

25 **A** No, I don't.

1 **Q** And that's fair, but when you said you
2 didn't see him, it couldn't have been like he was
3 reaching for his gun, are you basing that assumption
4 on if the officer still had the weapon in his
5 holster on his right hip, you never saw Michael
6 Brown go far enough in the vehicle to actually
7 remove, try to get the gun off of his right hip,
8 would that be fair to say?

9 **A** Yeah, that would be fair to say. I can
10 say that, that I didn't see that.

11 **Q** Okay. But if the gun were already out of
12 the holster and maybe being held across the
13 officer's body, is it possible then from where
14 Michael Brown was, that he could reach the gun
15 without having to lean in the way you would of
16 thought he would have to lean?

17 **A** Could be. If I was in the same position
18 and you could see me and he put it up high enough
19 for me to do it within arms reach, I guess I could
20 do it to.

21 **Q** And, again, I'm not saying one way or
22 another, I'm just asking you because I think you
23 made certain assumptions when you were saying he
24 couldn't reach the gun and that's based upon you
25 believing that the officer's gun was still in his

1 holster that he couldn't reach it?

2 **A** Yeah.

3 **Q** Okay.

4 MS. ALIZADEH: I know you all have a lot
5 of questions.

6 MS. WHIRLEY: Just one thing. My question
7 wasn't could he reach the gun, was it did you see
8 Michael Brown struggling with the officer over the
9 gun?

10 **A** No.

11 MS. WHIRLEY: That's my question.

12 MS. ALIZADEH: I understand, Sheila.

13 MS. WHIRLEY: I was making it clear.

14 MS. ALIZADEH: I didn't know if she meant
15 that didn't happen because I saw, I could see it and
16 it didn't happen, or if her answer was I didn't see
17 that.

18 **A** Well, see what I was saying when I say
19 that I didn't see him reaching in the car, I did not
20 see that. All I saw was them tussling at the
21 window, I never saw him reach in, or anything like
22 that.

23 Now, that's not saying that what you
24 said about the gun as far as the policeman was
25 concerned that it was in a different position, but

1 when the question was asked of me was, did he reach
2 in to try to take the cop's gun. And I said, no, I
3 did not see that.

4 MS. ALIZADEH: Okay. I think that's, and
5 these are all just points we are trying to clarify.

6 **A** Uh-huh.

7 MS. ALIZADEH: I'm absolutely not trying
8 to imply one thing or the other. So questions?

9 Did
10 you ever at any time see him stick his head inside
11 the police car?

12 **A** No.

13 When you,
14 the first time you saw the two guys walking and the
15 police approaching them and you say you saw the
16 police drive away and proceeded on or the young man
17 proceeded on. When the police came back, could you
18 tell if he came back in a speedy way or did he just
19 back up normally?

20 **A** What happened was, he said something to
21 the boys. The boys said something to him. The boys
22 proceeded to walk away. The policeman must have
23 thought for a second, he backed up to go back to
24 where they were.

25 That's what happened. I mean, he

1 didn't speed up any because they only had gotten a
2 few feet from him when he decided, when I guess he
3 wanted to have some more to say to them, he just
4 backed up.

5 Okay, thank you.

6 **A** Uh-huh.

7 When you saw
8 Michael Brown's head on the top of the SUV, do you
9 know if he was wearing anything on his head?

10 **A** I think he had a hat on, a cap or
11 whatever, you know.

12 Thank you.

13 MS. ALIZADEH: Ma'am, I'm just asking you
14 if you recall when you talked to the FBI agents, and
15 these were two women agents, right?

16 **A** Right.

17 MS. ALIZADEH: Do you remember telling
18 them that you saw, and I'm talking about when the
19 vehicle backed up, that you saw the vehicle jerk and
20 back up a short distance?

21 **A** Yeah, he did. Cause when he backed up he
22 jerked, like he put his foot on the brake or
23 something.

24 MS. ALIZADEH: I was trying to clarify
25 when you were asking about and I wanted to know what

2 **A** If the policeman probably wanted to say
3 something, he didn't want them to get away. So what
4 he did when he put it, just when he backed it up, he
5 just put on his brakes real hard, real fast and the
6 car kind of jerked.

7 MS. ALIZADEH: From your position, did it
8 look like he came close to hitting the boys or did
9 his vehicle contact either boy when he backed up?

10 **A** I didn't see that.

11 MS. ALIZADEH: Okay.

12 You
13 said you don't know if you want to continue to live
14 there any more. Do you feel it is because of the
15 police or because of the residents and the danger or
16 everything?

17 **A** I'm going to move anyway.

18 Okay.

19 **A** I've got a lease and I can't move right
20 now. I mean, my family's having major problems.

21 Yeah.

22 **A** There's a lot of things that make me want
23 to move. Too many young people, too much riffraff,
24 there is shooting, they get out at night, on
25 weekends and shoot up in the air and all that stuff.

1 The police has been called several
2 times for it. The apartment managers or owners, or
3 whoever they are, does nothing about it and all of
4 that is violations. They should have been gone, but
5 they do it.

6 I'm getting too old to be putting up
7 with the riffraff. They are a bunch of youngsters.
8 Youngsters are in a learning phase, they do all
9 kinds of crazy stuff. And I just want to live
10 somewhere where I don't have to live with all of
11 that, okay.

12 Has nothing to do with the cop
13 shooting the kid or the kid causing the shooting,
14 whatever it was, had nothing to do with that. But
15 the aftermath of this is what I'm talking about.

16 I don't want to live years, all of
17 the sudden somebody come and either take my life or
18 shoot me up or beat me up, and I'm abiding by all
19 the rules or as many of them as I can. I'm not
20 going to say I'm perfect. We all do things that we
21 shouldn't do, all right.

22 MS. ALIZADEH: Any other questions? Okay.
23 This will conclude the testimony of this witness.

24 (End of the testimony of)

25 MS. ALIZADEH: This is Kathi Alizadeh on

1 October 23rd, 11:07 a.m. Present in the grand jury
2 is Sheila Whirley and all 12 grand jurors and ,
3 the court reporter.

4 The next thing we're going to do is play a
5 statement for you. The statement is from a witness
6 named . I believe it's,
7 , I'll verify that.

8 She had previously talked to the County
9 Police, but this is a statement you're going to hear
10 is a statement that was done yesterday, I believe,
11 at FBI headquarters. I can't be sure, but the
12 statement is being taken by, the questioning is
13 being done by , who is the attorney for the
14 Department of Justice. You have heard her voice on
15 several statements. You will also hear the voice of
16 , who is the assistant United States
17 attorney who you probably heard his voice on several
18 statements.

19 And there is also an FBI agent who is a
20 female who is a female who pipes in a couple of
21 times during the statement. I'm not sure as I sit
22 here today because I listened to this last night
23 because I got it last night because it happened
24 yesterday afternoon.

25 I can't recall if they identified who the

1 FBI officer, but this was a statement done
2 yesterday.

3 The statement lasts an hour, and hour 40
4 minutes, 38 minutes. So it might be that we break
5 after hearing the first hour of it. Since it is a
6 little after a 11 now, and then you guys can have
7 your lunch, then we would resume and let you listen
8 to the last part of it and then have the witness
9 testify in the afternoon, all right.

10 With that being said, , because we
11 don't have a transcript, I would like you to
12 transcribe the interview. But we can pause the
13 recording since we've marked this disc that contains
14 the interview as Grand Jury Exhibit Number 50.

15 (Grand Jury Exhibit Number 50
16 marked for identification.)

17 : I don't know street names,
18 but I can give you detail directions that I went.

19 MS. : Oh, that's fine, I'm just
20 going to go ahead and just kind of do a little
21 introduction, okay.

22 It is October 22nd, 2014. It is
23 approximately 2:14 p.m. This is special agent
24 at the FBI field office, 2222 Market
25 Street, St. Louis, Missouri. I am here with USA

1 , DOJ prosecuting attorney
2 and we are interviewing?
3
4 MS. : And, , can you spell,
5 is it, your name for me?
6 It's capital
7
8 MS. : Do you have a middle name?
9
10 MS. : What's your date of birth?
11
12 MS. : And your social security
13 number?
14
15 MS. : What is the best contact
16 number for you?
17 That's area code
18
19 MS. Is that your cell phone?
20 : Yes, I'm straight cell.
21 MS. : What's that?
22 : I'm straight cell.
23 MS. : Oh.
24 : No landline.
25 MS. : What's your address.

1

2

3

4 MS. : Okay. All right.

5 MS. So before we begin, you

6 introduced as , is that okay if I call you

7 that?

8 : Yes.

9 MS. : Okay. I want to let you know

10 we talked a little bit when you came in. We're just

11 trying to figure out what the truth is and so we

12 don't want to talk about what you may have heard

13 from other people or what you have seen on TV or

14 read or anything like that, just what you know,

15 okay. This investigation, like any other, where we

16 are just trying to get at the truth.

17 We have to let you know that, we tell this

18 to everybody, if you lie to a federal agent, and

19 you, (inaudible) it is a crime. You are better off

20 not saying a word and just not talking to us if you

21 plan on lying and sitting in here and telling us

22 lies.

23 With that in mind, we just ask you, we are

24 going to ask you to tell us what you remember. If

25 you don't know something, or don't remember, that's

1 perfectly fine. Just, you know, as I said, our goal
2 is to figure out what happened, okay?

3 : Right.

4 MS. : We don't want you to think if
5 one way or the other (inaudible) of what you have to
6 say, you are just a piece of the puzzle, okay?

7 : Okay.

8 MS. : Can you just tell us, we know
9 what you originally said in your first statement,
10 but we as prosecutors wanted to get to meet you. So
11 can you just rundown what you saw and experienced on
12 August 9th?

13 : Um, okay. You want me to
14 start from where I started at QT?

15 MS. : Well, yes, I know you stopped
16 at the QT, but you were on your way somewhere to
17 begin with?

18 : I was on my way to visit a
19 friend from high school that I thought lived off
20 Florissant, but turned out lived in Florissant.

21 MS. : Okay.

22 : I ended up in Florissant --
23 or on Florissant Road.

24 MS. : Okay.

25 Once I realized that I was

1 lost, this is before I had my GPS. I stopped at the
2 QT. 270 is up here and I stopped at the QT and I
3 asked for directions. And I didn't follow them very
4 well, instead of making a right out of QT, I made a
5 left. And I realized I went the wrong way, so I
6 made another immediate left.

7 But then I seen the apartments, my friend
8 lived in an apartment. I thought, well, maybe I was
9 in the right spot after all.

10 And I went down that street and I passed
11 two streets and then a parking lot and went into the
12 second parking lot, which is technically the same
13 one because it loops around a building. And I
14 pulled in there and I made a left and I parked there
15 and then I walked back out in front of that building
16 to ask for directions.

17 MS. : Okay.

18 : And then that's when I seen
19 the officer's SUV for the first time, it is a bigger
20 vehicle, for the first time. And he was talking to
21 two African-American gentlemen.

22 And then he started to leave and then he
23 put the car in reverse and said something, and I did
24 not hear what was said. And then the next thing I
25 know, the heavier set African-American was in the

1 car from approximately the waist up. And then I
2 heard the gun go off, I didn't hear any kind of
3 conversation. I heard noises, but not what was
4 being said.

5 I heard the gun go off, I only remember
6 one gunshot. The skinnier African-American took off
7 running and the heavier set one that they call Mike
8 Brown stood up, and I seen him pull his shorts up
9 and take off running.

10 The officer got out of the car and had his
11 left hand on the left side of his face and the gun
12 in his right hand. And his right hand was shaking
13 and he was stumbling from one foot to the other, and
14 I don't know what he said. All I heard was, or I'll
15 shoot.

16 And then that's when Michael Brown, the
17 heavier set, turned around and face-to-face with the
18 officer and he had his hands out extended like this,
19 or whatever, kind of like, you know, what are you
20 going to do.

21 MS. : Okay.

22 : He wasn't saying anything at
23 that time that I heard. And then the officer had
24 his gun, was drawn and pointed at him, and that's
25 when Brown started to charge, you know, kind of like

1 a football, like this, with his hands out.

2 MS. And your hands are clenched.

3 Right, his hands were
4 clenched at this time. He was slightly bent, but
5 not much. It was kind of like a football charge
6 not, you know, and then that's when the gunshots
7 started.

8 I don't remember the sequence or the
9 order. I know that the gun went off a couple of
10 times and then stopped and then went off again.

11 And then when the last gunshot went off,
12 which was in the head, that's when I started to get
13 freaked out and I got in my car and I left. As I
14 was leaving, I couldn't go out the same parking lot
15 I had come in, they had, that was all blocked. So I
16 zigzagged through the parking lot and I popped out
17 the third one over here, and I made a right and went
18 through the neighborhood.

19 I got lost in there for about 20 minutes,
20 but I ended up on a street that goes in a complete
21 circle and then I made a right and popped out on a
22 side road next to QT, which is where I asked the
23 person at QT again where the nearest highway was.

24 MS. : So let me go back and ask you
25 some questions I have.

1 : Okay.

2 MS. Starting with the QT. When you
3 went and asked for directions, did you go inside or
4 did you ask somebody in the parking lot?

5 : I asked somebody at the gas
6 pump.

7 MS. Both times or first time?

8 : Both times.

9 MS. : And did you go inside at all.
10 : No.

11 If we got surveillance
12 video from the gas pump, you would be on it?

13 : Yes.

14 MS. : Okay. And so when you drove,
15 you said you ended up by an apartment complex. You
16 thought it was your friend's apartment complex, what
17 made you think that?

18 : Because she had said she
19 lived in apartments right off Florissant. And I
20 thought she meant right off Florissant, she meant in
21 Florissant. I never did find my friend.

22 MS. : Okay. Before you were
23 describing it you said that you thought that you
24 noticed these apartment complexes and you went in
25 thinking that was where she lived and then you got

1 out and asked for directions again. At what point
2 did you still think you were at the apartment
3 complex?

4 : No, once I got in there
5 because once I got past the first two streets and I
6 started to go around the bend, it didn't look like
7 the pictures that I had from her, and that's why I
8 was confused.

9 MS. : What is your friend's name.
10 :

11 MS. : Do you have a phone number for
12 her?

13 : I do, it is at home. She's,
14 we met when

15
16 MS. : So you said in high school,
17 right?

18 : We met my freshman year of
19 high school.

20 MS. Okay.

21 MR. : She was one of the
22 ?

23 : Correct.

24 MS. : What school did you go to?

25 :

1 It was early '80s I guess.

2 MR. : you
3 went to?

4 : Yes.

5 MR. : is her name?

6 : Yes.

7 MR. : How do you spell her last
8 name?

9

10 MS. : And how do you spell
11 with an I or a Y?

12 :

13 MS. : Have you spoken to her since
14 this?

15 Just a couple times. We
16 were really, really close when

17 And then
18 they had that situation

19 , what do you call,

20 , and we let her

21

22 so she wouldn't have to deal with
23 it. We went through a lot together, so.

24 MS. : You said you never made it to
25 her house that day, did you call her afterwards?

1 : I emailed her and told her.

2 MS. : What did you tell her?

3 Just that I had gotten lost.

4 I didn't tell anybody anything except for my

5 ex-husband, which he --

6 MS. : Who is --

7 : He's being obnoxious.

8 MS. : What do you mean?

9 : Well, he told me not to come
10 in here at all.

11 MS. : Why?

12 : Just because we have three
13 .

14 MS. : Meaning what?

15 : He doesn't, he has cable, I
16 don't. He hears about the death threats and
17 everything and just says that he doesn't want his
18 mixed up in it.

19 MS. : So why did you decide to go
20 against his suggestion?

21 : Because the one thing my
22 father taught me before he passed away regardless,
23 you always tell the truth and you always admit to
24 whatever, if it's the truth.

25 Unfortunately, I have been in trouble once

1 before by the law.

2 MS. : Okay. How did you get in
3 trouble, what was that?

4 : I grabbed a black checkbook
5 instead of a brown checkbook or blue checkbook.

6 MS. : Did you get convicted of
7 anything?

8 : Yes, because my dad, even
9 though it was an accident, it is still my signature
10 and the adult thing to do would be to accept
11 responsibility, so I pled guilty.

12 MS. : What did you plead guilty to,
13 what was the charge?

14 : You know, I really am not
15 100 percent sure. I think it was check fraud is
16 what it would have gone down.

17 MS. : How long ago was that?

18 : In '07, I believe.

19 MS. Did you --

20 : I didn't do any time. I
21 explained the situation to the judge and the judge
22 said since I was taking responsibility, he would
23 give me just probation.

24 MS. How long were you on probation
25 for?

1 : Three years.

2 MS. : Was it a felony.

3 : It was considered two
4 felonies, but they did an SIS.

5 MS. : Okay.

6 : So that as long as I didn't
7 get in trouble throughout the three years that it
8 wouldn't be on my record.

9 MS. : Okay.

10 MR. : Did you have any trouble
11 during that three years?

12 No.

13 MR. : Have you had any other kind
14 type of problems at all like that?

15 : I haven't even got so much
16 as a ticket so, before or after.

17 MS. : So when you pulled into the
18 parking lot in this complex, you got out of your car
19 to ask for directions, was there somebody that you
20 were going over to ask directions or were you just
21 looking for somebody?

22 : I walked up to the first
23 gentleman I seen, he was kind of a heavy set guy
24 with a green shirt, and had his hair in braids and
25 it was real short.

1 MS. : Okay. Why did you park your
2 car and walk up to him as opposed to just drive up
3 to him?

4 : It's just what I do.

5 MS. : Okay.

6 : It is easier for me just to
7 park, get out, and then I can sit and conversate and
8 I was able to have a cigarette.

9 MS. : I guess, you know, if it is all
10 good but --

11 : I've always done it.

12 MS. : And that's fine. I'm talking
13 about the reality of life is you are in a
14 neighborhood that you don't know and you are getting
15 out of your car and walking up to somebody you don't
16 know, and I don't know, you are more trustful than
17 the average person, or maybe I'm more skeptical than
18 the average person, especially a woman in a
19 neighborhood that you don't know.

20 : I just always have. I don't
21 know, I could be down in the city or whatever and
22 ask for directions, and I will get out.

23 MS. : Okay. So you get out --

24 : I don't get lost any more,
25 my mom bought me a GPS.

1 MS. : Okay. You get out of the car
2 and you see this guy, and at what point did you
3 notice the police car?

4 : I didn't notice him until
5 they were talking the first time. And no, I didn't
6 hear anything that was said the first time around.
7 He was just kind of driving up next to him.

8 MS. : Did you get the opportunity to
9 ask this guy for directions or was your attention
10 diverted to the police car?

11 I started to ask him, and
12 then I lit a cigarette, and then my attention became
13 drawn to the police car. That's why I had to ask
14 directions again at QT.

15 MS. : Was the guy you are talking to,
16 was he watching was going on also?

17 : Yes.

18 MS. : So you look over and you see
19 the police car and you say that, when I say car, I
20 mean SUV, and you see some sort of interaction
21 between the police officer and who?

22 : The, well, I know it is Mike
23 Brown now, at the time it was a heavy set
24 African-American and a skinny African-American.

25 MS. And did you --

1 Oh, I'm sorry, I didn't mean
2 to interrupt you, when, um, he backed up, when he
3 first tried to get out, the heavier set one did push
4 the door shut, but so did the skinnier one. And the
5 skinnier one lost a bracelet on the ground, it is a
6 gold bracelet.

7 MS. : Okay.

8 : I'm sorry.

9 MS. : You're fine, totally fine, okay
10 I know in your last statement you said one of the
11 things you kept saying was I'm not a very good
12 witness.

13 I'm not.

14 MS. Let me tell you this as a
15 prosecutor. A good witness is somebody who is
16 truthful. And that's all it takes to be a good
17 witness, right, nobody should be a professional
18 witness, right. Because we just ask about what we
19 see going on in our daily lives.

20 I kind of want to get that out of your
21 head, just focus on the fact that all we want is the
22 truth, right, so and that's ultimately what we are
23 getting at. However, you characterize yourself good
24 or bad, that doesn't matter either as long as you
25 tell the truth, okay.

1 : Okay.

2 MS. : Back up to when you saw the SUV
3 and you said you saw interaction and you can call
4 him Mike Brown, you know their names now?

5 : I know their names now.

6 MS. So then you can call them Mike
7 or Dorian, whatever you feel comfortable.

8 : Okay.

9 MS. : You see the SUV and you see the
10 interaction, who was interacting with whom?

11 : They both were interacting
12 the second time.

13 MS. : So the initial thing that you
14 see.

15 : The initial time I only seen
16 the officer say something to Mike Brown.

17 MS. Okay. How do you know the
18 officer was talking to Mike Brown.

19 He was closer and Mike was
20 responding. And it was definitely conversation, I
21 just have no idea what was said.

22 MS. : Okay. Was Mike Brown going in
23 the same direction or opposite direction of the SUV.

24 : When I looked over there
25 they were side by side.

1 MS. Okay. Where was Dorian Johnson
2 relative to the SUV?

3 The first time?

4 MS. : Right, in this initial, when
5 you initially see him.

6 He was off about 3 feet.

7 MS. : Was he closer to the back of
8 the SUV or the front of the SUV compared to Mike?

9 Compared to Mike, I would
10 say the back, but I don't really remember.

11 MS. : Okay.

12 : I don't, I honestly, I mean,
13 I didn't give it a whole lot of thought until after
14 Mike Brown went into the car.

15 MS. : We understand that. Our job is
16 to push you and see how much detail we can get out
17 of you.

18 : Right.

19 MS. : If you don't know, you don't
20 know, that's why we are asking all of these
21 questions.

22 MR. : When did you first see Mike
23 and Dorian?

24 From the first time that
25 they were communicating.

1 MR. : Okay.

2 I paid absolutely no
3 attention, there was a ton of people there.

4 MR. : You didn't see them until
5 they were actually, until the police car was
6 actually beside them and they were communicating
7 with the policeman?

8 Correct. I'll stick with
9 that because I might have seen them, I just didn't,
10 it's not dawned, I can't say for sure or anything,
11 you know, I didn't give them any of my attention.

12 MS. : How long were you there
13 before you saw that?

14 It was like instantly.

15 MS. So you didn't notice when you
16 were driving in, you didn't notice anything?

17 No. I didn't pay, I mean, I
18 was staring so much at the building addresses and
19 where there were the most people that I could get
20 out and ask for directions.

21 MS. : So if you saw anybody close to
22 the road, you would have stopped and get out of the
23 car.

24 : I would have stopped and get
25 out of the car so I could have a cigarette, and

1 actually get step by step instructions. I'm not
2 good on directions. So I couldn't get ahold of
3 anybody, I didn't have of my cell phone on me at the
4 time so.

5 MS. : Okay. So you see, you are at
6 the part where you see some sort of interaction
7 between the police officer and Michael Brown,
8 because your statement is based upon what you,
9 yourself, saw. You could tell there was some sort
10 of interaction, correct?

11 : Correct. I didn't realize
12 that the officer was even an officer. When I first
13 pulled in, or whatever, he was coming this way, I
14 guess, and I never even acknowledged that he was an
15 officer when I pulled in.

16 MS. : What sort of vehicle was he in?
17 Looks like one of those like
18 van or SUV type.

19 MS. Okay.
20 Big vehicles.

21 MS. : Was it marked?
22 : Yes, it had police and then
23 underneath it said Ferguson.

24 MS. : So then what about when you say
25 you didn't realize he was an officer?

1 : I wasn't paying any
2 attention. I was so focused on staring at the
3 building numbers that when I pulled in, or whatever,
4 and I passed and there was a lot of people standing
5 right here, I just pulled in right away. It wasn't
6 until I got out and walked this way, or whatever,
7 that I realized that, you know, that it was even an
8 officer. I was going to wait and just get
9 directions from the guy because the officer was
10 already busy.

11 MS. : Okay. My next question was,
12 did you consider getting directions from the
13 officer.

14 I didn't, no, because he was
15 already occupied.

16 MS. : Okay.

17 And he looked very occupied.

18 MS. : All right. So after you see
19 this interaction between Michael Brown and the
20 officer, then what's the next thing you see?

21 : After the first altercation?

22 MS. : We are just talking about step
23 by step.

24 : Okay.

25 MS. You're getting out of your car,

1 you see him before you spoke to the man about
2 directions; is that right?

3 : Correct.

4 MS. : And then what?

5 : And then the officer goes
6 up, you know, like he's going to drive away, he
7 doesn't really go too far, just a few rolls of the
8 tire, or whatever. And then he comes back, or
9 whatever, you know, comes and backs up. And Dorian
10 and Michael Brown, Brown walked up to the car and
11 words were exchanged and then Brown entered into the
12 vehicle from the waist up.

13 MS. : Let me ask you when you say
14 words were exchanged, what do you mean by that?

15 : The officer's mouth was
16 moving. I have no idea what was said.

17 MS. I'm just asking why you chose
18 that phrase.

19 Right.

20 MS. : You use that phrase exchange,
21 the officer's mouth was moving, was there any --

22 : I did not hear Mike Brown.

23 MS. : Were you able to see Mike
24 Brown's face at that point?

25 : No, he was facing, because I

1 was here on the sidewalk and the officer's car was
2 kind of cockeyed or crooked, or whatever, and Brown
3 was right at the window.

4 MS. : Your vantage point was of the
5 driver's side?

6 : Correct.

7 MS. Based on what you are
8 describing now. Okay. And so you see words were
9 exchanged and then what happened?

10 : The officer had words.

11 MS. : Okay.

12 : I seen him talking, but I
13 don't know what he had said. And then the next
14 thing I know, Mike Brown was lunging into the car,
15 like dived in and it was only from the waist up that
16 he was in the car.

17 MS. : What was your reaction when you
18 saw this?

19 : My honest reaction?

20 MS. : Yeah, absolutely.

21 I was cussing. At the time
22 I was just like, I actually even said to the guy, is
23 he F-ing crazy.

24 MS. : You can use the language, we
25 have heard worse, we've said worse.

1 : I said, is he fucking crazy.

2 MS. : Okay.

3 : And then it just starts
4 happening, I didn't say anything more than that.

5 After the gun went off, I did say damn and then I
6 said shit, and then I got really nervous.

7 MS. : I don't need a litany of curse
8 words you used. I just kind of want to understand
9 your reaction to what is going on. So you see, you
10 said lunge in and from how far down his body?

11 : To about his belt, naval.

12 MS. : Okay. And that's when, and
13 your reaction was one of, I guess, surprise, right?

14 : I had never seen anybody
15 treat an officer like that way before.

16 MS. : What was Dorian doing at the
17 time?

18 At that time he punched the
19 car door shut because he punched it with his wrist
20 and he punched it with his wrist, something gold
21 fell off his hand out of his right wrist I think.

22 MS. Let me ask you this. At what
23 point did the door open to get punched shut by
24 Dorian?

25 When did it open?

1 MS. : Yeah.

2 : After I heard the gunshot.

3 MS. : Okay. So when you're saying,
4 maybe I'm getting confused. When you are talking
5 about Dorian punching the door shut, that's after
6 the gunshot?

7 Before the gunshot.

8 MS. : Okay.

9 Once the gunshot went off,
10 Dorian took off.

11 MS. Okay. Let's back up a little
12 bit.

13 : I'm sorry.

14 MS. : No, no, no, don't apologize.
15 When you see the officer saying some sort of words
16 to Michael Brown, Michael Brown is by the door, was
17 the door open or closed?

18 : At that time the door was
19 shut.

20 MS. : Okay.

21 He attempted to open it,
22 because it did open, it did unlatch.

23 MS. : He, meaning who?

24 : The officer unlatched the
25 door.

1 MS. : How do you know it unlatched?

2 It started to open, you
3 could tell that it was definitely in the process of
4 opening.

5 MS. : Okay. And then how did it
6 close?

7 With Michael Brown's hands.

8 MS. : You are showing --

9 The base of his hands, he
10 shoved it shut the first time, and then the second
11 time he, I can't, I don't know. I don't know if it
12 was his fist or with his gut.

13 MS. : You are saying the officer
14 tried to open the door twice in a row?

15 : Correct.

16 MS. When did Dorian get involved
17 with that?

18 : That was right after the
19 second time he went up and punched the rear view
20 mirror.

21 MS. : Punched, meaning what?

22 : With his wrist, with his
23 right wrist.

24 MS. : So you are showing the side of
25 his hand?

1 The side of his wrist.

2 MS. : The side of his wrist?

3 : In a fist motion.

4 MS. : Okay. And then what did you

5 say about something gold?

6 : Something gold fell off

7 Dorian Johnson's wrist, the skinnier one.

8 MS. : Okay.

9 : And it fell on the ground.

10 MS. : And after that happened, is

11 that when --

12 : That's when the gun went

13 off.

14 MS. : When did Brown lunge into the

15 car.

16 : Okay. I'm sorry, you are

17 making me nervous.

18 MS. : I don't want to make you

19 nervous.

20 After the second time Brown

21 shoved the door shut, the second time, I don't know

22 if it was with his fist or with his, you know, with

23 his gut. And Dorian Johnson was standing there at

24 that time, he looked like he punched the rear view

25 mirror, but he ended up knocking something off his

1 right wrist and it fell on the ground.

2 He went to bend down to pick it up and
3 that's when Mike Brown jumped into the car head
4 first, but only went up to his naval into the
5 window.

6 MS. : Were you able to see what the
7 officer was doing when Mike Brown did that, when he
8 went through the window?

9 : He was getting punched.

10 MS. : How can you tell?

11 : Because Mike Brown's fist
12 kept going up and down. You knew he was getting
13 hit, even though he was all the way back.

14 MS. : When you say he was getting hit
15 all way back, you talking about who?

16 : The officer was being shoved
17 back.

18 MS. Okay.

19 As Brown was laying on top
20 of him from the waist up and Brown's fist was going
21 up and down on the side.

22 MS. : How were you able to see this
23 if when I asked you before you said Brown's body, a
24 lot of it was blocking the doorway of the car?

25 : He was in the car from here

1 up, bent over and the officer was laid back in the
2 car and Dorian was almost completely on top of him.

3 MS. : Dorian was?

4 : No, the heavier set one.

5 I'm going to stick with that if that's all right.

6 MS. : Whatever makes you feel --

7 I really don't know which
8 one is which.

9 MS. : I want you to describe this to
10 me in the way that is most comfortable for you.

11 Okay. I don't want you to think we are trying to
12 get any certain way out of you.

13 I need to go with the
14 heavier set and the skinnier one.

15 MS. : Okay. I don't want you to be
16 nervous at all. If at any time you don't want to
17 talk to us, we are not forcing you to.

18 : Right.

19 MS. : I don't want you to feel
20 uncomfortable or we're making you nervous, we just
21 want to know what happened, okay?

22 Right.

23 MS. : And you tell us in the easiest
24 way that you can, all right.

25 : All right.

1 MS. : If you want to use bigger one
2 and little one, that's fine.

3 Okay.

4 MS. : The bigger one you said was in
5 the window and the officer you said was leaning
6 back?

7 Right. And there's about
8 this much of a gap between Brown, the heavier set
9 one's body and the thing of the car, the window.

10 MS. : So there is a gap --

11 There is just enough of a
12 gap that you could see the heavier set one's fist
13 going up and down into the officer's face.

14 MS. : Okay.

15 Or into the officer's body,
16 put it that way because I didn't know where the
17 officer was getting hit until after the officer got
18 out.

19 MS. : All right. And so while this
20 is going on, what's your reaction?

21 At this time I was really
22 scared, but I was just kind of standing there, it
23 almost seemed fake at some point or whatever, and
24 now and then just disbelief.

25 MS. : Was the guy next to you, was he

1 saying anything to you?

2 At that time, no.

3 MS. : Were you standing next to him?

4 I was standing exactly next
5 to him.

6 MS. : Do you know his name?

7 No.

8 MS. : Did you ask him his name?

9 I didn't really care about
10 names at that point.

11 MS. : Okay. Did you know anything
12 else about him other than?

13 Green T-shirt, heavy set,
14 and braids.

15 MS. : Okay. Do you know, do you
16 happen to know the address near where you were
17 standing, did you look at the numbers?

18 No, but when you pull into,
19 down there and as soon as you go around the bend and
20 you start to see the buildings, it is the very first
21 building on the right.

22 MS. : Okay. All right. So let's go
23 back. You see the bigger one, these punching
24 motions and then what's the next thing that
25 happened?

1 : That's when I heard the gun
2 go off.

3 MS. : Okay.

4 And Dorian Johnson, the
5 skinnier one, took off towards the street that QT is
6 on.

7 MS. : Okay.

8 Heavier set one took off in
9 the opposite direction down towards into the
10 complex.

11 MS. : Okay.

12 And then the officer opened
13 the door, and he had his left hand on the left side
14 of his face and the gun was in his right hand, and
15 he was wobbling from foot to foot and he looked
16 confused, you know. He was kind of stumbling, or
17 whatever, like he wasn't with it, does that make
18 sense?

19 MS. : You're fine.

20 : He obviously had just got
21 hit.

22 MS. : You said obviously got hit
23 based on what?

24 : The way he was acting, it
25 just looked like he was dizzy.

1 MS. : Okay. When you say his left
2 hand, was it above his ears on his face?

3 : Get out of the car, right
4 hand was on the gun, so yeah.

5 MS. : Where was his hand, on his
6 face?

7 : Now, you got me confused. I
8 want to say the left side of his face, but now you
9 got me confused.

10 MS. : I don't want to confuse you.
11 It was like right up here.
12 (indicating)

13 MS. : You showing his entire palm.
14 : Yeah, he just had it up to
15 his head.

16 MS. : Up to his head?
17 Yeah.

18 MS. Was his palm from his mouth all
19 the way up.

20 Correct.

21 MS. : From what I can flap his head
22 from what you remember.

23 From what I remember.

24 MS. : Okay. And then what happened?
25 : And then he wobbled from

1 foot to foot, I don't know what he said. I remember
2 hearing or I'll shoot, but that's all I remember
3 hearing. And then that's when the heavier set one
4 turned around and faced him. And they were still
5 that distance away.

6 MS. : Had the officer, when the heavy
7 set one turned around, had the officer run or pulled
8 forward in his car or was he still by his war.

9 : He was still by his car. He
10 didn't go towards, Dorian, I didn't see him head
11 that way towards the heavier set one until after the
12 heavier set one turned around and proceeded, you
13 know, started to come this way.

14 MS. : Okay. So describe when the
15 heavier set one turned around, describe what he was
16 doing?

17 He turned around and he put
18 his hands out like this. (indicating)

19 MS. : That's, now, your hands are
20 here, your hands are kind of out at your sides.

21 It was like a football
22 thing.

23 MS. : Okay.

24 : They weren't like this.
25 (indicating)

1 MS. Your hands are clenched?

2 Right.

3 MS. : Out, but not up, is that fair
4 to say?

5 Correct.

6 MS. : They are out, but a little bit
7 higher than waist high?

8 : Correct.

9 MS. : And did he put his hands out
10 like that before or after he turned around?

11 : After he turned around.

12 MS. : What were his hands doing?
13 That's the easier way around it.

14 He looked like he was having
15 an attitude, he looked like my .

16 MS. : How so?

17 : What are you going to do.

18 MS. : That expression or that motion
19 he as he turn around.

20 : Correct.

21 MS. : What was your vantage point,
22 was your vantage point on him when he turned around,
23 was he facing you?

24 : At this time, yeah, when he
25 turned around, he was facing the officer, which

1 would have been facing this way. I was more in the
2 middle of the building and he was more at the
3 entrance of the parking lot.

4 MS. : When he turned around to get a
5 view of Michael Brown's front.

6 Correct. Left side, partial
7 front like, you know, like the side view.

8 MS. : Okay. As he was running away,
9 do you remember what he was doing with his hands?
10 : Just running, I mean it was.

11 MS. : You just demonstrated a
12 running.

13 Just running, yeah.

14 MS. : And his arms are pumping back
15 and forth?

16 : He pulled his pants up once,
17 I know that.

18 MS. : Did his pants appear to be
19 falling to you?

20 Yes.

21 MS. : How so, can you describe that?

22 He was half mast.

23 MS. Meaning what?

24 : His rear end was hanging
25 out.

1 MS. : Okay.

2 : He pulled them up twice
3 cause when he first got out of the car, when the
4 altercation stopped at the vehicle before he took
5 off running, he pulled them up as well.

6 MS. : Okay. Then he pulled them up
7 again as he running away?

8 And then he pulled them up
9 again as he was running down the street and then he
10 turned around and then after that he never pulled
11 them up again.

12 MS. : You said his hands were in like
13 a running position?

14 : Correct.

15 MS. : So then what happened?

16 After he turned around, he
17 was like that and then --

18 MS. : When you say like that, that's
19 the what you are going to do about it look?

20 What are you going to do
21 about it look.

22 MR. : When you do that, you've got
23 your hand and fists and are leaning forward.

24 He started with the attitude
25 and then he immediately went down into like that

1 football with the fist.

2 MS. : Okay. So what are you going to
3 do attitude his palms are open?

4 : Correct.

5 MS. : And then you said he shifted
6 into this like fist, like --

7 Well, because at this time
8 the officer actually had the gun pointed right at
9 him. I mean, it was obvious that he was getting
10 ready to do something.

11 MS. : Who was getting ready to?
12 The officer. I mean, when
13 the hand was on the gun, the hand was on the
14 trigger, he was ready to go.

15 MS. : Okay.

16 And he was focused. He no
17 longer had that confused just got smacked look, I
18 mean, he was determined to, you know, not --

19 MS. : So when this is all happening,
20 you are watching it. So the officer is in one
21 position and Michael Brown, the big one, is in
22 another position. Where are you, who are you
23 looking as you are describing what Brown is doing --

24 When Brown turned around
25 with the, what are you are going to do about it, or

1 whatever. And then I looked at the officer who had
2 his gun, and by this time he come to the back of the
3 SUV. I did not see him go there, when I turned back
4 to him he was already there.

5 And I looked back at the heavier set one,
6 and he had, by this time bent down in the football
7 position and had his fist made and he began to
8 charge at the officer.

9 MS. Okay.
10 : More of a head type first
11 thing.

12 MS. : Can you describe anything about
13 the heavier set guy, what he looked like, what his
14 facial expression was?

15 : At that time he just looked
16 like he was on something.

17 MS. : What makes you say that?
18 The officer just started
19 shooting him and he didn't do anything. He didn't
20 flinch, he didn't wiggle anyway and he just didn't
21 stop, he just kept going.

22 MS. : Okay.

23 And that is when I said to
24 the guy in the green shirt, I said, oh, my gosh, is
25 he ever go to F, you know, quit.

1 MS. : What did you say?
2 : I said, is he ever going to
3 fucking stop.

4 MS. : What did the man in the green
5 shirt say to you?

6 : If he said anything, I don't
7 know. I mean, it was more of just talking his
8 direction.

9 MS. : Okay.
10 : I mean, he just kept going.
11 And then the gun stopped and he was still alive and
12 if he would have just laid down, and then there was
13 like --

14 MS. : What?
15 A lot of blood.

16 MS. : Okay. So let's go back. The
17 guy starts charging at the officer and when did the
18 officer start firing the gun?

19 : After he turned around and
20 started charging after him.

21 MS. : Do you remember, did the
22 officer give any commands or say anything?

23 He did say something, but I
24 don't know what.

25 MS. : How about the big guy, the

1 heavy set guy?

2 : The heavier guy sounded like
3 he was grunting.

4 MS. : Okay.

5 Now, whether he was talking
6 and I wasn't understanding him, I don't know. To me
7 it sounded like grunts.

8 MS. Were there any pauses in the
9 shots?

10 Yes.

11 MS. : What sorts of pauses?

12 I don't remember the
13 sequence, but I know that there was at least what
14 seemed like a lifetime, but it was probably just a
15 few seconds between up until the last two shots I
16 mean, the shots kind of went boom, boom, four almost
17 right in a row it seemed like, but then there was
18 just enough of a pause and it was just, he wouldn't
19 stop.

20 MS. : What was he doing?

21 He was still going after
22 him, he was still charging, he was bent down more.

23 MS. : And we're talking about the
24 heavy set guy?

25 Correct.

1 MS. And what was the officer doing
2 while the heavy set guy is charging at him?

3 At that time he was, he was
4 standing completely still and he was in focus mode.

5 MS. : At any point did the officer
6 either come forward or come back?

7 He actually came back it
8 looked like, about two steps, there right before the
9 last two shots. It looked like he went back a
10 couple steps and then up one step and then it was
11 just boom, boom.

12 MS. : Tell me about the last shot?

13 That last shot, I didn't
14 like the last shot.

15 MS. : Okay. What about it?

16 Too much blood. And then he
17 went down and he went down face first and I just
18 wanted to leave, so I left.

19 MS. : Okay. Did you the guy go down
20 right away after the last shot?

21 : After the last shot, it was
22 like two shots, the first one he started to go down
23 and the second shot he was down.

24 MS. : Do you see where either one of
25 those shots hit?

1 The final shot, you know, I
2 didn't actually see where it hit, I just seen all
3 the stuff that come out.

4 MS. : Come out of where?

5 His head.

6 MS. : Did you notice any other
7 injuries?

8 I'm not saying there wasn't,
9 I can honestly say --

10 MS. : Okay.

11 I didn't pay any attention
12 if there was.

13 MS. : I understand you wanted to get
14 out of there, but you were at this point still
15 standing on the sidewalk, correct?

16 Correct.

17 MS. : So what did you do, did you
18 turn to the guy in the green shirt and say anything?

19 No, I just left, but I was
20 stuck in that parking lot.

21 MS. : Did you go right back to your
22 car.

23 : No, I went directly back to
24 my car. Not the spots that were up against the
25 building, but the spots that were facing that way.

1 MS. : Okay.

2 I know you are probably
3 turned around. When you come down you have the
4 first building here, you miss that first parking lot
5 and you have that second entrance. When you pull in
6 to the right and I parked facing into the
7 neighborhood.

8 MS. : Okay. Did you ever see that
9 other kid, again?

10 He went down towards the
11 street that QT is on.

12 MS. : West Florissant.

13 Yeah, I don't know the
14 street name.

15 MS. The street that you came
16 from?

17 : Correct. He took off his
18 shirt and he stripped down to a, my calls them
19 wife beaters. I don't know, the tank tops.

20 MS. : Did you see him actually?

21 : Yeah, he took that off right
22 away.

23 MS. : When did he, I know you said he
24 ran away, when did he reappear, when did you see him
25 again?

1 : He reappeared real close to
2 that guy in the green as I was leaving the parking
3 lot because when I was in the parking lot, I backed
4 up this way with my rear end towards the heavier set
5 body and I started to go this way, and he was like
6 right there at that time, he had just reappeared.

7 MS. : So how much time had passed
8 from the time of the final shot and to the time that
9 you saw this kid reappear?

10 : 15 seconds, 30 seconds. I
11 guess. I don't know. It is in 20, 30 feet for me
12 to get over to my car.

13 MS. : Okay. Did you notice him
14 changing his shirt?

15 He had taken his shirt off
16 and he had drawn it over his left shoulder.

17 MS. : You are positive it was him
18 or someone that looked like him?

19 No, I was positive.

20 MS. : And then what you are saying.

21 : Correct.

22 MS. : At any point did you see any
23 other police officers around?

24 There were two officers that
25 arrived, but I won't want to swear to when they

1 arrived. I remember two showing up, I remember one
2 having his gun drawn, but not firing his gun but I
3 don't remember because I don't remember when they
4 showed up.

5 MS. : What about the officer that
6 fired the shot, after he fired that last shot, what
7 did he do?

8 He looked like he was going
9 to throw up. He didn't look good. I mean, he just
10 didn't look, um, I don't know.

11 MS. : Not how he looked, like what
12 did he do, what were his actions?

13 : What was his actions?

14 MS. : He just fired the last shot and
15 what did he do?

16 I don't know, I was leaving.

17 MS. : He fired the last shot, you saw
18 the big guy fall to the ground.

19 Correct.

20 MS. And then what do you remember
21 about the officer?

22 Nothing really. I mean, he
23 just kind of, I mean, the shot went in and I left.
24 I didn't focus on anything or anybody any more after
25 that.

1 MS. : Okay. So you left, you went
2 back to the QT and asked for directions, correct?

3 : But I had to go through the
4 neighborhood.

5 MS. : When you asked for directions,
6 what did you ask for directions to?

7 To nearest highway, I wanted
8 any highway.

9 MS. : Okay.
10 And the guy told me to make
11 a right here and just go till you get to 270.

12 MS. : And why didn't continue to go
13 to your friend's.

14 I just wanted to go home. I
15 didn't want anything to do with anybody.

16 MS. : Okay.
17 I get on 270 and actually
18 went the wrong way and again, and then got off and
19 went back the other way.

20 MS. : When you got home, what did you
21 do?

22 When I got home, what did I
23 do. I locked myself in my house for like two weeks.

24 MS. : Why?
25 : Don't want to go outside.

1 MS. : Why?

2 : Just, that was just a lot of
3 stuff.

4 MS. : Can you explain to us what you
5 mean?

6 There's just a lot of blood.

7 MS. : A lot on the roadway that day?

8 Uh-huh. There was just,
9 this was just a lot.

10 MS. : I know, I don't know whether
11 I'm asking you a hard question or I'm asking a
12 question that should be obvious, explain to us what
13 you mean. You said you have kids, right?

14 : We have , but I only
15 have that still live in my home.

16 MS. : Okay. So when you say you
17 locked yourself in your house for two weeks, did you
18 literally not go out for two weeks?

19 No, I didn't leave my
20 complex for two weeks. I didn't have any
21 communication with anybody or go out. I took my
22 kids to and from school and took them to their
23 activities right there in

24 MS. : Did anybody in your family or
25 anybody that you know that you talked to anyone

1 about what you saw?

2 : I talked to my ex-husband,
3 but he swears up and down he doesn't remember the
4 conversation. So I don't know. But my ex-husband
5 is heavily medicated, so I can fully understand him
6 not.

7 MS. : Heavily medicated with what?

8 : He's and
9 he's on like three or four different medications.

10 MS. : Okay. When did you tell him
11 what happened?

12 : Almost immediately after
13 because I gave him step by step instructions on how
14 to get there and everything that happened.

15 MS. What do you mean?

16 : I told him everything. And
17 the first thing he said was, you know, better not
18 tell nobody.

19 MS. : Why not?

20 Because he doesn't want
21 anybody to cause any problems for the .

22 MS. : Why did you think your
23 would have problems?

24 By this time, I mean, this
25 was because that happened Saturday, this would have

1 been Sunday, and by this time you already had death
2 threats on whoever did it, I guess, is what he says.
3 I don't know, we don't have cable.

4 MS. You don't have cable, but do
5 you have the internet?

6 : Yes.

7 MS. : Do you look at the news at all?

8 : I did for about the first
9 week and then it drove me nuts and that's all there
10 is.

11 MS. : Did you consider reporting what
12 you saw to either St. Louis County or the FBI, it
13 took you a while to come forward?

14 It's been a long time. I
15 didn't consider it, not really at first.

16 MS. : Why?

17 : Because I didn't want
18 anything to do with it. In my opinion, and this is
19 just my opinion, I felt like the officer does his
20 job and it just kept going on, and on and on and on,
21 and it was like.

22 MS. : Yeah, well, I guess this is my
23 question. You said you were (inaudible) you know
24 where the attention was?

25 That is where I learned the

1 name and which one was which.

2 MS. : So not only was there a lot of
3 attention nationally and all of that, there was
4 actually riots going on and not far away from where
5 you live, right?

6 : Yeah, I -- I knew, I heard
7 about them.

8 MS. : My next question is right when
9 you came in earlier, you know, from your dad to come
10 in and do the right thing and that's why --

11 There is a difference.

12 MS. : All right. So explain it to
13 us.

14 You do what's right and
15 that's what ultimately made me come in. But at the
16 time I just, I mean, at the time I just didn't want
17 to be in the middle of it. I still don't want to be
18 in the middle of it.

19 MS. : I don't think nobody ever does
20 no matter what the investigation, right, whether it
21 gets media attention or not. But so -- so giving
22 what you're saying where your dad, you know, tells
23 you and all of that and doing the right thing, but
24 you're saying it never even dawned on you to come in
25 and report it?

1 I didn't say it didn't dawn
2 on me, I mean, yeah, because it's, you don't get
3 into the middle of an officer and his job. Do you
4 know what I mean? Does that make sense?

5 MS. : I understand what you are
6 saying, but yet --

7 : That's what finally broke me
8 was the fact that it just kept going and going and
9 going. Every time you logged onto Facebook or any
10 of the news websites, that's all there was. Nothing
11 existed but Ferguson.

12 MS. : Okay. What prompted you to
13 call St. Louis, that's what you did, right, you
14 called St. Louis County too, right?

15 Correct.

16 MS. : So what prompted you to call
17 them?

18 I actually called a few
19 times before that and then I guess I made a comment
20 that went too far.

21 MS. : What sort of comment?

22 I have no idea. I called
23 Clayton and made the comments, you know, about the
24 situation.

25 MS. : Like what, like what sorts of

1 comments? You don't have to tell me like word for
2 word.

3 : Just that the officer had
4 done his job and that, you know, he had been hit. I
5 don't know word for word, because this is back in
6 August.

7 MS. So you called Clayton, you
8 called Clayton where?

9 : From my cell phone.

10 MS. Okay. Did you call the police
11 department?

12 Clayton nonemergency police
13 department.

14 MS. : Okay. You did this how soon
15 after the shooting?

16 : Probably within the first
17 day or two, well, Tuesday, so one, two, I believe
18 the first three or four days.

19 MS. : This is why I'm confused.
20 Because first you are saying you didn't really
21 consider reporting it, but yet you were calling
22 information out and then commenting. So tell me
23 what's going on --

24 But when I commented, I did
25 not give them my name. I did not want anything to

1 do with it, it is a different type of violence, it
2 is a different type of people.

3 MS. : What do you mean?

4 The situation is scary.

5 MS. : We are not judging you at all,
6 we just need to know.

7 It is not the environment
8 that I grew up in.

9 MS. : What do you mean by that?

10 : It is just not the
11 environment I grew up in. I grew up, you know, from
12 the day I got at five. I grew up right
13 there by and that's where
14 I spent my whole childhood,

15 It was just different, you know.

16 I remember the day I got stopped for
17 jaywalking when I was 13 and the officer threatened
18 to turn me over my knee and take a belt to my rear
19 end, and that was just the way times were back then.
20 And we didn't dare tell them no, it was yes, sir, or
21 we caught it, you know, we got it. If we got in
22 trouble outside the house, we got in trouble inside
23 the house for disrespecting our elders or something
24 else.

25 So to me up there it is just not --

1 MS. You don't think there is any
2 repercussions for their actions, for anyone's
3 actions.

4 : What do you mean?

5 MS. : Well, you said an officer
6 stopped you for jaywalking and if you did something
7 wrong, you respected it. But if you got in trouble
8 there, you are getting in trouble at home.

9 Right.

10 MS. : And you're saying that's
11 different because people in North County don't have
12 responsibilities for their actions?

13 : It is not so much North
14 County as it is the times.

15 MS. For anyone?

16 The situation that I had
17 witnessed is not the same as what it was, is not the
18 environment that I live in.

19 MS. So you didn't want to tell us
20 --

21 : I didn't want anything to do
22 with it, I still don't. I know it doesn't make any
23 sense. I want to tell you because it is the right
24 thing to do. I don't because I don't want to get in
25 the middle of it.

1 MS. : And you're not alone, that's a
2 common feeling, like I said, for anybody that ever
3 witness's something. You have to spend the time
4 talking to police officers as well as prosecutors.

5 You guys are nice, but you
6 make me nervous.

7 MS. : I'm glad we are nice. Why do
8 we make your nervous?

9 Police make me nervous, and
10 you are higher than the police, that makes me a
11 little extra nervous.

12 MS. : We are trying to find out what
13 your motivation might be. As prosecutors,
14 especially, we have to try to figure out what kind
15 of case we have, if we can put a case together.
16 When we speak to witnesses, everybody has a reason
17 why they say something whether they're telling the
18 truth or they have other motivation behind it.

19 So when we have somebody who is telling us
20 what you are, takes you five weeks to come forward,
21 we just want to understand what was going through
22 you in those five weeks. That means you ultimately
23 say I am going to tell you who I am.

24 Honestly, this may sound
25 corny, but I did a lot of praying.

1 MS. : Okay. Tell us about that.

2 That's different from what you are saying now to us,
3 I didn't think about it, if you were praying about
4 it, you were thinking about it.

5 : I did do a lot of praying,
6 especially at night. And I had been staying up till
7 3, 4, or 5 in the morning. And then I wouldn't be
8 able to get up in the morning.

9 MS. What would you dream about,
10 what was your issue?

11 : Just going over what I had
12 seen step by step every night and just asking, you
13 know, I did go in and tell them this or I could go
14 in and tell them that, and not really have to get
15 involved.

16 And then the next day I would pray and I
17 would go like, I can't do that. Cause if I go in
18 there and tell them what I seen, you're going to
19 want to know everything.

20 MS. : So what were you concerned
21 about telling us?

22 Just, you know, I don't want
23 to tell you any of it.

24 MS. : Okay.

25 : I mean, it was just praying

1 do I tell them that I seen it, or did a friend see
2 it, or I don't know, I kept going back and forth.
3 But when I pray, I'm not one of these, my ex-husband
4 is Catholic. I'm not one of those, you know, the
5 rosary and the cross and the holy water. You know,
6 I lay in bed at night and stare at the ceiling and
7 just talk.

8 MS. : Okay. What ultimately made you
9 decide it was actually time to come forward?

10 Just seeing my dad. Not
11 seeing him physically, I mean, he's deceased.

12 MS. : Okay.

13 Just remembering that he,
14 you know, you do what, you do respect. That's it,
15 end of the line. You can screw up in life, we're
16 human, but you are to respect the law, you respect
17 your elders, you were always to speak the truth and
18 if you know something, then you are to come forward.

19 And it is not tattling, it's, you know.

20 : Did you say at the beginning
21 you talked to after this?

22 Correct.

23 : What did you tell her?

24 I told her I got lost up in
25 the Ferguson area and that's all I said. She never

1 really asked and we agreed that we would get back
2 together, but we never have, but she --

3 : Does she know at all about
4 this, about the shooting?

5 : I didn't tell anybody except
6 for my ex-husband.

7 : Why did you tell him?

8 I had already told my
9 ex-husband and he told me not to tell anybody and
10 then I never told anybody after that. I mean, I
11 live right next door to several county officers and
12 I never told them either so.

13 : And , she went to high
14 school with you?

15 : Correct. Not the earlier
16 grades, it is whenever, I think they call them
17 whenever they bring, you have no idea.

18 So it would have
19 been like 83, '84 when they started

20

21 : Okay. This is at

22

23 Correct, that's where we
24 met.

25 : is that

1 correct?

2 Correct.

3 : Was she the same year as you
4 in school?

5 Yes, but I had been held
6 back a year, so technically she would have been a
7 year younger. The way my birthday fell, I should
8 have graduated when I was 17, but because I was held
9 back in the first grade, I became 18.

10 : Okay. You mention you have
11 her number at home?

12 Correct.

13 : You have her email address
14 also?

15 At home, yes.

16 : You said you sent her an
17 email also after that?

18 Yes.

19 : Did you say anything in the
20 email about this?

21 I emailed her the day I got
22 lost. I got lost and I will get in touch with her
23 in a few days.

24 : Do you still have that
25 email, do you know?

1 : That way we don't have to
2 start it over and all that.

3 : Okay.

4 (Break in the interview.)

5 MS. ALIZADEH: At this point they take a
6 break for a few minutes. It is 12:06. said
7 your lunch was supposed to be here at noon. She's
8 not here, so I think she might have gone to go get
9 it. Do you want to fast forward past the break and
10 keep listening until she gets here or you want to go
11 to the bathroom and kind of --

12 How much time is left?

13 MS. WHIRLEY: We got through 55 minutes.

14 MS. ALIZADEH: About another 40 minutes.

15 MS. WHIRLEY: Do you know where to pick up
16 at?

17 (Continue recorded interview of
18)

19 When I get nervous I have a
20 tendency of cracking my knuckles, so I apologize in
21 advance. You are going to hear a lot of that later
22 on.

23 : So we just have some more
24 questions to just help us understand some stuff.

25 Okay.

1 : So can you describe again how
2 you left the complex after the shooting?

3 : Yeah. When I left, I went
4 first, second entrance, I went from here and went
5 over this way. I don't know, I'd have to look at a
6 map because I don't remember, you know, zigzag
7 because I popped out in the third parking lot is how
8 I popped out.

9 : You said something about a
10 circle that you went around?

11 : Right, well, I went to the
12 right and then I know I went to the left, and then I
13 went down a bunch of different streets and I ended
14 up on the street that went like this.

15 : Okay, a circle.

16 But you can drive around it
17 and if I remember correctly, it was a parking lot,
18 like you can park, but you drive around it. And
19 then there's some buildings right here and I turned
20 that way and then I made a left and that street
21 dropped me off on the side of QT.

22 : Here is the problem that we
23 have.

24 That's what I remember.

25 : You are saying you came into

1 the apartment complex from the direction that QT WAS
2 in, right?

3 Right.

4 : And you pulled out of the
5 lot and then you saw all of this?

6 Well, I couldn't, I'm sorry,
7 what?

8 : And you saw all of this that
9 we've talked about, right. You go back to your car
10 and then when you went to leave there, did you turn
11 the opposite way of the way you came in or did you
12 go back the way you came in?

13 I couldn't go the way I came
14 in.

15 : Why is that?

16 : It was blocked.

17 From the police incident,
18 the shooting incident?

19 Right. Here is the building
20 and the entrance and another, you know, you had the
21 parking lot here and here, or whatever, and building
22 right here. And the officer's car was here and the
23 heavier set Brown was like here, there was no
24 getting in and out of this parking lot.

25 : Okay. So where you were in

1 the parking lot was past where the body was and
2 where the police car was, so you had to go the
3 opposite direction of the way you came in?

4 Right, I had to go out, I
5 popped out over here in this third parking lot.

6 : Uh-huh.

7 Or whatever..

8 : Okay.

9 Well, you couldn't go in or
10 out. You couldn't go back the way that you came
11 into the apartment complex; is that right?

12 I couldn't go back to the
13 street QT was on, no.

14 Okay, that's what I'm asking.
15 So you couldn't go back the way that you came. So
16 you went the opposite direction --

17 : I went into the --

18 : You went further into the
19 complex?

20 Correct.

21 And then back there you were
22 able to find a way out onto the street where QT is.

23 Right, correct.

24 : And that was around a circle
25 drive?

1 I remember the circle drive.
2 I don't know all the different streets I took.
3 Because I zigzagged through there for about 15 or 20
4 minutes going up and down streets. I remember a
5 couple that dead end into parking lots and you go
6 down it and just dead end into a building, and then
7 I would turn around and go back.

8 You never came back there, I'm
9 sorry.

10 MS. : I'm sorry, you said dead end
11 into a building, what kind of building?

12 Apartment building. If you
13 go down and you make --

14 MS. How many story apartment?

15 I don't even know. I just
16 turned around.

17 MS. : It was at least two or three
18 stories?

19 I just turned around. I
20 went down to that stop and I made a left and then I
21 know I made the first left and that's where I
22 couldn't go. Because I had to turn around and I
23 went back and I went, I don't know where I went.

24 MS. : Was it all Canfield
25 Apartments, they all look pretty similar?

1 At that point, yeah, they
2 all look the same to me. I don't know, I just
3 wanted out of there. But I didn't go back to the
4 street that QT is on the same way I went. I ended
5 up way over here.

6 MS. : I just want to explain to you
7 a little bit, you understand that part of what we do
8 here is we have to evaluate, you know, basically
9 every statement a witness gives us, correct?

10 : Correct.

11 MS. So part of us doing that is
12 just why we are going through that with you is just
13 saying, okay, you were here and turned around and we
14 know you were here.

15 Because sometimes people will say how does
16 she know what happened she actually was never there,
17 she doesn't live in the area. What we are trying to
18 establish right now is that you, in fact, were
19 there, okay?

20 Okay.

21 MS. : That's just why we are
22 asking.

23 Okay. I can't give you step
24 by step instructions.

25 MS. : That's not what we are

1 asking.

2 I just know for a fact that
3 it wasn't the same way I came in.

4 : Our job as prosecutors, you
5 know, we're trying to decide, you know, we're among
6 the people who would decide whether this case is
7 charged or whether it is not or whether it would go
8 to trial or not, okay?

9 : Okay.

10 So we have to evaluate
11 witness as we sit here.

12 : She's making me nervous like
13 I told her the wrong way.

14 : Oh, no.

15 I only know I went that way.

16 : We're not worried about the
17 details when you turn left or right whatever.

18 : Okay.

19 : There are a few things that
20 do concern us some, okay, and just to be upfront
21 with you.

22 Okay.

23 : We want to let you know that
24 basically what you are telling us is that you went
25 further down into the apartment complex and you were

1 able to get out that way without going back the way
2 you came?

3 Correct.

4 : There is no way out that
5 way, that's the thing. We've got investigators who
6 have been up there plenty and know all of those
7 streets and --

8 Yeah, there is because when
9 you go around that thing, there is buildings and
10 buildings and you go right through that parking lot.

11 : Uh-huh.

12 And it pops out on a street
13 that goes along the QT.

14 MS. : Right now, here is kind of a
15 map of the area. I think that's the circle you are
16 talking about, here is Canfield Drive, here is the
17 way -- you can't get, there is a blockade here and
18 there is a blockade there. The only way to get out
19 once you go down this street is to go all the way
20 down here.

21 And it has been that way a long time, long
22 before August 9th and it is that way today. You
23 cannot get out through that circle.

24 Okay. Well, I came out
25 right there because QT is right there.

1 MS. Right, correct, but you
2 cannot get there from these two streets, it is
3 impossible.

4 And there is around the
5 corner I went somewhere because --

6 MS. The street, the QT goes here
7 and you cannot get to those streets. There are
8 blockades, because we've had investigators try to
9 get out on Canfield and you just can't.

10 I don't know, I know for a
11 fact I popped out on the side of QT.

12 MS. : Okay.

13 I can't change that because
14 that's where I popped out at. How I got there, I
15 don't know, but that is how I came out.

16 MS. You have a tremendous level
17 of detail in some respects, but then very little
18 detail in very simple things that I'm not quite
19 understanding.

20 I don't know the area. I
21 apologize if I'm screwing it up, I just remember I
22 came out alongside QT.

23 MS. Right.

24 I know I didn't go the same
25 way that I did. Did I zigzag and end up how I got

1 there, I really don't know.

2 : That's just an example, I
3 mean, there are a few other things.

4 I could go back up there,
5 not that I want to, but I could.

6 : Let me ask you this, we
7 talked about your computer and your emails earlier.
8 You think after you leave here you can get us
9 email address and phone number?

10 Yes, sir.

11 : Would she tell us that you
12 were coming to see her that day?

13 Um, I don't know what she
14 would tell you, but she definitely tell you that I
15 had, we were going to, oh, yeah, okay.

16 Did she know to expect you that
17 day if we asked her to come in and we said to her,
18 were you expecting your friend to come visit
19 you on August 9th?

20 I don't know.

21 : What would she say?

22 She knows I was on my way.

23 : What were the two of you
24 going to do that day?

25 She has a the same

1 age as my and we really want the two kids
2 to meet, but I wanted to get to see her, I haven't
3 seen her since 1988.

4 Why do you hesitate about what
5 she'd answer, what would you expect to say?

6 Were you expecting? I don't
7 know if she'll remember if she was actually, because
8 it was nothing, we had her address, I told her I was
9 going to try to stop by. You know, did she really
10 expect me at a given time on that day? I don't
11 know. But she will be able to tell you that she
12 knew that I was headed that way that day after the
13 fact, does that make sense?

14 : She knew you were on your way?

15 I don't know what she knows.

16 : So you didn't make a plan --

17 It wasn't an actual, I will
18 be here at 2:00 p.m., I will be here at 1:00 p.m.

19 : Had you emailed her beforehand
20 to say I might stop by?

21 Yes.

22 : So that email should be on your
23 computer too?

24 Yes, ma'am.

25 : Would you give us permission to

1 look on your computer?

2 Yes.

3 : What if we looked at your
4 search history, were you doing a lot of reading
5 about the case and looking at articles about it?

6 I was for about a week or
7 whatever trying to find out as much information as I
8 could as far as, you know, where was it going.

9 : What about like in the last few
10 days or in the week or so?

11 It would have been just this
12 past week.

13 : Did you read about it in just
14 this past week?

15 As far as like what, are you
16 asking if I what?

17 : Did you do internet searches
18 about the Ferguson shooting, about Dorian Johnson,
19 about Michael Brown?

20 I did maybe one or two
21 searches about Dorian Johnson, that's the skinnier
22 one.

23 : Uh-huh.

24 (Stopping the audio recording.)

25 MS. ALIZADEH: This is Kathi Alizadeh. It

1 is 12:18 on October 23rd. We are going to go ahead
2 and break for lunch because your lunch is here. We
3 still have a good 20 some minutes maybe to finish
4 this statement. So rather than let you get hungry,
5 we are going to feed you. And go ahead enjoy your
6 lunch and let us know when you are ready to resume
7 and we will finish the playing of the statement and
8 then we'll have testify, all right.

9 (Lunch recess taken)

10 MS. WHIRLEY: We're resuming at
11 approximately 1:18 p.m. October 23rd, 2014. We're
12 resuming the statement of . We
13 stopped at 11237. And then it kind of skipped a
14 little bit. I'm at 11241. I'm going to try to get
15 back a couple seconds and see if that will be easy.
16 Sometimes not too easy. It is 11229 is as close as
17 I can get.

18 (Resuming of the playing of the audio
19 recording of after lunch recess.)
20 : I believe maybe one or two
21 searches about Dorian Johnson, that's the skinnier
22 one. And then when you do a search for any of that,
23 the easiest way to do is just type in Mike Brown
24 because everything comes up then.

25 MS. : You think you have done it in

1 the last few days?

2 Yes.

3 MS. : You did some searching before
4 you talked to the County detectives?

5 Um, yeah, yes, I'm sorry.

6 MS. : Do you remember a specific
7 articles that you read?

8 No, I don't do well reading
9 and this is why I told, that's why I was held back
10 and that's why I told the officer that I didn't
11 think I was the best witness.

12 MS. : All right. Can I ask you
13 something about that?

14 Because of the reading.

15 MS. : What do you mean about the
16 reading, why you wouldn't be the best witness?

17 Reading is
18 not the easiest thing.

19 MS. : Okay.

20 I mean, it's, it does not.
21 And then when I start to read the words get jumbled
22 and I get bored.

23 MS. : Okay.

24 : I don't know if that's
25 or what, but I become frustrated with it and I just

1 won't read it. I'll skip and I'll get hit and miss
2 stuff, and then I will just say forget it and I'll X
3 it out.

4 MS. : What about, do you take any
5 sort of like, is there any reason that medication
6 would affect your ability to remember things or
7 recall things or receive things?

8 I went to through the
9
10

11 MS. : Okay. You said somebody was
12 born in ?
13
14
15
16
17
18

19 MS. : You said
20 ?

21 It was a head-on collision.

22 MS. : Did you have a traumatic injury
23 from that?
24

25 MS. :

1 I had
2 and then the short term memory still is
3 affected, and then the word thought process, like
4 what's in my brain doesn't come out of my mouth
5 properly.

6 MS. : Can you tell me about the short
7 term memory, what kinds of stuff do you forget?

8 I get lost really easy.

9 MS. : Okay.

10 For a while it was really
11 bad. Like I would go for a walk, I grew up in
12 at the time of
13 the accident. And I took a two block walk to
14 and got lost and didn't know how to
15 get home.

16

17

18 MS. : How does that affect your
19 memory on a day-to-day basis?

20 On a day-to-day basis, I
21 will never remember your name, numbers are
22 ridiculous. I will never remember numbers. Unless
23 I deal with something day-to-day or it's a traumatic
24 experience, 99 percent of the time I will forget.

25 MS. : Okay. And so is it possible

1 that there were things you forgot from this that you
2 want to refresh your memory by looking at things to
3 make sure that your memory stayed intact for that?

4 You want me to look at
5 things?

6 MS. : No, I want to know was your
7 memory, does your memory problems affect --

8 My memory was affected by
9 where I was standing because I remember standing in
10 front of a building, with the parking lot and a
11 parking lot and a fire hydrant across the street.
12 But I kept, I remember being on the officer's
13 driver's side. But I could not remember, you know,
14 which parking lot or which way I went to get back to
15 QT.

16 MS. : Do you take medication?
17 Not any more. I used to
18 have to take

19 MS. : Do you take any sort of
20 medication now that would affect your ability to
21 remember things or --

22 No, no, I'm not on any
23 medication, no.

24 MS. : Okay. One of the questions I
25 have was the guy that you spoke to that you were

1 going to ask directions for, what did you say he was
2 wearing?

3 Heavy set, green shirt with
4 braids.

5 MS. : Okay. So you know before
6 had mentioned there were things we were having
7 trouble kind of putting the pieces together and in
8 your previous statement when you spoke to the guy
9 you described this guy as wearing a, the same color
10 wife beater shirt.

11 That's what Dorian Johnson
12 had on.

13 MS. : Okay. You also said that the
14 guy that you were talking to was wearing that wife
15 beater shirt.

16 Okay. I don't, I know he
17 had a green shirt and he was heavy set.

18 MS. : Okay.

19 I might have talked to
20 somebody else.

21 : The searches online that you
22 may have seen, does this look familiar to you at
23 all? Would you have seen that if you were
24 searching, does that look familiar to you?

25 Yes.

1 : Okay.

2 Because I was trying to
3 figure out if that was the gold thing that I had
4 seen.

5 : Okay.

6 : That's what I asked you before,
7 right, that's what I was wondering if you used -- if
8 you looked or used the article.

9 I'm sorry.

10 MS. Did you look online to remember
11 things?

12 Yes, yes, ma'am because I
13 remember the gold thing and the officer's car. I
14 remember it coming off, a gold thing coming off
15 Dorian's right wrist and, yeah, I remember looking
16 at this.

17 : Okay. So what did you search
18 to get to that article?

19 I have no idea, Mike Brown,
20 Mike Brown shooting or Mike Brown shooting in
21 Ferguson.

22 I think I searched the name Darren Wilson
23 a couple of times because I was trying really hard
24 to figure out how

25 You know,

1 but other
2 than that, I've never searched.
3 : Did you say earlier
4 the friend that you were going to go by her house,
5 you
6
7 : Is that when you
8 ?
9
10 : Okay, all right.
11 : How did you guys get in contact
12 initially?
13 Facebook.
14 : Okay.
15 She's on my friends list.
16 : Okay. So you know what,
17 (inaudible) you give us to look at?
18 : Facebook, oh, yes, ma'am.
19 : Okay. That's just an article
20 we're showing you.
21 : Can we take one more quick
22 break, I don't want to take up a lot of your time.
23 If we just pause for a minute, we'll be right back,
24 okay.
25 Okay.

1 (The interview takes a break at this
2 point.)

3 (Resuming of the audio interview of
4)

5 : , we're going to wrap
6 things up here in just a minute, thanks for your
7 time.

8 Okay.

9 : you know what, we have
10 been through your account, obviously, especially the
11 news article we just showed you. You know what,
12 here is the thing, I know there's so much been going
13 in the community around here and people that just
14 want to help in either way. And so I just need to
15 ask, what you told us sounds a lot like what we have
16 read in the newspaper.

17 I haven't read any of that,
18 I swear to God on a stack of Bibles, I looked at
19 pictures to try to figure out which way I left the
20 neighborhood and where I was parked.

21 : We know that you looked at that
22 article that we just showed you because we just
23 showed --

24 I looked at the picture, I
25 swear, I swear I did not read any articles.

1 : We know that you read articles,
2 and that's fine.

3 Well, no, like this, I know,
4 yes, I looked at that, I looked at that multiple
5 times because I was trying to figure out if that's
6 the gold thing that I seen.

7 : What we are trying to
8 determine here, and you're not in any kind of
9 trouble.

10 I swear I have not --

11 : That's fine. You are not in
12 any kind of trouble. What we need to be able to do
13 out of fairness to you and out of all of the
14 witnesses to this, okay, is just to be able to tell
15 you is what you are telling us doesn't add up in
16 with some ways, okay.

17 Okay.

18 : And that's our concern.
19 Listen, I know this has been all over the media,
20 it's been all over the internet. And you talked
21 before about how you did go back, and you know, it
22 is human nature to want to go back and look at
23 what's going on about this thing, okay.

24 Right.

25 : Our concern is that maybe

1 you were very much sort of emersed in going through
2 this on the internet, or whatever. And you're hear
3 and you think you are trying to help, but maybe that
4 you didn't see everything that you said that you
5 saw, okay.

6 And it is important for us to be able to
7 determine who is telling us exactly what they say
8 and who might have just seen some things and sort of
9 put those together.

10 I'm not 100 percent sure
11 where I was parked.

12 : That's fine, we're not
13 concerned about where you were parked.

14 Refresh my memory on where I
15 was parked and the MapQuest that you showed me, when
16 you do get down and get close, I used that to help
17 me figure out how I got out of there.

18 : Right, that's our concern is
19 because on a map it looks like you could get out the
20 way that you've described.

21 I don't know how I got out.

22 : Yeah, I understand that.

23 Those are details, okay. The point is are you
24 100 percent sure that you were up there that day.

25 That's our big question, okay. If you're not sure

1 about that, we just need to know that, all right?

2 I was there that day, I just
3 don't remember how I got in and how I got out. I
4 don't remember, you know, I didn't hear words that
5 were said or anything like that. I remember, can I
6 look at this?

7 MS. : Yeah, go ahead.

8 I remember looking at this
9 because I was trying to figure out if that was the
10 gold thing, what it was. And then I remember
11 watching that a half dozen times.

12 : Did you comment on this
13 article, did you send any comments?

14 : When this first happened, I
15 made comments for the first few weeks. Some were
16 really obnoxious, some were pretty vulgar and then I
17 realized that that is not the Christian thing to do.

18 You talking about actually
19 typing comments?

20 On Facebook.

21 : On Facebook, okay.

22 : What sort of comments did you
23 make?

24 I used the N word a few
25 times, a half a dozen times. I used the F word a

1 few times. I was not, I was having a hard time
2 dealing with what I did see and trying to remember
3 things that I knew I seen, but I couldn't remember.

4 : That's what we're worried
5 about. It is understandable you said you have
6 memory problems, if you are trying to fill in the
7 gaps by using the internet and reading things, is
8 that possible.

9 That is possible. I know
10 what I seen though, I know that I seen the
11 altercation in the car and I know I seen the shot
12 that killed him.

13 : But a lot of what you told
14 us today you've actually had to fill in the blanks
15 because your memory problems by looking at the
16 internet.

17 As far as where I park and I
18 how I got in and out, yes. And where I was
19 standing, I remember being in front of that building
20 and the only thing I remember is there was a fire
21 hydrant right across the street, that I do remember.

22 MS. Did you notice any other cars
23 in the area, any other people standing around?

24 When I left over here, when
25 I was over here, there was a really nice yellow car,

1 really nice.

2 MS. It the parking lot or in the
3 street?

4 Half and half. It was like
5 it had pulled in this way, because I couldn't get
6 out that way at first.

7 MS. Out of the third parking lot?
8 Correct.

9 MS. I'm talking about in the
10 area, a lots of people were in that area and you
11 said you saw lots of people around, but other than
12 that guy you were standing right next to as you are
13 watching this scene unfold, did you see cars on
14 either side of the street because it is noon,
15 there's going to be cars there that want to come
16 through.

17 There was that and then over
18 here there was a white car, I think it was a
19 two-door and then there was that really nice yellow
20 car. I remember thinking it was really sweet.

21 MS. Right behind the white car,
22 two-door car.

23 : No, I remember the yellow
24 car being in the third parking lot. Like it just
25 had pulled in.

1 MS. So the white two-door car,
2 was that really close to where?

3 There was another car there
4 too because that entrance was blocked, I could not
5 go out right away.

6 MS. : The third entrance?

7 Correct. The white car with
8 the two door --

9 : this is something
10 else I want to ask you about. These pictures here,
11 neither of those are your car, right?

12 No, I remember being it like
13 white.

14 : I'm talking about your car,
15 would that be your car?

16 Oh, my car. What kind of
17 car is that?

18 : What kind of car is yours?.

19

20 : That's like a small sort of
21 station wagon?

22 Yeah says it's a
23 station wagon.

24 : Okay. But neither of these
25 is your car; is that right?

1 : No, sir. Doesn't look like
2 it, I don't have tinted windows.

3 : Okay. And these are two
4 different cars here.

5 : I thought you were asking me
6 what it looked like the car that I seen.

7 : Yeah, no, I'm talking about
8 your car. Neither of these pictures is your car; is
9 that right?

10 No, sir. My car that was I
11 in was there.

12 : It is actually out there
13 today, right?

14 Yes.

15 : It's a --

16

17 :

18 It is a

19 And that's the thing is, we,
20 you know, were aware of your previous statement and
21 the investigators went back and pulled pictures of
22 any cars that would have been going down the
23 street when all of this happened that day. There
24 doesn't appear to be any car that matches the
25 description of your car. That was another concern

1 that we had as it appears that this car was not
2 there at the time that this happened.

3 Okay, well, I was there.

4 : How do you explain that?

5 I don't know how I got in
6 and out. I don't know what cameras took pictures.

7 : Okay. Is it fair to say at
8 least that at least some of your account you have
9 had to go back and find that information on the
10 internet in order to fill in the blanks; is that
11 right?

12 Yes, sir, because like here
13 I was trying to figure out if that was the gold
14 thing I seen. This one I remember looking at
15 because I was trying to figure out which hand it was
16 because I knew it was the hand that had nothing on
17 it.

18 : Okay. But some of the
19 details in your account you have had to go back on
20 the internet to get those details?

21 Not what I seen, just
22 details as far as the way cars were positioned, yes,
23 and where I was located and how I got in and out of
24 the parking lot.

25 : Some of the other things

1 that you talked about, the bracelet and those
2 things?

3 Well, the bracelet I
4 remember. That I know that he had on and I watched
5 that come off and I don't know if that's it or not,
6 but that's what I was looking for, yes. I was
7 trying to figure out where (inaudible) and so forth.
8 I couldn't remember if it was the right or the left.
9 I couldn't remember actually where it landed, but I
10 do remember it fell off his wrist cause I remember
11 him trying to pick it up.

12 I remember looking at this, I'm sorry,
13 because I was trying to figure out what parking lot
14 I was in.

15 : Okay. You are talking about
16 a picture that's in the article that we showed you?

17 In this one?

18 : Yeah.

19 Is that the same article? I
20 was more into the pictures.

21 : Okay.

22 Because I was trying to
23 figure out, you know, because there's the first
24 building parking lot, parking lot and there is a way
25 to get over to this third parking lot.

1 : All right.

2 So I don't know, I mean, I
3 don't know how I got out. I mean, I could have
4 ended up going in circles and I could have ended up
5 going over here, I don't know.

6 MS. : Just kind of go onto after it
7 happened, you were making some comments, you were
8 really angry. You said you used the N word, what
9 kind of comments would you make when you used it?
10 Word for word?

11 MS. Uh-huh.
12 They need to kill the
13 fucking niggers. It is like an ape fest, and then,
14 it just, it is just not right. It is just not
15 right. So I put my, focused my energy into with a
16 couple of Wilson supporters and we made
17 and we
18 have been collecting donations and we have schools
19 making homemade Christmas cards.

20 : You are doing what you can
21 to help Darren Wilson?

22 Right, I quit posting on
23 any, you know.

24 MS. Okay. But when you did post,
25 can you give me that user name you used? Did you

1 just use your ?

2 Yeah, I don't Twitter, I

3 don't know how.

4 MS. Okay.

5 I think I have Twittered

6 three times in my entire life.

7 MS. : And is your name on ,

8 is it?

9

10

11 MS. :

12 Yeah, my is

13 the blue, .

14 MS. The

15 : . I have no

16 idea what my banner is.

17 MS. : You said EIN number, what is

18 that?

19 MS. : Social Security account

20 number for a business.

21 Right, you can apply through

22 the IRS and make it nonprofit. If you are going to

23 buy and sell and do things, then you need something

24 called a C-3.

25 MS. You got all of that?

1 I don't need a C-3 they said
2 because we're not doing that, all we're doing is
3 straight up collecting donations for, like we have
4 is making homemade Christmas cards.

5 MS. : Okay.

6 is
7 decorating homemade Christmas box.

8 MS. How many people are in this
9 organization that you formed?

10 Three. There is myself,
11 and she is in my cell phone, and then
12 another girl that keeps saying she wants to be in
13 it. I have a ton of emails with her, but her
14 husband won't let her. Her name is

15 MS. : what?

16 I don't know.

17 MS. : Do you have position in this
18 organization, there is two of you?

19 Two of us are the

20

21 MS. : Okay.

22 And the EIN number things is
23 in my name.

24 MS. : What's the
25 name?

1 The page?

2 MS. : Yeah.

3

4 and then it is nonprofit, and we label that it is
5 nonprofit.

6 MS. : You just started this after the
7 shooting?

8 Correct.

9 MS. : How long after the shooting did
10 you start it?

11 I don't know when the
12 was created in August. I don't know when the page
13 itself was created. I believe the was created
14 in August, or whatever. And then it got changed to
15

16 MS. : Okay.

17 Actually, only been doing
18 with that name for what, a few weeks now.

19 : Basically, you are doing
20 what you can to kind of help Darren Wilson with all
21 of these efforts, is that fair?

22 I think a lot of the
23 is kind of selfish. It was more for
24 myself being, because I do support law enforcement
25 and I felt bad with what I had .

1 I can't --

2 : In coming in here and
3 talking to us, are you trying to help Darren Wilson
4 by talking to us here today?

5 I don't know if that helps
6 him or not.

7 : Okay. You mention before
8 that your husband,
9 is that right?

10 Uh-huh.

11 : Have you had any kind of
12 similar issues at all?

13 I was diagnosed as
14 when I was 15.

15 : Okay.

16 I'm not medicated for that.
17 That is one of the things that they say later on in
18 life they said

19 Which also interferes with my ability to
20 focus on reading and so forth.

21 But as I got older and worked my way
22 through therapy.

23

24

25

1 : Okay. Listen, it was good
2 to meet you today and thank you for your time.

3 I'm sorry if I wasted --

4 : No, you didn't --

5 I know what I seen, I know
6 you don't believe me. As far as being out there, I
7 know I probably searched too much to try to refresh
8 my memory.

9 : It is not a matter of believing
10 you, it is difficult when you say to us that you are
11 posting things online that people might consider
12 racist.

13 It is racist and that's why
14 I turned to the other thing.

15 : So you are posting racist
16 things online and you are telling us, you know, and
17 you are telling us, you know, your account and then
18 there are videos that doesn't show your car. And
19 then there is a map that shows you couldn't left the
20 way you left from.

21 I don't know how I left.

22 : But, obviously, we find out
23 what people's motivations are when you say you
24 posted things online that are racist and you come in
25 here and tell us an account that supports Darren

1 Wilson. We're not saying --

2 Well, it is not for Darren

3 Wilson, it is all first responders. Because we do

4 fire department, we do EMS, or whatever, and local

5 law enforcement. We do not focus, we do not post on

6 Darren Wilson.

7 : You raised money for Darren

8 Wilson.

9 No, we're doing it for the

10 local law enforcement that have been dealing with

11 the riots, not Wilson himself.

12 : All right. But as you said

13 in your first statement, I mean, you may not be the

14 best witness because of your memory problems and the

15 other issues that you have.

16 Right, oh, I know that.

17 : Okay.

18 And in part why I didn't

19 come forward.

20 : Okay. I know you said that you

21 think we don't believe you, but do you think overall

22 we treated you fairly here today?

23 Oh, I do yes, ma'am. I have

24 no problems with, you all make me nervous as heck.

25 : Okay.

1 I have no problems with law
2 enforcement, even the officer that was forced to
3 arrest me when I grabbed the wrong checkbook.

4 : Okay. Did we force you to say
5 anything you didn't want to say?

6 No, ma'am.

7 MS. : Okay. I'm going to end the
8 recording. The time 3:52 p.m.

9 MS. WHIRLEY: So that ends the recording
10 of It is approximately 1:43 p.m.
11 October 23rd, 2014. Let me go get that witness.

12
13 of lawful age, having been first duly sworn to
14 testify the truth, the whole truth, and
15 nothing but the truth in the case aforesaid,
16 deposes and says in reply to oral
17 interrogatories, propounded as follows, to-wit:

18 EXAMINATION

19 BY MS. ALIZADEH:

20 Q Could you please introduce yourself to the
21 grand jurors?

22 A My name is

23 Q And do you go by

24 A Yes.

25 Q How old are you,

1 **A**

2 **Q** And whereabouts do you live?

3 **A**

4 **Q** Did you grow up in St. Louis?

5 **A** Since the age of five, yes.

6 **Q** Okay. And I'm going to stand back here.

7 That's because the microphone that's there is not
8 going to amplify your voice. If I can't hear you,
9 then I know they can't hear you. So make sure you
10 keep your voice up loud enough all the way back
11 here, okay?

12 **A** Okay.

13 **Q** Now, you know why you are here
14 today, correct?

15 **A** Correct.

16 **Q** And you and I had a brief discussion,
17 well, earlier today and just now before you came in,
18 right?

19 **A** Yes.

20 **Q** And you had originally made a statement
21 with St. Louis County Police Department detectives;
22 is that right?

23 **A** Yes.

24 **Q** That was when, do you recall?

25 **A** No, ma'am.

1 **Q** If I said September 11th, does that sound
2 about right?

3 **A** I have no idea.

4 **Q** Okay. And then just yesterday you met
5 with some FBI agents and assistant U.S. attorney and
6 an attorney from the Department of Justice and you
7 talked to them a little over an hour and a half; is
8 that about right?

9 **A** Yes, that's correct.

10 **Q** Okay. Now, when you and I met prior to
11 your testimony, I told you how this was going to
12 work in here. That you are going to be under oath
13 and I'm going to ask you questions and Sheila may
14 ask you questions, Miss Whirley, the attorney there
15 you had already met, and then the grand jurors get
16 to ask you questions, okay?

17 **A** Okay.

18 **Q** Did I stress outside to you how important
19 it is that you tell the truth?

20 **A** Yes.

21 **Q** And did I tell you that if you lie under
22 oath, if you intentionally lie under oath to this
23 grand jury, did I tell you what the consequences
24 would be?

25 **A** Yes.

1 **Q** I told you that that's a crime and
2 considered perjury?

3 **A** Yes.

4 **Q** Do you intend to tell the truth to the
5 grand jury today?

6 **A** Yes.

7 **Q** All right. So, why don't you start
8 out by telling the grand jurors back on August 9th
9 of this year, were you still at that time living in
10

11 **A** Yes.

12 **Q** And when we say I assume we
13 are all thinking

14 **A** I guess.

15 **Q** It is not ?

16 **A** Oh, no.

17 **Q** County?

18 **A** Yes.

19 **Q** The

20 **A** Yes.

21 **Q** All right. Was there anything special
22 about that day, that morning, did you have any
23 particular plan or was there something going on?

24 **A** I went to go and I wanted to meet up with
25 an old friend of mine from high school.

1 **Q** And what's the name of this friend?

2 **A** Her name is

3 **Q** And how long have you known all
4 through high school or just at the end of high
5 school?

6 **A** We met in our freshman year of high
7 school.

8 **Q** Were you friends in high school?

9 **A** Yes.

10 **Q** Did you maintain your friendship after
11 high school?

12 **A** Not really. We went our separate ways
13 until we reconnected .

14 **Q** How long ago was it that you reconnected
15 with ?

16 **A** Well, I got my in 2010,
17 so it would have been shortly thereafter.

18 **Q** So you've been communicating with
19 for about four years?

20 **A** Here and there, not on a good friend type
21 basis, no. I mean, , quick messages,
22 you know, she sent me some pictures of her daughter.

23 **Q** All right. And did tell you where
24 she lives?

25 **A** She lives in .

1 **Q** In is the City of St. Louis
2 County?

3 **A** It's in , yes.

4 **Q** Okay. So what made you decide to visit
5 on the 9th?

6 **A** We had talked about getting together and
7 we kept postponing it and I decided I was going to
8 go meet up with her because I wanted to see her and
9 spend time with her before we let our children meet.
10 She has a the same age as my .

11 **Q** And what age is that?

12 **A**

13 **Q** And so why is it that you needed to meet
14 up with her before you would let her meet
15 your , I mean, they're old?

16 **A** I hadn't seen actually hadn't
17 face-to-face seen her since .

18 **Q** And so was there some concern that maybe
19 you didn't want your to be socializing with
20 ?

21 **A** No, I'm just cautious over where my kids
22 go and there are other friends that I have from high
23 school that have drug addiction problems and so
24 forth. I just make sure that before I let my kids
25 go anywhere, I go first.

1 **Q** Did you think that had a drug
2 addiction?

3 **A** No, no, but it's just the way I am. I
4 have to go and I have to see the house, I have to
5 visit and make sure that it is where I want to leave
6 my child for a play date or whatever.

7 **Q** So did you ever consider inviting to
8 come down to your house? I mean, your house, you
9 would know your house is a safe environment, right?

10 **A** The last time I had spoken, actually
11 spoken to her, she did not have a vehicle.

12 **Q** All right. So did you then have your
13 with you on that Saturday when you were
14 going to go visit

15 **A** No.

16 **Q** And so how is it that you and had
17 arranged for this get-together on Saturday?

18 **A** I had told her I was going to pop in on
19 Saturday and she said that was fine.

20 **Q** And was there any other detail about this,
21 like you get there around noon or it would be in the
22 afternoon or?

23 **A** We were going to have lunch together.

24 **Q** Were you, did you go someplace for lunch
25 or have lunch at her place?

1 **A** Have lunch at her place, I guess, but it
2 was never discussed.

3 **Q** All right. Now, is married?

4 **A** No.

5 **Q** Does she have other children besides her
6 old?

7 **A** Not that I know of, not that I've ever
8 heard, no.

9 **Q** So what is her old
10 name?

11 **A**

12 **Q**

13 **A** Yes.

14 **Q** And do you know where she goes to school?

15 **A** No.

16 **Q** What does do?

17 **A** I have no idea.

18 **Q** Is she employed?

19 **A** I have no idea. We haven't been that
20 close since . We were really close through high
21 school and then we went, like I said, we went our
22 separate ways, other than a quick chat here and quit
23 chat there.

24 **Q** You've seen her , I guess,
25 correct?

1 **A** Correct.

2 **Q** Does she post things about herself on her
3 ?

4 **A** Here and there and her .

5 **Q** So you have seen, does she say anything
6 where she's employed, how you can fill out your bio
7 on your

8 **A** I have no idea. I've never looked at the
9 about part of it.

10 **Q** What about a telephone conversation, have
11 you had a telephone conversation with

12 **A** Just one, two.

13 **Q** When did that happen?

14 **A** One happened towards the end of July and
15 then again August 10th.

16 **Q** What was the reason for those
17 conversations?

18 **A** The first one was I was going to come up
19 and just pop in, we could have lunch and I got lost
20 as all get out and I didn't make it.

21 **Q** So the one in July was in order to plan
22 for this, was it a vague plan that you made on the
23 phone conversation in July, or did you say on
24 Saturday the 9th I may pop in?

25 **A** I just said around on that weekend I was

1 going to try to pop in, would she be around. And
2 she said, yes. Because that was a scheduled weekend
3 for my kids to go with their dad.

4 Q So driving from all
5 the way up north, I mean, that's not right around
6 the corner, obviously?

7 A Right.

8 Q Did you call her before you left to make
9 sure it was still on or that she was going to be
10 home?

11 A No.

12 Q What about, when you guys made this plan,
13 did she give you directions on how to get to your
14 house?

15 A I Googled it to a point and then got basic
16 directions. But I misunderstood the directions and
17 I misunderstood where she lived, so I had it all
18 wrong.

19 Q Had you used Google Maps before?

20 A I have.

21 Q You know when you put in an address of
22 where you're starting, an address of where you're
23 stopping, of where you're going to, it gives you not
24 only a step-by-step, turn-by-turn direction, but it
25 always gives you a map that shows you where you are

1 going, right?

2 **A** Correct, but I had put in the wrong
3 address.

4 **Q** How is it, did you have the wrong address?

5 **A** Yes.

6 **Q** Did give you the wrong address?

7 **A** No, I wrote it down wrong. It is
8 something I do.

9 **Q** So do you recall what the address was that
10 you had written down?

11 **A** The one I had written down at home I think
12 was , but I'm not 100 percent sure.

13 **Q** So you put that address in Google, did you
14 print out directions or get directions?

15 **A** I got directions. No, I did not print it
16 out.

17 **Q** Why not?

18 **A** Because I don't have a printer.

19 **Q** Now, we've already heard that said that
20 you have problems with your memory, did you write
21 down the directions?

22 **A** I wrote down basic directions, not the
23 entire length, no.

24 **Q** Now, we know that you didn't get to your
25 friend that day, correct?

1 **A** Correct.

2 **Q** And you didn't have a cell phone with you
3 when you drove up there, right?

4 **A** Correct.

5 **Q** So how is it that you know that you have
6 the wrong address for

7 **A** How do I know I had the wrong one?

8 **Q** Yeah, you just said that you put the
9 address in but it was the wrong address.

10 **A** Because I never found it. And when I got
11 up there I was told that they didn't know what I was
12 talking about or that address wasn't around that
13 area.

14 **Q** So you assume that meant you wrote it down
15 wrong?

16 **A** Correct. It's common for me.

17 **Q** So did you have a cell phone at this
18 point?

19 **A** I had an inexpensive phone that I had
20 given my old that was using.

21 **Q** So you set out on your own by yourself?

22 **A** Yes.

23 **Q** Drove up to North County?

24 **A** Yes.

25 **Q** From your home ?

1 **A** Yes.

2 **Q** Did you tell anybody that you were going
3 up there like, you know, your other children, a
4 friend or neighbor, hey, I'm going to go up to visit
5 my friend in this afternoon?

6 **A** I don't know that I told them I was going
7 to , I said I was going to visit a friend.

8 **Q** Who did you tell that to?

9 **A** Everybody, that lives upstairs and a
10 woman named that lives in the complex.

11 **Q** So weren't you at all concerned, well, let
12 me ask you this, are you familiar with North County?

13 **A** No.

14 **Q** Do you know the streets and the places up
15 in North County?

16 **A** I know basic directions, but no, not
17 really.

18 **Q** So were you at all concerned that you were
19 going up to North County and to a place that you
20 were really not familiar with to visit a woman you
21 haven't seen in, I don't know, since ?

22 **A** I know it sounds silly, but no, I do it
23 all the time.

24 **Q** And so when you got up there, when is it
25 that you first realized that you didn't know where

1 you were going?

2 **A** I don't remember the name of the street.

3 I think it was Florissant Road, I had gotten off the
4 highway and I had gone all the way down that street.

5 **Q** So which highway did you get off of?

6 **A** I guess it is still called 270 up there.
7 I get on at and follow it up.

8 **Q** Do you remember what exit you got off at?

9 **A** No.

10 **Q** The name of the street?

11 **A** No.

12 **Q** So when is it that you realized that you
13 didn't know where you were, right when you got off
14 the exit?

15 **A** About a block after the exit I decided I
16 better stop and ask for directions.

17 **Q** So did you?

18 **A** I went down a ways and asked for
19 directions at QT.

20 **Q** About how far did you go down West
21 Florissant before you stopped at the QuikTrip?

22 **A** I don't know because I went right a couple
23 times and then popped back out onto that other road.
24 So I don't know how far down it was.

25 **Q** So you stopped at QuikTrip and you talked

2 **A** I talked to a gentleman that was pumping
3 gas. When you pull into the QT, when you make a
4 left into the parking lot, the guy was just right
5 there.

6 Q So just some stranger that you approached
7 and said, what did you ask him?

8 **A** I asked him if he knew where, well, then I
9 asked him if he knew where that address was, which I
10 believe is , but I'm not sure.

11 Q And what was his response?

12 **A** He asked to see the address. I showed it
13 to him. He said, are you sure, he asked if I was
14 sure that that was where I was trying to go. He
15 said he hadn't heard of it. And I asked him, told
16 him I had done a couple of turns and asked him which
17 way 270 was.

18 Q So after you left there, did you go back
19 to 270?

20 **A** No, instead of making a right out of the
21 gas station I made a left.

22 Q Was that an error?

23 **A** Yes.

24 Q So you asked this guy for directions and
25 you decide to go back to 270, but right out of

1 QuikTrip you take a left?

2 **A** Yes, that's my short term memory problems,
3 yes.

4 **Q** So then where did you go after you turned
5 left off of, onto West Florissant from the QuikTrip?

6 **A** Another immediate left.

7 **Q** All right. Where did you go after that?

8 **A** That's when I ended up in there.

9 **Q** When you turn, when you pulled out of the
10 QuikTrip, did you pull directly onto West
11 Florissant?

12 **A** It is not that side street, I turned onto
13 the busy road. I guess that was West Florissant. I
14 don't know the street names.

15 **Q** All right. And then you found yourself,
16 you turn left and you were, where were you when you
17 turned left, why is it that you turn left?

18 **A** Because I had felt like I went the wrong
19 way.

20 **Q** Okay. So you were going to turn around?

21 **A** Yes.

22 **Q** So what street did you turn onto, was it
23 the street that led you into the complex?

24 **A** Yes.

25 **Q** So when you first turn onto that street,

1 when you are on West Florissant when you turned onto
2 that street, did you turn right or left?

3 **A** Left.

4 **Q** All right. And so when you then, as soon
5 as you turn onto Canfield Drive off of West
6 Florissant, is that where the apartments are?

7 **A** No, I went down past a few streets first.

8 **Q** Are there apartment buildings or
9 businesses or restaurants or do you recall?

10 **A** I don't remember. I just remember I went
11 down and went past a couple of streets on, I believe
12 it was the right-hand side.

13 **Q** Why would you go past those streets, why
14 wouldn't you turn around, you turned onto Canfield
15 so that you could turn around and go back to 270,
16 didn't you?

17 **A** Yes.

18 **Q** You didn't turn around when you had an
19 opportunity to turn around?

20 **A** I don't -- yes, correct. I don't make U
21 turns in the middle of the street and I don't pull
22 into people's driveways. When I realized the
23 apartments were there, originally, I thought I was
24 just going to turn around in the parking lot and
25 decided to ask for directions again.

1 **Q** So the map that is right here to your
2 right is Grand Jury Exhibit Number 25. Do you
3 recognize this map, the streets, the buildings, does
4 that look familiar?

5 **A** I recognize the buildings, yes.

6 **Q** Okay. Do you see this street that kind of
7 snakes across the whole map, you see that is
8 Canfield Drive?

9 **A** Correct.

10 **Q** To reference and orient you, West
11 Florissant is over here. (indicating)

12 **A** Okay.

13 **Q** And that's to the left side of the map and
14 back here is --

15 **A** The complex.

16 **Q** Well, you are driving further east at that
17 point, okay?

18 **A** Right.

19 **Q** So is it this street that you came onto
20 into the complex?

21 **A** Yes.

22 **Q** Can you use that laser pointer and tell me
23 how far you got before you stopped your car?

24 **A** Before I stopped it?

25 **Q** Where did you go?

1 **A** I parked right there. Right where that
2 car is. (indicating)

3 **Q** Okay. So you drove east on Canfield, did
4 you turn right then on Caddiefield Road?

5 **A** Yes.

6 **Q** You put the laser pointer right here?
7 (indicating)

8 **A** Right, I pulled into that one. There was
9 a lot of vehicles, there was vehicles there that
10 didn't look like, you know, they were busy and the
11 parking lot was full, so came down to this one.

12 **Q** So you took the second right?

13 **A** Correct.

14 **Q** Once you were in the complex?

15 **A** That's what I believe, yes. I was lost by
16 then and that's where I believe I was, yes.

17 **Q** All right. And so when you first pull
18 into the complex, you know, I know that you said
19 that you first saw a police vehicle and there was
20 some boys?

21 **A** Correct. Well, I had already gotten out
22 of my car.

23 **Q** All right. So when you pulled in here and
24 turned right, I have to go like this, right turn
25 onto Caddiefield, at that point you hadn't seen the

1 police vehicle or the boys?

2 **A** I don't know if the boys were there or
3 not, I wasn't paying any attention. I was paying
4 attention to just parking and I had not seen the
5 officer.

6 **Q** As you drove down this way, if there was a
7 couple of guys walking in the middle of the street
8 you would have noticed them, wouldn't you?

9 **A** No.

10 **Q** In the middle of the street?

11 **A** People do that all the time everywhere.
12 You just watch out for them, you don't hit them and
13 you don't pay attention to who they are.

14 **Q** So if there were people walking in the
15 middle of the street, you wouldn't have paid
16 attention to it?

17 **A** I would have paid attention, you know,
18 making sure I didn't hit them. I would not have
19 paid attention to who they were.

20 **Q** Do you remember if there people, boys
21 walking in the middle of the street?

22 **A** There were people walking in the middle of
23 the street down here and then there was people
24 walking in the middle of the street up here. I
25 don't remember if there was some right there or not.

1 **Q** Okay. The people that were walking in the
2 middle of street up here. (indicating)

3 **A** Yes, they were young.

4 **Q** What does that mean?

5 **A** They looked young, under 18. And I won't
6 ask an under 18-year-old for directions, I won't
7 roll up on a child.

8 **Q** Were they boys, girls, ten of them, two of
9 them?

10 **A** Just two boys.

11 **Q** Two boys?

12 **A** They were just walking.

13 **Q** Which direction?

14 **A** Towards that way. (indicating)

15 **Q** They were walking west?

16 **A** Correct.

17 **Q** Toward West Florissant?

18 **A** Yes.

19 **Q** Were they in the street or on the
20 sidewalk?

21 **A** They were in the middle of the street at
22 that time.

23 **Q** Okay.

24 **A** But when I came down around the corner
25 they stepped off to the side.

1 **Q** Those two boys that you saw, were those
2 the two boys that you later describe at the police
3 vehicle?

4 **A** I don't know. They looked young to me, I
5 don't know.

6 **Q** You don't think it was the same?

7 **A** They looked like teenagers. I don't know,
8 I can't say if it was or if it wasn't. I just
9 remember there were two boys there at that time.

10 **Q** So you drove, continue to drive and turn
11 right onto Caddiefield Road, you said you saw some
12 people walking in the street around this area, which
13 would be somewhere between Coppercreek Court and
14 Canfield Court?

15 **A** Correct.

16 **Q** Were they boys, girls, how old, how many?

17 **A** Two or three. I don't remember, I didn't
18 really pay much attention and they look like girls.

19 **Q** All right. So what did you do after you
20 turned onto Caddiefield Road, did you park in a
21 parking spot or did you stop your vehicle?

22 **A** I parked in the parking spot right there.

23 **Q** Okay. Show me again?

24 **A** In these parking lot spots.

25 **Q** Okay. So right around here? (indicating)

1 **A** Yes.

2 **Q** So somewhat on the southeast side of
3 Caddiefield Road?

4 **A** Correct.

5 **Q** And then you say you got out of your car?

6 **A** Correct, because there was a whole lot of
7 people right there and I walked up to the one.

8 **Q** Why did you get out of your car?

9 **A** Main reason was to ask for directions and
10 then I decided to have a cigarette, so I got out.

11 **Q** At this point you know you're lost, you
12 know you turned off of West Florissant and drove
13 straight down Canfield Drive.

14 **A** Correct.

15 **Q** You are trying to find 270, right?

16 **A** Correct.

17 **Q** Why would you just not turn around here
18 and then go back up to West Florissant?

19 **A** My memory on my directions does not work
20 like other people.

21 **Q** Well, you knew your friend was expecting
22 you?

23 **A** Right.

24 **Q** You were going to have lunch with her.

25 You had no way to call her and say, hey, I'm going

1 to be late because I'm stopped, I'm lost, and I'm
2 stopping to have a cigarette, but you just decided
3 to get out of your car and stop, ask directions and
4 have a cigarette?

5 **A** I stop to ask for directions and I went
6 ahead and lit a cigarette, yes. At that time on
7 that day I did not smoke in my vehicle.

8 **Q** Who did you ask for directions?

9 **A** I asked a gentleman that was standing
10 under the tree.

11 **Q** I'm guessing you didn't know him, you
12 haven't seen him before?

13 **A** No, ma'am.

14 **Q** Was it a black man, a white man, Hispanic?

15 **A** African -- black man, African-American.

16 **Q** Teenager, older than me?

17 **A** I remember him being older.

18 **Q** Okay. What did you ask him?

19 **A** I asked him if he knew how to get to the
20 nearest highway. I figure if I can get to any
21 highway, I'd be fine.

22 **Q** What did he tell you?

23 **A** He started to give me directions, but he
24 was looking in the direction of that way as he was
25 talking, so I did not hear him. And that is when

1 all of that other stuff --

2 Q Have you lit your cigarette at this point?

3 A Yes, I have.

4 Q So you're standing there, he's giving you
5 directions, but he's not talking directly at you so
6 you can't hear what he's saying?

7 A Right, right, I could not get step-by-step
8 instructions when he was looking the other way.

9 Q Did you have a piece of paper and
10 something to write with?

11 A No.

12 Q You were just going to try to remember
13 what he was going to tell you knowing that you have
14 a problem with directions and short term memory?

15 A Yes.

16 Q So what happened then when you were
17 standing there talking to this man?

18 A That's when the officer drove up, which
19 I'm not 100 percent sure, I want to say he was like
20 approximately right there when I seen him and he was
21 talking to the two boys. His mouth was moving and I
22 don't know what he said. Then he started to pull
23 forward and when he was about here, he started to
24 back up.

25 Q So you're standing about somewhere in this

1 area under a tree?

2 **A** Correct, like right there. (indicating)

3 **Q** Right at 2960; is that right?

4 **A** Okay, yes.

5 **Q** Does that say 2960, hang on?

6 **A** I can't --

7 **Q** Hold, please, yes 2960.

8 **A** Okay.

9 **Q** So it was right in front of here?

10 **A** Correct.

11 **Q** And so where did the police officer come
12 from?

13 **A** From this way. (indicating)

14 **Q** And what was he driving?

15 **A** It is a big vehicle. I didn't know what
16 kind of vehicle it was at the time. It is a marked
17 police car.

18 **Q** Is it a sedan, is it a van, is it a pickup
19 truck?

20 **A** I know now it is an SUV, at the time to me
21 it was just a bigger vehicle.

22 **Q** Okay. So when he drove up, where does he
23 stop the vehicle?

24 **A** I don't remember the first time. The
25 first time he just drove up and like around this

1 area and said something to the boys and then drove
2 on.

3 Q So where were these boys he stopped and
4 talked to?

5 A In the middle of the street.

6 Q Where did they come from?

7 A I was talking to that other guy, I have no
8 idea.

9 Q It wasn't these kids?

10 A It wasn't those because I believed that
11 they were female.

12 Q It probably wasn't these guys since these
13 guys, they were walking that direction?

14 A I don't know.

15 Q So you don't know where those boys came
16 from?

17 A No, ma'am.

18 Q So when the officer pulled up on them,
19 were they on the side of his vehicle?

20 A I don't remember the first time, the
21 second time they were, they were on the driver's
22 side when he backed up. I didn't pay much attention
23 to anything until the second time around.

24 Q What do you mean the second time around?

25 A When the officer put the car in reverse.

1 **Q** So the officer stopped, talked to the
2 boys.

3 **A** He said something, I don't know what he
4 said.

5 **Q** Did the boys look like they were talking
6 too or did they just keep walking?

7 **A** It wasn't paying any attention to them.
8 He rolled up on them, he slowed down or stopped, I
9 don't know.

10 **Q** And then what happened?

11 **A** His mouth moved and then he started to
12 pull forward and didn't go forward very far and then
13 he put it in reverse and came back.

14 **Q** All right. When he put it in reverse and
15 came back, did he do that quickly, slowly,
16 leisurely, did he spin his tires, did you hear the
17 screech of tires when he backed up?

18 **A** I don't remember. I just know I was
19 talking to that guy. I looked, the officer was
20 talking to him. I looked back to the guy and then
21 something caught my attention and I looked back over
22 there and he was coming in reverse.

23 **Q** So when he reversed, were the boys still
24 in the street?

25 **A** When I looked over there, when he came in

1 reverse, it was like his car was like that and they
2 were at his driver's side.

3 Q So did they stop or were they still
4 walking when he backed up on them?

5 A When I looked back over there they were
6 stopped.

7 Q And how was the officer's car parked, I
8 mean not parked, I know it wasn't parked. How was
9 it when it came to stop?

10 A Like not straight on the street, like he
11 was backing into on the curb.

12 Q So whereabouts was the vehicle when it came
13 to a stop?

14 A I'm not 100 percent sure, but around this
15 area right here. (indicating)

16 Q So if the vehicle had been traveling that
17 direction.

18 A Correct.

19 Q When it came to a stop.

20 A It was pointed --

21 Q I want you to use this. Come up here and
22 show me, I know this is way bigger than the vehicle,
23 but if the vehicle is traveling like this when it
24 came to a stop, how was it?

25 A Just like that. Like it was backing up to

1 the curb slightly with the head of the car going
2 that way.

3 Q Was the front of the car still in the
4 correct lane, the right side lane?

5 A I don't remember, I believe so.

6 Q What about the rear of the vehicle, was it
7 in the other lane at this point?

8 A I don't remember. I know it was like he
9 was backing up to the curb area.

10 Q So do you recall what, tell the jurors
11 what happened then, after he backed up and the boys
12 were at the side of the car?

13 A He said something, I don't know what he
14 said and then the next thing I remember the heavier
15 set one was in the window from his naval up.

16 Q His naval being his belly button?

17 A His belly button.

18 Q So his upper body was inside the police
19 vehicle?

20 A Correct.

21 Q Do you see inside the police vehicle?

22 A No.

23 Q Before he, before the bigger guy put his
24 upper body in the police vehicle, could you see
25 inside the police vehicle?

1 **A** Before?

2 **Q** Yes.

3 **A** Just the side view of the back, side view
4 of the officer.

5 **Q** Was it a man or a woman?

6 **A** It was a male.

7 **Q** White or black or Hispanic or something
8 else?

9 **A** White.

10 **Q** Uniform?

11 **A** Yes.

12 **Q** What color?

13 **A** Blue.

14 **Q** Did he have a tie on his uniform?

15 **A** I don't remember.

16 **Q** How about long sleeves or short sleeves?

17 **A** Don't remember. All I seen were the
18 shoulders.

19 **Q** Well, at some point you see him get out of
20 the car, right?

21 **A** Yes. I don't, I didn't look into the
22 detail of what they were wearing.

23 **Q** How about the officer, was he wearing a
24 hat, like his policeman's hat or a baseball cap?

25 **A** No. The other guy was wearing a baseball

1 cap.

2 Q Which other guy?

3 A The heavier set African-American.

4 Q What color was it?

5 A Red.

6 Q What color were his shorts?

7 A Khaki.

8 Q How about his shirt?

9 A I don't remember, I think it was white,
10 but I'm not 100 percent sure.

11 Q How about the officer, what color were --
12 did he have shorts or long pants on?

13 A The officer? I don't know, I wasn't
14 focusing on him, I was focusing on the heavier set
15 African-American because of what he was doing.

16 Q How about were his pants darker than his
17 shirt, same color?

18 A Who?

19 Q Lighter than his shirt?

20 A I don't remember.

21 Q So after you saw him back up, you saw the
22 bigger guy put his upper body inside the vehicle,
23 what did you see happening then?

24 A I just seen his right hand moving up and
25 down.

1 **Q** Whose right hand?

2 **A** The larger, the African-American, larger
3 one.

4 **Q** Could you tell what it was doing?

5 **A** No.

6 **Q** What about the other boy, what was he
7 wearing, what did he look like?

8 **A** At that time he had a black T-shirt on and
9 he had, his hair was braided.

10 **Q** Braided?

11 **A** I believe, I mean.

12 **Q** What about, what was he wearing?

13 **A** I don't know what color shorts he had on.

14 **Q** But you remember shorts?

15 **A** No, I mean, I don't remember from the
16 waist down, I don't remember the bottoms, I only
17 remember the dark shirt.

18 **Q** So what was the smaller kid doing?

19 **A** When he first went in, when the officer
20 tried to open the door, the heavier set one pushed
21 it shut with his hand open. The second time I don't
22 know if he punched it with his hands or with his
23 stomach. And then by the time he punched it shut
24 the second time, the skinnier one punched the rear
25 view mirror or the mirror that's on the side of his

1 car with his wrist.

2 Q So the skinnier one was up by that side
3 mirror, are you talking about the side mirror?

4 A Yes, right outside the door.

5 Q Did it break the mirror?

6 A Something fell off his wrist and I believe
7 that the mirror broke, yes, but I can't remember now
8 at this point 100 percent sure.

9 Q Did you see glass on the ground?

10 A No, I seen something gold fall off his
11 wrist.

12 Q Off of the skinnier guy's wrist?

13 A Correct.

14 Q And you remember it being gold?

15 A Correct.

16 Q And then what happened then?

17 A He went to bend down to pick it up and
18 that's when I heard the gunshot.

19 Q The skinnier guy went to pick it up?

20 A He went to pick up whatever fell.

21 Q The gold thing?

22 A Yes.

23 Q Did he pick it up?

24 A No, I don't think so. I don't remember if
25 he did or not. I just remember he went down too as

1 he's picking it up.

2 **Q** So were there other cars at this point
3 behind the officer's car or in front of the
4 officer's car, you remember seeing other cars?

5 **A** I only remember seeing, really focusing on
6 two other cars. There were other cars there yes,
7 there were other people there yes, but the two that
8 caught my attention was a white two-door that was
9 catty-corner that was across like approximately
10 right there, in this stretch. And then there was
11 a -- at that time that was the only car I seen. And
12 then after it was all over I seen a really nice
13 yellow car, like a sports car.

14 **Q** That yellow car had nothing to do with
15 what's going on?

16 **A** No, those are the only two vehicles that
17 really, and the white one caught my attention
18 because it was in my eyesight the other one was
19 because of the type of car it was.

20 **Q** What about any vehicles in front of the
21 police officer's car, did you see a blue truck?

22 **A** (Shakes head.)

23 **Q** Minivan?

24 **A** (Shakes head.)

25 **Q** Don't remember?

1 **A** Don't remember.

2 **Q** So what happened then if you get to the
3 point where after the gunshot went off, you said you
4 heard a gunshot?

5 **A** Correct.

6 **Q** What happens then?

7 **A** The skinnier one took off running in that
8 direction.

9 **Q** Toward West Florissant?

10 **A** Yes. And then the other one, he stood up
11 and pulled his shorts up and ran this way.
12 (indicating)

13 **Q** So he ran right past you?

14 **A** Correct.

15 **Q** Was he running in the middle of the
16 street, on the sidewalk, on the grass?

17 **A** He wasn't in the sidewalk or the grass,
18 but he wasn't really in the middle of street. He
19 was like coming, you know, he ended up in the middle
20 of the street, but he started over here and went
21 this way. (indicating)

22 **Q** When you first heard that gunshot ring
23 out, did you recognize it as a gunshot?

24 **A** No, I had never heard a gun before other
25 than on TV. Common sense told me it was.

1 **Q** So after you saw the bigger guy running
2 away from the police vehicle, what did the officer
3 do?

4 **A** He got out of his car and he had his left
5 hand on his face and the gun in his right hand and
6 when he stood up, he was wobbling from his left foot
7 to his right foot. He said something, I don't know
8 what he said. All I remember hearing is the word
9 shoot. I didn't hear any other words before that.
10 And he had his hand on his gun and he was pointing
11 it right at the larger of the African-Americans.
12 And after he said the word shoot, that's when the
13 young man turned around.

14 **Q** The young man, the bigger guy?

15 **A** Yes.

16 **Q** And when he turned around, did he have his
17 hands up?

18 **A** When he first turned around, he turned
19 around with his hands swinging and they were more
20 down like this with his palms open in the form of an
21 attitude that you get from a teenager. Like, you
22 know, what are you going to do about it.
23 (indicating)

24 **Q** Okay. When he swung around then he, point
25 with the laser pointer where he was when he turned

1 around?

2 **A** Approximately like right there.

3 (indicating)

4 **Q** So, again, that's like right in front of
5 you?

6 **A** Correct. I've more over here though, but
7 yes.

8 **Q** Did you see any bullet injuries on him at
9 that point, blood on his shirt?

10 **A** I was not looking.

11 MS. WHIRLEY: Excuse me, 2:30.

12 MS. ALIZADEH: You all want to ask
13 questions now and then if we can't finish today,
14 we'll see if she can come back on another day, is
15 that all right?

16 I'm going to let them ask you some
17 questions, see if we can finish up today.

18 Anybody have any questions?

19 So we heard your recorded
20 statement earlier, okay.

21 : Yes, ma'am.

22 In that recorded
23 statement you admitted to posting that stuff that
24 was racist.

25 Yes, ma'am.

Page 222

1 Were you posting racist
2 stuff before this incident?

3 : No, ma'am.

4 So you have never made
5 any kind of racist remarks?

6 No, I've never posted on
7 Facebook any racial remark.

8 But you have made racist
9 remarks?

10 : Yes, ma'am. I don't like to
11 be considered racist. I try very hard. And I know
12 for a fact my children are not, but does it sound
13 with my language and my behavior that I am racist?
14 Yes, ma'am, but it's not something I approve of, if
15 that makes sense.

16 : Honestly, no, but that's
17 okay. You were going to see an African-American
18 friend, you said was a very good friend?

19 : Correct.

20 The weeks following this
21 incident, you didn't call her until the next day,
22 but in your recorded statement you said that you
23 called her that day to tell her that wouldn't be
24 coming by. So which was it, you call her that day
25 or the following day?

1 : Now that I don't know, I'd
2 have to have my phone records checked.

3 Okay. You said that you
4 have some short term memory problems?

5 : Yes, ma'am.

6 In that you turned left
7 instead of right, did you get confused? Do you get
8 your left and your right confused because of your
9 short term memory problems or you not remembering
10 which way he told you to go?

11 : I wasn't remembering which
12 way he told me to go.

13 Okay. In the FBI
14 statement you said you saw an apartment complex, you
15 turned into the apartment complex because you
16 thought maybe this was where you miraculously found
17 out where your friend lived; is that right?

18 No, I turned into, I turned
19 left on that into there.

20 : Okay.

21 When I seen the apartments,
22 they looked like the apartments that my friend had
23 posted.

24 Okay. Because today you
25 said you turned into the apartment complex to turn

1 around to get to 270. Did you think they were your
2 friend's apartments or were you intending to turn
3 around?

4 : When I went in here, I was
5 attempting to go in there and turn around.

6 Okay.

7 And then I seen the
8 apartments and I thought that they looked like my
9 friend's apartment, but I still needed to ask for
10 directions.

11 Okay. I think we
12 established earlier that you passed up several
13 streets where you could have turned around?

14 Correct. I passed up two
15 that I remember.

16 You're lost.

17 Yes.

18 You admit you get
19 confused?

20 Yes.

21 You said you venture out
22 all the time not knowing where you're going?

23 Correct.

24 I'm just confused and I
25 find it hard to believe that you didn't take your

1 first opportunity to turn around. Can you help me
2 understand why that is?

3 Because I don't make U turns
4 in the middle of the street and I don't pull into
5 people's driveway.

6 Right, you said that, but
7 you said there were several streets that you passed
8 up. Could you not have turned around in some other
9 streets?

10 I only remember two.

11 : Okay. Two instead of
12 three?

13 Right. I only remember the
14 two streets and then when I come around the corner,
15 I was looking for a parking lot.

16 I do have other
17 questions, but I'll ask one more. You said you
18 could not see inside the car very well?

19 Correct.

20 But then you said you
21 could see the heavy set man's hands moving up and
22 down and you could tell he was punching him, and
23 this is according to what you said here and your
24 recorded statement. right?

25 Yes, ma'am.

Page 226

1 So even though you can
2 see in the car?

3 : I could not see the officer,
4 no, because the larger of the two, the heavier set
5 one was blocking the view of the officer.

6 Okay. So how do you know
7 he's being punched?

8 The hand was going up and
9 down.

10 Okay. Going up and down
11 help me or up and down like that. (indicating)

12 No, it was going up and down
13 with his fist clenched or with his, you know.

14 MS. ALIZADEH: Let's do this, let's break.
15 I'm sorry, we have to break at 2:30 today
16 because of other obligations that the grand jurors
17 have and I'm going to walk her out to a waiting
18 room. Why don't you all discuss if you would like
19 to have her come back on a day next week and we'll
20 see about what we can do help get her back here.
21 And then I'll come back, before I let her go you let
22 me know if you want to have her return.

23 Can I ask one question or
24 may I?

25 MS. ALIZADEH: Is it of them or me?

1 Just a general question, I
2 guess.

3 MS. ALIZADEH: We can --

4 I guess for them too. On
5 August 9th after this happened when I got home, I
6 wrote everything down on a piece of paper, would
7 that be easier if I brought that in?

8 MS. ALIZADEH: Sure.

9 Sure, why not.

10 Because that's how I make
11 sure I don't get things confused because then it
12 will be word for word.

13 MS. ALIZADEH: Sure. Okay.

14 (End of the Grand Jury Hearing Volume 15.)

15

16 State of Missouri

17 SS.

18 County of St. Louis

19 I, , a Licensed Certified Court
20 Reporter by the Supreme Court in and for the State
21 of Missouri, duly commissioned, qualified and
22 authorized to administer oaths and to certify to
23 depositions, do hereby certify that pursuant to
24 Notice in the civil cause now pending and
25 undetermined in the County of St. Louis, State of

1 Missouri.

2 The said witness, being of sound mind and being
3 by the grand jury first carefully examined and duly
4 cautioned and sworn to testify to the truth, the
5 whole truth, and nothing but the truth in the case
6 aforesaid, thereupon testified as is shown in the
7 foregoing transcript, said testimony being by me
8 reported in shorthand and caused to be transcribed
9 into typewriting, and that the foregoing page
10 correctly sets forth the testimony of the
11 aforementioned witness, together with the questions
12 propounded by counsel and grand jurors thereto, and
13 is in all respects a full, true, correct and
14 complete transcript of the questions propounded to
15 and the answers given by said witness.

16 I further certify that the foregoing pages
17 contain a true and accurate reproduction of the
18 proceedings.

19 I further certify that I am not of counsel or
20 attorney for either of the parties to said suit, not
21 related to nor interested in any of the parties or
22 their attorneys.

1 GRAND JURY HEARING VOLUME XVI

2 MS. ALIZADEH: Good morning. This is
3 Kathi Alizadeh with the prosecutor's office. I
4 believe it is October 27th; is that correct? And it
5 is a little after it is 8:50 a.m. Sheila Whirley is
6 here, but she just stepped out to get the first
7 witness of the morning, who will be .
8 And all 12 grand jurors are present, as the court
9 reporter's also present and taking things down.

10 We just had a brief conversation before we
11 got started about transcripts and listening to
12 witness' statements, about best way to proceed with
13 that. And during our lunch break today, I'm going
14 to do everything I can to make sure I have
15 transcripts for statements. Some of our statements
16 do not have transcripts. We have played some
17 statements that we didn't have transcripts for and
18 we may now have those transcripts as they have all
19 been kind of getting done along the way. So I will
20 make sure that we have transcripts for all the
21 statements that we have for every witness.

22

23

24

25

8 BY MS. WHIRLEY:

1 **Q** August 9th?

2 **A** Yes.

3 **Q** Do you remember that morning pretty well?

4 **A** Um, I remember some of it vaguely because

5 I do have like hard time remembering some things.

6 Some things I can remember.

7 **Q** Let me ask you a question though, when you
8 say you have a hard time remember things, what do
9 you mean?

10 **A** I mean that I can be talking about
11 something for a minute and then all of the sudden if
12 I'm sidetracked, I forget what I was talking about.
13 If somebody says something, then they can bring my
14 memory back.

15 **Q** Okay, all right.

16 **A** I'm just going to come out and tell what I
17 know.

18 **Q** And that's all we want, tell us what you
19 know.

20 **A** Okay. On that day I heard some shooting.

21 **Q** Well, let's start at the beginning. We
22 want to know, do you recall what you did the first
23 thing that morning?

24 **A** Yes, I got up, took my shower, cook me
25 some breakfast, I had two eggs, three pieces of

1 bacon that was turkey, two pancakes, a glass of
2 orange juice, milk and coffee.

3 **Q** Great memory. So you had that breakfast
4 and then what did you do?

5 **A** I took my meds, I took my morning meds, I
6 take meds for high blood pressure, my mood swings at
7 night, I didn't take that one. I took my hormone
8 medicine, I took my allergy medicine, Benadryl and
9 Claritin. And I also took, I can't remember the
10 name of it, but it is for when I be itching, it
11 ain't Benadryl, it is the other medicine.

12 **Q** Okay.

13 **A** I take it because I itch a lot with dry
14 skin.

15 **Q** Now, were you at home then, I'm assuming?

16 **A** Yes, I was home, yes. And after I did all
17 of that, I was watching television in my living
18 room, but I was watching some cartoons that come on
19 Saturdays and then I heard some shooting.

20 **Q** Let me ask this question. Where do you
21 live?

22 **A** I stay in .

23 **Q** Okay. And you see that pointer there,
24 that's a laser pointer, there's a button?

25 **A** Let me get these eyes on.

1 **Q** I have my on standby.

2 **A** Okay.

3 **Q** There's a button that you push. I don't
4 want to talk the same time you talk. I have to ask
5 a question and be quiet and then you can answer.

6 **A** Okay. is here.

7 **Q** Now, did you live in on August
8 the 9th of 2014?

9 **A** Yes.

10 **Q** You still live there?

11 **A** Yes.

12 **Q** Okay. So where were you inside --

13 **A** This is my address here

14 **Q** Okay. Where were you when you were
15 watching TV?

16 **A** In my living room.

17 **Q** Does your living room have a window?

18 **A** Yes. No, I don't have a window here, I
19 have patio doors.

20 **Q** Where does it face, what street does it
21 face?

22 **A** It faces the street I stay on, Coppercreek
23 Court.

24 **Q** So it faces this way? (indicating)

25 **A** Yes. Basically where you see the cars

1 right there.

2 Q Sort of west?

3 A Yes.

4 Q This is West Florissant over here?

5 A Yeah.

6 Q All right. This map looks familiar to
7 you?

8 A No, I don't look at maps.

9 Q But you can tell that's where you live
10 ?

11 A Yeah.

12 Q From this map?

13 A Right.

14 Q So you say you heard a shot?

15 A I heard shooting.

16 Q Shooting. About what time of day was it?

17 A Uh, it was around about like a quarter to
18 11:00, something like that.

19 Q You're not sure of the time?

20 A No, I really wasn't looking at the clock
21 like that.

22 Q Okay.

23 A But I did come out of my door.

24 Q Describe to me what you meant by you heard
25 shooting?

1 **A** Um, it sounded like fireworks, I say like
2 that. Sounded like gunfire.

3 **Q** How many shots?

4 **A** At the time that I heard it, it was like
5 four shots that I heard.

6 **Q** All right. So you heard four shots then
7 what did you do?

8 **A** Then I, I came outside and I went next
9 door, that's right here. that's where my
10 godson stays.

11 **Q** Your godson?

12 **A** Yes.

13 **Q** Was he at home?

14 **A** Yes, he was at home.

15 **Q** Did he have to open the door for you?

16 **A** No.

17 **Q** Did he have a key?

18 **A** No, I was on the, okay, like you got
19 certain levels of steps. So when I went up the
20 step, it is like a little porch like before you get
21 to the second level, and that's where I was at. He
22 was coming out of his apartment, coming out where I
23 was at. He came right there, I ran down to let me
24 get this thing back on. I ran down from here, I ran
25 down and I was like right here. (indicating)

1 **Q** Was anybody with you?

2 **A** No, not that I know of.

3 **Q** Your godson, he didn't do go with you?

4 **A** No, he was up on the porch at the time
5 that I know of.

6 **Q** Okay. Did it appear he was watching what
7 was going on too?

8 **A** Yes.

9 **Q** What is his name?

10 **A** His name is .

11 **Q** Okay.

12 **A** And so by the time I made it to where I
13 could see what was going on, Michael Brown was on
14 his knees.

15 **Q** So by the time, so you heard four shots?

16 **A** Yes.

17 **Q** And then you come down to Coppercreek
18 Court?

19 **A** Right.

20 **Q** And how far, where do you go?

21 **A** I was right in this part right here.

22 (indicating)

23 **Q** Near the intersection of Coppercreek?

24 **A** Yeah, I went all the way in.

25 **Q** And Canfield?

1 **A** I was like right here.

2 **Q** Is that a parking lot?

3 **A** Yeah, that's a parking lot.

4 **Q** All right. Near Canfield Drive?

5 **A** Yes.

6 **Q** And where did you see Michael Brown, you
7 said he was on his knees, where was he?

8 **A** He was in this area right in here.

9 (indicating)

10 **Q** On Canfield Drive?

11 **A** Yeah, he was on Canfield Drive.

12 **Q** Was he in street or in the grass?

13 **A** He was in the street.

14 **Q** All right. When you saw him on his knees,
15 what was he doing?

16 **A** He had his hands up like this.

17 (indicating)

18 MS. ALIZADEH: I was writing, I didn't see
19 what you did with your hands. Can you show me?

20 **A** He was on his knees was like this.

21 (indicating)

22 **Q** (By Ms. Whirley) You're showing that his
23 hands are raised up in the air, what, above his
24 head?

25 **A** It wasn't all the way up like that, it was

1 like, it was like this. (indicating)

2 **Q** Somewhat above his head?

3 **A** And that's when he started falling and
4 went on down.

5 **Q** Okay. So on his knees falling down when
6 you saw him. Were any shots being fired?

7 **A** Um, I saw the officer and before he was
8 like, Michael Brown was like falling down, the
9 officer shot him again and that's when he went down.

10 **Q** Okay. So let me make sure I understand.
11 You heard four shots, you come out onto the parking
12 lot on Coppercreek near Canfield, you see Michael
13 Brown on Canfield in the street on his knees with
14 his hands up above his head, but not straight up and
15 then you hear or you see one more shot to his head
16 did you say?

17 **A** Yes, ma'am.

18 **Q** And then he falls down?

19 **A** Yes, ma'am.

20 **Q** Which way does he fall?

21 **A** He falls face ward, not backwards like
22 this, he went forward.

23 **Q** So you heard a total of five shots?

24 **A** I heard more shots than that.

25 **Q** Okay. Tell me about the other shots that

1 you heard?

2 **A** Um, it was like, it was like, you know,
3 how you got a full automatic pistol and they go off
4 like, that's the way going like that. (indicating)

5 **Q** It sounded like a fully automatic pistol?

6 **A** Yeah that's what it sounded like.

7 **Q** That's what it sounded. How many shots do
8 you think you heard total?

9 **A** Total I heard 11 shots.

10 **Q** 11 shots?

11 **A** But it could have been nine shots because,
12 you know, echo.

13 **Q** Okay. So 9 to 11 shots?

14 **A** Yes.

15 **Q** You first, how many shots did you hear
16 when it first got your attention that somebody was
17 shooting?

18 **A** Four.

19 **Q** Four?

20 **A** Four.

21 **Q** And where were those others, I guess?

22 **A** I was constantly, as I was coming out, I
23 reached my son's porch, I heard like three or four
24 more shots. As I started running down, I was still
25 hearing shots and then when I made it to where I was

1 at, the police was where he was at, he was facing
2 the officer and the officer shot him and shot him in
3 the head.

4 Q That's the one shot you saw?

5 A Yeah.

6 Q When you heard the first four shots, could
7 you see anything?

8 A No.

9 Q I mean, could you figure out what was
10 happening? You just knew somebody was shooting?

11 A Yes.

12 Q And that's when you go to the parking lot
13 and you see Michael Brown on his knees?

14 A Yes.

15 Q Had you seen Mike Brown before the
16 shooting started?

17 A I had not personally knowing him, I known
18 him for like two years.

19 Q I'm going to get to that, let me ask this
20 question. Did you see him that day before the
21 shooting occurred?

22 A Yes, I did.

23 Q What did you see when you saw him that
24 day?

25 A That he was heading up the street like he

1 normally do, I was coming down from the store, he
2 was going up to the store.

3 Q Like which way was he going?

4 A He was going this way and I was coming
5 down this way. (indicating)

6 Q He was going toward West Florissant?

7 A Right.

8 Q And how, how much time before the shooting
9 occurred did you see him going towards West
10 Florissant?

11 A Um, I cannot pace that.

12 Q Okay. Was it earlier that morning?

13 A Yeah, it was earlier that morning.

14 Q What was he wearing?

15 A He was wearing some khaki like shorts. He
16 had on some yellow socks that look like bumblebee
17 socks that he had pulled up to his knees. He had on
18 his flip flops that he loved so much cause every
19 time I seen him, he always have flip flops on. And
20 he had on like a T-shirt and a red Cardinals
21 baseball cap.

22 Q Okay. And you say you have known him for
23 about two years?

24 A About two years.

25 Q What is your relationship?

1 **A** If I see him, I just speak. We will talk
2 about God and he talk about how he's going to change
3 his life, about making something out of his life.
4 Like the boys in the neighborhood, he going to go to
5 school and make something with his life working on
6 people's home with air conditioners, stuff like
7 that. Help people that can't afford to pay big
8 bucks to get their air conditioner and furnace,
9 basically fix it for them, stuff like that.

10 I told him that's good, keep that
11 thought and keep positive and everything it will
12 work out fine. And that's the last talk we had.

13 **Q** When you talk about changing his life, did
14 you know what he meant by that?

15 **A** No, ma'am.

16 **Q** Okay. All right. Did you know his
17 parents?

18 **A** No, ma'am.

19 **Q** His grandmother?

20 **A** No, ma'am.

21 **Q** Now, when did you first talk to the police
22 and tell them about what you knew?

23 **A** I didn't talk to the police officers.

24 **Q** Who did you talk to?

25 **A** I talked to the FBI.

1 **Q** To the FBI. Do you recall when you first
2 spoke with the FBI?

3 **A** Um, I don't know, they just kept on
4 calling my house irritating me.

5 **Q** They were calling your house?

6 **A** Yes, and I felt I was being harassed.

7 **Q** Do you know how they knew about you?

8 **A** No.

9 **Q** Okay.

10 **A** They told me that the leasing office
11 supposedly gave all the information who stayed in
12 where. They was going door to door knocking on
13 people's door. And they had a hard time catching up
14 with me, I take small walks in the morning too
15 sometimes beings how my arthritis is doing. If it
16 flares up, I can't do it, but I was having good days
17 because it was warm outside so I was able to take my
18 walks.

19 **Q** Okay.

20 **A** And, um, so I can't remember his name, I
21 should have remembered his name because he called me
22 so much he started upsetting me. I don't want to
23 talk, I don't want to get involved, I mind my own
24 business, I help anybody if they need to be helped.
25 I talk to everybody, but I don't want to get

1 involved with that because I've already been
2 traumatized from six years old to the age I am now,
3 and just talking about it is upsetting me. And I
4 don't likes to be upset.

5 **Q** And we understand.

6 **A** That's what he said, I understand. It
7 ain't going to take long, so my son said momma, you
8 always told us to do the right thing, so do the
9 right thing. I said okay.

10 So I called him back, I couldn't get
11 him, he called me back I told him okay, I do this.
12 And he brings a person with him, oh, Lord.

13 **Q** Do you need some water, ?

14 **A** No. I told him that I didn't want to
15 relive that day. I said I didn't want to relive
16 that day. So I told him same thing I told you all.
17 I saw him in the middle of the street on his knees
18 with hands up. Officer came up to him and shot him
19 in his head and he fell.

20 **Q** What did you do when you saw him fall?

21 **A** Oh, I cried because it brought back
22 memories that I've been suppressing for years.

23 **Q** Is that something you want to tell us
24 about the memories you have been expressing?

25 **A** When I was six years old I was in the

1 store and this officer shot this man with a shotgun.

2 He had just shot him down.

3 Q And that's what you thought of when you
4 saw Michael Brown shot?

5 A Yes.

6 Q All right. And you went back into your
7 house or did you stand around?

8 A I stayed there for a while.

9 Q What did you see happen after you stood
10 there for a while?

11 A Um, people started coming out.

12 Q What did the police officer do?

13 A They snatched him up and they took him
14 down to the leasing office and they had that all
15 blocked, nobody could get near him. But when I saw
16 the officer's side of his face, it was like red.

17 Q How far away?

18 A I don't know if it was a bruise or he
19 turned red because he was mad, I don't know.

20 Q Did you hear the officer say anything?

21 A No.

22 Q Did you hear Michael Brown say anything?

23 A No.

24 Q Okay. You never heard either one of them
25 say anything?

1 **A** No, if they was saying anything, I
2 couldn't hear it.

3 **Q** You couldn't hear it?

4 **A** No.

5 **Q** And you said the officer's face looked red
6 or bruised?

7 **A** On this side of his face it looked red.

8 **Q** Right side?

9 **A** It looked red. I can't say if it was a
10 bruise or not because I wasn't that close to
11 actually see.

12 **Q** And how close were you, would you say,
13 from the officer when you saw his face?

14 **A** I was like on the grass right here. Right
15 here is where I was at. (indicating)

16 **Q** How many feet do you think that would be
17 apart?

18 **A** I don't know.

19 **Q** As close as we are now?

20 **A** I don't know.

21 **Q** Okay. So even if I kind of walked it out,
22 you couldn't tell me?

23 **A** Now, turn sideways okay. Now that's --

24 **Q** About this close?

25 **A** Yeah.

1 **Q** Where you could see the officer?

2 **A** Yeah.

3 **Q** Okay. Would you be looking at his left
4 side?

5 **A** Yes, it had to be his left.

6 **Q** But you said it was his right side that
7 was bruised?

8 **A** I didn't say it was bruised, I said it was
9 red.

10 **Q** You could see both sides of his face?

11 **A** No, if he was looking directly at me, then
12 I could see the whole face.

13 **Q** Was he ever looking directly at you?

14 **A** No, we never made eye contact.

15 **Q** Did he face you?

16 **A** No, we never made eye contact.

17 **Q** You think his left side was to you?

18 **A** It could have been left or right, I'm not
19 good on left and right stuff.

20 **Q** All right. And then could you see Michael
21 Brown's face?

22 **A** No, I just saw the back of him.

23 **Q** Okay. So when you see Michael Brown on
24 his knees, did you say you were somewhere like in
25 the parking lot?

1 **A** Yeah, I was right where them cars, but
2 those cars wasn't parked there.

3 **Q** Were you about the same distance from
4 Michael Brown as you were from the officer when you
5 saw him on his knees?

6 **A** Uh-huh.

7 **Q** And we're probably 10 or 15 feet, I guess,
8 kind of what you said to me?

9 **A** I don't know, I just know I heard the
10 officer say that the incident didn't happen a 100
11 feet from where I stayed at.

12 **Q** When did you hear the officer say that?

13 **A** The officer that came to my home.

14 **Q** I see. An officer did come to your home?

15 **A** Yeah, he was tall, he was cut clean head.

16 **Q** Did you talk to that officer?

17 **A** His face was clean. I tried until he
18 upset me and called me a liar.

19 **Q** He called you a liar?

20 **A** Yeah, he told me I was a liar, stop lying.
21 I told him I had no reason to lie about nothing. I
22 told the other one he had black hair, he was not as
23 tall as him and I don't know if they was playing bad
24 cop, good cop stuff, you know. And like I told
25 them, I'm too old to be playing games like that.

1 Y'all ask me to let y'all in my home, I did that.
2 If y'all came to my home to upset me, you need to
3 leave.

4 Q Had you ever really seen Darren Wilson
5 before?

6 A No.

7 Q You never had any interaction with him at
8 all before this incident?

9 A You say Darren Wilson?

10 Q The police officer involved with the
11 shooting who shot Michael Brown, his name is Darren
12 Wilson?

13 A Oh, yeah, once.

14 Q You did once?

15 A Yeah, when I was running from QuikTrip
16 because I had to pee, because I normally walk to
17 QuikTrip and get my donuts and coffee and
18 cigarettes, and I was running down Canfield trying
19 to make it home to pee. I didn't buy no coffee that
20 day, I just had donuts and cigarettes.

21 Q And what happened?

22 A As I was running, he was asking me what
23 are you running from. I say I'm running from
24 QuikTrip to try to get home, I got to pee. He
25 pulled in front of me and I ran straight into it,

1 that's why my knees is kind of messed up a little
2 bit worse than what they are.

3 Q How long ago was that?

4 A This was like, I've been in Canfield for
5 four years, this was like two and a half years ago.

6 Q And your knee is messed up because of it?

7 A No, I already had chronic arthritis, it
8 just got worse.

9 Q So you said you ran into the car?

10 A Yeah, and then I called the captain of
11 Ferguson.

12 Q Let me ask you what happened when you ran
13 into the car?

14 A I peed on myself.

15 Q Did you have any discussion with the
16 officer?

17 A Yes, I did.

18 Q Tell us about that?

19 A I told him I say, uh, why is you blocking
20 my way of getting home. I said I'm trying, I got to
21 pee, I said I'm peeing on myself. I said I ain't
22 peed on myself since I was two. I'm feeling very
23 violated. Could you please move your vehicle so I
24 could pee.

25 He looked at me, he smiled, and then

1 he pulled his car back. And I was on the phone
2 talking to the captain as I was running down the
3 street to finish peeing in the toilet.

4 Q What captain, who did you call?

5 A I can't remember the captain's name I
6 called, but I called and said I want to speak to the
7 captain, lieutenant, or a sergeant.

8 Q Was this with the Ferguson Police
9 Department?

10 A Yes, this was Ferguson Police Department.

11 Q Did you speak with one of them, with the
12 captain?

13 A Yes, that's what he said who he was. I
14 can't say that's who he was because I'm on the
15 phone.

16 Q Okay.

17 A And he say, well, did the officer do any
18 bodily harm to you or nothing. I said he just made
19 me feel smaller than what I would be because I had
20 peed on myself. He say, did he let you go? Yeah,
21 after I peed on myself. I don't think that's right.

22 You know, I say I don't steal, I
23 don't beat up nobody, I do nothing like crazy stuff.
24 I'm just running down the street. I can go on the
25 south side city or south side county, west side and

1 run anywhere I want to run and not be stopped by an
2 officer at all. I can run anywhere I want to run
3 and not be stopped by an officer at all.

4 Q Did he get out of the car when he stopped
5 you?

6 A No, he stayed in his vehicle, he didn't
7 get out.

8 Q Did you see him ever again before the
9 shooting occurred?

10 A I saw him in Jennings.

11 Q Okay. And that was before the shooting
12 occurred?

13 A Yeah, that was before the shooting
14 occurred.

15 Q When you saw him in Jennings, was this
16 before or after the incident where you peed on
17 yourself?

18 A It was before I saw him in Jennings. I
19 saw him in Jennings twice.

20 Q What was going on when you saw him in
21 Jennings twice?

22 A I can't remember, I seen him at Jennings.
23 I stay at Jennings sometimes.

24 Q Did you have conversation with him those
25 two times?

1 **A** Hi and bye, that's it. Because he would
2 speak to me and I say hi, he'll say hi and I'll say
3 hi, officer.

4 **Q** So you knew him when you saw him and he
5 knew you when he saw you?

6 **A** We didn't have no like personal thing,
7 when I saw you, I say hi, you know, it is just me.
8 I just speak.

9 **Q** Okay. So after this happened, after you
10 peed on yourself, did you have occasion to see him
11 after?

12 **A** Uh, no, I didn't see him no more until
13 that incident.

14 **Q** Until that incident?

15 **A** And I wasn't for sure that was him or not
16 cause I saw like the side of him, so and then when
17 they showed a picture of him, I say I know him.

18 **Q** So as you sit here today, you know that
19 the Darren Wilson that they've shown that did the
20 shooting is the one that stopped you when you were
21 running trying to get home?

22 **A** Right.

23 **Q** Now, when you talked with the FBI,
24 according to my notes it was maybe August 26th of
25 2014. I think you first talked to them on the phone

1 August the 13th, a few days after this happened.

2 Then they actually had an interview with you

3 August 26th, do you remember that?

4 **A** Yes, I called them. They left a card on
5 my door.

6 **Q** Okay.

7 **A** So I called them, I told them, I said I
8 don't do court. I help you in any way I can help
9 you. But I'm not trying to get involved, but this
10 is what I can tell you what I saw and said y'all can
11 take it from there.

12 **Q** They actually came to your apartment; is
13 that right? Did they come to your apartment?

14 **A** They came knocking, but I wasn't there,
15 that's when they left their card the first time.
16 And then, I can't remember his name, I should
17 remember that name, I can't remember.

18 **Q** That's okay.

19 **A** He just kept on calling, kept on calling
20 me. And then my son told me that by him being my
21 power of attorney, he figured I should not talk to
22 him because you upset my momma, I don't want to talk
23 to you either.

24 **Q** Where did they have the interview with you
25 at?

1 **A** In my home, in my kitchen. I went behind
2 my son's wishes and behind his back and I let him in
3 anyway.

4 **Q** Why does your son have power of attorney?

5 **A** He have power of attorney because I had
6 cancer in my back. Thank God that it ain't there no
7 more. And I was having blackouts and I couldn't
8 take care of my business at the time, so I had to
9 stay with my son for like almost two years.

10 **Q** So was that like two years ago?

11 **A** Yes.

12 **Q** But he still has power attorney?

13 **A** No, sir, cause I never took it away back
14 from him.

15 **Q** Okay. Do you need him now to have power
16 of attorney?

17 **A** No, I do not. I just went through that
18 stuff right now.

19 **Q** When you talked to the police that day, do
20 you recall stopping the recording when they were
21 recording your statement?

22 **A** Yes, I did. The one that is tall, clean
23 cut, started irritating me, called me a liar, it
24 just irritated me so bad, that I really wanted to
25 choke him. I ain't going to lie and say I didn't, I

1 wanted to choke him.

2 **Q** Okay.

3 **A** I told him, after I cut it off, I said I'm
4 done, I said what I had to say and I cut it off.
5 They need to leave my home. They refused to leave
6 my home.

7 **Q** Okay. And did you --

8 **A** And then the one with the black hair told
9 me, he say just calm down. He told the other two to
10 leave my home. And that's when they brung a female
11 come in. Before she came in, he cut it back on. He
12 said, , I want to ask a few more, I said okay.

13 **Q** So you did let them record some more?

14 **A** Right. I told them I say, that they said
15 that since I'm lying that what I said at first must
16 have been a lie. Right now I'm going to tell you
17 the truth, is what I put on the recording.

18 **Q** So you admitted on the recording that you
19 lied initially?

20 **A** Right, although I wasn't, but that's what
21 they wanted to hear, so I just gave them what they
22 wanted to hear.

23 **Q** Okay.

24 **A** Then I told them, I said, okay, I'm going
25 to tell you the truth. And that's when I told them

1 about the part that I saw him on his knees, the
2 police shot him in his head, his arms was up and
3 then he fell.

4 I just made it clean cut and short.
5 I'm not trying to give the beginning of the details
6 to the end, they weren't trying to hear that. You
7 need to get out of my house because I don't need to
8 hear this. You can't tell me I'm lying, you don't
9 even know me to tell me I'm lying. I don't have any
10 reason to lie to you or nobody else.

11 They just start to irritate me so bad
12 that then, I went to go from my kitchen drawer to
13 get me a spoon so I could get me some Jello to eat
14 so I can take a pill with my Jello.

15 And he thought I was going for a
16 knife. I say no, I'm not suicidal.

17 **Q** Why would you --

18 **A** That's because I'm with BJC Behavior
19 Health. I don't use weapons on myself, I take
20 pills.

21 **Q** You mean you tried to commit suicide
22 before?

23 **A** Yes, like what I'm going through now, all
24 of these questions about death and stuff, that
25 brings back other stuff that I'm trying not to

1 remember.

2 Q I understand.

3 A Cause I have a dream about this stuff, I'm
4 seeing it now when I talk to you now and I'm not
5 liking what I'm seeing. And I'm trying to hold
6 myself where I can help y'all out of what y'all need
7 to know.

8 Q We don't want you to help us, just tell us
9 what happened?

10 A What I mean by helping you is telling the
11 truth, that's helping you all telling the truth.

12 Q Right, that's all we want.

13 A That's what I'm doing, that's why I say
14 I'm trying to keep myself, oh Lord, I'm feeling like
15 I was in my apartment.

16 Q Okay, all right.

17 MS. WHIRLEY: Kathi?

18 A Anything else?

19 MS. ALIZADEH: Pardon me?

20 A Anything else?

21 MS. ALIZADEH: You know what, I have some
22 clarifying questions.

23 A Okay, clarify.

24 Q (By Ms. Alizadeh) And , I'm not
25 saying, these questions are not intended to

1 embarrass you in any way, okay. But you mentioned
2 that you take pills?

3 **A** Yes.

4 **Q** Is it for a mental health condition?

5 **A** Yes.

6 **Q** Do you know what your diagnosis is?

7 **A** They say I have mood swings, three
8 personalities.

9 **Q** How long have you been taking medications,
10 do you remember how old you were when you started?

11 **A** I can't remember.

12 **Q** Okay.

13 **A** It has been a long time.

14 **Q** And I know you stated you take blood
15 pressure medication and --

16 **A** That's morning.

17 **Q** And allergy medication?

18 **A** Yeah.

19 **Q** Those things are not for your mental
20 health?

21 **A** No, they are just for my morning stuff.

22 **Q** Okay. Do you know what the name of your
23 medication is that you take for your mental health?

24 **A** I started with the for the mood
25 swings to suppress stuff.

1 I don't know, I take 14 medicines a
2 day, I can't remember them all.

3 Q Okay. Would you say are you good about
4 taking your medication every day or do you sometimes
5 go off of it because you don't like what it makes
6 you feel like?

7 A I take them every other day, sometimes, I
8 don't know if I took it or not. See, I have the
9 nurse come every Monday and do my medicine for the
10 week. And I was without a nurse for like eight
11 weeks, so I took morning meds, but I couldn't take
12 my psych meds because I didn't know which one I was
13 supposed to take.

14 Q Do you live by yourself?

15 A Yes, I do.

16 Q So somebody comes in once a week to make
17 sure you are okay, make sure your medications?

18 A I have a worker come five days a week.

19 Q Okay.

20 A She makes sure I take my meds.

21 Q Okay.

22 A And my nurse, she make sure that my meds
23 have been taken, my doctor comes and see me once a
24 month.

25 Q When you take your meds as you are

1 supposed to, how does that make you feel?

2 **A** Some will make me feel good where I don't
3 feel like I'm a threat to myself or nobody else. I
4 can take criticism, when I take certain meds.
5 Certain meds if I don't take them, I can't take
6 nobody hollering at me period. Just makes me angry,
7 makes me want to hurt them.

8 **Q** Okay.

9 **A** But if I take them, I'm like normal.

10 **Q** So they make you feel calmer?

11 **A** Yeah, and they make me feel normal.

12 **Q** If you are not taking your meds like
13 you're supposed to, it makes you more agitated?

14 **A** Yes.

15 **Q** Do you ever get paranoid?

16 **A** No.

17 **Q** What about it, it might make you angry
18 with people?

19 **A** Yeah.

20 **Q** When you don't take your meds, and again,
21 I'm not asking you this to embarrass you or
22 anything?

23 **A** No, just go ahead.

24 **Q** Are you able to --

25 **A** Function right?

1 **Q** Perceive things or do you ever have
2 trouble, you know, like perceiving what's really
3 going on around you?

4 **A** Yes, I do.

5 **Q** Okay.

6 **A** If I see anything that isn't there it
7 ain't like, it is something like, I know, these
8 glasses here. It won't be like the glasses I'm
9 thinking ain't there, no, I'm never like that.

10 **Q** Okay. Do you know if on August 9th you
11 have been taking your medication regularly?

12 **A** Yes, I did take my meds.

13 **Q** You took it that morning?

14 **A** Yes.

15 **Q** You already said that?

16 **A** Yes.

17 **Q** What about today, did you take them today?

18 **A** No, I didn't take them today because I
19 was, I thought I had to be here at exactly 8:00. So
20 I didn't get that much sleep because I was trying
21 not to miss the cab and so when I got up, I got a
22 chance to get my shower, get dressed, and I thought
23 maybe I got time to fix something to eat and I was
24 trying to fix something to eat. And then my son
25 said, the cab is here. So I couldn't get nothing to

1 eat, so I cannot take my meds unless I have food on
2 my stomach first.

3 Q So you said your son told you your cab was
4 here, was your son at your apartment this morning?

5 A No, he came and knocked on my door today.

6 Q Does your son live in the complex?

7 A He stays at and I stay at It is
8 like a walkway.

9 Q What's your son's name?

10 A , that's my godson.

11 Q And he's here today with you?

12 A Yes.

13 Q He's your godson?

14 A Yes.

15 Q You're not related by blood then?

16 A No, huh-uh.

17 Q Is that the same person that has the power
18 of attorney for you?

19 A The one that has power of attorney is
20 , that's my birth son.

21 Q Okay, all right. You remember you and I
22 talked last week about you coming in; is that right?

23 A Yes.

24 Q Do you remember having a conversation on
25 the phone with me?

1 **A** Yes.

2 **Q** I know that upset you, you didn't really
3 want to have to do that?

4 **A** Yes.

5 **Q** But one of the things you talked to me
6 about that time you had mentioned that you wear a
7 body camera?

8 **A** Yes.

9 **Q** How long have you been wearing the body
10 camera?

11 **A** I've been wearing the body camera for
12 almost two months.

13 **Q** Were you wearing the body camera on
14 August 9th?

15 **A** No.

16 **Q** Do you have it on today?

17 **A** No, that's because you told me that I
18 couldn't wear it. That's respecting what you are
19 telling me.

20 **Q** Why did you decide two months ago to start
21 wearing the body camera?

22 **A** I don't want to be disrespected no more by
23 officers. I've been called, excuse my French, a
24 nigger bitch, a bitch ass nigger by officers. One
25 was County Brown and one was Ferguson. It hurt me,

1 like it cut me with a knife. I said I respect
2 everybody, I don't care what color you is, what
3 belief you have, I respect everybody.

4 Q Okay.

5 A So I can understand why these officers did
6 that to me. So when I was offered the body camera,
7 I wore it. And when they see body camera, how you
8 doing, ma'am. You have a good day. You have a good
9 day too, sir. When I have the body camera on. When
10 I didn't have that on me, that's what I was called.

11 Q Okay.

12 A You know, the N word didn't bother me.
13 The B word did, but that's a female dog. I don't
14 walk on fours, I walk on two.

15 Q Well, I understand and frankly the N word
16 is --

17 A No, cause that didn't bother me I was not
18 acting a fool, you know, that's what that word
19 really actually stands for, a person that is acting
20 stupid and doing stupid things.

21 Q Let me ask you, you started wearing this a
22 couple of months ago, were you wearing it when the
23 police came to your house and upset you the way you
24 talked about that he was calling you?

25 A I didn't have it on, but it was in my

1 home.

2 Q Okay.

3 A So when they came, they came in the
4 morning and I still had my pajamas on that day.

5 Q Okay. So the first police that came to
6 your house, were those the County Browns, were those
7 detectives with St. Louis County?

8 A No, they was FBI.

9 Q Okay. But when they first came to your
10 house, you didn't talk to them, you didn't make a
11 statement at that time?

12 A I wasn't there. They kept on missing me.

13 Q Okay. And then eventually you did talk to
14 them; is that right?

15 A Yes.

16 Q And Sheila asked you during the interview
17 you got upset and you grabbed the recorder and
18 turned it off is; is that right?

19 A I didn't grab it, it was on my table, I
20 just pushed the button off.

21 Q Okay. You said you were upset because
22 they were telling you you were a liar?

23 A Right.

24 Q Were they saying that while it was
25 recording?

1 **A** Yes, they did.

2 **Q** Okay. And so --

3 **A** He said you're lying because we talked to
4 a whole lot of other people, they ain't said nothing
5 you are saying, you lying. And that's when I say
6 okay, you say I'm lying, then I'm lying, I cut it
7 off. I said get your recorder and get out of my
8 apartment.

9 **Q** Okay. And then at some point you calm
10 down or they got you to calm down?

11 **A** The one with the black hair, he's the one
12 that told me, , just overlook him. He's being
13 an ass, just overlook him, just go on with this
14 interview.

15 **Q** So they turned on the recorder again?

16 **A** I cut it on.

17 **Q** Okay. And then you started telling them
18 what you saw; is that right?

19 **A** Right.

20 **Q** Just so I'm clear, I know you said you
21 live in this right here? (indicating)

22 **A** Right, uh-huh.

23 **Q** What floor do you live on?

24 **A** The bottom.

25 **Q** Okay. So from when you exit your house,

1 do you have to walk up steps?

2 **A** That's five little steps.

3 **Q** So you don't have like a balcony?

4 **A** No.

5 **Q** When you look out the window of your
6 house, can you see out to Canfield?

7 **A** No, I can only see the parking lot and
8 building across from me. That's why I left my
9 apartment and went to (sic)

10 **Q** Okay.

11 **A** It is still it is is
12 their address.

13 **Q** Okay. So you said you were watching TV
14 when you first heard shooting?

15 **A** Right.

16 **Q** And then you went outside at that point?

17 **A** Yes.

18 **Q** Do you remember when you were talking to
19 the FBI agents, do you remember telling them that
20 you heard nine shots and two clicks, do you remember
21 telling them about the clicks?

22 **A** The clicks. I told them I heard click,
23 click.

24 **Q** Okay.

25 **A** I did say that.

1 **Q** Do you know what that was, the clicks?

2 **A** I just heard click, click.

3 **Q** When did you hear the click, click in
4 relation to what you saw?

5 **A** That was after.

6 **Q** After?

7 **A** He hit the ground.

8 **Q** Okay. So after Michael Brown hit the
9 ground, you hear two clicks; click, click and you're
10 shaking your head yes?

11 **A** Yes, I forgot.

12 **Q** That's all right, I'll catch you. So you
13 said, you testified here today that you saw when you
14 came around kind of down by the street, you saw
15 Michael Brown on his knees in the street with his
16 hands in the air; is that right?

17 **A** They weren't all way up in the air, they
18 was like this. (indicating)

19 **Q** Okay. And the officer you said you saw
20 him shoot him in the head at this point?

21 **A** Yes.

22 **Q** Do you remember when you talked to the FBI
23 you told them that you didn't actually see any of
24 the shots?

25 **A** No, I did not tell them that.

1 **Q** Okay. You don't recall saying that?

2 **A** No.

3 **Q** Okay. And did you ever see another
4 African-American young man that was around there at
5 the time?

6 **A** That was running?

7 **Q** Yes.

8 **A** At the time?

9 **Q** Yes.

10 **A** Yes, I did see a young man running on like
11 that side, this right here.

12 **Q** How about can you use the map to say where
13 he was running?

14 **A** I can imagine that there is Canfield.

15 **Q** Okay.

16 **A** And that's the side I'm on, and that side
17 there is where like the mailbox be in the other
18 apartments. He was on that side running and going
19 toward.

20 **Q** You are talking about the south side of
21 Canfield, right?

22 **A** Yeah, on that side that is outside and he
23 was there and he was running. Okay. This is where
24 the male basically stood before he be going this way
25 and he was running behind the building. But he was

1 coming from this way, coming down, he shot across
2 the street to the grass area he was running.
3 (indicating)

4 **Q** What did he look like?

5 **A** He had dread, dreadlocks as they called
6 them, call them dreads.

7 He was, he was my complexion. He was
8 not chubby or real skinny, he was like mid frame, if
9 I can find somebody in here, he was your size.
10 (indicating)

11 **Q** Do you remember anything about what he was
12 wearing?

13 **A** He had on a white T-shirt, I don't
14 remember if he had a hat on because I saw the hair.
15 He had on short blue jeans pants, you know how they
16 sag, that's the way they were.

17 **Q** Okay. Do you remember what the officer
18 looked like that day?

19 **A** Caucasian, he had blond hair. The eye
20 color I only saw the side of his face, so I couldn't
21 see his eyes.

22 **Q** Do you remember what he was wearing?

23 **A** He was wearing a blue uniform.

24 **Q** Do you remember if it was long sleeve,
25 short sleeve?

1 **A** Short sleeve.

2 **Q** How about a hat, did he have a hat on?

3 **A** No hat.

4 **Q** You saw the officer's face and I know you
5 said you're not real good at left and right, but you
6 saw a side of his face that you said looked red?

7 **A** Yes.

8 **Q** But you don't know why that side of his
9 face was red?

10 **A** No, I don't know because he was mad, he
11 was blushing or whatever, I don't know. I just know
12 that it was red.

13 **Q** Okay.

14 **A** If he was like turning like I am to you,
15 his whole face was red.

16 **Q** And so you recall today that Michael Brown
17 was on his knees with his hands about like this?
18 (indicating)

19 **A** Yes, ma'am.

20 **Q** You saw the officer shoot him in the head?

21 **A** Yes, ma'am.

22 **Q** You saw him fall on the ground?

23 **A** Yes, ma'am.

24 **Q** And did the officer shoot any more after
25 his knees had fallen on the ground?

1 **A** I know I heard his hands did, I guess,
2 like this on the gun.

3 **Q** Did you hear gunshots?

4 **A** No, I just heard click, click and it could
5 have been behind me clicking, I just heard click,
6 click.

7 **Q** But you could see the officer's hand
8 pulling the trigger?

9 **A** Yes.

10 **Q** Do you remember which hand the gun was in?

11 **A** No, not at this time, no.

12 **Q** Did you see any blond or when Michael
13 Brown was on his knees with his hands in the air,
14 did you see any blood on his shirt?

15 **A** I just saw the back of him.

16 **Q** You just saw him from the back?

17 **A** Right.

18 **Q** Did you see any blood on his back?

19 **A** I wasn't looking for no blood or nothing
20 like that. If I want to make some stuff up, I'm not
21 going to say I saw blood. I did see blood later. I
22 didn't see none when he was on his knees and stuff
23 like that.

24 MS. WHIRLEY: Okay. I don't have any
25 other questions. The grand jurors might have

1 questions for you. Anyone have questions?

2 **A** No questions, thank you.

3 I have two questions.

4 You stated that you saw Michael Brown that morning
5 walking, you met him in the street, you had been out
6 taking your morning walk, you saw him and he was on
7 his way to the store?

8 **A** (Nods head.)

9 : And you said that Michael
10 had told you that he wanted to change his life and
11 become better?

12 **A** He said he wanted to change his life from
13 what he was doing.

14 : Okay.

15 **A** What he was doing, don't nobody know that
16 but him. I knew who Michael Brown was, cause he was
17 staying with his grandma, I found out later, he was
18 staying with his grandma, which was at Northwinds,
19 which was around the corner where I was staying.

20 But he socialized with everybody in
21 Canfield because he basically join the younger folks
22 in Canfield, there was older folks in Canfield. So
23 he hung out there, so that's where I got a chance to
24 know where he was.

25 : You don't know if he was

1 troubled?

2 **A** No. Every time I saw him he just, you
3 know, told me that and we talk about God all the
4 time. If I'm not going up, he's coming down, and if
5 I'm not coming down, he's going up. That's the way
6 we have our conversation. And we have maybe like
7 five, ten minute talks, he go his way and I go mine.

8 : Do you know, ma'am, if
9 you took your medicine the day before?

10 **A** I only missed three weeks and that's just
11 recently.

12 : Okay. Thank you so much.

13 MS. WHIRLEY: Anyone else?

14 Good morning.

15 **A** Good morning.

16 . I know
17 that you testified and I know you have been through
18 a lot since this incident, but you're not holding
19 any animosity about the situation?

20 **A** Oh, no, ma'am.

21 Okay. So this is straight
22 from your heart?

23 **A** Yes, it is. That's is one thing I cannot
24 do is hard my heart for nobody.

25 : All right. Thank you.

1 **A** I still love everybody.

2 Yes, sir.

3 . That day you
4 heard the shots and you left your apartment, did you
5 walk, did you run, did you, what kind of -- how did
6 you move to the scene?

7 **A** I ran.

8 : When you hear the shots,
9 do you think you want to stay in the apartment for
10 safety or what kind of drew you out to --

11 **A** Because the way that the sound was coming,
12 it never came from that way, it always came from
13 behind in Northwinds. And Northwinds is known for
14 shooting up the town, that's what I thought. It is
15 an apartment complex back from behind.

16 Come from a different angle, it is
17 new, it is just me, I want to know where it is
18 coming from, that's why.

19 : Okay.

20 **A** Anyone else?

21 MS. ALIZADEH: Okay. Sit here.

22 **A** I wasn't leaving.

23 MS. WHIRLEY: Before we do that, let me
24 ask you, is there anything else you want us to know
25 that we didn't ask you that you would like to

1 express to this grand jury?

2 **A** Um, not at this moment.

3 MS. WHIRLEY: Okay.

4 **A** Maybe before I leave, but not right now.

5 MS. WHIRLEY: Now is the time to do it.

6 **A** Now is the time?

7 MS. WHIRLEY: If you want to do it, you
8 got to do it now. We don't want to stop you from
9 saying anything. You need to tell us, or to tell
10 this jury.

11 **A** Well, I appreciate you all giving me the
12 opportunity to tell my side that I've seen. And God
13 bless you all, and that's it.

14 MS. WHIRLEY: All right.

15 MS. ALIZADEH: You know what ,
16 when you saw Michael Brown walking earlier and he
17 was walking like toward West Florissant, was there a
18 young man with him when he was walking toward West
19 Florissant or was he by himself?

20 **A** He was by hisself when I saw him earlier.

21 MS. ALIZADEH: Okay. Nothing else.

22 (End of the testimony of)
23
24
25 ,

1 of lawful age, having been first duly sworn to
2 testify the truth, the whole truth, and
3 nothing but the truth in the case aforesaid,
4 deposes and says in reply to oral
5 interrogatories, propounded as follows, to-wit:

EXAMINATION

7 BY MS. WHIRLEY:

8 Q Good morning.

9 A Good morning.

10 Q Please introduce yourself to the grand
11 jury and spell your name for the court reporter?

12 A My name is ,
13

14 Q Okay. , you know why we are here?

15 A Yes, I do.

16 Q About the Michael Brown shooting?

17 A That's correct.

18 Q Do you remember that morning, August the
19 9th, it was a Saturday, 2014?

20 A Clearly.

21 Q Clearly, good. Tell us what you remember
22 about that morning? And you don't have to jump
23 straight to the shooting, I want you to lead us into
24 it.

25 A Okay. Basically I was sitting on my porch

1 around 11-ish, I say 11:35, somewhere around there.

2 Q Okay. You have, there's a laser pointer
3 right there. Do you know how to use that? There's
4 a button right here, there will be a red light.

5 You said you were sitting on your
6 porch, does this map help you to show us where your
7 porch would be?

8 A Exactly, right here.

9 Q What's that address?

10 A

11 Q That's in on the map and this
12 is Grand Jury Number 25. We are looking at, all
13 right. So you were sitting on the porch. What time
14 did you go sit on the porch?

15 A Around 11-ish, 11:35.

16 Q What had you been doing before that?

17 A I was preparing coffee and to go get
18 better reception on my porch to talk to a friend
19 that was in because I was preparing myself to
20 go out of town.

21 And I heard a gunshot or two.

22 Q So one or two shots?

23 A Yeah, one or two. And it caught my
24 attention because I'm sitting on the porch and I'm
25 talking to her and I'm like, hold on, let me call

1 you back. And, uh, I seen to go right into it.

2 **Q** Go ahead.

3 **A** I seen an officer, as well as Mike Brown,
4 this is east down, I guess, I don't know.

5 **Q** Yes, that would be east, on this would be
6 West Florissant over here.

7 **A** Okay. Mike Brown was running in this
8 direction and I came further to my porch balcony
9 because I couldn't believe it, you know. I'm used
10 to hearing noises in the neighborhood, gunshots and
11 to see that it was a police officer shooting at an
12 individual running eastbound on my street was kind
13 of like far fetch for me to believe.

14 **Q** All right. So you saw Mike Brown running
15 eastbound and the officer was chasing him shooting
16 after him?

17 **A** It wasn't so much him chasing him, it was
18 just gunshots going on. I seen Mike Brown running
19 eastbound on my street.

20 **Q** What was the officer doing?

21 **A** The angle that I was in, I seen him in
22 view after he came from this building, he came more
23 clearer to me as he came going up more Coppercreek.

24 **Q** You are not suggesting that this officer
25 left this street, are you?

1 **A** No, he did not.

2 **Q** You are talking about you were moving?

3 **A** I wasn't in clear view of him until he
4 came in the view of chasing Mike Brown eastbound.

5 **Q** Okay. When the officer came into view,
6 for you, show me again where you were?

7 **A** I was on my porch.

8 **Q** Outside?

9 **A** On the balcony, on the balcony.

10 **Q** Is that outside?

11 **A** Yes, ma'am.

12 **Q** All right. And where was Mike Brown?

13 **A** He was running east bound.

14 **Q** Where was the officer?

15 **A** Not too far from, a little bit up further
16 because he wasn't like real clear view of me seeing
17 him as of yet. I seen Mike Brown clear as day. And
18 then I started to see the officer as he was getting
19 closer, but he didn't get that close. He didn't
20 cross 9422 Coppercreek, he did not cross over.

21 **Q** Okay.

22 **A** Basically when a shot went off, again, I
23 seen Mike Brown put his arms up and he turns around.

24 **Q** So he puts his arms up before he turns
25 around?

1 **A** He puts his arms up, yeah, when he turns
2 around when he turns around.

3 **Q** Why don't you demonstrate for us?

4 **A** When he turns around --

5 **Q** I'm going to kind of talk to get where I
6 want to go to, okay, listen to me.

7 **A** All right.

8 **Q** Mike Brown is running eastbound.

9 **A** Yes.

10 **Q** The officer is coming after him and you
11 hear shots fired?

12 **A** Yes, ma'am.

13 **Q** And so what does Mike Brown do?

14 **A** After the shot, I guess when it grazed him
15 on his arm.

16 **Q** Now, you're guessing, why are you guessing
17 that?

18 **A** Because I didn't know where he got shot
19 at, I'm assuming that he got shot.

20 **Q** And you learned that later from news?

21 **A** Autopsy. All I know that he turned around
22 after the gunshot went off, he turned around and did
23 this. (indicating)

24 **Q** Okay. Turn your back to us like you are
25 running.

1 **A** You running and pow, pow, so I guess he
2 felt something and he turned around, and he turned
3 around right on Coppercreek directly in front of
4 where I was able to see in eyes view. He started
5 walking back toward West Florissant where the
6 officer was in view of me to see him from my porch.

7 **Q** And what was the officer doing as Mike
8 Brown walks?

9 **A** He had his gun raised. (indicating)

10 **Q** Was he coming toward Mike Brown, backing
11 up --

12 **A** They was both coming at each other at a
13 moderate pace. Mike Brown was walking towards him,
14 just walking towards him.

15 **Q** Like walk towards me.

16 **A** Walking towards him. And the officer had
17 his gun up like this is all I seen was him having
18 his arms raised and he was coming closer and Mike
19 was coming like, stop shooting. And he's shooting
20 him and kept shooting him. (indicating)

21 I'm like, he don't pose no threat,
22 where is his weaponry to where you deem him to being
23 hostile.

24 I mean, there was two construction
25 workers over there on the side of my building that

1 was viewing the same thing I was viewing. And they
2 seen what I seen, so did other people seen what I
3 seen. It wasn't justifiable in my eyes and I didn't
4 see it to be a hostile situation.

5 **Q** So when you saw Mike Brown with his arms
6 up coming towards the officer, he did not appear to
7 be rushing the officer to you?

8 **A** Not at all, not at all.

9 **Q** Did he appear to be charging the officer?

10 **A** Not at all, not at all.

11 **Q** What in your mind is going on?

12 **A** I was discombobulated, I didn't know what
13 was going on because I seen this individual, like I
14 said, running eastbound on my street like what's
15 going on.

16 I didn't see, I didn't deem it to be
17 a hostile situation to where the officer needed to
18 of have had his gun raised at the level in which he
19 had it at, you know what I'm saying? Facing Mike
20 Brown. So I know that this sign is a sign of
21 surrender. (indicating)

22 **Q** And you clearly saw his hands raised above
23 his head?

24 **A** Clearly, clearly, I was in plain view of
25 seeing it.

1 **Q** They were not straight up?

2 **A** They was at an angle.

3 **Q** At an angle above his head?

4 **A** It was simply I surrender. I don't know,
5 like I said, I don't know if he got hit or shot at
6 that point, but based on the autopsy of the news, I
7 didn't know until that came through.

8 **Q** Did you hear Mike Brown say anything?

9 **A** Stop shooting me.

10 **Q** Did you actually hear him say that?

11 **A** Yes, in the distance that I was at because
12 I think that was he was in pain based on the
13 gunshots due to his body because he was taking them.

14 **Q** Did you see any blood?

15 **A** I didn't see any blood, but I seen that
16 the gun was fired off into his upper torso.

17 **Q** And you heard him say, stop shooting me?

18 **A** Stop shooting me.

19 **Q** At what point was he saying, stop shooting
20 me?

21 **A** When they came close.

22 **Q** Was his hands raised when he said that?

23 **A** Still, still his hands was still raised.

24 **Q** You said the officer shot at him several
25 times in his torso when his hands were raised?

1 **A** Yes, ma'am.

2 **Q** How close were they when the officer was
3 shooting at him when his hands were raised? I can
4 walk it out for you. Like if you are the officer
5 and I'm Mike Brown, tell me when to stop.

6 **A** Come further.

7 **Q** Up closer?

8 **A** Okay. Get the arms up like, okay, so he's
9 shooting.

10 **Q** So they're this close?

11 **A** At this point right here. And as he was
12 shooting, he was moving back because they got close.

13 **Q** Like we're a few feet apart?

14 **A** Exactly, and he had his arms up.

15 **Q** Okay. Who starts moving back?

16 **A** The officer starts moving back after
17 shooting, still shooting, he was shooting, and then
18 he start moving back.

19 **Q** And how many times did he shoot him when
20 Mike Brown had his hands up?

21 **A** Uh, from what I seen it was multiple, like
22 two to the upper torso, two down to the lower torso
23 and the remaining portion, I'm still on my porch.
24 They start to walk further on Canfield going back
25 this way to where it becomes a blind spot for me

1 because of . I'm not able to see at a
2 certain angle.

3 So I don't know the closure of the
4 remaining bullets that caused to the head, I can't
5 see it because I'm in a blind spot.

6 **Q** So you didn't see Mike Brown hit the
7 ground?

8 **A** I can only assume based on after shot.

9 **Q** You did not see him hit the grown?

10 **A** No, I did not.

11 **Q** So when you saw him after taking those
12 shots to the torso, he was still --

13 **A** He was still standing.

14 **Q** Standing and walking towards the officer?

15 **A** Yes.

16 **Q** Was the officer saying anything?

17 **A** I didn't see the officer's lips move or
18 nothing.

19 **Q** You would have heard him if he was saying
20 anything?

21 **A** If he would have said it at a tone to
22 where I was able to hear based on me being on my
23 porch.

24 **Q** And when Mike Brown said, stop shooting
25 me?

1 **A** I clearly heard him from this point, from
2 over here to my parking lot. I mean, over here in
3 the street, I was able to still hear this.

4 **Q** Was he loud in your opinion?

5 **A** Yes, after with the gun, yes.

6 **Q** Stop shooting me, was he saying that,
7 yelling that?

8 **A** It was a scream like. If the bullets is
9 piercing his skin.

10 **Q** Okay. You are still on your porch, you
11 never went downstairs?

12 **A** I went down after he fell to the ground.

13 **Q** Okay. So when you are at your porch,
14 that's when you see what you see?

15 **A** Yes.

16 **Q** You don't see anything happening when you
17 go down?

18 **A** I don't see the closure of the situation.

19 **Q** Okay. So from where you were on your
20 porch to where the incident, the shooting was
21 occurring, any idea how far apart you were?

22 **A** The distance between my apartment and the
23 street?

24 **Q** Uh-huh.

25 **A** I don't know the radius, I don't know.

1 **Q** Okay. And your vision, is it pretty good?

2 **A** No, I got bad vision.

3 **Q** You got bad vision?

4 **A** Yeah, I've got bad vision. I've got
5 contacts in to where I'm able to see what I saw
6 because of the daylight.

7 **Q** So your contacts were in then?

8 **A** Yes, they were.

9 **Q** And your hearing?

10 **A** Yes, it's good.

11 **Q** Okay. All right. So total number of
12 shots that you heard that morning?

13 **A** I'm going to say at least ten, that's it.
14 I can't give you no more.

15 **Q** You think ten. I know you have heard
16 information on the news about the autopsy and where
17 shots were on his body, right?

18 **A** Yes and no, because I did not listen to or
19 look at a lot of news. I just --

20 **Q** But you know some of the information by
21 where he received the shots?

22 **A** Yes, yes.

23 **Q** Okay. Now, do you recall when you first
24 talked to the police?

25 **A** I did not talk to the police.

1 **Q** Who did you talk to?

2 **A** FBI.

3 **Q** Do you recall when you first talked to the
4 FBI?

5 **A** Yes, I do.

6 **Q** When was that?

7 **A** It was the following Saturday they came to
8 everybody's apartment and questioned individuals.

9 **Q** So approximately a week after --

10 **A** Somewhere like that.

11 **Q** -- this occurred?

12 **A** Yes, ma'am.

13 **Q** And you did give them a statement?

14 **A** Yes, I did.

15 **Q** Okay. As you are telling us here today, I
16 believe you did not see the initial --

17 **A** No, I did not.

18 **Q** -- when he first made contact with the
19 police officer?

20 **A** No, ma'am.

21 **Q** Okay. You only saw it when the police
22 officer was pursuing him east on Canfield Drive?

23 **A** Yes, ma'am.

24 **Q** And just to make sure I'm clear, were you
25 hearing shots fired as Michael Brown's back was

1 turned?

2 **A** Yes, ma'am.

3 **Q** So it would be reasonable to assume that
4 he's shooting based on what you are telling us, that
5 he's shooting at Mike Brown as he's running away?

6 **A** Yes, ma'am.

7 **Q** You say you didn't hear him?

8 **A** I didn't hear him say anything.

9 **Q** Initially you thought he actually shot him
10 in the back, right?

11 **A** Initially.

12 **Q** Before you knew where the shots were?

13 **A** Exactly.

14 **Q** You realized he wasn't shot in the back,
15 does that make sense with what you saw?

16 **A** Yes, it does, it makes sense, it does, it
17 makes sense to coincide with what I thought.

18 **Q** Okay. Now, did you see anyone with
19 Michael Brown when you saw this incident occurring?

20 **A** No, ma'am. All I seen was Mike Brown
21 running eastbound on the street.

22 **Q** And tell me again why you believe that he
23 was hit before he turned around? We now know he
24 wasn't shot in his back. You said you believe he
25 was shot in his back, why did you think he was hit

1 before he turned around?

2 **A** Because I heard gunshots, you know, I
3 heard the gunshot and when he turned around, I
4 figure he was hit. And so he immediately submitted,
5 subdued himself like, okay, this is real, you know.

6 **Q** You didn't see anything that gave you the
7 impression that he was injured?

8 **A** No, I did not. I didn't see no physical
9 indication on his body whatsoever based on distance.

10 **Q** Okay. Was it strange to you that he was
11 walking towards the police officer?

12 **A** No, it was not because he was ready to, I
13 guess, give himself up from running based on being
14 grazed by the bullet and I did not know that
15 information until, like you said, the autopsy came
16 out.

17 **Q** But, I mean, with his hands up and walking
18 towards the officer, what was your thinking when you
19 saw him do that?

20 **A** He was ready to give himself up.

21 **Q** And you didn't see him do anything
22 threatening towards the officer?

23 **A** No, I did not, none whatsoever.

24 **Q** Now, you seen the movie clip, I call it
25 movie, but it's a news clip with the two

1 construction workers?

2 **A** Yes, ma'am.

3 **Q** And there's someone saying he wasn't a
4 fucking threat?

5 **A** That was my voice.

6 **Q** You have seen this and you verified that's
7 your voice?

8 **A** Yes.

9 **Q** Okay. Now, once he, well, you already
10 said you didn't see him hit the ground?

11 **A** No, I did not.

12 **Q** So where do you go after --

13 **A** After he's on the ground.

14 **Q** I mean, you just hear, see him approaching
15 the officer, the officer is still shooting, what do
16 you do?

17 **A** I get closer. I come from my porch. I
18 walk and he's laying there dead on the ground.
19 After hearing a couple more shots go off.

20 **Q** Did you hear more shots go off from when
21 you were leaving your porch to get out here on
22 Canfield Drive?

23 **A** Yes, I did, yes, I did.

24 **Q** Did you see the officer shooting into
25 Michael Brown's body as he laid on the ground?

1 **A** No, I did not. I can only assume that
2 that happened.

3 **Q** Did you see him get shot in the head?

4 **A** No, I did not.

5 **Q** Now, how did you make contact with the
6 FBI?

7 **A** They made contact with me.

8 **Q** Okay. So they came to your apartment?

9 **A** (Nods head.)

10 **Q** Okay. Now, when you initially talked to
11 the FBI, and we've listened to your statements, or
12 Kathi Alizadeh and I have, there is information in
13 there that the officer was standing over him while
14 he laid on the ground and finished him off?

15 **A** You know, I said that out of an assumption
16 based on me being where I'm from and that can be the
17 only assumption that I have.

18 **Q** You didn't see him hit the ground?

19 **A** I didn't physically see none of that
20 because of the blind spot in which I'm located at
21 and this is , there is a cutoff
22 margin so where I'm not able to see. My assumption
23 and my common sense leads me to believe that's what
24 occurred.

25 **Q** That once he hit the ground that the

1 officer finished him off?

2 **A** (Nods heads.)

3 **Q** You did not see that?

4 **A** I did not physically see that.

5 **Q** Okay. You never saw the officer standing
6 over him shooting into his body?

7 **A** No, I did not.

8 **Q** Okay. Now, did you know Michael Brown?

9 **A** Uh, my nephew knew Michael Brown, my
10 sister knew Michael Brown, he was a friend of my
11 nephew's. They played and he came over to my
12 sister's house occasionally to play with my nephew
13 and they was real cool and my sister said he was a
14 well-mannered individual.

15 **Q** Did you have any interaction?

16 **A** Never whatsoever.

17 **Q** Okay. You learned all of this after he
18 died?

19 **A** After he died.

20 **Q** Okay. Now, did you talk to anyone that
21 day about what happened?

22 **A** As far as who?

23 **Q** About what was going on and what you saw
24 and I mean, just, like the construction workers or
25 other neighbors?

1 **A** Yes, neighbors was conversing with each
2 other all through the day, all through the night.

3 **Q** Okay. And you were talking?

4 **A** We was all discombobulated.

5 **Q** What do you mean discombobulated?

6 **A** Just confused, couldn't believe that it
7 happened.

8 **Q** Okay, all right. You went out here where
9 the body was, was the officer still there?

10 **A** He was present for a few moments or so
11 until he was relieved.

12 **Q** What's he doing, what did you see him
13 doing, if anything?

14 **A** Pacing back and forth, you know, that's
15 about it.

16 **Q** Did he still have his weapon drawn?

17 **A** No, he did not. He had it in the holster.

18 **Q** Anybody appear to give Mike Brown any type
19 of assist?

20 **A** They tried to, but they had it taped off
21 where, you know, individuals could not even enter
22 into, not even close relatives could even enter into
23 the scene.

24 **Q** Okay.

25 **A** I had to hold off his step dad because he

1 was so emotional.

2 Q You actually held him off?

3 A Held him off. He was ready to go and see
4 his son, you know, I had to use all my strength.

5 Q Did you know the police officer Darren
6 Wilson?

7 A No, I do not.

8 Q Never had any contact with him whatsoever?

9 A No, I did not.

10 MS. WHIRLEY: Kathi?

11 Q (By Ms. Alizadeh) All right. ,
12 the first time you talked to the FBI, which was a
13 week after this happened, you told them a story that
14 had a bunch of lies, isn't that right?

15 A A bunch of lies?

16 Q Well, you told them that you saw the
17 officer stand over Michael Brown and empty his clip
18 into his body and finish him off, didn't you say
19 that?

20 A Well, you know, I did say that, but it was
21 based on assumption. Like I told her earlier
22 because the blind spot, me being in and that's
23 I'm not able to physically see the closure of
24 the situation.

25 Q You told them that you saw Michael Brown

1 get shot in the back and that's not true, is it?

2 **A** That's not true based on the truth of the
3 autopsy coming out.

4 **Q** But you told them --

5 **A** Yeah, I told them that.

6 **Q** You saw Michael Brown get shot in the
7 back?

8 **A** I didn't have no indication of where he
9 was shot at based on me seeing what I seen.

10 **Q** And you told them that you saw the officer
11 within an arm's length of Michael Brown shoot him in
12 the head and you didn't see that, did you?

13 **A** Based on assumption.

14 **Q** But you told them?

15 **A** Yes, I did.

16 **Q** You saw that?

17 **A** Yes, I did tell them that based on
18 assumption.

19 **Q** And then you also told them that after
20 Michael Brown was on the ground, the officer stood
21 over him and empty his clip into him and finished
22 him off, and you told them that you saw that?

23 **A** Based on assumption again.

24 **Q** But you didn't tell them that you were
25 basing that on assumption, you told them that you

1 saw that?

2 **A** I told them in the second meeting with the
3 FBI, we all sat down and it was solely based on
4 assumption because I'm not able to be at a point to
5 where I'm not able to see. I told them based on
6 assumption, if you see the report it says that based
7 on assumption and my common sense, I wasn't
8 physically there, so therefore, I can only assume
9 that happened.

10 **Q** Well, okay. So I listened to your
11 statement.

12 **A** You can read it.

13 **Q** In your first statement you didn't tell
14 them that you were assuming that, you told them that
15 that's what you saw?

16 **A** And that's what the second visit was for
17 to clarify the first recording.

18 **Q** So in the second interview, they told you
19 that, by the time you gave the second interview, at
20 that point you had seen on the news there was an
21 autopsy?

22 **A** Once again, I did not look at the TV or
23 listen to reports. I looked at the reports as far
24 as knowing his autopsy, I looked at it once to
25 verify my clarification for myself because I did not

1 know where initially where the bullets landed.

2 **Q** Well, you changed your story in the second
3 interview to say that when he was running away, the
4 officer's shot actually grazed him in the arm?

5 **A** And that's what it did.

6 **Q** And you saw that?

7 **A** Based on the autopsy once again.

8 **Q** So you are basing all of this on not your
9 personal observation?

10 **A** Well --

11 **Q** -- let me finish my question.

12 **A** Okay.

13 **Q** So you are basing this on, not your
14 personal observation, but on just things that you
15 heard in the media?

16 **A** It is concrete once the autopsy come out.
17 I can assume anything based on me looking, I don't
18 know, I don't know where the bullet was landing.

19 **Q** Didn't you say in your second interview
20 you admitted that those things that you said you saw
21 you really didn't see them and you were basing it on
22 what you had seen in the media?

23 **A** That was the truth based on the autopsy
24 coming back. I don't have no knowledge of giving
25 autopsy, so yeah.

1 **Q** So it was after you learned that the
2 things that you said you saw couldn't of had
3 happened that way, then you changed your story about
4 what you seen?

5 **A** Yeah, to coincide with what really
6 happened.

7 **Q** So is what you're testifying about today
8 what you really saw or you also basing your
9 testimony today --

10 **A** I'm not --

11 **Q** -- let me finish my question. Are you
12 also basing your testimony today on things that you
13 assumed?

14 **A** You know, it is not a thing of assumption,
15 based on being in the position when it happened in
16 the beginning because I don't know where the bullets
17 was flying to, I can only assume that they landed
18 where they landed.

19 And that wasn't the truth of the
20 matter being the autopsy came out and gave clarity
21 based on what I thought I saw. The autopsy didn't
22 lie. I didn't know in the beginning, I was full of
23 emotion and I knew that this individual was getting
24 shot. So I assume the portions of the body that I
25 named, he was getting shot. The autopsy came out to

1 where it clarified everything where he got shot at
2 so.

3 Q So you assumed when you made your first
4 statement that the officer stood over him and empty
5 his clip into him and finished him off?

6 A Once again, based on me being in
7 and that's , I can only assume. I can
8 only assume.

9 Q Why did you assume that?

10 A Because some individual getting shot by
11 police, it was like, really, this just didn't
12 happen.

13 Q I mean, don't you think is it possible
14 that you said that because that's what other people
15 were saying they seen?

16 A I didn't base that on anybody else's
17 knowledge of. I only based it on my assumption,
18 once again, because I'm in and that's
19 and that's a blind spot. I only assume
20 based on bullets being fired and a dead body laying
21 on the ground.

22 Q You never saw Michael Brown fall on the
23 street?

24 A No, I did not. I can only assume that he
25 did because of the bullets that was due to his body.

1 **Q** And you said that you could clearly hear
2 Michael Brown saying the thing he said screaming,
3 right?

4 **A** He yelled, don't shoot me, stop shooting.

5 **Q** You remember in your first interview
6 Michael Brown put his hands up and said okay?

7 **A** He was saying that too as well as the
8 bullets was going off of his body, okay, he was
9 saying okay.

10 **Q** You never told the agent in your first
11 interview that he was saying don't shoot me, you
12 said he was saying okay.

13 **A** I never told him in the first interview?

14 **Q** Yes. Do you recall?

15 **A** It comes out, to actually see somebody get
16 gunned down, you might miss a couple of things, you
17 know, because it's just a shock to see an officer
18 shoot somebody the way he did. So you might forget
19 something.

20 **Q** And I'm going to correct myself, I've got
21 my notes from your first interview. You said
22 Michael Brown said don't shoot, and then you said
23 you saw him fall to the ground and the officer
24 continue to shoot him. The officer stood over him
25 and finished him off in the head.

1 **A** Once again, based on my location,

2

3 **Q** When you were interviewed first, you said
4 Michael Brown said don't shoot?

5 **A** He was saying that, he was saying that.

6 **Q** And then in your second interview you said
7 Michael Brown was saying okay.

8 **A** He was saying okay based on getting shot
9 in his upper torso once again.

10 **Q** And now you are saying he was saying stop
11 shooting me?

12 **A** He goes don't shoot, stop shooting, okay.
13 There was a whole bundle of things of getting
14 pierced with a bullet to his upper torso once again.

15 **Q** And in your interview, your second
16 interview with the FBI, do you remember an attorney
17 named that was talking to you?

18 **A** Maybe.

19 **Q** Black hair guy. And he said, you know,
20 that it is important that you talk about what you
21 saw and not what you assume happened?

22 **A** Okay.

23 **Q** And it was after he explained to you that
24 you have to talk about what you actually saw and you
25 also at that point knew that there was no shots in

1 Michael Brown's back, correct?

2 **A** At that point you're saying I didn't know
3 there was shot to his back?

4 **Q** Well, in your second interview you talk to
5 about the fact you knew he was grazed
6 in arm because of the autopsy?

7 **A** Yes.

8 **Q** You knew about the autopsy results during
9 your second interview?

10 **A** Based on what I seen with the graze on the
11 arm and him turning around. As far as the other
12 bullets are concerned, I wasn't concerned about them
13 because of the fact the closure of the bullets, I
14 was only concern of the graze of the arm based on
15 his turning around and putting his arms up and what
16 I seen when he was walking toward the police. He
17 was getting shot in the upper torso and lower torso,
18 that's all I can give you based on me visualizing
19 and seeing what I saw, that's it.

20 I can't give you the closure of him
21 standing over him and finish him off with a head
22 shot. I don't know. I don't know. I assume, once
23 again, based on me being where I was at in
24 there's a blind spot. I
25 can only assume by common sense that occurred.

1 **Q** So today did you see the officer shoot
2 Michael Brown as he was running away?

3 **A** Yes, I did.

4 **Q** You saw him shoot Michael Brown as Michael
5 Brown was running away?

6 **A** I saw him shoot in the direction, he
7 became clear to, once again, he became clear to me
8 as Mike Brown running eastbound on the street, he
9 became clear to me when he made himself visual
10 outside of . When he became clear to me,
11 this is the angle I'm able to see him at. He became
12 clear to me and I notice that Michael Brown run this
13 way, he became clear to me when he left this
14 building right here, .

15 **Q** But my question is today, do you remember
16 the officer shooting Michael Brown as Michael Brown
17 was running away?

18 **A** Yes, I do.

19 **Q** You saw him shoot him as he's running
20 away?

21 **A** I saw him shoot in the direction Mike
22 Brown was running into, eastbound.

23 **Q** Okay. And then as you sit here today, do
24 you remember seeing Michael Brown get shot in his
25 chest and his torso?

1 **A** Yes, I did.

2 **Q** Do you remember Michael Brown falling on
3 the ground?

4 **A** I can only assume him falling on the
5 ground due to me being in and this
6 , I wasn't able to see him physically fall
7 to the ground.

8 **Q** So from is your where your porch is?

9 **A** Yes.

10 **Q** Michael Brown would have been right around
11 this area, right?

12 **A** Yes, he would of.

13 **Q** And so at that point you kind of have a
14 side view of him, is that fair to say?

15 **A** Side view with a blind spot.

16 **Q** Side view with a blind spot?

17 **A** Yes.

18 MS. ALIZADEH: I don't have anything else.

19 MS. WHIRLEY: Questions?

20

21 Can you show us on the map at which point Michael
22 Brown turned around?

23 **A** At what point?

24 Yes, how far east did he
25 go?

1 **A** He was approximately, he was about right
2 here. He was about right here when he turned
3 around. (indicating)

4 : Can you show us where his
5 body ended up?

6 **A** His body ended up about right there on the
7 ground. (indicating)

8 : I'm trying to estimate
9 that distance how far he traveled back to the west
10 as he was being shot at.

11 **A** Right.

12 : I mean, I don't know that
13 area well, is that 50 feet, 100 feet, that looks
14 like a pretty good distance.

15 **A** Yeah, it's a pretty good distance.

16 That whole time as he's
17 advancing towards the officer he's being shot at and
18 the officer is backing up for part of that, I guess
19 to keep his distance or what's happening in your
20 mind?

21 **A** In my mind I see Mike Brown with his hands
22 up once again, and they are coming closer and I'm
23 like, why is you shooting this individual if he's
24 showing a surrender, you know, I don't get it. He
25 started backing up and still letting rounds off

1 like, you don't pose no threat, what is the threat.

2 So I'm really puzzled, you know.

3 Okay, thank you.

4 .

5 **A** How you doing.

6 I have some questions.

7 You said that you made your changes in your story

8 after, um, the facts were revealed from the autopsy?

9 **A** Yes.

10 : So you said that Michael
11 Brown was running eastbound?

12 **A** Yeah.

13 : Okay. And the police
14 officer was shooting at him?

15 **A** Yes.

16 And you saw him get shot
17 in the upper torso story?

18 **A** Yes, I did.

19 : So are you telling us
20 that he got shot in the upper torso through his
21 back?

22 **A** No.

23 : Okay.

24 **A** What I'm saying is based on --

25 : Not assumption, I want to

1 know what you saw. Did you see blood, how did you
2 know he was shot?

3 **A** Well, basically his upper torso I was able
4 to see with my own two eyes.

5 : Okay. And after he
6 turned around?

7 **A** After he turned around, the officer is
8 coming closer, he's coming closer and I was able to
9 physically see, no assumptions.

10 : Okay.

11 **A** He was shooting in his upper torso.

12 : Okay.

13 **A** And I seen this.

14 : And how do you know he
15 was shot?

16 **A** Cause I seen it with my eyes.

17 : Okay. What did you see
18 blood, did you see holes, did you see smoke, what
19 did you see?

20 **A** I seen the gun being fired, I seen the gun
21 being fired into his upper torso.

22 You saw the gun being
23 fired towards Michael Brown?

24 **A** Yes.

25 You didn't see anything,

1 a jerk or a fall or anything that would lead you to
2 believe, I'm just playing the devil's advocate here,
3 to lead you to believe that he was shot. You didn't
4 see him, you saw him get shot at?

5 **A** I seen him get shot.

6 : Okay.

7 **A** I didn't see him get shot at. At that
8 point you are asking me, but as far as when he was
9 running eastbound is when he get shot at, that's
10 shot at, but being shot.

11 : Okay.

12 **A** I seen him get shot in his upper torso.

13 : Okay. And what makes you
14 say he got shot, did you see the holes, did you see
15 the blood?

16 **A** The distance between the officer and
17 Michael Brown and where he had his gun raised, I
18 seen him physically get shot in his upper torso.

19 : Okay. And you say he was
20 moving toward the police with his arms up and he was
21 not posing a threat?

22 **A** None whatsoever.

23 : Okay. And I'm going to
24 ask you this, and I believe you, but you live there
25 so you knew he wasn't a threat to you, but if you

1 were a police officer and he's still moving toward
2 you, how could you be sure that the police officer
3 didn't think he was a threat? If I were being shot
4 and I were being shot at, even though I had my hands
5 up, I'd get on the ground.

6 Couldn't it be possible, why didn't he
7 stop moving? I mean, it would seem to me that there
8 could still be perceived as a threat if he's still
9 moving toward the police officer and the police
10 officer is backing up. Look at it from another
11 point, I just want you to tell me if it's possible?

12 **A** It may be possible in your world.

13 : In my world?

14 **A** Yeah.

15 : Okay. What does that
16 mean?

17 **A** That means that you more than likely not
18 to be shot the way he was shot. So he did not know,
19 being as young as he is, not knowing the seriousness
20 the situation. After getting pierced with the gun,
21 his torso to get down on his knees because he's
22 thinking to himself, I'm assuming that this officer
23 what is he doing. He's here to protect and serve,
24 he's here to protect and serve.

25 : If you were being shot,

1 wouldn't you want to get down on the ground?

2 **A** Immediately, but he did not know,
3 apparently, he did not know to get down on the
4 ground.

5 : So I want to ask you a
6 question. Again, about that, and you say it was
7 quite a distance that he moved toward the police
8 officer, 50 to 100 feet?

9 **A** Uh-huh.

10 : Okay. And at that point
11 he was out of your sight?

12 **A** Uh-huh, correct.

13 : So you don't know, he's
14 moving toward the police officer, even though he has
15 his hands up, he's still moving towards him.

16 **A** After getting shot in the upper torso.

17 : After getting shot in the
18 upper torso, how many times has he been shot?

19 **A** I say, I say, about four times, I think
20 about.

21 : Four times in upper
22 torso?

23 **A** Two upper torso and two down lower
24 portion. At that point it becomes a blind spot once
25 again.

1 : So he's been shot four
2 times, he's still moving forward, he hasn't gotten
3 down on the ground, and then he gets out of your
4 sight and you do not know what happens after that.
5 You don't know if his hands went down, you don't
6 know if he charged, you just know that his hands
7 were up and he was still moving forward.

8 **A** Correct.

9 And the police officer
10 was moving back?

11 **A** Correct.

12 : Okay. So I need to know,
13 you said, and you have to help me understand, I want
14 to make a good decision here. You said he said stop
15 shooting, but then you said he was saying okay,
16 okay, okay. Why are you shooting me. I need to
17 know what you heard, not what you think you heard or
18 what you heard.

19 **A** I'm assuming, I'm not going to assume, I'm
20 going to tell you based on you get pierced with a
21 bullet.

22 : Uh-huh.

23 **A** Multiple things will come out your mouth
24 you never spoke of.

25 : Okay.

1 **A** That's what he was going on. He was
2 getting pierced by some bullets. He was pleading
3 for his life.

4 : Okay. Thank you.
5 You have said
6 earlier today that your story matched those of the
7 construction workers, did you talk to them earlier
8 that day?

9 **A** No, I did not.

10 : Did you talk to them after
11 this incident happened?

12 **A** We don't even know each other.

13 : Okay. You haven't
14 communicated since this incident?

15 **A** I haven't communicated to him, no.

16 : How do you know that your
17 story matches their story?

18 **A** Excuse me?

19 : How do you know that your
20 story matches their story?

21 **A** I say this much, we was looking in the
22 same direction at the same given time. If it
23 differs, then we both blind.

24 Thank you.

25 . Immediately

1 after the shooting stops, were you still on your
2 balcony?

3 **A** I started to get closer because I was
4 curious to want to know why was the extra rounds let
5 off.

6 : Okay. Did you see any
7 cars go by?

8 **A** Traffic stopped because of the officer's
9 blocking off Canfield.

10 : Okay. So from the time
11 that you were on your balcony to the time that you
12 started getting closer to where Michael Brown had
13 fallen, did you notice any cars going up and down
14 Canfield.

15 **A** None whatsoever.

16 : I'm sorry, one other
17 question. When you saw, when Michael Brown was
18 running from the police officer, he first came into
19 your field of vision, as he's running east towards
20 the Northwinds Apartments, can you describe how he
21 was running, was he in a dead sprint.

22 **A** It wasn't so much of a dead sprint, he was
23 light footed, he had socks on. And he was trying to
24 get little, in this expression I mean little, he was
25 trying to get up, but he wasn't fast, it wasn't

1 fast. It was a moderate pace, you know.

2 Okay. And at that point
3 he turned and as he's turning, his hands go up in
4 the air?

5 **A** That's correct.

6 And he starts moving back
7 towards the police officer and the police officer is
8 moving back. Was it, can you describe how he was
9 moving at that particular point?

10 **A** The way in which he was walking toward
11 West Florissant?

12 : Yes.

13 **A** He was walking at a moderate pace to where
14 he has his arms up, he was walking like this at a
15 moderate pace. There was not no running whatsoever.

16 : Okay. And that's when you
17 started to hear what he had to say?

18 **A** Because the gunshots was going off.

19 : Okay, all right, thank
20 you.

21 At the
22 point that you see him coming back with his hands
23 up, did he ever appear to you that he was charging
24 the police officer?

25 **A** None whatsoever, not to me.

1 Did it appear to you that
2 he put his hands on his shirt or in his pants?

3 **A** No indication of that whatsoever.

4 : Thank you.

5 Prior
6 to this incident, have you ever seen anyone or view
7 anyone shot before?

8 **A** I, myself, have been shot before.

9 : Okay. And where did you
10 get shot?

11 **A** In the arm, in the lower torso.

12 : Okay. And can you tell me
13 what distance you were shot, was it the same
14 distance at which Michael Brown was shot?

15 **A** Much closer.

16 : Much closer, okay. And
17 when you were shot, did you immediately start
18 bleeding?

19 **A** Yes, I did.

20 Okay.

21 . Were
22 you shot by the police?

23 **A** (Shakes head.)

24 . Did you
25 say that you ever got a visible facial expression,

1 the police officer, could you see his face at all?

2 **A** Yeah, he was looking based on what I seen,
3 just in a state of confusion, I guess, that's the
4 best I can express it to be.

5 : Is this afterwards?

6 **A** Yes.

7 : Could you see him at all
8 during?

9 **A** Yeah, he was in the street. He was pacing
10 back and forth talking to his fellow officer.

11 : Okay. While Michael was
12 running, could you see the police officer, did he
13 ever become visual?

14 **A** He became visual to me after he left this
15 point. I was able to visibly see him when he came
16 in view.

17 Could you see his face of
18 any color issue or anything?

19 **A** At that time there wasn't no physical
20 damage to his face that people say, there was
21 nothing on his face.

22 : Thank you.

23 MS. ALIZADEH: , you came down
24 to the scene closer eventually; is that right?

25 **A** Yes, I did.

1 MS. ALIZADEH: Did you see people around
2 that area?

3 A A lot of people.

4 MS. ALIZADEH: Anybody you recognize?

5 A A lot of people that live in the complex.

6 MS. ALIZADEH: You recognize anybody that
7 you know by name.

8 A Yeah, I did.

9 MS. ALIZADEH: What names do you remember
10 seeing down there?

11 A Um, they got nicknames, they don't have
12 even use their real names over there. So there is a
13 lot of people that live in the complex with me. I
14 seen , a lot of other little people
15 and they was just in awe.

16 MS. ALIZADEH: And as the shooting was
17 happening, I know you said you saw the construction
18 workers there.

19 A Uh-huh.

20 MS. ALIZADEH: As the shooting was
21 happening, not afterwards, as it was happening, did
22 you see anybody that was in this vicinity? I'm just
23 going to generally say, did you see anybody that was
24 on foot in this general vicinity?

25 A Did I see anybody on foot? They only came

1 about being out there when they heard what they
2 heard or seen what they seen based on Mike Brown
3 being on the ground.

4 MS. ALIZADEH: Okay. So did you ever see,
5 and is your stepmom, not stepmom,
6 godmother?

7 **A** She's play mom, she stays next door to me.

8 MS. ALIZADEH: Did you ever see her that
9 day?

10 **A** Yes, she was out there.

11 MS. ALIZADEH: Where was she when you
12 first saw her?

13 **A** I wasn't, I wasn't paying attention to
14 nobody. I was zoning in to what I seen. I just had
15 a blockage.

16 MS. ALIZADEH: Okay. You said you saw her
17 out there?

18 **A** After I came from my porch and everybody
19 kind of gathered up as Mike Brown laid on the
20 ground.

21 MS. ALIZADEH: You weren't paying
22 attention to anything before you saw her at the
23 scene after he was on the ground?

24 **A** Exactly.

25 MS. ALIZADEH: All right. Did you talk to

1 her about what you had seen?

2 **A** No, no.

3 MS. ALIZADEH: Did she talk to you about
4 what she had seen?

5 **A** No, she kept stuff to herself, you know,
6 like I was. I'm like, did this really just happen.
7 It's like, it is hers, you know.

8 MS. ALIZADEH: Did you ever, I know there
9 is a part of it at the end that you say you didn't
10 see?

11 **A** Exactly.

12 MS. ALIZADEH: You never saw Michael Brown
13 on his knees?

14 **A** No, I did not.

15 MS. ALIZADEH: All right. Thank you.

16 MS. WHIRLEY: Anybody else?

17 . Did you know
18 prior to August 9th?

19 **A** I've seen her off and on.

20 So you have met her?

21 **A** Yes, off and on. Just, just the situation
22 just brought everybody close together in a sense
23 because, you know, you see people passing and you go
24 hi, bye, it is just that.

25 : Okay.

Will

1

2 you tell us why you were shot?

3 **A** Could you repeat the question?

4 : Why you got shot,

5 somebody shot you?

6 **A** Why did I get shot?

7 : Yes.

8 **A** Um, it was a misunderstanding between me

9 and a brother-in-law.

10 : Between you and who?

11 **A** A brother-in-law. It was a family related

12 situation to where you know, it just occurred.

13 That's not on the record?

14 MS. ALIZADEH: Pardon me.

15 MS. WHIRLEY: Any other questions?

16 MS. ALIZADEH: , is there

17 anything else that you can think of or that we

18 haven't asked you that you think is important for

19 this grand jury to know and understand when they

20 make their decision?

21 **A** Basically I think you guys are doing your

22 best to dissect and analyze this case. I just ask

23 that you be forever mindful of both sides, of both

24 families and give just due.

25 MS. ALIZADEH: Okay. Anyone else have

1 anything any other questions? All right.

2 (End of the testimony of .)

3

4 of lawful age, having been first duly sworn to

5 testify the truth, the whole truth, and

6 nothing but the truth in the case aforesaid,

7 deposes and says in reply to oral

8 interrogatories, propounded as follows, to-wit:

9 EXAMINATION

10 BY MS. ALIZADEH:

11 Q Could you tell us your name?

12 A

13 Q Okay. remember when I told you
14 you are going to have to speak up so we can hear you
15 all the way back here?

16 A Yes.

17 Q So first of all, can you spell your name
18 for the court reporter?

19 A

20 Q Can I call you

21 A Yes.

22 Q How old are you?

23 A

24 Q And when was your birthday?

25 A

1 **Q** You live with your mom; is that right?

2 **A** Yes.

3 **Q** Now, your mom doesn't live in Canfield
4 Green; is that correct?

5 **A** No.

6 **Q** Who lives in Canfield Green that you know?

7 **A** My dad.

8 **Q** And do you know what your dad's address
9 is?

10 **A** I don't know.

11 **Q** Okay. Do you remember when the police
12 first came to talk to you on the day of the
13 shooting?

14 **A** Yes.

15 **Q** Were you at your father's apartment when
16 they talked to you?

17 **A** Yes.

18 **Q** Okay. So if the, can you look on this
19 map, this is Grand Jury Exhibit Number 25. These
20 are the buildings and the roads that are in Canfield
21 Green, can you see where your building is?

22 **A** No.

23 **Q** Okay. Do you know that your address is,
24

25 **A** No.

1 **Q** You don't know that?

2 **A** No.

3 **Q** Okay. So here is . So if your dad
4 told the police that on the day that you were
5 interviewed that that was your address, would that
6 be, do you have any reason that your dad wasn't
7 truthful, right, your dad told the police where you
8 lived?

9 **A** Uh-huh.

10 **Q** Okay. And the police were at your house
11 when they interviewed you, your dad's house?

12 **A** Yes.

13 **Q** Okay. So here is on the map right
14 here. Do you know what floor your dad lives on?

15 **A** Third floor.

16 **Q** The top floor?

17 **A** Uh-huh.

18 **Q** And so when you were in your dad's
19 apartment and you look out the window, the front
20 windows, you can see Canfield Drive; is that right?

21 **A** Yes.

22 **Q** Okay. Now, were you staying with your dad
23 when you were on, August 9th that day were you
24 staying there, like the weekend or something?

25 **A** Yes.

1 **Q** Do you spend weekends with your dad?

2 **A** Yes.

3 **Q** Do you know people in the complex, do you
4 have friends in the complex?

5 **A** No, that was my second time over there.

6 **Q** That was the second time you had ever been
7 there?

8 **A** Uh-huh.

9 **Q** Have you been there since?

10 **A** Yes, once.

11 **Q** Did you know, now you know that this is
12 about the day that Michael Brown got shot, right?

13 **A** Yes.

14 **Q** Did you know Michael Brown before that
15 day?

16 **A** No.

17 **Q** Had you ever seen him in the complex?

18 **A** No.

19 **Q** All right. Do you know a guy named Dorian
20 Johnson or DJ?

21 **A** No.

22 **Q** Okay. Um, so why don't you tell the grand
23 jurors what you were doing on that day on August 9th
24 when you heard something?

25 **A** Um, I was listening to some music on the

1 TV until I heard some screaming.

2 Q Okay. Nobody can hear you back here.

3 That microphone isn't going to amplify your voice.

4 So let's practice something, say

5 A

6 Q But louder?

7 A

8 Q A little louder low.

9 A

10 Q There you go, okay. I know you can do it.

11 I bet you raise your voice sometimes, right?

12 A (Nods head.)

13 Q All right. So on the day that the
14 shooting happened you were at your dad's, right?

15 A Yes.

16 Q Where in the apartment were you, is your
17 dad's apartment a two bedroom or one bedroom?

18 A One.

19 Q One bedroom?

20 A Uh-huh.

21 Q So when you would stay at your dad's,
22 where would you, would you sleep in the living room?

23 A The living room.

24 Q Like on a couch?

25 A Yes.

1 **Q** And so, um, when you're in the living room
2 and you look out the windows, do you look onto
3 Canfield?

4 **A** Yes.

5 **Q** Okay. So I think you said that, were you
6 in the living room when you heard something?

7 **A** Yes.

8 **Q** What were you doing?

9 **A** Listening to some music.

10 **Q** Listening to some music?

11 **A** Yes.

12 **Q** Was it on the radio or were --

13 **A** No, I was YouTube.

14 **Q** On YouTube?

15 **A** Yes.

16 **Q** Was it on a computer then or on TV?

17 **A** It was on a game.

18 **Q** On a game?

19 **A** Yes.

20 **Q** Like a handheld kind of game?

21 **A** Yeah.

22 **Q** What kind of game was it?

23 **A** A Play Station III.

24 **Q** Okay. So this is a game that plays on
25 your TV?

1 **A** Yes.

2 **Q** Was the music turned up real loud? Like
3 sometimes my kids turn their music up really, really
4 loud, was your music up loud?

5 **A** No.

6 **Q** And what happened that suddenly drew your
7 attention to something?

8 **A** I heard some screaming.

9 **Q** And did the screaming, did you think it
10 was inside the apartment or outside the apartment?

11 **A** Outside.

12 **Q** And did you, could you tell at that time
13 if it was a man's scream or a woman's scream or a
14 boy's scream?

15 **A** Um, no.

16 **Q** You couldn't tell?

17 **A** No.

18 **Q** Was the scream a word or words or was it
19 just a sound?

20 **A** It was just a sound.

21 **Q** Prior to the scream, did you hear anything
22 else that drew your attention?

23 **A** No.

24 **Q** So that's the first thing that you heard
25 that you thought, what was that?

1 **A** Yes.

2 **Q** All right. So what did you do when you
3 heard the scream?

4 **A** I walked to the window and started to look
5 out the window.

6 **Q** So now in your living room, because we
7 heard people talk about the apartments there, is
8 there a sliding glass door?

9 **A** Yes.

10 **Q** Is that the window that you looked out?

11 **A** Yes.

12 **Q** And are there blinds on that sliding glass
13 door?

14 **A** Yes.

15 **Q** On that day, do you know were the blinds
16 open or closed?

17 **A** They was open, but there was some missing
18 so I didn't have to touch the blinds.

19 **Q** They were open?

20 **A** Yes.

21 **Q** You didn't have to touch them?

22 **A** Yes.

23 **Q** They were in a way where you could look
24 through the blinds?

25 **A** Yes.

1 **Q** So the blinds were across the window, but
2 they were open?

3 **A** Yes.

4 **Q** All right. So when you looked out the
5 window, let me ask you first. Was there anybody
6 else home with you?

7 **A** No.

8 **Q** So when you looked out the window from
9 what did you see when you looked out the
10 window?

11 **A** I saw a police car parked in a funny kind
12 of way.

13 **Q** Okay. Let's back up. I'm going to repeat
14 what you say so everybody can make sure they hear
15 your answers and you tell me if, remember if I say
16 if I say something and it is not what you said, you
17 need to correct me, okay?

18 **A** All right.

19 **Q** So you said you saw a police car?

20 **A** Yes.

21 **Q** Was it, can you describe the car?

22 **A** Um, I guess it was a truck.

23 **Q** A truck?

24 **A** Uh-huh.

25 **Q** So are we talking about like a pickup

1 truck or like an SUV truck?

2 **A** Like an SUV truck.

3 **Q** Okay. Did it have markings on it or was
4 it just a plain color?

5 **A** It was a white car with blue police light
6 on it.

7 **Q** All right. Now, so this was a marked
8 police SUV?

9 **A** You said it was what?

10 **Q** It was a marked, meaning it had letters on
11 it?

12 **A** Yes.

13 **Q** That said police?

14 **A** Yes.

15 **Q** Did it have a light bar on the top of the
16 truck?

17 **A** Yes.

18 **Q** Were the lights on?

19 **A** No.

20 **Q** Okay. So you see the police truck and you
21 said it was parked in the street?

22 **A** Yes.

23 **Q** You said it was kind of, I can't remember,
24 did you say it was kind of parked funny?

25 **A** Yes.

1 **Q** How so?

2 **A** It was like it was in the street kind of
3 like tilted so nobody could get past.

4 **Q** Okay. So from where you were looking at
5 it, which side of the police truck were you looking
6 at, the driver's side or the other side?

7 **A** The driver's side.

8 **Q** And so if this is the map of that street
9 and if you live here, can you use this, this is a
10 pointer, if you press that button see look, so you
11 can use this to point on here. Can you point on
12 there where the truck was when you saw it parked
13 kind of funny?

14 **A** It was about right there. (indicating)

15 **Q** So pretty much in front of your apartment?

16 **A** Yes.

17 **Q** Okay. And so when you looked out and saw
18 the police car, did you see any people?

19 **A** Yes, I saw one other person.

20 **Q** One other person?

21 **A** Uh-huh.

22 **Q** And what did that person look like?

23 **A** He was dark skin, had dreads and he had on
24 a black shirt.

25 **Q** And where was he?

1 **A** He was standing about like right here on
2 the side. (indicating)

3 **Q** So he was a little, a little further down
4 the street east from where the police car was?

5 **A** Yes.

6 **Q** So if he, from where he was, could he
7 reach out and touch the police car?

8 **A** No.

9 **Q** No. Too far away to touch it?

10 **A** Yes.

11 **Q** What was he doing?

12 **A** He was just sitting there watching.

13 **Q** So when you say he was sitting there, was
14 he actually sitting?

15 **A** No, he was standing.

16 **Q** Was he in the street or on the side?

17 **A** On the sidewalk.

18 **Q** On the sidewalk?

19 **A** (Nods head.)

20 **Q** Was he on the opposite side of the street
21 or was he on your side of the street?

22 **A** Opposite side.

23 **Q** Okay. And so did you see anybody else on
24 the street or around the police car?

25 **A** I saw two cars trying to get through

1 coming from each direction.

2 Q So were these regular cars or police cars?

3 A Regular cars.

4 Q And you said they were going east to west,
5 were they going this way on Canfield?

6 A One was going that way and one was going
7 the other way. (indicating)

8 Q One was coming this way and one was coming
9 that way? (indicating)

10 A Yes.

11 Q Were they able to get by?

12 A Yes.

13 Q So they went ahead and passed the police
14 car?

15 A Uh-huh.

16 Q And did the car that was going westbound,
17 did that pass the police car too?

18 A Yes.

19 Q Okay. What was going on at or around the
20 police car, did you see anything?

21 A Yes.

22 Q What did you see?

23 A I saw, um, the man like trying to pull
24 away from the police, pull his arm out of the police
25 car.

1 **Q** Okay. So let's stop. You said you saw
2 the man was trying to pull away from the police car?

3 **A** Yes.

4 **Q** So is this the man with the dreads in the
5 black shirt?

6 **A** No.

7 **Q** So this is another person. So let's
8 describe this person, what did he look like from
9 what you could see?

10 **A** I saw a red hat, some yellow and black
11 socks and flip flops.

12 **Q** All right. Red hat, what kind of hat?

13 **A** I think the Cardinals.

14 **Q** Was it a ball cap style hat?

15 **A** Yes.

16 **Q** Okay. And you said what color socks?

17 **A** Yellow and black.

18 **Q** Yellow and black. And then you said some
19 Nike flip flops?

20 **A** Yes.

21 **Q** And what about his shirt, could you tell
22 what kind of shirt he had on?

23 **A** No, I saw khaki shorts he had on.

24 **Q** Khaki shorts?

25 **A** Uh-huh.

1 **Q** And so when you looked out and you saw
2 him, were you looking at his back, his side or his
3 front?

4 **A** His back.

5 **Q** And so could you see his face when you
6 were looking out, when you first looked out?

7 **A** No.

8 **Q** Was this, I mean, we've said a he, it was
9 a male, correct?

10 **A** Yes.

11 **Q** Was he African-American?

12 **A** Yes.

13 **Q** And can you give me an idea of how old he
14 might have been?

15 **A** Like 17 or 18.

16 **Q** So like a young man?

17 **A** Yes.

18 **Q** Not an older person?

19 **A** No.

20 **Q** What about his size, what was his size
21 like?

22 **A** I'd say about 210.

23 **Q** About what?

24 **A** 210.

25 **Q** Like that would be his weight, 210?

1 **A** (Nods head.)

2 **Q** About how tall, how tall are you ?

3 **A** 5'8".

4 **Q** And looking at what you could see of this
5 person, did he look like he was taller than that?

6 **A** Yes.

7 **Q** All right. And so where was he when you
8 first, you said that you saw him look like he was
9 trying to pull away. Where was he when you first
10 looked out and saw him?

11 **A** That's what he was doing, trying to pull
12 away.

13 **Q** Pull away from what?

14 **A** The police car, inside the police car.

15 **Q** So he was at the side of the police car?

16 **A** His arm was.

17 **Q** His arm was?

18 **A** (Nods head.)

19 **Q** Describe what you remember seeing. Is he
20 next to the police car, in front of the police car,
21 behind the police car?

22 **A** He was next to it.

23 **Q** Was he on the driver's side or on the
24 other side?

25 **A** Driver's side.

1 **Q** Was he closer to the front of the car or
2 the middle of the car or the back of the car?

3 **A** The front.

4 **Q** Okay. Could you see, you said his arm,
5 you said something about his arm, what was his arm
6 doing?

7 **A** His arm was inside the police vehicle.

8 **Q** All right. His arm was inside the police
9 vehicle?

10 **A** Yes.

11 **Q** Do you remember which arm?

12 **A** No.

13 **Q** And did you get any, could you see what
14 was going on inside the police vehicle?

15 **A** No.

16 **Q** Could you see if there was anyone inside
17 the police vehicle?

18 **A** I wasn't paying attention to that.

19 **Q** Okay. So at this point you just notice
20 him?

21 **A** Yes.

22 **Q** And one of his arms is inside the police
23 vehicle?

24 **A** Yes.

25 **Q** So I don't want to assume anything, but is

1 it, is the door open, is the window open, how is it
2 that his arm is inside the vehicle?

3 **A** The window is down.

4 **Q** Okay. Which window, the front, like the
5 driver's window or back window?

6 **A** The driver's window.

7 **Q** All right. And so you said he was like
8 trying to pull away?

9 **A** Yes.

10 **Q** Okay. Can you describe what you mean by
11 that, what was he doing that you say it looked like
12 he was trying to pull away?

13 **A** Because he had one of his arms on the
14 police vehicle moving back trying to pull away.

15 **Q** So one of his arms was on the police
16 vehicle?

17 **A** (Nods head.)

18 **Q** And the other one was inside?

19 **A** Yes.

20 **Q** And you think he was trying to pull away?

21 **A** Yes.

22 **Q** Could you see why he couldn't walk away
23 from the vehicle, could you tell what was keeping
24 him from --

25 **A** I guess he was grabbing on like.

1 **Q** Okay. And you're guessing that or you can
2 see it?

3 **A** I'm guessing.

4 **Q** So you couldn't tell what was holding him
5 from pulling away?

6 **A** No.

7 **Q** You said it was like he was trying to pull
8 away?

9 **A** Yes.

10 **Q** And, okay. So what did you see then?

11 **A** Then, uh, I seen the police officer try to
12 tase him.

13 **Q** Okay. So you said you saw the police
14 officer try to phase him?

15 **A** Uh-huh.

16 **Q** Could you see a police officer?

17 **A** You said, did I see a police officer?

18 **Q** Yeah.

19 **A** Yes.

20 **Q** Okay. Where was the police officer?

21 **A** In the car.

22 **Q** Was he in the back or the front?

23 **A** The front.

24 **Q** Was he in the passenger or driver's side?

25 **A** Driver's side.

1 **Q** And you said you saw him try to tase him?

2 **A** Yes.

3 **Q** So what do you mean by that, describe what
4 you saw?

5 **A** I saw him pull out something. I also saw
6 something go past.

7 **Q** You saw who pull out something?

8 **A** The police officer.

9 **Q** All right. And did you see where he
10 pulled it out of?

11 **A** No.

12 **Q** And what did this thing that he pulled out
13 look like?

14 **A** It looked like a yellow and black kind of
15 thing.

16 **Q** I'm sorry, it was like a yellow?

17 **A** Yellow and block.

18 **Q** Yellow and black?

19 **A** Yes.

20 **Q** So you described it, you said that he
21 tried to tase him, have you seen a taser before?

22 **A** No.

23 **Q** All right. What do you think a taser
24 looks like?

25 **A** Uh, I think it is yellow and black.

1 **Q** Okay. So does it look like, all right.
2 You said the officer had that in his hand. Do you
3 remember which hand it was in?

4 **A** Yes.

5 **Q** Which hand?

6 **A** His right.

7 **Q** And what was he doing with it?

8 **A** Like he pointed it at the victim.

9 **Q** So he pointed it at the guy that was at
10 the car?

11 **A** Yes.

12 **Q** Okay. And you said you saw something come
13 out of it?

14 **A** Uh-huh.

15 **Q** Did you hear anything?

16 **A** No.

17 **Q** You didn't hear any kind of pow or noise?

18 **A** Not until he shot.

19 **Q** Okay. So at this point something comes
20 out of the taser?

21 **A** Yes.

22 **Q** What did that look like?

23 **A** It was like a string.

24 **Q** Like a string?

25 **A** Like a metal string.

1 **Q** Okay. And so does that look like it hit
2 the boy or the man at the car?

3 **A** No.

4 **Q** Did you see that it didn't hit him or you
5 couldn't tell?

6 **A** I saw that it didn't hit him.

7 **Q** So did it go past his body then?

8 **A** Yes.

9 **Q** Have you ever seen like a taser being
10 fired like on television or anything?

11 **A** No.

12 **Q** You never seen a taser being fired?

13 **A** No.

14 **Q** Okay. So then what happened then you saw
15 the taser and the thing came out and went past the
16 boy in the car, what happened then?

17 **A** I saw him pull out his gun.

18 **Q** You what?

19 **A** I saw him pull out his gun.

20 **Q** You saw him with his gun?

21 **A** Yes.

22 **Q** You saw who with his gun?

23 **A** The officer.

24 **Q** So where did the gun come from, did you
25 see how the gun came into the picture?

1 **A** No.

2 **Q** Did the gun look different than the taser?

3 **A** No.

4 **Q** It looked like the same thing?

5 **A** Just a different color.

6 **Q** Different color. So the taser kind of
7 looks like a gun?

8 **A** Yes.

9 **Q** Only it was yellow and black?

10 **A** Yes.

11 **Q** And then a string thing came out of it?

12 **A** Yes.

13 **Q** And the gun, what color was that?

14 **A** Black.

15 **Q** Was the officer still in the car or out of
16 the car or where?

17 **A** He was just about to get out. He was
18 opening up the door.

19 **Q** Okay. So you saw the officer opening up
20 the door?

21 **A** Yes.

22 **Q** And did he get out of the car?

23 **A** Yes, but he waited until after he fired
24 the shot.

25 **Q** Let's back up then. You saw the gun and

1 do you know what hand the officer had it in?

2 **A** No.

3 **Q** You said that he fired a shot?

4 **A** Yes.

5 **Q** Where was the boy who had been at the car,
6 where was he when the shots were fired?

7 **A** He was at the apartment complexes.

8 **Q** Was he running into the apartment complex
9 when the shot was fired from the gun?

10 **A** Yes.

11 **Q** Okay. So did you ever see or hear that
12 gun being shot while the boy was up at the car?

13 **A** Yes.

14 **Q** Okay. So let's back up. You see a taser
15 being fired and then you see the gun?

16 **A** Yes.

17 **Q** And the first shot of the gun, where was
18 the boy when it was first shot?

19 **A** He was still at the car.

20 **Q** Still at the car?

21 **A** (Nods head.)

22 **Q** And then what happened?

23 **A** Then that's when he took off.

24 **Q** He took off.

25 **A** Yes.

1 **Q** And then where did he go?

2 **A** He ran down the street.

3 **Q** So when you say he ran down the street,
4 was that Canfield Drive?

5 **A** Yes.

6 **Q** And did he run west towards West
7 Florissant or east towards Northwinds Apartments?

8 **A** East.

9 **Q** So the officer got out of the car?

10 **A** Yes.

11 **Q** Do you remember talking to the police
12 about what you had seen?

13 **A** Yes.

14 **Q** Okay. And did the officer have any
15 trouble getting out of his car?

16 **A** No.

17 **Q** Okay. Do you remember telling them that
18 the officer opened the door to shoot and then got
19 out of the car?

20 **A** Yes, I remember.

21 **Q** So where was the officer when he first
22 shot the gun?

23 **A** He was still in the car.

24 **Q** In the car?

25 **A** (Nods head.)

1 **Q** So when you said that he opened the door
2 to shoot, when he first shot the gun, was the car
3 door open or closed?

4 **A** Open.

5 **Q** It was what?

6 **A** Open.

7 **Q** Open. So he had opened his door?

8 **A** (Nods head.)

9 **Q** And Michael Brown was still at the
10 vehicle?

11 **A** Yes.

12 **Q** Okay. Did he open his door all the way?

13 **A** Yes, he opened it.

14 **Q** So was Michael Brown hit by the door when
15 the door open?

16 **A** No.

17 **Q** And I said Michael Brown, you know that's
18 Michael Brown, right?

19 **A** Yes.

20 **Q** Okay. So was he farther away from the
21 vehicle when the door came open?

22 **A** He was like almost towards the back.

23 **Q** So he had started moving at that point?

24 **A** Yes.

25 **Q** And he was close to the rear of the

1 vehicle?

2 **A** Yes.

3 **Q** And so you, when the officer fired the
4 gun, was he still sitting in the driver's seat?

5 **A** Yes, he was still sitting.

6 **Q** So he would of had to turn around, if he
7 was shooting at Michael Brown and he was close to
8 the rear of his vehicle, did he have to lean out and
9 turn around?

10 **A** Yes, he was halfway out.

11 **Q** Halfway out of the car?

12 **A** (Nods head.)

13 **Q** And so after that shot, did you see where
14 that shot went?

15 **A** No.

16 **Q** No?

17 **A** No.

18 **Q** What happened then?

19 **A** That's when he kept running.

20 **Q** So Michael Brown kept running?

21 **A** I guess.

22 **Q** Okay. Don't guess. I thought that's what
23 you said he kept running. I'm just trying to repeat
24 it because I want to make sure they hear you.

25 **A** After that first shot I turned to look

1 away, I thought everything, he had him in custody, I
2 guess, or whatever.

3 Q So after that first shot, you turned away
4 and you didn't watch it?

5 A Yeah, I didn't watch it.

6 Q Okay. Was there something that was going
7 on that drew your attention away from what was going
8 on outside?

9 A No.

10 Q Why is it that you turned away?

11 A Because I didn't hear no more gunshots
12 until, actually, I sat down and then I heard some
13 more.

14 Q All right. So when you say you turned
15 away, let's back up. When you were looking out the
16 sliding glass door, were you sitting down or
17 standing up?

18 A Standing up.

19 Q And so when you turned away, did you
20 actually turn your body away from this or did you
21 just not look?

22 A I turned my body away.

23 Q Did you then go back into the living room?

24 A You say what?

25 Q Did you stay in the living room?

1 **A** Yes.

2 **Q** Did you go sit down?

3 **A** Yes.

4 **Q** All right. So once you turned away, now
5 at this point you said, you have gotten to the point
6 where you said you heard one gunshot?

7 **A** Uh-huh.

8 **Q** And you saw the officer shooting his gun
9 as Michael Brown was running away?

10 **A** Yes.

11 **Q** Or he was near the back of the vehicle?

12 **A** He was running, yes, he was.

13 **Q** Can you tell me where Michael Brown was,
14 how his body was when you saw that first gunshot,
15 was he facing the officer, was he facing away from
16 the officer?

17 **A** He was facing away.

18 **Q** Facing away. Had he started to run when
19 you saw that first gunshot?

20 **A** Yes.

21 **Q** Okay. And then you turned away from the
22 window and you sat back down?

23 **A** Yes.

24 **Q** Did you hear anything after that?

25 **A** Yes.

1 **Q** What did you hear?

2 **A** I heard several more gunshots.

3 **Q** Okay. Were those was there a pause
4 between any of those gunshots?

5 **A** No.

6 **Q** And you said several or seven, I want to
7 make sure?

8 **A** Several.

9 **Q** Several?

10 **A** Uh-huh.

11 **Q** Can you in your head imagine them and see
12 if you can tell me how many you think there were?

13 **A** Four to five.

14 **Q** Okay. And then what, if anything, did you
15 do after you heard those four to five shots?

16 **A** I stood there and watch him get on his
17 walkie-talkie thing and I saw more officers come.

18 **Q** Okay. So I got to come up here so I can
19 hear you. You still what?

20 **A** I stood right there and I saw him get on
21 his little radio thing.

22 **Q** So let's go back. So at some point you
23 went back to the window?

24 **A** Yes.

25 **Q** When the four or five shots went off, were

1 you still on the couch or were you up at the window?

2 **A** I was still on the couch.

3 **Q** Okay. So when you went back to the
4 window, what did you see, was it still going on?

5 **A** No.

6 **Q** Okay. What did you see when you looked
7 back out the window?

8 **A** I saw him laying down. He was already on
9 the radio.

10 **Q** You said you saw him laying down, so would
11 that be Michael Brown?

12 **A** Yes.

13 **Q** And he was bleeding?

14 **A** Yes.

15 **Q** Can you use the pointer and show me where
16 he was laying down?

17 **A** (Indicating.)

18 **Q** Was he me the street, or in the grass or
19 on the sidewalk?

20 **A** In the street.

21 **Q** Where was the officer?

22 **A** He was over him.

23 **Q** Over him?

24 **A** Uh-huh.

25 **Q** So standing over him?

1 **A** Yes.

2 **Q** What was he doing?

3 **A** He was like on his radio thing.

4 **Q** So you pointed to your shoulder, was he
5 talking, did it look like he was talking on a radio
6 on a shoulder?

7 **A** Yes.

8 **Q** Could you hear what he was saying?

9 **A** No.

10 **Q** Did you hear Michael Brown and the
11 officer, other than the scream that you heard, did
12 you ever hear them say anything?

13 **A** No.

14 **Q** Did you ever hear any other screams?

15 **A** No.

16 **Q** When you say the officer was standing over
17 him and he was talking on the radio, did the officer
18 still have his gun?

19 **A** Yes, he still had it out.

20 **Q** Where was it?

21 **A** In his right hand.

22 **Q** So it was still out?

23 **A** Yes.

24 **Q** Was he shooting it?

25 **A** No.

1 **Q** After you turned away, after you saw the
2 first gunshot, did you ever see the officer fire the
3 gun?

4 **A** No.

5 **Q** So when you looked, when you said that his
6 gun was out, can you stand up for me and show them
7 how it was?

8 **A** How the officer was?

9 **Q** Yeah.

10 **A** He was like this on his thing.
11 (indicating)

12 **Q** So the gun was like down at his side?

13 **A** Yes.

14 **Q** Was it pointed at anybody?

15 **A** No.

16 **Q** Okay. You can sit back down.

17 Now, at some point you were talking
18 to the police you told them that you saw, well,
19 initially when you were first interviewed you said,
20 and I want to make sure I get it right. You said I
21 saw a man with his hands in a police car trying to
22 snatch it away and then he got away. Do you
23 remember saying that?

24 **A** Uh-huh.

25 **Q** What do you mean by that. That he was

1 trying to snatch it away, I don't know what you mean
2 by that?

3 **A** Like he was trying to prevent him from
4 grabbing, keep grabbing his arm.

5 **Q** Okay. So let's clarify. When you say I
6 saw a man with his hands in a police car trying to
7 snatch it away, who was trying to snatch something
8 away?

9 **A** The deceased.

10 **Q** Michael Brown?

11 **A** Uh-huh.

12 **Q** What was he trying to snatch away?

13 **A** His hand.

14 **Q** So he was trying to get his hand out of
15 the police car?

16 **A** Yes.

17 **Q** Did you see anything in his hand?

18 **A** No.

19 **Q** Okay. And then you also said in the
20 second, now you, last week you actually met with the
21 FBI and the attorney and gave them another
22 statement, right?

23 **A** Yes.

24 **Q** And that was downtown at their FBI
25 headquarters?

1 **A** Yes.

2 **Q** Or did they come to your house?

3 **A** Downtown.

4 **Q** Downtown. Okay. And you said at that
5 time you said the officer, it was like the officer
6 was trying to pull him into the car, did you say
7 that just last week?

8 **A** Yes.

9 **Q** So describe what you saw that makes you
10 say that?

11 **A** Okay. Cause I saw him pulling away so.

12 **Q** So you saw who pulling away?

13 **A** The deceased.

14 **Q** Okay. And why is it that you say you saw
15 the officer was trying to pull him into the car?

16 **A** Because I saw him going in like a back and
17 forth motion.

18 **Q** A back and forth motion?

19 **A** Yes.

20 **Q** So did you ever see the officer, other
21 than the time you saw the taser and then saw the
22 gun, did you ever see the officer's hands?

23 **A** No.

24 **Q** So when you say a back and forth motion,
25 what was moving back and forth?

1 **A** Um, the --

2 **Q** The arms?

3 **A** The decease's body.

4 **Q** The decease's body?

5 **A** Yes.

6 **Q** Was it moving forward and back, or was it
7 from side to side or both?

8 **A** Forward and back.

9 **Q** Forward and back?

10 **A** Yes.

11 **Q** And you said already that you saw a hand,
12 one of his hands was inside the police vehicle?

13 **A** Yes.

14 **Q** And one was on the police vehicle?

15 **A** Yes.

16 **Q** Okay. And you said you saw the police
17 officer grabbing, I couldn't understand what you
18 said, and then you said he was reaching for
19 something and he was trying to open the door.

20 **A** Yes.

21 **Q** So let's go back. I couldn't hear on your
22 taped statement because you are so quiet you said
23 you saw the officer grabbing. Do you remember
24 saying that?

25 **A** Yes.

1 **Q** What did you see the officer grabbing?

2 **A** I just saw him reach.

3 **Q** Pardon me?

4 **A** I just saw him reaching.

5 **Q** You saw him reaching?

6 **A** Yes.

7 **Q** With his arm or hand?

8 **A** Hand.

9 **Q** Reaching what?

10 **A** To his side, right side.

11 **Q** To his right. So you could see officer's
12 hand reaching to his right side?

13 **A** I could see his arm.

14 **Q** Yeah. You said the officer tried to open
15 the door and then he shot his taser. So when you
16 say he tried to open his door, was, I don't want to
17 assume something, I don't know if that means he
18 couldn't open the door, or he did open the door, but
19 what do you mean when you say he tried to open the
20 door?

21 **A** He did, he opened it. That's when he
22 started to open it.

23 **Q** Okay. Did anything prevent him from
24 opening the door?

25 **A** No.

1 **Q** When he tried to open the door, was
2 Michael Brown still right up against the car?

3 **A** No, he was towards the end.

4 **Q** It was towards the end. Okay. So Michael
5 Brown, you already said was backed a little bit away
6 toward the back of the vehicle?

7 **A** Yes.

8 **Q** And you also said that one of the things,
9 one of the reasons why you turned away is you assume
10 that Michael Brown would have been in custody and in
11 handcuffs?

12 **A** Yes.

13 **Q** Why did you assume that?

14 **A** Because I didn't hear any more shots.

15 **Q** Okay. So when you turned away, you turned
16 away after the first gunshot?

17 **A** Yes.

18 **Q** And then you said you heard four more
19 shots?

20 **A** Yes.

21 **Q** Was there any pause between the first
22 gunshot and the four more shots?

23 **A** Yes.

24 **Q** Okay. Do you know how long it would have
25 been?

1 **A** About five seconds.

2 **Q** About five seconds?

3 **A** (Nods head.)

4 **Q** So when you say you turned away and you
5 didn't look because you assume that Mike Brown or
6 assume that that guy would have been in custody in
7 handcuffs, did you assume that before you heard the
8 four gunshots or after?

9 **A** Uh, before.

10 **Q** Before. And then you hear four gunshots
11 and then you are went back and looked out the
12 window?

13 **A** Yes.

14 **Q** And that's when you saw him on the ground?

15 **A** Yes.

16 **Q** When Michael Brown was moving away from
17 the police officer, did you ever see his hands up in
18 the air like this in this motion? (indicating)

19 **A** I don't remember.

20 **Q** Okay. And so you don't remember?

21 **A** (Nods head.)

22 **Q** All right. Did you ever see Michael Brown
23 doing anything with his hands around this area of
24 his midsection?

25 **A** No.

1 **Q** No, you didn't?

2 **A** No.

3 **Q** Because you are shaking your head, no, I
4 don't want to put, I don't want to put this in your
5 mouth, you tell me, it is yes or no. And if you
6 don't remember, remember I said the correct answer
7 is, I don't remember or I don't know, okay?

8 **A** Uh-huh.

9 **Q** Did you recall seeing anything like that
10 where his hands were somewhere in this area of his
11 body doing anything?

12 **A** No, I don't.

13 **Q** Did you ever see Michael Brown running?

14 **A** Yes.

15 **Q** Okay. So can you describe the way he was
16 running, was he running with his arms at his sides
17 or was he running with his arms outstretched in any
18 way?

19 **A** He was running to the side.

20 **Q** Arms to the side?

21 **A** Yes.

22 **Q** And so when you saw him running, was he
23 running away from the officer?

24 **A** Yes.

25 **Q** Was he running fast or was he kind of

2 **A** When I saw him he was just starting to
3 run, so I don't know.

4 MS. WHIRLEY: I didn't hear that.

5 MS. ALIZADEH: When he first took off, is
6 that what you said?

7 **A** Yes.

8 . His speed, how
9 fast did you see him run or was it like a jog?

10 **A** It was like a jog.

11 : Okay.

12 MS. ALIZADEH: And that was when he first
13 took off?

14 **A** Yes.

15 Q (By Ms. Alizadeh) So whether he stopped or
16 slowed down or got faster, you stopped looking at
17 that point?

18 **A** Yes.

19 **Q** Is that right?

20 **A** Yes.

21 MS. ALIZADEH: I don't think I have any
22 other questions. Sheila?

23 Q (By Ms. Whirley) You said you have never
24 seen anyone tased before, right?

25 **A** Yes.

1 **Q** What made you think he was being tased?

2 **A** Um, because I saw like --

3 **Q** You got to talk loud enough for me to
4 hear.

5 **A** I said because I saw him reaching for
6 something and then I saw a metal string come out.

7 **Q** You sought the officer reach for something
8 and you saw a metal string come out?

9 **A** Yes.

10 **Q** Okay. When Mike Brown ran away, you said
11 he was kind of jogging as he is running away from
12 the officer, was the officer shooting at him?

13 **A** No.

14 **Q** Did you hear a shot fired at that point?

15 **A** It got silent.

16 **Q** I'm sorry?

17 **A** It was silent.

18 **Q** It was silent?

19 **A** Uh-huh.

20 **Q** What do you mean?

21 **A** After the first shot, I didn't hear no
22 more shots until like five seconds later.

23 **Q** Okay. So the first shot, what was
24 happening when you heard the first shot?

25 **A** He was trying to exit the vehicle.

1 **Q** He was what?

2 **A** Trying to exit the vehicle.

3 **Q** Where was Mike Brown when the officer is
4 trying to exhibit the vehicle?

5 **A** Towards the end.

6 **Q** Towards what?

7 **A** The end of the car.

8 **Q** He was trying to get away from the car?

9 **A** Yes.

10 **Q** And the officer was exiting the vehicle
11 and shot?

12 **A** Yes.

13 **Q** What direction did he shoot at?

14 **A** Like he had, he was halfway out the car.
15 So he turned like towards his way to shoot.

16 **Q** Turn towards Michael Brown?

17 **A** Yes.

18 **Q** He was shooting at Mike Brown as Mike
19 Brown is running away from the car?

20 **A** Yes, as he's starting.

21 **Q** Okay. And then you didn't hear any other
22 shots?

23 **A** No.

24 **Q** And that's when you stopped looking?

25 **A** Yes.

1 **Q** When you saw Mike Brown at the driver's
2 side window, when you said you thought he was trying
3 to get away?

4 **A** Yes.

5 **Q** Could you see them pretty clearly?

6 **A** Yeah, I only saw the side of the officer's
7 face.

8 **Q** I'm sorry?

9 **A** I only saw the side of the officer's face
10 and I saw the back of Michael Brown.

11 **Q** You could see the back of Mike Brown and
12 the side of the officer's face?

13 **A** Yes.

14 **Q** Could you see their hands, you could see
15 Mike Brown's hands?

16 **A** Yes.

17 **Q** Could you see the officer's hands?

18 **A** No, I just saw his arms.

19 **Q** You saw his arms. Did he have on sleeves?

20 **A** He had short sleeves.

21 **Q** Short sleeves. So you could clearly see
22 his sleeves?

23 **A** Yes.

24 **Q** You could tell he was white?

25 **A** Yes.

1 **Q** How far do you think you were aware from
2 them, anyway to tell me?

3 **A** I don't know.

4 **Q** Do you have pretty good eyesight?

5 **A** Yes.

6 **Q** You don't wear glasses or anything?

7 **A** No.

8 **Q** So you saw Mike Brown's hands, was Mike
9 Brown striking the officer?

10 **A** No.

11 **Q** When you saw him he wasn't hitting the
12 officer?

13 **A** No.

14 **Q** You never saw him with a balled up fist or
15 anything?

16 **A** No.

17 **Q** Did you see him reach in for the officer's
18 gun?

19 **A** No.

20 **Q** You never saw him reach for the officer's
21 gun?

22 **A** No.

23 **Q** Were you close enough to see what was
24 going on in the car?

25 **A** No.

1 **Q** You were not?

2 **A** No.

3 **Q** But you were close enough to see, what
4 could you see?

5 **A** Well, I saw him reaching and I saw --

6 **Q** You saw who reaching?

7 **A** Mike, and then I saw the officer reaching
8 for his taser, that's all I saw.

9 **Q** So you could see inside the car, you
10 thought he was reaching for his taser?

11 **A** But I can barely see.

12 **Q** You can see the officer reaching for
13 something?

14 **A** Yes.

15 **Q** Did you see Mike's hands go to where the
16 officer's hands were reaching?

17 **A** No.

18 **Q** Were you in a position to see?

19 **A** Yes.

20 MS. WHIRLEY: I think that's it for me.
21 Questions?

22 At any
23 point did you see his whole top of his body, Mike
24 Brown's, go inside the police vehicle?

25 **A** No.

1 Do you know what mace
2 looks like?

3 **A** What?

4 : Mace?

5 **A** No.

6 . You are in
7 , correct?

8 **A** Yes.

9 : So you didn't see
10 anybody, a man down in the grass area in a green
11 shirt, or did you?

12 **A** No, I didn't see nobody.

13 : You didn't see anybody
14 out there, no people?

15 **A** I saw one person on the sidewalk with a
16 black shirt.

17 : No, I'm sorry, what?

18 **A** I saw one person on the sidewalk with a
19 black shirt.

20 : A person on the sidewalk,
21 can you show me where on the sidewalk that person
22 was?

23 **A** He was right here. (indicating)

24 : What about your side of
25 the street, by your building?

1 **A** There was nobody.

2 : There was nobody there?

3 **A** Nobody.

4 : You know for sure or

5 didn't see them?

6 **A** I know for sure.

7 : Thank you.

8 MS. ALIZADEH: Did you notice a white lady
9 out there?

10 **A** No.

11 MS. ALIZADEH: Is it that you didn't
12 notice or you say I looked and there wasn't anybody
13 out there.

14 **A** I looked.

15 MS. ALIZADEH: Nobody out there?

16 **A** Nobody out there.

17 . When the
18 officer exited the car, the vehicle, could you see
19 his face?

20 **A** Yes.

21 : Was there any coloration
22 to his face?

23 **A** No, he was like a regular white guy.

24 MS. WHIRLEY: I didn't hear you.

25 **A** He had a beard and a mustache.

1 MS. WHIRLEY: You think he had a beard and
2 a mustache.

3 A Yes.

4 MS. ALIZADEH: What color was his beard
5 and mustache.

6 A Like a yellow-ish color.

7 MS. ALIZADEH: Huh?

8 A Like a yellow-ish color.

9 MS. ALIZADEH: I am just wanting to know
10 was it like blond, or was it brown or dark?

11 A It was a blond color.

12 MS. ALIZADEH: Blond colored.

13 A Yes.

14 MS. ALIZADEH: Was it a full beard, like
15 full beard like this guy kind of has, Number 1, or
16 was it more of a partial beard like the guy in the
17 blue shirt?

18 A It was like a partial beard.

19 MS. ALIZADEH: Kind of like goatee and
20 mustache.

21 A It wasn't a goatee, it was just --

22 MS. ALIZADEH: I describe it as a goatee,
23 I don't know, but it was not the full beard.

24 A Yeah, it wasn't full beard.

25 MS. WHIRLEY: Did his face look injured.

1 **A** No.

2 : I have one more question.

3 . When he exited the vehicle, did you
4 see his lips moving at all, you know, telling Mike
5 Brown to do anything?

6 **A** I wasn't paying attention.

7 : That's when you left okay.

8 . I have one
9 more question. When you say at the very beginning
10 you said you heard screaming, did it appear that
11 there were two people screaming or was it just one
12 voice you heard.

13 **A** I heard one voice.

14 : One voice.

15 **A** Yes.

16 MS. WHIRLEY: You couldn't make out what
17 the screaming was, could you?

18 **A** No.

19 MS. WHIRLEY: Can you demonstrate what the
20 screaming sounded like?

21 **A** It was like --

22 MS. ALIZADEH: That's going to actually
23 require he actually raise his voice, I don't know.

24 MS. WHIRLEY: That's exactly why I asked
25 the question.

1 MS. ALIZADEH: And you've had two
2 interviews, right?

3 A Yes.

4 MS. WHIRLEY: Did you talk to anybody in
5 the apartment complex about what happened?

6 A No besides my dad and his girlfriend.

7 MS. WHIRLEY: Your dad. You said you
8 didn't know, there is a lot of young people I
9 understand that live in the complex, but you had not
10 become friends with any of them?

11 A No.

12 MS. WHIRLEY: You didn't hang out with
13 anybody?

14 A No.

15 MS. WHIRLEY: Or talk to anybody about
16 what happened?

17 A Huh-uh.

18 MS. WHIRLEY: Even when you went back
19 later to visit with your dad?

20 A No.

21 MS. WHIRLEY: Okay. All right.

22 (End of the testimony of
23)

24 MS. ALIZADEH: It is October 27th, this is
25 Kathi Alizadeh, it is 12:11 p.m. We just took a

1 little bit of a break so we could print-out some
2 transcripts because the grand jurors have asked to
3 listen to the recorded statement of
4 that was made to the FBI on September 30th. So we
5 have that disc queued, it is about 22 minutes. We
6 were going to try to play that before lunch, we
7 didn't get to it because we were busy making the
8 copies. You all still want to start that or do you
9 want lunch. It is not out there right now. So go
10 ahead and start this?

11 The only other thing, and Sheila and I had
12 a discussion about this before now is, she and I are
13 going to kind of wing how we are doing this, after
14 testified and she had come here with
15 who she said was her godson and were
16 in the waiting room here and testified after
17 she did.

18 So when we walked out and we were
19 kind of saying goodbye to them and they were getting
20 ready to walk out, I made the comment
21 about how it is too bad there weren't surveillance
22 cameras in the complex.

23 And then said that she had video
24 the entire thing on her phone and I said, what
25 portion, what part did you video the whole thing I

1 said the shooting, you have the shooting taped on
2 your phone. And she said yes, but I dropped the
3 phone in the toilet.

4 MS. WHIRLEY: Then I asked her, you know,
5 where is the phone, thinking we might be able to
6 recover it with forensic examination. She said it
7 is in the junk yard. She got so mad she threw it
8 away.

9 MS. ALIZADEH: This is information that
10 I've never known about.

11 MS. WHIRLEY: Neither have I.

12 MS. ALIZADEH: And Sheila has never known
13 about this, and from my observation of her godson
14 , he was, this was news to him as well
15 because he asked her where is the phone and, you
16 know, he seemed to indicate that he had not heard
17 that information before.

18 So I thought it was important that you
19 know that.

20 MS. WHIRLEY: I agree.

21 MS. ALIZADEH: Sheila and I kind of
22 unwittingly became witness to that statement. I
23 don't think it is appropriate that we testify as
24 witnesses, but what we discussed is that knowing
25 that there was a statement made like that.

1 If you desire we can bring
2 back in and question her under oath about whether,
3 about that and you can ask her whatever questions
4 you want, but I wanted you to have that information
5 so that you could make a decision amongst yourselves
6 about whether you want to have her come back in and
7 ask her about that.

8 So you guys can talk about that during
9 your lunch break and for now we will go ahead and
10 start the pass out the transcripts.

11 Did she mention was the
12 recorder, was it on when the FBI was there or was it
13 just sitting on her counter?

14 MS. ALIZADEH: My recollection and this is
15 what you all are going to have to discuss amongst
16 yourselves what she testified to, I believe I asked
17 her if she was wearing the camcorder when the
18 shooting occurred, and she said no. I think she
19 said it was in her house, she said that during the
20 first interview she was in her pajamas when they
21 came.

22 She said that.

23 MS. ALIZADEH: You all are going to have
24 to look at your notes. I don't want to represent
25 she said something that maybe I'm wrong about that.

1 I did ask her if she had the camera on during the
2 shooting and she said no. But whether or not she
3 had it on when she was being interviewed by the
4 officers, I recall something about that, you all are
5 going to have to talk amongst yourselves about that.

6 : So no more questions?

7 MS. ALIZADEH: I don't know that I can
8 answer, I don't want to characterize the witness'
9 testimony or clarify it because that's something,
10 that will be my interpretation and I don't want to
11 have to do that. I will tell you that I think that
12 there was talk about that if it is helpful, we can
13 go back and, of course, we have the testimony on
14 audio, we also will eventually have a transcript of
15 it as well.

16 If you want to make a note that once those
17 transcripts are available to me, that I can give
18 them to you and you can go back and look and see
19 exactly what she said in regard to that, all right.

20 I'm not being rude, I just need to have
21 you guys decide that.

22 You ready?

23 (Playing of the audio recording of
24 .)

25 MS. WHIRLEY: We are stopping this

1 recording of at one minute and 56
2 seconds and we will resume after lunch. This is
3 October the 27th, 2014. The statement is actually
4 approximately 33 minutes and some seconds, so we
5 will resume it after lunch, thank you.

6 (Lunch recess taken)

7 MS. WHIRLEY: It is October the 27th,
8 2014. Approximately 1:17 p.m. We are going to
9 resume the recording of . We stopped
10 at about 2156. It looks like 2158, so it inched up
11 a couple seconds. I don't think they're talking
12 yet. I'm going to start it and then I'm going to
13 find when they resumed the conversation.

14 (Resume playing of the audio recording of
15 .)

16 (End of the audio recording of
17)

18 (Grand Jury Exhibit Number 55
19 marked for identification.)

20 MS. WHIRLEY: It is October 27th, 2014 at
21 approximately 1:35 p.m. I'm getting ready to play
22 the video recording, I'm sorry, the audio recorded
23 statement of . You guys heard from her
24 earlier today. It is identified as Grand Jury
25 Exhibit Number 55. There's two transcripts that I

1 passed out because as she testified, she turned off
2 the recording and then they started recording again.
3 I did not know exactly how long her statement is, it
4 is not very long at all. So with that --

5 MS. ALIZADEH: The transcript, they're
6 both dated August 26th, but the one, the first one
7 is 9:32.

8 (Playing of recorded interview of
9 .)

10 MS. ALIZADEH: This is Kathi Alizadeh, it
11 is about 2:07. And I told you that I had a
12 conversation this weekend with . We
13 had talked about her coming in to complete her
14 testimony today. I asked her to be here by 1:00 and
15 I said if you can be here by 12:30 that would be
16 great, and here it is ten after 2:00, she's not
17 here.

18 I did call the number I have for her, I
19 got her answering message and I left her a message
20 to call me about trying to reschedule. So I don't
21 have any other live witnesses for today. Based upon
22 what you all have told me before, told us, I have
23 transcripts for two statements that were done by a
24 woman whose already testified woman who has already
25 testified,

1 There was an interview of her on
2 August 9th, the day of the incident at 4:00 p.m.
3 That interview was done by St. Louis County
4 Detective and lasted two minutes and 23
5 seconds. So I have this transcript I can pass out
6 to you. You guys can look at that right now if you
7 would like.

8 And then there's a transcript of an
9 interview of that's done on
10 August 16th, 2014 at 11:43, I'm sorry, 11:34 a.m. by
11 Special Agent and Special Agent
12 , and so this interview was 24 minutes
13 and 26 seconds so I will pass those transcripts out
14 to you.

15 If you guys just want to take the rest, I
16 know we're breaking at 2:30 today. So if you guys
17 want to take the rest of that time to review those
18 transcripts. And then if you have any need to hear
19 those statements, those prior statements, we can
20 play those at another time, or if you have a need to
21 review testimony after having
22 reviewed her, the transcripts of her prior
23 statements, we can get that testimony, either play
24 it back audio wise or we can get you transcripts of
25 those as well. All right.

1 So at this time we'll cease the recording
2 probably. We plan on recessing by 2:30 today. So
3 at this time we'll just call the record quit for you
4 all to review this until it is time to go, all
5 right.

6 (End of Grand Jury Volume XVI.)

2 State of Missouri

3 SS.

4 County of St. Louis

5 I, a Licensed Certified Court
6 Reporter by the Supreme Court in and for the State
7 of Missouri, duly commissioned, qualified and
8 authorized to administer oaths and to certify to
9 depositions, do hereby certify that pursuant to
10 Notice in the civil cause now pending and
11 undetermined in the County of St. Louis, State of
12 Missouri.

13 The said witness, being of sound mind and being
14 by the grand jury first carefully examined and duly
15 cautioned and sworn to testify to the truth, the
16 whole truth, and nothing but the truth in the case
17 aforesaid, thereupon testified as is shown in the
18 foregoing transcript, said testimony being by me
19 reported in shorthand and caused to be transcribed
20 into typewriting, and that the foregoing page
21 correctly sets forth the testimony of the
22 aforementioned witness, together with the questions
23 propounded by counsel and grand jurors thereto, and
24 is in all respects a full, true, correct and
25 complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XVII

2 MS. WHIRLEY: Good morning. Today is
3 October 28th, it is approximately 8:39 a.m. This is
4 Sheila Whirley present, and also the 12 grand jurors
5 are here and XXXXXXXX, the court reporter, is here.
6 Kathi Alizadeh is here, but has stepped out
7 momentarily. We are going to start out the morning
8 with the statement of . You have the
9 transcripts. It is on Grand Jury Exhibit Number 49.

10 (Grand Jury Exhibit Number 49
11 marked for identification.)

12 MS. WHIRLEY: I will play approximately 20
13 something minutes. She has another statement that
14 goes 40 something minutes. We are actually waiting
15 on her to come that's why we are going to go ahead
16 and do the statements. She was supposed to be here
17 at 8:30. Kathi is going to check on that and she
18 had not arrived before we came in this morning. So
19 we are still waiting on her. So that's the way we
20 will start the morning. XXXXXXXX, with that bit of an
21 introduction if you can pause the recording.

22 (This is the playing of the interview of
23 .)

24 MS. WHIRLEY: All right. That was the
25 first statement by We have another

1 statement by . I understand she is on
2 her way. There was a mixup with transportation, but
3 she's on her way. This one is, I think,
4 approximately 42 minutes. And it was an FBI
5 interview that was conducted on September the 25th
6 of 2014. I'm passing out the transcripts. The
7 actual recording is on Grand Jury Exhibit Number 36,
8 and we will play that as soon as the transcripts are
9 distributed.

10 (Playing of the second interview of
11 .)

12 MS. WHIRLEY: That concludes the second
13 interview of . We will take a break,
14 you probably need one and then we'll start with her
15 testimony when we resume.

16 ,
17 of lawful age, having been first duly sworn to
18 testify the truth, the whole truth, and
19 nothing but the truth in the case aforesaid,
20 deposes and says in reply to oral
21 interrogatories, propounded as follows, to-wit:

22 EXAMINATION

23 BY MS. WHIRLEY:

24 Q I'm Sheila Whirley and these are the 12
25 grand jurors. You met Kathi Alizadeh and XXXXXX, the

1 court reporter, sits next to you.

2 Please introduce yourself to the
3 grand jurors and spell your name for us?

4 **A** Hi. My name is , last
5 name .

6 **Q** Okay. , you know why we're here,
7 the shooting of Michael Brown. Did you know Michael
8 Brown?

9 **A** No, I didn't know him. I seen his cousin,
10 I think that's the one that has the dreads. I seen
11 him a couple times, but I didn't know him.

12 **Q** We're going to ask you to speak up. I
13 generally stand back here so you and I can have a
14 conversation loud enough for everybody to hear,
15 okay?

16 **A** Okay.

17 **Q** And that microphone is not going to help
18 you be louder, so you are going to have to raise
19 your voice, okay?

20 I understand what you said about
21 Michael and the person that was with him, had you
22 seen Michael Brown before that day?

23 **A** Probably once.

24 **Q** Okay. When you saw him, did you talk to
25 him or anything?

1 **A** No, we didn't talk or anything.

2 **Q** You lived in Canfield Green Apartments
3 back on August 9th of 2014; is that correct?

4 **A** Yes, ma'am.

5 **Q** All right. There you go. All right. So
6 how long did you live there?

7 **A** Since Valentine's Day.

8 **Q** So February 14th of that year?

9 **A** Yes.

10 **Q** Of this year. Show us on the map, you see
11 that map, that's Grand Jury Exhibit Number 25 and
12 there's a laser pointer right near you somewhere.
13 You know how to use it, there's a little button,
14 there you go. And you push that button down, there
15 should be a red light if you push.

16 **A** To show where I live?

17 **Q** I want you to show us where you lived on
18 August 9th, 2014. I don't see the red light.

19 **A** I'm trying to recognize the map.

20 **Q** Get oriented to the map. So does the map
21 help you out?

22 **A** Yeah, I see it, my apartment is right
23 here. (indicating)

24 **Q** So it is like ?

25 **A** Yes.

1 **Q** All right. Now, tell us what you did that
2 morning, what time did you wake up that Saturday
3 morning?

4 **A** That morning I woke up at probably, um,
5 like 9:00. I was supposed to be expecting my
6 boyfriend, the mother of his kids to bring his child
7 over that day.

8 **Q** Was your boyfriend there with you?

9 **A** No, he was at work.

10 **Q** Okay. So when you, did the girlfriend
11 bring the child over?

12 **A** She had brought him over later. I had a
13 whole bunch of errands to do, I had to go to the
14 library to return a movie.

15 **Q** Okay. You went to the library. What
16 library did you guy to?

17 **A** .

18 **Q** Did you walk or drive?

19 **A** I caught the bus up there, but I didn't
20 have no cash, I had to walk back.

21 **Q** Was it a pretty long walk?

22 **A** Uh-huh.

23 **Q** Okay. So what time were you walking back
24 from the library?

25 **A** Um, I was coming down Canfield probably at

1 about 12:20, something like that.

2 Q Noon-ish?

3 A Yeah.

4 Q And on this map, can you tell that West
5 Florissant is over here?

6 A Yes.

7 Q And were you walking from West Florissant?

8 A Yes, ma'am.

9 Q And tell us where you were walking when
10 you first noticed something going on with Michael
11 Brown?

12 A Uh, I was probably about right here by
13 these trees. (indicating)

14 Q Okay.

15 A Because I had paused, I saw a police car
16 sitting over here.

17 Q You've got to talk a little louder.

18 A I'm sorry. Sitting near the lease office
19 with the lights on, you usually don't see a police
20 car just sitting in Canfield.

21 Q Okay. Where is leasing office, do you see
22 that on the map?

23 A Right here. (indicating)

24 Q Okay. That's the leasing office.

25 MS. ALIZADEH: Could you point at it again

1 because I was just looking down.

2 **A** I'm sorry. It is right here.

3 (indicating)

4 **Q** (By Ms. Alizadeh) Building 1?

5 **A** Yes, ma'am.

6 **Q** All right. So you pause in that area and
7 you said you saw a police car with its lights on?

8 **A** Yes.

9 **Q** What do you mean by its lights on?

10 **A** Like, uh --

11 **Q** The head bar?

12 **A** Yes, the little red and blue light on top
13 of it.

14 **Q** At the top of the vehicle?

15 **A** Yes.

16 **Q** Not the lights that help you see at night?

17 **A** No.

18 **Q** And the lights that were on, what kind of
19 vehicle was it?

20 **A** It was like the big, I don't know what
21 kind, like SUV.

22 **Q** Okay. What color?

23 **A** A white.

24 **Q** But it was a marked police car?

25 **A** Yes.

1 **Q** Okay. You could see that from Building 1
2 area?

3 **A** Yes.

4 **Q** Then what?

5 **A** Um, so I paused like right about here,
6 right by these trees just to see what was going on
7 because I saw the police car had backed up and he
8 like backed up at a slant, like to the left so that
9 he ended up in the middle of the street.

10 So all the cars that was next to me
11 like backed up right here was just sitting there. I
12 sat there to just to try to see what is going on.

13 **Q** Did you see the car when it backed up or
14 when you first noticed it had backed up?

15 **A** No, when I first noticed it was straight.
16 The car was just straight. It was sitting right
17 there, the car was facing towards West Florissant.

18 **Q** Okay.

19 **A** There was the two boys, they were like
20 behind the car kind of like, like if he would of
21 continued to talk to them the way they was walking,
22 he would of had to back up to follow them. They was
23 like walking away from his car. So he backed up at
24 a slant going to the left to try to like block them
25 off.

1 **Q** Okay. Can you describe the two boys that
2 were walking that he backed up?

3 **A** Yeah, there was a big, really big, I
4 didn't know he was that young. He looked like he
5 was in his 20s and his friend was real skinny with
6 dreads. He looked really young.

7 **Q** Do you recall what the big guy had on?

8 **A** I remember he had on a white T-shirt that
9 was about it, like tan pants.

10 **Q** Was he wearing anything on his head?

11 **A** He had a red hat on.

12 **Q** Okay.

13 **A** A red Cardinals hat.

14 **Q** A Cardinals cap?

15 **A** Uh-huh.

16 **Q** And then the guy, you said he had dreads
17 and he was smaller?

18 **A** Yes.

19 **Q** Do you recall what he was wearing?

20 **A** Looked like he had on a gray, like a dark,
21 gray shirt.

22 **Q** Okay.

23 **A** I don't remember what kind of pants or
24 anything.

25 **Q** Okay. And you said you had, you had seen

1 the smaller guy before?

2 **A** Yeah, I had seen him before.

3 **Q** But not the big guy?

4 **A** No.

5 **Q** We know today that the big guy is Michael
6 Brown, correct?

7 **A** Yes.

8 **Q** Okay. And that's who you saw?

9 **A** Yes.

10 **Q** So when the car back-back, did it
11 back-back like hurriedly or slow or what fashion did
12 the car back-back?

13 **A** It was kind of like a fast, it was quick
14 like. I don't know how to explain it.

15 **Q** Okay. That's fine. Did it appear to
16 touch the two guys that it back toward?

17 **A** It looked like it did. I'm not saying
18 that it did, but the way they jump back, like they
19 were in shock like.

20 **Q** So you saw the two people that the car
21 back towards jump back?

22 **A** Yeah, kind of like what are you doing, you
23 know.

24 **Q** Okay. Now, we read and heard your
25 recorded statements because you made two statements

1 both to the FBI and the Department of Justice?

2 **A** Yes.

3 **Q** Correct?

4 **A** Yes.

5 **Q** And you mention that your vision was
6 somewhat impaired?

7 **A** Yes.

8 **Q** As far as you needing corrective glasses
9 or lenses?

10 **A** Yes.

11 **Q** On that day, did you have what you needed
12 to make your vision very good?

13 **A** No.

14 **Q** How would you rate your vision that day?

15 **A** Um, from one to ten, I would say like
16 five.

17 **Q** Okay. So like me. I could probably read
18 from here to Forsyth without glasses, but up close I
19 cannot see anything, okay. So was your long vision
20 better than up close vision?

21 **A** Um, I'm nearsighted, so I can't see far.

22 **Q** Okay. You need glasses to help you to see
23 far?

24 **A** Yes.

25 **Q** Are you pretty confident in what you saw

1 that day because how far would you say you were
2 away? Let's look at that again. When you first saw
3 it, where were you?

4 **A** Uh, probably like right there.
5 (indicating)

6 **Q** Okay. About right here. And where were
7 they when you first noticed them?

8 **A** About right here. (indicating)

9 **Q** Okay. Anyway to judge that in feet or
10 yards, I'm not good at that, but if you can tell us?

11 **A** I'm not certain. I would probably be
12 really off.

13 **Q** Okay. We got kind of a visual picture of
14 the map that you showed us. Am I getting too close?
15 No.

16 **Q** (By Ms. Whirley) You felt that you were
17 pretty secure in what you were looking at?

18 **A** Yes.

19 **Q** Even though you need contacts?

20 **A** It is not that bad. I can see the big
21 vehicle and how he pulled back like that.

22 **Q** Okay, just checking. How about your
23 hearing?

24 **A** I couldn't really hear much of anything
25 they were saying, there was a lot of other stuff

1 going on.

2 Q You have good hearing?

3 A My hearing is fine.

4 Q You don't need assistance to hear well or
5 anything?

6 A No.

7 Q Okay. So they back-back, the officer
8 back-back, it looks like they hit them because they
9 jump a little bit and look perturbed and look like,
10 hey, what are you doing, and then what?

11 A Well, the big dude, Michael Brown, like he
12 got mad kind of, he just went immediately to the
13 driver's window and they got into it. I don't know
14 how it started. I just know he went around to the
15 window and it looked like they was fighting.

16 Q Okay. Did the little guy seem to be
17 helping?

18 A No.

19 Q Did you notice him?

20 A He was standing there for a while, but
21 once they started fighting, he just ran.

22 Q Was he next to Michael Brown on the same
23 side of the car?

24 A Yeah, he was on the same side of the car
25 still at the back of it.

1 **Q** They're at the driver's side of the car
2 since they were fighting?

3 **A** Yes, ma'am.

4 **Q** Did it look like anybody else was in the
5 car with the officer?

6 **A** No, I couldn't tell if anyone else was
7 next to the car.

8 **Q** You never saw anybody else get out or
9 anything like that?

10 **A** No.

11 **Q** Now, describe for us why it looked like
12 they were fighting, what did you see?

13 **A** Um, it was like his arms.

14 **Q** You have to tell us whose arms?

15 **A** I'm sorry, Mike's arms are reaching into
16 the car. It looked like some type of struggle cause
17 he was like bobbing in and out like they were doing
18 something. Like I said, I couldn't exactly see what
19 was going on, what they were doing, but his actions
20 looked like there was some type of fight.

21 **Q** Could you see the officer's arms?

22 **A** Not really. His body was kind of blocking
23 the window.

24 **Q** Okay. And you could just see Mike's arms?

25 **A** Yeah.

1 **Q** So you're standing on this side?

2 **A** Yes.

3 **Q** And the car is over here?

4 **A** Yeah, about.

5 **Q** Facing West Florissant?

6 **A** So it was a little farther, like right
7 there.

8 **Q** So would you have been closer, would your
9 view have been closer to the passenger side of the
10 car or the driver's side of the car?

11 **A** The driver's side.

12 **Q** Okay. Because the car was going --

13 **A** It was facing towards West Florissant and
14 then he backed like a slant going to the left, like
15 right in the middle of the street almost. That's
16 why the cars couldn't go through, he was right in
17 the middle of the street.

18 **Q** What other cars did you notice?

19 **A** I saw, it was like a black van. I don't
20 know models of cars, but right beside me there was a
21 black van, as far as behind that going down, I'm not
22 sure.

23 **Q** Okay. What did you see after that?

24 **A** Um, after that I see they were struggling
25 in the window for about, it was not that long, a

1 couple seconds and then I heard the first gunshot.
2 And that's like, you know, kind of got everybody's
3 attention, people started paying attention after
4 that.

5 **Q** How do you know that people started paying
6 attention after that?

7 **A** Because his friend, after he ran, you
8 know, he just running around looking at stuff.
9 People outside on their porches, you know, because
10 you hear gunshot over there, especially when it is
11 like right in the middle of everything, so everybody
12 could hear it. You know, people start looking out
13 their windows.

14 **Q** You notice this yourself?

15 **A** Yes, ma'am.

16 **Q** You are kind of looking around at the
17 scene. You weren't just focused directly on the
18 police officer constantly?

19 **A** Yeah, that's another thing that throws off
20 some of my details, there's so much going on.

21 **Q** Okay.

22 **A** Like even the lady in the car that was
23 beside me, she was just like, you know, just
24 looking, everybody just started to pay attention to
25 it.

1 **Q** Did you talk to anybody while this is
2 going on?

3 **A** I was by myself, I didn't talk to anybody.

4 **Q** Nobody was yelling out anything to you?

5 **A** Not until the rest of the shots fired,
6 that's when everybody went crazy.

7 **Q** The first shot, was the officer in the car
8 when that shot occurred?

9 **A** Yes, the officer was still in the car.
10 Michael Brown was still in the window when I heard
11 the first shot.

12 **Q** Tell us what happened next?

13 **A** After that, he kind of backed up and just
14 looked down at himself.

15 **Q** Show us, if you wouldn't mind
16 demonstrating?

17 **A** Like, stand up.

18 **Q** Like he backed up and was looking at
19 himself?

20 **A** Okay. So I heard the first shot and he
21 was just like, his hands was in the car and after
22 that he backed up like, trying to check himself
23 making sure he wasn't hurt or anything.

24 **Q** Could you see if he was injured from your
25 vantage point?

1 **A** No.

2 **Q** You couldn't tell one way or the other?

3 **A** No.

4 **Q** Okay. And then what?

5 **A** Um, then he kind of stepped back a little
6 bit. I did see something fall on the ground, it
7 sounded metal. So, of course, the first thing I
8 assume was it was a gun.

9 **Q** Okay. You thought that somebody had a gun
10 that fell?

11 **A** Yeah, at first I was thinking he had a
12 gun.

13 **Q** Michael Brown?

14 **A** Yeah.

15 **Q** Go ahead.

16 **A** So the officer got out of the car, you
17 know.

18 **Q** This metal object that fell?

19 **A** Uh-huh.

20 **Q** Did it appear that the officer or Michael
21 Brown or anyone else retrieved that object?

22 **A** I didn't see anybody pick it up because at
23 that point was another point when I was looking
24 around.

25 **Q** Okay.

1 **A** When I did look back, that's when the
2 officer had the gun, he was pointing it at him.

3 **Q** Did you notice if that object that you
4 thought that fell on the ground was still on the
5 ground?

6 **A** It wasn't.

7 **Q** It wasn't there any more?

8 **A** No.

9 **Q** Okay. You did notice that?

10 **A** Yes, ma'am.

11 **Q** Okay. So the officer you said at that
12 point when you saw the officer again he was out of
13 the car?

14 **A** Yes.

15 **Q** And what was the officer doing?

16 **A** He was like just standing with the gun
17 facing him and then like.

18 **Q** Show us how he had the gun, the stance?

19 **A** He was just like, you know, officer, just
20 standing like this. Like he was, you know, going to
21 shoot him, like he did something.

22 **Q** Okay. Where was he though and maybe I
23 missed something. Let's go back to the shot went
24 off, Michael Brown checked himself out, was acting
25 like he was looking at himself. Then where did

1 Michael Brown go?

2 **A** He backed up a few steps. At first he
3 tried to run, at first when -- when he first looked
4 at himself he tried to run.

5 **Q** Where was he running to though?

6 **A** Back towards the back of Canfield, like
7 back where his friend ran right there.

8 **Q** So east on Canfield?

9 **A** Yeah, the car was about right here, he ran
10 to about right here. (indicating)

11 **Q** How did he get around the car, did he just
12 go from the back of the car?

13 **A** He was like next to it so he didn't have
14 to, you know, there was too much turning to go down
15 the street.

16 **Q** Okay. And you said at first he tried to
17 run?

18 **A** Yeah, he made a couple little steps like a
19 quick sprint, nothing more than like five to seven
20 steps.

21 **Q** And then what?

22 **A** He didn't get that far. And then he
23 turned around, the officer had the gun pointed at
24 him and then you just heard the rest of the shots.

25 **Q** Let me ask something though. Did the

1 officer like pursue him when he was running away?

2 **A** No, I didn't see him run after him.

3 **Q** The officer just got out of the car?

4 **A** Yes, I saw him standing there. I didn't
5 see him get out of the car.

6 **Q** Okay.

7 **A** You know, certain things I saw and certain
8 things I didn't see.

9 **Q** But when you caught it again, Michael
10 Brown had turned around?

11 **A** Yes.

12 **Q** Did you see him turn around?

13 **A** Yes.

14 **Q** Can you show us how he did that?

15 **A** Just. (indicating)

16 **Q** So like run that way, I mean, or walk that
17 way of however he was doing it?

18 **A** Okay. He just turned around like, you
19 know, he put his arms about shoulder length and just
20 stopped, like looking at him. And then, um, that's
21 when I heard the rest of the shots. I heard the
22 first two, I didn't see them. And then when I
23 looked at him, I saw him still shooting him.

24 **Q** Okay. So you heard two shots?

25 **A** Yes.

1 **Q** As part of this set of shots or two
2 separate shots and then a pause?

3 **A** No, it was all in a set. It was like in a
4 row like that. (indicating)

5 **Q** Okay.

6 **A** The first two of them I didn't see. I
7 wasn't looking. The rest of them I was looking
8 straight at him and I saw the actual shots going
9 into him.

10 **Q** It looked like the shots were going into
11 him?

12 **A** Yes.

13 **Q** How could you tell, what was it looking
14 like?

15 **A** I mean, I can't tell, you know, I can't
16 really tell. I'm just saying based on him pointing
17 the gun at him and hearing all the pops and seeing
18 the smoke coming off his gun.

19 **Q** You saw the smoke?

20 **A** Yeah, I saw the smoke and you could smell
21 it like, it was like firecrackers almost.

22 **Q** You could smell it from where you were?

23 **A** Yes.

24 **Q** Was it a windy day?

25 **A** I don't remember.

1 **Q** Was his arms up the way you showed us when
2 he was being shot?

3 **A** Yes, about, like his palms were out facing
4 forward, they were about at his ears, I'd say, like
5 shoulders, about like that.

6 **Q** Okay. What did that mean to you to have
7 your arms like that?

8 **A** That meant surrender, that meant take me
9 to jail.

10 **Q** You thought he was surrendering?

11 **A** Yeah.

12 **Q** Did you ever see him rush the officer
13 like, you know what I mean by rush?

14 **A** Yeah, like he was mad.

15 **Q** Was he running toward the officer or
16 charge him?

17 **A** I didn't see that.

18 **Q** Okay. Did you ever hear anybody ever say
19 anything?

20 **A** As soon as the shots got fired, like I
21 said, I was up here by these trees, I was behind a
22 mailbox. I was standing right there after the rest
23 of the shots got fired. His friend that was with
24 him was running around, he was running. He was like
25 here, I guess. I don't know what he was doing. He

1 was standing with some dudes, he started running
2 around the complex, they shot him, they shot my home
3 boy, he didn't even deserve that.

4 It was the police that killed him, it
5 was the police that killed him. That is what got
6 the big crowd out there real fast.

7 Q Just to go back to when those last shots
8 was fired. You thought it was about how many shots?

9 A It sounded about like six.

10 Q Did you see Michael Brown fall?

11 A Yes.

12 Q Were you watching him then?

13 A Yes.

14 Q How did he fall to the ground?

15 A He fell face forward. There wasn't no
16 pause on his knees or nothing, it was just straight
17 down. (indicating)

18 Q You didn't see him go down on his knees
19 and then fall, it was just from standing to
20 facedown?

21 A Yeah.

22 Q Okay. And then what did the officer do?

23 A The officer walked up to his body and was
24 standing over him like he was going to get back up.
25 He was just looking at him like, just looking down

1 at him like, I don't know.

2 Q Did the officer still have his weapon in
3 his hand?

4 A He still had his weapon in his hand.

5 Q Did you notice what he was doing with the
6 weapon or if he was doing anything?

7 A No, I just know he still had the gun right
8 at his side in his hand. He was just looking down
9 at him, just like walking around him, you know, just
10 like walking a circle around him like. I don't
11 know, it was just strange.

12 Q So he didn't holster the weapon at that
13 point after Michael Brown was down?

14 A No.

15 Q Okay. Show me where you saw the body fall
16 on the map?

17 A It was probably like right here. Like
18 right there, went a couple steps and fell.
19 (indicating)

20 MS. ALIZADEH: Can you do that again?

21 A About right here is where his body was.
22 (indicating)

23 Q (By Ms. Whirley) Where were you again?

24 A By this time I was over here.

25 Q Okay. What did you do after the body

1 fell?

2 **A** I ran in the house.

3 **Q** Which way did you go home?

4 **A** Back this way.

5 **Q** Okay. And again, you live in building?

6 **A** .

7 **Q** So you went back this way?

8 (indicating)

9 **A** Yes.

10 **Q** Okay. Did you see, at the time of the
11 shooting, were there any other police vehicles
12 there?

13 **A** No, when he first got shot he was laying
14 there I seen another police car pull up probably
15 about ten minutes later. It wasn't that long after
16 the police car pulled up. So there was two police
17 cars out there, they eventually, I guess they told
18 the cop that shot him to go home because he wasn't
19 out there after a couple of minutes.

20 **Q** Did that car that showed up, did it have
21 its head bar lights on too?

22 **A** Yes.

23 **Q** Did you talk to any police officers or any
24 investigators that day?

25 **A** No.

1 **Q** How did you come to talk to the
2 investigators?

3 **A** Honestly?

4 **Q** Honestly.

5 **A** I was at home enjoying myself watching a
6 movie and there's a knock on the door, and two big
7 guys with FBI things on. I told my boyfriend to get
8 the door, I don't want to talk to anybody, go get
9 the door.

10 So he answered the doors and says, I
11 was at work on that day, but my girlfriend was here
12 and saw the whole thing so. Oh, really, can we come
13 inside? I couldn't say no, the first thing he said
14 was just say no. So figure you can't say no to an
15 FBI agent. So, yeah, that's how it went.

16 **Q** Okay. So had you told your boyfriend
17 about what happened that day?

18 **A** Yeah, I told him because his son was
19 coming over. When she finally did get there, she
20 said, did you know somebody got shot? I was like,
21 yeah, I was just out there.

22 **Q** Did you tell her what happened too?

23 **A** No, I don't like her. We don't talk.

24 **Q** Okay. How old is the little boy?

25 **A** He's one.

1 **Q** Okay. All right. But you did share with
2 your boyfriend?

3 **A** Yeah.

4 **Q** All right.

5 **A** Because I never, I've never seen anybody
6 get killed. I've seen police brutality firsthand,
7 but I've never seen nothing like that, nobody's life
8 get taken.

9 **Q** Did you think this was police brutality?

10 **A** Honestly, to me it looked like murder.
11 I've seen the Ferguson police do some really awful
12 things. I've personally myself filed cases against
13 them for them coming into my house and basically
14 beating me up.

15 **Q** Okay. Tell us about that?

16 **A** Okay. So my boyfriend had got into it
17 with his son's mom.

18 **Q** Yeah, baby momma.

19 **A** Yeah.

20 **Q** Go ahead, we know about it.

21 **A** He got into it with her. The two of them
22 were fighting and arguing. I had just got off work.
23 She got off the bus with me so, you know, me and
24 her, why are you getting off the bus and going to my
25 house. It is my son's birthday, you know, I'm just

1 trying to get stuff for him, don't worry about it.

2 So she walked in the house, they get into it. I

3 didn't tell you could come over here.

4 So basically they started fighting,

5 he called the police on her. When the police

6 arrived, which was not that, it was like two minutes

7 later, like they was literally parked down the

8 street. When they arrived he was standing in the

9 doorway.

10 They walked straight up to him, they

11 didn't ask questions, they grabbed him, put him in

12 cuffs, told him to get on his knees. Like how am I

13 going to get on my knees when you're twisting my arm

14 up in the air.

15 They pushing his face all up on the

16 wall. Me and her are in there crying, he didn't do

17 nothing, he's the one that called you. They dragged

18 him outside.

19 She was getting ready to leave. So

20 her son, he wasn't even one at this time. He was,

21 where was he. He was sitting on the porch in his

22 stroller, still on the porch. It was freezing

23 outside, snow on the ground.

24 So they close the front door, left

25 him out there on the porch after they dragged

1 down the steps.

2 So they had me and her, and they sat
3 her on the couch. I come out of the kitchen because
4 it is a walk-around bar in the kitchen. So I come
5 around the bar in the kitchen, I'm like, what are
6 y'all doing in my house, why you doing my boyfriend
7 like that. He's the one that called y'all.

8 Like don't you understand, we had
9 nothing to do with this, we are trying to remove her
10 because we live here.

11 He was like the B word, don't say
12 nothing to me, this has nothing to do with you, this
13 is a police matter now.

14 **Q** They called you the B word?

15 **A** Yes. The Canfield security officer, he
16 came in, come on man, these are kids. Don't do them
17 like that. You shut up because this is a police
18 matter, we're taking over this investigation and
19 stuff like that. What investigation. These are
20 kids. They called you for this girl that don't live
21 here.

22 So I'm like yelling at him, yes, I
23 did get mad. I started yelling at him. I'm like,
24 my name is on the lease. I didn't have nothing to
25 do with this. Why y'all in my house, you tearing it

1 up and all of this.

2 Okay. You don't know how to reason,
3 somebody come put her in cuffs. This big huge
4 officer came and put the cuffs on me. He kicked me
5 all over my back and he got cuffs like this, and
6 there was cuts all around my wrist. I had bruises
7 on my body and then they let her go. They let the
8 momma go. She started crying my baby's in the snow.

9 Q She took the baby?

10 A She took the baby and walked down the
11 street. They put my boyfriend in the cop car. So
12 I'm in handcuffs walking around the house, so I walk
13 outside. Where's she going. Oh, there she is.
14 Don't you love how they just like to wander around
15 like the walking dead.

16 I'm out there like, where's my
17 boyfriend, looking in the police car and stuff. So
18 they come out there, he put me in the car and I'm
19 like, what am I going to jail for.

20 We search your name, you probably
21 have a traffic ticket. I don't even drive, I have
22 no car. Well, we're going to find out when we get
23 down there.

24 I get down there, they say I have a
25 Metro ticket for the MetroLink. They kept me in

1 there, I was a manager at this time. I had to open
2 my store at 9:00 in the morning. They kept me in
3 there until 2:00 p.m. They let my boyfriend out at
4 like 3:00 in the morning. Well, he called them.

5 **Q** Now, was this officer, you know the
6 officer who is involved in this case, Darren Wilson,
7 correct?

8 **A** Yes.

9 **Q** Was he involved in any of this that
10 happened with you?

11 **A** No, it was another dude.

12 **Q** It was another one?

13 **A** Big guy with a mustache.

14 **Q** Had you ever had any type of altercation
15 with Darren Wilson as a police officer?

16 **A** No.

17 **Q** How long ago did this happen to you?

18 **A** Um, that was probably like March and we
19 had been trying to get some type of justice up until
20 basically this. The security officer at Canfield
21 had everything on tape, like he recorded everything
22 he had taped that he sent to the landlord. He was
23 like, you need to do something. You need to take
24 this to court or sue Ferguson, he's telling her all
25 of this.

1 **Q** So, in your opinion, you mention tape, did
2 you tape any of this --

3 **A** No.

4 **Q** -- shooting?

5 **A** At that time I didn't have a phone that
6 could record.

7 **Q** Do you know anybody who has a tape of the
8 actual shooting?

9 **A** I saw a girl standing out there. It was
10 about that time when he was out of the car, she was
11 recording. She could have got most of the shooting,
12 but one of the officers took her phone.

13 **Q** How do you know that?

14 **A** I was standing there in the crowd at that
15 point. This was like 20 minutes after the shooting,
16 his body was still laying out there.

17 **Q** You saw an officer take her phone?

18 **A** Yeah, this was after I ran in house. I
19 put my bags down from the library, I was just
20 basically out there walking and, you know, mingling
21 around with all the people outside. I saw her
22 before I even went in the house, she was standing
23 like, she was standing like right here.

24 (indicating)

25 **Q** Okay.

1 **A** Her house is right here. She was standing
2 on her porch like over there.

3 **Q** Do you know her name?

4 **A** I don't know her.

5 **Q** Okay.

6 **A** That was my first time seeing a lot of
7 these people. But I saw her, she was like, I got
8 the whole thing, she's standing there like, yeah, I
9 got you on camera too. He came over and took her
10 phone.

11 **Q** Was it a Ferguson office?

12 **A** It was a Ferguson officer.

13 **Q** You know the difference between Ferguson
14 and County?

15 **A** And the County, yeah, it was Ferguson.

16 **Q** It was an Ferguson officer?

17 **A** Yeah.

18 **Q** Okay. One second. So based on your
19 knowledge of what's going on in the community, how
20 would you describe the relationship between the
21 police and the residence there in Canfield Green.

22 **A** From every instance I've been involved
23 with the police, I'm not a criminal. I don't have
24 any record. I don't have any reason to be arrested
25 or brutalized. A lot of people that I know over

1 there is the same way.

2 What I see when the police come, it
3 is like instant panic from people. You know, like
4 who called them, why would you call them over here.
5 We don't need them to solve this problem, you just
6 brought more trouble into the area and stuff like
7 that.

8 And I just see like, I mean, I seen
9 my daddy get beat by the police, I've seen friends
10 of mine will be out, you know, shopping and someone
11 told them we stole something and just get followed
12 by the police cars. I never seen, you know, I don't
13 think he deserves to get killed like that. And that
14 just kind of proves my whole image of what I thought
15 of the police.

16 **Q** Which is what?

17 **A** They abuse their authority to me.

18 **Q** Now, in one of your statements you
19 describe Michael Brown as looking scared when he
20 turned around. Do you recall that?

21 **A** Yes.

22 **Q** Explain to us what you mean by that. You
23 couldn't actually see his face, could you?

24 **A** No, I couldn't see his face.

25 **Q** What did you mean he looked scared?

1 **A** I mean, you know, when you see a really
2 big dude just kind of cowering.

3 **Q** Like stand up for us, demonstrate
4 cowering.

5 **A** Okay. If you stop and you are looking at
6 someone and you're, you know, it is cool, you know,
7 I'm all right, you know. And, you know, I don't
8 know how to explain, but when I see a big dude like
9 that kind of looking like he's afraid, like he's
10 like trembling like a child kind of.

11 **Q** Do it look like he was trembling?

12 **A** Yeah --

13 **Q** From that distance?

14 **A** Yeah, you know, the way his hands was,
15 they was moving or something. He was just like
16 scared to me, he looked scared.

17 **Q** It did not look to you that he was trying
18 to come at the officer when he was cowering or
19 moving his hands?

20 **A** No.

21 **Q** When Michael Brown fell to the ground, did
22 the officer stop shooting?

23 **A** Yes, I didn't hear any more mots.

24 **Q** You didn't hear any more shots. Did you
25 hear any shots when Michael Brown, after that first

1 shot and Michael Brown fled from the car before he
2 turned around, did you hear any shots?

3 **A** Like when he was running?

4 **Q** Yes.

5 **A** I don't remember.

6 **Q** Okay. I don't know if I've asked you this
7 already, but when you said there was one shot was in
8 the police car, did it appear that Michael Brown was
9 shot? You said he looked at himself, but you
10 couldn't tell if he was shot or not?

11 **A** I couldn't tell if he was shot. He just
12 looked at himself, like he was checking to see, like
13 he didn't know himself.

14 **Q** Okay.

15 MS. WHIRLEY: I don't have anything else
16 right now. Kathi?

17 MS. ALIZADEH: Yeah.

18 **Q** (By Ms. Alizadeh) So I'm going to ask you
19 a few more questions just to clarify a few things
20 and you're killing the court reporter because you
21 talk so fast.

22 **A** I'm sorry, I work at a call center.

23 **Q** I know you were getting excited. And I'm
24 really sorry that you had those experiences. Do you
25 think that Officer Wilson, do you hold him

1 accountable for the bad behavior that you've
2 experienced or witnessed or that you are aware of
3 other Ferguson officers?

4 **A** No, I don't hold him accountable really.
5 I think, you know, like I say with authorities, I
6 think he just got beside himself. Like, you know,
7 it turned into, you know, I'm going to tell you kids
8 you do this, you listen to me, you have an attitude.
9 And then it turned into him just being frustrated,
10 that's what it seemed like.

11 **Q** Okay. What I want to make sure, ,
12 and because this grand jury is going to consider
13 whether or not to indict the police officer for a
14 crime. And they're examining what happened that day
15 so that they can decide that, and I know that you
16 having had unpleasant or, you know, very bad
17 experiences with police officers, you know, it gives
18 you a bad impression of police officers I imagine.

19 But, you know, they need just to
20 relate what you saw today. They can only consider,
21 not that they can't consider other things, do you
22 know what I'm saying?

23 **A** What I saw, not what I heard.

24 **Q** Right. And I want to make sure that we're
25 not bringing all bad police officers behavior into

1 this picture.

2 **A** Right.

3 **Q** And you saw what you saw that day and you
4 have an opinion about what you saw that day and
5 that's fine and that's what we're interested in,
6 okay?

7 **A** Yes.

8 **Q** So when you said you were walking back
9 from the library and you first saw the two boys and
10 I just wanted to clarify, you said that maybe you
11 had seen him once before, were you talking about the
12 littler guy or Michael Brown?

13 **A** The littler one.

14 **Q** The littler one?

15 **A** Yes.

16 **Q** In what setting have you seen him before?

17 **A** One of the little community stores up the
18 street.

19 **Q** Okay. So you recognized him as having
20 seen him up at one of the convenience stores?

21 **A** Seeing him up close. Actually seeing
22 pictures of his face up close, I recognized that was
23 his structure.

24 **Q** So from where you were standing initially,
25 which was somewhere around here; is that right?

1 (indicating)

2 **A** (Nods head.)

3 **Q** And the boys were initially down about
4 here or where were the boys when you first saw them?

5 **A** They were about right here. I was like
6 right there. (indicating)

7 **Q** And you were about right here?
8 (indicating)

9 **A** Yes.

10 **Q** So from that distance you could see enough
11 of the smaller boy's facial features to realize that
12 you recognized him?

13 **A** Yes.

14 **Q** And so now, we know, did you say this
15 Building 1 is the leasing office, correct?

16 **A** Yes.

17 **Q** And you said that you first saw the
18 officer's car by the leasing office and I want to
19 make sure we're clarifying here, was his car always
20 on Canfield Drive when you saw it or was there ever
21 a time when his car was up here on Coppercreek Road?

22 **A** No, it was always on Canfield.

23 **Q** Okay.

24 **A** The closer it got to pulling in somewhere
25 was when I first approached him all the way back

1 here, it was somewhere around here. (indicating)

2 Q Did you see him turn into one of those
3 drives or streets at all?

4 A He was on this main street, he was about
5 probably like in one of these parking lots. By the
6 time I got right here, he was already up the street.

7 Q Did you see him come from a parking lot
8 onto Canfield?

9 A No. When I first was like all the way
10 down, the first side street, I saw him somewhere in
11 like one of the entrances to the parking lots.

12 Q When you were walking from this direction,
13 did you see any people outside?

14 A No, I don't remember. I wasn't paying
15 that close attention.

16 Q Okay. So just to clarify then, you're
17 saying that there could have been, but you weren't
18 paying attention?

19 A Yeah.

20 Q It is not that you say, no, there wasn't
21 anybody else?

22 A Right.

23 Q All right. But you said that you saw a
24 black van?

25 A Yes.

1 **Q** Was this a minivan type of van or the
2 bigger like?

3 **A** Soccer mom van.

4 **Q** Okay. Was there a soccer mom in the car?

5 **A** Uh, she might have been a soccer mom.

6 **Q** Was a woman in the car?

7 **A** Yes.

8 **Q** Was she an African-American?

9 **A** Yes.

10 **Q** And can you give me an idea about how old
11 she was?

12 **A** Probably, um, 36, 40, between 36 and 42
13 maybe.

14 **Q** Was there anybody else with her?

15 **A** I couldn't tell if there was anyone in the
16 back, but not in the front passenger seat.

17 **Q** Okay. And the other cars that you said
18 were lining up, you really didn't get a good
19 description of them?

20 **A** No.

21 **Q** You can't remember anything about those
22 other cars?

23 **A** No.

24 **Q** And when you first saw the police
25 officer's car, was the police officer's car moving

1 when you first saw it?

2 **A** No.

3 **Q** It was stopped?

4 **A** Yes.

5 **Q** And so you had described that the
6 officer's car backed up quickly?

7 **A** Yes.

8 **Q** Is that the first time that you saw the
9 officer's car move or did it go forward and then
10 back up from what you saw?

11 **A** Uh, no, it just backed up, it went forward
12 first.

13 **Q** So the first time you saw the officer's
14 car, it was standing still and were the boys walking
15 away from the car at that point?

16 **A** Yes, they was walking.

17 **Q** Okay. And then you saw the officer's car
18 back up quickly?

19 **A** Yes.

20 **Q** Did the tires make noise or did you hear
21 any screeching or any noise from the car?

22 **A** Yes.

23 **Q** And at this time could you see inside the
24 police car to see who was driving the car?

25 **A** At that point when he backed up I did see

1 him like, you know, with his arm out the car saying
2 something to him like, I don't know, saying
3 something to him. I just saw hand gesture like
4 doing something like that.

5 Q So you could see that there was a driver
6 in the police car?

7 A Yes.

8 Q Could you tell it was a man?

9 A Yes.

10 Q Could you tell whether he was
11 African-American or white at that point?

12 A Yes.

13 Q Okay. How about anybody else in the
14 police car, could you see if there was anyone else?

15 A No, I couldn't see if there was anyone
16 else.

17 Q But you could tell there was a policeman
18 in the car?

19 A Yes.

20 Q What about, now, you said you saw the red
21 and blue lights on the top of his car on?

22 A Uh-huh.

23 Q Were those always on from the first time
24 you saw the car or did he turn them on?

25 A From the first time I saw him all the way

1 down the street the lights was on.

2 **Q** The lights were always on from the first
3 time you saw the car?

4 **A** Yes.

5 **Q** Did you ever see the lights get turned
6 off?

7 **A** I don't remember that.

8 **Q** Now, you described when you saw Michael
9 Brown come to the window of the car. He went to the
10 window of the car kind of quickly, in your opinion
11 it looked like he was angry?

12 **A** Yes.

13 **Q** And then you described his hands and
14 shoulders and arms inside the vehicle. And today
15 you said he was bobbing in and out?

16 **A** Yeah, it was like, you could see the back
17 of his body, like his shoulders were just like
18 moving, like they were doing something in the car.

19 **Q** Okay. Did he ever leave his feet? In
20 other words, did he ever get like to the point where
21 he, you know, jumped halfway into the car or
22 anything?

23 **A** I wouldn't remember.

24 **Q** Okay. And you said that the struggle
25 lasted a few seconds; is that right?

1 **A** Yes.

2 **Q** I think in one of your previous statements
3 I think you said about 15 seconds, but does that
4 seem about right?

5 **A** Yeah, around that time.

6 **Q** All right. And then another thing I
7 wanted to clarify is that while this whole thing is
8 going on, you're moving. At some point you stand
9 still and then you move?

10 **A** Yes.

11 **Q** Can you narrate for me, I'm not telling
12 you this is what I want you to say, I'm just giving
13 you an example. If you say I'm walking down here
14 and right here is where I see, I see the police car,
15 so I stop right here. And then after the guy starts
16 running, I walk over here. So can you kind of move
17 the laser pointer.

18 **A** Yeah.

19 **Q** And give us an idea of how you were moving
20 and what was going on while you were moving?

21 **A** Okay. So like you said, I did come down
22 this street. I didn't actually stop until I got
23 like to the last tree.

24 **Q** Okay.

25 **A** That's when I was pretty close enough to

1 see what was going on.

2 Q Were you on the sidewalk or the street?

3 A Yeah, I was on this sidewalk right here.

4 (indicating)

5 Q That's on the south side of Canfield?

6 A Yes, ma'am.

7 Q Okay.

8 A I saw the police car sitting about here.

9 (indicating)

10 Q Okay. Keep the laser pointer where you
11 are while you are narrating, okay. So I know where
12 you are when you first see things.

13 A Okay. I was about right here when I first
14 stop to get a look, when they were at the car. The
15 first shot I was right here. I seen once he got out
16 of the car, kind of started moving towards this way.
17 I was standing about right here in the grass with
18 some people over here. I'm standing right here just
19 listening to them. That's when I heard the rest of
20 the shots. So I hid behind the mailbox kind of and
21 then after that, I just go down here and go home.

22 (indicating)

23 Q Where were you when you saw his body fall,
24 were you behind the mailboxes yet?

25 A Probably about right here in the grass in

1 this area. (indicating)

2 Q When you said you went behind the
3 mailboxes, I don't know what the mailboxes look
4 like, did you go behind there for shelter, like to
5 get out of the way?

6 A Yeah, I hear all of those shots, you know,
7 I went over there.

8 Q Okay. And so are those mailboxes, what
9 are they like, are they metal?

10 A Yes, ma'am, they're metal.

11 Q How tall are they?

12 A From the ground, they're about this tall.
13 (indicating)

14 Q I'm a little over 5 foot and I've got
15 heels on, so let's say today I'm 5'4".

16 A On the ground there about this tall, I can
17 reach up and touch the top.

18 Q So that's maybe about 5 foot high?

19 A Yes.

20 Q And is it a solid box with little
21 mailboxes in it?

22 A Yes, a solid long box with just a whole
23 bunch of little doors.

24 Q If you are standing behind the mailboxes,
25 does the mailboxes block your view of where Michael

1 Brown's body fell?

2 **A** No, I'm standing completely behind them.

3 **Q** Yes, okay. But you saw Michael Brown's
4 body fall?

5 **A** Yes.

6 **Q** You weren't behind the mailboxes?

7 **A** Not completely behind it, you know, just
8 kind of look around it kind of, like right here.

9 **Q** Okay.

10 **A** No cars right there, there is no cars, you
11 can see all the way down to right almost right here
12 on the street.

13 **Q** This white rectangle here that I'm
14 pointing at in front of this row of cars, these are
15 mailboxes?

16 **A** Yes.

17 **Q** Okay. And so were you on the west side of
18 the mailboxes when you finally got behind the
19 mailboxes?

20 **A** Oh yeah, back here. (indicating)

21 **Q** Okay. Can you people see what I'm
22 pointing at right here, the mailboxes?

23 But you were able to see everything
24 until about, including when Michael Brown fell on
25 the ground?

1 **A** Yeah.

2 **Q** And then you also describe that you saw
3 the officer walk up to the body and kind of walk
4 around it with his gun at his side?

5 **A** Yeah.

6 **Q** So were you behind the mailboxes at that
7 point peeking around or were you still out in the
8 open?

9 **A** I was still at this point just looking
10 around until everything was over and people started
11 coming outside and I went in the house.

12 **Q** Okay. And now you said today that when
13 Michael Brown turned around and he put his hand up
14 and you demonstrate that, that he looked like he was
15 scared; is that right?

16 **A** Yes.

17 **Q** When you saw that, were you over in this
18 area when he turned around?

19 **A** Yes.

20 **Q** Okay. And you described him being where
21 when you saw him turn around?

22 **A** Um, about right here. (indicating)

23 **Q** Okay. So just so I can help with trying
24 to understand things and with trying to get you to
25 understand things, are there, when he turns around

1 and he gets shot, does he ever move backwards or
2 forwards after he turns around?

3 **A** I don't remember that specific.

4 **Q** Do you remember telling the investigators
5 that you saw him taking steps backwards?

6 **A** Yes, after he ran, he moved a couple steps
7 with his hands up.

8 **Q** Yes?

9 **A** Yes.

10 **Q** He runs a few steps and he turns around
11 and he puts his hands up like next to his ears?

12 **A** Yeah, and takes like some short half
13 steps.

14 **Q** Backwards?

15 **A** Yes.

16 **Q** So what's the furthest point backwards
17 that he walks?

18 **A** He doesn't take too many backward steps.
19 The most move he made was running about here. He
20 didn't get much farther than this area. (indicating)

21 **Q** Okay. Now, eventually when he was shot
22 and hit the ground and his body laid there for quite
23 some time, is that where the memorial is now on the
24 street?

25 **A** Yes.

1 **Q** And so can you point on the map where the
2 memorial is?

3 **A** There's one right here by the Ferguson
4 apartment complex, one right here and one at the end
5 of my street and there's one on the street right
6 here where Canfield ends.

7 **Q** Where the word Canfield is?

8 **A** Yes, memorial right there.

9 **Q** Okay. So where the body laid and where
10 the memorial is, that's the farthest east that you
11 saw him get?

12 **A** Yes.

13 **Q** Okay.

14 **A** They kind of built the memorial on top of
15 the blood stain that was there. So that's where he
16 was.

17 **Q** So you never saw him from the farthest
18 point that he was east, you never saw him move
19 toward the officer?

20 **A** I didn't see him move toward the officer.
21 He could have, but I didn't see him do it.

22 **Q** So this would have been when you were kind
23 of over by the mailboxes?

24 **A** Yes.

25 **Q** And would you have been like peeking out

1 or whatever?

2 **A** Yes.

3 **Q** And you also said today and in previous
4 statements that, you know, you were kind of at that
5 point noticing that people were kind of coming out
6 and milling about?

7 **A** Yes.

8 **Q** So you were taking your eyes off of what
9 was going on a little bit?

10 **A** Yes.

11 **Q** Now, you said that you saw a woman come
12 out and say that she had videoed this on her phone?

13 **A** Yes.

14 **Q** Where did you see her when she came out?

15 **A** When I first saw her she was standing
16 right here in front of her apartment complex. After
17 I had went in the house and came back out, she was
18 over here with a big group of people over by the
19 apartment right here.

20 **Q** Okay.

21 **A** That's where I thought he took her to take
22 her phone, she was standing like right here, still
23 in front of her building. (indicating)

24 **Q** Okay. So you think she lives in
25

1 **A** Yes.

2 **Q** Do you know that?

3 **A** I don't know that.

4 **Q** Why do you think she's lives in that
5 building?

6 **A** She was standing on the balcony of, I know
7 the man that lives there, I know she was standing on
8 the balcony with them.

9 **Q** You don't know her name?

10 **A** No.

11 **Q** What about the man that lives there, do
12 you know his name?

13 **A** No.

14 **Q** If somebody, could you point to what
15 balcony it was?

16 **A** Yeah, I can point to what balcony it was.
17 If I saw him on the street, I would know him.

18 **Q** Okay so was the gal an African-American?

19 **A** Yes.

20 **Q** About how old?

21 **A** Probably her 20s.

22 **Q** Have you seen, after this happened, have
23 you seen people on the news who came forward who
24 said they saw it and describing what they saw?

25 **A** I did.

1 **Q** Did you ever see that girl, the one who
2 the officer took her phone, did you ever see her on
3 the news?

4 **A** No, I was expecting to see that video, but
5 I didn't.

6 **Q** Okay. Now you describe when you said
7 Michael Brown turned around and you said it looked
8 like he was scared and today you used the word
9 cowering. In previous statements you said it was
10 like he was crouched over.

11 **A** Yes.

12 **Q** On your recording from previous statements
13 we can't see what that means because it's an audio
14 recording. But you demonstrated today, and XXXXXX
15 was in between you and I so I didn't have a good
16 look at it. Can you describe or demonstrate what
17 you meant when he was crouched over or cowering.

18 **A** Okay. It was like his hands were about
19 like this. (indicating)

20 **Q** Can you stand up? He was standing up at
21 this point, right?

22 **A** Yes. His shoulders were like almost
23 touching his hands, um. No, that's kind of like the
24 stance for self-defense to me. So that's how I said
25 crouched over.

1 **Q** And so before when you were talking to the
2 FBI agents and the assistant U.S. attorney, remember
3 the guy with black hair that you talked to, the
4 attorney?

5 **A** Yes.

6 **Q** Okay. And you said to him that Michael
7 Brown was kind of crouching over and it sounded to
8 me like maybe you were trying to demonstrate it and
9 you said, so kind of bent over?

10 **A** Yes.

11 **Q** When you demonstrated it to them, was your
12 body bent over in any way?

13 **A** Yes, neck kind of bent forward, shoulders
14 going inward.

15 **Q** Okay. How about at the waist. Would the
16 body be upright or is the body bent over?

17 **A** No, the body is upright.

18 **Q** Body is upright?

19 **A** Like from the forearm up is kind of what I
20 meant.

21 **Q** Kind of like shoulder slumped?

22 **A** Yes, like, you know.

23 **Q** Okay. Okay. And just to be clear, from
24 the time after you heard one gunshot while Michael
25 Brown was at the vehicle.

1 **A** Yes.

2 **Q** And then you see him run. Does the
3 officer fire at Michael Brown while he's running
4 away?

5 **A** That I don't remember. I wasn't paying
6 attention at that point.

7 **Q** Okay.

8 **A** It is from the time that the officer got
9 out of the car from the gun, or whatever it was on
10 the ground being picked up or whatever, that part
11 I'm not sure.

12 **Q** Okay. And just to be clear, you said from
13 the gun being picked up off the ground, but you
14 don't know for sure what was on the ground; is that
15 right?

16 **A** Right.

17 **Q** It was black?

18 **A** Yes, it was black. It made like kind of a
19 plastic metal clink when it hit the ground. That's
20 all I know as far as the shape and what I know
21 exactly.

22 **Q** Did you see any yellow on it, was it black
23 and yellow?

24 **A** I didn't see any yellow.

25 **Q** It looked like it was all black and about

1 the size that a handgun would be?

2 **A** Yes.

3 **Q** You didn't see who picked it up, you just
4 know that later it was gone?

5 **A** Yes.

6 **Q** Okay. Did you see, as the boys were first
7 walking toward the car, after the officer backed up
8 and the boys approached the car, did you see
9 anything in Michael Brown's hands?

10 **A** No.

11 **Q** Did you ever see Michael Brown hand
12 anything to the little guy?

13 **A** No, I wasn't paying attention.

14 **Q** Okay. So just cause you were kind of
15 talking softly, you said, no, you weren't paying
16 that close of attention?

17 **A** Yes.

18 **Q** Okay. And so after the first gunshot and
19 Michael Brown backs away, kind of checks himself out
20 looks like and then he starts to run away, you say
21 he gets a few steps before he turns around, did you
22 hear any shots before he turns around?

23 **A** I don't remember.

24 **Q** Okay. And then after he turns around and
25 puts his hands up, and you said in your statement

1 trying to get some idea on this distance here. If
2 we can probably put it in terms of car lengths, like
3 a four-door vehicle, can you picture that in your
4 mind?

5 **A** Yes.

6 : Okay. Now, when you
7 started off, when you saw the officer's car, can you
8 give me an idea how many cars, 4-door cars can fit
9 between where the police officer's car is and where
10 you are when you first see him?

11 **A** Okay. It will be about probably four or
12 five car lengths.

13 : Okay. Four to five car
14 lengths, okay.

15 **A** Yes.

16 : Okay. And then when you
17 got to, were you still at that point when you heard
18 the first shot go off?

19 **A** Yes, ma'am. When I heard the first shot,
20 I was still by the tree.

21 : Okay. Then when you're at
22 the bank of the mailboxes, okay, are you still,
23 okay, where are they then?

24 **A** They're still in the same place about
25 right here. They're still in the same area.

1 (indicating)

2 : Okay. And so from there
3 to where they are, about how many car lengths would
4 that be you think?

5 **A** From where I was to the police car? From
6 where I was here to the police car?

7 : Yeah.

8 **A** I was closer, I was probably about two or
9 three car lengths.

10 Two to three car lengths.
11 And then at that point you're there about two or
12 three car lengths, at that point that's when you see
13 Michael Brown, you see the other bank of shots or
14 the other shots go off?

15 **A** Yes.

16 : Okay. I think that's all
17 I have.

18 Okay. On
19 August the 16th, your interview when you told the
20 authorities that you were walking home from the
21 library, you first said that you saw the police
22 officer back-back, you know, not hard but --

23 **A** Quick.

24 : Quick stop and almost
25 hitting the boys?

1 **A** Yes.

2 : I call them young men.

3 You said that, okay, what I need to understand,
4 cause you are on the same side as them, right?

5 **A** I'm on the opposite side of the street.

6 At the time when you saw
7 the police?

8 **A** Yes, during everything I was on the
9 opposite side of the street from the police car.

10 : Opposite side would be --

11 **A** This side of the street. The car was on
12 this side of the street, parked about right here at
13 first. (indicating)

14 : Okay. Let me rephrase the
15 question, you are so right. You are facing the same
16 side as you are facing to the back of everything
17 that's going on.

18 **A** Yeah, well, I'm facing towards the front
19 of the police car, but I'm facing the back of the
20 police officer, but while he was getting shot, I was
21 still facing toward Michael Brown.

22 : Right. My point is, when
23 you saw the action going on at the car and the
24 vehicle, I call it MB and PO, police officer. Did
25 it look to you when he came back at that quick stop,

1 even though they may have almost gotten hit, you
2 know, and they jump back, how soon would you say
3 that the action between MB and the PO took place?

4 **A** How soon did he walk up to the car window?

5 : Cause when you say walk up
6 to the car, I'm thinking somebody almost got hit,
7 it's like it's right here, I mean, it is like
8 instant, it is right directly in front of me?

9 **A** Yes.

10 : It would be like boom,
11 boom, you know.

12 **A** Uh-huh.

13 Just a jerk more than not
14 jump far back.

15 **A** Right.

16 : But when you say walk up
17 to the police car, did he have to like walk some
18 feet?

19 **A** No, just walk from the back of the car to
20 the driver's window. It wasn't like a walk, it was
21 just like, you know, probably like three steps. He
22 was already there by the car. He just walked from
23 the bumper to the driver's window.

24 : How soon did the
25 conversation that you did not hear take place?

1 **A** How soon after he backed up the car?

2 : Yeah.

3 **A** Um, like less than five seconds. It was
4 like instant after that happened, he just charged
5 right up to the window, he just went right over.

6 : So, and you said that you
7 saw his body waist up in the car?

8 **A** About his arms, shoulders right here like,
9 you know, somebody reaching, he's reaching in there.
10 Like they're in there fighting, he's reaching for
11 something but he's doing something in the car.

12 : His head and chest was
13 inside the vehicle too?

14 **A** His head was in the vehicle at one point
15 reaching in.

16 On August the 16th you
17 never mention that his body was inside the vehicle,
18 but on September 25th you mention that his body was
19 inside. You just said that it was his arm, it
20 looked like they were fighting.

21 So I'm just confused because like that's a
22 big gap, that's almost like a month after you had
23 your first interview. Did you like hear anything on
24 television or hear anyone in the neighborhood
25 talking about, you know, what they actually saw?

1 **A** No, it was just what I remember. It might
2 be off, but it was like a grapple, you know, head
3 bobbing and shoulders moving, arms moving.

4 : Okay. Thank you.

5 : . Continuing on
6 that same thought. You know the car backs up,
7 nearly hits Michael Brown and Dorian. You said
8 Michael Brown makes his way almost immediately, five
9 seconds or so, to the driver's side of the car.

10 Can you tell from your perspectives were
11 there words exchanged first, or was there kind of
12 immediate action with the arms?

13 **A** I couldn't tell.

14 : Okay. Thank you.

15 : When you
16 moved from the tree to the mailbox, were you walking
17 or running at that time?

18 **A** It was a mix, kind of like a jog almost I
19 say.

20 : That's a pretty good
21 distance, that's 50, 60 feet maybe?

22 **A** From the tree to the mailbox?

23 From the tree to the
24 mailbox?

25 **A** It's not really far when you are there.

1 It is not even this little amount of trees, I think
2 there is another one right here and there's another
3 one right here as well, that's not on this map.

4 : Is that the picture, you
5 are watching the ground as much as maybe you are
6 looking back at the scene too, so you're not seeing
7 everything?

8 **A** Yes.

9 : You are concentrating on
10 moving.

11 **A** Yes, that's what I stated earlier as well.

12 : Did you make it to the
13 mailbox before you heard the shots or was it as you
14 were moving that you were hearing shots?

15 **A** It was while I was there. At this point I
16 was kind of on the edge right here when the rest of
17 the shots rang out.

18 : You had already stopped.

19 **A** Yes.

20 : And turned around and were
21 facing him?

22 **A** Yes.

23 When you saw
24 Michael Brown turn around, you indicated earlier
25 that you couldn't identify any facial expressions.

1 Could you tell, and you said clearly that you
2 couldn't hear anything. Could you tell whether he
3 was saying anything or not?

4 **A** No.

5 : Or trying to say words?

6 **A** I wouldn't be able to see his mouth moving
7 or anything. I wasn't really listening for him
8 saying anything.

9 You didn't see his mouth
10 moving?

11 **A** I can't see his facial expressions.

12 : So you didn't hear
13 anything or you couldn't see anything?

14 **A** No.

15 Okay. Thank you.

16 : I just want to
17 go back to what were talking
18 about.

19 When I look at the transcript from
20 September 25th, and I compare it to the transcript
21 from August 16th, to me it looks like you are saying
22 something very similar.

23 From the 16th on page 15, it says he
24 approached the window of the vehicle, Mr. Brown, he
25 approached the window of the vehicle. Could you

1 tell if he reached in or the officer reached out. I
2 don't know.

3 And then you said, yet like his head and
4 shoulders were. And the FBI agent says, his head
5 and shoulders were in the window. And you said,
6 yeah.

7 Were his arms in the window as well. You
8 said yeah, his arms basically, you know, steady
9 reaching in. His whole top half in the window and
10 popping back out?

11 **A** (Nods head.)

12 : And then the one from the
13 25th, basically to me it looks like you are saying
14 the same thing. I want to make sure that I'm
15 reading this correctly.

16 **A** Okay.

17 : When he saw him go into
18 the window, it seemed like he just ran. And then
19 one of the lady officers, she says, was he in the
20 window or parts of his body inside the window. And
21 you said yeah, like his head and shoulders were.
22 And you said yes, that's what it looked like.

23 And then later you said you saw Michael
24 Brown, you said his whole top half in the window and
25 you said yes, just about.

1 I want to make sure I'm understanding.

2 **A** Yes.

3 : His head, shoulders and
4 arms were in the window?

5 **A** Yes.

6 : And that's what you said
7 in both statements.

8 **A** Yes.

9 : You said here, did you
10 see the police officer's face after Michael Brown
11 left the scene and the officer was getting out?

12 **A** After Mike Brown left the scene?

13 : After Mike Brown was
14 running away and the officer got out of the car, did
15 you see the officer's face?

16 **A** No, no.

17 : You didn't see if it was
18 bruised or anything?

19 **A** No, I couldn't tell. I didn't even see
20 him really get out of the car. When I looked up he
21 was already out.

22 : Do you know if Michael
23 Brown reached for his chest or under his waistband?

24 **A** I don't remember.

25 MS. ALIZADEH: His own or the officer's?

1 : Michael Brown.

2 **A** I don't remember.

3 : In one of the statements
4 the first two shots you didn't see?

5 **A** A couple of them I wasn't looking, but I
6 heard them ring back, to back, to back. After it
7 had to be like, I don't remember exactly, but they
8 were back to back. After about the third one, I did
9 look and see.

10 : And you said to officer
11 or district attorney, whatever her name is,
12 , in one of your statements that you had looked
13 away. And she said, if I told you we had evidence
14 that he moved forward toward the police officer,
15 what would you say about that. You said that might
16 have been one of the times I was looking away.

17 **A** Yeah.

18 : So I understand, you're
19 doing very well by the way, there's a lot going on,
20 you are scared?

21 **A** There was a lot going on.

22 : I understand, Hon. I
23 just want to make sure just because you are saying
24 you didn't see it, doesn't necessarily mean it
25 didn't happen.

1 **A** Right, right, that's the point I tried to
2 make.

3 : Okay. You said today
4 that you felt like this was murder. Can I ask you
5 how you felt, I want you to put yourself in the
6 officer's position. I want you to tell us what you
7 think he should have done?

8 **A** Okay. I mean, even if I heard that people
9 said that he reached in the truck, even if he did
10 attack you, he was unarmed. I feel like at the
11 point he tried to surrender, he could have put
12 handcuffs on him. They could have maced him, that's
13 why they have those nightsticks, that's why you have
14 all these other options.

15 This is a boy who has no weapons at
16 all, you exhaust your other options. Injure him,
17 but why kill him.

18 : Thank you so much.

19 MS. ALIZADEH: I have a question.
20 I can't remember from your previous statements, but
21 you've never heard the officer yelling any commands
22 or anything, did you?

23 **A** No.

24 MS. ALIZADEH: Your hearing is okay?

25 **A** It's okay.

1 MS. ALIZADEH: This thought just now
2 occurred to me because you are a young person. And
3 I've never asked anybody else, but did you have
4 headphones or ear buds that day as you were walking
5 back from the library?

6 A No.

7 MS. ALIZADEH: Kids walk around with
8 headphones on, so you didn't have anything in your
9 ears?

10 A No, I just wasn't really, I mean, it was a
11 lot of noise, a lot of commotion. It's usually a
12 lot of noise over there. So if they weren't where
13 they were, I probably wouldn't have heard it.

14 MS. ALIZADEH: You didn't hear any
15 screaming from anybody?

16 A No, I wasn't paying attention to it.

17 MS. ALIZADEH: Okay.

18 A Like I said, it's a possibility they could
19 have been, but I didn't catch anything or anything I
20 would remember word for word.

21 MS. ALIZADEH: All right, thank you.

22

23 I have one more question. You said that you saw
24 something hit the ground, you thought it was a
25 weapon?

1 **A** Yes.

2 : And I understand now we
3 know that Michael Brown was not armed?

4 **A** Yes.

5 But at the time we didn't
6 know that, correct?

7 **A** Right. At first I thought it was his gun,
8 like I thought that's what hit the ground.

9 : So it is reasonable to
10 think the police officer might think he has a gun.
11 I'm not saying that he deserved what happened to
12 him, we just didn't know that?

13 **A** Yes.

14 : Thank you.

15 . You just
16 stated to the prosecutor that you never heard the
17 officer yell out any commands. When Mr. Brown was,
18 you know, shots were going towards Mr. Brown, the
19 last what six shots or whatever, did you at any time
20 hear him cry out anything or cry out even in pain?

21 **A** No.

22 : No.

23 MS. ALIZADEH: Anyone else? Sheila?

24 MS. WHIRLEY: No. That will conclude the
25 testimony of this witness.

1 (End of the testimony of)

2 MS. WHIRLEY: We're still working

3 together. It is October 28th, 2014, approximately

4 11:21 a.m. We've concluded the testimony of

5 . Now we're going to start with the recording

6 of . You have transcripts of that.

7 The Grand Jury Exhibit Number 55, which is the

8 recording for her. We will play that. We are

9 anticipating she will be here as a witness probably

10 after lunch. It is somewhere around 30 minutes

11 long. With that said, XXXXXXXX, stop the recording.

12 : Who are the other people

13 listed on here?

14 MS. WHIRLEY: We didn't do these

15 transcripts. I'm not sure how, why all of these

16 folks spoke. This is what I did notice and you will

17 notice it when you hear the transcript, hear the

18 recording, there are several people at the house.

19 I'm glad you asked that question. Actually, there

20 are several people at the house, and then they kind

21 of isolate and the bulk of the

22 testimony is from her, but a few other people are

23 speaking.

24 : They may be family

25 members or bystanders?

1 MS. WHIRLEY: People that are in the house
2 when the FBI arrived there to find out what
3 happened. And then, I guess, they narrow her down
4 as really the witness. Okay. Good question.

5 (Playing of the interview of
6 .)

7 MS. WHIRLEY: That concludes the recorded
8 testimony of We do anticipate that
9 she will be here this afternoon, however, we are
10 going to break for lunch now. We'll see if your
11 lunch is here, first of all. And it is 11:55 a.m.,
12 October 28th, 2014.

13 (Lunch recess taken)

14 MS. WHIRLEY: I'm Sheila Whirley. We are
15 resuming our afternoon session in the shooting of
16 Michael Brown. It is October the 28th, 2014, at
17 approximately 12:56. Kathi Alizadeh is present, all
18 12 grand jurors are present and so is XXXXXXXX, the
19 court reporter. We are going to start with our
20 first witness, .

21 As you recall, you listened to one of her
22 statements this morning before lunch. She's here
23 live for testimony and she did also meet with the
24 federal investigative parties this morning. So she
25 has another statement that we don't have for you

1 yet. So we will see what she has to say today.

2 ,

3 of lawful age, having been first duly sworn to

4 testify the truth, the whole truth, and

5 nothing but the truth in the case aforesaid,

6 deposes and says in reply to oral

7 interrogatories, propounded as follows, to-wit:

8 EXAMINATION

9 BY MS. WHIRLEY:

10 Q Hi, as I introduced myself a little
11 earlier, I'm Sheila Whirley.

12 A How you doing, Miss Whirley.

13 Q I'm good dear, thank you. You met Kathi
14 Alizadeh, the 12 grand jurors are here, XXXXXXXX, the
15 court reporter, is here and I want you to introduce
16 yourself to the grand jurors and spell your name,
17 please?

18 A Yes. My name is .
19 .

20 Q Okay. And you know why we're here today?

21 A Yes, ma'am.

22 Q I know you talked to several people. How
23 many interviews have you given?

24 A Well, two.

25 Q Two, okay. And do you recall when your

1 first interview was?

2 **A** Uh --

3 **Q** If I say August the 16th, like a week
4 after, a little bit earlier than, I guess, a week
5 after, does that sound right?

6 **A** I want to say it was probably before that.
7 It could have been before then, it could have been
8 that day.

9 **Q** It could be August 16th, kind of around
10 like 11 in the morning?

11 **A** Yeah.

12 **Q** And then you had another interview today;
13 is that correct?

14 **A** That's right.

15 **Q** That you finished?

16 **A** This morning.

17 **Q** This morning. Okay. We just need you to
18 tell us what happened, so that's basically what
19 we're here for. I'm going to ask you to start at
20 the beginning. This would have occurred August the
21 9th of 2014, on a Saturday, is that how you recall
22 it?

23 **A** Yes, ma'am.

24 **Q** Do you live in Canfield Green?

25 **A** No, ma'am.

1 **Q** Did you live in Canfield Green that day?

2 **A** No, ma'am, I was riding through.

3 **Q** You were riding through. So what did your
4 morning start like, tell us about it?

5 **A** Well, actually, I was up early morning, I
6 was going to make a store run, but I also stay in
7 the area on .

8 **Q** Where is that in relation to Canfield
9 Green Apartment?

10 **A** Actually, it is not that far, it is like,
11 it is like down the street and around the corner.

12 **Q** It is like off West Florissant or behind
13 Canfield Green?

14 **A** I will say before you get to Canfield.

15 **Q** Okay.

16 **A** It's a house on the other side of Solway
17 and West Florissant. It is a side street you can
18 take to get to the Canfield.

19 **Q** Is it Jennings or is it in Ferguson or is
20 it unincorporated?

21 **A** Well, my house was the last house of
22 Jennings, so I would say it is --

23 **Q** So Jennings?

24 **A** Jennings.

25 **Q** Okay. So what time of day is it that

1 you're driving through Canfield Green Apartments?

2 **A** That I couldn't say. I honestly forgot
3 what time it was, but I was riding through coming
4 from the store and I seen a friend, I was going to
5 visit a friend, but he wasn't at home. So I seen a
6 couple of people that I knew outside and stopped to
7 ask one of the guys for a cigarette.

8 **Q** Are those all people that live in Canfield
9 Green, your friend and the other people that you
10 saw?

11 **A** Yeah, but my friend wasn't there.

12 **Q** All right.

13 **A** I didn't see him at all.

14 **Q** If I tell you it was around noon or so,
15 does that sound right?

16 **A** Yeah.

17 **Q** Where did you come from? I mean, this is
18 West Florissant over here just to orient you to the
19 map.

20 **A** Okay.

21 **Q** So where did you come from?

22 **A** I was, I came the back way through the
23 Northwinds Apartment.

24 **Q** So you're traveling, is it east on
25 Canfield toward West Florissant?

1 **A** Toward West Florissant.

2 **Q** That's a laser pen, it has a red light.

3 If you push the button, so why don't you pick that
4 up and there's a little button right there and,
5 yeah, okay. So show us how you were traveling?

6 **A** Okay. I was coming down Canfield.

7 **Q** Uh-huh.

8 **A** And I had stopped, this is a driveway
9 before you get to Coppercreek.

10 **Q** Okay.

11 **A** I pulled in there and I got out of the
12 car, I was talking to a friend.

13 **Q** And is this before everything happened?

14 **A** Before everything had happened.

15 **Q** Were you riding alone?

16 **A** Yes, I was.

17 **Q** What kind of car were you in?

18 **A** I had a .

19 **Q** What color?

20 **A** Burgundy.

21 **Q** Burgundy?

22 **A** I saw a friend, I got out and asked him
23 for a cigarette. He was just sitting there, we was
24 just talking in general. And as we was in the midst
25 of talking, Mike Brown and his friend was walking

1 across the lot.

2 Q Which way were they walking?

3 A They was walking towards --

4 Q Show us on the map if it is on the map.

5 A They was walking down Canfield on the lot
6 by the trash cans, they crossed and then they walked
7 down the street. I don't know where they was going,
8 I can't say.

9 Q Okay.

10 A So they walk towards West Florissant.

11 Q Okay.

12 A I can say that, don't know where they was
13 going.

14 Q Okay.

15 A So we just out there generally talking.

16 Q So when you saw them walking towards West
17 Florissant, nothing was going on then?

18 A Was nothing going on.

19 Q Did you know Mike Brown before this day?

20 A No, I didn't.

21 Q Did you know his friend?

22 A No, I didn't.

23 Q Describe Mike Brown so we know we are
24 talking about the same person?

25 A He was a big, tall, heavy set guy. He had

1 on like some khaki type shorts with like a gray like
2 T-shirt and flip flops, he had a hat on.

3 Q Okay. Do you remember the color?

4 A I'm not for sure.

5 Q Okay. And what did his friend look like?

6 A He was dark skin with dreads, he had on, I
7 think he probably had on like a white T-shirt.

8 Q Are you guessing or is that what you
9 recall?

10 A Well, I'm guessing. I really wasn't
11 paying no attention.

12 Q Okay.

13 A What really they had on.

14 Q You don't have to guess.

15 A All right.

16 Q If I ask you to give me an approximate
17 amount feet or something like that is a distance,
18 maybe as long as you let us know you are kind of
19 guessing.

20 A I was at the dumpster that's on
21 Coppercreek that I'm standing by. When they walk
22 past, they was like a little distance away from me.

23 Q Show me again where you were when they
24 walked past?

25 A This, I don't know where directly

1 Coppercreek is.

2 **Q** This is Coppercreek is going all the way
3 around.

4 **A** The dumpster is like right here on the
5 first parking lot.

6 **Q** Okay.

7 **A** My car was parked right behind it, but I
8 was standing not that far from the dumpster.

9 **Q** So you are having a smoke, you're talking,
10 you're chilling, this is a Saturday, you're enjoying
11 life, right?

12 **A** Yes, ma'am.

13 **Q** I saw your testimony or read it on the
14 transcript where you were happy to be out there?

15 **A** Yeah, it was a beautiful day.

16 **Q** Is that what you meant by that?

17 **A** Yeah.

18 **Q** Then what?

19 **A** So we was out there talking, notice
20 Ferguson was coming from the back, from the
21 Northwinds Apartment.

22 **Q** When you say Ferguson, you mean a police
23 officer?

24 **A** Ferguson police officer was coming.

25 **Q** He was in a marked police car?

1 **A** Yes, he was in a SUV.

2 **Q** And why did you notice him?

3 **A** I mean, because we was all standing on the
4 parking lot and they was coming.

5 **Q** When you say they, more than one?

6 **A** There was two in the car.

7 **Q** But just one car?

8 **A** Yes, SUV.

9 **Q** And tell me again why you notice the car?

10 **A** Because they was riding through. And, I
11 guess, that's their way of making their rounds or
12 whatever. So I really didn't pay no attention, but
13 in the midst of that I guess Mike Brown and his
14 friend, not guessing, they was on their way back up.

15 **Q** Which way were they walking down?

16 **A** They was coming back towards, like they
17 was coming towards the Northwinds Apartment.

18 **Q** Show me?

19 **A** They was coming back that way.

20 (indicating)

21 **Q** All right. And the police car, did it
22 have its light on or anything like that?

23 **A** No, it did not.

24 **Q** Was it like driving fast --

25 **A** No, they was like --

1 **Q** -- or like patrolling?

2 **A** Like patrolling.

3 **Q** All right. So Mike Brown and his friend
4 are walking east on Canfield Drive and what happens
5 then?

6 **A** They was walking in the middle of the
7 street.

8 **Q** Okay.

9 **A** I didn't hear what the police had said to
10 'em or what the remark was, but they was in the
11 middle of the street. I want to say the guy, his
12 friend was, we didn't stay that far, I heard him
13 say, we didn't stay far.

14 **Q** You heard the friend say that?

15 **A** I heard the friend say, we didn't stay
16 that far.

17 **Q** We didn't stay that far?

18 **A** Right.

19 **Q** Don't know what was going on with that?

20 **A** Don't know what was going on or what was
21 said.

22 **Q** Did you hear Mike Brown say anything?

23 **A** No, I didn't.

24 **Q** Did you hear the police officer say
25 anything?

1 **A** I didn't hear anything.

2 **Q** Now, I need you to show me again where you
3 were when you heard his friend say, we didn't go
4 that far or what he said?

5 **A** I was standing like right in the parking
6 lot, I was still standing like, not that close from
7 the dumpster.

8 **Q** Okay.

9 **A** And they was sort of walking like in the
10 middle of the street.

11 **Q** So where were they when you heard it?

12 **A** Right up in there. (indicating)

13 **Q** Where was the police car, right next to
14 them or something?

15 **A** It is like right next to 'em, they like in
16 the middle of the street, right in the middle of the
17 street.

18 **Q** Okay.

19 **A** He pulled up like, they divide each other.
20 They in the middle walking up the street, the police
21 coming down, of course, they like split up so the
22 car can go through.

23 **Q** Okay. So you saw them split up, they were
24 on either side of the police car?

25 **A** Yes.

1 **Q** What side of the police car was Mike Brown
2 on?

3 **A** On the driver's side.

4 **Q** What side was Dorian?

5 **A** The passenger side.

6 **Q** So they were on opposite sides of the car?

7 **A** Yes.

8 **Q** Was Dorian talking to anybody on the
9 passenger side?

10 **A** Huh-uh.

11 **Q** Okay. And then what did you see?

12 **A** I seen the police pull off and then next
13 thing you know, he pulled back.

14 **Q** In what manner did he pull back, was it
15 quick, was it just normal, was there anything
16 noticeable about how he pulled back?

17 **A** Wasn't noticeable.

18 **Q** So he pulls back?

19 **A** Pulls back.

20 **Q** Does he pull back straight in a line or
21 some other way?

22 **A** I want to say straight back in a line.

23 **Q** So like if I'm going to back, he just went
24 straight back, he didn't move one way or the other?

25 **A** No.

1 **Q** Okay, go ahead.

2 **A** So as he pulled back, I guess that's when
3 he went to go and try to grab him.

4 **Q** Did you say you guess?

5 **A** Well, no, he grabbed, he went to go and
6 grab him, that's when they start tussling.

7 **Q** So the police officer pulls back and grabs
8 Mike Brown?

9 **A** Yes, and they was tussling.

10 **Q** Could you see the officer's arm?

11 **A** He grabbed him from the outside, just
12 grabbed him.

13 **Q** I want to kind of focus on what you saw.
14 Did you see the officer's arm?

15 **A** No, I did not.

16 **Q** You didn't see the officer's arm, but he
17 was grabbing him?

18 **A** Like I say, I just seen a little
19 altercation. I didn't know if he was, oh Lord,
20 excuse me, I got nervous.

21 **Q** Don't get nervous, we're just trying to
22 find out what you saw.

23 **A** They was tussling I, can say they was
24 tussling. I didn't see his arm or anything.

25 **Q** You didn't see the officer's arm?

1 **A** No.

2 **Q** Could you see Mike Brown's?

3 **A** I did see him shy back, like he went to go
4 and jump back.

5 **Q** Okay.

6 **A** And that's when we first was like what's
7 going on. Then, that's when we heard the first
8 shot.

9 **Q** Okay. Now, before we get to the shot, I
10 want to make sure I understand. Can you see, where
11 you are looking at Mike Brown and the officer,
12 because all of this is real important, and I know
13 you probably know this because that's why you had
14 these interviews.

15 When you see Mike Brown and the
16 officer and you believe they're tussling, are you
17 looking, is your vision at the passenger side of the
18 car or the driver's side of the car?

19 **A** The passenger side.

20 **Q** Okay. So you're standing here and the car
21 is going west, so you're at the passenger side and
22 the driver's side --

23 **A** On the left side, so I really couldn't
24 see. So, therefore, when they was on the passenger
25 side, he grabbed back, that's when the first gunshot

1 went off.

2 **Q** Right. I know you want to get to that
3 gunshot, but I really want to make sure that we're
4 clear on your vantage point, you know, like where
5 you could see it, like where you were.

6 **A** I was standing right by the dumpster.

7 **Q** You can see Dorian still?

8

9 Just to help us a little bit, we don't know where
10 the dumpster is. Can you mark that on there for us,
11 please?

12 **A** Let's see. It may not even be on the
13 photo I don't think. I don't want to do it wrong.
14 There's another parking lot. I want to say it was
15 like right up here, dumpster right here, dumpster
16 right here. (indicating)

17 : You were right next to the
18 dumpster you said?

19 **A** I was like right up in there by the
20 dumpster. (indicating)

21 MS. WHIRLEY: Where are they when you saw
22 them, like you said, tussling?

23 **A** This is Coppercreek, this is Canfield,
24 here is the tree, they was like right up in here.
25 (indicating)

1 MS. WHIRLEY: Okay.

2 A Like right up in there. (indicating)

3 : Thank you.

4 MS. ALIZADEH: Can I ask while you were
5 standing up there. I couldn't see around you, use
6 the pen and where is the dumpster? No, just sit
7 down if you can.

8 A It is, I need glasses, it is right there.
9 (indicating)

10 MS. ALIZADEH: Good, all right, I just
11 couldn't see.

12 Q (By Ms. Whirley) Now, we've got to ask you
13 about your vision.

14 A I do need glasses, excuse me.

15 Q What do you need glass for?

16 A For?

17 Q To see far way?

18 A Yes, ma'am.

19 Q Do you need glasses like me to read up
20 close also?

21 A Yes.

22 Q Do you wear glasses?

23 A I don't have them, but I do.

24 Q Do you have contacts instead?

25 A No.

1 **Q** So you need help with your vision, but you
2 don't have any?

3 **A** No.

4 **Q** Okay. So that particular day were you
5 wearing anything to help your vision?

6 **A** Huh-uh.

7 **Q** But you did need some help?

8 **A** I mean, it was light so.

9 **Q** You were okay?

10 **A** I was okay.

11 **Q** So you're pretty firm and secure about
12 what you saw you are telling us about?

13 **A** Yes.

14 **Q** Even though your vision is not perfect?

15 **A** Yes.

16 **Q** How about your hearing?

17 **A** Fine.

18 **Q** No problem with the hearing?

19 **A** No problem.

20 **Q** Don't need an aid or anything?

21 **A** No.

22 **Q** Okay. You know, I'm going to ask you, do
23 you think you were as close to the scene where the
24 officer and Mike Brown were tussling as this room
25 depicts or was it much further than this room?

1 Like from where you are, I start
2 walking, is it beyond this wall, how close you were
3 to them?

4 **A** Yeah.

5 **Q** Okay.

6 **A** There was the street and the dumpster was
7 kind of a little ways.

8 **Q** So it was a pretty good little distance?

9 **A** Yeah.

10 **Q** But you see?

11 **A** But I could see.

12 **Q** And you're sure of what you saw?

13 **A** Yeah.

14 **Q** Now, you did tell us today that you
15 weren't sure what they were doing in the car, but
16 they were tussling?

17 **A** They was tussling.

18 **Q** At one point you thought that the officer
19 grabbed Mike Brown?

20 **A** When he pulled back.

21 **Q** When he pulled back, did he grab Mike
22 Brown. Are you sure or unsure about that today?

23 **A** I'm sure he pulled back.

24 **Q** When the officer pulled back, you mean
25 backed the car up?

1 **A** When he backed the car up.

2 **Q** He grabbed Mike Brown?

3 **A** Yes.

4 **Q** That was the first physical thing that
5 happened? Is that a yes?

6 **A** Yes, ma'am.

7 **Q** So how did he grab him, where did he grab
8 him at?

9 **A** Like by the shirt, like the neck collar
10 part.

11 **Q** So was the car window down?

12 **A** Yes, it was.

13 **Q** So did you see his arm?

14 **A** When it went out the window.

15 **Q** Uh-huh.

16 **A** Yes, ma'am.

17 **Q** Okay. You weren't clear on that earlier.

18 **A** Yes.

19 **Q** So you say you did see his arm?

20 **A** When he went out the window.

21 **Q** You could see, what color was he?

22 **A** He was white.

23 **Q** He was white. He didn't have --

24 **A** Uniform.

25 **Q** I mean, did he have on a uniform?

1 **A** Yes.

2 **Q** Long or short sleeve?

3 **A** Short sleeve.

4 **Q** Okay. And he grabbed him and what
5 happened when he grabbed him?

6 **A** That's when the tussling started, and
7 that's when the first pow went off.

8 **Q** Did you see them tussling once the officer
9 grabbed him, there was a tussle?

10 **A** There was a tussle.

11 **Q** How long would you say that tussle went
12 on?

13 **A** It wasn't long. It wasn't long at all.

14 **Q** Seconds, minutes?

15 **A** It was probably, maybe like two minutes.

16 **Q** Okay. We know that's a guess, correct?

17 **A** Yes.

18 **Q** All right.

19 **A** I'm not going to be --

20 **Q** Did you see Mike Brown hit the officer?

21 **A** No.

22 **Q** Okay. Did you see him with his fist, did
23 you see his hands?

24 **A** It was as if he was trying to get away.

25 **Q** Show us what you mean?

1 **A** He was like, when the police grabbed him,
2 it was like as if he was trying to, like break away
3 from the police.

4 **Q** Okay. So you didn't see his hands inside
5 the police car?

6 **A** No, ma'am.

7 **Q** You didn't see him, his body inside the
8 police car?

9 **A** No, ma'am.

10 **Q** Okay. So then what did you see?

11 **A** When the police grabbed him by the neck,
12 he shied away from him, that's when the first shot
13 went off. His friend Dorian ran and hid beside a
14 black Monte Carlo that was also parked on Canfield
15 in front of an apartment building. Not that far,
16 like right up in here. (indicating)

17 **Q** Okay.

18 **A** He hid right here. That's when Mike
19 Brown, on the first shot, he turned around and ran.
20 I was trying to run and there was another lady who
21 was also coming out of her apartment was in the
22 midst of running.

23 **Q** Did it appear that Dorian was hit by that
24 first shot? Not Dorian, Mike Brown, was hit by the
25 first shot?

1 **A** Yes, ma'am.

2 **Q** Why do you say that?

3 **A** Because when he turned around, I seen a
4 red spot on his shirt.

5 **Q** Now, you are pointing to your upper right?

6 **A** He got shot up in this area. (indicating)

7 **Q** Are you saying the right or the left?

8 **A** When you turn around, I want to say might
9 have been on the left.

10 **Q** I don't want you to guess.

11 **A** The left I will say.

12 **Q** Are you sure about that?

13 **A** Yeah, I'm sure.

14 **Q** Okay. And you saw a red --

15 **A** Red spot on his shirt.

16 **Q** Okay.

17 **A** And that's when he stopped and when he
18 stopped.

19 **Q** When you say he stopped, did he stop right
20 at the car?

21 **A** No, he stop, actually, like it's like a
22 light pole and a tree. He stopped right there at
23 that tree and the light pole.

24 **Q** We have to kind of take it step by step, I
25 know you are getting tired of all of this, but

1 that's how we have to do. I tell us how far he got
2 away from that car when he stopped, did you see him
3 leave the car.

4 **A** When I seen him break away from the car,
5 he was running. That gave me the assumption that I
6 was going to run.

7 **Q** Okay. What did he do when the shot was
8 fired, did he just break and run?

9 **A** He broke and run, but he stopped, he
10 stopped in stride.

11 **Q** I want to know about him running though,
12 where did he go behind the car?

13 **A** No, he didn't go behind no car.

14 **Q** What did he do?

15 **A** His friend ran behind the car.

16 **Q** Where did Mike Brown run to?

17 **A** He ran towards the light, he was running
18 like towards the light pole, like towards my
19 direction.

20 **Q** Okay. The dumpster you show us was here?

21 **A** Yeah, and he was running like towards that
22 way.

23 **Q** So in the grass?

24 **A** And he stopped his stride and stopped
25 right there like by the tree in between the light

1 pole.

2 Q Okay.

3 A He stopped, hands was up.

4 Q Can you show us how he, well, first of
5 all, you didn't say he turned around, did he turn
6 around or was he running backwards?

7 A No, he was running like towards my
8 direction.

9 Q Okay.

10 A Looking toward like my way.

11 Q Okay.

12 A He stopped.

13 Q Uh-huh.

14 A And that's when he turned around.

15 Q Show us that. Show us like, you know, go
16 that way and then show us how you turn around?

17 A He, I'm standing over there, he's running
18 and then he turns around and he was like that way.

19 (indicating)

20 Q Did you hear him say anything?

21 A He might of.

22 Q You don't have to guess, did you hear him
23 say anything?

24 A That's where I thought I heard him say he
25 gave up.

1 **Q** You heard him say what?

2 **A** I give up.

3 **Q** You're not sure?

4 **A** I heard him say don't give up.

5 **Q** Don't give up?

6 **A** I give up, I mean.

7 **Q** I give up.

8 **A** I give up.

9 **Q** Where did he say that?

10 **A** That's when he started walking back
11 towards the officer.

12 **Q** So how was he walking towards the officer?

13 **A** He went like this with his hands up, and
14 when he reached that way that's when the police
15 started four shots. (indicating)

16 **Q** How did he reach. You say he reached that
17 way?

18 **A** I mean, he had his hands up like this, he
19 never went down or reached out, he still had his
20 hands up. And that's when the police started
21 letting off more shots.

22 **Q** You never saw him like go to his waist?

23 **A** His hands never went down.

24 **Q** When the officer was shooting?

25 **A** When the officer start shooting, his hands

1 never went down.

2 **Q** How many shots did the officer fire?

3 **A** Uh, it was over six, it was six to nine
4 rounds.

5 **Q** All about --

6 **A** The first shot pow, pause.

7 **Q** And that was at the car?

8 **A** That was at the car.

9 **Q** Okay.

10 **A** When he turned around to go back, as if he
11 was surrendering, that's when the rest of the shots
12 started going off.

13 **Q** Okay. So when Mike Brown was surrendering
14 and he was walking towards the officer, what was the
15 officer doing before he started shooting or did he
16 just start shooting?

17 **A** He just started shooting.

18 **Q** The officer didn't back up or walk toward
19 Mike Brown?

20 **A** He just started shooting.

21 **Q** Did he say anything to him, like get down?

22 **A** No, he just started shooting.

23 **Q** He didn't tell him to stop or anything?

24 **A** If he did, I didn't hear that part, I just
25 know the gunshots start ringing off.

1 **Q** Were you close enough to hear it?

2 **A** The gunshots?

3 **Q** Were you close enough to hear if the
4 officer said something?

5 **A** No.

6 **Q** You were not close enough?

7 **A** No.

8 **Q** But you were close enough to hear Mike
9 Brown?

10 **A** He screamed like, I give up.

11 **Q** He was screaming?

12 **A** He screamed, I give up.

13 **Q** So if the officer was screaming a command
14 or something, do you expect to have heard it?

15 **A** I would have heard it.

16 **Q** Okay. Now, this other officer, when did
17 you see him, you said it was two officers in the
18 car?

19 **A** Yes, I mean, when he got out of the car, I
20 didn't really get no description of him.

21 **Q** Before you kind of jump too far. Are you
22 saying the officer, the other officer?

23 **A** He was in the passenger seat.

24 **Q** He was in the passenger seat, in the
25 front?

1 **A** The front seat.

2 **Q** Did you see him get out of the car?

3 **A** (Shakes head.)

4 **Q** Okay. So he did not get out of the car?

5 **A** No, ma'am.

6 **Q** Okay. From what you could see, what did
7 you, what did you tell us about the other officer
8 was he a black or white man?

9 **A** He was a white cop too.

10 **Q** Did he look young or old?

11 **A** He could have been middle age or young, I
12 don't know.

13 **Q** Did he look to be in uniform?

14 **A** They both was in uniform.

15 **Q** Okay. But he never got out of the car?

16 **A** No.

17 **Q** Or you didn't see him?

18 **A** I didn't see the passenger door open at
19 all.

20 **Q** Okay. And since your vantage point was
21 from the passenger side, that's where Dorian was?

22 **A** Yes.

23 **Q** You could see this other officer in the
24 car?

25 **A** Yes.

1 **Q** And that officer never got out to assist

2 --

3 **A** I never --

4 **Q** I have to ask the question and then you
5 answer. He can't take us both down at the same
6 time.

7 **A** I'm sorry.

8 **Q** You never, when the officer, when the
9 gunshot went off, you never saw the other officer do
10 anything?

11 **A** No, ma'am.

12 **Q** And when Darren Wilson we know is the
13 shooting officer, when he got out, the other officer
14 never got out to assist him?

15 **A** No, ma'am.

16 **Q** But you're positive there was another
17 officer in the car?

18 **A** Yes, ma'am.

19 **Q** Okay. Did you ever see a weapon fall?

20 **A** (Shakes head.)

21 **Q** Did you ever see Mike Brown with a weapon?

22 **A** No, ma'am.

23 **Q** And when I ask you about a weapon falling,
24 what was your answer?

25 **A** No.

1 **Q** Okay. When you saw Mike Brown stop and
2 turn around, I think your first statement on August
3 the 16th, and we've had your statement so we know,
4 at least the first one, of course, I think you
5 mention that he turned around as if he was defending
6 himself or giving up, which are two different
7 things.

8 **A** Well, there was so much going on, I meant
9 to say he was surrendering himself. I didn't say to
10 defend himself, I meant to say surrendering.

11 **Q** Okay. Surrendering or giving up?

12 **A** Giving up.

13 **Q** Is what you meant?

14 **A** Yes, ma'am.

15 **Q** Did it look like at any time he was trying
16 to defend himself from the officer to you?

17 **A** As far as getting away, he grabbed him,
18 yes, it was like as if he was like, why is you
19 grabbing me, like what did I do, that type.

20 **Q** Okay. Now, when Mike Brown was running
21 away, you were trying to explain to me how he ran.
22 So you said he didn't run very far, so explain that
23 to me?

24 **A** I mean, from the middle of the street to
25 the light pole like where, it is like light pole and

1 there is some trees right there in front of his
2 apartment building right there.

3 **Q** Uh-huh.

4 **A** Like the parking lot, he didn't run that
5 far from Mike from right here to there. It wasn't
6 far at all. (indicating)

7 **Q** Okay. Before he turned around?

8 **A** Before he turned around.

9 **Q** And when he was running away from the
10 officer, when he had his back to the officer, did
11 you hear any shots being fired?

12 **A** No.

13 **Q** How many shots would you say you heard
14 total from the start of the car?

15 **A** One, I'm going to say like it's about six,
16 between six and nine shots.

17 **Q** Okay. And when he was walking towards the
18 officer?

19 **A** He had his hands up.

20 **Q** He had his hands up?

21 **A** Yes, ma'am.

22 **Q** Did you ever see him like run towards the
23 officer?

24 **A** No, ma'am. He stopped and he turns around
25 and he like was walking back towards the officer.

1 **Q** What was your opinion of why he was
2 walking towards the officer?

3 **A** Like as if he was surrendering, and that
4 first shot, I guess, he noticed he was shot. So he
5 was surrendering hisself like, I give up. Like,
6 what did I do?

7 **Q** Did it look like he was falling into the
8 officer's body or something?

9 **A** No, it was like as if he was walking back
10 towards him. He was going back towards him, that's
11 when the police started letting off the shots.

12 **Q** Now, did you take any video or pictures of
13 the shooting?

14 **A** No, I didn't. I didn't get none of that
15 at all.

16 **Q** Did you get anything like after the
17 shooting?

18 **A** I got after the shooting, it's not much,
19 but I got some of it.

20 **Q** What did you do with that video, was it
21 video or pictures?

22 **A** I got videos on my phone.

23 **Q** Do you have it with you?

24 **A** Yes, ma'am.

25 **Q** Just hold tight, we will have to deal with

1 that later. Did you turn that over to the police?

2 **A** To the FBI.

3 **Q** The FBI have it?

4 **A** Yes.

5 **Q** Okay. That's what I need to know.

6 Do you know ?

7 **A** No.

8 **Q** Okay. Do you remember when you talked to
9 the FBI at the house, I guess it was in Canfield
10 Green?

11 **A** Uh-huh.

12 **Q** Whose house were you at when you were
13 talking to them?

14 **A** I was at my friend's house.

15 **Q** What is her name?

16 **A** No, that was a guy.

17 **Q** What's his name?

18 **A** .

19 MS. ALIZADEH: I'm sorry, what's his name?

20 **A** .

21 MS. ALIZADEH: ?

22 **A** Uh-huh.

23 **Q** (By Ms. Whirley) And he lived at Canfield?

24 **A** Yes.

25 **Q** Where was that apartment at that

1 lived at?

2 **A** Uh, this one right here. (indicating)

3 **Q** Is that

4 **A** Yeah.

5 **Q** Now, in the statement , so it could
6 have been ?

7 **A** I was at the house next to it.

8 **Q** who you were visiting?

9 **A** Yes, he was at work at the time. So I
10 stepped over here to a house next door.

11 **Q** At , not that you had to go?

12 MS. ALIZADEH: Sheila.

13 MS. WHIRLEY: How did you happen to go.

14 MS. ALIZADEH: It says we are at apartment
15 and then the person says .

16 MS. WHIRLEY: Okay. Thank you for that
17 correction. So you were right, is where you
18 were?

19 **A** Uh-huh.

20 **Q** (By Ms. Whirley) So what was , is that
21 where lives?

22 **A** Yes, he stay in , I was at .

23 **Q** How did you get to ?

24 **A** I was standing outside and I was talking
25 to the people the night before, I was talking to

1 them.

2 **Q** Okay.

3 **A** And the agent, all of them pulled up. It
4 was a burden on my chest just to know that it
5 happened like that and I felt like I should say
6 something, just give my opinions because I was
7 there.

8 **Q** Okay.

9 **A** So I just went on and I told them I seen a
10 little bit and I went on in and told them what I
11 saw.

12 **Q** Okay. You didn't know the people that
13 were at who lived there?

14 **A** No.

15 **Q** Because there was a few people there, they
16 were all talking?

17 **A** Yeah, they was talking. I don't know them
18 like that so, like I said, that was my friend's
19 house. Basically I can come over there and talk to
20 them in there.

21 **Q** You didn't know

22 **A** No.

23 **Q** Did anybody ever there show you a video of
24 the shooting?

25 **A** No.

1 **Q** Okay. Or say they had a video that you
2 know of?

3 **A** No.

4 **Q** All right. Now, you said you wanted to
5 say something because of the way it happened?

6 **A** Yes.

7 **Q** Well, tell us what you mean by that?

8 **A** I mean, I just fell like, I mean, he
9 didn't do anything wrong. I mean, from him walking
10 from the store or anything, or whatever, to the
11 place out in the street or what the police did, I
12 didn't know. But I just felt like it was wrong, why
13 would you shoot an unarmed child with his hands up.

14 **Q** And the part you did actually see some
15 kind of scuffle at the car or you said the officer
16 snatched him at the car or grabbed him?

17 **A** Grabbed him by his shirt.

18 **Q** You didn't see Michael Brown start any
19 type of physical skirmish or anything?

20 **A** No, ma'am.

21 **Q** You saw it from the very beginnings?

22 **A** From the very beginning, I was talking on
23 the phone. We was all out there just talking like I
24 said the police was riding down the street, they was
25 walking in the middle of the street, pulled up and

1 said something and he pulled back and that's when he
2 went to grab him by his shoulder.

3 Q Now, let's go back to when Michael Brown
4 turned around, had his hands up as you tell us, and
5 he was shot at least five or six times as he was
6 walking towards the officer. And did you see him
7 hit the ground?

8 A When he hit the ground, he fell hands up
9 and that's how he was laying.

10 Q Did he fall, how did he fall?

11 A He fell, like fell down like on his knees
12 and he just fell.

13 Q Did he go down on his knees for a minute
14 first, or how did he do?

15 A He dropped down and he fell.

16 Q Where did he land?

17 A In the middle of Canfield, like right up
18 in there. (indicating)

19 Q And was he, face on the beyond?

20 A Face on the ground.

21 Q All right. And what did the officer do
22 once he fell?

23 A I seen an officer walk over, check his
24 pulse, stand up, and he walked away.

25 Q What officer was that that checked his

1 pulse?

2 **A** I don't have the slightest idea, I don't
3 know.

4 **Q** Was it the officer that did the shooting?

5 **A** I don't know.

6 **Q** You're not sure?

7 **A** Not sure.

8 **Q** Initially you thought it was?

9 **A** I thought it was.

10 **Q** Why did you decide it may not have been?

11 **A** Because the picture of the police, didn't
12 look like the picture of the man who checked his
13 pulse.

14 **Q** What picture now?

15 **A** On the news, that didn't look like Darren
16 Wilson who took the pulse.

17 **Q** You said you didn't see the other guy who
18 was riding with him?

19 **A** No.

20 **Q** Now, on one part of your statement, let's
21 see, it is on page 17, have you ever looked at your
22 statement?

23 **A** Huh-uh.

24 **Q** We can let you if you need to, but I just
25 had a question about, um, you said that before, on

1 page 17 at the top, before the first shot, you talk
2 about slamming his hand and like I said once, I
3 guess once he flung his hand, that's when the first
4 shot rung off and it hit him. What did you mean by
5 slam his hand?

6 **A** I guess when he grabbed him by his shirt,
7 you know, reaction from a person grabbing your
8 shirt, you are going to initially grab his hand to
9 try to snatch it away or smack his hand away.

10 **Q** You talking about Mike Brown slamming the
11 officer's hand away?

12 **A** Yeah.

13 **Q** Did you see Mike Brown strike the officer?

14 **A** No, ma'am.

15 **Q** And once Mike Brown is down on the ground,
16 did the officer shoot any more?

17 **A** Somehow, all I know, I didn't know if he
18 got in the head. We notice there was a blood trail
19 coming from his head as he was laying on the street.

20 **Q** Okay. But my question is, you saw him hit
21 the ground?

22 **A** Yes, ma'am.

23 **Q** Did the officer shoot any more?

24 **A** No, ma'am, I don't think he shot any more
25 after he hit the ground.

1 **Q** You didn't hear any more shots after he
2 hit the ground?

3 **A** No, ma'am.

4 **Q** What did the officer do when he hit the
5 ground, do you recall?

6 **A** Nothing.

7 **Q** Okay. Was there any point that you
8 thought maybe when you first talked to the FBI
9 agents that the officer shot him while he was on the
10 ground?

11 **A** It could have happened that way like once
12 he fell.

13 **Q** Did you ever think that?

14 **A** Yes, I did.

15 **Q** Tell us why, tell us a little bit more
16 like that?

17 **A** There was too many shots. After a certain
18 many shots he fell. And I guess he was going to
19 make sure, I didn't know if he was absolutely there,
20 I don't know. It is how it happened.

21 **Q** But it seemed to you he was still shooting
22 at him once he fell?

23 **A** Yes, ma'am.

24 **Q** Does it seem that way today?

25 **A** Yeah.

1 **Q** Okay. But you didn't see it?

2 **A** No, ma'am.

3 **Q** You just assume it?

4 **A** I mean, I saw it.

5 **Q** I know, don't be nervous.

6 **A** It's crazy.

7 **Q** Try not to be.

8 **A** I think he did, I think he did shoot him
9 once while he's down on his knees.

10 **Q** But you're not sure?

11 **A** No, I'm not.

12 **Q** Was he on his knees for a minute?

13 **A** No, like once he fell, as he was shooting,
14 he was falling and.

15 **Q** So he wasn't like on his knees and the
16 officer was shooting him?

17 **A** Like um, um, um, he could have been
18 shooting him as he was going down, yes, ma'am.

19 **Q** But you didn't see him stand over him once
20 he is down?

21 **A** No.

22 **Q** You're sure of that?

23 **A** Yes, I'm positive.

24 **Q** Now, why did you think you needed to come
25 forward, you said you didn't like that, what are

1 your thoughts about that, did you feel that the
2 officer was being threatened by Mike Brown?

3 **A** He could have.

4 **Q** What are your thoughts on that in viewing
5 what you saw?

6 **A** I can't say on behalf of the police if he
7 felt threatened, he could have cause he was a big
8 guy. I thought he was a grown man when I saw him.

9 **Q** Okay.

10 **A** He could have felt threatened because of
11 his height and his weight. He could have felt
12 threaten by him.

13 **Q** I guess I should have asked that a little
14 differently. Did it appear to you that Mike Brown
15 was threatening him?

16 **A** No, it didn't seem like that at all. They
17 wasn't causing no trouble at all period. They was
18 like walking.

19 **Q** And why did you want to come forward and
20 tell what happened?

21 **A** Because it was wrong.

22 **Q** What was wrong?

23 **A** For the police to shoot him like that
24 numerous times. After the first shot, I mean, after
25 the first shot that should been enough if he's

1 surrendering with his arms up and not making no type
2 of movement saying that he had a weapon or anything,
3 I felt that was wrong.

4 **Q** So that from what you could see, there was
5 another officer to assist him in the car?

6 **A** Yes, ma'am.

7 **Q** You actually saw another officer?

8 **A** Yes, ma'am.

9 MS. WHIRLEY: I don't think I have
10 anything else. Kathi?

11 **Q** (By Ms. Alizadeh) Okay. Ma'am, I'm going
12 to ask you some more questions and they might seem
13 kind of tough questions, okay?

14 **A** Okay.

15 **Q** One thing we need to slow this down. That
16 means when I speak and answer a question, try to
17 wait until I'm finished with the question before you
18 answer.

19 **A** Okay.

20 **Q** It helps them to follow what's going on
21 and it certainly helps the court reporter because
22 his fingers are on fire right now trying to keep up
23 with this, okay.

24 And I might slow you down
25 occasionally.

1 **A** Okay.

2 **Q** I'm going to ask you a question. I don't
3 ask you this to embarrass you in any way. Do you
4 take any medication?

5 **A** No, ma'am.

6 **Q** Okay. Is there anything that you are
7 supposed to be taking medication for?

8 **A** No, ma'am.

9 **Q** Okay. So I see you raise your eyebrows.
10 I'm just asking because kind of ADHD and
11 sometimes he talks very fast and I didn't know if
12 anybody ever told you that?

13 **A** Huh-uh.

14 **Q** You're a fast talker.

15 **A** Yes, I am.

16 **Q** Okay. So let me back up, see if I can
17 understand. When you say that you were going into
18 the complex, I'm not sure if I understood the reason
19 that you were going in there.

20 You said you were coming back from
21 the store?

22 **A** I have a friend who stays right next door
23 to the apartment who I was, , he stays
24 in that apartment where I was going to visit.

25 **Q** Okay. Were you specifically going to

1 visit him or were you cutting through to go back to
2 your place and you were going to stop?

3 **A** It was a little bit of both.

4 **Q** And correct me if I'm wrong. I think you
5 said that it is not unusual for you to go through
6 Canfield to get to where you live, can you get to
7 where you live by going through Canfield?

8 **A** Uh-huh.

9 **Q** Okay. So when you were going through that
10 that day, were you going home, or were you going
11 through there to stop and visit your friend?

12 **A** I was going home, but just by me going
13 through, I was just generally just stopping to see a
14 friend.

15 **Q** Okay. And we know it was a beautiful
16 Saturday day?

17 **A** Uh-huh.

18 **Q** Do you know other people in the complex?

19 **A** No, I mean, I know just because I've been
20 over there with my friend. So, I mean, I just stop.
21 I saw them when my friend wasn't at home, saw them
22 and just generally speaking.

23 **Q** So your friend, I think ,
24 you've been inside his apartment before?

25 **A** Uh-huh.

1 **Q** How about anybody else that lives in
2 Canfield, have you ever been inside anyone else's
3 apartment?

4 **A** No.

5 **Q** The other people you met in Canfield was
6 kind of in passing by?

7 **A** Yes, ma'am.

8 **Q** And so on that day, you said you were
9 coming this direction?

10 **A** No, I was coming.

11 **Q** Oh, okay, I'm confused. You are coming
12 from this direction?

13 **A** Yes, ma'am.

14 **Q** And you turn onto Coppercreek Court?

15 **A** Yes. It is a lot like right here. I was
16 on the back lot. I pulled directly in front on the
17 lot in the back, back by the dumpster.

18 **Q** You are in the lot that's on Canfield
19 Court?

20 **A** Yes.

21 **Q** You were going to go visit this person
22 at --

23 **A** Yes.

24 **Q** -- at ?

25 **A** Yes, ma'am.

1 **Q** And is there, just out of curiosity, a
2 reason you didn't go and park closer to his
3 apartment?

4 **A** Like I say, it was neighbors standing out
5 right there and I stopped right there.

6 **Q** Okay. Who was standing out?

7 **A** His name is and I want to say
8 , I call her .

9 **Q** You saw a man named , you
10 call him ?

11 **A** Uh-huh.

12 **Q** And a woman named ?

13 **A** Uh-huh.

14 **Q** So when you pulled up into the parking
15 lot, were they outside?

16 **A** Yes, they were.

17 **Q** Were they on the ground or were they like
18 on a balcony?

19 **A** On a balcony.

20 **Q** Okay. Do you know what building number
21 where they were on the balcony?

22 **A** Uh, stayed in the next apartment on
23 the other side, on this side on the second floor and
24 he was up on the balcony.

25 **Q** Okay. So was on the balcony on the

1 second floor on , did you point right there?

2 **A** Not the apartment where I was standing at,
3 on the other side. I don't know quite what that
4 address is on the other side.

5 **Q** Just where I'm pointing, is that where you
6 had the laser pointer right here, he was on the
7 balcony?

8 **A** Yes, on the second floor.

9 **Q** On the second floor. And your friend
10 lives?

11 **A** Yes, over there on that side.

12 **Q** Did you get out of your car?

13 **A** Yeah, and walked right over toward
14 thing, and we was all standing right
15 there by the dumpster. Well, was
16 standing over there by the dumpster.

17 **Q** Okay. There's a dumpster here?

18 **A** Uh-huh.

19 **Q** That's in the parking lot of Coppercreek
20 Court?

21 **A** And my car was parked right there.
22 (indicating)

23 **Q** Hang on, let me finish. And there's a
24 dumpster here that's in the parking lot of Canfield
25 Court?

1 **A** Uh-huh.

2 **Q** Which dumpster was standing by?

3 **A** The one right there on Coppercreek.

4 **Q** The one on Coppercreek Court?

5 **A** (Nods head.)

6 **Q** Do you know was she standing, if this is
7 south, okay. Was she on the south side of the
8 dumpster, on the north side of the dumpster, was she
9 in the parking lot or was she behind?

10 **A** Parking lot.

11 **Q** In the parking lot. And was on his
12 balcony?

13 **A** Balcony.

14 **Q** So point to the map where you parked your
15 car?

16 **A** Like right up in here. (indicating)

17 **Q** Okay. And when you walked, where did you
18 walk to?

19 **A** I walked over to the balcony, got a
20 cigarette from , and then I walked over there to
21 talk to .

22 **Q** Okay. When you got the cigarette from
23 , did come down off the balcony?

24 **A** Not just yet, he didn't come down until
25 the commotion started.

1 **Q** Okay. Let's get to that in a minute.

2 **A** Okay.

3 **Q** But when he, so did he toss a cigarette to
4 you?

5 **A** Yes, ma'am.

6 **Q** Or did you go up?

7 **A** No, he tossed it down to me.

8 **Q** Okay. So you know him well enough, hi
9 can I have a cigarette?

10 **A** Yeah.

11 **Q** All right. So when you say, after you got
12 the cigarette, you walk down here?

13 **A** Uh-huh, because I was talking to
14 .

15 **Q** You call her

16 **A** Uh-huh.

17 **Q** You said you saw, at some point, maybe I'm
18 confused, when you first saw the boys, which
19 direction were they walking?

20 **A** They was walking towards West Florissant.
21 There was a lot right up here, this is a grass area.

22 **Q** Yes.

23 **A** They walked from somewhere up in this
24 area, they walked across the lot and go down
25 Canfield.

1 **Q** Okay. When the officer's car pulled up
2 and confronted the boys, is that as they were
3 walking this direction down Canfield?

4 **A** No, they was coming back.

5 **Q** Okay. That is what I was confused about.
6 So you're standing there talking to ,
7 smoking a cigarette and how long were you there
8 before you saw those boys again?

9 **A** Maybe 20, 25 minutes.

10 **Q** Just standing in the parking lot talking?

11 **A** We was just standing there talking.

12 **Q** Did you see any other people around this
13 area?

14 **A** It was some people standing out like by
15 the Canfield Court. I mean, there was lot of people
16 standing, I mean there was people standing in the
17 Canfield Court area. There was some people outside.

18 **Q** Did you ever see anybody that looked like
19 they were working on buildings or working on things?

20 **A** Some construction workers?

21 **Q** Yes.

22 **A** Yes.

23 **Q** Where were they?

24 **A** They was like, they was like on Canfield,
25 like back up in the this area by Canfield Court.

1 (indicating)

2 Q So you got the laser pointer on a grassy
3 patch between the sidewalk that's on the north side
4 of Canfield Drive and the actual street?

5 A Yeah.

6 Q In between Coppercreek Court and Canfield
7 Court. So what were they doing in this area?

8 A Can't say what they was doing, probably
9 working on some sewer lines.

10 Q So were they like digging or could you
11 tell?

12 A I want to say they was digging. They was
13 doing a lot of digging around there, so I say they
14 was digging.

15 Q Okay. Now remember when we talked before
16 we came in here, I don't want you to guess at
17 things. So remember I said if, I really don't know
18 is the right answer, that I'd rather have you say
19 that.

20 A Okay. I don't know.

21 Q Okay. Did you stay here with
22 the entire 30 minutes from the time the boys left to
23 when they came back?

24 A Yeah.

25 Q was still there when the boys

1 came back. So was she standing there at the
2 dumpster when the whole thing with the police car
3 happened at the police car?

4 **A** Yeah.

5 **Q** You mention that eventually came down
6 when the commotion started.

7 **A** He sat on his balcony so, when the police
8 did all the shooting, that's when he came down. He
9 knew I forgot to call the ambulance and stuff like
10 that.

11 **Q** Were you still standing, and I've got the
12 end of my pen here where that dumpster is on
13 Coppercreek Court, there's a little, looks like
14 painted lines in a little box so people don't park
15 in front of it, would that be fair to say?

16 **A** Yes, ma'am.

17 **Q** Were you like in that box?

18 **A** I was somewhere up in there.

19 **Q** Somewhere up in there. And so you saw a
20 police vehicle coming westbound on Canfield Drive?

21 **A** Yes, ma'am.

22 **Q** At this point did you see the boys walking
23 back?

24 **A** Well, not at that time, but when they got
25 closer up toward this apartment building, that's

1 when I saw them, like right up in here.

2 (indicating)

3 **Q** Now, let me ask you, ma'am, because if the
4 initial encounter at the vehicle, after the vehicle
5 backed up and the shooting occurred, did you ever
6 see that vehicle move again?

7 **A** No.

8 **Q** And so if I were to tell you that vehicle
9 was photographed by crime scene detectives right
10 around in this area, would that be about your
11 recollection?

12 **A** Yes, ma'am.

13 **Q** Can I ask you, ma'am, how it is if you are
14 at this dumpster, you can possibly see what's going
15 on at the police car because wouldn't this building
16 obstruct your view?

17 **A** No.

18 **Q** So you're saying if you stand at this
19 dumpster, I'm going to use a piece of paper as like
20 a straight edge.

21 **A** Uh-huh.

22 **Q** We all know people can't see around
23 corners, right?

24 **A** (Nods head.)

25 **Q** And so if the police vehicle was somewhere

1 around here and you are at that dumpster, do you see
2 that the line of sight for that area goes through
3 this building, doesn't it?

4 **A** Yes.

5 **Q** So can you explain to me how it is that
6 you can stand there and see what happens at that
7 police car?

8 **A** I mean, I saw. Cause it is like two
9 dumpsters on Canfield, on Coppercreek.

10 **Q** Okay.

11 **A** But it might be the second one, but it is
12 more like there is one right there closer toward the
13 street. I was closer toward the street.

14 **Q** So you think that you were closer toward
15 Canfield Drive?

16 **A** Yes, I was. The dumpster right there up
17 there by the apartment and then dumpster right down
18 here.

19 **Q** Despite the fact that you just for the
20 last 15 minutes or longer, when Sheila was
21 questioning you too.

22 **A** Uh-huh.

23 **Q** You put yourself here? (indicating)

24 **A** I mean, there's the dumpster that I see.
25 I mean, there is two dumpsters, so it can be either

1 one.

2 Q Okay. Do you believe that there's two
3 dumpsters there today?

4 A I mean, the one dumpster up there by the
5 apartment and the one down here closer to Canfield.

6 Q So you think there is another dumpster
7 that's in this parking lot that's closer to
8 Canfield?

9 A Yes.

10 Q Because I'm confused.

11 A Okay.

12 Q And I'm not trying to put you on the spot.

13 A No.

14 Q You remember I said we have got to ask
15 tough questions.

16 A Yes, ma'am.

17 Q And remember I said at some point you say
18 you know what, maybe I really didn't see that. If
19 that's the true answer, that's what we want today,
20 okay?

21 A Yes, ma'am.

22 Q And if you say absolutely not, I know I
23 saw it. If that's the true answer, that what I want
24 you to say, okay?

25 A Uh-huh.

1 **Q** But based upon what you're telling me
2 earlier, do you understand how it would be very
3 difficult for me to believe that you could see that
4 vehicle if you were at that dumpster and the police
5 car were here? (indicating)

6 **A** Uh-huh.

7 **Q** So now you're saying you were closer to
8 the street. Were you in the parking lot or on the
9 grass?

10 **A** I was on the parking lot.

11 **Q** Was with you at that location
12 or was she farther up the parking lot?

13 **A** She was like right there in the same area
14 where I was at.

15 **Q** She was next to you?

16 **A** Uh-huh.

17 **Q** Were you having a conversation?

18 **A** We was all having a conversation.

19 **Q** Okay, all right. I have to use my glasses
20 to read what I write, okay. Now, you said that when
21 the officer was driving west on Canfield, you see
22 him stop and talk to the boys?

23 **A** He said something.

24 **Q** And you hear --

25 **A** And then he pulled off.

1 **Q** But you said you heard the other boy?

2 **A** I didn't say, he said it loud enough to
3 where I don't say that far.

4 **Q** And then there was, did you see any
5 confrontation right then?

6 **A** No, the police pulled off.

7 **Q** Were the boys at the driver's window at
8 that moment?

9 **A** They was in the middle of the street.

10 **Q** I know you've said there were two
11 policeman in the car, were they at the driver's side
12 talking through the driver's window or were they on
13 the passenger side?

14 **A** They was on each side, one was on one
15 side.

16 **Q** Which one was on what side?

17 **A** Dorian was on, he was on the sidewalk
18 part, closer by the sidewalk, and Mike Brown was
19 like in the middle of the street like crossing over.

20 **Q** And then you said the officer pulled
21 forward, did the boys keep walking?

22 **A** They kept walking like as if they was
23 coming back towards where they was coming from, back
24 towards this way. (indicating)

25 **Q** All right. And how far did the officer

1 get toward West Florissant before he backed up?

2 **A** They wasn't down there this way.

3 **Q** No, no, I meant toward.

4 **A** They didn't go far at all.

5 **Q** Would it have been more than two car
6 lengths?

7 **A** Maybe, I would say.

8 **Q** And then you said he backed up, quickly or
9 normal?

10 **A** Normal.

11 **Q** All right. So you didn't hear any tires
12 squealing?

13 **A** No.

14 **Q** And then when he backed up, I'm so sorry
15 because I get confused with what everybody else has
16 said and I've listened to so many statements.

17 **A** That's fine.

18 **Q** If my pen is the police car and this is
19 obviously way bigger on the map, when somebody is
20 driving down the street, they drive in a lane and
21 they drive straight, correct?

22 **A** Uh-huh.

23 **Q** So when the officer backed up, did he back
24 straight?

25 **A** Backed straight.

1 **Q** He didn't angle his car in any way?

2 **A** (Shakes head.)

3 **Q** You are shaking your head no.

4 **A** No.

5 **Q** He didn't angle his car?

6 **A** No.

7 **Q** If I tell you that there is photos of that
8 vehicle after the fact where that vehicle is
9 actually angled in the middle of the street, you
10 don't recall that?

11 **A** No.

12 **Q** And when he backed up, and the boys now,
13 are they both on the driver's side when he backs up?

14 **A** No.

15 **Q** Still Dorian is on the passenger side?

16 **A** On the passenger side.

17 **Q** And Michael Brown --

18 **A** Is on the driver's side.

19 **Q** And then if you were in this position now,
20 or somewhere on this parking lot farther south than
21 the dumpster, than this dumpster that we have been
22 talking about.

23 If the officer's car is right around
24 in this area and Michael Brown was in the window.
25 If that car was angled, wouldn't you agree with me

1 that the car would be between you and Michael Brown?

2 **A** Yes.

3 **Q** And when you were at this location and
4 looking at the vehicle when Michael Brown was at the
5 driver's door, was the car in between Michael Brown
6 and you, the police car, yes?

7 **A** Yes, ma'am.

8 **Q** Okay. So the car is blocking part of your
9 view?

10 **A** Yes, ma'am.

11 **Q** And wouldn't you agree with me, now
12 Michael Brown we know that he was 6'5", right, and I
13 would imagine --

14 **A** I thought he was an adult, I didn't know
15 he was no child.

16 **Q** I would imagine if he was standing there.
17 He's probably taller than the car, would you think
18 maybe he was?

19 **A** Yeah.

20 **Q** When he was standing at the driver's
21 window of the car, could you see the top of his head
22 or any part of his head over the roof of the car?

23 **A** I'm not sure.

24 **Q** You're not sure?

25 **A** Yes.

1 **Q** That is the correct answer if you are not
2 sure, okay?

3 **A** Yeah, I'm not sure.

4 **Q** And so you said you saw the officer's arm
5 come out of the window and grab him by the shirt
6 collar. Let me ask you this. If the vehicle is in
7 between Michael Brown and you, are you looking
8 through the vehicle to see that?

9 **A** Yes.

10 **Q** Okay. So is the passenger window of the
11 vehicle open?

12 **A** Yes.

13 **Q** You remember the passenger window was
14 down, and obviously, if the officer puts his hand
15 through the driver's side window, we know that
16 window was down?

17 **A** Yes.

18 **Q** Okay. So you're saying that you could see
19 through those windows, and you saw the officer grab
20 Michael Brown by the shirt collar?

21 **A** Yes, ma'am.

22 **Q** Okay. So you're actually looking into the
23 car, if you are seeing through those windows, you
24 have to see into the car, right?

25 **A** (Nods head.)

1 **Q** And then you would see the front portion
2 of Michael Brown's body?

3 **A** Yeah.

4 **Q** And so if Michael Brown, I mean, if his
5 hands were up, at or near or inside that vehicle --

6 **A** His hands were not in the vehicle at all.

7 **Q** Okay. Do you remember saying before that
8 you couldn't really see either of their hands as far
9 as what their hands were doing?

10 **A** I know when he grabbed him by his shirt.

11 **Q** Right.

12 **A** I seen him when he went to go and like
13 knock his hands back. And that's when the first
14 shot was fired.

15 **Q** Well, you've said in your other statement
16 that when you talk about the officer putting his
17 hand out of the car, you say he pulled out and
18 grabbed him. This is difficult for me to do because
19 you guys talk over each other in these statements
20 and so I'm going to do my best and I'm going to show
21 you this so it will be easier for you to follow
22 along.

23 On page 11. So you're in this
24 conversation and SA, that's special agent, so that's
25 the FBI guy. So you were talking about, you know,

1 that the officer hadn't got out of the car, but I
2 mean was that, you said he pulled and then you said
3 he pulled.

4 And then the officer says, reach out
5 of the car? And you say, he pulled out and grabbed
6 him.

7 You mean the officer reached out and
8 grabbed Michael Brown, is that what you mean?

9 **A** Yes, ma'am.

10 **Q** He had already, he had his hand on his
11 gun?

12 **A** Yeah, I mean, for him to shoot while he
13 was sitting in his car.

14 **Q** Did you see that?

15 **A** No, I heard the pop.

16 **Q** My question is, did you see that the
17 officer had his hand on the officer's gun?

18 **A** Did I see?

19 **Q** Remember, I said don't guess at things.

20 **A** No.

21 **Q** Okay. When you were looking through the
22 vehicle?

23 **A** I didn't see the officer have his hand on
24 no gun.

25 **Q** Did you ever see the gun until the officer

1 got out of the car?

2 **A** I heard the pop, that's what I heard. I
3 heard the shot, I didn't see the gun, I heard the
4 shot.

5 **Q** Okay.

6 **A** And I didn't know that the cop went out of
7 his car.

8 **Q** Okay. And you understand that it is those
9 little details that matter?

10 **A** Yes, ma'am.

11 **Q** And you say evidently he already had his
12 hand on the gun, I was gathering by his word
13 evidently, that you were guessing at that?

14 **A** No, I was saying, what I was saying was
15 that evidently he had to have his hand on the gun in
16 order for him to shoot first cause he never had got
17 out of the car.

18 **Q** Okay. You're just guessing at that,
19 right?

20 **A** (Nods head.)

21 **Q** Is that right?

22 **A** Yeah.

23 **Q** Okay. And from your vantage point, you
24 never saw the gun in the officer's hand while the
25 officer was in the car?

1 **A** No, ma'am.

2 **Q** And so would it be safe to say that if the
3 officer had his gun in his hand, and if Michael
4 Brown had his hand on the officer's gun, you
5 couldn't see that either, is that fair to say?

6 **A** Yes.

7 **Q** Okay. Now, you testified today that when
8 Michael Brown turned around and he had his hands up,
9 I don't want to frustrate you, do you want some
10 water or anything?

11 **A** I'm fine.

12 **Q** And when he turns around with his hands up
13 you said that, I'm not sure how sure you were to
14 date on this because you said I think so and then
15 you said yes. You said that you heard Mike Brown
16 say, I give up.

17 **A** He did.

18 **Q** And then you also said you never heard the
19 officer saying anything?

20 **A** He didn't.

21 **Q** Okay. And I'm going to ask you again in
22 your first statement to the police, and this was on
23 August 16th, this happened on August 16th, would
24 have been the next Saturday when you are talking to
25 the officers on page 17. And the officer, and

1 you're and this is the special agent. And
2 you say, and that's when he turned around and he was
3 going back toward the police, defend, to give up.
4 And the officer asked, could you hear what was being
5 said.

6 And then another officer said do, and
7 then you said, no, I could not but I --

8 And then the agent says, can't hear
9 anybody yelling back and --

10 **A** I said no.

11 **Q** And you said no. Back on the 16th you
12 didn't hear anybody say anything?

13 **A** No. Like I said, when the first shot went
14 off, I know I heard him turn around and say, I give
15 up. Now, as far as him, I say him defending
16 himself, I meant to say he was surrendering himself.

17 **Q** Okay. I'm sorry, I started before you
18 finished.

19 **A** No, I was just saying that he was going
20 back to surrender himself. Like I say when he went
21 back and he turned around, his hands was up.

22 **Q** Okay.

23 **A** He never reached down or like if he had
24 anything or any type of weapon on him or anything.

25 **Q** Okay. I think you clarified that with

1 Sheila that you didn't mean --

2 **A** Right, I really didn't mean to say defend
3 hissself.

4 **Q** My question has to do with the fact that
5 today you testified that you heard Michael Brown say
6 I give up?

7 **A** He did say I give up.

8 **Q** But back on the 16th, a week after this
9 happened, you said you didn't hear either of them
10 say anything back and forth, back and forth?

11 **A** No, I didn't mean that.

12 **Q** Okay. Do you think it's possible, have
13 you talked to a lot of people since this has
14 happened about what you saw?

15 **A** No.

16 **Q** You're friends with , right?

17 **A** Uh-huh.

18 **Q** And she was there?

19 **A** She was there. She's just a neighbor and
20 she talks to everyone.

21 **Q** Yeah, I know, I've met her. So I'm asking
22 you since this happened this is a big deal.

23 **A** Yeah, it is, it is a very big deal.

24 **Q** You saw something and I know we already
25 talked about this, you wish you weren't there. You

1 were in the wrong place at the wrong time. And
2 there were a lot of people that wish they weren't
3 there to see that. And you people that were witness
4 to this share some special bond, I think, because
5 you were the ones who saw this. And I would think
6 it would be a natural thing to want to talk to the
7 other people because you have this, you know,
8 affinity with them. I saw it too, you have an
9 ability to kind of relate to each other. You don't
10 talk to people about this? You are shaking your
11 head no?

12 **A** No, I don't.

13 **Q** How about , did see it?

14 **A** He was on his balcony.

15 **Q** And did you ever talk to since
16 then about what he saw?

17 **A** No, ma'am.

18 **Q** All right. Do you watch any of the news
19 accounts about this?

20 **A** I try not to even look at it no more.

21 **Q** Okay.

22 **A** I saw enough.

23 **Q** After it first happened, did you watch
24 some of the news?

25 **A** No.

1 **Q** Okay.

2 **A** Only thing I saw on the news is when they
3 brought up the video saying he's at the store.
4 That's the only thing I saw. After that, I never
5 paid attention to it.

6 **Q** Have you joined in any of the activities
7 about, you know, whether it be to demonstrate or to
8 help raise money?

9 **A** (Shakes head.)

10 **Q** No?

11 **A** No.

12 **Q** Let me ask you this, you testified today,
13 you didn't actually come forward, you actually were
14 there, the police came, the FBI came and went to the
15 apartment, correct?

16 **A** Yes.

17 **Q** So you didn't come forward, but when they
18 were there, you told them what you saw?

19 **A** That's right.

20 **Q** You said it was somebody that encouraged
21 you to tell what happened?

22 **A** I mean, at first I wasn't going to say
23 anything, but it was a burden on me.

24 **Q** Uh-huh. I'm glad you did. But let me ask
25 you this. I know that you were interviewed today

1 and you were interviewed by a woman named ,
2 do you remember?

3 A Uh-huh.

4 Q There was a man named there,
5 do you remember him?

6 A Yes.

7 Q And when they talked to you today --

8 A I didn't talk to no man today.

9 Q Okay.

10 A It was three women.

11 Q Two female FBI agents?

12 A Yeah.

13 Q Do you --

14 A It was three, it was a prosecutor and I
15 want to say maybe two.

16 Q Okay. When you talked to them today, did
17 you tell them that one of the reasons why you're
18 coming forward and telling what you saw is because
19 you empathized with Michael Brown's mother?

20 A (Shakes head.)

21 Q You are shaking your head yes?

22 A Yes, ma'am.

23 Q So what does that mean?

24 A Because she's hurting, she lost a child.

25 Q Yes.

1 **A** I lost a brother, so.

2 **Q** So you know what it is like to lose
3 somebody. Did you lose your brother to violence?

4 **A** Two.

5 **Q** You are shaking your head yes?

6 **A** Yes, I did.

7 **Q** And that's a painful thing to have to live
8 through, I understand.

9 That's one of the reasons why you
10 wanted to help Michael Brown's family. And you are
11 shaking your head yes?

12 **A** (Shakes head.)

13 **Q** You need a minute? You want some water?

14 **A** (Shakes head) No.

15 **Q** Ma'am, I'm not saying that that's a bad
16 thing, okay. I think that that is totally
17 understandable because again, you share something
18 with them in a sense that you have a similar
19 experience. And you know what it feels like, it
20 would be normal to want to help bring them comfort
21 or closure, okay?

22 **A** Yes, ma'am.

23 **Q** Do you know Michael Brown's mother?

24 **A** No, ma'am.

25 **Q** Have you ever spoken to her?

1 **A** No, ma'am.

2 **Q** Have you ever spoken with anyone from his
3 family?

4 **A** No, ma'am.

5 **Q** How about attorneys that represent his
6 family?

7 **A** No, ma'am.

8 **Q** Other than the FBI agents that have
9 interviewed you now twice and coming in here and
10 talking to the grand jurors.

11 **A** This is it.

12 **Q** And finally, I want to clarify when you
13 said that you saw Michael Brown, the final shots,
14 okay. And Sheila asked you about did you see the
15 officer stand over him and shoot him. I'm not
16 really sure because in a way you said, it seems like
17 it happened that way, or something to that effect?

18 **A** It might as well.

19 **Q** It might as well. But you were there to
20 see it, right?

21 **A** I mean, he was like at the back of the
22 SUV. Mike Brown was going toward him and he was
23 just shooting at him like as he was walking toward
24 them, he's shooting and he's falling down face first
25 with his hands up.

1 **Q** So when he was on the pavement, were his
2 hands still in that position?

3 **A** Yes, ma'am.

4 **Q** Okay. And you saw his body on the
5 pavement?

6 **A** Yes, ma'am.

7 **Q** Did you stay at the scene for any amount
8 of time afterwards?

9 **A** I had stayed there until the whole thing
10 was over because I couldn't go nowhere.

11 **Q** Because your car was --

12 **A** My car was trapped in.

13 **Q** Okay. Did you stay down on Canfield
14 during that when the crowd started gathering?

15 **A** I moved further back away from it.

16 **Q** So you moved away from the body?

17 **A** (Shakes head.)

18 **Q** You are shaking your head yes?

19 **A** Yes, ma'am.

20 **Q** What I'm trying to clarify is, I want to
21 make sure we're getting what you saw and not what
22 you think happened.

23 So even though you say it might as
24 well have happened that way, but you didn't see the
25 officer stand --

1 **A** No, he didn't stand over him. He was
2 shooting as he was walking towards him. And as he
3 was walking towards the guy, he fell down and the
4 last shot. He didn't stand over him like as if he
5 walked over to him and stood over him, no, he
6 didn't.

7 **Q** Okay. You could see the officer as he was
8 firing those last shots?

9 **A** He was standing right there in the middle
10 of the street.

11 **Q** So you could see. You said that somebody
12 walked over and checked the pulse of Michael Brown?

13 **A** The officer, yes, he did.

14 **Q** If you see this officer, was it the
15 officer that you saw shooting that walked over?

16 **A** No, I don't know. It could have been a
17 different policeman.

18 **Q** Okay. Was it, was the scene taped off
19 when the officer checked his pulse?

20 **A** Yes, ma'am.

21 **Q** Okay. And I really appreciate your coming
22 in.

23 **A** No problem.

24 **Q** I'm very sorry I upset you.

25 **A** You didn't upset me.

1 MS. ALIZADEH: I don't want to bring up
2 your bad memories, but I appreciate you sharing them
3 with us, okay. Thank you.

4 MS. WHIRLEY: I just have one thing for
5 clarification. When you talked about you were asked
6 that you wanted to help Michael Brown's family, I
7 wasn't watching. I think you shook your head yes.
8 How do you want to help them, I'm not clear on that?

9 A As far as bringing, bringing the truth out
10 of what really happened. I mean, I didn't feel like
11 he did anything wrong. He didn't make no --

12 MS. WHIRLEY: You are telling this grand
13 jury that you absolutely saw what you told us here
14 today?

15 A Yes, ma'am.

16 MS. WHIRLEY: You're not making up
17 anything to help his family?

18 A No, ma'am, not at all.

19 MS. WHIRLEY: Are you making it worse than
20 what it really was?

21 A I'm going off on what I saw and it just,
22 it's just got to be right. Wrong, everything is
23 just wrong. He didn't do nothing wrong. He was
24 walking, where he was coming from he was walking.
25 It is not like he was attempting to do anything to

1 nobody or harm anyone, he was walking, him and his
2 friend.

3 So, I mean, for the police to assault
4 him or do anything, what was the reason?

5 MS. WHIRLEY: Questions?

6 . I
7 sympathize with your loss, sorry. I understood what
8 you just told Miss Sheila, let me understand your
9 feelings, you feel that the killing of Mr. Brown was
10 not justified to you?

11 A No, ma'am.

12 Regardless, you didn't
13 know what happened beforehand because like you say,
14 you just saw the tussling and after that?

15 A Right.

16 : But as far as him being
17 dead on the ground.

18 A Okay. What I'm saying is, if he did
19 something wrong, and the police had to protect
20 itself or to defend itself, then that would have
21 been the case, but for this young man to be walking
22 down the street, not causing any problems to no one
23 that was outside, what was the point. You could
24 have tased him instead of shoot him.

25 If you felt like he was harming you

1 in some type of way, you could have tased him. You
2 didn't have to pull your gun first. He didn't go to
3 show that he had any weapon on him at all.

4 So I felt like for him shooting him,
5 it was just too much. You could have tased him. If
6 anybody else run up and have an incident with a
7 police officer, that would be the first thing a
8 police officer will do to defend themselves. If you
9 felt like he had a weapon or anything.

10 He didn't show that he had any weapon
11 at all. He was just walking down the street and him
12 and his friend having a casual conversation, that's
13 what I saw out of them, so.

14 For him to just shoot that young man
15 like that I didn't think that was right.

16 Thank you.

17 . And
18 again, I also sympathize with you, this is a hard
19 thing, it is a hard thing for the parties involved,
20 for the grand jury, actually for the country. Okay.
21 It is some hard issues that are being brought up by
22 this, that's what we are charged to do. We have to
23 know the truth.

24 **A** Yes, ma'am.

25 : In order to make the

1 proper decision, okay?

2 **A** Uh-huh.

3 : Sometimes it might be hard
4 on you, it is with love, with love behind it, okay?

5 I have a question here. You said that, I
6 think this is on page 17 of your statement from what
7 is this, August 16th, at the top. When you're
8 saying that the officer backs up and then you know
9 Mike Brown is at the driver's side window, your view
10 is from the passenger side?

11 **A** Yes, ma'am.

12 : I think we've already
13 established the amount you can see.

14 **A** Uh-huh.

15 : You have a SUV with tinted
16 windows, Mike is between, his body is between you
17 and the SUV, then you have a cop in the car as well
18 and then Dorian also to the right side?

19 **A** Yes, ma'am.

20 Of the vehicle. Okay.
21 You said you heard the first shot, am right about
22 that?

23 **A** Yes, ma'am.

24 So if we can't see, you
25 know, hands going off or whatever, and I pose a

1 question, is it a possibility that the first shot
2 may have been an accidental shot and it was not a
3 shot intentionally to injure Mr. Brown?

4 **A** It could have been, but that doesn't count
5 for the rest of the shots that came after that when
6 he turned around. If that was a warning shot, the
7 rest of the shots, then or five or six shots
8 shouldn't have come from behind the first shot that
9 went off.

10 : Uh-huh.

11 **A** I don't feel like it was a warning, I feel
12 like it was intentionally done because the police
13 could have been intimidated. Like I say, I didn't
14 know he was a teenager, I thought he was a grown man
15 when I seen him.

16 So the police probably was
17 intimidated of his height, his weight, I don't know,
18 but I don't feel like it could have been a warning
19 shot.

20 But even if that was a
21 warning shot, that would be an intentional act by
22 the officer, okay?

23 **A** Okay.

24 So in the realm of
25 everything, there's a possibility just like the

1 first shot might have been an accident; is that
2 correct?

3 **A** It could have been yes, ma'am.

4 . As you mentioned
5 again, standing out there, a nice day on a Saturday,
6 talking with a couple people by the dumpster. A lot
7 of stuff going on as you mentioned out there. Was
8 it the act of the police car driving by that drew
9 your attention to then watch the entire scene, or
10 was it the first gunshot that had a big conversation
11 or smoke that drew your attention, what was it that
12 really made you focus solely on --

13 **A** What made me focused is when they pulled
14 back towards them.

15 Okay.

16 **A** What could they do. They was walking
17 across the street, they couldn't have been doing too
18 much, they wasn't doing anything.

19 : There wasn't any sound
20 associated with it, okay. Okay, thank you.

21 : I have a couple
22 questions.

23 **A** Uh-huh.

24 : And I want you to know
25 that these questions are hard for me to ask you,

1 okay?

2 **A** That's fine.

3 : I just want to verify on
4 page 29 of your statement, you said that, just now,
5 that was what I was going to ask you, . You
6 said the gunshot is what made me look for real?

7 **A** Yeah.

8 : We've established you
9 were looking through a car window that was tinted,
10 past one officer to another officer from the
11 opposite side of the street, and you really weren't
12 paying attention until you actually heard that first
13 gunshot, okay?

14 **A** Uh-huh.

15 : We've already established
16 that could have been an accident on either person's
17 side. The officer or Michael, they could have been
18 tussling. You didn't see his head, so you don't
19 know if he was in the car, right?

20 **A** No.

21 : You couldn't see the top
22 of his head?

23 **A** No.

24 : You have stated that he
25 was not in the car?

1 **A** He was not in the car at all.

2 : So, and then we also
3 established when you said the officer stood up over
4 him and emptied, and you didn't finish that, but
5 that's what it felt like to you, right?

6 **A** Yeah.

7 : He did not do that?

8 **A** No, he did not literally stand over him,
9 no.

10 : I just have a question
11 for you about . Was she outside with you
12 from the very beginning when the police car stopped?

13 **A** No.

14 Because you talked about
15 the first thing that you saw.

16 **A** No, she probably came outside right when I
17 pulled up, so.

18 : Okay. So again, when did
19 you pull up?

20 **A** I can't remember, it was afternoon.

21 : I mean, did you pull up,
22 I'm just trying to determine if you and
23 see the whole altercation?

24 **A** No, she probably did see the whole
25 altercation, I'm not going to say she did or not. I

1 know what I saw.

2 : And so you were visiting
3 a friend, you were going to stop by?

4 **A** Yeah, I just want to stop by and visit a
5 friend.

6 : And you realized he was
7 home?

8 **A** Right.

9 : Did you get of your car
10 and go to his door and knock?

11 **A** Yes, I did.

12 : After you got done, did
13 you see on his balcony?

14 **A** He was on his balcony and I was walking
15 like back towards my car, where the car was. And I
16 asked him for a cigarette and he threw it down and
17 that's when I saw .

18 Outside?

19 **A** Yes, ma'am.

20 And then today before you
21 said you heard him as he's walking away, Michael
22 Brown walking toward the police officer with his
23 hands up, you heard him say, I give up?

24 **A** I give up.

25 Then today you said, um,

1 let me find my notes. That you heard him say I give
2 up after the first shot?

3 **A** Yeah, no, no, when he walk, when he come
4 back, when he was running towards, he didn't say
5 when he turned around, when he noticed, I guess,
6 when he was shot, when he turned back around to walk
7 back towards the police, he was giving up. He was
8 surrendering hisself.

9 : I have a question for you
10 about that. I'm not saying he wasn't truly giving
11 up. If you were in the same situation and you were
12 giving up, would you continue to walk toward the
13 police officer or would you stop and get down?

14 **A** I probably would have stopped and got
15 down.

16 : So if you're telling me
17 that you would have stopped and got down, and the
18 reasonable thing would be to stop and get down. And
19 a 6'5", 285 pound man, even though he may have his
20 hands like this coming towards you, do you think
21 it's possible the police officer could have
22 misunderstood his act of surrender? (indicating)

23 **A** He probably could have misunderstood, but
24 that still didn't give him no reason cause he still
25 didn't ever move his hands from out of the air. I

1 could see if he walked, and then dropped his hands
2 and started back towards the police. And then I
3 could see some sort of, I need to defend myself. I
4 don't know what is going to happen, but when he was
5 going back towards the police, he had his hands up.
6 : But he always was walking
7 toward the police?

8 **A** He was walking toward the police.

9 : Thank you.

10 MS. WHIRLEY: Anything else?

11 : I have a few because I'm
12 confused with your answer there. I thought earlier
13 today that you had said when you got the cigarette,
14 was already out by the dumpster and you
15 stood next to her for like 30 minutes smoking and
16 you saw Michael and Dorian walking west Canfield.
17 That it was 30 minutes roughly that they came back.
18 Was there something different?

19 **A** When I was standing out there, I mean,
20 when they walk past, I was pulling up on the lot so.

21 : Okay.

22 **A** That's when I pulled up on the lot, they
23 was walking towards that, walking towards West
24 Florissant. I get out the car, knock on the door,
25 walk back down. on his place, ,

1 she's down by the dumpster.

2 She's already down by the
3 dumpster when you got the cigarette?

4 **A** Yeah.

5 : Before the first shot is
6 fired she's down?

7 **A** She was already outside when the first
8 shot went off.

9 : I just wanted to clarify
10 that.

11 MS. ALIZADEH: Any other questions?

12 MS. WHIRLEY: All right. That will
13 conclude her testimony.

14 (End of the testimony of .)

15 WITNESS 46,
16 of lawful age, having been first duly sworn to
17 testify the truth, the whole truth, and
18 nothing but the truth in the case aforesaid,
19 deposes and says in reply to oral
20 interrogatories, propounded as follows, to-wit:

21 EXAMINATION

22 BY MS. ALIZADEH:

23 **Q** Now, I'm going to tell you that I had
24 already explained to you we are making an audio
25 recording of what is going on in here and the court

1 reporter is going to transcribe what is being said,
2 but at this time I've had the court reporter pause
3 the recording so that I can have you introduce
4 yourself to the grand jurors.

5 I'm going to ask you where you live,
6 but not an address. You can tell me generally, you
7 can say I live in north county, I live in Jeff
8 County, I live in Illinois, something like that,
9 okay?

10 **A** (Nods head.)

11 **Q** And then after we're done with that, I
12 will have the court reporter start the audio or
13 recording again and after that I will refer to you
14 as Witness Number 46.

15 Is that okay with you?

16 **A** (Nods head.)

17 **Q** You have to answer out loud.

18 **A** Yes. I use that on Power Ball number,
19 okay.

20 **Q** Oh, the lucky number for you. Isn't faith
21 weird. So go ahead and introduce yourself to the
22 grand jurors, what's your name?

23 **A** My name is

24 **Q** And how old are you, ma'am?

25 **A** My age is I'm 50 years old.

1 **Q** Okay. And whereabouts do you live in St.
2 Louis?

3 **A** I live in North County area.

4 **Q** Okay. Do you live in the Canfield Green
5 Apartment Complex?

6 **A** No.

7 **Q** Have you ever?

8 **A** No.

9 **Q** Okay. So at this time now I'm going to go
10 ahead and have him start the audio recording. And
11 then I will again, , I will not refer to
12 you by your name after that, I will refer to you as
13 Witness Number 46, okay. And I will probably just
14 call you ma'am while I'm asking you questions, okay?

15 Now, we paused the recording while
16 you introduced yourself to the grand jurors and
17 herein after I'm going to refer to you as Witness
18 Number 46. And you understand that that's you
19 today, Witness Number 46; is that right?

20 **A** (Nods head.)

21 **Q** You have to answer out loud.

22 **A** Yes.

23 **Q** I will remind you if you forget, but as I
24 explained to you, not only are we recording what's
25 being said in here, but the court reporter is also

1 taking down what's being said and he can't take it
2 down if you shake your head yes or no. And so if I
3 can catch you doing that, I will probably say is
4 that a yes or is that a no, okay?

5 **A** Yes.

6 **Q** So try to remember to answer out loud.

7 And then also you know the people at
8 the very end of this table have to be able to hear
9 you, okay? And so --

10 **A** Hi.

11 **Q** When you answer questions, if your voice
12 is too low, they're not going to hear your answers
13 and I think it is very important that they hear what
14 you have to say, okay?

15 **A** (Nods head.)

16 **Q** And you are shaking your head yes?

17 **A** Yes.

18 **Q** And so when I ask you questions, if I
19 remind you to keep your voice up, I'm not trying to
20 be rude, it is just that I want to make sure that
21 they can hear you have to say, is that all right?

22 **A** Yes.

23 **Q** And they will raise their hands if they
24 don't hear what you are saying, okay?

25 **A** Yes.

Page 170

1 Q Okay. So now, ma'am, um, prior to me
2 beginning the recording, you told us the whereabouts
3 you live, but we established that you do not live in
4 the Canfield Green Apartments; is that right?

5 **A** Yes.

6 Q And have you ever lived in the Canfield
7 Green Apartments?

8 **A** Never lived in Canfield Apartments.

9 Q Okay. Now, do you remember August 9th of
10 this year?

11 **A** Yes.

12 Q And do you remember that that was a
13 Saturday?

14 **A** Yes.

15 Q Were you working that day or were you off
16 that day?

17 **A** I was at work, just getting off of work,
18 going over to my house.

19 Q All right. And where was your
20 house?

21 **A** She stay in Canfield Apartments, like the
22 part of the Canfield Apartments.

23 Q Okay. Have you been over to her house
24 before?

25 **A** Yes, lots of times.

1 **Q** Okay. Were you going into the complex
2 when something happened or were you leaving the
3 complex?

4 **A** I was going into the complex.

5 **Q** Were you in your car by yourself?

6 **A** Yes.

7 **Q** And what kind of vehicle were you driving
8 that day?

9 **A** A

10 **Q** Okay. What color was it?

11 **A** color.

12 **Q** And so, I'm sorry --

13 **A** My car got stolen after this.

14 **Q** Okay, I'm sorry about that. And so when
15 you came into the apartment complex, did you come
16 off of West Florissant?

17 **A** Yes.

18 **Q** Now, I'm going to let you look at Grand
19 Jury Exhibit Number 25, which is a map. We have
20 been using this because it shows an aerial view of
21 the streets and the buildings of the Canfield Green
22 Apartments.

23 **A** Uh-huh.

24 **Q** Looking at that, does some of that look
25 familiar to you?

1 **A** Uh-huh.

2 **Q** And you are saying yes?

3 **A** Yes.

4 **Q** Okay. And don't, you don't have to worry
5 about talking into the microphone because it won't
6 amplify your voice, it is recording and it will pick
7 you up, don't worry, you don't have to worry about
8 talking to into it, okay?

9 **A** Yes.

10 **Q** Here is a laser pointer, have you ever
11 used one of these? It has a little button right
12 here.

13 **A** Yes.

14 **Q** And when you press it, it will point on
15 something, okay?

16 **A** Yes.

17 **Q** So when I ask you questions, I might ask
18 you to use that laser pointer and refer to Grand
19 Jury Exhibit Number 25 to show us what you are
20 talking about, okay?

21 **A** Yes.

22 **Q** All right. So now, ma'am, about what
23 time, if you recall, was it when you came into the
24 Canfield Apartments?

25 **A** It was like probably about like 2:00,

1 2:30, 2:40, I was coming into the apartment to take
2 her to the grocery store. I just left my other job.

3 Q Okay.

4 A I was really released from work, going to
5 take her to the grocery store and pick me up some
6 items.

7 Q Were you in a hurry or was there anything
8 about your trip that was stressing you out that day?

9 A No, I was relaxed.

10 Q It was a beautiful day?

11 A Beautiful, warm day, not too warm, not too
12 hot, beautiful day.

13 Q So when you were driving in your car, do
14 you remember did you have your windows open or
15 closed?

16 A I had my driver's side open.

17 Q Were the other windows closed?

18 A Yes. My passenger side was half, but not
19 fully down.

20 Q Okay. How about music, did you have music
21 playing in your car?

22 A Yes, gospel music.

23 Q Do you play your music up loud or do you
24 have it a normal level?

25 A It is at a normal level, unless it is a

1 good gospel song I want to hear, then I turn it up
2 loud.

3 Q Then you crank it up?

4 A Then I crank up my gospel.

5 Q Do you remember if you were cranking up
6 your music when you came into the complex that day?

7 A No.

8 Q You don't remember or?

9 A It was not turned up.

10 Q Okay. So when you came into the apartment
11 complex off of West Florissant, did you travel down
12 Canfield Road?

13 A Yes.

14 Q And on the map here, if this map went out
15 this direction, West Florissant would be over here?

16 A Yes.

17 Q So were you traveling eastbound on
18 Canfield Drive if that's east?

19 A Right, I was coming, can I show you?

20 Q Sure, you can sit there and use the
21 pointer, use the pointer?

22 A When I come in through Canfield
23 Apartments, the leasing office is right there, the
24 first.

25 MS. WHIRLEY: Use the pointer so we can

1 see.

2 MS. ALIZADEH: Use that pointer. Where is
3 the leasing office?

4 A The leasing office is right up there in
5 the front. Say this is West Florissant right.

6 Q (By Ms. Alizadeh) West Florissant you
7 can't see.

8 A That's what I'm saying, right over here.
9 This is front of the apartments and Canfield
10 Apartments, and when I turned in this front of the
11 apartments and she stayed right back up in here.
12 (indicating)

13 Q Okay. If you were able to get to your
14 destination that day, you would have turned up this
15 street right here and gone?

16 A Right, I could turn up that street right
17 there or I can come right here and come back to the
18 back way. (indicating)

19 Q Okay. So when you turned into the complex
20 that day, did you see anything unusual?

21 A Well, when I turned up into the apartment
22 complex, the first thing, when I was driving in
23 there, I'm going to be honest y'all, God help me.
24 The police was behind me. So most of us think when
25 the police behind us, oh, my God, I've got a ticket,

1 when is the police stopping me.

2 So I pulled over to the side right
3 over here before I got into the apartment complex.
4 I said oh, my God, you know, what do he want with
5 me, you know. I'm driving my speed limit, what is
6 wrong. (indicating)

7 Q Okay. So now the police officer, was it
8 in a marked police car that was behind you?

9 A Yes.

10 Q Did you know if it was a Ferguson officer?

11 A It was a Ferguson police officer.

12 Q Was it a car, like a sedan or was it like
13 an SUV or was it something else?

14 A It was a regular police car.

15 Q A regular police car?

16 A Right.

17 Q Did he have his light bar on, the lights
18 that are on top of the car?

19 A It was not really, it was not the sirens,
20 what do you call the thing?

21 Q Was there any audible on the cars
22 sometimes, you know, of course there's a siren, but
23 then they also have a thing that kind of squawks or
24 whoop?

25 A No.

1 **Q** You didn't hear any of that?

2 **A** Huh-uh.

3 **Q** So if you were coming into the apartment
4 complex, you would have been traveling on the right
5 side of the road; is that right?

6 **A** Right.

7 **Q** And so was he traveling behind you in the
8 same direction you were going?

9 **A** Right.

10 **Q** And so when you pulled over, did you pull
11 over to the right of the roadway?

12 **A** Uh --

13 **Q** Or did you pull off of the roadway?

14 **A** I pulled over to the right before I pulled
15 into that apartment complex. I said oh, my, you
16 know, I thought he was coming, I got a ticket, okay.

17 **Q** Everybody gets that feeling when you look
18 up and you see that.

19 **A** And you see a police, I pulled over to the
20 side and I said oh, my God, I know he got me, you
21 know. I thought he was coming for me.

22 **Q** So use the laser pointer and point on the
23 roadway here where you were when you pulled over?

24 **A** Right over, like right over in here.

25 (indicating)

1 **Q** Okay. And so did the officer pull in
2 behind you?

3 **A** No, he went around me.

4 **Q** Okay.

5 **A** I mean, he was behind me for what I'm
6 saying, he went around me.

7 **Q** Okay.

8 **A** So I stopped. I said thank you, he wasn't
9 for me.

10 **Q** So did you see where his vehicle went
11 then?

12 **A** His vehicle kept going up this way about,
13 about right there. (indicating)

14 **Q** So it stayed on Canfield Drive?

15 **A** It stayed on Canfield Drive.

16 **Q** Okay. And at that point what happened?

17 **A** And at that time it was two black guys or
18 young men or kids or whatever they was, walking down
19 the complex.

20 **Q** Did you recognize either of them?

21 **A** I don't even know the kids.

22 **Q** You hadn't seen them before, right?

23 **A** I might have seen them in the complex, you
24 know, but I don't know you personally enough to wave
25 at you or nothing.

1 **Q** Well, that's my question. Did you
2 recognize them as having been people you had seen in
3 the complex before?

4 **A** No.

5 **Q** So can you describe where they were? Were
6 they in the street, on the sidewalk, in the grass?

7 **A** Mostly over in Canfield, we don't have too
8 much of a sidewalk, you know what I'm saying? So
9 the street thing is where everybody walks anyway
10 because see, as you can see, Canfield don't have too
11 much of a sidewalk. We walk in the street anyway,
12 you know.

13 **Q** Aren't there sidewalks on either side of
14 the street there?

15 **A** Yeah, but that's not too much of a
16 sidewalk. There is trees and stuff over there.

17 **Q** Okay.

18 **A** So everybody is going to walk in the
19 street.

20 **Q** So these kids were in the street and I'm
21 going to call them kids, you call them?

22 **A** I call them kids.

23 **Q** Okay.

24 **A** Because they're kids under me.

25 **Q** And they were in the street?

1 **A** And they was in the street, and I'm
2 looking, you know, what the police doing.

3 **Q** So let me stop you. Were the kids walking
4 in which direction?

5 **A** They was walking up, coming up this way.

6 **Q** So they were walking?

7 **A** They was not walking towards West
8 Florissant area, they was walking like they was
9 going to somebody's apartment complex.

10 **Q** Okay. Use the laser pointer and show me
11 where they were when you first saw them walking?

12 **A** Okay. When I first saw them walking, they
13 was like over here and they was walking like this
14 away. (indicating)

15 **Q** Okay. So they were walking into the
16 complex?

17 **A** Not to the one I was turning into, but I
18 mean straight down, straight.

19 **Q** Okay. You were going to turn this way,
20 when I say into the complex, I'm saying that this is
21 the apartment complex?

22 **A** Right, right.

23 **Q** So they were walking on Canfield Drive?

24 **A** Uh-huh.

25 **Q** And down in this direction, east on

1 Canfield? (indicating)

2 **A** Uh-huh.

3 **Q** Yes?

4 **A** Yes.

5 **Q** Okay. And so when you were pulling in
6 there, you saw their backs, would that be fair to
7 say?

8 **A** Right.

9 **Q** And did you notice anything about them,
10 how could you describe them?

11 **A** They was black men, they was one had a cup
12 of something in their hand, other one had nothing in
13 their hand and they was just walking.

14 **Q** Okay.

15 **A** Like a soda, you know.

16 **Q** There were two?

17 **A** There was two guys. One looked bigger
18 than the other one.

19 **Q** Okay. So let's call the bigger one, the
20 bigger kid or bigger boy or bigger one and the other
21 one we will call the smaller one, okay?

22 **A** (Nods head.)

23 **Q** So had one had a soda or something in his
24 hand?

25 **A** The little one.

1 **Q** Could you see that it was a soda cup or
2 could you see that it was a cup?

3 **A** It was just a cup.

4 **Q** Okay. What about the bigger one, did you
5 notice if he had anything in his hand?

6 **A** Huh-uh.

7 **Q** So are you saying no, he didn't have
8 anything or he didn't?

9 **A** No, I didn't notice that he had anything
10 in his hand.

11 **Q** Okay. And so when you first saw them
12 walking, was the police car still behind you?

13 **A** No, he was in front of me.

14 **Q** Okay. So he had already passed by you
15 when you first saw the boys walking?

16 **A** Uh-huh.

17 **Q** And they're walking in the same direction
18 that the police car is traveling?

19 **A** Right. Let me tell you this, they was --

20 **Q** You can use the laser if you want.

21 **A** Say that my car is right here, right.
22 (indicating)

23 **Q** Uh-huh.

24 **A** And the two young boys or kids, as I call
25 them, walking over here, you know, passed up your

1 car and you see the police was right here, okay, on
2 the other side, because he passed around me.

3 Q Did the boys walk past your car?

4 A Yeah.

5 Q So you were pulled over on the side when
6 the boys walked past your car?

7 A Yeah.

8 Q All right. So was the police officer then
9 already past you when the boys passed your car?

10 A No, the boys passed my car and the police
11 was like, how can I say, say like you right there
12 where I'm at, okay, you walking forward and I'm the
13 police and I'm about 10, 20, 25 feet from you.

14 Q Okay.

15 A And you're passing me up, I'm the
16 policeman and I am right diagonally sideways of you.

17 Q All right. Let me stop you here. When
18 you saw the police officer at first he was behind
19 you?

20 A He was behind me.

21 Q Had you seen the boys yet?

22 A Before the police officer?

23 Q Before you saw the police officer?

24 A I seen them in my mirror, but it wasn't
25 nothing.

1 **Q** So the boys were in your --

2 **A** Was walking, but they was not.

3 **Q** So when you first saw the boys, they were
4 behind you?

5 **A** Well --

6 **Q** You said you saw them in your mirror?

7 **A** In the mirror, but not directly behind me.

8 **Q** Okay.

9 **A** You know what I'm saying on the side of
10 you.

11 **Q** Okay. I thought you said that the boys
12 were like down in this area? (indicating)

13 **A** They was up before me right on the side of
14 you, how can I say this.

15 Here is your car, okay. Here is the
16 young men right here. (indicating)

17 **Q** Let's use, let's say this is your car,
18 don't say your car, it is your, it is my car?

19 **A** This is my car.

20 **Q** Right.

21 **A** You see the young man is right here, they
22 are coming right here walking like this in the
23 middle of the street, okay. Excuse me.
24 (indicating)

25 **Q** So is West Florissant over here?

1 (indicating)

2 **A** West Florissant is behind me.

3 **Q** So which direction is your car facing in
4 this scenario, this thing, is it driving this way?

5 **A** It is driving on Canfield.

6 **Q** Is it driving that way? (indicating)

7 **A** Yeah.

8 **Q** So you're facing that way?

9 **A** Okay. I'm facing this way, I'm driving up
10 Canfield, whatever you call that street from West
11 Florissant, the young men says right here they are
12 walking over here, police that was behind me went
13 around here. (indicating)

14 **Q** Okay. So let me stop you here.

15 **A** On the opposite side.

16 **Q** Let me stop you here. I don't want to try
17 to confuse you, but in this scenario, are you
18 driving on the correct side of the street?

19 **A** Yeah.

20 **Q** So that would have your car over on the
21 right side of the street?

22 **A** Right.

23 **Q** So the officer wouldn't have passed you on
24 this side?

25 **A** What I'm saying, I'm driving right here I

1 guess in the middle of the street or call it closer
2 to the right side, okay. And the police did this,
3 you pulling over so can get out of the police way.
4 You're scared, you know how Ferguson, I'm scared of
5 the police, y'all, I'm scared of the Ferguson
6 police, I'm telling you.

7 **Q** Let's try to get through this where we can
8 describe what happened, okay. And then we'll talk
9 about that, but I want to try to make sure we
10 understand.

11 You said you were driving on the
12 right side of the road as you are coming into
13 Canfield?

14 **A** Coming, however you say, right side of the
15 middle.

16 **Q** In the middle?

17 **A** Right side of the middle. What I'm saying
18 is right here, the right side, but closer to the
19 middle, you know.

20 **Q** But you also said that when you saw the
21 officer, you pulled over to the right?

22 **A** Right. What I'm saying is right here
23 because I'm pulling in here, I'm closer to the right
24 side, okay, because other people come out of the
25 complex and come down the left side, okay.

1 Q Sure.

2 A When they come out the apartment complex.

3 So I'm closer over here to the right side, okay.

4 Q Uh-huh.

5 A And the is behind me, so I

6 pulled right over here closer to the right side.

7 Q Okay.

8 A To get out of his way. He comes around

9 here and goes to the left side to go around.

10 Q So he if this is your car, he's passing

11 you on the left side?

12 A Right.

13 Q Not the right side?

14 A Right.

15 Q All right. So the boys now --

16 MS. ALIZADEH: Yes.

17 . So are

18 you saying he passed you on the side closer to the

19 sidewalk?

20 A Closer to the sidewalk.

21 Q (By Ms. Alizadeh) No?

22 A No, no, closer to --

23 Q The middle.

24 : Middle line.

25 A Middle line.

1 : To the middle line, okay.

2 **A** Yeah, closer to the complex, whatever you
3 want to call it.

4 **Q** (By Ms. Alizadeh) Okay. Now we've got the
5 officer having passed you on your left?

6 **A** Uh-huh.

7 **Q** And then did he continue down Canfield?

8 **A** He said, the boys is right here. I don't
9 know what he said to the boys. I really wasn't
10 paying attention. I was into my gospel music and he
11 said something to the boys and they kept on walking.
12 And then as you go down here, I seen the boys right
13 here steady walking down Canfield. The police said
14 something to them, I don't know what they said back
15 to them, I cannot say, you know, because I was
16 really not paying attention. I was paying
17 attention, but I was not listening. I was in my
18 own, you know, listening to my gospel music. So I
19 was not open to their conversation.

20 And then I seen the police stop, I
21 don't know if he told them to stop or whatever
22 because young kids stop right up in here, you know,
23 go further down I'm looking, what the hell you
24 doing, excuse my French, what the hell you doing
25 with them kids, what did they do now.

1 **Q** Okay. So let me stop you now. The
2 officer stops his car in the street and you said it
3 looked like he was talking to the boy.

4 **A** Right.

5 **Q** Which side, where were the boys in
6 relation to the officer's car?

7 **A** Towards the, how can I say.

8 **Q** Well, there's the driver's side?

9 **A** The driver's side, you closer to the
10 driver's side, okay, but you mostly in the middle of
11 the driver's side and the other side.

12 **Q** So they were on the side of the car?

13 **A** Not directly on the side, this is your
14 car, right. Here is your driver's side over here.
15 We'll say driver's side right here, okay. And here
16 is the middle side so they directly in the driver's
17 side, driver's window right here. I'm right here.
18 The center of the driver's side. (indicating)

19 **Q** So were the boys in front of the car?

20 **A** Half, yes. So mostly towards the driver's
21 middle, you follow me?

22 **Q** Not really.

23 **A** Anybody follow what I'm saying?

24 **Q** So you said the boys were talking to the
25 officer, were they at the driver's window talking to

1 them?

2 **A** They was not at his window, he was over,
3 okay.

4 **Q** You know what, it is too hard for us to
5 use this because they can't really see what you're
6 doing.

7 I'm going to do my best to help you
8 to explain it, okay? It's just, I think it is too
9 difficult, they are not going to be able to see what
10 you're doing, but if you --

11 **A** You know what I'm doing, don't you?

12 **Q** If the officer is driving his car, right?

13 **A** Right.

14 **Q** And the driver's seat is on the left side
15 of the car?

16 **A** The driver's seat is always on.

17 **Q** The left side of the car; is that right?
18 Yes?

19 **A** I got to think how I drive my car.

20 **Q** In America the driver's seat is on the
21 left side of the car?

22 **A** Yeah.

23 **Q** And so if the officer stops to talk to the
24 boys, did he get out?

25 **A** No, if it's on the left side, he was

1 talking to the boys, I don't know what he said to
2 the young men.

3 Q Uh-huh.

4 A Okay. And he slowed his car down and I'm
5 looking what's going on here. And at that time the
6 police got out of his car and I'm looking, what the
7 hell is he getting ready to do with these kids?

8 I thought, now wait a minute, this is
9 Ferguson police, what's going on because we scared
10 of our police. I'm scared to be here because of the
11 police.

12 Q Ma'am, let's try to keep on track. I
13 don't want you to get emotional, you are doing fine,
14 okay. I know you are doing fine, so let's try to
15 push forward and we will talk about, I know you
16 don't like the police and you don't want to be here.
17 If we can get through this, it will be better
18 because you will be done, all right. You
19 understand?

20 I'm not trying to be mean, I don't
21 want you to get emotional because that makes it
22 difficult for you to tell the jurors what you know,
23 okay?

24 Okay, so let me --

25 A Give me strength, Lord, give me strength,

1 Jesus.

2 Q Let me have you keep going with what you
3 saw. You said the officer got out of his car?

4 A Yes, ma'am.

5 Q And am I correct in assuming he got out of
6 the driver's door?

7 A Yes, ma'am.

8 Q What did you see happen?

9 A He walked up to the police, I don't know
10 what was said or what.

11 Q Who walked up to the police?

12 A I mean, the police walked up to the young
13 men.

14 Q Okay.

15 A I don't know what was said or whatever.
16 Then the police went back, was going to his car. I
17 guess they was arguing or something because the boys
18 was saying something to him and stuff, and I'm
19 looking here go another Ferguson incident. And the
20 police kept talking to the boys and the boys were
21 steadily walking, and the police was talking to them
22 or fussing at them or whatever.

23 I'm looking at this and I'm looking
24 what the heck is going on. So I kind of turn my
25 music down to try to hear the conversation, and

1 which I really couldn't hear. I had my windows
2 down. I said, Lord, what's happening now. Next
3 thing I know, I turn my head to answer my cell
4 phone, turn my head, I bent down to pick up my cell
5 phone off my seat and that's when I seen the police
6 pull a gun out.

7 So I seen a little, I guess they was
8 fussing, you know, or whatever, but I seen the
9 police pull his gun and I'm saying, what's the hell
10 going on, excuse me.

11 **Q** That's all right.

12 **A** I'm talking to this lady here. So I said,
13 what the hell is going on. And it was a, I don't
14 know, the one little boy, the little small guy ran
15 behind on the side, of the other side of the police
16 car. And the Big Daddy, I call him Big Daddy.

17 **Q** You call him what?

18 **A** I call him Big Daddy, I'm just using big
19 names.

20 **Q** Big Daddy?

21 **A** I don't know him, but we usually say Big
22 Daddy.

23 **Q** Okay.

24 **A** And Big Daddy and the police officer, this
25 guy, they was arguing.

1 **Q** Now, is the officer, you've already said
2 the officer got out of his vehicle. Is he still
3 outside of his vehicle when they're arguing?

4 **A** Uh-huh.

5 **Q** Yes, okay. So is his car door still open?

6 **A** Uh-huh.

7 **Q** You said he walked back to his vehicle.

8 **A** When he got back to the vehicle, when he
9 got back to his vehicle, I can't use you.

10 **Q** No, no, he's can't, he's got --

11 **A** I was going do grab his arm, I can't use
12 him. But when I walk back to my vehicle, okay. I
13 had one of the boys steady talking to me and I'm
14 talking to them. So then when I turn back to the
15 vehicle, me and you is doing a little tussling.

16 **Q** Now, you were just, in describing that,
17 you were pretending to be the police officer?

18 **A** Right, I'm the police officer and I'm
19 sitting up, what's going on here. And next thing
20 I'm seeing, hear a noise and the little boy had,
21 which is the little guy, was hollering, saying
22 something and the big guy was steady fussing at him,
23 and they are walking back towards the car, police
24 car, not mine. The police car.

25 And next thing I know that the

1 policeman pulled his gun, like I told you, and start
2 firing.

3 Q So was the police officer outside of his
4 car when he was firing?

5 A Uh-huh.

6 Q Yes?

7 A (Nods head.)

8 Q And what or who was he firing at?

9 A He fired at the Big Daddy.

10 Q How far away was the Big Daddy when he was
11 firing at him?

12 A By this time Big Daddy, he's aware from
13 the car, he's laughing at me. Big Daddy was away
14 from the car, and he was walking, the other guy, the
15 little small guy, he was steady walking too. He
16 walked on the opposite side.

17 So Big Daddy was walking in front, I
18 don't know what he said. The only thing I heard he
19 said, I ain't got nothing. And I'm looking, what
20 the heck is going on here.

21 Q So you heard Big Daddy say to the officer,
22 I ain't got nothing?

23 A Right.

24 Q Okay. Have you ever told anybody that you
25 heard him say that before?

1 **A** The people, the FBI -- the people I talked
2 to.

3 **Q** You told the people that you talked to
4 before and they were recording your statement,
5 right?

6 **A** I guess they did.

7 **Q** Okay. That's fine.

8 **A** So by this time I'm sitting up calling
9 people, something happen y'all, Ferguson police
10 messaging with our young men again.

11 So everybody was telling me what's
12 wrong. I said I don't know, you know how these
13 police over here. Something is going to happen,
14 y'all. And everybody was saying, what's happening?
15 I'm saying, I don't know.

16 **Q** Okay. Let me stop you. Who are you
17 talking to?

18 **A** I told you I picked up my cell phone and I
19 started dialing numbers, that's what I just said.
20 And I called and I said, something's happening with
21 these police over hear, they are messing with our
22 young men again. And everybody was telling me
23 what's wrong. I said, I don't know, but by this
24 time the police pulled his gun out.

25 Help me, God, please.

1 **Q** Did you see the officer fire his gun?

2 **A** (Nods head.)

3 **Q** All right. You are shaking your head yes?

4 **A** Yes, ma'am.

5 **Q** All right. And did you see whether or not
6 that bullet hit anybody?

7 Do you think that the bullet hit
8 anybody after that first shot?

9 **A** The first shot, I don't think it hit
10 anybody.

11 **Q** Okay.

12 **A** But I seen the little boy when he turned
13 back around he said, I didn't do nothing, I didn't
14 do nothing. He's got his hands up like this and the
15 other guy ran the other way, the small guy, and the
16 police just fired again. There about, I'm trying to
17 think about 20 or 30 feet, 25 feet from me to you.

18 **Q** There was 25 to 30 feet between the big
19 guy and the police officer when he fired again?

20 **A** Uh-huh.

21 **Q** Okay. Was the officer still out of his
22 car?

23 **A** Uh-huh.

24 **Q** And you're saying yes, right?

25 **A** Yes, ma'am.

1 **Q** Okay. Do you remember when you talked to
2 the detective and that was, we talked about that
3 before you came in, do you remember talking to
4 Detective at the NAACP, and you are
5 shaking your head yes?

6 **A** Yes, ma'am.

7 **Q** Do you remember telling him during your
8 conversation that I heard, I've seen them when they
9 was talking to the police and I thought it was just
10 a friendly talk.

11 **A** I did, I didn't know.

12 **Q** Hang on, okay. Do you remember saying, so
13 the next thing I see the police reach out his car
14 and I seen one boy run behind the police car on the
15 side of the police car.

16 Do you remember telling them that?
17 So when you told them that before you said the
18 officer was inside the car and you put his gun,
19 reached out the car with his gun for the first shot?

20 **A** Right, but it was not, he was out of the
21 car.

22 **Q** So your memory is that he was actually
23 outside of the car when he did the first shot? You
24 are shaking your head yes?

25 **A** Yes, ma'am.

1 **Q** Okay. And you also didn't mention at any
2 time when you were talking to Detective about
3 the boy saying anything, do you remember when you
4 said, did you remember telling him about the boy
5 saying anything when they were at the car?

6 **A** They was talking, like I told y'all, they
7 was talking to the police, I thought, like I'm
8 telling you just like I talk to you.

9 **Q** Okay.

10 **A** We think friendly conversation, or
11 whatever, like I told you y'all just know. I don't
12 know what they're talking about.

13 **Q** Okay. But I just want to clarify, today
14 you said you heard the big guy say, I don't --

15 **A** That's after he got up further, the big
16 guy said, I ain't got nothing.

17 **Q** We jumped ahead then. We're still at the
18 car and you heard one shot, the officer is outside
19 of the car, he fires one shot, but you don't think
20 it hits Michael Brown or the big boy at that time?

21 **A** Right.

22 **Q** What does the big boy do after that first
23 shot goes off?

24 **A** He started walking up, further back
25 towards the apartment complex.

1 **Q** Okay. Was he walking in street or did he
2 walk off of the street?

3 **A** In the street.

4 **Q** Does he stay on Canfield Drive?

5 **A** Yes.

6 **Q** Was he walking east then in that
7 direction?

8 **A** Yes, ma'am.

9 **Q** Okay. How was he walking, was he running,
10 was he jogging, was he sprinting fast?

11 **A** No.

12 **Q** How was --

13 **A** Walking fast.

14 **Q** Walking fast. Okay. So he's walking away
15 from the police officer?

16 **A** Right.

17 **Q** Now, the officer's out of his car you've
18 already said?

19 **A** Right.

20 **Q** So what does the officer do as the big guy
21 is walking away from him?

22 **A** He was saying something to the young men,
23 I wish to, God knows I wish I would have heard
24 everything, but I was into my music.

25 **Q** Now, you said you turned your music down?

1 **A** I turned my music down, but not completely
2 off down.

3 **Q** Okay.

4 **A** Enough so I can still hear the bass, you
5 know what I'm saying? Down low music.

6 **Q** So do you think the officer said something
7 then after the big guy started to walk quickly away?

8 **A** Yes.

9 **Q** Could you hear him say something?

10 **A** I heard him, you know how you can look and
11 see conversation being done, but you cannot make out
12 what is done, you know what I'm saying?

13 **Q** Yes, that's what I'm trying to get at.

14 **A** Right.

15 **Q** So you couldn't make out the words?

16 **A** Right.

17 **Q** Could you hear something, like
18 (indicating) could you hear something and just
19 couldn't make it out?

20 **A** I heard when the boy screamed out, I ain't
21 got nothing.

22 **Q** Okay.

23 **A** He didn't say it as a low tone of voice.

24 **Q** Okay. That's jumping ahead. I'm talking
25 about Michael Brown is moving away from the officer.

1 The officer is outside of his car and I said what
2 does the officer do, and you said the officer, you
3 heard him say something, but you couldn't make it
4 out?

5 **A** Right.

6 **Q** Is that something you actually heard or is
7 it something you assumed because of the way he was
8 acting?

9 **A** It was something I heard, you know, no
10 way, the police move, you know what I'm saying.
11 When you are talking to a person.

12 **Q** Okay. So you heard the officer say
13 something, but you didn't, you couldn't tell what he
14 said?

15 **A** I could not tell what it was.

16 **Q** Okay. And what did Michael, I'm sorry, I
17 keep wanting to call him Michael Brown, you know
18 that is his name, correct?

19 **A** Right.

20 **Q** You know who we're talking about?

21 **A** I call him Big Guy. I don't know these.

22 **Q** Okay. So when the officer says something,
23 what does the Big Guy do, does he continue to walk
24 away from the officer or does he stop at that point?

25 **A** They was communicating at first.

1 **Q** Who was?

2 **A** Michael Brown and the little small guy,
3 what's his name.

4 **Q** So let's just call him little small guy,
5 you don't know his name, right?

6 **A** No.

7 **Q** So we'll just keep calling him the little
8 small guy?

9 **A** The little small guy and Michael Brown is
10 Big Daddy.

11 **Q** So they were communicating?

12 **A** With the police.

13 **Q** Have we gotten back to the beginning of
14 this then because we've got, you already said the
15 little guy ran?

16 **A** When the boy, we are at the middle right
17 now when the little boy was talking, he was talking
18 to Big Daddy, okay, Michael Brown, okay. And the
19 little small guy was there too. I don't know where
20 little Brown, little Brown, little small guy was
21 saying to the police officer. Little Brown started
22 walking slowly, Big Daddy started walking faster.

23 **Q** Is this before any shots or after shots?

24 **A** Before.

25 **Q** Okay. And that's kind of a problem

1 because it is difficult to follow what you are
2 talking about if we keep skipping around. I want to
3 take this a step at a time so we can be sure.

4 **A** I want to get it over with, I'm scared,
5 I'm scared now.

6 **Q** Let's push forward. So when Michael Brown
7 was moving away from the officer, when Big Daddy was
8 moving away from the officer and you said he was
9 walking quickly. Was his back toward the officer
10 then?

11 **A** At the time his back was towards the
12 officer.

13 **Q** Okay. What happened then?

14 **A** With his back, he kept walking forward,
15 the other guy was walking, how can I say, to the
16 side of the police car. They wasn't together.

17 **Q** Okay.

18 **A** They was together, but one walking on the
19 other side, you know what I'm saying? One walking
20 on one side and the other one was walking.

21 **Q** Okay. What happened then?

22 **A** And that's when the policeman start
23 fussing, I mean not fussing, communicating with
24 them. And they was communicating back and the Big
25 Guy, I guess, walked away and the police start

1 firing.

2 **Q** Okay. Let me ask you. You said that Big
3 Guy, I don't know what word you used, what's the
4 word you used? Sounded to me like you said
5 murder-cate, what did you say?

6 **A** I said Big Daddy.

7 **Q** Big Daddy, communicate?

8 **A** Communicate.

9 **Q** All right, sorry. I just want to make
10 sure I'm clear. Who is communicating with who?

11 **A** Communication was with Big Daddy and the
12 police.

13 **Q** Okay.

14 **A** And the other boy was saying something,
15 the little small guy was saying something.

16 **Q** Okay.

17 **A** But the police was looking at like I'm
18 looking at you.

19 **Q** Now, is this before or after Michael Brown
20 has already started to walk away.

21 **A** While Michael was walking.

22 **Q** So what happens then?

23 **A** The other guy was walking, Michael's
24 walking here, your friend walking on the other side,
25 but he's not directly right next to you, you know

1 what I'm saying? You're not directly right next to
2 me, you are a little farther away from me.

3 Q Okay. And what happened then?

4 A Help me, Jesus, help me, Lord. Give me
5 strength.

6 Q How far did Michael Brown walk, can you
7 show with the pointer on the map, laser pointer how
8 far you saw him walk?

9 A I'm sorry, y'all, please forgive me.

10 Q I just want help you get through this
11 because I know it is tough for you, and if we can
12 get through it, you'll be done, okay. So here is
13 the pointer, show me how far Michael Brown walked?

14 A Okay. They was like up about, okay, say
15 he was right here, I'm over here on the side, they
16 are over there. They walk around here to the middle
17 of the complex thing, or whatever y'all call it,
18 street thing. About right up in here. About how
19 can I say. (indicating)

20 Q Okay. You pointed that's fine, you said
21 right up in here. So this is about at the
22 intersection of Canfield Drive and then?

23 A That's what about 20, 30.

24 Q The eastern leg of this horseshoe like?

25 A Right.

1 **Q** All right. So what happened then when he
2 got to this point?

3 **A** The police start shooting.

4 **Q** Was Michael Brown still, was his back
5 still toward the officer at that point?

6 **A** Can I do it?

7 **Q** Yes.

8 **A** Okay. Say the police car here and I'm
9 walking, steadily walking fast and then I'm turning
10 around and then I ain't got nothing, and he kept
11 walking. You see what I'm saying?

12 **Q** Okay.

13 **A** Say this is Michael. You are right here,
14 this is police car, right. And I was walking fast
15 and you saying something to me and I turned, I ain't
16 got nothing, I ain't got nothing like that, he kept
17 walking and the other guy is you, you walking over
18 there, you my friend, hi friend. But you my friend
19 and he's walking on the other side of me.

20 **Q** Okay.

21 **A** He kept turning around like I don't know
22 what the police said. He said I ain't got nothing,
23 what do you want. I heard that he said it in a very
24 large tone of a voice. And I just turned around and
25 start calling, you know I was scared because I

1 didn't know what's going to happen.

2 **Q** Okay. So after the boy had turned around
3 and said he put his hands up and said I ain't got
4 nothing, and you demonstrated kind of in a manner
5 like to show your hands like you didn't have
6 anything in your hands?

7 **A** Right.

8 **Q** And then he kept walking and then what
9 happened?

10 **A** And the police start firing.

11 **Q** Okay. Was the boy still walking away from
12 the police officer when he starts firing?

13 **A** Michael stopped right there, and I don't
14 know if the man said halt, because you was walking
15 like this and when you turn around, I ain't got
16 nothing man, I ain't got nothing like this. Next
17 thing I know, I just start hearing shots going.

18 **Q** Okay. So the shots happen after Michael
19 Brown turns around?

20 **A** The first shot was before when, like I
21 said, before he started.

22 **Q** Okay. How many shots do you think you
23 heard?

24 **A** I'm scared of bullets.

25 **Q** I think we're all scared of bullets.

1 **A** Okay. You can shoot, I'm going to run up
2 and hide on the floor, okay.

3 **Q** Did you hide, you told the police that you
4 put your head down?

5 **A** I put my head down when I heard the second
6 shot, not all the way down. I did my head like this
7 on my driver's, on the steering wheel. Because I'm
8 used to, when I'm young, my parents used to say you
9 hear a bullet, hit the floor.

10 **Q** So there was a time that you had put your
11 head down?

12 **A** Right on the thing.

13 **Q** So did you see Michael Brown fall on the
14 ground?

15 **A** I seen when after, yes.

16 **Q** Okay.

17 **A** I seen, I mean. The police just stand
18 over him and kept shooting like this. (witness
19 starts crying) Jesus, help me.

20 **Q** Do you need to take a break? You want to
21 take a break for a couple minutes?

22 **A** Lord help that child, help me Jesus.

23 **Q** Do you want to take a break for a couple
24 minutes?

25 **A** Yes.

1 **Q** I don't know what time it is.

2 MS. ALIZADEH: We are going to take about
3 a five minute break. It is 3:49.

4 (Recess)

5 MS. ALIZADEH: We're back on the record
6 and we took a few minutes for a break. While
7 Witness Number 46 needed to kind of have a break to
8 collect herself. And she has asked if me could she
9 come in here and try to finish explaining what she
10 saw. So rather than me ask you questions, I felt
11 like maybe I was upsetting you. I'm going to let
12 you just finish telling what you saw. And if they
13 have questions, they can ask you, okay. This is
14 their investigation and they will ask you questions
15 if they need you to explain, okay.

16 **A** Yes.

17 MS. ALIZADEH: So Witness Number 46, why
18 don't you start from where you said the officer was,
19 Michael Brown is moving away from the officer and
20 the officer starts shooting and then you can pick
21 up, that's kind of where we were and you can just
22 finish or keep going from there, okay.

23 **A** Okay. Michael Brown, which I call Big
24 Daddy, the police fired and the young man turned and
25 said I don't have anything. I don't know what their

1 communicating mean I don't have anything, but he
2 said it loud, not in a low tone voice, in a holler
3 voice is I don't have anything.

4 And the other young man, which is
5 small ball, he was on the other side, but he was
6 diagonally like a distance from like me and you.

7 And the young man kept walking fast
8 and the police had shot one shot, I don't know where
9 it hit or what, because at that time I put my head
10 down behind, you know, the wheel. I raised back up
11 and the police just kept firing and the second shot,
12 which I seen that hit the boy cause he jumped. I
13 don't know where it hit him at, but it hit the boy.
14 And the police just kept firing and saying something
15 to the boy, and kept firing. The boy kept saying, I
16 got, my hands is up, I don't have anything, what do
17 you want.

18 And next thing I know, I don't know
19 where it hit, but when the boy fell, there was blood
20 shot everywhere.

21 And the police just stand over him
22 and shot him like he playing darts at a board. At
23 that time the police, the other boy was gone, not
24 gone, but standing and off to the side. Mostly
25 toward the passenger side of the street.

1 And when the policeman kept shooting
2 at him like he's a dartboard, I got out of my car,
3 and I went to the police I said, can I help the
4 young man, can I please help him, he's bleeding.
5 The police told me.

6 MS. ALIZADEH: You can say the bad word.

7 **A** The police told me, get the fuck away from
8 over here. When he told me that, I turned around
9 and I said, you ain't said nothing but a word. So I
10 jump back in the car, this time I started panicking.

11 So I pulled my car into the complex,
12 I call my and I told her I just seen a
13 boy got shot. For what, I said I don't know, I
14 don't know, he's shot. He's in the street. She
15 said what street, I said right on the side of your
16 house, and they said they heard gunshot, so
17 everybody started coming outside.

18 By this time a young man, I don't
19 know who he is, gave me a cigarette. I haven't
20 smoked a cigarette since I was young. I smoke now.
21 I took the cigarette, I smoked it and then I asked
22 for more cigarettes, the guy gave me three
23 cigarettes. I smoked it, I walked back up there,
24 after the police told me to get away.

25 By this time it was like a crowd of

1 people, and this is before they put that orange tape
2 around or yellow tape around, and I asked, I said
3 what is going on here. Everybody was hollering and
4 stuff, everybody was crying this, somebody said call
5 the police, and one lady said that is the police.

6 And the only thing I just remember
7 from that that I was screaming and hollering, people
8 was hugging me, I don't even know nobody out there
9 besides my .

10 And I told them, like I told Kathi
11 and the other lady, if I could have saved him,
12 because , I thought I could save him, I
13 wanted to save him, not because he was bleeding,
14 because any time, say for instance if you look at,
15 what if that's your child laying on that ground.
16 What if that's your daughter laying up there that
17 the police shot. What would you do. Would you sit
18 there and see somebody else's child that I don't
19 even know lay on the ground?

20 Flashbacks went in my mind. That's
21 my boy. I don't know these kids, but just think
22 y'all, what if that's your boy. Picture your boy
23 laying on that ground. Picture that blood running
24 out of your boy's face. Picture that boy's arms
25 wide open and saying whatever, you know. His hands

1 up in the air.

2 Take your time right now and close
3 your eyes, please close your eyes, close your eyes
4 for a minute, please. And just think that's your
5 child, your nephew, your daughter, laying on that
6 ground. What would you do, would you sit there and
7 let them bleed?

8 Would you ask them, can you help
9 them?

10 MS. ALIZADEH: Now, ma'am, when I told
11 you, you had said that to me outside and I told you
12 that we know that that boy when he was shot in the
13 head, he was killed instantly. There is nothing you
14 could have done to save him.

15 **A** I feel that maybe I could have stopped the
16 bleeding, sometimes now after that happened, I feel
17 it was my fault. Maybe I should have been speeding
18 so the police can stop me.

19 MS. WHIRLEY: Let us see, Number 46, if
20 there are any questions though, okay?

21 **A** Ferguson police, I'm scared y'all. I go
22 to my now, I'm scared. A week
23 after that, my got stolen. I don't know if it
24 with this stuff, I don't know what it was. But I
25 know y'all if whatever you do, please help our

1 police department. I'm scared of my own police, you
2 know, police is supposed to be your best friend.

3 MS. WHIRLEY: We're just going to see if
4 there are any questions, Number 46. Are there any
5 questions from any of the jurors? No, okay. We
6 really appreciate you coming in.

7 (End of the testimony of Witness Number
8 46.)

9 ,
10 of lawful age, having been first duly sworn to
11 testify the truth, the whole truth, and
12 nothing but the truth in the case aforesaid,
13 deposes and says in reply to oral
14 interrogatories, propounded as follows, to-wit:

15 EXAMINATION

16 BY MS. ALIZADEH:

17 Q This is Kathi Alizadeh and I am with the
18 prosecutor's office as well as Sheila Whirley is
19 present, all 12 grand jurors are present and so we
20 are having our final witness for today testify.

21 Can you state your name, please?

22 A My name is .

23 Q And I'm going to stand back here,
24 , because you are kind of soft spoken.
25 The microphone that's in front of you does not

1 amplify your voice. So it is not going to help you
2 to speak into it, so speak loud enough so that
3 people all the way back here would be able to hear
4 you, okay?

5 **A** Yes, ma'am.

6 **Q** , how old are you?

7 **A** I am years old.

8 **Q** And where do you live, you don't have to
9 give me your address, do you live in Missouri?

10 **A** No, ma'am, I stay in .

11 **Q** Okay. And back in August of this year,
12 where were you living?

13 **A** On Canfield Drive.

14 **Q** Okay. Would that be in the Canfield Green
15 Apartment Complex?

16 **A** Yes, ma'am.

17 **Q** And who did you live there with?

18 **A** .

19 **Q** So did you have an apartment with

20 **A** Yes, ma'am.

21 **Q** And I'm going to direct your attention to
22 a map that's Grand Jury Exhibit Number 25. And
23 right here is a laser pointer. So if you press that
24 button, the dot comes out and can you use that and
25 show the grand jurors? Does this look familiar to

1 you, the street of Canfield Drive that cuts through?

2 **A** Yes, ma'am.

3 **Q** And this is over in this direction if you
4 went and drove this way is West Florissant?

5 **A** Okay.

6 **Q** Can you show where your
7 was?

8 **A** (Indicate.)

9 **Q** So you pointed right here, is his
10 apartment face Canfield?

11 **A** Yes, ma'am.

12 **Q** All right. And so were you home on, or at
13 your dad's, were you living there or were you just
14 visiting?

15 **A** I was living there.

16 **Q** Okay. Did you know many people in the
17 Canfield Apartment Complex?

18 **A** No, ma'am.

19 **Q** How long had you been living with your
20 at that point?

21 **A** About a month.

22 **Q** Okay. Were you working or going to
23 school?

24 **A** No, ma'am.

25 **Q** Do you, now, you know that we're here

1 regarding the investigation of the shooting of
2 Michael Brown?

3 **A** Yes, ma'am.

4 **Q** Did you know who Michael Brown was before
5 this day?

6 **A** Something like that.

7 **Q** Okay. How is it that you knew Michael
8 Brown?

9 **A** He's a friend of a friend.

10 **Q** And who is the mutual friend that you
11 have?

12 **A** His name is .

13 **Q** ?

14 **A** Yes, ma'am.

15 **Q** So you met Michael Brown through your
16 friend,

17 **A** Yes, ma'am.

18 **Q** And so how well do you think you would say
19 you knew Mr. Brown?

20 **A** I didn't know him very well.

21 **Q** So would it be accurate to say you guys
22 were just acquaintances?

23 **A** Yes, ma'am.

24 **Q** Did you know his last name?

25 **A** Uh, no, ma'am, I didn't.

1 **Q** All right. What did you call him, what
2 was his nickname or did you call him Mike?

3 **A** I mean, we only saw each other one time.
4 So I didn't really say his name at all.

5 **Q** Okay. Had you seen him in the complex?

6 **A** No, ma'am.

7 **Q** So you just met him the one time and
8 that's the only time you'd seen him?

9 **A** Yes, ma'am.

10 **Q** Did you tell officer's previously that you
11 called him, you believed him or knew him to be
12 Mike-Mike?

13 **A** Yes, that's what everybody called him.

14 **Q** Mike-Mike?

15 **A** Yes, ma'am.

16 **Q** So on the 9th of August of this year,
17 which was a Saturday, were you at your
18 apartment that day?

19 **A** Yes, ma'am.

20 **Q** And you remember was anything special
21 about that morning?

22 **A** No, ma'am.

23 **Q** Did you have any special plan for that
24 day?

25 **A** No, ma'am.

1 **Q** And did something during the day direct
2 your attention to the outside?

3 **A** No, ma'am, I just go outside every day.

4 **Q** So you were hanging outside or did you go
5 outside to go see somebody?

6 **A** I was just hanging outside.

7 **Q** Okay. So your unit being right
8 here, I know we know there's three floors to each
9 building?

10 **A** Yes, ma'am.

11 **Q** What floor was he on?

12 **A** The second.

13 **Q** So when you say you were outside, were you
14 like on the balcony or were you down elsewhere in
15 the complex?

16 **A** I was on the balcony.

17 **Q** Okay. Were you by yourself?

18 **A** Yes, ma'am.

19 **Q** And what were you doing?

20 **A** Just looking around.

21 **Q** Watching people?

22 **A** Yes, ma'am.

23 **Q** Okay. And so did something happen that
24 you thought was unusual or drew your attention?

25 **A** No, ma'am.

1 **Q** Okay. Did you go back into your
2 apartment?

3 **A** Yes, ma'am.

4 **Q** And why did you go back into your
5 apartment?

6 **A** Because I had to go get my cell phone.

7 **Q** Why did you have to get cell phone?

8 **A** Because of the Michael Brown incident, I
9 was going to go record it.

10 **Q** Okay. So let's get back and that is kind
11 of why I was trying to get at while you were
12 outside, an incident started; is that right?

13 **A** Yes, ma'am.

14 **Q** Okay. And so tell the grand jury, or I'm
15 going to let you kind of tell your narration and
16 then if need be, we'll go back and kind of clarify
17 things.

18 Why don't you tell them what you saw
19 while you were standing on the balcony of your
20 apartment?

21 **A** Okay. Well, as I was sitting down, I
22 notice Mike Brown and another young man walking down
23 the street. They were in the middle of the street,
24 and then moments later a police cruiser pulls up.
25 I'm not sure if they exchanged any words or

1 anything, but that's when I went in the house to go
2 get my cell phone. I heard a gunshot and I rush
3 back outside, and I went to the other side of the
4 balcony and that's when I seen Mike Brown turning
5 around holding his wounds and then the police
6 officer continued to fire.

7 Q Okay. Keep your voice up, I know it is
8 natural for you to kind of talk to the person that's
9 closer to you, and your voice kind of goes down.
10 Will you do that? Make sure you are talking so we
11 did hear you back here.

12 I'm sorry to interrupt you, but go
13 ahead, you said, and I missed part of what you said.
14 So you said when you came back out after getting
15 your cell phone, let's start at that point.

16 A Came back out from getting my cell phone,
17 I seen Mike Brown holding himself, like holding his
18 wounds. And he turned around and took, I guess,
19 like a step towards the officer, whether he was
20 lunging forward because he was falling from his
21 getting shot. I know the officer just kept firing.
22 And as he was going to the ground, the officer fired
23 a couple more shots and then that was it.

24 Q Okay. So during this whole incident,
25 other than to go in to get your cell phone, did you

1 stay on the porch or the balcony, what do you call
2 that area that's right outside the front door?

3 **A** The balcony.

4 **Q** The balcony. Did you stay there during
5 that entire incident other than like you said, you
6 went in to get your phone?

7 **A** No, ma'am.

8 **Q** Where did you, where did you go?

9 **A** I just went in the house and back outside.

10 **Q** Okay. Was that, I'm talking about you've
11 already said that you were outside and you see a
12 police officer and some boys?

13 **A** Yes.

14 **Q** And at this point you hadn't heard any
15 gunshots, right?

16 **A** No, ma'am.

17 **Q** Then you went in your house to get the
18 phone?

19 **A** Yes.

20 **Q** While you were in your house, you heard a
21 gunshot?

22 **A** Yes, ma'am.

23 **Q** And then you come out?

24 **A** Yes, ma'am.

25 **Q** So from the time you come back out until

1 Mike Brown is lying in the road, did you stay on
2 your balcony?

3 **A** Yes, ma'am.

4 **Q** Okay. And so, um, so can you use the
5 laser pointer, so you stayed right around this area
6 and can you show the grand jurors where the police
7 car was when you first saw it?

8 **A** Around this area. (indicating)

9 **Q** Do you recall what direction it was
10 facing?

11 **A** It was facing towards this way.
12 (indicating)

13 **Q** If this is east and the police car was
14 facing east?

15 **A** Yes, ma'am.

16 **Q** Now, when you looked, when you first
17 noticed it, was it standing still or was it moving?

18 **A** It was standing still.

19 **Q** Okay. So you didn't notice anything
20 before you looked and you saw the police car
21 standing, or not moving and it was in the middle of
22 the street?

23 **A** Correct.

24 **Q** And where were the boys when you first saw
25 the police car?

1 **A** Um, they were sort of kind of in front of
2 it.

3 **Q** Okay. Were they walking or standing
4 still?

5 **A** They were walking.

6 **Q** And which direction did it look like they
7 were walking?

8 **A** They were heading east as well.

9 **Q** Okay. So they were going in that
10 direction as well?

11 **A** Yes, ma'am.

12 **Q** And so from your vantage point then, could
13 you see the driver's side of the car?

14 **A** No, ma'am.

15 **Q** So you are looking at the passenger side?

16 **A** Yes, ma'am.

17 **Q** And so could you see the officer inside
18 the car from that at this point from your balcony?

19 **A** No, ma'am.

20 **Q** And so you said that you saw the two boys
21 and the officer appear to have some kind of
22 communication?

23 **A** Yes, ma'am.

24 **Q** Could you hear what was being said?

25 **A** No, ma'am, I was too far away.

1 **Q** Could you hear anything like, you know,
2 words, but you couldn't make it out?

3 **A** No, ma'am.

4 **Q** No screaming?

5 **A** No, ma'am.

6 **Q** Okay. And what, if anything, could you
7 see going on while the boys were at the vehicle?

8 **A** Just look like they were talking.

9 **Q** Okay.

10 **A** Like exchanging a few words and that's
11 when I went to go get my cell phone.

12 **Q** Okay. Can you give me an idea or an
13 estimate as to how long you were in the house
14 getting your phone before you came back out?

15 **A** Probably about 30 seconds to a minute.

16 **Q** Okay. And while you were inside is when
17 you heard the first gunshot?

18 **A** Yes, ma'am.

19 **Q** And then did you come right out after
20 that?

21 **A** Yes, ma'am.

22 **Q** Did you have your phone with you?

23 **A** Yes, ma'am.

24 **Q** Did you start videotaping anything?

25 **A** No, ma'am.

1 **Q** And so why did you go in to get your
2 phone?

3 **A** To videotape, and actually to check it
4 too. I usually don't go outside without bringing my
5 phone, I just happen to leave it in there.

6 **Q** So you went in to get your phone because
7 you thought maybe something was going to happen and
8 you wanted to record it?

9 **A** Yes, ma'am.

10 **Q** And then you went in, you got the phone,
11 you hear a gunshot when you came out, but you didn't
12 start recording?

13 **A** No, ma'am.

14 **Q** Why not?

15 **A** Because it all happened too fast.

16 **Q** Okay. Too fast for you to really react?

17 **A** Yes, ma'am.

18 **Q** And so when you came out after hearing
19 that first gunshot, where was the officer? Was he
20 still in the police car or was he outside the police
21 car?

22 **A** He was outside the police car.

23 **Q** And where was Michael Brown?

24 **A** He was right across from me.

25 **Q** Was he standing up in the street or was

1 he, is this a point where he's down in the street?

2 **A** He was standing up.

3 **Q** Okay. What about the littler guy, where
4 was he?

5 **A** He was nowhere to be found.

6 **Q** Okay. So he somehow disappeared from your
7 view?

8 **A** Yes, ma'am.

9 **Q** And did you ever see him again during the
10 incident?

11 **A** No, ma'am.

12 **Q** Okay. So when the officer, you come back
13 and the officer is outside of his car, is the door,
14 driver's door of his car open, do you recall?

15 **A** I don't remember, I didn't look at the
16 police officer's car.

17 **Q** Did you notice, did the officer have the
18 lights on on top of his car?

19 **A** Not that I remember.

20 **Q** All right. And when, so you said you saw
21 the officer out of his car and Michael Brown was
22 right there, can you describe for the grand jurors
23 like where they were in relation to the officer's
24 car?

25 **A** They were probably about a good 10 feet

1 from the officer's car.

2 **Q** So who was closer to the car, the officer
3 or Michael Brown or neither?

4 **A** The officer, where they was probably
5 directly across from each other, I probably say the
6 officer was.

7 **Q** Okay. So was the officer, if he's
8 standing next to his car, was he facing the rear
9 part of his car or was he facing the front part of
10 his car or was he directly facing the car?

11 **A** Here was, can you repeat the question,
12 please?

13 **Q** Sure. If this, for example, is the
14 officer's car and the officer is outside of the car
15 now, is he facing his vehicle as I'm facing this
16 now, or if this is the front of the car, is he
17 facing the front of the car, is he facing away from
18 his car or is he facing the rear of his car or
19 something else?

20 **A** Well, they weren't by the car at that
21 point.

22 **Q** You said they were about 10 feet away?

23 **A** Yes, ma'am, but he was facing towards Mike
24 Brown. They were --

25 **Q** Were they facing each other?

1 **A** Yes, they were facing each other.

2 **Q** Did you see the officer's gun at this
3 point?

4 **A** Yes, ma'am.

5 **Q** Where was the gun?

6 **A** He had it drawn.

7 **Q** Okay. So it was out of his holster?

8 **A** Yes, ma'am.

9 **Q** Do you recall which hand it was in?

10 **A** No, ma'am.

11 **Q** And how was he holding it?

12 **A** I don't recall.

13 **Q** So you don't recall if it was by his side,
14 if it was pointed?

15 **A** It was pointed, I know that.

16 **Q** It is pointed?

17 **A** Yes, ma'am.

18 **Q** Okay. And so, and Mike Brown is facing
19 the officer at this point?

20 **A** Yes, ma'am.

21 **Q** How far away from the officer is Mike
22 Brown?

23 **A** Probably about seven or eight feet.

24 **Q** Seven or eight feet?

25 **A** Yes, ma'am.

1 **Q** And then what happens?

2 **A** And then the officer starts to fire.

3 **Q** Okay. And does he fire in the direction
4 of Mike Brown?

5 **A** Yes, ma'am.

6 **Q** So the officer is outside of the car?

7 **A** Yes, ma'am.

8 **Q** And he's seven to eight feet from Mike
9 Brown at that point?

10 **A** Yes, ma'am.

11 **Q** Do you see if he hits Michael Brown?

12 **A** Judging from Mike Brown's reaction, it
13 looks as if he hits him.

14 **Q** Okay. Did you see any blood?

15 **A** No, ma'am.

16 **Q** So can you describe, or even if you can
17 demonstrate what you mean when you say judging from
18 Michael Brown's reaction?

19 **A** Well, he was holding his wounds as the
20 officer was firing, he started to fall towards the
21 ground. He fell to his knees first and then
22 collapsed all the way.

23 **Q** Okay. So let's, I think I understand that
24 there's a section missing here, so you said the
25 officer's vehicle was stopped here?

1 **A** Yes.

2 **Q** Did he ever move that car?

3 **A** No.

4 **Q** So when you came back out and you saw the
5 officer and Michael Brown facing each other, and the
6 officer had his gun drawn, can you use the pointer
7 and show me where on the map they were?

8 **A** This area right here. (indicating)

9 **Q** And so what do you see happen then?

10 **A** I see the officer use excessive force to
11 take down Mike Brown.

12 **Q** Okay. So let's back up a little bit. You
13 said Mike Brown was standing facing the officer and
14 it looked to you like he, the officer fired at him
15 and it looked like he was hit?

16 **A** Yes.

17 **Q** And you describe that Michael Brown looked
18 like he was holding his wound at this point?

19 **A** Yes.

20 **Q** Was he holding his wounds before the
21 officer fired the shot that you saw or did he grab
22 his wounds after that shot?

23 **A** He was holding before.

24 **Q** Before?

25 **A** Yes.

1 **Q** Can you demonstrate to the grand jurors
2 how you saw Michael Brown holding himself? Can you
3 stand up so they can all see you?

4 **A** Like this. (indicating)

5 **Q** So you have your right arm across your
6 torso, a little bit above your belly button area?

7 **A** Yes, ma'am.

8 **Q** And so you said Michael Brown had his arm
9 in that fashion and the officer fired a shot that
10 looked to you like it hit him?

11 **A** Yes.

12 **Q** And then what did Michael Brown do then?

13 **A** It looked like he just took the impact and
14 the officer kept firing and then that's when he
15 started to fall towards the ground.

16 **Q** Okay. Now, did you say a little bit ago
17 you saw Michael Brown take some steps?

18 **A** I seen him take one step.

19 **Q** One step?

20 **A** I don't know if he was taking the step or
21 if he was just, you know, falling forward.

22 **Q** Okay. And so you only saw him take one
23 step?

24 **A** Yes.

25 **Q** And this is first thing that you see when

1 you come back out of your apartment is that they are
2 already at a point somewhere around here. You said
3 where they're facing each other and the officer
4 fires and then Mike Brown lands at that point on the
5 ground?

6 **A** Yes, ma'am.

7 **Q** Okay. So whatever happened from the time
8 you saw Mike Brown at the vehicle until they're
9 here, you didn't see any of that?

10 **A** No, ma'am.

11 **Q** And so how close did you say that the
12 officer was eight to ten feet away from Michael
13 Brown when he was firing the shots?

14 **A** Seven to eight feet.

15 **Q** Seven to ten. Did Michael Brown, did you
16 ever see him put his hands up in the air?

17 **A** No, ma'am, I did not see that.

18 **Q** But like I said, there's parts that you
19 didn't see since you come out and at this point
20 Michael Brown already has his hand here?
21 (indicating)

22 **A** Yes, ma'am.

23 **Q** If he had his hands up prior to that, you
24 didn't see it?

25 **A** No, ma'am.

1 **Q** And you didn't see him running from the
2 officer?

3 **A** No, ma'am.

4 **Q** Now, you said, did you see, did you ever
5 see him run from the officer?

6 **A** No, ma'am.

7 **Q** Okay. From the first gunshot that you
8 heard while you were inside, is the next gunshot you
9 hear the one that you see when he fires, when he's
10 face-to-face with him?

11 **A** I'm not, I don't remember.

12 **Q** Okay. How many total gunshots do you
13 think you heard?

14 **A** Six or seven.

15 **Q** And you said that you saw Michael Brown
16 fall forward?

17 **A** Yes, ma'am.

18 **Q** Did he fall to his knees first or did he
19 just fall straight down?

20 **A** He fell to his knees first.

21 **Q** Okay. Did he remain on his knees for any
22 amount of time even if it was a couple of seconds?

23 **A** Yes, ma'am, it was probably a couple
24 seconds.

25 **Q** Okay. So he fell to his knees, did the

1 officer continue to fire?

2 **A** Yes, I think he let go one more shot.

3 **Q** And then you saw Michael Brown from his
4 knees, then did he fall forward?

5 **A** Yes, ma'am.

6 **Q** And when he was on his knees, did you see
7 him put his hand up?

8 **A** No, ma'am.

9 **Q** And when he was falling forward, did you
10 see him put his hands up?

11 **A** No, ma'am.

12 **Q** So when you saw him, he had a hand across
13 his torso?

14 **A** Yes, ma'am.

15 **Q** What was the other hand doing?

16 **A** I'm not sure, I couldn't see.

17 **Q** Okay. And did he keep his hand in the
18 position that you saw his hand the whole time you
19 saw him?

20 **A** Yes, ma'am.

21 **Q** Did he fall that way with his hand across
22 his torso?

23 **A** Yes, ma'am.

24 **Q** Did you, after he fell to the ground, did
25 the officer continue to fire?

1 **A** No, ma'am.

2 **Q** Did you see what the officer did then?

3 **A** No, ma'am.

4 **Q** And why not?

5 **A** I was too busy looking around to see if
6 anybody else saw what I saw.

7 **Q** Okay. And did you see other people around
8 there?

9 **A** No, ma'am, not at the time until like
10 after, you know, a couple of minutes went by and
11 then I saw other people start to come outside.

12 **Q** Okay. Did you see, now you're in this
13 building, right?

14 **A** Yes.

15 **Q** Did you see anybody on the balconies over
16 here?

17 **A** No, ma'am.

18 **Q** And did you see cars, how about cars on
19 the street that might have been stopped?

20 **A** No, ma'am.

21 **Q** Did you see cars in either direction?

22 **A** No, ma'am, I didn't see any cars.

23 **Q** And, okay, so let's clarify. Are you
24 saying that there weren't cars there or you saying
25 you don't know if there were cars there?

1 **A** I don't know if there were cars there.

2 **Q** Okay. And the same thing with somebody
3 being on the balcony here, are you saying there
4 wasn't anybody on the balcony next to you or you
5 saying you don't know if there was?

6 **A** I don't know if there was.

7 **Q** Okay. And then did you see the officer
8 who did the shooting, did you see him approach
9 Michael Brown's body after he fell on the ground?

10 **A** I don't remember.

11 **Q** Okay. Did you see what he did after that,
12 after Michael Brown fell on the ground?

13 **A** I don't remember.

14 **Q** During the time you saw the initial
15 encounter until Michael Brown was dead on the
16 ground, did you see any other police officers?

17 **A** No, ma'am.

18 **Q** Did you see any other police cars?

19 **A** No, ma'am.

20 **Q** Eventually did other police officers and
21 cars come?

22 **A** Yes, ma'am, eventually.

23 **Q** Did you go down to the street afterwards?

24 **A** No, ma'am.

25 **Q** Did you stay up in your apartment?

Page 240

1 **A** Yes, ma'am.

2 Q And the next day you left is
3 that right?

4 **A** Yes, ma'am.

5 Q You had somebody, a family member drove
6 you ?

7 **A** Yes, ma'am.

8 Q Was that because of this that you felt you
9 needed to get

10 **A** No, ma'am.

11 Q So was this already planned that you were
12 going to ?

13 **A** Yes, ma'am.

14 On the ?

15 **A** Yes, ma'am.

16 Q But at some point, somebody came and
17 discovered that you had witnessed this?

18 **A** Yes, ma'am.

19 Q You didn't talk to the police that day?

20 **A** No, ma'am.

21 Q Why not?

22 **A** I really didn't want to be involved with
23 the whole entire situation.

24 Q Had you ever had a bad experience with the
25 Ferguson police officers?

1 **A** No, ma'am.

2 **Q** Did they have a good or bad reputation or
3 if you know?

4 **A** I'm not sure.

5 **Q** Okay. So you not wanting to be involved
6 is just because you just didn't want to be involved
7 or was it because of distrust of the police officers
8 or?

9 **A** I just didn't want to be involved. I
10 didn't want that attention.

11 **Q** Do you know how it was that the police
12 found you?

13 **A** No, ma'am, I don't.

14 **Q** But eventually on August 18th, you recall
15 a couple FBI agents coming to talk to you ?

16 **A** Yes, ma'am.

17 **Q** Did you tell them what you saw?

18 **A** Yes, ma'am.

19 **Q** And now you actually here with
20 your mother to testify in this case; is that right?

21 **A** Yes, ma'am.

22 **Q** And did you do that willingly?

23 **A** Yes, ma'am.

24 **Q** And you met with the FBI, was it
25 yesterday?

1 **A** Yes, ma'am.

2 **Q** And you made a recorded statement with
3 them?

4 **A** Yes, ma'am.

5 **Q** Okay.

6 MS. ALIZADEH: I don't have any more
7 questions. Sheila?

8 MS. WHIRLEY: Thank you.

9 **Q** (By Ms. Whirley) Why do you say it was
10 excessive force?

11 **A** After the first shot, it's excessive.

12 **Q** I'm sorry?

13 **A** After the first shot that was excessive.

14 **Q** You thought after?

15 **A** After I came outside and I seen him
16 holding his wound, he didn't really have to keep
17 shooting. Mike Brown didn't pose a threat, to my
18 knowledge, he didn't pose a threat.

19 **Q** And you didn't see anything happening at
20 the police car, you just said, why did you go, what
21 was happening when you went and got your cell phone
22 again?

23 **A** They were just at the police cruiser.

24 **Q** You didn't see any tussling or car moving?

25 **A** No, ma'am.

1 **Q** Any loud noises or anything?

2 **A** No, ma'am.

3 **Q** And then you went in to get your cell
4 phone because you always have it?

5 **A** Yes, ma'am.

6 **Q** You heard a shot?

7 **A** Yes, ma'am.

8 **Q** While you were getting your cell phone?

9 **A** Yes, ma'am.

10 **Q** You didn't see what was happening when the
11 shot first went off?

12 **A** No, ma'am.

13 **Q** All right. And then was it just one shot
14 you heard before you got back out?

15 **A** I know one shot for sure, but I don't
16 remember.

17 **Q** Where were you at like on the balcony or
18 something?

19 **A** When I heard the shot?

20 **Q** Yeah, when you came back out and saw
21 everything?

22 **A** I was on the balcony.

23 **Q** So you never went downstairs?

24 **A** No, ma'am.

25 **Q** You were watching from the balcony?

1 **A** Yes, ma'am.

2 **Q** So after you came out to the balcony with
3 your phone, a shot had already occurred?

4 **A** Yes, ma'am.

5 **Q** You say you saw Michael Brown facing the
6 officer?

7 **A** Yes, ma'am.

8 **Q** When he was holding his torso and that's
9 when all of these shots, you heard some more shots?

10 **A** Yes, ma'am.

11 **Q** Okay. Could you hear him saying anything?

12 **A** No, ma'am.

13 **Q** You weren't close enough to hear them
14 talking?

15 **A** No, ma'am.

16 **Q** What do you think the officer should have
17 done?

18 **A** Anything other than kill him. I'm pretty
19 sure the police training and police training they,
20 you know, have any other means of, you know,
21 corralling a suspect other than killing him.

22 **Q** You said he was wounded when he was shot
23 dead?

24 **A** Yes, ma'am.

25 **Q** I wasn't clear, did you record any of the

1 incident, even afterwards?

2 **A** Afterwards, yes, ma'am.

3 **Q** So what did you record?

4 **A** I just recorded his body laying right
5 there and the officer just, I guess he was walking
6 around, I'm not sure.

7 **Q** But you didn't record the actual shooting,
8 you weren't quick enough to do that?

9 **A** No, ma'am.

10 **Q** Did at any time when you saw him with his
11 hands, we call this the torso, right?

12 **A** Yes, ma'am.

13 **Q** Around his torso, did he appear to be
14 going for a weapon?

15 **A** No, ma'am.

16 **Q** It was clear to you that he appeared to be
17 wounded?

18 **A** Yes, ma'am.

19 **Q** Could you see blood?

20 **A** No, ma'am.

21 **Q** Okay. And so why do you think he was
22 wounded again?

23 **A** Because I heard gunshots.

24 **Q** Okay. And it didn't look like he was
25 going for a weapon?

1 **A** No, ma'am.

2 Q Did he ever look like he was rushing
3 toward the officer?

4 **A** No, ma'am.

5 Q Okay. And where were his hands when he
6 was falling to his knees before collapsing to the
7 ground?

8 **A** I don't remember.

9 Q And again, it did not appear to you like
10 he was charging the officer?

11 **A** No, ma'am.

12 MS. WHIRLEY: Questions.

13 . When
14 you were looking at the police car, you were looking
15 at what, t he driver's side or the passenger side?

16 **A** Passenger side.

17 : Passenger side. So the
18 police vehicle was facing west or toward West
19 Florissant.

20 **A** No, it was facing towards east, going
21 towards Northwinds.

22 : That way's east. If it
23 was facing east, then the driver's side would have
24 been toward you?

25 **A** Correct, but I wasn't, the balcony isn't

1 all that big.

2 : All right. You were at
3 an angle?

4 **A** Yes, ma'am -- yes, sir, I apologize.

5 : That's close enough.

6 I just
7 need to clarify something. Did you hear any shots
8 while you were walking back into the apartment to
9 get your cell phone?

10 **A** No, ma'am.

11 The first shot you
12 actually heard when you came back out?

13 **A** The first shot I heard was when I was
14 inside.

15 : You heard one while you
16 was on the inside?

17 **A** Yes, ma'am.

18 : That was the shot you
19 heard?

20 **A** Yes, ma'am.

21 : Okay.

22 MS. ALIZADEH: Anyone else?

23 . I guess, did you
24 have head phones or anything on, were you listening
25 to music out on the balcony or playing a video game

1 or anything, or were you just sitting out there?

2 **A** I'm just sitting out there.

3 : Just watching?

4 **A** Just watching, looking around.

5 : I had another question. I
6 guess you know when you looked up and saw Michael
7 Brown at the police car, something must have made
8 you want to think it is more than just an innocent,
9 you know, stop right there. Because you ran in to
10 get your phone, can you think of why or what made
11 you think there was something to record? Did you
12 hear loud voices, did you look at Michael's face,
13 did you know something was about to happen.

14 **A** It was just a gut feeling. Something just
15 toll me in my mind that you might want to go get
16 your phone.

17 : So you just saw a few
18 seconds of that, whatever happened there. And then
19 it sounds like you just saw the very last few
20 seconds at the end before Michael Brown was shot to
21 death?

22 **A** Yes, sir.

23 : Okay. Thank you.

24 . Your cell
25 phone, what room was your cell phone in?

1 **A** It was in the kitchen.

2 : It was in the kitchen.

3 Was it plugged in a charger at that time?

4 **A** No, ma'am.

5 : Okay. When you came from
6 the balcony into the house to get your cell phone, I
7 think you have to enter through the sliding doors in
8 the living room, is that how you enter your
9 apartment?

10 **A** You can or you can just go through the
11 main door.

12 : The main door, how did you
13 get in there?

14 **A** I went through the door.

15 You went through the door?

16 **A** Yes, ma'am.

17 So where is that in
18 relationship, you have to walk to your left to the
19 right of the sliding glass doors or where are you
20 exactly positioned to the main door?

21 **A** It is on the right.

22 : On the right. And how far
23 were you away from the main door at that point?

24 **A** Probably about two or three feet.

25 Two or three feet. You

1 know about how many feet you traveled in the
2 apartment to get to your cell phone?

3 **A** I'm not sure.

4 : Not sure?

5 **A** I'm not sure.

6 : Okay. When you came back
7 out, did you also go back out through the main door,
8 the same path?

9 **A** Yes, ma'am.

10 Okay, all right, thanks.

11 : I don't have anything any
12 more.

13 MS. ALIZADEH: No more questions from you.
14 At this point if there is no more questions, that
15 will end the testimony of this witness.

5 I, XXXXXXXX, a Licensed Certified Court

6 Reporter by the Supreme Court in and for the State

7 of Missouri, duly commissioned, qualified and

8 authorized to administer oaths and to certify to

9 depositions, do hereby certify that pursuant to

10 Notice in the civil cause now pending and

11 undetermined in the County of St. Louis, State of

12 Missouri.

13 The said witness, being of sound mind and being

14 by the grand jury first carefully examined and duly

15 cautioned and sworn to testify to the truth, the

16 whole truth, and nothing but the truth in the case

17 aforesaid, thereupon testified as is shown in the

18 foregoing transcript, said testimony being by me

19 reported in shorthand and caused to be transcribed

20 into typewriting, and that the foregoing page

21 correctly sets forth the testimony of the

22 aforementioned witness, together with the questions

23 propounded by counsel and grand jurors thereto, and

24 is in all respects a full, true, correct and

25 complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XVIII

2 MS. ALIZADEH: Good morning.

3 (Everyone says good morning.)

4 MS. ALIZADEH: It is Monday, November 3rd,
5 it is 9:26 a.m. This is Kathi Alizadeh. Sheila
6 Whirley is present as well, and all 12 grand jurors
7 are here, as well as the court reporter, who's
8 taking down and recording what is being said.

9 Some matters that I wanted to discuss
10 before we start with evidence today. I would like
11 you all to give us some dates for next week. And,
12 you know, I had told you in the past that we are
13 getting close to wrapping up, but you know, I don't
14 know how long, you know, this is still going to last
15 for sure and, of course, I don't know how long. We
16 don't know how long you will need to deliberate.

17 And so just go ahead and pick some dates
18 for next week. If you could give us three days,
19 that would be great. I understand, you know, with
20 your schedules, you have to work around and we will
21 work around those schedules.

22 A couple of other matters is the floor
23 plan with no door, remember the floor plan? So I
24 had Detective talk to the gal, the leasing
25 agent and she drew the door in here. They didn't

1 change it other than she drew a little line where
2 the door is on these second two bedroom version.
3 And then she also wrote next to the marks, which
4 would indicate a window, she wrote sliding door.

5 These are new, I don't know if you all got
6 rid of the old ones that I've given you. If you
7 haven't, go ahead, and you want to give those to me
8 and I will shred them so we don't get those
9 confused. That's your newest version of that.

10 So, for the record, I had previously
11 marked that floor plan as Exhibit Number, Grand Jury
12 Exhibit Number 51. I'm going to remark the new one
13 that shows the door, as Grand Jury Exhibit Number
14 51. And I'm going to tear up the old one so we
15 don't get those confused. I'm just using the same
16 number, I just replace it with the accurate version.

17 And then so we have the week scheduled out
18 pretty busy, hopefully we're going to be chugging
19 along here and trying to get some of these witnesses
20 in and out.

21 We talked about you all seeing the
22 vehicle. We actually had a plan, we were going to
23 try to do that today, we have now discovered because
24 I had, I don't know if I was told this or I don't
25 recall who even told me, I had believed that Officer

1 Wilson's vehicle was back in service and the door
2 had been repaired and it was back on the road being
3 used as a police car in Ferguson.

4 But last week we learned that it is not
5 repaired and it is still missing the door. So we
6 can't really have somebody drive it down here. It
7 would draw too much attention if that was driving
8 around like that.

9 So I have a couple of options for you. We
10 could have the vehicle towed to a location where the
11 new call center is. There is a secure garage in
12 there. We could have the vehicle towed there and
13 then we could have you all, depending on the time of
14 day we do this. If we do it at the end of the day,
15 you all take your own vehicles out there, then you
16 could leave directly from there rather than coming
17 back to Clayton, or if necessary, we could get a van
18 and take you all out there together to see it.

19 Of course, then we'd have to bring you
20 back here to get your vehicles, so that is an
21 option. If you want to see the actual Ferguson
22 vehicle.

23 The limitations with that are going to be
24 that the door is not on the car. And we have the
25 door and I can throw the door in the back of the

1 truck and you all can look at the door, but it is
2 not going to be on the car.

3 And so depending on what you want to see,
4 it might be a better option for you if I could get a
5 Ferguson Tahoe, same year and same model and
6 everything, and that way you would have a complete
7 truck, in other words.

8 I will also tell you that I had someone
9 from the Crime Scene Unit go out and measure the
10 actual truck, the actual Ferguson vehicle points
11 like from the ground to the top, you know, the roof
12 from the ground to this and so forth. So we do have
13 actual measurements if those are important to you,
14 we'll give those to you as well.

15 So maybe during your lunch break today you
16 can talk about whether or not, if we just get a
17 lookalike Ferguson truck, we can do that here, we
18 had previously talked about doing that in the
19 sallyport here which is where prisoners are brought
20 in so they are automatic doors, it is secured, we
21 would be able to have that area for 30 minutes.

22 It is monitored by cameras because it has
23 to be, but we've arranged that the cameras would be
24 shut off so nobody is going to be seeing you.

25 Of course, no recordings will be made of

1 you while you are up around the vehicle. If we get
2 the lookalike, we can do it here. If we are going
3 to need the actual vehicle, we are going to have to
4 make the arrangements to take you to another
5 location to view that. So you can talk during your
6 lunch break about what you want to do, or if you
7 want to do both. If it is important that you see
8 both, we'll do whatever, okay.

9 How y'all doing, okay. I can't recall if
10 there was any other things that needed to be talked
11 about or brought up and if there are, yes.

12 : I saw on KSDK over the
13 weekend, or I think late last week, that they
14 indicated that Dr. who did the family
15 autopsy had mentioned that he was willing to come
16 and testify before us and also that there is
17 reportedly some of his findings doesn't agree with
18 our findings regarding some, I guess it is stippling
19 or whatever. So I know you put it out there already
20 inviting him to come at your request to come
21 testify.

22 I don't know if you've heard from him?

23 MS. ALIZADEH: The latest is we are trying
24 to get him here. He had not, still has not
25 completed his report. And he indicated that he

1 needed a copy of the St. Louis County Medical
2 Examiner's Report in order for him to complete his
3 report, which is protocol, it is.

4 And you will hear from medical examiners
5 we are going to bring in that that's necessary
6 because obviously when you are doing a second or
7 third autopsy, things that were done previously, you
8 need to know is this something that, you know, was
9 caused or created in the autopsy or is this a
10 different wound. And so it is not unusual and in
11 fact, you know, I don't want to say protocol, I
12 think that is the appropriate medical procedure is
13 to have the previous autopsy reports so that you can
14 know what was done previously.

15 Obviously, the bullets were removed
16 already and things that were done are not going to
17 be seen in a second or third autopsy.

18 So we have forwarded a copy of that to the
19 appropriate people to get to him. And so we've also
20 contacted the appropriate people to have him check
21 his schedule, let us know when he might be
22 available.

23 Obviously, we can't wait if I'm not
24 available until January, we're going to have to make
25 a decision on what to do about that in the event

1 that happens. But yes, we have things in place
2 right now where we are trying to get him to come
3 here and testify for you.

4 So that's being done and was there any
5 other things that you guys wanted or needed that?
6 . I was going to
7 see, we have learned a lot about Michael Brown
8 through testimony. I still don't know a lot about
9 Officer Darren Wilson.

10 I know we brought his supervisor in
11 briefly to talk about protocol, what happened that
12 day. His story was very different from Darren
13 Wilson's. Would be interested to know if we know
14 about what his morning was like.

15 MS. ALIZADEH: What?

16 : What his morning was like
17 that day. History, you know, behavioral, awards,
18 whatever that may be. I know a lot about Michael
19 Brown, but not a lot about Darren Wilson.

20 MS. ALIZADEH: We have his personnel file
21 and that is something we will get to you. Kind of
22 our strategy here is once we get done with all of
23 our eyewitnesses, then we are going to have some
24 experts still testify. And then probably the last
25 witness is going to be Detective who is the

1 primary case officer on this. And so a lot of, some
2 of that stuff is going to come in through him.

3 But we talked about the fact that there
4 may have been witnesses who testified earlier in the
5 process that now that you know more than you did
6 back then, you may wish us to recall some witnesses.

7 As you know, we cannot compel Officer
8 Wilson to testify. So all I could do is extend an
9 invitation if you wanted him to come back.

10 If anybody else that now you look at, you
11 know, what you now know and you are comparing what
12 the witness said previously. If you have additional
13 questions for any witness who has already testified,
14 just let us know and we will do our best to get them
15 in here again.

16 So we talked about that last week that you
17 know, this whole thing began two months ago so and
18 you've heard from, you know, what am I on now, how
19 many witnesses have we had, 47. We have had 47
20 witnesses. So it is a lot.

21 So you guys can discuss that as well. If
22 you want to recall any witnesses and again, it would
23 be an invitation to Officer Wilson if you wanted to
24 have him back. We would do what we can to get him
25 here.

1 Other matters is that we have the taped
2 statement of who testified last week
3 and it is an hour and 26 minutes or so. And if you
4 would like to hear that statement, we could play it.
5 If you just want to get the transcript, I can pass
6 that out to you, but that's something you can
7 discuss during lunch as well if you want to hear her
8 statement because we've got a witness here now so
9 we're going to play some statements of that witness
10 and then get her on the stand.

11 And then when this is close to being
12 concluded, Sheila and I are going to have to go
13 through the notes and the transcripts to make sure
14 that we've given you, we kind of got out of playing
15 all the statements before the witness and, you know,
16 we've proceeded with okay, we'll play those later.
17 I want to make sure that we don't miss anything that
18 there was a statement that we forgot to play or
19 present to you.

20 So we'll make sure we try to get that the
21 boxes checked off to make sure you guys have heard
22 everything.

23 So at this time now we're going to play
24 some recorded statements from a witness who we will
25 identify as Witness Number 48.

1 We have transcripts for two statements.

2 The first statement is ten minutes and 58 seconds.

3 The second statement is a minute 35 seconds, which
4 is just a phone call and then we have transcripts
5 for those two.

6 Then there is a third statement that is 22
7 minutes and 32 seconds with no transcript for that
8 since that was just done last week, and so I would
9 ask that we'll go pause the recording while we are
10 playing statements. , you do not need to
11 transcribe the first two statements, but I would ask
12 that you transcribe for the third one.

13 So at this time, if you the want to pause
14 that.

15 So now that we're paused, I will tell you
16 the two transcripts are together.

17 : A whole list of all the
18 witnesses so we make sure that we have them also
19 what you have.

20 MS. ALIZADEH: Absolutely, I have been
21 keeping track of that.

22 The other thing is over the weekend I was
23 trying to organize the exhibits and I'm still
24 missing Number 48. So if anybody keeps track of the
25 numbers.

1 MS. WHIRLEY: What is 48?

2 : Exhibit 48?

3 MS. ALIZADEH: It is the witness number
4 coincidentally.

5 MS. WHIRLEY: Okay .

6 MS. ALIZADEH: Is everybody ready to start
7 the statements? Okay.

8 (This will be the playing of the audio
9 recorded statements of Witness 48.)

10 (This is the playing of audio interview
11 number three of Witness Number 48 that is being
12 transcribed.)

13 : This is special agent

14 We are at FBI 2222 Market Street. It is
15 Wednesday, October 29th, 2014, approximately
16 9:21 a.m. I'm with USA and DOJ trial
17 attorney and we are here
18 interviewing.

19
20 Is your name
21 spelled

22 Uh-huh.

23 : Are you still at

24

25 No, no.

1 : What's your residence

2 address?

3 Um, I don't know the

4 address, but I know the street I live off of

5

6 Okay.

7 Where is that

8 Yeah.

9 : Okay. If I needed to get

10 ahold of you, what is best number to call?

11 I don't know, my mom.

12 : Your mom's, okay. What about

13 your godmother who is here with you?

14 She's probably the best

15 person to call. I wasn't even thinking about her.

16 : What's her name?

17

18 : She's waiting outside for

19 you here today?

20 Uh-huh.

21 : She came down with you?

22 : Do you know what her phone

23 number is?

24

25 Okay. And what's your date

1 of birth?

2

3 : And what's your social
4 security number.

5

6 :

7

8 : okay.

9

10 : Okay.

11 MR. All right. thanks for
12 being here today. We wanted to follow-up on some
13 statements that you gave before, all right. I know
14 that on August 14th you talked to investigators,
15 okay, and we just had a few questions about that and
16 wanted to follow-up.

17 Before we do that, I just want to go
18 through some preliminary things that we do with most
19 witnesses, okay, or basically I want to remind you,
20 obviously, you know this is being recorded, and you
21 have to say yes or no.

22 Yes.

23 MR. : Just because it is being
24 recorded you have to, if I ask you a question, yes
25 or no answer, be sure to a yes or no just so it

1 shows up on the tape, okay?

2 Okay.

3 MR. : I also want to tell you
4 don't answer any question you don't understand,
5 okay? If I ask you something and you're not sure
6 exactly what I mean by that, just feel free to ask
7 me to explain it, I will do that, all right, you
8 understand?

9 : Uh-huh.

10 MR. Basically we don't want you
11 to answer any questions that you don't understand.

12 All right.

13 MR. : All right. I need to warn
14 you that it is a crime to lie to the FBI or federal
15 investigators, okay?

16 Uh-huh.

17 MR. : So you need to be sure to
18 tell the truth today, you understand that?

19 : Yes.

20 MR. : Basically we are just
21 looking for the truth here. We've talked to a lot
22 of different witnesses and all we are looking for is
23 what you actually saw and heard on August 9th of
24 this year, okay?

25 : Uh-huh.

1 : I know there have been a lot
2 of things in the media and that sort of thing. If
3 you are going to refer to any of that or whatever,
4 that's fine, you just need to let us know, but
5 otherwise, we are just looking for what you actually
6 saw.

7 : Okay.

8 MR. : All right. Okay, I also
9 wanted to ask you are you under the influence of any
10 drugs or alcohol today?

11 No.

12 MR. Is there anything else that
13 would influence your ability to tell us the truth
14 today?

15 : No, just anxiety. That's
16 not going to stop me from telling the truth though.

17 MR. : You just a little nervous?

18 Yeah.

19 MR. : Okay. That's normal, don't
20 worry about that, that's perfectly normal.

21 : Okay.

22 MR. : Let's go back through. As I
23 said, I know that you gave a statement on
24 August 14th and I understand that on that date you
25 were in an minivan with your family; is that right?

1 : That's right.

2 MR. : Were you sitting in the
3 minivan?

4 I was sitting in the second
5 row, in the middle of the second row.

6 MR. : Did you have a clear view of
7 what was going on?

8 : Yes.

9 MR. : What was your view? I mean,
10 where were you looking?

11 The windshield.

12 MR. : All right. You looking the
13 front through the windshield?

14 Yes.

15 MR. : And you see a young man
16 that's standing near a police cruiser; is that
17 right?

18 Yes.

19 MR. : The young man, do you know
20 who that is now?

21 : I know now.

22 MR. : And based on just things
23 that have happened since then?

24 : I really don't like listen
25 to radio or news like that.

1 MR. Uh-huh.

2 : So the only thing I know is
3 his name for real that's because I have been back to
4 the complex

5

6 MR. : ?

7 : Yes.

8 MR. : What is the name of the
9 young man at the side of the police cruiser?

10 : Michael Brown.

11 MR. : Did you know that at the
12 time?

13 No.

14 MR. Did you know him at all?

15 : No.

16 MR. Okay. Is it okay then if we
17 just refer to that young man as Michael Brown since
18 you learned what his name is since then?

19 Yeah.

20 MR. : So you see him standing here
21 at the police cruiser?

22 Yes.

23 MR. : And the police cruiser is in
24 the street?

25 **A** Yes.

1 MR. : And what do you see
2 happening there at the police cruiser?

3 I see Michael Brown
4 standing in front of the cruiser by the driver's
5 side of the door.

6 MR. : Is he facing the police
7 cruiser?

8 : Yes.

9 MR. : Facing the driver's side
10 door?

11 : Yes.

12 MR. About how far away do you
13 think he is from the door?

14 A couple inches.

15 MR. Basically right there.

16 : Yeah.

17 MR. : What do you see?

18 : I see him talking, I don't
19 know really what he was doing. I know that he had
20 his back to me.

21 MR. : Uh-huh.

22 : His hands were in front of
23 him. I don't know like, if you see a person behind,
24 from the behind and you just see their arms, you
25 don't see them like hanging down.

1 MR. : Okay.

2 : You see them in front of
3 him?

4 MR. : So he's facing the police
5 cruiser's driver's side door?

6 : Yeah.

7 MR. : Is there a police officer in
8 the cruiser at the time?

9 Yes.

10 MR. : Where is the police officer?

11 : In the driver's seat.

12 MR. : Okay. I understand it is an
13 obvious question, but so the police officer is in
14 the driver's seat, Michael Brown is facing the
15 police officer?

16 Yes.

17 MR. : At the driver's side.

18 MS. : Just for the recording,
19 when you were demonstrating just a few moments ago,
20 you said his hands were forward. You held your
21 hands so that your elbows were bent at almost right
22 angles with your hands slightly above waist level in
23 front of you.

24 : Right.

25 MR. : Could you see what Michael

1 Brown was doing with his hand at that time?

2 No.

3 MR. You just know that his hands
4 were in front of him?

5 : Yes.

6 MR. And you say he was just a
7 few inches from the side of the police cruiser?

8 : Right.

9 MR. : Could you tell from your
10 angle whether or not his hands were inside the
11 vehicle or outside the vehicle?

12 I don't know if his hands
13 were in the vehicle.

14 MR. : You just couldn't tell?

15 : I just couldn't tell what
16 he was doing. I just seen that his hands were like
17 midway up, not like in the air, I don't know they
18 weren't hanging down, so I don't know what he was
19 doing.

20 MR. : His hands were in front of
21 him. You can't tell what he was doing with his
22 hands?

23 Right. And then heard two
24 gunshots. One, like I didn't really pay attention
25 to because I was in the middle talking to my sister.

1 And then the second one I clearly heard and then my
2 mother asked me were they shooting at each other? I
3 was like, I don't know. And then we look, we was
4 watching it and Michael Brown took off running down
5 Canfield the opposite of West Florissant, opposite
6 way.

7 MS. : Was there anybody besides
8 Michael Brown standing outside of the police
9 cruiser.

10 I didn't see the dude in
11 the gray pants, I didn't see him standing by the
12 cruiser.

13 MS. : Okay.

14 : I just seen him run from
15 like behind it like kind of and he took off running
16 across the field behind the other apartments.

17 MR. Okay. So when you first, do
18 you know who the other guy is?

19 No.

20 MR. : You don't know his name?

21 Huh-uh.

22 MR. Can you describe him?

23 He's a thin man, had on a
24 black T-shirt and I guess gray jogging pants and I
25 believe he had dreads.

1 MR. : Okay.
2 : He wasn't like --
3 MR. : He was a young black male?
4 Yes.
5 MR. : So thinner, dreads?
6 Uh-huh.
7 MR. : And a younger black male?
8 Uh-huh.
9 MR. : Is that right?
10 Yes.
11 MR. : So the first time you see
12 them you think he is somewhere around the back of
13 the police vehicle?
14 Right.
15 MR. : You see him take off
16 running?
17 Right.
18 MR. : When did he run, when did he
19 take off running?
20 : After the first shot was
21 fired, after the first two I heard.
22 MR. Then you say Michael Brown
23 after the second shot took off running down
24 Canfield?
25 Yes.

1 MR. : Okay. And at some point
2 then do you see the police officer get out of the
3 vehicle?

4 : Yeah, you seen the officer
5 hop out of his cruiser and he is running behind and
6 he's yelling stop. Then Michael turned around and
7 started charging towards the officer and the officer
8 still yelling stop. He did have his firearm drawn,
9 but he was yelling stop, stop, stop. He didn't, so
10 he started shooting him.

11 MR. All right. So the police
12 officer was yelling at him multiple times to stop?

13 : Yes.

14 MR. At any time the police
15 officer was yelling stop as he's charging at him,
16 did Michael Brown stop?

17 : He slowed down, I thought
18 he was going to stop, but he kept charging towards
19 him. Like he slowed down for a second and then he
20 started running again. Like he put his hand up in
21 the air like, he put his hands up and then he put
22 his hand like in front of him like this way.

23 MR. Let's talk about this, you
24 say he started to put his hands up?

25 Yes.

1 MR. Michael Brown did?

2 Yes.

3 MR. But then he pulled his hands
4 down and you demonstrated that you kind of had a
5 fist in front of you like at your chest height?

6 Right.

7 MR. : And can you describe, he had
8 his hands at his chest?

9 His hands were balled up.
10 He has his arms bent towards his chest and he's
11 running like, you know, almost like a tackle
12 running.

13 MR. : Okay.

14 And I see him shoot him. I
15 don't know, he wasn't going to stop. I don't know
16 how many times he shot him altogether, but like you
17 seen like one of the bullets hit him in the face,
18 cause you seen like the splatter from it. I'm
19 sorry, it distracted me for a second.

20 MR. : I understand, I understand.
21 You say it didn't look like Michael Brown was going
22 to stop.

23 : No.

24 MR. : He wasn't going of his own
25 volition going to stop?

1 : He was running, he slowed
2 down, and then he kept running and he shot him and
3 was like for a second he kind of like slowed down
4 and staggered. He kept charging, so he shot him
5 again.

6 MR. : All right. You said that
7 the police officer was at that time telling him to
8 stop?

9 : Yes.

10 MR. : Repeatedly. You said that
11 in your statement on August 14th that referring to
12 Michael Brown you said the boy wouldn't stop, he
13 fired three rounds, that would be the police
14 officer?

15 : Right, he fired the three
16 rounds first.

17 MR. And the dude kept running
18 and the police, you say the police officer fired
19 four more rounds?

20 : Yes.

21 MR. Does that sound about right?

22 : Yes.

23 MR. And then he finished off the
24 rounds and he fell on the ground, Michael Brown fell
25 on the ground?

1 : Right.

2 MR. : How did he fall, did you see
3 him fall?

4 : If you were in a standing
5 position, he kind of stopped and he kind of like
6 started to lean forward like this and then he kind
7 of fell on his knees and smacked the ground on his
8 face.

9 MR. : So he fell face first?

10 : Yes.

11 MR. : And when he was laying there
12 on the ground, he was laying face first on the
13 ground?

14 Yes.

15 MS. You indicated again, just
16 for the tape, you were standing up just now. You
17 had your right hand down near your waistband area
18 and your left arm was sort of hanging down loose, is
19 that how you recall it?

20 : No, that's just how I was
21 standing.

22 MS. : Okay, that's good. Do
23 you recall sort of what his hands were doing?

24 When he went from running
25 with his hands balled up like this.

1 MS. : His hands up by his
2 chest?

3 Yeah, he just kind of like
4 stopped and was standing there, and he kind of just
5 fell forward.

6 MS. : Okay.

7 MR. : As Michael Brown was running
8 away from the police officer, from the police car,
9 did you see the police officer shoot at him at all
10 at that time?

11 No, he did not fire at him.

12 MR. : How about, you said that
13 when Michael Brown turned around, he briefly, looked
14 like he briefly started to put his hands up?

15 : Right.

16 MR. : Was the police officer
17 shooting at him at that time?

18 : No.

19 MR. When did the police officer
20 start shooting at him after the first two shots in
21 the car?

22 Um, it took him a minute to
23 fire at him for real. I probably would have shot
24 him instantly you charge at me like that, but when
25 he was running back he was screaming stop, stop.

1 And the officer was backing up as he kept coming
2 closer to him and he didn't stop. So he shot him
3 three times and he was still charging towards him
4 and he shot him again, shot him four more times.

5 MR. : Okay. So the police officer
6 didn't start shooting again until Michael Brown was
7 actually charging at him?

8 Right.

9 MR. : As the police officer was
10 yelling for him to stop?

11 : Right.

12 MR. : You say he's actually
13 backing away from Michael Brown?

14 : Right.

15 MR. : All right. You want to take
16 a quick break?

17 MS. : Just a couple quick
18 follow-up then we can take a quick break. Did you
19 see the officer, what did the officer do after
20 Michael Brown fell to the ground?

21 : Got back up, I guess, I
22 don't know. I mean, he didn't actually walk up on
23 the body.

24 MS. : Okay.

25 MR. : Did you ever see him

1 approach the body at all?

2 : No.

3 MR. : Or the area around it?

4 Huh-uh.

5 MR. Okay.

6 MS. When you first came up on
7 this situation and you are in your family's minivan,
8 was Michael Brown already at the police car, was the
9 police car already stopped?

10 Uh-huh.

11 MS. There is already some
12 interaction as you come up?

13 Yes.

14 MS. : That's what makes your
15 vehicle stop?

16 : Yes.

17 MS. : When he was at the, when
18 Michael Brown was at the police vehicle, you
19 indicated that his hands were up in front of him and
20 you could see that from the back because you
21 couldn't see the lower part of his arms; is that
22 right?

23 Right.

24 MS. Could you see where his
25 head was?

1 Like it was just in front
2 of the car, like if you are standing, if you are
3 like standing in front of the car like this.

4 MS. : Okay.

5 : I don't know exactly what
6 it did.

7 MS. : Did you ever seen him
8 lean into the car?

9 : No.

10 MS. : At that point you said
11 you were talking with your sister?

12 : Yes.

13 MS. : It wasn't really until
14 that first shot went off that --

15 : Everybody just like.

16 MS. : Your full focus was on
17 what was happening?

18 : Right.

19 MR. When you say standing in
20 front of the car, you talking about facing?

21 Yeah, facing the cruiser.

22 MR. : Facing the driver's side.

23 Driver's side of the
24 cruiser.

25 MS. Did you guys stay where

1 you were when you pulled up here?

2 : Yeah, we pretty much

3 stopped.

4 MS. : And didn't move.

5 : There was a little girl

6 trying to hide on the side of our car from the

7 shooting.

8 MS. : Do you know who she was?

9 : No.

10 MS. Little girl, like a kid?

11 : Yeah, like maybe middle

12 school.

13 MS. : Oh, yeah. Then after

14 everything was done, after he's on the ground and

15 did you guys move your car, what did you guys do?

16 We stood there for a

17 second, we sat there in the vehicle for a second

18 like.

19 MS. : What do you do?

20 : Like, damn, you know, and

21 then I went on into cause I still had to go

22 right on

23

24 MS. Did you drive past the

25 body.

1 : Yeah.

2 MS. : Okay.

3 : But not down the street, I
4 turned into the parking lot. Say this is the
5 street, we're right here.

6 MS. : Okay.

7 There is multiple places
8 where you can drive into the parking lot. So we
9 went in, we made a left and we went around.

10 MS. : Okay. Around the
11 building?

12 There is still a parking
13 lot right here. We are at the bend where his body
14 was laying.

15 MR. : Who was in the van with you
16 that day?

17 : My mother, my father, my
18 sister, my older sister, and my niece, my younger
19 niece.

20 MR. : Okay. What is your mother
21 and father's name?

22

23

24 MR. : And then your sister who is
25 with you, your older sister?

1

2 MR. : How about the niece.

3

4 MR. : How old is she.

5

6 MR. : years old?

7

8 MR. : You want to take a break?

9 Okay. Why don't we take a quick break here. We
10 will take a minute or two. And then if you don't
11 mind, we will just leave the recording on so we
12 don't have to start it all over when we come back
13 in. You're welcome to stay here and wait or if you
14 want to go out with your godmother out in the lobby.

15 MS. : We'll just be a second.

16 MR. We will be right back.

17 (A break was taken at this time.)

18 MS. WHIRLEY: We are going to advance it
19 until it begins.

20 MR. : All right. Thanks for
21 waiting. We have a few more questions for you. I
22 think had a few follow-up questions she
23 wanted to ask.

24 : I just wanted to clarify.

25 You saw his friend, the thinner one with the dreads

1 run away? You didn't see him exit the car, you saw
2 him run past the police, you saw him run behind the
3 police cruiser?

4 : Yeah, I don't know if he is
5 directly behind me or if he was just on the other
6 side where I couldn't see. I just seen him run from
7 that way.

8 : When did you see, you saw him
9 run into the woods you say?

10 Not the woods, he ran
11 behind the apartment buildings on the other side of
12 the street.

13 : Okay. Let me just. So here,
14 that's West Florissant.

15 Uh-huh.

16 So about --

17 Right in between these
18 buildings.

19 : When did you see him do that?

20 Um, wait, yeah.

21 : If you are over here
22 somewhere?

23 Yeah, right over here where
24 these trees are.

25 : Okay.

1 That was like right after
2 the first two shots.

3 After the officer was still
4 in the vehicle?

5 : Yeah.

6 : You saw him run essentially
7 south, to your right while you are looking at it
8 right after those shots?

9 : Right.

10 : Okay.

11 MR. : Just to be clear, you talked
12 a little bit about where Mike Brown's hands were at
13 the time he was standing at the side of the police
14 vehicle.

15 Uh-huh.

16 MR. : And you wouldn't see if they
17 were in front of him; is that right?

18 : Right.

19 MR. Somewhere sort of waist or
20 chest height in front of him it looked like?

21 : Yes.

22 MR. : You didn't see his hands up
23 above his head?

24 No.

25 MR. : You didn't see hands like

1 down by his dies?

2 : No, they were in front of
3 him.

4 MS. : Could you see the officer
5 in the vehicle?

6 No.

7 MS. : Michael Brown is a big
8 guy, right?

9 : When he's standing in front
10 of the vehicle I could not see the officer.

11 MS. : Because Michael Brown was
12 blocking the vehicle basically?

13 : Yes.

14 : And then you said you have a
15 ?

16 : Uh-huh.

17 : Did she see it?

18 : No,

19 .

20 : Now, when you went because
21 you said you drove around, did you drive this way?

22 : Yes, and we had to pass
23 through this way. We came this way.

24 MR. So you kind of came around
25 the apartment building from behind?

[illegible]

1 have anything else. Thanks for your time today.

2 : Thank you.

3 : End the recording at

4 9:44 a.m.

5 MS. WHIRLEY: Good morning. This is
6 Sheila Whirley and Kathi Alizadeh is present and all
7 12 grand jurors, and , the court reporter. It
8 is November the 3rd, 2014, approximately 10:15 a.m.

9 That last recording that we heard was
10 Grand Jury Exhibit Number 58.

11 (Grand Jury Exhibit Number 58
12 marked for identification.)

13 MS. WHIRLEY: It occurred on October the
14 29th, 2014. The very first two recordings that we
15 heard were from Grand Jury Exhibit Number 17. And
16 those were, as you can see on the transcript, was
17 from August the 14th of 2014.

18 All of these recordings are related to the
19 witness, Witness Number 48. All of these are from
20 Witness Number 48 and we will hear from her
21 momentarily. We're going to get the witness.

22 MS. ALIZADEH: The first two you heard
23 were on Grand Jury 17.

24 : Okay.

25 MS. ALIZADEH: And those were both

1 recorded on August 14th. And the third one you
2 heard was on Grand Jury Number 58, and that was
3 recorded on October 29th of this year.

4 : Thank you.

5 WITNESS NUMBER 48,
6 of lawful age, having been first duly sworn to
7 testify the truth, the whole truth, and
8 nothing but the truth in the case aforesaid,
9 deposes and says in reply to oral
10 interrogatories, propounded as follows, to-wit:

11 EXAMINATION

12 BY MS. WHIRLEY:

13 Q Throughout this proceeding we intend to
14 refer to you as Witness Number 48, but for now would
15 you introduce yourself to the grand jurors and spell
16 your name for us, please?

17 A

18 Q

19 A (Nods head.)

20 Q Okay. And you don't live in Canfield
21 Green; is that correct?

22 A No, I do not.

23 Q Who is your parents?

24 A

25 Q Okay. And your sister?

1 **A**

2 **Q** And they were with you that day on August
3 the 9th, 2014?

4 **A** Yes.

5 **Q** Okay. Is there anything else we needed?
6 Let's go ahead and get started.

7 MS. ALIZADEH: Just so that we are clear
8 on this, and we talked to you about not using your
9 parents' name, just call them mom and dad and sister
10 so that when we begin the recording, we won't need
11 to redact if you say my mom, my dad, my sister,
12 stuff like that, okay?

13 **A** Okay.

14 **Q** (By Ms. Whirley) I'm going to stand toward
15 the back of the room so you'll speak loud enough for
16 us to have a conversation. I know there is a
17 microphone there by you, but it won't make your
18 voice louder.

19 **A** Okay.

20 **Q** If you can speak loud enough so everyone
21 can hear, okay?

22 **A** All right.

23 **Q** You know we are here regarding the Michael
24 Brown shooting?

25 **A** Yes.

1 **Q** Which one, which apartment?

2 **A** Um, this one. (indicating)

3 **Q** Okay.

4 **A**

5 **Q** All right. So where were you, about what
6 time of day was it that you were going to your
7 ?

8 **A** Like 12:15.

9 **Q** Speak up.

10 **A** It was like 12:15.

11 **Q** Which way were you traveling?

12 **A** I was coming down Canfield.

13 **Q** From West Florissant?

14 **A** Yes.

15 **Q** Okay. And you were, what kind of car were
16 you in?

17 **A** A minivan.

18 **Q** Minivan with your parents?

19 **A** Yes.

20 **Q** And where were you seated in the minivan?

21 **A** I was in the second row in the center.

22 **Q** Was there anyone on the either side of
23 you?

24 **A** Yeah, my sister was to the left of me and
25 my niece was behind me.

1 **Q** Okay. Did you have a pretty clear view of
2 what was ahead?

3 **A** Yes.

4 **Q** All right. So you're traveling east on
5 Canfield Drive from West Florissant?

6 **A** Yes.

7 **Q** Did you see the police car?

8 **A** Yes, I seen the cruiser.

9 **Q** Cruiser, describe it, what did it look
10 like?

11 **A** It was an SUV, um.

12 **Q** What color?

13 **A** It was white.

14 **Q** Was it marked as a police car?

15 **A** Yes.

16 **Q** Okay. So where did you see it, you were
17 showing us on the map?

18 **A** Like in this right here, I believe.

19 (indicating)

20 **Q** Like near Canfield Drive?

21 **A** Our vehicle was here on Coppercreek.

22 **Q** Okay. Were there any cars ahead of you
23 before you reached the police cruiser?

24 **A** No, the only thing that was in front of us
25 was the cruiser and Michael Brown, his back towards

1 us, standing up on the cruiser. It was like maybe a
2 few inches away from it.

3 Q How close I should say were you to the
4 cruiser?

5 A I'm not sure how many feet.

6 Q Like if you were to judge it by car
7 lengths, you said there were no cars in front of
8 you, but was there a space for a car to be in front
9 of you before you --

10 A There was enough space for at least like
11 two cars.

12 Q About two car lengths?

13 A Yeah.

14 Q And which way was the cruiser, we will
15 refer to it as cruiser, was it facing?

16 A He was facing towards West Florissant.

17 Q Was he parallel?

18 A He was slightly angled going onto Canfield
19 Drive like he was going to turn into the parking
20 lot.

21 Q Which way?

22 A This way. (indicating)

23 Q Like he was going to turn that way?

24 A Yeah.

25 Q But was he facing east or west on Canfield

1 Drive?

2 **A** I guess west.

3 **Q** This is West Florissant?

4 **A** Yeah.

5 **Q** So that would be west, he was facing west?

6 **A** Uh-huh.

7 **Q** You were facing east?

8 **A** Yes.

9 **Q** Now, you mention Michael Brown, Michael
10 Brown was, what was Mike Brown doing?

11 **A** He was standing at the cruiser like in
12 front of it. I really don't know what he was doing,
13 but he had his hands at least waist in front of him.
14 I'm not really sure what he was doing.

15 **Q** Could you see his hands?

16 **A** No.

17 **Q** All right. How did you know his hands was
18 at the waist?

19 **A** Because if you see something from the
20 back, you can tell that their hands are not dropped
21 or up, you can see them in front of you.

22 **Q** You didn't see them dropped or up?

23 **A** Right.

24 **Q** Okay. From your viewpoint, would you be
25 looking at the driver's side or the passenger side

1 of the police cruiser?

2 **A** The driver's side.

3 **Q** So you were looking at the driver's side?

4 **A** Yes.

5 **Q** You were sitting in the center?

6 **A** Right.

7 **Q** Okay. Did you notice the car moving and
8 when I say moving, I don't mean driving, I mean like
9 shaking or any motion to the car?

10 **A** I'm not sure if the car was rocking or
11 anything because I was in conversation with my
12 sister. And I didn't really notice what was going
13 on until I heard the first two gun fires.

14 **Q** So initially when you saw the car, you
15 didn't think much of it?

16 **A** Right.

17 **Q** You couldn't tell that there was some kind
18 of altercation or something going on?

19 **A** No, I couldn't.

20 **Q** All right. So you heard, you say two
21 gunshots?

22 **A** Yes.

23 **Q** When you heard the two gunshots, where was
24 Michael Brown at that time?

25 **A** He was on the side of the police cruiser

1 at the driver's side and that's when he took off
2 running.

3 Q You actually saw him take off running?

4 A Yeah, we actually sat in the van and
5 watched him run down the street and then he turned
6 around and came back towards the officer.

7 Q Did he appear to be injured when you saw
8 him running?

9 A No, I'm not sure if he was injured.

10 Q You couldn't see any blood or anything?

11 A No.

12 Q Which way, show us with the laser pen
13 which way he was running?

14 A He was running east down Canfield, right
15 here. (Indicating)

16 Q And what --

17 A The officer hopped out of his cruiser and
18 chased him down Canfield. They got like right about
19 here and then Michael turned around and charged
20 towards. The officer and the police officer drew
21 his gun and he was like stop, stop, stop and he shot
22 him.

23 Q Okay. When the officer got out of the
24 car, was he running too?

25 A He was running behind Michael, he wasn't

1 really close to him.

2 Q Okay. Did he have his gun out at that
3 point?

4 A No.

5 Q You didn't see his gun when he got out of
6 the car?

7 A No.

8 Q Did he shoot it, well, you didn't see his
9 gun, did you hear any shots?

10 A No, he did not fire at Michael while he
11 was running away from him.

12 Q Okay. So when did you see the officer's
13 gun?

14 A I seen the officer's gun when Michael
15 turned around and was charging at him.

16 Q So he didn't pull his gun out of the
17 holster until Michael Brown started to charge him?

18 A Charge him, right.

19 Q Okay. So when he was running, I think you
20 said he was yelling stop?

21 A I heard him yell stop at least three
22 times.

23 Q When was the first time you heard him yell
24 stop?

25 A When he was chasing, when he was chasing

1 down Canfield.

2 Q So Michael Brown's back was to him?

3 A Turned to him, he was like stop.

4 Q He was chasing him, he was yelling stop?

5 A Yes.

6 Q He did not have his gun out as he was
7 yelling stop?

8 A No.

9 Q No?

10 A No, he didn't.

11 Q Michael Brown turns around?

12 A And starts to run towards the officer and
13 the officer drew his gun and he pointed it at him
14 and he was like stop, stop. And he was like going
15 in reverse, like backing up.

16 Q The officer was backing up?

17 A Yes.

18 Q Would you mind standing up for me, please?
19 What's on your arm, by the way, I couldn't help but
20 notice?

21 A A tatoo that time.

22 Q What does it say?

23 MS. ALIZADEH: I don't want her to say
24 that.

25 Q (By Ms. Whirley) Can you demonstrate for

1 us how Michael Brown was coming towards the officer?

2 **A** He was like charging towards the officer
3 withs his hands drawn up like this in a fist running
4 towards him. (indicating)

5 **Q** Come towards me?

6 **A** Almost like a football, I'm not going to
7 run.

8 **Q** You don't have to run, kind of like walk
9 towards me. Like that?

10 **A** Yeah.

11 **Q** And the officer, can you show me how the
12 officer was going backwards?

13 **A** He had his gun drawn. He was like stop.
14 He was backing up, he was like stop and he didn't,
15 so he shot him three times.

16 **Q** Three times?

17 **A** He kept yelling stop and Michael kept
18 coming towards him.

19 **Q** At the time that they are, at this
20 intersection --

21 **A** We're stopped.

22 **Q** You're stopped back here? (indicating)

23 **A** Yeah.

24 **Q** But you could see?

25 **A** We was closer towards the trees right

1 here. (indicating)

2 Q Did you get out of the car at any time?

3 A No.

4 Q You stayed in the car as you were watching
5 all of this?

6 A Yeah.

7 Q And you were right around here?

8 (indicating)

9 A Uh-huh.

10 Q And it was occurring up here?

11 (indicating)

12 A It was like right here. (indicating)

13 Q Any idea how far that is apart?

14 A No, it is not that far.

15 Q Okay. Some additional car distances
16 though?

17 A Uh-huh.

18 Q All right.

19 A It was right here in this area.

20 (indicating)

21 Q Is your vision pretty good?

22 A Yes.

23 Q You don't wear glasses or anything?

24 A No.

25 Q And you can hear pretty well?

1 **A** I can hear just fine.

2 **Q** Okay. At any time did it look like
3 Michael Brown had anything in his hands?

4 **A** No.

5 **Q** Okay. Or that he was reaching for
6 anything?

7 **A** No.

8 **Q** Did you ever see his hands near his waist?

9 **A** No.

10 **Q** Did you ever see his hands raised up?

11 **A** No, he looked like he was going to raise
12 his hands at one point, but he didn't. He just
13 continued to run forward. It looked like he thought
14 about it, and then he didn't.

15 **Q** Okay. Tell us what you mean, demonstrate
16 what you mean he thought about it, looked like he
17 thought about it?

18 **A** I mean like, he's running and then he like
19 stopped, he put his hands up like this and then he
20 kind of brought them back down and started running.
21 (indicating)

22 **Q** Okay. That's when he charged towards the
23 officer?

24 **A** He was running already, he was still in
25 the process of running, should I say.

1 **Q** Did you ever hear Michael Brown say
2 anything?

3 **A** No.

4 **Q** Any idea how many shots you heard total?

5 **A** At least eight or nine.

6 **Q** Okay. You heard two at the car and then
7 you --

8 **A** Then I heard three and then like four more
9 shots, maybe like one or two more after that.

10 **Q** And all of these were when Michael Brown
11 was charging the officer?

12 **A** Yes.

13 **Q** Did you hear any shots after Michael
14 Brown, at some point he fell; is that right?

15 **A** Yeah, that was after he fired the last
16 shot.

17 **Q** Okay. So you didn't hear any shots after
18 he fell?

19 **A** Huh-uh.

20 **Q** Did you see any of the shots hit him?

21 **A** I seen the one hit him in the face because
22 you could see like the blood spatter, you couldn't
23 really see the bullets themselves, but you seen like
24 the blood fly away from his face. I don't know
25 exactly where it hit him.

1 **Q** Okay. But you could see blood splatter?

2 **A** Yeah.

3 **Q** Near his face?

4 **A** Right.

5 **Q** How did he fall?

6 **A** Um, he kind of just dropped, like he
7 stopped and he kind of like fell forward and like
8 smacked the ground with his face.

9 **Q** I think in one of your reports he did fall
10 on his knees?

11 **A** He like hit his knees and he like just
12 fell.

13 **Q** Now, did you ever see anyone with Michael
14 Brown?

15 **A** Um, I seen a dude before all the shooting
16 happened, there was a guy, thinner dude with
17 Michael. He had on a black T-shirt and some gray
18 jogging pants.

19 **Q** Okay.

20 **A** I really didn't get like a good look at
21 his face.

22 **Q** Tell us how his hair was?

23 **A** He had dreadlocks.

24 **Q** Was he at the police car too when you
25 first noticed Michael Brown?

1 **A** I was behind him. I didn't see where he
2 came from.

3 **Q** When you looked and saw Michael Brown at
4 the police car, did you see him also?

5 **A** I didn't see him up on the cruiser but
6 when the first two shots had been, he was like in
7 this area behind the cruiser and he took off running
8 along side of Building 18.

9 **Q** That's the way you saw him running. Did
10 you ever see him reappear?

11 **A** No.

12 **Q** Did you take a video or anything of that
13 occurrence?

14 **A** No. Somebody stole my cell phone.

15 **Q** Somebody stole your cell phone?

16 **A** (Nods head.)

17 **Q** Like that day or earlier?

18 **A** Previous.

19 **Q** Previously. Do you know anybody who did
20 make a video of this occurrence?

21 **A** No.

22 **Q** Okay. Now, did you discuss what was
23 happening with the people that were in the car with
24 you?

25 **A** The only thing we said was, my mom was

1 like, did they shoot him? I was like, yeah, they
2 shot him. I was like, he just shot the fuck out of
3 him, that was all that was really said.

4 **Q** Do you know whether your mother saw it or
5 not?

6 **A** My mother saw the shooting, she just
7 didn't know if they were shooting when the first two
8 fires popped off.

9 **Q** Okay. All right. I think I already asked
10 you, you said you didn't know any of the people that
11 were involved in the shooting?

12 **A** Huh-uh.

13 **Q** Is there anything else that I didn't ask
14 you that you thought you need to tell us?

15 **A** No.

16 **Q** No?

17 **A** (Nods head.)

18 MS. WHIRLEY: Okay, Kathi?

19 **Q** (By Ms. Alizadeh) Ma'am, just to be clear.
20 We've listened to statements that you made that a
21 police officer talked to you, a detective on
22 August 14th?

23 **A** Uh-huh.

24 **Q** And I know you were using a map to show
25 him certain things. And we can't see what you were

1 doing, but can you show the grand jurors after your,
2 who was driving the van?

3 **A** My mother.

4 **Q** So after the shooting happened, did your
5 mother drive away?

6 **A** Yes.

7 **Q** Can you show on the map the route that you
8 took?

9 **A** We turned into Coppercreek, we went along
10 the back on
11 Coppercreek.

12 **Q** So when you earlier used the laser pointer
13 and you said your cars was about right here?
14 (indicating)

15 **A** Yeah, about right here.

16 **Q** That's a little east of Coppercreek Road?

17 **A** Okay.

18 **Q** Did your mom have to turn the car around
19 did she have to put it in reverse?

20 **A** We were really just parked right here by
21 the trees, just kind of back up a little bit. We
22 was going to come down the street this way.

23 **Q** So you didn't get farther than Coppercreek
24 Road?

25 **A** No.

1 **Q** Your mom didn't have reverse?

2 **A** No, she backed up a little bit, yes.

3 **Q** Okay. Was there any cars behind her?

4 **A** No.

5 **Q** You didn't see any cars behind her?

6 **A** No, but there was a girl standing here.

7 **Q** Okay. So you had mentioned in your
8 statement, you called her a little girl. Thought
9 maybe she was in middle school?

10 **A** Right.

11 **Q** Was she white, African-American?

12 **A** No, African-American.

13 **Q** African-American, okay. She by herself?

14 **A** Yes.

15 **Q** Did she have anything about her that you
16 recall descriptively, long hair, short hair?

17 **A** She had her hair in a ponytail. She had
18 glasses on, looked like she got out of school.

19 **Q** So when you went around here and I'm
20 pointing on Coppercreek Road and it kind of goes
21 into the northern part of the subdivision, did you
22 go directly then to your ?

23 **A** Uh-huh. I
24 and then I left.

25 **Q** So you didn't stay?

1 **A** Huh-uh.

2 **Q** Did you leave with your family then?

3 **A** Uh-huh.

4 **Q** How did you get out of the complex?

5 **A** We went back down Coppercreek.

6 **Q** The way you had come?

7 **A** Uh-huh.

8 **Q** So when you came back down here, were you
9 able to drive west on West Florissant?

10 **A** Uh-huh.

11 **Q** There weren't a bunch of police cars?

12 **A** Oh, yeah, they were flying down the
13 street, but we were on the opposite side of the
14 street. I mean, they didn't have it blocked off
15 yet.

16 **Q** So you were, once you turned to go west on
17 Canfield Drive, did you see police vehicles coming
18 east?

19 **A** Yeah, a lot of them.

20 **Q** So you never got down to this area where
21 Michael Brown was?

22 **A** I had no reason to go down there.

23 **Q** You mention that you'd been down there,
24 you had mentioned in one of your statements that you
25 have been down there since?

1 **A** Yeah.

2 **Q** Have you seen the memorial in the street?

3 **A** Yeah.

4 **Q** Was that where you saw his body fall or is
5 that someplace else?

6 **A** No, that is where his body fell.

7 **Q** Okay.

8 **A** But you know they have kind of got the
9 memorial back on the sidewalk. They have a little
10 bit of stuff in the street, but other than that.

11 **Q** Okay. So there's a bunch of teddy bears
12 and candles and stuff in the middle of the street?

13 **A** Roses.

14 **Q** And then there's also another place where
15 candles and teddy bears and flowers and stuff?

16 **A** Along the light post.

17 **Q** Along the light pole. Is it on the corner
18 of Coppercreek Court and Canfield Drive?

19 **A** It's actually more where that car is right
20 there. It is not exactly on the corner it is here.

21 **Q** The other one is not in the street?

22 **A** Right.

23 **Q** Okay. Now in your, you talked about being
24 with your mom and your dad and your sister. When
25 the police came to talk to you, where did they,

1 where did you speak to the police, where were you
2 physically?

3 **A** Which time?

4 **Q** The first time?

5 **A** The first time I was

6 **Q**

7 **A** Yes.

8 **Q** Okay. And you don't live in Canfield?

9 **A** No.

10 **Q** Do you know how the police found you

11

12 **A** No.

13 **Q** Okay. So they just knocked on the door
14 and said, hey, we want to talk to you about what you
15 saw?

16 **A** Pretty much. And then they said that my
17 mother was the reason they had my name.

18 **Q** Okay. So are you close with your parents?

19 **A** Yes.

20 **Q** After this happened, I know you said
21 immediately after it happened your mom was like,
22 made some kind of comment about, did they just shoot
23 him or something, but afterwards, did you talk about
24 what you saw with your family?

25 **A** No.

1 **Q** Never have?

2 **A** (Shakes head.) I mean, nothing really to
3 talk about. Just seen somebody get shot, okay. I
4 mean, it is tragic, but I didn't know him so I
5 didn't have sympathy for what was going on. I felt
6 like he brought it on himself because if you are
7 going to go rob a place and then fight with the
8 officer, of course they're going to shoot you.

9 **Q** So let's back up now. You commented just
10 now if you are going to rob a place and then fight
11 with the police officer. Now, you didn't see --

12 **A** I didn't see the robbery or the fight with
13 the officer, no, I didn't.

14 **Q** So let me ask a question. So those are
15 things that you learned afterwards?

16 **A** Uh-huh.

17 **Q** And you said yes?

18 **A** Yes.

19 **Q** Did you learn those things before you made
20 your statement on August 14th?

21 **A** What statement?

22 **Q** The first officer that came to talk to you
23 at your apartment, at that time did you know or had
24 you learned or heard that Michael Brown had robbed
25 the place?

1 **A** I did not know that he had robbed any
2 place. I didn't know why they were doing it.

3 **Q** Okay.

4 **A** I didn't know his name until long
5 afterwards either.

6 **Q** When did you learn, if you remember, that
7 Michael Brown, or when did you hear that Michael
8 Brown had robbed the place?

9 **A** I heard that after I seen it on the news
10 where they had burned down the QuikTrip in Canfield.

11 **Q** Where they had what?

12 **A** They had burned down the QuikTrip on West
13 Florissant.

14 **Q** It was after that the QuikTrip burned
15 down?

16 **A** Uh-huh.

17 **Q** And then, and certainly then you also knew
18 that when you gave your statement to the FBI and the
19 U.S. attorney last week?

20 **A** Uh-huh.

21 **Q** When you say uh-huh, you say yes?

22 **A** Yes.

23 **Q** Thank you. So you are saying that you
24 never talk to your family about what you saw. You
25 know, and the reason I ask this, ma'am, I think it

1 is understandable when people see the same thing to
2 kind of discuss it with each other just because oh,
3 my God, can we believe we just saw that?

4 **A** I mean, we were surprised and, you know,
5 but never really talked about it like that.

6 **Q** So you never like, you know that your mom
7 had talked to the police, right?

8 **A** Yeah, but I was trying to avoid her giving
9 them my name. So, yeah, I really wasn't talking to
10 her.

11 **Q** You know that your dad talked to the
12 police?

13 **A** Uh-huh.

14 **Q** And do you know that I have talked to your
15 parents about trying to get you to call me, did they
16 talk to you about that?

17 **A** Yeah, they contacted me and told me you
18 were trying to call me and I called several times
19 and I didn't know your name. So they were like,
20 well, if you don't have her name, we can't help you.
21 And I was like okay.

22 **Q** So you're saying you called my office and
23 asked for the prosecutor handling the Michael Brown
24 shooting and nobody knew who that was?

25 **A** Yes, that's what I'm telling you.

1 **Q** And so it was actually last week that you
2 and I, and actually, I never spoke to you on the
3 phone, but we connected last week through somebody,
4 another , right?

5 **A** (Nods head.)

6 **Q** Yes?

7 **A** Yes.

8 **Q** And in your statements previously you used
9 the word charged. You said that you saw Michael
10 Brown charge the officer?

11 **A** That's right.

12 **Q** Did you hear anybody prior to you making
13 your first statement, and your mom made her
14 statement on the 11th and your dad made his
15 statement two or three days after that, and you made
16 your statement on the 14th. Did you ever hear your
17 mom or dad use that term charged?

18 **A** No.

19 **Q** Okay.

20 **A** Like I said, we never really talked about
21 it.

22 **Q** So that is a word that you used that I
23 picked to describe what you saw?

24 **A** Yeah.

25 **Q** And you also said that the officer said

1 stop, stop, stop?

2 **A** Right.

3 **Q** Do you recall if the windows were open or
4 closed that day?

5 **A** They were opened.

6 **Q** So you're saying you could hear him and
7 when you said it for the grand jurors you kind of
8 just spoke it, stop, stop, stop, is that how he said
9 it?

10 **A** No, he was yelling.

11 **Q** You could hear it as he was yelling?

12 **A** Yes.

13 **Q** Did you hear anybody else yell or anybody
14 else say anything?

15 **A** No.

16 **Q** Didn't ever hear Mike Brown say don't
17 shoot?

18 **A** No.

19 **Q** Or nothing like that?

20 **A** No.

21 **Q** Did you, other than the little girl that
22 you saw by your van, did you see anybody else, and
23 you also talked about the skinnier boy with the
24 dreads, did you see anybody else around here?

25 **A** No.

1 **Q** What about other cars that were maybe
2 behind the police car?

3 **A** There were no cars on the street. There
4 was no cars. All the cars were on the parking lot.

5 **Q** So you didn't see like a white Monte Carlo
6 or any other cars that were behind the police car?

7 **A** No.

8 **Q** After the shooting, did you see a car
9 drive up in the grass to drive around the police car
10 to leave the apartment complex?

11 **A** No.

12 **Q** Are you saying you didn't see it or you
13 saying it didn't happen?

14 **A** I'm saying if it did happen, it had to be
15 after we pulled completely away from Canfield while
16 we were there it did not happen.

17 **Q** Okay. This is one of those things that
18 always want to make sure to clarify when you say no,
19 you didn't see it on anything. My question is, is
20 that because it didn't happen or are you saying I
21 just didn't see it or it could have happened, I just
22 didn't see it.

23 Was there ever a time in the van when
24 you looked away or put your head down or ducked?

25 **A** No.

1 **Q** You never like got down in the van once
2 you heard the first shots?

3 **A** No.

4 **Q** Have you heard --

5 **A** I was too busy watching what was going on.

6 **Q** Have you heard gunshots before?

7 **A** All the time.

8 **Q** So when you heard those first two shots,
9 did you immediately recognize that as gunshots?

10 **A** Yes.

11 **Q** Yes. Didn't sound like firecrackers or
12 anything?

13 **A** No.

14 **Q** Did you ever see the officer's hands or
15 arms or a arm or hand come out of the driver's
16 window?

17 **A** No.

18 **Q** Did you see his gun come out of the
19 driver's window?

20 **A** No.

21 **Q** Is it because it didn't happen or because
22 you didn't see it?

23 **A** I did not see a gun out of the window at
24 all.

25 **Q** Okay. And were you, when you said that

1 you were looking at the driver's side of that car,
2 you see the back of Michael Brown?

3 **A** Correct.

4 **Q** So he's a big guy, right?

5 **A** Yeah.

6 **Q** His body would have been blocking the
7 window; is that right?

8 **A** That's right.

9 **Q** As far as how Michael Brown was, I know
10 you already described what you observed as far as
11 his arms and you said you couldn't see his hand, but
12 did you see his body moving in any way or was he
13 standing still?

14 **A** He was just standing there. I don't think
15 he was really moving like, nothing like that in
16 front of the cruiser and then you see him take off
17 running after the first two shots that's all I seen.

18 **Q** All right. So now you're saying that you
19 didn't want your mom to give the police your name,
20 is that because you didn't want to be involved or is
21 there another reason?

22 **A** Because I didn't want to be involved and I
23 didn't want to be sitting here doing this.

24 **Q** I understand. You're not the first person
25 to say that. Do you know, did your mom and/or dad

1 have a discussion with you and your sister about
2 coming forward to talk to the police?

3 **A** No, she just told me that she felt bad she
4 didn't say nothing. And I was like, if you feel
5 bad, then go say something. I didn't know she was
6 going to tell y'all my name. Under oath you've got
7 to tell the truth.

8 **Q** What about your sister. Now, has your
9 sister, to your knowledge, talked to any police?

10 **A** I don't think she has.

11 **Q** When is the last time you talked to your
12 sister?

13 **A** Yesterday.

14 **Q** Okay.

15 MS. ALIZADEH: I don't have any other
16 questions. Grand jurors may ask you questions next.
17 Any questions from any of the jurors?

18 . I want to
19 go back to the minivan, figure some things out about
20 the layout of the minivan. What color is this
21 minivan?

22 **A** It is

23

24 **A**

25 : Your mom was driving?

1 **A** Correct.

2 Your dad was on the --

3 **A** Yeah, passenger side in the front.

4 : You were in the second
5 row?

6 **A** Right.

7 : And you said your niece
8 was behind you?

9 **A** Correct.

10 : This vehicle has three
11 rows?

12 **A** Yes.

13 So you said you were in
14 the middle?

15 **A** Correct.

16 You could see straight out
17 the window?

18 **A** That is correct.

19 Okay. Most minivans the
20 layout is when you open the door --

21 It's got the two seats and
22 then it's got two seats.

23 : Bench seat is in the back?

24 **A** Right.

25 : I was trying to figure out

1 how you got in the middle?

2 **A** Because I was in the spot where there is
3 no seat. I was on the seat, but I was already in
4 the middle doing something with my sister, and when
5 we were turning in. I mean, I know that sounds bad,
6 supposed to have your seatbelt on and all of that
7 stuff, but that is how I was sitting.

8 : Okay. You mentioned that
9 you was bringing something to your Could
10 you tell us what you were bringing to your ?

11 **A**
12
13 Can you
14 tell me the year and make of the minivan that you
15 were in?

16 **A** No, I cannot.
17 : Do you know Dodge, Chevy,
18 Ford?

19 **A** No, I don't know any of that.
20 : So you're saying you were
21 not sitting in the middle, you were leaning in the
22 middle?

23 **A** No, I was sitting in the middle. There's
24 like in between the spot, between the seats and
25 stuff there is a little thing right there. I don't

1 know what it is called, but yes, I was sitting there
2 because I was talking to my sister and I was leaning
3 over doing something and I had my dog, but other
4 than that, yes, I was sitting in the middle.

5 MS. ALIZADEH: You had what?

6 **A** My dog, I have a

7 MS. ALIZADEH: So your dog was in the van
8 with you?

9 **A** Yeah.

10 MS. ALIZADEH: Okay. I didn't know that
11 before, okay.

12 When you
13 saw someone standing outside of your window, I guess
14 on the sidewalk, was it a younger female?

15 **A** Yes, a little girl.

16 : What did she do during all
17 of this?

18 **A** She just kind of ducked on the side of our
19 van. That is another reason why we just didn't pull
20 off.

21 : She stayed there the whole
22 time?

23 **A** Yes.

24 Until the final shots were
25 fired?

1 **A** Yes.

2 : Okay, thank you.

3 MS. ALIZADEH: Ma'am, when this all
4 started, were you focused on what was going on in
5 front of you?

6 **A** I was not when it first happened, I didn't
7 really pay attention until the first gunshot, but
8 then when I heard the first one, I immediately was
9 looking out the window.

10 **Q** (By Ms. Alizadeh) So my question is in
11 response to one of the questions of the grand
12 jurors, were you paying attention to what the girl
13 was doing the whole time, or was it that after it
14 was over you looked there and she was still there?
15 How do you know she stayed next to your van the
16 whole time?

17 **A** Because she was there when we, when
18 everything was getting ready to turn off, she was
19 still standing by the side of my vehicle.

20 MS. ALIZADEH: Okay.

21 **A** She was walking up the street when we
22 stopped. You seen her walking up the street, I
23 mean, I pay attention to everything that's going on
24 around me.

25 MS. ALIZADEH: Was she walking toward West

1 Florissant?

2 **A** No, she was walking east.

3 MS. ALIZADEH: Okay.

4 . So I just want
5 to make sure you're saying that your van was, your
6 car, your van was on Canfield at Coppercreek, or a
7 little to the east?

8 **A** Correct.

9 You did not, I'm asking
10 this question, did you or did you not know about the
11 robbery?

12 **A** No, I didn't.

13 : And the fight with the
14 police officer when you gave your statement to the
15 officers on August 14th?

16 **A** No.

17 : You did not know about
18 that at the time?

19 **A** No.

20 : I just want to make sure,
21 you said you didn't see the officer have his gun
22 drawn when he got out of the car. I want to make
23 sure that you saw him draw his gun or you didn't see
24 him, did you actually see him draw his gun?

25 **A** When he got out of the vehicle, ma'am, he

1 had his hand on his waist.

2 : Okay.

3 **A** He was chasing after Michael.

4 Okay.

5 **A** He didn't have his gun strawn until
6 Michael actually turned around and started coming
7 towards him.

8 : Okay. I just want to
9 make sure that the police cruiser is pointed towards
10 West Florissant?

11 **A** Right.

12 It is at an angle?

13 **A** Right.

14 : And you were in front of
15 the car?

16 **A** Correct.

17 : There were about two car
18 lengths between you and the police officer's car.
19 Nobody was in front of you?

20 : No.

21 Nobody was behind you?

22 : What about the inside of
23 the police officers car you didn't see anybody, any
24 car, nothing?

25 **A** No.

1 : And can I ask how old are
2 you?

3 **A**

4 Were you living with your
5 parents?

6 **A** No, I was staying on

7

8 : Okay. That's all.

9 MS. ALIZADEH: I just, I didn't ask you
10 this and I apologize if Sheila asked you this. Can
11 you use the laser pointer and show me on that map
12 Grand Jury Exhibit turn around to pace.

13 **A** He was right here. He started running
14 this way.

15 **Q** (By Ms. Alizadeh) So are you, some people
16 are good, some people are not good about estimating
17 distances.

18 **A** Okay.

19 **Q** Are you good at estimating distances do
20 you think?

21 **A** Pretty good.

22 **Q** Can you give an estimate as to how many
23 feet. And if you can't do feet, Sheila had said
24 before use car lengths as an explanation, but how
25 far he traveled from the time he turned around until

1 he fell into the street or fell on the street.

2 **A** I'd said about two or three feet.

3 **Q** About what?

4 **A** Two or three feet.

5 **Q** Two or three feet. So you had used the
6 laser pointer to say he was about right there when
7 he turned around?

8 **A** He turned around here. (indicating)

9 **Q** Where did his body come to rest?

10 **A** Right here. (indicating)

11 **Q** So where I'm pointing is that about right?

12 **A** Uh-huh.

13 **Q** Did you ever see him run off of the
14 street?

15 **A** No.

16 **Q** Never saw him get in the grass or turn up
17 into a park lot or anything?

18 **A** He didn't do that.

19 MS. WHIRLEY: I want to make sure I heard
20 clearly. When he turned around and charged the
21 officer, he only moved two feet, two to three feet.

22 **A** I'm not exactly sure how many feet it was,
23 but I know for a fact that he was in front of this
24 patch of grass when he turned around and I know that
25 his body landed here for a fact because I was

1 standing there and I seen the whole thing.

2 MS. WHIRLEY: Okay.

3 **A** Or I was sitting there.

4 MS. WHIRLEY: You kind of described it as
5 charging at the officer once he turned around?

6 **A** Right.

7 MS. ALIZADEH: So you're saying he only
8 moved a couple of feet, though, in that charge?

9 **A** Well, yeah, because he didn't get far
10 before the officer started firing because I wasn't
11 going to, he didn't let anyone run up on him.

12 MS. WHIRLEY: So as soon as he turned
13 around and started moving towards the officer two to
14 three feet, the officer started firing?

15 **A** Yes.

16 MS. WHIRLEY: Is that right?

17 **A** Yes.

18 . I just
19 want to make sure I understand. What you are
20 saying, you are saying that the officer started
21 shooting when Michael Brown ran to two or
22 three feet, charged two or three feet, you're not
23 saying that's all he charged?

24 **A** That's not all he charged, but like he
25 turned around and he started running towards him

1 charging, he told him to stop like three times.

2 Like two or three feet he got before they started
3 shooting. He kept running.

4 Okay.

5 **A** Like the first few bullets didn't have any
6 phase in it, he just kept running.

7 : So he didn't just go two
8 or three feet, he went two or three feet when the
9 officer started shooting?

10 **A** Correct.

11 again.

12 Could you see, I guess in one of your transcripts,
13 you said he shot him three times. Did he actually
14 see him getting shot three times?

15 **A** I don't know if it made contact. He fired
16 his gun three times at first.

17 : Okay.

18 **A** And then he said stop some more and he
19 kept coming and then he fired the gun four more
20 times.

21 : Could you demonstrate how
22 he turned, or when he stopped and turned around and
23 started coming back towards the officer?

24 **A** Yeah, but like when he was running away,
25 he kind of like stopped for a second. And then kind

1 of like he put his arms up and he started charging
2 towards the officer like this. (indicating)

3 : Okay. So he never did
4 this? (indicating)

5 **A** For a second it looked like he was going
6 to put his hands up, but he brought it back down.
7 When he charged the officer like that, that's when
8 you heard the first three gunshots.

9 I don't know where he, I guess the
10 little thing on the fucking news where it had it in
11 his hands. So that's where I assumed where it hit
12 him. I did not see it hit him.

13 : You are saying he went
14 like this and then like this? (Indicating)

15 **A** Yeah, he kind of like, he thought about
16 putting his hands up for a second. He just didn't
17 do it.

18 : Is that when he proceeded
19 to charge this officer?

20 **A** Correct.

21 MS. WHIRLEY: Okay. Let me make sure I'm
22 clear. This is really an important part for a lot
23 of, I think the grand jurors. When you said it
24 looked like he was thinking about putting his hands
25 up or not?

1 **A** That's the point, it looked like he may
2 have thought about it. Like he wanted to.

3 **Q** (By Ms. Whirley) So was he doing it?

4 **A** No, he like, his hands were open at first,
5 and it looked like his arms were going to start to
6 go up.

7 **Q** Did they go up at all?

8 **A** He got like shoulder length like this and
9 then he balled his hands up and then he went like,
10 folder his arms in and started charging towards him.

11 **Q** Okay. So you demonstrated that his hands
12 were open and they went up shoulder length and then
13 they came down and balled up?

14 **A** Correct.

15 **Q** And that's when you said he charged at the
16 first two to three feet?

17 **A** Right.

18 **Q** The officer shot him several times, you
19 think three, so that didn't stop him?

20 **A** It was three at first. I don't know if
21 the bullets, it was three shots at first and then
22 four.

23 **Q** Okay. The three shots and then what did
24 Michael Brown do after those three shots?

25 **A** He kept running.

1 **Q** He kept running toward the officer?

2 **A** He kept trying to charge him.

3 **Q** Do you have any idea how he came to the
4 officer. After those three shots?

5 **A** Right. And then he fired four more rounds
6 and then it was like maybe two rounds after that.
7 Maybe one or two.

8 **Q** Okay. When he fired the four more rounds,
9 what did Mike Brown do?

10 **A** He kind of stopped. He kind of staggered
11 a little bit and then he kept kind of coming forward
12 but he was running as fast as he was. And then I
13 heard the last two shots, I believe it was. And
14 then you seen him like stop and he fell to his knees
15 and his face hit the concrete kind of hard.

16 **Q** Okay. So those last four shots you said
17 he stopped and he staggered?

18 **A** Uh-huh.

19 **Q** How many more feet did he --

20 **A** It really wasn't no feet after that, maybe
21 like a few inches after maybe.

22 **Q** And then the officer fired two more shots?

23 **A** Correct.

24 **Q** How close was the officer to Mike Brown
25 when he fired those last shots?

1 **A** Probably about as far as she is from you.

2 **Q** We'll do it, okay. I will walk back and
3 you tell me when to stop?

4 **A** Okay. It was like right there, like right
5 there.

6 **Q** So like 15 feet or so maybe?

7 **A** Right.

8 **Q** That's how far the officer was when you
9 fired the last shot or heard?

10 **A** Correct.

11 MS. ALIZADEH: And, ma'am, you said the
12 officer was backing up?

13 **A** He was backing up the whole time he was
14 yelling at him.

15 MS. WHIRLEY: When he was firing those
16 last shots, was he saying anything, the officer?

17 **A** I don't believe so, no.

18 MS. WHIRLEY: You never heard Michael
19 Brown say anything?

20 **A** No, I didn't.

21 MS. WHIRLEY: You weren't in earshot?

22 **A** Yes.

23

24 Rather than talking distance, can you tell me about
25 how many steps he took by the time Michael turned

1 around until the officer started shooting and how
2 many more steps he took after the first round of
3 shots?

4 **A** Uh, like the same probably, I don't know.
5 : 15 total steps?

6 **A** Steps, like footprints?

7 **Q** Each step, to me a step is like two or
8 three feet, and you are describing two or three
9 feet, in my mind that's one step. Is it more than
10 one step he took towards the officer before he
11 started shooting?

12 **A** Yeah.

13 : Multiple steps.

14 **A** I don't know how many steps physically.

15 : Okay.

16 MS. WHIRLEY: When you talk about feet,
17 you talking about steps?

18 **A** No, I was talking about like feet and
19 yards and stuff like that.

20 I just have one quick
21 question, . Did you say that your
22 vehicle was parked on the same side?

23 **A** No, it was the side of the streets.

24 : You were on this side?

25 **A** Yes.

1 : So you can see, you were
2 parked here by the trees?

3 **A** Correct.

4 : Not that this is the
5 actual footage, but you can see clearly straight
6 down?

7 **A** Uh-huh.

8 : Did you ever see the
9 expression on Michael Brown's face?

10 **A** No, I did not see the expression on his
11 face.

12 : But you could see the
13 charge?

14 **A** Correct.

15 : Okay, thank you.

16 MS. WHIRLEY: That's an interesting point.

17 You characterize it as charge, could he
18 have been staggering?

19 **A** When he first started running, ma'am, he
20 was not staggering. He was charging this officer
21 and that's how I feel it was, like he was running
22 towards him. If he had got close enough, I feel
23 like he would have tackled him up against the car.

24 **Q** (By Ms. Whirley) Up against the car?

25 **A** The cruiser.

1 Q So they were near the cruiser when he came
2 back?

3 **A** He was coming this way going west towards
4 this and the cruiser was here. He was running past
5 this actual not too far behind the cruiser and was
6 saying stop, stop, stop and that's when he started
7 firing and the officer went this way instead of
8 going back towards the cruiser, he came across the
9 street this way.

10 Q The officer did?

11 **A** Yes.

12 Q Okay. So the first shots, you felt he was
13 charging him after the first shots, do you still
14 feel he was charging?

15 **A** The first three shot after that he was
16 still charging at him and then after the fourth
17 shot, it looked like he was staggering.

18 Q Okay.

19 . Could you not
20 see his face?

21 **A** I could see his face.

22 : Michael Brown's face
23 because it was up or down or did you not pay
24 attention or could you not tell?

25 **A** I would be able to see his face, but he

1 was kind of like running like, like I said, like a
2 football tackle, like he was going to tackle the
3 officer. I couldn't really see the expression on
4 his face.

5 : Okay. So it is not that
6 you were too far to see it, it was just that you
7 weren't at a good angle to see it?

8 **A** Correct.

9 You didn't hear him making
10 any noise at all?

11 **A** No.

12 : He didn't scream, he
13 didn't act like he was hit?

14 **A** No.

15 : He didn't say wait or --

16 **A** That was the shocking part, that's what
17 really made you pay attention.

18 : I give up or whatever.

19 **A** It looked like it didn't have any affect
20 on him at all. Like it wasn't even happening.

21 : And there is no, in your
22 mind, there's no way you say this young man wasn't
23 charging?

24 **A** Correct

25 And there's no way he

1 could have been saying, you know, I'm hurting, I'm
2 giving up, there is no way you feel it could have
3 been mistaken?

4 **A** No, it wouldn't have been mistaken.

5 : This is really important.

6 **A** I'm not, you know, really big on talking
7 to the police or defending police or anything like
8 that. I'm just being real honest with you.

9 That's all right.

10 **A** I feel like the officer was in the right,
11 that is a lot of saying. Because other than that, I
12 ain't got nothing to do with them.

13 : I mean, do you feel like
14 this could have ended up any other way?

15 **A** Yeah, it could of, if he had of just
16 stopped running, yeah, it could have ended a
17 different way.

18 That's the other way it
19 he could have ended another way, the officer had no
20 other choice?

21 **A** He could of had another choice, but it
22 could have ended in him being physically hurt.

23 : Thank you.

24 . At the
25 time he turned around, he then shot, or even when he

1 first turned around, did you see see him grab for
2 his hand or his shorts?

3 **A** No.

4 : He never grabbed his side
5 or anything like that?

6 **A** No.

7 again. What
8 about when he was falling, you say he went to his
9 his knees, were his hands going down at the time?
10 **A** When he fell to his knees, his arms were
11 just like, it didn't really affect him, you know
12 what I'm saying? His arms is like he had them right
13 here. He just kind of like fell on his knees. He
14 got kind of like he stopped, and he staggers and
15 then he dropped like this and hit like this on the
16 ground.

17 MS. WHIRLEY: Anybody else?

18 (End of the testimony of Witness 48.)

19 MS. WHIRLEY: We're back on the record,
20 November the 3rd of 2014, approximately 11:20 a.m.
21 We're going to play a recorded statement of
22 who testified last week. It is on Grand
23 Jury Exhibit Number 63.

24 (Grand Jury Exhibit Number 63
25 marked for identification.)

1 MS. WHIRLEY: We will play the recording.
2 I don't know exactly how long it is, but I don't
3 think it is very long. Let me bring it up and I can
4 give you an idea.

5 This is November 3rd, 2014, Sheila
6 Whirley. I was attempting to play Grand Jury
7 Exhibit Number 63. It is not working so we won't be
8 able to hear that one. We will hear Grand Jury
9 Exhibit Number 49. A statement, recorded statement
10 of . You already have the transcript for
11 that one. We will go ahead and play that one.

12 (Playing the audio recording of the
13 interview of)

14 MS. WHIRLEY: That concludes the statement
15 of , which is Grand Jury Exhibit Number
16 49. It is approximately 12:01 p.m. Might be time
17 for lunch.

18 MS. ALIZADEH: Yeah, said the
19 lunch, she was going to go get it at noon, hopefully
20 she will be back any time.

21 For this afternoon, hopefully at 1:00,
22 will come back and then at 2:00, I
23 have scheduled , the person you just
24 listened to and then at 3:00, I might try to move up
25 a little bit is going to be . He is

1 going to explain how radio calls work so you can
2 understand that aspect. So we will break for lunch
3 right now and hopefully your lunch will be here
4 soon.

5 (Lunch recess taken)

6
7 of lawful age, having been first duly sworn to
8 testify the truth, the whole truth, and
9 nothing but the truth in the case aforesaid,
10 deposes and says in reply to oral
11 interrogatories, propounded as follows, to-wit:

12 EXAMINATION

13 BY MS. ALIZADEH:

14 Q Good afternoon.

15 A Good afternoon.

16 Q Now, you were here previously on
17 October 23rd and you gave some testimony, and then
18 we actually had to recess early that day and we
19 weren't able to complete your testimony, so thank
20 you for coming back today.

21 What I want to start with, though, is
22 that after your testimony on October 23rd. You and
23 I had a phone conversation where I had called you
24 because we were trying to figure out another date
25 for you to come back, do you recall that?

1 **A** Yes.

2 **Q** And during that phone conversation, well,
3 let's back up a little bit.

4 On the 23rd, on the day that you left
5 after you were done testifying for the day, do you
6 recall we talked about a notebook that you said you
7 had written this down in?

8 **A** Yes.

9 **Q** And do you recall telling me it was like a
10 journal that you had kept?

11 **A** Yes.

12 **Q** You asked me if I would like you to bring
13 that notebook back with you?

14 **A** Yes.

15 **Q** Did you do that?

16 **A** Yes.

17 **Q** Is that what you have in your hands there?

18 **A** Yes.

19 **Q** So what is this notebook, what is it that
20 you have with you?

21 **A** Um, since my prior accident, my doctor
22 told me to write down everything so that I don't
23 forget it because I have a habit of forgetting
24 people or I have a habit of forgetting where I was.
25 There is a lot of things that I don't remember. He

1 told me if I write it down and I can't remember it,
2 I can always go back and read it.

3 Q You were in a car accident some years ago,
4 correct?

5 A Yes.

6 Q What year?

7 A Um, Valentine's Day, oh, shoot, she was
8 born, 2001.

9 Q And so you have memory problems as a
10 result of an injury, head injury that you sustained
11 in that car accident?

12 A Yes, I went through the windshield of the
13 car head first.

14 Q And so, I don't say this to embarrass you,
15 I think you already have talked about this when you
16 were here on the 23rd. Do you have any mental
17 health issues?

18 A I'm bipolar.

19 Q And do you take medication for that?

20 A Um, not for the bipolar, well, the
21 medication that I take works both for migraine
22 headaches and the bipolar, but it is actually
23 prescribed for the migraines so that I'm not
24 labeled.

25 Q So that you're not?

1 **A** Labeled.

2 **Q** Labeled.

3 **A** Labeled as having a mental illness. The
4 doctor prescribes it as the form of for the
5 migraines.

6 **Q** So what do you take?

7 **A**

8 **Q** And does that help you with the migraines?

9 **A** 80 percent of the time, yes.

10 **Q** Does it help you balance yourself out as
11 far as your bipolar disorder?

12 **A** I guess. It is the only thing I take for
13 it. I mean, I don't have --

14 **Q** How long has it been since you had a
15 diagnosis of bipolar disorder?

16 **A** I believe it was 1985.

17 **Q** So that was well before the car accident?

18 **A** Correct.

19 **Q** And so the car accident is not the cause
20 of your bipolar disorder?

21 **A** Oh, no.

22 **Q** And are you currently under the care of
23 any physician or psychiatrist for your bipolar
24 disorder?

25 **A** No.

1 **Q** Are you supposed to be?

2 **A** Would other people probably like it
3 probably, yes, but I'm not ordered to or anything.

4 **Q** Are you supposed to be on any medication
5 that you're not taking that you were advised by a
6 doctor that you should be taking?

7 **A** No, I haven't taken any medication for it
8 since 1988.

9 **Q** All right. And so when you left my office
10 on the 23rd, you mentioned this notebook to me.

11 **A** Yes.

12 **Q** You had indicated that you write in this
13 notebook as somewhat of a journal; is that right?

14 **A** Yes.

15 **Q** And you explained to me that you keep a
16 notebook for each month?

17 **A** Yes.

18 **Q** And so you make entries that are dated; is
19 that right?

20 **A** Correct.

21 **Q** All right. Did I tell you yes, that would
22 be a good thing for you to bring that?

23 **A** Yes.

24 **Q** And then did you also talk with me at the
25 end of the day on the 23rd, did I talk to you about

1 **Q** Okay. And is the entry from August 9th
2 where you wrote down what you saw, is that in your
3 notebook in front of you?

4 **A** Yes.

5 **Q** And in our phone conversation did you also
6 tell me that you were going to tear that out of the
7 notebook so that you could just bring that in
8 because you didn't want other people to necessarily
9 see what you were writing in your journal?

10 **A** Correct.

11 **Q** And did I tell you that it was important
12 that you not tear it out of the notebook?

13 **A** Yes, you said that.

14 **Q** All right. And so the entry that you made
15 for August 9th, is it still in that spiral notebook?

16 **A** Yes.

17 **Q** And when did you make that entry?

18 **A** For August 9th?

19 **Q** Yes.

20 **A** I made one 8:00 a.m., 4:00 p.m. and again
21 at 9:00 p.m.

22 **Q** All on August 9th?

23 **A** Yes.

24 **Q** All right. And then in our phone
25 conversation after I told you don't rip that out of

1 the notebook, did you tell me that you had read it,
2 reread it after you testified here, but before we
3 were talking on the phone?

4 **A** Yes.

5 **Q** And did you tell me that you realized
6 after reading it that some of the details that you
7 testified to in the grand jury on the 23rd were not
8 contained in your entry in your journal?

9 **A** What?

10 **Q** Did you talk about how your journal was a
11 little different --

12 **A** Yes, yes, sorry.

13 **Q** Than what you testified to. And did you
14 also then on the phone tell me that, you know,
15 thinking about it and rereading the entry made you
16 wonder now if maybe some of the details that you
17 testified that you have a memory of you might have
18 gotten those off the internet?

19 **A** Correct.

20 **Q** And then did you also tell me that there
21 was something that you wanted to tell me about why
22 you were up in Florissant that day or why you went
23 up to North County?

24 **A** Why did I go there?

25 **Q** Do you remember on the phone that you

1 wanted to tell me something about why you had gone
2 up there?

3 **A** I didn't go up there with the intent of
4 meeting does exist and she
5 does live up there, I did not go up there that
6 particular day with the intent of meeting her.

7 Q What is it that you told me, why is it
8 that you went up to neighborhood that day?

9 **A** Um, why do I like to go into the all
10 African-American neighborhoods? I like to go up
11 there or I like to go in the city because I like to,
12 I'll go in and have coffee and I will strike up a
13 conversation with an African-American and I will try
14 to talk to them because I'm trying to understand
15 more.

16 Q Did you tell me during our phone
17 conversation that you realized that you have, you
18 may have some feelings that some may consider to be
19 racist?

20 **A** I have feelings that others consider to be
21 racist, yes.

22 Q But you told me that you didn't think that
23 you're a racist?

24 **A** I believe that I made very racist remarks
25 that can be very offensive to others of other races.

1 I don't believe, I would never say a racist remark
2 to other individuals to their face because I
3 wouldn't want to hurt their feelings. I would never
4 harm anybody due to their race, gender, sexual
5 preference or anything, I don't have hate towards
6 other races, I just have confusion and fear.

7 Q Did you tell me that on the day, on
8 August 9th, you drove up there to find an all black
9 neighborhood because you feel that by doing that it
10 helps you to maybe deal with your fears of people
11 from different races?

12 A Yes.

13 Q Helps you to overcome your feelings?

14 A Yes.

15 Q And we also had a conversation that some
16 of the remarks that you posted online were
17 offensive?

18 A Correct.

19 Q They were racist?

20 A Yes.

21 Q And there are entries in your journal that
22 are offensive and racist; is that right?

23 A Correct.

24 Q And we had a conversation just now before
25 you came in here and I talked to you about the

1 importance of telling the truth to this grand jury?

2 **A** Correct.

3 Q And I told you that as long as your
4 truthful, that you don't have anything to worry
5 about?

6 **A** Correct.

7 Q Do you believe me when I tell you that
8 these people only want the truth from you?

9 **A** Yes.

10 Q It doesn't matter if it's black or white,
11 all of us just want the truth.

12 **A** Right.

13 Q Do you intend to tell the truth today?

14 **A** Yes.

15 Q Now, can you tell this grand jury when you
16 testified on the 23rd, were you being truthful about
17 the fact that you went up to the Canfield Apartment
18 Complex on August 9th?

19 **A** That I was up there, yes.

20 Q All right. So your testimony about having
21 driven up there and been in the Canfield Apartment
22 Complex on the 9th, that part was true?

23 **A** Yes.

24 Q All right. What wasn't true that you
25 didn't go up there to meet with

1 **A** Correct.

2 **Q** And your testimony on the 23rd that you
3 witnessed the shooting of Michael Brown, was that
4 true?

5 **A** Yes.

6 **Q** And is there anything about your testimony
7 from the 23rd that you would like to change, clarify
8 or correct today?

9 **A** Um, can I just read?

10 **Q** Do you have --

11 **A** This is what I, this is what I remember
12 when I got home. I wrote what I remember at this
13 time the second I got in front of paper.

14 **Q** All right. I'm going to show you, I told
15 you I would copy your entry, right?

16 **A** Yes.

17 **Q** I didn't want to tear it out, I told you I
18 would give you back your journal?

19 **A** Yes.

20 **Q** Okay. These three pieces of paper, four
21 pieces of paper, are those your entries from
22 August 9th?

23 **A** Yes.

24 **Q** Okay. Now, I want you to look in that
25 notebook for me to August 9th. What was the entry

1 that was immediately before the August 9th entry?

2 **A** Before August 9th?

3 **Q** Yeah?

4 **A** August 8th.

5 **Q** And before that?

6 **A** It is August 7th. It goes the 6th, 5th, I
7 believe it started on the 1st.

8 **Q** Do you make an entry every day in your
9 journal?

10 **A** Yes.

11 **Q** This is to help you remember things?

12 **A** Correct.

13 **Q** Wouldn't you agree with me, though, that
14 most of your other entries don't really have much to
15 do with what happened that day, but maybe just like
16 I had a headache today?

17 **A** That's what, pretty much.

18 **Q** So your entry, I'm not going to read them,
19 but your entry from August 1st you have a 2:00 p.m.
20 and 5:00 p.m. and midnight about going to a meeting,
21 about having a headache?

22 **A** Oh, no, I went to the casino with my mom.

23 **Q** Okay. About having a headache, going out
24 with the girls?

25 **A** Yes.

1 **Q** All right. So can you read for the grand
2 jurors then your entry, well, let me ask you this,
3 what's the next entry after August 9th, is it
4 August 10th?

5 **A** Yes.

6 **Q** All right. So can you read starting with,
7 you know, August 9th, Saturday, 8:00 a.m. and read
8 for the grand jurors what you wrote in your journal?

9 **A** For August 9th?

10 MS. ALIZADEH: I will provide copies of
11 this for everybody. I didn't have enough time to
12 make copies for everybody right now. Yes,
13 August 9th.

14 **A** The 4:00 p.m. entry or the entire day?

15 **Q** (By Ms. Alizadeh) Entire day?

16 **A** 8:00 a.m., August 9th, Saturday, 8:00 a.m.
17 Well, I'm going to do my random drive up to
18 Florissant, need to understand the black race better
19 so I stop calling blacks --

20 **Q** Niggers, is that what you wrote?

21 **A** Yes.

22 **Q** Okay.

23 **A** And start calling them people. My dad
24 always said you can't bear or hate an entire race
25 because of what one man did 40 years ago.

1 **Q** All right. And then you have an entry at
2 4:00 p.m. Is that the next entry for the
3 August 9th?

4 **A** Yes.

5 **Q** What did you write then?

6 **A** OMFG.

7 **Q** Is that, oh, my fucking God?

8 **A** Yes.

9 **Q** We're all adults here. I think we've all
10 heard the words.

11 **A** It was crazy, I don't even know where I
12 was. I did ask a QT guy for directions, but went
13 the wrong way. I just wanted to take a drive and
14 ended up in some apartment complex. I asked for
15 directions again, real nice kid in a wife beater, or
16 wife beater. He had no idea. He asked the guy in
17 green shirt and jeans, that guy was really sweet.
18 Then I heard a weird noise, caught my attention. It
19 was this cop backing up saying something to these
20 boys.

21 I couldn't hear, but they was the
22 same kids I almost hit with my car, a big one and
23 skinny one and the cop tried getting out and the big
24 one hit the door and the cop looked pissed and tried
25 opening the door again.

1 The big kid hit the door, wait a
2 minute, the big kid hit the door with his gut, the
3 little one punched the mirror and something gold
4 fell on the ground.

5 The big one is half in the window,
6 door, I can't remember. I swear the little one had
7 the cops leg. I heard a noise, not sure what the
8 guy in the green shirt -- I swear --

9 **Q** Start again, I heard a noise, start again
10 with that sentence, the beginning of that sentence,
11 I heard a noise.

12 **A** I heard a noise. Not sure what the guy in
13 the green shirt was yelling. Not sure what the
14 green guy, the green shirt was yelling stop. The
15 big kid pulled his pants up, they was tan shorts and
16 he started running. The skinny one took off in the
17 opposite direction.

18 The cop got out with his left hand on
19 his face and his right hand on the gun. The cop
20 screamed, but I could not understand everyone else,
21 everyone was screaming. I heard, lay your stupid
22 ass down, I think that was the lady next to me. The
23 cop was wobbling, the big kid turned around and had
24 his arms out with an attitude and the cop just stood
25 there. Dang, if that kid didn't start running right

1 at the cop like a football player, head down.

2 I heard three bangs, but the big kid
3 wouldn't stop. I heard the cop say something, but
4 not sure what or if it was just that, he was just
5 making noise.

6 The cop took a couple of steps
7 forward and then backwards and then the gun went off
8 two more times. The last one on top of the kids'
9 head. OMG the blood. The green shirt man grabbed
10 my arm and said, get your ass out of here.

11 I got in my car and drove into the
12 neighborhood. Somehow I went through a parking lot
13 across the street and back to the main road, not
14 sure how long, but police were every place with
15 police tape.

16 There were other cops there. I seen
17 one pull his gun, but he didn't fire. Don't even
18 remember when he got there. There was a lady in the
19 parking lot of QT. I just pulled up and asked for
20 the closest highway, she points and I left. Then to
21 top shit off, I got on the highway going the wrong
22 way and had to ask for directions again. Real nice
23 old man helped me out, home now, no cable, so not
24 sure what's on the news.

25 Q And then you have another entry on that

1 date that's at 9:00 p.m.?

2 **A** Yes.

3 **Q** Read that?

4 **A** Talked to

5 without telling him everything. Talked to

6 without telling him everything. He told me first I

7 was nuts for taking a drive up there, and second, to

8 keep my mouth shut. He's probably right, no one

9 will believe me anyway.

10 **Q** All right. So do you recall, you already

11 testified that you remember me telling you that I

12 wanted you to contact this

13 and have her call me?

14 **A** Right.

15 **Q** And did you ever do that?

16 **A** No.

17 **Q** Why not?

18 **A** Because even though I intended, I had

19 thought I could probably stop by and visit with her

20 or meet up with her, she did not know I was coming.

21 **Q** So she could not corroborate that you were

22 coming up to North County that day?

23 **A** Correct.

24 **Q** You write in this statement a lot of

25 detail, you testified to some of that detail and

1 some additional detail. And you admitted that you
2 watched the news or that you looked on the internet
3 about some of this stuff after it happened, right?

4 **A** Correct.

5 **Q** Were you intrigued by what had happened up
6 in Canfield after the fact?

7 **A** What do you mean intrigued? I had no
8 interest.

9 **Q** You researched it a little bit?

10 **A** I researched the streets to figure out how
11 I got there and how I got home.

12 **Q** Well, you remember when you talked to the
13 FBI agent, you told them you did some searches, put
14 in Michael Brown?

15 **A** Right, I was trying to figure out what
16 that gold thing was that fell.

17 **Q** You read an article on the internet that
18 talked about a gold bracelet that was at the scene?

19 **A** Correct.

20 **Q** And so you, then now, is it now that you
21 think that it was a bracelet that came off of his
22 wrist?

23 **A** Because of what I read?

24 **Q** Yes?

25 **A** Yes. I didn't know what it was at that

1 time, it was just something gold.

2 Q That was something that you said came off
3 of Dorian or the skinny kid's wrist?

4 A Correct.

5 Q And is it possible, ma'am, that after this
6 happened and you read a lot of stuff about it
7 online, that maybe you, in your mind it is real to
8 you, that you were up there and, in fact, you
9 weren't?

10 A What?

11 Q Do you think it's possible you believe you
12 were up there, but what you read on the internet you
13 really weren't up there?

14 A I was up there and I wrote it before it
15 ever even hit the news.

16 Q All right. Is it possible, do you think,
17 that you dreamed about this after it happened and it
18 feels real to you that you were up there?

19 A I never dreamed about it.

20 Q Does your medication ever make you
21 perceive things that aren't there or does your
22 condition ever cause you to perceive things that
23 aren't real?

24 A I know what reality is.

25 Q Okay. That's my question. Some mental

1 health issues cause people to have, it is called
2 psychotic break, where you don't know, you don't
3 perceive reality the way it really is. I'm asking
4 you in the past has your mental health issues ever,
5 have you ever had a problem with that?

6 **A** My only problem is mania. I haven't had a
7 major problem since I moved out of where I grew up.

8 **Q** And it is your truthful testimony today
9 that you were up there and you witnessed what you
10 testified about and what you told the FBI agents
11 that you were really there?

12 **A** That I was really there, yes. I would go
13 on more what is in this thing than what I would on
14 what I said in the past.

15 **Q** As you sit here today, do you have a
16 recollection of what you saw up there or you relying
17 on what you wrote in my journal?

18 **A** I'm relying on what I wrote in my journal.

19 **Q** When you testified on October 23rd, were
20 you testifying from your recollection of that day,
21 or were you relying on having reviewed your journal?

22 **A** Having read on the internet.

23 MS. ALIZADEH: Sheila, do you have any
24 questions?

25 MS. WHIRLEY: Can I see your folder? As I

1 recall, do you know Darren Wilson, the officer
2 involved here?

3 **A** I know of him.

4 **Q** (By Ms. Whirley) Had you ever met him
5 before this date?

6 **A** No.

7 **Q** I don't have your transcript in front of
8 me, but I recall when you were here before there was
9 talk about you raising money or starting a website,
10 fundraiser for Darren?

11 **A** Yes, ma'am, but it is not for Darren
12 Wilson. We have local elementary schools making
13 Christmas cards.

14 **Q** I think you said first responders?

15 **A** First responders, yes, ma'am. But the
16 current thing we are collecting donations is all
17 LEO's that have been dealing with the long hours.

18 **Q** When did that start?

19 **A** I want to say the end of August, beginning
20 of September. It started because of this.

21 **Q** That's what I'm asking?

22 **A** Yes.

23 **Q** So because of this, you wanted to raise
24 money for first responders, which would include
25 Darren Wilson?

1 **A** Not him personally, it is whoever who have
2 been working the long hours, which would have been
3 the Ferguson, County, LEO long hours with minimum
4 days off.

5 Q Okay.

6 **A** It is not donations to give them cash, it
7 will be homemade Christmas cards and then some gift
8 certificates to local area restaurants.

9 Q Okay. And you also mentioned that you
10 felt that Darren Wilson was doing his job by killing
11 Mike Brown?

12 **A** Did I say that or did I say it in --

13 Q Do you recall saying that at all?

14 **A** I wouldn't be at all surprised, it sounds
15 something ignorant that I would have said online,
16 yes.

17 Q Is that because you were, you feel that
18 black people should be killed?

19 **A** No, no, I'm sorry. No, I don't think, no.

20 Q Okay. And I again, does anybody have her
21 transcript handy?

22 **A** I know what I said.

23 . I'm
24 having a hard time figuring out how did you end up
25 in Canfield Green Apartments. So let's go back and

1 take me, you get up in the morning, and you want to
2 go to a random black neighborhood?

3 **A** Correct. I picked Florissant because I
4 knew a friend that lived up there, or at least I
5 thought I did.

6 : So you stopped at, okay,
7 can you tell me how did you get up to the QuikTrip?

8 **A** From the highway?

9 From your location, which
10 I'm thinking is

11 **A** No, I live

12

13 **A** Correct.

14 How did you get there?

15 **A** I don't know.

16 You don't know?

17 **A** Not any more. I have a GPS now, my mom
18 gave me a GPS the next day.

19 : So then you end up at this
20 QuikTrip and you ask for directions?

21 **A** Correct.

22 : Okay. Directions to what
23 you just said?

24 **A** To the nearest highway.

25 : You just said the

1 didn't know you was coming?

2 **A** Correct. I asked for directions back to
3 the nearest highway.

4 : You said nearest highway?

5 **A** Highway, yes.

6 : They told you --

7 **A** They told me one way and I went the other
8 way.

9 Which way did you go?

10 **A** I believe it was to the left and then to
11 the left again.

12 : And you did what, you
13 turned around?

14 **A** No, I ended up in the complex.

15 : You can't figure out how
16 you got there, but you can figure out how you got
17 inside the apartment complex?

18 **A** From QT. I don't know how I got from
19 to where I was, no.

20 MS. ALIZADEH: Can I interrupt here, don't
21 spend much time looking for a transcript because I'm
22 thinking maybe we don't have one. I don't have one
23 in my folder. And so I want to make sure everybody
24 is catching what's being said and I will double
25 check to see if we have one, but I'm kind of

1 thinking we don't. That would explain why no one
2 can lay their hands on one. All right, I'm sorry to
3 interrupt, but I didn't want anybody looking for
4 something that wasn't there.

5 : So this random black
6 neighborhood, did you find it?

7 **A** Did I find it? Yes, turned out to be
8 Ferguson.

9 : Okay you just kind of --
10 **A** I know lives in Florissant, but at
11 the time I thought lived off of Florissant and
12 the address I have --

13 : You already stated that
14 your intentions was notes to see ?

15 **A** Correct. What I said was that was not the
16 intent, but that -- can you reread what I said?

17 MS. ALIZADEH: About when?

18 **A** I was going up there --

19 : To find a random
20 neighborhood.

21 **A** I'm sorry?

22 . Okay.

23 Let her finish talking and then you ask her again
24 what you want her to answer. Don't talk over top of
25 her because we don't understand what you say or what

1 she say.

2 MS. ALIZADEH: And that is true. Also for
3 the court reporter because he can't, it is very
4 tough for him to take it down when people are
5 talking at the same time. So go ahead, continue.

6 . I'm just
7 getting to the point where you said you were going
8 to find a random black neighborhood and then you
9 just made a statement you were looking for
10 that lived in Florissant. I'm trying to figure
11 which one is it?

12 A That's not the reason I went up there. I
13 went to find the random black neighborhood like my
14 journal says. Then I thought, I mean, I picked that
15 neighborhood because of had no idea that I
16 was anywhere in the area or that I was coming.

17 You picked the
18 neighborhood before you left ?

19 A Correct. I picked the general vicinity,
20 yes.

21 When
22 you are reading your journal from 4:00, basically
23 what I have here is you explained what you saw, and
24 it wasn't a lot of previous statements that you said
25 before, a lot of it was different. But in your

1 journal you said the little one had the cops leg?

2 **A** Correct, that's what I remember at the
3 time that I wrote this.

4 : Okay.

5 **A** I don't know where that came in.

6 Okay. And I just want to
7 make sure, you know, I understand that you are
8 confused and it helps us.

9 **A** I know it sounds like I'm lying too,
10 that's why --

11 : I don't think you are
12 lying, I believe you are confused, I think you are
13 confused. I understand that. I want to know, just
14 look at me and tell me, what you are telling us --

15 **A** Yes, ma'am.

16 : Is you saw Michael Brown
17 charging the officer without a doubt in your mind.
18 This young man didn't have a reason to do this, so
19 could you have been mistaken about what you saw?

20 **A** It looked to me like he was going after
21 the officer like a football player.

22 : Okay.

23 **A** Did I know what I was seeing at the time?
24 No.

25 : Okay. So your perception

1 is that he was charging the officer, but you don't
2 know for sure exactly what was going on. You were
3 lost, you were out of your surroundings?

4 **A** Correct.

5 : So you can't really say
6 exactly what was going on?

7 **A** Correct. And also, according to my
8 journal, I guess the recollection of the officer's
9 talking to the two boys before he backed up was what
10 I read online and not what I seen.

11 : So you think there could
12 have been, and you have said this, there is a lot of
13 blurry lines there as far as what you read and what
14 you really saw. So all you have to do is these
15 bullet points about what you think you saw on that
16 day and this was at 4:00, so this was after a three
17 and a half hour time frame when you are trying to
18 find your way home, you are trying to find, you are
19 getting lost in the neighborhood.

20 I'm not saying you are lying,
21 (sic) I'm really not. I think you are confused. I
22 want you to understand what you're saying could have
23 been misunderstood.

24 **A** I suppose, yes.

25 Okay. Thank you.

1 . Was this
2 the first time that you had done sort of an
3 exploration of a predominantly African-American
4 community? Do you have other journals about
5 previous statements --

6 **A** Yes, I do it all the time.

7 : How often?

8 **A** Um, probably about twice, two, three times
9 a month for years. And there's other days in this
10 journal as well that I did it, even after this date.

11 MS. WHIRLEY: What's the last date of your
12 journal?

13 **A** For written, I don't think it was the last
14 day of August, I think I skipped the last day. I
15 skipped a weekend too somewhere in here.
16 August 30th was the last day.

17 MS. WHIRLEY: They are not consecutive
18 days that you write in your journal, correct?

19 **A** It went every day in a row except there
20 is, I believe, it skips from the 22nd to the 24th,
21 so I didn't write it on the 23rd.

22 MS. ALIZADEH: So they are consecutive,
23 but not daily?

24 **A** Right, because like on August 22nd, the
25 22nd I decided to take

1 didn't get
2 home until Sunday, so I didn't write in it Saturday.

3 MS. WHIRLEY: Can you remind us how you
4 first came to give your statement to the police or
5 the FBI?

6 A How I came about it?

7 Q (By Ms. Whirley) Did they come find you,
8 you find them or what happened?

9 A No, ma'am, I called them.

10 Q Who did you call?

11 A I don't remember. It might have been just
12 the non emergency number.

13 Q You called the police. What day was it
14 that you called them?

15 A I don't know.

16 Q Did you not journal it?

17 A Wait a minute, it wouldn't have been until
18 September. I think it wasn't until the first week
19 of September.

20 Q You didn't journal in September?

21 A No, I did. I don't have September's with
22 me. I mean, I don't believe I contacted them until
23 the beginning of September.

24 Q But you're not sure when you contacted
25 them?

1 **A** Correct.

2 **Q** All right. And so you contacted the
3 police and how did you talk to them, did they come
4 to you or did you come to them or on the phone or
5 what?

6 **A** I went to them. I believe it was here,
7 no, it was down the street at the headquarters, not
8 the two court buildings, but.

9 **Q** It was the county police and not the FBI
10 or was it all of them?

11 **A** No, it was the police. The FBI, there was
12 a gentleman there from the FBI.

13 **Q** When you call the police, what do you tell
14 them?

15 **A** I don't remember, it would have been in
16 the effect of what I've seen.

17 **Q** It is our understanding you did not see
18 what happened initially when Mike Brown was at the
19 police car?

20 **A** Not the first time, no.

21 **Q** Did you tell them that you saw it?

22 **A** I might have, I don't remember.

23 **Q** So sometimes you tell the truth and
24 sometimes you don't?

25 **A** I told them what I remember and what I had

1 read online at that point had become jumbled.

2 Q So you don't know when you're telling the
3 truth?

4 A No. I know what I had seen and what I had
5 read online for the first day itself right prior to
6 going up there would have became jumbled, and than I
7 would have gotten facts confused because my memory
8 would have been gone as far as what I truly seen
9 every detail.

10 Q My question to you, you're not sure when
11 you are telling the truth and when you are telling
12 something that you may have just read?

13 A No, I know when I'm telling the truth.

14 Q So were you telling the truth when you
15 said you saw Michael Brown at the car or is that
16 something you read?

17 A That was something, the first time?

18 Q Whenever?

19 A At the car is something I read. The
20 second time he was at the car after the officer
21 backed up is where I started paying attention and
22 watching.

23 Q Okay. So you were not telling the truth
24 initially?

25 A Okay. I'm sorry.

1 **Q** You either were telling the truth or you
2 weren't?

3 **A** I guess not, no.

4 **Q** Okay.

5 **A** It was not set out to be an intent lie.

6 **Q** Do you consider yourself a racist?

7 **A** Do I consider myself to be racist? No, I
8 don't.

9 **Q** What is a racist in your opinion?

10 **A** In my opinion somebody like, honestly?

11 **Q** Please?

12 **A** Somebody that would harm or say it to
13 their face or harm them physically or, you know,
14 like the KKK, that is not right.

15 **Q** So the KKK would be racist?

16 **A** In my opinion, yes.

17 **Q** Are you affiliated with the KKK?

18 **A** No, ma'am.

19 **Q** Do you know any KKK members?

20 **A** No.

21 **Q** So when you just use derogatory language
22 towards another group of people, that's not racist
23 to you?

24 **A** It is racist, but I don't, I say it
25 towards white people too. Use it like the B word,

1 like bitch.

2 **Q** I mean, when you use the word nigger, you
3 don't think that's being racist?

4 **A** I do think it is being racist, yes. I
5 have a racist vocabulary. I would never in my life
6 harm anybody just because of a race.

7 **Q** Well, because Michael Brown was a black
8 young man and I guess that's a nigger in your
9 opinion. If he's black, is that what you mean by
10 nigger?

11 **A** When I seen him, he was nothing more than
12 a kid.

13 **Q** When you say nigger, my turn.

14 **A** Sorry.

15 **Q** When you say nigger, is that related to
16 black people, white people or what people are you
17 referring to?

18 **A** Assholes, I don't know. I don't mean it.

19 **Q** I just need to know when you use the word
20 nigger, who are you referring to. You referring to
21 white people or referring to black people?

22 **A** I refer it to a lot of white people, yes,
23 ma'am.

24 **Q** When you write nigger in your book, nigger
25 on your blog or your internet communications, what

1 people were you talking about?

2 **A** At that time I was talking about black
3 people.

4 **Q** Okay. That's all I'm trying to find out.

5 **A** Okay.

6 **Q** So you talking about black people now,
7 Michael Brown was black, right?

8 **A** Yes, ma'am.

9 **Q** And you said the officer was doing his job
10 killing him, right?

11 **A** Yes.

12 **Q** Okay. And you feel like you need to help
13 the officer, is that why you're here, you want to
14 make the officer look better than he looks and make
15 Michael Brown look like a nigger?

16 **A** No.

17 **Q** If it is true?

18 **A** All I want is the truth, no, no.

19 **Q** He's dead?

20 **A** I don't wish anybody dead. I don't care
21 what color you are, I don't care what gender you
22 are.

23 **Q** When you said the officer did his job by
24 killing the young man?

25 **A** That wasn't all that though, a lot of it

1 was because of what I had seen. I feel that if I
2 was in that situation I probably would have ended up
3 shooting him too.

4 **Q** You said you didn't see what happened at
5 the car, you saw him come toward him like a football
6 player. You are not even sure what was going on
7 then. So not knowing what was going on, you felt he
8 should have killed him because he was a nigger?

9 **A** At that time, no, it is not because he was
10 black.

11 MS. WHIRLEY: Nothing else from me.

12 . You have
13 memory issues you said, short term memory. Does
14 that memory kind of go away after you sleep or
15 throughout the day you have lunch and not remember
16 you have lunch or would it be the next day that you
17 kind of have memory lapses?

18 **A** Now, I remember I've eaten. Like for
19 several years, yes, because I went from 195 down to
20 120 because I would forget if I ate or not.

21 Now that it has been a number of
22 years, usually it is the details of a situation. I
23 have to meet you, hear your name, talk to you every
24 day. There's still next door neighbors that I live
25 next to that I have lived next door two and a half

1 years I still can't remember their name. It will go
2 seconds after you tell me.

3 : Your journal entry 4:00
4 p.m. has a lot of detail in it. Seems like, your
5 memory must have been pretty good from that point
6 after you got home.

7 **A** Yes, no, it is not so much that as it has
8 to be really traumatic. Like I won't remember your
9 name, if I see you outside, if we take a break, I go
10 out there to smoke and I see you, there's a
11 99 percent chance I won't recognize you. I will
12 probably, if you are smoking I would walk right up
13 to you and say hello and not realize that I had just
14 talked to you in here.

15 If something major happens like I can
16 give you in detail from two weeks ago when a dog got
17 hit by a car because it was horrible thing to watch,
18 but.

19 Now,
20 you had said before that you had
21 visited other African-American or black communities,
22 like three a month, or something like that
23 sometimes, or whatever, but -- or three a day?

24 **A** Three a month.

25 : I'm confusing myself.

1 Okay. Can you tell me,

2 **A** Correct.

3 So you would be coming
4 from that point all the way up to where you got off
5 on West Florissant. Can you tell me during this
6 period of time or afterwards, after this shooting,
7 what black neighborhoods you visited?

8 **A** That day or?

9 Since then?

10 **A** Since then. I spend a lot of time off of
11 Grand close to Shaw. I
12 spend a lot of time down in those areas.

13

14 I spent a lot of time down in those
15 areas and we will go and talk to people and then the
16 Central West End.

17 : Okay. Anywhere else?

18 **A** There is one that right across the JB
19 Bridge and something called Bellview, Belleville,
20 bell something, but I'm not sure.

21 : Got me, I don't go that
22 far.

23 **A** I used to live in East St. Louis. I know
24 that area a little bit.

25 : Uh-huh, okay. Just to

1 clarify the reason between when you get on
2 and go north.

3 **A** Correct.

4 You cut off on
5 and what you got over there you have your
6

7 **A** Yes, I used to live in
8 Is that right, what
9 street?

10 **A** In those when they were first
11 brand knew. We were one of the
12

13 : Uh-huh.

14 **A** We moved out, we were there
15 we moved out
16

17 Okay.

18 **A** We had just moved out like just a few days
19 prior to that situation.

20 I see. Do you recall the
21 name of the street you lived on?

22 **A** Dang it. was the name of the
23 I don't.

24 : Okay.

25 **A** Dang it, and I remember I think it was,

1 that

2 worked in the office.

3 : Uh-huh.

4 **A** You know, I do remember the

5

6 Uh-huh.

7 **A**

8 :

9 **A** But I could never come up with the
10 address.

11 : Those are built
12 on When we used to
13 there, they used to call it

14

15 **A** I used to have friends in there before the
16 when I was a teenager.

17 : I understand. The reason
18 why I ask, there is a lot of black communities from
19 where you are to where you get up to where you were,
20 you could of made a stop in some of these black
21 communities?

22 **A** I've been in there.

23 Have you been anywhere
24 else?

25 **A** I could not tell you where it was or how I

1 got there until this, because my mom gave me a GPS.

2 I have not gone as much north since then. I have

3 spent more time in the city.

4 : Uh-huh.

5 : Those same apartments you

6 said you grew up there as a teenager?

7 **A** No, I didn't grow up I

8 had a friend that lived in and I worked

9 at the and I would take

10 my friends home all the time.

11 So, I mean, I drove through

12 throughout my teenage years taking friends or

13 picking them up and taking them home. I didn't

14 actually move to until those

15 were built. I have no idea what year it was.

16 You said in your journal

17 during your 8:00 a.m. entry, you said that you were

18 going to go try to find a black neighborhood too, so

19 you could associate better with black people because

20 your dad said you should not judge one race of

21 people based on something that happened four years

22 ago.

23 **A** 40.

24 : What happened 40 years

25 ago that would cause you to have any kind of

1 contention of this type, 40 years you talking?

2 **A**

3

4 :

5 **A**

6

7 : Okay.

8 **A**

9

10 : You do still have them?

11 I don't want to see them.

12 **A**

13

14

15

16 **A**

17

18

19

20

21 MS. ALIZADEH: Does anybody have any other
22 questions? No, okay.

23 (End of the testimony of

24

25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 MS. ALIZADEH: This is Kathi Alizadeh. We
9 just had a short break and so now we are resuming
10 our afternoon session. Sheila Whirley is present,
11 as well as all 12 grand jurors and the witness is
12 here and we're going to, as well as the court
13 reporter who is taking down what's being said.

14 BY MS. ALIZADEH:

15 Q Could you state your name, please?

16 A .

17 Q What is your occupation, sir?

18 A At this time I'm the assisting St. Louis
19 County Emergency Communications Commission with
20 deployment of the new 800 megahertz radio system in
21 St. Louis County.

22 Q So what are your duties and
23 responsibilities in that position?

24 A At this time I'm assisting law enforcement
25 disciplines with the installation, design and

1 programming of their radios.

2 **Q** And how long have you had that position?

3 **A** Two years.

4 **Q** Prior to that, where were you employed?

5 **A** I was employed with St. Louis Electronics,
6 they are a Motorola dealer, was with them for 17
7 years. Prior to that, another three years with a
8 radio distributor.

9 **Q** So has your entire career been in the law
10 enforcement radio communications business?

11 **A** Right. Past 23 years, yes.

12 **Q** And do you have, well, can you tell the
13 grand jurors about your educational background?

14 **A** Sure. I hold an associate's degree in
15 electronic technology in communications. I also
16 hold a ham radio licenses and an FCC license, which
17 gives me the opportunity to work on large
18 transmitters for like broadcasters and everything.
19 Twenty years ago that was one of the keynote things
20 that you had to have to be able to get into this
21 field.

22 Recently they have kind of gone away
23 from it and have other things, but I had, when I was
24 with the Motorola dealer, Motorola very keen on
25 making sure their sales consultants and engineers

1 had training. So on a yearly basis I had to go for
2 updates on the new technology that was coming out.

3 **Q** So were you working for the, as a Motorola
4 salesperson back when the City of Ferguson got their
5 radio system installed.

6 **A** Right. Back then, and it has got to be
7 six, seven, I would have to look back, I replaced
8 their console, their dispatch console from a button
9 to a CTR, a computer driven dispatch console, which
10 is used just to dispatch and turn on the radio
11 transmitters along with filling in with some new
12 portable and mobile radios.

13 There is about a 10 to 12 year life
14 expectancy on mobiles and portables. At that time
15 they needed new equipment and I sold them the new
16 equipment and also programmed it with the
17 frequencies that was needed.

18 **Q** And you think that that was about six
19 years ago or thereabouts?

20 **A** Six to eight years. They usually buy
21 different times of the year because of their
22 budgets. One year they might budget for ten radios
23 and next year five radios. The following year new
24 mobile radios.

25 **Q** So it was at least before August of 2014,

1 correct?

2 **A** Definitely.

3 **Q** And so do you think, are you familiar with
4 the radio system that the Ferguson Police Department
5 uses?

6 **A** Yes.

7 **Q** Okay. And, um, are you aware that
8 Ferguson dispatches for themselves?

9 **A** Yes.

10 **Q** And so what does that mean, what does a
11 dispatcher, and explain what it means when a
12 municipality may dispatch for themselves as opposed
13 to something else.

14 **A** Well, they take the 911 call, they're
15 considered a peace effort. It is a public safety
16 answering point, they take the 911 calls, they look,
17 they usually have a CAD system, computer added
18 dispatch piece of software that they type in the
19 address and they assign it at car and that car is
20 then dispatched through the console, radio console.

21 **Q** And so I understand that this is all done
22 with computers, but there is a person who is the
23 dispatcher, correct?

24 **A** Correct.

25 **Q** All right. And so now do all

1 municipalities dispatch for themselves?

2 **A** No, in Ferguson's case they have Country
3 Club Hills and Calverton Park, and the new entity
4 Flordell Hills. They dispatch for those three other
5 agencies also.

6 **Q** Are there some municipalities that you are
7 aware of where St. Louis County communications
8 dispatches for some municipalities?

9 **A** Off the top of my head, there is like 23
10 different agencies that they dispatch their
11 departments.

12 **Q** Okay. So let's get some, I guess,
13 vocabulary out of the way. You talked about a
14 transmitter. What is a transmitter?

15 **A** Transmitter is basically a box and it has
16 a components for transmitting at different power
17 levels they are programmable it is also box
18 transmitter also is a receiver so it also receives
19 radio transmissions as well as when the dispatcher
20 keys up or pushes the talk button it turns
21 transmitter on and the voice goes out through the
22 transmitter.

23 **Q** Okay. And where is the Ferguson Police
24 Department transmitter?

25 **A** It is on their back parking lot where

1 there is a cell tower that's back there and their
2 tower and their antennas are on top of that tower.
3 At the bottom of this tower is a little shelter that
4 their transmitters are placed.

5 **Q** So the antenna is on a tower and the
6 transmitter is on a box inside the shelter?

7 **A** Yes.

8 **Q** And then this is behind the Ferguson
9 Police Department?

10 **A** Yes.

11 **Q** And so the console where the dispatcher
12 would sit, is that inside the Ferguson Police
13 Department?

14 **A** Yes, and it's wired line out to the
15 transmitter.

16 **Q** And is that on a, like a phone line or?

17 **A** It is like a phone line. It is not going
18 through the phone system system's network, but it is
19 like a pair of Cat 5 or a twisted pair of wires that
20 are going out to the transmit site.

21 **Q** So the dispatcher can communicate via the
22 transmitter and she can receive, I say she, the one
23 I'm thinking of is a she, can receive communications
24 via the receiver?

25 **A** Yes.

1 **Q** All right. And you mention portable and
2 mobile?

3 **A** Right.

4 **Q** And so explain what a portable radio is?

5 **A** A portable radio is what you see on the
6 officer. It can be held in his hand to transmit, or
7 a lot of them, a majority of them have what we call
8 a remote speaker mike, which you'll see right on
9 their shoulder that they can just key up the radio
10 and talk and the walkie-talkie or portable radio is
11 on their hips.

12 The mobile radio is mounted usually
13 inside the car and is usually a higher powered type
14 of road versus portable radio, which is a 5 watt
15 radio.

16 **Q** So I'm going to show you, I haven't marked
17 it, it is simply for demonstration purposes, but is
18 this a mobile radio?

19 **A** That's a portable.

20 **Q** Portable, see, I get mixed up. I just
21 learned all of this last week. So this is portable
22 radio?

23 **A** Yes.

24 **Q** And this would be something that the
25 officer would wear?

1 **A** Yes.

2 **Q** And what is this part?

3 **A** That is the remote speaker mike.

4 **Q** That can be worn on the epaulette on the
5 shoulder on the officer's uniform?

6 **A** Correct.

7 **Q** And so does the, does this radio have a
8 transmitter in it?

9 **A** Yes, it does.

10 **Q** And does this radio have a receiver?

11 **A** Yes.

12 **Q** What about the car radio, that's the
13 mobile radio?

14 **A** Right.

15 **Q** Does that have a transmitter?

16 **A** Yes.

17 **Q** Does that have a receiver?

18 **A** Yes.

19 **Q** So when an officer is in a vehicle and
20 they have their mobile, can they have their portable
21 radio and their mobile radio on at the same time?

22 **A** Yes.

23 **Q** And can they have them on the same channel
24 at the same time?

25 **A** Yes.

1 **Q** And what would happen if an officer tries
2 to transmit, for example, on his mobile mike, so the
3 car radio, while his portable is on and turned up?

4 **A** You get a horrible squealing. It is
5 called acoustic feedback, and it's a horrible
6 squeal, it's like you're in a room and the
7 microphones are turned up real high and you get that
8 squealing noise, that's what the officer gets. And
9 also at that time that is also being transmitted
10 back to the dispatcher. So she will sometimes say,
11 turn your walkie down or turn your walkie off.

12 **Q** Again, so we can kind of, the walkie
13 refers to the portable radio?

14 **A** Correct.

15 **Q** Okay. And so can an officer be in his
16 vehicle and have his mobile radio on a particular
17 channel, but have his walkie on a different channel?

18 **A** Yes.

19 **Q** And if he speaks on one of those radios,
20 do you get that squelch or that feedback?

21 **A** No.

22 **Q** Okay. Is there anyway for an officer, how
23 does an officer select a channel on the walkie?

24 **A** He has, there's two buttons and the one on
25 the outer and this is usually a standard on all

1 Motorola radios, the one on the outside is your on
2 and off button, and your volume control and then the
3 center one is your channel selector and it has
4 little ratchet clicking noise to it. A lot of the
5 officers know by clicking it two or three times on
6 what channel they're on.

7 Q And so on this particular radio, the
8 buttons are different height, correct?

9 A Correct.

10 Q And different shapes?

11 A Correct.

12 Q And they have different feel to them as
13 well?

14 A Correct.

15 Q And is it true that on all the Motorolas
16 channel selector is in the middle?

17 A Yes.

18 Q And so, and then the other button you said
19 was an on/off and volume?

20 A Yes.

21 Q And how many channels does a portable
22 radio, how many channels can that radio turn to?

23 A Most of them all are 16 channels on the
24 channel selectors always usually 16.

25 Q Are there also 16 channels in the mobile

1 radio?

2 **A** Yes or more.

3 **Q** And that's in the vehicle?

4 **A** Right.

5 **Q** So you said that the ones inside the
6 vehicle are usually a higher power?

7 **A** Yes.

8 **Q** And so in Ferguson, do you know how high
9 of power the ones in the vehicle are?

10 **A** They are 50 watts.

11 **Q** And what is the power of the handheld?

12 **A** That's 5 watts.

13 **Q** Okay. And so let's talk about the RIOT
14 channel. You familiar with the RIOT channel?

15 **A** Yes, I am.

16 **Q** And so can you, what does RIOT stand for,
17 it doesn't mean it is just for riots?

18 **A** Correct. It is Radio Operability, Radio
19 Interoperability Tactical.

20 **Q** So it's an acronym?

21 **A** Yes.

22 **Q** So what is the purpose of the RIOT
23 channel?

24 **A** It is to be used for any type of events
25 that needs St. Louis County or any of the other

1 municipalities to be able to communicate together in
2 some type of event.

3 Q All right. And are you aware of how many
4 RIOT channels there are in St. Louis County?

5 A There's a RIOT A, B, C, D and E, so a
6 total of five.

7 Q Okay. Now, when a police department
8 purchases and installs a radio system, are the
9 channels uniform throughout each municipality or
10 does each municipal decide what channels they want?

11 A They mostly decide which one they want.
12 There is mostly a standard that every radio has at
13 least RIOT A. Some will put RIOT B in, some won't.
14 Some will just keep RIOT A their preference.

15 Q So would it be, for example, I'm just
16 saying this, for example, like channel one might be
17 the dispatch channel?

18 A That's always usually the dispatch
19 channel.

20 Q Okay. And then what other kind of
21 channels are there for the radio?

22 A There's a mutual aid channel.

23 Q Mutual aid?

24 A Right, which is once again kind of an
25 inoperability type of channel, most every radio

1 within the state, mutual aid channel. There's a
2 point-to-point and that's used for dispatchers to be
3 able to talk to other dispatch centers. It is
4 always in that as receive only. The licenses set up
5 for base station transmission only, no portable
6 radios can talk on it so they don't interfere with
7 the radio traffic being transmitted to each of the
8 different dispatch centers.

9 **Q** So if an officer has his radio on the
10 point-to-point channel, he can hear other
11 dispatchers that might be talking to each other?

12 **A** As long as he's within the range of that
13 transmitter.

14 **Q** Okay. We'll talk about the range in a
15 second, but that's the purpose of that?

16 **A** Right.

17 **Q** They can hear it, but they can't transmit?

18 **A** That's correct.

19 **Q** Okay. And so what about the RIOT channel
20 now, how does that work. If someone got on the RIOT
21 channel, who can they talk to?

22 **A** Um, as long as the neighboring
23 municipality, they have it set up to have some type
24 of DWI checkpoints or something like that, they
25 would use it.

1 **Q** So if, for example, the president or
2 vice-president was going to visit St. Louis and the
3 St. Louis County Police Department was going to
4 provide security for that visit, would they use the
5 RIOT channel for a period of time?

6 **A** Definitely they would secure that channel
7 for that event.

8 **Q** And so if any municipality or anybody that
9 has these radios can talk on the RIOT channel, how
10 is it that they know not to use it if, for example,
11 there is a presidential visit?

12 **A** There's pretty much a notice that goes out
13 through St. Louis County saying between this date
14 and this date, you know, that's going to be used for
15 the president coming to town. They even have it set
16 up for the one golf tournament at one of the country
17 clubs that they do security with they might secure
18 that channel for that.

19 Ballwin Days, they would request the
20 St. Louis County, we have Ballwin Days going, can we
21 use the RIOT channel, and they usually approve it
22 unless there's something, an event that's going to
23 happen, they will reserve it.

24 **Q** It can be used for preplanned events, what
25 about events that are not preplanned?

1 **A** That's kind of a go-to if you are on it
2 using it for an event and something larger comes,
3 everybody goes to a different channel.

4 **Q** So, for example, if there was a hostage
5 situation that was occurring in South County and the
6 County Police had mobilized and their attack unit
7 was on scene and various precincts maybe have been
8 called in for this situation. Would that be
9 something they would advise all of those officers to
10 turn to the RIOT channel?

11 **A** Definitely, that is the go-to channel
12 basically.

13 **Q** So the theory is at that time the officers
14 that are using RIOT channel are all using it for the
15 same purpose, they all know what's going on, they
16 are there for that particular event?

17 **A** Correct.

18 **Q** So now, let's talk about, we talked about
19 when possibly a call could be received and not
20 received. And you and I met last week and you kind
21 of had to educate me on a lot of this, but we talked
22 about the fact that whether or not a call can be
23 received by somebody might, in part, be determined
24 by signal strength, correct?

25 **A** Correct.

1 **Q** So given that the walkie-talkies?

2 **A** 5 watts.

3 **Q** 5 watts. That's a lower signal strength
4 than the mobile radios in the cars, correct?

5 **A** Correct.

6 **Q** And then how many watts does the
7 dispatcher has?

8 **A** The dispatcher, most of all in St. Louis
9 County their base stations, their transmitters are
10 at least 100 watts.

11 **Q** Okay. And so there is another thing that
12 might affect whether or not a transmission is
13 received is the distance away from the dispatch
14 transmitter that the radio is, correct?

15 **A** Correct. It is kind of a line of sight.
16 So anything in between this antenna and that
17 dispatch center can reduce the radio transmission to
18 that receiver. So if there is a building, even
19 trees, large thick trees, any steel structure
20 reduces that capability of that transmitter to get
21 to that receiver.

22 **Q** What about the height of the antenna, does
23 that also affect the transmission?

24 **A** Yes. And especially if a portable radio.
25 Being on your hip can reduce that 5 watts to almost

1 half if it is touching your body or if this officer
2 is a large person, that can really cut down the
3 power.

4 Q Okay. So would it be uncommon then that
5 maybe an officer who is using his portable
6 walkie-talkie could call out and transmit something
7 and the dispatch not hear him?

8 A Yes, very much so.

9 Q Okay. Also, we talked about the different
10 powers and strengths of these radios, is it possible
11 for other officers when they're on say the dispatch
12 channel, can an officer in car A hear officer in car
13 B transmitting a call?

14 A If he's close enough. Only if he's close
15 enough within, you know, a range. On a portable
16 radio, it is usually a mile tops, not too much
17 unless you are out in Kansas, straight line, nothing
18 there, maybe a mile and a half or so. These are
19 very low power. He would probably hear the mobile
20 radio more than he would hear the portable radio.

21 Q So to understand this, when someone in the
22 vehicle transmits on the mobile, and let's say they
23 are going to talk to another car, does that
24 transmission go from their mobile to the transmitter
25 tower behind the police station and then go back out

1 to that car?

2 **A** No, it is just radio to radio, from mobile
3 radio to mobile radio.

4 **Q** And can you do that, can you talk to other
5 cars when you are on the dispatch channel?

6 **A** Yes.

7 **Q** Okay. And when other cars are talking to
8 each other, can you hear that maybe when you are on
9 the dispatch channel?

10 **A** Yes.

11 **Q** But I'm gathering that you might not hear
12 it depending on how far apart you are?

13 **A** Correct.

14 **Q** And where the radio might be, correct?

15 **A** Correct.

16 **Q** And so, and we heard some testimony from
17 another officer who talked about like when he left
18 his police vehicle and went inside a residence for a
19 call, he might not hear transmissions that are being
20 made by dispatch because he's a distance from the
21 car and he's also on the walkie-talkie inside a
22 building?

23 **A** Right. If he's inside the building, the
24 mobile wouldn't have any factor on his portable
25 radio. It is that building structure that is going

1 to reduce the capability of receiving on that
2 portable.

3 Q Okay. So it is possibility for a police
4 officer if he's using his walkie-talkie to transmit
5 a call, but that call might not be received by local
6 dispatch?

7 A Correct.

8 Q And that has to do with all of those
9 factors we've talked about?

10 A Correct.

11 Q Now, are you aware that when the Ferguson
12 dispatch receives calls or transmits calls that they
13 actually record those calls?

14 A Yes.

15 Q So if the call is not, here is a question
16 I don't even think I asked you this last week. When
17 a call is not received by a dispatcher, is there
18 anyway to tell if that call was ever made?

19 A No, because that recorder is connected to
20 the receive portion of the dispatch console. So
21 whatever the dispatch console receives and hears,
22 that is when it is recorded.

23 Q Okay. Is it possible, are there occasions
24 when a call is received like it is garbled or
25 there's, you know, static that would make it

1 difficult or impossible to tell what's being said?

2 **A** Definitely.

3 **Q** Okay. Now, let's talk about when an
4 officer is wearing his walkie for the portable radio
5 if his car is on the dispatch channel, we talked
6 about if he is in his car he can be on two different
7 channels, right?

8 **A** Right.

9 **Q** If his car is on the dispatch channel and
10 his walkie-talkie gets switched to another channel,
11 does he get any kind of squelch or anything like
12 that?

13 **A** No.

14 **Q** So that could happen, and if that were to
15 happen and he was unaware of the switch, he would
16 not know?

17 **A** No.

18 **Q** Without looking down?

19 **A** And looking --

20 **Q** At the collector?

21 **A** Right.

22 **Q** Now, I'm looking at the top of this
23 portable radio, there's an orange button here?

24 **A** Right.

25 **Q** What is that orange button?

1 **A** When the officer presses that, it sends
2 out a data burst that is a number that has been
3 programmed in that radio. So it could be 1, 2, 3,
4 4, it will send out that data burst. It will be
5 decoded at the dispatch console and whatever they
6 decode it as, it could be the officer's name, it
7 could be the car number, it could be anything, an
8 alias associated to that radio. It could be even to
9 that beat, it could be beat 104 that when he hits
10 that button it will come up on the screen.

11 Lights flash red and a horrible noise
12 of beeping goes off until that dispatcher hits the
13 console a couple times to silence it.

14 **Q** And so is there any information that is
15 transmitted other than what you said that might be
16 preprogramed to associate that radio is the who that
17 transmitted that.

18 Is there anything, can I push that
19 red button and then say something in there?

20 **A** Yes, it also lets you to be able to
21 transmit.

22 **Q** And this data burst that can happen if you
23 press that orange button, does that depend upon
24 those factors, like how far away you are, whether
25 you're in a building or there's buildings between

1 you and the transmitter, are those still factors?

2 **A** Those are still factors.

3 **Q** That's also a radio signal?

4 **A** Right.

5 **Q** And it's 5 watts when it comes from there?

6 **A** Yes.

7 **Q** Okay. When an officer is wearing this
8 type of radio and this is on his sleeve, if he has
9 it turned to, for example, the dispatch channel, is
10 this also a speaker?

11 **A** Yes.

12 **Q** So he can hear what's being transmitted?

13 **A** Yes.

14 **Q** Does this have a speaker on it?

15 **A** It does, but it is disabled once that
16 remote speaker mike is connected to the radio.

17 **Q** So if you are in your vehicle and your car
18 vehicle is turning to the dispatch channel and this
19 is on the dispatch channel, does either of them
20 cancel each other out?

21 **A** No, it is basically which one is turned up
22 the loudest is which one they are going to hear.

23 **Q** So you could hear both?

24 **A** Yes.

25 **Q** If they were on different channels, could

1 you hear different transmissions?

2 **A** Yes, definitely.

3 **Q** But it would be if you keyed your mike,
4 that's when you get that squelch?

5 **A** Correct.

6 **Q** So let's talk about what calls that might
7 walk over each other. That is kind of a phrase that
8 I used, but is it possible if an officer is
9 transmitting from this type of a radio, a portable
10 radio, if someone else on that same channel keys in,
11 can that person talk over him possibly ?

12 **A** Especially if it is on a car radio, it's
13 possible, but it's really whoever is closest to
14 Ferguson's transmit site on the dispatch channel.
15 It is called kind of a receiver capture effect. So
16 that receiver in that base station, whatever hearing
17 is the strongest is what's going to be able to be
18 heard to the dispatcher.

19 However, if they mix then you get the
20 garbling sound and you might pick out, you know, 102
21 or you might pick out a little bit of radio traffic.
22 And that's when the dispatcher will usually say, car
23 102, go ahead with your traffic or something like
24 that, or too many cars calling in they usually state
25 but yes, it can happen.

1 **Q** Okay. Now let's talk about transmissions
2 on the RIOT channel. Do those transmissions when
3 you are on say RIOT A, if you are on RIOT A on your
4 radio, does that transmission go to Ferguson?

5 **A** No, St. Louis County does a series of
6 voting receivers and all they are receivers and they
7 are like ears. And the closest radio is picked up,
8 that audio is sent down by phone line back to
9 another box here in Clayton called a comparator.
10 And that takes the best audio, not the transmission,
11 but the audio sound from that receiver and votes on
12 which one's the best, and the best audio, the
13 strongest audio signal will be heard to the recorder
14 and to the dispatcher sitting at that console
15 monitoring the RIOT A channel.

16 **Q** So the dispatcher monitoring the RIOT A
17 channel is here in Clayton, right?

18 **A** Correct.

19 **Q** So it is not the Ferguson dispatcher who
20 is monitoring unless she chooses to do that?

21 **A** Right.

22 **Q** And I think we talked about the fact that
23 a dispatcher has their dispatch channel and then
24 they have another selected --

25 **A** Unselected audio.

1 **Q** Unselected. So they can now monitor two
2 different channels at once?

3 **A** Correct.

4 **Q** And so, so, how many voting?

5 **A** Voting receivers.

6 **Q** How many voting receivers are there in St.
7 Louis County?

8 **A** Oh, just on the RIOT channel I'm going to
9 take a guess. I don't have their information right
10 in front of me, but I want to say at least six or
11 seven.

12 **Q** Okay.

13 **A** Throughout the county north, south, east
14 and west.

15 **Q** And so, for example, if something is going
16 on down in South County, and the county police is
17 using the RIOT A channel because of this incident
18 that occurred. If a Ferguson officer calls in on
19 the RIOT A channel when he's up in Ferguson, is it
20 possible that his transmission will not be received
21 by Clayton?

22 **A** Yes, especially if the receiver down south
23 is hearing the transmission louder and it is being
24 sent in and being voted and voter, that transmission
25 will be just put on the side basically, won't even

1 come through.

2 **Q** Will there be any record that that
3 transmission was made?

4 **A** No.

5 **Q** So the voting receiver just measures the
6 strength and quality, audio quality of the call and
7 then the voting receiver then selects which call
8 they are going to put through?

9 **A** Right.

10 **Q** And so is it possible then that somebody
11 on a walkie-talkie in Ferguson could make a call on
12 the RIOT A channel, if County Police were using the
13 RIOT A channel down at South County at the same time
14 and there were officers talking at the same time, is
15 it possible then that the Ferguson officer's call
16 would never get recorded in Clayton?

17 **A** Very possible.

18 **Q** Is there anything that I haven't asked you
19 that I forgot about that is important?

20 **A** No.

21 **Q** And just again if you all want to look at
22 this, I will tell you that this is a radio from the
23 Ferguson Police Department. It is not Officer
24 Wilson's radio, but they have the same radios and
25 just for reasons that you might want to look at it.

1 But don't try to call on it because I have no idea
2 if it would work. It probably wouldn't transmit in
3 here, would it?

4 **A** Want to try it?

5 **Q** No.

6 MS. ALIZADEH: I'll just kind of start
7 this around and Sheila, do you have any questions
8 for

9 **Q** (By Ms. Whirley) Well, it is just kind of
10 unnerving, I guess, so you are saying, maybe you
11 didn't say common, but how common is it for dispatch
12 not to receive calls?

13 **A** Um, it just depends on the radio traffic.
14 If it is really busy, a really busy day at that
15 municipality it can happen. You know, one thing, I
16 hope I'm not telling any secrets, one issue is one
17 of the county channels which is dispatched in West
18 County, they have Eureka, they have Chesterfield.
19 They are so far away that Eureka officer could be
20 keying up trying to talk to a dispatch and that
21 Chesterfield officer, which is a little bit closer
22 to the receiving site, is going to get to Clayton
23 more and this guy is saying, hey, I need help or
24 something, that Eureka officer, there is a good
25 chance is not getting back to Clayton.

1 **Q** Wow?

2 **A** That is one of the reasons why this new
3 system is being put in.

4 **Q** That's something to come that we don't
5 have yet?

6 **A** Correct.

7 **Q** So that orange button that you were
8 referring to, is that supposed to be like an
9 emergency?

10 **A** Yes.

11 **Q** Aspect for this?

12 **A** Yes. Another way that that works, even if
13 there's radio traffic, it is still pulsing that data
14 out. It doesn't care if there's radio traffic on
15 it, it keeps on trying until it gets an
16 acknowledgment from the dispatcher.

17 **Q** And as I understand, you can be on, I
18 guess RIOT A, which is the county?

19 **A** Yes.

20 **Q** And that orange button wouldn't have any,
21 would it work for county or would it just go to, if
22 you are on the RIOT A channel.

23 **A** Right.

24 **Q** And you are a Ferguson officer and if you
25 hit that a orange button, what would happen?

1 **A** It would go to dispatch. It is programmed
2 as a revert, so when you hit that button, if you are
3 on channel six, it doesn't matter what channel, you
4 hit that emergency button, it reverts that data to
5 the dispatch channel.

6 **Q** To Ferguson's dispatch?

7 **A** Yes.

8 **Q** So even though RIOT A channel, it wouldn't
9 be of any consequence to them?

10 **A** Right.

11 **Q** But Ferguson would?

12 **A** Right.

13 **Q** And is it your understanding that most
14 officers are trained if you are in an emergency
15 situation to hit that orange button?

16 **A** Yes, ma'am.

17 **Q** So if I'm in a shooting or something that
18 would probably be one of the first things a trained
19 officer would do is to hit that orange button?

20 **A** I can't tell you what that officer would
21 be thinking at that time, but that is kind of, I
22 need help, that's what I hit.

23 **Q** That's the purpose of that orange button
24 is to supersede everything to let your dispatch know
25 that you need help?

1 **A** Right.

2 MS. ALIZADEH: Or to put out a call to
3 other cars, 105 is in an emergency situation and
4 possibly give a location, right?

5 **A** Whatever their standard of their procedure
6 is, could be both.

7 MS. WHIRLEY: Because most departments, I
8 know you can't speak to all of the departments, it
9 sounds like you are implying that most departments
10 have some kind of procedure regarding how to use
11 that orange emergency button?

12 **A** Correct.

13 MS. WHIRLEY: It is put there for a
14 reason, right?

15 **A** Yes.

16 MS. WHIRLEY: And the reason is for
17 emergency situations?

18 **A** Yes.

```
19                                     So the channel,
20  the radio channel has nothing to do with the orange
21  button, it doesn't have to be on a certain channel?
```

22 **A** That's correct. That radio when I
23 programmed it, it is called revert and it reverts to
24 the dispatch channel.

25 Is it common

1 for police officers to keep their mobile and their
2 portable on a different channel?

3 **A** Usually, it is.

4 : Usually they do. Okay.

5 So they would have to know that they are on a
6 different, their portable is on a different channel
7 when they get out of the car and switch it back?

8 **A** Some might just use it to listen to the
9 neighboring municipal next to them, that is what
10 they use it mainly, what they tell me. They like to
11 hear what's going on around them. Maybe Ballwin
12 would listen in on Manchester PD is doing in case
13 they need an assistance or something.

14 : They do keep it on
15 different channels while they are in the car?

16 **A** Yeah. And some keep it turned off too to
17 save the battery and save avoidance of feedback
18 sometimes.

19 . Can the
20 dispatcher ever notify a police officer that they
21 are on the wrong channel? Like they think they are
22 on their department channel, but for some reason
23 they are always on it or have a signal?

24 **A** No, there is nothing the dispatcher can
25 see on what channel that that portable or mobile is

1 on. The only way if they are calling them, they
2 know that they're not on the dispatch channel. If
3 they are trying to call dispatch and they're not
4 responding, yes. They will call them by cell phone
5 or keep on calling, but there is no way that
6 dispatcher knows.

7 MS. WHIRLEY: I had a question --

8 So there is no readings
9 that goes out daily from all whatever happened that
10 day? Like there is a computer generating all the
11 radios from that day for each department, police
12 department in the areas, different areas. There is
13 no generated report that's coming out?

14 **A** No, not from which channel their on. The
15 only thing I've seen where it counts how many times
16 the radio has been keyed up. It might say it's been
17 keyed up on this channel ten times that day, that's
18 about it.

19 MS. WHIRLEY: On the mobile, I'm sorry,
20 that's passed around, I'm sorry, the portable, thank
21 you. The orange button is on there, is there also a
22 an orange button on the mobile that's inside the
23 car?

24 **A** Yes, ma'am.

25 MS. WHIRLEY: For the same purpose, it is

1 an emergency transmission?

2 **A** Yes.

3 MS. WHIRLEY: Because I was going to ask
4 you, what can an officer do if he's in trouble if he
5 may not be heard on the transmitter, but that's what
6 he can do?

7 **A** Right.

8 MS. WHIRLEY: Okay.

9 . Is there any
10 other way for dispatch to communicate with the
11 officer, like through texting to display or texting
12 to the laptop.

13 **A** There is some messaging on their CAD
14 system, their in-car computer system. I know that
15 exist, I can't tell you that Ferguson has that
16 feature, but most of the agencies within St. Louis
17 County does have a way, and they can communicate car
18 to car also, so that officer can send a message to
19 the neighboring precinct or jurisdiction, how am I
20 going to say this, to the officer next to them.
21 Would be the officers within that agency.

22 . You talked about
23 red button emergency situation, that's a pretty
24 broad for a police officer to cover, obviously,
25 every emergency situation is going to require a red

1 button. You kind of mentioned a life and death
2 situation, seems like that button is pretty much
3 reserved for an extremely serious emergency, not
4 typical emergency for a police officer?

5 **A** Correct.

6 : And that can happen very
7 quickly. The odds of a police officer to get to
8 that button in the time of a quickly escalating
9 activity, that could be a question?

10 **A** Right.

11 It would be hard to hit
12 that button in a very highly emergency situation
13 that happens very quickly?

14 **A** Right. And if you notice the size of that
15 button, you really got to hunt for it sometimes.

16 MS. ALIZADEH: And just on another note,
17 for example, the situation is over, then there would
18 be no reason necessarily for the officer to use the
19 orange button as opposed to using his walkie-talkie
20 because then he can explain the nature of his need
21 for help, correct?

22 **A** Correct.

23 MS. ALIZADEH: And if he's transmitting,
24 if you're transmitting from your walkie-talkie and
25 it's not being received, other than nobody responds,

1 is there any way that the officer knows that his
2 transmission didn't get received?

3 **A** None whatsoever.

4 MS. ALIZADEH: I send an email and it
5 doesn't get received, I get something back saying it
6 wasn't delivered?

7 **A** Correct.

8 MS. ALIZADEH: But there's nothing on the
9 radio like that.

10 **A** No. Some departments train they officers
11 if they don't get out, take radio out of their
12 holster and transmit, but I couldn't tell you about,
13 but that is part of a SOP in a lot of departments.

14 MS. ALIZADEH: And SOP is standard
15 operating procedure?

16 **A** Yes.

17 MS. WHIRLEY: And tell us again what does
18 CAD stands for, the CAD?

19 **A** Computer Aided Dispatching.

20 MS. WHIRLEY: Okay. And is that time
21 generated, I mean, there's a CAD report, right?

22 **A** Right.

23 MS. WHIRLEY: Does that track the timing
24 of the calls?

25 **A** Yes.

1 MS. WHIRLEY: Who puts that information in
2 there, I know it is computer generated, correct,
3 tell me about that?

4 A Well --

5 MS. ALIZADEH: Let me back up here. Do
6 you have expertise to talk about the CAD system?

7 A I know the mechanics, the technology, you
8 know, how they receive the timing, but as far as it
9 is all software and every department has got a
10 different type of CAD. So I couldn't tell you
11 exactly what information goes in it or how the
12 screen is. How most of them are set up for timing.

13 MS. WHIRLEY: That's what I want to know
14 about.

15 A So a lot of departments bought what they
16 call Net Clocks. They are little boxes that are
17 connected to a GPS antenna and they get their timing
18 from the satellites, just like our car GPS works.
19 There is also timing that is done and this box kind
20 of distributes that timing mechanism, which can go
21 to logging reporters, their CAD, some departments I
22 set up their consoles have this timing. So that all
23 the timing is the same throughout.

24 MS. WHIRLEY: Okay. So when an officer
25 calls in, let's say I'm on a traffic stop or I'm out

1 with a pedestrian, would that information be timed
2 into the dispatch or to this CAD system?

3 **A** I can't answer that. I don't know.

4 MS. WHIRLEY: Okay.

5 **A** I have been listening to police calls
6 since I was eight years old. Most of the time, the
7 dispatcher, the officer will call in, I'm at a
8 traffic stop blah, blah, blah. She will usually
9 repeat, car 104 is at a traffic stop at 1520 hours,
10 or something like that. And that's usually the time
11 the officer will write down that time and that is
12 what's recorded in the CAD so all the times are
13 together.

14 MS. WHIRLEY: Okay.

15 MS. ALIZADEH: , you didn't set
16 up the CAD system in Ferguson, correct?

17 **A** I did not.

18 MS. ALIZADEH: And you don't know how they
19 have it set up?

20 **A** That's correct, I do not.

21 MS. ALIZADEH: So is it possible that the
22 time for their CAD calls might differ from the time
23 that dispatch calls?

24 **A** Definitely.

25 MS. ALIZADEH: If they set them manually

1 as opposed to getting those times from the
2 satellite, is it possible then that those times
3 could be off?

4 **A** Yes, definitely. I know I did not sell
5 them a Net Clock or any type of timing mechanism.

6 MS. ALIZADEH: What about compare it also
7 to, for example, county communications. Is it
8 possible that Ferguson's CAD calls and their
9 dispatch calls might not be timed, the CAD's might
10 not be the same with the county communication clock?

11 **A** Definitely.

12 MS. ALIZADEH: So a call that we all know
13 for a fact that was made at 3:00 in the afternoon.
14 The dispatch time might be 3:02, the CAD call might
15 say 3:01 and yet the county communication, if it
16 were received there, might say it was 3:00?

17 **A** Yes, definitely.

18 MS. ALIZADEH: Be it is just one call?

19 **A** Yes.

20 I just
21 want to make sure I understood you. The
22 point-to-point channel, this is dispatch, and the
23 portable is not transmitting and they can only hear
24 what's going on?

25 **A** Right.

1 MS. ALIZADEH: When it's on
2 point-to-point.

3 : When it is on
4 point-to-point?

5 **A** Right.

6 : So if an officer had his
7 portable on that channel while he is in the car,
8 left the car, he thought he was calling in, nobody
9 would hear him --

10 **A** That's correct.

11 -- until he changed the
12 channel?

13 **A** Right. What he is going to hear is maybe
14 a bong because that is a receive channel only.

15 : That would be the same,
16 not that nobody would hear him, but dispatch would
17 hear him if he was on a RIOT channel, he is on the
18 mutual aid channel or any of the other channels, he
19 would have to it put it on one, which is a dispatch
20 channel for his dispatch to hear him?

21 **A** No, if he's on point-to-point, I'm sorry,
22 if he's on RIOT channel.

23 : Uh-huh.

24 **A** And dispatch has RIOT channel turned on at
25 the console at Ferguson, and he's close enough, yes,

1 it is going to transmit and a good chance the
2 dispatcher is going to hear them.

3 MS. ALIZADEH: Any other questions?

4 (End of the testimony of .)

5 It is 3:28 on November 3rd. This is Kathi
6 Alizadeh, Sheila Whirley is present, also all 12
7 grand jurors are present and , the court
8 reporter. And we just had a discussion off the
9 record that we talked about that a witness that I
10 had scheduled for this afternoon didn't show up, so
11 we are kind of out of material for today.

12 And so you all agree to go ahead and
13 recess early today. There has been discussion now
14 about additional things that you all want. It is my
15 understanding that we're going to get a Ferguson
16 police vehicle that is not the same vehicle, but the
17 same make, model and year. So we have to set up
18 when we are going to do that.

19 There's been a request to get the press
20 conferences from Chief then there's been a
21 request to get, I will get you copies of the
22 transcript of Officer Darren Wilson's grand jury
23 testimony.

24 You should have a transcript of his
25 interview that he did with the county police on the

1 10th, but I will get the transcript for you for
2 tomorrow, give it to you tomorrow.

3 And then I'm also going to contact Chief
4 to see if he can appear to answer any
5 questions that you may have that might arise out of
6 your viewing of the press conferences. And is there
7 anything else? Oh, yes, you talked about getting a
8 field training officer. So I will talk to Ferguson
9 about that.

10 I think we discussed the fact that it's
11 Darren Wilson's field training officer in Ferguson
12 is currently and so probably we
13 would want to find somebody else who could talk
14 about the training that they do for their officers
15 in general.

16 Would obviously not be that he received,
17 but in general. Is that all we can think of for
18 now?

19 : Perhaps get somebody in
20 the Normandy Police Department that trained him?

21 MS. ALIZADEH: That was Jennings.

22 : Oh, sorry, Jennings.

23 MS. WHIRLEY: What was that again?

24 Check with somebody, one
25 of his superiors in Jennings to see if they gave him

1 some field training instruction before he came over
2 to Ferguson and that way you avoid
3 situation.

4 MS. ALIZADEH: So we will recess early
5 today and it is my understanding that tomorrow we're
6 going, you are going to get here at 8:00, we start
7 up about 8:30-ish, whenever you are all here. And
8 then we're stopping at 4:00 tomorrow for the
9 election; is that correct.? Amendment 2, I'm just
10 plugging it. Everybody have a good evening.

11 (End of Grand Jury hearing XVIII.)

2 State of Missouri

3 SS.

4 County of St. Louis

5 I, , a Licensed Certified Court
6 Reporter by the Supreme Court in and for the State
7 of Missouri, duly commissioned, qualified and
8 authorized to administer oaths and to certify to
9 depositions, do hereby certify that pursuant to
10 Notice in the civil cause now pending and
11 undetermined in the County of St. Louis, State of
12 Missouri.

13 The said witness, being of sound mind and being
14 by the grand jury first carefully examined and duly
15 cautioned and sworn to testify to the truth, the
16 whole truth, and nothing but the truth in the case
17 aforesaid, thereupon testified as is shown in the
18 foregoing transcript, said testimony being by me
19 reported in shorthand and caused to be transcribed
20 into typewriting, and that the foregoing page
21 correctly sets forth the testimony of the
22 aforementioned witness, together with the questions
23 propounded by counsel and grand jurors thereto, and
24 is in all respects a full, true, correct and
25 complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XIX

2 MS. ALIZADEH: Good morning, it is
3 Tuesday, November 4th, at 8:46 a.m. This is Kathi
4 Alizadeh, Sheila Whirley is present, all 12 grand
5 jurors are present, as is , the court reporter.
6 And we had a brief discussion before we went on the
7 record this morning about some matters, about
8 matters that the grand jury had inquired about, and
9 I've answered them to the best of my ability.

10 And, uh, now we discussed that yesterday
11 we attempted to play a disc for the grand jury which
12 is marked as Grand Jury Exhibit Number 63, and it is
13 a disc that contains the statement of ,
14 a witness who has testified last week. And we
15 weren't able to play that for some reason, the disc
16 doesn't play, can't open it.

17 So I have another disc that we're going to
18 play that is also a disc that I received from the
19 FBI, which is Grand Jury Exhibit 56.

20 (Deposition Exhibit Number 56
21 marked for identification.)

22 MS. ALIZADEH: And hopefully this will
23 play. This is the statement of . It
24 is 29 minutes and 11 seconds long. We do not have a
25 transcript because this was actually the statement

1 that he made last week. I'm not sure of the date,
2 but it was done after he came from the State of
3 to come up here and testify. It was recently
4 done, we don't have a transcript for that.

5 So, , if you can transcribe it, but
6 we will go ahead and pause the recording during the
7 playing of the disc. And at this time I'm going to
8 leave the room because we have a witness here who I
9 would like to speak with before he testifies. And
10 so at this time, , if you want to pause that.

11 (This is the playing of the audio
12 recording interview of . I am also
13 transcribing it.)

14 : This is special agent
15 We're at the FBI field office 2222 Market
16 Street, St. Louis, Missouri. It is October 27th,
17 2014, 3:28 p.m. I'm here with USA and
18 DOJ trial attorney and we are
19 interviewing.

20 :
21 Okay. Get some info from
22 you. Is your first name ?

23 Legally it's , but it
24 was supposed to have been .

25 : Okay. But you go by .

1 : Yes, ma'am.

2 : It is ?

3 Yes, ma'am.

4 You go by , okay. What

5 is your current address?

6 :

7

8 Okay. What town?

9 :

10 Okay. What's a good phone

11 number for you?

12 :

13 Okay. What's your date of

14 birth?

15 **A**

16 : Okay. Do you know

17 your social security number?

18 : Yes, ma'am.

19 Okay. And where were you,

20 what was your address on August 9th, 2014.

21 :

22

23 : Okay.

24 MS. : So you guy by is it okay

25 with you if we call you ?

1 : Yes, ma'am.

2 MS. : So we talked a little bit
3 before the recording started, but we basically just
4 want to hear what you know about what happened. So
5 if you tell us what other people told you that's
6 fine, but just let us know those are what other
7 people told you.

8 We're just looking to find, to figure out,
9 like I said, what happened, we are just looking for
10 you to tell us the truth.

11 We tell everybody who comes in here that
12 it could be a crime to lie to the FBI, it is a crime
13 to make material false statements to the FBI.

14 So I'm not assuming you are going to lie,
15 but we want you to know that, okay?

16 : Yes, ma'am.

17 MS. All the answers need to be out
18 loud, we are making a recording. If we ever do a
19 transcript or you shake your head, obviously, the
20 recording doesn't pick that up, okay?

21 : Right.

22 MS. So if you nod your head you are
23 going to probably hear me say is that a yes or if
24 you shake your head I will say is that a no, okay?

25 : Yes.

1 MS. : Okay. If at any point you
2 don't understand a question that we're asking you,
3 let us know because we are not trying to trick you,
4 we are just trying to figure out what happened. So
5 sometimes we ask bad questions that doesn't make
6 sense, just let us know. Because if you answer a
7 question we are going to assume that you understood,
8 it is that fair?

9 : Yes, ma'am.

10 MS. : Okay. I just want to generally
11 go through what you remember happening and then when
12 we go back and ask you some questions to clarify to
13 help us understand more what your perspective was.

14 Okay.

15 MS. : Okay. So you were living, you
16 just said on Canfield Court back on August 9th?

17 Yes, ma'am.

18 MS. : And this is, you know Michael
19 Brown?

20 Not really.

21 MS. : I think you said he was a
22 friend of a friend?

23 Yes, he's a friend of a
24 friend.

25 MS. : Okay. Which friend is he a

1 friend of?

2 : I have a friend name

3 .

4 MS. Okay. And did you ever hang
5 out with Michael Brown?

6 : No, ma'am.

7 MS. : When did you first meet him?

8 Probably when we were going
9 to the store. There was three of us. Me,
10 and Mike.

11 MS. When was that relative to when
12 this all happened?

13 : It was a couple years ago.

14 MS. : Years ago?

15 Yes, ma'am.

16 MS. All right. So we will go to
17 that in a second. What I want to talk about first
18 is what you remember happening on August 9th.

19 Okay. Well, I seen Mike
20 and some other young man walking down the street.
21 And I was just sitting down on the porch just
22 looking around and I seen the officer approach. Not
23 sure if he said anything because I'm too far away.
24 I didn't see or hear anything, but then I seen him
25 almost like sort of run him over, run his foot over

1 or something like that.

2 And I guess they got into a scuffle, but I
3 went in the house to get my phone because I was
4 going to go record it. But I heard a gunshot, so I
5 raced outside. I went to the other side of the
6 balcony and then I seen Mike Brown holding himself.

7 MS. : (inaudible) You saw that he had
8 his hand down around his stomach?

9 : Yes, he had his hand like
10 around his torso area.

11 MS. : Okay. Which hand, do you
12 remember?

13 : Um, I really don't remember
14 which hand it was.

15 MS. : Okay.

16 : I just know he was holding
17 himself and he turned around towards the officer and
18 the officer kept firing. And I guess he was, I
19 don't know if he stepped forward or if he was
20 falling forward, but as he was falling forward, the
21 officer was still firing.

22 MS. : Okay. So you're saying and
23 that is in total what you saw.

24 : Yes, ma'am.

25 MS. : You said the officer was still

1 firing, what did the officer do at some point, did
2 the officer stop firing?

3 **A** Yes, ma'am afterwards.

4 MS. After what?

5 : After he hit the ground.

6 MS. : Okay. What did the officer do
7 once Michael hit the ground?

8 I'm not sure. I was
9 looking around making sure that someone else saw
10 what I saw.

11 MS. Okay. So let's back up a
12 little bit, okay. So you were sitting on your porch
13 and you see Mike Brown and this other kid, where
14 were they walking?

15 : Down the street like coming
16 from the main street.

17 MS. : West Florissant?

18 : Yes, ma'am.

19 MS. : Where on the street were they
20 walking?

21 : They're in the middle of
22 the street I believe.

23 MS. : Okay. What about the police
24 officer, where was he?

25 Um, he wasn't around until

1 they got towards like the other, there was another
2 apartment complex across the street from where I
3 was. So he didn't pull up until they got to that
4 part.

5 MS. Okay. Which direction is the
6 police officer going?

7 : Um, he was coming towards,
8 coming down.

9 MS. : The opposite direction?
10 : He was coming the same way
11 they were coming.

12 MS. : So the police officer is coming
13 from West Florissant also?

14 **A** I believe so.

15 MS. : Okay. And then what happened?
16 Then it just went from
17 there. He, I guess, he according to everyone else
18 they said that.

19 MS. Okay, go on.

20 : He told them to get out of
21 the street. I'm not sure if that's what happened
22 because I couldn't hear it.

23 MS. : Let me be clear, if I ask you a
24 question that you don't know the answer to, that's
25 fine, let me know, let us know that, right?

1 Everyone has a little piece of this, nobody is going
2 to make or break the case in one fell swoop, right?

3 Everyone has to say what they know. If you know
4 something, great. If you don't know, that's fine
5 too, as long as it's the truth, okay?

6 Yes, ma'am.

7 MS. Okay. You see Mike and his
8 friend walking down the street and then you see the
9 police officer coming in the same direction as
10 they're going?

11 Yes, ma'am.

12 MS. : Okay. So what is the next
13 thing? I know that you heard, tell me what
14 happened, what is the next thing you either see or
15 hear yourself?

16 I seen them actually at the
17 police car. I think he was inside. I'm not sure if
18 he was inside or if he was outside it, all I know is
19 that I just went in the house to grab my phone.

20 MS. : Okay. Before you went in the
21 house to grab the phone, was there any sort of
22 interaction with the police officer and Mike and his
23 friend or you didn't even see that?

24 : I didn't see that part
25 because I wasn't thinking that it wasn't going to

1 escalate that far.

2 MS. : All right. So you went inside
3 to get your phone. I think what you told the FBI
4 agents in , you went to get your phone
5 separate and apart from anything that was going on.
6 You just happen to want your phone at that time?

7 : Yes.

8 MS. : So when you're sitting on your
9 porch, you see Mike and his friend and you see, when
10 you run in, do you actually see the police officer
11 there or he showed up afterwards?

12 No, he was there already.

13 MS. : Okay. And he stopped his car?

14 No, ma'am.

15 MS. : When you went to get your
16 phone, the police officer had yet to even stop his
17 car?

18 : No, ma'am.

19 MS. : Okay. So you didn't see
20 anything about the interaction between Michael Brown
21 and the police officer?

22 **A** No, ma'am. I just seen him at the car I
23 just seen him like he was sort of kind of by the
24 car, but then again, he was not inside of the car at
25 the time when I saw.

1 MS. Is this before or after you get
2 your cell phone?

3 This is before I went to
4 get my cell phone.

5 MS. All right. Let's divide it
6 out. Let's talk about before you went to get your
7 cell phone, you see the boys walking in the street?

8 : Yes, ma'am.

9 MS. : You see the police officer
10 driving in the same direction that they are walking?

11 : Yes, ma'am.

12 MS. : Okay. What do you remember the
13 police vehicle doing?

14 : Just pulled up towards them
15 and that's it, that's all I can remember seeing.

16 MS. : Pulled up toward them how?

17 Um, I wouldn't say that he
18 pulled up cautiously, but he pulled up as if he
19 noticed that they did something wrong or something.

20 MS. : Okay. And so what, when the
21 police officer pulled up to them, where was the
22 police officer's vehicle in relation to the boys?

23 Probably, I mean, they
24 turned around so they was probably in front, they
25 was in front of each other.

1 MS. : What kind of car was it?

2 It was a police cruiser, I
3 don't know.

4 MS. : Was it a car, a SUV?

5 It was a SUV.

6 MS. Okay. Did the SUV, did it pull
7 up alongside of them, did it stop and go forward,
8 did it stop, where was it relative to them?

9 : I mean, they turned around
10 when he pulled up.

11 MS. : Okay.

12 : were they in relation to the
13 car, does that make it easier?

14 : I guess in front of it.

15 In front of it?

16 MS. : If you don't know, you don't
17 know.

18 : I'm not sure, my memory is
19 kind of --

20 MS. : Okay.

21 : -- hazy, but I remember
22 most of it.

23 MS. Okay. So you see the SUV stop
24 and you see the boys standing by the vehicle, right?

25 : Yes, ma'am.

1 MS. : And then is that when you go
2 and get your phone?

3 : Yes, ma'am.

4 MS. : You don't see any sort of
5 interaction between them?

6 : No, ma'am.

7 MS. : When you went to go get your
8 phone, while you were getting your phone, did you
9 hear anything?

10 : Yes, ma'am, I heard a
11 gunshot.

12 MS. : Okay. So what did you hear?
13 I went immediately outside.

14 MS. : Okay. Describe for us what you
15 saw?

16 When I went outside, they
17 were, the police cruiser was still like by the
18 apartment complex.

19 MS. : Okay.

20 But they were up towards
21 the street.

22 MS. : When you say they, who do you
23 mean?

24 : Police officer Mike Brown,
25 the friend was nowhere in sight.

1 MS. : You didn't see the friend after
2 that?

3 : No, ma'am.

4 MS. The only time you saw the
5 friend was before you went and got your cell phone?

6 : Yes.

7 MS. You come back out and you see
8 Mike Brown and the police officer and you say where
9 were they?

10 They were up the street
11 like a few feet, not too much, like 10, 15, 20 feet.

12 MS. : What were they doing, were they
13 standing there, were they running, were they
14 walking?

15 : Actually, he was standing
16 there.

17 MS. Who is he?

18 Mike Brown and the police
19 officer. The officer had his gun drawn at him.

20 MS. : Okay.

21 : And that's when Mike Brown
22 turned around holding his wounds.

23 MS. : Okay. Did you actually see
24 Mike Brown turn around or you assuming he turned
25 around?

1 : I'm assuming he turned
2 around.

3 MS. So describe what you actually
4 saw when you walked out there?

5 When I walked out there, he
6 was already facing towards the officer holding his
7 wound.

8 MS. Okay. You don't know how far
9 he ran?

10 No, ma'am.

11 MS. : And you don't know, you're
12 assuming he turned around, you don't know whether he
13 turned around or what he did that landed him in the
14 position that you saw, which was standing with his
15 arm in front of his torso, correct?

16 : Correct.

17 MS. : I think you just used the word
18 holding his wound, did you see a wound?

19 : No, I didn't see a wound.
20 I'm too far away. I'm just assuming that he had a
21 wound right there, he's holding himself.

22 MS. Based on his position?

23 : Yes, ma'am.

24 MS. And when you saw, so what you,
25 yourself, saw was Michael Brown facing the police

1 officer and he was holding his front, his torso,
2 right front of his stomach area?

3 : Yes, ma'am.

4 MS. Lower stomach?

5 : Yes, ma'am, lower stomach,
6 I believe.

7 MS. You couldn't hear what he was
8 saying?

9 : No, ma'am.

10 MS. : Did it look like they were
11 saying anything or you too far away to see?

12 To me it didn't look like
13 they were saying anything.

14 MS. : Okay. You say you saw the
15 police officer with his gun drawn?

16 : Yes, ma'am.

17 MS. : Did you see any shots fired?

18 : Yes, ma'am. I seen the
19 last probably four.

20 MS. : Okay.

21 : As he was going to the
22 ground, I seen every shot that he got hit with going
23 to the ground.

24 MS. : Okay. Let's back up for a
25 second, this is my fault. So Michael Brown is

1 standing there with his arm around his torso and the
2 police officer is standing in front of him, so
3 describe what you see?

4 The officer starts to fire
5 while he's holding himself and he starts to fall
6 forward.

7 MS. When you say he, you mean
8 Michael Brown?

9 Yes, ma'am, Michael Brown.
10 He starts to fall forward, Michael Brown starts to
11 fall forward and the police officer, I think, fires
12 two more times as he's falling forward and then
13 after that he stops.

14 MS. : Okay. When you walk out onto
15 the balcony, was the police officer already
16 shooting?

17 : No, ma'am.

18 MS. : All right. So you heard the
19 first shot when you were inside and then you saw the
20 last four or five shots I believe you said?

21 : Yes, ma'am.

22 MS. : Okay. So just to be clear, you
23 didn't see, you only saw the police officer pull up
24 when the boys were first walking in the street,
25 correct?

1 **A** Yes, ma'am.

2 MS. : You didn't see the interaction
3 by the vehicle?

4 No, ma'am.

5 MS. You went to get your phone, you
6 heard a gunshot, correct?

7 : Yes, ma'am.

8 MS. : By the time you came back out,
9 Michael Brown was facing the police officer and
10 Michael Brown had his hand around his torso,
11 correct?

12 : Yes, ma'am.

13 MS. : And then you saw a police
14 officer shoot four or five times and Michael Brown
15 go to the ground?

16 Yes, ma'am.

17 MS. Is that correct?

18 : Yes, ma'am.

19 MS. Did I miss anything?

20 : No, ma'am.

21 MS. : Did I put any words in your
22 mouth or I got that right?

23 : You got that right.

24 MR. Do you recall about how far
25 the police officer and Michael Brown were when the

1 last shots were fired?

2 : Mike Brown, he is in the
3 middle of the street and the officer was towards the
4 curb.

5 MR. Can you put a distance on
6 it?

7 : Probably about six, seven,
8 six or seven feet apart.

9 MR. : Okay.

10 MS. : So let's go back for a second.
11 You first met Michael Brown when you were going to
12 the store. What's your friend's name again?

13

14 MS. What's his last name?

15

16 MS. Does still live in the
17 Canfield area?

18 I'm not sure. I moved so.

19 MS. : I know you moved in August.

20 : But he moved before I
21 moved. When I came back in July, to come back to
22 St. Louis in July, he was already gone.

23 MS. So before July, when was the
24 last time you saw him?

25 : Before I moved to .

1 MS. : How long did you live in
2 for?

3 Since November.

4 MS. : So prior to that, other than
5 the time going to the store, did you hang out with
6 him ever?

7 : No, ma'am.

8 MS. Just that one time?

9 : Yes, ma'am.

10 MS. What was he like when you saw
11 him that one time?

12 He was pretty quiet. We
13 didn't exchange too many words. I was just riding
14 basically.

15 MS. : You just what?

16 I was just riding
17 basically.

18 MS. You were on the way to the
19 store?

20 : Yes, ma'am.

21 MS. Did you graduate high school?

22 : Yes, ma'am.

23 MS. : Where did you go?

24 : High
25 School.

1 : Is that in --

2 .

3 : Did you ever go to high
4 school in Missouri?

5 : Yes, ma'am.

6 : Where did you go?

7 I went to

8 High School.

9 : ?

10 : Yes, ma'am.

11 MR. I think earlier when you
12 were taking us through what you saw that day, you
13 said something about Mike Brown took a step towards
14 him, couldn't tell what exactly if he was stumbling
15 or if he was taking a step, can you describe that?

16 : Well, it looked like as if
17 he was just falling, I mean. But he took his step,
18 his right foot went forward and I just seen him just
19 drop to his knees and fall to the ground.

20 MR. All right.

21 MS. : Did you see the friend that
22 showed up out on Canfield after that at all?

23 No, ma'am, not until
24 probably the next day.

25 MS. Okay. Did you have any

1 interaction with the friend?

2 : No, ma'am. I have no idea
3 who he is.

4 MS. : Where did you see him when you
5 saw him the next day?

6 : He was in Canfield.

7 MS. : Was he just like hanging out,
8 what was he doing?

9 : He was walking.

10 MS. : Okay. Did you talk to anyone
11 about this when it happened?

12 : Just my parents.

13 MS. How about any of your
14 neighbors?

15 : No, not that I know of.

16 MR. : You said initially that
17 people were talking about what went on at the side
18 of the police car. You said that when you saw it
19 you didn't really see anything that happened there
20 and you didn't know if he was inside the car or not,
21 but other people were talking about that, remember
22 that?

23 Yes, sir.

24 MR. : Who were those people, were
25 those people up there?

1 : Just neighbors, everybody
2 in the neighborhood was talking about it.

3 MR. : When was that?

4 This was the same day.

5 MR. : People coming out and
6 talking about it?

7 : Yes, sir.

8 MR. : All right. You turned a
9 little bit of video over to the FBI. That video,
10 you took that on your phone; is that right?

11 : Uh-huh.

12 MR. : That's after the shooting
13 was over?

14 : Yes, sir.

15 MR. : You didn't capture any of
16 the actual shooting on your phone?

17 No, sir.

18 MR. : Right at the beginning of
19 that video people, you say people are going crazy.
20 You hear some voices on that, what were you
21 referring to there, what was going on?

22 : I believe his kin, Michael
23 Brown's kin, his family, they were all by his body
24 on the curb, they was just yelling and screaming,
25 you know.

1 MS. : Do you know any of his family
2 members?

3 No, ma'am.

4 MR. : Based on what you saw, do
5 you have any idea what happened from the time the
6 police first pulled up there until the time the
7 policeman fired those last four or five shots, do
8 you know what went on there at all based on what you
9 saw or heard that day?

10 : From what I heard is that
11 they had a scuffle inside the car.

12 MR. : Okay. I'm not talking about
13 what you heard from other people, I'm just talking
14 about what you actually saw?

15 : I didn't see what happened
16 at all.

17 MR. : You didn't see what happened
18 until those last four or five shots?

19 : Yes, sir.

20 MR. Based on what you saw there
21 at the end, did you have feeling about what had
22 happened there?

23 : Yes.

24 MR. And what was that?

25 I felt that the police

1 officer did that very unjustly, he overkilled
2 basically. After the first shot, I mean, he didn't
3 really have to shoot the young man in the first
4 place. They have other means of, you know,
5 corralling the suspect, you know, taser, anything
6 else.

7 He shot him the first time, even if you
8 did have to shoot him, he didn't have to keep going,
9 he didn't have to kill him because he was unarmed.

10 MR. : From what you saw that day,
11 could you tell why the police officer shot at Mike
12 Brown?

13 I'm not sure why.

14 MR. : Okay.

15 MS. : And you don't know what
16 happened in the car, right?

17 : No, ma'am.

18 MS. : And you don't know what
19 happened while you were inside, correct?

20 : No, ma'am.

21 MS. : Okay.

22 MR. : That's one of the reasons
23 I'm asking because on that video you referred to,
24 you said he shot him like six times. And you said
25 for no reason, do you recall that?

1 : Yes, sir.

2 MR. : Is it fair to say you didn't
3 see what happened before those last four or five
4 shots; is that right?

5 Yes, sir.

6 MR. : So do you know what the
7 reason was the police officer shot him, if any?

8 No, sir.

9 MR. : Okay. That's fair enough.

10 MS. : I think when you originally
11 spoke to the FBI in you heard like two shots
12 when you were inside, did you hear two or one or not
13 sure?

14 I'm not sure. I heard one
15 for sure, I know that for sure.

16 MS. And just so you know what I'm
17 looking at, when you are interviewed by the FBI
18 though and what you said, that's all I'm looking at.
19 So it is a summary of what you told them.

20 MR. : After that one shot that
21 you're sure you heard while you were inside, you
22 didn't hear any other shots after that until the
23 four or five that you actually saw?

24 I mean, not that I
25 remember.

1 MR. : Okay.

2 : But other than that --

3 MR. : I'm not suggesting that
4 should or shouldn't of, I'm just trying to be sure
5 that basically when you are in the apartment getting
6 your cell phone, you hear at least one shot inside?

7 : Yes, sir.

8 MR. : You mentioned two before, as
9 said at the FBI you mentioned two. You
10 remember one for sure, maybe two, and then is it
11 fair you don't recall hearing or seeing any other
12 shots until those last four or five that you
13 actually saw right before Mike Brown went down?

14 Correct.

15 MR. : Take a break.

16 MS. : Give us a minute.

17 MR. : We'll be back with you in
18 just a minute. You can step outside with your mom
19 if you want. We're just going to go in the other
20 room here. We'll be back in just a minute. Thank
21 you.

22 (Pause in the interview.)

23 MR. , come back in and we'll
24 finish up. Just a couple minutes. Thank you,
25 ma'am.

1 All right. Just to be clear, we took a
2 break, obviously, we left the recorder running here
3 just so we don't have to start it over again, but
4 when we're on the break you went out to the lobby
5 and sat with your mom for a little while?

6 Yes.

7 MR. : She's out there waiting for
8 you.

9 : Yes.

10 MR. : We weren't out there, right?

11 : You weren't.

12 MR. : Okay. We just went to a
13 different room, we didn't talk about this at all
14 during the break, correct?

15 : Right.

16 MS. We just want to ask you a
17 couple other things just so we understand better.
18 What made you move back to , you moved the day
19 after?

20 : Yes. Just didn't want to
21 stay with my father any more.

22 MS. : Did it have anything to do with
23 this incident, the shooting?

24 No, ma'am.

25 MS. Before you said you went and

1 got your cell phone, you had mentioned on your
2 actual video that you gave to the FBI that you wish
3 you would have recorded it. So you ran and got your
4 cell phone, how come you didn't record what you saw?

5 : Because it all happened too
6 fast.

7 MS. : Okay.

8 : Way too fast. I had to
9 unlock my phone and go all the way to my camera and
10 all that, I didn't have no time to do none of that.

11 MS. : It was like right when you
12 walked outside it was happening?

13 : Yes, ma'am.

14 MS. Okay.

15 MR. : All right. You talked a
16 little bit about some of the talk that kind of went
17 on that day. And after that, can you just kind of
18 tell us about that, about what people were talking
19 about, or we know, we already talked about what you
20 actually saw that day.

21 : Right.

22 MR. : But just what you heard or
23 what people were talking about?

24 : The people were telling me
25 that apparently the officer pulled him inside of the

1 car and I guess he was reaching for his gun or
2 something, and the officer shot him in his hand or
3 shot at him or something and then he ran away.
4 That's all I know.

5 MS. People were saying that right
6 when it happened?

7 : Yes, ma'am.

8 MS. : You left the next day, right?

9 : Yes.

10 MS. : You really only had that first
11 day on Canfield. What was it like around there,
12 like the people around?

13 Terrible.

14 MS. : Could you describe it?

15 : It was very chaotic, I will
16 tell you that. And the police officers really
17 didn't make anything better than what it was,
18 especially when they brought the dogs out. That was
19 very unnecessary.

20 MS. : How were the people in the
21 community acting?

22 : They were all riled up for
23 the incident. They all just doing crazy things,
24 yelling all over the place, some were praying, some
25 were like, I wouldn't say intimidating the officers,

1 but they were just standing in front of them with
2 their hands up saying don't shoot and things like
3 that.

4 MR. : At the time that you saw
5 Mike Brown before he went down, he had his arms down
6 around his torso at that time?

7 : Yes.

8 MR. : Okay. Um, I don't think I
9 have anything else.

10 MS. : I don't have any more
11 questions.

12 : Just real quick, this is very
13 small. ?

14 .

15 MS. Okay. That's it. Is there
16 anything else you want to tell us?

17 : No, ma'am.

18 MS. : Do you think that we treated
19 you fairly?

20 : Yes.

21 MS. Did we put any words in your
22 mouth?

23 No, ma'am.

24 MS. : Everything you told us is what
25 you wanted to tell us and the truth?

1 : Yes, ma'am.

2 MS. Thank you for coming here.

3 : No problem.

4 : The interview is over at

5 3:57 p.m.

6 (Playing of the recorded interview is
7 over.)

8 MS. ALIZADEH: It is 9:16. We just
9 completed listening to Grand Jury Exhibit 56, the
10 statement of .

11 (Grand Jury Exhibit Number 64
12 marked for identification.)

13 MS. ALIZADEH: Just some housekeeping
14 things. I made a copy for each of you of the
15 journal entry that was done by the last witness
16 yesterday and I marked that previously as Grand Jury
17 Exhibit Number 64, and so I will pass that around.
18 For each of you. And also last night you indicated
19 that you would like to get a copy of the transcript
20 of Darren Wilson's testimony, and I made one copy
21 because as you can see, it is like thick and
22 voluminous.

23 I can make extras if you all want your own
24 and feel like you want your own, I will be happy to
25 make you extras. I didn't know if maybe while you

1 are talking and deliberating somebody can be looking
2 through this as kind of to read for the rest of
3 them.

4 And I will tell you that at the end of the
5 transcript there is an index and it will tell you
6 what page and line a certain word appears on. So if
7 you know what you are looking for, you could
8 probably go back and search for it by referring to
9 the index.

10 For example the word easy, you recall he
11 said something was easy, you know, and you're not
12 sure about that. You might look back and find the
13 word easy and you find that it appears on page 265
14 and line seven. And that would be the way for you
15 to kind of reference if you are looking for
16 something in particular.

17 So I will give this to you now. You can
18 look at it during the lunch hour and if you guys
19 decide each one want your own copy, I can make
20 copies. So I will give that to since
21 you are right there.

22 So we're going to have the first witness
23 for today, he's here. He's a toxicologist. You all
24 ready, you want to take a break. Can we start with
25 him? I anticipate might be about an hour that he's

1 jurors a little bit about your educational
2 background?

3 **A** Well, I have a bachelor's degree in
4 chemistry from Marist College, which is in New York.
5 I have a second master's, I have a master's in
6 pharmacology and toxicology from St. John's
7 University in New York. I have a second master's in
8 medical biology from Long Island University, also in
9 New York. And my doctorate is in toxicology and
10 that's from St. John's and I have been working in
11 the field of toxicology now about 35 years.

12 **Q** Where are you employed?

13 **A** I work for St. Louis University Med School
14 and I'm the chief toxicologist for St. Louis County.

15 **Q** And so do you work with the Medical
16 Examiner as the chief toxicologist for St. Louis
17 County?

18 **A** Yes, ma'am.

19 **Q** And so are there times when you are asked
20 to do testing or perform test on samples that are
21 received or obtained from deceased persons?

22 **A** Yes. We do cases for the city and the
23 county. We do a lot of the driving under the
24 influence cases too. Our caseload goes from New
25 Orleans, to Wisconsin, to California and all over

1 Illinois. We do a lot of work for a lot of
2 different municipalities.

3 Q Did I ask you or did you bring with you
4 today your curriculum vitae?

5 A Yes, ma'am.

6 (Grand Jury Exhibit Number 65
7 marked for identification.)

8 Q (By Ms. Alizadeh) I'm going to hand you
9 what I've marked as Grand Jury Exhibit Number 65.
10 Is that your CV that you brought with you today?

11 A Yes, ma'am.

12 Q I made a copy for each of the grand
13 jurors, so I will pass that around.

14 And you have your doctorate; is that
15 correct?

16 A Yes, ma'am.

17 Q And so I will call you Now,
18 just for clarification sake, you are not a
19 physician, correct?

20 A No, ma'am, I'm not a physician.

21 Q Okay. And so you didn't go to med school?

22 A That is correct. My area is toxicology,
23 affects of drugs.

24 Q All right. And in the course of your
25 employment as the chief toxicologist for St. Louis

1 County, back in August of 2014, did you receive some
2 samples from a deceased person named Michael Brown?

3 **A** Yes, ma'am.

4 **Q** And those, what were the samples that you
5 received?

6 **A** Oh, blood, urine and I think vitreous, or
7 eye fluid.

8 **Q** So samples that were obtained by someone
9 else were preserved and then delivered to your
10 laboratory; is that correct?

11 **A** Yes, the samples were taken at autopsy.

12 **Q** And is your laboratory in the same
13 building where the medical examiner performs
14 autopsies?

15 **A** Yes.

16 **Q** So this is not like the sample had to be
17 shipped anywhere?

18 **A** No. They take the samples in the back and
19 they walk them over and we sign for them.

20 **Q** And did you test some of those samples?

21 **A** Yes.

22 **Q** And, um, did you prepare a report that
23 summarized your findings?

24 **A** Yes.

25 (Grand Jury Exhibit Number 66

1 marked for identification.)

2 Q (By Ms. Alizadeh) I'm going to hand you a
3 copy of Grand Jury Exhibit Number 66. Is that the
4 report that you made or a copy of the report that
5 you did after testing samples that you received from
6 the deceased, Michael Brown?

7 A Yes, ma'am.

8 Q All right. And I've made a copy of these
9 as well for the grand jurors. And actually, I'm
10 going to give one to the court reporter so he can
11 have, some of the words are difficult for me to
12 pronounce and spell.

13 So, , first off, let me ask
14 you, when the human body ingest a chemical or a
15 substance, does the body process that over time?

16 A Oh, absolutely.

17 Q Okay. So if someone ingest a chemical or
18 substance and then that person dies, does the body
19 continue to process that chemical after death?

20 A Well, when you are referring to
21 processing, that is an energy requiring step, like
22 the liver metabolism. When a person expires, the
23 energy stops so there is no more metabolism.
24 However, there are further reactions that go on just
25 because there is certain enzymes, decomposition, PH,

1 things of that nature that can alter the drug
2 concentration.

3 **Q** Okay. So let me ask you from the time
4 that the sample is retrieved from the deceased and
5 then if it is properly preserved or maintained, is
6 that sample going to degrade over time so that
7 whatever chemicals may be found within that sample
8 might change over time?

9 **A** There can be some degradation, but as soon
10 as the sample is drawn, it is refrigerated and then
11 we start performing the test on it right away. So
12 anything along those lines is minimal.

13 **Q** Do you recall when it was that you
14 obtained these samples or got them out again, your
15 process or testing them?

16 **A** Yeah, we received them August 11th of
17 2014.

18 **Q** And so if Michael Brown passed on
19 August 9th and the autopsy was conducted on
20 August 10th, Sunday, and then you received those
21 samples on that Monday?

22 **A** That's correct.

23 **Q** And when you receive the samples, did it
24 appear to you that they had been properly packaged
25 and that they had been refrigerated properly?

1 **A** Yes, ma'am.

2 **Q** Okay. So now you mentioned that you had
3 received urine and blood and you said vitreous
4 fluid, what is vitreous fluid?

5 **A** Vitreous fluid is the fluid in your eye
6 that keeps it round, okay. It is the fluid in the
7 eyeball.

8 **Q** And what is it, why would it be important
9 to have a sample of the fluid in the deceased
10 eyeball?

11 **A** Well, see there is several things that can
12 go on with your chest cavity, even motor vehicle
13 accidents, trauma to the chest, you can get
14 contamination of everything in here, okay.

15 The eyeball, because it is so
16 protected in the skull, if something happens to it,
17 any trauma you don't have it because it ruptures.
18 So other than that, you get a very good sample,
19 relatively clean and pure sample and it represents
20 the brain concentration, okay. So it is very close
21 to whatever is in the brain to give you a handle on
22 that.

23 **Q** Now, in this particular case, did you test
24 the vitreous fluid from Michael Brown?

25 **A** No, ma'am.

1 **Q** And why didn't you do that?

2 **A** Well, in our case there was no reason to
3 because of the nature of the drugs that we found,
4 they don't get to the vitreous. It just takes too
5 long and they are not present.

6 The vitreous is very slow for
7 equilibration. That is the concentration goes up in
8 the blood and then it declines and the vitreous lags
9 on some drugs. On these drugs the vitreous stays
10 very low, the drugs do not penetrate into the
11 vitreous.

12 **Q** So you tested blood and urine that you had
13 received from Michael Brown, correct?

14 **A** Yes, ma'am.

15 **Q** And we'll talk about the actual process of
16 testing those, but did you first do a test on the
17 blood for alcohol?

18 **A** Yes.

19 **Q** And you don't need to go into that
20 necessarily because the tests of the blood for
21 alcohol, which are ethanol, acetone, isopropanol and
22 methanol were all negative, correct?

23 **A** Well, we list those, but we test for
24 others, like toluylenes, Xylene, and so forth.

25 **Q** And so you had, is it true then that all

1 of the tests for alcohol were negative on -- in your
2 test of the blood of Michael Brown?

3 **A** Yes.

4 **Q** Now, let me ask you this. If there was a
5 subsequent test done on a sample of blood that was
6 done by another professional, and if they had
7 actually had a different finding that perhaps had a
8 level of .023, how would you describe, do you have
9 an explanation as to why that could be positive,
10 another test done later?

11 **A** Sure. The reason for that is
12 decomposition. As I said, the longer a sample sits
13 and then transport and everything else that goes
14 along with it, you can get a little bit of alcohol
15 generated. And .02 is nothing, so it would just be
16 decomposition.

17 **Q** So that could possibly be explained by the
18 decomposition that occurred in the sample?

19 **A** Yes.

20 **Q** And, all right. So let's talk about the
21 drug screening for the blood that you ran. And if
22 everybody can refer to your report on Grand Jury
23 Exhibit 66, which I don't think I marked actually on
24 your report, there are a number of drugs that you
25 tested for; is that correct?

1 **A** Yes.

2 **Q** And every one of those tests was negative
3 except for the test for cannabinoids, correct?

4 **A** Correct.

5 **Q** And so just to be clear, when you say you
6 have a negative test, is there like a threshold or a
7 level that could be present but not detected?

8 **A** Yes.

9 **Q** And so when you run tests for various
10 chemicals, if the level that is detected in the
11 sample that falls below a threshold, then that is
12 considered a negative, correct?

13 **A** Correct.

14 **Q** All right. And so you receive negative
15 reading on amphetamines, antidepressants,
16 barbiturates, and all the other drugs that you
17 tested for except for the cannabinoids, correct?

18 **A** Correct.

19 **Q** All right. So explain, Dr. , when you
20 tested the blood and you were looking for positive
21 or negative affects, explain the testing procedure
22 or process that you used to get a negative or a
23 positive reading?

24 **A** See, we use a scatter approach. And that
25 is we use what's called an immunoassay. An

1 immunoassay is an allergic reaction in a test tube
2 to a class of compounds such as amphetamines,
3 opiates, phencyclidine and so forth. What happens
4 is we mix the sample with the antibody and if we get
5 a reaction, then we know it is present or it is
6 indicated as present.

7 That has to go on for further
8 confirmation, which in our case is always gas
9 chromatography mass spectrometry. And what that
10 does is give you molecular structure identification.
11 The molecules introduced into the instrument, and
12 chromatography means separation. So gas
13 chromatography means separation at the gas phase.

14 So what we'll do is separate out all
15 of these compounds and then introduce them into the
16 mass analyzer. The mass analyzer hits the molecule,
17 sort of like my hand here, with very high energy
18 causing it to explode and that gives you fingerprint
19 identification. That's how we identify each of the
20 drugs. We look to see the ions that are present,
21 the ratios and so forth, other criteria that gives
22 us the identification on that.

23 That is also quantitative, telling us
24 how much is present. So that's the one part.

25 The other part is we run a gas

1 chromatography for the other drugs and this will
2 pick up everything from strychnine to ecstasy, and
3 pick all of those up on one screen. And
4 unfortunately, we have even seen strychnine cases.
5 If I didn't like you, that's what I'd use. That's a
6 nasty poison.

7 **Q** Good to know.

8 **A** If I can, what it does it causes
9 constriction of all the muscles in your body. And
10 your back can actually constrict to a point where
11 you break your own back. Yeah, so it is nasty. But
12 that screen will pick up everything. And again, all
13 of that would have to go on for further
14 confirmation.

15 **Q** So your initial testing of the blood
16 sample was the allergic reaction test that gives you
17 an indication that the drug is present?

18 **A** That's correct.

19 **Q** Now, did you, now, the gas
20 chromatography --

21 **A** GCMS.

22 **Q** GCMS is shorthand for that. Is that an
23 instrument that is used in the lab?

24 **A** Yes.

25 **Q** And this is an instrument that is used in

1 every laboratory in the country, is that fair to
2 say?

3 **A** Yes.

4 **Q** Very well accepted as what it does and
5 what it can do?

6 **A** Absolutely.

7 **Q** And the GCMS instrument that is in your
8 laboratory, is it, do you check that on a regular
9 basis to make sure that it is calibrated properly
10 and giving you proper readings?

11 **A** Yes. We run it through a whole series.
12 We do what's called an auto-tune, which is a
13 compound is entered into it and we have to see a
14 particular fingerprint analysis. We then run
15 standards, controls to make sure that the test is
16 running properly. So everything is fully
17 controlled.

18 **Q** All right. And how often do you do those
19 checks to make sure that the instrument is working
20 properly?

21 **A** Every time we run the instrument.

22 **Q** How many samples at a time can this
23 instrument run?

24 **A** Probably about 50, but out of that
25 10 percent are control samples, so run a control

1 periodically.

2 **Q** And so out of the 40 that are not control
3 samples, are these all 40 samples from the same
4 subject?

5 **A** No.

6 **Q** You might have John Doe's blood, you might
7 have Michael Brown's blood, you might have Suzie Q's
8 blood?

9 **A** That's correct, there is no identification
10 as to the person when it is going through the
11 instrument. All we have is a number that's
12 associated with a particular person.

13 **Q** So how is it that you insure that these
14 samples don't get mixed up?

15 **A** Well, it is all done under chain of
16 custody and everything is sequenced and when we load
17 it into the instrument to check it and then the
18 person who takes the data off checks the same
19 sequence to make sure it's correct. And we also run
20 the samples, well, not on marijuana. We only do the
21 blood and urine ones. The other drugs are run
22 differently.

23 **Q** Okay. And so let's talk about the
24 positive test that, positive result that you got for
25 the cannabinoids, what is a cannabinoid?

1 **A** That's marijuana basically. Cannabinoid
2 is the class of compounds, it's marijuana.

3 **Q** All right. So once you received the
4 positive for cannabinoids, did you then run the
5 blood through the GCMS?

6 **A** Yes.

7 **Q** And when you ran the blood of Michael
8 Brown through the GCMS, did you just check for
9 cannabinoids or do you check for all these other
10 drugs that you indicate was negative?

11 **A** No, we specifically look for the
12 cannabinoids. Delta-9, 11-Hydroxy and the carboxy.
13 The reason for that is it is what's called a dwell
14 time. It is how long the instrument gets to look
15 for a particular compound.

16 Because we are dealing with
17 nanograms, which are basically a billionth of a
18 gram. It is like you have a dollar, that's as close
19 as you are to be being a billionaire, that's what we
20 are looking for.

21 So the instrument really has to focus
22 in. We can do screens, but that's under a different
23 criteria. For this we would just use, focus the
24 instrument in on the cannabinoids.

25 **Q** All right. And so when you ran the blood

1 sample of Michael Brown through the GCMS, did you
2 get any quantitative information about, you had
3 talked about Delta-9, hydroxy and the carboxy
4 levels, did you get quantitative information about
5 those?

6 **A** Yes.

7 **Q** Okay. And so let's talk about what is the
8 difference between the Delta-9, hydroxy and carboxy.
9 And for everybody's clarification, the Delta-9, is
10 Delta-9-THC on your report, correct, and the hydroxy
11 is 11-Hydroxy-THC. And then the carboxy, which is
12 what we are calling it, is actually
13 11-NOR-Delta-9-COOH, correct?

14 **A** Yes.

15 **Q** And so is that COOH the carboxy?

16 **A** Yes.

17 **Q** Okay. So it doesn't say carboxy, that is
18 what we are referring to, correct?

19 **A** Yes.

20 **Q** When we talk about carboxy. So can you
21 explain to the grand jurors, what are these
22 compounds and how are they different?

23 **A** Okay. The first compound, the Delta-9, is
24 the reason you smoke marijuana. That produces the
25 desired affects, the euphoria.

1 When it is in your body your body
2 looks at it as a foreign substance. So it starts to
3 metabolize or alter it chemically. One of the
4 things it forms is the 11-Hydroxy-THC.

5 This is also a psychoactive compound,
6 but rarely do we find it because it is so short
7 lived in the human body. And then it goes on
8 further to be metabolized into the carboxy. We call
9 it carboxy because the full name for it is
10 11-NOR-Delta-9-Tetrahydro-Cannabinoid-Carboxylic
11 acid.

12 **Q** Which I can't say so we will call it
13 carboxy.

14 **A** That's why we call it carboxy.

15 **Q** Okay.

16 **A** And that's the final metabolite. That's
17 the compound you hear, well, if you smoke a joint,
18 you can test positive for a month, which isn't true,
19 but that's what you hear.

20 **Q** So does, so you explained that the
21 Delta-9-THC has a psychoanalytic effect?

22 **A** Psychoactive.

23 **Q** Psychoactive. So that's what makes people
24 feel differently when they smoke marijuana?

25 **A** Yes, euphoria and so forth.

1 **Q** And then the Hydroxy-THC, does that have a
2 psychoactive effect on the human body?

3 **A** Yes, it does. But as I said, we rarely
4 find it. Only in a very, very acute use with death
5 following.

6 **Q** And then on the 11-Hydroxy molecule.

7 **A** Yes.

8 **Q** Is there a psychoactive effect on the body
9 for that?

10 **A** No, you could eat a pound of it, it
11 wouldn't do anything.

12 **Q** Okay. So why is it that these, why is it
13 that it is important to test for all three of these
14 compounds when you are testing the cannabinoids?

15 **A** Well, for example, suppose you only had
16 the Delta-9 and nothing else, that would raise
17 severe questions about the sample. You want to see
18 the parent drug, the 11-Hydroxy right off, you know
19 it is not going to be there, and you want to see the
20 Carboxy-THC. That tells you the drug was consumed
21 by the individual and it was being metabolized.

22 So you have a good handle on its use
23 and one verifies the other. Much the same as we do
24 in a tube biologicals like blood and urine. The
25 reason for that is it avoids any question was it

1 contaminated or mixed up.

2 If we find it in the blood, we want
3 to find it in the urine because one validates the
4 other.

5 Q Okay. And so in this testing, going off
6 what you said there, you ran the sample of urine
7 that you had received from Michael Brown that was
8 received from Michael Brown. You ran those same
9 three for those three compounds. Delta-9, hydroxy
10 and the carboxy, correct?

11 A Yes.

12 Q So let me ask you because we can see from
13 your report that you, when you ran this through the
14 GCMS you got for the Delta-9-THC, you got 12
15 nanograms per milliliter. Yet when you ran the
16 urine you got negative for the Delta-9-THC?

17 A Yes.

18 Q Isn't that inconsistent, why would that be
19 different?

20 A No, well, the Delta-9-THC is subject to
21 other things particularly in the urine. It can even
22 bind up to the plastic in the container, the urinary
23 excretion due to dilution. Any one of a number of
24 things can cause the urine to be negative for the
25 Delta-9.

1 If it was negative for the carboxy,
2 that would be a real concern, but not for the
3 Delta-9.

4 **Q** Is the fact that the blood was 12
5 nanograms per milliliter and the urine was negative,
6 does that tell you anything about the recency the
7 drug may have been ingested? In other words, I
8 assume the urine is the final process of the body,
9 processing the substance, correct?

10 **A** The urine serves to get rid of chemicals
11 in your body, okay. That's probably the main group.
12 What you are looking at, the urine really doesn't
13 count as far as the interpreting it. The Delta-9 in
14 the blood tells you because Delta-9 in the blood
15 only hangs around for a short period of time, like
16 maybe two hours. It has a relatively short half
17 life. It is in, produces its affects, the affects
18 last longer in the presence of the Delta-9, but when
19 you have it in there it goes to acute use, that's
20 within a couple of hours.

21 **Q** Okay. So, and you also had mentioned that
22 depending upon the sample that in the urine, the
23 urine sample could be diluted? In other words,
24 there could be more water in the urine or other
25 liquids or chemicals?

1 **A** Yes, it depends on the location of the
2 urine, how the kidneys were functioning, what's
3 going on in the body and there is a lot of variables
4 there. That's why you can't interpret urine
5 concentration as far as impairment, you just don't
6 know.

7 **Q** Okay. So then the next chemical or
8 compound was the hydroxy, which was negative when
9 you tested it in the blood, but it was greater than
10 25 nanograms per milliliter when you tested it in
11 the urine?

12 **A** Yes.

13 **Q** Why is that not inconsistent?

14 **A** The urine serves to collect and
15 concentrate waste products. The body looks at
16 metabolites, and actually the Delta-9 is waste
17 product it wants to get rid of it.

18 **Q** So can you draw any conclusions about the
19 time or the recency of the ingestion of the THC
20 based upon the fact that the hydroxy was negative in
21 the blood and yet greater than 25 nanograms in the
22 urine?

23 **A** Well, that alone would put it within ten
24 hours because you find it in the urine, but a short
25 half life, maybe a little less than that. So really

1 it wouldn't narrow it down very much. The Delta-9
2 in the blood is the key.

3 Q And then your, the levels that you
4 detected in the urine for the hydroxy, as well as
5 the Delta-9-Carboxy, those are quantified as greater
6 than so many nanograms, is that a cutoff level that
7 the lab has?

8 A In our quantitation, we run a series of
9 standards going up the long. Okay. If it exceeds
10 our upper limit, we just report it as greater than
11 because it is an academic number.

12 Q Okay. So there's no conclusion that you
13 could draw then that if it is greater than 25
14 nanograms, we can't say that. Well, then it was,
15 could have been 100 nanograms, which would be four
16 times any level?

17 A You can't say anything based on a urine
18 concentration for THC.

19 Q Okay. And so then let's talk about then
20 the testing, you mention the carboxy level in the
21 blood that you found. And you also said that you
22 would be concerned if you did not have carboxy if
23 you had a positive for the Delta-9-THC, but no
24 carboxy that would be problematic?

25 A Yes, that would be inconsistent.

1 **Q** So in this case you detected 45 nanograms
2 per milliliter of the carboxy in the blood of
3 Michael Brown, correct?

4 **A** Yes.

5 **Q** And is that, can you draw any conclusions
6 from that the fact that it was also present in the
7 urine or the fact that it was 12 nanograms that the
8 THC, Delta-9THC was 12 nanograms per milliliter and
9 the carboxy was 45 nanograms per milliliter. Can
10 you draw any conclusions about the time of the
11 ingestion of the THC from that?

12 **A** Well, not from the urine, no, but as I
13 said, from the blood THC, yes.

14 **Q** Okay.

15 **A** That is really a hard marker for a couple
16 of hours. The urine can easily test positive for a
17 couple of days for the Carboxy-THC. And if you are
18 smoking like a rastafarian type stogey, it can go
19 longer.

20 **Q** Can you tell anything from your findings
21 about the, about the, I don't know how to phrase
22 this, about how often the person may have ingested
23 THC? In other words, would numbers look different
24 if you were testing a sample from a chronic
25 marijuana user, somebody that smoked daily, maybe

1 multiple times a day?

2 **A** You can't tell the difference between an
3 acute dose and a chronic dose in one snapshot.

4 **Q** When you say acute dose, in your lingo
5 acute means?

6 **A** Say within a couple of hours versus
7 somebody who smokes every day for a month or two.

8 **Q** Okay. So from your findings you can't
9 conclude that Michael Brown was a chronic marijuana
10 user versus perhaps this was just an acute dose. In
11 other words, something that was taken within a
12 couple of hours prior to his death?

13 **A** That's correct.

14 **Q** Okay. Now, the 12 nanograms per
15 milliliter for the THC, you stated that that is the
16 compound that makes people feel the affects of
17 marijuana?

18 **A** Yes.

19 **Q** How would you describe, or what do you
20 conclude from that finding that there were 12
21 nanograms per milliliter in his blood?

22 **A** The Delta-9 is psychoactive, that means it
23 has an affect. So when you have a drug that is
24 psychoactive in your blood stream, it is having an
25 affect.

1 You can argue, well, more effect,
2 less effect, you can argue that yes, but it is
3 definitely having an affect on you. When you start
4 looking at it in terms of the overall, well,
5 marijuana generally, you know, you smoke a joint and
6 you chill out, that's generally what happens. Okay
7 does that have to happen? No, it doesn't. There is
8 a lot of other variables that are associated with it
9 that depends on your basic chemistry, your basic who
10 you are as it were.

11 So that it can have somewhat
12 different affects. Add to that the question of
13 dose. If you take, take alcohol. You have a glass
14 of wine with dinner, okay, or whatever with dinner,
15 that's one way of doing it.

16 You are getting the drug, it is
17 psychoactive, it is having an affect on you. Now
18 instead you have a quart with dinner, a quart of
19 scotch. Well, that's going to produce a very
20 different effect. It is a function of the
21 concentration, how much goes in you.

22 Same thing is true with marijuana.
23 You can get desirable affects one level, but if you
24 get a massive dose, and you have to remember
25 marijuana is not regulated. So you don't know the

1 purity you are getting. You don't know if you are
2 getting Illinois ditch-weed or Acapulco Gold, for
3 lack of a better example, okay. So it could be very
4 low purity or very high purity.

5 Again, the same thing can happen. It
6 is like having a glass of wine with dinner versus a
7 bottle of scotch. You can get very different
8 affects depending on how much you use.

9 **Q** Is there also a variable that would
10 perhaps effect how it was felt by the person
11 depending on their body mass or their weight? So,
12 in other words, if a smaller, we know this to be
13 true with alcohol, a smaller person can have a glass
14 of alcohol and a larger person maybe twice or three
15 times the size can have the same amount of alcohol
16 and the smaller person's blood alcohol level will be
17 higher, you would expect it, would that be correct?

18 **A** Yes. See, marijuana is technically
19 classified as a hallucinogen. Cause what it does is
20 it alters your perception of your surroundings. How
21 you see things, okay. What information comes into
22 your mind. It slows it down and distorts it. That
23 is why it is classified as hallucinogen. .

24 Technically speaking, I mean, you are
25 not look at pretty birds and flying snakes and so

1 forth, but you are altering your perception of
2 senses. That's a function of dose. So the more you
3 have in you, the more effect you can get out of it.

4 Some people, for example, with
5 marijuana, it is bound up to nonspecific fat sites.
6 So if you smoke a joint the first time, you don't
7 really get a good buzz out of it. The reason for
8 that is the drug is binding up to nonspecific fat so
9 it is not hitting your brain, it is not giving you
10 the effect.

11 After a couple of times these
12 nonspecific sites are filled. So the drug is now
13 free, it gets to your brain and produces, gets to
14 the threshold and starts producing the effect.

15 The more you have, the greater the
16 effect, and it becomes variable at high end. So if
17 you have, take a mil of highly concentrated
18 Delta-9THC, that will give you a completely
19 different effect in smoking a joint. A lot of the
20 studies they have even done with injections. They
21 can't really, with alcohol it is straight line
22 depressant. That just means the more you drink, the
23 more it depresses you. I don't mean sad, I mean
24 your nervous system. It slows it down, stops it
25 from working, makes you goofy, okay.

1 With THC you can come up, you hit a
2 certain threshold level that will produce an affect.
3 As you go up from there, if you take a massive dose,
4 you can get significantly different affects. Those
5 affects that are not generally associated with
6 marijuana.

7 **Q** So we've discussed a little bit last week,
8 Sheila and I had a long conversation with you as
9 well this morning, I spoke with you, we talked about
10 the affects that you might see or experience, a
11 person might experience if they were ingesting THC.
12 And starting with euphoria being the feeling of
13 happiness or well being, perhaps?

14 **A** Yes, you are feeling about.

15 **Q** That's kind of like the chill, right?

16 **A** Yes.

17 **Q** And then the next one perhaps could be
18 lethargy?

19 **A** Yeah.

20 **Q** And that's when you don't really feel like
21 you have the energy to get up and you're just going
22 to lay around?

23 **A** You don't do things. It is amotivation.

24 **Q** After that would be a possible paranoia?

25 **A** Yes.

1 **Q** And then would there be hallucination?

2 **A** It is possible to go to a full-blown
3 hallucination, yes.

4 **Q** Okay.

5 **A** Paranoia and psychotic episodes.

6 **Q** So when we talked about, you had mentioned
7 when we talk about hallucinations, it doesn't mean
8 the person sees pink elephants. It means that
9 they're not perceiving reality the way it is,
10 correct?

11 **A** That is correct.

12 **Q** Okay. And so if you have a massive dose
13 of THC, could you experience the hallucination
14 and/or the psychosis if you had a high enough dose
15 of THC?

16 **A** If you got a high enough dose, you could
17 have a psychotic episode into hallucinations, yes.

18 **Q** Now, in this particular case when you
19 tested the blood and you got 12 nanograms per
20 milliliter for the Delta-9-THC, do you consider that
21 a high dose?

22 **A** Okay --

23 **Q** What conclusions did you make from that?

24 **A** Well, you have to put things in
25 perspective. This was a very large individual, I

1 think he was about 300 pounds. So for concentration
2 of 12 nanograms in a large person, that shows it was
3 a large dose.

4 In a small person, say like
5 100 pounds to get to 12 nanograms wouldn't take a
6 lot. A single joint could easily do that. But when
7 you talk about a larger body mass, just like
8 drinking alcohol, larger persons can drink more
9 alcohol because they have the receptacle to hold it.

10 Q Now, let's compare, because I think most
11 of us probably have had the experience of consuming
12 alcohol and over time feeling the affects of
13 alcohol. And, you know, so, for example, one of the
14 things that I think we all can probably relate to is
15 that, for example, if I were to consume a certain
16 amount of alcohol and my mother who doesn't drink
17 might consume the same amount of alcohol, we have
18 the same body mass, she may experience different
19 affects than I might because I have experienced
20 drinking alcohol.

21 Now, some people call that tolerance,
22 is there any similar effect from people that are
23 used to using marijuana, could they have the same
24 levels in their system but experience different
25 feelings?

1 **A** Well, of course different people with the
2 same concentration can experience different
3 feelings. But see, with marijuana, like your
4 example was the correct straight line depressant.
5 With marijuana it's the reverse. So the person who
6 is naive will get much less affects than a person
7 who has been using it and that's due to the non
8 specificity of binding sites.

9 **Q** So based upon your finding that there were
10 12 nanograms of THC, 12 nanograms per milliliter of
11 Delta-9-THC in Michael Brown's blood, first off, can
12 you make any conclusions from your findings within a
13 reasonable degree of toxicology certainty or as to
14 the recency in which he may have ingested the THC?

15 **A** Yes, it is within a couple of hours, maybe
16 two, three hours on the outside.

17 **Q** Can you make any conclusions or do you
18 have an opinion as to the dose that Michael Brown
19 may have ingested based upon your tests and your
20 test results?

21 **A** Given his large body mass, yes. It would
22 have been a very significant dose. It wouldn't be
23 just toking on like a simple joint.

24 **Q** Now, based upon your testing and your
25 conclusions, can you make any conclusions about the

1 level of impairment that Michael Brown may have
2 experienced if, before he passed?

3 **A** I can't tell you how he was impaired. It
4 is like predicting what somebody would do. I can't
5 tell you that. I can tell you that the drug is
6 present at a significant concentration that
7 represents a large dose into Mr. Brown.

8 How he would have behaved and what he
9 would have done I cannot predict. I know the drug
10 was having an affect and was impairing his nervous
11 system.

12 **Q** You would consider he was impaired in some
13 way?

14 **A** Yes.

15 **Q** But you cannot draw any conclusions that
16 he was suffering or that he was experiencing
17 hallucinations or having a psychotic break?

18 **A** That is correct.

19 **Q** Um, we discussed when we came out to talk
20 to you last week, we also discussed with you, we
21 asked you if you were familiar with the process
22 called waxing?

23 **A** Yes.

24 **Q** And you indicated that you were familiar
25 with what that is?

1 **A** Yes.

2 **Q** Can you describe for the grand jurors what
3 you understand waxing to be and what happens?

4 **A** Waxing is a process of concentrating the
5 Delta-9 present in marijuana. It uses gases like
6 butane and basically it extracts the Delta-9 out of
7 the marijuana and it is in a highly concentrated
8 form. So you get a lot more bang for the buck out
9 of it.

10 **Q** So you can ingest a smaller piece or
11 smaller physical quantity and get a more
12 concentrated level of THC?

13 **A** A much greater effect, yes.

14 **Q** Okay. And is there any difference if you
15 ingest a much higher concentration of THC, is there
16 a difference in how quickly you would feel those
17 affects or how long it would last?

18 **A** Well, it would depend at that point if you
19 were inhaling it, putting it under your tongue,
20 smoking it, however you were doing it. But
21 generally speaking, it is less than ten minutes.

22 **Q** And less than ten minutes for you to feel
23 the affects or it would last less than ten minutes?

24 **A** No, for you to feel the affects. The
25 affects would come within ten minutes.

1 **Q** If you ingested a highly concentrated
2 amount of THC, do you have any opinion as to how
3 long those affects would last that you would
4 experience some type of effect?

5 **A** Probably four to five hours.

6 **Q** Now, this morning we talked about, and we
7 did also briefly last week talk about levels of THC
8 that would indicate or that legally would indicate
9 someone is presumed impaired.

10 **A** Yes.

11 **Q** Now, states such as Colorado and
12 California, are you familiar, are you aware that
13 those states have legalized marijuana either
14 medically or in the case of California
15 recreationally or Colorado, correct?

16 **A** Yes.

17 **Q** And we discussed the fact that those
18 states have made determinations as to the level that
19 they would if they detect in the person's blood that
20 would indicate impairment much in the same way that
21 alcohol level of .08 is presumptively in most
22 states, in the State of Missouri you are presumed
23 impaired.

24 Are you aware of the level that
25 Colorado and California have set for them to presume

1 someone is impaired?

2 **A** Yes.

3 **Q** What is that?

4 **A** 5 nanograms per mil.

5 **Q** So in this case, Michael Brown's level was
6 over twice that; is that correct?

7 **A** Yes.

8 **Q** But again, you're not, and the same thing
9 with actually the consumption of alcohol, it impairs
10 people, but their affects might be different
11 depending on some of the factors that we've talked
12 about?

13 **A** Yes.

14 **Q** Um --

15 MS. ALIZADEH: I don't have any further
16 questions right now. Sheila, do you have any
17 questions for Dr. ?

18 MS. WHIRLEY: Regarding the waxing, if
19 Michael Brown ingested through the waxing method
20 that you discussed, would the butane appear in his
21 body?

22 **A** No. Butane is so volatile, if I squirted
23 it here on the desk, talked to you and go back, it's
24 gone. So it is extremely volatile.

25 MS. WHIRLEY: And in this case, was he

1 actually checked to see if butane was in his brain?

2 **A** Yes, that's part of our routine. We would
3 check for volatiles such as butane, other inhalants.

4 MS. WHIRLEY: Okay. Obviously, it didn't
5 appear it is so volatile or whatever. There is no
6 way to know whether or not he participated in waxing
7 or not, there is no evidence?

8 **A** Not based on our testing, that is correct.

9 MS. WHIRLEY: Okay. I'm not sure of
10 everything Kathi asked. I will open it for the
11 jurors.

12 MS. ALIZADEH: I just want to real quickly
13 be clear, you cannot say, you're not saying, I'm
14 assuming you're not saying that Michael Brown was
15 hallucinating or suffering a psychotic break, there
16 is no way to know that; is that correct?

17 **A** I can't say that based on our testing,
18 that is correct.

19 MS. ALIZADEH: But based upon the levels
20 that you tested or that you got in your testing, you
21 consider that this dose was within two to three
22 hours and it was a large dose of THC?

23 **A** That is correct.

24 MS. ALIZADEH: Any more questions?

25 I have a

1 question about a person's hydration level, how that
2 affects the test. Either prior to or even in this
3 incident the individual on the street in August for
4 four plus hours, do you know how that may effect the
5 result in any way, if it would?

6 **A** Okay. What you are looking at there is an
7 alteration between the water and the fat in your
8 body and you are depleting the water, so the fat
9 becomes a hire percentage. Not a lot of difference
10 because we lose too much water, you have electrolyte
11 imbalance, you have a heart attack and die. So
12 there is a difference on that.

13 On a drug like marijuana where it is
14 highly lepid soluble, fat soluble, it would just
15 have more, it would soak up more of it. That's all
16 it would do. So it really wouldn't alter much of
17 anything.

18 : Okay. Thank you.

19 **A** Yes.

20 Dr. , with
21 reference to the psychotic affects of certain types
22 of drugs, specifically THC. Can you explain to me,
23 trying to think how to phrase this. For someone who
24 is at a certain level, you mention that if they
25 smoked for a month at a time or two weeks at a time,

1 they can build up a certain level in their body.

2 Can a massive dose at any particular point produce
3 an entirely different affect than what a person is
4 used to, you know what I'm saying?

5 **A** Yes.

6 : It is kind of hard to
7 explain. If somebody who smokes is used to a
8 certain type of reaction out of a level of THC, all
9 of the sudden you see a spike in the quantity of it,
10 what potentially could happen. Is it something that
11 could be totally different?

12 **A** Yes. See, what you are looking at is like
13 a steady state so that using the drug on a regular
14 basis. Then you get a massive dose, it jumps up and
15 you can switch over into complete toxicity. Most of
16 the drugs behave that way that you are stable and
17 then it jumps up.

18 Some drugs, like a couple of the
19 amphetamines. You can take the same dose today,
20 tomorrow, then you take it the next day and it's
21 lethal. Those are the real dangerous drugs.
22 Marijuana is not like that. So your point is well
23 taken. You are stable and you have a massive dose
24 you are going to get a big difference in the affects
25 and could be completely different.

1 : Thank you.

2 MS. WHIRLEY: Could this amount of THC
3 that was found in the blood be, is it possible that
4 someone who is ingesting that amount on a regular
5 basis and not be dead?

6 **A** Well, marijuana really isn't lethal.

7 MS. WHIRLEY: Okay.

8 **A** So it couldn't kill him. As far as the
9 affects, it would take a lot of marijuana on a
10 regular basis to stay at this kind of level. So I
11 would say that's less likely.

12 MS. WHIRLEY: That's less likely.

13 **A** Yeah.

14 MS. WHIRLEY: That you are consuming this
15 amount of marijuana?

16 **A** On a daily basis.

17 MS. WHIRLEY: On a daily basis or regular
18 basis?

19 **A** Yes.

20 Would a
21 cigar size, I guess, you know how they take the
22 cigar and they put the marijuana in it. Will a
23 cigar size give you that kind of dose? I know you
24 mentioned a joint, but now we're talking about a
25 cigar?

1 **A** Is that possible? Yes. See again, purity
2 like low end purity is like 3 percent Delta-9, high
3 end is like 20 percent. So that's a huge range,
4 okay. Is it possible that the cigar got stuck with
5 the higher end stuff? Yes, it is.

6 : You can reach this without
7 waxing, I guess regular marijuana in the cigar?

8 **A** I'm not sure, I'm not sure. I think it
9 would be possible, but I'm not positive on that.
10 . I want to make
11 sure I understand regarding larger person, you talk
12 about the affects of --

13 MS. ALIZADEH: Can you speak up a little
14 bit, sorry?

15 : I just wanted to make
16 sure when you are talking about that, you are
17 talking about the difference between the affects of
18 a person who is larger versus the content in the
19 blood. The affects would not be affected by the
20 size of the person, but the content in the blood
21 would be.

22 **A** That is correct. It is a dose response.
23 So it's like a smaller person takes less, a larger
24 person takes more, you get the same affects.

25 MS. WHIRLEY: I guess going back to

1 can be eaten, it can be smoked, apparently it can be
2 injected, the THC at least. Is there a difference
3 in how quickly it would impair you or how quickly it
4 would be in your system depending on how it is
5 ingested.

6 **A** Sure, oral is the worst. Anything that
7 goes in your mouth goes to your stomach. It has a
8 bunch of acids in there, it chews it up and then it
9 goes to the liver. Once it is picked up by the
10 blood, it goes into the liver. The liver chews it
11 up as metabolism. So the oral would give you the
12 least bang for the buck and probably take the
13 longest because it has to be absorbed and
14 metabolized and so on.

15 When you inhale something it goes
16 into your lungs, okay. And the heart blood goes
17 from the right side to the lungs, to the left side
18 and to the body, and goes to what is called the
19 carotid arteries here in the aortic arch. So
20 anything that goes in by inhalation gets up to the
21 brain within like two, maybe three heartbeats. So
22 it gets in and gives you a much quicker effect.
23 Especially than oral.

24 So just
25 in your experience, we'll talk to others who have

1 more hands on with this specific, in your experience
2 then would you assume that an autopsy or examination
3 would show in the internal organs would be able to
4 tell if something was smoked or ingested orally?

5 **A** No, reasonably, no. Not unless there was
6 something really unusual, like you are inhaling
7 silica gel, or something like that.

8 MS. ALIZADEH: Or perhaps if the stomach
9 contents contained.

10 **A** Leafy green material in the stomach
11 contents.

12 MS. ALIZADEH: Right. Any other
13 questions?

14 . You said
15 this THC stuff, if I heard you correctly, it binds
16 with the fat cells; is that right?

17 **A** Yeah, it does.

18 : Is that why you get hungry
19 after you smoke a joint? Seriously, I'm just
20 saying.

21 **A** No.

22 MS. ALIZADEH: I don't know what you are
23 talking about?

24 : I don't either apparently.

25 **A** No, that has nothing to do with it. What

1 it is, reasonably that is lowering the blood sugar.

2 So you start feeling hungry and get the munchies.

3 MS. WHIRLEY: You said marijuana lowers
4 the blood sugar?

5 A That would be my, yes, that's what I
6 believe.

7 . If it lowers
8 the blood sugar, I had an uncle who is diabetic,
9 when his blood sugar would be very low, he would
10 get, I'm just going to say it he would get volatile,
11 he would get agitated very easily. So would that be
12 a possibility?

13 A That would be a possibility, yes. If the
14 blood sugar got down low enough, that would take,
15 that would be work.

16 And would the Delta-9-THC
17 levels have an affect on the blood sugar level?

18 A No.

19 : So the higher the
20 Delta-THC would not necessarily constitute a lower
21 blood sugar level?

22 A Well, it would indicate that, yes, okay,
23 but it hasn't been like so much THC and so much
24 sugar, it hasn't done that.

25 . According

1 to the readings of the 45 grams, and in your
2 opinion, how well could Michael Brown function?

3 **A** That's really tough to say just looking at
4 the lab test. It is really tough to say. I know
5 the drug was impairing the system, the exact parts
6 of his nervous system that were impaired, how that
7 would be demonstrated I can't predict.

8 MS. ALIZADEH: Any other questions?

9 So you
10 are saying he could experience some kind of
11 impairment?

12 **A** Yes, it would be impairment.

13 : Or he could be functioning
14 normally?

15 **A** No, not normal. The impairment would be
16 present. The degree of the impairment would be
17 based on him personally, his history with marijuana,
18 his underlying chemistry, a whole bunch of other
19 factors. So how it would exactly affect him is, I
20 can't predict. I know it would have an affect
21 because it is psychoactive.

22 MS. WHIRLEY: So a person could be
23 impaired, because they have this in their system,
24 but they could be sitting here talking and you might
25 not even know they were impaired?

1 **A** I'm not aware of anything.

2 : Okay, thank you.

3 MS. ALIZADEH: To tell you, I do not
4 believe we have any kind of medical history or
5 anything of that nature on him.

6 Because my question would
7 be, could some of the drugs be in his system versus
8 when he was smoking it. Could that, you know --

9 **A** Well, it is possible some drugs could be
10 present, but below detection, our cutoff limits.
11 There is actually a theory that says you have your
12 first, from your first spoon of baby food, the
13 molecules are still floating around in your body,
14 which is interesting. So there could be other drugs
15 present at very low levels.

16 MS. ALIZADEH: And just to be clear, THC
17 is only found in marijuana, correct?

18 **A** Yes.

19 MS. ALIZADEH: It is not like we hear
20 about people saying I had a poppyseed bagel and so
21 now I'm going to test positive, THC is only detected
22 if you have ingested marijuana, correct.

23 **A** Yes.

24 MS. ALIZADEH: Or the concentrated level
25 of THC?

Page 86

1 **A** Yes.

2 : One more question, it is
3 my last. . There is no way with
4 these levels would it be possible for him to have
5 been around somebody smoking?

6 **A** Passive, no.

7 : So these levels do not
8 show passive intake of this drug?

9 **A** No, this is active.

10 Okay.

11 MS. ALIZADEH: Anyone else? All right
12 this concludes this witness' testimony.

13 (End of the testimony of Dr.
14 .)

of lawful age, having been first duly sworn to
testify the truth, the whole truth, and
nothing but the truth in the case aforesaid,
deposes and says in reply to oral
interrogatories, propounded as follows, to-wit:

21 EXAMINATION

22 BY MS. WHIRLEY:

23 Q Good morning.

24 **A** Hello.

25 Q Introduce yourself to the grand jurors and

```
1 spell your name, please.
```

2 **A** My name is _____ . It is _____ /

3

4 Q I'm going to ask that you keep your voice
5 up because there are quite a few fans on, we can't
6 hear really well. I generally stand back here, so
7 speak loud enough to have a conversation, okay?

8 **A** Okay.

9 Q So, , what is your occupation?

10 **A** I'm a forensic scientist for St. Louis
11 County Police department.

12 Q What does that mean, forensic scientist?

13 **A** Uh, I analyze evidence collected from
14 crime scenes for bodily fluid. I write reports and
15 when needed, testify in court.

16 Q How long have you been doing that, been in
17 that capacity as forensic scientist?

18 **A** Almost nine years.

19 Q Nine years. Always with St. Louis County?

20 **A** Yes.

21 Q And what type of education is required to
22 do what you do?

23 **A** Um, well, what is required is a bachelor's
24 degree in biology or a science of that nature. I
25 have a bachelor's degree in microbiology and a

1 master's of business administration from Miami
2 University of Ohio.

3 **Q** We have your CV and we are going to pass
4 that out. It is marked as Grand Jury Exhibit Number
5 67.

6 (Grand Jury Exhibit Number 67
7 marked for identification.)

8 **Q** (By Ms. Whirley) It kind of outlines your
9 training and education as you provided it for me,
10 correct?

11 **A** Yes.

12 **Q** Okay. Now, what is, you told us what a
13 forensic scientist is or kind of the job
14 description, what do you do on a day-to-day basis?
15 That's what we want to know.

16 **A** Well, I test evidence that comes in for
17 various cases for, when I say bodily fluids, it is
18 blood, semen and saliva. I also retain samples for
19 possible DNA from trace cases, and then write
20 reports.

21 **Q** Okay. And so you do the initial screening
22 of items before it goes to DNA for analysis, or to
23 the DNA unit for analysis?

24 **A** Yes. In our lab we have two separate
25 sections. So I would, I'm in the biology section, I

1 would do the screening and then if there is anything
2 that needed to be forwarded or retained for DNA,
3 that would be packaged and retained and that would
4 go to the DNA unit and they would do their analysis.

5 **Q** Do you know who did the DNA analysis in
6 this case?

7 **A** Yes.

8 **Q** Who was that?

9 **A** .

10 **Q** Okay. Did you work alone doing the
11 biology on this case or did someone else work with
12 you?

13 **A** I worked alone, I did the case. We did
14 have a, we are training a new biologist, so she was
15 actually with me for part of it.

16 **Q** Okay. So I don't know if you actually
17 told us what type of analysis you performed. You
18 said you check body fluids and that kind of thing.
19 What kind of items could have possible DNA on them?

20 **A** In general?

21 **Q** Yeah, in general.

22 **A** Well, body fluids tend to have high
23 amounts of DNA, so blood from a lot of DNA, as well
24 as semen and then saliva. And then as far as trace,
25 I'm sure you've heard, I don't know if you know

1 about trace DNA.

2 Q Tell us what that means.

3 A Okay. Trace evidence is what is left
4 behind when a material or a person made contact, so
5 that can be footprints, fingerprints, soil samples,
6 hair, fibers, or DNA. In our lab, what we refer to
7 as a trace case, is something that the biologist
8 doesn't actually examine, I don't actually test it,
9 but I would save samples to be tested for DNA.

10 Some examples of this are, um, like a
11 swab taken from the steering wheel of a recovered
12 stolen vehicle where it isn't blood, you are trying
13 to find out who stole the car, who was driving the
14 car.

15 It could be a shirt left behind from
16 a robbery, so you would swab that for DNA, or a
17 knife from a domestic assault. You wanted to know
18 who was actually holding the knife, so you would
19 swab it for user DNA.

20 So those are the kind of things that
21 we consider trace. Where it is not actually a body
22 fluid that we are testing for, but we think that
23 there might be DNA left behind. And usually what
24 this is is from allele cells or skin cells.

25 Q Now, at the crime scene the officer or

1 someone actually collects what they think might be
2 useful for the lab in determining whether there is
3 DNA present, correct?

4 **A** Yes.

5 **Q** Someone is swabbing and someone is doing
6 that at the crime scene and then they submit it to
7 you. Is there a certain way that that must be
8 presented to you in order for it to be useful, for
9 you to determine whether or not it has DNA or
10 potentially --

11 **A** Well, I mean, we don't know because you
12 can't see anything. So a lot of times the crime
13 scene will swab things themselves and submit the
14 actual swabs, or they will submit actual items like
15 knives or shirts that I would then swab.

16 **Q** Okay.

17 **A** Areas that I think would be useful areas
18 to swab.

19 **Q** Does the crime scene or the case officer
20 tell you a little bit about the case for you to
21 figure out what might be useful?

22 **A** Yes. You do get a brief scenario of what
23 happened. Like that gives you information about
24 what is relevant or probative. For example, for a
25 shirt, typically I would swab areas that would most

1 likely touch the skin. So like cuffs or the
2 neckline, things like that.

3 **Q** Can you tell us how you began a case, I
4 mean, it comes to the lab, I guess, and then how do
5 you get ahold of it?

6 **A** When evidence is submitted to the lab, it
7 is submitted to the front counter where evidence
8 technicians take it in, make sure that it is
9 properly packaged and sealed. We do not except
10 improperly packaged evidence.

11 So you would get evidence, either in
12 a box or a package, it would also have a receipt
13 with it. And the evidence receipt just details all
14 of the pertinent information as when the incident
15 happened, the location, what kind of offense it is,
16 um, who the victim is, who the suspect is, and then
17 what actually is inside of the packages or boxes.

18 So this evidence is then entered into
19 our lab system, the actual evidence would be stored
20 in our vaults, a secure location, until it is
21 actually worked and the receipts would, they're
22 stored back in biology and then we work them. It
23 depends, but usually first end, first out. We do
24 the crimes against persons cases first, they are
25 more of a priority.

1 **Q** And you go to the vault and get the
2 evidence when it is your case?

3 **A** Yes.

4 **Q** And you verify the things you just told us
5 what is marked as on the evidence receipt is
6 actually what is contained in the box or the bag?

7 **A** Yes.

8 **Q** And that it is sealed, you verify it
9 hasn't been tampered with?

10 **A** Well, it comes, when it comes into the
11 lab, we don't accept improperly packaged evidence.

12 **Q** And that's your way of verifying that it
13 is not tampered with?

14 **A** Right.

15 (Grand Jury Exhibit Number 68
16 marked for identification.)

17 **Q** (By Ms. Whirley) I was going to ask you,
18 let me move on to something else. What's marked as
19 State's Exhibit Number 68, which is one of your
20 crime lab reports, I think it is the first one.

21 MS. ALIZADEH: Is Q22 the first one?

22 MS. WHIRLEY: Actually, it is not the
23 first one, it's the second one. This is the one
24 with the baseball cap, Q22. Do you have that one?

25 MS. ALIZADEH: You want me to pass this

1 along?

2 MS. WHIRLEY: Why don't we pass both of
3 them, if you don't mind, both Grand Jury Exhibit 68,
4 which starts with specimen Q22. And then 69 is
5 actually the first one I think you probably worked
6 that starts with specimen Q1. You have both of
7 those in front of you?

8 A I do.

9 Q (By Ms. Whirley) We are going to talk a
10 little bit more specifically about the Michael Brown
11 case or the Michael Brown shooting. You took some
12 photographs also, is that right, associated with
13 this case?

14 A I did.

15 Q We will look at those. And tell me why
16 did you take photographs?

17 A I can't, when I write my report, I can
18 describe the items with words, but a picture is
19 always better.

20 Q Okay. All right. And you take those
21 pictures for yourself as you are writing your
22 report, is that what you told us?

23 A What was that?

24 Q You take those pictures for your purposes
25 to complete your report?

1 **A** No, we are not required to take pictures.

2 In specific cases we do take pictures. In this
3 case, I decided to take pictures of certain items.

4 **Q** Okay. Now, in this specific case, we see
5 a Q and then numbers. Can you tell us what that
6 represents?

7 **A** A Q is, it just means a questioned item,
8 so it is something that I am actually testing.
9 Whereas later in the report you might see a K, and
10 the K stands for a known, which is just a known
11 reference standard taken from a person to be used
12 for elimination or comparison purposes in DNA. And
13 it is a known reference standard which means it came
14 from that person in the forms of blood or saliva.

15 **Q** So you know whose blood or saliva you
16 have?

17 **A** Yes.

18 **Q** And you had a known reference sample from
19 Michael Brown; is that correct?

20 **A** Yes.

21 **Q** Is that in the form of blood?

22 **A** His blood.

23 **Q** Okay. Did you have a known sample of the
24 officer, Darren Wilson?

25 **A** Yes.

1 **Q** Was that in the form of saliva?

2 **A** Yes, it was a buccal swab.

3 **Q** It is what you referred to as a buccal
4 swab?

5 **A** A buccal swab is a swab that is used to
6 rub against the side of the mouth, against the
7 cheek. So it takes, actually, where the DNA is
8 coming from the cheek cells, but in the form of
9 saliva.

10 **Q** So that was your way of having a DNA
11 sample from both the officer and Michael Brown; is
12 that correct?

13 **A** Yes.

14 **Q** Now, you can see we all have a copy of
15 your report dated, it was entered, it says
16 8/11/2014, approved on 8/19/2014. What does
17 administrative approval mean?

18 **A** That is the signature of a person who
19 tech-reviewed my report. What a tech review is, it
20 is just kind of a double-check done by a peer in the
21 same discipline to insure accuracy between the
22 analyst notes and the report.

23 **Q** Now Q1 through Q21 are items that you, I
24 guess, that are questionable, is that what you said?

25 **A** Yes.

1 **Q** Are these items that you took photographs
2 of also?

3 **A** I did not take photos of every single
4 item.

5 **Q** Okay. All right. Let's start to go
6 through these. This tells us the items that you
7 checked based on the information that you were told
8 and the items that were brought to you; is that
9 correct?

10 **A** Yes.

11 **Q** All right. So you did, just go ahead and
12 tell us what you did.

13 **A** Well, you are looking at the first report.
14 I started with Michael Brown's clothing. So do you
15 want me to go through Q1 or say everything I did?

16 **Q** Tell us what you did. You can go through
17 by Q1, whatever works for you, as long as you tell
18 us, you know, what you did.

19 **A** Sure. Q1 was Michael Brown's T-shirt, I
20 just, we first do a visual examination so I would
21 describe it, what it looked like.

22 It had red brown stains, there were
23 several holes in his shirt. I tested for blood.
24 And then I also did a swabbing of the non blood
25 stained areas for possible trace, since it was

1 alleged that there was contact between Officer
2 Wilson and Michael Brown.

3 It was hard to do this because the
4 shirt was extremely bloody. So I just swabbed the
5 areas that were not blood stained.

6 Q You, of course, always wear gloves when
7 you are handling any items; is that correct?

8 A Yes, we wear personal protective
9 equipment, which includes a lab coat, a mask,
10 gloves, we use sterile equipment, we open one
11 package of evidence at a time, we clean our work
12 area.

13 Q And these are things you do to prevent
14 contamination or cross-contamination; is that
15 correct?

16 A Yes.

17 Q Just to kind of, I guess, make it go a
18 little faster since everyone has a copy of the
19 report, all of these items you actually, did you
20 test all of these items?

21 A I have to go through --

22 Q Yeah, go ahead and look at it.

23 A All of the clothing I tested, I tested for
24 blood. As well as there was swabs taken from
25 Michael Brown's hands, those were all tested for

1 blood as well. And then there were fingernail
2 scrapings that were submitted, and I tested those
3 and also swabbed those again for trace in case there
4 was contact, such as scratching, things like that.

5 MS. ALIZADEH: Can I ask you what did you
6 swab for trace, the fingernail scrapings?

7 **A** Yes.

8 MS. ALIZADEH: So these fingernail
9 scrapings were done by someone else, correct, like
10 at the morgue?

11 **A** Yeah. They labeled it fingernail
12 scrapings, clippings, but they actually, I looked
13 back, they were actually clippings.

14 MS. ALIZADEH: Nail clippings.

15 **A** They take nail clippings.

16 MS. ALIZADEH: Okay.

17 MS. WHIRLEY: That was forwarded to the
18 lab, the nail clippings?

19 **A** Yes. So what we do we swab the underside
20 that you can tell for possible trace in case, again,
21 there was contact.

22 MS. ALIZADEH: All right. I didn't know
23 if you were swabbing a swab when you talked about
24 it.

25 **A** No, I swab them.

1 **Q** (By Ms. Whirley) It looks like you
2 swabbed, there was a swab collected and forwarded to
3 you that represented the Brown's, the left back of
4 his hands; is that correct?

5 **A** Yes.

6 **Q** And also the right palm, the right palm of
7 hand?

8 **A** Yes.

9 **Q** And right back of hand?

10 **A** Yes. Those were all tested for blood.

11 **Q** And then there was a piece of, you have
12 Q11, apparent skin or hardened nasal mucus?

13 **A** Yes, when I, when I received it, all the
14 information really said was something from the
15 exterior of the door. And looking at it, I did
16 ultimately know right away what it was. So I called
17 it apparent skin, or harden nasal mucus, because I
18 wasn't sure. It was very small. I took a picture
19 of it.

20 **Q** Okay. We'll look at those pictures. And
21 you were told, or it was on the evidence receipt,
22 where these items came from?

23 **A** Yes.

24 **Q** Like from the front exterior door of the
25 Ferguson Police Department Vehicle 108 for that one?

1 **A** Yes.

2 **Q** Then there's also a swab of the rear
3 passenger exterior door of that same vehicle, which
4 is Q12?

5 **A** Yes.

6 **Q** All right. And then blood stains from the
7 area on Canfield. And then Q15, actually, the other
8 items that I talk about when I mention swabs taken
9 from Brown's hands, it says suspect Brown, and now
10 on Q15 it says victim's uniform pants, and that is
11 the officer; is that correct?

12 **A** Yes.

13 **Q** The officer's uniform pants when you label
14 as suspect and victim, what does that mean for you?

15 **A** When we receive the evidence receipts that
16 come with the evidence, they are, each case is
17 assigned a victim or a suspect. I don't declare
18 this, it was what was already like that when it came
19 to the lab.

20 **Q** From the police?

21 **A** Right.

22 **Q** So it is not that you are determining who
23 the victim is or who is the suspect is in this case?

24 **A** No.

25 **Q** So you have the officer's uniform pants

1 and you swab the left thigh, why did you do that?

2 **A** Well, those swabs were actually taken by
3 crime scene.

4 **Q** I'm sorry, that's true, you didn't swab,
5 they swabbed it. And did you have any information
6 about why that was swabbed or you just tested it?

7 **A** Well, all I knew was that there was
8 possible blood on the officer's pants. So they did
9 swab that to find out whose blood that was.

10 **Q** Okay. And then there was swabs from the
11 interior left front door of vehicle number 108,
12 which is Q18?

13 **A** Yes.

14 **Q** Okay. And then you also received swabs of
15 the officer's weapon; is that correct?

16 **A** Yes.

17 **Q** Now, in Q19, which is the weapon, it says
18 blood was presumptively detected. Quantity was not
19 sufficient for confirmatory testing. What does that
20 mean?

21 **A** Well, I was able to do a presumptive test
22 for blood, which is just the first step in our
23 process of testing blood. Presumptive test, it is a
24 sensitive test, but it is not specific. So it
25 indicates that the substance you are testing for is

1 possibly there. In this case, blood, so that was
2 positive.

3 To do a confirmatory test, you need
4 to actually take more of that sample. Since there
5 wasn't that much to begin with, I didn't want to use
6 any more of a sample since there wasn't that much,
7 it would have to go to DNA.

8 So rather than, I guess, use up any
9 more of a sample, I just indicated that confirmatory
10 testing was impossible, but blood was presumptively
11 detected.

12 Q So in this case the DNA section could test
13 further?

14 A Yes.

15 Q Okay. And you do say that the swabs were
16 retained. You also tested Q20, is Wilson's blue
17 uniform shirt, a swab was submitted?

18 A No, I actually swabbed.

19 Q You swabbed it, okay. So you swabbed the
20 left side of his shirt and collar area. So you
21 just, the whole shirt was submitted and you
22 determined what to swab?

23 A Yes.

24 Q Okay. And the uniform pants, is that the
25 same thing in Q21 with the swabbing?

1 **A** I did do the swabbing. And since there
2 was, there was a blood stain on the pants. So when
3 I was swabbing for trace, I avoided that stain.

4 **Q** Okay. And now if we look at the other
5 report, which is Grand Jury Exhibit 68, Q22 through
6 Q26. Now, this report looks like it is done on a
7 different day, or is entered on a different day, and
8 it is also, I imagine, tested on a different day; is
9 that correct?

10 **A** Yes.

11 **Q** Do you know why it wasn't all given to you
12 at the same time?

13 **A** Right. And typically this happens when
14 you are working a case right away, right after it
15 happens. Sometimes all the evidence doesn't come in
16 at the same time. So in this case, I worked all
17 that I had on the first date and then we received
18 more to be tested. So I did that work on a later
19 date, like a week later. I work part-time.

20 **Q** Okay.

21 **A** So everything would have been done on a
22 Tuesday or a Thursday.

23 **Q** That makes me think of something else.
24 This case was done pretty quickly, correct?

25 **A** Yes.

1 **Q** And by that, I mean, you had mentioned
2 that kind of first-come first-serve, or something to
3 that effect, generally as you work cases. Was this
4 case given a priority?

5 **A** It was.

6 **Q** Because of the significance?

7 **A** The significance and the sensitivity of
8 the nature of the case.

9 **Q** Okay. So there was a baseball cap, Q22,
10 that a swabbing, it says, so you swabbed the
11 baseball cap?

12 **A** I did.

13 **Q** And then the flip flop, a separate
14 swabbing was retained for trace. Did you do
15 something with the flip flop in Q23?

16 **A** Yes, there were some reddish brown stains,
17 so I tested those for blood, but then I also tested
18 for trace, or as I mentioned before, kind of a wear
19 profile to identify whose they were.

20 **Q** And then it looks like you did in Q24,
21 that was another flip flop, and in Q25 is the
22 bracelet?

23 **A** Yes.

24 **Q** And did you swab the bracelet?

25 **A** Yes, I swabbed the bracelet for a wear

1 profile.

2 **Q** And Q26 was another bracelet, correct?

3 **A** Yes.

4 **Q** Okay. I want you to look at these
5 photographs. And this is Grand Jury Exhibit Number
6 70.

7 (Deposition Exhibit Number 70
8 marked for identification.)

9 **Q** (By Ms. Whirley) I think you looked at
10 those already, but I want you to confirm that you
11 are familiar with those photographs and tell us how?

12 **A** Yes. Do you want me to hold them up?

13 **Q** We are going to put them on --

14 MS. ALIZADEH: I will assist in that.

15 MS. WHIRLEY: Okay, thank you.

16 **A** Yes, I can identify them. You will see
17 when it gets up there, but on pictures that I take,
18 I write the complaint number, which is just the
19 number assigned by the county for which case it is,
20 and the Q number and my initials and DSN, which is
21 my department serial number, and then the date.

22 **Q** And so this is on the back, there's a
23 number of the photograph, what number is that one?

24 **A** 26.

25 **Q** 26. I believe these photographs are

1 Numbers 26 through 44. We will make sure as Kathi
2 is assisting.

3 MS. ALIZADEH: Oh, I need my glasses for
4 that.

5 MS. WHIRLEY: I'll call out the number.

6 MS. ALIZADEH: That's okay. This is
7 Number 26.

8 MS. WHIRLEY: Grand Jury Exhibit, which is
9 all going in this evidence is Number 70. And I am
10 just identifying the photograph by a number.

11 MS. ALIZADEH: We've done that in the
12 past.

13 MS. WHIRLEY: Right, okay. So that first
14 one, Kathi had put it on, and you have kind of
15 already told us about this one. But again, what are
16 we looking at now that everybody can see it.

17 **A** That is what, again, because I didn't know
18 exactly what it was at the time, but that was what I
19 called apparent skin, or hardened nasal mucus, from
20 outside of the car on the door.

21 **Q** Okay.

22 **A** You can see it's small, the measurement is
23 in centimeters.

24 **Q** I see. And those numbers at the top, that
25 99 represents what?

1 **A** 99 represents County.

2 **Q** Their municipal code?

3 **A** Their municipal codes to, like Ballwin is
4 like 02. So anything that is not in a municipality
5 is considered County, which is 99. 14 is the year,
6 and the 43984 is just the actual number that was
7 assigned.

8 **Q** Okay. And then that Q11 would correspond
9 with the report that we have that has Q11; is that
10 correct?

11 **A** Yes.

12 **Q** We look on our report dated, entered on
13 8/11/2014. Q11 says one small piece of apparent
14 skin or hardened nasal mucus, which you talked about
15 already.

16 And those are your initials?

17 **A** Yes.

18 **Q** And that's your DSN?

19 **A** Yes.

20 **Q** And then the date that you worked it?

21 **A** Yes.

22 **Q** Okay, all right, thanks.

23 MS. ALIZADEH: Just to clarify, you said
24 this measure is centimeters?

25 **A** Yes.

1 MS. ALIZADEH: How do you know that? Did
2 you notate that or do you just know by looking at it
3 or do you remember it?

4 A Those are our rulers that we use, they're
5 disposable rulers that are measured, they're
6 centimeters.

7 MS. ALIZADEH: Okay. The way it is laying
8 it appears to be about 1 centimeter in length?

9 A Yes.

10 MS. ALIZADEH: Okay. We're done with that
11 one.

12 MS. WHIRLEY: Yeah.

13 MS. ALIZADEH: Moving on.

14 Q (By Ms. Whirley) And then this is Number
15 27 and tell us what we are looking at on that one.

16 A That is Officer Wilson's shirt.

17 Q Now, I want you to speak up a little bit
18 if you can.

19 A Sorry. Officer's Wilson uniform shirt.

20 Q Okay. And that Q20 would correspond with
21 Q20 on our report, right, that we looked at?

22 A Yes.

23 Q Okay. And as you are talking, would you
24 let us know which items, I'm not going to assume
25 that they all were, which items were forwarded to

1 DNA for further analysis? We know that first one,
2 Number 26 photo was, correct?

3 **A** Yes.

4 **Q** Number 27, was it forwarded to DNA for
5 analysis?

6 **A** The shirt, yes. This is -- I swabbed the
7 left side of the shirt, the collar, the shirt area,
8 for trace. Again, the alleged contacted between
9 Michael Brown and Officer Wilson. So I would have
10 just taken a sterile swab, got it wet, swabbed the
11 area, and did that for DNA.

12 **Q** That's the actual shirt?

13 **A** That is the shirt. This picture is a
14 little better.

15 **Q** Okay. And this is Number 28.

16 MS. ALIZADEH: Can I ask a question? In
17 the old days you used to take cuttings from fabric
18 items, correct? When I say the old days, might have
19 been before your time.

20 **A** We did. You can do either.

21 MS. ALIZADEH: In this case you didn't
22 take cuttings?

23 **A** Right. You can get, you could cover a
24 larger area surface area. If I'm actually taking a
25 swab to get the most possible DNA with trace cases

1 with trace evidence, there is not going to be as
2 much DNA left behind as if someone is bleeding.

3 MS. ALIZADEH: Okay.

4 **A** So to try to maximize that rather than
5 take a cutting of a small area. Plus, you don't
6 know where, you know, where there was contact.

7 MS. ALIZADEH: Correct. And in this case,
8 when you visually examine this shirt, did you see
9 anything that looked like apparent blood?

10 **A** No.

11 MS. ALIZADEH: And had you seen something
12 that looked like apparent blood, would you have
13 actually swabbed that spot?

14 **A** Yes.

15 MS. ALIZADEH: But in this case, because
16 you didn't see anything, you just kind of doing a
17 broad brush on the shirt?

18 **A** Yes.

19 MS. ALIZADEH: And that's cause you have
20 had information from a case officer that perhaps
21 Michael Brown touched the shirt of the officer on
22 the left side?

23 **A** Yes.

24 MS. ALIZADEH: Okay. And so when you said
25 this was forwarded to the DNA section, you forwarded

1 the swabs, correct?

2 **A** Yes.

3 MS. ALIZADEH: The shirts repackaged?

4 **A** The shirt was, yes, kept in. Would have
5 been finished, completed and sent to property
6 control, which is our evidence goes.

7 MS. WHIRLEY: Would that be true for all
8 clothing items, is that you just submit the swabs to
9 DNA?

10 **A** Yes.

11 **Q** (By Ms. Whirley) And repackage?

12 **A** The actual clothing items, they weren't
13 sent to DNA. It would be either cuttings that I
14 took or swabbings that I took, that would go to DNA.

15 MS. ALIZADEH: And to be clear on this
16 shirt, you swabbed two areas, the collar area; is
17 that correct?

18 **A** Yes.

19 MS. ALIZADEH: When you say the collar
20 area because this collar goes all away the around
21 the shirt, was it what area?

22 **A** I just swabbed anything on the left front
23 side. Nothing around the back. So I think in the
24 other picture is better.

25 MS. ALIZADEH: This is 28, Sheila already

1 identified that as 28. So you can see the shirt,
2 there's a laser pen right in front of you, laser
3 pointer. Can you show the jurors when you talk
4 about swabbing the collar, where did you swab?

5 **A** So, I would have swabbed or I did swab
6 this area right here, just the front. And then the
7 left side of the shirt, all right here.

8 MS. ALIZADEH: Including the sleeve?

9 **A** Including the sleeve, yes.

10 MS. ALIZADEH: So when you swabbed that
11 left side, the whole left side of the shirt pretty
12 much, did you just use one swab or did you take
13 several swabs of that area?

14 **A** I think I took two. Usually something in
15 that area, that big I would have taken two, two
16 swabs.

17 MS. ALIZADEH: Okay. Both of those were
18 forwarded to DNA?

19 **A** Yes.

20 MS. ALIZADEH: And then for the collar,
21 did you do one or two, do you recall?

22 **A** It was two swabs for the entire area.
23 They weren't separated.

24 MS. ALIZADEH: So you didn't swab the
25 collar and the left side separately?

1 **A** No. So I basically, pretend my laser
2 pointer is two swabs. So I swabbed here, swabbed
3 here, swabbed here, swabbed here. (indicating)

4 MS. ALIZADEH: Okay.

5 **A** Altogether.

6 MS. ALIZADEH: So, for example, if swab
7 has DNA on it that identifies somebody, you are not
8 going to be able to say whether it was on the collar
9 or elsewhere on the shirt?

10 **A** No.

11 MS. ALIZADEH: Okay. That's what I wanted
12 to know.

13 **Q** (By Ms. Whirley) What is your next photo?

14 **A** That is Officer Wilson's pants.

15 **Q** This is Number 29.

16 **A** Uh-huh. And again, I did a close-up
17 picture to get my information on them and then
18 there's one taken from farther away, which is
19 probably a little more helpful to see the item in
20 its entirety.

21 **Q** What did you do with this piece of, this
22 item?

23 MS. ALIZADEH: I'm showing Photo 30.

24 **A** So the left, I swabbed the left, again,
25 the left side. So just swab the areas.

1 MS. WHIRLEY: Can you see it okay?

2 A Yeah, I can see it. I swabbed, again,
3 take two swabs, swabbed this area. There was an
4 area, I think it was in this location. This picture
5 isn't perfect to see the blood stain, but I did not
6 swab that area because swabbing that area you would
7 get blood of whoever at the time. I didn't know
8 whose it was. So for trace, since I'm trying to
9 find if there was contact, so swabbed any of the non
10 blood stained areas.

11 Q (By Ms. Whirley) So there was blood stain
12 on the pants?

13 A Yes.

14 MS. ALIZADEH: And you tested that for
15 blood?

16 A I tested that in the swabs that were
17 submitted.

18 MS. ALIZADEH: Okay. So the blood stain
19 was swabbed by the crime scene?

20 A Yes.

21 MS. ALIZADEH: All right.

22 Q (By Ms. Whirley) This is marked as photo
23 number, these should be sequential, this one is 31.
24 What is that?

25 A That is Michael Brown's T-shirt.

1 Q Okay.

2 A And that is the back side.

3 Q That's the back of the shirt?

4 A The back of the shirt.

5 Q Now, you mention swabbing non stained
6 areas?

7 A For possible trace.

8 Q For possible trace. Why would you not
9 swab the blood stain areas for trace?

10 A Well, blood is -- contains a lot of DNA.
11 And then also it was Michael Brown's shirt, which
12 would have DNA from him wearing it too. So for me
13 to try to swab bloody areas, it is just unlikely to
14 actually get a trace profile from that because the
15 blood would overwhelm everything.

16 MS. WHIRLEY: Did you have a question?
17 . I know
18 you may not have known this, but I don't know at the
19 time if Michael Brown was supposedly been in the
20 vehicle, you testing for prints on the shirt when he
21 did that, testing of that?

22 MS. ALIZADEH: Fingerprints you mean?
23 : Well, like maybe
24 holding --

25 MS. WHIRLEY: Trace DNA?

1 : Yeah.

2 MS. WHIRLEY: You did swab the non blood
3 areas for that purpose?

4 A Yes, uh-huh. In case, if there was,
5 again, if Officer Wilson grabbed his shirt.

6 Okay.

7 A It was hard in this instant. The shirt
8 was blood soaked. So I did, again, do the same
9 thing for trace DNA. I took two swabs and just
10 swabbed the non stained areas.

11 Q (By Ms. Whirley) This is the back of the
12 shirt in Exhibit 31, I think we said?

13 A That is the back.

14 MS. ALIZADEH: There will be a DNA person
15 testifying about the DNA at some point.

16 MS. WHIRLEY: So that will be Photo Number
17 32.

18 MS. ALIZADEH: Yes.

19 Q (By Ms. Whirley) Were you told or did you
20 have any idea where the officer allegedly grabbed
21 Michael Brown?

22 A No.

23 Q You just swabbed all non blood, well, not
24 all, but I mean, what did you swab, show us what you
25 swabbed. This is the front of the shirt, is this

1 32?

2 **A** Yes.

3 **Q** This is the front of the shirt?

4 **A** It is the front of the shirt.

5 **Q** Most of the blood appears to go on the
6 right side of the shirt?

7 **A** Yes.

8 **Q** Okay.

9 **A** So I just swabbed, you know, areas that
10 were not blood stained, you know.

11 **Q** Okay.

12 **A** Whether or not there was contact at these
13 places, I don't know. It was just --

14 **Q** Okay.

15 MS. ALIZADEH: You are just looking for an
16 unbloody place?

17 **A** Yes.

18 MS. ALIZADEH: When you said, you moved
19 the laser pointer a lot in the area of that shirt,
20 were you using, when you swab, are you holding two
21 swabs at the same time?

22 **A** Yes.

23 MS. ALIZADEH: Do you just do one swabbing
24 of that whole area or did you do different areas?

25 **A** Different areas. So again, they were

1 riddled with blood stains. I just had to do
2 different areas.

3 MS. ALIZADEH: How many swabs total did
4 you do?

5 A I think two.

6 MS. ALIZADEH: That was my question, the
7 same two swabs are covering the entire places you're
8 swabbing?

9 A Yes.

10 MS. ALIZADEH: You are not going underarm
11 here and the tail of shirt from another spot?

12 A No. And again, for a trace, we are trying
13 to collect as much DNA as possible. So by keeping
14 it to two swabs, rather than separating it. If
15 there was something to collect, would be more likely
16 to collect it with less swabs than large quantity.

17 Q (By Ms. Whirley) Okay. And this one,
18 which is Number 33, what did that represent?

19 A That's actually the first picture that I
20 took, just to zone in on the Q and my initials and
21 complaint number.

22 Q That says Q7?

23 A Yes. I usually take a picture close-up so
24 that you can get the information, the date, my
25 initials, my DSN, and then take my picture from

1 farther away so you can see the whole item.

2 MS. ALIZADEH: Can I just go back really
3 quickly.

4 The apparent skin, or hardened nasal mucus
5 that you looked at, did you swab that and forward
6 the swabs to the DNA section, or did you forward the
7 whole piece you said of whatever it was.

8 **A** The whole piece did go, but I took a
9 cutting of it. What we do with either the swabs in
10 this case, that little piece, I would have sampled a
11 section and put it in a tube and that's what DNA
12 would actually test. And the remainder of that
13 section I took approximately 4 millimeters by 3
14 millimeters, and that's what actually the DNA unit
15 would actually test.

16 The rest of that, the remainder also
17 went to DNA in case they need to do further testing.

18 Same thing would happen with the
19 swab. Like those two swabs that I took for trace, I
20 sampled half of each swab, put that in a tube and
21 that's what DNA you would be testing. And then the
22 remainder of those swabs would be put in a container
23 and they would be transported together. Does that
24 make sense?

25 MS. ALIZADEH: Yes, I think so. So the

1 apparent skin or hardened nasal mucus, did you do
2 any testing on that yourself other than to take a
3 swab, take the piece out of it?

4 **A** I tested it for blood, and then I did a
5 test to confirm blood and determine probable
6 species. What that means, this test is called
7 Hemastix. What it does is that if it's positive, it
8 confirms that it is blood and it is also presumptive
9 for human species. And the reason why we can't say,
10 oh, it is human blood for sure is that there are
11 some other primates and ferrets blood that will --

12 MS. ALIZADEH: Ferrets?

13 **A** Ferrets, yeah. I don't know why. That
14 have reported given positive results. So in that
15 case, the way we report it on my report is that for
16 Q11, that examination discloses presence of blood as
17 probably human organ.

18 **Q** (By Ms. Whirley) Okay. For this item as
19 Q7; is that correct?

20 **A** It's Q1.

21 **Q** Q1. That's what threw me off because I'm
22 looking at the report, still looks like a seven to
23 me, I don't know if anybody else thought that or
24 that's just me. But that's actually Q1?

25 **A** Yeah, I think what maybe you are seeing is

1 the bracket that I put after that.

2 **Q** I'm glad you clarified that. So Q1 is
3 the, because it was not corresponding with the
4 report, that's why I was a little confused, but now
5 it does. It is the gray T-shirt. Okay, all right.
6 This should be 34.

7 And these are?

8 **A** These are Michael Brown's shorts.

9 **Q** Okay.

10 **A** It's the front, no, the back.

11 **Q** That's the back of the shorts. Just
12 zooming in and focusing, but these are the back of
13 the shorts. Do you know what kind of stain that is
14 on the back, did you test that?

15 **A** I tested overall for blood. I confirmed
16 blood. I don't confirm each stain.

17 **Q** Do you know which stain you confirmed?

18 **A** Um, the one that I tested was on the lower
19 left leg.

20 **Q** Show us with the laser pointer.

21 **A** Um, it would be on the front in the next
22 photo.

23 **Q** So you didn't confirm any blood on the
24 back?

25 **A** No.

1 bleeder, would you have maybe tested more areas of
2 the pants.

3 **A** They could have been tested in that
4 situation. That is where actual cuttings would have
5 been taken from different areas to be tested for
6 DNA. The only things that was tested for DNA, and
7 this was for trace, again, on the nonstained areas.

8 **Q** (By Ms. Whirley) You checked nonstained
9 areas on these shorts too?

10 **A** Yes. So again, areas that were not
11 stained did the same thing, two swabs.

12 **Q** Did you know if there was anything in the
13 pockets or is that something that you would not deal
14 with?

15 **A** Yes, I checked.

16 **Q** You checked the pockets. Okay. It looks
17 like something, I was just wondering.

18 MS. ALIZADEH: Was there anything in the
19 pockets?

20 **A** No.

21 MS. ALIZADEH: Would that be the inside of
22 the pockets, you know when you turn a pocket inside
23 out, there's fabric. Do you know what that is that
24 looks like in that picture?

25 I'm going to let you look at it.

1 **Q** (By Ms. Whirley) But did you check the
2 pockets?

3 **A** Oh, actually, I think it is the velcro,
4 there's velcro.

5 MS. ALIZADEH: For the pocket?

6 **Q** (By Ms. Whirley) And then here --

7 **A** That's the inside of the pocket.

8 **Q** Okay. And you checked, there was nothing
9 in the pockets?

10 **A** Right.

11 **Q** Correct, okay. So --

12 MS. ALIZADEH: You want this still up
13 here? You were done with that.

14 MS. WHIRLEY: I think I'm done with that.

15 **Q** (By Ms. Whirley) So Number 36. What are
16 we looking at there?

17 **A** This is, these were kind of backwards. So
18 this, again, was the first picture that I took of
19 the shorts just to show the complaint number, my
20 initials, DSN, date.

21 **Q** So what is that Q number?

22 **A** Q2.

23 **Q** Q2. What's that other number next to it,
24 or symbol?

25 **A** A bracket.

1 **Q** Just a bracket. That's what is throwing
2 my math, that's Q2?

3 MS. ALIZADEH: Kind of like a greater than
4 symbol.

5 **A** Yes.

6 MS. ALIZADEH: Like an arrow kind of
7 thing.

8 **Q** (By Ms. Whirley) What does it represent?

9 **A** It doesn't mean anything. It just is,
10 that's just how I write it. I do the Q and then
11 just showing my initials and the date all done at
12 the same time.

13 **Q** I see, okay. And what did you do with
14 this piece of, this item?

15 **A** Well, these are Michael Brown's shorts
16 that I swabbed the non stained areas for trace.

17 **Q** You also swabbed this area, is that near
18 the waist band?

19 **A** Yes, so any non stained areas.

20 **Q** Okay.

21 MS. ALIZADEH: Did you swab the belt as
22 well?

23 **A** Yes, because that is a good place. When
24 you are swabbing for trace on clothing, a lot of
25 times pockets, collars, belts, those are areas that

1 are easily grabbed. So, yes.

2 Q (By Ms. Whirley) Okay. This is Photograph
3 Number 37. That's on your other report beginning
4 with, I think, Q22, correct?

5 A Yes.

6 Q Okay. And this was submitted another day.
7 What did you do with this item?

8 A I swabbed this hat for wear DNA just
9 because it wasn't identified on the receipt as
10 belonging to someone in particular. So I just
11 swabbed areas that would touch skin. If you're
12 wearing it on the hat, it is the inner rim of the
13 hat of the bill.

14 Q This is number 38, also a photograph of
15 the Cardinal baseball cap, correct?

16 A Yes.

17 Q You just gave us another view of it I see?

18 A Yes.

19 Q All right. And then Number 39. So you
20 also took photographs of the flip flops that you
21 were told he was wearing; is that right?

22 A Yes.

23 Q And that's 39 and 40, which I will show in
24 a moment. Did you do anything with that spot that's
25 there that we're looking at?

1 **A** Yes.

2 MS. WHIRLEY: We had an interruption for
3 the alarm sounding. We are good now. So we were on
4 Number 39, Photograph Number 39 and Number 40, which
5 we will show in a minute. They are both pictures of
6 the flip flops that you were told Michael Brown was
7 wearing, correct? Tell us was there anything of
8 evidentiary value that was lifted from those flip
9 flops?

10 **A** Well, I tested orange brown stain for
11 possible blood.

12 **Q** Is that what we are looking at here?

13 **A** For Q23, I tested reddish brown stain on
14 the outside left side, so yes.

15 **Q** (By Ms. Whirley) Everybody see that stain?

16 **A** And then I also, let me see. I also
17 swabbed the top of the sole area and the under side
18 of the strap, the white strap, for trace for who was
19 wearing. Again, like the hat, I didn't know who it
20 belonged to.

21 **Q** Okay. And this is Number 40. We see a
22 little speck on 40 too, did you test that also?

23 **A** I did. I tested, my notes one of four
24 small reddish brown stains.

25 **Q** Okay. And did you confirm it to be blood?

1 **A** The quantity was not sufficient so I
2 didn't confirm it. And then I also, like the other
3 flip flop I swabbed, I will show you, I swabbed the
4 sole area and then underneath the strap for trace.

5 **Q** And this is 41. This was submitted to
6 you, correct?

7 **A** Yes.

8 **Q** What did you do with this?

9 **A** Again, there was no one code as to who it
10 belonged to. To get a wear DNA, I just swabbed the
11 entire bracelet for trace DNA.

12 **Q** So that's a bracelet?

13 **A** Yes.

14 MS. ALIZADEH: And just to be clear
15 because we have two bracelets, this is the bracelet
16 that is rubber with yellow, white and black
17 coloring?

18 **A** I described it as black, yellow and white
19 rubber rainbow type.

20 **Q** (By Ms. Whirley) I'm sorry, go ahead.

21 **A** Type bracelet. Per the receipt, it was
22 recovered in front of 2964 Canfield.

23 **Q** It is identified as Q25, which is also in
24 your report identifying it, correct?

25 **A** Yes.

1 **Q** And on this one, which is Number 42,
2 that's this one is Q26, how do you describe that
3 one?

4 **A** I described it as a dark brown beaded
5 bracelet recovered from the front of 2964 Canfield.

6 **Q** Okay. Do you know what material that's
7 made of?

8 **A** Well, on my notes I put apparent wood.

9 **Q** Wood.

10 **A** I don't know for certain.

11 **Q** That is what it felt like, or looked like
12 to you?

13 **A** It looked like wooden beads.

14 **Q** Okay. And that was swabbed also?

15 **A** Yes.

16 MS. ALIZADEH: For trace?

17 **A** For trace.

18 MS. ALIZADEH: Neither bracelet had any
19 stains that were of apparent blood or anything that
20 you thought might be blood, right?

21 **A** They did not have any reddish brown stains
22 on them.

23 : Was this considered the
24 gold bracelet?

25 MS. WHIRLEY: Don't know.

1 : Okay.

2 . Were these his
3 bracelets, do we know that?

4 MS. WHIRLEY: We'll talk to the DNA person
5 to see if anything of evidentiary value came from
6 the swabbing because you really can't talk about
7 that, correct?

8 A No, I just swab and prepared all the
9 samples for DNA. The DNA analyst will be able to
10 answer those questions.

11 MS. WHIRLEY: The skin cells or anything
12 on it, yes.

13 Q (By Ms. Whirley) The last two photos are
14 43 and 44, and they are socks, correct?

15 A Yes.

16 Q We'll do 43 first.

17 A They are from the first report.

18 Q Okay. And from the first report, and
19 that's Q?

20 A It is Q3.

21 Q Q3.

22 A So those were Michael Brown's socks.

23 Q You were told they were his socks,
24 correct?

25 A Yes, it was indicated on the receipt that

1 they were his socks.

2 Q Okay. And you indicate that they had
3 reddish brown stains throughout, at least Q3 did?

4 A Right.

5 Q You have both of them as Q3, pair of
6 socks, got it. I see now. I just had to look. So
7 reddish brown stains, did you swab that for, or was
8 it --

9 A No, I just tested for blood.

10 Q Okay. And you confirmed blood?

11 A Yes.

12 MS. ALIZADEH: And this is Photograph 44.

13 And, , when you look at that, in this
14 area right here, did you mark with, is that your
15 marking of the area?

16 A Yes.

17 MS. ALIZADEH: Like with a Sharpie or
18 something?

19 A With a Sharpie. That's the area that I
20 tested.

21 MS. ALIZADEH: For blood?

22 A For blood.

23 MS. WHIRLEY: That's really all I have,
24 Kathi.

25 Q (By Ms. Alizadeh) So just in summary, can

1 you tell me of the items, of the items you tested,
2 you found apparent blood on the officer's pant leg,
3 correct? Did you test that stain on the officer's
4 pant leg?

5 **A** I tested the swabs, I didn't doubly test
6 it, so I tested the swabs that came from the crime
7 scene from the pant.

8 **Q** Okay. And did you determine that was
9 blood?

10 **A** Yes, they were blood.

11 **Q** And you didn't see any apparent blood on
12 the shirt of the officer, correct?

13 **A** Correct.

14 **Q** And then, you know, we've talked about the
15 shirt of Michael Brown, the pant and the socks all
16 had apparent blood on them, correct?

17 **A** Or confirmed blood, yes.

18 **Q** Or confirmed. I'm mixing my terms.
19 Apparent is when you're not you sure what it is, but
20 it looks like it?

21 **A** Right.

22 **Q** And then on the sandals, you didn't have
23 enough to confirm that it was blood; is that right?

24 **A** Yes.

25 **Q** And then what about the swab from the gun,

1 there were two swabs submitted from the gun. Did
2 you test those swabs?

3 **A** I tested that for blood. Yes, the swabs,
4 they were, they had reddish brown stains and black
5 stains on the swab. Since it had a reddish brown
6 stain, I tested it for blood. It was presumptively
7 positive for blood, but the quantity was not
8 sufficient for confirmatory testing. Again, I
9 didn't want to --

10 **Q** Destroy the sample?

11 **A** Yes.

12 **Q** Consume the sample?

13 **A** Yes.

14 **Q** That was presumptive positive for blood,
15 but you didn't do a confirmatory test and you
16 forwarded that to the DNA section, would that be
17 right?

18 **A** Yes.

19 **Q** And then what about the swabs from the
20 interior of the door of the police vehicle, did you
21 test those swabs?

22 **A** I tested, well, there were, there were
23 several. So you're saying that interior, I received
24 numerous swabs from the car. Do you mean in
25 general, or you want me to go through each one?

1 **Q** Well, I'm thinking in particular there
2 were photographs that were taken by that
3 there was reddish brown stain on the driver's side,
4 on the driver's door, on the inside of the door?

5 **A** Okay. So what I have is Q12 was a swab
6 with reddish brown stains from the driver rear
7 passenger exterior door.

8 **Q** Driver rear?

9 **A** Rear passenger exterior door, Ferguson PD
10 108.

11 **Q** That's the exterior. Do you have one for
12 the interior of that door?

13 **A** Yes. Swabs with reddish brown stains from
14 interior left front door handle.

15 **Q** Yes?

16 **A** Yes, I confirmed blood on those.

17 **Q** So that was confirmed blood?

18 **A** Yes.

19 **Q** Let's go back. You talked about the swab
20 that you received that was from the exterior rear
21 driver's door.

22 **A** Yes.

23 **Q** And I recall we had a photograph that was
24 taken by that had a reddish brown spatter
25 perhaps, I don't know what you might call it, but if

1 that is the swab that you tested, what did you
2 determine about that?

3 **A** I determined that it was blood of probable
4 human origin.

5 **Q** Is that a presumptive test or is that a
6 confirmatory test?

7 **A** It is confirmatory for blood, but it is
8 presumptive for the species just because there has
9 been reporting of some upper primates and ferrets
10 producing the same result. So we say probable human
11 origin for that.

12 And since it was on the exterior of
13 the car, that's why I wanted to do that to test or
14 give a possible species result just because it was
15 outside the car.

16 **Q** So it is conclusive for blood on the
17 outside of the door, conclusive for the blood on the
18 inside of the door, conclusive or presumptive for
19 blood on the gun?

20 **A** Yes.

21 **Q** And then conclusive for blood on the swabs
22 that were on the pant leg for the stain on the pant
23 leg, correct?

24 **A** Yes.

25 **Q** And then Mike Brown's clothes you have

1 already testified about that.

2 Did you do any blood, did you test
3 for blood on the apparent skin or hardened nasal
4 mucus? I know you said you took a sample from that
5 to forward to the DNA section, did you test it for
6 blood?

7 **A** I did. I confirmed it for blood and also
8 for presumptive species for that was positive.

9 **Q** And that was on the outside of the car as
10 well?

11 **A** Yes.

12 **Q** And all of these things that tested
13 positive for blood were forwarded to the DNA lab,
14 the DNA section, correct?

15 **A** Not every item, but the probative items I
16 confirmed blood on, such as Michael Brown's
17 clothing, those samples weren't forwarded. I can go
18 through each of the items that I did forward, I have
19 a sheet.

20 **Q** Well, if I asked you the skin/nasal mucus,
21 that actually a sample got forwarded to the DNA
22 section, correct?

23 **A** Yes.

24 **Q** And then what about the reddish, the blood
25 that you determined on the outside of the driver's

1 door, did that go to DNA?

2 **A** Yes.

3 **Q** The blood that you confirmed on the inside
4 of the driver's door, that went to DNA?

5 **A** Yes.

6 **Q** And then the blood that was on the,
7 swabbed from the officer's pant leg?

8 **A** Yes.

9 **Q** That went to DNA, correct?

10 **A** Yes.

11 **Q** And then the, now, you said that you could
12 not do a confirmatory test on what you detected was
13 presumptive positive for blood on the gun swabs, but
14 you forwarded those swabs to the DNA section,
15 correct?

16 **A** Yes.

17 **Q** And then you've already testified about
18 the swabs, places you swabbed for trace evidence.
19 On the officer's shirt that was forwarded to the DNA
20 section, correct?

21 **A** Yes.

22 **Q** On the officer's pants?

23 **A** Yes.

24 **Q** And the pants and shirt of Michael Brown,
25 did you forward those, the trace swabs?

1 **A** Yes.

2 MS. ALIZADEH: All right. Checking my
3 bases. All right, thanks, nothing else.

4 MS. WHIRLEY: , did you have a
5 question?

6 . When you
7 get through swabbing, does it automatically go
8 directly to the DNA or someone comes behind you, is
9 there another step between you and the DNA testing?

10 **A** No. Once I would do any testing that I
11 need to do, then I also sample it and prepare the
12 sample for DNA, and then it will be put into a
13 refrigerator until the DNA analyst takes it.

14 MS. WHIRLEY: Anyone else, questions?
15 ? No?

16 MS. ALIZADEH: Thank you. That concludes
17 the testimony.

18 (End of the testimony of
19

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 BY MS. WHIRLEY:

9 Q Good afternoon. If you could introduce
10 yourself to the grand jurors and spell your name for
11 the court reporter, please?

12 A My name is . That's
13 .

14 Q What's your occupation?

15 A DNA technical leader with the St. Louis
16 County Police Department Crime Laboratory.

17 Q What do you do generally?

18 A Generally, I perform the duties of a DNA
19 analyst. So that involves processing evidence
20 submitted to the lab for DNA testing. As the DNA
21 technical leader, I have additional
22 responsibilities, primarily to insure that our DNA
23 section maintains compliance with the FBI quality
24 assurance standards that are required for DNA
25 testing laboratories.

1 **Q** Are employed with the St. Louis County
2 Police Department; is that correct?

3 **A** That's correct.

4 **Q** And how long have you been employed with
5 them?

6 **A** It will be four years in February.

7 **Q** Did you do any other scientific work
8 before?

9 **A** Yes, previous to my work with St. Louis
10 County, I was a biologist and a DNA analyst with the
11 St. Louis Metropolitan Police Department Crime
12 Laboratory for just over six years.

13 **Q** You have a total of what, is it ten years
14 or more?

15 **A** Approximately, yes.

16 **Q** What type of work, tell us about your
17 education?

18 **A** I have a bachelor's degree in biology, as
19 well as a bachelor's degree in anthropology from the
20 University of Missouri-Columbia. And then I have a
21 master's degree in biology from Washington
22 University.

23 **Q** Okay. And we also have a copy of your CV
24 that you provided for us. We have it marked as
25 State's Exhibit, I'm sorry, Grand Jury Exhibit

1 Number 72.

2 (Grand Jury Exhibit Number 72
3 marked for identification.)

4 Q (By Ms. Whirley) That kind of outlines all
5 of your credits and education and training. So we
6 don't have to spend a lot of time talking about
7 that.

8 A Okay.

9 Q At least at this stage. Now,
10 approximately how many DNA cases have you worked?

11 A Approximately 1,400.

12 Q Okay. Can you tell us, a case comes to
13 you, how does it start for you, a case?

14 A Sure. Generally evidence is collected
15 from a scene or from a hospital or from other
16 medical examiner's office, et cetera. That evidence
17 is submitted to the laboratory and a biologist or
18 biological screener obtains that evidence from the
19 vault, they process it for whatever bodily fluids or
20 potential DNA may be there.

21 They perform their testing and they
22 collect samples from the various areas of the items
23 and then they forward that on to DNA, which is where
24 I come in.

25 Q They forward that to you?

1 **A** Correct.

2 **Q** You are one of the DNA analyst.

3 **A** Correct.

4 **Q** How is it determined who is going to get
5 the case?

6 **A** It's generally just availability, so
7 whoever the next available person is will take the
8 case.

9 **Q** And I want to get a little bit more
10 general information out there, but before I go to
11 ask those questions, I do want to specifically state
12 that you worked the Michael Brown shooting case; is
13 that correct?

14 **A** Yes.

15 **Q** And did you work this one in an
16 expeditious fashion or any different than any other
17 case?

18 **A** It was worked just like any other case,
19 but it was worked, I guess, as a priority.

20 **Q** Okay. Priority is a better way to put it.
21 Why, do you know why it was made a priority?

22 **A** Due to the sensitive nature of the case.

23 **Q** Within the United States, all the
24 information that's coming out, we are trying to get
25 this completed, right?

1 **A** Yes.

2 **Q** Or you were trying to get it completed?

3 **A** Correct.

4 **Q** I think you kind of told us what your
5 responsibilities at the crime lab are, correct? Is
6 there anything else you wanted to add to that?

7 **A** Not that I can think of.

8 **Q** Okay. And what is DNA, we are going to
9 play a little film, is this a good time do it?

10 **A** Yeah, that would be great.

11 **Q** You provided us with a CD. I'm going to
12 keep talking as I get set up.

13 You provided us with a CD on, I guess
14 a little animated feature regarding DNA section?

15 **A** Yes.

16 **Q** This film, you put it together for us; is
17 that correct?

18 **A** Yes.

19 **Q** To kind of give us a little illustration
20 of what DNA is and how it works. So that might be
21 helpful and kind of break up the afternoon. So let
22 me get it started here. Can you see all right from
23 where you are or do you want to stand up?

24 **A** I think I can see all right. I can stand
25 up if need be.

1 **Q** All right.

2 MS. ALIZADEH: You might be able to
3 advance by doing that.

4 **Q** (By Ms. Whirley) Tell us that first slide.
5 That first slide, DNA processing, talk to us about
6 it and then indicate to Kathi when she should go to
7 the next slide.

8 **A** Sure. So if at any point you all have
9 questions, feel free to interrupt me. If I start
10 talking too fast or anything.

11 So this first slide is giving a
12 little bit of background information on what
13 forensic DNA testing is and the type we perform in
14 our laboratory. We do what is called nuclear DNA
15 testing. That just means that we're looking at DNA
16 that's in the nucleus of a cell.

17 So if you think of an egg, would be
18 like the egg yoke. That's where the nucleus is.

19 And more specifically the technology
20 that we use is called short tandem repeat or STR.
21 Basically the thing to take away is that we are not
22 sequencing genomes here, we are not able to
23 determine if there's genetic diseases or any sort of
24 information like that.

25 We're actually looking at areas of

1 the DNA that are, what we call junk DNA. So they're
2 just sequences that are scattered throughout the
3 genome that differ from person to person, but they
4 don't have any known function, so they are not
5 genes.

6 **Q** All right. So next slide?

7 **A** So here is a little graphic of DNA. It is
8 basically a chemical blueprint of your body. We get
9 half of our DNA from our mother and half from our
10 father. It varies from person to person and it is
11 found in almost all cells in the human body. So
12 again, I mention the nucleus. Any cell that has a
13 nucleus is going to contain nuclear DNA. Next.

14 This is just a little slide on what
15 exactly I mean by short tandem repeat. Essentially,
16 you have a little segment that is usually by four
17 base pairs long that repeats over and over again.
18 And so in forensics, what we do is actually
19 determine how many times that little unit repeats.

20 So you can see here there is an
21 illustration of that. You can see there is seven
22 repeats there on the top and eight on the bottom.

23 I also mentioned that we get half of
24 our DNA from our mother and half from our father.
25 So for all of your chromosomes you basically have a

1 pair of each chromosome, so one from mom and one
2 from dad. So in this illustration, perhaps the
3 seven repeats came from mom and the eight repeats
4 came from dad. So that's essentially what STR
5 technology is.

6 The way that we're able to actually
7 obtain the DNA profile is something called
8 polymerase chain reaction, basically it is just a
9 fancy word for copying for amplification. We are
10 able to target specific areas on the DNA and amplify
11 millions of copies of those so that it can be
12 detected by an instrument. So again, we are not
13 sequencing genomes, we are just looking at very
14 specific points on the DNA.

15 Just another thing that's important
16 to note. I know on CSI and shows like that they
17 sort of just get a profile and they magically know
18 who it is, but in reality it is just like
19 fingerprints where you have to have reference DNA
20 from an individual to obtain what their profile is
21 to compare it to the case.

22 Q (By Ms. Whirley) So when you say
23 reference, you are talking about some known sample?

24 A Yes.

25 Q So if you take my blood or my buccal swab

1 and you are comparing it, I'm the reference sample?

2 **A** That's correct.

3 **Q** Not just some unknown entity out there?

4 **A** Right.

5 **Q** And then when you talked about the
6 copying.

7 **A** Yes.

8 **Q** Is that what allows you to get a DNA
9 sample from something as minute as a little blood
10 stain?

11 **A** That's correct, yes. With older
12 technologies like RFLP that's mentioned on the
13 slide, you needed a blood stain about the size of a
14 quarter. Whereas now with PCR you can get DNA
15 profile from a tiny speck of blood or even
16 potentially skin cells left behind from someone
17 grasping an object.

18 **Q** So sometimes when the police aren't able
19 to get a fingerprint sample, they may, latent print,
20 you may be able to find with DNA?

21 **A** Sure.

22 **Q** Or DNA sample or profile, rather, of
23 someone?

24 **A** Yes.

25 **Q** Okay.

1 **A** And it is also important to note at all
2 stages we have controls that are run along with the
3 samples, both positive and negative controls, just
4 to make sure that all the reagents are free of
5 contamination and that the analyst isn't introducing
6 any contamination.

7 **Q** That raises another question. What do you
8 do to make sure your own DNA isn't getting into
9 sloughing or flaking off into things that you are
10 testing?

11 **A** Yes, there is couple things that we do.
12 We wear protective equipment, so lab coats, masks,
13 gloves, we change gloves in between samples, we use
14 all of the consumables, et cetera, are one-time use.
15 We don't reuse any of the plastics.

16 The second thing is we actually have
17 all of our DNA profiles in a local database. So
18 every sample that we run, we crosscheck it against
19 all of the individuals in the laboratory to insure
20 that we are not being detected in the sample.

21 MS. ALIZADEH: I have a question. Talking
22 about the copying or amplification, I know in some
23 cases I've had where the report will say that there
24 wasn't a sufficient amount of DNA to obtain a
25 profile. Why can't you just, can't you just copy it

1 over and over again until you can get a big enough
2 thing to test?

3 **A** Yes. So when you see that sometimes in
4 our record, we do actually amplify all samples, even
5 if the, well, I guess there's a step before it
6 called quantitation, where we estimate how much DNA
7 is there. Some labs stop at the quantitation step,
8 if there is no DNA indicated in the samples. We go
9 ahead and carry it through and amplify everything.

10 So when that sentence appears in the
11 report, it just indicates that basically the result
12 that we got, there was just not information there to
13 do a comparison. We weren't able to amplify enough
14 to get a result.

15 MS. ALIZADEH: Is it possible that you
16 wouldn't have any DNA in that sample?

17 **A** It is possible, yes.

18 MS. ALIZADEH: So when you say you amplify
19 it, it undergoes a process whether you know there's
20 DNA there or not?

21 **A** Correct. We go ahead and amplify all the
22 samples.

23 MS. ALIZADEH: Okay.

24 **A** Yes. I think that's all for this slide.

25 And so this is sort of a little bit

1 technical here. This just goes through the various
2 steps. You can see the first step shows a biologist
3 with an alternate light source. Typically that's
4 used to look for semen or potentially saliva stains.
5 We don't usually use this to look for blood. You
6 probably see that on CSI though.

7 So after the biologist prepares
8 everything, the next step in DNA is called
9 extraction. Basically all that's doing is purifying
10 the DNA. The cells have a lot of proteins and other
11 debris that we're not interested in. So the
12 extraction part gives us a clean DNA sample.

13 Quantitation is the next step. I
14 just mentioned that a minute ago. Again, we are
15 trying to estimate how much DNA is there. This is
16 important because we have a target range that we're
17 trying to get to. We have a target number of copies
18 we want to get to.

19 If we have, for example, a blood
20 stain that has a lot of DNA in it, we might,
21 basically, we need to use less of that to get to
22 that target amount. Whereas if we have a swab of a
23 steering wheel where maybe there is just skin cells,
24 we probably need to amp a little bit more of that.
25 So that step just lets us know how much to load into

1 our amplification.

2 **Q** (By Ms. Whirley) What is this target, did
3 you say target number?

4 **A** Yes.

5 **Q** Where does that come from?

6 **A** Typically it is based on validation
7 studies. There is something called developmental
8 validation and then there's also internal
9 validation. So internal validation is what I'm
10 responsible for, any time we're bringing in new
11 technology online. That number is determined during
12 that process.

13 **Q** Is this part of the accreditation that you
14 determined, I mean, who determines what the number
15 should be is I guess what I'm trying to figure out?

16 **A** In our case, it would be me, since I'm the
17 one performing the validation. So I look at data
18 that's available in the community from the
19 developmental validation, which is typically done by
20 the manufacturer. And then we do additional testing
21 to make sure that it works in our hands just like it
22 does in the manufacturer's laboratory.

23 **Q** Okay.

24 **A** So you can see pictures of the instruments
25 there. Number 4, the yellow, that's the thermal

1 cyclor. And that's what does the copying.
2 Basically it is just a heat clock, it heats and
3 cools the sample for certain amount of time and
4 certain temperatures. And it allows the DNA to be
5 copied.

6 And then the last step, the green,
7 that's called the CE, capillary electrophoresis.
8 Basically it's just a fancy term for the instrument
9 that actually gives us the DNA profile. So it's
10 able to separate out those copy fragments by size.

11 And then also during the copying step
12 there were fluorescent tags that were added. So
13 that's what the instrument is actually seeing are
14 those fluorescent tags. So it is able to give us a
15 DNA profile tag.

16 This is what a profile actually looks
17 like. You can see there is green boxes above the
18 peaks. Basically that is just the name of the
19 location on the DNA that we're looking at. It is
20 too small to read, but let's say D3, for example,
21 that just means it is on the third chromosome.

22 The other thing to note here, there
23 is either one or two peaks under each of those
24 spots. And that just goes back to what I was
25 mentioning earlier about you getting half of your

1 DNA from your mother and half from your father.

2 So that is how we are able to do
3 paternity testing as well. If you have reference
4 standards from the parents and the children, you can
5 look location by location to see if those parents
6 contributed the DNA to the child.

7 Q At the bottom it says every person has a
8 unique DNA profile except for identical twins?

9 A That's correct, yes. Everyone on earth
10 has unique forensic DNA profile except for identical
11 twins.

12 Q Okay.

13 A And then the numbers under each peak,
14 that's just how many times it's repeating. Some of
15 them say 15, 16, that's what we call the genome
16 type, that set of numbers, and that is what we
17 compare to the reference standards.

18 This is just a slide on touch DNA. I
19 mentioned it briefly earlier. Touch DNA is also
20 called trace DNA. Essentially, that's just when we
21 are trying to obtain DNA left behind by contact with
22 an object.

23 So a steering wheel swab, for
24 example, the handle of a knife, let's say that was
25 used in an assault, swab of sunglasses, earrings,

1 there is all sorts of things that we can attempt to
2 get touch DNA on.

3 There is a lot of factors that go
4 into whether or not we can actually get a profile
5 from that. The length of time that the contact was
6 actually made can be a determining factor. The
7 biology of the individual. Some people shed a lot
8 of DNA, some people don't, and there is no way to
9 predict that.

10 If the individual is sweating and
11 really worked up, then they are more likely to leave
12 larger amounts of DNA behind. And also the surface
13 of the item that's being contacted, so typically it
14 is kind of like the opposite of a fingerprint. This
15 might be a smooth surface, it might be great for
16 fingerprints, but not as good for DNA. And that's
17 really just a twofold thing.

18 Essentially, when you have something
19 like fabric, there is more friction that's going to
20 be pulling cells off. And then there's also more
21 places for the cells to kind of cling to and
22 maintain and stay in there.

23 **Q** With the touch DNA, someone's DNA profile
24 may be on an item, but can you say whether it is
25 saliva, skin cells, I mean, can you speak exactly to

1 what that bodily item is or not?

2 **A** No. Forensic DNA profile is going to be
3 the same throughout your body. So whether it's from
4 blood or semen or skin cells, the DNA profile that I
5 showed you a minute ago is going to look exactly the
6 same.

7 So screening test can kind of, I
8 guess, illustrate, or maybe point to a probable
9 source of the DNA, but the DNA profile itself will
10 not indicate that.

11 **Q** You can say this is the profile?

12 **A** Yes.

13 **Q** But you can't say what the actual bodily
14 fluid was?

15 **A** Correct.

16 **Q** Okay.

17 **A** We'll have to kind of press through these.

18 **Q** These are just like pictures for us?

19 **A** These are just some limitations, we just
20 talked about one, but DNA, again, that profile is
21 not going to tell us when it was deposited. The
22 next one.

23 MS. ALIZADEH: Let me back up, I have a
24 question.

25 **A** Sure.

1 MS. ALIZADEH: And it probably is not
2 particularly relevant in this case. The DNA
3 degrades, so like you said, you can't tell when it
4 was deposited, you know, we see on TV where they
5 will dig up, exhume a body that's been buried for
6 100 years they will do DNA on it. Is there any way
7 to tell if the DNA is recent or fresh DNA, as
8 opposed to something that's been degrading over
9 time?

10 A Well, there's certain things in the
11 profile where you can tell if the sample has been
12 degraded, but there is nothing to indicate
13 specifically how long something has been degrading
14 for or how long it has been in the ground or
15 anything to that effect.

16 Domestic incidents. So let's say,
17 for example, husband and wife living together, wife
18 stabs husband with a steak knife. Let's say we find
19 her DNA on the handle, that's great, but since she
20 lives in the house and handles the knife all the
21 time, maybe she just ate a steak the hour before.
22 So DNA is less useful in situations like that.

23 Intent. So this typically has to do
24 with sexual assault cases. Again, DNA profile is
25 not going to tell us whether the sex was consensual

1 or whether it was a rape. We simply obtain a
2 profile or we don't, that's all.

3 We just talked about this a little
4 bit. We can't determine what fluid the DNA profile
5 is from definitively.

6 MS. ALIZADEH: You use the word fluid, you
7 can get DNA from skin cells, correct?

8 **A** Correct. And then as we mentioned
9 earlier, identical twins will have the same profile.

10 MS. ALIZADEH: What are those little
11 things in the middle there?

12 **A** Those are angry sperm. That has to do
13 with the consensual sex or not. I always say it
14 would be great if they looked like that under the
15 microscope, but they don't.

16 And then as Kathi just touched on,
17 DNA can be degraded by environmental conditions,
18 chemicals, like bleach.

19 So in this case there was some DNA
20 mixture obtained. I just wanted to touch briefly on
21 what that is exactly. You can go ahead and hit the
22 forward.

23 Mixture is just where we have DNA
24 from more than one individual on an item. Sometimes
25 we have so many people on an item that we are not

1 able to discern any particular profile and we're not
2 able to make any useful comparisons or inclusions.

3 And then other times we have cases
4 where maybe there's a large amount of DNA from one
5 contributor, but the other people on the sample are
6 not contributing very much. So we might be able to
7 get a great result for the person who is donating a
8 lot of DNA, but the minor contributors, as we call
9 it, might be inconclusive because there is not
10 enough there.

11 **Q** (By Ms. Whirley) If the minor person or
12 the minor profile is too little to tell, you know,
13 it is not a full profile, do you include or make any
14 determinations whether or not that person can be
15 included or excluded?

16 **A** So it depends on, well, let me back up.
17 The first thing that we do is when we get the DNA
18 profile back, we actually perform our interpretation
19 prior to looking at any reference standards. So we
20 go location by location and look to see is the
21 profile complete enough to be a comparison. And if
22 so, what locations do we feel fully represent the
23 DNA samples, so which location are conclusive.

24 So after marking all of that out and
25 making all of our interpretations, then we go and do

1 the comparison.

2 So if we ran into a situation where
3 a, let's say there's a minor contributor, but there
4 is just not a lot of DNA from them, but the peaks
5 that are there perhaps are consistent with a
6 reference standard that we are looking at. Again,
7 if the data is not of sufficient quality, then we
8 would say it is inconclusive and we can't determine
9 if they're there or not.

10 If those peaks simply don't match
11 that person, then we would do what's called an
12 exclusion, and we would indicate that they're
13 excluded from that sample.

14 You know
15 when we are born and take our footprints and
16 fingerprints, do you ever have to go like back to
17 the hospital and look up birth records or anything
18 like that sometimes to determine?

19 **A** No, we actually don't have access to that
20 kind of materials.

21 MS. ALIZADEH: I have a question. ,
22 of course, testified before you about areas of a
23 shirt that she swabbed and chose not to swab for
24 trace DNA. And she testified about the bloody areas
25 on a shirt and that she didn't swab those areas for

1 trace DNA. She said something about the DNA section
2 from the blood would overwhelm the trace. So can
3 you explain what that means?

4 **A** Yes, so that exactly what we're talking
5 about we are talking about here. If here's a huge
6 amount of DNA from one person, essentially, that's
7 going to do what we call preferential amplification.
8 It just means that's going to be copied much more
9 than the person that left the tiny bit of DNA.

10 So if there is not enough there, it
11 is not going to amplify up, so we might not be able
12 to make a conclusive determination about that
13 person.

14 So I know we all have post-lunch food
15 coma, but it is getting a little technical here, but
16 this is just an illustration or what it actually
17 looks like when we say major contributor.

18 So you can see there is numbers, 10,
19 11, 13, 16, 17, et cetera, you can see how some of
20 those peaks are very distinctly higher above the
21 rest of the peaks. So that's what we are talking
22 about when we say major contributor. So the 10 and
23 the 16 in the first location, the 11, 13, 17, those
24 would be what we call minor contributor.

25 MS. ALIZADEH: And you mean those little

1 tiny peaks.

2 **A** Yeah, those little tiny down at the
3 bottom, correct. So, again, typically our
4 separation is about four to one, that's where we
5 would determine there is a major contributor. So
6 when those peaks are four times higher than the
7 people down in the graph.

8 And then we can also have a major
9 mixture where there is two people that are
10 contributing a lot of DNA and then there might be
11 just a couple tiny trace peaks from another
12 individual.

13 So everywhere you see the red M in
14 those boxes, that's what is being called the major
15 mixture. So the majority of the DNA is being
16 contributed by those two individuals.

17 So we can sort of treat that like a
18 separate mixture from the stuff that's down in the
19 graph.

20 MS. ALIZADEH: And I recall from your
21 report, which I know we haven't passed out yet,
22 there is places where you talk about a mixture of at
23 least two people or a mixture of, so is it possible
24 then when you say that it could be a mixture of more
25 than two people?

1 **A** Correct.

2 MS. ALIZADEH: You're not able to say it
3 is six people?

4 **A** Correct.

5 MS. ALIZADEH: Okay.

6 **A** Yes, in that scenario the report wording
7 will say, there was a major mixture component of two
8 individuals detected and then it will say an
9 additional allele indicated a possible trace
10 contributor or something to that effect.

11 **Q** (By Ms. Whirley) So when it says that,
12 that means that there is another profile there, but
13 you just don't have enough?

14 **A** Correct. From the trace individual, yes.

15 **Q** Okay.

16 **A** When we do our comparison and we find a
17 probative match, probative just means something
18 that's important to the context of the case. So it
19 can perhaps disprove or prove key statements, et
20 cetera.

21 We do a statistical measure of that
22 to give weight to that evidence or to that match so
23 the jury can determine is this a really good match,
24 a really strong match or is it just so-so.

25 There is two statistical models that

1 were used in this case. The first is called the
2 RMP, random match probability. Essentially, what
3 that's saying is it's looking at a single source
4 profile, so from one individual, and it is saying
5 how rare is that profile. How often would we expect
6 to encounter it in the general unrelated population.

7 If that profile reaches a certain
8 threshold of rarity, we are able to conclude that
9 the profile came from an individual that's listed in
10 the case if they match. So we can say this profile
11 is unique and it matches this particular individual.

12 The second statistic is used for
13 mixtures, so you just need a slightly different
14 model when you are dealing with a mixture versus a
15 single source sample. So the particular statistic
16 that was used is called a likelihood ratio.

17 Again, this is used when you can
18 determine the number of contributors. So earlier I
19 said a major mixture of two individuals. That would
20 be a case where you could use the likelihood ratio.
21 You can go ahead and forward it. I'll get a little
22 bit more information on that in a minute.

23 This is just a slide, again, on
24 random match probability. So, again, the way that
25 we are able to determine how rare a profile is in

1 the population, we do what are called population
2 studies.

3 So, essentially, a sample is taken
4 from the population of the United States in our
5 case, and they look to see how often are certain
6 genome types detected, how often are certain alleles
7 detected.

8 So think of it as a parking lot where
9 you are looking to see how rare or common a certain
10 car is. So if you have a parking lot, it is your
11 driveway, you have only two cars in there, it is
12 probably not enough, not a large enough sample size
13 to say, okay, this is a rare car or not. It is only
14 two, but if you compare that to, let's say, a
15 parking lot at Busch Stadium, where you have
16 hundreds of thousands of cars, you can probably
17 determine, okay, I see 50 Toyota Camrys and et
18 cetera.

19 So you can determine approximately
20 how rare or common a particular allele is. So
21 that's what the statistics are based on are these
22 population data basis.

23 The more locations that we use, the
24 more discrimination the profile is, that is the
25 better able we are to differentiate one profile from

1 another.

2 So this is just a little bit more
3 information. This is what I was saying about when
4 it reaches a certain threshold of rarity, then we
5 can conclude that there was a common source. So the
6 evidence stain matches the suspect, for example.

7 Very often you will see in the media
8 where you read newspaper accounts of trials and
9 things, they will very often say that the, they will
10 quote the statistic as being the chance someone else
11 committed the crime. That's called the prosecutors'
12 policy, there is actually a name for it because it
13 happens a lot, but that's not what we are looking at
14 here. No offense. They don't do that, they're
15 good. Again, we are just looking at the rarity of
16 profile. It has nothing to do with the context of
17 the case or, you know, anything to do with innocence
18 or guilt.

19 And there's also a defense attorney
20 fallacy, and that assumption is everybody else with
21 the same profile has an equal chance committing the
22 crime. DNA statistics have nothing to do with
23 access to the scene or any of those factors.

24 Go ahead. We pointed this out
25 earlier, but DNA testing and testimony will not

1 indicate how a stain was deposited. Again, we're
2 just looking to inform the jury as to the likelihood
3 that the DNA from a crime scene sample matches that
4 of a particular individual.

5 This is a little bit on the
6 likelihood ratio, that's the stat we used when we
7 have mixture. Basically it is just a mathematical
8 way of saying how much particular hypothesis
9 explains the evidence.

10 So let's say in a rape case, for
11 example, one hypothesis might be that victim and
12 suspect explain the mixture. And the defense might
13 say, well, I agree the victim is there, it is a
14 vaginal swab, let's say, but that's not my guy. It
15 is some random guy.

16 So the defense hypothesis would be
17 the mixture is explained by the victim and some
18 unknown guy. So, essentially, we perform a
19 statistic that just weighs those two options and
20 determines which one is more likely.

21 And this is just a verbal equivalent
22 of what that number means. So if you have a
23 likelihood ratio of one to ten, it is limited
24 support for that hypothesis. 10 to 100 is moderate
25 support, on and on. Anything over 10,000 is very

1 strong evidence is to support that hypothesis.

2 This is just a real quick summary of
3 what we do. Obviously, we interpret the profiles
4 first, then we compare it to any reference
5 standards. If there's a probative inclusion, we
6 give statistical weight. We complete the report and
7 then we submit it to technical administrative
8 review.

9 So there's a second qualified analyst
10 that's required to review everything in the report.
11 All the processing documentation, just to make sure
12 that they agree with the assumptions and everything
13 that was done.

14 MS. ALIZADEH: I have a question about
15 that because testified about there being a
16 technical review. Does the reviewer run the same
17 test as you to see if they are getting the same
18 result, or they just looking at your work to see
19 that it was done correctly?

20 **A** They look at my work to make sure that it
21 was done correctly.

22 MS. ALIZADEH: Okay.

23 **A** I don't know, we can leave this up while
24 we're talking. This is just a summary of the
25 evidence that I tested from the first report and

1 then the next slide is the second report. I don't
2 know if you can even read that, but it is a summary.

3 MS. ALIZADEH: I can pass out --

4 MS. WHIRLEY: That report is Grand Jury
5 Exhibit Number, the first one is Number 73.

6 (Grand Jury Exhibit Number 73
7 marked for identification.)

8 MS. WHIRLEY: That's Q1, I think bottom
9 K2, I will have you explain what those symbols mean.

10 **A** Okay.

11 MS. WHIRLEY: Grand Jury Exhibit Number
12 74, that's a supplemental report to the first one.

13 (Grand Jury Exhibit Number 74
14 marked for identification.)

15 **Q** (By Ms. Whirley) So basically you get the
16 items, for example, the person that was here earlier
17 who did the screening for DNA, she didn't do any
18 analysis, she just checked the swabs, did a report,
19 forwarded it to your DNA section?

20 **A** Yes.

21 **Q** And then what do you do?

22 **A** Um, so I go through the process that we
23 outlined earlier where I process the sample, I
24 obtain a DNA profile, I perform my interpretations
25 and then I perform my comparisons.

1 **Q** Okay. So we're passing out the reports
2 that you prepared, these are reports that you
3 prepared, correct?

4 **A** Yes.

5 **Q** And tell us what the Q1 and the K1 and 2,
6 what does that mean?

7 **A** Sure. That's the item designation that's
8 given in the laboratory. So that would be what
9 designated it as.

10 If you look on the first page of my
11 report, there's in parentheses after each item, it
12 says Item Number, for example, Q1-1. At the end it
13 says Item Number 3 and that's referencing crime
14 scene designation.

15 **Q** Okay. And on her report, I don't have it
16 in front of me, let me look and see. Like when she
17 does, I have it, thank you though. Her report where
18 it says Q1 specimen, now yours says us Q1-1. Tell
19 us about that, what's the difference?

20 **A** Yes. So any time an item is separated or
21 a sample is taken from an item, it gets a new item
22 number to distinguish it. So Q1 would have been the
23 T-shirt and then Q1-1 just means that she took a
24 sample from that item.

25 **Q** Okay. And what is the K1 and K2?

1 **A** The reference standards are given K
2 designations for known. So in this case PO Wilson
3 is K1 and Michael Brown K2.

4 **Q** You actually have their DNA sample?

5 **A** Yes.

6 **Q** Buccal swab for the officer and blood for
7 Michael Brown?

8 **A** Correct.

9 **Q** All right. And as I mentioned with the
10 lab biology person was here. On your report it also
11 has victim suspect. That's not anything that you
12 made a determination of; is that correct?

13 **A** That's correct.

14 **Q** How does that get that designation?

15 **A** We process it as it was submitted by the
16 investigating agency.

17 **Q** So it comes to you from the police victim
18 suspect?

19 **A** (Nods head.)

20 **Q** All right. Looking through items examined
21 is on the Elmo, in addition to what we are looking
22 at, they are the same thing, correct?

23 **A** Yes.

24 **Q** Okay. What items did you do analysis on
25 that were of an evidentiary value? And when I say

1 evidentiary value, do you know what I mean?

2 **A** Yes.

3 **Q** What do I mean?

4 **A** To me it means probative value. So
5 potentially proving or disproving statements or just
6 anything to be potentially probative.

7 **Q** That's exactly what I mean. What did you
8 analyze that was of evidentiary value?

9 **A** Well, I can list the items that I list
10 statistical calculation on.

11 **Q** Okay.

12 **A** Um, so Q5 was the palm of Michael Brown's
13 left hand, swabs from his palm.

14 **Q** What did you observe, tell us about your
15 analysis about his palm and Q5, it would be on the
16 second page of your first, of your three page
17 report?

18 **A** Yes.

19 **Q** Marked Grand Jury 73, and it is the palm
20 of Michael Brown's left hand?

21 **A** Yes.

22 **Q** And RBS means what?

23 **A** Red brown stain, something that would have
24 tested either presumptively or confirmatory in
25 biology for blood.

1 **Q** What was your conclusion about that?

2 **A** The DNA typing results obtained from Q5
3 are consistent with being a mixture of two or more
4 individuals. This profile can be separated into a
5 major component profile consistent with Michael
6 Brown and a minor contributor.

7 There was an additional allele that
8 indicates a possible trace contributor, but again,
9 that was inconclusive.

10 PO Wilson is included possibility
11 minor contributor profile. So then the next
12 sentence is the likelihood ratio where it is giving
13 weight to that statement. The observed mixture
14 profile is 98 times more likely if it originated
15 from Michael Brown and PO Wilson than it originated
16 from Michael Brown and an unknown individual in the
17 general unrelated population.

18 **Q** And that's kind of, I don't want to say
19 confusing, when you say 98 times more if it
20 originated from Michael Brown and PO Wilson. So you
21 are not confirming that it did originate from those
22 two?

23 **A** Correct.

24 **Q** Okay. So how is it probative of anything?

25 **A** Um, so in this case generally with any

1 case when you have DNA from a particular individual
2 and another individual, then it's potentially
3 probative. So if there were accounts that there was
4 a struggle and we find DNA from individual A on
5 individual B, then it's probative.

6 **Q** Okay. We know it is Michael Brown,
7 correct, as the major contributor?

8 **A** Yes.

9 **Q** And are you saying that it's more likely
10 that it is PO Wilson is the minor contributor?

11 **A** That's correct, then if it were an unknown
12 person in the general population.

13 MS. WHIRLEY: You all have questions on
14 that? Okay, all right.

15 What else do you have?

16 **A** So moving down. Q11, this was tissue from
17 the driver front exterior door.

18 **Q** Okay.

19 **A** There is several items in this particular
20 sentence. You want me to list those out before I
21 read that?

22 **Q** Yeah, that is on page two of three. Okay,
23 go ahead.

24 **A** Yes, it is about the third paragraph from
25 the bottom. So Q11 was the apparent tissue from the

1 vehicle. Q12 was the driver rear passenger exterior
2 door of vehicle 108, that would have been PO
3 Wilson's vehicle.

4 Q13 and Q14 are reddish brown stains
5 from the roadway in front of 2943 Canfield.

6 Q Okay.

7 A So all of those items Michael Brown is the
8 source of those, of the profile obtained from those
9 items.

10 Q Did you do any numbers on that one?

11 A Yes, I have the actual statistic is listed
12 farther back in the DNA report. Would you like me
13 to read that?

14 Q Yeah, if you would.

15 A This would be in the larger stack of
16 things that we made copies of.

17 Q Okay.

18 MS. ALIZADEH: , is it on the third
19 page of your report where it says conclusion based
20 on the calculated frequency?

21 A That's an informational statement that
22 says what the threshold is, but the actual number is
23 back in this report, which is what I'm looking for
24 here.

25 MS. ALIZADEH: All right.

1 **A** So I mention earlier that we have,
2 basically these databases are based on samples of
3 the population. So the database that we use has
4 four ethnic groups; Caucasian, black, Hispanic and
5 Asian. So there is four numbers that you will see
6 in this report. This is on page 42 of the notes.

7 **Q** (By Ms. Whirley) They don't have those.

8 **A** Okay. So, let's see. So this would be a
9 rarity of 1 in 36 nonillion, which is a very large
10 number. I actually have a chart here. Nonillion is
11 10 to the 30th, so 30 zeroes behind it. So it goes
12 million, billion, trillion, quadrillion,
13 quintillion, sextillion, septillion, octillion,
14 nonillion.

15 **Q** How many people are in the world?

16 **A** Approximately 7 billion.

17 **Q** 7 billion?

18 **A** Yes.

19 **Q** So this is many, many, many, many more
20 times people than in the world?

21 **A** That's correct.

22 **Q** For you to get that match again?

23 **A** That's correct.

24 **Q** So that's Michael Brown?

25 **A** Right, yes.

1 **Q** All right. And this was blood that was,
2 we are on Q11, that nasal mucus or tissue that was
3 on the car; is that correct?

4 **A** Correct.

5 **Q** And the driver rear passenger exterior
6 door and the roadway at 2943, it says Canfield and
7 looks likes two samples from that area, Q13 and Q14,
8 all Michael Brown is the source?

9 **A** Correct.

10 **Q** What else do you have?

11 **A** All right.

12 **Q** Q15, tell us about Q15, tell us about
13 that.

14 **A** Okay. Sure. So this sample was from a
15 reddish brown stain on the upper left thigh of PO
16 Wilson's uniform pants. DNA from Q15 are consistent
17 with being a mixture of two or more individuals.
18 This profile can be separated into a major male
19 component profile and a minor contributor consistent
20 with PO Wilson.

21 One additional allele indicates
22 possible trace contributor. Again, that's
23 inconclusive. Michael Brown is the source of the
24 major male component profile connected from Q15.

25 **Q** And is this one of those occasions where

1 you talked about there could be more than two that
2 trace, you can't say what that is, but it is not
3 either of these two individuals?

4 **A** That's correct.

5 **Q** Okay. And then on Q16, since we are in
6 that area.

7 **A** Um, Q16 was a swab from the top exterior
8 left front door of the vehicle. The DNA typing
9 results obtained from Q16 are consistent with the
10 mixture of three or more individuals. This profile
11 can be separated into a major mixture of two
12 individuals, with a trace contributor, and the trace
13 contributor is inconclusive.

14 **Q** Okay.

15 **A** And then this is the likelihood ratio
16 statistic again. Michael Brown and PO Wilson are
17 included as contributors to this major mixture
18 profile. The observed major mixture profile is 6.9
19 million times more likely if it originated from
20 Michael Brown and PO Wilson than if it originated
21 from PO Wilson and an unknown individual in the
22 general unrelated population.

23 **Q** Okay. And you kind of explained that to
24 us already.

25 **A** Yes.

1 **Q** And then for Q17, which was the exterior
2 left front door mirror of vehicle 108, there was
3 limited amount of genetic information to make any
4 determination regarding the officer or Michael
5 Brown?

6 **A** That's correct.

7 **Q** Okay. How about Q18?

8 **A** Sure. Q18 was the interior left front
9 door handle of the vehicle. The DNA typing results
10 obtained from Q18 are consistent with being a
11 mixture of two or more individuals. This profile
12 can be separated into a major male contributor
13 profile and one or more minor contributors. Michael
14 Brown is the source of the major male contributor
15 profile. Due to the limited genetic information
16 available from the minor component, the presence or
17 absence from PO Wilson cannot be determined.

18 **Q** Okay. And then again, what we've talked
19 about so far with Michael Brown is the source of the
20 major male contributor, or even part of a mixture,
21 can you tell us whether it was blood or saliva or?

22 **A** No, I cannot.

23 **Q** Okay. Or skin cells, no?

24 **A** No.

25 **Q** All right. Let's look at Q19.

1 **A** Okay. So Q19 is swabs from PO Wilson's
2 weapon. The Sig P229, and this particular swab did
3 test positive for blood, I have RBS listed there.

4 **Q** When we say RBS, that means that it's
5 blood?

6 **A** Yes.

7 **Q** Okay. The reddish brown stain?

8 **A** Correct.

9 **Q** Okay.

10 MS. ALIZADEH: Do you --

11 **A** Assuming she was able to confirm it.

12 MS. ALIZADEH: That's what I was going to
13 say. Do you know if it was presumptive?

14 **A** I believe on this item it was presumptive,
15 I don't believe there was enough there to do the
16 confirmatory test.

17 MS. WHIRLEY: You do have enough to get a
18 DNA profile, you did get a DNA profile from the
19 weapon?

20 **A** Yes.

21 **Q** (By Ms. Whirley) You can't say again
22 whether it was blood or skin cell?

23 **A** Correct.

24 **Q** Saliva or what, or sweat?

25 **A** Correct.

1 **Q** So tell us about the weapon.

2 **A** Okay. The DNA testing results obtained
3 from Q19 are consistent with being a mixture of
4 three or more individuals. This profile can be
5 separated into a major mixture of two individuals
6 with a trace contributor. Again, the trace
7 contributor is inconclusive. Michael Brown and PO
8 Wilson are included as contributors to this major
9 mixture profile.

10 The observed major mixture profile is
11 2.1 octillion times more likely if it originated
12 from Michael Brown and PO Wilson than if it
13 originated from PO Wilson and an unknown individual
14 in the general unrelated population.

15 **Q** And again, we're talking about a number so
16 high, you know, as many, many, many more times than
17 the population of the whole world before you find
18 another profile like this?

19 **A** Well, this is actually the likelihood
20 ratio statistic, so it is a little bit different on
21 the assumptions, but that hypothesis has very, very,
22 strong support.

23 **Q** Okay, all right. And this is, I don't
24 know if you have some different numbers somewhere
25 else. This is a pretty important part of what they

1 need to know, the DNA on the gun. So what can you
2 tell us about the DNA on the gun again?

3 **A** The hypothesis that it's these two
4 individuals, PO Wilson and Michael Brown, is 2.1
5 octillion times more likely than it was PO Wilson
6 and some unknown.

7 **Q** When you say hypothesis, what do you mean?

8 **A** Basically it's just how well that
9 hypothesis explains the data.

10 **Q** What does hypothesis mean?

11 **A** Hypothesis would be that supposing that
12 these two particular individuals contributed it
13 versus another individual and PO Wilson.

14 **Q** Okay.

15 MS. WHIRLEY: Questions on that?

16 : Let me understand this,
17 . So are you saying his DNA was on
18 the gun?

19 **A** That statement is supported by the data,
20 yes.

21 . You can't
22 determine if it was from skin cells or fluid?

23 **A** Correct. The DNA profile would be the
24 same throughout your body, so we're not able to
25 determine if the DNA profile originated from blood

1 or skin cells.

2 Yes.

3 You talked

4 about the door, the front door handle?

5 **A** Yes.

6 : You could tell it was

7 Michael Brown?

8 **A** Yes.

9 : He was the more major

10 contributor. So if he was the last person to touch

11 it, would his DNA, would it have overrode whoever

12 touched it prior?

13 **A** It's possible, yes.

14 **Q** (By Ms. Whirley) There's evidence that, or

15 information that, and you probably know this

16 already, you get some information from the police

17 when you are doing this testing, correct?

18 **A** Some.

19 **Q** There was a shooting involved in the car?

20 **A** Yes.

21 **Q** And then there was blood and actually some

22 blood swabs were submitted, correct?

23 **A** Yes, and I believe at the time of the

24 testing, I don't know that I actually knew of a

25 shooting.

1 **Q** But you know now before I told you?

2 **A** I do know now.

3 **Q** So if his DNA is on the gun and the car
4 and the door of the car, there's no way you can tell
5 us is it because he touched the gun or because his
6 blood may have been on there or some other portion,
7 sweat or saliva, probably not saliva, but some other
8 bodily fluids, you can't tell us exactly how his DNA
9 got on that gun?

10 **A** That's correct.

11 MS. WHIRLEY: Any questions on that?

12 : I do, I just
13 have a question about Number 11, 12, 13 and 14. It
14 says apparent tissue or hardened nasal mucus from
15 vehicle 108. And it says apparent tissue or
16 hardened nasal mucus --

17 MS. ALIZADEH: If you recall that was
18 Officer testified that he used a pair of
19 tweezers to remove something from the outside of the
20 door.

21 : There was, none of this
22 was from inside of the door?

23 MS. ALIZADEH: That tissue/hardened nasal
24 mucus is on the outside of the door.

25 Okay. Thank you.

1 MS. ALIZADEH: But there are swabs taken
2 from the inside of the door that she's testified
3 about from the door handle, and that's the interior
4 door handle.

5 : Interior door handle.

6 MS. ALIZADEH: I believe so.

7 A Yes, Q18, interior left front door handle.

8 So interior left front
9 door handle has DNA from Michael Brown inside the
10 car?

11 A Yes.

12 Q (By Ms. Whirley) Again, we don't know how
13 the DNA got there?

14 A Correct.

15 Q Okay. Let's go onto, were we done with
16 Q19?

17 . What my question
18 is, Q11, they introduced that to us a long time ago.
19 We don't know what it is. If you can answer any
20 more, was the suggestion that it was a hardened
21 nasal mucus just an assumption because it looked
22 that way?

23 A That's correct, but the biologist, she
24 actually called me in to kind of look at it and just
25 see what I thought. We didn't know what it was,

1 that's just what it appeared to be.

2 : Would there be any way of
3 knowing --

4 MS. ALIZADEH: It's been tested.

5 : We know he had a close
6 range wound to his hand. Is there any way of
7 knowing, could have been skin that came off his hand
8 or not any way of knowing that?

9 **A** I'm not sure. I know I can't determine
10 that from DNA.

11 MS. ALIZADEH: Dr. is going to
12 return to talk about because that tissue, that
13 hardened nasal mucus tissue was forwarded to him for
14 his testing. He's going to come back tomorrow and
15 tell you what he found that to be.

16 MS. WHIRLEY: Thursday.

17 MS. ALIZADEH: Or Thursday.

18 **Q** (By Ms. Whirley) So Q20-1, I'm sorry, were
19 there any other questions before we go on?

20 Q20-1. Tell us about that.

21 **A** Those were swabs from PO Wilson's uniform
22 shirt. They were from the left side and the collar
23 area, and I believe testified regarding
24 that. The DNA typing results obtained from Q20-1
25 are consistent with being a mixture of three or more

1 individuals. This profile can be separated into a
2 major mixture of two individuals with a trace
3 component. And again, the trace component is
4 inconclusive.

5 MS. ALIZADEH: Again, what?

6 **A** The trace component is inconclusive.

7 **Q** (By Ms. Whirley) So that's that person
8 other than Michael Brown and PO Wilson?

9 **A** Yes.

10 **Q** Okay, go ahead.

11 **A** Michael Brown and PO Wilson are included
12 as contributors to this major mixture profile. The
13 observed major mixture profile is 2.1 trillion times
14 more like that it originated from Michael Brown and
15 PO Wilson, than if it originated from PO Wilson and
16 an unknown individual in the general unrelated
17 population.

18 **Q** Okay. So again, we don't know how his DNA
19 got on his shirt?

20 **A** Correct.

21 **Q** Okay. Questions on that one?

22 Q21-1.

23 **A** This was PO Wilson's uniform pants on the
24 left side. The DNA typing results are consistent
25 with being a mixture of three or more individuals.

1 This profile can be separated into a major mixture
2 of two individuals with a trace component, and the
3 trace component is inconclusive.

4 Michael Brown and PO Wilson are
5 included as contributors to this major mixture
6 profile. The observed major mixture profile is 34
7 sextillion times more likely it originated from
8 Michael Brown and PO Wilson than if it originated
9 from PO Wilson and an unknown individual in the
10 general unrelated population.

11 Q So those are on the pants?

12 A Yes.

13 Q Now, we started with Q5 and we talked
14 about things of evidentiary value. K1-1 is Michael
15 Brown's shirt, and you did not consider that to be
16 of evidentiary value because it said that Wilson is
17 excluded as a contributor to this mixture profile?

18 A Well, I started with samples that I
19 performed statistical measures on and when we do
20 exclusions, there is no statistical measure. So I
21 can certainly get those results now.

22 Q Okay. Go ahead.

23 A So Q1-1 was Michael Brown's T-shirt. I
24 believe this is where attempted to swab areas
25 that did not appear to have blood staining. The DNA

1 typing results obtained from Q1-1 are consistent
2 with being a mixture of two or more individuals.
3 This profile can be separated into a major component
4 profile consistent with Michael Brown and one or
5 more trace contributors.

6 And then, again, there's limited
7 genetic information from the trace component, so
8 inclusionary statements can be made regarding this
9 portion of the mixture.

10 However, PO Wilson is excluded as a
11 contributor to this mixture profile.

12 **Q** So that means whatever the trace component
13 was did not have any of the alleles or any of the
14 profile of Officer Wilson?

15 **A** That's correct.

16 **Q** So Q2-1?

17 **A** This was Michael Brown's shorts. The DNA
18 typing results obtained from Q2-1 are consistent
19 with being a mixture of three or more individuals.
20 This profile can be separated into a major component
21 profile consistent with Michael Brown and two or
22 more trace contributors. Due to the limited genetic
23 information available from the trace component of
24 the mixture, no inclusionary statements will be made
25 regarding the trace component. PO Wilson is

1 excluded as a contributor to this mixture profile.

2 Q So to say the thing that we said earlier,
3 none of those little points or the alleles match
4 Officer Wilson?

5 A Yes.

6 Q If one of two would have matched, you
7 would have said what?

8 A It is possible that maybe one or two did,
9 but overall he was excluded. So if you have one or
10 two, it's possible you just might have adventitious
11 inclusion, I guess, because people do share alleles,
12 they share peaks, but when you look across an entire
13 profile, that's how when you are able to determine
14 if they are excluded or not.

15 Q Do you use a certain number of peaks or
16 alleles to make an exclusion?

17 A There is really not a specific number, it
18 is just dependent on the mixture. But again, if
19 there are peaks that are foreign to the individual
20 then they're excluded.

21 Q So in this case, is that what we are
22 seeing is that they were foreign to Officer Wilson?

23 A Yes.

24 Q The trace amounts, those alleles?

25 A Yes.

Page 191

1 Q Anything else of evidentiary value that we
2 missed?

3 **A** I think the only other items that we have
4 discussed would be the swabs from Michael Brown's
5 other portions of his body, his hands.

6 Q Okay. We'll talk about that. Is there a
7 question?

8 So on Q1-1, the
9 report talks about possible Police Officer Wilson
10 grabbed the shirt of Michael Brown, from what you
11 seen from the area that was tested, you didn't get
12 enough markers to verify that that's true. From
13 what you've seen you didn't get any police officer's
14 DNA off of that shirt?

15 **A** Correct.

16 Q (By Ms. Whirley) Anyone else? Okay.

17 On that other report, which is Grand
18 Jury Exhibit Number 74, was there, tell us about
19 that, what you concluded in that analysis.

20 **A** The second report consisted of additional
21 items that I was requested to process. There was
22 Cardinals baseball hat, two Nike sandals, the right
23 and the left. Actually, there was, yes, there was
24 two sandals and there were two swabs taken from each
25 of those sandals. So there's four swabs from the

1 sandals. And there were also two bracelets, one of
2 them was a black, yellow and white rubber bracelet,
3 and the other one was a dark brown beaded bracelet.

4 **Q** Were you able to, I see where you have the
5 buccal swab referenced for Officer Wilson and the
6 blood referenced for Michael Brown. Were you able
7 to find any profiles on those bracelets?

8 **A** I was able to obtain a mixture on each
9 one. You want me to --

10 **Q** Yes, please.

11 **A** So on the black, yellow and white rubber
12 band bracelet, the DNA typing results obtained from
13 that item Q25-1, are consistent with being a mixture
14 of two or more individuals. This profile can be
15 separated into a major male component profile and
16 one or more minor contributors. Due to the limited
17 genetic information available from the minor
18 component of the mixture, no inclusionary statements
19 will be made regarding the minor component. Michael
20 Brown and PO Wilson are excluded as contributors of
21 the major male component profile, however, I
22 couldn't determine if they were present as possible
23 minor contributors.

24 **Q** There wasn't enough of a DNA profile to
25 make the connection?

1 **A** Yes.

2 **Q** Okay. That's for the yellow and black,
3 yellow and white rubber bracelet. And then the dark
4 brown bracelet, did the same determination?

5 **A** It was essentially the same. On this
6 particular item there was a mixture of three or four
7 individuals instead of a mixture of two or more, but
8 again, there was a major male component profile and
9 then two or more minor contributors, but they were
10 excluded as the major contributor.

11 **Q** Then going to the first page, the
12 Cardinals baseball cap.

13 **A** That profile was single source. Michael
14 Brown was the source of that DNA profile. And then
15 Q24-1 was the reddish brown stain on the right Nike
16 sandal, that was also Michael Brown.

17 **Q** Okay. When you say single source, you
18 mean no mixture, just straight one source?

19 **A** Correct.

20 **Q** Does that pretty much conclude that second
21 supplemental report?

22 **A** The only other item would be swabs from,
23 again, the second set of swabs from the left and
24 right sandals and those results were inconclusive,
25 so I wasn't able to do any conclusions on them.

Page 194

1 Q You didn't do anything with the socks,
2 correct?

3 **A** No.

4 Q All right.

5 . Did you
6 do anything with the clippings of the fingernails?

7 **A** Yes. That was in the first report and
8 those were consistent with Michael Brown. Let me
9 see where that is.

10 MS. WHIRLEY: Is that Q10?

11 **A** Yes.

12 MS. WHIRLEY: Q9, Q10?

13 **A** Let's see, Q9-1, Michael Brown's left hand
14 finger nail scrapings. This was a mixture, so again,
15 this is Q9-1. It was consistent with being a
16 mixture of three or more individuals. This profile
17 can be separated into a major component profile
18 consistent with Michael Brown and two or more trace
19 contributors. Due to the limited genetic
20 information available from the trace component of
21 the mixture, no inclusionary statements will be made
22 regarding the trace component PO Wilson is excluded
23 as a contributor to this mixture profile.

24 MS. WHIRLEY: Q10?

25 **A** And then Q10 was a single source profile

1 and it was consistent with Michael Brown.

2 Q6 and Q8

3 backs of Michael Brown's hands, looks like there's
4 no Officer Wilson's DNA on the backs of his hands?

5 A That's correct, it is a single source
6 profile consistent with Michael Brown.

7 : We had heard that Michael
8 Brown was punching the officer in the face. Would
9 you say that's inconsistent with those reports?

10 A Well, on these particular items, it has
11 RBS after it, reddish brown stain. So it is
12 possible that PO Wilson isn't there, it's also
13 possible he is not being detected due to the blood
14 on the hand.

15 MS. ALIZADEH: Let me ask you this also.
16 When it says that the backs of the hands were
17 swabbed, and I guess we would have to talk to
18 whoever swabbed them, we don't know if that includes
19 the knuckles or back of the hand?

20 A Yes, I'm not aware.

21 MS. ALIZADEH: There is no indication in
22 your notes to say where on the back of the hand it
23 was swabbed, correct?

24 A Correct. I don't have that information.

25 MS. ALIZADEH: It could be, but they

1 **A** That they were clippings.

2 MS. ALIZADEH: And that she swabbed the
3 clippings.

4 **A** Right, because what I received is just a
5 portion of the original item. So I just get a
6 little tube with something inside, so I don't know.
7 In the
8 report it says here that the contributors not
9 identify, were unable to identify that, the example
10 is put it in CODIS; is that correct, is that my
11 understanding?

12 **A** Yes, at the very end there are two samples
13 that were entered into CODIS.

14 : Do they stay in CODIS for
15 a specific amount of time or just in case somebody
16 might pop up?

17 **A** So just a little bit of background on
18 CODIS. There is actually three levels of CODIS.
19 There's a local level, state level and national
20 level. So the national level is the most
21 restrictive. There's a number of rules about what
22 can go in. It has to be something from the scene of
23 a crime. It cannot be from the victim, it cannot be
24 from a witness in the crime, for example. But as
25 you move down to the local levels it gets less

1 restrictive.

2 So, for example, all the analyst
3 profiles are in our local database. Any reference
4 standard from the list of the suspect is entered
5 locally.

6 The Missouri State Attorney General
7 has made a ruling at the state level we can maintain
8 those suspect profiles. So we enter the suspect
9 known at our level and it stays at the state level.
10 It does not move to the national level.

11 Any unknown sample, we call it a case
12 work unknown sample. And this example of Q12, which
13 was consistent with Michael Brown, and I believe
14 that was from the vehicle. That was entered into
15 CODIS and that would go to the national level.

16 . I want to go
17 back to Q1-1, Michael Brown's T-shirt again to make
18 sure I'm clear. The last line says PO Wilson is
19 excluded as a contributor to this mixture profile.
20 So that tells he is not part of whatever stain is on
21 that shirt.

22 **A** He was not detected, that's correct.

23 : And they also swabbed some
24 of the non stained areas of that shirt and did not
25 find any DNA in that area either?

1 **A** I believe Q1-1 was from the non stained
2 areas.

3 : Okay.

4 **A** She did not swab the stained areas
5 because, again, we would expect to find Michael
6 Brown's blood.

7 MS. WHIRLEY: And that's pretty much
8 protocol or standard not to swab an area that is
9 bloody like that, just too much and the person who
10 bled?

11 **A** Right, and DNA testing is expensive and
12 time consuming so we try to restrict the number of
13 samples to something that can provide information in
14 the case.

15 **Q** There's just no way to know until it was
16 requested?

17 **A** Right.

18 **Q** So what do you do after you complete your
19 analysis, what do you do with all this stuff?

20 **A** All the samples, in this particular case
21 for a time, I believe, the FBI were intentionally
22 going to take it and place it in a vault in
23 preparation for them to take. The particular items
24 that I tested, I don't believe they ended up taking.
25 So we boxed them up for long-term storage.

1 **Q** You have custody of them?

2 **A** They're in the laboratory, yes.

3 **Q** Do you know what items the FBI did test
4 and they took the items that you tested, is that
5 what you said?

6 **A** They informed me that they don't repeat
7 something that has already been done, so they would
8 do testing in addition to what our laboratory
9 performs.

10 **Q** So I don't know that.

11 **A** I'm not aware that they retested anything
12 that I tested.

13 **Q** And you don't know what they did test?

14 **A** No.

15 **Q** Okay. Here is a question I guess you
16 posed for me, do you keep items, why do you keep the
17 items for?

18 **A** The cuttings and all of the envelopes and
19 things that would have taken. We do retain it
20 for possible defense retesting. So we try not to
21 consume any samples. And if we do have to consume a
22 sample, we have to obtain permission from the
23 prosecutor's office or whoever maybe if there is a
24 suspect in the case.

25 **Q** I think you've already talked to us about

Page 202

1 how you insure that your work is accurate, you said
2 there is a technical review or someone reviews your
3 work?

4 **A** Yes.

5 Q They don't retest, Kathi already asked,
6 they just review what you have done?

7 **A** That's correct.

8 **Q** Steps that you have taken?

9 **A** Right, and they double check all the math
10 and any calculations that were done.

11 MS. WHIRLEY: All right. Questions,
12 Kathi?

13 MS. ALIZADEH: No.

14 MS. WHIRLEY: Anybody else? Okay. I
15 guess you asked them along the way, that was good.
16 Okay, thank you very much.

17 (End of the testimony of
18 .)

19 ,
20 of lawful age, having been first duly sworn to
21 testify the truth, the whole truth, and
22 nothing but the truth in the case aforesaid,
23 deposes and says in reply to oral
24 interrogatories, propounded as follows, to-wit:

25 EXAMINATION

1 BY MS. ALIZADEH:

2 Q That's the part where you promise not to
3 talk about this after you leave today.

4 A Got it.

5 Q All right. Could you state your name,
6 please?

7 A .

8 Q , the microphone won't
9 amplify your voice.

10 A Okay.

11 Q You don't need to lean into it to pick you
12 up, just talk loud enough so that I can hear you
13 back here, okay?

14 A Got it.

15 Q What do you do,

16 A My title, 911 services coordinator for St.
17 Louis County. I make 911 work in the county.

18 Q All right. And how long have you had that
19 position?

20 A Twenty years.

21 Q And so are you also, do you have access to
22 all the records that 911, that the communication
23 center keeps regarding 911 calls?

24 A Yes.

25 Q What about radio traffic, do you also have

1 anything to do with the monitoring of radio traffic
2 in St. Louis County?

3 **A** I did, and I still have access because it
4 helps me troubleshoot a lot of things.

5 **Q** Okay. And so we've already heard
6 testimony so we're not going to need a detailed
7 description, but you, of course, you are familiar
8 with the RIOT channels that St. Louis County has?

9 **A** Yes.

10 **Q** And how many RIOT channels are there?

11 **A** I believe there's four.

12 **Q** And they are A, B, C and D then?

13 **A** Right.

14 **Q** And so we have already again heard talk
15 about what they are and how they work and when
16 they're in use.

17 But when transmissions are received
18 on the RIOT channel in the communication center, are
19 those transmissions recorded?

20 **A** Yes, if they're actually heard they would
21 be recorded.

22 **Q** Okay. So there's an audio recording of
23 transmissions, correct?

24 **A** Correct.

25 **Q** Is there also a record that's made that

1 that transmission is actually received so there
2 would be a date stamp, a time stamp with each
3 transmission that's heard?

4 **A** Yes.

5 **Q** Okay. And were you asked during the
6 course of the investigation into the shooting of
7 Michael Brown, were you aware that there was some
8 issue about whether or not a call was made on a RIOT
9 channel?

10 **A** Not until you had asked.

11 **Q** Okay. So, and let's go back on August 9th
12 of 2014, were you, do you recall that and were you
13 aware that there was an incident that occurred down
14 in South County at the St. Anthony's Hospital in one
15 of their hospice care facilities?

16 **A** Yes.

17 **Q** And were you aware that there were a
18 number of officers and County TAC responded, they
19 had a staging area and so forth; is that correct?

20 **A** Yes.

21 **Q** And were you aware that on that, for that
22 incident that the County Police had switched over
23 and were broadcasting on RIOT A?

24 **A** That's correct.

25 **Q** And now, just for clarity sake, RIOT A, B,

1 C and D, those are separate channels, correct?

2 A That's correct.

3 Q And so did I ask you to search your
4 records for any calls that were received and
5 recorded on the RIOT A channel during times that are
6 relevant to the shooting of Michael Brown?

7 A Yes.

8 Q And now you told me, we talked about this
9 briefly out here just now that when you pull a
10 segment of calls or time segment, that has to be in
11 ten-minute increments; is that correct?

12 A Correct.

13 Q And so did you pull all the calls for the
14 times that I requested and burned those onto a disc?

15 A Yes.

16 Q I'm going to show you Grand Jury Exhibit
17 Number 60.

18 (Grand Jury Exhibit Number 60
19 marked for identification.)

20 Q (By Ms. Alizadeh) Is that your handwriting
21 on there?

22 A Yes, it is.

23 Q Have you listened to the call on this
24 disc?

25 A Yes.

1 **Q** Are those the calls that you pulled that I
2 asked for?

3 **A** Yes.

4 (Grand Jury Exhibit Number 71
5 marked for identification.)

6 **Q** (By Ms. Alizadeh) And then did I, did you
7 also provide for me a print-out that I've marked
8 Grand Jury Exhibit Number 71, that shows the dates
9 and times of those calls?

10 **A** Yes.

11 **Q** All right. So the first call that is
12 recorded on Grand Jury 60 is a call from August 9th
13 at 11:43, 11:00 a.m., I'm sorry, let me back up.

14 11:43 and 15 seconds in the a.m.?

15 **A** Correct.

16 **Q** All right. And then the record, which is
17 Grand Jury Exhibit 71, date and time stamps it and
18 says how long the call lasts; is that correct?

19 **A** That's correct.

20 **Q** And now the next column says caller
21 number, but there is nothing in there?

22 **A** Correct. That would show like if it was a
23 911 call, would show the number that came in.

24 **Q** Okay. And then for the column that says
25 channel name, it is all of those are RIOT A calls?

1 **A** Correct.

2 **Q** Okay. And then what is the, the next
3 column says location, what does that mean?

4 **A** That's the DVD that it's on. For
5 instance, 549, that's the 549th CD we have stuck in
6 there to record.

7 **Q** So these calls are not maintained on a
8 hard drive someplace?

9 **A** They are for about probably three weeks
10 and then they are archived to this.

11 **Q** So regardless of whether I ask for these,
12 I could get calls from a year ago, correct?

13 **A** We keep them that long, yeah.

14 **Q** So when you got these calls for me it was
15 more than three weeks past August 9th, is that fair
16 to say?

17 **A** Yes.

18 **Q** And so that location means you were able
19 to determine what DVD it was on?

20 **A** Exactly.

21 **Q** Okay. And I'm going to pass out these
22 records.

23 So the first call that was reported,
24 I already mentioned, is at 11:43 and 15 seconds in
25 the a.m. And then the last call recorded is at 2:06

1 and 31 minutes, I'm sorry, 2:06 and 31 seconds in
2 the p.m., correct?

3 **A** Correct.

4 **Q** I mean, that's more than a ten-minute
5 increment?

6 **A** Right.

7 **Q** You get these?

8 **A** What I was doing was trying to show when
9 it ended and when it started and any traffic in
10 between.

11 **Q** Okay. Now, are you aware that the
12 incident at the St. Anthony's hospice facility, did
13 that start before 11:43:15 a.m.?

14 **A** Way before it, yes.

15 **Q** So were you aware then that the county had
16 already notified their officers to, that were
17 involved in that incident, to switch over to RIOT A?

18 **A** Correct.

19 **Q** And so that transmission is not included
20 in what you've gotten me, right?

21 **A** No.

22 **Q** And then down here you have a reference on
23 August 9th, 2014 at 12:35:35 p.m., St. Anthony
24 secure.

25 Is that reference, just that

1 particular phrase, St. Anthony secure, is that
2 something that you came up with?

3 **A** I just came up with it because at that
4 point on the tape or the CD is when they secured the
5 channel. In other words, we're done.

6 **Q** So there is actually an audio recording of
7 an officer's voice, we are clearing the RIOT A
8 channel. In other words, the incident has ended,
9 you can tune back to dispatch or whatever?

10 **A** Correct.

11 **Q** Okay. And then you also indicate at about
12 2:00 p.m. and 26 seconds on the same day, it says
13 RIOT A for Ferguson, and again, that was, you
14 determined, that is your phrase?

15 **A** That is my phrase from what was said on
16 the audio.

17 **Q** Okay. So there's an audio of an officer
18 activating the RIOT A channel because of the
19 Ferguson incident?

20 **A** Correct.

21 **Q** And that was at 2:00 p.m.?

22 **A** Yes.

23 **Q** And have you listened to all of these
24 calls yourself?

25 **A** Yes.

1 **Q** And have you heard in any of these calls,
2 well, prior to the 2:00 and 26 second entry, so any
3 time prior to that is there a call for shots fired
4 on the RIOT A channel?

5 **A** I don't believe so.

6 **Q** Is there a call for officer in need of
7 aid?

8 **A** Not that I heard.

9 **Q** Is there a call that says something like
10 send every car you've got?

11 **A** Never heard that.

12 **Q** All right. And now I've listened to the
13 calls also and I asked you out there, there's some
14 of these calls actually is a series of tones and
15 there's nobody speaking?

16 **A** Right.

17 **Q** Why are those calls, what is that?

18 **A** That's an FCC regulation where each
19 channel has a frequency and you have to either
20 broadcast yourself, the call signal over it, and for
21 instance, normal everyday traffic, you'd say KWA
22 519, that's our call signal. On a channel that's
23 not used very often, it is an automatic identifier
24 that goes out, it is a tone.

25 **Q** So that's an FCC requirement?

1 **A** Yes.

2 **Q** And that is a tone that's just generated
3 automatically?

4 **A** Correct.

5 **Q** It doesn't have any kind of meaning as far
6 as any incident happening, correct?

7 **A** No, correct.

8 MS. ALIZADEH: I don't have any more
9 questions. My questions for you, jurors, is do you
10 want to hear these calls? They're not very long.
11 Obviously, some of them are five seconds in
12 duration, six seconds, 14 seconds. We could listen
13 to all of them in a matter of less than ten minutes.
14 Of course, this would be available if you all want
15 to listen to it yourself at a later date, but that's
16 up to you. Do you have an interest in hearing these
17 calls?

18 MS. WHIRLEY: I had a question for

19 **Q** (By Ms. Whirley) This RIOT A for Ferguson,
20 these are not Ferguson's communications to their own
21 communication system, this is them on county's
22 communication system?

23 **A** I'd have to hear it, but I believe it was
24 county activating the RIOT channel. Normally most
25 of your municipalities that are going to use it at

1 the very beginning you can hear a couple people just
2 talking. They don't identify themselves. I can
3 recognize one of the names. It was a guy in the St.
4 Anthony's. They'll use it, they'll use that channel
5 just, hey, meet me over at McDonald's or something,
6 they will talk car to car kind of thing.

7 Q Okay.

8 A But usually an activation is done by the
9 county.

10 Q And I'm sure it was said already, just to
11 make sure I'm clear. A municipality like Ferguson
12 can access that RIOT A channel and talk to other
13 officers and other departments?

14 A Correct.

15 Q Okay. But it is really a channel that is
16 maintained by County?

17 A Yes.

18 Q All right. On this channel, all of these
19 other calls, like the St. Anthony's secure and the
20 calls previous to that, all dealt with something
21 that was happening at St. Anthony's?

22 A You can tell one of the cars, you could
23 hear a guy say , he is on the SWAT team.

24 Q But they are not like communications where
25 they are calling into dispatch and announcing their

1 location or their arrival, or asking for assistance
2 or anything like that, it is just sort of an
3 informal communication amongst officers on this
4 channel?

5 **A** Yes.

6 MS. ALIZADEH: And just to clarify,
7 because Sheila asked you, officers in municipalities
8 can use this to talk to each other, but the other
9 person has to be monitoring the RIOT A channel?

10 **A** Correct.

11 MS. ALIZADEH: So it is not like if
12 someone transmits something on a RIOT A, it is not
13 suddenly everybody switches over to RIOT A because
14 there was transmission?

15 **A** No, you usually have a few, the smaller
16 municipalities, they'll know. Let's say I'm
17 Dellwood and you're something else, Bellefontaine.
18 We know, hey, monitor this channel and I will call
19 you when I need you, not call when I need you. I
20 will just talk to you whenever I want you to
21 monitor.

22 MS. ALIZADEH: We also heard some
23 testimony, you know ; is that right?

24 **A** Yes.

25 MS. ALIZADEH: You are the one who hooked

1 me up with him so he could explain how radio traffic
2 works, right?

3 **A** Yeah.

4 MS. ALIZADEH: And so we heard him testify
5 about that emergency button or the orange button
6 that was on the walkie-talkie. And he said that no
7 matter what channel an officer is on, when that
8 button is pressed, it automatically switches, it
9 automatically goes to the dispatch channel for that
10 officer's department.

11 Now my question to you is, if that button
12 is pressed by an officer in a municipality who is
13 not on RIOT A, but might be on another channel,
14 would you hear it on RIOT A?

15 **A** No.

16 MS. ALIZADEH: If that button is pressed
17 while the officer is on RIOT A, because
18 testified about how that tone, the data bursts that
19 are sent out when that button is pressed, are going
20 to go through, they are going to override everything
21 else?

22 **A** Uh-huh.

23 MS. ALIZADEH: So if that button is
24 pressed when the radio is on the RIOT A channel,
25 whatever channel that might be for the municipality,

1 would you hear it on the, would you be able to hear
2 it on the RIOT A monitoring, when you are monitoring
3 RIOT A?

4 **A** Well, County is different. I think the
5 way described it is Ferguson does automatic, is
6 programmed to automatically, no matter what channel
7 I'm on, if I press it, it is going back to the
8 Ferguson main. So, no, we never hear it.

9 MS. WHIRLEY: It is not going back to
10 County, just Ferguson?

11 **A** Correct.

12 MS. WHIRLEY: Okay. I know you had a
13 question.

14 GRAND JUROR 12: It shows the RIOT A for
15 Ferguson started at 2:00. I know you were asking
16 questions about you hear anybody asking for help,
17 but this would have been, they would have secured
18 this channel after the incident happened, correct?

19 **A** They didn't secure it, they started it up.
20 : They started the RIOT
21 channel after the initial incident --

22 **A** Yes.

23 MS. WHIRLEY: These are officers talking
24 informally amongst each other?

25 : Right. This is not an

1 officer asking dispatcher for help, this is officers
2 talking to each other about the aftermath of.

3 **A** No, when St. Anthony secured, we shut down
4 the RIOT channel. There is nobody sitting there
5 monitoring, listening, we shut it down. Ferguson
6 happens, all of the phone calls made.

7 : You said Ferguson
8 happened.

9 **A** The incident at Ferguson.

10 : The incident happened.

11 **A** That was around noon-ish. So that happens
12 and all the phone calls are made and then the
13 decision, commander decides let's move everything
14 over to the RIOT channel.

15 : So my question, just so I
16 get everything, this is not, this is not going to
17 tell us whether Officer Wilson called in for help or
18 anything, this is just going to tell us that after
19 the fact they secured this channel for what they
20 needed?

21 **A** Well, everything you see in here is on the
22 RIOT channel.

23 : I know that.

24 **A** So if he called on the RIOT channel.

25 : If he called his own

1 dispatcher, it would not be on here?

2 **A** No, this is strictly St. Louis County.

3 : They started using this
4 channel after the incident?

5 **A** After the incident, code 2000 they call
6 it, and they activated the RIOT channel.

7 : They activated the RIOT
8 channel to assist with the aftermath of what
9 happened?

10 **A** Yeah.

11 MS. ALIZADEH: Again, just to be clear, if
12 for the sake of assumption, if Officer Wilson had
13 broadcast or had transmitted something on the RIOT
14 channel, it may have been received and recorded,
15 correct?

16 **A** Correct.

17 MS. ALIZADEH: But we've already heard
18 from that there are these voting recorders
19 or receivers and they selected a transmission that's
20 best quality and so it might get, might not have
21 been received?

22 **A** Correct.

23 MS. WHIRLEY: Okay. On your report,
24 it says from August 9th, 2014, from 11:52:32 seconds
25 a.m. to 12:04 and 01 seconds p.m. Does that

1 indicate that there was no transmission between that
2 time period?

3 **A** No, say that again, though, you say --

4 MS. WHIRLEY: 11:52 and 12:04 on the RIOT
5 channel, was there any transmission? Because it
6 looks like the duration of 11:52, was that six
7 seconds?

8 **A** Yeah, okay, it picked up something at
9 11:52 for six seconds.

10 MS. WHIRLEY: Right. So after that six
11 seconds was over, is there nothing else that was
12 picked up until 12:04?

13 **A** Correct.

14 MS. WHIRLEY: So if someone was on the
15 RIOT channel, that would have been recorded?

16 **A** Correct.

17 MS. WHIRLEY: Between that time period?

18 **A** Yeah.

19 MS. WHIRLEY: Between 11:52 and 12:04, if
20 there was nobody else transmitting.

21 **A** Yeah, any kind of break in time in there,
22 there's no audio to record it.

23 MS. ALIZADEH: Let me clarify. I believe
24 talked about the fact that a lot depended
25 upon where the transmission was made from?

1 **A** Oh, yeah.

2 MS. ALIZADEH: The strength of the
3 transmitter, whether there is buildings in the way.
4 So when Sheila said if somebody made a transmission
5 during that time period, it would have been
6 recorded. The answer has to be not necessarily,
7 correct?

8 **A** Yeah, this is what was heard, what was
9 recorded.

10 MS. ALIZADEH: Whatever was heard was
11 recorded?

12 **A** Correct.

13 MS. ALIZADEH: We don't know if there was
14 something transmitted that didn't get received or
15 recorded?

16 **A** There is dead spots throughout the whole
17 county.

18 MS. WHIRLEY: And then for St. Louis, I
19 mean, for Ferguson's communication, they actually
20 have their own dispatch; is that correct?

21 **A** Yes.

22 MS. WHIRLEY: You know that for a fact?

23 **A** Yes.

24 MS. WHIRLEY: Is it Ferguson Police
25 Department that dispatches for Ferguson Police

1 Department?

2 **A** Yes.

3 MS. WHIRLEY: And this is a question you
4 may or may not be able to answer and someone else,
5 maybe you ask it better, ?

6 . Do you
7 know how far Ferguson's tower is from Canfield by
8 any chance?

9 **A** For the RIOT channel?

10 : Just distance.

11 **A** There are different frequencies or
12 different towers. So, for instance, I can speak for
13 the county. The county's tower is at Seven Hills
14 and Halls Ferry. So that's where our RIOT receiver
15 would be.

16 : Okay.

17 **A** But as far as Ferguson and their local
18 town their frequency, no clue.

19 : I think we were told it
20 was in the back of the police?

21 **A** There is a tower back there, but I don't
22 know if it's a cell tower or what's actually on it.

23 MS. WHIRLEY: If it's a cell tower, if it
24 is a cell tower, go ahead.

25 : Do you know the distance

1 from that tower to Canfield by any chance?

2 **A** No.

3 MS. ALIZADEH: I had told you I was going
4 to look that up, I'll try to. I'll try to find that
5 out again.

6 MS. WHIRLEY: Was that all of your
7 questions? Just the distance, or you wanted to
8 know, was he able to transmit?

9 : If like the line of sight
10 wasn't available, even if he would have been on
11 Ferguson, which he may or may not have been, could
12 it have still been picked up, for lack of a better
13 term, a dead zone?

14 **A** We have a lot of those, believe it or not,
15 throughout the whole county. That's part of the new
16 radio system we're building.

17 MS. ALIZADEH: To correct those issue?

18 **A** Correct all of those issues.

19 . Earlier
20 you said something about a 911 call, if there would
21 have been one, caller's number would have showed up
22 on this report. Does that indicate that there were
23 no 911 calls?

24 **A** No, this is strictly RIOT A recordings.

25 You're the 911 coordinator

1 too, right?

2 **A** Uh-huh.

3 : Do you know if there were
4 911 calls made?

5 **A** Oh, yeah.

6 : Like --

7 MS. ALIZADEH: I have those, yes. You
8 didn't print out one of those 911 calls?

9 **A** I have made several different ones, I
10 don't know if I made the 911 calls for you.

11 MS. ALIZADEH: Okay.

12 **A** To give you an idea, the traffic and our
13 recorder is 120 channels. It is very tough just to
14 say give me the calls pertaining to Ferguson. I
15 couldn't sit there, it would take me two years to
16 play every call and figure out what had to do with
17 it. The ones that I made, here they are, you know,
18 pick out what you want and let me know and I will
19 try put them in order or go back and record just
20 those incidents.

21 MS. ALIZADEH: I do have a disc that has
22 911 calls on it and, you know, there are some that
23 have to do with this. I don't want to characterize
24 them as they don't really help you with anything
25 because I don't want to be the person, I don't want

1 that to be my judgment, but if you want to hear
2 that, I have them.

3 **A** Just to give you an idea, they have their
4 own 911 center. So if they call from landline, they
5 are going to Ferguson.

6 So what the county took could have
7 been cell calls that hit a tower facing, that is
8 pointed to the county as opposed to Ferguson?

9 That's where I was going
10 with that, I was just wondering if there were any
11 911 callers that witnessed something that did not
12 come forward to be interviewed by anybody, anybody's
13 doing that crosscheck?

14 MS. ALIZADEH: That would be a good
15 question for Detective Wilson when he's going to
16 come and testify close to the end. There are lots
17 of leads that were followed up that went nowhere.
18 He would be able to talk about those kind of things
19 and so I don't want to characterize it and say, yea
20 or nay. Any of those type of questions he would be
21 the one to ask.

22 Anyone else?

23 MS. WHIRLEY: , did you have
24 something?

25 : I did, I wanted to make

1 sure when testified earlier this week,
2 he mentioned there were like 16 or 19 channels,
3 something like that, that the police officers could
4 be on. There were a number of channels that the
5 police officers could be on and in my notes I put
6 that there are five RIOT channels, there is dispatch
7 channel, mutual aid channel, the point-to-point
8 channel and some other channels.

9 So just because somebody may not be on
10 here doesn't necessarily mean it might not be on
11 another one of those channels?

12 **A** Correct. Some are receive only, it all
13 goes back to like --

14 : Point-to-point is receive
15 only.

16 **A** Hey, you're good.

17 : I know, thank you.

18 MS. ALIZADEH: I'm going to quiz you about
19 DNA. Any other questions for this witness?

20 (End of the testimony of)
21
22
23
24
25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 BY MS. ALIZADEH:

9 Q Can you state your name, please, and spell
10 it for the court reporter.

11 A .

12 Q All right. And, I'm going to
13 stand back here because the microphone that's in
14 front of you does not amplify your voice. So you're
15 going to have to speak loud enough that I can hear
16 you back here, then I know they can all hear you,
17 okay?

18 A (Nods head.)

19 Q When I ask you questions, and you shook
20 your head yes, because we're recording and the court
21 reporter is taking it down, there is no way that
22 gets recorded. So I might remind you if I ask you a
23 question and you shake your head, I might say is
24 that a yes, but if you can remember, try to say yes
25 or no to answer the question so that he can take it

1 down, okay?

2 **A** Yes.

3 **Q** All right. How old are you?

4 **A**

5 **Q** Okay. And are you familiar with the
6 Canfield Green Apartment Complex?

7 **A** Kind of, not really.

8 **Q** Okay. Do you live in the apartment
9 complex?

10 **A** Yes.

11 **Q** How long have you lived in Canfield?

12 **A**

13 **Q** Okay. There is a map here, Grand Jury
14 Exhibit Number 25, and it is an aerial view of some
15 streets and apartment buildings that make up the
16 Canfield Apartment Complex, okay. And if you look
17 here, the street that cuts through the complex is
18 Canfield Drive, okay?

19 **A** (Nods head.)

20 **Q** And if you were to drive this way, that's
21 going west and West Florissant is out here, okay.
22 And if you are driving this way down Canfield Drive
23 and you are driving that way you're going into the
24 Northwinds Apartment Complex, okay?

25 **A** (Nods head.)

1 **Q** Does that help kind of orient you to where
2 you are?

3 **A** Yes.

4 **Q** Now, I don't want you to say your address
5 because that's not necessary. But what I want you
6 to do is use this laser pointer, do you see your
7 building on there? Don't say it, but do you see it?

8 **A** Yes.

9 **Q** So this is a laser pointer. If you press
10 this button, you know, it puts a red dot on the map.

11 So you don't have to say it, but the
12 grand jurors can see it, where is the apartment that
13 you live in?

14 **A** (Indicating.)

15 **Q** This one right here?

16 **A** (Nods head.)

17 **Q** Are you putting it on this unit right
18 there?

19 **A** Right.

20 **Q** Okay. And so were you living there on
21 August 9th of this year?

22 **A** Yes.

23 **Q** And do you recall anything special about
24 that morning?

25 **A** No.

1 **Q** And who do you live with?

2 **A** My girlfriend and my daughter.

3 **Q** Do you recall how old is your daughter?

4 **A** She's

5 **Q** She's Your girlfriend, was she
6 home that morning?

7 **A** Yes.

8 **Q** Was there anybody else in your apartment
9 that morning?

10 **A** Her family.

11 **Q** Other adults?

12 **A** No.

13 **Q** Are they children?

14 **A** No, they are young adults.

15 **Q** Young adults?

16 **A** Right.

17 **Q** And so we've heard people talk about these
18 apartments, these units have three levels to them,
19 correct?

20 **A** Correct.

21 **Q** And what level do you live on?

22 **A** The second level.

23 **Q** Okay. And so when you, and we've also
24 know from pictures and other people telling us, that
25 each of these units has a front door and a sliding

1 glass door. And when you walk out, there's like a
2 wooden balcony or wooden area, correct?

3 **A** (Nods head.)

4 **Q** There is an outdoor staircase that leads
5 you, the upper floor down to the ground; is that
6 right?

7 **A** Correct.

8 **Q** All right. And so do you remember
9 something happening around noon on the 9th?

10 **A** Yes.

11 **Q** Okay. Where were you when something
12 started to happen?

13 **A** On the staircase.

14 **Q** And so were you on the staircase outside
15 of your apartment unit?

16 **A** Yes.

17 **Q** And were you walking down the stairs like
18 you were going someplace?

19 **A** No, I was sitting there.

20 **Q** You were sitting there?

21 **A** Yes.

22 **Q** Were you with anybody?

23 **A** No.

24 **Q** And we also know from pictures that each,
25 this is an overhang that covers the staircase from

1 rain and snow, correct?

2 **A** Correct.

3 **Q** And we also know that there is like a wall
4 that is in front of that?

5 **A** Correct.

6 **Q** All right. So when you were on the
7 staircase, could you see Canfield Drive from where
8 you were?

9 **A** Yes.

10 **Q** Were you sitting or standing, do you
11 recall?

12 **A** Sitting.

13 **Q** Okay. And so if this is, I'm just going
14 to do a line in this direction. If I bisect
15 Canfield at this point, could you see from this
16 point west?

17 **A** Yes.

18 **Q** Could you see from this point east?

19 **A** Only so far.

20 **Q** And is it because this building blocked
21 your view of some things?

22 **A** Yes.

23 **Q** And so if you are sitting outside your
24 unit, you can probably see beyond this intersection
25 of Canfield Drive and Canfield, well, this is like a

1 little loop around Canfield Drive, correct?

2 **A** That's correct.

3 **Q** But, for example, where this white car is
4 in the map on the picture, which wasn't there that
5 day, this image was not taken that day, but, for
6 example, you wouldn't be able to see that far from
7 where you were; is that right?

8 **A** No.

9 **Q** So what did you see that drew your
10 attention?

11 **A** Well, there were two guys walking down the
12 street in the middle of street and, uh, police car
13 passed them, it stopped where they were and they had
14 conversation or whatever, and so they continued
15 walking and then the police car backed up to where
16 they were and I guess had another conversation that
17 led to an altercation.

18 After they had an altercation, one of
19 the guys ran off and the other guy was still there,
20 and then once he ran from the car, I seen the
21 officer get out of his car and shoot in his
22 direction, but that's all I seen.

23 **Q** Okay. So use the laser pointer and show
24 us where the two boys were when you first saw them
25 walking on Canfield?

1 **A** It was coming kind of going east.

2 **Q** When you first saw them where were they?

3 **A** Uh, when I first saw them?

4 **Q** Uh-huh.

5 **A** Approximately here. (indicating)

6 **Q** Okay. And you said they were walking in
7 the middle of street?

8 **A** Yes.

9 **Q** From where you were sitting, could you
10 tell who they were?

11 **A** No, I'm not familiar with anyone
12 particularly.

13 **Q** How is your eyesight?

14 **A** Fair, fairly good. It is not excellent.

15 **Q** Do you have contacts or glasses?

16 **A** I'm supposed to wear glasses, but I don't.

17 **Q** So do you, if you need glasses, are they
18 for reading or they for seeing distance?

19 **A** More reading, not distance.

20 **Q** Your eyesight for distance okay?

21 **A** Pretty good, but not too good.

22 **Q** How is your hearing?

23 **A** Fair to good.

24 **Q** Never been told that you have a loss of
25 hearing or anything have you?

1 **A** No.

2 **Q** Okay. Um, so let me ask you this. When
3 you were on the staircase at your residence, if you
4 were to look too far west on Canfield Drive, would
5 this building block your view?

6 **A** No.

7 **Q** And why not?

8 **A** Um, because the staircase is more out then
9 the building.

10 **Q** Okay. So you said you saw them about this
11 area and you can see them, this building didn't
12 block your view from where you could see them from
13 here?

14 **A** Yes.

15 **Q** Okay. Which direction were they walking?
16 Were they walking into the complex?

17 **A** East.

18 **Q** East?

19 **A** Right.

20 **Q** So you said a police car came?

21 **A** Right.

22 **Q** A truck I think you said?

23 **A** Yeah, it was a truck, yes.

24 **Q** Was it like a pickup truck or SUV truck?

25 **A** SUV.

1 **Q** What color was it?

2 **A** White.

3 **Q** Did it have police markings on it?

4 **A** Yes.

5 **Q** Was it a Ferguson police truck?

6 **A** Yes.

7 **Q** And when it came down Canfield, what
8 direction was it traveling?

9 **A** It was going west.

10 **Q** Was it going fast like it was going to a
11 call or anything?

12 **A** No.

13 **Q** And how about lights and sirens?

14 **A** No.

15 **Q** And so you saw the officer's truck, could
16 you see the officer inside the truck at this point?

17 **A** No, because he was driving west, it was
18 the driver's side on the west.

19 **Q** So you are looking at the passenger side
20 of the truck as it is going west?

21 **A** Correct.

22 **Q** And so when the truck stopped and you said
23 there was a conversation between the boys and
24 presumably an officer inside the truck, correct?

25 **A** Correct.

1 **Q** Could you hear what was being said?

2 **A** No.

3 **Q** All right. So are you saying there was a
4 conversation just based upon what you saw?

5 **A** Right.

6 **Q** And then you said at some point the boys
7 kept walking and the officer backed up. Did the
8 officer proceed to move after?

9 **A** No.

10 **Q** He stayed there?

11 **A** Yes.

12 **Q** So the boys kept walking, were they still
13 walking east?

14 **A** Yes.

15 **Q** And then you said the officer backed up?

16 **A** Right.

17 **Q** Was there anything unusual about the way
18 he backed up?

19 **A** Kind of, because it was diagonal like to
20 cut them off and at the same time still be, here he
21 was in the middle of the road.

22 **Q** And you saw that, you saw him back up?

23 **A** Yes.

24 **Q** And did you tell, did he hit one of the
25 boys?

1 **A** No, I don't think.

2 **Q** It didn't look like anybody got hit?

3 **A** No, it didn't look like it.

4 **Q** Did it appear like maybe somebody got
5 their foot run over or anything?

6 **A** It could have been possible, but they was
7 on the opposite side of me from the street from
8 where I was.

9 **Q** Okay. So then you said at that point the
10 officer is continuing to talk to the boys?

11 **A** Correct.

12 **Q** And you said there was an altercation?

13 **A** Yes, after backing up, the conversation
14 could have lead to an altercation, or it could have
15 been an altercation from when he backed up, I don't
16 know.

17 **Q** So describe for us when you say that there
18 was an altercation and you couldn't hear anything
19 being said; is that right?

20 **A** No.

21 **Q** Could you hear voices?

22 **A** No, I seen the truck moving like they were
23 having some type of altercation.

24 **Q** So from your vantage point, are you still
25 looking at the passenger side of the truck?

1 **A** Yes.

2 **Q** Now, we know that the boy that was shot is
3 Mike Brown, we know that now, correct?

4 **A** Correct.

5 **Q** You didn't know Mike Brown before that?

6 **A** No.

7 **Q** We know he was like 6'5", he is a tall
8 guy. When he was standing on the other side, was he
9 on the driver's side of the truck?

10 **A** Yes.

11 **Q** Could you see his head above the roof of
12 the truck?

13 **A** No.

14 **Q** Okay. Could you tell what was going on at
15 the truck?

16 **A** Not as good as I could see that the truck
17 was rocking, but no, not inside of the truck, I
18 couldn't see.

19 **Q** You couldn't see if anybody's hands were
20 in or out of the truck or if somebody had ahold of
21 somebody, could you see any of that?

22 **A** No.

23 **Q** Okay. And then so which one of those two,
24 Michael Brown, let's just call him the bigger guy,
25 and then there's another guy with him, was he

1 smaller?

2 **A** Yes.

3 **Q** Did you know that guy from before?

4 **A** No.

5 **Q** And so when the officer backed up and were
6 both boys on the driver's side of the vehicle on the
7 police car?

8 **A** Yes.

9 **Q** Could you see what the smaller boy was
10 doing?

11 **A** He was like going forward still, he was
12 like trying to get away from the altercation or what
13 was going on with them. So he was walking forward a
14 little bit.

15 **Q** When you say forward, was he walking east
16 a little bit?

17 **A** East, yes.

18 **Q** Okay. And how about anybody else, did you
19 see any other car, other people down there?

20 **A** Um, like initially when the police truck
21 stopped, it wasn't a car, but then after the traffic
22 started coming through, I remember seeing a white
23 car because the second guy, when the first shot was
24 fired, he ran and got behind the car. The
25 altercation is still going on because Mike Brown

1 never left the truck.

2 So after that, I see Mike Brown run
3 east and his flip flops fall off and then he keeps
4 going past the building where I couldn't see him any
5 more. So that's when I seen the officer get out of
6 the truck and fire more shots.

7 Q So let's go back now to where Mike Brown
8 is standing next to the truck. You said the shorter
9 guy was kind of walking away from the ordeal?

10 A Right.

11 Q And then you said you heard a gunshot?

12 A Correct.

13 Q How many gunshots did you hear?

14 A It was maybe one, maybe two, I don't know.

15 Q And was this before the officer got out of
16 truck or after?

17 A It was before he got out.

18 Q Okay. And so when you hear that gunshot,
19 have you heard gunshots before?

20 A Yes.

21 Q Were you confused about what it was, did
22 you ever think it was like fireworks or anything?

23 A No.

24 Q You recognized it as gunshots?

25 A Yes.

1 **Q** Or two gunshots?

2 **A** Yes.

3 **Q** Did you see Mike Brown do anything when
4 those gunshots happened?

5 **A** The altercation was still going on, so he
6 was still near the truck. After the shots go off,
7 that's when I see him run, but other than that, no.

8 **Q** Okay. So when you see him run, what
9 direction does he run?

10 **A** East.

11 **Q** And does he run in the street or does he
12 go into the sidewalk or grass?

13 **A** In the street.

14 **Q** He stays in the street?

15 **A** Yes.

16 **Q** All right. And now you had mentioned that
17 you saw his flip flops come off?

18 **A** Right.

19 **Q** And when you saw him run, could you tell
20 at that point if he had been injured?

21 **A** No, because he was running like he was
22 kind of skipping with his run. I didn't, I couldn't
23 say that he was injured, no.

24 **Q** You didn't see any blood or anything on
25 him?

1 **A** No.

2 **Q** Okay. And you said that he ran out of his
3 flip flops?

4 **A** Correct.

5 **Q** It is hard to run in slide flip flops,
6 right?

7 **A** Correct.

8 **Q** And so, obviously, he gets to a point
9 where you can't see him any more?

10 **A** Correct.

11 **Q** And you said you see the officer get out
12 of the vehicle, right?

13 **A** Correct.

14 **Q** Is it a man or a woman?

15 **A** It is a man.

16 **Q** Is he white, black, Hispanic?

17 **A** White.

18 **Q** And were there any other officers in the
19 vehicle that got out?

20 **A** No.

21 **Q** Did you see any other police trucks at
22 that point?

23 **A** No.

24 **Q** So he's by himself?

25 **A** Yes.

1 **Q** Is he in uniform?

2 **A** Yes.

3 **Q** Does he get out of the driver's side?

4 **A** Yes.

5 **Q** So when he first gets out, are you
6 partially blocked because the car is between you and
7 him?

8 **A** Yes.

9 **Q** All right. When he first gets out of the
10 car, do you see the gun?

11 **A** No.

12 **Q** Prior to, when you heard the gunshots, did
13 you ever see a gun?

14 **A** No.

15 **Q** And then you said the officer, I don't
16 want to put words in your mouth, I can't remember
17 what you said, he moves in the direction that
18 Michael Brown ran, correct?

19 **A** He didn't move, once he hopped out of the
20 vehicle, he looked in his direction, but he didn't
21 go towards him. Like he shot, he came from behind
22 the car and then he shot more.

23 **Q** Okay. So when the officer gets out of the
24 car, you said that he looks in his direction. When
25 you say his, are you talking --

1 **A** Mike Brown.

2 **Q** Okay. And at this point, had the littler
3 guy already run behind the white car?

4 **A** Yes.

5 **Q** So he looks in his direction, and then
6 does he fire before he starts moving or as he starts
7 moving?

8 **A** Maybe as, but it was definitely he got out
9 of the vehicle, it could have been as, or before he
10 starts.

11 **Q** Okay. Now, at this point do you see a
12 gun?

13 **A** Yes.

14 **Q** All right. So is it because he's got the
15 gun held high or is it he's away from the vehicle so
16 you can see his full body?

17 **A** He's not away as far as, he wasn't against
18 it. It was like he was out from it because I was on
19 the second level. So I could see the top of the
20 vehicle, but I can't see like closer to the ground.

21 **Q** If you were closer to the car, the car
22 would be blocking?

23 **A** Yeah.

24 **Q** He was away from the car a bit?

25 **A** Yes.

1 **Q** So did you see how he was holding the gun?

2 **A** He had it like police, you know.

3 **Q** With both hands?

4 **A** Yeah.

5 **Q** Were his arms out in front of him?

6 **A** Yeah.

7 **Q** Extended like that? (indicating)

8 **A** Yeah.

9 **Q** And you said that he fired a shot and at
10 the time that he fired that shot, could you still
11 see Mike Brown or had Mike Brown disappeared beyond?

12 **A** No, I can't see him any more.

13 **Q** So at that point you don't know what Mike
14 Brown's doing?

15 **A** Right, correct.

16 **Q** And so you said how many shots did he fire
17 at that point?

18 **A** Maybe four or five, I don't know.

19 **Q** So there's a series of shots?

20 **A** Yeah.

21 **Q** Is he moving while he's shooting?

22 **A** It is like he took a couple then moved and
23 then he shot more.

24 **Q** So there is two series of shots?

25 **A** Correct.

1 **Q** And is there, if you can guesstimate, how
2 long of a pause between the two series of shots?

3 **A** Maybe a second or two, I don't know.

4 **Q** And so you said there were four or five
5 shots in that first series, I can't remember what
6 you said.

7 **A** In the vehicle it was maybe one or two
8 shots.

9 **Q** Okay.

10 **A** After the vehicle, he got out and maybe
11 took two or three shots. I didn't expect the whole
12 situation, so I wasn't counting on the bullets, so.

13 **Q** Sure.

14 **A** I was just listening and watching.

15 **Q** And I understand, and so I'm only asking
16 you to give us your best guess, okay?

17 **A** Okay.

18 **Q** There's one or two shots while he's in the
19 car, then he gets out, then you say he shoots again,
20 but is it one shot out of the car or is it, is that
21 the series of shots?

22 **A** Correct, that was the first of the series.

23 **Q** Okay. And so in that first series of
24 shots, how many do you think?

25 **A** Maybe two or three.

1 **Q** Okay. And then there's like just a couple
2 seconds pause?

3 **A** Yes.

4 **Q** And then there's another series of shots?

5 **A** Correct.

6 **Q** Can you see the officer the whole time
7 he's shooting?

8 **A** Not the whole time, because after he does
9 the first set of shots and then he runs in this
10 direction east and then he fires more shots. And
11 then I see him walking back towards my vision.

12 **Q** So at some point he disappears from your
13 sight because of the building that's between the two
14 of you?

15 **A** Correct.

16 **Q** And you hear more gunshots after that?

17 **A** Yes.

18 **Q** Okay. And then about how much time, if
19 you can guesstimate, from when the shooting all
20 stops until you see the officer again?

21 **A** Uh, maybe three seconds, four seconds.

22 **Q** And you said he's walking back towards his
23 vehicle?

24 **A** Yes.

25 **Q** What does he look like?

1 **A** I can't say he's looking like he's
2 walking.

3 **Q** Did you notice was there any blood on him?

4 **A** No. I think that he was like stumbling
5 with his hand or something. I don't know. At the
6 moment I had thought maybe he got hit or whatever
7 altercation was or something, looking at his hand.
8 I seen him do something with his hands.

9 **Q** Now, you've described that when you saw
10 the officer holding the gun he was holding it with
11 both hands, right?

12 **A** Yes.

13 **Q** So when he's walking back, do you see the
14 gun when you see him walk back?

15 **A** Yes.

16 **Q** How is he holding it then?

17 **A** Uh, with one hand, I think he was, I don't
18 know.

19 **Q** Was it in his hand or in his holster?

20 **A** I think it was in his hand.

21 **Q** In his hand. Do you remember if it was
22 pointed at anybody?

23 **A** No, it wasn't.

24 **Q** Okay. And so do you remember which hand
25 he was holding the gun in?

1 **A** No.

2 **Q** But you recall that he was doing something
3 with his hand, was it the hand that didn't have the
4 gun in?

5 **A** It didn't have the gun, right.

6 **Q** So you just made a motion with your hand
7 like you would be shaking something off on your hand
8 or shaking your hand, is that what you just kind of
9 did?

10 **A** Right, yes.

11 **Q** But you didn't see any blood on his hand?

12 **A** No.

13 **Q** Or any blood on his uniform?

14 **A** No.

15 **Q** And to your knowledge, did anybody that
16 was in your apartment that day see this?

17 **A** No.

18 **Q** Okay. So nobody else was out on the
19 stairs with you the whole time that happened?

20 **A** No.

21 **Q** Did you ever go down, did you ever go down
22 towards the street?

23 **A** Yes, after the incident took place.

24 **Q** Okay. After it happened, did you go down
25 at that point or did you go back into your

1 apartment, or what did you do?

2 **A** See, while it was going on, some people in
3 my house heard the shots. So my girlfriend came out
4 and was like, what's somebody shooting for. And she
5 was like, um, somebody shooting? I was telling her
6 the situation and so she was like, is he dead? I
7 was like, I don't know. Then she was looking at
8 other people that was around, I guess they thought
9 that he was dead. So we then walked down there and
10 was like, and he was laying in the middle of the
11 street.

12 **Q** Did you ever see the officer who shot him,
13 did you ever see that officer go down by the body?

14 **A** Uh, no, I didn't see that.

15 **Q** How about did you ever see the officer's
16 truck, did it ever move?

17 **A** No.

18 **Q** So after this happened and the police
19 came, the truck stayed there?

20 **A** Yes.

21 **Q** What about the body, other than when
22 eventually, which I know was a long time, but
23 eventually it was removed, but did you ever see
24 anybody try to move the body?

25 **A** No.

1 **Q** Okay. Did you ever hear the officer
2 saying anything or yelling or anything like that?

3 **A** No.

4 **Q** How about did you ever hear anybody else,
5 whether it was Mike Brown or the littler guy that
6 was with him, did you hear anybody saying anything?

7 **A** No.

8 **Q** And when I ask that, I don't necessarily
9 mean if you understood what was being said?

10 **A** I didn't hear anything.

11 **Q** You just didn't hear any voices or
12 screaming or anything?

13 **A** No.

14 **Q** Okay. And so, obviously, a lot of police
15 arrived after that; is that right?

16 **A** Yes.

17 **Q** And did you stay at the scene while the
18 police were investigating?

19 **A** Yes.

20 **Q** You didn't go up to the police on that day
21 and tell them that you saw part of that; is that
22 right?

23 **A** No.

24 **Q** And eventually some FBI agents knocked on
25 your door and asked if you had seen something and

1 you told them you did?

2 **A** Right.

3 **Q** And you made a statement to them; is that
4 right?

5 **A** Yes.

6 **Q** Is there anything else that you saw that
7 you think is important or that maybe I haven't asked
8 you that, let me ask you this, did you ever see
9 anything in Michael Brown's hands?

10 **A** No.

11 **Q** How about the littler guy, did you ever
12 see him hold anything?

13 **A** No.

14 **Q** Did you ever see anything fall or drop,
15 being dropped from somebody?

16 **A** No.

17 **Q** Um, did you ever see what became of the
18 littler guy?

19 **A** Um, as the shooting is going on, like he
20 hid behind the white car and then he tried to get in
21 the white car, but then I guess they denied him. So
22 he ran, I think, by then the officer was going
23 towards Mike Brown. So he ran back behind the
24 police car and ran behind right here and ran behind
25 this building.

1 **Q** When you say he ran behind the police car,
2 you said was facing west. Did he run in front of
3 the car?

4 **A** I don't remember. I just know he ran
5 behind the building.

6 **Q** Okay. And did you ever see him down at
7 the scene later that day?

8 **A** Uh, no, I don't remember, no.

9 **Q** Have you ever talked to that skinnier or
10 the littler boy about what you saw?

11 **A** No.

12 **Q** Do you remember when you were talking to
13 the FBI agents, strike that, I misunderstood
14 something, okay.

15 MS. ALIZADEH: Sheila, you have any
16 questions?

17 MS. WHIRLEY: Just a few.

18 **Q** (By Ms. Whirley) I couldn't hear you as
19 well, so if I ask you the same question again,
20 forgive me, okay.

21 There was a scuffle, you said, at the
22 car, correct?

23 **A** Correct.

24 **Q** And what could you see of the scuffle?

25 **A** Nothing but the vehicle rock.

1 **Q** But what now?

2 **A** Nothing but the vehicle rocking.

3 **Q** Okay. The vehicle, you couldn't see the
4 hands of either Mike Brown or the officer?

5 **A** No.

6 **Q** Was the officer in the car alone?

7 **A** Yes.

8 **Q** You're sure of that?

9 **A** Yes.

10 **Q** Did you see any other police cars around?

11 **A** After the situation.

12 **Q** During the scuffle?

13 **A** No.

14 **Q** And from your viewpoint, were you looking
15 at the passenger side or the driver's side of the
16 police car?

17 **A** The passenger side.

18 **Q** So you were looking through the passenger
19 side through?

20 **A** Correct.

21 **Q** You couldn't see hands or anything?

22 **A** No.

23 **Q** All right. You said that you heard a shot
24 while they were scuffling, right?

25 **A** Correct.

1 **Q** And then did the scuffle continue after
2 you heard the shot?

3 **A** Momentarily, yes.

4 **Q** Like how long?

5 **A** Um, maybe three to four, five seconds.

6 **Q** Okay. So when the shot first rang out,
7 Michael Brown did not immediately run from the car?

8 **A** I don't think so, no.

9 **Q** I'm sorry?

10 **A** No, I don't think so.

11 **Q** Okay. Did you hear just one shot at the
12 car?

13 **A** It was one or maybe two.

14 **Q** One or two, okay. So when Michael Brown
15 ran from the car, he ran, show us with the pen
16 again, or the pointer.

17 **A** East.

18 **Q** He ran east on Canfield?

19 **A** (Nods head.)

20 **Q** All right. And did the officer shoot at
21 him while he was running?

22 **A** Correct. Well, I don't know if he shot at
23 him while he was running. He ran enough past the
24 building so I couldn't see whether or not he kept
25 running or not.

1 **Q** Let me break it down a little bit. So
2 when he ran from the car you could see him running
3 from the car?

4 **A** (Nods head.)

5 **Q** What did the officer do?

6 **A** He was still in the truck getting out of
7 the truck.

8 **Q** Did you see the officer get out of the
9 truck?

10 **A** Yes.

11 **Q** When he got out of the truck, what was he
12 doing?

13 **A** He faced his direction.

14 **Q** Faced the direction that Mike Brown was
15 running?

16 **A** Yes.

17 **Q** Was Mike Brown's back to the officer?

18 **A** Yes.

19 **Q** Did he have his weapon or did you see a
20 weapon at that time?

21 **A** As he was getting out of the truck, yeah.

22 **Q** Could you show us what it looked like when
23 he was getting out of the truck? Pretend like
24 that's a weapon.

25 **A** So Mike Brown is running this way, I guess

1 he was getting ready to run towards him, or
2 whatever, I can't say the motions about.

3 **Q** But he had his weapon up?

4 **A** Not to say he got up pointing, I just know
5 he got up and he was facing his direction. So I
6 guess if he didn't get out like this, he got out,
7 took a couple steps and then faced him.

8 **Q** Well, did you see the officer facing
9 Mike's back with his weapon drawn?

10 **A** No, the officer was getting out of the car
11 as Mike Brown was running. So once he got past the
12 building where I couldn't see him no more, the
13 officer is out of the car and then pointed in his
14 direction.

15 **Q** When were you able to see the officer?

16 **A** Say that again?

17 . I do have a
18 quick question. Right after the altercation, maybe
19 during the altercation at the car, did you see a
20 minivan pull into that parking lot right directly in
21 front of where you had been sitting and someone get
22 out of that minivan, or you see anybody pulling out
23 of that lot during this time?

24 **A** I think somebody tried to come that way
25 and turned around. I remember seeing the white car

1 turn around in the street, but.

2 : Someone coming from that
3 direction, coming from West Florissant that pulled
4 into that lot?

5 **A** I really can't say. I think it was a
6 vehicle, I won't say that I know it was.

7 : This is . I have a
8 question about what Sheila was asking. I want to
9 make sure the first time after the police officer
10 got out of the car, the first shots that were fired,
11 you could not see Mike Brown at that time?

12 **A** Correct.

13 : So you don't know if his
14 back was to the officer, you assume he was, he was
15 running away?

16 **A** Right.

17 : You don't know for sure?

18 **A** Correct.

19 MS. ALIZADEH: Anyone else?

20 (End of the testimony of .)

21

22 of lawful age, having been first duly sworn to
23 testify the truth, the whole truth, and
24 nothing but the truth in the case aforesaid,
25 deposes and says in reply to oral

1 interrogatories, propounded as follows, to-wit:

2 EXAMINATION

3 BY MS. ALIZADEH:

4 Q Sir, could you state your name and spell
5 it for the court reporter?

6 A ,
7 .

8 Q And, sir, back in August of this year,
9 were you living in the Canfield Green Apartment
10 Complex?

11 A Yes.

12 Q And I am going to direct you to look at
13 Grand Jury Exhibit Number 25, which is a map of the
14 streets of the buildings that make up the Canfield
15 Apartment Complex. Do you see your building that
16 you lived in back then?

17 A Yes.

18 Q Can you use that laser pointer and point
19 to where your building was?

20 A (Indicating.)

21 Q Okay. And so we heard some testimony that
22 these buildings have three floors?

23 A Yes.

24 Q What floor were you on?

25 A The third floor.

1 **Q** Okay. And back on August 9th of this
2 year, around the noon hour, do you recall what you
3 were doing?

4 **A** I was in my room. I was, at the time,
5 video texting.

6 **Q** Okay. So at the time were you living with
7 anybody?

8 **A** Yes.

9 **Q** Was there anybody else home at the time?

10 **A** Yes.

11 **Q** When you were in your room, were you
12 alone?

13 **A** Yes.

14 **Q** Okay. So now you said you are video
15 texting, what program or what app are you using to
16 do the video texting?

17 **A** Glide.

18 **Q** So for those of us who don't do that, were
19 you doing it on your phone?

20 **A** On my phone, yes.

21 **Q** So you have like a smart phone?

22 **A** Yes.

23 **Q** That has a camera?

24 **A** Yes.

25 **Q** And so when you video text somebody, I

1 guess you can see their face and they can see your
2 face while you are talking to them?

3 **A** Yes, it is delayed, I guess, it is delayed
4 for the person receiving or sending, but it is
5 almost like maybe a little bit delayed.

6 **Q** So when you are doing this, this video
7 texting on Glide, is your phone recording what's
8 being done?

9 **A** Yes.

10 **Q** Okay. And so right around noon of
11 August 9th, you said you were video texting a friend
12 and did you hear something?

13 **A** Yes.

14 **Q** And something unusual or something that
15 was different?

16 **A** Yes.

17 **Q** What did you hear?

18 **A** I heard gunshots.

19 **Q** And so have you heard gunshots before?

20 **A** Yes.

21 **Q** So did you know that these were gunshots
22 initially, or did you think it might have been
23 something else?

24 **A** Um, living in Canfield, what I notice that
25 these gunshots were a little bit louder than what

1 I'm used to hearing. It alerted me because I had a
2 conversation with my roommate and she said, you
3 know, she said , what was that. She called me
4 , what's that, and then I said those sound like
5 gunshots.

6 Q Okay. Now, did you later discover that
7 you had actually recorded the gunshots while you
8 were video texting your friend?

9 A I -- it did not, it did not. I wasn't
10 thinking that I did, I was concentrating on sending
11 my video, but I heard it in the background, but I
12 was focused on talking to who I was talking to.

13 Q Okay. Now, you've seen that video again;
14 is that right?

15 A Yes.

16 Q And can you, that's you in the video and
17 your voice is heard in the video talking to
18 somebody, right?

19 A Yes.

20 Q And you can hear some shots in the
21 background?

22 A Yes.

23 Q Did you video, does your video capture all
24 of the shots that you heard?

25 A No.

1 **Q** And were the shots that you didn't
2 capture, were they before you started the video or
3 after the video ends?

4 **A** Before.

5 **Q** Do you recall how many shots you heard
6 before your video begins?

7 **A** Approximately two.

8 **Q** Okay. And then the recording starts and
9 you hear more gunshots, correct?

10 **A** Yes.

11 **Q** And we'll play this now, but did the
12 recording accurately record what you remember
13 hearing?

14 **A** Yes.

15 **Q** Okay. Can you give the jurors an estimate
16 as to the two that you heard before the ones
17 happened that you recorded, was there a pause
18 between those?

19 **A** There was a pause. There was a pause
20 before when I started the video, the conversation I
21 had was very short. I was just focusing, you know,
22 video chat, I didn't have a long conversation. The
23 other was just recorded as I was sending a video.

24 **Q** At some point you realized that you had
25 this video; is that right?

1 **A** Yes.

2 **Q** And I believe you contacted attorneys
3 first?

4 **A** Um, well, they contacted me.

5 **Q** Okay. And did they then contact law
6 enforcement and you tell them that you had recorded
7 these shots?

8 **A** Yes.

9 **Q** And you made, you talked to law
10 enforcement and let them examine your phone and take
11 the recording off your phone, correct?

12 **A** Correct.

13 **Q** Um, and this clip, this clip is just a
14 matter of a few seconds long, is that fair to say?

15 **A** Yes.

16 **Q** Do you mind if we play it so that you can
17 tell the grand jurors, yeah, that's me and that's my
18 voice on the clip?

19 **A** Yeah, go ahead.

20 MS. WHIRLEY: What's that exhibit number?

21 (Grand Jury Exhibit Number 59
22 marked for identification.)

23 MS. ALIZADEH: This is Grand Jury Exhibit
24 Number 59. Can you see okay?

25 **A** Yeah.

1 MS. ALIZADEH: We can listen to this as
2 many times as you want.

3 (Playing the audio recording.)

4 MS. ALIZADEH: Just before we do that
5 again, that was you on the video?

6 **A** Yes.

7 MS. ALIZADEH: And you can hear some
8 gunshots in the background?

9 **A** Yes.

10 MS. ALIZADEH: You want to hear it again?
11 Play that play again, turn it up a little bit.

12 (Playing of the video.)

13 MS. ALIZADEH: This video, you can play it
14 as many times as you want, but in light of maybe
15 letting him go and you all getting out of here
16 today, I don't have any other questions for this
17 witness. Sheila, do you have any questions for him?

18 MS. WHIRLEY: Just to make it clear that
19 you did not tape or record the actual shooting of
20 Mike Brown, did you?

21 **A** No.

22 MS. WHIRLEY: This recording that you
23 made, it was unintentional; is that correct?

24 **A** Right.

25 MS. WHIRLEY: And the actual shooting of

1 him being shot and falling, you do not have that on
2 videotape anywhere?

3 **A** No.

4 MS. WHIRLEY: Okay. That's all I have.
5 Any questions?

6 (End of the testimony and
7 end of Grand Jury Hearing Volume XIX.)

8

9 State of Missouri

10 SS.

11 County of St. Louis

12 I, , a Licensed Certified Court
13 Reporter by the Supreme Court in and for the State
14 of Missouri, duly commissioned, qualified and
15 authorized to administer oaths and to certify to
16 depositions, do hereby certify that pursuant to
17 Notice in the civil cause now pending and
18 undetermined in the County of St. Louis, State of
19 Missouri.

20 The said witness, being of sound mind and being
21 by the grand jury first carefully examined and duly
22 cautioned and sworn to testify to the truth, the
23 whole truth, and nothing but the truth in the case
24 aforesaid, thereupon testified as is shown in the
25 foregoing transcript, said testimony being by me

1 reported in shorthand and caused to be transcribed
2 into typewriting, and that the foregoing page
3 correctly sets forth the testimony of the
4 aforementioned witness, together with the questions
5 propounded by counsel and grand jurors thereto, and
6 is in all respects a full, true, correct and
7 complete transcript of the questions propounded to
8 and the answers given by said witness.

9 I further certify that the foregoing pages
10 contain a true and accurate reproduction of the
11 proceedings.

12 I further certify that I am not of counsel or
13 attorney for either of the parties to said suit, not
14 related to nor interested in any of the parties or
15 their attorneys.

1 GRAND JURY HEARING VOLUME XX

2

3 MS. ALIZADEH: Good morning. It's
4 Thursday, November 6th, 9:22 a.m. This is Kathi
5 Alizadeh, present is also Sheila Whirley, all 12
6 grand jurors are present as is , the court
7 reporter.

8 We had several minutes of discussion
9 before going on the record this morning. A lot of
10 it was to do with, some of it was to do with
11 scheduling of what we thought we had is still left
12 to do. And I hope I answered your questions about
13 that.

14 There was also talk about some concerns
15 for safety and we talked about that and I will get
16 you some information that I promise to get you.

17 And then we also talked about some
18 additional things that you all wanted us to try to
19 obtain to help you with your decision. And Sheila
20 has made a list of those things, so we'll get what
21 we can and if we can't, we'll tell you why we can't
22 get it.

23 So with that, we have our first witness
24 today is going to be You have already
25 heard from him, but he has some additional

1 information that he did not testify about when he
2 was here previously that, of course, if you recall
3 was I think the second day that you guys, might have
4 been the second or third day that you guys were
5 hearing evidence on this case. So I'll go get Dr.

6

7

8 of lawful age, having been first duly sworn to
9 testify the truth, the whole truth, and
10 nothing but the truth in the case aforesaid,
11 deposes and says in reply to oral
12 interrogatories, propounded as follows, to-wit:

13 EXAMINATION

14 BY MS. ALIZADEH:

15 Q Good morning. Can you state your name
16 again and spell it for court reporter.

17 A My name Dr. . And that's

18

19 (Grand Jury Exhibit Number 5
20 marked for identification.)

21 Q (By Ms. Alizadeh) And, Dr. , thank
22 you for coming back. I know we had you in grand
23 jury several weeks ago and you were here for quite
24 some time on the stand, and I don't think we're
25 going to need to have you here quite as long today.

1 But I did mention to you that previously you had
2 provided me with your most recent curriculum vitae.
3 I had marked that Grand Jury Exhibit Number 5. I
4 forgot about putting that on when he was here
5 previously. So can you identify that as the CV that
6 you gave me prior to your testimony earlier?

7 **A** Yes, this is the CV that I presented to
8 you.

9 **Q** Okay. And I'm going to make copies of
10 this for everybody. I, again, just kind of forgot
11 about this. I will get copies for everybody of
12 that.

13 Dr. we spoke last time
14 about how when the body or the remains of Michael
15 Brown were brought to the morgue and how he was in
16 a, is it a body bag is what you call it?

17 **A** Yes, body bag.

18 **Q** And that was like at the crime scene by
19

20 **A** Correct.

21 **Q** And then it's, the body was placed into a
22 drawer and then later removed by an employee of the
23 medical examiner's office?

24 **A** Correct.

25 **Q** And who was that?

1 some of the morgue photos?

2 **A** Yes, he does.

3 **Q** And you testified that it's procedure for
4 someone such as to check the personal items
5 that might be on the body, any body that is received
6 by the medical examiner's, correct?

7 **A** That is correct.

8 **Q** And then once the personal items are
9 removed, are they photographed?

10 **A** Yes, they are.

11 **Q** All right. So previously I had introduced
12 or offered or identified for the grand jurors a
13 packet of photographs which I marked as Number 9,
14 which are, I call the morgue photos. Those are
15 different than the photos that the police took
16 during the autopsy; is that right?

17 **A** Correct.

18 **Q** Okay. And so I'm going to hand you a
19 photo which was, is in the packet of Grand Jury
20 Exhibit Number 9, and this is, on the back it says
21 looks like, well, it says 039CD. I'm not sure if
22 that's the JPEG number or not. But I'm going to
23 just show you where I'm reading 039CD on the back
24 there. And then I'm going to show you this photo.
25 Does that look like, do you recognize that as one of

1 the photos that was taken?

2 **A** Yes, I do.

3 **Q** Okay. And the items in this photo would
4 represent the items that were on the person of
5 Michael Brown when it was received by the Medical
6 Examiner?

7 **A** Yes, they are.

8 **Q** Now, this blue thing right here, was
9 that --

10 **A** That's on the body bag that locks the
11 zipper.

12 **Q** Is that placed in the photograph to
13 further identify who these items belong to?

14 **A** Yes, it is.

15 **Q** And then there's a placard that says St.
16 Louis County and a number beneath it?

17 **A** Yes, there is a number.

18 **Q** And I assume that was not on his person,
19 correct?

20 **A** No, it is not.

21 **Q** And is this number the Medical Examiner's
22 number?

23 **A** That's the Medical Examiner's number.

24 **Q** Okay. I will go ahead and put this on
25 here, and I will pass it around too. But you see in

1 this photograph two, 5 dollar bills, two, looks like
2 disposable lighters, some paper that has some
3 writing on it, and then this item that you talked
4 about right here. Is that the lock that came off of
5 the body bag?

6 **A** Correct.

7 **Q** Okay. And this is your placard right
8 here, correct?

9 **A** Yes, correct.

10 **Q** And this looks like part of a wrapper for
11 something?

12 **A** Correct.

13 **Q** And then what is this item right here?

14 **A** Leafy green substance.

15 **Q** Okay. And these items were all found by
16 on the body?

17 **A** Correct.

18 **Q** Now, Dr. you talked about when
19 you were here previously that during your
20 examination you looked at an injury or wound on the
21 palm of the right hand of Michael Brown. Just, I
22 can't remember how, is this --

23 **A** It is on the palm.

24 **Q** On the palm?

25 **A** It is the palmer surface on the hand.

1 **Q** Okay. Near the right thumb or thumb?

2 **A** Right, correct.

3 **Q** And you indicated or you testified last
4 time that you thought that that looked suspicious
5 for possible soot or something that you wanted to
6 examine further?

7 **A** Correct.

8 **Q** And you also testified back then that you
9 had cut a piece of that tissue off of the body for
10 you to then later examine; is that right?

11 **A** Correct.

12 **Q** So I know you've already testified about
13 that, but we, I want to go into a little more detail
14 because since you were in grand jury, you've
15 completed a report about your examination of that
16 tissue, correct?

17 **A** Correct.

18 **Q** And so once you cut that tissue out
19 because you and I talked about this in a little
20 greater detail since you were here previously, once
21 you cut that tissue out, what did you do with it?

22 **A** Okay. So anything that I have on the body
23 that I'm concerned about that I would like to
24 perform histology on, which I will get to in a
25 second. I take that fresh tissue, I mean, it hasn't

1 been altered or anything, it hasn't been washed, it
2 hasn't been manipulated. I take those pieces of
3 tissue and I put them in a cassette. The cassette
4 is simply a plastic chamber that holds the tissue so
5 that it doesn't get lost or moves around and it
6 stays positioned how it's put when I put it in the
7 gray cassette.

8 From that point I take that gray
9 cassette and I put it in another container and it is
10 filled with a fluid called formalin. Formalin is
11 simply a preservative that gets the tissue in a
12 state of preservation where it can now be prepared
13 for the next step of processing.

14 So when I took the piece of tissue
15 off to put in a cassette and I put it in formalin
16 for later processing, that's what I did initially.

17 **Q** So did you do with then, is it still in
18 this cassette then?

19 **A** Yes, the tissue remains in that cassette
20 in that fluid until it is transported to another
21 facility where they will process the tissue.

22 **Q** Okay. And so where does the tissue go
23 from there?

24 **A** So after it leaves my position at the St.
25 Louis County Medical Examiner's Office, it is then

1 sent to the St. Louis University Medical
2 School/Histology Department where it will be
3 processed.

4 (Grand Jury Exhibit Number 75
5 marked for identification.)

6 **Q** (By Ms. Alizadeh) And I showed you this
7 morning some photographs that I have put in an
8 envelope marked Grand Jury Exhibit Number 75. And
9 do you recognize what's in those photographs?

10 **A** Yes, I do recognize what is in these
11 pictures.

12 **Q** And what are those pictures of?

13 **A** The pictures that I'm looking at right now
14 are the samples of tissue that I took from
15 Mr. Michael Brown's right hand that I put in that
16 formalin liquid that I spoke with you earlier,
17 transported it to the St. Louis Medical School for
18 Histology and then it is processed. That tissue is
19 then put in a wax to keep everything positioned and
20 that's what I'm looking at right now.

21 **Q** Okay. So this is after the medical school
22 has put the tissue in a wax?

23 **A** Correct.

24 **Q** And so you've seen this before?

25 **A** Yes.

1 **Q** Not only these photographs, but this would
2 be how you would preserve and process any tissue
3 sample that you might want to look at
4 microscopically?

5 **A** Correct.

6 **Q** And so I'll just show you, this is image
7 number one and again these, this box here, is that
8 the cassette or is that a box?

9 **A** It could be either/or. It could be
10 representative of the cassette or something else
11 that they used.

12 **Q** So these reddish, beige-ish brown things
13 inside, that's the actual tissue?

14 **A** Yes.

15 **Q** Okay. And these are numerous photos of
16 the same tissue; is that correct?

17 **A** That is correct.

18 **Q** And there's a ruler next to the box that
19 kind of gives you perspective on the size, correct?

20 **A** Correct.

21 **Q** Do you weigh these tissue at all?

22 **A** No, I do not.

23 **Q** Okay. And there's markings on the side of
24 that box, did you make those markings?

25 **A** No, I did not.

1 **Q** You recognize these as the tissues that
2 you had removed?

3 **A** Yes, I do.

4 **Q** Okay. And I just put on the overhead
5 Grand Jury Exhibit Number 1 through 5 to show the
6 grand jurors.

7 Now, we see this is a larger kind of
8 tray, do you know what that is?

9 **A** It was just a tray for transportation
10 purposes.

11 **Q** Okay. All right. So once the medical
12 school histology lab places this tissue in paraffin,
13 what does it do then to prepare it for examination?

14 **A** So after the tissue is put in that wax
15 substance that you saw, that's the paraffin
16 material, at that point, that block of tissue is now
17 taken to be sliced with a microtone blade, which is
18 a very sharp blade that slices very thin segments,
19 about five micrometers, which is very thin, pieces
20 of wax tissue with the tissue embedded.

21 That slice is then put on a glass
22 slide and it is then counterstained by adding a pink
23 solution and a purple solution. One is called eosin
24 and the other is called hematoxylin. And then that
25 slide now has been prepared where I can look at it

1 under my microscope and examine it at a histological
2 level.

3 Q Did you ultimately receive some slides
4 from the medical school that were actual, this
5 tissue that you had removed from Michael Brown's
6 right palm?

7 A Yes, I do.

8 Q Okay. Did you examine those slides under
9 a microscope?

10 A Yes, I did.

11 Q And again, you've already testified about
12 this, but I'm going to, did you take photographs of
13 those slides as well?

14 A I did take some photographs of the slides.

15 Q Okay.

16 A Or representative photos of some of the
17 pieces. It is not everything.

18 Q And you know, Dr. , I didn't have
19 the opportunity to show you this this morning
20 because by the time you got here, the grand jurors
21 were already here. So I'm going to show you a
22 photograph that's on Disc Number 79, Grand Jury
23 Number 79, which actually just to tie things in, did
24 you later time send some of those photographs and
25 the actual slides to the Department of Defense

1 Medical Examiner for them to also examine?

2 **A** Yes, I did.

3 **Q** Okay. And we're going to hear from that
4 doctor after we hear from you. Actually, just have
5 to ask you if you recognize this picture?

6 **A** Yes, I do.

7 **Q** You recognize what you are seeing up
8 there?

9 **A** Yes, I do.

10 **Q** And so is this a picture of what you would
11 see in the microscope when you were examining that
12 tissue?

13 **A** Yes.

14 **Q** And does this picture help you to explain
15 to the grand jurors what you are looking at when you
16 previously testified that you saw some particulate?

17 **A** Just to take a step back and just to
18 preface again, this is just, there are a lot of
19 pieces of tissue that you saw on that paraffin
20 embedded block. So when you take a slice of that,
21 all of those slices are represented on one slide.

22 So what you are looking at right now
23 is just a small corner of one of those tissue
24 fragments. So we are not looking at all of those
25 slices at one time.

1 So this is merely just a corner or a
2 piece of some of that tissue.

3 **Q** You can use this if you feel it will help
4 you. It will pick up your voice.

5 **A** All right. So for histology, what I was
6 telling you about the colors and the purple and the
7 pink, once that waxed tissue is stained, it give us
8 this pinkish color and some of these things here is
9 the purple color. I spent a lot of time knowing
10 what each thing is, I will just try to keep it as
11 simple as possible.

12 So you are looking at the edge of the
13 tissue and the tissue that I took was from that
14 wound that I passed around and showed up before. I
15 took little samples of those and those were
16 represented in the paraffin block that I showed you.
17 This is the histology.

18 So here, this is just regular, you
19 know, normal tissue of the hand, this pinkish
20 material, but here you can see these little darker
21 areas, these little pigmented flakes, these are the
22 foreign particulate matter that I was talking about
23 that is not native to his hand. It had to be
24 introduced into his hand from another source and
25 that's some of those particulate matter that I was

1 talking about previously. Like that right there,
2 that right there, that right there. (indicating)

3 As I said before, this is merely just
4 a representation, there are other areas on this
5 slide, but this is just a representative of some of
6 that matter that I saw.

7 **Q** And so you have already testified that in
8 your opinion those particulate, the particulate?

9 **A** Particulate matter.

10 **Q** Matter, that is consistent with soot?

11 **A** I would say it is consistent with products
12 that are discharged from a firearm. What I was
13 telling you guys before, there is lots of things
14 that can come out of a firearm. Remember I was
15 telling you guys talking about the primer, the
16 primer on the cartridge is the combustible material
17 that ignites that, then lights the gunpowder, which
18 then propels the bullet. All of those substances
19 together are kind of coming out of that barrel.

20 So the definition of soot is actually
21 burned gunpowder. So there can be different types
22 of things in there. You can have burned, you can
23 have unburned, you probably could have primer, have
24 lots of different types of materials.

25 For myself, a better way to say it is

1 this is just foreign particulate matter consistent
2 with products that can be discharged from the
3 firearm.

4 So soot could be in there, I mean,
5 it's a lot of material.

6 Q Now, did you do any testing to determine
7 if that is, in fact, product from a gunshot?

8 A No, I did not do any specific testing for
9 that.

10 Q Do you do gunshot residue testing in your
11 lab?

12 A In my area, I do not do that.

13 Q Okay. And, Dr. , could those
14 black or darker particulate matters that we can see
15 on that image on the slide, could that be dirt?

16 A In my personal opinion it is not.

17 Q Okay.

18 A But it is due to the circumstances and
19 things that I know about in this case why I feel
20 that that's not dirt.

21 Q And what would those circumstances be that
22 you feel that it's not dirt?

23 A So, got to kind of follow me here, okay.
24 When I get the body, I don't alter it, you know, I
25 don't wash it, I don't do anything to it if there is

1 something of interest that I'm trying to see.

2 So in this particular situation when
3 I look at some Michael Brown's hand there was kind
4 of an area of discoloration in his thumb area on his
5 right hand that I was concerned about that this
6 could be some type of material discharged from a
7 firearm.

8 To myself in looking at it, it is
9 kind of like an experience thing, when I was looking
10 at it, just the color of it, the nature of it, it
11 didn't look like dirt to me. Specifically right
12 near the wound, when I think about dirt, we have all
13 been children or working on things that you have
14 dirt, like dirt is all over your hands, it is not
15 like in one little particular corner.

16 So essentially it was associated with
17 that particular area and it just looked different to
18 me. I did not think that this was dirt and that's
19 why I decided to take the next step to look under
20 the microscope to confirm what I was looking at
21 through my eyes.

22 So that the next step was doing
23 histology. So when I did this and I saw these
24 little molecules here, the fact that they are very
25 darkly pigmented, they are embedded in the tissue,

1 it is hard for dirt to introduce itself into tissue.
2 Dirt usually sits on top of things, it doesn't get
3 into things.

4 So the fact that this is in the
5 tissue, that let's me know that it had to be
6 introduced into the tissue and that is going to be
7 more consistent with products that are going to be
8 discharged from a firearm that would be able to
9 insert itself or get itself into those tissue. So
10 that's why I feel this is not dirt, and this is
11 particulate matter from the discharge from the
12 firearm, if that makes sense.

13 Q And, Dr. , we talked about the
14 fact that, you know, you've already testified about
15 what the immediate affects would have been to
16 Michael Brown once the gunshot wound that entered
17 the top of his head and traveled through his brain
18 and exited out by his jawline, somewhere around
19 there, that that was actually, would have
20 immediately rendered him incapacitated?

21 A Right. And just to back up, the wound
22 that was going to be the more incapacitating, you
23 know, the one that actually went in the top of the
24 head and stayed in, there was another one that came
25 over the brow that came out of the face, but the one

1 that went in and stayed in, that's the one that was
2 going to render him immediately unconscious.

3 Q And a person who was still perhaps on his
4 feet who would receive that wound would immediately
5 fall?

6 A Correct.

7 Q And would they be able to put their hand
8 out to brace themselves for a fall?

9 A No.

10 Q I don't know if you've seen those
11 photographs at this time. These were images that
12 were taken at the crime scene by Detective
13 and they are contained in a packet that I've
14 marked Grand Jury Exhibit Number 3. And I'm going
15 to show you Image Number 70 through 75, which are
16 pictures of Michael Brown at the crime scene. Can
17 you see the hand area that you were looking at
18 during your autopsy?

19 A Yes, I can.

20 Q And if you can look at various pictures
21 because it might show different views of that. His
22 right hand is alongside his body, a little out from
23 the body, but his palm is facing upward in those
24 photographs; is that right?

25 A That is correct.

1 **Q** So he's not, the injured area is not
2 against the pavement?

3 **A** No, it is not.

4 **Q** All right.

5 MS. ALIZADEH: Does anybody want to look
6 at these if I pass them around?

7 **A** And it is showing the hand is exposed to
8 air and not the ground. So it is not touching the
9 ground, it is touching the air. You should be able
10 to see the darkened area on the skin, that's that
11 wound of the hand that I testified about earlier.

12 **Q** (By Ms. Alizadeh) Thanks, you can have a
13 seat.

14 Dr. , did you prepare a
15 supplemental microscopic examination report
16 regarding your findings after you examined the
17 slides that were prepared by the medical school?

18 **A** Yes, I did.

19 (Grand Jury Exhibit Number 77
20 marked for identification.)

21 **Q** (By Ms. Alizadeh) And is Grand Jury
22 Exhibit Number 77, is that a copy of your report?

23 **A** Yes, this is a copy of my report.

24 **Q** Okay. Just could you read that and
25 interpret, I don't know, tell us what it says

1 because --

2 **A** I will try my best. So start from the
3 very beginning, upper left-hand corner you have
4 Michael Brown and then upper right-hand corner you
5 have our case number 2014-5143, exam case. And then
6 it is headed as Supplemental Microscopic Examination
7 Report.

8 Then the next line is, Microscopic
9 Slide Examination.

10 And then the next paragraph, that's
11 where I start to begin to describe some of the
12 particular features that I'm seeing on the slides
13 that were prepared of Mr. Mike Brown's gunshot wound
14 to the hand.

15 So starting with skin and muscle I
16 say, sections of the tissue from the right hand show
17 multiple fragments of skin and single fragment of
18 skeletal muscle.

19 What I was telling you before there
20 is all of those little bits of tissue there, there
21 is different fragments there and then one of those
22 pieces was a piece of muscle, but it is not
23 represented on what you just saw there. That was
24 just one of the pictures and there is lots of things
25 to look at, but that's in totality what I'm looking

1 at.

2 So all of those fragments in that
3 tissue block I looked at each individual one of
4 them, every little corner under the microscope, so
5 that is what that first sentence means.

6 Next, I say there is a darkly
7 pigmented foreign particulate matter present on the
8 superficial surface.

9 So that dark material that you guys
10 saw, that is more in a deeper layer of the tissue,
11 but on the top. Like if you think of the top of a
12 cake, some of that similar type of material is
13 sitting on the superficial, that means the top
14 portion of some of those skin fragments.

15 And the stratum corneum, on your hand
16 skin has different layers. On your palmer skin, you
17 have a very thick layer called stratum corneum, it
18 is kind of the more superficial layer of your skin.
19 It is kind of like where your skin eventually sheds
20 and it's kind of similar to what dandruff is. That
21 is what the stratum corneum is.

22 So that particular layer there is
23 pigmented material embedded within that superficial
24 layer.

25 As I was telling you before,

1 something has to introduce or cause those little
2 particles to get pushed into that particular area,
3 and that's what I'm talking about right here.

4 Also embedded within the stratum
5 corneum of the skin fragments. A mixture of
6 pigmented and non-pigmented foreign particulate
7 matter is present focally within the dermis.

8 So when I was showing you that
9 previous picture, there was pigmented material, that
10 was the darker material and there was some, some
11 things a little white in there, kind of shiny,
12 that's the non-pigmented material. So there is a
13 spectrum of items within the skin and that pink area
14 that I was showing you, that's the dermis.

15 So when you have skin, you have the
16 stratum corneum, you have a granular layer, beneath
17 that you start to get into your connective tissue
18 layer of your skin, which is the next layer beneath
19 and that's where you will kind of see pinkish
20 tissue, that's the dermis.

21 So in the dermis, deeper into the
22 tissue below the skin, you still have those little
23 foreign particulate matter introduced into the
24 tissue.

25 So some of the skin tissue fragments

1 within the skeletal muscle tissue fragment. So as I
2 was telling you before, in all of those little
3 pieces that I had there were different types of
4 tissue, I had a piece of skeletal muscle. Skeletal
5 muscle is even deeper than the skin, deeper than the
6 dermis and the next layer will be muscle.

7 So deep in that tissue injury I took
8 some muscle out too. The muscle that I looked at
9 under the scope also had some of that foreign
10 particulate matter. So this matter, this foreign
11 material was getting embedded deep into the tissues.

12 Some of the non-pigmented particulate
13 matter is polarizable. All that means is that when
14 you polarize something, polarize means basically
15 reflecting light. So there is some of the material
16 that's in there is able to reflect light and some of
17 the material doesn't. It is kind of a nonspecific
18 thing, but it is important for me to describe
19 everything that I'm seeing to let, you know, let
20 people know that there is a mixture of things in
21 here.

22 But some reflect light, some don't.
23 The previously described particles of foreign
24 particulate matter are consistent with the products
25 that are discharged from a barrel of a firearm.

1 That last statement is simply meaning
2 that the things that I'm seeing under the scope in
3 my opinion are being introduced into the hand as
4 foreign material coming from another source. And
5 that other source, in my opinion, what I'm seeing is
6 consistent with coming from the barrel of a firearm,
7 not being dirt introduced from another place, but
8 specifically coming from something else due to the
9 nature of the particles, how they're distributed in
10 the skin, where they are distributed in the skin,
11 and how they got into those particular levels.

12 **Q** Dr. , you previously testified
13 about how close the barrel or the muzzle or the end
14 of the barrel of a firearm would need to be deposit
15 those type of particulate or those products once the
16 firearm is discharged.

17 Can you give us an estimate or a
18 range as to how far away the barrel would have been?

19 **A** In my opinion, the range would be about 6
20 to 9 inches away.

21 **Q** Okay. Could, do you have a terminology
22 that you use such as contact, close contact, medium
23 range or something of that nature?

24 **A** I would say this is consistent with a
25 close range wound.

1 **Q** Okay. Now, contact wound that would be
2 with someone actually, the barrel could possibly be
3 touching the skin; is that right?

4 **A** Correct.

5 **Q** Could you, if the barrel was touching the
6 skin, would it look the same or different?

7 **A** It would look different.

8 **Q** Okay. And so, in your opinion, is it your
9 opinion that the barrel of the gun was not touching
10 the hand of Michael Brown if, in fact, one is to
11 conclude that this is gunshot products from a gun?

12 **A** Correct.

13 **Q** That the actual barrel of the gun would
14 not have been up against the hand?

15 **A** Correct.

16 **Q** Now, let's talk about one more finding
17 that you made after you had testified previously.
18 You were given something to examine that was
19 described by our St. Louis County Crime Laboratory
20 as skin or hardened nasal mucus?

21 **A** Correct.

22 **Q** Were you aware that the St. Louis County
23 Lab had done a DNA analysis on that --

24 **A** Yes.

25 **Q** -- thing?

1 **A** Yes, I was aware.

2 **Q** Were you aware that they had concluded
3 that, whatever that thing was, contained Michael
4 Brown's DNA?

5 **A** Yes.

6 **Q** So was that thing given to you for you to
7 examine to see if you could determine what it was?

8 **A** Yes, it was.

9 **Q** Okay. And what did you do with that thing
10 in order to determine what it was?

11 **A** So as I described to you all previously
12 with those tissue fragments from Mr. Michael Brown's
13 hand, that process of taking the fresh tissue,
14 putting it in the formalin, putting it in the
15 cassettes, sending it to SLU for processing, getting
16 it sliced out of the paraffin block, put it on the
17 microscopic slide, getting it stained and then
18 coming back to me on a glass slide. That whole
19 process happened again with this extra piece of
20 tissue that I was given to look at independently.

21 **Q** And when you looked at it, did you make
22 any findings as to what that thing was?

23 **A** Yes, I did.

24 **Q** And what did you conclude that it was?

25 **A** I determined that it's a fragment of skin

1 associated with some connective tissue, that's just
2 supportive tissue beneath the skin layer.

3 **Q** Can you tell where on the body that skin
4 comes from?

5 **A** Um, not definitively.

6 **Q** Okay. Do you have an educated guess or in
7 your medical opinion, do you suspect it comes from
8 one place as opposed to another?

9 **A** Um, I guess I'll preface it with this.
10 Within a skin sample, there's a variety of cellular
11 elements meaning different types of cells that are
12 present within our bodies and, um, at times there is
13 a cell called melanocyte. It's our cell that's
14 responsible for producing pigment.

15 That particular cell when it makes
16 its pigment, it kind of gives it away to another
17 cell type, which is called a keratinocyte. In this
18 particular cell at the junction between the dermis
19 where I was telling you guys that connective tissue
20 layer is, it's at the bottom part of the legitimate
21 skin layer.

22 These two cells are kind of in
23 contact with each other and they communicate. So
24 the melanocyte makes the pigment, gives it to the
25 keratinocyte, which kind of absorbs it and then it

1 kind of allows skin to kind of display its pigmented
2 characteristics.

3 And the particular sample that I
4 received to look at independently, there are
5 keratinocytes there, but they are not picking up a
6 lot of pigment.

7 So in my personal opinion, this
8 particular skin fragment has to be from an area of
9 the skin that is not highly pigmented. There is a
10 few places on the body, especially for someone whose
11 skin is of a pigmented nature, where you can have a
12 more likely pigmented type skin.

13 And I'd like to show you, if you look
14 on the back side of my hand here, if I looked under
15 a scope on a piece of my skin under the microscope,
16 I would see more pigmented keratinocytes present,
17 but on this side of my hand it is more lightly
18 pigmented, they are not going to be as prominent or
19 being as significant.

20 So saying all of that, the fact that
21 that's specimen that I do have, there aren't a lot
22 of pigmented keratinocytes. So I suppose that this
23 fragment is coming from an area where the skin is
24 lightly pigmented.

25 Q Okay. Such as the palm of the hand?

1 **A** Correct.

2 **Q** But you can't say definitively that that
3 tissue comes from the palm of the hand of Michael
4 Brown?

5 **A** Correct.

6 **Q** And did you prepare a report that
7 documented those findings?

8 **A** Yes, I did.

9 **Q** Okay. And I will have to give you the
10 marked copy.

11 (Grand Jury Exhibit Number 78
12 marked for identification.)

13 **Q** (By Ms. Alizadeh) I'm going to give you
14 Grand Jury Exhibit Number 78. Is that a copy of
15 your supplemental microscopic examination report
16 regarding your examination of that, what we now know
17 is skin tissue?

18 **A** Yes, it is.

19 **Q** And I'm going to put this up here as well
20 so that jurors can look at it and follow along. Can
21 you read from that report and then, you know,
22 describe for them what you are talking about?

23 **A** Okay. So we'll just start from the very
24 top on the upper left-hand corner. You have Michael
25 Brown's name and then on the right-hand side you

1 have once again the examination 2014-5413. You have
2 the heading, Supplemental Microscopic Examination
3 Report.

4 Then you have Microscopic Slide
5 Examination, and then you have the body of the
6 paragraph where I preface by saying tissue fragment.

7 And then I say sections of the tissue
8 fragment from the exterior surface of the police
9 officer's motor vehicle. I say that because that's
10 where I knew where it came from, so I'm just trying
11 to give it a description so that if someone looks at
12 this later on, this kind of identifies where I got
13 the tissue from and also helps to remind me where it
14 came from.

15 Are consistent with a fragment of
16 skin overlying soft tissue and then I put in
17 parentheses connective tissue. So when I'm looking
18 at this particular fragment there is characteristics
19 of cutaneous skin that let me know histologically
20 that it is skin as opposed to something mucosal.
21 When I say mucosal, like the inner side of your lip,
22 that's an epithelial surface, meaning the outer
23 layer of cells that surfaces a lining, but it is a
24 different type of tissue being that it is mucosal.

25 The difference between mucosal and

1 actual true skin, there's something called a
2 granular layer. On the histology, and when I was
3 talking about like the stratum corneum, you have the
4 granular layer and you have another layer, you have
5 a basilar layer. All of these things are kind of in
6 a continuum.

7 A granular layer is specific to skin
8 that's on the outside of a body, it is not mucosal.
9 So this particular fragment that I'm looking at has
10 a granular layer.

11 Since I see that, that let's me know
12 that it is definitely exterior skin and that's how I
13 know it's skin. And then the next part where it
14 says overlying soft connective, the skin surface
15 sits like on the level and beneath that you have a
16 supporting layer of tissue. The supporting layer of
17 tissue is this connective tissue layer that I'm
18 talking about here.

19 Then I say there are features of
20 desiccation/drying artifact. This particular piece
21 of tissue that I had that was, you know, was sitting
22 outside on a car door for an extended period of time
23 before, let me back up.

24 Before I got a chance to put it in
25 formalin, it has been exposed to air, other type of

1 things that can cause it to dry out, that's all
2 desiccation means. It is kind of an artifactual
3 change of it drying out, not being put in
4 preservative, that would kind of halt or stop that
5 process.

6 So for an extended period of time, I
7 don't know how long it took before it got to me, but
8 those features are there, it is hardened, it dried.
9 I can appreciate those changes under the microscope.
10 Those changes under the microscope look like little
11 circles or kind of like pockets of air, kind of
12 looks like swish cheese, in a way to think how the
13 little pockets of swish cheese are. That's cause
14 the tissue has kind of been affected by these drying
15 changes and causes that artifactual change on my
16 slides, so that's what I'm talking about right
17 there.

18 Then I say there is a granular layer
19 present within the upper layer of the stratified
20 squamous epithelium.

21 So that granular layer that I just
22 spoke to you about, that's how I definitively know
23 that this is a skin sample from the outer surface of
24 the body skin surface.

25 And the stratified squamous

1 epithelium is just how I as a pathologist describe
2 this particular type of skin set. There is
3 different types, but this particular type that you
4 have on your skin is known as stratified squamous
5 epithelium, so it is just a name.

6 So focally, lightly pigmented
7 keratinocytes are present within the basal layer of
8 the stratified squamous epithelium.

9 So that's just going back to what I
10 was telling you before, you have that relationship
11 between the melanocytes, who are responsible for
12 making pigment. They give that pigment up to this
13 keratinocyte, who holds onto it and eventually over
14 time, you know, they will migrate up and disappear.

15 But this particular cell type is not,
16 it is present, but it is not overly pigmented. So
17 it was important for me to describe that to maybe
18 suggest potentially where this piece of tissue may
19 have come from and that's what I'm saying in
20 essence.

21 **Q** Okay. I'm not even going to try to
22 summarize that because I can't pronounce half the
23 things you just said. I'm passing out copies of
24 your two supplemental reports to the grand jurors
25 and at this time I don't believe I have any other

1 questions.

2 MS. ALIZADEH: Sheila, do you have any
3 questions for Dr. ?

4 Q (By Ms. Whirley) Hi, Dr. .

5 A Hi, how you doing.

6 Q Are you able to tell regarding the handle,
7 how the injury occurred. For instance, whether he
8 was grabbing the gun, shot went off and hurt his
9 hand or if he was trying to block the weapon or stop
10 him from shooting him, can you give any insight into
11 that?

12 A No, I cannot.

13 Q Why is that?

14 A Due to the nature of the wound, really all
15 the information in my report is saying is that it is
16 helping me with a distance. How far away this gun
17 was discharged when this wound was generated. So
18 other than the fact knowing it is a tangential graze
19 wound and it is a wound of close range, I can't say
20 any more about it because the information that I
21 have, that's all it is telling me.

22 . I thought
23 before, if you could remind us, do you know the
24 direction in which the wound, the gunshot would have
25 entered?

1 **A** So when I was telling you guys before
2 there's, when you get, not all the time, but with
3 graze wounds you can get injury called skin tags or
4 you get these little projections of tissue that
5 point a particular way.

6 So in a situation for Mr. Michael
7 Brown, the skin tags were going in an upward, let me
8 back up. When I do my diagram, it is like this,
9 anatomical position, you are like this. So with his
10 wound --

11 MS. ALIZADEH: Would this help? This is a
12 picture that I am using, which was taken during the
13 autopsy and it is in the packet of Grand Jury
14 Exhibit Number 7, and it is Image Number 49. If it
15 is easier, you want me to turn the lights down?

16 **A** Yeah. The tips of Mr. Michael Brown's
17 fingers will be out here. That's my hand
18 manipulating his hand. So those skin tags I'm
19 talking about kind of look like little shark teeth,
20 these are the little skin tags I'm talking about.
21 These tags are pointing this direction, they're
22 point that way.

23 So the barrel of the gun points
24 towards the tags.

25 MS. ALIZADEH: So let me do this. I'm

1 using my hand as a gun. So would the barrel be in
2 this --

3 **A** The barrel is in that position and the
4 bullet is going in that path just like that, that's
5 the way it is going. (indicating)

6 So when I put it on a body diagram,
7 I'm like this. It's going in an upwards fashion.
8 It doesn't mean it is going upwards, but that's the
9 way that I have to present it to give a reference
10 point of the injuries on a body diagram.

11 But what it is saying in realtime is
12 the hand can be positioned in all kind of fashions,
13 but that gun barrel is going to have to stay like
14 that. It has to be coming in a fashion like this.
15 It can't change, it can't start coming this way, it
16 can't. It has to always be in relationship like
17 this. (indicating)

18 Where the hand could have been like
19 that generating the wound, the hand could have been
20 like this generating the wound, and it could have
21 been like this generating the wound, but they have
22 to stay in this locked position, that's the only way
23 it can be. (indicating)

24 : How long from the first
25 examination to the further examination that you did,

1 how long of a time was it that you got those
2 samples? You said you put them in a preservative
3 liquid.

4 **A** Uh-huh.

5 Was there any
6 deterioration or anything from the time when you
7 received it until you did the second examination?

8 **A** So in terms of processing that tissue, so
9 I did the examination on August 10th. I immediately
10 took samples, I cut little pieces out with scissors
11 from kind of randomly around this area where it is
12 kind of discolored. That's the area that I'm most
13 suspicious for, concern for, for some type of
14 particular matter or deposition of foreign material.

15 I cut those out and immediately put
16 them in preservative solution of the formalin as
17 soon as I took them off that day.

18 : Okay.

19 **A** Once they go in that solution, no more
20 desiccation, nor more changing, nothing else is
21 going to happen to it with the histology that I did
22 of this wound.

23 That other tissue didn't get a chance
24 to go into formalin immediately. I don't know where
25 it sat, it could have been in a cooler or an air

1 room temperature room, I don't know, but it didn't
2 get into formalin until I got it until weeks later
3 after the event occurred when it was given to me.

4 : That couldn't affect the
5 way the particulates appear?

6 **A** Just to make sure we are talking about the
7 same specimen. For the things that I took here,
8 once I put those into the solution, they are going
9 to be preserved and nothing is going to be altered.

10 : Okay. That was the other
11 thing, wasn't it, I'm sorry.

12 **A** So once it goes into that tissue, I'm
13 sorry, once it goes into that liquid, then goes to
14 my histology lab and then, you know, through a
15 series of steps before it gets put in that wax.

16 : So the tissue you got
17 from the hand was preserved right away?

18 **A** Correct.

19 : I just want to clarify
20 because I understand you said it was sent to the
21 medical school histology department?

22 **A** Correct.

23 : But those are not
24 students examining those?

25 **A** No.

1 : They are present, but
2 they are not the ones in charge, they could be
3 present.

4 **A** To my knowledge there's no medical
5 students affiliated with that laboratory.

6 : They are done at a
7 professional level?

8 **A** They are done by technicians who are
9 certified to do that type of work.

10 Okay. You said that dirt
11 doesn't embed the way the soot would. I'm going to
12 say soot, I know you can't verify that. I'm just
13 going to call it that for right now. I know that we
14 see that the hand, the hand palm is upright.
15 Michael was almost 300 pounds and when he fell,
16 could his hand have hit and moved and embedded dirt
17 in there. Is there any way that that could be
18 mistaken for dirt in your professional opinion?

19 **A** I don't think so.

20 Okay.

21 **A** And it goes back to the situation.

22 : Your experience and
23 everything like you said?

24 **A** I'm looking at it in totality.

25 : One more, I'm sorry.

1 **A** No problem.

2 : You said that you could
3 tell that his hand wasn't on the barrel of the gun?

4 **A** Yeah, I can't determine that though.

5 You don't know that it
6 was or you know that it wasn't?

7 **A** On the information on my report, the
8 information on my report is saying it is kind of a
9 thing of static time.

10 : Okay.

11 **A** Having the presence of that material,
12 seeing that it is a graze wound, the way that things
13 are pointing, putting all of those things together,
14 I know it is a close range wound.

15 : Okay.

16 **A** That's all that it is saying. It doesn't
17 help me to say when it happened.

18 : Or even how for?

19 **A** I have a how far. It is about 6 to
20 9 inches when that wound was generated.

21 But you cannot tell?

22 **A** I don't know where in the process, like I
23 said, I can't put an opinion on did he have it and
24 he pulled away, then something happened or was he
25 going towards it and something happened, I can't

1 even talk about that component of things. All I can
2 say is that his hand was about 6 to 9 inches away
3 when that gun went off.

4 Okay.

5 **A** That's all that I can say.

6 Thank you so much.

7 MS. ALIZADEH: And just let me clarify
8 too, the tissue that was on the side of the police
9 vehicle, did you see any of the particulate matter
10 in that sample?

11 **A** No, I did not.

12 MS. ALIZADEH: When you examine the right
13 hand and in particular the palm of Michael Brown and
14 not just the wound, but the entire palm, did you see
15 any dirt or debris on his, on the palm of his hand.

16 **A** When I examined, the only area of
17 discoloration that I was concerned of being
18 something, I guess, not native to his hand was right
19 here in this region. The rest of his hand is clean.
20 You can see it is a normal palmer hand except when
21 you get into this area associated with the wound.

22 : I do want to reiterate
23 something that you said. You can't tell from this
24 whether he was pulling away or going toward?

25 **A** No.

1 : You can only tell the
2 direction of the discharge of the gun?

3 **A** That's correct.

4 He could very well have
5 been pulling away to leave?

6 **A** He could of, but I can't make a statement
7 to that.

8 : I'm done, I promise.

9 **A** The information I have does not help me
10 with determining that scenario definitively.

11 When
12 you do, did you obtain the specimen for just leaving
13 for toxicology.

14 **A** Uh-huh.

15 : We have the toxicology
16 and blood and urine, we don't have anything about
17 the liver and brain. Do you know if it is negative
18 or what?

19 **A** With toxicology?

20 MS. ALIZADEH: You can sit if you want.

21 **A** I don't know if I have to move or
22 something.

23 MS. ALIZADEH: You can get up if you want
24 to again.

25 **A** With toxicology, you kind of have some

1 flexibility in what you want to take, but standard
2 specimens that I take on a full examination pretty
3 much every time I always take some type of blood, I
4 try to preface where it is coming from. I take
5 urine and I also take vitreous fluids, which is
6 fluid from the eyes, and I take liver and I take
7 brain.

8 I have to specifically tell the tox
9 lab to test the brain and the liver if I'm concerned
10 or worried about substances being in those organs.
11 So for this particular case, the substances that
12 were generated were active and metabolites of
13 marijuana.

14 Those particular things are found in
15 the blood and it is not necessary to correlate them
16 to the brain or the liver. The blood samples are
17 going to give an accurate representation of the
18 levels that were in his body at the time of his
19 death.

20 So submitting the brain and the liver
21 is unnecessary.

22 : Okay.

23

24 **A**

25 : And I congratulate you.

1 You do an excellent job and you were very clear in
2 everything that you explain, everybody could
3 understand that perfectly. I congratulate you, you
4 are a very good professor.

5 **A** Thank you.

6 MS. ALIZADEH: , I don't
7 know if I understood it, but you guys are probably
8 smarter than me. I can't say half the things, the
9 words, I can't pronounce them.

10 Anybody else?

11 Did you
12 do any measurements from like, from shoulder to
13 shoulder, like the width or maybe from torso to
14 torso?

15 **A** No, I did not.

16 . I know we
17 went over this in your other visit about the other
18 shots and it is very hard to tell, especially on the
19 arm where things may have come in or come out, but
20 just in your experience, is there anything or
21 anywhere where you think this bullet may have
22 traveled, I have no idea where it may have grazed
23 somewhere else or may have entered somewhere else on
24 his body?

25 **A** In what you just said it's always a

1 possibility that, you know, it is conceivable. It
2 is possible that the hand is in a certain position
3 when something goes off. We know it is a graze
4 wound, it didn't stay, so it had to go someplace.
5 Could it have went into the door? Could it have
6 reentered another area on his body? Could it have
7 just went out into another place in space? All of
8 those things are reasonable and I can't definitively
9 say because I wasn't there to actually see the
10 positioning of how the body was when it happened.

11 It's possible, there is a multitude
12 of ways that the bullet could have traveled after it
13 struck the skin.

14 : Thank you.

15 . When I
16 look at that wound, it looks to me there is a lot of
17 tissue missing yet only one small piece of tissue
18 was recovered. Is that maybe an illusion there is
19 not a lot of tissue missing, more like where it
20 opens up you could put it back?

21 **A** That's a possible thing where it is kind
22 of more like filet and just kind of split open.
23 It's tracking deep, muscle is more, I guess, firm
24 for lack of a better word. So the more firm, the
25 more it is going to kind of split. It is taking

1 more forces to kind of pry it open.

2 So it is hard to say that something,
3 pieces get scattered around or whatnot, but from
4 what you can see, there is definitely a track
5 traveling through deeper into that muscle that you
6 have.

7 You feel your thumb right there, that
8 firmness right there, that muscle is being exposed
9 to the environment due to the tracking of that graze
10 wound superficially over the skin.

11 : Could I conclude that hand
12 was not inside the vehicle?

13 **A** You can't.

14 There would have been more
15 matter?

16 **A** Looking at the wound you can't determine
17 where the hand was positioned in space. It could
18 have been in the car, it could have been outside the
19 car, you can't.

20 : I guess no tissue was
21 recovered in the car, that's what I was after, would
22 there be a lot of tissue?

23 **A** And not necessarily. It is like, you know
24 if you try to squeeze it back, it will
25 re-approximate pretty good. It is something came in

1 between it and pushed things to the side. It is
2 just open like that because the muscle, that's just
3 what muscle kind of does once it gets hit. Because
4 your muscles are in a bundle, it is like a fascicle.
5 You have tissue that kind of holds them together.

6 So when you injure that, they just
7 kind of fall out. So that is going to make a wound
8 that may not necessarily be, you have a little small
9 bullet, but it goes through and filets that stuffs
10 open, the integrity of the tissue elements has been
11 disrupted. So now things are going to be able to
12 kind of flop out. You no longer have the skin
13 holding things together, you don't have connective
14 tissue holding muscle together, that stuff's
15 disrupted, it is going to flop open.

16 I'm also too, I'm putting traction on
17 the hand too, and that's going to help to expose it
18 more. You can see me pulling on his thumb, I mean
19 your hand, your hand kind of just rest like this,
20 I'm stretching it out like that. So that could make
21 things look more dramatic than they really are.

22 : One more question,
23 . But the mucousy substance found on the door
24 outside the vehicle --

25 **A** It is not mucus.

6 : Right. But the
7 pigmentation, the keratin that's in here is
8 consistent with either something with a lighter tone
9 skin, it wouldn't be from this part of the hand and
10 the arm?

12 : It could be here or back
13 here or the foot or whatever?

15 : That's the one that was
16 affected?

17 **A** That's the best spot I got, but I don't
18 know exactly where it came from. There is no test I
19 can do that says this is hands, this came from the
20 hand, you know.

21 : I understand. I wasn't
22 trying to lock you into corner there.

23 . Pretty
24 scientific, seems like here's a little bit of art,
25 different backgrounds trying to figure out what the

1 evidence is telling you. With that being said,
2 obviously, going to hear from the federal, I guess,
3 medical examiner?

4 **A** Yes.

5 : What are your expectations
6 across multiple medical examiners should we expect
7 all of those reports be primarily very much the same
8 or major parts would be the same?

9 MS. ALIZADEH: Can I hold off right now on
10 his answer, we have a juror that needs to use the
11 restroom. Anybody need to go? I don't want to stop
12 it.

13 (Recess)

14 MS. ALIZADEH: We took a quick break.
15 This is Kathi Alizadeh, Sheila Whirley's present,
16 all 12 grand jurors. We just took like less than a
17 five minute break for a couple bathroom breaks.

18 Dr. is still testifying
19 Dr. , you are still under oath, of course.
20 And then the court reporter, , is taking down
21 and recording what is being said and
22 had posed a question to Dr. . Do you have
23 anything, did I interrupt your question or were you
24 done with that?

25 Okay. Mr. , do you recall his

1 question?

2 **A** Yes, I recall his question and it is a
3 good question. Um, you know, I guess in my, I have
4 to be honest with you guys, I have never been in a
5 experience like this before. I've only been doing
6 my craft, I guess on my own, for a little over two
7 years. I haven't been involved in any really high
8 profile cases. This is my second time coming to a
9 grand jury, so this is all, you know, kind of new
10 for me and I will always be learning throughout my
11 life dealing with experiences and whatnot.

12 But in terms of having people come
13 behind me to do an autopsy after I did it? When I
14 initially first started out on this, I didn't know
15 it could become what it is going to become. I was
16 just working. That Sunday was my day to work. I
17 got my caseload, things I was going to do that day.
18 And I approach all my cases the same way every time
19 based off of the training that I got and I just
20 approach them the same way every time.

21 I don't, you know, if there is little
22 special things I'm concerned about. I pursue those,
23 I do that, but I usually have the same approach
24 every time.

25 So knowing that someone is going to

1 come behind me, I've never had people come behind me
2 before. I was a little nervous about it, but I know
3 that I approach this in a logical fashion and I
4 wouldn't have done anything different.

5 So that being said, when people come
6 behind you, the work that we do at the end of the
7 day it is an opinion. There can be a difference of
8 opinion, but as long as, you know, everyone, once
9 everything is documented, you know, when someone
10 says this is an end, this is an out. You know, this
11 is an entrance wound, this is an exit wound. Well,
12 this looks close range, blah, blah, blah.

13 Once you get all of that kind of down
14 on the table, you get all the facts out there, then
15 at that point people start to say well, okay, this
16 is what I think this is.

17 Will somebody potentially look at my
18 slides and say, oh, that's dirt, they can. But you
19 have to understand is you have to, you can't look at
20 these things in a vacuum, you know.

21 Each piece is important for me not
22 physically being there, I have the body, I have the
23 evidence, I have to have all of these things to be
24 able to generate my opinion. I think you have to
25 look at everything in totality. You can't just take

1 a snapshot. You can do my job and do it in a vacuum
2 and some come up with all kind of conclusions, but
3 what you have to do is you have to look at
4 everything and then you have to look at the person
5 who was telling you, I mean, if the person is
6 credible to you and like I say, I'm not here
7 promoting one thing or another, I'm just speaking to
8 the things that I observed. And for lack of a
9 better term, regurgitating them back out with my
10 level of medical training to try to make sense of
11 everything.

12 People can come in and say whatever
13 they want to say for whatever their agenda is and I
14 think people need to be aware of that.

15 MS. ALIZADEH: That brings up some good
16 points that I wanted to maybe clarify with you.

17 Have you, Doctor, ever performed a second
18 autopsy?

19 **A** No, I have not.

20 **Q** (By Ms. Alizadeh) And you said you've
21 never had anybody perform a second autopsy after
22 you?

23 **A** No.

24 **Q** Are you aware of what the proper protocol
25 would be if a second autopsy would be performed

1 regarding what that second doctor may need in order
2 to complete his findings, do you know? I don't want
3 you to guess.

4 **A** I have personal feelings about it what you
5 may need, but I don't know is there a standard
6 protocol, what someone is supposed to get when they
7 do a second autopsy, I do not know the exact answer
8 to that.

9 **Q** Okay. So in your profession in your job,
10 you were tasked with examining the body and
11 determining the manner of death, the cause of death,
12 and documenting and describing any defects or wounds
13 of the body and testifying perhaps about the affects
14 of those wounds and preparing a report which you did
15 in this case?

16 **A** Correct.

17 **Q** Now, you just said that when you went in
18 on the 10th to do this autopsy, you approached this
19 in the same manner that you would any autopsy that
20 you are going to do; is that right?

21 **A** Correct.

22 **Q** You didn't do this any differently because
23 it was Michael Brown?

24 **A** No, I did not.

25 **Q** Did you even know at that time you had

1 just said, you didn't know that this would become
2 what it has become?

3 **A** No, I did not.

4 **Q** And are you familiar with Dr. , do
5 you know him?

6 **A** Yes, I do.

7 **Q** Do you have an opinion as to whether or
8 not he is a reputable or respected pathologist?

9 **A** I have no comment.

10 **Q** Okay. How about have you seen a report
11 from Dr. ?

12 **A** I have not seen a report from him on this
13 case.

14 **Q** And now you're aware that there was a
15 third autopsy done; is that right?

16 **A** Yes, I am.

17 **Q** That was done by Medical Examiners with
18 the Department of Defense?

19 **A** Correct.

20 **Q** And you are aware that one of those
21 doctors was Major , go you not?

22 **A** Yes, I am.

23 **Q** Now, prior to this case, had you ever
24 heard of Dr.

25 **A** No, I have not.

1 **Q** And you have since met him; is that right?

2 **A** Yes, I have.

3 **Q** When you met him, was it in relation to
4 this case?

5 **A** Yes.

6 **Q** Okay. And have you seen his report?

7 **A** No, I have not.

8 **Q** Okay. So you can't today testify to any
9 other findings by other professionals, correct?

10 **A** Correct.

11 **Q** But you do recognize that very competent
12 and reputable experts may differ in their opinions?

13 **A** Correct.

14 **Q** And you've testified just regarding your
15 opinion in this?

16 **A** Correct.

17 **Q** All right. And we'll hear from Dr.
18 and hopefully Dr. in the future.

19 In order to do the things that I told
20 you, you are tasked with doing in this case so that
21 you testified, did you have to examine Officer
22 Wilson's vehicle?

23 **A** No.

24 **Q** Did you do that?

25 **A** No.

1 **Q** Did you have to see the crime scene
2 photos?

3 **A** I've seen them, but they weren't necessary
4 to do my autopsy.

5 **Q** Okay. Did you see them after you had
6 performed the autopsy?

7 **A** Yes.

8 **Q** Did you see them after you prepared your
9 report?

10 **A** Yes.

11 **Q** Okay. Um, how about the medical records
12 of police officer Darren Wilson, did you need to see
13 those in order for you to form an opinion?

14 **A** No.

15 **Q** And how about the clothing of Officer
16 Darren Wilson, did you need to see those things in
17 order for you to form your opinions?

18 **A** No.

19 **Q** What about, now, of course you had the
20 clothing of Michael Brown; is that correct?

21 **A** I don't have it, but I saw it at the time
22 of the autopsy and then I gave it over to the St.
23 Louis County Police Department as evidence.

24 **Q** And would it be, in your opinion, was it
25 helpful to have the clothing to at least see perhaps

1 if there were defects or holes in the clothing that
2 would correspond with injuries?

3 **A** Yes.

4 **Q** Was there anything, so you have the body
5 of Michael Brown, you have the clothing of Michael
6 Brown you, of course, did not have the toxicology
7 results when you did your report?

8 **A** Correct.

9 **Q** And was there anything else that you had
10 that you relied upon in making your reports?

11 **A** The x-rays.

12 **Q** X-rays of the body, correct. And we have
13 those on a disc that we didn't show those to you,
14 but I indicated if you needed to see them or ask any
15 questions about them they would be available.

16 Anything else that you needed to form
17 your ultimate conclusions?

18 **A** No.

19 **Q** Is there anything that you didn't have you
20 wish you'd had?

21 **A** At this particular time, no, I can't think
22 of anything.

23 **Q** What about the gun of Officer Wilson, the
24 gun that was used in the shooting, did you need to
25 have that or examine that to make your findings?

1 **A** No.

2 MS. ALIZADEH: Sheila, anyone else?

3 MS. WHIRLEY: No.

4 After

5 you completed your autopsy of Michael Brown, and

6 then we find out that there was going to be a second

7 autopsy done, do you know how soon after you

8 completed your autopsy was that second autopsy by

9 Dr. done, do you know the timeframe?

10 **A** No, that was not shared with me.

11 Okay. Before you released

12 the body from your office.

13 **A** Uh-huh.

14 : Is the body cleaned in any

15 way.

16 **A** I mean --

17 : Do you wash it down like

18 with distilled or stabilized water.

19 **A** The autopsy technician, like I said, doing

20 the autopsy is not a totally clean process. You

21 don't want to have blood all over the place from

22 point of health hazards and visually esthetic

23 purposes, it just doesn't look good.

24 With water, the body is washed also

25 so it is not all bloody and things of that nature.

Page 65

1 Okay. And this is just
2 from a personal question.

3 **A** No problem.

4 okay
5 and usually if I bet on something, I know pretty
6 darn sure that what I know is right.

7 **A** Gotcha.

8 : Going from what you know
9 that you've done in this autopsy and from your
10 experience, like would you bet, I'm not going to say
11 bet your life, but would you bet your bottom dollar
12 that you are 100 percent correct about your finding?

13 **A** I stand by my report 100 percent.

14 : You said you know

15 Dr. ?

16 **A** I know of him.

17 : You never worked with
18 him?

19 **A** I don't know him, I know of him, I know
20 who he is.

21 : Okay.

22 : . On the
23 case examine, I notice that on Michael Brown's lower
24 extremity there were several scars on his knee and
25 on his lower left leg.

1 **A** Yeah.

2 : Was there any damage to
3 his lower extremities that was recent?

4 **A** No.

5 : Nothing consistent with
6 his foot being ran over?

7 **A** No.

8 : , I'm sorry.

9 When you say you wash the body, you don't like scrub
10 it or any use any soap or anything, it is just
11 water?

12 **A** Water and a rag.

13 : So you can get a good
14 view of what's going on?

15 **A** Yeah.

16 MS. ALIZADEH: In fact, I think,
17 Dr. , if you recall from your previous
18 testimony there's a series of photos that are taken
19 before the body is washed and then there's a series
20 of photos taken afterwards, and in cleaning parts of
21 the body, is that so you can visualize the wounds
22 and see what you are looking at?

23 **A** Correct.

24 **Q** (By Ms. Alizadeh) And if something is
25 maybe dried blood that washes away and it is not

1 actually an injury or wound?

2 **A** Correct.

3 **Q** Okay. And just also to clarify when you
4 did your autopsy, the body of Michael Brown had not
5 been embalmed or touched by a funeral director or
6 anyone else, it came from the crime scene to be
7 placed in a locked bagged and then delivered
8 directly to your offices?

9 **A** Correct.

10 MS. ALIZADEH: Any other questions?

11 (End of the testimony of Dr. .)

12

13 of lawful age, having been first duly sworn to
14 testify the truth, the whole truth, and
15 nothing but the truth in the case aforesaid,
16 deposes and says in reply to oral
17 interrogatories, propounded as follows, to-wit:

18 EXAMINATION

19 BY MS. ALIZADEH:

20 **Q** Could you state your name and spell for
21 the court reporter?

22 **A** Sure. .

23

24 **Q** What do you do, sir?

25 **A** I'm a forensic pathologist in the

1 military.

2 **Q** And prior to your testimony, did I ask you
3 to send a copy of your current curriculum vitae?

4 **A** Yes, ma'am.

5 (Grand Jury Exhibit Number 80
6 marked for identification.)

7 **Q** (By Ms. Alizadeh) I'm going to hand you
8 what I've marked as Grand Jury Exhibit Number 80, is
9 that what you sent me?

10 **A** It is.

11 **Q** And I'm going to pass this out, but I'm
12 also going to ask you to testify a little bit about
13 your educational background.

14 Tell me, starting with college, your
15 degree in college and where you went from there?

16 **A** I graduated from LaSalle University with a
17 bachelor's degree in biology back in 2003 and then I
18 went to Georgetown University School of Medicine in
19 Washington and graduated in 2007 with a medical
20 degree. From there I went to the University of
21 North Carolina in Chapel Hill and spent five years
22 there completing residency and forensic pathology
23 training.

24 **Q** And we've already heard from Dr.
25 about the science of forensic pathology, how long

1 have you have been working as a forensic
2 pathologist?

3 **A** I finished my fellowship in 2012. I have
4 been employed with the Armed Forces Medical Examiner
5 System out of Dover Air Force Base since then. So A
6 little over two years as a practicing forensic
7 pathologist.

8 **Q** So you are employed by the military, is
9 in, what branch of the military?

10 **A** The Air Force.

11 **Q** And are you a commissioned officer in the
12 Air Force?

13 **A** Yes, ma'am. I hold the rank of major.

14 **Q** And so today, would you prefer I call you
15 or would you prefer to go by Dr.

16 ?

17 **A** Dr. is fine.

18 **Q** All right. And so Dr. , in your
19 duties and responsibilities as a forensic, are you a
20 forensic pathology?

21 **A** Yes, ma'am.

22 **Q** Are you a board certified forensic
23 pathologist?

24 **A** I'm board certified in anatomic and
25 clinical pathology, as well as forensic pathology.

1 **Q** And so in your job with the military, do
2 you perform autopsies?

3 **A** Yes, ma'am.

4 **Q** And do you perform autopsies and then
5 prepare reports regarding your findings?

6 **A** Yes.

7 **Q** And have you testified in court regarding
8 your findings after performing autopsies?

9 **A** Yes, I have.

10 **Q** And so in relation to this case, you know
11 that you are here because you performed an autopsy
12 on the remains of Michael Brown, correct?

13 **A** Correct.

14 **Q** When were you contacted, approximately, in
15 order, when did you first learn that you were being
16 asked to perform for an autopsy?

17 **A** I believe August 18th was the day that we
18 performed the autopsy, I know that. I think that
19 was a Monday. I don't recall specifically, but I
20 remember getting a call when I was at home from my
21 boss. It was probably Sunday, the day before.

22 **Q** Okay. And what did your boss tell you
23 about what you were being asked to do?

24 **A** Well, he said that the Department of
25 Justice was making a special request from the

1 Department of Defense to perform an independent and
2 non-biased autopsy on a civilian that had died in
3 St. Louis.

4 **Q** So was it unusual for you to perform an
5 autopsy on civilians?

6 **A** I would not say it is unusual for me to do
7 autopsies on civilians. We perform autopsies on
8 anyone that dies in federal jurisdictions as long as
9 it's a medical examiner's case. If there's a
10 civilian on a federal installation, we will be
11 responsible for performing that post-mortem
12 examination.

13 **Q** So, for example, a serviceman, serviceman
14 who maybe lives on base, his child dies and there is
15 a need for an autopsy?

16 **A** That is correct.

17 **Q** That's a civilian, correct?

18 **A** Correct.

19 **Q** Someone who may be, would be shot during a
20 bank robbery, that would be a federal case, but that
21 wouldn't necessarily be military, involved?

22 **A** Correct.

23 **Q** Okay. And so, so you were told that you
24 were be requested by the Department of Justice to
25 perform an independent and unbiased autopsy, is that

1 right?

2 **A** Correct.

3 **Q** Were you are told that the body had
4 already been autopsy previous?

5 **A** Yes, I was.

6 **Q** And did you, were you told that it had
7 been autopsy twice?

8 **A** Definitively it had been autopsy at least
9 once before by the St. Louis County Medical
10 Examiner's Office. There was some rumor at the time
11 that a second independent autopsy had been
12 performed, but we weren't sure at that time.

13 **Q** Now, did, when you were notified about
14 this, did they tell you who you were going to be
15 autopsying?

16 **A** At that time the name was given to me over
17 the phone.

18 **Q** Did they tell you it was going to be the
19 body of Michael Brown?

20 **A** They did.

21 **Q** And on August 18th, had you ever heard of
22 Michael Brown?

23 **A** In fact, I was ignorant. I'm not sure why
24 I hadn't been watching media on this. I know there
25 was a lot of coverage that I know now, at the time

1 this was the first I was hearing of it at that phone
2 conversation that Sunday.

3 **Q** So you had not viewed or at least had not
4 made any connection between the media coverage
5 regarding the shooting death of Michael Brown and
6 the allegations that are being and were being made
7 at the time with the autopsy that you were
8 performing?

9 **A** Correct, this was the first I was hearing
10 of it.

11 **Q** And so did you travel to St. Louis to
12 perform the autopsy?

13 **A** Yes, ma'am, I did.

14 **Q** Did anyone come with you?

15 **A** I was accompanied by one of our senior
16 forensic pathologist was a Navy captain. He
17 probably has 15 or 20 years experience named
18 Dr. . We performed the autopsy
19 together and whenever we travel to do a case, we
20 also bring one of our photographers. We have a
21 staff of photographers that will accompany us when
22 we go on road cases. So I had a photographer and
23 Dr. accompany me.

24 **Q** And so prior to doing the autopsy, did you
25 learn anything additional that helped you to do the

1 autopsy?

2 **A** So once we arrived at the Medical
3 Examiner's Office, they welcomed us in, essentially
4 gave us all access to the radiology, all the x-rays
5 they had taken on the day that they performed their
6 case, which I believe was the 10th of August.

7 So before any gunshot wound case, we
8 need to review the radiology in order to see what
9 bony structures have been injured, if there are any
10 projectiles in the body that need to be recovered.
11 So this is standard procedure.

12 So they gave me access to those
13 x-rays and then I also was able to look at a small
14 scene investigation synopsis probably a few
15 paragraphs, I guess dating back to the 9th or 10th
16 of August. So I had that information to review
17 before we performed our, I guess, third autopsy.

18 **Q** Do you recall what you learned from that
19 scene synopsis?

20 **A** It was just that there was an individual
21 that had an altercation with a police officer and
22 that he received multiple gunshot wounds and died at
23 the scene.

24 **Q** Did you have any information about, for
25 example, whether or not there was an altercation at

1 or near a police vehicle?

2 **A** It wasn't specified in what I had read.

3 **Q** Okay. Did you have any information that
4 there were perhaps conflicting reports about whether
5 or not the individual was running or standing still
6 or turning or what position his body was in?

7 **A** I don't recall that being elaborated in
8 that small synopsis, no.

9 **Q** Okay. And so when you arrived at the
10 Medical Examiner's Office in St. Louis County, did
11 you speak with any of the medical examiners in St.
12 Louis County?

13 **A** Yes, ma'am. I spoke with Dr. right
14 before we performed our own procedure and then
15 afterwards, I spoke with Dr. .

16 **Q** So Dr. would be the chief medical
17 examiner for St. Louis County?

18 **A** To my knowledge, she is the chief at that
19 office, yes, I believe so.

20 **Q** All right. And did she give you any
21 information that you felt was necessary in order for
22 you to perform the autopsy?

23 **A** She didn't provide any additional
24 information before the autopsy itself. She was just
25 there mostly to facilitate and make sure things were

1 going smoothly and she allowed us to actually use
2 one of their own technicians to help with the case.

3 Q Do you recall who that technician was?

4 A I do not recall. I saw him in the
5 photographs from the first autopsy, I don't recall
6 his name. We have a full ledger in our own case
7 file of everybody that was present in that room,
8 which would include that technician as well as an
9 FBI agent.

10 Q And so the photographs that you mentioned
11 that you saw from the first autopsy.

12 A That is correct, but I did not get to see
13 those until after we performed our own examination.

14 Q Is that because they wouldn't allow you to
15 see them, but you wanted to?

16 A We actually prefer that we did not look at
17 any photographs before completing our own autopsy.
18 We felt like we were there to perform our own
19 independent study. We didn't want to get biased by
20 other photographs.

21 Q All right. And when you arrived at the
22 Medical Examiner's Office, I assume that the body
23 was identified to you as the body of Michael Brown?

24 A That is correct. He also had
25 identification bracelets around his ankles and his

1 wrist that said Michael Brown.

2 **Q** And did your photographer take photographs
3 of the different stages of the autopsy?

4 **A** Yes. We have a very specific protocol in
5 the military in the way we deal with photographs and
6 we performed our autopsy the same way we would as if
7 it was a service member for a normal autopsy.

8 When we arrive the body was
9 discovered in several blankets. We take a
10 photograph of that and then we removed those
11 blankets and then we begin our standard photographs,
12 which would include identification bracelets and
13 anything else that could identify the body.

14 MS. WHIRLEY: Are you looking for the
15 other file?

16 MS. ALIZADEH: Sorry.

17 **Q** (By Ms. Alizadeh) For the record, we are
18 using a disc that I've marked as Grand Jury Exhibit
19 Number 79, and there are a number of photographs on
20 this disc. And I'll ask you, Dr. , if it is
21 easier for you, and it might be, to maybe wheel that
22 chair, you don't need to worry about the microphone
23 picking you up, it will pick you up and you would be
24 in a better position to look.

25 Here is a laser pointer so as we talk

1 about these photographs, you can use that.

2 **A** Sure.

3 **Q** I'm also going to turn this light down a
4 little bit so it is easier for the jurors to see
5 this.

6 So this is the first image that is on
7 the file that's on the disc, Number 79.

8 **A** Yes, ma'am.

9 **Q** Do you recognize this placard?

10 **A** I do. We use this placard on all of our
11 autopsies, this is how we start all of the
12 photography with this placard. And usually we make
13 this at Dover Air Force Base before we go to the
14 actual case.

15 **Q** And the side of that placard says
16 Dr. , St. Louis, Missouri?

17 **A** Correct. We were the two pathologists
18 that were performing this autopsy.

19 **Q** Okay. The date at the top, is that the
20 date that you prepared the placard or the date that
21 you actually performed the autopsy?

22 **A** So this placard would have been prepared
23 by at the bottom, he's our photographer. I'm
24 not sure if he did it the day before or the morning
25 we flew out, but that was the day we performed the

1 autopsy.

2 **Q** So AFMES, what's that?

3 **A** Arm Force Medical Examiner System. That's
4 where we work and we're stationed out of Dover Air
5 Force Base.

6 **Q** You have your own case number?

7 **A** Correct. ME140240.

8 **Q** Then you said MCCA, that's the
9 photographer that you brought along with you?

10 **A** Correct. I'm not in the Navy, so I don't
11 know what MCCA stands for. He's a senior chief
12 enlisted in the Navy. I'm not sure what that means.

13 **Q** So you indicated that when you first
14 arrived and the body was presented to you, it was
15 wrapped in some blankets and that you took some,
16 that your photographer took some pictures.

17 There is, in this next image, Image
18 Number 2, you can see something that's inside a
19 blanket and there is a piece of paper perhaps that's
20 on top of the blanket and that is your case number,
21 correct?

22 **A** Correct. We label all of our images no
23 the matter what they are with a case number. I
24 think that is just important for us to do not to
25 misplace images across different autopsies.

1 **Q** This was all done at the Medical
2 Examiner's Office here, correct?

3 **A** Correct. This entire autopsy was done
4 here, but these placards that we are seeing were
5 things we had printed up before we arrived.

6 **Q** Okay. So Image Number 3, and that is
7 another different view of the body underneath the
8 blankets?

9 **A** Correct.

10 **Q** Image Number 4. And so now in this image,
11 we're seeing the lower half of the body and you
12 indicated that there were bracelets, there is a
13 green bracelet around the right hand and then there
14 are bracelets around the ankles of the body. Did
15 those identify the body as Michael Brown?

16 **A** Yes, ma'am. I think we have closer up
17 images that show his name actually written on these
18 bracelets, but they did.

19 **Q** And the next image. And then this is the
20 upper half of his body; is that correct?

21 **A** Correct.

22 **Q** Now just viewing this as we see it and as
23 you saw it that day, can you tell by looking at it
24 then that this body has been autopsied?

25 **A** Yes, this is the standard Y incision that

1 we do in the United States and it has been sutured
2 together.

3 Q All right. And the next photo. Again,
4 you indicated that you took close-up images of the
5 actual identifying bracelets around the wrist and
6 ankles s of the body, correct?

7 A Correct.

8 Q And the next image and then the next, and
9 the next, and then the next. Sorry, and so the last
10 image we've already seen that image. So now we saw
11 a number of images that you could see close up the
12 bracelets that identified the body and now do you
13 know why this image was taken?

14 A Again, this is just our standard protocol.
15 So at this point we would consider the body, usually
16 the bodies that we are dealing with are actually
17 still within the body bag, the human remains pouch.
18 This is just a standard image.

19 After we remove the blankets,
20 whatever was underneath him, we will take pictures
21 of him on the actual autopsy surface that we are
22 going to be performing the case on.

23 Q Okay.

24 A So again, pretty much redundant
25 information.

1 **Q** Okay. But these are different images?

2 **A** They are, they are. We have already
3 removed the blankets.

4 **Q** All right. Now, this is an image of the
5 lower half of his body, but he's turned over and
6 he's lying on his stomach?

7 **A** Correct. And you can see here some
8 evidence of decomposition change, some skin
9 slippage.

10 **Q** And we see some discoloration on the,
11 maybe I shouldn't characterize it as discoloration,
12 you can see that there is definitely some different
13 color to his skin, what's that caused by?

14 **A** Correct. So the body has been embalmed, I
15 think any images you may have seen up to this point
16 have been from the first autopsy. So now, you know,
17 eight days later, the body has been embalmed, been
18 three, several other autopsies. So when the body's
19 playing flat on the table getting embalmed, some of
20 the embalming fluid may not reach these areas
21 because the skin is pressed against a flat surface
22 that prevents it from getting in. So I think any
23 changes in tone or color is probably due to that.

24 **Q** All right. So those aren't anything that
25 you feel that were caused by the injuries that he

1 sustained during the shooting?

2 **A** No.

3 **Q** And the next image?

4 MS. WHIRLEY: Let me ask him, what's the
5 white.

6 **A** This here? Skin slippage. It is
7 decomposition.

8 Again, the skin here isn't going to
9 be as embalmed as the skin on the front. He's
10 laying on his back, so this area could be prone to
11 decomposition.

12 **Q** (By Ms. Alizadeh) And the embalming
13 process is to slow down decomposition?

14 **A** Correct.

15 **Q** And then you see the back of the upper
16 half of his body. And you see some injuries to his
17 body from that photograph; is that correct?

18 **A** Correct. And this photograph we can see
19 clearly, it is hard to tell from here, but that's
20 the exit gunshot wound from a gunshot wound to his
21 forearm.

22 And then here is actually an autopsy
23 artifact, that's where they had removed a bullet
24 gunshot wound to the right lateral chest. That's
25 where they recovered that round during the first

1 autopsy.

2 **Q** Now, were you able to tell that just by
3 looking at it?

4 **A** No.

5 **Q** Or did you have to examine it?

6 **A** This information I'm giving you is after I
7 examined the entire case.

8 **Q** Okay.

9 **A** I did not know at the time of first
10 looking at his back that that was where they
11 recovered a round from the first autopsy.

12 **Q** And you weren't able to conclude that from
13 the x-rays either?

14 **A** No, because the x-rays, all we have is
15 pretty much one dimension anterior and posterior, so
16 it is hard to tell where exactly the bullet is. I
17 only know it's in the right side of the chest
18 somewhere, but in this situation, it was actually in
19 the back.

20 So you need x-rays from two different
21 angles in order to really tell that, which we didn't
22 have.

23 **Q** All right.

24 MS. WHIRLEY: There's no indication that
25 he was shot in his back?

1 **A** No, I would not at any point thought that
2 was a gunshot wound.

3 **Q** (By Ms. Alizadeh) The next slide, is this
4 a repetition of the previous, of a previous slide
5 we've seen?

6 **A** Correct.

7 **Q** Which is the body still on its stomach and
8 it is the lower half of his body. And the next
9 slide and again, is this repetitious of --

10 **A** I'm not sure why we are looking at this
11 again.

12 **Q** Okay.

13 **A** Just closer up image of the same thing,
14 this is that defect that they created during the
15 first autopsy to remove that round.

16 **Q** And you learned that after your autopsy?

17 **A** Correct.

18 **Q** But looking at that, you can say that that
19 is not an entrance wound, a gunshot entrance wound?

20 **A** That is correct. And there is no evidence
21 here of any, what we would say a sign of life.

22 There is no vital reaction here, there is no blood,
23 there is no inflammation around these edges, this
24 looks like a post-mortem phenomenon and that's what
25 it is.

1 **Q** All right. Is that a closer up of the --

2 **A** Correct. As you get closer you can
3 actually see a scalpel injury here, it's all
4 post-mortem, it is where they removed it.

5 **Q** And the next image. Describe what this
6 photograph shows?

7 **A** So this is the right hand, we are looking
8 at the palm surface and this is a tangential gunshot
9 wound to the base of the right thumb.

10 **Q** And what do you mean tangential?

11 **A** Meaning if the skin surface is like this,
12 the bullet is kind of going in the same direction as
13 the skin at that point. So it is basically, you've
14 heard the term graze, I'm sure. I would beg to
15 differ this is a little deeper. When I think graze,
16 I think of something very close to the surface of
17 the skin only, which we will see later in this case.
18 But I think this would be, I prefer to call it
19 tangential gunshot wound, meaning the bullet was
20 kind of going in the same direction as the skin at
21 that point.

22 **Q** Now, you were just showing with your hand,
23 you had your, at this point can you tell by looking
24 at this the direction, if this injury was caused by
25 a bullet, can you tell the direction the bullet was

1 traveling?

2 **A** It is difficult in this image because we
3 have to orient it differently. You will see through
4 different photographs there are skin tags and that
5 is what we use to tell the direction of fire in a
6 tangential gunshot wound. In this image I would
7 have a hard time telling.

8 **Q** Okay.

9 **A** Again, this image can't help a whole lot.
10 You can see a little bit of skin tag kind of
11 pointing in this direction and one on this side
12 also. This still a little difficult based on this
13 image.

14 You will also have to keep in mind,
15 again, the body has been embalmed. So as the skin
16 starts to get tighter, it starts to change compared
17 to first autopsy.

18 **Q** Have you ever done a second autopsy?

19 **A** In fact, we do a lot of second autopsies
20 at Dover Air Force Base. A lot of the civilians
21 that die overseas, they are going to get autopsies
22 in sovereign countries and then they are going to
23 come back to Dover and do a second autopsy, so we
24 see a lot of these.

25 **Q** The next picture. This is the same injury

1 to the right hand and there is a scale that is
2 placed over the wound to give it perspective, is
3 that fair to say?

4 **A** Exactly. We do this for any gunshot
5 wound, that is standard. You can start to see
6 another tag coming into the field here again, it
7 starts to point in that direction, not as good as I
8 would like.

9 **Q** All right. And the next image?

10 **A** So in this image we have the posterior
11 surface, an anatomic position, this is actually the
12 anterior surface. I'm sure this has been
13 demonstrated, right? So anatomic position is like
14 this, standing straight ahead, palms facing forward.
15 Okay.

16 This is actually confusingly the
17 anterior surface of the right forearm and that's an
18 exit gunshot wound right there.

19 We can also see that tangential
20 gunshot wound to the thumb also in this image.

21 **Q** And the next image.

22 **A** Is just close-up image here of the exit
23 wound on the anterior surface of right forearm.

24 **Q** All right.

25 **A** Here we are moving up a little bit closer

1 into the axilla. Basically still on his back and we
2 are taking a picture here of the back of his arm
3 here close to his armpit. So this is actually an
4 exit gunshot wound. If I hold my arm out like this,
5 it is right about in this location here.

6 (indicating)

7 Q Now, let me ask you, Dr. , is there
8 any, this may sound silly for me to ask you this, is
9 there any rhyme or reason as to the order which you
10 document and photograph wounds?

11 A There is, a lot of it's mechanics, right.
12 Michael Brown wasn't a light person, you know, he
13 was probably well over 250 pounds. It is difficult
14 for us to continuously manipulate and turn him from
15 front to back.

16 So we try to take all the photographs
17 when he is laying on the stomach, then flip him over
18 and then take all the photographs from the other
19 side.

20 Q So when you talk about these wounds, we
21 will see in your report later you might have them as
22 numbered, or in this case the first wound you
23 photographed and the second one you photographed, is
24 there any, are you saying that those were the order
25 in which the wounds were sustained?

1 **A** No, I'm not. This has nothing to do with
2 the order of infliction of these wounds. This is
3 just the order that we happen to photograph them at
4 autopsy.

5 **Q** All right. So you said that this is on
6 the back, upper arm and that is an exit wound?

7 **A** Correct.

8 **Q** And is this a gunshot wound?

9 **A** Correct, this is an exit gunshot wound.

10 **Q** And then the next photograph?

11 **A** Just a closer up image of the same thing.

12 **Q** And the next photograph?

13 **A** Okay. So now he's still laying on his
14 stomach and now we have an image of the left forearm
15 and we can see an injury here. I think if you go on
16 we can actually get a better picture of that.
17 Perhaps, okay, a little bit better here.

18 So we actually call this a
19 superficial incised wound. In our opinion, a sharp
20 force injury, it is not blunt.

21 Whatever caused this was something
22 sharp, like a piece of glass, a piece of jagged
23 metal, a knife, something like that, something
24 sharp. The way that we can tell that is the edges
25 of this are very clean. We don't see any abrasion

1 along it.

2 I think what you see here that is
3 kind of dark along the edge of this is actually some
4 vital reaction, he is getting a little inflammation
5 from it. It doesn't take long for a wound to become
6 inflamed. I think that is what we are seeing here.

7 And again, it is a little dry, it is
8 eight days later, he has been embalmed, so it is a
9 little different than it would look during the first
10 autopsy.

11 And then along the same trajectory
12 right here, you can pick up kind of a faint scratch
13 along with it. So again, this is consistent, in our
14 opinion, with something sharp.

15 Q All right. So in your opinion, you have
16 said a couple of times in our opinion.

17 So are you performing the autopsy
18 together with Dr. ?

19 A That is correct. We performed this
20 autopsy together.

21 Q And do you talk about your beliefs and
22 findings as you are performing the autopsy?

23 A Yes.

24 Q Who prepared the report in this case?

25 A I wrote the report and then Dr.

1 proofread it and signed it.

2 **Q** All right. And so when you say our
3 opinion, for purposes of this grand jury I
4 understand that it is because you and Dr.
5 were working together, but it is important that we
6 make sure that we are getting your opinion.

7 **A** Yes.

8 **Q** Since Dr. is not here to testify.

9 **A** Yes.

10 **Q** And let me just ask you, was there ever
11 any difference of opinion between you and
12 Dr. in your autopsy and your findings in
13 this case?

14 **A** There was not.

15 **Q** Okay. All right. So if you continue to
16 say our opinion, it is also your opinion as well.

17 **A** That is correct. I can change and say my
18 opinion.

19 **Q** Okay. So now in this wound you said you
20 think this was caused by a sharp object?

21 **A** I do.

22 **Q** You don't think that that could have been
23 a bullet?

24 **A** I do not. This does not look like a graze
25 gunshot wound to me. Again, I know we use the word

1 clean, I know that is kind of subjective. It is a
2 little hard to fine, but when I say clean, I mean
3 the edges of this are very straight, there is not a
4 lot of abrasion to it.

5 A gunshot wound is going to create a
6 lot of abrasion, it's going to look for all intents
7 and purposes a lot slopier, it is not going to look
8 like that.

9 Q And to kind of jump ahead a little bit
10 here. After your autopsy, did you have a chance to
11 review Dr. report?

12 A I did once we completed our autopsy. We
13 actually sat down with Dr. , Dr. ,
14 Dr. and our photographer at a table and we
15 reviewed all the images from the first autopsy. It
16 was at that point he also gave us his autopsy
17 report, which may have been preliminary at that
18 time, but actually I think it was finalized.

19 Q Regarding this particular wound, you and
20 Dr. disagree about what might have caused
21 that wound; is that correct?

22 A Correct. Dr. , he may have called
23 this abrasion. In my opinion an abrasion is
24 superficial. It's basically the very most outer
25 layer of the skin is just kind of worn away and it

1 is a blunt force injury. It is either your body
2 impact a blunt object like a baseball bat or
3 something flat or blunt object impact your body.
4 That is what an abrasion is, it is very superficial.

5 This is deeper, it goes through the
6 outer layers of skin. You can actually start to see
7 a little bit of the deeper dermis and the
8 subcutaneous tissue within that wound.

9 The only other thing that would be on
10 differential for this is a laceration, which is also
11 a blunt force injury. We see them all the time in
12 contact sports, people that get hit in boxing, they
13 get lacerations, the skin rips.

14 Again, I think this is a sharp force
15 injury, a superficial incised wound.

16 **Q** Now, let me ask you then, Dr. , in
17 your experience as a pathologist for the military, I
18 would imagine you have seen performed a number of
19 autopsies on servicemen who were killed by IUD's?

20 **A** Correct.

21 **Q** And they have like shrapnel injures and so
22 forth?

23 **A** Correct.

24 **Q** A shrapnel injury, would that be something
25 like you would have a piece of metal or some other

1 hard object that would injure the skin or injure the
2 tissue?

3 **A** Correct, it can injure the body in a great
4 number of ways. If you want to call shrapnel
5 injuries, we would call them blast fragment
6 injuries. They can actually look like gunshot
7 wounds, but depending on the velocity and size of
8 the fragment, it can also cause lacerations. I
9 would not call them sharp force injuries if they
10 impacted the body.

11 **Q** Okay. So you don't think the bullet
12 grazing the surface of skin could cause that injury?

13 **A** That is not my opinion.

14 **Q** Okay. Did you look at the photographs
15 that Dr. has taken of this injury?

16 **A** I did.

17 **Q** And I'm just wondering because we've
18 talked earlier and Dr. has testified, of
19 course, before about that experts can differ in
20 their opinions. Did anything about the photographs
21 that Dr. had taken change your opinion
22 about the cause of what caused this injury?

23 **A** No, in fact, his photographs reinforced
24 what I thought. I still believe this is a sharp
25 force injury with his photographs and in addition to

1 ours.

2 Q Did you discuss with Dr. that you
3 had a difference of opinion in regard to this
4 injury?

5 **A** We had talked about it, yes. But he
6 wasn't swayed one way or another.

7 Q And you weren't swayed either to change
8 your opinion?

9 **A** No.

10 Q All right. And so could a piece of glass
11 could have caused this injury, yes. I believe a
12 piece of glass could have caused that injury?

13 MS. WHIRLEY: The only question I have is
14 that this injury you believe happen
15 contemporaneously with the gunshot injury?

16 **A** I do, especially if you look at the first,
17 the first autopsy images of this injury. It looks
18 very acute, it doesn't have any signs of healing.
19 It has a little bit of inflammation around the
20 border, it is still wide open and it is bleeding. I
21 would think that if that injury had occurred in the
22 past it would have potentially have been treated in
23 some way, a bandage or something, that is a pretty
24 large wound to leave open.

25 . What side

1 is the back side of what side, left or right?

2 **A** This is the left arm.

3 : This is the left arm?

4 **A** Correct. It would be like right here.

5 : Oh, so it is right here.

6 So could that have happened against a metal car

7 rubbing up against the window?

8 **A** I believe so, as long as whatever impacted
9 his arm at that point was a sharp object, jagged
10 metal, glass, yes.

11 Okay.

12 . What a
13 about fingernail?

14 **A** Fingernail, no. Fingernail injury we
15 would term abrasions. It would have to be an
16 extraordinarily filed and sharp fingernail to cause
17 that injury.

18 MS. ALIZADEH: You know, I appreciate as
19 we move along, rather than save your questions just
20 butt in because while we have a slide up, it makes
21 sense for you to raise those questions for the
22 doctor as we go along.

23 So the next image, this image we have seen
24 of the lower half of his body.

25 **A** Okay. So now we have the other side of

1 the left hand here. At this point you saw in the
2 last image we flipped his body back over and I think
3 what is becoming apparent here is a small abrasion
4 here kind of at the base of the wrist.

5 **Q** (By Ms. Alizadeh) So you describe this as
6 an abrasion?

7 **A** Correct. An abrasion meaning it is a
8 blunt force injury, either the hand impacted a blunt
9 object or the blunt object impacted the hand. And
10 it eroded away some of the superficial layers of
11 skin leaving that.

12 **Q** Could that injury have been caused by a
13 bullet?

14 **A** No, it is not my opinion that could be
15 caused by a bullet.

16 **Q** You can't say what object then caused that
17 abrasion?

18 **A** I cannot.

19 MS. WHIRLEY: A fingernail?

20 **A** Fingernail abrasions usually, we call them
21 curve linear, they are basically a little U shaped
22 abrasions. I don't think that that's a fingernail
23 injury.

24 MS. WHIRLEY: Someone grabbing, holding?

25 **A** Potentially, but again, I cannot look at

1 that and tell you what caused it.

2 MS. WHIRLEY: Okay.

3 A bracelet?

4 A A bracelet potentially, yeah, a bracelet
5 could do it, that's one possibility.

6 MS. ALIZADEH: Would the bracelet have to
7 have been a hard object?

8 A It depends on how the injury occurred.

9 MS. ALIZADEH: Okay, all right.

10 A I can't add any more to that.

11 MS. ALIZADEH: Let me ask you this. We
12 see a bracelet now on the right hand, was there an
13 identifying bracelet on the left hand?

14 A I don't recall there being one on the left
15 hand, no. But I know that it is not a postmortem
16 abrasion because we can see that same abrasion on
17 the autopsy photographs in the first case and there
18 wasn't that bracelet there yet.

19 So in this image here now we can see
20 entrance gunshot wound to the right forearm and that
21 couples with the exit gunshot wound that we saw on
22 the anterior surface of the right forearm in
23 previous images.

24 Q (By Ms. Alizadeh) And so this wound have
25 been, entrance wound would have been on the other

1 side of his forearm, correct?

2 **A** Correct. This is the entrance wound for
3 this gunshot wound, and we saw the exit wound when
4 he was laying on his stomach and that was on the
5 right forearm in this location on the anterior
6 surface.

7 **Q** And I just lost what I was going to say.
8 Looking at the x-rays of his extremities, were you
9 able to tell if this gunshot wound impacted any
10 bone?

11 **A** Correct. The right ulna was fractured and
12 we picked that up on x-ray.

13 **Q** And was that fracture consistent with a
14 bullet passing through his forearm?

15 **A** It was 100 percent consistent with a
16 bullet trajectory with an entrance wound here and an
17 exit wound here, going through the right ulna.

18 MS. WHIRLEY: Two things. One is this
19 wound consistent with being, with him being shot
20 from behind, you understand what I'm saying? If
21 someone is pursuing him and shooting, is that wound
22 consistent with receiving that shot in that way?

23 **A** Right, obviously, a difficult question to
24 answer because as you know, our arms can do all
25 sorts of things in three dimensional space. And,

1 you know, the shooter versus who is receiving the
2 bullets, it also depends on where they are in three
3 dimensional space.

4 So if you are asking me could a shot
5 from his backside produce that, I say yes. Because
6 as you are running, if your arm is down like this,
7 that surface, that very surface of your arm is
8 exposed posteriorly. So a bullet coming from behind
9 you could cause that injury.

10 Could it come from the front side?
11 Yes, depending on how your arm is. If your arm is
12 out in front of you like this, a bullet impacting
13 here could still exit here.

14 If your arms are up like this, they
15 have to be rotated in order for the bullet to impact
16 here if the shooter is directly ahead of you. It's
17 difficult, but I think there is a lot of different
18 scenarios that can explain that trajectory.

19 (indicating)

20 **Q** (By Ms. Alizadeh) So the last posture that
21 you demonstrated with your arms above your head.

22 **A** Yes.

23 **Q** You said you believe your palms would have
24 to be rotated?

25 **A** Correct.

1 **Q** So I can describe for the record, you had
2 your palms facing each other?

3 **A** Correct. If my palms face outward like
4 this, that part of the arm is starting to go
5 lateral. The shooter in my opinion if you are
6 facing like this would have to be at that angle. In
7 order to go through your arm here and exit here. It
8 is kind of going leftward, right. If your arms are
9 up like this. If you rotate in, then the bullet can
10 come more face on.

11 MS. WHIRLEY: And that's assuming that the
12 shooter is right in front of you?

13 **A** That's correct.

14 MS. WHIRLEY: If the shooter is diagonal
15 to you?

16 **A** If the shooter is diagonal, right, then I
17 believe your palms can be facing forward, but you
18 are not directly whoever is shooting you at that
19 point.

20 MS. ALIZADEH: And this is the right arm,
21 correct?

22 **A** This is his right forearm.

23 **Q** (By Ms. Alizadeh) So if the shooter were
24 on his side, it would have to be on his right side?

25 **A** Correct.

1 MS. WHIRLEY: Ready?

2 A Just a close-up image of the entrance
3 gunshot wound to the right forearm. Just some
4 pertinent negatives that we see here, we don't see
5 any close range discharge of a firearm, any evidence
6 of that.

7 When I say that, that means
8 stippling, which is essentially impact with the skin
9 with burning and unburned gunpowder particles. We
10 don't see any soot, which is a product of combustion
11 of the gunpowder, we don't see any deposition of
12 that.

13 I don't see any searing or muzzle
14 imprint that would have occurred if a gun was right
15 up against that forearm. So no evidence of that.

16 Q (By Ms. Alizadeh) And just to jump ahead a
17 bit so you're not repetitious. We will talk about
18 the hand injury separately, but other than the hand
19 injury, were any of the other gunshot wounds in your
20 opinion, did you observe any soot or stippling on
21 any of those other injuries?

22 A On none of the other injuries did we see
23 any soot, stippling or unburned gunpowder particles.
24 No evidence of close range discharge of a firearm on
25 any of these gunshot wounds except for the one you

1 had just mentioned on the hand.

2 And again, we have to preface that by
3 saying I did not have the clothing to inspect at the
4 time of this autopsy. And furthermore, this could
5 have been the third autopsy, the body has been
6 embalmed, washed several times. A lot of that stuff
7 can start to wash away. Stippling doesn't, but soot
8 can.

9 And the other thing to say is the
10 gunshot wound to the top of the head, Michael Brown
11 had pretty thick hair. So a lot of times hair can
12 actually prevent deposition of soot, stippling.

13 **Q** Okay. Can you describe this injury, this
14 wound?

15 **A** This here is an entrance gunshot wound to
16 the upper right arm. We saw the exit wound earlier
17 that was closer to the armpit. So this entrance
18 wound was here on the right lateral arm and the exit
19 was under the arm here by the armpit area.

20 And again, just a close-up image of
21 the same.

22 **Q** Next image?

23 **A** Okay. So we have two things we can talk
24 about here. One is an entrance wound, gunshot
25 entrance wound of the right clavicle region and here

1 is a gunshot exit wound on the right chin.

2 Q All right.

3 A Again, close-up image here of the entrance
4 gunshot wound to the right clavicle area.

5 So here we have two things we can
6 talk about. This is a graze wound, a graze gunshot
7 wound on right forearm, excuse me, right upper arm,
8 that's basically in the bicep area. That would be
9 about here on my arm.

10 This here is just another angle on
11 that entrance gunshot wound to the upper right arm.
12 (indicating)

13 Q Can you tell anything from that graze
14 injury that you are circling right now about the
15 direction of travel of the bullet?

16 A So we cannot, I cannot. We talked about
17 earlier with that thumb wound, a lot of the ways
18 that we can tell trajectory on some superficial like
19 this is with the skin tags. Well, you guys can see
20 just as well as I do there are no skin tags here.

21 Sometimes we can start to guess by
22 the direction of the abrasions. We don't really
23 have anything that I can go on here to tell the
24 trajectory of this fire.

25 Q All right. And the next image?

1 here on the right clavicle area was another entrance
2 gunshot. So I guess we haven't talked about that.

3 So the total amount of the gunshot
4 wounds in this case is eight. There is eight
5 separate gunshot wounds.

6 Now, the possibility exist that the
7 gunshot wound to the right clavicle and the gunshot
8 right lateral chest could be reentry gunshot wounds.
9 The gunshot wound to the arm or the gunshot wound to
10 the forehead. It is my opinion that entrance wound
11 here on the right clavicle is likely a reentry wound
12 from that exit right there on right chin because the
13 trajectories line up perfectly.

14 **Q** (By Ms. Alizadeh) And then regarding the
15 entrance wound on the chest being a reentry of a
16 gunshot wound to the forearm, would that all just
17 depend on how that forearm was positioned when the
18 bullet passed through it?

19 **A** Correct. This gunshot wound on the upper
20 right arm, which we've seen and then the exit was
21 here, under the axilla basically. I have a hard
22 time with that one coming from my body and causing
23 this entrance gunshot wound to the right lateral
24 chest, which we actually have not seen a picture of
25 yet. The trajectory doesn't make sense in my mind.

1 The arm would have to be pretty up
2 and over across the chest in order to come back,
3 because that's where they got the bullet. It
4 entered here and recovered it down here on the right
5 lower flank. It is challenging, but the forearm one
6 I do think could line up with that lateral chest if
7 it was out like this. (indicating)

8 **Q** All right. And this is also that wound --

9 **A** This is the exit wound on the jawline
10 there on the right side of the face.

11 : Question, Dr. ,

12 .

13 **A** Yes.

14 : In order for a bullet to
15 enter twice, go in, come out and enter, do you have
16 to be close or far away for that to happen?

17 **A** You do not, no. It is really going to
18 depend on the type of weapon, the type of ammunition
19 and what structures the bullet hits as it goes
20 through the body. It's a very complicated question.
21 But at this range, I'm actually not sure what weapon
22 was used and I do not know the caliber. I can't
23 really comment any further on that.

24 : Okay. Thank you.

25 **Q** (By Ms. Alizadeh) This next image you see

1 injuries to the right eye and above the eye?

2 **A** Correct. So now we can see the entrance
3 wound that was on the forehead here. It is a little
4 bit to the right of the midline.

5 This gunshot wound actually caused
6 these lacerations both here to the right eyebrow and
7 to the upper right eyelid here as it passed
8 underneath of it. It also ruptured the right eye.
9 I didn't even see it at the time of our autopsy. It
10 was essentially obliterated.

11 It fractured several bones in the
12 face and then it exited right here. (indicating)

13 **Q** And that is a bullet that you said
14 possibly could have then reentered the clavicle
15 area?

16 **A** Correct. So minimum number of gunshot
17 wounds is six in this case and then eight total
18 depending on whether or not you believe these are
19 reentry wounds, you can drop the total number of
20 gunshot wounds to six. Again, just a closer up
21 image.

22 **Q** Let me just clarify that. When you talk
23 about gunshot wounds, if each wound is separate.

24 **A** Right.

25 **Q** I think there is some confusion. We've

1 heard about other possible opinions. So how many
2 total gunshots wound were on Michael Brown's body?

3 **A** If you want to count entrance and exist
4 separately?

5 **Q** Right.

6 **A** See, I haven't been doing that. When I
7 say eight total gunshots wounds, I just mean
8 basically eight bullets went through his body.

9 **Q** Okay.

10 **A** If you want to drop the number to six
11 total bullets went through his body, you would have
12 to consider this and these two injuries on the right
13 chest as reentry wounds.

14 **Q** Okay. I didn't want there to be some
15 confusion that you thought there were only eight
16 wounds on the body that were caused by a bullet.

17 **A** No.

18 **Q** Okay. All right. So the next slide we
19 see is another image of the entry wound in the
20 forehead; is that right?

21 **A** That's correct. This is a closer up image
22 of that.

23 **Q** And again, you do not believe that this
24 was a close contact wound?

25 **A** I do not. There would have been,

1 obviously, in this situation no clothing over the
2 body. He wasn't wearing a hat, his hair wasn't
3 here, we see no stippling, no soot, no muzzle
4 imprint, no searing of his skin, no evidence.

5 Q This bullet would have traveled downward
6 through the eye and then exited out the jaw?

7 A Correct.

8 Q And so given that Michael Brown was about
9 6'5", the bullet would of had to have entered and
10 traveled downward, correct?

11 A Correct.

12 Q So the barrel of the gun would have to
13 have been above, when I say above, it had to enter
14 from this direction, correct? (indicating)

15 A Correct. Again, it is difficult with
16 trajectories. We have to imagine, there is a lot of
17 different scenarios to explain this trajectory.
18 Yes, if you just look at it in anatomic position, it
19 goes sharply downward to the right and a little bit
20 backward. I can manipulate my head in all sorts of
21 ways in three dimensional space where the shooter,
22 if we don't know where he is, there is a lot of
23 different ways to get that wound.

24 So we don't know anything
25 whether or not he was falling or whether he bent

1 over to charge or whether he was just bending?

2 **A** Correct, yeah. I can't tell you from this
3 what he was doing, that's correct.

4 **Q** (By Ms. Alizadeh) Okay. The next slide.

5 **A** Okay. So here they're just taking a more
6 close-up image of the skin lacerations that were the
7 result of that entrance gunshot wound. So again
8 here, eyelid and eyebrow.

9 **Q** But those were caused by the bullet
10 passing through?

11 **A** Correct.

12 **Q** That's not like a blunt force?

13 **A** We don't have any reason to suspect these
14 are separate injuries. We believe, I believe that
15 they were caused by that single gunshot wound to the
16 forehead.

17 **Q** Okay. Next one?

18 **A** So left hand, we just noticed a few
19 defects here, some small abrasions. Dr.
20 also mentioned some possible abrasions, I think he
21 calls them postmortem at times. Bottom line, I
22 wouldn't make a big deal of these abrasions. They
23 could have been there before.

24 : I have a question going
25 back to the one in the head. I just want to make

1 sure that I understand. Would it have been
2 possible, from what I'm reading, you're not
3 indicating that somebody was standing over here,
4 that's not indicated or standing over him at a close
5 range?

6 **A** That's possible. When we say close range,
7 it still did not deposit any evidence of close range
8 discharge on --

9 : So not as close as we
10 are?

11 **A** Not as close as we are. That's a whole
12 another topic. I don't know if we want to get into
13 that, you may have already addressed it, you know,
14 at what distance does this stuff still deposit onto
15 the skin. And I can just give a ballpark average,
16 I'm not a ballistics expert, but with a standard
17 handgun, it's about 2 feet to still get stippling
18 and then within a foot you can get soot.

19 So if I'm two feet away from you with
20 a standard handgun, standard ammunition, you are not
21 going to have any evidence of close range discharge.

22 So having said that, this
23 is 12. It is at least 2 feet away?

24 **A** Ballpark, yes, 2 feet away. But the
25 weapon needs to be test fired with the exact same

1 ammunition that was used.

2 I understand. That's an
3 educated guess.

4 **A** Educated guess I would say greater than
5 2 feet.

6 Okay.

7 MS. ALIZADEH: All right. The next image?

8 **A** So just a closer up image here, small
9 discoloration here and then an abrasion there.
10 Again, I cannot tell you what caused that and I
11 really wouldn't put much significance into it.

12 MS. WHIRLEY: And the abrasion, you can't
13 even say if it was contemporaneous with the
14 shooting.

15 **A** I cannot. I would have to re-review all
16 the images from the first autopsy again. I remember
17 seeing some of these abrasions there, but I believe
18 Dr. called them postmortem, which it is
19 possible. Once the body is down on the ground, it
20 is being manipulated and put in a body bag,
21 abrasions can still occur.

22 MS. WHIRLEY: Is that what a fingernail
23 would look like?

24 **A** This?

25 MS. WHIRLEY: The other one?

1 **A** Here?

2 MS. WHIRLEY: Yeah.

3 **A** No, a lot of the fingernail abrasions that
4 we see in forensics are in cases of strangulation
5 and they literally look like curve linear little U
6 shaped abrasions. This kind of just looks irregular
7 to me. I don't really have an opinion on it.

8 MS. ALIZADEH: This is the right hand?

9 **A** Could you go back. This is the left hand
10 here.

11 MS. ALIZADEH: All right. Left hand,
12 good.

13 MS. WHIRLEY: Done with that?

14 MS. ALIZADEH: Yes, sorry.

15 MS. WHIRLEY: No problem. I'm going back,
16 sorry, let me go forward.

17 **A** So now we're moving back over to the right
18 hand here and again, some small defects, a little
19 abrasion here and there. I really, again, I cannot
20 tell you what caused them, just small abrasions.

21 So now we're looking at his right
22 flank. I had the photographer take this image cause
23 now you can see the trajectory of this gunshot
24 wound.

25 Here is the entrance gunshot wound to

1 the right lateral chest and this is where they
2 recovered that round that we saw that defect from
3 the prior autopsy. It is basically going front to
4 back and a little bit downward.

5 And while it goes through this
6 course, it doesn't actually enter the chest cavity,
7 but it fractures the eighth rib and a splinter of
8 that bone actually injured the right lung on the
9 lower lobe.

10 Q (By Ms. Alizadeh) This is a gunshot wound
11 from the front?

12 A Correct, correct. Here is your entrance
13 here and this is where the round was recovered.

14 Q And in this image, because we can't see
15 the hands or feet of the body, where is his head?

16 A His head would be up to this side and the
17 feet would be down here. (indicating)

18 Q So that's on the right side?

19 A Correct, this is the right side of his
20 body here.

21 Q All right.

22 MS. WHIRLEY: Would that wound have
23 disabled him?

24 A No, it is not in my opinion that wound
25 would have disabled him. It would hurt, but it

1 wouldn't disable him.

2 **Q** (By Ms. Alizadeh) If someone received that
3 wound, could they run 25 feet?

4 **A** Yes, yes. Again, another image here. We
5 kind of put his arm back and you can see his armpit
6 and again entrance gunshot wound here, and that is
7 where they recovered that round.

8 Just because we haven't mentioned it
9 yet, we haven't really described that other wound
10 here on the right clavicle. What it did on the
11 inside he had about 400 milliliters of blood in his
12 right chest cavity. That's about like a can of
13 Coke. A can of Coke is about 350 milliliters, so a
14 decent amount of blood in his right chest.

15 And again, this fractured a rib that
16 caused injury to the lung and that gunshot wound to
17 the right clavicle area fractured the clavicle and
18 then it went right through the upper lobe of the
19 right lung. So quite a bit of injury to the right
20 side of his chest.

21 MS. ALIZADEH: We're going to ask the same
22 question. If someone received those injuries that
23 then injured his lung, would that immediately
24 incapacitate a person?

25 **A** They would not.

1 **Q** (By Ms. Alizadeh) Is that a fatal wound?

2 **A** It could be. We talk about gunshot
3 wounds, it could be fatal to your leg. I mean, it
4 doesn't matter over time anything can be fatal.
5 Instantly fatal, no.

6 **Q** So this person, Michael Brown, if he had
7 received those two gunshots, he would still be able
8 to stand?

9 **A** Yes.

10 **Q** Could he run?

11 **A** Yes.

12 **Q** Could he perceive things?

13 **A** Yes.

14 **Q** And see things and speak?

15 **A** Yes.

16 **Q** Make sound?

17 **A** Yes.

18 MS. WHIRLEY: Would he be able to raise
19 his hands up towards his head?

20 **A** Yes, but with pain. Now you have a
21 fractured clavicle, you have a gunshot wound through
22 the right side of your chest. It is going to hurt
23 to raise your arm, but yes.

24 MS. ALIZADEH: What about, you mention
25 that the lung was actually pierced by the 8th rib,

1 but also that the bullet entered the lobe of right
2 lung?

3 **A** Correct.

4 **Q** And there was a significant amount of
5 blood from that, which I imagine you did not see in
6 your autopsy?

7 **A** Of course, that's correct. A lot of these
8 things that I'm telling you I could not tell from
9 our autopsy. We actually had to go back and look at
10 Dr. report and his images. And that's
11 because, as you can imagine, after the autopsy, all
12 of these organs have been dissected and they're
13 dissected again on a second autopsy. And they're
14 put in a bag and they are in the abdominal cavity
15 after embalming.

16 So we basically just have a bag of
17 organs to look at. We lay them all out, we do our
18 best, but it can be challenging to interpret gunshot
19 wounds at that point.

20 **Q** If the lung was injured in two different
21 places at that point, could a person scream loudly?

22 **A** Yes, I see no reason why a person couldn't
23 scream loudly.

24 **Q** And the other lung was uninjured by any
25 gunshots wounds, correct?

1 could be misleading. If we were hurt like that, our
2 instinct would be to bend over?

3 **A** I agree, that's possible.

4 : Okay. And he would be
5 out of breath, so he'd be breathing heavy probably.

6 **A** Yes, he would have labored breathing. It
7 would be difficult to get a good breath at this
8 point.

9 With that
10 same out of breath, he's out of breath, maybe he
11 can't move as fast?

12 **A** Oh, I agree, undoubtedly. These are
13 definitely, they're not fatal gunshot wounds, but
14 they are difficult to breathe afterwards. I mean,
15 having any injury to your right chest like that.
16 Once a bullet goes through your lung, a lot of
17 things can start happening physiologically. Your
18 lungs can shrink down, it can be a real difficult
19 time to breathe after that.

20 : You could still run or
21 walk?

22 **A** You have a lot of reserves, especially in
23 a certain situation like this and you have a lot of
24 adrenaline going, you will be surprised what you can
25 do after you receive a gunshot wound.

1 So, yes, I think he could still walk,
2 run, talk, and do all of that despite having injury
3 to his right chest.

4 MS. WHIRLEY: Okay.

5 **A** So now we are looking at the other side of
6 the body. We don't have any injury here to talk
7 about.

8 And again, left forearm, that injury
9 we talked about before that superficial incised
10 wound.

11 Just a close-up image here of his
12 tattoo.

13 And now we're just going to do our
14 face shot. These are our standard shots after we
15 are done. Nothing new here. You get a little bit
16 better appreciation of all the abrasions that he had
17 suffered here above the right eye and below the
18 right eye.

19 MS. WHIRLEY: The wound to the top of the
20 head we have not seen yet, correct?

21 **A** The wound to the top of the head we have
22 not seen yet. And I'll just make a quick comment
23 about these abrasions because I know it will come
24 up.

25 These are abrasions, blunt force

1 injury. The body impacts a foreign object or a
2 blunt object impacts the body. I believe they are
3 consistent with a terminal fall. We see it all the
4 time, heart attacks, people all the time get
5 abrasions on the prominences of their face when you
6 hit the ground if you can't protect your head with
7 your hands.

8 MS. WHIRLEY: I don't know if we will see
9 this in this light, but there was testimony that he
10 fell to his knees before falling on his face.

11 A Okay.

12 MS. WHIRLEY: Did you see any injuries to
13 his knees?

14 A We did not see any injuries to his knees.

15 MS. WHIRLEY: You would have looked at the
16 whole body?

17 A Yes, ma'am, head to toe.

18 : I have one question,
19 On that forehead shot, I know we talked
20 about some of the lungs, would he be able to still
21 stay on his feet and run?

22 A In my opinion that would be a very
23 disorienting thing to experience. If you think
24 about it, you have a gunshot wound going from here
25 through your right eye and exiting. Fracturing

1 multiple bones of your face in the process. Your
2 brain is not far away. So just think about
3 concussive effects of a bullet passing through your
4 forehead.

5 We've seen people knocked out from
6 punches, now imagine a bullet going through
7 forehead. Yes, I believe it could be very difficult
8 to not be disoriented after receiving that.

9 MS. WHIRLEY: What's disoriented going to
10 look like?

11 **A** That's just going to depend, you could
12 just look like you're in a stooper, it is going to
13 depend.

14 MS. WHIRLEY: But it would not have put
15 him down necessarily?

16 **A** I think it is just going to depend on
17 situation. It depends on his constitution. I can
18 see this putting somebody down.

19 MS. WHIRLEY: Was it the fatal shot in
20 your opinion?

21 **A** This is not in and of itself an instantly
22 fatal gunshot wound, no.

23 MS. WHIRLEY: Okay.

24 . Would it
25 look like he was drunk or something like he was

Page 125

1 staggering.

2 **A** I believe that's possible, yes, I believe
3 that's possible.

4 . From
5 these can you tell the duration between the time
6 each of these wounds?

7 **A** We cannot.

```
8           :   Going back to back,
9 seconds in between now.
```

10 **A** We cannot do that.

11 This is a stupid
12 question, but you can't even tell if those abrasions
13 were happening, what time they happened?

14 **A** We can't. I mean, this all happened, I
15 assume, within the same window of time. None of
16 these injuries look like they are from weeks ago or
17 anything.

18 So the image of the left side of the
19 head. Now you can see that some more prior autopsy
20 artifact he has had, his scalp reflected and there's
21 sutures in there.

22 MS. WHIRLEY: What do you mean by scalp
23 reflected?

24 **A** So during the autopsy, we take our scalpel
25 blade and run it over the vertex of the scalp behind

1 the ears and then reflect the scalp over the face in
2 order to get access to the brain, and it has already
3 been done.

4 Now we are looking at the other
5 gunshot wound.

6 Go ahead.

7 : I'm .

8 You said that he would be dizzy or disoriented, but
9 if he has 12 nanograms of marijuana or 45 nanograms
10 for marijuana in his body, that could let him do,
11 not to feel that much, the pain or the part what is
12 going on?

13 **A** I understand your question and I'm going
14 tell you guys this. I'm not a forensic
15 toxicologist. These levels of marijuana, I don't
16 make any sense of them myself. I don't want to go
17 there. I don't know its affects on him. I know
18 general affects of marijuana, but I can't say
19 whether or not that would make him impervious to
20 pain. I would prefer not to comment.

21 Thank you.

22 MS. WHIRLEY: Still on this slide, I
23 think.

24 **A** Okay. This gunshot we are looking
25 straight down on the top of his head at this point.

1 His abdomen would be up here, his back is against
2 the gurney.

3 So this has been previously shaved,
4 Dr. had done this, I did not. And now we
5 can see an entrance gunshot wound basically right at
6 the top of your head right here. And I think we
7 have a closer up image if we can go one more. Go
8 one more, maybe we have one more. Go ahead one
9 more. Maybe we don't, can you go back one more,
10 sorry.

11 MS. WHIRLEY: Okay.

12 **A** Sorry.

13 MS. WHIRLEY: No problem. I'm trying to
14 go back right.

15 **A** Slightly closer up image of that entrance
16 gunshot wound to the top of the head. These red
17 marks that you guys are seeing here, that was caused
18 by the scalpel blade when Dr. had basically
19 taken the hair off. Those are abrasions for where
20 the scalpel kind of ran across the top of the skin.
21 Now we have an entrance gunshot wound here. Again,
22 we don't see any close range discharge with the
23 firearm.

24 MS. ALIZADEH: And just let me ask you
25 this. This is an entrance wound, correct?

1 **A** Correct.

2 MS. ALIZADEH: Was there a corresponding
3 exit wound for this injury?

4 **A** There was not. On the x-rays we noticed a
5 projectile on kind of the right side of his head.
6 So this particular trajectory through the head went
7 downward and to the right. It went right through
8 the right hemisphere of the brain, clear through it.
9 Clear through the parietal lobe, clear through the
10 temporal lobe and then they recovered a bullet next
11 to the base of the skull beneath the brain, and that
12 was also fractured.

13 So there were skull fractures at the
14 top of the head and also at the base of the skull
15 and quite a bit of what we call intracranial
16 bleeding. There was a lot of blood associated with
17 this bullet going through the head.

18 MS. ALIZADEH: Can you explain what the
19 effects of this wound would have been on Michael
20 Brown?

21 **A** Right. So, you know, we had some debate
22 with the gunshot wound to the forehead if that could
23 immediately debilitate you and make it impossible to
24 have purposeful movement. This gunshot wound, in my
25 opinion, would be instantly fatal.

1 have hit his knees on the way down.

2 : If he had hit his knees,
3 is it possible to be no abrasion on his knees?

4 **A** Well, I took a look at his clothing, which
5 we didn't have and obviously he wasn't clothed when
6 he came in for his third autopsy, but his shorts do
7 seem to go beyond his knees, around the level of the
8 mid calf. I think they would have offered some
9 protection to his knees, so it is possible he could
10 have hit his knees on the pavement and not gotten an
11 abrasion.

12 MS. ALIZADEH: Now, hold on. Is this the
13 last gunshot wound.

14 **A** Well, we haven't talked in full detail
15 about the one to thumb yet.

16 MS. ALIZADEH: Those pictures we have
17 already seen, correct?

18 **A** Correct.

19 MS. ALIZADEH: So to spare everybody from
20 looking. If you want to see those other images that
21 show the eye and the mouth, let me ask you this, you
22 talked about the injury to his right eye. Did you
23 notice anything remarkable about his mouth?

24 **A** Uh, no. So when we open the mouth, we are
25 going to look at the teeth and make sure they're all

1 intact. We also look at the frenulae, that's
2 basically the part that attaches the gum to your
3 lip, that was all intact. I didn't notice any
4 significant injury to the mouth.

5 The tongue was still in place, we
6 took the tongue out and we didn't see in any
7 injuries to the tongue either.

8 MS. ALIZADEH: All right. Did you examine
9 the neck of Michael Brown?

10 **A** So with any autopsy we first look at the
11 exterior of the neck, we didn't see any lesions at
12 all on the surface of his neck, any lesions on the
13 back of his neck.

14 MS. ALIZADEH: What's a lesion, Doctor?

15 **A** Any kind of a defect out of the ordinary
16 that you wouldn't expect to see. So we didn't see
17 any abrasions, any contusions, any lacerations, no
18 injuries.

19 During the autopsy you reflect the
20 skin over the face and then we can look at
21 underneath, we can look at all of the musculature of
22 the neck, we can look at the deep layers of the
23 skin. We didn't see any evidence that there was any
24 bleeding in any of the neck structures.

25 MS. ALIZADEH: Did you notice either

1 through your autopsy or examining the photographs
2 and the report from Dr. autopsy, did you
3 note that there was any bruising to the neck area?

4 **A** No, we did not, nor through our
5 examination or review of what Dr. had done,
6 there was no injury to any of the neck structures.

7 MS. ALIZADEH: We talked yesterday a
8 little bit about this bruising is a very difficult
9 thing to interpret, would that be fair to say?

10 **A** Correct.

11 MS. ALIZADEH: And people bruise
12 differently?

13 **A** Correct.

14 MS. ALIZADEH: And people have different
15 skin tones, might make it more difficult to see a
16 bruise, visualize a bruise, correct?

17 **A** Correct.

18 MS. ALIZADEH: Can you see a bruise after
19 you've reflected the skin?

20 **A** Yes, especially once we reflect the skin,
21 you can actually see, a real bruise is going to
22 diffuse in the skin beneath.

23 So you can take your scalpel blade
24 and run it over a bruise. If there is contusion or
25 bleeding underneath that's consistent with a true

1 bruise. But in this situation, we didn't see
2 anything like that in the neck.

3 : Just so I understand what
4 you're saying, I know I want to make sure that I
5 understand it.

6 It is easier to see a bruise under the
7 skin than it is on the skin?

8 **A** Oh, no, not necessarily. It depends on
9 the skin tone, it depends, you know, how old you
10 are, because it is pretty easy to see bruising on
11 some people that are over the age of whatever. Very
12 old people have thinner skin.

13 MS. ALIZADEH: Be careful, Doctor.

14 **A** That is true.

15 : Just because they
16 couldn't see it doesn't mean the bruising wasn't
17 there?

18 **A** There was no evidence of bruising.

19 MS. ALIZADEH: Again, visually on the
20 surface, no evidence of bruising, correct?

21 **A** Correct.

22 MS. ALIZADEH: And then when you reflected
23 the skin and examined the tissue under the skin, no
24 evidence of bruising?

25 **A** Correct.

1 MS. ALIZADEH: And I asked you yesterday,
2 and I know that this is asking you to speculate
3 somewhat, but have you seen strangulation injuries?

4 A Yes, ma'am, I have.

5 MS. ALIZADEH: And strangulation, have you
6 seen strangulation injuries that are caused by a
7 human hand as opposed to like what do you call it?

8 A Ligature.

9 MS. ALIZADEH: Ligature.

10 A I have, yes.

11 MS. ALIZADEH: Just for speculation
12 purposes, and I know that this is, I'm asking you to
13 use your medical expertise and if you can't answer
14 this, just simply say I couldn't tell you. But if
15 someone were to have grabbed Michael Brown around
16 his throat with one hand and were to have hold
17 tightly enough with that grasp so that Michael Brown
18 could not get away from that grasp, would you expect
19 to see bruising?

20 A I would, I would. Strangulation in
21 general is a very violent act and it requires a lot
22 of force. And in order to do it effectively, you
23 need to be doing it hard. So you are going to have
24 some evidence usually, yes, I would expect to see
25 it.

1 MS. ALIZADEH: Not impossible that there
2 wouldn't be any evidence.

3 A I would say that's true.

4 MS. ALIZADEH: Or maybe if his grasp was
5 momentary as opposed to lasting several seconds,
6 that would affect maybe whether you would see
7 bruising?

8 A I agree.

9 MS. ALIZADEH: So I don't recall if there
10 are any other injuries that you photographed. I
11 would like to go back and talk about the injury to
12 the palm now.

13 A Yes.

14 MS. ALIZADEH: Would it help you to
15 explain your findings if we were to use photographs,
16 because you've seen the photographs that
17 Dr. , that were taken during Dr.
18 autopsy; is that correct?

19 A Yes, ma'am, correct.

20 MS. ALIZADEH: By the time you examined
21 the body, the appearance of that wound was somewhat
22 different?

23 A Yes.

24 MS. ALIZADEH: Would it help you to
25 explain your findings to look at the photographs

1 that Dr. look or would it be better for you
2 to use the photographs that you took?

3 **A** I would prefer to use Dr.
4 photography on this.

5 MS. ALIZADEH: Okay. I've got some
6 photographs, and Sheila can you switch it so we can
7 do that. And these are again photographs that were
8 taken during the autopsy by Dr. , which are
9 contained in State's Exhibit Number 7.

10 I'm going to show you one that is Image
11 Number 49, and the picture is always clearer than it
12 is when I put it up on the overhead here. So if you
13 need to look at it on the overhead, I can have that,
14 I can show you the picture, but can you see it
15 clearly enough to describe what you need to see to
16 describe your conclusions about this injury?

17 **A** Yes, ma'am.

18 **Q** Explain for the jurors, you have already
19 talked about this being a tangential wound and you
20 describe what that means. There is no bullet
21 recovered in this wound; is that correct?

22 **A** Correct.

23 **Q** You believe this was caused by a blunt
24 force as oppose to like a sharp object?

25 **A** I believe this was caused by a gunshot

1 wound.

2 **Q** Why do you think that?

3 **A** So this is very classic once again for a
4 tangential gunshot wound. It was going in this
5 direction towards the base of the palm here and the
6 reason why I can say that is because whenever these
7 injuries occur, these skin tags will form and they
8 point toward the direction from which the bullet
9 came.

10 So you can appreciate them a lot
11 better here than you can on our autopsy photograph.
12 And again, the body has been embalmed, the tissue's
13 kind of contract and it makes it difficult, but you
14 can appreciate several tags that point in that
15 transaction.

16 Trajectory is going this way, and in
17 this area, and I know it is difficult to appreciate
18 projected on the screen, but I'm sure you guys have
19 seen these photos in person before.

20 Again, I would suggest you take a
21 close look at this area. This was from the first
22 autopsy, it is after he washed the hand, but before
23 he took sections of it for special microscopies. He
24 was interested in this area right here which is the
25 origination of this gunshot wound where the bullet

1 came from.

2 So right in this region, the skin is
3 slightly discolored, it's a little gray in
4 comparison to the skin around it. It's hard to see
5 on the screen, but on these images you can see it up
6 close. That is our interpretation of soot. It is
7 from the barrel of the gun.

8 And we can confirm that when we take
9 this and we look at it under the microscope and we
10 can see the soot deposits on the skin and within the
11 gunshot wound track. (indicating)

12 **Q** Now, at some point after your autopsy, did
13 you receive some slides and some photographs of
14 slides that were sent to you by ?

15 **A** Yes, ma'am, I did. took
16 photographs of a slide from this location and sent
17 it to me and then eventually sent me a slide to look
18 at under my own microscope.

19 **Q** And we've seen actually a picture of the
20 slide that you have talked about. Actually, the
21 slide we had shown during Dr. testimony I
22 received from the Department of Defense, but the
23 image that you looked at through the microscope, did
24 you draw any conclusions about whether or not there
25 were any foreign particulate in the tissue?

1 **A** Yes. So what we're actually seeing, if
2 you guys have already seen this image, it might be
3 easier to explain. Little black deposits, foreign
4 material. It is highly consistent with soot.

5 And again, we see the same thing in
6 people that are in and around fires that get smoke
7 inhalation. Inside the airways when we look at it
8 under the microscope, we can see soot deposits, this
9 black particulate matter.

10 I don't know what else it is, it's
11 soot.

12 **Q** Could it be dirt?

13 **A** It is not my opinion that it is dirt.

14 **Q** What does it tell you then if you looked
15 at the tissue samples provided to you by
16 Dr. as well as the pictures of the slides
17 that he has taken. What is your conclusion once you
18 determine that he believed that there is soot
19 deposited in the tissue that you examined?

20 **A** That this is officially close range
21 discharge of a firearm at this point. This entrance
22 wound was extremely close to the barrel of the
23 weapon.

24 **Q** And what would be the farthest distance
25 that you would consider before you would say it was

1 not close range?

2 **A** So we discussed this briefly before,
3 again, in order to get soot deposition, standard
4 ballpark number, standard handgun about one foot
5 out. After two feet, you no longer see soot
6 certainly, and you don't see any gunpowder
7 stippling. Beyond 2 feet you won't see any evidence
8 of close range discharge.

9 **Q** Did you see any gunpowder stippling?

10 **A** We did not see any gunpowder stippling on
11 any of the gunshot wounds in this case.

12 **Q** It is your opinion that the foreign
13 particulates, the little black specs that you saw on
14 the slide that was the tissue sample from the wound
15 of the right hand, that that was soot and that would
16 indicate to you that it was a close range wound?

17 **A** Correct.

18 **Q** Did you do any gunshot residue test on
19 that wound?

20 **A** We do not. The Arm Forces Medical
21 Examiner System does not do gunshot residue testing.
22 It is usually through CID or NCIS, one of the other
23 investigative agencies. We did not do that in this
24 case.

25 Moreover, it would have been for the

1 most part useless. The body had been autopsied
2 twice before, it has been washed a number of times,
3 embalmed, it wouldn't have given anything valuable
4 at that point.

5 . I was writing
6 while you're talking. Are you saying in order to
7 get soot they would have to be one foot or closer?

8 **A** Within a foot, ballpark within a foot.
9 With gunshot wounds, if it is right up against the
10 skin, at that point all the soot is going to be
11 inside the wound. It's not going to deposit around
12 the skin because the muzzle is pressed against the
13 skin.

14 As you start to pull back, the other
15 thing you will see when it is right up against is a
16 muzzle imprint. You can actually see the barrel
17 basically abraded and stamped right on the skin
18 around it.

19 So you will soot and you also get
20 searing of the skin, like a thermal burning affect
21 from the hot gases of the gun going onto the skin.

22 As you start to move the weapon back,
23 the soot will start to disburse around the entrance
24 wound a little bit and then as you move further and
25 further back, you will start to get stippling. And

1 what stippling is, is basically the gunpowder
2 particles, both burning and unburning that come out
3 of the barrel, they pepper the skin, it's abrasions.
4 They are not burns, they're abrasions from the
5 gunpowder hitting the skin.

6 You usually have to be a few inches
7 back before you start to get stippling. Soot
8 indicates to me it is close, we're within a few
9 inches here, this is close.

10 : So if it were up close
11 right to the skin, it would be almost like a
12 branding.

13 **A** Right, you would see a muzzle imprint. In
14 this case we don't, but remember, though, this is a
15 tangential gunshot wound, the gun is not
16 perpendicular to the skin at this point. So the
17 muzzle, you know, if I'm trying to recreate this as
18 it is in my left hand. The muzzle is going to be
19 like this compared to the skin, it is going to be
20 close, it is not right on it. We would probably see
21 some kind of a muzzle imprint at that point.

22 . Is that the
23 direction that the stippling shows the gun was
24 fired?

25 **A** The direction of fire, again, is this

1 direction. Starts here and goes in that way and
2 that's why the soot is deposited here because that's
3 the closest to the barrel in this location.

4 **Q** (By Ms. Alizadeh) Now, Dr. , you
5 made a further finding in your examination of the
6 slide or slides, you received several images and
7 slides; is that right?

8 **A** Correct, yeah. Dr. has sent me
9 at least three or four images of his slide.

10 **Q** We actually just used one today. For our
11 purposes, it kind of all looks the same to me, if
12 you feel it would help you to explain, we've got
13 images of all of your slides. If I put up the slide
14 that you and I looked at yesterday, would it help
15 you to explain?

16 **A** Sure, we can go over it, that's fine.

17 MS. WHIRLEY: I'm not sure.

18 MS. ALIZADEH: You figure out how to
19 change it back to this.

20 MS. WHIRLEY: What do you want to do?

21 MS. ALIZADEH: Change it back to this. At
22 the very end of this we are finally getting the hang
23 of that.

24 MS. WHIRLEY: Oh, I got it.

25 **Q** (By Ms. Alizadeh) What we're looking at,

1 Dr. , you and I met yesterday and we talked
2 about this image and can you describe for the grand
3 jurors what you are seeing?

4 **A** Okay. So we don't really have an
5 establishing low power shot to kind of explain where
6 we are. I can tell you this is the dermal part of
7 the skin, it is the deeper layers of skin.

8 So you have the surface which is the
9 epidermis and under that is the dermis. It's a
10 little deeper, but it's not quite into the fat,
11 which is pretty deep into the skin.

12 So what we are seeing here along this
13 side, this is the gunshot wound track that was from
14 that gunshot wound into the thumb, okay. And what
15 we are seeing along the edge here are these
16 polarizable fragments here, and then this black
17 carbonation looking deposit.

18 This is soot, in my opinion. There's
19 really nothing else on my differential. Dirt, I
20 don't see how dirt is going to get into that wound
21 in this situation and not really be deposited
22 somewhere else on the palm that we're going to be
23 able to see it.

24 Furthermore, when tissue is processed
25 in histology, it is a pretty destructive process and

1 there's a lot of washing, a lot of chemicals. I
2 would think that simple dirt would get washed away,
3 okay.

4 And also look at where this stuff is.
5 It is actually getting inside the tissue a little
6 bit. For dirt to just crawl inside of the tissue, I
7 think it would be difficult to do. I think this was
8 deposited by force with a gunshot.

9 **Q** So this jagged edge along the right side
10 of the tissue, that's the track of the bullet or it
11 shows the track of the injury at least?

12 **A** Yeah. So in order for me to explain
13 exactly where this is, I have to go back again to
14 the photograph of the hand. But this is the bullet
15 would have gone right through this location and it
16 would have literally touched and injured this skin.

17 **Q** Okay. And so you mentioned the polarized
18 particles, are those little white things?

19 **A** Yeah, these things that are standing out
20 as clear like that and these guys, those are called
21 polarizable foreign debris is what that is.

22 **Q** And the black things are?

23 **A** Again, we would just call this soot. I
24 cannot tell you exactly what that is. It's
25 polarizable foreign debris.

1 So if you think about when you shoot
2 a gun, a lot of things come out of that barrel than
3 just a bullet. You have vaporized pieces of metal,
4 all sorts of things coming out. So it could be
5 that, I'm not sure.

6 **Q** Okay. Now, you also made a particular
7 finding about some thermal changes to the tissue?

8 **A** Correct. So thermal changes to the tissue
9 again, it just means it is in close proximity to
10 that barrel, so the heat from the gun can actually
11 thermally coagulate the skin. A lot of what we see
12 in those situations, these are nuclei down here, the
13 nucleus is inside the cell. They can start to blur
14 and stream, it is kind of hard to see these as clear
15 as you would if it hadn't been heated up.

16 Again, here, there is some indication
17 that there were nuclei here, but they're all kind of
18 homogenizing and blurring and blending. It is a
19 soft indicator there was probably some thermal
20 affect here.

21 **Q** And so when a bullet passes through the
22 barrel of a gun, does the barrel itself heat up?

23 **A** The barrel itself would, there is a lot of
24 pressure in that barrel, it would heat up.

25 **Q** And then the gases that are expelled?

1 **A** Especially hot, the gases that come out of
2 the barrel, you get a muzzle flame and super heated
3 gases that come out of the barrel and they can burn
4 you.

5 **Q** When you examine the injury visually on
6 the hand, do you see any evidence of burning?

7 **A** So we have to remember when I did my
8 autopsy, Dr. had already taken this
9 relevant area out of the body. He submitted it for
10 histology, so I had nothing to look at really of the
11 hand that would suggest to me at that moment in time
12 that there was close range.

13 **Q** So your conclusion about the thermal
14 changes is based strictly on your examination of the
15 slides that were provided?

16 **A** And Dr. photographs.

17 **Q** Okay. And so is there a difference, can
18 you draw, what conclusion do you draw from the fact
19 that you see thermal changes in the tissue?

20 **A** I would just lump it altogether and say
21 close range discharge of a firearm. It is within a
22 very close proximity of the muzzle of the weapon,
23 enough to get thermal effect as well as soot
24 deposition.

25 **Q** Is there any difference, it has to be

1 closer, or farther away, like you could possibly
2 wouldn't see?

3 **A** I know what you are trying to say.

4 **Q** You give a range for the close contact or
5 the close range?

6 **A** That would cause thermal effect?

7 **Q** Yes.

8 **A** That is difficult, I cannot do that. I
9 don't know of any ballpark numbers to say, you know,
10 it has to be 2 inches before you see thermal affect.
11 I don't know, but I can tell you it has to be close.

12 MS. ALIZADEH: Okay. And then you
13 prepared a report regarding your findings in this
14 case. I'm going to hand you what I've marked as
15 State's Exhibit: Number 80.

16 MS. WHIRLEY: Let me ask a question while
17 you are looking for that. Doctor, can you say that
18 how the injury occurred to the hand, I mean, you
19 could say close range, but you can't say whether or
20 not someone was grabbing the weapon and moving it or
21 trying to avoid the weapon from shooting them or any
22 of that?

23 **A** Right, there's nothing based on images and
24 histology for me to be able to say how the hand was
25 and what he was intending to do, I have no idea.

1 MS. WHIRLEY: You're not calling it a
2 contact?

3 A I'm calling it close range.

4 MS. WHIRLEY: Close range. Tell us the
5 difference, I know it sounds self-explanatory.

6 A It is kind of what we are discussing. In
7 order for me to call it literally contact gunshot
8 wound, the muzzle was on the skin. I would prefer
9 to see a lot of soot deposition inside the wound. I
10 like to see some searing of the barrel. I would
11 like to see a muzzle imprint of the barrel on the
12 skin. That's what I prefer to see in order to say
13 contact range.

14 MS. WHIRLEY: You don't see any of that,
15 so you call it close range?

16 A Close range. It's a little bit more of a
17 hedgy term. To say I don't know exactly how far it
18 was, but it wasn't necessarily right up against the
19 skin.

20 A contact
21 would be somebody taking their life?

22 A If they take the barrel and put it right
23 to their temple and pull the trigger, yes, I would
24 call that a contact range gunshot wound.

25 MS. ALIZADEH: All right. I can't lay my

1 hands on the copies I made, but I'm going to show
2 you.

3 (Deposition Exhibit Number 81
4 marked for identification.)

5 **Q** (By Ms. Alizadeh) I'm going ahead to mark
6 my copy, and this is Grand Jury Exhibit 81, is this
7 a copy of your autopsy report?

8 **A** Yes, ma'am. This is copy of our autopsy
9 report.

10 **Q** (By Ms. Alizadeh) Okay. Since this is my
11 copy and I've marked it with highlights, but I'm
12 going to make a clean copy for everyone. I thought
13 I already did this, but just for the sake of making
14 sure that we're looking at the same thing. The last
15 page of your report it says nine of nine pages?

16 **A** Right.

17 **Q** So there is a total of nine pages to your
18 report?

19 **A** Yes.

20 **Q** Let me ask you, Dr. , we're going to
21 wrap this up. Did you see, you talked to
22 Dr. , you saw his autopsy report, are there
23 any differences between your findings and
24 Dr. ?

25 **A** Essentially none. The only real

1 difference is that wound that we described on the
2 left forearm. He called it blunt force, I called it
3 sharp force. Whether that's significant, but that's
4 the only difference.

5 **Q** In order for you to perform your autopsy,
6 did you need to see the vehicle, Michael Brown's
7 vehicle, I mean, Officer Wilson's vehicle?

8 **A** No, ma'am.

9 **Q** What about medical records from Officer
10 Wilson?

11 **A** No.

12 **Q** Did you need to see the clothing from
13 Officer Wilson?

14 **A** No.

15 **Q** And you said you did not have the clothing
16 for Michael Brown when you did your autopsy,
17 correct?

18 **A** Correct.

19 **Q** Would it have been helpful for you to have
20 the clothing?

21 **A** It is always helpful to have the clothing
22 in gunshot wound cases. That way you can see any
23 soot or anything, any gunpowder particles on the
24 clothing, but it doesn't mean I can't perform my job
25 if I don't have them.

1 **Q** Was there anything that you needed in
2 order to do your job and come up with your findings
3 that you didn't have?

4 **A** No.

5 **Q** Did you, how did you have the gun to
6 examine?

7 **A** Oh, no.

8 **Q** Did you need to have the gun in order to
9 come up with your findings?

10 **A** No, ma'am, I have never had a gun to look
11 at during an autopsy.

12 MS. ALIZADEH: Anything else.

13 Was this
14 the time that you examined the body eight days
15 later. Do you normally examine, is there like an
16 earliness or being eight days late, do you normally
17 examine later or sooner?

18 **A** So my job is kind of unique. People that
19 die overseas in Afghanistan and Iraq, it takes them
20 a number of days to get back to Dover. Sometimes
21 embarrassing, they it could take a week. So I'm
22 pretty accustom to seeing bodies if they have been
23 dead for a number of days.

24 MS. ALIZADEH: And Sheila reminded me, I
25 don't think I asked you, did you see the crime scene

1 photos prior or at any time during your examination
2 or prepare your report?

3 **A** No, ma'am. Yesterday was the first day I
4 was seeing the crime scene photos.

5 MS. ALIZADEH: That was when you and I
6 were talking about this?

7 **A** Yes.

8 **Q** (By Ms. Alizadeh) And would you have
9 needed those to have performed the autopsy and come
10 up with your findings?

11 **A** Not in this case, no.

12 **Q** The ones I showed you, you recall that we
13 were looking at the position of the deceased body as
14 it laid on the ground and the position of his right
15 hand?

16 **A** Correct.

17 **Q** All right. And was I asking you if you
18 would expect to see dirt in the wound when his hand
19 would be positioned in that manner?

20 **A** All we can see from that is that the
21 relevant gunshot surface of his hand was not
22 touching the ground, that's all I can say about
23 that.

24 MS. ALIZADEH: Anything else anyone?

25 Thank you, Dr. .

1 (End of the testimony of Dr. .)

2 MS. ALIZADEH: It is November 6th at 1:37
3 p.m. Kathi Alizadeh, Sheila Whirley is present, all
4 12 grand jurors are present and , the court
5 reporter, is present and taking down what's
6 happening in the grand jury. We have one more
7 witness for today and his name is
8 I'm not sure if it is And I
9 believe it is he will spell it
10 when he gets here.

11 And so prior to his testimony, we're going
12 to play a disc that I've marked.

13 (Grand Jury Exhibit Number 82
14 marked for identification.)

15 MS. ALIZADEH: Grand Jury Exhibit Number
16 82. Just for explanation purposes. This is a disc
17 of a POD cast. Do you all know what a POD cast is?
18 If you were on the internet, you can broadcast
19 yourself as well as images and voice, okay.

20 There is a man, I don't know where he
21 originates from, but his name I'm
22 not sure how you say it. But he has a POD cast and
23 so you will see from the video, you can see him and
24 he's sitting in a desk. It looks like he's sitting
25 at a console and he's got what looks like a radio

1 microphone, but he talks about all kind of things.

2 This is a regular thing for him, this is
3 what he does. And then he also take his calls,
4 people call in like a radio show, they will talk
5 about whatever the topic is.

6 And then those programs get broadcast out
7 on the internet. Go to whatever his website is to
8 watch his show and so this is a recording of a part
9 of his show, where the caller talks about having
10 witnessed the shooting of Michael Brown.

11 And so we're going to go ahead and play
12 the call first. This is again Grand Jury Exhibit
13 Number 82. Actually on this disc there are two
14 files. And I'm playing the file that is entitled To
15 Police Brutality! What Should Citizens Do.

16 The other file is actually the beginning
17 of the show before the caller calls in and it is
18 just the host of the show talking about things, so
19 it is not something that eyewitness account.

20 Let me pause it because, , we do not
21 have a transcript. As best you can if you could
22 transcribe what we're hearing. I will have you go
23 ahead and pause the recording right now.

24 (Playing of POD cast.)

25 On television the main

1 news people, they put someone sound dumb, they do
2 not have any sympathy for the situation. You go
3 look on my channel and see the guy that I have and
4 hear how he spoke, hear how well he articulated
5 himself. I'm the only one who put somebody who knew
6 the person, who dealt with the person, who spoke
7 like he knew what he was talking about, who sounded
8 educated, who didn't sound straight street may say,
9 exactly, that's why you want to choke him out, look
10 how they are reporting themselves.

11 I'm the only one who did it. So it is
12 funny that the coon doesn't allow people to get on
13 his channel. It is funny that the coon doesn't help
14 perpetuate the black folks look bad by going to the
15 dumbest motherfucker possible and saying, here's a
16 camera, speak.

17 It is funny how the guy I put up who was
18 speaking at Lenox Mall yesterday was speaking
19 eloquently with everything he said. No one could
20 sit up there and listen to him and saying, he sound
21 hood as a motherfucker, he's stupid.

22 We're going to get to a lot of phone
23 calls, hopefully we have a lot of people calling
24 from the area of St. Louis. I'm being told by a lot
25 of people that I should not go, that it is really

1 bad there. What I'm going to do is speak to a lot
2 of people who are from there. And one, his name is
3 and he lives in the complex where Mike Brown
4 was shot, what's up,

5 Hey, how you
6 doing.

7 : I'm doing well, how you
8 doing brother, when you are right there in the war
9 zone?

10 I'm right in front.
11 First of all, I'd like to say I appreciate the work
12 you doing, brother.

13 : Thank you.

14 Big respect. , man,
15 the incident happened just the other day went from
16 the murder to a damn carnival out here, man.

17 Explain.

18 Well, I was on my front
19 patio sitting down and I heard a first shot. So I
20 jumped up and looked out my patio, right.

21 : Uh-huh.

22 And I notice that
23 officer, officer is in his car. And the boy he's
24 leaning up into the window, they are like
25 struggling, right.

1 : Uh-huh.

2 I guess the officer hit the
3 door open and the guy started running down Canfield,
4 that's the name of street Canfield Road. And
5 apparently the officer was shooting him from the
6 rear.

7 Um.

8 And, I guess he, is his
9 name Mike, Michael, Mike?

10 Yeah.

11 I guess he was turned
12 around going back toward the officer, that's when
13 the officer unloaded on him. And when he fell to
14 his knees, he just collapsed in the middle of the
15 road.

16 Okay. Now there are some
17 reports, since you saw it firsthand, this is good,
18 there are some reports which you are saying openly
19 and hopefully you can help us out with that. There
20 are some reports saying that the guy had his hands
21 up when he was shot, is that true?

22 Well, I don't know, I
23 didn't see that because I was behind a wall.

24 : Yeah.

25 Yeah, right. But finally

1 the guy, he was walking back towards the officer,
2 maybe he did have his hands up, I don't know.

3 : Uh-huh. So somebody told
4 you that he was walking back towards the officer?

5 That's what the crowd was
6 saying. He had his hands up.

7 Uh-huh.

8 But I think I seen the
9 guy running down the street, the officer was
10 shooting from the back, okay.

11 : Uh-huh.

12 By the time I looked up,
13 the guy --

14 Hello oh, damn it. Who
15 dropped off, was it me? How did I drop off? Tell
16 to hold on. I kicked off my own damn show.
17 Now I know what y'all feel like. I got kicked off
18 my own show somehow.

19 Hey, brother, you still there?

20 Yes, sir.

21 : I got kicked off my own
22 shit. We didn't get a chance to hear the part where
23 you said that's what the crowd was saying that he
24 had his hands up, what happened?

25 Yeah, that's what the

1 crowd was saying he had his hand up. And I didn't
2 see the guy with his hands up, I did see him running
3 up the street towards the officer, maybe he did have
4 his hands up, I don't recall.

5 Uh-huh.

6 You know what I'm saying?

7 Let me ask you, you said
8 that he had his head inside of the car with the
9 officer like they were scuffling, so that part that
10 the officer said is actually true?

11 Yes, sir. That's when I
12 heard the first shot, the first shot came from the
13 officer in the car.

14 : That's what the officer
15 wrote. I was calling bullshit, the officer was
16 claiming that the dude was trying to grab his gun
17 and the shot went off in the car.

18 That's right.

19 : So you're saying that's
20 true?

21 The guy, half his upper
22 body was inside the windshield. I said what the
23 hell. And by that time, I guess the officer had
24 kicked his door open and the guy took off running
25 down the street and I think the officer was shooting

1 him as he was running down the street, okay.

2 Uh-huh.

3 By that time, the brother
4 was headed toward, I'm ducking, you know, I didn't
5 want to get done.

6 : Okay.

7 And I seen the guy turned
8 around, I don't know if he had his hands up or not,
9 I don't know, but that's when the officer unloaded,
10 you know.

11 : If you had to say from
12 your own opinion what you seen, do you think it was
13 a justified homicide?

14 Oh, from what I seen, by
15 the guy laying in the car up there, yeah. Yes,
16 there was a big scuffle right there, yes. The guy
17 was halfway inside the police car when I heard the
18 shot. You know what I'm saying?

19 Do you believe, you're
20 saying like the cop unloaded on him where you are
21 coming from, the cop unloaded on him when he stopped
22 and turned back around?

23 Like I said, he was
24 running towards my way, okay, down the main street.

25 : Uh-huh.

1 shooting at this guy, apparently he's not a
2 marksman. So he could literally miss this dude and
3 hit a kid that's walking around.

4 That's right, yeah, yes,
5 sir.

6 : I assume you saw it. You
7 got a good look out for him, you put out an APB for
8 him and you just try to bring him in.

9 That's right.

10 I don't know because we're
11 in crazy positions, and ladies and gentlemen we're
12 talking to a young man who was right there on the
13 scene, lives right there, he seen it
14 firsthand.

15 I'm not that young.

16 I ain't either, we young
17 until we dead, I'm going to keep calling us young,
18 man.

19 That's right, okay.

20 : What is this state of the
21 atmosphere, what is going on right now, what is
22 going on.

23 You really want to know
24 what's going on right now? During your break, there
25 was gunshots outside on the streets here, literally.

1 They had, kind of like beer cans popping, it was a
2 damn freak show. It was a show, shit like that.

3 : How do you think the
4 blacks are handling it. What do you think they
5 should be doing, as opposed to what they are doing?

6 Well, I think what they
7 should be doing is trying to come together in a more
8 positive way because I mean, you got pregnant women
9 out here, you've got kids, (inaudible). Kids out
10 here watching this, you know.

11 Yeah.

12 Infants just walking
13 around just watching stuff. It was a sad situation.

14 : I feel bad right now
15 because I don't know what to say next. I want to
16 measure my next comments. The first thing I said, I
17 own up to it, first thing I said was the cops need
18 to start feeling what the citizens are feeling. And
19 I still feel that way because cops have literally
20 gone too far how they are handling their citizens,
21 but I also looked at the scene. I looked at how
22 many hair hats was out there, (inaudible) we talk
23 about that, doesn't it bother you a little bit that
24 it was way more women, looks like 70 to 80 percent
25 women.

1 Yes.

2 : Women and kids.

3 Half of them was

4 pregnant.

5 : Oh, my goodness.

6 With baby strollers out
7 there. There was all young guys and women, no older
8 crowd at all. I heard you mention about the guy's
9 mother.

10 : Uh-huh.

11 The father was out there
12 also, but they was not, there was no companionship
13 with each other, they was separate doing their own
14 thing.

15 : Yeah, that's crazy.

16 There was no consoling or
17 nothing.

18 You saw the step dad
19 standing there with a sign saying, they shot my son
20 dead in the street. I thought that was the father,
21 they was like no, that's the step dad. You saw the
22 step dad with the mom, but you never saw the dad
23 with the mom. If you said he was out there, that's
24 crazy, they never even interviewed him.

25 That's right. As a

1 matter of fact (inaudible) this guy was walking
2 around with pants below his butt. Maybe (inaudible)
3 You know, his pants was sagging off his butt, no
4 shirt, it was sickening.

5 : Oh, gee, that's what's
6 really bothering me and do me a favor, send
7 me an email when I come out there, I want to talk to
8 you face-to-face if that's cool.

9 No problem, brother.
10 Send me an email at

11
12 Let me write this, just
13 one moment, .

14
15 that's views with an S. Send me an email, I want to
16 get up with you so I can meet with you and talk to
17 you face-to-face if that's okay.

18 I have something to show
19 you.

20 : Perfect, if you can.

21 I haven't shown anybody.

22 : If you can, send that to
23 me, that would be beautiful, I would be able to use
24 that and we can get that out there.

25 or just.

1 :
2 . Send it to
3 me. Let's get the thing going. I'm going to talk
4 to you when I get there, I cannot wait, thank
5 you, brother.

6 You keep up the good
7 work, you are doing a good job.

8 Let's see if we can do
9 this thing together. Guys, we got more people
10 calling in from St. Louis.

11 had firsthand account,
12 account has me thinking, but before I even spoke to
13 after reading more, it had me thinking. The
14 biggest thing I'm tired of hearing.

15 (End of the audio recording.)

16 MS. ALIZADEH: So we stopped playing of
17 the video, I believe that was the end of the phone
18 conversation with a person named who claims
19 to live in Canfield Apartment Complex.

20 So, um, at this time we're done listening
21 to the video. We can use the same disc for this
22 witness because it's and just keep this on the
23 same disc. I know you all need to go at 2:30. We
24 are going to be as quick as possible, but again, I
25 don't want to cut off anybody, I don't want to cut

1 anybody short and if need be, we'll bring him back
2 next week, okay.

3

4 of lawful age, having been first duly sworn to
5 testify the truth, the whole truth, and
6 nothing but the truth in the case aforesaid,
7 deposes and says in reply to oral
8 interrogatories, propounded as follows, to-wit:

9 EXAMINATION

10 BY MS. ALIZADEH:

11 Q Sir, could you state your name and spell
12 it for the court reporter?

13 A

14 Q Is your given name?

15 A Yes.

16 Q You said right?

17 A

18 Q

19 A

20 Q all right. And how
21 old are you?

22 A

23 Q And do you live in the Canfield Green
24 Apartment Complex?

25 A Yes.

1 **Q** And were you living there back in August
2 of this year?

3 **A** Yes.

4 **Q** And did you witness some or parts of the
5 shooting of Michael Brown?

6 **A** Yes.

7 **Q** Now, I showed you, there's a laser pointer
8 right there and can you look on this map, this is
9 Grand Jury Exhibit Number 25. Do you recognize this
10 as being buildings and roads that surround or make
11 up the Canfield Green Apartment Complex?

12 **A** Yes.

13 **Q** Okay. Will you use the laser pointer and
14 show the grand jurors what building you live in?

15 **A** Right there, (indicating)

16 **Q** Okay. And then is your unit on the front,
17 or on the north side of the build or on the south
18 side of the building?

19 **A** It is right there. (indicating)

20 **Q** And you have indicated over here it is
21 more toward, if this is east and this is west, is it
22 on the east side of the building?

23 **A** Actually right between.

24 **Q** Okay. So the way these apartments, one
25 unit here, now there is three floors we know that,

1 correct?

2 **A** Yes, yes.

3 **Q** There is one unit here and one unit here?

4 **A** Yes.

5 **Q** And then what floor do you live on?

6 **A** Bottom floor.

7 **Q** So from the bottom floor do you have
8 windows that look out?

9 **A** Yes.

10 **Q** And so from what I understand about the
11 apartments on the bottom floor, when you exit your
12 apartment, you have to actually walk up some steps
13 to get to the ground level, is that fair to say?

14 **A** Yes.

15 **Q** When you exit your apartment, if you are
16 standing up, can you see, can you see the street or
17 you have to go up those steps to see the street?

18 **A** I can see the streets.

19 **Q** And how about your apartment, is it one or
20 two bedroom apartment?

21 **A** One bedroom.

22 **Q** And so are there windows on the front of
23 the building?

24 **A** Yes.

25 **Q** And do you have a sliding glass door as

1 well?

2 **A** Yes.

3 **Q** And so those, is there a bedroom window
4 that faces Canfield as well?

5 **A** Yes.

6 **Q** So when you look out the sliding glass
7 door and your bedroom window from inside your
8 apartment, can you see the street?

9 **A** Yes.

10 **Q** Um, can you tell me like if you were
11 standing right outside your apartment building, and
12 there's like, I'm going to call it like a concrete
13 well that the staircase goes down, right?

14 **A** Right.

15 **Q** So there's a concrete wall that comes up
16 and then is ground level at some point?

17 **A** Yes.

18 **Q** About how high is that wall?

19 **A** Uh, about two feet, two, three feet.

20 **Q** Okay. So you can clearly see over it when
21 you are standing in that concrete well area?

22 **A** Yes.

23 **Q** All right. And so let's start with the
24 morning of August 9th of this year. Was there
25 anything special that you remember happening in the

1 morning? Was that a special day or anything
2 eventful happen that morning?

3 **A** It was quiet day until the incident.

4 **Q** Okay. Do you live alone?

5 **A** Yes.

6 **Q** All right. Was anybody in your apartment
7 with you when this happened?

8 **A** No.

9 **Q** And so now something happened around the
10 noon hour that drew your attention to outside; is
11 that right?

12 **A** Yes.

13 **Q** And were you inside your apartment or
14 outside your apartment when you heard something?

15 **A** I was inside my apartment.

16 **Q** And what did you hear?

17 **A** I heard a gunshot.

18 **Q** And prior to your hearing the gunshot, had
19 you looked out your windows to see anything going
20 on?

21 **A** No.

22 **Q** So anything that happened before you heard
23 a gunshot you didn't witness?

24 **A** No.

25 **Q** And so when you look out your, did you

1 look out your window or go out of your apartment?

2 **A** I looked out the patio.

3 **Q** So did you stay inside your apartment?

4 **A** Yes.

5 **Q** And so what window did you look out?

6 **A** The patio.

7 **Q** The patio window. Is that sliding glass
8 door?

9 **A** Sliding glass door.

10 **Q** Now, those apartments have vertical blinds
11 on the sliding glass doors, were your blinds open or
12 closed?

13 **A** It was open.

14 **Q** And so when you say open, I know the
15 blinds can open and close this way and they also
16 can, you can turn the louvers so that they are open.
17 Were your blinds across the window, but open or were
18 they totally?

19 **A** It was across the windows but open.

20 **Q** Okay. So you could see through the
21 louvers of the blinds?

22 **A** Yes.

23 **Q** So when you heard this gunshot, did you
24 immediately recognize it as a gunshot or did you
25 think it was like fireworks or car backfiring?

1 **A** No, I knew it was a gunshot.

2 **Q** Had you heard gunshots before?

3 **A** Yes.

4 **Q** Okay. So when you looked out of your
5 window, your slider glass window, what did you see?

6 **A** I saw a police car up the street and I saw
7 a guy tussling with an officer inside the car.

8 **Q** Okay. Now, because we can't, the grand
9 jurors can see what you're doing but the record
10 doesn't show it. You just grabbed like the front
11 collar area of your shirt and tugged it a couple of
12 times?

13 **A** Yes.

14 **Q** So did you see somebody doing that,
15 tugging on somebody's shirt?

16 **A** I seen a guy, now I know his name is Mike
17 Brown.

18 **Q** Okay.

19 **A** Officer was tussling with shirt inside the
20 car.

21 **Q** So now can you use the laser pointer and
22 show me where the police vehicle was?

23 **A** Um, approximately right there.

24 **Q** Okay. So right at about where the E of
25 Canfield is?

1 **A** Yes.

2 **Q** Where it says printed Canfield Drive?

3 **A** Yes.

4 **Q** And was this a truck or an SUV or patrol
5 car?

6 **A** It was SUV.

7 **Q** Was it marked Ferguson car?

8 **A** Yes.

9 **Q** And which direction was it facing?

10 **A** It was facing towards West Florissant.

11 **Q** Was it in the middle of street, was it on
12 one side or the other?

13 **A** It was in the middle of the street.

14 **Q** Okay. And did you see any cars around it?

15 **A** No.

16 **Q** Did you see any police officers around the
17 vehicle?

18 **A** No.

19 **Q** Could you see inside the vehicle?

20 **A** No.

21 **Q** So you couldn't at this point see a police
22 officer?

23 **A** No.

24 **Q** Now, you said the person you saw at the
25 vehicle you now know is Mike Brown or was Mike

1 Brown?

2 **A** Yes.

3 **Q** Did you know Mike Brown before this?

4 **A** No.

5 **Q** Had you seen him in the complex?

6 **A** No.

7 **Q** How about Dorian Johnson, do you know a
8 Dorian Johnson?

9 **A** No.

10 **Q** Did you see any other pedestrians or
11 people that were around the police car?

12 **A** No.

13 **Q** On foot?

14 **A** No.

15 **Q** And so now you said you saw Mike Brown at
16 the police vehicle, from your vantage point, are you
17 looking at the driver's side of the vehicle?

18 **A** Yes.

19 **Q** And so was Mike Brown at that side or was
20 he on the other side of the car?

21 **A** He was at that side.

22 **Q** When you are looking, when you are talking
23 about the side of the police vehicle and there's,
24 I'm going to say there's the front on the driver's
25 side, there's the fender area, and then there's the

1 driver door area and then there's a rear passenger
2 door area and then there's the rear of the truck?

3 **A** Yes.

4 **Q** So where was Mike Brown standing alongside
5 that vehicle?

6 **A** Along the front door of the vehicle.

7 **Q** Was his back to you at the time?

8 **A** Yes.

9 **Q** And so you said you saw some tussling or
10 something at the car going on?

11 **A** Yes.

12 **Q** Could you see Mike Brown's hands?

13 **A** Yes.

14 **Q** And what were his hands doing?

15 **A** His hands were against a car.

16 **Q** Okay.

17 **A** Police car.

18 **Q** And you said you saw the officer's hands?

19 **A** I saw the officer's hands grabbing Mike
20 Brown's shirt.

21 **Q** Okay. Was Mike Brown standing on his feet
22 or was he leaning or slumped against the car or
23 anything?

24 **A** He was leaning towards the car.

25 **Q** Was any part of his body inside the

1 vehicle?

2 **A** I couldn't see it.

3 **Q** Okay. And now earlier today you met with
4 Detective and Special Agent no
5 , that was , the FBI agent?

6 **A** Yes.

7 **Q** They told you that they had a radio, or a
8 POD cast recording that they thought might be your
9 voice on the recording; is that right?

10 **A** Yes.

11 **Q** Did they play part of that for you?

12 **A** Yes.

13 **Q** Did you recognize, was that your voice?

14 **A** Yes.

15 **Q** And that was you who called in?

16 **A** Yes.

17 **Q** And that's the ?

18 **A** Yes.

19 **Q** He has a name for the show, but that's the
20 host of the POD cast?

21 **A** Yes.

22 **Q** And so do you recall when you called in
23 you told the host of the show that Mike Brown's head
24 was inside the car?

25 **A** I just recall it today, I didn't realize

1 it at the time.

2 Q Okay.

3 A When I saw the video.

4 Q How many days after the shooting did you
5 call the ?

6 A Maybe one or two days after, maybe.

7 Q Okay. And when you talked to him, you
8 told him about what you had seen that day; is that
9 right?

10 A Yes.

11 Q And so did you listen to your entire tape
12 today or did you just listen to a part of it?

13 A The entire tape.

14 Q Okay. Do you recall today hearing your
15 voice telling that Mike Brown had his head
16 inside the vehicle and he was actually like in the
17 windshield?

18 A Yes.

19 Q Okay. Today do you recall something
20 differently or is it that wasn't true?

21 A Actually, it wasn't true.

22 Q Okay. So what you told on that show
23 was not true?

24 A Yes.

25 Q And why did you say that if it wasn't

1 true?

2 **A** I do not know.

3 **Q** Okay. So you're saying today Mike Brown
4 was standing outside the vehicle and no part of his
5 body was inside the vehicle?

6 **A** His upper half was leaning in towards the
7 door, the windshield, the window.

8 **Q** And you said he had both hands up against,
9 I guess along the frame of the window, would that be
10 fair to say?

11 **A** Yes.

12 **Q** Did you see anything in his hand?

13 **A** No.

14 **Q** Did you see anybody next to him at the
15 vehicle?

16 **A** No.

17 **Q** And so now this is after the gunshot has
18 already happened, correct?

19 **A** Yes.

20 **Q** Did you hear more than one gunshot while
21 Mike Brown was next to the vehicle or just the one?

22 **A** I believe it was just one.

23 **Q** And then from the time you heard the
24 gunshot until you looked out, was there any like,
25 did it take you a few seconds to get to the window

1 or were you close enough that it was just a matter
2 of turning and looking out the window?

3 **A** It was just a matter of turning and
4 looking.

5 **Q** Okay. So within seconds after hearing the
6 gunshot, you looked out and that's what you saw,
7 Mike Brown at the window?

8 **A** Yes.

9 **Q** Now, you said that his back was to you?

10 **A** Yes.

11 **Q** So how could you see that the officer had
12 ahold of the front of his shirt in the manner that
13 you kind of demonstrated for us, how could Mike
14 Brown's back was to you, how is it that you are
15 seeing that?

16 **A** Because when Mike Brown pushed off the
17 car, the shirt, the officer had shirt like this and
18 I seen a tugging. (indicating)

19 **Q** Okay. All right. And so when Mike Brown
20 pushed back off the car, did the officer lose his
21 grip or let go of the shirt or stop holding the
22 shirt at some point?

23 **A** Yes.

24 **Q** And what did Mike Brown do?

25 **A** He took off running down the street.

1 **Q** In which direction?

2 **A** Towards the other end, opposite direction
3 of the car.

4 **Q** Okay. So eastbound on Canfield?

5 **A** Yes.

6 **Q** And did he stay in the street as he was
7 running or did he go onto sidewalk?

8 **A** He stayed in the middle of the street.

9 **Q** Was he running like sprinting or was he
10 just jogging or can you describe how quickly he
11 might have been going?

12 **A** He was sprinting.

13 **Q** Did you notice at that point if you saw
14 that he was injured, did he have blood on him or
15 anything that you could see that might show you that
16 he's injured?

17 **A** No.

18 **Q** So then what happens after Mike Brown
19 starts to run west onto Canfield, east on Canfield?

20 **A** Well, Mike Brown took off running, the
21 officer came after him, was chasing him.

22 **Q** Did the officer get out of the car?

23 **A** Yes.

24 **Q** Okay. How soon after Mike Brown ran away
25 from the car was it instantaneous or was there a few

1 second pause?

2 **A** It was instantaneous.

3 **Q** So when he got out of the car, is that the
4 first time you really could see the officer?

5 **A** Yes.

6 **Q** So how would you describe him?

7 **A** Caucasian.

8 **Q** Okay.

9 **A** That's about it.

10 **Q** Fat, skinny?

11 **A** No, I couldn't tell you.

12 **Q** Old, young?

13 **A** Young by, he wasn't old.

14 **Q** Did he have on a uniform?

15 **A** Yes, he did.

16 **Q** Shorts sleeves or long sleeves?

17 **A** Short sleeves.

18 **Q** Was he wearing a police hat?

19 **A** No.

20 **Q** When he got out of the car, did you see a
21 gun?

22 **A** On the side, yes.

23 **Q** On the side of his body?

24 **A** Yes.

25 **Q** Was it in his holster?

1 **A** Yes.

2 **Q** Was his hand on the gun?

3 **A** I don't know.

4 **Q** Now, is that the first time you see the
5 gun or did you see the gun when he was inside the
6 car at all?

7 **A** That was the first time I seen the gun.

8 **Q** Okay. And so as Mike Brown is running
9 away and the officer gets out of the car and he has
10 his gun in his holster, is it in right on his right
11 hip or his left hip?

12 **A** Approximately the right, right side, I'm
13 not for sure.

14 **Q** So if he gets out of the driver's seat of
15 his car, and his left side would be toward you then,
16 correct. If he's driving the car and it is going to
17 be facing this way, so his left hip is towards you,
18 right? And if he gets out and if he turns toward
19 the back of his car to go after Mike Brown, then his
20 right hip is towards you?

21 **A** Okay.

22 **Q** So you're saying it was in his right hip?

23 **A** Yes.

24 **Q** And then what did the officer do?

25 **A** Chased after Mike Brown.

1 **Q** Okay. So he ran?

2 **A** He ran behind him, yes, chasing him.

3 **Q** And what happened as he was chasing Mike
4 Brown?

5 **A** That I don't know. There was concrete
6 barrier there, I couldn't see what happened after he
7 caught up with him, I didn't see that.

8 **Q** Do you remember on the
9 show saying the officer shot Mike Brown as Mike
10 Brown was running away?

11 **A** I remember saying it now, yes, that's what
12 I thought.

13 **Q** But today you didn't see that?

14 **A** No, I didn't.

15 **Q** And why did you say that on the show?

16 **A** That's what I thought the officer was
17 shooting. It happened so fast, I thought he was
18 shooting at him.

19 **Q** This all happened very fast?

20 **A** Yes.

21 **Q** Matter of how many, like --

22 **A** Seconds.

23 **Q** Second?

24 **A** Yes.

25 **Q** Less than a minute then?

1 **A** Yes.

2 **Q** So when the officer starts running after
3 Michael, you said there is a point in time where a
4 concrete barrier blocks your view?

5 **A** Yes.

6 **Q** And is this the barrier that is actually
7 like where the staircase is?

8 **A** Yes.

9 **Q** Okay. So they're running in this
10 direction, correct?

11 **A** Yes.

12 **Q** Did you ever see, did you see Mike Brown
13 stop running?

14 **A** No, I didn't.

15 **Q** Okay. Did you see him being shot by the
16 officer?

17 **A** No, I didn't.

18 **Q** Did you see him turn around?

19 **A** No, I didn't.

20 **Q** Did you see him come at the officer?

21 **A** No.

22 **Q** Did you see him put his hands in the air
23 or hands down or hands at his sides or in front of
24 his body at all?

25 **A** No, I didn't.

1 **Q** And so at some point is Mike Brown running
2 east on Canfield, you lose sight of him and then you
3 don't actually see the shooting?

4 **A** Right.

5 **Q** Now, and again, on the show which was a
6 couple of days after this you said that you saw him
7 shooting at Mike Brown as he ran and that you saw
8 Mike Brown stop and turn around and then come back
9 toward the officer?

10 **A** Yes.

11 **Q** Today you are saying you didn't see that?

12 **A** Right, I assumed that he did.

13 **Q** So when you said that on the show, that
14 was just your assumption?

15 **A** Yes.

16 **Q** Why did you assume that, do you still
17 assume that today?

18 **A** Because when Mike Brown is running he's
19 running down the street and when I seen the body out
20 there, he was turned the other direction towards the
21 cop, towards the officer. So I assume that he was
22 probably running towards him.

23 **Q** Okay.

24 **A** The reason the body was turned, facing
25 him.

1 **Q** So you are basing that assumption just on
2 the way the body was positioned in the street?

3 **A** Yes, when he was laying down.

4 **Q** And is he on his stomach or on his back or
5 side?

6 **A** He was on his stomach, I believe.

7 **Q** So could you see how he was laying in the
8 street from where you were, did you have to come up
9 and go out onto the street?

10 **A** I came up and came out to the sidewalk and
11 saw the body out there.

12 **Q** Did you, the entire incident that you
13 witnessed, did you witness it from inside your
14 apartment?

15 **A** Yes, the incident, yes, I did.

16 **Q** And do you recall telling on the
17 show that you were outside on your patio and that
18 one point when gunfire happened, you kind of ducked
19 because you didn't want to get shot?

20 **A** Yes.

21 **Q** Okay. So is it today now you believe you
22 were inside your apartment?

23 **A** I was inside my apartment.

24 **Q** Okay. So do you know why you would have
25 told you were sitting on your patio when this

1 happened?

2 **A** No, I don't know why I told him that.

3 **Q** All right. And so did you see the officer
4 as he was running after Mike Brown, did you ever see
5 him fire his weapon?

6 **A** No, I did not.

7 **Q** Now, from what I understand, a lot of what
8 you told you say is based on things that
9 people said or you heard afterwards; is that right?

10 **A** That was my assumption what I told .

11 **Q** That's not based on what people in the
12 complex were saying?

13 **A** I haven't talked to them.

14 **Q** You went up after the shooting?

15 **A** After the shooting I came up, yes.

16 **Q** There were lots of people that started
17 gathering?

18 **A** That's when people started coming out of
19 their apartments.

20 **Q** People were screaming and yelling and
21 talking about, amongst themselves about what maybe
22 had happened?

23 **A** Yes.

24 **Q** You didn't hear what people were saying
25 then that he had his hand up?

1 **A** Yes, I heard a lot out there, yes.

2 **Q** And you said something about in your
3 statement to that you don't know if he had his
4 hands up or not because you didn't see that?

5 **A** I didn't see it. That's what the people
6 said.

7 **Q** Did you ever hear the officer, were your
8 windows open or closed?

9 **A** It was open.

10 **Q** Did you ever hear the officer saying
11 anything?

12 **A** No, I didn't.

13 **Q** Did you ever hear Mike Brown saying
14 anything?

15 **A** No.

16 **Q** If they had said something in a loud
17 voice, would you have heard it?

18 **A** I believe so.

19 **Q** Now, you have glasses on, sir, do you need
20 those to see distance or close?

21 **A** Distance.

22 **Q** Did you have your glasses on that day?

23 **A** Yes.

24 **Q** And with your glasses on, can you see
25 distance fine?

1 **A** Yes.

2 **Q** How about your hearing, do you need
3 anything to, have you ever been told that you have
4 loss of hearing?

5 **A** No.

6 **Q** Your hearing is fine?

7 **A** Yes.

8 **Q** And so today you're saying that you saw
9 the officer have ahold of Mike Brown's shirt. Did
10 you ever see the vehicle moving like rocking or
11 moving?

12 **A** No.

13 **Q** Like somebody, like there was something
14 moving the vehicle back and forth?

15 **A** No.

16 **Q** Did you ever see any other cars that were
17 lined up in the street, either behind the police
18 vehicle or in front of the police vehicle?

19 **A** No.

20 **Q** So when Mike Brown ran, you didn't see him
21 run past a couple of cars?

22 **A** No, there was no cars out there when I
23 seen him running.

24 **Q** So you had made a statement on that show
25 when asked you, based upon what you saw that

1 day, do you think the officer was justified in
2 shooting Mike Brown? And you said, yes, I think he
3 was. Do you remember saying that?

4 **A** Yes.

5 **Q** Why do you think that today, is that what
6 you still think?

7 **A** Yes.

8 **Q** Okay. Why would you say that if you
9 really didn't see what the final moments were?

10 **A** Because there was a struggle at the car.
11 I thought maybe he was resisting arrest. I don't
12 really know what happened.

13 **Q** You never saw anything in Mike Brown's
14 hands, right?

15 **A** No, I didn't.

16 **Q** So you never saw him with a weapon?

17 **A** No.

18 **Q** When the officer got out of the vehicle
19 and started chasing Mike Brown, did it look to you
20 like he was injured?

21 **A** Mike Brown or the officer?

22 **Q** The officer, I'm sorry.

23 **A** The officer.

24 **Q** You never saw any blood on him?

25 **A** No, I did not.

1 **Q** You didn't see his face that he might have
2 been hit in the face or anything?

3 **A** No, I couldn't tell.

4 **Q** Approximately how many gunshots total.
5 There is one at the car and then about how many more
6 gunshots do you hear?

7 **A** Approximately six, maybe.

8 **Q** Did you ever see the officer up by Mike
9 Brown?

10 **A** I seen one officer standing around the
11 body.

12 **Q** Was it the same officer who did the
13 shooting?

14 **A** I don't know, I couldn't tell.

15 **Q** And then did you ever see the officer's
16 car move or be moved after the shooting?

17 **A** No.

18 **Q** Did you ever see after you went up and you
19 could see Mike Brown's body laying in the street,
20 and we know that it took quite some time before they
21 removed the body, did you ever see them move the
22 body in any way like reposition it or move it
23 somewhere else?

24 **A** No.

25 **Q** How long did you stay out on Canfield

1 after the shooting?

2 **A** For hours.

3 **Q** You heard people talking about what they
4 saw?

5 **A** Yes.

6 **Q** Do you know a lot of your neighbors in the
7 Canfield Green Apartments?

8 **A** No, I do not.

9 **Q** Do you know the names of anybody who, at
10 least that day or any time afterwards you believe
11 saw this and talked about what they saw?

12 **A** No, I don't.

13 **Q** Now, you also recorded some of this on
14 your cell phone, correct?

15 **A** Yes, I did.

16 **Q** And you gave your phone to Detective
17 for him to go make a copy of it, right?

18 **A** Yes.

19 **Q** And you looked at the video images after
20 you did it, correct?

21 **A** Yes.

22 **Q** And actually the video is of the
23 aftermath, you didn't capture the shooting on your
24 video, is that fair to say?

25 **A** Yes.

1 **Q** And now, shortly after this happened, a
2 bunch of police came and then a bunch more police
3 came and the place became just kind of chaotic,
4 would that be fair to say?

5 **A** Yes.

6 **Q** And then for several days after that and
7 the next Saturday there were FBI agents and police
8 knocking on doors doing what they call an area
9 canvas. Have you ever heard that term a canvas?

10 **A** Yes, I heard of it.

11 **Q** And actually, some police knocked on your
12 door and asked you if you saw anything that day, do
13 you remember that?

14 **A** Yes.

15 **Q** And you told them no, you didn't see it?

16 **A** Yes.

17 **Q** So that was a lie?

18 **A** Yes.

19 **Q** Why didn't you tell the police you saw
20 part of what happened?

21 **A** Fear, I didn't want to get involved.

22 **Q** And, in fact, you never came forward to
23 the police, it was only after the police contacted
24 you because they had heard this show and they
25 thought for whatever reason that that might be you

1 on the show; is that right?

2 **A** Yes.

3 **Q** I subpoenaed you to be here today is that
4 right?

5 **A** Yes.

6 **Q** Is what you said today truthful?

7 **A** Today, yes.

8 **Q** But you lied when you talked to on
9 the POD cast?

10 **A** Yes. It wasn't totally a lie.

11 MS. ALIZADEH: Sheila, do you have any
12 questions?

13 MS. WHIRLEY: We run out of time. Let the
14 grand jurors, you guys have any questions?

15 Have you met with
16 yet? I know he talked on the POD cast?

17 **A** . Have I met him? No.

18 On the POD cast, we're
19 talking about how to handle it coming to St. Louis?

20 **A** I never met him.

21 : Meeting him, have you
22 been threatened or anything by what you saw?

23 **A** No.

24 MS. ALIZADEH: Have you talked with
25 anybody besides these grand jurors and and now

1 Detective and the FBI agent about what you
2 saw Michael Brown this FBI agent about what you saw.

3 **A** No.

4 MS. WHIRLEY: Why did you call into
5 with this story, you said it wasn't true, what made
6 you call him to say these things?

7 **A** Well, at the time I was mad and upset. I
8 wanted to talk to someone and he was there I could
9 talk to.

10 MS. WHIRLEY: What were you mad and upset
11 about?

12 **A** The incident happened outside my
13 apartment.

14 MS. WHIRLEY: When you say mad, what were
15 you mad about?

16 **A** I wasn't mad, basically upset, you know,
17 just wanted to talk to someone.

18 MS. WHIRLEY: Who were you upset at, I'm
19 just trying to understand.

20 **A** The situation, you know, body outside my
21 apartment and, you know, the incident with the, you
22 know, folks gathering around my apartment drinking
23 and smoking and carrying on, I just wanted to vent.

24 MS. WHIRLEY: All right. Were you mad at
25 the fact that Mike Brown was shot and dead in the

1 street or were you mad you thought Mike Brown did
2 something or either one of those?

3 **A** Basically because, you know, the situation
4 that was outside my apartment, folks gathering
5 around. Like I said, drinking and smoking, you
6 know, it was like a carnival out there.

7 MS. WHIRLEY: I see, okay.

8 . With
9 everything that was going on at that time up there,
10 and the proximity of the police officers in the
11 area, did you not think to maybe call the police and
12 tell them to get the people away from your door or
13 what?

14 **A** The police was out there.

15 I understand that, I
16 understand that, but just help me understand you
17 said you were upset because people were out around
18 your apartment and they were drinking and smoking,
19 and whatever?

20 **A** Yes.

21 : Wouldn't it have been
22 easier to, I'm just asking this for me to call 911,
23 send some police up here, these people around my
24 place, yada, yada, yada.

25 **A** I don't think they would come back.

Page 199

1 You don't think so?

2 **A** No.

3 : Okay. That's fair enough.

4 MS. ALIZADEH: Anyone else?

5 . I know you
6 said earlier they were outside your door drinking
7 and smoking, it was like a carnival you said. Was
8 it were they angry or was it a little bit
9 celebratory, can you tell me the atmosphere of the
10 people? Were you upset because you felt like it
11 wasn't taken seriously, how do you explain your
12 mindset?

13 **A** Well, to be honest with you, I think it
14 was ridiculous. There's a right and wrong to do
15 things, I feel they was going about it the wrong
16 way, you know. It was just ridiculous. All of this
17 stuff could have been avoided.

18 MS. ALIZADEH: Anyone else have a
19 question?

20 (End of the testimony of
21)

3 SS.

4 County of St. Louis

5 I, , a Licensed Certified Court
6 Reporter by the Supreme Court in and for the State
7 of Missouri, duly commissioned, qualified and
8 authorized to administer oaths and to certify to
9 depositions, do hereby certify that pursuant to
10 Notice in the civil cause now pending and
11 undetermined in the County of St. Louis, State of
12 Missouri.

13 The said witness, being of sound mind and being
14 by the grand jury first carefully examined and duly
15 cautioned and sworn to testify to the truth, the
16 whole truth, and nothing but the truth in the case
17 aforesaid, thereupon testified as is shown in the
18 foregoing transcript, said testimony being by me
19 reported in shorthand and caused to be transcribed
20 into typewriting, and that the foregoing page
21 correctly sets forth the testimony of the
22 aforementioned witness, together with the questions
23 propounded by counsel and grand jurors thereto, and
24 is in all respects a full, true, correct and
25 complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XXI

2 MS. ALIZADEH: Good morning. It is
3 Monday, November 10th. It is about 9:30 in the
4 morning. This is Kathi Alizadeh, Sheila Whirley is
5 here and all 12 grand jurors are here, as well as
6 , the court reporter.

7 We started this morning with a
8 conversation that was not on the record, but someone
9 from the prosecutor's office has talked to the grand
10 jurors about their concerns for security, safety and
11 giving you some tips on how to be secure and safe
12 from here on out.

13 I will stress again it is my 100,
14 110 percent sure that your identities will never be
15 released by this office or by the courts. I'm aware
16 that some of you are concerned that, you know, your
17 identities might be discovered by people in the
18 media or others, you know. We're doing our best
19 that you are safe and secure after your service here
20 no matter what your decision. And so that took up a
21 little bit of time this morning.

22 So we are getting started this morning. I
23 have Sergeant first, he's with the Ferguson
24 Police Department, and he is in charge of their
25 communications.

1 I will tell you that last week we had
2 quite a bit of conversation, not conversation,
3 testimony and evidence regarding radio
4 communications, and regarding the county RIOT A
5 channel.

6 I will tell you that after our last
7 meeting, I think we met last Thursday was when we
8 were last here, I have discovered that channel three
9 is not the RIOT A channel in Ferguson.

10 So working under that assumption that it
11 was, and there was some talk about having a map and
12 so forth.

13 You remember who was here
14 and testified, he's with county communications. He
15 did a map for me that has the location of all of the
16 county's voting receivers, you remember those ones
17 that pick up the RIOT A channel.

18 There's also on the map where the Ferguson
19 receiver is in relation to where the officer was, so
20 I will hand out these maps.

21 (Grand Jury Exhibit Number 85
22 marked for identification.)

23 MS. ALIZADEH: I've marked my copy as
24 Grand Jury Number 85. Mine is not in color.

25 There's a legend on this map that says

1 that incident. Okay. So he describes on the map
2 incident and that would be what happened on
3 Canfield. The location of where the incident
4 occurred, okay.

5 And if you will look on the map, there's
6 actually a little police car and that's on the map,
7 that's him marking where the incident occurred on
8 Canfield.

9 So in this legend it says, incident to
10 Ferguson received, the main receiver at Ferguson
11 Police Department is 1.57 miles from the place of
12 the incident to the receiver.

13 So I'll pass those around. But my
14 understanding now is that the RIOT A channel might
15 not be relevant to our, to what you guys are looking
16 at. Maybe it was informative, but we are going to
17 have Sergeant talk about the Ferguson
18 communications and how that works and what exactly,
19 what channel is what and so forth, okay. So I will
20 go get him and get started.

21

22

23

24

25

1

2 of lawful age, having been first duly sworn to

3 testify the truth, the whole truth, and

4 nothing but the truth in the case aforesaid,

5 deposes and says in reply to oral

6 interrogatories, propounded as follows, to-wit:

7

EXAMINATION

8 BY MS. ALIZADEH:

9 **Q** Could you state your name and spell it for
10 the court reporter?

11 **A** Sergeant

12

13 **Q** And Sergeant , where do you work?

14 **A** Ferguson Police Department.

15 **Q** How long have you been a police officer?

16 **A** With Ferguson, 27 years.

17 **Q** And prior to that?

18 **A** Three years with Bel-ridge.

19 **Q** All right. So 30 year police veteran?

20 **A** Yes.

21 **Q** And how long have you been a sergeant in
22 Ferguson?

23 **A** Nine years.

24 **Q** And what are -- you're currently a
25 sergeant as well?

1 **A** Yes.

2 **Q** What are your duties and responsibility as
3 a sergeant in the City of Ferguson?

4 **A** I'm the supervisor for communications.

5 **Q** And so do you then, you're not a
6 supervisor of a squad of police officers?

7 **A** No, ma'am. The only time I do that is
8 when a supervisor goes on vacation and I will be a
9 substitute until they get back.

10 **Q** So when you're talking about being in
11 charge of communications, that would be 911 calls?

12 **A** Yes, ma'am.

13 **Q** So Ferguson receives and dispatches their
14 own 911 calls, correct?

15 **A** Yes, ma'am.

16 **Q** That doesn't go through St. Louis County
17 911?

18 **A** No, ma'am.

19 **Q** Regarding radio traffic that gets called
20 in from the officer's radios, you are in charge of
21 that as well?

22 **A** Yes, ma'am.

23 **Q** And so we've heard a bit of testimony
24 about radio traffic and how that works, but you,
25 Ferguson dispatches for themselves; is that right?

1 **A** Yes, ma'am.

2 **Q** So you in the Ferguson Police Department
3 have an area where it's a communication center?

4 **A** Yes.

5 **Q** And the dispatchers work there?

6 **A** Yes, ma'am.

7 **Q** How many dispatchers are employed by the
8 City of Ferguson?

9 **A** We have currently 14. Six of which are
10 full-time dispatchers, the rest are part-time.

11 **Q** So how many dispatchers work a shift?

12 **A** I try to get at least two in there,
13 sometimes there's three.

14 **Q** Does each dispatcher have their own
15 console?

16 **A** Yes, ma'am.

17 **Q** And so when calls are coming in, can
18 either dispatcher, if there is two working, can
19 either dispatcher answer the call?

20 **A** Yes, ma'am.

21 **Q** And can each dispatcher hear what the
22 officers were saying?

23 **A** Yes, ma'am.

24 **Q** And can each dispatcher hear each other?

25 **A** Yes.

1 **Q** So one dispatcher can hear the other
2 dispatcher?

3 **A** Yes, uh-huh.

4 **Q** Are they in the same room physically?

5 **A** Yes, ma'am.

6 **Q** And so you and I had a conversation, was
7 it last week that you came in to talk to me, I can't
8 remember now?

9 **A** No, ma'am, this is the first time I've
10 been in here.

11 **Q** Okay. We talked on the phone?

12 **A** Talked on the phone.

13 **Q** See, I knew I talked to you sometime. But
14 we talked on the phone about the channels that
15 Ferguson has, correct?

16 **A** Yes, ma'am.

17 **Q** So now you brought radio with you today,
18 and this is a portable radio?

19 **A** Correct.

20 **Q** And so when an officer is on duty in a
21 police vehicle, we have a mobile radio which is
22 mounted in the car, correct?

23 **A** Yes.

24 **Q** And then he has a portable road?

25 **A** Yes.

1 **Q** And you are wearing your own portable
2 radio, correct?

3 **A** Yes, ma'am.

4 **Q** And so do all the radios in Ferguson, the
5 portables, are they all the same, do they all look
6 the same?

7 **A** Yes, ma'am.

8 **Q** So the radio that you bought with you
9 today, whose radio is that?

10 **A** That's Darren Wilson's.

11 **Q** Is each officer assigned his own portable
12 radio?

13 **A** Yes, they are.

14 **Q** So do they generally then take it home
15 with them at the end of their shift?

16 **A** They can take it home, they can do what
17 they want with it. It is theirs.

18 **Q** So it doesn't go to another officer?

19 **A** No, ma'am.

20 **Q** And then, obviously, well, not obvious,
21 well, let's talk about the cars. So the radio
22 itself is mounted in a police car, that doesn't get
23 removed, correct?

24 **A** Yes, ma'am.

25 **Q** That's the mobile?

1 **A** Yes.

2 **Q** And so does each officer have his own car
3 to take home?

4 **A** No, ma'am. The only ones that have their
5 own cars are resident officers that live in town
6 that have their own car. The only thing they don't
7 have in those resident cars are computers.
8 Everything else is set up the same.

9 **Q** So we've seen pictures and heard testimony
10 about Officer Wilson's car, that it was a Chevy
11 Tahoe?

12 **A** Yes, ma'am.

13 **Q** Are all the Ferguson police vehicles like
14 that?

15 **A** No, ma'am. We have one Chevy detective
16 car, it's an Impala. And then we also have Crown
17 Vics that are weeding out of the system.

18 **Q** So the Tahoes are newer?

19 **A** Yes, they are.

20 **Q** And so Officer Wilson's car had a mobile
21 radio and then it also had a computer in it; is that
22 right?

23 **A** Yes, it is.

24 **Q** And you said that the resident officer,
25 people who live in the city limits get to take a car

1 home?

2 **A** Yes, ma'am.

3 **Q** But they don't have computers?

4 **A** No.

5 **Q** Was Darren Wilson a resident officer?

6 **A** No, ma'am.

7 **Q** So when you are done with your shift as an
8 officer, if you're not a resident officer, you take
9 your car back to the station and then get your
10 personal car and go home?

11 **A** Yes, ma'am.

12 **Q** And then is that vehicle put back in
13 service like on the next shift?

14 **A** Yes, it is.

15 **Q** Okay. Um, so each car has a number; is
16 that right?

17 **A** Yes, ma'am.

18 **Q** And so when a radio in a car calls out,
19 can the dispatcher tell by the signal which car it
20 is?

21 **A** No, ma'am. The only time you can tell
22 which vehicle it is if the alert tone is sounded,
23 that's the emergency alert tone. It will come up
24 with what they call an alias on the screen and that
25 will tell which vehicle it is so that dispatcher is

1 aware.

2 **Q** And so we already heard some testimony
3 about the alert tone, and that's the orange button
4 that's on the mobile, the portable; is that right?

5 **A** Yes, ma'am, it is this button.

6 **Q** There's an orange alert button also on the
7 mobile radio inside the car, correct?

8 **A** Yes, there is.

9 **Q** And so if an officer activates that alert
10 button, can the dispatcher tell what radio it is by
11 his car 108?

12 **A** Yes, ma'am.

13 **Q** And, obviously, each officer has their own
14 radio, they would know whose radio it is?

15 **A** Yes.

16 **Q** If it is a portable?

17 **A** Yes. It comes up on a screen with their
18 name and also the radio number.

19 **Q** Okay. And then you also told me that it
20 would say M, for mobile or P, is there P for
21 portable?

22 **A** That's on the new system for the cars. If
23 the cars, the alias will come up with the last
24 letter M is for mobile. When we switch over to the
25 new radio system, that will still be with a P for

1 portable, but we do not have that yet.

2 Q We heard some talk about the County
3 installing or putting in place this new 800
4 megahertz radio communication system; is that right?

5 A Yes, ma'am.

6 Q But you are not apart of that yet?

7 A Not yet.

8 Q So the radio system that you are using
9 today, is that the same radio system that was in
10 place on August 9th?

11 A Yes, ma'am.

12 Q So everything that we're talking about so
13 far was the way it was on August 9th?

14 A Yes, ma'am.

15 Q And so if an officer hits that alert tone,
16 we have already heard what happens then, but the
17 dispatcher is able to tell at least whether it is a
18 mobile radio or a portable radio?

19 A Yes, ma'am.

20 Q And then the dispatcher would know by the
21 radio number whose portable it was?

22 A Yes.

23 Q And they also know if it is a mobile
24 radio, what car it's in?

25 A Right.

1 **Q** All right. And so the radio that you
2 brought with you, you said is Darren Wilson's radio,
3 correct?

4 **A** Yes, ma'am.

5 **Q** And you took the back off of it to show me
6 something earlier today?

7 **A** Yes, it is the radio. Each radio comes
8 with a number, either their DSN is on there or their
9 name is the put on the radio itself. And it
10 coincides with the inventory list that is made up
11 when the radio is passed out.

12 **Q** And so you just took the back off of that
13 portable radio and what's written on the inside of
14 it?

15 **A** D. Wilson, radio 99.

16 **Q** And so is 99 the radio number or is that
17 his DSN?

18 **A** That is the radio number.

19 **Q** Okay. And so if ever, I mean, all the
20 radios look alike. If ever two radios would get
21 mixed up, you would be able to open that up, anybody
22 could open it up and see whose it is?

23 **A** Yes, ma'am. We can also look at the
24 serial number also on there and determine whose it
25 is.

1 (Grand jury Exhibit Number 90
2 marked for identification.)

3 Q (By Ms. Alizadeh) I'm going to hand you
4 what I marked as Grand Jury Exhibit 90. You brought
5 with you today some paperwork about the
6 communication system and who is assigned to what
7 radio and so forth; is that right?

8 A Yes, ma'am.

9 Q I am going to show you Grand Jury Exhibit
10 Number 90. It says portable radio inventory. Did
11 you print that off and bring it with you this
12 morning?

13 A Yes, I did.

14 Q What does this show?

15 A This is telling me who has the radio,
16 model number of the radio, the number of the radio
17 and also the serial number of the radio.

18 It also tells me if it has a mike
19 attached to it.

20 Q Okay.

21 A Whose the patrol detectives, or the jail,
22 who has the radio.

23 Q Okay. So now in the column that says
24 assignment vehicle, personnel, spare, cash, et
25 cetera, it has officer's DSN as opposed to their

1 names, correct?

2 **A** Yes.

3 **Q** What is Officer Wilson's DSN?

4 **A** 609.

5 **Q** So on this record then we can see that DSN
6 609 has radio HT750 and then in the corner it says
7 99, who wrote that?

8 **A** I wrote that.

9 **Q** Did you write that prior to coming today?

10 **A** No, a lot of these when we were doing
11 inventories, either the officer was off that day or
12 they were on vacation. And I, as you can see there,
13 is like unknown what their numbers are.

14 So when they come back on duty, then
15 I can get with them and find out what their number
16 is and I will write it in.

17 **Q** Okay. I'm going to pass copies of this
18 around to everybody.

19 And so not only can you tell that
20 that's Officer Wilson's radio by looking in the
21 back, but also you can double check with the
22 inventory that you have to make sure that the serial
23 number on that radio is the same as the radio
24 assigned to him, correct?

25 **A** Yes, ma'am.

1 **Q** Okay. And so again, when a radio, when
2 somebody on a portable radio calls in to dispatch,
3 is there anything on a screen that tells that
4 dispatcher who it is?

5 **A** No, ma'am.

6 **Q** And so how is it that officers then will
7 typically identify themselves when they are calling
8 in?

9 **A** They have sectors. And that's determined
10 when they come in in the morning and they are doing
11 the roll call, the supervisor will give them a
12 sector. That sector number, which will be like
13 maybe F22, F23, that's their sector number, that's
14 their call sign for dispatch.

15 **Q** Is that permanently their sector number or
16 does it change on a regular basis?

17 **A** It changes on a regular basis. They do
18 what they call a rotation of sector.

19 **Q** Okay. So is a sector a geographic area?

20 **A** Yes, it is.

21 **Q** How many sectors are there in Ferguson?

22 **A** There's four.

23 **Q** So at any given time, how many officers
24 are on assignment in a sector?

25 **A** One officer will take care of their

1 sector. And then usually if the squad has a full
2 amount of officers, they will have what they call
3 cover cars. Those cover cars will assist the
4 sectors on any calls.

5 So if you have a sector car, say F25
6 goes out on a call, a sick case and he's tied up on
7 that sick case, dispatch will know that. She will
8 send a cover car to take another call in his sector.

9 Q So each sector has one officer that is
10 assigned to it for that shift?

11 A Yes, ma'am.

12 Q And then how many cover cars are out on
13 any given shift?

14 A It can range from maybe one to three, and
15 I've even seen four, depending on how many people
16 are working that day.

17 Q So the cover car is kind of roaming around
18 the city and can go anywhere whereas the sector car
19 is going to stay in their own sector?

20 A Yes, ma'am.

21 Q Unless they have to leave their sector for
22 whatever reason?

23 A Right.

24 Q And then on any given shift, there's a
25 supervisor on duty, correct?

1 **A** Yes, there is.

2 **Q** How many supervisors?

3 **A** There is usually two lieutenants and a
4 sergeant.

5 **Q** Okay. So the sergeant would be directly
6 in charge of the officers that are riding around in
7 their sector and the cover cars?

8 **A** Yes, ma'am.

9 **Q** And then is that sergeant generally also
10 in uniform in a patrol car patrolling the city?

11 **A** Yes, ma'am.

12 **Q** And then what's the lieutenant doing?

13 **A** He's usually in the station doing
14 paperwork, doing the reports. When he usually gets
15 called, caught up with the paperwork he'll come out
16 on patrol also to assist.

17 **Q** So on any given shift there's just one
18 shift working, so there would be one sergeant and
19 four sector cars and maybe one to three cover cars?

20 **A** Yes, ma'am.

21 : . When an
22 officer, when a sector car is out on duty and he
23 takes a call.

24 **A** Uh-huh.

25 Does the cover car, do he

1 calls in and let you know, I'm in position to take
2 this matter, this issue, blah, blah, blah. Does the
3 cover car gets called in to let him know, okay, I
4 need the cover car to service the area or how it
5 works?

6 **A** I know what you are saying.

7 : Okay.

8 **A** Usually it works like this. If I call a
9 car to a sector and that car is out on a sick case,
10 the cover car automatically hears that they kind of
11 move over to that area.

12 : Okay.

13 **A** They are not actually told to cover it,
14 but just in experience, they will move to that area
15 knowing that something could break out in there so
16 they have coverage. So it is mainly the officer, it
17 takes the experience of the officer to hear that and
18 he'll move over into that area.

19 : The cover car should be
20 able to hear?

21 **A** Oh, yeah.

22 : Okay. I lost my thought.

23 **A** Sometimes you'll hear a supervisor get on
24 the radio and say Frank 28 centralized. That means
25 they want him to move in closer to his area to cover

1 it.

2 Okay. You answered it,
3 okay, thanks.

4 Q (By Ms. Alizadeh) So when an officer is on
5 duty and patrolling, is he by himself in his
6 vehicle?

7 A Yes, ma'am.

8 Q And currently you have two officers
9 patrolling together; is that right?

10 A Yes.

11 Q And that's because of the unrest that has
12 happened since August 9th?

13 A Yes, ma'am.

14 Q Prior to August 9th you would have one man
15 per car?

16 A Yes, ma'am.

17 Q And so if the officers are out on patrol,
18 you had people already testify that in the mobile
19 car you can have like one channel tuned in and you
20 can have a different channel tuned in on your
21 portable. Are the officers to be monitoring the
22 dispatch channel at all times?

23 A They do. You've got to remember the
24 mobile units have what they call a scan portion in
25 it and dispatch is put in on a priority button. So

1 even if you are on scan and say RIOT A comes up on
2 your radio and they're listening to the RIOT
3 channel. As soon as dispatch hits their key in
4 dispatch, it will cut them off and put them in
5 priority. So they're constantly monitoring that
6 dispatch channel.

7 Q So the dispatcher at the station, she's on
8 a transmitter, he or she is on a transmitter. Do
9 you know how many watts that transmitter is?

10 A No, I don't.

11 Q Can anybody in the city typically hear the
12 transmission from the dispatcher?

13 A They can. Sometimes you do miss calls.

14 Q And so, you know, we talked earlier about
15 this say, for example, an officer is going to go on
16 a sick call, we've talked about, that would be
17 something that is like short of breath or there has
18 been somebody faint or something, so the officer is
19 going to go to a residence and they're going to walk
20 up to the house. So they leave their mobile car,
21 the mobile radio in their car and now they're on
22 their walkie-talkie or their portable, right?

23 A Yes, ma'am.

24 Q And so you've told me that it is not
25 unusual, or even it might be typical that the

1 officer once he makes contact or goes into the
2 residence, might even turn down the volume on his
3 radio and why is that?

4 **A** That's to, when an officer goes into a
5 sick case, we have a lot of elderly folks, they are
6 hard to hear. An officer will walk up and just turn
7 the radio down a portion just so they can hear. You
8 can hear it through the mike, you don't hear it
9 through the receiver itself, you hear it through the
10 mike so it is pretty close. Even when it's down you
11 can hear it.

12 They want to have all of their
13 attention on that person or patient and not listen
14 to a bunch of garble.

15 **Q** Okay. So is it also possible that if
16 you're on your portable radio and say you go into a
17 building or whatever, that your radio might not
18 actually receive a call because of you being inside
19 a building?

20 **A** Right. We have a lot of problems in what
21 we call one sector where Wal-Mart and Sam's.
22 Because of the metal building, our walkies won't get
23 out. A lot of time they can hear at dispatch, but
24 officers can't call out.

25 **Q** And if an officer is on the dispatch

1 channel and calls out, if that call is not heard by
2 dispatch, how does the officer know that?

3 **A** Say it again?

4 **Q** If the officer calls out on the dispatch
5 channel.

6 **A** Okay.

7 **Q** And let's say that the dispatch doesn't
8 get that call, they don't hear it or they can't make
9 it out?

10 **A** Uh-huh.

11 **Q** How does the officer, how might you know
12 that?

13 **A** Dispatch would constantly try to get in
14 contact with the officer. All dispatchers have
15 their cell phone numbers for officers. They have a
16 paper in front of them. It is in a book. If they
17 can't get ahold of an officer, a lot of time, say
18 they pick up shoplifter at Wal-Mart, they will
19 attempt to call that officer several times. And if
20 they can't get him, they realize they are in a metal
21 building. So they'll right away get either on their
22 cell phone or they will call Wal-Mart store to get
23 ahold of them.

24 **Q** So if an officer actually calls, makes a
25 call on his mike.

1 **A** Okay.

2 **Q** And that doesn't get received, there's no
3 tone or anything that tells him it wasn't received,
4 correct?

5 **A** No, no.

6 **Q** And so are there times then when the
7 officer, so when an officer makes a call into
8 dispatch and he may or may not use his call signal
9 for that day, correct?

10 **A** Right.

11 **Q** And so he may call in Frank 21 and then
12 dispatch will say Frank 21 repeat, to let him know I
13 heard you?

14 **A** Right.

15 (Grand jury Exhibit Number 87
16 marked for identification.)

17 **Q** (By Ms. Alizadeh) Okay. And I'm going to
18 hand you what is marked as Grand Jury Exhibit Number
19 87. This is another document that you brought with
20 me today, or brought with you. This is entitled
21 Federal Communication Commission Public Safety and
22 Homeland Security Bureau Radio Station
23 Authorization.

24 Does this document indicate what your
25 callers are or whatever?

1 **A** Yes, ma'am. This is framed and put in our
2 dispatch and hanging on the wall. This is our
3 actual license to use the radio.

4 **Q** Okay.

5 **A** And there's a call sign at the top, it's
6 KAG843. That's what dispatchers use that number to
7 tell other departments that they're clear on
8 different calls.

9 **Q** I am going to pass that out as well to
10 everyone.

11 And then I'm also going to show you
12 Grand Jury Exhibit Number 89. You brought that with
13 you today too, right?

14 **A** Yes, ma'am.

15 **Q** So this is something that looks like you
16 printed off on your computer; is that right?

17 **A** Yes, ma'am.

18 **Q** Is this a Word document or something?

19 **A** Yes, it is actually an email.

20 **Q** An email?

21 **A** Uh-huh.

22 **Q** So now what is this that you are showing
23 me?

24 **A** Last, it is probably around April we
25 started getting from St. Louis County our new radio

1 systems came in for the mobiles and we are supposed
2 to set up some time for all of our vehicles to be
3 taken to Wireless USA, which is in Maryland Heights
4 to get new radios put in.

5 This here is an appointment list, so
6 to speak, telling me what cars need to go, what time
7 and date they need to arrive there to get the car
8 radio put in.

9 Q Do you know back in August what car Darren
10 Wilson was in? Let me ask you this, would he always
11 be in the same car every time he was on shift or
12 does he just get a different car every time?

13 A They usually stay in the same car unless
14 it is out for service or something is wrong with the
15 vehicle.

16 Q Okay. How about vehicle 108?

17 A Yes, ma'am.

18 Q Does that document show whether or not
19 that vehicle had a new mobile radio put in?

20 A Yes, ma'am.

21 Q When did that happen?

22 A May the 28th.

23 Q Okay. So as of May of this year, car 108
24 had a new mobile radio put in it?

25 A Yes, ma'am.

1 **Q** What about the walkie-talkies, were those
2 replaced as well?

3 **A** No, ma'am, they're still the same ones.

4 **Q** Okay. And we've already heard testimony
5 that the walkie-talkies are 5 watts and the mobile
6 radio are 10-watt, is that still true?

7 **A** Yes, ma'am.

8 **Q** Okay. And in your experience as an
9 officer patrolling the streets of Ferguson, is it
10 unusual for an officer to transmit a call from his
11 portable radio that dispatch does not get?

12 **A** No.

13 **Q** And why would that be?

14 **A** It could be a lot of circumstances. It
15 could be the terrain, it could be any number of
16 things where the officer is at if he's in a
17 building, depending on if he's in concrete, if he's
18 in a basement.

19 **Q** Are there particular areas of the city
20 where transmissions are poor?

21 **A** Yes, ma'am.

22 **Q** And have you heard the phrase, dead zone?

23 **A** Yes, ma'am.

24 **Q** Is that an area where it might have poor
25 transmission?

1 **A** Yes.

2 **Q** Do you know where the deadzones are in the
3 City of Ferguson?

4 **A** Yes, ma'am.

5 **Q** What about the area of Canfield Green
6 Apartment Complex, is that a dead zone?

7 **A** That could be considered a dead zone.

8 **Q** Okay. So is it sometimes difficult to get
9 transmissions from a portable from that dead zone
10 area?

11 **A** Yes.

12 **Q** And you and I and one of your dispatchers
13 actually sat and listened to a lot of calls this
14 morning; is that right?

15 **A** Yes, ma'am.

16 **Q** And we're going to hear those calls, but
17 are there times when a call might just be static?

18 **A** Yes.

19 **Q** And that might be somebody calling in for
20 some reason, the signal strength does not allow him
21 to be heard?

22 **A** Right.

23 **Q** And are there times when there are calls
24 when you can kind of hear garbled talking?

25 **A** Uh-huh.

1 **Q** Would that also be, again, possibly their
2 signal is weak or there might be some building in
3 between that transmitter and the receiver?

4 **A** That could be a number of things. That
5 could be either the signal is weak, could be that
6 somebody is walking on them, meaning somebody is
7 trying to call in at the same time they're talking.

8 **Q** Okay. And when that happens, is it the
9 stronger signal that walks on top of the other call?

10 **A** Yes, it is.

11 **Q** It doesn't matter who keys their mike up
12 first?

13 **A** No.

14 **Q** If somebody keys their mike up and starts
15 talking and the stronger signal keeps their mike up,
16 the person who is weaker will cut out?

17 **A** Correct. Usually that happens when an
18 officer's in a vehicle with a higher range of power
19 and it will cut the walkie.

20 **Q** Okay. And so the walkies or the portables
21 being the weaker signal, you would find that that
22 would be something that would occur most often with
23 a portable?

24 **A** Yes.

25 **Q** Now, we talked about in our phone

1 conversation last week, we talked about the channels
2 that Ferguson has, correct?

3 **A** Yes, ma'am.

4 **Q** Now, on your radios we already have heard
5 that there are 16 selectors or positions that you
6 can have, 16 channels. How many channels does
7 Ferguson use?

8 **A** We use two, or ten.

9 **Q** Ten channels?

10 **A** Ten channels.

11 **Q** Are those one through ten or do you skip a
12 number?

13 **A** It is one through ten.

14 **Q** And so did I ask you or did you provide
15 for me a list of what channel is what today?

16 **A** Yes, ma'am.

17 (Grand Jury Exhibit Number 88
18 marked for identification.)

19 **Q** (By Ms. Alizadeh) I'm going to show you
20 Grand Jury Exhibit Number 88. Is that what you gave
21 me today that list what channels are what?

22 **A** Yes, it is.

23 **Q** And now, so I'm going to pass this out as
24 well.

25 So on that list it shows that channel

1 one is the dispatch channel?

2 **A** Yes, ma'am.

3 **Q** And then channel two is?

4 **A** We used to have Cool Valley on our
5 channel, they're not with us any more, but it's our
6 backup channel they call it.

7 **Q** Okay. And then channel three is what?

8 **A** North County Fire Department.

9 **Q** Okay.

10 **A** Fire district actually.

11 **Q** And so channel three the North County Fire
12 District back on August 9th?

13 **A** Yes, it was.

14 **Q** And then channel four is what?

15 **A** That's used to be the old Public Works
16 slot. They went ahead and put Hazelwood and
17 surrounding municipalities on there as a receive
18 only so we can hear what's going on.

19 **Q** And then number five?

20 **A** Number five is your RIOT A channel.

21 **Q** So that's the county's RIOT A channel?

22 **A** Yes, ma'am.

23 **Q** And then number six?

24 **A** Number six is mutual aid.

25 **Q** We've heard mutual aid, what is that

1 channel for?

2 **A** Mutual aid is used like for airplane
3 crashes, disasters, it is a whole bunch of people
4 getting on there.

5 **Q** Okay. And then channel eight is what?

6 **A** Point-to-point.

7 **Q** And that is you've got here, UMCL, what
8 does that mean?

9 **A** That's UMCL and another surrounding area
10 we can hear also.

11 **Q** So that's a point-to-point channel?

12 **A** No, ma'am, that's just another channel
13 where we hear other municipalities.

14 **Q** Number nine?

15 **A** Berkeley.

16 **Q** And ten?

17 **A** Is North County Muni.

18 **Q** Okay. Now on some of these channels such
19 as number three, number four, number nine, I'm
20 sorry, I skipped, number seven, number eight, number
21 nine and ten, you have here REC, only. What does
22 that mean?

23 **A** Those are receive only. You can only hear
24 the people, you cannot talk or transmit back to
25 them.

1 **Q** All right. And so is channel three a
2 receive only channel?

3 **A** Yes, ma'am.

4 **Q** So an officer whose walkie-talkie is on
5 channel three, he can hear somebody transmitting on
6 that channel, but he can't transmit on that channel?

7 **A** No, ma'am.

8 **Q** How about dispatch, if dispatch is on
9 channel three, can they transmit on that channel?

10 **A** Yes, they can.

11 **Q** Can they also hear what is being received
12 on that channel?

13 **A** Yes, ma'am.

14 **Q** And then so we also talked earlier today
15 about when an officer's radio is on channel three,
16 and you demonstrated for me if an officer has his
17 radio tuned to a receive only channel, does he get a
18 tone on that radio?

19 **A** Yes, he does.

20 **Q** And what's the purpose of that?

21 **A** Telling that person that you need to get
22 on a transmission station, you're on a receive only.

23 **Q** So does that tone play when you switch to
24 that channel or does it only play if you key up the
25 mike?

1 **A** The only time it plays a tone if you
2 switch to the channel as if that's just a dead
3 channel completely. If it isn't, you can switch it
4 to that channel, but as soon as you key up on it, it
5 will make the same tone.

6 **Q** So like you don't have channel 12 in
7 Ferguson, correct?

8 **A** No, ma'am.

9 **Q** So if you switch the radio to channel 12,
10 you're going to hear a tone?

11 **A** As soon as you switch to it.

12 **Q** That tone comes out of the mike?

13 **A** It actually comes out of both the receive
14 and the mike.

15 **Q** So if it is not a dead channel, so it is
16 like channel three, a receive only channel, you have
17 to actually key up the mike to hear that tone?

18 **A** You actually don't know until you key up.
19 It is quiet until you try to transmit and then it
20 will make a loud tone.

21 **Q** You did that for me in my office, correct?

22 **A** Yes, ma'am.

23 **Q** We experimented, there is a volume button
24 on your radio, correct?

25 **A** Yes, ma'am.

1 **Q** And the volume button, obviously, turns
2 the volume down on the radio, correct?

3 **A** Yes.

4 **Q** Does it turn that tone down as well?

5 **A** It turns it down, but you can still hear
6 it, still audible.

7 **Q** Y'all want to hear him play that tone on
8 the radio.

9 (All grand jurors indicate yes.)

10 **A** You get the chirp turning the radio on.

11 **Q** Okay.

12 **A** This is channel three, it is dead, it is
13 silent. (indicating) That's what the officer would
14 hear, that's telling him, hey, get on a different
15 channel, you are a receive only. A dead channel
16 would be as soon as you hit that dead channel, it
17 tones.

18 **Q** Okay. Put it on a dead channel for me,
19 now turn the volume all the way down. Okay. So you
20 still hear a tone, but it is a lot quieter?

21 **A** Right.

22 **Q** It does come out of mike that is next to
23 your ear?

24 **A** Yes.

25 **Q** And it comes out of the actual portable

1 radio too?

2 **A** Yes.

3 **Q** And if you are on a receive only channel,
4 it would only happen once you key up the mike?

5 **A** Right.

6 **Q** All right. So let's see. I think I've
7 passed everything out that I brought with except
8 there is something I didn't know that it has the
9 receipts, you brought some receipts. They don't
10 need to --

11 **A** I think you have those.

12 **Q** I have those, yeah. Okay. So Sergeant
13 , I'm saying CAD is capital C-A-D?

14 **A** Yes, ma'am.

15 **Q** What does CAD stand for?

16 **A** That's Computed Aided Dispatch.

17 **Q** What is CAD, what is the CAD system?

18 **A** That's when we have calls, we have a ITI
19 system it is called. And what they do, the call
20 will come out, dispatchers use that for the
21 reporting. The officer can write in there what they
22 did. There is a report that doesn't need to be
23 taken, an official report, they can put, it is like
24 a little entry in there for notes. What he did when
25 he was on the call, that way that's always in there.

1 **Q** So this is via computer?

2 **A** Yes, it is.

3 **Q** Doesn't come across your radio?

4 **A** No, ma'am.

5 **Q** And so the dispatcher when she takes a
6 call and she hears an officer call in and say
7 something.

8 **A** Uh-huh.

9 **Q** And then she would have to separately
10 enter in a call on the computer in the CAD system?

11 **A** Yes.

12 **Q** So she puts some kind of notes related to
13 this call?

14 **A** Yes.

15 **Q** And then that information, that CAD
16 information, does that show up in the officer's
17 computers in their cars?

18 **A** Yes, it does.

19 **Q** And then the officers can also enter
20 things in the CAD system, correct?

21 **A** Yes, they can.

22 **Q** And if the officer does, does the
23 dispatcher see that on her computer as well?

24 **A** Yes.

25 **Q** And can each car see what the other cars

1 are entering?

2 **A** Yes. The only thing they can't do is
3 correct something.

4 **Q** They can't change somebody else's entry?

5 **A** No, ma'am.

6 **Q** How about dispatch, can she change it?

7 **A** No, ma'am. Only a supervisor can do that.

8 **Q** Now, let's talk about internal clock. We
9 talked about this you and I. So when a call is
10 received by an officer into dispatch, there's a
11 clock in dispatch that the dispatchers use, correct?

12 **A** Yes, ma'am.

13 **Q** And it is physically a digital clock that
14 sits there, correct?

15 **A** Yes.

16 **Q** And is that clock the accurate time?

17 **A** Yes, ma'am.

18 **Q** I don't even know what the accurate, there
19 is some kind atomic, I was going to say nuclear.
20 Some type atomic clock in some mountain state some
21 place, so that clock is the exact time, correct?

22 **A** Yes, ma'am.

23 **Q** So sometimes when the dispatcher
24 responding, or involved in a call she will actually
25 call out the time 11:36?

1 **A** Yes, ma'am.

2 **Q** She's getting that from her clock?

3 **A** Yes.

4 **Q** Now, when a dispatch call comes in and
5 might be answered by the dispatcher, does the
6 computer give that call a date and time?

7 **A** Yes.

8 **Q** And is that the same time that might be on
9 the call clock that the dispatcher is looking at?

10 **A** Yes, it is.

11 **Q** Is it ever off, have you had occasions to
12 see that those two times are not the same?

13 **A** Sometimes they do get unsynchronized. The
14 main problem we have is the 911 system, it is not
15 synchronized.

16 **Q** So let's talk about the 911 system. I
17 think you already said Ferguson does their own 911
18 calls, correct?

19 **A** Yes, uh-huh.

20 **Q** So the dispatcher handles those as well?

21 **A** Yes, they do.

22 **Q** Those are separate from the radio traffic,
23 but they still come from the dispatcher?

24 **A** Yes.

25 **Q** Those calls also have a date and time

1 assigned by the computer?

2 **A** Yes.

3 **Q** And so you're saying that you had problems
4 with that internal clock for the 911 calls?

5 **A** Yes.

6 **Q** And how many minutes have they been off in
7 the past?

8 **A** I've seen it as much as 21 minutes off.

9 **Q** Okay. So if you are, would it be fair to
10 say then that if you're going to look back at your
11 911 calls and the record of the calls, the time
12 that's listed for those calls on the computer are
13 not necessarily accurate?

14 **A** Right.

15 **Q** Okay. And you also said that it might be
16 that the actual dispatch call radio traffic, that
17 might be not in sync with the actual clock that the
18 dispatcher is looking at?

19 **A** Exactly.

20 **Q** And are all radio traffic calls recorded?

21 **A** Yes, ma'am.

22 **Q** And how long -- do you keep those
23 recordings in Ferguson?

24 **A** Yes, ma'am.

25 **Q** And how long does Ferguson keep those

1 recorded calls?

2 **A** 90 days.

3 **Q** Is it automatic?

4 **A** Yes, it automatically covers itself.

5 **Q** What about the 911 calls, does Ferguson
6 record those?

7 **A** Yes, ma'am.

8 **Q** Are those also dumped after 90 days?

9 **A** Yes, ma'am.

10 **Q** If you need to retrieve a call, though,
11 prior to it being dumped after 90 days, can you burn
12 those calls on a disc?

13 **A** Prior, yes.

14 **Q** Prior to them being dumped?

15 **A** Yes, ma'am.

16 **Q** And once they're dumped, their gone
17 forever?

18 **A** Yes, ma'am.

19 **Q** So now you and I and your dispatcher
20 listened to some calls this morning?

21 **A** Yes, ma'am.

22 **Q** You guys were here extra early at
23 6:30 this morning and we were listening to calls?

24 **A** Yes, ma'am.

25 **Q** And with the help of the two of you, you

1 were helping me understand what was being said and
2 what was going on in these calls, correct?

3 **A** Yes, ma'am.

4 **Q** Now, you testified that each officer has a
5 call number assigned to him?

6 **A** Yes, ma'am.

7 **Q** And depending on the day or the shift that
8 call number could be different?

9 **A** Right.

10 **Q** But does the dispatcher have a roster for
11 that day with the call number?

12 **A** Yes, supervisor brings one up to her.

13 **Q** Every day?

14 **A** Yes, ma'am, every shift.

15 **Q** So Frank 24 on Monday might be ,
16 but, well, actually Frank 24 is the supervisor,
17 isn't it?

18 **A** No.

19 **Q** No.

20 **A** Frank 24, on what day?

21 **Q** You're right, I was thinking of is
22 23.

23 **A** Yes, that's the only number that will stay
24 the same.

25 **Q** The supervisor number always stays the

1 same, but the officers call number can change from
2 day-to-day?

3 **A** Yes, ma'am.

4 **Q** So did you and your dispatcher and I
5 listen to these calls that we were listening to
6 today, did we figure out what numbers were what
7 officers?

8 **A** Yes.

9 **Q** You recognize the voices of a lot of these
10 officers, is that fair to say?

11 **A** Yes, ma'am.

12 **Q** And your dispatcher, she listens to these
13 same officers every day, did she indicate that she
14 recognizes people's voices?

15 **A** Yes.

16 **Q** So take notes because I don't have this
17 written down, I don't have this down. So on
18 August 9th for the calls that we were listening to
19 today, Frank 21 was Darren Wilson, correct?

20 **A** Yes, ma'am.

21 **Q** And Frank 22, was it ?

22 **A** .

23 **Q** And Frank 23 was Sergeant ?

24 **A** Yes.

25 **Q** Frank 24 was Officer ?

1 **A** .

2 **Q** Frank 25, what is first name?

3 **A** .

4 **Q** Officer and that's

5

6 Officer 26, Frank 26 that day was

7 your canine officer?

8 **A** Yes, that's Officer

9 **Q** .

10 **A** Two s.

11 **Q** ?

12 **A** Yes, ma'am.

13 **Q** . What's his first name?

14 **A** That's .

15 **Q** ?

16 **A** Uh-huh.

17 **Q** And Officer Frank 41 that day?

18 **A** That's Officer .

19 **Q** What's his first name?

20 **A** .

21 **Q** And then on that, again, supervisor

22 Lieutenant is heard on some of these calls,

23 correct?

24 **A** Yes, he is. First name

25 **Q** And does he use a Frank number on these

1 calls or did he use his DSN?

2 **A** He uses his DSN on this call.

3 **Q** Just to make this even more confusing,
4 each officer has a DSN, correct?

5 **A** Department serial number.

6 **Q** That is their number always?

7 **A** Yes, ma'am.

8 **Q** And then you are assigned to a car that
9 has a car number, correct?

10 **A** Yes, ma'am.

11 **Q** And that may change?

12 **A** Yes.

13 **Q** But it generally stays the same?

14 **A** Stays the same.

15 **Q** And then the officer has a call signal
16 Frank 21 and Frank 24. And each officer for the
17 shift has a different call center, correct?

18 **A** Yes, ma'am.

19 **Q** But that may change the next day?

20 **A** Yes.

21 **Q** And then each officer has his own
22 walkie-talkie?

23 **A** Yes, ma'am.

24 **Q** That he takes with him and may take home,
25 correct?

1 **A** Yes.

2 **Q** Okay. Are we thoroughly confused?

3 MS. WHIRLEY: We have a question.

4 : I didn't get that last
5 one, I got Frank 41 was , who was the last
6 one?

7 MS. ALIZADEH: Lieutenant .
8 and you said ?

9 **A** It is .

10 : And he just uses a DSN?

11 **A** Yes, on that call that night. He was off
12 that day. He is a resident officer.

13 **Q** (By Ms. Alizadeh) I'm setting this up
14 because we are going to hear some calls and I've got
15 a transcript and the officers are identified by
16 their number like 21, 22, 24, okay.

17 So you and I and your dispatcher sat
18 down and we went over these calls this morning and I
19 actually made some changes on the transcript as you
20 would be telling me oh, that's so and so.

21 **A** Right.

22 **Q** So sometimes when the officer calls in
23 they don't identify themselves by their signal or
24 their call number, correct?

25 **A** No, ma'am.

1 **Q** And sometimes when the officers call, they
2 can talk to each other, correct?

3 **A** Yes, ma'am.

4 **Q** And sometimes they use their first names?

5 **A** Yes.

6 **Q** , , we hear on the transmissions,
7 correct?

8 **A** Right.

9 **Q** Okay. Now, we're going to play the call
10 with the dispatcher. So her voice is heard on this
11 as well and she can identify people as well, but for
12 the purposes of understanding how the communication
13 system in Ferguson works or any of the testimony
14 from this witness, does anybody have any questions
15 or additional questions?

16 MS. WHIRLEY: I do.

17 MS. ALIZADEH: Sheila, sorry, go ahead.

18 MS. WHIRLEY: What sector is Canfield
19 Green Apartment?

20 **A** That's four sector.

21 MS. WHIRLEY: That's four sector?

22 **A** Four sector.

23 MS. WHIRLEY: How many people are assigned
24 to that sector on August 9th?

25 **A** That's just one officer.

1 MS. WHIRLEY: Just Officer Wilson?

2 A No, ma'am. It was Officer .

3 MS. WHIRLEY: Okay. Was Wilson the cover
4 car?

5 A No, ma'am. He was 21. He's actually one
6 sector, that's up by the highway.

7 MS. WHIRLEY: All right. So I guess I
8 don't understand, he was patrolling that sector, but
9 that was not his sector.

10 A He was assisting on a call.

11 MS. WHIRLEY: Okay. That's why he was
12 there at that location?

13 A Yes, ma'am.

14 MS. WHIRLEY: His radio was operable that
15 day?

16 A Yes, ma'am.

17 MS. WHIRLEY: And I know the dispatcher
18 has got to do the calls with us. So you may or may
19 not know the answer to this question, but I'd like
20 to know the amount of time from when Wilson called
21 out in Canfield, you remember that call?

22 A Yes, ma'am.

23 MS. WHIRLEY: He says I've got two
24 subjects, or something to that effect?

25 A Uh-huh.

1 MS. WHIRLEY: The time between then and
2 when his assistance arrived, would you know that or
3 we need to listen to the dispatcher?

4 A You could probably hear that on the tape.

5 MS. WHIRLEY: You don't know that
6 timeframe?

7 A No, ma'am. It was pretty instantaneous
8 though.

9 MS. WHIRLEY: When he first called, he had
10 two on Canfield, his assistance came from quickly.

11 A If I remember right, I'll be out with two,
12 send me another car.

13 MS. WHIRLEY: Right.

14 A And Frank 25 is the one who responded to
15 you. Could hear him with his engine and the car
16 going to the scene, he gets there pretty quick.

17 MS. WHIRLEY: Okay. We don't know the
18 time, we might be able to figure out?

19 A You can probably figure it out.

20 MS. WHIRLEY: Okay. Now that emergency
21 alert tone, that orange button, are officers trained
22 on that or taught, is that ever discussed with the
23 officers as to when it is appropriate to use that?

24 A Yes, that's one of the first things they
25 are taught on is that alert tone because that's

1 their lifeline.

2 We do also do radio checks every
3 Sunday on the midnight shift for alert tone test to
4 make sure that the alert tone is still working.

5 We also do that with cars too, so
6 that's all done on a Sunday evening when they're
7 somewhat quiet.

8 Each officer that's working will have
9 to hit their alert tone so we know that walkie is
10 working then. If it isn't, we know to take it out
11 and get them another walkie and get it repaired.

12 MS. WHIRLEY: So they do that on a weekly
13 basis?

14 **A** Yes, ma'am, it's every Sunday night on the
15 midnight shift.

16 MS. WHIRLEY: So that's a pretty important
17 part on knowing how to communicate for your life?

18 **A** Yes, it is.

19 . It
20 doesn't matter what radio frequency that you are on
21 if you hit that alert button?

22 **A** It could be on any channel and you hit
23 that alert tone and it takes it over. It basically
24 takes the radio from you so to speak.

25 Okay.

1 MS. WHIRLEY: When they hit that alert
2 button, the dispatcher immediately knows who is
3 hitting it and what to do?

4 A Yes, ma'am. There's a screen up in front
5 of each dispatcher. It's a radio screen and up in
6 the corner it will tell whose walkie it is by name
7 and the walkie number.

8 MS. WHIRLEY: When that button is hit,
9 what is the dispatcher, what is she supposed to do
10 or he?

11 A They ask right away, everything else quits
12 all the traffic dies down. She gets on there and
13 asks, you know, who the walkie is, are you okay.
14 Everything 10-4 and then he's supposed to respond
15 back.

16 MS. WHIRLEY: And if he doesn't?

17 A If he doesn't, then they start doing a
18 roll call finding out where everybody is at.

19 MS. WHIRLEY: So it is a huge deal?

20 A Yes.

21 MS. WHIRLEY: All right. Why would
22 officers be on the RIOT channel.

23 A On the RIOT channel?

24 MS. WHIRLEY: Yeah.

25 A That's for say to cover another St. Louis

1 County maybe has something big going on, so they'll
2 get on that channel.

3 MS. WHIRLEY: Just to hear what's going on
4 because they are not responding to the calls
5 generally?

6 A No, huh-uh. But that's put into a scan
7 mode so the officer doesn't actually physically
8 switch to that channel. It is automatically
9 scanning that channel. So if there's a transmission
10 on that channel it will come up. But if dispatch
11 wants to get ahold of them, it will supersede that
12 channel and take over.

13 So it is on a priority button.

14 MS. WHIRLEY: Okay. So if you are
15 scanning the County's RIOT channel, that's not going
16 to interfere with your dispatcher communicating with
17 you or you communicating with your dispatcher?

18 A Not at all.

19 MS. WHIRLEY: Does Ferguson have its own
20 RIOT channel?

21 A No, ma'am.

22 MS. WHIRLEY: Okay. Any problems, you may
23 have answered this, I'm not certain. Any problems
24 with the walkies, the walkie-talkies call and
25 receiving calls at Canfield Green? You mention kind

1 of dead zone, or could be. I wasn't sure what that
2 meant.

3 **A** Some walkies have a problem with it. You
4 have got to remember Canfield used to be a golf
5 course, a lot of hills and a lot of terrain,
6 different terrain in there.

7 If you're standing a certain way,
8 that walkie will not get out. Then if you just move
9 2 feet over, you have got transmission. It is just
10 a weird, the way the terrain is.

11 MS. WHIRLEY: Okay. Do you have your
12 officers complaining who work in Canfield Green,
13 hey, I'm not getting my calls or I can't send you my
14 location.

15 **A** Yes. We have a few. It mainly happens in
16 one sector, not in four sector.

17 MS. WHIRLEY: And the sector that you're
18 talking about is sector four?

19 **A** Yes, ma'am.

20 MS. WHIRLEY: Does that mainly happen in a
21 sector?

22 **A** It happens occasionally, not as often as
23 in one.

24 MS. WHIRLEY: Okay.

25 **A** If the repeater is not working right or if

1 we have what they call a Dellwood repeater, it is
2 right there by the Dellwood Civic Center. It is on
3 a separate tower. If that isn't working correctly,
4 you will have problems getting out in one sector.
5 We go all the way to Old Halls Ferry and 270. If
6 you're on a walkie-talkie on an accident, you won't
7 hear that officer. Now the other officer assisting
8 him can, he can relay the message.

9 MS. WHIRLEY: On channel three, which is
10 what I think Darren Wilson may have been on; is that
11 correct or do you know?

12 A I don't know.

13 MS. WHIRLEY: You said on your channel
14 three, the dispatch can hear and receive, right?

15 A Yes.

16 MS. WHIRLEY: On channel three. Can they
17 transmit too.

18 A Yes, I'm sure. Yeah. That's a North
19 County fire channel. So they'll need to be able to
20 transmit with our fire department.

21 MS. WHIRLEY: Okay.

22 A When our fire department goes 10-8 from a
23 call, a fire call, they'll transmit on that.

24 MS. WHIRLEY: So that channel was
25 monitored all the time?

1 **A** Yes, ma'am.

2 MS. WHIRLEY: Is it recorded also?

3 **A** Yes, ma'am.

4 MS. WHIRLEY: So if an officer is on
5 channel three and asks for assistance and puts out
6 shots fired, it should be recorded somewhere?

7 **A** You're not going to hear it, it is receive
8 only.

9 MS. WHIRLEY: It is receive only from that
10 officer?

11 **A** From the channel. The officer will not be
12 able to transmit.

13 MS. WHIRLEY: I'm sorry, you did explain
14 that. When you hit that channel we're going to hear
15 --

16 **A** You are going hear that tone.

17 MS. WHIRLEY: The purpose of the tone is
18 what?

19 **A** To move to a different channel that is
20 transmittable. It is a safety feature. It is in
21 the walkie-talkies actually.

22 MS. ALIZADEH: Just real quick.

23 Sergeant, I had told you that there was a
24 call perhaps from Ferguson that did not recorded by
25 dispatch, correct?

1 **A** Yes, ma'am.

2 MS. ALIZADEH: And did you then pull all
3 the other channels to see if there was other --

4 **A** My curiosity got the best of me and I went
5 back before the tape started to get erased.

6 MS. WHIRLEY: We are coming up on the 90
7 days, correct?

8 **A** It is 90 days now. It is going to start
9 erasing stuff. As we speak right now it is erasing
10 stuff.

11 **Q** (By Ms. Alizadeh) Okay. So prior to today
12 was it this weekend you did that?

13 **A** I did that last week.

14 **Q** So you looked at, or you pulled the calls
15 from these other channels; is that right?

16 **A** Yes, ma'am.

17 **Q** And you listened to them?

18 **A** Yes, ma'am.

19 **Q** Do you hear Darren Wilson making a call on
20 any of those other channels?

21 **A** No, ma'am.

22 MS. ALIZADEH: I have those. I don't know
23 if it would be kind of pointless to play it. He's
24 listened to them and he doesn't hear Officer Wilson
25 on any of those channels. All right. Go ahead,

1 questions?

2 : . You had
3 mentioned that dispatch has the cell phone numbers
4 of all the officers. Can you talk a little more
5 about what that expectation is or if there is
6 protocol with regard to different officers and stuff
7 on these?

8 **A** For the officers using their cell phones?

9 Uh-huh.

10 **A** They use them quite a bit.

11 Okay. Is it expected that
12 they have them with them?

13 **A** No.

14 It is not at all?

15 **A** Huh-uh.

16 : Okay. Thank you.

17 You talked about
18 the dead zone potentially in Canfield there. If
19 someone is on the receive only channel like channel
20 three, they would get that tone, would you get that
21 tone in a dead channel?

22 **A** On a dead channel?

23 I'm sorry, on a dead zone.

24 You were in a dead zone, you were on like that
25 channel 3, would you get the tone?

1 **A** No, you would just get static.

2 It doesn't even know and
3 so forth. Would that be the same thing with the
4 alert button in an accident situation?

5 **A** If I hit the alert button right now, they
6 would actually hear.

7 : So it is a repeating
8 process, right, until it finally hits a beacon or
9 whatever?

10 **A** Exactly.

11 : Is that operating on a
12 different frequency? I'm trying to figure out how
13 the alert button gets out, but the general
14 transmission does not, we know it does?

15 **A** It doesn't. The workings of that --
16 MS. ALIZADEH: That would probably be a
17 question that could answer. If you want
18 me to find out and bring him back or whatever.

19 You say the alert button
20 would get through?

21 **A** Oh, yeah.

22 Okay.

23 Just one question.

24 . You mentioned that Darren Wilson was
25 assisting on this sick call, I think was, was it 24;

1 is that correct.

2 **A** No, he wasn't assisting on a call.

3 MS. ALIZADEH: The dispatcher we're going
4 to hear the call. She's going to interpret for us
5 who is going on. What does 10-8 mean, all this
6 lingo that's said during these calls. She's going
7 to be able to kind of translate that for us on what
8 calls who was going on and who was assisting and so
9 forth.

10 MS. WHIRLEY: Maybe what you are talking
11 about, we had asked what is he assigned to sector
12 four and you said he was not?

13 **A** No.

14 MS. WHIRLEY: So we're just trying to
15 figure out what he was doing in that general
16 location?

17 **A** Right.

18 MS. WHIRLEY: So can you tell us?

19 **A** He was on a prior call at a disturbance at
20 one of our other apartment complexes and when he
21 went 10-8 from there, he went onto a sick case at
22 another apartment complex. He was in that general
23 area anyway, four sector.

24 MS. ALIZADEH: And so it's not prohibitive
25 for a sector car to leave their sector?

1 **A** No, ma'am.

2 **Q** (By Ms. Alizadeh) And you talk about the
3 facts that sector has to go on call or leave their
4 sectors that one of the roaming cars or cover cars
5 might move into that area just to make sure there's
6 coverage?

7 **A** Uh-huh.

8 **Q** Okay. And also we hear on these
9 transmissions, at one point there's Country Club
10 Hills, or what was the other one?

11 **A** Country Club Hills.

12 **Q** Country Club Hills officer who chimes and
13 he's responding to a call in Ferguson, correct?

14 **A** Yes, yes.

15 **Q** So other municipalities that are listening
16 to this radio traffic, they can also come into your
17 jurisdiction and respond to an emergency or
18 something?

19 **A** You got to remember we dispatch for two
20 other municipalities, they are on our frequency and
21 they monitor everything that we're doing.

22 **Q** Okay. And so we hear on those calls
23 someone that's Victor 2?

24 **A** Yes.

25 **Q** Is that a Country Club Hills officer?

1 **A** Yes, it is.

2 **Q** Are all of the Ferguson officers Frank?

3 **A** Yes.

4 **Q** And that Frank 21, Frank whatever, and
5 that means Ferguson, correct?

6 **A** Country Club Hills and Calverton Park.

7 **Q** Are all the Country Club Hills officer
8 Victor something?

9 **A** Yes.

10 **Q** So when someone calls out and they say
11 their name and their caller, that identifies what
12 municipality they're with and who they are that day?

13 **A** Yes.

14 **Q** And then the dispatcher and you also told
15 me that usually will even recognize their voices?

16 **A** Yes. We do have one other municipality
17 which became a police department, which is Flordell
18 Hills.

19 : . Piggyback
20 off of . Just for clarification, you said
21 Frank 24 officer, he was in the sector, right?

22 **A** Yes.

23 Officer Wilson was his
24 assistance, is that how?

25 **A** No. He's in -- Wilson was in a separate

1 sector which is one sector.

2 Oh, one, okay. One
3 sector?

4 **A** Yeah.

5 So the area he was?

6 **A** Four sector.

7 **Q** (By Ms. Alizadeh) And just to kind of lay
8 out what happens on these radio calls. First of all
9 the calls begin, the recordings begin in the middle
10 of a shift, correct?

11 **A** Yes.

12 **Q** So there is other calls that we are not
13 playing where officers were out on other calls. So
14 when we start on the call, initially there is talk
15 about a caller who says that a man with a gun, or a
16 man has threatened her and he's left. He lives in
17 the apartment complex and she thinks he might have
18 left to go get a gun?

19 **A** Right.

20 **Q** And this a subject maybe going to get a
21 gun, would it be typical for more than one car to
22 respond to that?

23 **A** Yes. Officers hear that, they don't have
24 to hear anything from the supervisor, that's all
25 automatic for them. As long as they tell the

1 dispatcher, Frank 21, I'll be assisting or Frank 21
2 I will be en route. When they hear gun, you pretty
3 much get the calvary coming into the area. There
4 are several.

5 **Q** We hear on those calls that the traffic
6 amongst themselves and one guy says, I'm going to go
7 behind the building and they're looking for somebody
8 and they are communicating with themselves?

9 **A** Yes.

10 **Q** Each other?

11 **A** Yes.

12 **Q** So there is actually three officers that
13 go to that apartment call, correct?

14 **A** Yes.

15 **Q** Only one of them it was his sector?

16 **A** Right.

17 **Q** So other cars go there to assist?

18 **A** That officer whose sector that is, he was
19 out on a sick case. The three officers are
20 responding to that call are actually assisting that
21 officer because he's out on another call.

22 **Q** And this is something that experienced
23 officers just kind of learn to do, is that fair to
24 say?

25 **A** I think I just confused her.

1 No, you didn't.

2 Q (By Ms. Alizadeh) They hear this traffic,
3 they know who's busy, they know what's going on and
4 something else, they know street numbers, they know
5 street names, they know problem places, correct?

6 A They know everything. Those officers,
7 they could tell by the officer's tone of his voice
8 that I need to get their quick, that's how the
9 officers are tight.

10 Q And you and your dispatcher even told me
11 today when we were listening to these calls that she
12 could hear that there was a problem in Officer
13 voice?

14 A Yes.

15 Q And that is even before the dispatchers
16 knew what was on?

17 A Right.

18 Q They knew there was a big problem?

19 A Yes.

20 Q And so that's how these officers, they
21 communicate by voice, they get to know each other,
22 they work together, and they work together?

23 A Uh-huh.

24 Q Is that right?

25 A Yes, ma'am.

1 MS. ALIZADEH: Any other questions.

2 . About the
3 dead zone, how long have you been an officer in that
4 area?

5 A I've been in Ferguson 27 years.

6 : Are these deadzones more
7 like word of mouth or is there any kind of
8 documentation?

9 A It is documented by complaints from
10 officers and stuff.

11 MS. ALIZADEH: Let me ask you when we were
12 listening to the calls, in fact, isn't there a call
13 where you hear static and then suddenly could hear
14 the officer talking?

15 A Yes.

16 MS. ALIZADEH: You describe when your
17 dispatcher said, I can tell he's on his portable and
18 he's walking.

19 A Right.

20 MS. ALIZADEH: And he walks from one place
21 to another and suddenly you can hear him speaking?

22 A Right.

23 : . You said
24 that, I want to clarify to make sure I've got this
25 correct here. You said that Officer Darren Wilson,

1 he was on a disturbance call at another complex?

2 **A** Yes, ma'am.

3 Do you know which complex?

4 **A** Parkridge Apartments.

5 Parkridge Apartments. And
6 then he went to a different complex to assist on a
7 sick call.

8 **A** No, he was actually the primary on that
9 sick call, he was the only officer. When I say
10 assist, when I say that, he assists in the sector
11 car, so he doesn't have to jump off of that call to
12 go run all the way over here. So when I say assist,
13 he is just assisting the sector car. So he doesn't
14 have to go 10-8 for the call.

15 **Q** (By Ms. Alizadeh) And 10-8 means?

16 **A** Clear a call, I'm off the call.

17 **Q** I'm done, I'm back in service, I can take
18 another call?

19 **A** Exactly.

20 : Now, when this happened,
21 when this incident occurred, between him and Michael
22 Brown, was he on his way to that sick call or he had
23 completed it?

24 **A** He completed that call and was on his way
25 out of the complex.

1 : And was on his way out of
2 the complex.

3 Q (By Ms. Alizadeh) When we listen to these
4 calls today and you hear that the dispatcher is
5 calling out about a stealing in progress and she
6 gives an address.

7 A Yes, ma'am.

8 Q Just the number, she doesn't give a street
9 even?

10 A No.

11 Q Is that because the officer's just know
12 what that means that's the Ferguson Market?

13 A Well they know that, well, basically they
14 know exactly where that number is.

15 Q She doesn't say there's a stealing in
16 progress at the Ferguson Market on West Florissant?

17 A Right.

18 Q There's a call, there's a stealing in
19 progress and you hear the dispatcher call out what
20 the nature of the call is, what was stolen, a
21 description of the suspect?

22 A Yes.

23 Q And in their clothing, correct?

24 A Yes.

25 Q Two officers responded to that call,

1 correct?

2 **A** Yes.

3 **Q** And who were those two officers?

4 **A** The first officer was who is Frank
5 25.

6 **Q** Who was the other person responding?

7 **A** That was , Frank 22.

8 **Q** And then do you hear Darren Wilson call in
9 and ask if they need him to respond to that call as
10 well?

11 **A** Exactly. He was coming off the sick case
12 call with the baby and asked if they needed
13 assistance. If he could help out or whatever.

14 **Q** So he's calling those two officers or
15 calling dispatch, who is he calling?

16 **A** If I remember right, he called dispatch.

17 **Q** And he says, do you need --

18 **A** Do you need another car, you need me to
19 assist or you need any help.

20 **Q** That's on the Ferguson deal, the Ferguson
21 Market?

22 **A** Yes.

23 **Q** Okay. And then he doesn't actually go to
24 the Ferguson Market, he doesn't get there?

25 **A** No, he doesn't get there.

1 in a dead zone you are going to.

2 : You are getting the tone
3 from the dead channel, you aren't in the frequency
4 of anything?

5 **A** It doesn't have anything on it, right.

6 And I'm trying to
7 clarify. You said the dispatcher overrides the
8 scans of the RIOT channel. If somebody is listening
9 to the RIOT channel and the dispatcher from Ferguson
10 comes on, all officers are needed at such and such,
11 they will override, the officers will hear that?

12 **A** They will go point-to-point, they won't go
13 to the RIOT channel. Dispatchers will go to
14 point-to-point.

15 : And the officers will
16 hear that?

17 **A** Yes.

18 : Point-to-point is hear
19 only?

20 **A** That's hear only, it is not a receiver.

21 And I just had another
22 question about you said that Officer Wilson had a
23 newer model mobile device in his car?

24 **A** Yes, ma'am.

25 : But he didn't have a

1 newer model portable walkie.

2 **A** No, ma'am, they're still the old walkies.

3 Does that have any
4 bearing on what's being heard, what's being
5 transmitted?

6 **A** No.

7 Seems like we have a lot
8 of variables here. We have a newer mobile device,
9 an old portable device, we have an area that's known
10 to be a dead zone. We have different channel
11 frequency. I'm just trying to find out --

12 **A** The newer radios, and I'm sure
13 went through this, but the newer radios are going to
14 be more microwaveable. So you are going to hear
15 more from them, but they are still on the old
16 system.

17 Okay.

18 **A** And that's because we're still on the old
19 system with our walkies and our dispatch center. As
20 soon as that 800 megahertz gets updated and ready to
21 go. We'll have new walkies, which are coming pretty
22 soon. We will have a new dispatcher center and new
23 radios and everything will tie in together.

24 Right now we are using a newer radio
25 with our old system, which works just as good.

1 MS. ALIZADEH: If there are problems with
2 the old system, the new radios aren't going to solve
3 those problems?

4 A No.

5 Until you get the new
6 system?

7 A Right. The new system we shouldn't have
8 dead zones, we shouldn't have problems.

9 : This is a real important
10 question for me to understand. You said that you
11 checked all the channels to see if a call was made
12 from Darren Wilson on his portable to any other
13 channel and you couldn't find one?

14 A When I say that, we have certain channels
15 on our recording device. We have what they call
16 trunk systems. 911 we have five trunks.

17 What it is, say you are dialing 911
18 into me, then all of the sudden she dials 911 that
19 will go to trunk two and then all of the sudden he
20 dials 911, that's going to go to the next trunk
21 system three. So we have a bunch of systems in
22 there going because we constantly get 911 calls.

23 So what I did was, I go back and
24 check all the trunks on the 911 system and I also
25 check point-to-point, I check the fire station, the

1 North County Fire.

2 We have backup, our police backup. I
3 will use the police backup because it is a clearer
4 and more. I mean, you can hear everything in there.
5 When you're on the backup system, you can actually,
6 somebody wants a tape or something, I will just go
7 straight to that. I won't just use the main channel
8 because you don't get the static, you don't get the
9 cars, people talking behind them. It will be a
10 clearer sound.

11 And then also we have our phone
12 numbers. You know, we come in with 522-3100, then
13 it keeps going. They have all the detectives'
14 numbers in there and everything else.

15 So the list of everything I'm looking
16 at is probably about this long. (indicating)

17 So with your experience
18 and the information that you were able to tell, it
19 does not appear as though he tried to make a all
20 from his portable?

21 MS. ALIZADEH: I'm going to clarify this
22 because there are calls that are heard, but you
23 can't tell what is being said?

24 **A** Right.

25 MS. ALIZADEH: Or there is static.

1 **A** There's static.

2 : The only way to tell that
3 it is coming from this radio is if it is the
4 emergency button?

5 **A** Right.

6 : Okay. Thank you.

7 I
8 just have some clarification. You said that Frank
9 22 and Frank 25 were dispatched on the way to the
10 Ferguson Market incident; is that correct?

11 **A** When the call came out of Ferguson Market,
12 Frank 25 was actually the primary on that call.

13 : Okay.

14 **A** You got to realize that apartment complex
15 is only a block away, not even a block. So they're
16 leaving that area and he is right there. All he has
17 to do is come out of an entrance and go right into
18 Ferguson Market.

19 : Okay. And then if I'm not
20 mistaken, you said that, you said that Officer
21 Darren Wilson, he called into dispatch to see if the
22 officer needed any assistance, is that my
23 understanding?

24 **A** If he was needed in the area or whatever.
25 I guess to help look for the subjects or something.

1 : Do you know what their
2 response was to Officer Wilson?

3 **A** I think the dispatcher said, I don't
4 remember what the dispatcher said now.

5 MS. ALIZADEH: I don't remember either.
6 We will hear the calls and the dispatcher.

7 : It didn't come from the
8 officer, the dispatcher is the one that is directing
9 Officer Wilson?

10 **A** I think he's asking dispatch.

11 Okay.

12 MS. ALIZADEH: Any other questions?

13 MS. WHIRLEY: Just one last thing for me.
14 So when Officer Wilson called out that he had two on
15 wherever and to send a car, that transmission
16 obviously was received?

17 **A** Yes, it was.

18 MS. WHIRLEY: That reporting?

19 **A** Yes.

20 : So that means, I'm sorry,
21 Juror Number 9. He was on the right channel to
22 receive that call?

23 **A** Yes, ma'am.

24 For the other cars to hear
25 them?

1 **A** He had to be on channel one because that
2 was on channel one dispatch, but he was in his
3 vehicle, so he's in a mobile unit not on his
4 walkie-talkie.

5 : Okay.

6 MS. WHIRLEY: Could you tell he was on
7 mobile or walkie-talkie when he was in his car?

8 **A** You can hear by the static in the radios.
9 One is more clearer than the other because of the
10 wattage.

11 MS. ALIZADEH: Anyone else? Okay.

12 (End of the testimony of)

13 MS. ALIZADEH: For clarification purposes,
14 this disc would normally, the beginning of the
15 testimony of our next witness, however, during the
16 break, the grand jurors indicated that they had,
17 they wanted to clarify something that Sergeant
18 had testified about previously so.

19 Sergeant is here and, Sergeant, you
20 are still under oath, you understand that?

21 **A** Yes, ma'am.

22 MS. ALIZADEH: So go ahead and ask what
23 questions you have that you wanted to clarify.

24 . If Darren
25 Wilson is on a receive only channel, say number

1 three. And he's in a dead zone, will he get a tone
2 or static, I guess is what comes up?

3 **A** If he's on, if he's on like say three,
4 even if he was in a dead zone, he would get a tone.

5 He would still get a tone?

6 **A** Yes. Even if you're in like Wal-Mart and
7 a building with concrete or metal they couldn't get
8 out and he's on three accidentally, he would still
9 hear that, that tone, that real loud.

10 Okay.

11 MS. ALIZADEH: Is that it?

12 The first
13 call that Officer Wilson sent out when he asked do
14 they need assistance, that was to the other police
15 officer cars?

16 **A** No, ma'am. He was calling and talking to
17 dispatch.

18 That was with dispatch?

19 **A** Yes, ma'am.

20 : He wasn't on his mobile?

21 **A** No, he was actually on his mobile.

22 On his mobile.

23 **A** You can tell the difference.

24 : In the car?

25 **A** Yes.

Page 82

1 The second call for help,
2 was it mobile or --

3 **A** I didn't hear a call for help.

4 : So you never got any other
5 from Officer Wilson to the dispatcher?

6 MS. ALIZADEH: Do you mean, ma'am, the
7 call where he said I'm out on Canfield with two,
8 whether or not that was mobile or portable, is that
9 what you mean the second call?

10 Yeah, was that.

11 **A** That was mobile.

12 That was mobile too.

13 After those two, nothing else came through?

14 **A** No, ma'am.

15 : Okay.

16 MS. ALIZADEH: Okay, Any other
17 questions?

18 So we won't stop the recording. The
19 witness is ready, we are not going to take a break.
20 Thank you, Sergeant.

21

22

23

24

25

1
2 of lawful age, having been first duly sworn to
3 testify the truth, the whole truth, and
4 nothing but the truth in the case aforesaid,
5 deposes and says in reply to oral
6 interrogatories, propounded as follows, to-wit:

7 EXAMINATION

8 BY MS. ALIZADEH:

9 Q Ma'm, could you state your name and spell
10 it for the court reporer?

11 A

12 Q Now, ma'am, the microphones that are in
13 front of you do not amplify your voice, they're just
14 recording. So you need to keep your voice up loud
15 enough so we can hear you all the way back here,
16 okay?

17 A Okay.

18 Q And because the court reporter is taking
19 down what you are saying and we are recording what's
20 being said, your answers all have to be out loud.
21 You can't shake your head or nod because that
22 wouldn't get picked up on the recording.

23 A Okay.

24 Q All right. Ma'am, what's your occupation?

25 A I am a dispatcher with the City of

1 Ferguson.

2 Q Okay. You might need to talk a little
3 louder?

4 A I'm a dispatcher with the City of
5 Ferguson.

6 Q How long have you been a dispatcher?

7 A I have been a dispatcher since 1991. I've
8 been with the City of Ferguson since May of 1993.

9 Q Of 1990?

10 A Three.

11 Q Three. And we have already heard from
12 another witness that there are four full-time
13 dispatchers?

14 A No, there are six full-time dispatchers.

15 Q Are you full-time or part-time?

16 A I am full-time.

17 Q So I imagine that there are dispatchers
18 that are working every hour of every day in
19 Ferguson, correct?

20 A Yes.

21 Q Do you work in shifts?

22 A Yes, we do.

23 Q How many dispatchers work per shift?

24 A Two.

25 Q And what is the length of the shift?

1 **A** Eight hours.

2 **Q** And does your shift change, like do you
3 have like the afternoon shift for several weeks and
4 then it is the night shift for several weeks or are
5 you on permanent?

6 **A** I'm on a permanent shift. Full-timers are
7 all permanent.

8 **Q** What is your shift?

9 **A** My shift is 7:00 a.m. to 3:00 p.m.

10 **Q** And was that your shift on August 9th of
11 this year?

12 **A** Yes, it was.

13 **Q** Do you recall that day being a Saturday?

14 **A** I'm not sure what day it was of the week.

15 **Q** You were working on the day of the
16 shooting; is that correct?

17 **A** Yes, ma'am.

18 **Q** And so how many days a week do you work?

19 **A** Usually five.

20 **Q** Are those always the same days or do you
21 have different days?

22 **A** I have different days.

23 **Q** Okay. You do recall, though, that you
24 were working on the day of the shooting of Michael
25 Brown?

1 other?

2 **A** Yes, ma'am.

3 **Q** And do each of you have your own separate
4 console?

5 **A** Yes, ma'am.

6 **Q** Now, we've already talked about 911 calls.
7 Do both dispatchers answer 911 calls?

8 **A** Yes, ma'am.

9 **Q** And then do both dispatchers dispatch
10 radio calls?

11 **A** Yes.

12 **Q** And then what about the CAD calls, we have
13 already heard testimony that that is a computer
14 information system. Do you input information into
15 the CAD system?

16 **A** Yes.

17 **Q** Okay. So you are doing a lot of different
18 things?

19 **A** Yes.

20 **Q** And we've also heard testimony that on a
21 given day the officers that are patrolling the City
22 of Ferguson are assigned a call signal, like a call
23 name like Frank 21, Frank 22, so forth?

24 **A** Yes, ma'am.

25 **Q** And that might change from day-to-day?

1 **A** Yes.

2 **Q** So at the beginning of your shift, do you
3 get a roster with the call, is it called a call
4 center?

5 **A** Call sign.

6 **Q** Call sign. Do you get a roster with call
7 signs and whose working that day?

8 **A** Yes, ma'am.

9 **Q** And so when an officer calls out and he's
10 on the dispatch channel and he's in his vehicle in
11 his car, generally can you hear that call?

12 **A** Yes.

13 **Q** Are there times when it is difficult to
14 hear that call?

15 **A** Yes.

16 **Q** Are there times when officers will walk
17 over each other and walk on each other and they're
18 both making calls at the same time?

19 **A** Yes.

20 **Q** And then what about the portable radios,
21 is it sometimes difficult to hear when an officer
22 makes a call on a portable radio?

23 **A** Yes.

24 **Q** And are you aware that the portable radio
25 has 5 watts and that the mobile radio is a 10 watt

1 transmitter?

2 **A** Yes.

3 **Q** And so would it be fair to say that the
4 portable radios have a weaker signal?

5 **A** Yes, ma'am.

6 **Q** Now, for the amount of time that you have
7 been working for Ferguson, do you recognize
8 generally the voices of the different officers that
9 are calling in?

10 **A** The older officers, yes.

11 **Q** And so we've heard these transmissions,
12 you and I listened to them today; is that right?

13 **A** Yes.

14 **Q** You identified a lot of the officers, in
15 fact, all of the ones that we were listening to
16 between yourself and Sergeant , you were able to
17 tell me who was who when they were talking; is that
18 right?

19 **A** Yes.

20 **Q** And then also were you aware that I had a
21 transcript where someone previously has attempted to
22 transcribe what's being said in these calls, did you
23 see me make changes on it?

24 **A** Yes, ma'am.

25 **Q** There would be times where you could tell

1 me what was being said when I couldn't really hear
2 it?

3 **A** Yes.

4 **Q** Now, you and I talked about that, about
5 the ability of a dispatcher with your experience to
6 understand what's being said when someone like me
7 might listen to the call and say, okay, I didn't get
8 that or I can't hear what's being said. Is that
9 something that just comes with years of experience?

10 **A** Yes.

11 **Q** And also, you also talked about, in fact,
12 you talked about certain officers having a certain
13 way of speaking.

14 **A** Yes, some of them do.

15 **Q** And one of the officers you said I can
16 tell that's him, he'll always have a pause in his
17 voice, like stops mid sentence and then completes a
18 sentence?

19 **A** Right.

20 **Q** And you also said there is one officer who
21 has got kind of a southern twang to his voice?

22 **A** Yes.

23 **Q** And did you also describe for me that you
24 can also tell by the tone of the officer's voice
25 whether or not he's, he may be excited or there's a

1 problem?

2 **A** Right.

3 **Q** Now, when the officers are out on patrol,
4 are they supposed to notify you where they are and
5 what they are up to at all times?

6 **A** Yes.

7 **Q** So if an officer is on a call, when he
8 finishes that call, does he call in and tell you
9 he's done with the call?

10 **A** Yes.

11 **Q** And how does he do that?

12 **A** He radios in using his call sign and let's
13 us know that he's 10-8.

14 **Q** 10-8?

15 **A** Yes.

16 **Q** So that's 10-8?

17 **A** Yes, ma'am.

18 **Q** That means I've completed that call and
19 I'm back in service, I'm ready for another call?

20 **A** Yes.

21 **Q** So are there other things like bathroom
22 breaks, I'm going on dinner break where they might
23 use different codes?

24 **A** Yes.

25 **Q** Okay. And at certain points in the

1 transcript the officer will hear, will actually call
2 in and then the dispatcher might repeat what the
3 officer says; is that right?

4 **A** Yes.

5 **Q** Why do you do that?

6 **A** To insure that all of the other officers
7 hear what the transmission just was because
8 sometimes the radio don't transmit and also to
9 insure to that officer that I'm clear on what he
10 said.

11 **Q** Okay. And so if somebody calls in to
12 dispatch and says something generally if everything
13 is working properly and everything is good to go,
14 the other officers are on the dispatch channel can
15 hear that call, correct?

16 **A** Yes.

17 **Q** But are there times that they can't hear
18 that call?

19 **A** Yes.

20 **Q** But you can?

21 **A** Yes.

22 **Q** So sometimes you will repeat that call so
23 that then the officers can hear what you be
24 repeating the call?

25 **A** Yes.

1 **Q** Do you know how many watts the transmitter
2 is for dispatch?

3 **A** That I do not know.

4 **Q** Is your transmitter stronger than the
5 mobile and portable transmitters?

6 **A** Yes, ma'am.

7 **Q** So generally speaking, the officers are
8 always going to be, usually going to be able to hear
9 dispatch, correct?

10 **A** Yes.

11 **Q** And we've also heard a lot of stuff about
12 dead zones and that would be where officers might
13 not be able to transmit or receive calls, correct?

14 **A** Correct.

15 **Q** Are there times when you can hear that
16 there's an officer keying up a mike, in other words,
17 he's pressing the button on his mike, but you don't
18 hear speaking?

19 **A** Yes.

20 **Q** And can you tell that that's a call?

21 **A** You can tell, but a lot of times you can't
22 hear what they're saying.

23 **Q** Okay. And then when an officer calls in,
24 if he doesn't give his call signal, or his call
25 sign, and let's say I know you said you recognize

1 you know these guys' voices, is there anything on
2 your monitor that tells you who is calling in?

3 **A** No.

4 **Q** So you only know by his voice or if he
5 gives his call sign?

6 **A** That is correct.

7 **Q** You also, we talked today, can you tell
8 the difference when an officer is calling in on a
9 portable versus his mobile?

10 **A** Yes.

11 **Q** And what's the difference, how do you tell
12 the difference?

13 **A** The portable is not as strong and is
14 clearer. A lot of times when they're on their
15 portable you can hear static in the background
16 whereas on the car radio, it is usually very crisp
17 and clear.

18 **Q** Okay. Now, we're going to play the
19 transmissions and pass around the transcript. And I
20 will tell you that the change, the handwriting
21 that's on the transcript is mine. And I did that
22 because it was, I first met with her this morning at
23 6:30 is when you got here and that's the first time
24 I had a chance to sit down and actually go through
25 these transmissions with her. So I apologize, and

1 you would tell me sometimes when it would say on the
2 transcript UI, which I assumes mean unintelligible,
3 you are able to tell me what's being said sometimes?

4 **A** Right.

5 **Q** You saw me making changes, and sometimes
6 with the officer it doesn't say who the officer was.
7 You are able to tell me, well, that's 24 or that's
8 25 or whatever?

9 **A** Yes.

10 **Q** And we talked about today on that day who
11 was 21, who was 22 and so forth, correct?

12 **A** Yes.

13 **Q** Okay. All right. Before we start playing
14 the radio calls, is there anybody has a question
15 about her job, or anything that she's testified to
16 so far?

17 MS. WHIRLEY: I actually do, not much, but
18 hi, I'm over here. You mentioned that sometimes you
19 could only hear static when an officer is trying to
20 call in, I guess that's a dead zone or something?

21 **A** Could be. Usually when you hear static,
22 it is because they're in a building or maybe there's
23 a building between them or some type of large
24 structure between them and the radio waves don't get
25 through that as easily as they would if they were

1 out in the open.

2 MS. WHIRLEY: I think I heard you say that
3 you cannot tell who's trying to call in on your
4 monitors when you hear that static; is that correct?

5 A That's correct, you cannot.

6 MS. WHIRLEY: Is there anything in place
7 to try to figure out, you know, who the officer is
8 or what to do in case an officer might be needing
9 help.

10 A We have panic buttons that are installed
11 in all of their walkies and also on the car radio.

12 MS. WHIRLEY: Is that that orange alert
13 button we have heard about?

14 A Yes, ma'am. If they push that, my radio
15 console lights up and makes a lot of noise and each
16 console does that, so we each have to shut them
17 down. One of them did not shut them all down and
18 that shows the officer's name, it shows whether he's
19 on his portable or shows whether he's on his mobile
20 in his car.

21 MS. WHIRLEY: That's only if he hits that
22 red button?

23 A Correct.

24 MS. WHIRLEY: If an officer is trying to
25 communicate, but he's in a dead zone in a building

1 and you just hear static, there is nothing you can
2 do to try to figure out who that officer is or they
3 need help?

4 **A** Other than asking him to repeat, no,
5 ma'am.

6 MS. WHIRLEY: Okay. And you said you also
7 can detect a problem in the officer's voice, I think
8 you said that, right?

9 **A** Yes.

10 MS. WHIRLEY: What do you do if you detect
11 a problem, like something is going on and the
12 officer is not asking for help, you detect
13 something, what do you do?

14 **A** I usually when there's a change in their
15 voice, I usually send them help regardless, I send
16 assist units.

17 MS. WHIRLEY: You ask them do you need
18 additional help?

19 **A** Right.

20 MS. WHIRLEY: You kind of communicate that
21 you are a little concerned?

22 **A** Correct.

23 MS. WHIRLEY: Okay, all right. That's
24 all.

25 I have one question, this

1 is How often do the officers use that alert
2 button, have you been known to happen a lot or?

3 **A** It doesn't happen that often. I would
4 even say once a month. It doesn't happen that
5 often, but it does happen especially it is more an
6 accident than not, but they'll hit it.

7 (Grand Jury Exhibit Number 86
8 marked for identification.)

9 MS. ALIZADEH: Okay. I'm going to play a
10 disc that is marked Grand Jury Exhibit Number 86,
11 Vanna will now turn the letters.

12 So the transept is being passed out. What
13 I've written in there I wrote in after meeting with
14 her. She will describe these calls as they go
15 along.

16 Now, Sheila, it might be helpful if we can
17 do that, can you do that.

18 MS. WHIRLEY: You want it to be shown up
19 here?

20 MS. ALIZADEH: Actually, the time and date
21 is on the screen, okay.

22 Ma'am, we talked about earlier today about
23 the difference between the clock that you're looking
24 at that is actually sitting on your console versus
25 the internal clock for the radio calls versus the

1 911 calls. Those might not be in sync, would that
2 be fair to say?

3 **A** Correct.

4 **Q** (By Ms. Alizadeh) So the clock that
5 records these calls as they are being made might not
6 be the actual time of the call, would that be fair
7 to say?

8 **A** Yes, there could be a discrepancy.

9 **Q** Okay. But would it be also be fair to say
10 that if there's a call that say 11:53 and 15 seconds
11 and then the next call is at 11:54 and 15 seconds,
12 that there would be a minute between those two
13 calls, correct?

14 **A** That's correct.

15 **Q** So we can tell how much lag time in
16 between calls by looking at the time, but that
17 doesn't necessarily reflect what the actual time is?

18 **A** Correct.

19 **Q** Okay. Just for clarification sake, these
20 calls on this disc start at 323, that's the track
21 for the call and the actual time and date for this
22 first call is August 9th, 2014 at 11:46 and 4
23 seconds in the a.m.

24 Ma'am, is it fair to say there are
25 calls that came before this first call we are going

1 to hear?

2 **A** That's correct.

3 **Q** You were working that day?

4 **A** That is correct.

5 **Q** And you hear your voice being played on
6 the recording sometimes, correct?

7 **A** Yes.

8 **Q** And you recognize as the other
9 dispatcher that was there that day?

10 **A** Yes.

11 **Q** Were there any other dispatchers besides
12 the two of you?

13 **A** No.

14 **Q** Okay. So what I'm going to do is play
15 each track and then I will have the dispatcher tell
16 us if there's a need to translate what this means,
17 she will put some context to that.

18 (Playing of the recording.)

19 **Q** That's your voice?

20 **A** Yes.

21 **Q** You are the dispatcher for that call?

22 **A** Yes.

23 **Q** Who was the officer on that call?

24 **A** .

25 **Q** And he's Frank 22 that day?

1 **A** Yes.

2 **Q** And so we hear him start out by saying
3 Frank 22, so he's identifying himself?

4 **A** Yes.

5 **Q** And you repeat 22, what's that tell him
6 when you repeat 22?

7 **A** That tells him that I understand that he
8 is calling and that also tells him to go ahead with
9 his traffic.

10 **Q** And then he transmits something about an
11 address?

12 **A** Correct.

13 **Q** And so this relates to a previous call; is
14 that right?

15 **A** Yes.

16 **Q** Do you recall what that call was?

17 **A** I do not, but it is not uncommon for them
18 to make corrections on addresses.

19 **Q** Okay. So then the dispatcher, you say
20 units 10-8 from Louisa, what does that mean?

21 **A** That means he is finished with his
22 assignment and he is available for another
23 assignment.

24 **Q** So I'm going to play this call again. In
25 the transcript it says make the address Louisa,

1 units are, then it is unintelligible. You tell me
2 if you can hear what he's saying?

3 **A** Okay.

4 (Playing of the recording.)

5 **A** I understand that he's ready for the other
6 assignment, but the end of that transmission I'm not
7 quite sure what he's saying.

8 **Q** Okay. So then the next call, I'm just
9 going to play these in order. If there's a need for
10 you to ask me what time the call is, I don't know if
11 you can actually see it for yourself up there. If
12 you can't, then I can read it out to you.

13 (Playing of the recording.)

14 MS. ALIZADEH: So that's voice.

15 **A** Yes.

16 **Q** (By Ms. Alizadeh) What is she doing?

17 **A** She's calling units for an assignment.

18 **Q** So Frank 28 is who that day?

19 **A** I'm not sure who Frank 28 was, I don't
20 remember.

21 **Q** We went through who they were by you
22 listening to their voices, correct?

23 **A** Right.

24 **Q** And Frank 21?

25 **A** Frank 21 was Officer Wilson.

1 **Q** Okay. So is calling to those two
2 officers?

3 **A** Yes.

4 **Q** All right. But she doesn't, at this
5 point, we don't know the nature of why she's calling
6 them?

7 **A** Correct.

8 **Q** (Playing the recording).

9 **Q** All right. So in that call that's Darren
10 Wilson that says that 28 is on station assignment?

11 **A** Uh-huh.

12 **Q** What does that mean?

13 **A** That means he is unavailable for any calls
14 and that he's at the station currently working on a
15 call.

16 **Q** So Darren Wilson is saying that I'm
17 available, but 28 is not?

18 **A** Correct.

19 **Q** And so then gives him the information
20 that the caller had called in about?

21 **A** Correct.

22 **Q** And then at the end, Darren Wilson 21, I'm
23 clear, what does that mean?

24 **A** That means he's clear on the assignment,
25 he's going to accept the assignment and take it.

1 **Q** I'm clear means I understand it and I'm
2 taking it?

3 **A** Yes.

4 **Q** Doesn't mean I'm going out of service or
5 anything?

6 **A** No.

7 **Q** Okay. And then Officer 22 says 22, I'm
8 clear?

9 **A** Correct.

10 **Q** And so 22 was not originally called by
11 ?

12 **A** Correct.

13 **Q** He heard the call?

14 **A** Yes.

15 **Q** And so he says I'm going too?

16 **A** Yes, because when she put that out, she
17 put that out for a unit and one to assist.

18 **Q** Okay. And is that because of the nature
19 of the call that it could be domestic with a gun?

20 **A** Correct.

21 (Playing of the recording.)

22 **Q** So 22 who I think we talked about is
23 , do you recognize his voice?

24 **A** Yes.

25 **Q** So he says 22 you clear, I'm en route. Is

1 that saying that?

2 **A** Yes.

3 **Q** And what does that mean?

4 **A** He, in our CAD system when we enter a
5 call, they can see everything that we enter into the
6 computer. And sometimes there is a time delay when
7 we're entering information into the call before we
8 physically put the unit on that call. He may not
9 have seen himself assigned to that call. So he was
10 just inquiring that and I were clear, he was
11 responding also.

12 **Q** Okay. So says I'm going to
13 assist her, I'm going to this call as well?

14 **A** Yes.

15 **Q** Do you know what sector this call was in?

16 **A** Yes.

17 **Q** What sector is that?

18 **A** Four.

19 **Q** Okay. And that would be Canfield Green
20 Apartments, is this sector four, correct?

21 **A** Yes.

22 **Q** But Sharondale is not in Canfield; is that
23 right?

24 **A** No, but it is also in four.

25 **Q** Okay. And so we've got Officer Wilson and

1 Officer are indicating their responding to
2 this call?

3 **A** Yes.

4 **Q** The next clip.

5 (Playing of recording.)

6 **Q** So now this is another officer saying he
7 is responding to that call as well?

8 **A** Yes.

9 **Q** You recognize his voice?

10 **A** Yes.

11 **Q** Who is that?

12 **A** That's going to be .

13 **Q** Okay. So now we've got three officers
14 going to this same call in sector four?

15 **A** Yes.

16 **Q** And that leaves the sectors that they were
17 patrolling without any patrol?

18 **A** Temporarily, yes, but a lot of times the
19 supervisors will keep watch while they're
20 responding.

21 **Q** And will the cover cars also move into
22 those sectors to make sure there's coverage?

23 **A** Yes.

24 **Q** Do they do that automatically or do they
25 have to call out that they're covering a sector?

1 **A** That's an automatic thing.

2 **Q** Okay. So now the next track.

3 (Playing the recording.)

4 **Q** So is that Frank 22 calling and saying I'm
5 Frank 22, I'm 23 to the area?

6 **A** Yes, he's saying he's in the area.

7 **Q** What does 23 mean?

8 **A** That he's arrived on the scene.

9 **Q** So it is not Frank 23?

10 **A** No, it is Frank.

11 **Q** Frank 22 I've arrived at the scene?

12 **A** Yes.

13 **Q** Okay. And the dispatcher acknowledges
14 that she heard that by saying in the area?

15 **A** Yes.

16 **Q** Okay.

17 (Playing of the recording.)

18 **Q** Okay. So whose 25?

19 **A** Officer .

20 **Q** All right. So when he says 25 is out,
21 what does that mean?

22 **A** He means he's on the scene as well.

23 **Q** He doesn't say 25 is 23?

24 **A** No, some of them use different.

25 **Q** Okay. But you understand as a dispatcher

1 he means I'm at the scene?

2 **A** Yes.

3 **Q** And then responds to him saying you're
4 at the scene and what's 11:34 mean?

5 **A** That's the current time.

6 **Q** So she's looked at the clock and she says
7 what time it is on her clock?

8 **A** Yes.

9 **Q** So she has Frank 25, Officer Gibbons has
10 arrived at the scene at 11:34?

11 **A** Yes.

12 MS. ALIZADEH: So the next track?

13 : . When
14 we're talking about the clock discrepancies.

15 **A** Yes.

16 Like track 323 was at
17 11:46:04 and this is 11:34, there is like 12 minutes
18 difference.

19 MS. ALIZADEH: Now, you are looking at,
20 when you say track 323, which is the first call I
21 played, the time I gave you, the time and date is
22 what is on the call, not the clock she's looking at.

23 Right, that's what I'm
24 saying, we're talking about the clock difference we
25 are referring to earlier.

1 MS. ALIZADEH: There might be a difference
2 in a clock.

3 : Right, right.

4 MS. ALIZADEH: Actually, she says it's
5 11:34 and that's 329. And this says it is
6 August 9th, 2014 at 115321.

7 : Okay. Up there, good.

8 MS. ALIZADEH: So the clock they're
9 looking at and calling out is the actual time,
10 correct?

11 A Yes.

12 MS. ALIZADEH: So the times that are
13 listed on here aren't the actual times, however, the
14 time discrepancies I think would be accurate. So
15 the 20 minutes from one call and then the next
16 minute the call is 20 minutes later, I think that
17 that would be accurate.

18 : Okay.

19 Q (By Ms. Alizadeh) Now, I'm playing 330.

20 (Playing of the recording.)

21 Q Okay. Now, we've heard a lot of static at
22 the beginning of that call. Can you tell if that
23 officer is on his portable or on the mobile?

24 A Yes, he's on his portable.

25 Q Do you recognize who that is?

1 **A** You know it sounds like Officer Wilson,
2 but it's hard to say. I would have to be closer in
3 order to hear it.

4 **Q** And so at the beginning when we are
5 hearing static is that because somebody is keying up
6 their mike or what was that static from?

7 **A** That is because their on their mobile, I'm
8 sorry, their portable and they're out walking on
9 feet and as he's walking, he's moving in between the
10 buildings. So the signal, instead of trying to bend
11 around a building is straight and we can read it a
12 lot better because there's not a building in the
13 way. It is hard for me to explain that type.

14 **Q** So would this be an example of a time when
15 an officer is transmitting something and you can
16 tell something is being transmitted, but you can't
17 hear it and then as he continues to walk, you can
18 hear what is being said?

19 **A** Yes.

20 **Q** Okay. Because of the static you are not
21 able to tell which officer that was?

22 **A** I'm not sure which one.

23 **Q** Okay. And the next track is 331.

24 (Playing of the recording.)

25 **Q** So now those are two different officers

1 and they are talking to each other on their
2 portables, yes?

3 **A** Yes.

4 **Q** Okay. Can you recognize their voices?

5 **A** The second officer is Officer . The
6 first I'm not sure is possibly Officer Wilson.

7 **Q** Okay. So this is them, they're going on
8 that call about a guy who was going to go get a gun
9 and shoot somebody?

10 **A** Correct.

11 **Q** And they're talking to each other, looking
12 for a subject?

13 **A** Correct.

14 **Q** So track 332.

15 (Playing of the recording.)

16 **Q** So Frank 21?

17 **A** That is Darren.

18 **Q** That's Officer Wilson he says 23, that
19 means he's arrived?

20 **A** He's arrived, yes.

21 **Q** He's just now at 11:36 got to that scene
22 on Sharondale?

23 **A** Correct.

24 **Q** And track 333.

25 (Playing the recording.)

1 **Q** All right. So it starts out with Frank
2 27, do you recognize his voice?

3 **A** Yes.

4 **Q** Who is that?

5 **A** That's

6 **Q** And so he says something, something
7 difficult to understand, but the dispatcher says
8 Frank 27, 10-81, what does that mean 10-81?

9 **A** That means he's with a prisoner.

10 **Q** He's with a prisoner?

11 **A** Yes.

12 **Q** So at 11:37 he has a prisoner?

13 **A** Yes.

14 **Q** And then you hear Officer Wilson say ,
15 where are you guys at?

16 **A** Yes.

17 **Q** Who is he referring to, who is ?

18 **A** would be , Frank 22.

19 **Q** So he's not talking to Frank 27?

20 **A** No.

21 **Q** He's actually calling out for ?

22 **A** Yes.

23 **Q** And then do you hear 's voice
24 respond that he's talking to the caller?

25 **A** Yes.

1 **Q** All right. And then when Officer Wilson
2 says clear, what does that mean?

3 **A** That means he understood Matt, he knows
4 where he is and he's going to go there.

5 **Q** And you guys, if you don't understand
6 something just chime in, all right.

7 So track 334.

8 (Playing of the recording.)

9 **Q** The first speaker was who?

10 **A** The first one was .

11 **Q** Second one?

12 **A** Darren.

13 **Q** And so they're talking to each other?

14 **A** Yes.

15 **Q** Still on the scene at Sharondale?

16 **A** Yes.

17 **Q** And track 335.

18 (Playing of the recording.)

19 **Q** And, again, that's Officer Wilson talking
20 to ?

21 **A** Yes.

22 **Q** Okay. And just for clarity sake, there
23 are actually talking by using their walkie-talkies?

24 **A** Correct.

25 **Q** Their walkie-talkies aren't picking the

1 two of them standing next to each other talking?

2 **A** Correct.

3 **Q** Okay. Track 336.

4 (Playing the recording.)

5 **Q** All right. Do you recognize that voice?

6 **A** Yes.

7 **Q** Who is that?

8 **A** That's Sergeant .

9 **Q** Okay. What is the purpose of him saying
10 Ferguson 23?

11 **A** He is calling out to dispatch.

12 **Q** So he wants somebody to answer him?

13 **A** Correct.

14 **Q** All right. And then the next track, 337.

15 (Playing the recording.)

16 **Q** He calls again?

17 **A** Yes.

18 **Q** So nobody answered him?

19 **A** The first time, yes.

20 **Q** And then on track 338.

21 (Playing the record.)

22 **Q** So what does that call tell you, what's
23 Sergeant doing?

24 **A** He was on a separate call before all the
25 transmission started. I don't remember all of the

1 call. I know it was in reference to an elderly
2 female, he's requesting an ambulance come check her
3 out. Code one nonemergency, no light, no siren.

4 Q He's at another residence, not related to
5 this apartment situation?

6 A Correct.

7 Q Where there was somebody with possibly a
8 gun?

9 A Correct.

10 Q Okay. And track 339.

11 (Playing the recording.)

12 Q Do you recognize whose voice that is?

13 A I do, but Frank 23 is written in there
14 that is not who that is, that's , Frank
15 25.

16 Q So I wrote that wrong?

17 A Right.

18 Q Okay. Good to know. So that is

19 ?

20 A Yes.

21 Q We don't know who he's talking to or do
22 we?

23 A I would assume he's talking to the other
24 officers on the scene of Sharondale because the
25 three of them were there together.

1 **Q** So we have ?

2 **A** .

3 **Q** And Officer Wilson and now ?

4 **A** Yes.

5 **Q** And track 340.

6 (Playing of the recording.)

7 **Q** So the first speaker there, who is the
8 first speaker?

9 **A** Darren.

10 **Q** I have indicated 21, you told me that was
11 his voice, correct?

12 **A** Correct.

13 **Q** And he's talking to who?

14 **A**

15 **Q** And so, again, they're communicating.
16 They are still looking for a subject in Sharondale?

17 **A** Yes.

18 **Q** Track 341.

19 (Playing of the recording.)

20 **Q** And then track 342 is the same, dispatcher
21 also calling out for Frank 21; is that right?

22 **A** Yes.

23 **Q** And who is Frank 23?

24 **A** Sergeant .

25 **Q** And he's always Frank 23, correct?

1 **A** Yes, he's a supervisor.

2 **Q** So the dispatcher's calling him and he's
3 not answering?

4 **A** Correct.

5 **Q** Track 343.

6 (Playing the record.)

7 **Q** Okay. So who was that officer that called
8 in at the beginning?

9 **A** .

10 **Q** And what was his, on that day, do you
11 remember?

12 **A** His call sign is Frank 24.

13 **Q** Okay. And so he says, and so he says he's
14 calling in for 23?

15 **A** Yes.

16 **Q** So he hears the dispatcher is calling for
17 23, and 23 is not responding, so he came on in the
18 end saying I'm here?

19 **A** Correct.

20 **Q** So then the dispatcher says there is two
21 calls pending, does that mean unanswered so far,
22 correct?

23 **A** Yes.

24 **Q** So 344, track 344.

25 (Playing the recording.)

1 **Q** You recognize that as Darren Wilson?

2 **A** Yes.

3 **Q** What is he saying?

4 **A** He's saying he's just about finished with
5 this assignment, he's going to go back in service so
6 he'll be available to take the sick case on Glenark.

7 **Q** So 10-8 means I'm back in service?

8 **A** Correct.

9 **Q** Okay. And call 345.

10 (Playing the recording.)

11 **Q** Do you recognize who that is?

12 **A** Yes.

13 **Q** Who is that?

14 **A** That's Officer Wilson.

15 **Q** And he's talking to ?

16 **A** Yes.

17 **Q** Do you know what he means by that, stay
18 right where you're at they're gone?

19 **A** I believe probably if he would have not
20 moved or not appeared there, maybe they would have
21 found the suspects, maybe the suspects saw him and
22 left and maybe that's what that is referring.

23 **Q** So this is related to the call on
24 Sharondale?

25 **A** That is correct.

1 MS. WHIRLEY: Do you know what you just
2 told us, do you know that to be a fact or you just
3 speculating?

4 A No, I'm speculating only.

5 MS. WHIRLEY: Okay.

6 Q (By Ms. Alizadeh) Track 346.

7 (Playing the recording.)

8 Q So whose voice is that?

9 A Officer Wilson.

10 Q What is he saying?

11 A He's saying put him in service he's going
12 to go ahead and take the Glenark call.

13 Q The Glenark call was the baby with
14 difficulty breathing?

15 A Yes.

16 Q And is Glenark, where is that in Ferguson?

17 A It is also in sector four. It is a little
18 bit further, I'm terrible with directions, I believe
19 north of where the apartment complex in Canfield is
20 located.

21 Q Okay. So if that day Officer Wilson was
22 assigned to sector one, why is he answering a call
23 in sector four?

24 A The officer that is actually assigned to
25 sector four was on another assignment on Kirk

1 dealing with another sick case. And he was already
2 in that area, so he went ahead and took the call.
3 Sometimes they'll take calls out of sector when one
4 is tied up.

5 Q And it is one of your jobs to know where
6 these officers are at all times?

7 A That is correct.

8 Q Um, 347, track 347.

9 (Playing the recording.)

10 Q Who's the officer?

11 A Officer Wilson.

12 Q They're just getting the address correct,
13 correct?

14 A Yes.

15 Q Track 348.

16 (Playing the recording.)

17 Q Who is Frank 25?

18 A Officer

19 Q What is he saying in that call?

20 A He's saying he's wrapped up this
21 assignment, he's available for another, however,
22 he's going to respond back to his area or sector
23 that he covers because there's parking violations
24 that are open in that area.

25 Q Was that the other pending call that the

1 dispatcher mentioned?

2 **A** Yes, it was.

3 **Q** So we have him taking that call and then
4 Officer Wilson is taking the baby short of breath
5 call?

6 **A** Yes.

7 **Q** Track 349.

8 (Playing the recording.)

9 **Q** So 9101 West Florissant, do you know
10 what's there?

11 **A** That is, no, I don't, Ferguson Liquor I
12 believe is the name of it.

13 **Q** Is it also called Ferguson Market?

14 **A** Yes.

15 **Q** So the officer that responded to that call
16 said all clear, I'm right here, who is that?

17 **A** That was officer .

18 **Q** So what is he saying in response to that
19 call?

20 **A** He was at that location currently because
21 he was leaving from Sharondale to go to the other
22 assignment. So he stopped and was going to handle
23 that call.

24 **Q** He's saying I'm right close by. I'll take
25 this stealing in progress?

1 **A** Yes.

2 (Playing the recording.)

3 Is that the Victoria

4 Plaza?

5 **A** Yes, ma'am.

6 **Q** (By Ms. Alizadeh) So I'll play again, I'm
7 going to play track 350.

8 (Playing the recording.)

9 **Q** And again, that's Officer ?

10 **A** Yes.

11 (Playing the recording.)

12 **Q** And track number 352.

13 (Playing the recording.)

14 **Q** Track 353.

15 (Playing the recording.)

16 **Q** And that was all officer talking
17 to the dispatcher?

18 **A** Yes.

19 **Q** And that was not you, that was

20 **A** No, that was me.

21 **Q** That was you?

22 **A** Uh-huh.

23 **Q** Track 354.

24 (Playing the recording.)

25 **Q** Okay. I'm going to play that again.

1 (Playing the recording.)

2 Q Do you recognize whose voice that is?

3 A I do not.

4 Q And you recognize, can you hear what
5 they're saying?

6 A Yes.

7 Q What did they?

8 A They're saying Mickey D's.

9 Q So this is an officer transmitting this;
10 is that right?

11 A Correct.

12 Q People with scanners that are out there,
13 they can't transmit on police radios?

14 A No, ma'am.

15 Q Do you know what he means by Mickey D's or
16 what do you assume he means?

17 A He means McDonald's, which was right next
18 door to the Ferguson Market. Possibly was inferring
19 that the subject may have gone into the McDonald's.

20 Q Okay. Track 355.

21 (Playing the recording.)

22 Q Whose voice is that?

23 A That is .

24 Q Track 356.

25 (Playing the recording.)

1 **Q** Whose voice is that?

2 **A** That is Officer .

3 **Q** Track 357.

4 (Playing the recording.)

5 **Q** Whose voice is that?

6 **A** That is .

7 **Q** So he's saying I understand that we have
8 no further description on this person, right?

9 **A** Correct.

10 **Q** And is this still regarding the stealing
11 from the Ferguson market?

12 **A** That is correct.

13 **Q** Track 358.

14 (Playing the recording.)

15 **Q** So the first voice, whose voice is that?

16 **A** Officer .

17 **Q** And he's giving out a description of one
18 of the suspects that's involved in this stealing at
19 the Ferguson Market?

20 **A** That's correct.

21 **Q** Who's the second officer's voice?

22 **A** Officer .

23 **Q** When he says clear, what does that mean?

24 **A** That means he was clear on the description
25 and he was going to look in the area for that

1 description on that subject.

2 **Q** And other officers who are on the dispatch
3 channel, they may or may not have heard Officer
4 and Officer talking to each other,
5 correct?

6 **A** That's correct.

7 **Q** Track 359.

8 (Playing the recording.)

9 **Q** Do you know who that is?

10 **A** Yes.

11 **Q** Who is that?

12 **A** Officer .

13 **Q** What is he saying, 27, I'm at the station,
14 open the garage?

15 **A** We also have all the controls to the
16 building doors in dispatch on our radio console. He
17 was with a prisoner so I opened the garage door for
18 him to bring the prisoner in.

19 **Q** Is this the same officer who called in
20 earlier who said he gave a code for having a
21 prisoner?

22 **A** Yes.

23 **Q** So now he's arrived at the station with a
24 prisoner?

25 **A** Yes.

1 **Q** And so unrelated to the stealing in
2 progress at the Ferguson Market?

3 **A** Yes, that is correct.

4 **Q** 360.

5 (Playing the recording)

6 **Q** Who is that?

7 **A** That is Officer

8 **Q** I'm sorry. It wasn't quite over Officer

9

10 **A** Yes.

11 **Q** Track 361.

12 (Playing the recording.)

13 **Q** So who is 22?

14 **A** 22 is .

15 **Q** What is he saying when he says clear me
16 with the report from Sharondale, I'm with 25?

17 **A** He was currently still in the area looking
18 for the man with the gun that came out on Sharondale
19 and he was clearing from that call and he was going
20 to continue to canvas the area for the subjects that
21 left the Ferguson Market.

22 **Q** When he says I'm with 25, is that Officer
23 ?

24 **A** Yes.

25 **Q** Is he physically with him, is that what

1 that means, or is he just going to be on the call?

2 **A** He's going to be on the call, he's in that
3 area.

4 **Q** And then the dispatcher says 22 that's
5 clear, you just saying I understand?

6 **A** Yes.

7 **Q** 362.

8 (Playing the recording.)

9 **Q** All right. So do you recognize this
10 officer?

11 **A** Yes.

12 **Q** Who is that?

13 **A** That is Major from the City of
14 Country Club Hills.

15 **Q** You dispatch for their department as well?

16 **A** Yes.

17 **Q** He's Victor two?

18 **A** Yes.

19 **Q** So this is not related to the Ferguson
20 Market or any of the calls that the Ferguson
21 officers have been working on?

22 **A** Correct.

23 **Q** Track 363.

24 (Playing the recording.)

25 **Q** And that's ?

1 **A** Uh-huh.

2 **Q** What is she indicating?

3 **A** She's repeating his location so that other
4 officers can hear it and insuring him that she knew
5 where he was.

6 **Q** Okay. So again this is relaying
7 information so that other officers who might not
8 have heard Victor two call in about this?

9 **A** Correct.

10 **Q** 363, 64, sorry, track 364.

11 (Playing the recording.)

12 **Q** So Frank 21, that's Dareen Wilson?

13 **A** Yes.

14 **Q** What is he saying?

15 **A** He's saying that he is, finished up the
16 call he was on and he's available for other traffic
17 or other calls if needed.

18 **Q** That's the sick baby or the baby short of
19 breath on Glenark that he has had responded to?

20 **A** Yes.

21 **Q** Is he's done with that?

22 **A** Correct.

23 **Q** He's available for another call?

24 **A** Correct.

25 (Playing the recording.)

1 **Q** And you recognize that voice?

2 **A** Yes.

3 **Q** Who is that?

4 **A** That's Major

5 **Q** Victor 2?

6 **A** Yes.

7 **Q** So this is, again, regarding traffic, a
8 plate he's running, not regarding these Ferguson
9 calls?

10 **A** Correct.

11 **Q** Now 366.

12 (Playing the recording.)

13 **Q** Who's voice is that?

14 **A** That's Darren Wilson.

15 **Q** And what's he saying?

16 **A** He's inquiring if they need him to respond
17 for any assistance.

18 **Q** Who is he calling out to?

19 **A** He's calling out to Officer and
20 .

21 **Q** And those are the two officers who had
22 gone to the Ferguson Market in response to the
23 stealing in progress; is that right?

24 **A** Yes.

25 **Q** So he's asking them if they need his help?

1 **A** Yes.

2 **Q** 367.

3 (Playing the recording.)

4 **Q** All right. You recognize the first voice?

5 **A** Yes.

6 **Q** Who is that?

7 **A** The first voice was Officer .

8 **Q** So he's, he says they disappeared into the
9 woodwork or into --

10 **A** Possibly the wood line.

11 **Q** Could be the name Windward, it could be a
12 lot of different things, correct?

13 **A** Correct.

14 **Q** And then the next officer is who?

15 **A** Darren Wilson.

16 **Q** What is he saying?

17 **A** He can't hear them because it is hard for
18 them to hear on the portable when they're out moving
19 around and he's in his car and he can't hear the
20 portable.

21 **Q** So he's asking you to relay what Officer
22 just said?

23 **A** Correct.

24 **Q** And then is that you then who says, he
25 thinks that they disappeared?

1 **A** That was actually

2 **Q** , okay. And then Wilson says clear,
3 meaning I understand.

4 **A** Right. He was clearing that he understood
5 us though.

6 **Q** So this is an example where if he knows
7 that call was made but he couldn't hear it or
8 understand it, and he is asking to repeat it.

9 This is 368.

10 (Playing the recording).

11 **Q** So Frank 22 is calling, that's officer
12 ?

13 **A** Yes.

14 **Q** Calling dispatch?

15 **A** Uh-huh.

16 **Q** So what's he saying?

17 **A** He's saying that he is finished with the
18 assignment over there assisting with the Ferguson
19 Market and he's going to take the parking violations
20 at Victorian Plaza.

21 **Q** Okay. So is the dispatcher ?

22 **A** Yes.

23 **Q** So she says 10-4, that means she
24 understands it, correct?

25 **A** Correct, uh-huh.

1 **Q** Also when you get a moment I have a 21
2 message for you, what does that mean?

3 **A** A telephone number.

4 **Q** Okay. So that's not a message from
5 Officer Wilson since he's Frank 21?

6 **A** No, it was something totally separate.

7 **Q** So a 21 message just means a telephone
8 message?

9 **A** Correct.

10 **Q** And it may or may not be related to work,
11 it might be somebody calling him?

12 **A** Correct, it could be anything.

13 **Q** Anything?

14 **A** Yes.

15 **Q** All right. And then 369.

16 (Playing the recording.)

17 **Q** Who's that?

18 **A** That's Officer Wilson.

19 **Q** What is he telling you?

20 **A** He's telling me that he's out with two
21 subjects on Canfield and he's requesting an
22 additional unit for back up.

23 **Q** Can you tell from the transmission if he's
24 in his car or is he on his portable?

25 **A** He's in his car.

1 **Q** And is there anything about that call that
2 you think is unusual?

3 **A** Um, that he would request a backup
4 immediately would be very unusual. Usually they do
5 not do that.

6 **Q** When an officer says put me on Canfield,
7 what does that mean?

8 **A** Put me on the scene of Canfield, put me at
9 that location.

10 **Q** Because you have to keep track of where
11 they are at all times?

12 **A** Correct.

13 **Q** He's telling you he's on Canfield?

14 **A** Right.

15 **Q** With two, what did that mean?

16 **A** Two subjects, two people.

17 **Q** Okay. Does this tell you what he's doing
18 with them or why he's with two?

19 **A** It did not.

20 **Q** Okay.

21 **A** It only tells me that he stopped two
22 people.

23 **Q** Okay. And he ask for another car, an
24 assist?

25 **A** Yes.

1 I have a question.

2 MS. ALIZADEH: Yes.

3 : You

4 said that him requesting a backup car is out of
5 character for him?

6 **A** That quickly, yes.

7 That quickly?

8 **A** Yes, ma'am.

9 So there have been other
10 instances where he has asked for backup?

11 **A** Yes, ma'am.

12 : Is that my understanding?

13 **A** Yes, ma'am.

14 You said the length of
15 time it took for him was out of character?

16 **A** Yes, ma'am.

17 : Would there be a reason,

18 Do you know of a reason for an officer
19 to ask for backup that quickly?

20 **A** Maybe because he felt that there was
21 something about the way they looked, or the way they
22 were acting or just that there was something
23 suspicious about them.

24 : It could have been that
25 they fit the description of the people at the

1 Ferguson Market?

2 **Q** (By Ms. Alizadeh) So this is all just
3 speculating?

4 **A** Correct. I don't know what the real
5 reason would be.

6 **Q** You take calls from these officers every
7 day?

8 **A** Correct.

9 **Q** So now what does that mean when somebody
10 is doing a pedestrian check or head check?

11 **A** It means that they've stopped someone
12 because they appear to be suspicious and they get
13 out of the car and usually try to speak with them.

14 **Q** Okay. So not a traffic stop?

15 **A** No.

16 **Q** Somebody on foot?

17 **A** Yes.

18 **Q** It could be a number of things, correct?

19 **A** Correct.

20 **Q** They may recognize them and might have
21 warrants out for their arrest?

22 **A** Correct.

23 **Q** But something causes that officer to say,
24 hey, I'm going to make contact with this person and
25 see what's up?

1 **A** Right.

2 **Q** And in this case, he immediately said send
3 me an assist car?

4 **A** Yes.

5 MS. WHIRLEY: Let me ask, do they
6 generally, you mention a pedestrian check, do they
7 generally get out of the car for a pedestrian check?

8 **A** Most of the time, yeah, because they get
9 out of the car and ask them for identification and I
10 run them through the computer to insure they're not
11 wanted.

12 **Q** Knowing whether they are in the car or
13 they are on their portable is generally they're not
14 in their car on their mobile doing checks with
15 pedestrians that are standing at the car?

16 **A** No, ma'am, they get out of the car.

17 MS. WHIRLEY: They get out of the car,
18 okay.

19 You said you know the voices and you can
20 tell when it's distressed, did it appear to you that
21 Officer Wilson was in distress?

22 **A** It appeared to me that there was a
23 possibility of something going on, he was very
24 quick.

25 MS. WHIRLEY: As you mentioned earlier?

1 **A** Yes.

2 MS. WHIRLEY: All right.

3 **A** Okay.

4 **Q** (By Ms. Alizadeh) You have no idea other
5 than the information you testified about, what
6 caused him to make this call?

7 **A** Correct.

8
9 Considering that he only made two calls after he
10 left the sick baby, the first one was talking to
11 officer 25 and 22, and then all of the sudden send
12 me two cars.

13 MS. ALIZADEH: He doesn't say send me two
14 cars.

15 Send me another car?

16 : I actually have
17 a question about that because when he gets to
18 Glenark, you ever notice that you guys, he never
19 says I'm 23 or I'm out when he gets to Glenark? He
20 just kind of says en route, we hear nothing from
21 him.

22 **A** He did call 10-8 from Glenark. He called
23 10-8 from Glenark.

24 MS. WHIRLEY: You talking about when he
25 arrived at Glenark?

1 **A** Yeah --

2 When he arrived, he said
3 he never arrived?

4 **A** He did not, yeah, he did not say they
5 arrived. Sometimes they don't say they arrive on
6 calls.

7 MS. ALIZADEH: If the officer had put any
8 information in the CAD system about that call on
9 Glenark, that's not in these calls?

10 **A** Correct. And they can add information
11 from the car in there. They can also put themselves
12 on the scene and take themself off from the car as
13 well.

14 MS. ALIZADEH: In the CAD system?

15 **A** Correct.

16 **Q** (By Ms. Alizadeh) And other officers can
17 see that?

18 **A** Correct.

19 **Q** And you can see it?

20 **A** Yes.

21 **Q** Okay. But it is not a recorded
22 transmission?

23 **A** No.

24 : . When he did
25 sign off from Glenark, he said 10-8 with a report,

1 what does that mean?

2 **A** They do a CAD narrative in the computer
3 stating that they went to the sick case and
4 ambulance responded and pretty much that's it. We
5 don't really do a whole lot with sick cases.

6 : Okay.

7 **A** It is just to document the case and to say
8 an ambulance did respond.

9 This is him saying I
10 arrived there, I took care of things, I'm out of
11 here.

12 **A** Yes.

13 On a CAD system?

14 **A** Yes.

15 MS. ALIZADEH: Okay.

16 **Q** (By Ms. Alizadeh) Next call is track 370.

17 (Playing the recording.)

18 **Q** Is that ?

19 **A** Yes.

20 **Q** She's calling out to Darren Wilson?

21 **A** Yes.

22 **Q** 371.

23 (Playing the recording.)

24 **Q** So whose 24?

25 **A** That is Officer .

1 **Q** So he's saying he's close by and he's
2 going to go and he's going to be the assist that
3 Darren Wilson requested?

4 **A** Yes.

5 **Q** You heard Darren Wilson say I'm on
6 Canfield and send another car?

7 **A** Yes.

8 **Q** 372.

9 (Playing the recording.)

10 **Q** And whose 25?

11 **A** Officer

12 **Q** Now, you can hear an engine revving in
13 that; is that right?

14 **A** Yes.

15 **Q** But no sirens?

16 **A** Correct.

17 **Q** If they have their siren on when they are
18 in the car and they are calling from their car, can
19 you hear it?

20 **A** Yes.

21 **Q** And so he says I'm going out on Canfield?

22 **A** Correct.

23 **Q** So he's responding as well?

24 **A** Correct.

25 : .

1 that was his sector, that was his area where Officer
2 Wilson was?

3 **A** Yes, ma'am.

4 : So when we say that's
5 their area, are they like canvassing that
6 neighborhood or that's just the area that they are
7 patrolling throughout the whole day?

8 **A** They, that is the area that they are
9 responsible for that particular day. They move
10 around the city. Different day they may be in a
11 different sector. But they can leave that area and
12 go to a different area on an assignment if there's
13 no available officer for that.

14 I know I'm sorry, it is confusing, I
15 wish I could explain it in a better way for you
16 guys.

17 Best way I could explain it would be
18 I will send officers from an adjoining sector if I
19 have no officers available to respond. Meaning
20 sectors that bump each other, that are close, I will
21 put an officer from another sector to go there if
22 someone needs help and there's not an officer
23 available.

24 I was just confused
25 because that was his sector, it seems as though he

1 would have already been in the area, right?

2 **A** Right.

3 : But he's not on none of
4 the calls.

5 **A** He was on Kirk, he was still on Kirk with
6 the elderly patient.

7 Oh, elderly patient, okay,
8 all right.

9 **Q** (By Ms. Alizadeh) Now, Glenark, if you
10 look at that map and that's the call that Darren
11 Wilson was on previous, correct?

12 **A** Uh-huh.

13 **Q** And that is going to be, if east is to the
14 right, that's going to be east of that map, correct?

15 **A** And I'm terrible with directions, but I
16 believe so, yes.

17 **Q** Okay. And so you see that street Canfield
18 that cuts through this?

19 **A** Yes.

20 **Q** If you continue on Canfield it comes out
21 on West Florissant, correct?

22 **A** That is correct.

23 **Q** And Ferguson Market is on West Florissant?

24 **A** Yes.

25 **Q** And in the call when Darren Wilson says,

1 do you guys need help regarding the incident, the
2 stealing up in West Florissant, nobody responds to
3 him and says no, we got it covered, never mind?

4 **A** Correct.

5 **Q** Does he have a say to anybody, hey, I'm
6 going to go to this call at Ferguson Market? Do we
7 know why he was driving down Canfield?

8 **A** Canfield is a complete way for him to go
9 from Glenark to West Florissant in sector one is up
10 near the highway at West Florissant so that would
11 have been a direct route for him to go to his
12 sector.

13 **Q** To return to his sector?

14 **A** Yes, ma'am.

15 **Q** From Glenark he would have to go down
16 Canfield to get to West Florissant to go back to his
17 sector?

18 **A** That would be a quick direct route, yes.

19 **Q** All right.

20 I'm . You
21 call these all sectors, okay?

22 **A** Yes.

23 No one officer, even if
24 they are assigned to that sector, has territorial
25 rights to that sector, do you understand what I'm

1 saying?

2 **A** That is correct.

3 If another officer is
4 responding to that call because the main officer
5 that's assigned there is doing something else, okay,
6 when that officer is cleared that's normally
7 assigned to that sector, he can't come back and then
8 just take over for the officers that are there, you
9 understand what?

10 **A** Generally they do not. Generally the
11 officer that has the report finishes the report, but
12 I do understand what you are saying.

13 : Okay.

14 **Q** (By Ms. Alizadeh) So if Officer Wilson is
15 leaving a call and now he's going back in service
16 and he hasn't been assigned anything, and he's
17 headed back to his sector say, just assuming that.
18 Is he allowed to do something in another sector?

19 **A** Yes.

20 **Q** So it is not like I can't stop these two
21 individuals because this isn't my sector?

22 **A** Right.

23 **Q** (By Ms. Alizadeh) Any other question.

24 373.

25 (Playing the recording.)

1 **Q** Who is 22?

2 **A** Officer .

3 **Q** And we hear him and his engine is revving;
4 is that right?

5 **A** Yes.

6 **Q** And what does that mean, 22 out?

7 **A** That means he's on the scene. I have to
8 interject, you don't hear the siren because I can't
9 hear them if they have their siren on, so that's why
10 you're not hearing the siren in the recordings
11 because that's all you would have.

12 **Q** The officer intentionally might not play
13 their siren when they trying to transmit?

14 **A** Correct.

15 **Q** 347, 374.

16 (Playing the recording.)

17 **Q** You recognize whose voice that is?

18 **A** Officer

19 **Q** And then track 375.

20 (Playing the recording.)

21 **Q** I'm going to play that again, you tell me
22 if you hear anything in this call or is this a call,
23 does this sound like somebody --

24 **A** That is something come from a walkie, a
25 mobile or a handheld.

1 (Playing the recording.)

2 Q You can't make out what's being said?

3 A No.

4 Q And you can't tell whose calling?

5 A No.

6 Q All you can tell is it came from a mobile,
7 the walkie-talkie, which is a portable?

8 A Yes.

9 Q 376.

10 (Playing the recording.)

11 Q That's you?

12 A That's me.

13 Q What are you saying?

14 A I can't understand what was coming from
15 the portable, so I'm checking their status because I
16 know somebody called out, but I can't.

17 Q So whoever made that staticky call, you
18 are calling out and saying 10-4 on Canfield, does
19 that mean are you okay?

20 A Yes, yes.

21 MS. WHIRLEY: Are you, 10-4 is like
22 acknowledgment, correct? What does 10-4 mean?

23 A 10-4 can be acknowledgment, but it also,
24 are you okay, we use it are you okay, is everything
25 good.

1 MS. WHIRLEY: Okay. So when you say 10-4
2 on Canfield.

3 A I'm asking if everything is okay.

4 MS. WHIRLEY: That's not a response that
5 somebody said they were out on Canfield?

6 A No, ma'am, no.

7 Q (By Ms. Alizadeh) Now at this point are
8 you concerned about what's happening and going on?

9 A Yes.

10 Q Why?

11 A Um, because I know 25 was looking for
12 another one, so I know something transpired and I
13 hear static and I'm not, they're not communicating
14 with me. So the years I've been there and I've
15 known a lot of these men since they were small, I
16 say small, to me they're like my children almost.
17 I've known them since they were rookies. I'm
18 concerned about their well being because it is odd
19 for them not to talk to me.

20 Q Okay. The two officers that you hear
21 saying that they're going to Canfield and you can
22 hear their engines revving, does that mean anything
23 to you?

24 A Yes.

25 Q What does that mean?

1 **A** They picked up the same that I did, that
2 he requested an assist car too quickly and there was
3 a problem.

4 **Q** So it sounds like they're speeding or
5 racing to that area?

6 **A** Yes.

7 **Q** 377.

8 (Playing the recording.)

9 **Q** Who is Frank 25?

10 **A** Officer .

11 **Q** Did you tell anything about his voice in
12 that call?

13 **A** Yes, he's very distressed.

14 **Q** And he says send 23 to Coppercreek Court,
15 and that would be Sergeant ?

16 **A** Yes.

17 **Q** For Officer , when he request a
18 supervisor to the scene, what does that tell you?

19 **A** That something occurred.

20 **Q** Something out of the ordinary?

21 **A** Correct.

22 **Q** Something more serious than pedestrian
23 check?

24 **A** Correct.

25 **Q** Or even arresting a subject for a warrant?

1 **A** Correct.

2 **Q** And then you hear Sergeant say, go
3 ahead, and you hear the dispatcher say are you able
4 to respond to Canfield and Coppercreek Court for 25?

5 **A** Correct.

6 **Q** Is that for Officer 25 or does that mean
7 is 25 a code for something?

8 **A** No, for officer 25, for Officer .

9 MS. WHIRLEY: Now, is there anyway to tell
10 at this point at Track 377 whether or not the
11 shooting has already occurred?

12 **A** No, ma'am.

13 MS. WHIRLEY: There's no way to tell that?

14 **A** No.

15 MS. WHIRLEY: Nobody ever said shots
16 fired?

17 **A** No.

18 MS. WHIRLEY: Nobody has ever said send a
19 supervisor because we have an officer in need of
20 assistance?

21 **A** No.

22 MS. WHIRLEY: So the shooting could have
23 already occurred by this time?

24 **A** Yes, ma'am.

25 MS. WHIRLEY: When everybody is acting so

1 upset?

2 **A** Yes.

3 MS. WHIRLEY: Okay.

4 **Q** (By Ms. Alizadeh) Track 378.

5 (Playing the recording.)

6 **Q** So you recognize which officer that is?

7 **A** Yes.

8 **Q** Who is that?

9 **A** Officer .

10 **Q** Does he sound distressed still?

11 **A** Yes.

12 **Q** Now, at this point are you and in
13 communication with each other?

14 **A** Correct.

15 **Q** What was going on between the two of you?

16 **A** Uh, I told something just occurred,
17 both of our years of dispatching we knew it was
18 something very serious. Something that entailed a
19 detective processing the scene.

20 **Q** So now Officer is asking for
21 detectives to respond to the scene?

22 **A** Yes.

23 **Q** And that's something more than a
24 pedestrian check?

25 **A** Correct.

1 Q Something more than we've arrested
2 somebody with warrants?

3 **A** Correct.

4 MS. WHIRLEY: But for the detectives to be
5 coming to process the scene would be an indication
6 that the shooting has likely occurred?

7 **A** Yes, ma'am.

8 . Can you
9 give me the time on the track 374?

10 Q 374, let me get this out of the way here.

11 It is 12:22:18.

12 : And then the time on 378?

13 Q (By Ms. Alizadeh) 378 is 12:23:11?

14 MS. WHIRLEY: Would you give me the time
15 on 369?

16 MS. ALIZADEH: 369 is 12:21:05.

17 Anybody else?

18 Again, keep in mind that does not actually
19 mean what time it was, but gives you a perspective
20 on the time in between these calls.

21 Anybody else.

22 Now we are on call 379, track 379.

23 (Playing the recording.)

24 Q (By Ms. Alizadeh) That's you?

25 **A** Yes.

1 **Q** So Frank 23 is Sergeant ?

2 **A** Yes.

3 **Q** What is this, what are you saying to him
4 in this call?

5 **A** He is still on the call on Kirk with the
6 elderly female and I'm telling him I'm unable to get
7 ahold of anyone at the agency. He has requested and
8 I've also tried United Way and they are not
9 available.

10 **Q** So prior to these recordings that we are
11 listening to, he had called into dispatch and asked
12 you to try to get ahold of somebody with an agency
13 that maybe could assist this woman?

14 **A** Yes.

15 **Q** So this was in response to Sergeant
16 inquiring earlier about the elderly woman?

17 **A** Yes.

18 **Q** Not related to Canfield apartments?

19 **A** Correct, not related.

20 (Playing the recording.)

21 **Q** And so now I wrote 24 there, that's not 24
22 is it?

23 **A** Right, it is 23.

24 **Q** Can you all change that? That was Officer
25 23, Sergeant ; is that right?

1 **A** Yes.

2 **Q** And so he's saying he's finishing up on
3 the call on Kirk?

4 **A** Yes.

5 **Q** He says 24 remains, what does that mean?

6 **A** That means 24 is going to stay there with
7 her.

8 **Q** And that would be ?

9 **A** Yes.

10 **Q** And so then he's wearing clarifications of
11 where he is pond to.

12 . Was
13 Officer the first officer on the scene after
14 Wilson and saw the two guys.

15 **A** I believe so, I believe so.

16 : . So this is
17 telling us, this call is telling us Officer was
18 there, Sergeant was there, as well as
19 who is responsible for secretary four that day?

20 **A** Correct, they were both on Kirk.

21 **Q** (By Ms. Alizadeh) Both on Kirk?

22 **A** Yes, ma'am.

23 **Q** Now, let me ask you this. It is not
24 recorded and maybe you don't remember, but did
25 Officer request a supervisor on that call on

1 Kirk?

2 **A** I believe so.

3 **Q** Is it typical for a supervisor to respond
4 to a call or assist?

5 **A** Usually a supervisor will respond if there
6 is no other unit available, but also a supervisor
7 will respond if an officer is having a difficult
8 time communicating with someone and he is our
9 officer.

10 **Q** Officer is

11 **A** That is correct.

12 **Q** Anybody else? So we're going to call 381.
13 (Playing the recording.)

14 **Q** Now, that was speaking, correct?

15 **A** Yes.

16 **Q** Who is she talking to?

17 **A** She's talking to the officers, letting
18 them know that EMS was en route.

19 **Q** The officers on Canfield?

20 **A** Yes.

21 **Q** What is EMS?

22 **A** Emergency medical.

23 **Q** And so he's indicating medical personnel's
24 responded?

25 **A** Yes.

1 **Q** All right. Did somebody call for that?

2 **A** I believe the officers asked for that. I
3 think they called us on the phone and asked for that
4 but there was also a firetruck that was cutting
5 through Canfield back to West Florissant that was
6 assisting the child with difficulty breathing that
7 automatically stopped. You can hear the fire
8 channel when you are in dispatch, correct?

9 **A** Correct.

10 **Q** Your recollection is that there was a
11 firetruck that had been leaving that Glenark call?

12 **A** Yes.

13 **Q** Was like right there when probably the
14 first responding, I think you told me you thought
15 that was the first emergency vehicle on the scene?

16 **A** Correct.

17 **Q** Besides the --

18 **A** Officers.

19 **Q** -- officers?

20 : I have a question,

21 At this particular point then are we
22 still, I'm kind of confused about this channel, that
23 channel. Are we on the Ferguson channel, or we on
24 the RIOT A channel or what?

25 **A** I can monitor the fire department channel,

1 I have that ability from my console. And I could
2 hear them, the traffic coming out on that channel as
3 well as the traffic coming out on that main channel.
4 The communication will come from both channels, just
5 one is louder than the other. And that's how I can
6 differentiate between which one is which.

7 : Okay.

8 This we are hearing is on
9 the dispatch channel?

10 **A** Correct.

11 MS. ALIZADEH: No one else?

12 **Q** (By Ms. Alizadeh) Track 382.

13 (Playing the recording.)

14 **Q** And that's you?

15 **A** Yes.

16 **Q** That's Officer saying he's arrived at
17 the scene?

18 **A** Yes.

19 **Q** And you call out he's there at 12:05?

20 **A** Yes.

21 **Q** So at the time of this call on the tracks
22 we've gotten on the disc say 12:25:40. 12 p.m.,
23 12:25 p.m. and 40 seconds. You put him out there at
24 12:04?

25 **A** Yes, ma'am.

1 **Q** And then 383.

2 (Playing the recording.)

3 **Q** That's Officer calling out?

4 **A** Yes.

5 **Q** 385.

6 (Playing the recording.)

7 **Q** So who's Officer 27?

8 **A** .

9 **Q** You recognize him?

10 **A** Yes.

11 **Q** He was the officer, he says I'm leaving
12 the station. He had been conveying a prisoner; is
13 that right?

14 **A** Yes.

15 **Q** So he responded saying I'm going to go out
16 to the scene as well?

17 **A** Yes.

18 **Q** 386.

19 (Playing the recording.)

20 **Q** What's that about?

21 **A** We have a channel that we call
22 point-to-point that we can communicate with all
23 agencies in the area, and we call them
24 point-to-point and we get immediate assistance from
25 that other agency. St. Louis County is the closest

1 big jurisdiction that is near us, so we would always
2 call them immediately with something.

3 Q And that's voice?

4 A No.

5 Q Is she on the point-to-point channel?

6 A Yes, ma'am.

7 Q So that's different than the dispatch
8 channel?

9 A That's correct.

10 Q You can hear her calling out on the
11 point-to-point channel?

12 A Yes.

13 Q 387.

14 (Playing the recording.)

15 Q 388.

16 (Playing the recording.)

17 Q 389.

18 (Playing the recording.)

19 Q Is that the major that you already heard
20 from today?

21 A Yes.

22 Q And he's with Country Club Hills?

23 A Yes.

24 (Playing the recording.)

25 Q Can you understand what they're saying in

1 that call?

2 **A** He's inquiring if we need additional units
3 down on Coppercreek. We told him affirmative we do
4 and he advised that he would be en route.

5 **Q** 391.

6 (Playing the recording.)

7 **Q** Is that ?

8 **A** Yes.

9 **Q** Why is she calling out Ferguson?

10 **A** She's answering point-to-point.

11 Unfortunately, our system does not tape the
12 receiving information that we get on point-to-point,
13 it only records outgoing information.

14 **Q** Okay. 392.

15 (Playing the recording.)

16 MS. ALIZADEH: Yes.

17 : Can I listen to track 390
18 again because it says at the very end it is
19 unintelligible, but to me it sounds like he's saying
20 what do you got there.

21 MS. ALIZADEH: Sure, I'll play track 390
22 again.

23 (Playing the recording.)

24 **Q** (By Ms. Alizadeh) 393.

25 (Playing the recording.)

1 **Q** Now was that 24 or 25?

2 **A** 25.

3 **Q** So I wrote that wrong?

4 **A** (Nods head.)

5 **Q** Track 394.

6 (Playing the recording.)

7 MS. ALIZADEH: So FYI people, the rest of
8 these calls are obviously after the incident. I did
9 go through these calls with them for a bit longer.
10 Is there interest in hearing them? Let me ask you
11 this, do you ever hear Officer Wilson call out on
12 the radio again?

13 **A** No.

14 MS. ALIZADEH: Is there anybody who wants
15 to listening to calls or you interested in whether
16 there is a call for something specific? Anyone?

17 We can keep playing the calls. It is a
18 lot of the aftermath and the crowd control and the
19 need for additional units and so forth.

20 : I just have a question.

21 At what point do you understand what
22 happened or what the situation is?

23 **A** I understood that there was a problem. I
24 never fully knew what transpired until my captain
25 actually called me on the phone and said this is

1 what happened. He wanted to make sure we knew.

2 : Okay.

3 **A** We never were told. We just knew there
4 was a serious problem.

5 MS. WHIRLEY: This is Sheila Whirley, did
6 you see Darren Wilson come back to the station after
7 this call?

8 **A** Not directly after the call, no, ma'am.

9 MS. WHIRLEY: When did you see him again?

10 **A** I saw him a couple hours later in the
11 detective room.

12 MS. WHIRLEY: What was he doing?

13 **A** He was in there with a detective waiting
14 for St. Louis County.

15 MS. WHIRLEY: Was he fully dressed at that
16 time?

17 **A** He was in his uniform, yes, ma'am.

18 MS. WHIRLEY: And did you talk to him at
19 all?

20 **A** No.

21 MS. WHIRLEY: Did you know that he was
22 involved in a shooting?

23 **A** At that point, yes, ma'am, I did know.

24 MS. WHIRLEY: Did you say anything to him
25 like I'm sorry to hear about this?

1 **A** No.

2 MS. WHIRLEY: There was no communication
3 between to two of you?

4 **A** No, I actually had just walked past the
5 door.

6 MS. WHIRLEY: Did you observe his
7 demeanor?

8 **A** He was very quiet, seemed very quiet.

9 MS. WHIRLEY: Because you know him?

10 **A** Yes.

11 MS. WHIRLEY: So when you say quiet, was
12 he, you know, tearful or anything.

13 **A** Very solemn.

14 MS. WHIRLEY: Solemn, you would describe
15 it?

16 **A** Solemn.

17 MS. WHIRLEY: According to the transcript
18 that we're looking at, seems like the last time you
19 heard from Frank 21, which was Officer Wilson, is
20 when he said put me on Canfield with two and send
21 another car.

22 **A** Yes, ma'am.

23 MS. WHIRLEY: You never heard anything
24 else from him?

25 **A** No.

1 MS. WHIRLEY: Okay.

2 Q (By Ms. Alizadeh) But there is another
3 call that you actually responded to because you
4 couldn't tell what was being said or who was
5 calling; is that right?

6 A Yes.

7 MS. ALIZADEH: Anyone else?

8 That
9 would be the static call?

10 A Yes.

11 : If that call is on a
12 different channel, would you be able to hear that
13 static as a dispatcher.

14 A When you say different channel, are you
15 talking about a channel on their portable or a
16 channel --

17 Channel on the portable.

18 A No, I do not have the same access to their
19 channels that on my --

20 --

21 MS. ALIZADEH: No, you're

22 : I'm trying to blame
23 everything on . I hear so much it gets
24 in my mind.

25 Track 369, that's when the call, I'm on

1 Canfield, was it 12:21:05, that's not real time, but
2 it is a time, correct?

3 MS. ALIZADEH: Yes. You want me to double
4 check the time?

5 : Well, no, I wrote it
6 down. I know that's what was on the track.

7 And then on 378, that's if we have a
8 detective on duty respond as well. So that's pretty
9 much, we can say that's pretty much after everything
10 is done as far as the shooting that was at 12:23:11,
11 which was like two seconds or is that two minutes.

12 MS. WHIRLEY: Two minutes.

13 : This whole thing pretty
14 much was over in two minutes, that's a fairly short
15 period of time. So, I mean, we are hearing people
16 talk about six minutes and two minutes from the time
17 he got out of the car until --

18 : . You take the
19 time of 377, which is 12:22, assuming when he's
20 asking for the supervisor when he was already at the
21 scene, it is one minute.

22 Two minutes or less.

23 MS. ALIZADEH: I will assume then you
24 don't want me to play the rest of the calls? If
25 need be, you can listen to them. You know, don't

1 necessarily trust the transcript because obviously
2 I've made some mistakes and I didn't actually, we
3 didn't finish the transcript because I was, I knew I
4 was keeping you guys waiting this morning.

5 If there is a need to listen to additional
6 calls, you let me know because I'll probably want
7 her to verify whose talking and what's being said
8 because I can't trust myself, I don't know whose
9 voice is who, okay.

10 MS. WHIRLEY: I have one other question.
11 When we talked about this orange alert button, you
12 talked about it too. If shots were fired or officer
13 discharging his weapon in some way like that, would
14 you expect that alert button to be enabled?

15 **A** If he had a chance to, yes.

16 MS. WHIRLEY: Okay.

17 **A** But that is usually, I mean, their walkie
18 is attached on their hip and it's pulled over. So
19 they have to reach down on their hip to push that
20 button.

21 MS. WHIRLEY: Okay. And then there's an
22 alert button inside the car also?

23 **A** Yes, but it is on the radio itself.

24 MS. WHIRLEY: Is that button bigger,
25 larger than the one --

1 **A** I do not know what the button looks like
2 there.

3 MS. WHIRLEY: Okay, all right, thank you.

4 MS. ALIZADEH: Okay.

5 (End of the testimony of)

6 MS. ALIZADEH: Good afternoon. This is
7 Kathi Alizadeh, today is November 10th, it is
8 1:44 p.m. Sheila Whirley is here, all 12 grand
9 jurors are here, and , the court reporter, is
10 here.

11 We just finished with our lunch break and
12 so we're going to resume for the afternoon and so
13 what we're going to start with right now, last week
14 there was a request for me to try to get some clips
15 of a press conference or press conferences that
16 Chief gave or made after the incident in
17 Ferguson.

18 So I did find online several clips or
19 press conferences. And I'm not 100 percent sure
20 which one you might be referring to, so I know that
21 there was a question of whether or not he talked
22 about whether the officer knew or what he might have
23 known.

24 So I have two, I have two clips where that
25 might be what he's talking about.

1 If you will bear with me, I will go ahead
2 and play those. I will play one clip first and that
3 might be the one you are talking about and you might
4 say oh, good, that's it, we don't need to do the
5 other one. But if not, then we'll play the other
6 one as well.

7 I'm going to put a disc in here and see I
8 have no idea what disc it is. So let me put this
9 disc in here. Then I'll mark it.

10 I'm going to mark this as Grand Jury
11 Exhibit 91.

12 (Grand Jury Exhibit Number 91
13 marked for identification.)

14 MS. ALIZADEH: Because I got these off of
15 the internet, I cannot say for sure when this
16 conference was because it doesn't really have a date
17 on it. We'll just see if this is what you might be
18 interested in.

19 Go ahead and pause the recording.

20 , pause the audio recording and
21 if you will try to dictate statements made at
22 the press conference, not dictate, transcribe.

23 (Playing of the conference recording and I
24 am transcribing.)

25 CHIEF : First of all, thanks for

1 everybody for coming out. Sorry about being late, I
2 know that the timeline hasn't really played out like
3 I expected it would. But as some of you are aware,
4 I've had a lot of Sunshine request, Sunshine Law
5 request for information and documents about a
6 variety of things, some of which is not available to
7 me.

8 But anyway, I'm here to talk about two
9 things. First of all, the name of the officer
10 involved in the shooting and then I've had a lot of
11 Sunshine request for information I'm going to be
12 releasing information about a robbery that occurred
13 on August 9th immediately preceding the altercation
14 and shooting death of Michael Brown.

15 It's important to know that I have made
16 contact with someone who is in contact with
17 Officer Brown's (sic) family making them aware of
18 this information being released.

19 What we are making available today is the
20 dispatch records, the video footage of a robbery, a
21 strong armed robbery, a use of force that occurred
22 at a local convenience mart.

23 I cannot discuss the investigation
24 about the attempted apprehension of the suspect and
25 strong armed robbery, that goes to the County

1 Prosecutor's office. I won't be taking any
2 questions today right now, but I won't be taking any
3 questions here. I want to get this information to
4 you, everybody digest it and then later on sometime
5 in the afternoon we can get together again and then
6 I'll take questions.

7 So I just want to give you a little
8 timeline of what happened. On August 9th from
9 11:48 till noon the officer involved in the shooting
10 was on a sick call on Glenark. There was an
11 ambulance present.

12 At 11:51 there was a 911 call from a
13 convenience store nearby, not this one. At
14 11:52 dispatch gave a description of a robbery
15 suspect over the radio. A different officer arrived
16 at the store where the strong armed robbery
17 occurred.

18 A further description with more
19 detail was given over the radio and said that the
20 officer was walking toward -- the suspect was
21 walking toward QuikTrip.

22 Our officer left the sick call, he
23 encountered the, sorry. At 12:01 p.m., our officer
24 encountered Michael Brown on Canfield Drive. At
25 12:04 a second officer arrived on the scene

1 immediately following the shooting. And 12:05 a
2 supervisor was dispatched to the scene and
3 subsequent officers arrived.

4 There has been some questions about
5 the calling of an ambulance, the ambulance that was
6 at the sick case on Glenark was coming by
7 immediately following the shooting and they did
8 respond to assess Michael Brown.

9 So I'm going to have some police
10 officers going to be handing out packets that have
11 all the information that was requested on the
12 Sunshine request concerning the robbery. We're
13 going to give those packets, first of all, to those
14 agencies that had made the Sunshine request and then
15 anybody else who wants them, I think we have enough
16 to give out. We've got quite a few.

17 Sorry. The officer that was involved
18 in the shooting of Michael Brown was Darren Wilson.
19 He's been a police officer for six years, has had no
20 disciplinary action taken against him.

21 He was treated for injuries which
22 occurred on Saturday. Again, I won't be taking any
23 questions at this time, but the packets will be
24 handed out by my officers. The name is Darren,
25 D-A-R-R-E-N, Wilson, W-I-L-S-O-N. And thank you and

1 I will see you again soon.

2 (End of the recording.)

3 MS. ALIZADEH: I just finished playing
4 Grand Jury Exhibit Number 91. I'm now going to play
5 another disc, which is Grand Jury Exhibit 92.

6 (Grand Jury Exhibit Number 92
7 marked for identification.)

8 (Playing of the recording of the press
9 conference and the following is a transcription:)

10 CHIEF Okay, thank you. All
11 right. So I gave you a whole bunch of, first of
12 all, thank you for coming out here. We wanted to do
13 this in this environment so we can hear each other
14 and get whatever information we have left out.

15 So I gave you a lot of information this
16 morning. I wanted to give you a chance to let you
17 go over it. And if we've had some questions that
18 have been coming into our Twitter and so forth, so
19 I'm going to address some of those.

20 A question about the timing of the release
21 of the tape. So we have had this tape for a while
22 and you know we had to diligently review the
23 information that was in the tape, determine if there
24 was any other reason to keep it, anybody else to be
25 charged in the crime, we had determined that that

1 was not going to be the case.

2 We got a lot of Freedom of Information
3 request for this tape and at some point it was just
4 determined we had to release it. We didn't have
5 good cause or any other reason to not release it.
6 And so decided at the same time it wouldn't be
7 prudent to release that information which, you know,
8 could be a little bit, I don't know.

9 We needed to release that at the same time
10 we would release the name of the officer who was
11 involved in the shooting. So that we could just
12 keep open and give you all the information we had.
13 We pretty much have given you every bit of
14 information that we have now. I don't think there
15 is anything else that we have to give out.

16 Regarding the second suspect who was in
17 the store and the tape, Dorian Johnson, we
18 determined that he did not commit a crime and was
19 not complicit in the crime.

20 And clarifying one of the other questions
21 that came quite a bit was on the role of two
22 officers. Some were thinking it was the same
23 officer that handled the robbery as was involved in
24 the shooting, that is not the case. There were two
25 separate officers.

1 This robbery does not relate to the
2 initial contact between the officer and Mike Brown.
3 Having said that, I will take a few questions.

4 QUESTION: Do you have any information to
5 justify the incident of force, particularly outside
6 department?

7 CHIEF : Okay. I understand that
8 and these are questions that have to go to the
9 investigation and I don't think anything from the
10 investigation is going to be released until it is
11 complete.

12 QUESTION: The officer who fired the shots
13 whether he knew Mr. Brown was involved in this
14 incident, whether he knew that Mr. Brown was
15 involved?

16 CHIEF : I can only go up to a
17 certain point and then it is unreleased information
18 in the investigation. And that certain point is the
19 initial contact between the officer and Mr. Brown
20 was not related to the robbery.

21 QUESTION: (Inaudible) Can you as a
22 matter of protocol describing conditions under which
23 a weapon was discharged?

24 CHIEF : There's a use of force
25 report that we have, but the whole, all the reports

1 are going to be written on this are going to be
2 written by the St. Louis County Police Department.
3 They had total control of the investigation.

4 QUESTION: (Inaudible.)

5 CHIEF : I don't have it in my
6 possession. Everything belongs to the County.

7 QUESTION: (Inaudible.)

8 CHIEF : Um, I have to take a look
9 at it. Just take a look at the tape.

10 QUESTION: (Inaudible.)

11 CHIEF : Okay. All I did was
12 release the videotape to you because I had to. I've
13 been sitting on it. Too many people put in a
14 request for that thing so I had to release that tape
15 to you.

16 QUESTION: (Inaudible.)

17 CHIEF I understand that, but
18 considering if I just release that tape and didn't
19 release the officer's name, there would be similar
20 questions.

21 QUESTION: Michael Brown's family was the
22 media's way the police chief has chosen to
23 disseminate piecemeal information in a manner
24 intended to assassinate the character of Michael
25 Brown. What is your response to that?

1 CHIEF : My response to that is
2 first, my heart goes out to the family. I can't
3 imagine what they're going through. We have given
4 you everything that we have now and everything that
5 we can give you. From our police department you
6 have everything we've gotten. There is nothing else
7 to give you.

8 QUESTION: (Inaudible.)

9 CHIEF : No, I had meetings
10 scheduled with the family yesterday morning,
11 representatives from the family came, the family did
12 not, they haven't had a chance to completely consult
13 with their attorney.

14 QUESTION: We asked you guys questions
15 about the way you handled this case happened this
16 case why you are releasing the information you said
17 was under investigation, you just put more citizens
18 in trouble by releasing that video. Now they have
19 to be protected because their store and their
20 business have been placed in the media. You say you
21 are concerned about safety, but you talking about
22 your officer?

23 CHIEF I'm absolutely concerned
24 about the safety of my community.

25 QUESTION: Can you say whether he worked

1 at another police department in this area before he
2 came here?

3 CHIEF Yes, he was A police
4 officer for six years. Two of those years were with
5 Jennings and four years with us. I can't go into
6 the security of that officer.

7 QUESTION: Can you talk about (inaudible)
8 The officer involved in the shooting was he aware of
9 the robbery call?

10 CHIEF : I don't know. I don't
11 know what came out in his interview. I know his
12 initial contact was not related to the robbery, it
13 was related to blocking the road.

14 QUESTION: So you're telling us that when
15 the officer stopped Michael Brown the first time, he
16 was not aware that Brown was a suspect in a robbery?

17 CHIEF : No, he was just coming off
18 of a sick case, which is why the ambulance was there
19 so quickly, but yeah, okay.

20 QUESTION: You're saying, what are you
21 saying, Chief, did he know that he was aspect in the
22 a case or did he not know?

23 CHIEF : No, he didn't. He was --
24 had nothing to do with the stop.

25 QUESTION: At this point why would he stop

1 Michael Brown?

2 CHIEF Because they were walking
3 down the middle of the street blocking traffic, that
4 was it.

5 QUESTION: Did you find evidence of the
6 stolen merchandise on the body?

7 CHIEF : Yes.

8 QUESTION: Why did you put more citizens
9 in harms way?

10 CHIEF : Are there any other new
11 questions?

12 QUESTION: (Inaudible)

13 CHIEF : I was asked that, I'm
14 going to consult with my city attorney before we do
15 that and make sure that's all part, I just got that
16 question.

17 QUESTION: (Inaudible.)

18 CHIEF : They're doing a good job.
19 They have actually been here with us since the very
20 beginning of this thing and I have every confidence
21 in St. Louis County Police Department is still here.

22 QUESTION: (Inaudible) The governor to
23 bring in the State Highway Patrol do you agree?

24 CHIEF : That's political and I'm
25 not going to get involved in that. What I will say

1 I know the officer in charge and have known him for
2 years and have every confidence in him for
3 information confidence in him.

4 QUESTION: (Inaudible.) Now the state
5 police take over --

6 CHIEF : 28.

7 QUESTION: (Inaudible.)

8 CHIEF : Yes.

9 QUESTION: There some report --

10 CHIEF : The side of his face was
11 swollen. This has already been released by the
12 County Police Department. What I tell you about the
13 incident, the shooting is what's been released by
14 the St. Louis County Police Department. So
15 everything I say to you I can't say anything other
16 than that.

17 QUESTION: Tell us a little bit more about
18 him, what kind of details did he work, kind of how
19 would you describe his demeanor, did you ever have
20 any issues with him, any termination action?

21 CHIEF He had no complaints, he
22 was a gentle, quiet man, he was a safest officer,
23 yes.

24 QUESTION: (Inaudible.)

25 CHIEF : Yes, we do.

1 QUESTION: Could you describe him as best
2 you can?

3 CHIEF : He was a gentleman, a
4 quiet officer, and he has been an excellent officer
5 for the police department.

6 QUESTION: How has he been affected by
7 this?

8 CHIEF It is devastating,
9 absolutely devastating. He never intended for any
10 of this to happen.

11 QUESTION: The officer, if he did not
12 feel, if the murderer and the robbery did not come
13 together, why did the video come out and the robbery
14 is not related?

15 CHIEF : Because the press asked
16 for it.

17 QUESTION: (Inaudible)

18 CHIEF Pardon me? Does anybody
19 remember. I don't remember, but I will find out for
20 you. One more question.

21 QUESTION: (Inaudible.)

22 CHIEF : Try it again?

23 QUESTION: Earlier in the day you said the
24 officer was responding because of a description of a
25 robbery suspect that had gone out and that

1 description matched Michael Brown. Now you are
2 saying he only shot Michael Brown because he was
3 blocking traffic being?

4 CHIEF : No, no, no, I don't think
5 he went there for a robbery call, he was in the area
6 following the robbery because he was on a sick case.

7 QUESTION: If the robbery had nothing to
8 do with the stop, then why did you release the video
9 of the robbery, what's the explanation?

10 CHIEF Because you asked for it,
11 you asked for it. I held onto it for as long as I
12 could. Yes.

13 QUESTION: (Inaudible.)

14 CHIEF : Captain and I just
15 spoke about our communication breakdown and we -- I
16 talked to Chief about this, we talked to the
17 command post out there, but I did not personally
18 call him, I should have done that. I'm still in
19 County being in charge mode.
20 Thank you very much.

21 (End of the playing of the press
22 conference.)

23 MS. ALIZADEH: Is that the interview you
24 were talking about? The only other one I have was
25 really pretty long.

1 : That's it.

2 : The one question the
3 reporter asked about why did he earlier say that the
4 officer didn't know, that was kind of --

5 MS. ALIZADEH: I haven't found a clip
6 where he actually says that.

7 : He does say that though.

8 MS. ALIZADEH: I don't know if he says in
9 the audio or a press conference, I'm not really
10 sure. I wasn't able to find that statement, but he
11 does say something about you earlier said this and
12 then officer Chief responds.

13 If anybody is aware of any other clip. I
14 know that typically we tell jurors not to do any
15 research on the case, but if there is a clip that
16 you all think that you want the rest of the jurors
17 to view, if you can just bring it to my attention, I
18 can give you my email address and you can email me
19 the link or something and I'll make sure I get it
20 copied so we can show it to everybody. But from
21 what I understand, this is the clip you were talking
22 about?

23 Okay. So I just played Grand Jury Exhibit
24 92, which is another recorded audio, video clip of a
25 press conference that was made by Chief and

1 I'm not sure when it was made. So, obviously, after
2 the shooting, but I'm not sure when in time it was
3 made. So at this time I am going to call Chief
4 . I talked to y'all about I thought it would
5 be prudent if we're going to have clips played of
6 him making statements, we would call him as a
7 witness and have him talk about that and answer any
8 of your questions in relation to that.

9
10 of lawful age, having been first duly sworn to
11 testify the truth, the whole truth, and
12 nothing but the truth in the case aforesaid,
13 deposes and says in reply to oral
14 interrogatories, propounded as follows, to-wit:

EXAMINATION

BY MS. ALIZADEH:

17 Q , could you state your name
18 and spell it for the court reporter, please?

19 A

20

21 Q And, sir, where are you employed?

22 A Ferguson Police Department.

23 Q And what do you do for the City of
24 Ferguson?

25 A I'm the chief of police.

1 **Q** How long have you been the chief of the
2 City of Ferguson?

3 **A** About four years and eight months.

4 **Q** And are you a commissioned officer?

5 **A** I am.

6 **Q** So how long have you been a police
7 officer?

8 **A** A little over 35 years.

9 **Q** Prior to your employment as the chief of
10 the City of Ferguson, did you work for the City of
11 Ferguson in any other capacity?

12 **A** I did not.

13 **Q** So where did you work, what were you doing
14 prior to coming to the City of Ferguson chief of
15 police?

16 **A** I was s employed by the St. Louis County
17 Police Department.

18 **Q** All right. And so have you ever been
19 employed by any other police departments besides St.
20 Louis County?

21 **A** No, I have not.

22 **Q** So after going to the police academy, your
23 career was with the county and chief of police of
24 Ferguson?

25 **A** Yes.

1 **Q** What did you do as a police officer for
2 the St. Louis County?

3 **A** I started out in patrol, then I did four
4 years as an undercover detective, narcotics. I
5 spent five years an operator on the SWAT team.
6 About a year as a burglary sergeant, another three
7 years as a sergeant in the SWAT team.

8 Finished my career as lieutenant and
9 then captain of the St. Louis County
10 Multijurisdictional Drug Task Force.

11 **Q** All right. And when you left the county,
12 did you retire from the county?

13 **A** I did.

14 **Q** And from there did you go directly to
15 being the chief at Ferguson or did you have a
16 hiatus?

17 **A** I took a weekend off, it was very
18 relaxing.

19 **Q** So you had been, do you recall the date or
20 the month that you started as the chief in Ferguson?

21 **A** It was March 8th, 2010.

22 **Q** And have you been the chief continuously
23 since that date?

24 **A** Yes, ma'am.

25 **Q** And as the chief of police, you have

1 police officers that are under your command; is that
2 right?

3 **A** Yes, ma'am.

4 **Q** Can you describe the hierarchy of command.
5 So you are the senior law enforcement official,
6 correct?

7 **A** That's correct.

8 **Q** Who would be directly under you?

9 **A** Now there's a new position of assistant
10 chief. I have captains for patrol and criminal
11 investigation, and then I have lieutenants for
12 patrol, and sergeants for patrol and for
13 communications and auxillary services. I also have
14 correction officers and dispatch center.

15 **Q** And we've heard from your communication
16 officer and one of your dispatchers, Ferguson
17 dispatches for themselves, correct?

18 **A** They do.

19 **Q** They also, you also answer your own 911
20 calls?

21 **A** Yes, ma'am.

22 **Q** Um, so as the chief of police, you
23 mentioned that there is an assistant chief of
24 police, is that what you said?

25 **A** Yes.

1 **Q** You said it was a recently created
2 position, was that position, had that position been
3 created by March 9th, I'm sorry, August 9th of this
4 year?

5 **A** Yes, it was August 1st, I believe.

6 **Q** Okay. And who is the assistant chief?

7 **A** .

8 **Q** And then you have a sergeant under your
9 command named Sergeant , correct?

10 **A** I do, yes, ma'am.

11 **Q** So were you working on August 9th of this
12 year?

13 **A** No, I wasn't.

14 **Q** Do you recall where you were when you
15 first learned that there had been an officer
16 involved shooting?

17 **A** Yes, I, it was driving westbound on
18 Interstate 70 to have lunch with .

19 **Q** So this was on a Saturday, correct?

20 **A** It was.

21 **Q** And you were not working that day. So how
22 is it that you learned about the officer involved
23 shooting?

24 **A** I got a call and a text from Sergeant
25 . I was driving at the time so I waited until I

1 got off the highway and checked that briefly.

2 Alerted me that there was a fatal officer involved
3 shooting, so I called him.

4 Q So the message was from ?

5 A It was.

6 Q And did you call then?

7 A I did.

8 Q Did you reach him?

9 A I did.

10 Q About what time of day is this, do you
11 know?

12 A It is around 12:15, 12:20.

13 Q So when you contacted , was he at
14 the scene on Canfield?

15 A I believe he was there at that time.

16 Q And what did he tell you about what had
17 happened?

18 A Briefly he told me that there was an
19 officer involved shooting. I asked him who the
20 officer was and if the officer was okay. And you
21 know, he had already told me that it was a fatal
22 shooting and he did say that the scene was starting
23 to get a little bit tense.

24 Q All right. And after getting that
25 information from Sergeant , what did you do?

1 **A** I contacted my chief of detectives,
2 and informed him, wanted his blessing that I
3 intended to ask to handle the
4 investigation.

5 Then called , chief of
6 police of St. Louis County and asked him, informed
7 him briefly what he had, told him I didn't have a
8 lot of details, but since it was a fatal officer
9 involved shooting I would prefer that they did the
10 investigation.

11 **Q** And was this prior to you getting to the
12 scene that you made these phone calls?

13 **A** Yes, ma'am.

14 **Q** And ultimately did you proceed to the
15 scene on Canfield?

16 **A** I did.

17 **Q** And about how long now had it been from
18 the time you got the call from Sergeant until
19 you got down to the scene?

20 **A** I'm thinking it was about 45 minutes,
21 maybe a little longer.

22 **Q** And when you got to the scene, was County
23 Police already at the scene?

24 **A** They were.

25 **Q** And was the scene roped off?

1 **A** There was a lot of tape, crime scene,
2 yellow crime scene tape all over the place.

3 **Q** Roped off is not right, taped off?

4 **A** Yes.

5 **Q** And so did you have another conversation
6 with when you got down to the scene?

7 **A** Yes, I did.

8 **Q** And did he give you any more details about
9 what had happened?

10 **A** Not a lot. It was a very chaotic scene
11 and I asked him briefly what happened. He said that
12 Darren Wilson was driving down the road, saw two
13 people in the road, asked them to get out of the
14 road. Words were exchanged, a scuffle ensued, there
15 was a shooting inside and then outside of the
16 vehicle.

17 **Q** Okay. So, and you learned from your
18 initial call with Sergeant that the name of the
19 expert who was involved in the shooting, correct?

20 **A** Yes.

21 **Q** When you got down to the scene on
22 Canfield, was he there?

23 **A** No, he was not.

24 **Q** Have you ever seen him since then?

25 **A** No, I have not.

1 **Q** You never saw him on the 9th?

2 **A** I didn't.

3 **Q** Have you had a conversation with Darren
4 Wilson since the 9th?

5 **A** Yes, I had one conversation with him.

6 **Q** And when, approximately, was that?

7 **A** Uh, within a day or two of the shooting.

8 **Q** Was that, I guess, on the telephone since
9 you haven't seen him?

10 **A** Yes, correct.

11 **Q** Telephone. Did he talk to you or give you
12 any details about what happened that day on
13 Canfield?

14 **A** No, nor did I ask.

15 **Q** So what was the nature of your
16 conversation?

17 **A** Just to check on his general welfare, see
18 if he needed anything to affirm to him he was on
19 administrative leave and was subject to call.

20 **Q** Now, you're aware that Officer Wilson
21 after the shooting was directed to go back to the
22 station, correct?

23 **A** Correct.

24 **Q** And you're aware that at some point he
25 went to the hospital, correct?

1 or read a transcript of that interview?

2 **A** No, ma'am.

3 **Q** Did you ever read any police reports about
4 statements that were made by Officer Wilson?

5 **A** No, I did not.

6 **Q** Did you ever talk to any FBI agents or any
7 County Police about what Officer Wilson told them?

8 **A** No, I did not.

9 **Q** There's, obviously, at some point in the
10 investigation there is some information that is
11 learned that Michael Brown was involved in a
12 stealing that took place on the same day prior to
13 the shooting up at the Ferguson Market, correct?

14 **A** Correct.

15 **Q** When did you first learn that, about
16 Michael Brown being involved in a stealing or I
17 think you have termed it a strong armed robbery but
18 the incident at the Ferguson Market, when did you
19 learn about that?

20 **A** I think it was later in that day that
21 somebody on the scene said this may be the same two
22 individuals that were involved in the incident at
23 9101.

24 **Q** Did you ever ask Officer Wilson or did
25 anybody ever tell you that Officer Wilson told them

1 about what he knew or didn't know when he first
2 encountered the two subjects, who we now know are
3 Michael Brown and Dorian Johnson, on Canfield?

4 **A** I don't have any direct knowledge of what
5 he knew or suspected at the time.

6 **Q** Now, prior to you coming in the grand jury
7 this afternoon, I played a couple of your press
8 conferences for you; is that right?

9 **A** Yes, you did.

10 **Q** And you talk in your press conference that
11 Officer Wilson, the reason for his stop was not
12 because of those two being involved in the stealing
13 at the Ferguson Market. Why, can you explain the
14 comments you made during your interview?

15 **A** Sure. I was simply restating what was
16 told to me at the time that the initial contact was
17 related to two individuals walking in the street and
18 him instructing them to get out of the street.

19 **Q** Okay. And so, and that came to you not
20 from Darren Wilson, but from other person correct?

21 **A** Correct.

22 MS. ALIZADEH: Sheila, do you have any
23 questions?

24 MS. WHIRLEY: Let's see. I'm just
25 following up on that last question of Kathi's. You

1 said someone else told you that the initial contact
2 with Michael Brown had to do with them walking in
3 the street?

4 **A** Yes, ma'am.

5 MS. WHIRLEY: Do you know who told you
6 that?

7 **A** Sergeant

8 MS. WHIRLEY: Sergeant . I didn't
9 hear that part, okay. But so when you got on
10 television, you basically said that that was not the
11 reason, the stealing at the market was not the
12 reason for the initial contact?

13 **A** The initial contact. That's the
14 information that was relayed to me.

15 MS. WHIRLEY: When you say initial
16 contact, what are you referring to?

17 **A** The reason he spoke to them initially.

18 MS. WHIRLEY: Okay.

19 **A** Hey, move to the sidewalk, or whatever he
20 said.

21 MS. WHIRLEY: Does that include him
22 backing up the car when you say initial contact?

23 **A** No.

24 MS. WHIRLEY: Is that something different?

25 **A** No, that's different.

1 MS. WHIRLEY: Okay. Do you have a
2 personal relationship with Officer Wilson? I know
3 you spoke very highly of him.

4 A Not a personal relationship, just
5 professional.

6 MS. WHIRLEY: Just one of your officers?

7 A Yes, ma'am.

8 MS. WHIRLEY: But nothing, you don't
9 socialize with him outside of work or anything like
10 that?

11 A No, ma'am.

12 MS. WHIRLEY: Okay. And I think you
13 already told Kathi that you did not see him that
14 day.

15 A No, I did not.

16 MS. WHIRLEY: And the first day, when you
17 talked to him later, when was the first time you saw
18 him after this happened.

19 A I haven't seen him since.

20 MS. WHIRLEY: Oh, you have not seen him?

21 A No, ma'am.

22 MS. WHIRLEY: Okay. Now, we've talked a
23 little bit about an orange, an alert button that the
24 officers have in their car and on their portable
25 walkie-talkies.

1 Something like his
2 obviously happened very quickly, would it be unusual
3 not to have that button pushed? I mean, are
4 surprised it's not or in your experience it may not?

5 **A** I don't know whether it was pushed or not,
6 I don't.

7 : If it was not, would you
8 be surprised necessarily?

9 **A** No, not necessarily.

10 : Okay.

11 : . Officer
12 Wilson when he testified before indicated to us that
13 he did not carry a taser. And his reason for such
14 is that it was uncomfortable to carry. I mean, is
15 it standard procedure for an officer to dictate what
16 he will and will not carry.

17 **A** Um, under the circumstances tasers, I
18 didn't know that he didn't carry the taser until
19 after the incident that day. We have a limited
20 number of tasers.

21 When I actually got to the Ferguson
22 Police Department, there were a lot deficiencies
23 that I wanted to correct, and one of them was there
24 were too many incidents where a taser could have
25 been used, but we didn't have them.

1 So I set about trying to locate some
2 money and just buy a few at a time. We don't have a
3 taser assigned to each officer, but we're trying to
4 improve that.

5 : Okay. Just in addition to
6 that, how long has this been known you don't have
7 enough tasers for every officer, I mean, when did
8 you discover the problem?

9 **A** They didn't have enough?

10 : About the lack of amount
11 of tasers.

12 **A** There were no tasers when I started
13 working there at all.

14 : Okay.

15 **A** I bought five with some grant money that I
16 was able to dig up and with some asset sharing. And
17 then as I got another grant, I bought a few more.

18 : Uh-huh.

19 **A** I'm trying to get enough so that each
20 officer will have his own personal.

21 When you get this grant,
22 is it a grant, um, that is specifically set out for
23 those tasers? Like when you feel that you need some
24 tasers or whatever, do you initiate this grant, I
25 want X amount of money, I need five more tasers.

1 **A** It is more, that's pretty much the case,
2 ma'am. We get notified or we search for grants that
3 are available.

4 : Uh-huh.

5 **A** In this case I think this was through the
6 State Cops Program that there would be an
7 application process for grants. So you have the
8 opportunity to say, I have this need, then you have
9 to have explain the need and justify it and then say
10 how much money you would like to have.

11 And then they decide how much money
12 they are going to give you, if any.

13 : When you receive the
14 money, you put in, say you put in for the tasers,
15 okay. You get the grant money delivered to you or
16 whatever. And say there is something else that
17 comes up that you feel now is more warranted. Do
18 you specifically have to use that grant money?

19 **A** Yes, ma'am.

20 : Okay, all right.

21 MS. ALIZADEH: I want to clarify whether
22 or not they needed more tasers in the Ferguson
23 Police Department or should have is certainly
24 something that needs to be addressed at this point,
25 but for this incident, Chief, you're aware that,

1 you're now aware that Officer Wilson did not have a
2 taster on his person; is that right.

3 **A** Yes.

4 **Q** (By Ms. Alizadeh) Were officers required
5 to carry a taster at that time?

6 **A** No.

7 **Q** So was it up to the individual officers to
8 decide whether he was going to carry a taser?

9 **A** Pretty much, yes. This is a less lethal
10 may be used and precisely we didn't have enough for
11 everybody.

12 **Q** Is it possible that there could be more
13 officers working a shift than there would be tasers
14 available for that shift? In other words, maybe six
15 officers working and maybe at the time you only have
16 five tasers that were actually working at the time?

17 **A** That is possible. I don't know if that
18 was the case here.

19 **Q** But regardless, we know now he didn't have
20 a taser with him?

21 **A** Yes.

22 **Q** And that wasn't required at the time?

23 **A** No.

24 MS. ALIZADEH: Anybody else?

25 : . What is

1 your protocol when it comes for one of your police
2 officers, maybe another scene just happened on
3 August the 9th, do you, was it your own authority or
4 opinion not to speak to him about what happened at
5 the scene or was you instructed?

6 **A** No, ma'am, it was my decision to turn the
7 entire investigation over to St. Louis County Police
8 Department and to separate myself, my detectives
9 from that. I just believe 35 years in law
10 enforcement we not only have to be impartial and
11 fair, but there also has to be no appearance of
12 impropriety.

13 It just seems like an agency, I came
14 from a very big police department, moved to a very
15 small police department. Small, much smaller police
16 department and it just seems that the department
17 that size needs to move something this critical like
18 a fatal officer shooting to a larger law enforcement
19 agency or particularly a different law enforcement
20 agency to handle.

21 : Also I don't believe that
22 Officer Wilson had mace either, did you know that?

23 **A** I did not know that.

24 Are they checked
25 regularly, whatever they have on their gear, do they

1 what other people might have said, probably better
2 to go back and refer to the transcript.

3 : Mace is not required?

4 **A** Mace is issued to each officer so they
5 are, issued equipment is expected to be carried but
6 it is going to be largely to the officers discretion
7 which item to use. For example, I would not be in
8 very close quarters use pepper mace.

9 But you would expect your
10 officer to have it on him?

11 **A** I would expect.

12 : When he's on patrol?

13 **A** Yes.

14 . So in
15 your career in law enforcement have you ever been
16 dealt with or been involved in any way in other
17 officer involved shooting?

18 **A** Yes.

19 So my kind of question
20 onto that is, in other words, there was talk about
21 how the officer left the scene in this incident. He
22 left by himself in Sergeant vehicle, went
23 back to the station to wash his hands, is that some
24 typical protocol? Should he have been escorted? I
25 don't know, I'd just like to know.

1 **A** That's news to me too, but I would of had
2 someone else take him to the station. I certainly
3 had someone else take him to the hospital.

4 : If you could, maybe, in
5 your role in your experience before working at
6 Ferguson, what was the relationship with the
7 community, the police department in the community.

8 **A** In my four years there excellent. We have
9 nine community associations, neighborhood
10 associations in Ferguson. And I'm very well
11 acquainted with all the members of those. Go to a
12 lot of their meetings. I send my officers there to
13 give them crime updates every month at their
14 meetings.

15 I attend all the events, I sing the
16 national anthem for them at the 4th of July and the
17 beginning of the 5K run that we have every year. It
18 is a very active, involved community.

19 MS. WHIRLEY: What about Canfield Green,
20 the folks that live in the Canfield Green
21 Apartments, are they involved in these associations
22 and active with the police?

23 **A** We were trying very hard to get
24 associations over there and neighborhood watches
25 over there. We went over, it is a big complex as

1 you probably know. Canfield Green runs into the
2 Northwinds Estates, runs into Oakmont, they are all,
3 it is a very dense community. So we were trying to
4 get neighborhood watch in there.

5 So we do things such as we have
6 resource displays where we bring the dogs,
7 firetrucks and the officers over there and everyone,
8 every resident gets a copy of the Ferguson Times
9 that says all the events are happening, things like
10 that.

11 It has been difficult to get a
12 neighborhood association going over in there.

13 MS. WHIRLEY: Why do you think that is?

14 **A** Probably a lot of it has to do with the
15 transient population. People don't plan on living
16 there for long periods of time, so they don't get
17 deeply involved in the community.

18 But we also did several things with
19 all of those apartments, you know, try to improve
20 quality of life and reduce crime in those areas. We
21 were very involved in there.

22 MS. WHIRLEY: How many officers do you
23 have, I don't know if you said that already.

24 **A** Total of 55, including myself.

25 MS. WHIRLEY: 55.

1 appropriate, I guess, if you notice these two
2 suspects and you put your car in reverse, would it
3 be, I guess, okay to put your sirens on or not even
4 your sirens, your flashing lights and turn your
5 lights on to let, I guess, the community know
6 something is going on here?

7 **A** Not necessarily. I don't think that would
8 be either a bad or good thing, it is neutral.

9 : Even with traffic kind of
10 coming both ways there?

11 **A** If it is going to be blocking traffic in
12 the street, yeah, that would probably be
13 appropriate, yes, sir.

14 : In regards to field
15 training, I have a question continuing on the
16 previous comment, when he pulled back in reverse,
17 from Officer Wilson's perspective and others, he
18 says himself he impeded their traffic, he backed his
19 car up to prevent them from going anywhere. Is that
20 also, is that protocol, is that something you would
21 expect an officer to do, kind of use the vehicle to
22 in that manner?

23 **A** To use the vehicle?

24 : When he backed up, put it
25 in reverse as we now understand, he kind of thought

1 these suspects are involved in the robbery, he backs
2 the car up to impede the way they were walking. It
3 was in there way essentially.

4 **A** That would be appropriate, sure.

5 That would be appropriate?

6 **A** Yeah.

7 : This is . You
8 had experience with police officer involved
9 shootings before?

10 **A** Yes, ma'am.

11 : Is this the first time
12 you had any experience with a police officer
13 involved shooting in Ferguson?

14 **A** Uh, fatal shooting, yes.

15 You said you didn't
16 realize how things were handled after he went back
17 to the station by himself, he washed his hands and
18 everything, and so I was just wondering if, and you
19 said you didn't know that, but is that not the way
20 you would, you would have expected that to be
21 handled?

22 **A** Right, but in this particular case, I
23 separated myself from all of this. I'm going to
24 have to do my own investigation, internal affairs,
25 when this is over.

1 I've got one more
2 question. In one of your press conferences,
3 , you state that evidence was found on
4 Michael Brown from the robbery.

5 **A** Yeah, I saw that too. I'm not sure I
6 understood the question. I didn't have any
7 knowledge of that one way or another, particularly
8 then.

9 When
10 you were in the academy, what was your training on
11 deadly force, when to use it and how much to use it
12 if you are confronted with an adversary and had to
13 fire your weapon?

14 **A** We're going back to the police academy,
15 that's quite a ways essentially.

16 MS. ALIZADEH: Let me ask something else
17 along the same lines. Does your office, or does
18 your department train your officers on when they can
19 use force to affect an arrest and when they can use
20 deadly force?

21 **A** Yes, ma'am.

22 MS. ALIZADEH: Other than what they learn
23 at the police academy, anything that your department
24 instructs them about?

25 **A** Yes, ma'am. That's really continuing

1 education. The post-training they are required
2 where it includes firearms training, deadly force
3 training every year. A lot of it is dictated by
4 both state and federal law and Supreme Court
5 decisions that sometimes change circumstances and
6 deadly force. Fleeing felon rule, for example.

7 **Q** (By Ms. Alizadeh) So let me ask, I know
8 and maybe this hasn't been testified about, but
9 officers have to get continuing education to
10 maintain their certification every year; is that
11 right?

12 **A** Yes, ma'am.

13 **Q** So every year officers have to have so
14 many hours of continuing education, correct?

15 **A** Correct.

16 **Q** And that's put on by various organizations
17 and entities, would that be fair to say?

18 **A** Yes, ma'am.

19 **Q** And so there might be other entities that
20 would give additional instruction or training on use
21 of force to affect an arrest and the use of deadly
22 force, but my question is, does your department
23 itself train or instruct the officer, or is there
24 any kind of formalized training in your department,
25 put on by your department about use of force?

1 **A** Yes, ma'am.

2 **Q** And is that done as like in the form of
3 giving them some written materials, or is that done
4 as in some kind of class setting?

5 **A** We have our own firearms range, it is an
6 inside range. All of our firearms training is done
7 in-house. So it is done annually.

8 **Q** Do you have a particular officer who then
9 does the instruction on using force during an arrest
10 to affect an arrest or the use of deadly force?

11 **A** That's through the continuing education.
12 That would be through the police academy or North
13 County Chiefs Association Training, or outside
14 training, that's all part of continuing education.

15 **Q** And so the firearms training you're
16 talking about, that's in relation to them being able
17 to handle a weapon and how to shoot the weapon and
18 store the weapon and so forth, correct?

19 **A** Yes, ma'am.

20 **Q** So does your department have any written
21 literature that talks about use of force to affect
22 an arrest and the use of deadly force?

23 **A** Yes, ma'am. We have general orders.

24 **Q** So your department has general orders?

25 **A** Yes, ma'am.

1 **Q** Is it a requirement of all of your
2 officers to study those general orders and to know
3 those general orders?

4 **A** Yes, ma'am.

5 **Q** And those general orders are written by
6 who?

7 **A** Um, when I got there four and a half years
8 ago, I was not satisfied with the policy manual so I
9 set out to mirror, to get a complete general orders
10 manual policies and procedures for an agency our
11 size that mirrored CALEA.

12 **Q** What's CALEA?

13 **A** The Commission For Accreditation of Law
14 Enforcement Agencies, it is international. It is
15 very expensive to get that done. So I started with
16 the State of Missouri certification process, which
17 takes several years.

18 We developed a complete general
19 orders manual, so as those general orders came out,
20 the officers were required to and often times we
21 would have supervisors or officers present training,
22 train each other on those general orders.

23 **Q** Okay. So you have a specific general
24 order regarding the use of force to effect an arrest
25 and the use of deadly force during an arrest?

1 **A** Yes, ma'am.

2 **Q** Could we get a copy of that general orders
3 as necessary?

4 **A** Yes.

5 **Q** If the grand jurors wanted it?

6 MS. WHIRLEY: Excuse me, I just want to
7 ask for the orders. Are there any orders as to what
8 the protocol would be after a shooting has occurred?

9 **A** Um, I'm trying to think. Yes, there are.

10 MS. WHIRLEY: Okay.

11 **Q** (By Ms. Alizadeh) And so you said that the
12 general orders that once you took over you were kind
13 of revamping them?

14 **A** Yes.

15 **Q** That's my word, revamping. In doing so,
16 were you trying to make them compliant with the law.

17 **A** Yes.

18 **Q** And you also said that you were attempting
19 to have them hear other possible state
20 organizations' policy and so forth?

21 **A** Yes, to create the most professional
22 organization that I could.

23 MS. ALIZADEH: Sheila, do you have any
24 more question?

25 MS. WHIRLEY: No, okay.

1 : I heard both
2 of you use the phrase use of weapon to affect an
3 arrest and use of deadly force. Can you tell me
4 what the difference between those two are?

5 MS. ALIZADEH: I had said use of force to
6 affect an arrest and then use of a deadly weapon,
7 use of deadly force.

8 : Okay. We've heard a lot
9 about in the media, can you tell me the difference
10 between those two?

11 **A** Between use of force?

12 MS. WHIRLEY: Use of force to affect an
13 arrest and use of deadly force.

14 **A** Okay. Force actually in the force
15 continuum which is taught in the academy starts with
16 the presence of the uniform.

17 : Okay.

18 **A** Then it goes to hands on, maybe just
19 compliance holds, and then it can go to fighting.
20 Then you have less lethal option such as the taser,
21 bean bang rounds, pepper mace, there's also stick
22 batons, those are all not considered, for example,
23 the baton and the taser are considered less lethal.
24 There's a possibility that they could be, but it is
25 considered less lethal weapon.

1 And then finally when you get to
2 deadly force, that would be a firearm in the
3 continuum.

4 : Tell me, are the officers
5 taught where to shoot specifically if they have to
6 get to that point?

7 **A** Yes, ma'am.

8 : And it is never in the
9 lower extremity?

10 **A** No, it is not.

11 : It is always in the upper
12 part of the body?

13 **A** Yes, ma'am.

14 So that's their training?

15 **A** Yes, ma'am.

16 In your
17 policies or procedures, is there anything ever
18 addressed or have you seen it addressed in your four
19 years there when you are affecting or potentially
20 trying to detain somebody or affect an arrest, is it
21 ever mentioned trying to grab somebody out a car
22 window to detain them?

23 **A** No, no.

24 : Have you ever heard that?

25 **A** No. Generally the force necessary to

1 affect the arrest is what the standard is.

2 Okay. But not

3 specifically, whatever you do, wherever you are
4 potentially to reach out a car window and detain
5 somebody?

6 **A** No.

7 MS. ALIZADEH: Chief would you
8 expect one of your officers to attempt to arrest a
9 suspect simply because they were walking in the
10 middle of the street?

11 **A** Arrest, no. I would expect that they
12 would ask them to move to the sidewalk. And then if
13 they refused, they can be issued a summons for that.
14 Much like a traffic ticket.

15 . Race is not
16 mentioned today in our conversation, but I would
17 like to know what the officer thought or assume as a
18 white officer and a black suspect?

19 **A** Can I ask you, my years of flying a
20 helicopter, that ear is not --

21 Race has been a huge
22 factor, what the officer assumed or thought of the
23 suspect before he saw him. So my question to you
24 is, one, do you feel like your department racially,
25 the kind of racial diversity, does that reflect the

1 Ferguson community or not?

2 **A** I think that I've made an effort since I
3 got there to increase racial diversity because of
4 the make up of the community. It is very difficult
5 with an agency my size.

6 I did, probably heard me say this,
7 when I got there, there had never been an
8 African-American supervisor on the police
9 department. I promoted the first two in the
10 history, I'm very proud of that. And I've tried
11 hard to recruit minority candidates, but again, St.
12 Louis County, there's St. Louis City, there's
13 Missouri State Highway Patrol, there is federal
14 agencies, you know, it is difficult to recruit and
15 retain.

16 So knowing that and
17 knowing that's an area for growth.

18 **A** Yes.

19 : Would you say with your
20 department, is there any steps in place or any
21 action taken to help educate on social diversity or
22 how to interact with those maybe, whether it is
23 beliefs or whatever that may be, anything you do
24 department wide.

25 **A** It is a state requirement that all

1 officers receive that type of training as part of
2 their recertification every three years. So there
3 is annual racial profiling or diversity training
4 which is required.

5 MS. WHIRLEY: And there's a lot of other
6 training that's out there.

7 Recently we, of course, we doubled our
8 efforts. Some of my commanders just attended a
9 really good bias policing training put on by the
10 Cops Program. I have met with the National Director
11 from Cops and we talked a lot about some of the new
12 and young and exciting training in adversity that's
13 out there, but this training actually had citizens
14 and police officers in the training. It was a real
15 good environment.

16 : Okay.

17 MS. ALIZADEH: Anybody else have any
18 questions regarding this witness and his knowledge
19 about the incident, his press conferences in
20 particular? Okay.

21 (End of the testimony of Chief)

22 MS. WHIRLEY: It is the afternoon of
23 November 10th, approximately 3:12 p.m. I'm Sheila
24 Whirley, present is Kathi Alizadeh, all 12 jurors
25 and , the court reporter. We're going to play

1 some of the recorded statements that still need to
2 be played. We have Grand Jury Exhibit Number 49,
3 has the recorded statement of and
4 Kathi is passing out the transcripts for that.

5 After we played that, we're going to play
6 a statement by an interview with
7 and that's Grand Jury Exhibit Number 84. You recall
8 he's the one that was here last week and said he did
9 not tell the truth when he called in to a show. So
10 we will play that and you can hear more from him
11 then.

12 As soon as all the transcripts are
13 distributed we will start the statement. It doesn't
14 look like it is very long. I'm not sure how long it
15 is. It is ten minutes and 41 seconds.

16 MS. ALIZADEH: Just for the record, I'm
17 going to excuse myself for a little bit here and so
18 Sheila will remain in the room while this is being
19 played.

20 (Playing of the interview of
21)

22 (End of the Grand Jury Hearing Volume XXI.)

24 State of Missouri

25 SS.

1 County of St. Louis

2 I, , a Licensed Certified Court
3 Reporter by the Supreme Court in and for the State
4 of Missouri, duly commissioned, qualified and
5 authorized to administer oaths and to certify to
6 depositions, do hereby certify that pursuant to
7 Notice in the civil cause now pending and
8 undetermined in the County of St. Louis, State of
9 Missouri.

10 The said witness, being of sound mind and being
11 by the grand jury first carefully examined and duly
12 cautioned and sworn to testify to the truth, the
13 whole truth, and nothing but the truth in the case
14 aforesaid, thereupon testified as is shown in the
15 foregoing transcript, said testimony being by me
16 reported in shorthand and caused to be transcribed
17 into typewriting, and that the foregoing page
18 correctly sets forth the testimony of the
19 aforementioned witness, together with the questions
20 propounded by counsel and grand jurors thereto, and
21 is in all respects a full, true, correct and
22 complete transcript of the questions propounded to
23 and the answers given by said witness.

24 I further certify that the foregoing pages
25 contain a true and accurate reproduction of the

1 proceedings.

2 I further certify that I am not of counsel or
3 attorney for either of the parties to said suit, not
4 related to nor interested in any of the parties or
5 their attorneys.

1 GRAND JURY HEARING VOLUME XXII

2 MS. ALIZADEH: Good morning. It is
3 November 11th, Happy Veterans Day everybody, and it
4 is 8:42 a.m.

5 So we had originally planned we were going
6 to go to 2:30 today. As I've mentioned to you in
7 the past because we are drawing kind of near the
8 end, it is difficult sometimes for me to get enough
9 people to fill your day. Today might be one of
10 those days where we get done early. But originally
11 I had scheduled an officer to come in at 8:30 this
12 morning, he was going to talk to you about he
13 actually measured Darren Wilson's car and so forth
14 and photographed it.

15 He called me on the way to work this
16 morning he said he's a crime scene detective and he
17 is right now at a crime scene. And so he asked if I
18 could push his testimony off three or four hours. I
19 said, well, just text me when you're done and we'll
20 see where we are.

21 I have photographs that he took of the
22 vehicle and then I also have a sheet of paper that
23 actually was, I think, emailed to me quite some time
24 ago with the measurements on it that he had taken.

25 Um, and so what I would propose to do is

1 that I believe it might be helpful for you to have
2 those things prior to going down and looking at the
3 car, just for your own sake.

4 And so if anybody has an objection to
5 that, you know, I would like to hear. My thought
6 was I could give you those photographs and the
7 measurements and then you all can go look at the
8 car. And then when you come back, if you have
9 questions for that officer, you know, we can get him
10 in later this morning and you can ask questions
11 about what he did.

12 You know the only thing he was going to
13 testify to, yeah, I took these photographs and,
14 yeah, I took these measurements. So, you know,
15 unless you had additional questions for him, that's
16 kind of, you know what I mean, it is not like really
17 earth shattering.

18 So that's my proposal that if you are
19 ready, I will get that stuff for you because I
20 didn't bring it in here yet to make a copy of
21 measurements for everybody.

22 Pass the photographs around so you can
23 kind of look at them before you go out there and
24 then you go out and examine the vehicle and you take
25 the time that you need to do that.

1 Our investigator has made, he has a couple
2 of steps that he made so he'll give you those for
3 you to use if you want to do some of your own
4 investigation. And then at 10:30, I have scheduled
5 the field training officer for Darren Wilson when he
6 was an officer at Jennings. You asked about that a
7 little bit ago, I contacted him, he is coming in at
8 10:30.

9 I will probably do a very brief
10 questioning of him and what his duties and
11 responsibilities are, and then you can ask him
12 questions that you think you need to ask.

13 And then I have, we have the physician's
14 assistant coming in. She can't be here till 1:00.
15 Again, we maybe have a gap there and so she will be
16 here at 1:00 and she will be the last witness of the
17 day.

18 Um, in the meantime, while you're gone
19 examining the vehicle, Sheila and I talked about it
20 and we thought we don't have actually the physical
21 evidence over here at our office yet. That is a
22 plan before this is all done you are going to be
23 able to look at things that you want to look at.

24 There's, we're not going to have discs
25 brought over, there is no point in looking at a disc

1 because there are lot of discs in evidence.

2 We do have the clothing of Michael Brown,
3 which is, as you would imagine is bloody, it is
4 dried, but it is still bloody. Those are packaged
5 and in a box. We'll bring that box over for you,
6 but if you all want to open the box and look at it,
7 we're going to have to get you gloves and masks and
8 stuff like that to do that.

9 But everything else that is in evidence
10 like the gun, shell casings, the bullets, things
11 that, you know, the sandals, the bracelets, you
12 know, things that were seized, we're going to have
13 those all in a room for you to examine as much as
14 you want.

15 And then in the meantime, though, I
16 thought Sheila and I had said it might be time, that
17 you could spend working while you are gone examining
18 the vehicle, I could put out a lot of these
19 photographs that we've seen over time, crime scene
20 photographs, and that way, you know, as you are
21 sitting here, if we're waiting for the next witness,
22 you all can kind of pass those around and look at
23 them at your leisure or talk about them just so
24 you're not sitting here twiddling your thumbs.

25 And then have you all thought any more,

1 because like I said, we are nearing the end. Are
2 there any additional witnesses that you think you
3 need to hear from or would like me to try to get in,
4 other than as I mentioned, we're still, there is
5 still about four or five lay people who, you know,
6 have given some kind of statement in the past about
7 having seen something, we are trying to get them in.

8 So we may or may not get all or none of
9 them in before this is over, but is there anyone
10 else that y'all would like to hear from or if you
11 would like to recall a witness, we'll need to know
12 so I can get that scheduled before, you know, we
13 conclude everything.

14 So y'all can talk about that while you are
15 looking at photographs and stuff too. If there is
16 any additional people you like or again, if you want
17 to hear all of the witnesses' testimony is on an
18 audio disc. We have transcripts of that, so if you
19 want to review somebody's testimony while you're
20 here, we can certainly play that for you or just
21 give you a transcript or whatever you need to review
22 things, okay.

23 So with that being said, I guess we'll
24 take a recess or brief break now while everybody
25 gets their coats on and I'll get and and

1 we'll get you over there to look at the vehicle.

2 And just so you all understand for the
3 record, this is not Darren Wilson's vehicle, this is
4 another Tahoe that's the same make, year and model
5 as Darren Wilson's because the door, as I explained,
6 is still not on Darren Wilson's vehicle, but the
7 measurements that I have, actually, don't get your
8 coats on yet. I told you I was going to get you the
9 pictures and the measurements.

10 So we'll take a recess now and I'll go get
11 those and when you are ready to go over and look at
12 the vehicle, we'll get and to take.

13 Okay.

14 (Recess)

15 MS. ALIZADEH: Good morning. This is
16 Kathi Alizadeh, it is November 11th. Sheila Whirley
17 is here, all 12 grand jurors are here and the court
18 reporter is taking down what's being said.

19 So this morning y'all went over, went to
20 look at the police vehicle. That is the same make,
21 year and model as Darren Wilson's vehicle or the
22 vehicle he was driving on August 9th.

23 You all had plenty of time to do that. Is
24 there anybody that felt they didn't get to see what
25 they wanted to see?

1 Also, prior to you all going out there, we
2 had planned for our witness to testify who actually
3 photographed and measured, took certain measurements
4 on Darren Wilson's vehicle. He was going to testify
5 this morning prior to you seeing that, but the crime
6 scene detective was actually called to a crime scene
7 this morning. So it is my understanding that you
8 don't have any questions for him? So I will let him
9 know he doesn't need to come in.

10 Right now we're waiting for our next
11 witness. So in the meantime I passed out some
12 photos that have already been, not introduced, but
13 you all have seen them, but I passed them out so if
14 you all wanted to look at them again.

15 I've also given out a another transcript
16 that contains Darren Wilson's testimony and then
17 there was also a request to hear again Grand Jury
18 Exhibit 59, which is a disc that contains a video
19 audio file that a witness, was
20 actually talking on Glide, an app that allows you to
21 talk in realtime. He inadvertently had recorded
22 some of the gunshots. If you recall, he said there
23 were two shots before he began the recording. So
24 there was a request to play that again.

25 It is in a loop. So if we don't stop it,

1 it will do it all over again. So we'll just let it
2 go and when you all have heard enough, you let us
3 know and we'll just stop it.

4 (Playing of the audio recording.)

5 ,
6 of lawful age, having been first duly sworn to
7 testify the truth, the whole truth, and
8 nothing but the truth in the case aforesaid,
9 deposes and says in reply to oral

10 interrogatories, propounded as follows, to-wit:

11 EXAMINATION

12 BY MS. ALIZADEH:

13 Q Could you state your name and spell it for
14 the court reporter, please?

15 A . ,

16

17 Q Where are you employed, sir?

18 A I'm employed at the City of Jennings as a
19 lieutenant in the corrections department and I'm
20 also employed at Velda City as a police officer.

21 Q And so you a commissioned police officer?

22 A Yes, ma'am.

23 Q How long have you been a police officer?

24 A Since 1997.

25 Q So did you graduate from the St. Louis

1 County Police Academy or from a different police
2 academy?

3 **A** I went to Eastern Missouri, which is in
4 St. Charles County.

5 **Q** Okay. And did you graduate from there in
6 1997?

7 **A** Yes, ma'am, December of 1997.

8 **Q** And what was your first job out of the
9 police academy.

10 **A** Worked at the City of Pine Lawn.

11 **Q** How long were you a Pine Lawn police
12 officer?

13 **A** I worked there on two different occasions.
14 First time I was there approximately a year.

15 **Q** After you were there for a year, were you
16 a police officer in Pine Lawn?

17 **A** Yes, ma'am.

18 **Q** Where did you go after that?

19 **A** City of Normandy.

20 **Q** How long were you a police officer in
21 Normandy?

22 **A** Yes, ma'am.

23 **Q** How long were you a police officer there?

24 **A** Approximately nine years.

25 **Q** Following then did you go back to Pine

1 Lawn at that point?

2 **A** Yes, ma'am.

3 **Q** How long were you with Pine Lawn again?

4 **A** For a year.

5 **Q** And then after that where did you go?

6 **A** The City of Jennings.

7 **Q** And how long did you work as a police
8 officer for the City of Jennings?

9 **A** Approximately three years.

10 **Q** And were you a road officer during that
11 time period?

12 **A** Yes, ma'am.

13 **Q** And when you were with the City of
14 Jennings, were you ever a field training officer?

15 **A** Yes, ma'am.

16 **Q** Prior to the year being a field training
17 officer in the City of Jennings, were you ever a
18 field training officer at any of the other police
19 departments where you were employed?

20 **A** Yes, ma'am.

21 **Q** All right. So when is it that you first
22 became a field training officer?

23 **A** When I worked for the City of Normandy.

24 **Q** Is there any additional training or any
25 tests or any other qualifications that you need to

1 have other than having graduated from the police
2 academy in order to be a field training officer?

3 **A** There's no legal requirements, most
4 departments have policies. There is no testing for
5 it. The academy, the police academy, you go to the
6 police academy, they have the field training course,
7 usually a week long.

8 **Q** So there is a field training course with
9 the police academy?

10 **A** Yes, ma'am.

11 **Q** Did you take that?

12 **A** Yes, ma'am.

13 **Q** All right. And so when you become a field
14 training officer, what are your duties and
15 responsibilities. You are still a police officer,
16 correct?

17 **A** Yes, ma'am.

18 **Q** You still patrol and enforce the laws of
19 your municipality or the community, correct?

20 **A** Yes, ma'am.

21 **Q** But what additional duties and
22 responsibilities does a field training officer have?

23 **A** When you get, a new officer is hired in,
24 you take them and you are responsible for them and
25 instructions on doing the job as a police officer.

1 Also policies and procedures of your agency and to
2 mentor them to become successful police officers.

3 Q All right. How long did you do that for
4 the City of Normandy?

5 A I didn't do it continuously because I went
6 to different positions for about two years though.

7 Q And then after leaving Normandy, you went
8 back to Pine Lawn for about a year. Did you, were
9 you a field training officer in Pine Lawn?

10 A No, ma'am.

11 Q And then after that, you went to Jennings
12 and you said you were a field training officer in
13 Jennings?

14 A Yes, ma'am.

15 Q And so when a new police officer is
16 assigned to you, for you to be his FTO, how long is
17 it that you are training that officer?

18 A There is different levels of the training.
19 They are under your direct supervision, ride along
20 with you, usually for six weeks and then depending
21 on their performance, you decide whether they are
22 going to be released to a vehicle on their own, but
23 you still shadow them.

24 You are still training the officer,
25 you are still responsible for them. They're on

1 probation for up to a year. You are basically
2 responsible for that officer for that whole time.

3 Q And so typically an officer might ride
4 along with you for up to in excess of six weeks?

5 A Yes, ma'am.

6 Q Now, these officers that are assigned to
7 you, are they commissioned police officers?

8 A Yes, ma'am.

9 Q So they've already completed their
10 training at a police academy, they've already been
11 hired by the City of Jennings?

12 A Yes, ma'am.

13 Q How many officers have you mentored or
14 been a field training officer for?

15 A I'm guess maybe about ten.

16 Q And during that time, have they all been
17 brand new police officers fresh out of the police
18 academy?

19 A No, ma'am.

20 Q So sometimes are your trainees already
21 experienced police officers, but they may be new to
22 your municipality?

23 A Yes, ma'am.

24 Q And so you said that they would ride along
25 with you for a minimum of six weeks and then

1 depending on how you felt they were doing, they
2 might then have their own cars?

3 **A** Yes, ma'am.

4 **Q** And then do you always work the same shift
5 as your trainee?

6 **A** Yes, ma'am.

7 **Q** And so if they go on a call, do you go
8 with them on a call?

9 **A** Yes, ma'am.

10 **Q** But in a separate car?

11 **A** Yes, ma'am.

12 **Q** So is it your job then to kind of observe,
13 let them handle the call, but to be there to help
14 them or observe how they are doing?

15 **A** Yes, ma'am.

16 **Q** And were you the field training officer
17 for Darren Wilson when he was a Jennings Police
18 Officer?

19 **A** Yes, ma'am.

20 **Q** And do you remember when he came to
21 Jennings, was this his first job out of the police
22 academy?

23 **A** Yes, ma'am.

24 **Q** So he was a brand new police officer?

25 **A** Yes, ma'am.

1 **Q** And so did he ride along with you for at
2 least six weeks before he then got in a vehicle on
3 his own?

4 **A** Yes, ma'am.

5 **Q** Okay. And just in general, how did you
6 think he did as a trainee during that six weeks?

7 **A** He did very well. Out of the officers I
8 have trained, he was one of those that was probably
9 a better officer.

10 **Q** And then after the six weeks were
11 completed, did he then begin to ride on his own?

12 **A** Yes, ma'am.

13 **Q** And did you continue to train him or be
14 his mentor for that first year that he was a police
15 officer in the City of Jennings?

16 **A** Yes, ma'am.

17 **Q** Okay. Now, when a trainee begins to ride
18 on their own, are they allowed to make their own
19 arrests?

20 **A** Yes, ma'am.

21 **Q** And so they can function in every way as a
22 police officer in the City of Jennings, except for
23 the fact that they have somebody that's watching
24 over them, correct?

25 **A** Yes, ma'am.

1 **Q** Did you ever have any concerns about
2 Officer Wilson having a bad temper?

3 **A** No, ma'am, no.

4 **Q** Did you ever have any concerns about
5 Officer Wilson using excessive force during an
6 arrest?

7 **A** No, ma'am.

8 **Q** How did you feel he worked with the
9 community in the City of Jennings?

10 **A** Um, I thought he did very well. One point
11 that really stands out that I remember distinctly
12 while he was riding with me in the first six weeks,
13 we were having a conversation and he brought up the
14 topic he said, I feel comfortable with the police
15 work side of it, but I have not had much experience
16 in the African-American community, such as the one
17 I'm working in now. I haven't been in that
18 community. Can you help me with that?

19 I really thought that that was,
20 admired him for doing that because it is hard for
21 somebody to admit that. He took a vested interest
22 in learning about the community he was working in.

23 **Q** So at the time that he was in the City of
24 Jennings, would you say that the population of
25 Jennings was, the majority of the population were

1 African-American?

2 **A** It is, as it is today I would say.

3 **Q** Did you ever witness him being what you
4 consider inappropriate as far as anything that you
5 thought was racist that he might do or say?

6 **A** No, ma'am.

7 **Q** Now, I explained to you that there was an
8 interest of the grand jurors coming in and asking
9 you some questions, so I'm done asking questions.

10 Sheila, do you have any questions?

11 MS. WHIRLEY: Yeah, I do have just a few.

12 So tell me how long did you work at
13 Jennings before you became a field training officer?

14 **A** Within my first year they had me start
15 training at the end of my first year.

16 MS. WHIRLEY: Okay. Your first year. Did
17 you have to be on probation for a year.

18 **A** I was still on probation when I started
19 training officers.

20 MS. WHIRLEY: You were on probation, but
21 serving as a field training officer?

22 **A** Yes, ma'am.

23 MS. WHIRLEY: Okay. And you mention that
24 you had been a field training officer at Normandy,
25 which was before you went to Jennings?

1 **A** Yes, ma'am.

2 MS. WHIRLEY: How long did you work at
3 Normandy before becoming a field training officer.

4 **A** Uh, probably about three years.

5 MS. WHIRLEY: Okay. And you were a field
6 training officer at Normandy, I think you said, for
7 two years.

8 **A** Yes, ma'am.

9 MS. WHIRLEY: What was your rank when you
10 field training officer in Normandy?

11 **A** Just patrolman.

12 MS. WHIRLEY: What was your rank as a
13 field straining officer in Jennings?

14 **A** Patrolman.

15 MS. WHIRLEY: What's your rank now?

16 **A** Patrolman.

17 MS. WHIRLEY: How long have you been a
18 police officer?

19 **A** Since '97.

20 MS. WHIRLEY: '97. Okay.

21 **A** I worked last night.

22 MS. WHIRLEY: Okay. What did you teach or
23 verify that Officer Wilson was proficient at? I
24 mean, you were his field training officer for six
25 weeks, how did you verify that he knew what he was

1 doing well enough to let him be on his own?

2 **A** In the City of Jennings as a field
3 training officer it was computer based program, it
4 has specific goals, also specific topics that were
5 covered. You know, like constitutional law, your
6 state law, your policies, your procedures and also
7 went over the reports, like fraud report, so you had
8 all of that. It was already lined out for you.

9 And there was three things that you
10 had to do, you had to explain that to the officer
11 that you were training.

12 The second one was that they had to
13 be able to articulate it back to you and then the
14 third was they I had to actually see them perform
15 that duty.

16 MS. WHIRLEY: A lot of that is done in the
17 police academy, is that not correct? You have
18 constitutional law, criminal law, report writing,
19 same thing you just mentioned?

20 **A** Correct.

21 **Q** Actually happened in the police academy?

22 **A** Correct.

23 **Q** So you're just kind of verifying that he
24 knows how to do it once he hits the streets?

25 **A** Correct.

1 **Q** Now, do you write an assessment or some
2 type of evaluation after the training of the
3 officer?

4 **A** Again, that's all in that computer based
5 program that the City of Jennings has every day.
6 You did a daily observation report and you would go
7 through the list and put the date in what you did
8 that day. I don't remember weekly or monthly, but
9 at the end you signed off on that officer. You
10 signed off after six weeks stating that they are
11 ready to go on to be shadowed, as we call it.

12 MS. WHIRLEY: You did sign off on Officer
13 Wilson?

14 **A** Yes.

15 MS. WHIRLEY: He met every benchmark that
16 he was supposed to meet?

17 **A** Yes, ma'am.

18 MS. WHIRLEY: Did you train more than one
19 trainee at a time when you were training Officer
20 Wilson or did you just train Officer Wilson.

21 **A** No, ma'am, we never train more than one
22 officer.

23 MS. WHIRLEY: Just one at a time?

24 **A** Yes, ma'am.

25 MS. WHIRLEY: And what time period was it

1 that you were field training officer for Officer
2 Wilson.

3 **A** He started with us in 2009, mid 2009.

4 MS. WHIRLEY: Okay. And were there ever
5 any complaints from the residents about him?

6 **A** I never had any issues with him or none
7 were brought to me.

8 MS. WHIRLEY: So it is possible there
9 were, but you don't know?

10 **A** Correct.

11 MS. WHIRLEY: Okay. And you already
12 answered no complaints about excessive use of force,
13 correct?

14 **A** No, ma'am, none.

15 MS. WHIRLEY: What did you teach, is there
16 anything taught about use of force while you're
17 training officers?

18 **A** Yes, ma'am. Two things that are big
19 issues with law enforcement. You go over right away
20 with them pretty much one is use of force. The
21 second is your emergency vehicle operations, those
22 are just two things that officers civil liability
23 affects people's lives. You get your policy out of
24 your agency at the time, you go over it with them,
25 make sure they have that. Make sure that they refer

1 to that any time.

2 Jennings, in our police department,
3 we have mobile data computer terminals. You can
4 always look back and look up the policy while you
5 are on the call or anything of that nature to refer
6 to.

7 So you go over that policy and then
8 for myself, I would go through scenarios like after
9 we have been on a call. I would play the what if
10 game and have him articulate to me what he would
11 have done in this situation. What if this occurred,
12 how would you handle it and play the what if game.

13 MS. WHIRLEY: Okay. So there's written
14 policy and then you kind of do hypotheticals to
15 verify his knowledge of what he knows what he needs
16 to do.

17 What did you or your department do to
18 assist Officer Wilson with working with the
19 African-American community? You said that he
20 actually asked you, told you that he wanted to work
21 with the community or he didn't know much about
22 African-Americans and I guess wanted to be a better
23 officer in the African-American community, what kind
24 of assistance was he given?

25 **A** It wasn't he wasn't familiar with

1 African-Americans, my whole career I have worked in
2 the North County area. I would go over my
3 experiences. I was born and raised in the North
4 County area. Went over, like I say, experiences
5 I've encountered. What is important to the
6 community.

7 MS. WHIRLEY: What is important to the
8 community?

9 A One of the biggest issues I've seen with
10 young law enforcement they don't take a vested
11 interest in the community.

12 MS. ALIZADEH: I'm sorry, I couldn't hear
13 the last one?

14 A They don't take a vested interest in the
15 community they work in. We go to work every day,
16 the residences are throughout, not usually in the
17 community you work in. And you come there for 12
18 hours a day, you go home.

19 The residents, that's where they
20 live, that's their home base and it is really
21 important you take a vested interest in that. When
22 you do, your job is a lot easier. I think it is
23 better with the relations with the residents and on
24 your calls. You understand things.

25 MS. WHIRLEY: Tell us what that looks like

1 taking a vested interest in the community, what does
2 that look like? I mean, those are words, sounds
3 good, but what does it look like?

4 **A** I'm not understanding your question.

5 MS. WHIRLEY: Like what kind of things are
6 done to take a vested interest in the community.

7 **A** For myself, when I worked in Normandy.

8 MS. WHIRLEY: I want to know about
9 Jennings?

10 **A** I'm just using a example.

11 MS. WHIRLEY: I understand, but this is
12 kind of a specific question because I'm referring to
13 when you mention Officer Wilson wanted to, I guess,
14 be a better officer with the African-American
15 community, right?

16 **A** Uh-huh.

17 MS. WHIRLEY: That was at Jennings?

18 **A** Uh-huh.

19 MS. WHIRLEY: Now Jennings is very heavily
20 populated with African-American; is that right?

21 **A** Uh-huh.

22 MS. WHIRLEY: Before I go back to that
23 question, do you know how many African-American
24 officers were working at Jennings at that time in
25 2009 when you worked there as field training

1 officer?

2 **A** Two officers.

3 MS. WHIRLEY: Out of how many officers?

4 **A** I don't remember the total number, I think
5 it is 40.

6 MS. WHIRLEY: I'm sorry?

7 **A** I think it was in 40.

8 MS. WHIRLEY: Out of 40 something
9 officers, two were African-American?

10 **A** Correct.

11 MS. WHIRLEY: Were there any
12 African-American field training officers?

13 **A** No, ma'am.

14 MS. WHIRLEY: Okay. So now going back to
15 the question. What kind of things did you do to
16 help Officer Wilson understand how to work better
17 with the African-American community?

18 **A** I know you don't want to talk about
19 Normandy, but I was a school resource officer there.
20 In Jennings a lot of the residents that I had as a
21 school resource officer in Normandy were now
22 residents of Jennings. I would go to those
23 communities on a call.

24 One example is female, she has mental
25 health issues. And she's fine when she's on her

1 medications, but at times she's not. I would go and
2 check on her once a week after I had been on a call
3 there. How you doing. I was able to when she was
4 not on her medication talk to her and get her back
5 on medication. That's taking a vested interest in
6 the community. It is not just going to the call and
7 answering it and writing the report and leaving.

8 It is going back on a stolen car, did
9 you get your car back, you know, did you get it
10 fixed, things of that nature. That's taking a
11 vested interest in the community.

12 MS. WHIRLEY: Okay.

13 **A** As a school resource officer I was able to
14 show him that he was always teased, everybody knows
15 you. When I was a school resource officer, I did
16 the adopt a student. I would take them to the
17 basketball games. I took them to those things when
18 they came up. That's taking a vested interest in
19 the community.

20 MS. WHIRLEY: This is during your period
21 as field training officer at Jennings with Officer
22 Wilson?

23 **A** Correct, and showing him that and those
24 things.

25 MS. WHIRLEY: Did you ever see Officer

1 Wilson do some of those things with the
2 African-American community?

3 **A** Yeah, I've seen him buy meals for the
4 youth, I've seen him follow-up on calls, go and talk
5 to the residents, you know. He wasn't encompassed
6 in that police car, he was out and about in the
7 community.

8 MS. WHIRLEY: Okay. Questions?

9 What type of behavioral
10 screening is there in the academy or maybe you as a
11 trainer, are there warning signs, certain
12 personality types that you would fail them from
13 becoming an officer just because of behavioral
14 issues, you understand?

15 **A** We have, I know for the City of Jennings
16 you have to go through a psych evaluation before you
17 can even be hired on the department, and that's
18 where that is determined.

19 As far as myself, of course, if you
20 have anger issues. The person's mental state is not
21 stable, they can't control their emotions or things
22 of that nature. That's the concern. That's where
23 you address those issues. That's in your
24 evaluations and you try to see what the remedy would
25 be for that. Sometimes there's not.

1 take them on follow-up calls even though your job as
2 police officer is over, they see you going back and
3 making sure that she's taking her meds or whatever.

4 **A** For me I believe that's still our job as a
5 police officer, I don't think it is over.

6 Your call is over, I'm
7 sorry, I didn't mean to talk over you. And then out
8 of my, where did you grow up, in North County?

9 **A** Florissant area, in St. Louis County area.
10 That's it.

11 You know the reason why
12 Officer Wilson left Jennings?

13 **A** Because County got the contract with
14 police services, we were all laid off.

15 : You were all laid off?

16 **A** Every officer there was laid off. They
17 disbanded the police department.

18 : Once Officer Wilson left
19 your field training supervision, did you ever hear
20 of Officer Wilson's behavior among the community in
21 a harsh way or anything, his behavior?

22 **A** Witness it or hear of it?

23 Yes.

24 **A** I've never heard anything negative on that
25 and I worked with him after he was, we still stayed

1 on the same shift.

2 Are you familiar with a term
3 that was used, use of force triangle, or use of
4 force continuum?

5 **A** Yes, sir.

6 Can you describe what that
7 means?

8 **A** Basically it is teaching the officers a
9 suspect can, basically what level of force do you
10 need to use to control the situation. Not using the
11 least amount, but to get it done effectively and get
12 compliance.

13 To simplify it, you have your just
14 compliance, officer present, they're compliant.
15 That was in the triangle, you have that in the
16 center. And you have threatening resistant, which
17 will be physically attack. Nonthreatening, which
18 would be noncompliance. I'm not moving, I'm staying
19 here. Then you have deadly force, but all goes back
20 to the center of that triangle to where compliance
21 is.

22 You teach the officer, the suspect is
23 who decides what happens. They're the one who makes
24 the decision. Everything within the force continuum
25 is reactive on our part. It is a delicate equation,

1 though, you have to decide what force do I need to
2 use, but I don't want to use excessive force, but I
3 don't want to use too little force to where someone
4 gets hurt also.

5 Sometimes if you use too less of a
6 force, then you have to use another avenue, say
7 mace, you use that. You should have used something
8 more forceful. You have to go to the time that's
9 two encounters, two uses of force. Basically where
10 you used your baton from the beginning that would
11 have gotten the compliance.

12 This is something that is
13 taught to the officers in all of their training,
14 academy type of training?

15 **A** That's taught in the academy, there's also
16 continued training. Any time that you go to the
17 academy in the State of Missouri you have to do 48
18 hours of continuing training every three years. Any
19 time you have any class using your firearm. Any
20 defensive tactics or anything, that's brought back
21 up, force continuum, it's also in your policy.

22 The force continuum?

23 **A** Yes, it is ongoing. It is an ongoing
24 process.

25 Sure, sure. In your

1 experience would it be your opinion to say that in a
2 very tight compressed time situation that that was
3 something that an officer would instinctively fall
4 back onto?

5 **A** Yes.

6 Thank you.

7 MS. ALIZADEH: I have a question for you.
8 In either the police academy training or in what you
9 might train as being a field training officer, if an
10 officer is faced, finds himself in a situation and
11 he makes a decision to use deadly force to react to
12 something that he sees is a threat to himself or the
13 community, is there any training in the police
14 academy or in field training where you, the officer,
15 is taught or instructed to, for example, if you are
16 going to use your firearm to like shoot at their
17 legs or shoot at an area of their body that might
18 not be a fatal shot?

19 In other words --

20 **A** All training you are taught to in your
21 firearms training to aim towards center mass to stop
22 the threat. Your goal, again, is compliance, stop
23 the threat. It is not to aim for the leg in high
24 stress situation, you're not able to do that
25 physically.

1 Also, in trying to stop the threat,
2 the only way that the end of use firearm that you
3 would stop the threat immediately without their
4 willingness to comply would be something that
5 strikes the central nervous system. A shot in the
6 leg and they are still able to attack you and do
7 harm to you. You can take a shot to the heart and
8 still basically fight for up to 30 seconds easily, a
9 minute.

10 **Q** (By Ms. Alizadeh) So it is a part of
11 training if you are reacting to a threat that you
12 deem you need to use a firearm to meet that threat,
13 you aim for the center mass?

14 **A** Correct. When I say center mass, whatever
15 is exposed, whatever you have. It is not always
16 going to be just the chest, it is going to be
17 whatever is exposed that you are aiming at.

18 We heard about two
19 African-American police officers out of 40
20 something, can you tell me the number of
21 African-Americans that apply?

22 **A** I don't have that.

23 : You don't know low or high?

24 **A** That's all done through human resources.

25 How about when you were in

1 the academy, what was the dynamics?

2 **A** We had no African-American officers in my
3 academy class.

4 You said that you were
5 trained to hit at center mass, okay. And I've heard
6 a lot of people in the media talk about why didn't
7 the police officer just let him run away and put an
8 all points bulletin on him. Can you tell me about
9 your training as far as not just your safety, but as
10 far as the community, would that be against what you
11 would be taught in the academy, just let a suspect
12 go and get him later?

13 **A** No, ma'am. That's our job as a police
14 officer to apprehend suspects. Whenever somebody
15 has a crime committed or anything, they call us, we
16 are the ones that have to respond while everybody
17 else is trying to get away from the area. It is our
18 duty to protect the community. That's what we swear
19 to when we we're hired. And in doing so, you have
20 to prevent a suspect from fleeing, then they can do
21 further harm to the community.

22 No, you're not taught to shy away
23 from that. We always respond, that's our job and we
24 know that getting into the profession.

25 Can you walk us through the

1 protocol, kind of step by step protocol of making an
2 arrest?

3 **A** From what part?

4 I guess the point at which
5 an officer determines there is a cause for arrest
6 and then what kind of protocol is going forth?

7 **A** Each agency has their own policy. I can
8 give you a general rundown. As an officer you
9 observe or probable cause to believe that a crime
10 has been committed. And in doing so for speeding,
11 you write them a ticket. Some agencies have
12 policies that you have to arrest people for certain
13 offenses, which even could be something to write a
14 ticket for driving while suspended. If you observe
15 the crime, you take your enforcement action. You
16 write your report to articulate everything about
17 that incident, the elements of the crime.

18 So as far as the arrest part, that's
19 where that comes in when you apprehend the suspect.

20 From there most agencies you go to
21 the station, complete the booking process. Usually
22 in the municipalities the judges have a bond
23 schedule, who has to post bond. Some are released
24 on a summons after they are processed and you see if
25 they have warrants, if they have to go to another

1 agency or anything of that nature.

2 MS. ALIZADEH: Officer , let me
3 ask you a question. When an officer in your
4 training, an officer, once the officer makes a
5 determination that he is going to place the suspect
6 under arrest, is he taught to use whatever means is
7 necessary to affect that arrest given whatever
8 circumstances he may be presented with.

9 A Yes, ma'am.

10 Q (By Ms. Alizadeh) So, for example, if you
11 have a fleeing suspect.

12 A Yes, ma'am.

13 Q Is there any training based on either
14 police academy training or training under a field
15 officer, field training officer where you would give
16 that suspect commands to stop and desist, get down,
17 freeze, you know, phrases like that. And then if
18 the suspect does not, would that, do you have any
19 training on do you then pursue that suspect or do
20 you just let them run away?

21 A You have to look at the totality of the
22 circumstances of that particular incident.

23 You have to weigh the safety of the
24 community, the safety of the officer. For example,
25 in a vehicle, if their crime doesn't outweigh them

1 running and taking off in the vehicle and us
2 pursuing them and we hit an innocent victim and
3 they're killed, does their crime outweigh that? No,
4 we don't. If the danger that they could cause the
5 community is greater, then yes, you will pursue.

6 Q So someone who is speeding and won't pull
7 over, you're not going to engage them in a high
8 speed pursuit?

9 A No, ma'am.

10 Q But the suspect that you are attempting to
11 pull over, if he has a warrant for murder in the
12 first degree, a violent offense such as an assault
13 or a sexual crime, you might under the circumstances
14 make a determination to pursue that suspect?

15 A Yes, ma'am.

16 Q So it is all dependent upon the
17 circumstances, correct?

18 A Correct.

19 Q And officers are trained and taught that
20 they have to very quickly assess the circumstances
21 and use their best discretion and their decision
22 making on whether you pursue that suspect, allow
23 that suspect to get away. And what means you need
24 to take in order to affect an arrest if you
25 determine to pursue the suspect?

1 **A** Yes, ma'am.

2 **Q** Did you ever have any question about
3 Officer Wilson's ability to quickly assess a
4 situation, like was he overly, you know, some people
5 are over thinkers, they want to really sit back and
6 decide, to have time to examine all possibilities
7 and some people react too quickly without really
8 giving thought to what they're doing. Were you ever
9 concerned that Darren Wilson was either over
10 thinking and might not react appropriately in time
11 or that he was too quick to react without thinking
12 things through?

13 **A** I thought his judgment, he always made
14 sound judgments on his decisions. Of course, we
15 always go back and look how could we have done it
16 better the next time. At the time when he is
17 handling things, he always had good judgment.

18 **Q** Did you ever observe him to be a bully?

19 **A** No.

20 **Q** Or abuse his authority?

21 **A** No, ma'am.

22 **Q** Disrespectful to people?

23 **A** No, ma'am.

24 MS. ALIZADEH: Anything else.

25 In that same vein where you

1 say you may have like, I guess, someone speeding
2 away from you, you may say, hey, it is not worth it.

3 Let's give an example, let's say you were
4 in a residential area and there's cars going in both
5 directions, people taking their garbage out, be
6 people walking their dogs and the suspect is running
7 away. How would that kind of situation be handled
8 if you know there is other people around and other
9 people could get hurt?

10 **A** In a vehicle, the suspect is in a vehicle?

11 No, the suspect is walking?

12 **A** What am I stopping them for?

13 : Jaywalking.

14 MS. ALIZADEH: For jaywalking, is that
15 what you said?

16 Yeah.

17 **A** And they take off on foot?

18 Yes.

19 **A** I would pursue them, if I'm taking
20 enforcement action and take off on foot, yeah, I
21 would. It also depends. I've been in foot pursuits
22 where someone has jumped off a high concrete wall on
23 the entrance ramp to a highway, I'm not going to put
24 myself in danger to do that for a jaywalking.

25 At some point you'll say

1 well, I mean, I see people here, people on their
2 balcony, people here, maybe I shouldn't shoot in
3 this situation?

4 **A** I don't know where we got to the shooting
5 part on this. You said simply jaywalking. You said
6 fled on foot.

7 Fled on foot.

8 **A** What actions?

9 You had a confrontation and
10 he runs away on foot?

11 **A** I can't play the what if thing game, it
12 has to be the totality of the circumstances.

13 : I'm getting to the part
14 where you have the suspect and you notice that their
15 are traffic, cars, you know this is residential area
16 and there is people on balconies, people could be
17 walking their dog, and people taking their trash
18 out. And this person is unarmed, would you decide
19 maybe this is not the best way to pull my gun out or
20 somebody else could get hurt?

21 : Does he know the person is
22 unarmed?

23 **A** I can't answer your question not with what
24 you're saying.

25 Maybe I can rephrase it a

1 little bit. Did you ever teach officer Darren
2 Wilson when to or when not to open fire in a
3 residential, to have a different response?

4 **A** When you decide to use deadly force, it is
5 the threat that you perceive at the time. If it is
6 in a residential area, at times you will have to
7 fire in a residential area.

8 Okay.

9 **A** Again, these are vague, you are asking
10 vague when you have a situation. You are asking me
11 to make a determination on something that you can't
12 do, you have the totality of the circumstances.

13 Okay.

14 **A** Just for jaywalking, would I pull a gun?
15 No. If I stop somebody for jaywalking and it turns
16 into a physical altercation, it is not a jaywalking
17 any more. We've gotten beyond that.

18 The thing also you have to look at
19 is, what I perceive that I stop somebody for may not
20 be what that suspect perceives.

21 I know when an officer stopped
22 somebody for a simple speeding, little did he know
23 that guy had just committed an armed robbery at a
24 7-Eleven. So the officer think's he's just going to
25 a speeding enforcement, but the suspect in his mind

1 thought he was being stopped for the robbery. So
2 that decides the suspects, but for a simple
3 jaywalking, no, you don't pull your weapon. But
4 when the assault occurred, we are not talking about
5 jaywalking, jaywalking is irrelevant at that point.

6 And we both, two people have
7 used that speeding example. So if you try to pull
8 somebody over who is speeding and they refuse to
9 stop, would you take, what would happen, would you
10 just let them go or would you try another means to
11 have them pull over? Not necessarily going on a
12 high speed chase, but would you like try to get in
13 front of them or call somebody else to try to help
14 you or would you just let them go?

15 **A** You use your radio, you put radio traffic
16 out there. You never would put your vehicle in
17 front of another vehicle for speeding.

18 Okay.

19 **A** Your decision to pursue that person for
20 speeding, a lot of times to continue to drive in
21 traffic, you back off, get a license plate or
22 something to go and follow-up on. But you use your
23 other agencies, if you have a helicopter above,
24 things of that nature.

25 When you got to determine

1 whether or not you want to go on a high speed chase,
2 that doesn't mean you are going to let that person
3 get away with it?

4 **A** I will not go on a high speed chase just
5 for speeding, I will tell you that.

6 **Q** (By Ms. Alizadeh) I have a question,
7 Officer . We know a little bit about your
8 walkie-talkie and the mobile radios in cars, and
9 does your walkie-talkie have an alert button?

10 **A** Yes, ours do with our agency, yes.

11 **Q** And did your walkie-talkie have an alert
12 button when you were training Officer Wilson?

13 **A** Yes.

14 **Q** And is there any instruction or what do
15 you train your officers to do as far as when it is
16 appropriate to use that alert button or not
17 appropriate, or is it just the officer's discretion
18 or what?

19 **A** The alert tone on your radio is used for
20 when you need assistance. If you feel that you need
21 officers to respond, you need aid, that is when you
22 use your alert tone.

23 **Q** If, for example, you have already used
24 your radio to call for assistance, you already
25 verbally said I need an assist car, can you send

1 somebody right to my location or whatever, so let me
2 ask you. Would you say that the alert tone is more
3 for something that's a lot more serious than, hey,
4 send another car to assist me on a stop?

5 **A** Alert tone is I need help, get here as
6 fast as you can. That's when you would use the
7 alert.

8 **Q** Maybe life or death or very serious
9 situation?

10 **A** I'm under attack.

11 **Q** And maybe the officer can't get to his
12 radio to call out on his mike?

13 **A** Correct.

14 **Q** Okay.

15 **A** With our radios, they don't get out
16 everywhere, even the alert tone doesn't get out.
17 The radio gives confirmation that it did get
18 received actually, but it doesn't get out. There's
19 some buildings that I was involved in a situation
20 where I was being assaulted and my radio I couldn't
21 get out and transmit and my alert tone would not get
22 out of the building.

23 **Q** You head the alert button and dispatch
24 does not get that alert tone?

25 **A** Correct. You know, if the radio frequency

1 that's what it is transmitted on as well.

2 For a scenario, just a
3 scenario, if you had already called something in on
4 your radio, and something escalates, you wouldn't
5 necessarily, or you would maybe necessarily use your
6 alert button because you already know, either you
7 knew or that's a backup way to get here more
8 quickly.

9 **A** You asked me to assist, things are under
10 control. It gets to where it is volatile, I can't
11 concentrate on transmitting on my radio, I can hit
12 my button.

13 MS. ALIZADEH: But you have to have a free
14 hand to hit the button?

15 **A** Correct.

16 You know what Officer
17 Wilson's range for proficiency was?

18 **A** No, sir.

19 MS. ALIZADEH: Officers that are
20 commissioned police officer have to qualify on a
21 regular basis. In other words, they have to show
22 that they're proficient in firearms?

23 **A** Correct.

24 MS. ALIZADEH: On a regular basis?

25 **A** Correct.

1 MS. ALIZADEH: How often do you have to
2 qualify?

3 A We do it there every six months.

4 MS. ALIZADEH: So that means going to a
5 range, you have to hit the target in a certain area
6 a certain number of times in order to be able to
7 continue to be an armed officer?

8 A Correct. It is pass or fail.

9 When you say feel, that you
10 have to hit your alert button and you say you feel
11 that you are under attack, what's your under attack,
12 what's your definition of it?

13 A At the time I've used my alert I'm
14 physically involved in an altercation with a suspect
15 or if I'm having several approach me, anywhere where
16 I feel a threat is, it is imminent for somebody to
17 get there to help me.

18 Suspect is running way from
19 you, and then right in front of you would you still
20 consider that you are under attack.

21 A Somebody running away from me?

22 Yes, sir.

23 A No.

24 MS. WHIRLEY: Have you ever been involved
25 in a shooting?

1 **A** Yes, ma'am.

2 MS. WHIRLEY: Tell us about it, I mean,
3 was it a shooting where it was a suspect?

4 **A** Yes, ma'am.

5 MS. WHIRLEY: Go ahead.

6 **A** It happened a month after this whole
7 ordeal, it just happened. My situation I was on a
8 service call --

9 MS. ALIZADEH: Okay, wait a minute. If
10 this is still under investigation, I'd rather you
11 not.

12 MS. WHIRLEY: I would agree, it is
13 something still pending; is that right?

14 MS. ALIZADEH: Let's not talk about it.

15 MS. WHIRLEY: I would agree with that. I
16 was thinking something earlier.

17 **A** No.

18 MS. WHIRLEY: Okay.

19 If a suspect is fleeing from
20 you, what the other juror said, and you didn't
21 really feel under attack, that would not keep you
22 from trying to get him still?

23 **A** Oh, not at all. I would still go after
24 him.

25 : You are still going to

1 pursue him?

2 **A** Correct.

3 : And that can be in second's
4 notice?

5 **A** It depends on the attack on myself.
6 That's where you weigh the circumstances. The
7 attack on myself is him getting away a danger to the
8 community --

9 When he's running away you
10 wouldn't necessarily feel like you're under attack,
11 so the need for an alert button wouldn't be there at
12 that time, maybe not?

13 **A** I won't say that, no, I'm not saying that.
14 You wouldn't feel under
15 attack, running away?

16 **A** No.

17 So I can understand it, when
18 a suspect after they've had an altercation with you,
19 okay, for example, and they're running away, you
20 would still consider them to be a threat possibly to
21 the community because, or yourself, and I'm just
22 thinking is it because maybe they could get a weapon
23 somewhere, maybe they could take someone hostage,
24 you don't know if they're armed or not or whatever,
25 is that the mindset to this where you would still

1 pursue them, decide it being your job to pursue and
2 capture a suspect that's done something, you know,
3 broken the law or whatever?

4 **A** If somebody has assaulted me personally as
5 a police officer, they can assault anyone out there.
6 I mean, someone who assaults a police officer or
7 someone in authority, what would prevent them from
8 assaulting anyone else.

9 Suspects know we are trained, know we
10 have weapons of that nature, you know. If they are
11 willing to attack us knowing that we have that, what
12 would prevent them from attacking a citizen who
13 doesn't have that, those tools.

14 How have you been taught to
15 utilize your vehicle's lights and siren
16 appropriately? I guess, what would cause you to use
17 those?

18 **A** In the State of Missouri state law, if
19 you're going to violate any traffic laws or anything
20 be consider an emergency room vehicle, your use of
21 lights and audible signal, doesn't specify siren,
22 audible signal must be used. In the State of
23 Missouri at least one flashing red signal. You use
24 those when you are responding to calls and on the
25 severity of the call. Crime in progress or

1 something of that nature and if you want to stop a
2 traffic violater then you use it, things of that
3 nature.

4 You wouldn't use it, for
5 instance, like you were stopping someone on foot?

6 **A** No.

7 MS. ALIZADEH: Like a pedestrian check.

8 **A** You might use it if, you know, you are
9 stopping somebody on the side of the highway,
10 walking on the side of the highway, I'm going to
11 turn my warning lights for warning purposes, but no,
12 it is not required to stop that person.

13 Thank you.

14 If you were blocking traffic
15 kind of, you would turn just your lights on, but not
16 the sirens to signify that this is a police matter
17 or something?

18 **A** It depends on the roadway. I've pulled
19 over onto the shoulder many times without turning
20 any of my emergency equipment on. In residential
21 areas, you park on the side of street just like cars
22 do.

23 You are not parked, you are
24 catty-corner, you are in the roadway of the driving
25 of the other drivers.

1 **A** You would try to do that, yeah. You don't
2 always have the opportunity.

3 : I don't think you want to
4 leave it out there.

5 **A** You don't always have that opportunity.

6 I'm trying to place a
7 scenario more kind of what you are taught thing,
8 trying to phrase this scenario, we are just trying
9 to learn to understand also.

10 Again, you're doing a stop where you are
11 in your vehicle and there's a pedestrian, a
12 pedestrian stop. Would you or would you teach
13 someone to use their vehicle as a device to impede
14 someone's course of walk or the direction they are
15 headed, would you take your vehicle and block it in
16 their path to address that?

17 **A** At certain times you would.

18 : Do you think that could be
19 seen as aggressive?

20 **A** By the suspect?

21 : Yes.

22 **A** Of course, yeah, people see a lot of
23 things that we do as aggressive just the way we are
24 trained. Yeah, you could use your vehicle to block
25 the path of someone.

1 : Thank you.

2 You would need a reason to
3 block that path so at that point if you've asked
4 somebody to do something and they haven't done that,
5 then you would need to use aggression, wouldn't you,
6 if you are trying to get them to do what you told
7 them to do they haven't done it.

8 **A** They're not in compliance.

9 : It is not really aggressive,
10 it is taking the necessary steps to do what you
11 asked them to do.

12 **A** Correct.

13 : Okay.

14 MS. ALIZADEH: Any other questions?

15 (End of the testimony of
16 .)

17 ,
18 of lawful age, having been first duly sworn to
19 testify the truth, the whole truth, and
20 nothing but the truth in the case aforesaid,
21 deposes and says in reply to oral
22 interrogatories, propounded as follows, to-wit:

23 EXAMINATION

24 BY MS. ALIZADEH:

25 **Q** Just for introductory purposes, it is till

1 November 11th, it is about ten after 1:00. This is
2 Kathi Alizadeh, Sheila Whirley is present, all 12
3 grand jurors are present, as is the court reporter
4 taking down what's being said. And this afternoon
5 we're starting the afternoon with a witness and
6 ma'am, can you tell the court reporter your name and
7 spell it for him?

8 **A** . First, , last
9 name,

10 **Q** How are you employed?

11 **A** I am a physician assistant with the North
12 County Emergency Physicians Group.

13 **Q** How long have you been a physician's
14 assistant?

15 **A** Seven years.

16 **Q** Can you describe for the either grand
17 jurors what is a physician's assistant, how is that
18 different from maybe a nurse or a physician?

19 **A** So we are considered midlevel providers.
20 So we have master's level degree training. We
21 practice medicine under the supervision of a
22 physician. So in our particular practice we would
23 practice in the same manner that a physician would.
24 Our charts are reviewed at the end of the day by the
25 physician.

1 **Q** Okay. And, ma'am, I'm going to stand back
2 here because the microphones that are in front of
3 you they don't amplify your voice.

4 **A** Okay.

5 **Q** If you can make sure you keep your voice
6 up so everybody back here can hear you.

7 **A** Okay.

8 **Q** So as a physician's assistant, can you
9 examine patients and diagnose patients?

10 **A** Yes.

11 **Q** And are your findings reviewed later by a
12 physician?

13 **A** Yes.

14 **Q** Would there be times when you might
15 examine a patient and feel that you would need to
16 call in a physician to assess a patient?

17 **A** Yes.

18 **Q** Okay. And so, for example, minor injuries
19 or things that don't appear to be emergent in
20 nature, that's something that you can handle without
21 a physician being at your elbow?

22 **A** Correct.

23 **Q** Can you prescribe medication?

24 **A** Yes.

25 **Q** Can you prescribe controlled substances?

1 **A** No. In the State of Missouri midlevels do
2 the have the option to obtain a controlled substance
3 license as well as DEA number. Most of the
4 midlevels in our facility do not because it is
5 unnecessary. We don't prescribe a lot of narcotics
6 and the little times we do, a physician is always
7 on-site to cosign our prescription.

8 I'm sorry, can you prescribe
9 medication?

10 **A** Yes.

11 : A license in Missouri?

12 **A** Yes.

13 : I can go to you and you can
14 prescribe that?

15 **A** Yes.

16 **Q** (By Ms. Alizadeh) If you were to
17 prescribe, for example, a nonnarcotic medication or
18 something that's not a controlled substance like
19 Naprosyn, is it Naprosyn or Naproxen?

20 **A** Naprosyn is a brand name and Naproxen is
21 the generic.

22 **Q** If you were to prescribe that, that's not
23 a control; is that correct?

24 **A** Yes.

25 **Q** I can get the equivalent if I take enough

1 Advil or Aleve?

2 **A** Correct.

3 **Q** To be prescription strength Naprosyn,
4 correct?

5 **A** Yes.

6 **Q** You would, but actually, I can't go to the
7 store and buy Naprosyn?

8 **A** Correct.

9 **Q** So if I get that, it has to be prescribed?

10 **A** Correct.

11 **Q** But being nonnarcotic, you can write the
12 prescription for me?

13 **A** Yes.

14 **Q** And then if you were to have a DEA number
15 and have obtained the ability to prescribe
16 controlled substances, and that's an option for a
17 midlevel care physician's assistant, correct?

18 **A** Yes.

19 **Q** Would you be able to prescribe controlled
20 substances without a co-signature of an attending
21 physician?

22 **A** Yes.

23 **Q** But you don't have that?

24 **A** Correct.

25 **Q** And so in this particular, well, let me

1 ask you this then. Can you describe for the grand
2 jurors what your training and background is in order
3 to be a physician's assistant?

4 **A** So I have my undergraduate degree, my
5 bachelor of science in athletic training. And then
6 I went on to graduate school where I got my master's
7 of science in physician assistant studies. So in
8 total with the 2 degrees it was about seven years of
9 training.

10 **Q** And then when you, do you have to pass any
11 board examinations in order to be a physician
12 assistant?

13 **A** Yes. We have a national certified board
14 that we have to certify initially and then every six
15 years after that.

16 **Q** And so a physician's assistant would not
17 be considered, obviously, you are not a medical
18 doctor, correct?

19 **A** Correct.

20 **Q** But a physician's assistant has more
21 education and training than, for example, a
22 registered nurse or a practical nurse?

23 **A** Correct.

24 **Q** Okay. And so when you are working, and
25 where do you work?

1 **A** Northwest Health Care Emergency

2 Department.

3 **Q** Is that affiliated with any hospital?

4 **A** Christian Northeast.

5 **Q** Is it a part of Christian Northeast?

6 **A** Yes.

7 **Q** So if somebody has an emergent situation,
8 they are going to go to Christian Northeast, would
9 they come into your department?

10 **A** They may. It just depends on their
11 location. The two emergency rooms are about 7 miles
12 apart. It depends on where they're located.

13 **Q** On August 9th, where was your department
14 located?

15 **A** At Northwest Health Care.

16 **Q** Okay. And is your department attached to
17 a hospital?

18 **A** No.

19 **Q** So if a patient walked in and there was
20 some acute injury that needed more, needed something
21 more than what you are equipped to handle in that
22 facility, you would then send them by ambulance or
23 refer them to the hospital?

24 **A** Correct.

25 **Q** Were you working on August 9th of 2014?

1 **A** Yes.

2 **Q** And when you work, is it an urgent care or
3 is it an emergency department?

4 **A** It is an emergency department.

5 **Q** When you work in the emergency department,
6 do you work like 12 hour shifts?

7 **A** Yes, 12 hours.

8 **Q** Do you remember that day what was your
9 hours of working?

10 **A** I was working noon to midnight.

11 **Q** So somewhere around 2:00 or so in the
12 afternoon, you were fairly new on your shift that
13 day?

14 **A** Yes.

15 **Q** And when you are in the emergency
16 department, and there's an attending physician who
17 you work under, correct?

18 **A** Yes.

19 **Q** Is he physically on the premises?

20 **A** Yes.

21 **Q** And so is it required that after you see a
22 patient or examine a patient, is it required that
23 the attending then come in and look at that patient
24 with his own eyes?

25 **A** No, only if we request.

1 **Q** Okay. But is it required that at some
2 point he needs to sign off on your charts on your
3 evaluation?

4 **A** Yes.

5 **Q** And now in this case, you know that you're
6 here because you were the attending, the nurse's,
7 I'm sorry, physician's assistant who evaluated
8 Darren Wilson on August 9th?

9 **A** Yes.

10 **Q** At the time that Darren Wilson came in,
11 had you ever met him before that day?

12 **A** No.

13 **Q** Didn't know who he was?

14 **A** Right.

15 **Q** Were you aware that he was a police
16 officer?

17 **A** Yes.

18 **Q** Was he in uniform when he came in?

19 **A** No.

20 **Q** Now, a patient initially comes into the
21 emergency department, are you the first person
22 they're going to see?

23 **A** No. They will see our triage nurse.

24 **Q** So that's the person who is going to say,
25 oh, we need to see you right away or you can sit for

1 four hours like everybody has to before a doctor can
2 see you?

3 **A** Correct.

4 **Q** Sorry, I couldn't resist that jab. We've
5 all been there. So a nurse will do an initial
6 assessment to do how quickly this patient needs to
7 be seen?

8 **A** Right.

9 **Q** Does that nurse take some basic
10 information from the patient?

11 **A** Yes.

12 **Q** And then after that nurse, for example, if
13 that nurse determines that this is not a patient
14 that needs to be seen like, you know, ASAP or stat,
15 or whatever your language is, then who would the
16 next person be that that patient will see?

17 **A** The patient would then likely see one of
18 our techs who would bring the patient back to a room
19 whenever it became available.

20 They would take vital signs for the
21 patient and then the person after that would
22 actually be the nurse that would be caring for the
23 patient while they were in the exam room.

24 **Q** Okay. Now, I didn't know if you skipped a
25 part because we were talking about a patient seeing

1 an admission's person.

2 **A** So at some point once they are brought
3 back to the examine room, whether it be before they
4 are seen by the nurse or after they're seen by me.
5 A registration person will see the patient and then
6 primarily for insurance purposes.

7 **Q** Okay. Now, I passed out what should.
8 (Grand Jury Exhibit Number 93
9 marked for identification.)

10 **Q** (By Ms. Alizadeh) I'm going to hand you
11 what I've marked as Grand Jury Exhibit Number 93.
12 Prior to coming in today, when I contacted you, did
13 you pull up the medical records for Darren Wilson
14 for that day and review them?

15 **A** No, I reviewed this morning with my
16 attorney.

17 **Q** You reviewed them though prior to coming
18 here?

19 **A** Yes.

20 **Q** And so do those look like the records that
21 you reviewed?

22 **A** Yes.

23 **Q** And I've given a copy of those records to
24 the grand jurors. So we can go page by page just
25 really quickly. So the first page that we're

1 looking at this, this is an admission form?

2 **A** Correct, this is something that
3 registration would fill out.

4 **Q** So this has to do with insurance and just
5 basic pedigree information, address and so forth?

6 **A** Correct.

7 **Q** So then the next page is an abstract
8 summary. Now you and I talked about this and what
9 is, what we call coders. There are people in the
10 hospital that have to at some point put codes into
11 these records so that the insurance gets billed for
12 the right procedure for what was done, correct?

13 **A** Correct.

14 **Q** So these codes on here for the diagnosis,
15 reason for and then there's primary diagnosis and
16 then secondary diagnosis, it is difficult to see
17 because they are in those black bars. Those are all
18 things that a coder selects based upon what they
19 read in the records was the diagnosis, correct?

20 **A** Correct.

21 **Q** And they have to select from a finite
22 number of options to put a code in, correct?

23 **A** Yes.

24 **Q** All right. So this is mainly for
25 insurance reasons?

1 **A** Yes.

2 **Q** Okay. And then the next page, deals with
3 at the top it says, chief complaint, alleged assault
4 and then physicians caring for patient, it has your
5 name?

6 **A** Yes.

7 **Q** So is this the information that the triage
8 nurse would have taken or the triage person as you
9 said?

10 **A** Yes.

11 **Q** Okay. And so down in the paragraph it
12 says triage, it says chief complaint quote, and then
13 in quotes it says, he needs x-rays he was hit in the
14 face a couple of times.

15 You're not the person who entered
16 that into that paragraph, correct?

17 **A** No, that was our triage nurse who sits out
18 front in our waiting room.

19 **Q** Do you know if the triage nurse got that
20 information from the patient or could it have been
21 from somebody with the patient?

22 **A** I believe it was somebody with the
23 patient, specifically his supervisor.

24 **Q** Okay. The patient's supervisor, the
25 police officer's supervisor?

1 **A** Yes.

2 **Q** And then also down it says here that on
3 the next line, the patient presented with St. Louis
4 County Police to the emergency room for evaluation.

5 So that means he was with police
6 officers, correct?

7 **A** Correct.

8 **Q** And then it says from home?

9 **A** Right. So, yeah, usually the nurse, the
10 triage nurse will ask, you know, did they come from,
11 say if they were in a car accident, did they come
12 straight from the car accident or did they go home
13 first and then come from home.

14 At some point he must have said that
15 he came from home. Now whether or not he did or
16 not, that's not something I discussed with him.

17 **Q** Okay. So that's a note that's put in by
18 the triage nurse?

19 **A** Yes.

20 **Q** And whether or not Darren Wilson said that
21 or one of the people with him told her that, or
22 whether or not that's even accurate, we don't know?

23 **A** Correct.

24 **Q** And then also in the next paragraph where
25 it says neuro, alert and oriented three times, skin

1 warm and dry.

2 So what is the triage nurse assessing
3 when she's looking at someone's skin?

4 **A** Just that he's not, that he's not pale or
5 sweating excessively or blue or red or having any
6 obvious issues with circulation or difficulty
7 breathing, which may change their skin color.

8 **Q** This is part of a neurologic examine. Not
9 like you are noticing that he has redness to his
10 forehead?

11 **A** Correct. Just very initial exam. Is the
12 patient upright, is he aware what's going on, is he
13 able to speak.

14 **Q** And, again, downward in the medical
15 screening continued, the note is that the skin is
16 pink, warm and dry. Is that just in general the
17 skin on his body appears to be normal?

18 **A** Just in general, yes.

19 **Q** And then patient denies physical or
20 emotional abuse. Is the patient asked if he was
21 abused?

22 **A** This is a question that every patient gets
23 asked when they come into our department and it is
24 referring to domestic abuse at home.

25 **Q** Now, was there suspected domestic abuse

1 involving this patient?

2 **A** No.

3 **Q** So every patient, and I think you said
4 even if they came in for a sore throat or cold is
5 asked that question?

6 **A** Correct.

7 **Q** And then on the next page, also down where
8 it says abuse screening, it says patient states that
9 he or she is not a victim of violence. Is that
10 domestic violence specifically?

11 **A** Yes, domestic.

12 **Q** He's not asked if somebody hurt you, he's
13 asked if anybody had any domestic assault or
14 domestic violence?

15 **A** Correct, in the home.

16 **Q** In the home?

17 **A** Uh-huh.

18 **Q** And then on the following page it says
19 here on the flow sheet, you prescribe Naprosyn 500
20 milligrams for him; is that right?

21 **A** Yes, and that was the dose that was given
22 to him while he was in the department.

23 **Q** And it says here was his
24 treating nurse?

25 **A** Yes.

1 **Q** So that would be the person, as you said,
2 that once they got in the exam room might then
3 continue an assessment and take vital signs and so
4 forth?

5 **A** Yes.

6 **Q** In reading his charts and what did,
7 his vital signs all appeared to be normal?

8 **A** Correct.

9 **Q** And on the following page then there's, I
10 don't know, I'm going to call it a pain chart or
11 pain assessment?

12 **A** Pain scale.

13 **Q** Pain scale, okay. And it indicates here,
14 this is that took this information, correct?

15 **A** Correct.

16 **Q** And that's that would be
17 that's his code?

18 **A** His log in.

19 **Q** And so for pain index, I imagine you are
20 giving the patient some options. Rate your pain
21 between one and ten?

22 **A** Correct.

23 **Q** Ten being excruciating, one being?

24 **A** Very little.

25 **Q** Very low?

1 **A** Yeah.

2 **Q** And so the patient on those particular
3 times graded his pain consistently on those four
4 occasions a six out of ten?

5 **A** Correct.

6 **Q** And then where it says description, it
7 says aching. Is that something the patient provided
8 or would the nurse put that in there?

9 **A** The nurse would have given him some
10 options for description, such as sharp, or stabbing
11 or aching or throbbing. And then the patient would
12 pick the one that most fits it.

13 **Q** So Darren Wilson on that day said my pain
14 is aching and it is six out of ten?

15 **A** Correct.

16 **Q** Okay. And then on the next page under
17 nursing notes, and these again are 's notes;
18 is that correct?

19 **A** Correct.

20 **Q** Says, patient to ED with complaint of
21 bilateral jaw pain. Patient states he's a police
22 officer and was struck twice in the face by a
23 suspect. Patient denies LOC and NV.

24 That's an entry made by
25 the nurse, correct?

1 **A** Yes.

2 **Q** Is that information he would have gotten
3 from the patient?

4 **A** Yes.

5 **Q** So this is information that he read on
6 this chart that might have been put there by the
7 triage nurse?

8 **A** This is what the patient told him
9 directly.

10 **Q** Okay. And so the patient said he was
11 struck in the face twice by a suspect?

12 **A** Yes.

13 **Q** And then denies LOC?

14 **A** Lost of consciousness.

15 **Q** What is NV?

16 **A** Nausea or vomiting.

17 **Q** It says that he had no difficulty moving
18 his jaw and no obvious deformities were noted?

19 **A** Correct.

20 **Q** And then where it says history of present
21 illness, is that still taking those notes?

22 **A** That is me.

23 **Q** So from that point this information is
24 what information you gather and put in the charts?

25 **A** Yes.

1 **Q** And when it says HPI tech, what does HPI
2 mean?

3 **A** History of present illness.

4 **Q** Patient presents with CO bilateral jaw
5 pain.

6 **A** Complaint of bilateral jaw pain.

7 **Q** Okay. So now when you are taking a
8 history of present illness, what is the purpose to
9 do that?

10 **A** This is basically just what the patient
11 tells us directly. It is not what I see or what I
12 find on examine, it is just the incident that
13 occurred, the information that was provided directly
14 from the patient, and then what their specific
15 complaint is as far as the injury.

16 **Q** All right. So the patient may say, I fell
17 down the stairs and hit my head on the concrete
18 floor?

19 **A** Yes.

20 **Q** And that's what goes in there then?

21 **A** Yes.

22 **Q** Are you going to ask the patient well, did
23 someone trip you or push you down the stairs, or
24 were you drinking alcohol that caused you to fall
25 down the stairs or you just trying to find out how

1 the incident occurred?

2 **A** We might ask what, you know, as far as
3 falling down the stairs, what made them fall and
4 they can say oh, I tripped, I slipped, I passed out
5 and then I fell down the stairs.

6 **Q** Okay. And in this case, someone who says
7 I have bilateral joint pain after being punched in
8 the face while attempting to detain a suspect, he
9 was also scratched in the neck. Again, that's stuff
10 that Darren Wilson told you?

11 **A** Correct.

12 **Q** Did you then inquire about what were you
13 going to try to arrest the suspect for, what
14 happened immediately prior to being punched in the
15 face?

16 **A** No, no, that's not stuff we would go into.

17 **Q** Okay. And let me ask you to clarify. You
18 know that this examine you did was in relation to
19 Officer Wilson and his involvement that culminated
20 in the shooting of Mike Brown, right?

21 **A** I do now, we were unaware of the event at
22 the time.

23 **Q** Okay. So when you were treating Darren
24 Wilson, you didn't know anything about Mike Brown
25 having been shot?

1 **A** Correct.

2 **Q** Would you have treated him any differently
3 or is there something that now you look back I wish
4 I would have done had I known?

5 **A** No, basically because his complaint was
6 jaw pain, our focus is, you know, how did the jaw
7 pain occur. He got punched. What, who punched him,
8 you know, and then what his complaint is as far as
9 pain or any complications from that.

10 But from a medical standpoint it is
11 not going to change how we treat him or what we do
12 based on what led up to that event.

13 **Q** Okay. And ultimately, you know, after you
14 having reviewed this record, you diagnosed him with
15 contusion of the mandibular joint area?

16 **A** Yes.

17 **Q** And so your mandible is your jaw, correct?

18 **A** Correct.

19 **Q** So what is a contusion?

20 **A** Contusion is basically a bruise,
21 inflammation, irritation to the soft tissue.

22 **Q** And we talked about that a little bit ago
23 about bruising and we all have had bruises, we've
24 had kids that had bruises, do people bruise
25 differently?

1 **A** Yes.

2 **Q** And do different areas of the body bruise
3 differently?

4 **A** Yes.

5 **Q** We've also talked about that bruises can
6 go through like a continuum, almost like a color
7 spectrum from deep purposely to blue to greenish
8 color to a yellow issue color, correct?

9 **A** Yes.

10 **Q** Do all bruises go through that continuum?

11 **A** No, it really depends on the area. It
12 also depends on the severity of the initial injury.
13 So sometimes it can start as just a mild redness and
14 then it resolves or it can go through the color
15 stages of red to purple, blue and then fading to
16 green and yellow.

17 **Q** Did you notice any swelling to Darren
18 Wilson face?

19 **A** Nothing significant, no.

20 **Q** Okay. And, obviously, probably we've all
21 seen pictures and you've probably seen in real life
22 when someone, like the entire side of their face is
23 swollen, that would be something very evident and
24 apparent, correct?

25 **A** Correct.

1 **Q** Are there times when people may have some
2 slight swelling, but you can't tell if that might,
3 they have a chubby face or that's just the way their
4 face looks normally, for example?

5 **A** Correct. Several times patients will come
6 in complaining of swelling and it is just not
7 evident to us because we don't see what their normal
8 tissue looks like on a normal day. So if he
9 complained of any swelling, it wasn't noticeable
10 enough that I could tell.

11 **Q** So you didn't notice any obvious swelling?

12 **A** Correct.

13 **Q** But did you notice a contusion?

14 **A** Some redness, yes.

15 **Q** And what causes a contusion or what can
16 cause a contusion?

17 **A** Any type of trauma really to the soft
18 tissue.

19 **Q** Okay. So can a punch to your face cause a
20 contusion on your face?

21 **A** Yes.

22 **Q** You also put in your records that he
23 complains of having been scratched on the back of
24 his neck?

25 **A** Yes.

1 **Q** And did you examine, look at the back of
2 his neck?

3 **A** Yes.

4 **Q** Did you observe anything that looked
5 consistent with having been scratched?

6 **A** Yes, there were several linear marks,
7 slight puffiness that were consistent with what he
8 described as fingernail scratch marks.

9 **Q** Now, did you, yourself, photograph any of
10 his injuries?

11 **A** I did not photograph anything, no.

12 **Q** Okay. And were you present when his
13 injuries were photographed?

14 **A** I was not present in the examine room, no.

15 **Q** Okay. When you examine Darren Wilson,
16 were there any other people besides yourself and the
17 patient present?

18 **A** Two St. Louis County detectives were
19 present.

20 **Q** Did they question him in your presence?

21 **A** No.

22 **Q** Were they present when you asked him what
23 happened, what happened to your face or anything
24 like that?

25 **A** Yes. They were present the entire time

1 that I was in the room.

2 **Q** I'm going to hand you some photographs
3 that are contained in a packet marked as Grand Jury
4 Exhibit Number 10, and these are images Number 2
5 through 19. And just looking at Image Number 2, for
6 example, does that look like the patient you
7 examined that day?

8 **A** Yes.

9 **Q** Is that how he appeared when you saw him?

10 **A** Yes.

11 **Q** Did you seize any specimens from him by
12 any chance or take anything from him?

13 **A** He submitted a urine drug screen, not to
14 us, but to an outside company called Guardian that
15 we contact for work related injuries.

16 **Q** And you learned that this happened while
17 he was on duty, correct?

18 **A** Yeah.

19 **Q** And so that's considered a work related
20 injury?

21 **A** Yes.

22 **Q** And then is it required that he submit a
23 urine sample for drug testing?

24 **A** It is based on each company's policy and
25 for his department that was required.

1 **Q** Okay. And so did you or another nurse
2 take his urine sample when he was there?

3 **A** No. A representative from the company
4 Guardian comes into the department and handles that
5 full aspect of it.

6 **Q** And the testing of the urine sample is
7 done by that company?

8 **A** Yes.

9 **Q** And then I'm just going to show you some
10 pictures that have been taken while he was at the
11 hospital, do you note any of the redness in any of
12 these pictures in particular that help to
13 demonstrate what you saw that day?

14 **A** Yeah, his primary complaint was to the
15 right side of the jaw, and so you can see a little
16 bit of redness there and a little bit of redness
17 there. We didn't notice any issues to the left side
18 of the jaw.

19 **Q** Did he complain of pain to the left side
20 of the jaw?

21 **A** Very, very mild pain to the left side of
22 the jaw.

23 **Q** Okay. You pointed at an image, which is
24 Image Number 9, showing the redness that you saw on
25 that day?

1 **A** Yes.

2 **Q** And then regarding the back of his neck,
3 and again, these were photos taken by police not by
4 you?

5 **A** Correct.

6 **Q** Are there any of these images where they
7 depict the injuries that you describe or that are
8 shown that we might use?

9 **A** A little bit of redness here at the
10 hairline. It is a little difficult to see in the
11 photograph the actual kind of linear marks that I
12 saw during the examine, but you can kind of see some
13 lines developing with the redness.

14 **Q** Okay. And so you were pointing out Image
15 Number 12 as showing the redness of the hairline?

16 **A** Correct.

17 **Q** And was it in this area that you saw the
18 linear marks?

19 **A** Yes.

20 **Q** Now, just for sake of clarity, this mark
21 that goes like horizontal across at his hairline,
22 that's not a scratch, is it?

23 **A** That's just normal skin fold.

24 **Q** A skin fold?

25 **A** Yes.

1 **Q** At my age we call them wrinkles?

2 **A** Right.

3 **Q** Okay. So the redness to the back of the
4 neck you were describing is this area here, along
5 the hairline, right?

6 **A** Yes.

7 **Q** Did you notice any swelling in that area?

8 **A** No.

9 **Q** Did he talk about any pain in that area?

10 **A** Nothing of significance, no.

11 **Q** Now, and I talked to you just briefly
12 before this and I told you that Officer Wilson was
13 photographed, similar photographs were taken of him,
14 I believe, on the 13th, which would have been
15 actually on the 12th. And I asked you, we talked
16 about bruising and how bruises appear and how long
17 it takes bruises to appear.

18 In these photographs do you see any
19 apparent bruising that might demonstrate that is
20 consistent with your diagnosis of a contusion?

21 **A** It appears the redness that he had
22 initially has resolved. I don't see any of the
23 purple discoloration that sometimes follows
24 contusions.

25 **Q** So the fact that you do not see any of the

1 redness three days, I'm not sure what time those
2 pictures were taken, but let's just say roughly
3 three days after the injury resulted or occurred,
4 does that change your opinion as to the diagnosis?

5 **A** No, because it will not always progress to
6 that point that it turns into that distinctive
7 purple bruising that we are used to seeing.

8 **Q** You still, in your opinion, is the same
9 that you've diagnosed Darren Wilson with a contusion
10 of his mandible?

11 **A** Yes.

12 **Q** And he was x-rayed and there is no
13 fracture or any other injuries to his jaw or face;
14 is that right?

15 **A** Right, yes.

16 MS. ALIZADEH: Sheila, do you have
17 anything?

18 MS. WHIRLEY: Um, yes. Progressing from
19 redness to the face to bruising, which you looked at
20 the photos of him a couple of days later and there
21 was no bruising according to the photos, and you
22 only saw redness on the face, correct, no bruising?

23 **A** Correct.

24 MS. WHIRLEY: Progressing from the redness
25 of the face to a bruise, would that depend on the

1 impact, how hard a person is struck?

2 **A** Yes. You know, generally the harder the
3 impact, the more blood vessel involvement. So a
4 bruise is caused by broken blood vessel. So the
5 harder the punch, the harder the impact, the more
6 likely you are to have more blood vessels being
7 broken. And that's when those blood vessels start
8 to bleed, that's what creates that purple
9 discoloration as that blood kind of seeps out
10 underneath the layer.

11 MS. WHIRLEY: If the face is red, but
12 never turns purple, does that mean that the impact
13 was not hard enough to break any blood vessels?

14 **A** It was likely that the impact just
15 involved the very superficial capillary layers, as
16 opposed to deeper tissue which would result in the
17 deeper purple bruising.

18 MS. WHIRLEY: Okay. I don't think I heard
19 this asked, he did not require any hospitalization,
20 did he?

21 **A** No.

22 MS. WHIRLEY: So he was treated and
23 released?

24 **A** Yes.

25 MS. WHIRLEY: Did he have any injuries to

1 his eyes at all?

2 **A** No, he did not complain of any eye pain or
3 nose pain or tooth pain or any head pain.

4 MS. WHIRLEY: Head pain you said.

5 **A** No head pain. There was no evidence of
6 any injury to these areas.

7 MS. WHIRLEY: So in your opinion there are
8 no permanent injuries?

9 **A** Correct.

10 MS. WHIRLEY: And you said there were no
11 fractures. Would he have needed to take time off
12 because of the injury that he was treated for?

13 **A** No.

14 MS. WHIRLEY: No. And as far as the
15 document saying that he was injured by being
16 stricken or however it is phrased, that is his
17 self-reporting, correct?

18 **A** Correct.

19 MS. WHIRLEY: You could see redness to the
20 face and nobody was even struck; is that correct?

21 **A** Could you see redness of the face?

22 MS. WHIRLEY: Yes.

23 **A** If he had redness to the face, there was
24 obviously some sort of trauma to the soft tissue.
25 But we gather that it was from a punch to the face

1 based on his account.

2 MS. WHIRLEY: Based on what he told you,
3 self-reporting?

4 **A** Yes.

5 MS. WHIRLEY: I could get redness to the
6 face from several different ways or mechanism?

7 **A** Yes. If you rub your face too hard with
8 your hand, you could get redness to it.

9 MS. WHIRLEY: And not have a broken blood
10 vessels to give me a bruise?

11 **A** Yes, right.

12 MS. WHIRLEY: That's all I have, thank
13 you.

14 MS. ALIZADEH: Just real quickly. The
15 injury that you saw, is it consistent with what he
16 reported?

17 **A** Yes.

18 MS. ALIZADEH: Any questions?

19 Where is your place located
20 because I'm trying to determine how far, I'm
21 concerned about that home answer on the application.

22 **A** Okay.

23 : Where is your place located?

24 **A** So we are in Florissant. We are right off
25 of Graham Road. Hanley and 270.

1 : Hanley and 270 on Graham
2 Road.

3 **A** On Graham Road, yes.

4 So you are right across the
5 street from the physician building?

6 **A** Yes, yeah.

7 You said the area and the
8 severity of the injury can be affected by how the
9 bruise continues to manifest itself, correct?

10 **A** Yes, a worsening, a deeper bruise
11 typically indicates a more severe injury.

12 : And Naprosyn is an
13 anti-inflammatory drug.

14 **A** Yes.

15 : So with the application of
16 ice, what you told him to do, apply ice.

17 **A** Yes.

18 And consumption of an
19 anti-inflammatory also have an affect on how the
20 bruising would manifest itself?

21 **A** Yes. So the sooner ice is applied, the
22 sooner anti-inflammatory medicines are taken, the
23 more likely that a bruise or injury would resolve
24 sooner than if no treatment were taken.

25 : Was he given any

1 anti-inflammatory drug while he was there?

2 **A** Yes, he was given a single dose of
3 Naprosyn.

4 : And a single dose is 500
5 milligrams?

6 **A** Yes.

7 And that's stronger than
8 anything you can buy, you can't buy Naprosyn over
9 the counter?

10 **A** No.

11 That's very close to
12 Ibuprofen?

13 **A** It is. It was Aleve, so basically
14 prescription strength Aleve.

15 Okay. You mention that you
16 saw no swelling, but prescribed this Naprosyn; is
17 that correct?

18 **A** Yes, there was no swelling that was seen.
19 Just the redness.

20 **A** Just the redness. Naprosyn is also a pain
21 reliever. So even without any evidence with his
22 complaint of pain, we would have prescribed
23 something similar.

24 : Could you explain a little
25 bit to us how that pain portion of that. So when

1 you ask a patient for pain, kind of how that relates
2 to what they feel versus what you as a professional
3 can evaluate?

4 **A** The pain scale, is that what you mean?
5 Yes.

6 **A** That is very subjective. So that the way
7 that it is worded generally is, rate your pain on a
8 scale of one to ten, ten being the worse pain that
9 you've ever experienced or could ever imagine
10 experiencing. So for someone who has never
11 experienced much pain in their life may have what
12 others would call relatively mild pain, but still
13 may be the worst pain that they personally ever
14 experienced. They may rate it on a higher scale.

15 So it very much differs from
16 person to person.

17 **A** Yes.

18 Nothing that a doctor or
19 nurse no matter their education or training could
20 disagree with or agree with?

21 **A** It is not, there's no set guidelines as
22 far as a three is this degree and a seven is this
23 degree, it is very subjective.

24 Thank you.

25 What are some of the side

1 effects of the Naprosyn, is there any warning on
2 there do not operate machinery while taking this
3 drug?

4 **A** No, it is generally well tolerated. If
5 anyone is going to experience anything it may be a
6 little bit of stomach upset, but because it is
7 nonnarcotic, there should not be any interference
8 with operating machinery or driving a car or
9 anything like that.

10 : I'm looking on page eight of
11 11.

12 MS. ALIZADEH: Can you speak up a little
13 bit?

14 I'm sorry, on page eight of
15 11, where it says transcriptionist, was it
16 transcribed date and time August the 9th, 2014 at
17 10:18 p.m.

18 **A** Uh-huh.

19 : Are you saying this
20 radiologist was reading the report?

21 **A** The radiologist reads the report, and then
22 a transcriptionist, someone that -- so a radiologist
23 will read a report and dictate it into a phone. And
24 then someone outside of the building, outside of the
25 practice will then type it out at a later time.

1 MS. WHIRLEY: Did he tell you anything
2 else?

3 A No.

4 MS. WHIRLEY: Okay.

5 Could an arm keep rubbing on
6 a face, could that have made the face red?

7 A Yes.

8 : Injuries like this, is that
9 something typically you would see on a day-to-day
10 just because the incident happened, we have to make
11 sure we get this documented?

12 A This is something that we would typically
13 see day-to-day. We see a lot of assault victims,
14 not necessarily always regarding a police officer at
15 work, but just anyone in general. But we do see a
16 lot of our local police department coming in with
17 various injuries that they sustain on-the-job. This
18 was by no means out of the ordinary what we do see
19 day-to-day.

20 MS. WHIRLEY: Do you see regular people,
21 lay people come in with a red face looking for
22 treatment?

23 A Yes.

24 MS. ALIZADEH: Ma'am, would you also,
25 someone who maybe reports being struck twice in the

1 face who has that type of injury that you observed.
2 You might, you actually in this case decided to do
3 x-rays to see if he had a fracture, correct?

4 **A** Yes.

5 MS. ALIZADEH: If he had a fracture, there
6 would be possibly other treatment involved?

7 **A** Yes.

8 MS. ALIZADEH: So I guess what I'm trying
9 to get at is obviously there's potential that this,
10 somebody wanted to document this because obviously
11 work related injuries, people want documented, and
12 in the event that this was, you know, again
13 investigated in a criminal nature or to maybe
14 ascertain whether or not there was a more severe
15 injury than simply my jaw hurts and it's red?

16 **A** Right.

17 MS. ALIZADEH: Okay.

18 I have a question.

19 Considering that you did give Naprosyn, did you feel
20 that there was a need to prescribe an
21 anti-inflammatory instead of just a pain killer, did
22 you feel that the injuries looked like, you know, an
23 anti-inflammatory was needed?

24 **A** Yeah, given the injury. Usually, whether
25 it be a contusion or a sprain or a strain, we do try

1 to do anti-inflammatory medicines versus like a
2 narcotic pain reliever. Simply because it does have
3 that anti-inflammatory effect, which generally helps
4 with the pain and helps resolve the injury a little
5 bit more.

6 I kind of secondarily prescribe
7 Naprosyn versus a narcotic because I knew that he
8 was going to be submitting a urine drug screen and I
9 did not want something that I gave him to interfere
10 with that.

11 Did you feel his injuries
12 were consistent with the need to have an
13 anti-inflammatory drug?

14 **A** Yes.

15 : At any time did Darren
16 Wilson mention he had already seen an EMT?

17 **A** No, he did not.

18 MS. ALIZADEH: Anyone else?

19 (End of the testimony of .)

20 MS. ALIZADEH: So Kathi Alizadeh, it is
21 about two minutes after 2:00. We just finished with
22 the last witness of the day and you were scheduled
23 to be here till 2:30. I think it is a good idea if
24 you want to cut out now.

25 We talked off the record earlier today

1 about scheduling and things that you might need
2 because as we all have said, we're getting close to
3 the end. Did you have a chance to talk during your
4 lunch hour about whether or not you thought you
5 might want some additional evidence or witnesses
6 that you haven't heard yet or seen yet or whether or
7 not you want to recall any witnesses that you've
8 already heard from that you now have questions for?
9 Did you all talk about that at all?

10 : We haven't talked about, I
11 don't think there is anybody at this point. It is
12 possible when we start getting into the
13 deliberations that, you know, if there is a
14 controversy, we may want to recall somebody. I
15 would not expect that to be the case.

16 MS. ALIZADEH: Here is our plan. Y'all
17 are here Thursday till 5:00. As I mentioned
18 previously, Dr. is going to be here and I
19 think he's going to be here at 8:30. He will be the
20 first witness of the day. We still are trying to
21 track down up to five lay people that may or may not
22 show up on Thursday.

23 And then, of course, we talked about
24 Detective being kind of the last witness who
25 would wrap things up and kind of summarize and

1 answer any leftover questions that you might have
2 about the investigation.

3 I didn't realize when we started up that
4 we didn't have all 12 grand jurors, we weren't
5 hearing evidence, we were just talking about the end
6 of the day has come and that if any additional
7 witness or evidence I need you to get that to me as
8 soon as possible.

9 Thursday at 8:30 we are going to start
10 with Dr. . We may have some lay witnesses if I
11 can find them, then may be testifying if
12 we have the time, he's going to be the last witness
13 of the grand jury.

14 And then you may or may not if Thursday is
15 our last day, you may or may not begin your
16 deliberations then. And as I said before, you know,
17 the end of the day is at 5:00. You want to keep
18 going until 6:00, 7:00, 8:00, 9:00, it doesn't
19 matter to us. We're here, be here as long as you
20 need.

21 If you do not begin deliberations that day
22 or if you don't complete your deliberations that
23 day, the next day you have scheduled is the
24 following Friday, a week, a little more than a week
25 after that. So that would be right now the plan is

1 that if we don't finish the evidence, we will see
2 you on that following Friday.

3 If we do finish the evidence, it will
4 begin deliberations and continue or you'll come back
5 the following Friday. Is that a plan that everybody
6 is okay with? Okay.

7 In the meantime, I know you have asked for
8 someone to help you in your deliberations.
9 Obviously, things to write with and things to put on
10 the wall. Did they show you the thing we are going
11 to put on the wall?

12 It is a like this, it is big enough to
13 push pins into, but it is bigger than that. I think
14 we might try to put a couple of these two things
15 right here. And then if you need more, we'll get
16 more.

17 We're going to have a flip chart, we have
18 the easel which is excellent and then we'll give
19 you, you know, Posted Notes, push pins, everything
20 else. If you want different color highlighters
21 because you are doing that, we'll get you whatever
22 you need.

23 And with that, any questions at the end of
24 the day as we are coming to a close?

25 Also the charges, what do

1 you call them?

2 MS. ALIZADEH: We're going to do that
3 tomorrow, because we didn't have time last night and
4 today we started up with this. Either the rest of
5 today or by tomorrow we will give to you for
6 indictments for you to consider and then we'll give
7 you the law on self-defense because we've already
8 given you the excessive force or the use of force
9 statute.

10 Anything else?

11 MS. WHIRLEY: We still talking about the
12 probable cause and that standard.

13 MS. ALIZADEH: We had a conversation with
14 that even last night and we still have to kind of
15 work that out, we're not really sure.

16 : Probable cause, you are
17 still looking at?

18 MS. ALIZADEH: We both agree that you
19 can't return an indictment unless you believe there
20 is probable cause to believe that a crime occurred
21 and that the defendant or suspect or the person
22 you're considering committed it. But the question
23 is, if you're going to consider self-defense and use
24 of lawful use of force to affect an arrest are
25 affirmative defenses and they're what we call

1 complete defenses.

2 And so if you believe that the person
3 acted in lawful self-defense or if you believe the
4 person was justified in the use of force as a law
5 enforcement officer, then it is a complete defense,
6 there would be no indictment on any charge.

7 The question we don't really know is that
8 beyond a reasonable doubt, what is the standard by
9 which you have to consider that.

10 MS. WHIRLEY: Those two issues.

11 Will that be outlined in
12 writing for us as well?

13 MS. ALIZADEH: I don't know because we
14 don't know. If this matter were a trial, it would
15 be different because, obviously, in trial it is
16 beyond a reasonable doubt. And in trial it is the
17 obligation of the defense to raise the issue, and if
18 the issue is raised, it becomes the obligation of
19 the State to prove beyond a reasonable doubt that
20 the person did not act in lawful self-defense or was
21 not justified in the use of force, but that's in a
22 trial setting.

23 So we don't know how this, this
24 investigation was, we talked about yesterday, is not
25 typical on how we would present cases to the grand

1 jury. This is an investigation and I believe, and I
2 think Sheila agrees, I don't want to speak for you,
3 that your determination of whether or not force was
4 justified either as self-defense or use of force to
5 affect an arrest is a part of your decision process.

6 So that's something for you to consider.
7 I don't think the answer is simply, well, we believe
8 that a crime was committed, you know, probable cause
9 to believe a crime was committed and he did it and
10 not at all talk about those defenses.

11 But I don't know, we don't know what kind
12 of instruction to give you on, do you have to
13 believe that there's probable cause to believe that
14 he used excessive force. I don't know, we don't
15 know that. We don't want to tell you the wrong
16 thing. So we're still trying to work that out.

17 Okay. I hope I haven't said too much. We
18 want you to make the right decision, we want your
19 decision to be based on the law. And given that
20 neither Sheila nor I have ever had this experience
21 before and actually, we talked, there's only been
22 one grand jury investigation on officer's use of
23 force in the past 15 years that anybody can
24 remember, so we're kind of not sure how to proceed.

25 MS. WHIRLEY: We'll get it.

1 MS. ALIZADEH: We'll get you that
2 instruction. It will be up to us whether we are
3 right or wrong, but we will give you that guidance.

4 We are your legal advisers under the law,
5 that's what our job is to tell you what the law is.
6 Of course, presenting all the evidence that we can
7 present for you and then you all are going to have
8 to make of that what you will.

9 All right. So at this point, we will
10 conclude the day and we will see everybody on
11 Thursday at 8:30.

12 (End of the grand jury hearing Volume
13 XXII.)

2 State of Missouri

3 SS.

4 County of St. Louis

5 I, a Licensed Certified Court
6 Reporter by the Supreme Court in and for the State
7 of Missouri, duly commissioned, qualified and
8 authorized to administer oaths and to certify to
9 depositions, do hereby certify that pursuant to
10 Notice in the civil cause now pending and
11 undetermined in the County of St. Louis, State of
12 Missouri.

13 The said witness, being of sound mind and being
14 by the grand jury first carefully examined and duly
15 cautioned and sworn to testify to the truth, the
16 whole truth, and nothing but the truth in the case
17 aforesaid, thereupon testified as is shown in the
18 foregoing transcript, said testimony being by me
19 reported in shorthand and caused to be transcribed
20 into typewriting, and that the foregoing page
21 correctly sets forth the testimony of the
22 aforementioned witness, together with the questions
23 propounded by counsel and grand jurors thereto, and
24 is in all respects a full, true, correct and
25 complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XXIII

2 MS. ALIZADEH: Good morning. It is
3 Thursday, November 13th at 9:26 a.m. This is Kathi
4 Alizadeh of the prosecutor's office, Sheila Whirley
5 is present, all 12 grand jurors are present, as is
6 the court reporter. And I apologize, we're kind of
7 getting a late start. We have our first witness in
8 the morning here. We've had to meet with him a bit
9 and he's reviewing some materials right now and then
10 we had a discussion briefly before going on the
11 record this morning about scheduling and about what
12 might be in store for today. And then for the dates
13 in the future that you have already given us and so
14 with that being said, we'll just start the day and
15 Sheila will take the first witness of the day who is
16 Dr. .

17 MS. WHIRLEY: He's looking at some
18 photographs, so he needs just a few more minutes.

19 MS. ALIZADEH: All right. We'll go ahead
20 and pause the recording.

21

22

23

24

25

1 we've met, I'm Sheila Whirley, Kathi Alizadeh is
2 here, the jurors and the court reporter, tell us a
3 little bit about yourself, Doctor. We know you're a
4 pathologist, correct?

5 **A** Yes.

6 **Q** Are you a forensic pathologist?

7 **A** Yes.

8 **Q** What exactly --

9 MS. ALIZADEH: Sheila, for the record, I
10 don't think he said his name. We haven't had him
11 introduced.

12 MS. WHIRLEY: We had talked a little bit
13 about that, I guess I skipped that step.

14 **Q** (By Ms. Whirley) Please introduce yourself
15 and say your name and spell your name?

16 **A** ,

17 **Q** And in the future what I'm going to try to
18 do and that's probably why I skipped asking, I'm
19 going to refer to you as doctor and not use your
20 name for many reasons.

21 **A** Okay, thank you.

22 **Q** Getting back to forensic pathology. What
23 does that mean?

24 **A** Pathology is one of the 24 specialties in
25 medicine, like OBGYN, dermatology, surgery,

1 pathology is a specialty that deals with finding out
2 what's wrong with the body as opposed to treatment.

3 So we're the doctors in the hospital
4 who run the laboratory to see what the blood count
5 is, what the PSA is, what the liver chemistries are
6 and tell the treating doctors if there is evidence
7 of liver disease or kidney disease or prostate
8 problems, and that's the pathologist's role in the
9 hospital communicating with doctors who are treating
10 patients.

11 Also, the pathologist's role is
12 looking at biopsies, you know, breast biopsies, skin
13 biopsies, to tell the treating doctor what kind of
14 condition, cancer, not cancer, something else. And
15 then the treating doctor does the treatment.

16 **Q** Okay.

17 **A** So there are a number of divisions in
18 pathology. The biggest division is hospital
19 pathology. Where the pathologist looks at the
20 biopsies, do autopsies, find out what's wrong with
21 the patient, look at the chemistry of the body.

22 And there are separate examinations,
23 board examinations so that in all 24 fields, so that
24 a patient looking for a doctor can tell whether the
25 dermatologist has passed his boards or not and all

1 the specialties have to do you have to show the
2 right training in the medical school, the right
3 training in the residency program and pass various
4 exams. And if so, then one is a diplomate or board
5 certified physician, and that's of importance for
6 others to know the extent of expertise that person
7 has before going to the doctor.

8 Pathology has three big divisions
9 that I'm involved with. One is anatomical
10 pathology, which has to do with the anatomy of the
11 body. That's where autopsies, looking at biopsies
12 under the microscope and tissues under the
13 microscope, is evaluated to see what the anatomical
14 structure of the body is and what's normal or not,
15 that's anatomical pathology.

16 Second division will be clinical
17 pathology, which has to do with the chemistry of the
18 body to see what's the blood count and the urine
19 testing, et cetera, which gives us information about
20 body function or organ functions.

21 And that's the prime role in
22 hospitals, anatomical and clinical pathology.
23 Forensic pathology goes a step further to look into
24 unnatural deaths, accident, suicide, homicide.

25 92 percent of people in the country

1 die of natural diseases cancers, stroke, heart
2 disease. And that's the expertise of the hospital
3 pathologist, clinical pathology, anatomical
4 pathology.

5 8 percent die of accident, suicide,
6 homicide and that's specialized training of forensic
7 pathologists. The general in this country there is
8 something like 900,000 physicians, maybe 20,000 are
9 pathologists, less than 400 are forensic
10 pathologists that deal with unnatural death and
11 that's where the forensic pathologist comes in.

12 **Q** Is that your current occupation?

13 **A** Yes.

14 **Q** Where are you licensed, Doctor?

15 **A** I'm licensed in New York State.

16 **Q** And have you served as a medical examiner
17 in New York State?

18 **A** Yes.

19 **Q** How many autopsies would you say that you
20 have performed as a forensic pathologist?

21 **A** More than 20,000.

22 **Q** Okay. And you are certified, of course,
23 in forensic pathology?

24 **A** I'm certified in anatomical pathology,
25 clinical pathology, forensic pathology, this is

1 about my background. I served as medical examiner
2 in New York City for 25 years, including the role of
3 chief medical examiner in New York City. And then I
4 transferred to the State of New York and I was chief
5 forensic pathologist for the New York State Police
6 for some 25 years.

7 Recently retired, and I'm in private
8 practice of forensic pathology.

9 Q How many years total would you have in
10 experience?

11 A More than 50 years.

12 Q Okay. Have you any experience, are you a
13 toxicologist also?

14 A No, I'm not a toxicologist who specializes
15 in finding drugs, but all forensic pathologists have
16 to be experts in interpreting what the toxicologist
17 finds. So the toxicologist's role is largely
18 chemistry and finding drugs, finding quantities, how
19 much of the drug is present, but it is really the
20 physician, medical doctor who interprets the results
21 and sees how it affects any illness the person has
22 or affects what treatment should be given.

23 Q And where did you receive your training,
24 your training in pathology?

25 A Started out with a bachelor of science

1 degree at the City College of New York. Medical
2 degree at New York University School of Medicine in
3 Manhattan, New York, and trained in pathology at
4 Bellevue Hospital and at the office of Chief Medical
5 Examiner in New York City.

6 **Q** I didn't ask you to bring your CV with you
7 today, would you happen to have a CV of your
8 training experience with you?

9 **A** I don't think so, but I could get it to
10 you this afternoon.

11 **Q** That would be great that we can count on
12 that to get that later.

13 **A** Yes.

14 **Q** So tell us, you already told us how many
15 autopsies you performed, tell us exactly what is an
16 autopsy?

17 **A** Autopsy is a systematic external and
18 internal examination of the human body to determine
19 any abnormalities that might be present and any
20 information that might be useful in determining
21 cause of death of how a person died.

22 An autopsy will include taking
23 specimens for toxicology, for DNA, for microscopic
24 examination to look at tissues. So that the autopsy
25 can provide a lot of information about cause of

1 death and the circumstances around death.

2 **Q** We're here today because of the shooting
3 of Michael Brown and we've asked you to come before
4 us because you actually did what sounds like was a
5 private autopsy on Michael Brown; is that correct?

6 **A** That's correct.

7 **Q** You were aware that he had a first autopsy
8 that was performed by St. Louis County?

9 **A** Yes.

10 **Q** Medical Examiner's Office in St. Louis
11 County.

12 Do you recall when you would have
13 done your autopsy, what date that would have been?

14 **A** Yes, it was Sunday, I came on Sunday
15 around August, hold on a second. About August 17th,
16 I guess, August 17th of this year.

17 **Q** August 17th?

18 **A** That would have been a Sunday.

19 **Q** Okay. And he actually died on August the
20 9th is our information?

21 **A** Yes.

22 **Q** So the County had performed an autopsy a
23 week prior to you performing your autopsy; is that
24 correct?

25 **A** Yes.

1 **Q** How did you get invited to do that
2 autopsy, or how did you examine become involved in
3 that?

4 **A** As I recall, I was called by an attorney
5 for the family, Mr. was the attorney for the
6 family, and he called me and asked if I could come
7 and do a second autopsy.

8 **Q** And now that you are in private practice,
9 how long have you been in private practice?

10 **A** Well, part of being a medical examiner, my
11 50 years starting in New York City was to do private
12 practice in addition to medical examiner work in
13 part because traditionally medical examiners always
14 work for counties and always got paid less than
15 other doctors, they make up on it, you can do some
16 private work. So I do private work also, but since
17 2012, I think, I've been doing more private work
18 when I retired from the State Police.

19 **Q** And does that consist of you doing second
20 autopsies generally?

21 **A** Well --

22 **Q** Or additional autopsies?

23 **A** It generally consist of reviewing records.

24 **Q** Okay.

25 **A** However, it also includes doing second

1 optionies, doing first autopsies, and testifying
2 about the findings sometimes.

3 **Q** Now, and you mention money, so that kind
4 of prompts me to ask this question. Were you paid
5 to do this autopsy concerning Michael Brown?

6 **A** No, I am doing this pro bono and about a
7 third of the work I do is pro bono.

8 **Q** How do you make that decision what's going
9 to be pro bono?

10 **A** A lot of that is how much, whether the
11 family can afford it or not. If an autopsy is
12 indicated, then I would work it out if they can't
13 afford to pay anything, do it for pro bono and that
14 involves a lot of work for families and for
15 institutions, some institutions.

16 You have to pay for the
17 expenses of the travel and the hotel here or the
18 family pay for that?

19 **A** Um, my expenses coming and going is paid
20 for by the attorneys. They pay for that, yes.

21 Thank you.

22 **Q** (By Ms. Whirley) Where did you perform
23 your autopsy at?

24 **A** It was the funeral home where the body was
25 removed from the Medical Examiner's Office, if I

1 recall, the Lane Funeral Home who had been hired by
2 the family to do the burial services.

3 Q Was the body embalmed when you made
4 contact with the body for the first time?

5 A Yes, when I saw the body on Sunday, the
6 17th, the body had already been embalmed.

7 Q Does that affect your finding in any way?

8 A It does have an affect. I prefer to do
9 autopsies without embalming. One, it interferes
10 with a lot of toxicology if that were needed because
11 the embalming process changes the chemical makeup of
12 the body.

13 But also it changes the way injuries
14 look, the embalming process is largely formaldehyde,
15 replacing blood in the body, does change the
16 appearance of the wounds on the body and so to that
17 extent.

18 Q Did you feel that you were able to look at
19 the body, and I'm sure I'll ask you in a minute, all
20 the documents and information that you have viewed
21 or inspected to come up with your findings, did you
22 feel that you were able to make an accurate finding
23 though based on even the body being embalmed
24 already?

25 A I thought I could make an approximate

1 finding.

2 Q Okay.

3 A I could tell bullet holes.

4 Q Okay.

5 A For example, but some bullet holes may be
6 difficult to tell entrance or exit after the body is
7 embalmed. And certain injuries are diminished in
8 appearance because the embalming process takes out
9 color from the body, it causes the color to be gray
10 in the body, more so than during life.

11 Q Tell us what information, documents or
12 things that you inspected to come up with your
13 finding, and you did not write a report. You just
14 recently viewed some things that were necessary; is
15 that right?

16 A Yesterday I viewed a lot of materials that
17 are important in arriving at conclusions. So what
18 I'm telling you today incorporates much of what I
19 saw yesterday.

20 Q Tell us everything you viewed to come to
21 your conclusions?

22 A Initially, initially, I do the decedent,
23 Mr. Brown, who had already been autopsied, that also
24 changes, the autopsy itself can change appearance of
25 injuries and wounds, especially things that are

1 removed from the body. Obviously, bullets are
2 removed. We can't see where the bullets wound up,
3 but we see the spaces where they were.

4 The organs are dissected, there are
5 changes in appearance of wounds just on the basis of
6 the first autopsy and the embalming adds onto it.

7 So I asked at the beginning, and
8 yesterday I was able to see the following of those.
9 Went to the Medical Examiner's Office, very
10 courteous and professional. They have photographs
11 and x-rays, they took a lot of x-rays.

12 **Q** What do the x-rays help you with?

13 **A** The x-rays show what the body looked like
14 before the autopsy was done. The x-ray was taken
15 before, about 30 x-rays or so. They show fractures
16 that were there because sometimes during an autopsy
17 the person doing the autopsy causes fractures,
18 necessary to open up the chest cage and things.

19 **Q** Okay.

20 **A** And so the x-rays are the best indicator
21 where the bullets are, can see right where the
22 bullets were, which bones were intact and which
23 bones were fractured before the incisions were made.

24 **Q** I see.

25 **A** The autopsy is done with two incisions.

1 One for the chest and abdomen, and one for the head.

2 And that, so that was helpful. There
3 were x-rays and photographs. The photographs,
4 though, at the Medical Examiner's Office were all
5 after the first autopsy was done. That is after the
6 autopsy sutures and all and went from the Medical
7 Examiner's Office to the police department and there
8 was able to view the autopsies (sic) the police took
9 and they took many photographs of the body before
10 the autopsy was done. They were extremely helpful.

11 Q We have some of those photographs.

12 A Yes, I went through some that might be
13 helpful.

14 Q Okay.

15 A And that answered a lot of questions I had
16 as to entrance, exit, closeness of the gun at the
17 time of discharge.

18 I also looked at clothing, the
19 clothing was very important. Clothing is always,
20 the two most important to the hospital pathologist,
21 90 percent, 95 percent of pathologists in the
22 country, hospital pathologists, the most important
23 part of an autopsy is internal organ, the heart, the
24 brain, the lungs, kidneys, they're important, that's
25 where natural diseases occur.

1 To the forensic pathologist the most
2 important is the skin, that's where we see all
3 patterns of injury, we see forensic evidence, trace
4 evidence, blood, hairs, fiber, semen, saliva, that
5 can be on the outside of the body.

6 And the skin, the clothing is part of
7 the skin to us because the clothing and the skin
8 contain patterns of injury, gunshot powders, cut
9 wounds, and also trace evidence.

10 At the police headquarter building
11 was able to look through and see all of the many
12 photographs that were taken by the police and in the
13 body in the virgin state for us. Having not been
14 washed or touched or anything and the clothing.

15 **Q** The clothing, the x-rays, the body, you
16 actually saw the body?

17 **A** Yes.

18 **Q** Did you review the reports from, well,
19 from Dr. 's report?

20 **A** I'm sorry, about a week or two ago I was
21 sent a leaked report, a leaked autopsy.

22 **Q** What did you call it?

23 **A** Leaked.

24 **Q** Leaked?

25 **A** That means it wasn't officially, it wasn't

1 officially released. I'm always concerned about
2 leaked information as to how accurate it is. And
3 yesterday when I went to the Medical Examiner's
4 Office, I was provided with an official copy with
5 the gross autopsies, the microscopic studies and
6 toxicology, which turned out to be pretty similar to
7 what had come out before, but the family still has a
8 copy too. If I may interject.

9 Q Sure.

10 MS. ALIZADEH: I'm sorry, if you may what?

11 A Interject about the family. The reason
12 that I was called by Mr. , you know, a week
13 later rather than right away, sometimes families are
14 concerned about a death, they want a second autopsy,
15 they don't trust the first one necessarily, they
16 call the next day. The reason that there was a week
17 delayed as explained to me is that the family had
18 been waiting for some information about the death,
19 cause of death, for example.

20 And also I find, in all our work as
21 medical examiners when we see next of kin and
22 whether it's everyday work or situation like this,
23 one of the questions the family often has is did he
24 suffer, did my loved one suffer in dying.

25 One of our job as medical examiners

1 is explain what happened and to try to make it as
2 less suffering as possible, make them feel a little
3 bit the art of being a medical examiner.

4 In this incident they hadn't heard
5 anything, they read the stuff in the newspaper. The
6 reason I came down was to do my examination because
7 they didn't know they were going to get information
8 as to cause of death. They know he was shot, they
9 didn't know how much he was shot and where he was
10 shot. To this day they still haven't received a
11 report. I got it yesterday, the family hasn't
12 gotten an official report so that's one of the
13 reasons why families get a second autopsy. I'm a
14 great believer in media transparency, that's another
15 topic.

16 So when I met with the family that
17 was the first question was, did he suffer. I
18 explained when that, one of bullet wounds in the top
19 of the head went through the brain, that immediately
20 caused him to lose consciousness. So that made them
21 feel a little better he wasn't laying around in
22 pain.

23 Q Okay.

24 A Then I gave my opinion about at least six,
25 there was a press conference that occurred the next

1 day, that there were from what I could see at least
2 six bullets struck the body.

3 Q We're going to get to that.

4 A So that's --

5 Q Okay.

6 A Even though I hadn't had all the new
7 information, I'll paraphrase it, that's the kind of
8 information I could give.

9 Q Since you have gotten some additional
10 information as recent as yesterday, that doesn't
11 change your opinion as to how many shots the body
12 received though?

13 A No, I think that in going over everything,
14 my opinion now is that there were seven bullets that
15 struck the body.

16 Q We'll go through that in just a minute.
17 So you did get a chance to review the medical
18 examiner's report and also the toxicology report; is
19 that correct?

20 A Yes.

21 Q And there was a microscopic skin --

22 A Microscopic slides.

23 Q Slides, go ahead.

24 A Of the skin. Microscopic slides of the
25 skin of the hand wound.

1 **Q** You determined it was a hand wound?

2 **A** Well, yes, but they told me that.

3 **Q** Someone told you it was a hand wound? You
4 didn't make that determination? In your opinion was
5 it a hand wound?

6 **A** Yes, yes. Slides, you know, are labeled,
7 so that, and the only slide because that was the
8 only slides they took.

9 **Q** Okay.

10 **A** They didn't do microscopic examine of the
11 heart, lung, all of that, which is usually done.
12 The only sections that they make slides out of was
13 the right-hand wound.

14 **Q** We have photos of that?

15 **A** And some tissue that was taken from the
16 car, the police car.

17 **Q** Did you look at all of that?

18 **A** Yes.

19 **Q** Okay. Were you given access to what you
20 needed in order to come up with your findings and
21 conclusions?

22 **A** Yes.

23 **Q** All right. I'm going to let you look at
24 some photographs. And I'm going to does you some
25 questions while you are looking at the photographs

1 and these are photographs that you thought might be
2 helpful in you explaining the injuries to Michael
3 Brown, correct?

4 **A** Yes.

5 **Q** Okay. Let me ask you before I go into the
6 photos, did anyone assist you with your, with the
7 autopsy?

8 **A** Yes.

9 **Q** Who assisted you?

10 **A** There was a young man named

11 **Q** Is he also a medical examiner or a doctor?

12 **A** No, no, he was a person that had been
13 hired before I got there, it was days before I got
14 there. Who was an assist to the autopsy. Everybody
15 in an autopsy needs an assistant, often the funeral
16 director to help move the body and things like that.
17 And in this instance they had
18 engaged, I'm not sure what this young man who was to
19 assist.

20 **Q** Because you didn't hire him, he wasn't
21 someone on your team that you brought in?

22 **A** No.

23 **Q** Had you met him before?

24 **A** Not that I recall. He brought a
25 photograph that about ten years ago when he was a

1 student, not medical student, at the University of
2 Kansas and I came to the University of Kansas to do
3 an autopsy in some controversial matter that he was
4 a student, had worked summers at the medical
5 examiner's office there and he was there. I signed
6 a picture for him and he brought the picture and to
7 remind me, he was, I think, a college student at
8 that time.

9 Q Okay.

10 A But I had never worked with him or
11 anything.

12 Q I see. So let's go back to the funeral
13 home that Sunday. Was it early in the morning when
14 you went to the funeral home that Sunday to do the
15 autopsy?

16 A I came in early morning by plane from New
17 York and I guess it was 11:00, 12:00, 1:00 when I
18 started the autopsy. I was picked up at the airport
19 in St. Louis and brought down to the funeral home
20 and shortly thereafter, began the re-autopsy.

21 Q Re-autopsy. How long do you think that
22 re-autopsy took?

23 A Oh, probably about four hours or so, plus
24 or minus an hour, take a few hours.

25 Q When you first saw the body, what

1 condition was it in? I know it was embalmed, I
2 mean, was it ready for autopsy or was, go ahead.

3 **A** The body had been, the body had been in
4 the funeral parlor long enough to be embalmed, so it
5 had been there for a few days. The body was on a
6 table, one of the embalming tables in the funeral
7 parlor similar to autopsy tables ready for
8 re-autopsy.

9 **Q** What does that look like when you say
10 ready for re-autopsy?

11 **A** I think it was, I don't recall
12 specifically, a sheet over the body, a white sheet.
13 When I removed the sheet, the body was on the metal,
14 the top of the autopsy table and nude.

15 **Q** Was it sutured or not?

16 **A** The body was sutured. There are two
17 incisions that are made in an autopsy, one is what
18 is called the Y shaped incision. It goes from left
19 shoulder down to the breast bone and the right
20 shoulder down and then down to the pubic area. When
21 it is opened up, it permits examination of the chest
22 organ, the heart and lungs, the abdominal organs,
23 which -- and then that's sutured up afterwards. And
24 then there is one incision, second incision is made
25 from back of the, ear to ear, the back of the head

1 that permits removal of the tissue of the skin to
2 bend them forward and take the brain out and examine
3 the brain.

4 And then when these sutures are, when
5 these incisions are sewed up, this is universal.

6 Q Okay.

7 A In other countries as well. When the
8 incisions are sewed up, one can present the body to
9 the family, clothing covers the chest incisions, and
10 a pillow will cover the back incision so that in the
11 normal course, one can tell by looking at the
12 remains and paying respects whether an autopsy has
13 been done or not.

14 Q When you saw the body for the first time,
15 it was sewed up, so you had to open it to do your
16 autopsy?

17 A Yes.

18 Q Did you do that yourself?

19 A Yes.

20 Q So what things did your assistant do?

21 A He helped moved the body and to turn the
22 body so that I could see the back. Usually this is
23 the kind of things that funeral directors do when
24 you go to a funeral home.

25 Q Okay.

1 **A** And there's no special requirement and
2 that he also then, he had seen the body before it
3 was embalmed, you know, when it came there and he
4 gave me, told me what it looked like before the
5 embalming. I think he had some pictures of that,
6 but I don't recall specifically.

7 **Q** Okay.

8 **A** He was interested in trying to work out
9 the different bullet tracks, which gave me some
10 opinions about.

11 **Q** But you made the determination of the
12 bullet tracks?

13 **A** Oh, yes.

14 MS. ALIZADEH: Can I interrupt you for a
15 minute. What you said that, who was interested in
16 determining the bullet tracks, is that Mr.

17 **A** Yes, he was a very enthusiastic young
18 person. He was making suggestions to me, well, this
19 bullet track that went in the head on the top and
20 things like that, but my opinions are my own.

21 MS. ALIZADEH: Sure. I just didn't hear
22 who you said.

23 **A** , he was the only one there besides
24 myself, and also he could photograph. He had a
25 camera and he took photographs of the autopsy while

1 it was being performed.

2 **Q** (By Ms. Whirley) Do you feel that your
3 autopsy is independent of St. Louis County's autopsy
4 or how would you categorize it?

5 **A** It is independent of it sure, but I review
6 what I could tell from the examination what St.
7 Louis County Medical Examiner's Office had done.
8 They had done a thorough examination and by
9 examining, you know, status of the organs, all the
10 organs have been dissected and placed in a plastic
11 bag at the time and the bullet tracks were still
12 apparent.

13 **Q** Okay.

14 **A** They weren't removed, the bullets were
15 removed, but not the bullet tracks.

16 **Q** So tell us what you did as you performed
17 your autopsy and then we can maybe go through some
18 photos if that's helpful or we can wait on the
19 photos, so kind of tell us what did you do first
20 when you arrived there?

21 **A** What I did first was examine the outside
22 of the body. And to examine the head, the front,
23 the back is important to make sure that there was,
24 there wasn't any kind of injury or perforation of
25 the back that could be overlooked if one doesn't

1 look at the back.

2 Then a second autopsy often is easier
3 than the first because the incisions have been made,
4 the ribs have been cut through, the skull bones have
5 been cut through to get to the brain. So in one
6 sense it is easier, of course, it doesn't tell you
7 as much as the first autopsy necessarily. Because
8 the first autopsy has changed things around a bit.

9 So in this situation, when I review
10 the internal organs, they're pretty normal in
11 appearance for the age and his build and all.

12 There were bullet perforations of the
13 right lung that then coincided, correlated with
14 gunshot wounds on the outside of the body. A large
15 part of the autopsy had to do with reconstructing
16 what the bullet wounds were, where they entered,
17 where they exited, and then to my interpretation two
18 bullet wounds could have been reentry wounds. I
19 couldn't be certain about those until I saw what the
20 official autopsy showed, which is one I received
21 recently, yes.

22 Q Okay.

23 A And the photographs. So that was a large
24 part of what I did is to determine the nature of the
25 gunshot wounds and the direct entrance, exit,

1 directions and the closeness.

2 **Q** That's what we certainly want to know
3 about.

4 So you open the body and you
5 inspected the body for injuries and wounds, gunshot
6 wounds and photographs were taken?

7 **A** First thing I did, the biggest time was
8 spent looking at the outside of the body.

9 **Q** Outside of the body?

10 **A** Before opening up the inside.

11 **Q** Before we talk about any of the gunshot
12 wounds, let's talk about other potential injuries.
13 You may or may not have seen them. Did you see any
14 bruising to the body, like bruises on the knees or
15 anywhere on the body, did you note any bruising?

16 **A** Yes.

17 **Q** Can you tell us where you noted the
18 bruising?

19 **A** Well, I thought the significant bruising
20 was around the right eye. He had a lot of bruising,
21 I'm still not clear about how it developed, above
22 the eye and on the side and below the right eye. In
23 addition to the gunshot wound that went through the
24 eye.

25 **Q** So you think the bruising had nothing to

1 do, not nothing to do, was not from the gunshot
2 wound that you are discussing?

3 **A** No, there was a gunshot wound, I'm sure
4 the people are familiar better than I am than what
5 I'm talking about right now. There was one gunshot
6 wound of entrance just right of the forehead or so
7 and that went down and caused a lot of damage, went
8 downhill through the eye and the orbit.

9 In addition to that, there was
10 scraping abrasions around the eye, bullet wounds
11 don't cause scraping abrasions, rubbing abrasions
12 against something.

13 **Q** That prompts me to ask you, did you get
14 any information as to the fact of what happened, did
15 you get any witnesses' versions of what occurred
16 during this shooting?

17 **A** I did read an occasion when up in New York
18 the controversy that was going on in Ferguson, some
19 people, the hands were up, some people said he was
20 charging the officer, so I was familiar with the
21 controversy.

22 **Q** Did you hear that he fell face forward
23 once he has shot in the head, did you hear that?

24 **A** I would assume that bullet wound in the
25 head causes immediate lost of consciousness and

1 ability to stand upright. So he would have fallen
2 after being shot in the head, yes.

3 Q So if he fell face forward, would that
4 account for the bruising that you are referring to
5 or you don't think, tell us what you think?

6 A I don't know. Probably, and to this day I
7 don't know. Maybe I should have gone over to the
8 scene to see the composition of the roadway that he
9 fell on.

10 But usually falling face down, for
11 example, causes bruising of the nose. The face is
12 kind of protected. We have, people normally, normal
13 person falls face forward instinctively put their
14 hands out to protect themselves.

15 When somebody loses consciousness or
16 somebody is drunk, you see this in people who are
17 drunk, they can fall face forward and not
18 instinctively protect themselves. And then the
19 bruising in the prominences of the face, the nose
20 gets most of the damage.

21 The eye sockets don't, they are
22 recessed a bit. So I think that by falling face
23 down, and then falling face down you get ruptured
24 blood vessels and bruises being black and blue
25 marks. Abrasions being scrape marks on the skin,

1 like your child falls down and skids along some
2 ground, they can get scrapes.

3 The scrapes are different than black
4 and blue marks. There were scrapes here. So it
5 happen to rub against something, it is rubbing of
6 the outer layer of the skin. I don't think that
7 would have occurred from an unprotected fall. And
8 the nose was not that damaged either.

9 Q Okay.

10 A Just because you lose consciousness
11 doesn't mean you fall immediately, it's just
12 crumbled to the ground is more common, you crumble
13 down and fall. Different ways of falling and that
14 it was more scraping, not clear why.

15 Q What about bruising to his, did you see
16 any bruising on his wrists or his arms?

17 A I saw one of the wrists had a little bit
18 of a bruise that I'm not sure what it was caused by.
19 Looks like he had something around the wrist that
20 caused a linear abrasion of some kind. I didn't
21 think very significant.

22 Q Is that something you can tell whether
23 that bruise occurred contemporaneously with all of
24 these injuries or is this looking like an old
25 bruise. I know most doctors say it is difficult to

1 date a bruise. Did it look like something that
2 happened contemporaneously with all the injuries?

3 **A** It could have, but it could have been
4 there for a day before or something, not a week
5 before.

6 **Q** Okay.

7 **A** We can't tell a few minutes before death
8 or a day before death by just looking at it.
9 Sometimes under the microscope we can tell. But we
10 could also, some of these injuries can occur after
11 death, you know, when the person is put in a body
12 bag and tied up in the body bag just so it doesn't
13 move, that can leave patterns also on the dead body
14 so.

15 **Q** All right.

16 **A** I don't know how those little bruises
17 happen.

18 **Q** Did you see any bruising to his neck area?

19 **A** I did not.

20 **Q** Okay. I mention the knees, I don't know
21 if you gave me an answer, did you see any bruising
22 to his knees.

23 **A** I don't recall, I don't think there was
24 any significance.

25 **Q** Okay.

1 **A** I know that's mentioned in the autopsy
2 protocol.

3 **Q** Okay. So let's look at some of the photos
4 and you can tell us, first of all, you thought there
5 was 17 shots that he received?

6 **A** Seven different bullets that struck him.

7 **Q** Okay. Tell us about that?

8 **A** As oppose to bullet tracks. One of the
9 tracks was a graze of the biceps of the arm and that
10 came across the arm and didn't do any significant
11 damage to Mr. Brown and it is very difficult to be
12 able to tell direction from that. It was not close
13 to, medical examiner is one to two feet or less.

14 That is, we can tell distance,
15 usually up to a foot or sometimes two feet, a foot
16 and a half by the amount of powder that's
17 distributed with the bullet.

18 Beyond that, we can't tell two feet
19 from 20 feet or 40 feet, you know, shot from 40
20 would be the same marks and from 3 feet from a
21 medical examiner's point of view.

22 **Q** Okay.

23 **A** So depending on the ammunition and the
24 weapon discharged, 12 inches to 18 inches away
25 because then you see some powder, but as you get

1 further away the powder spreads out, so that's how
2 we judge closeness.

3 Q Were any of the gunshot wounds that you
4 observed, would you consider any of those close
5 range shots?

6 A Yes, the one in the hand is close.

7 Q And you determined that that is an injury
8 from a gunshot wound?

9 A Yes, yes.

10 Q How did you make that determination?

11 A Well, I could tell, you know, when I first
12 saw the body that's a typical graze injury of the
13 tissues of the palm of the hand because graze
14 injuries will look different depending.

15 Q The hand in any of those photos?

16 A Yes. If I may do it this way.

17 Q Tell me which one you like me to put up
18 first.

19 A This is the only one that was close.
20 These are the photographs that I looked at, these
21 are your photographs. I looked at these for the
22 first time yesterday afternoon and they are very
23 helpful in this regard.

24 Q Okay. So we'll put those up. These are
25 from Grand Jury Exhibit Number 7. And the first one

1 that I'm going to put on the Elmo, we call it, is,
2 this is Number 75.

3 There's a laser pointer.

4 **A** Can I just get up? If I can just go here
5 if that's okay.

6 MS. WHIRLEY: I'll just put that over here
7 in case you need it.

8 **A** This is a photograph taken by the police
9 after the body, after the hand has been washed.
10 Now, when I saw this photograph, the hand, it was
11 all gray and washed off and embalmed. And I could
12 tell it was a gunshot graze just like the wound on
13 the right biceps muscle, but not direction and not
14 distance.

15 In this photograph in looking at the
16 print, which is sharper, there is some powder here
17 around one edge of it. And it is an interesting
18 photograph, can I see the next one?

19 **Q** (By Ms. Whirley) Sure. Want me to put
20 that on there for you?

21 **A** Yes. There is an interesting pattern that
22 can happen here.

23 MS. ALIZADEH: Can you turn it the other
24 direction?

25 **A** Thank you. You see what happens in a

1 graze wound is that the tearing of the skin tells
2 you direction. So inverted Christmas tree.

3 The fact that these are going upwards
4 would indicate that the entrance is down here and
5 going in this direction. Because of, if you see
6 this Christmas tree this way and upside down
7 Christmas tree is going that way, that's how the
8 tissues tear when there's a graze wound in areas of
9 some loose tissue that's in the palm of the hand
10 kind of thing.

11 **Q** (By Ms. Whirley) So the entrance where it
12 entered is tighter than where it came out, it starts
13 to spread?

14 **A** Yeah, but it is these things that tells.

15 **Q** Okay.

16 **A** It goes in here and there is some on the
17 print, there is a little bit of blackish, tiny bit
18 of blackish coloration, and that's what the medical
19 examiner found on the microscopic. It was
20 interesting when I look at it, after the embalming
21 because body gets washed and all of that, I couldn't
22 see any powder.

23 When the medical examiner looked at
24 it in the fresh state, he didn't either because he
25 puts in the autopsy that there's no gunshot powder

1 and then I didn't see any gunshot powder, he sees it
2 under the microscope.

3 When I look at this now and there's a
4 little blackening there that I think is not due to
5 any artifact, that's really blackening due to some
6 powder.

7 So that the weapon, the muzzle was
8 near to this within a few inches, it wasn't contact,
9 but within a few inches in my opinion at the time of
10 discharge.

11 **Q** Can you tell by that injury where the
12 shooter and the person who was shot, what their
13 positions were?

14 **A** I can tell that the weapon, the muzzle of
15 the weapon, in all of the reconstruction that
16 medical examiners do, tell the muzzle of the weapon
17 and the place the bullet enters where it is. So the
18 gun had to be somewhere around, you know, that kind
19 of a line, but I can't tell, we can't tell from an
20 autopsy whether the hand is going forward or pulling
21 backward or standing still. We can't tell whether
22 the gun is going forward or backward. All we can
23 say at the instant of firing, I would say roughly
24 six, four, five, six inches away, the weapon was a
25 few inches away at the time of the discharge and

1 struck. I wasn't able, I can't tell, the fingers
2 could have been open or not open.

3 But at this point the bullet would
4 have gone at this point cut through the muscles
5 here, and that's one of the things that would be
6 important in reconstructing, which I couldn't get, I
7 tried to, is the examination of the car was there a
8 bullet in the car or a bullet imprinted in the
9 vehicle to see if we knew where the bullet struck,
10 then we get an even better lining up of what
11 happened.

12 Q Okay. There's two more photos, I don't
13 know if they are helpful.

14 A Yes, they are.

15 Q This is Number 40, I'm saying this for the
16 record, this is 49.

17 A I thought that maybe in this photo there's
18 a little better, a little blackening between the
19 ridges, you can see the ridges in the skin and some
20 little black soot deposit. That's what comes out of
21 the bullet because when the bullet comes out, it is
22 an explosion that pushes the bullet out and any
23 explosion you get powder. You get carbon, soot
24 carbon, and burned and unburned gunshot powder
25 fragments.

1 **Q** It is your opinion --

2 **A** This is essentially powder, so the heavy,
3 and the powder would stay up until about four,
4 five inches and then it goes away.

5 **Q** Say that one more time, I'm trying to
6 visualize.

7 **A** When powder comes out of the muzzle of the
8 gun, it goes for four or five inches and then it
9 will dissipate. And the heavier tattooing would
10 come from burnt, unburnt granules, not carbon. The
11 blackening is carbon or soot.

12 **Q** That's in your opinion that's what this
13 is?

14 **A** Yeah.

15 MS. WHIRLEY: Go ahead.

16 You said you can't tell if
17 the hand or gun is moving in or out or whatever?

18 **A** That's correct.

19 : Can you tell angle, somebody
20 sitting or standing by this?

21 **A** I can't tell sitting or standing, but I
22 can tell, see what I would say is that --

23 : You can tell which way it is
24 going?

25 **A** It is coming from this direction to this

1 direction. What I can't tell is whether anybody was
2 sitting or standing, no, that's all I can relate to
3 is the weapon, the gun and the target. And I can't
4 because the wrist is so mobile see, it could be held
5 upside down, sideways, all kind of different things.
6 How it was being held I can't tell, but the fact
7 that, so all we're doing is the muzzle to where the
8 bullets land, the last one there.

9 **Q** Yeah, this is Exhibit Number 42.

10 **A** Did it show, yeah, that one. This is how
11 the photograph was taken by the police before the
12 hand was washed and there is a lot of blood around
13 here, that this wound does cause a lot of bleeding,
14 a lot of little capillaries and blood vessels there.

15 And that became important in looking
16 at the clothing. Why does he have blood on his
17 clothing, you get shot and you get shot multiple
18 places and glass. If this happened very quickly, he
19 wouldn't really have time for blood to stop dripping
20 out of any of the wounds he had and he would have
21 collapsed immediately. And I think the blood on his
22 clothing and the drops of blood, dripping of blood
23 on his clothing, which is the lower part of the
24 shirt, the upper shirt is a lot of blood, his pants
25 or the shorts that he was wearing have a lot of

1 blood drops on it. And the socks he has on he had a
2 lot of blood, had blood drops on it. So that he was
3 bleeding, the only place he could have been bleeding
4 from is this area from here.

5 My opinion is whatever happened after
6 incurring that wound, he was able to have blood from
7 here drip onto his pants and clothing and his socks
8 in whatever he was doing, walking or whatever he was
9 doing or running.

10 Q Were you able, based on your examination,
11 to tell which wounds happened first and what
12 sequence of shots, what the sequence was?

13 A The only thing I can say this was the
14 first wound. I cannot tell the other sequence.

15 Q Why do you think this was the first wound?

16 A Because of the bleeding that occurred when
17 he left the car and that he had incurred the wound
18 in the car just from the history and that.

19 At some point he received the other
20 wounds, the wound in the head would have been, would
21 have caused him to lose consciousness.

22 Q And be fatal?

23 A However that's probably the last, to next
24 to last. If his head was down and would indicate
25 because in order for the wound to be inflicted in

1 the head, top of the head, the muzzle of the weapon
2 has to be, this is kind of the wound in the top of
3 the head.

4 Now that could be somebody is up here
5 in the ceiling and shoots down, they can give me
6 that. If I'm lying on the ground and the muzzle of
7 the gun I can get that, or if we accept the position
8 of the shooter, you can't tell unless you know the
9 position of the shooter.

10 If he's standing up, as appears from
11 what I've read, assuming that, then his head would
12 have to be down so that the shooter would have to be
13 able to fire at the top of his head.

14 And if he's down and he fired three
15 fast, quick shots, which could occur before he falls
16 to the ground, he would have one in the head, one in
17 the forehead that goes down through his jaw and one
18 in the chest that all occur with three quickly fired
19 shots.

20 So even though he crumbles, starts
21 falling immediately on the one in the head, and
22 probably could have been the last shot, if three
23 shots were gotten off, it could be done before he
24 falls to the ground and he would be in a position
25 with his head down for those three shots to occur.

1 **Q** Okay.

2 **A** But they would have been very quick.

3 **Q** Do you have any information about how long
4 this incident occurred from the time that he
5 encountered the police officer to lay dead in the
6 street?

7 **A** It was quick, but I don't know.

8 **Q** All right.

9 **A** I don't have any information.

10 **Q** If you want to come back and sit down you
11 can.

12 : Could you go back to the
13 second, I notice something in the second photo you
14 put up.

15 **Q** (By Ms. Whirley) Okay.

16 On the tip of his thumb
17 looks like an indentation. Can you incur anything
18 from that, be the barrel of the gun?

19 **A** No, the barrel of the gun at this point I
20 would expect more soot, well, I can't tell. The
21 indentation I think is more postmortem. You can't
22 say it happened before death because the body is
23 moved, the skin, as I said, we find most common when
24 tied up in the body bag or so, marks on the skin
25 occur just from pressure, postmortem pressure can

1 show up like that. And we can't tell what's before
2 or afterwards, but I can't tell.

3 MS. WHIRLEY: Anything else?

4 Q (By Ms. Whirley) Let's talk about the
5 shots one at a time and you prefer to stand there?

6 A Yeah. If you are going to do that, I put
7 it so that the top one.

8 MS. WHIRLEY: I may have messed up your
9 order.

10 A That's okay. The way we usually do it,
11 way we do it in New York, with multiple gunshot
12 wounds, we will describe the wounds and number them
13 from the top down.

14 Q Okay.

15 A That doesn't in any way signify the order
16 of shots, because usually we can't tell the order of
17 shots. So the number one that was, I think also was
18 in the autopsy report.

19 Q You kind of describe the head shot
20 already, correct?

21 A Yes.

22 Q And they've seen that shot, so is there
23 anything else you want to say about that?

24 A You can show it for a second.

25 Q Okay. That's Photo Number 99.

1 **A** And just that, even the head shot, even
2 they had to take the hair off to show it, it didn't
3 show any powder around it, which would be another
4 indication that it was a distance away for what it's
5 worth.

6 **Q** Okay. I don't know if you want to tell
7 me.

8 **A** This one would be a good second. This is
9 the second going down.

10 **Q** All right. This is Number 95. Let's see,
11 I'm not sure, is that a better way to look at it or
12 should I do sideways?

13 **A** You know, put it sideways please, the
14 other way.

15 **Q** The other?

16 **A** So he's on his back.

17 **Q** All right.

18 **A** Now if you put it up a little up there.
19 Thank you.

20 MS. ALIZADEH: When you get a chance.

21 MS. WHIRLEY: You have a question?

22 Whose photographs are these?

23 **A** These are all photographs I saw for the
24 first time yesterday that were taken by the St.
25 Louis Police Department who came to the Medical

1 Examiner's Office and the police took them all, not
2 the medical examiner, the ones I looked at initially
3 were medical examiner photographs I said, and that
4 was after the autopsy had been done. So the police
5 were there and they took all of these photos before
6 the autopsy was done.

7 MS. ALIZADEH: These are out of that
8 packet of photos, Grand Jury Exhibit Number 7.

9 A Now, in this one, can you turn that front
10 light out. This is a bullet wound of entrance, and
11 again, no powder around it. More than 18 inches
12 away. Can't tell how much more, and the bullet
13 track, thank you, came down through the orbit, the
14 eye and caused some fractures and exited down here
15 through the jawbone on the side.

16 So that was also, see, that would
17 have lined up, as I tried to figure out if he were
18 bent over to have the top of the head and then a
19 parallel line going down and exiting here.

20 And when I spoke about the abrasions,
21 see the nose is pretty good. If he fell down and he
22 got the injuries to the body, they should be more
23 prominent on the nose and on both sides of the
24 forehead, not just on one side of the forehead.

25 And I don't know, these look like

1 superficial scrape marks. They can happen
2 sometimes, I don't even know if after the body is on
3 the floor and people in the course of removing the
4 body to the body bags, pull the body because the
5 person pulling the legs is stronger than the person
6 holding the head, they can cause some scraping
7 damage, but this is more than usual so I'm not sure
8 why.

9 You prescribed linear and/or
10 scraping a relative motion between his face and
11 whatever object he scraped against. If he had his
12 head down and in a charging motion, meaning he had a
13 motion toward the officer, when he fell with his
14 final shots, could that have caused, I mean, that
15 type of abrasion.

16 **A** Yeah, but then it would be most prominent
17 on the nose.

18 What if his head was turned?

19 **A** Also, there would be the object, the sand
20 or dirt would be incorporated in it. This looks
21 like a very clean, this is before he was washed and
22 this looks all very clean. The blood is still dried
23 here so.

24 Q (By Ms. Whirley) I think the juror said
25 what if his head was turned like on that side, what

1 if it was turned toward the right side?

2 : Head down and turned?

3 **A** It's possible, I've not seen this
4 extensive from that, but I don't know what the
5 composition of the ground is either, so that's
6 possible.

7 : If he would have fallen
8 square on his face, you would expect to see
9 something on the nose?

10 If there wasn't damage to
11 the nose, that applies he didn't land on his nose
12 first, he had to land on one side or the other?

13 **A** If it was caused by his landing, yes.

14 : August 9th was a very, very,
15 very hot day here. So could it possibly be the
16 ground was hot and from the impact of the fall?

17 **A** It's possible, it's possible. But it
18 would require movement. Just lying there on the
19 ground wouldn't cause the scraping abrasions, it's
20 possible, it's possible.

21 MS. WHIRLEY: We have another question?

22 **A** It is kind of prominent for that.

23 I'm going to go back with
24 what you said if he would have fallen. Michael is a
25 very big guy.

1 **A** Yes.

2 : We do know that he fell,
3 with this impact, we know that he fell face forward.

4 **A** Right.

5 : My understanding of his
6 question is if he fell face forward, wouldn't there
7 be something on his nose, disregarding these,
8 wouldn't there be something on his nose that
9 indicated he fell face forward?

10 **A** Yes, but then he added on the question
11 what if it was just on his right side.

12 If he fell face forward,
13 straight on, there would be something on his nose?

14 **A** Yes, yes.

15 Some sort of an abrasion?

16 **A** Yes.

17 So if he had his head down
18 and his head turned, that would lead us to a
19 conclusion that the abrasions would be on the side
20 of his face instead of the nose?

21 **A** Right, yes.

22 Which is where these are?

23 **A** On the right side, yes.

24 MS. ALIZADEH: Just so you are clear, you
25 turned your head to the other side.

1 I don't know my right from
2 my left.

3 MS. ALIZADEH: Because the injury is to
4 the right side of his face.

5 Right.

6 **A** Yeah, if he fell on his right side and he
7 moved forward you get certain abrasions. He also
8 has cuts here, some of these are not just scrapes,
9 but they're lacerations.

10 MS. WHIRLEY: They don't come from the
11 gunshot wounds?

12 **A** No, they don't come from the gunshot
13 wound. the gunshot wound goes deeper and through the
14 eye. If they came from the gunshot wound, the
15 gunshot wound would be more to the outside.

16 MS. WHIRLEY: Even if it was grazing?

17 **A** This one is going into underlying soft
18 tissue, so that it is underneath this.

19 MS. WHIRLEY: I understand.

20 **A** It is underneath the skin there and in
21 order to graze you have to be on top of the skin.
22 And this one went deep enough to go through the
23 eyeball and come out down here.

24 MS. WHIRLEY: Okay. You don't know what
25 to make up of it then?

1 **A** I'm not sure why. I think the thing that
2 puzzles me is the combination of factors. That some
3 of it could be by scraping somehow, but not all of
4 it. And if this were say a blow to the face causing
5 laceration, it normally wouldn't cause a scraping
6 wound. So it is some complex reason.

7 : Doctor, the top could be a
8 small fragment, bone fragment that could do that?

9 **A** Bone fragments can protrude through the
10 skin, but in this instance it didn't, the bone
11 fragments were largely the lower portion of the
12 orbit and there was no bone fragments that were
13 protruding. And that's the value of what the police
14 did is that they took these photographs before any
15 changes were made by the autopsy or by the
16 embalming. And I think that's an interesting point,
17 the bone fragments. I don't think it was caused by
18 bone fragment, the fragmentation was lower down.

19 : Thank you.

20 MS. WHIRLEY: Anybody else?

21 I have one more. Earlier
22 you said that you would have to see the structure of
23 where he fell to determine if any of these could
24 be --

25 **A** Yes.

1 You mean if it were gravely,
2 or if there were rocks in the road?

3 **A** Right, yes.

4 : Okay.

5 **A** That could affect it. And what I should
6 say to you, when we do autopsies in our line of
7 work, we try to answer as many questions and issues
8 that we can. We often, there are findings that we
9 can't explain. So that even issues like the cause
10 here, I can't really explain it. And that, that
11 often happens in autopsies, you explain the major
12 ones that answer the question, but not everything.

13 And there are other experts that is a
14 gravel expert, they have gravel experts might have a
15 better idea or somebody doing experiments on
16 injuries to skin, which are very difficult to do now
17 because it needs appropriate approval by boards that
18 you can't do experiments on people that hurt people.
19 However, they can do it on pigs and animals
20 sometimes and there may be somebody around who is an
21 expert on that, but it would be more able to answer
22 the questions on that surface with the human skin.
23 It is very similar to pig skin, would develop these
24 injuries just from contact with the gravel falling
25 with a certain force.

1 MS. WHIRLEY: Okay.

2 A But again, that's a value, it doesn't
3 indicate the cause of death, but it is a value in
4 what happened to him.

5 Now, the exit is here and then if I
6 might see the one difference I think I have with the
7 official report is.

8 Q (By Ms. Whirley) Number 86?

9 A The other side, please, the other side
10 around.

11 Q I'm sorry, there we go.

12 A They don't train you how to do that in law
13 school, I guess.

14 Q I'm just not paying close enough
15 attention.

16 A What I would say here the bullet wound,
17 they do everything nowadays these machines, bullet
18 wound comes down through here and as I repositioned
19 the head and all and look at all the additional
20 photographs. I think the bent head that is right on
21 top of the clavicle here, the collar bone, this
22 bullet goes through here and this is a reentry
23 wound. It looks to me like a reentry wound.

24 I think the way the medical examiner
25 put it down as a separate entrance. So in that

1 regard I have one less bullet that struck Mr. Brown
2 than the medical examiner did, but it doesn't change
3 anything substantially except for forensic pathology
4 point of view. I think the bullet exits here, goes
5 into here, hits the clavicle, hits the lungs and
6 stops.

7 A bullet that's going straight, the
8 one that went through the head went through a lot of
9 thick skull bone and a normal, which is another
10 indication that it was kind of a spent bullet by the
11 time that it goes through here and into the lung,
12 which is right next to it, it has already lost most
13 of its power. So that I think is reentrance that I
14 think would be the difference in the way we organize
15 the tracks.

16 Here is the third bullet wound of the
17 chest that I thought might be a reentry when I did
18 the autopsy, but I think turns out with all the
19 additional information I agree with the medical
20 examiner that's an entry wound.

21 So you have the head, the face, the
22 facial one coming out here and this pretty much all
23 could be within a foot or two if fired rapidly.
24 Whether that was the last bullet wound or not in the
25 head.

1 **Q** Okay. So far from what you've described
2 in the photos we've seen, this would be, you talked
3 about three entry wounds, three bullets?

4 **A** Well, actually, yes. The head, the face,
5 I'm not counting this one, this is a reentry.

6 **Q** Right.

7 **A** When I look at it close, it also has
8 markings of a reentry. It is not quite as round as
9 an entry wound would be. And this one would be
10 three, three of the bullet wounds and these are the
11 wounds, these are the wounds where bullets were
12 recovered it turns out.

13 The bullet was recovered here from
14 the side of the face, right side through the brain
15 from the side of the face and was recovered from
16 within the autopsy of the head.

17 The second bullet comes through the
18 face into here and then is recovered in the area of
19 the lung, and the third bullet here comes in here
20 and largely goes through causing a fracture of the
21 eighth rib.

22 See up here is the third rib and this
23 by the eighth rib and is found, goes through the
24 eighth rib and the lung, the lower portion, this
25 upper lung or lower lung on the right and it is

1 found next to the eighth rib in the back.

2 And what we found in the second
3 autopsy is that it was the incision made in the
4 back, not through any injury as it was an incision
5 made to recover that bullet.

6 In order to recover the bullet in the
7 back, it was underneath the skin, they had made some
8 incisions at the time of the first autopsy and that
9 all comes into how we have to examine bodies when
10 there is a re-autopsy. We inferred that there was a
11 bullet taken out, but I didn't see the photos until
12 yesterday.

13 Q And it certainly didn't look like any
14 injury, he was shot in his back anywhere; is that
15 correct?

16 A No, no, he was shot here and it went to
17 the back.

18 Q So there was no injury to his back?

19 A That's right, no injuries to the back.

20 Q Okay. All right.

21 A The issue comes up with the arms, yes.

22 : When you were describing the
23 jaw.

24 A Yes.

25 I want to make sure I

1 understand. We're talking about three bullets, but
2 four bullet wounds because you consider one to be a
3 reentry.

4 **A** Yes, yes.

5 When you are describing that
6 reentry wound from the jaw, you had your head like
7 this. (indicating)

8 **A** Yes.

9 : So based on where it is in
10 the jaw and it reenters in the body, it is pretty
11 safe to say that the head, it was like this?
12 (indicating)

13 **A** Yes.

14 Not like this, but like
15 this. (indicating)

16 **A** Yes, yes.

17 : Okay.

18 **A** But that would still present it would be
19 with the skin of the jaw next to the clavicle, the
20 inside, you can feel your collar bone, but right
21 next to it so that that trajectory could occur.

22 : The reason I ask that
23 question is because I think having your head like
24 this versus just falling forward, it is going to
25 show what you're doing more, do you understand what

1 I'm saying?

2 **A** I see what you're saying. I'm not sure of
3 the interpretation you have is as good of
4 interpretation as I have, but it would be that the
5 chin would be, if the chin were not right next to
6 it, bullet coming out of the chin would have gone
7 into a different place.

8 : What I'm saying is though
9 that if he were simply falling forward, his head
10 would be more lax?

11 **A** Yeah, yes, I think that at the time he was
12 shot his right side of his chin of the jaw was
13 against the collar bone near the midline at the time
14 he was shot. I can't tell from that whether he's
15 going forward, going backwards, whether he's
16 standing still, I'm just saying that.

17 To explain that as a reentry
18 wound and his head is that way, if that's not a
19 reentry wound and it is separate bullet wound, his
20 head could have been either or --

21 **A** If it is not a reentry wound, then it is a
22 separate bullet wound and that bullet was recovered,
23 those are the three that were recovered.

24 That comes out of his right
25 jaw, is that straight line from the entry point to

1 the exit point out that jaw through his skull a
2 straight line or did it move as it traveled around
3 his eye?

4 **A** No, pretty much a straight line. The
5 facial bones and the orbit bones, they're thin bones
6 and essentially when the bullet goes through, stays
7 within 5 or 10 degrees, it doesn't go around further
8 than that in this kind of a setting. Especially a
9 larger caliber bullet. We sometimes see funny
10 things with a .22.

11 People shot in the eye,
12 right around the skull, no exit wound sometimes?

13 **A** No, this is a straight wound and it winds
14 up that way in probing it.

15 MS. WHIRLEY: All right. You got another
16 one?

17 **A** So those are the three or four.

18 Now, we have the more complicated
19 ones.

20 MS. WHIRLEY: Okay. This is Photo Number
21 78. Is that the way you want it, Doctor?

22 **A** Yes, thank you.

23 MS. WHIRLEY: All right.

24 **A** This shows the graze, the graze and that's
25 a bullet that struck, even though it didn't cause

1 any damage, a bullet that struck the body and as far
2 as we know it struck the body and disappeared. It
3 is not in the body and I didn't see anything in the
4 clothing that would indicate that it landed there.

5 The clothing, unfortunately, the
6 T-shirt he was wearing, short sleeves, so it just
7 goes up to around here. So in long sleeve shirts we
8 could see more of an entrance and exit in clothing
9 that would be helpful.

10 MS. WHIRLEY: Did you see any gun powder
11 on the clothing at all?

12 **A** Nothing on the clothing. No gun powder on
13 the clothing and from what I gather the police
14 didn't either.

15 And this is an entry wound from the
16 front, the upper arm is, you've been told about the
17 anatomical position, the imaginary anatomic position
18 that medical examiners' use. In autopsies, body,
19 palms forward at attention, all measurements are
20 done that way.

21 It is very rare that victims are that
22 cooperative, so you can tell exactly what happened
23 because the body is mobile and in this situation, if
24 this is front anterior, the bullet came in near the
25 top and came out the back, that's a front. In and

1 out gunshot wound of the upper arm. This is a graze
2 wound and I think the next one shows the
3 controversial one.

4 Q (By Ms. Whirley) Okay. We'll do this one
5 and then we'll take a break. Number 83, is this the
6 right way, Doctor?

7 A Yes, that's good, thank you.

8 Q Sure.

9 A What's interesting here this is.

10 Q Should I bring it down a little bit, I
11 don't know if that will help or not.

12 A What's interesting to me is that, you
13 know, the blood, nothing has been washed off. This
14 is the entrance behind and the exit, and this bullet
15 went through a bone in the forearm. The ulnar bone,
16 the two bones in the arm, the radius and ulnar. The
17 ulnar is kind of underneath the pinky and the radius
18 is on the other side.

19 This went through the radius, the
20 x-rays that show little fragments of metal and the
21 fracture of the radius bone. Partly, that's why
22 there's such a big exit wound, it is wobbling and it
23 had destroyed some bone.

24 But this is the entrance and this is
25 the exit and this is from behind. Now it went from

1 back to front.

2 Now, it could be standing at
3 attention, going back and front, could be arms up,
4 could be arms way up, would have the same thing. It
5 could be if the arm is in front, since the arm is
6 mobile, if I put my arm like this, it could come in
7 the back of the arm and come out the front. And in
8 that situation it would have to reenter into the
9 body, which we don't see, which we don't see.

10 Q Why do you see that as controversial?

11 A Well, as to whether he was shot, people
12 say from the back, no injuries to the back, but I
13 interpret that as being from behind.

14 Q Right.

15 A I know there's some controversy as to
16 whether or not he was shot while his back was to the
17 officer.

18 Q That's a question that we have.

19 A Yeah.

20 Q Does this support that?

21 A This would support from being shot from
22 behind. It didn't hit his back, but from behind.
23 There are other ways if this arm could be moved in
24 other directions, you can twist your arm around and
25 that has to be taken into account, but there isn't

1 any kind of mark, bullet wound on the chest that
2 would support that. And so much of it becomes,
3 which eyewitnesses are better and that's, that
4 doesn't come with medical school.

5 **Q** I guess within the bowels of reasonable
6 medical certainty or in your opinion, you're saying
7 that this injury to this forearm could have occurred
8 with his hand up?

9 **A** Yes.

10 **Q** Or with him running and someone shooting
11 him from behind, or not running, someone shooting
12 him from behind?

13 **A** I'm saying at the time of the shooting the
14 gun was pointed at the back of his arm, that's all.
15 Where his arm was depends on what other information
16 you have.

17 **Q** I see.

18 **A** This is from behind from a forensic point
19 of view.

20 MS. ALIZADEH: Any questions?

21 : Pretty much the same
22 situation in the hand, you can get an idea where the
23 gun was positioned, the trajectory of the bullet,
24 but you can't really determine the positioning of
25 the limb?

1 **A** You're right, at the moment of fire.

2 : Okay.

3 **A** A limb can go through, within a second, go
4 like this. All I can say is at the instant of
5 firing it is almost an instant it could go through,
6 the bullet, the muzzle was pointing at the back.

7 MS. ALIZADEH: Doctor, you testified, and
8 I'm wondering if this was just an error, that you
9 just said that the radius was fractured?

10 **A** I'm sorry, I meant the ulnar, the ulnar.

11 MS. ALIZADEH: I wanted to clarify.

12 **A** The radius, I was just pointing out
13 attached to the side of the thumb, thank you, and
14 the ulnar is on the pinky.

15 MS. ALIZADEH: And that concurs with
16 Dr. 's opinion that the ulnar was fractured,
17 correct?

18 **A** That the --

19 MS. ALIZADEH: The ulnar.

20 **A** Yes, thank you.

21 Could the difference is a
22 police officer not being exactly behind Mr. Brown,
23 but on the side, he could have struck here?

24 **A** You mean beside you?

25 : The policeman.

1 **A** If he was positioned this way to the gun.

2 : Exactly. If the police are
3 here and I shoot, that don't mean that he shoot from
4 the back.

5 **A** That could be from the side, but then you
6 see once that bullet comes out, it would strike
7 something if it is there. If it is this way.

8 : He's running and he's doing
9 this with his hand, you move the arm when you run
10 and the police was right there, it could strike here
11 and get out from there? (indicating)

12 **A** That's possible. That would show the same
13 thing in the autopsy as with the hands up or the
14 hands around --

15 Or could be like this?
16 (indicating)

17 **A** Yes.

18 : That is possible too?

19 **A** Yes.

20 You're not going to find any
21 other thing on the body because the bullet is going
22 to go --

23 **A** Yes, yes.

24 Thank you.

25 MS. WHIRLEY: Any other questions? I know

1 you probably need a break, maybe the doctor does
2 too. We'll do that now. I'm not sure of the time.
3 11:04, so let's just take a break.

4 (Recess)

5 MS. WHIRLEY: So we're back on the record.

6 Q (By Ms. Whirley) So, Doctor, tell us how
7 many wounds have we gone through so far? You
8 thought six to seven.

9 A I think we're gone through eight wounds
10 and seven bullets tracks.

11 Q Okay, all right. And tracking, when you
12 say bullet tracks, when you say tracking, what did
13 that mean, first of all?

14 A Examining injuries to the body caused by
15 bullets.

16 Q Okay.

17 A Even though some of these injuries are
18 less important than others.

19 Q Are you able to tell like where the
20 shooter was in relation to the person that shot by
21 looking at wounds?

22 A In my opinion of the seven bullets that
23 struck Mr. Brown, five came from in front of him,
24 the one in the biceps can't tell, the one that, of
25 the seven bullets that struck, one was in the hand,

1 which I think based on the, my review of the
2 histology and all, came while his hand was in the
3 car.

4 One came through the upper arm biceps
5 graze wound, can't tell which direction. And one
6 came from behind the right forearm, which could have
7 come from behind, the others were from in front of
8 him, the weapon was pointed at his front at the time
9 of discharge.

10 **Q** Okay. Any questions on any of that?

11 We'll look at another. This came out
12 of Grand Jury Exhibit Number 7, photograph is Number
13 6. And let's see, which way, Doctor, the other way?

14 **A** Yes, the head by three o'clock, thank you.
15 The reason I'm showing this, I did examine his
16 clothing yesterday at the police building and was
17 impressed, which I haven't realized it that there
18 were drops of blood that had come from drippings
19 from above. And there was some on the socks, which
20 you can see closer if you look at the socks, drops
21 of the socks.

22 There had to be a time, from the time
23 that Mr. Brown was injured and bleeding until he
24 collapsed where the blood was coming from above.
25 And the only place I could figure out it came from

1 was the hand.

2 So that after he takes his hand from
3 the car, he is dripping blood that goes, there's
4 also some on the shirt, but that has a lot of blood
5 that developed after he was on the ground because
6 the body kept oozing blood while he's laying face
7 down after he's dead. And so there's a lot of blood
8 that occurred after he died, but these drops of
9 blood all came while he was alive and to me had some
10 significance about this occurring while he was going
11 away from the car.

12 I can't tell from this how far away
13 from the car he was, but he did not leave that car
14 without realizing that he had suffered an injury to
15 the hand. Whatever psychological effect that has on
16 people, he knew he was bleeding, he knew he had a
17 gunshot wound to the hand.

18 And the skin on the car matches
19 coming from here. So that I think that, whoever
20 examined the car, they did a very fine job to find a
21 piece of tissue on the car because it had already
22 dried and all, when he takes the hand out of the car
23 after it's injured, it goes against, it leans
24 against the car, wherever that was taken from, I
25 don't know which part of the outside it was and then

1 he continued in a way that depends on eyewitnesses
2 and all.

3 Q In your review of all the information to
4 come up with conclusions, did you determine whether
5 or not Michael Brown was right or left handed?

6 A No, I didn't determine that from the
7 autopsy.

8 Q Did you determine it from any other
9 source?

10 A I think I was told he was right handed,
11 I'm not sure. 85 percent of people are
12 right-handed, but I don't know, I didn't determine.

13 Q Okay. And if, as you described the wound
14 to the hand as occurring in close range, not
15 contact, but close range while his hand was inside
16 of the car. And it would have bled quite a bit,
17 would we, should we expect to see a lot of bleeding
18 in the car?

19 A I would expect that there would be blood
20 in the car, plus blood on the weapon, you know, that
21 drops of blood came out and blood along the trail,
22 blood drops coming down don't only land on the
23 socks, they would land on the ground and it would
24 depend on how carefully the scene was examined to
25 look for a blood trail, especially in hot weather.

1 One of the things about hot weather
2 it does things to blood and all on the ground that
3 makes it harder to identify. And that kind of a
4 trail can be helpful in determining how far he went.

5 **Q** Okay.

6 **A** But you know that from the position of the
7 body, I don't know the distance, I've heard all kind
8 of distances.

9 **Q** But it would be your opinion that the
10 majority of the bleeding that would have occurred
11 before he fell to the ground came from the hand?

12 **A** Yes, there was no other place that he
13 would be bleeding from. Once he goes down on the
14 ground, he's bleeding from the head and from the
15 chest and that would accumulate with time. So
16 that's why we see a lot of it on clothing on the
17 upper shirt. But that happened after he collapses.

18 **Q** So when he's shot, let's kind of go
19 through it. He's shot, there's a gunshot wound to
20 the hand, there's a gunshot wound to the forearm?

21 **A** That comes later, yes.

22 **Q** That comes later. Because, I believe, you
23 said it is your opinion that the gunshot wound to
24 the head would have been last; is that correct, to
25 the top of the head?

1 **A** The three of them happen in rapid
2 succession and certainly he would lose consciousness
3 on the top of the head.

4 **Q** All three of those are in the head region;
5 is that correct?

6 **A** One in the head, one above the eye and one
7 around the level of the nipple on the right chest.

8 **Q** Okay. So those are the three?

9 **A** Yeah, because they lineup pretty good if
10 there was somebody shooting rapidly.

11 **Q** Okay. My question to you is twofold, one
12 is, once he received the shots, all the shots that
13 you examine except for the head shot, and maybe it
14 cannot be separated, I don't know. Would he still
15 have been mobile?

16 **A** Yes.

17 **Q** On his feet and able to run or charge at
18 an object?

19 **A** I think that certainly the arm shots, the
20 arm shots would not prevent him from being mobile
21 and running front or back or whatever. And the one
22 in the lower chest wouldn't necessarily slow him
23 down, but the one in the eye, you know, that goes
24 through his right eyeball would, could make him lose
25 consciousness because it does have lines of force

1 going through the brain tissue and all, but not
2 necessarily.

3 Q Okay.

4 A So he could have been, now whether he
5 could be running or, you know, or walking or
6 whatever, would vary from person to person. In
7 fact, some people if they're shot once in the arm
8 might faint, I guess he wasn't the fainting kind.

9 So how people react to gunshot wounds
10 is a different thing, but from the anatomy point of
11 view, he would have been able to be conscious and
12 theoretically, but for the bullet wound in the head,
13 could have been treated and survived if he went
14 right to a hospital or something.

15 Q And the wounds that are around the right,
16 you said there was one to the chest area, correct?

17 A Yes.

18 Q And you don't think he would have been
19 bleeding much from those wounds?

20 A Well --

21 Q Before he collapsed?

22 A He would be bleeding internally, but not
23 outside because bleeding usually, internal organs
24 are injured internally and then they will spill
25 outside. When he collapses, the blood will start

1 coming out after he collapses.

2 I'm sorry.

3 : No, that was the question
4 that I had because I was wondering, I said why, I
5 mean, this is a big guy, I'm quite sure the volume
6 of blood in his --

7 **A** Is more than normal.

8 : I know when I went to the
9 doctor to get a flu shot, she stuck me and I didn't
10 bleed. She said you have good elasticity in your
11 skin and I thought maybe that's why he's not
12 bleeding.

13 **A** That's true. We see this a lot with knife
14 wounds, even in the heart. The knife goes in and
15 goes out and most people, the skin and fat tissue
16 will immediately close up, you know, there isn't a
17 hole left. It is a slow process for bleeding to
18 occur through the body.

19 Superficial cuts on the hand bleed
20 very much, and this is sort of a superficial cut
21 because there's no skin there to come together from
22 elasticity, so that's why cut wounds bleed more than
23 bullet wounds because the bullet goes in and the
24 skin elasticity and the outer most tissue underneath
25 it close it up.

1 So when he is shot in the front, the
2 blood doesn't start to come out right away. It
3 could in a few minutes, but he collapses to the
4 ground. And you can see in the head, there wasn't
5 blood matting the hair, although there was bleeding
6 that came out.

7 I can see in the scene photograph
8 there was some blood coming out gradually from the
9 top of the head, but it went downward and didn't mat
10 the hair up. It wasn't a massive amount, it was a
11 small amount.

12 So that I think that in the normal
13 course you get very little blood coming out if a
14 person collapses right away before death occurred in
15 this case, because of that final shot.

16 **Q** (By Ms. Whirley) You said you had some
17 training or education in toxicology and that's part
18 of your total package as a medical examiner?

19 **A** Forensic pathologist.

20 **Q** As a pathologist from looking at it. Did
21 you look at the toxicology report in this case?

22 **A** Yes, I did.

23 **Q** Was there anything about the result of
24 that toxicology that in your opinion would affect
25 how he would have reacted, his behavior once he was

1 shot, if you are?

2 **A** A very topical question. Yeah, marijuana
3 is not a drug, it is a group of about 18 different
4 chemicals. So that it isn't like taking a
5 barbiturate or cyanide, which is just one chemical,
6 marijuana has all kind of different chemicals where
7 it is grown, the fertilizer, the water supply. The
8 one that is most active is the Delta-9,
9 tetrahydrocannabinol, THC. He had some of that in
10 his blood. And that could affect, could have
11 affected him, however, it is a relative small amount
12 and how it affects somebody varies.

13 Some people can have hallucinations
14 with a lot of marijuana, other people just go to
15 sleep. During the '30s, 1930s, there was terror of
16 marijuana that it made everybody go crazy, it
17 doesn't make people go crazy. That's why the laws
18 have been so strict on it, but now it is coming into
19 more legal status in some places.

20 Marijuana is kind of unpredictable,
21 some people can take marijuana and do funny things
22 and other people are just perfectly normal with it.

23 The problem, marijuana from the
24 toxicology point of view, marijuana gets into the
25 soft tissues and fatty tissues in the body. So even

1 though I smoked a joint two days ago, I might still
2 have little bits coming out today into the
3 bloodstream, or even studies have done for three or
4 four weeks as it's released from the fat.

5 So the amount of marijuana he has
6 could cause abnormal behavior, but usually doesn't.
7 The best indicator of that would be what his
8 behavior was in the time period before and I try to
9 look at that and you see the incident with the
10 cigars, where he took the cigars or the little
11 cigars. Would that in any way be affected by
12 marijuana I think is a guess. Was he walking the
13 street because of marijuana? That isn't usually
14 what happens with marijuana, but it could be and it
15 is too variable.

16 If all of us smoked the same amount
17 of marijuana, we would all act differently. Most of
18 us would just feel very nice about it, somebody
19 might not feel very bad about it and some people may
20 go to sleep and somebody might do something that he
21 wouldn't normally do, but that's, but it was
22 present, but he did take it within a day or two.

23 Dr. , he indicated that
24 the amount of Delta 9-THC --

25 **A** I'm sorry.

1 He indicated in his
2 testimony that the amount of Delta 9-THC that he had
3 in his blood compared to the way it is broken down,
4 not just in the urine, but in the blood was not
5 consistent with just a little bit of an amount. He
6 indicated that given, if you look at the whole
7 picture and not just the 12 nanograms and when it
8 was done, that it would indicate that it was a
9 larger amount than just a little bit amount of
10 marijuana, would you agree with that?

11 **A** Well, it is definitely evidence of smoking
12 marijuana. The problem is whether it is 12 or five
13 or 20, it affects people differently and a lot of it
14 has to do with how, what do you call it, how used to
15 it, how often a person has taken it before. If you
16 take it more often, it has less of an unpredictable
17 affect.

18 It could have been a factor in his
19 behavior, but the best measure of his behavior is
20 what he was doing all day. Was he acting different
21 than he usually did, for example, and that would be
22 for friends and relatives or witnesses who saw him
23 during the day. Was shoplifting cigars a great
24 departure from his usual behavior.

25 So great of a departure that one

1 could say he was influenced by the marijuana or did
2 he do that sometimes when he didn't have marijuana.

3 It is interesting that no other drugs
4 were found and no other medications were found. I
5 couldn't find if he had been taking any other
6 medications that he had stopped taking.

7 MS. WHIRLEY: Why is that interesting to
8 you?

9 **A** Because if he was supposedly taking some
10 medications for weight or for emotional disturbance
11 or for sleep or so, and under a medical directive we
12 should see it in his bloodstream. With the
13 toxicology and the toxicology can tell us if
14 somebody is taking drugs you are not supposed to
15 take, like marijuana, or some they didn't take drugs
16 that they should have taken.

17 Suppose somebody is on antipsychotic
18 medication and there is none in his toxicology, that
19 would indicate he wasn't taking his medication, that
20 could be a reason for his behavior.

21 So toxicology, everything it has and
22 everything it doesn't have has significance, and in
23 this instance, I think marijuana is significant that
24 he smoked marijuana, but 99 out of 100 people taking
25 marijuana aren't going to get in a fight with a

1 police officer over it in my experience.

2 MS. ALIZADEH: Can I just clarify
3 something here, Doctor, your credentials are as a
4 forensic pathologist, although you have a working
5 understanding of toxicology, you are not a
6 toxicologist, correct?

7 **A** No.

8 MS. ALIZADEH: You're not a toxicologist?

9 **A** No, that's correct.

10 MS. ALIZADEH: You are not a
11 pharmacologist?

12 **A** That's correct.

13 MS. ALIZADEH: I would imagine you've
14 never been qualified as an expert in either of those
15 fields in any court of law in the United States,
16 correct?

17 **A** No, that's not true because we often have,
18 we're an expert in interpreting toxicology and there
19 was for about five years I directed a toxicology
20 laboratory in New York City.

21 MS. ALIZADEH: My question is though, you
22 are not a toxicologist or a pharmacologist, correct?

23 **A** That's correct.

24 MS. ALIZADEH: And although you might look
25 at the reports or the results that a toxicologist

1 has come up with you, yourself, cannot perform those
2 tests, correct?

3 **A** That's correct.

4 MS. ALIZADEH: And so you rely on a
5 toxicologist to come up with his findings and then
6 you may or may not find that has any significance in
7 your findings, correct?

8 **A** That's correct.

9 MS. ALIZADEH: But the affects, the
10 findings of a board certified toxicologist, you are
11 relying on the findings of Dr. in this case,
12 correct?

13 **A** On the findings, yes.

14 MS. ALIZADEH: So your statement that 99
15 people out of 100 wouldn't attack a police officer,
16 what's that based on?

17 **A** Based on 20 years I worked with drug
18 addicts, on the board of directors of a number of
19 drug and alcohol programs in New York City. While
20 25 years I was in New York City as medical examiner,
21 deputy medical examiner and then chief medical
22 examiner, we did lots of autopsies on drug users,
23 because we got a lot of autopsy findings in that
24 regard. I was on the board of directors and worked
25 closely interviewing and treating drug addicts,

1 mostly heroin addicts and alcoholics, in different
2 communities.

3 And all of them there was an issue
4 about marijuana because even back 20 years ago, is
5 marijuana the gateway drug to further and more
6 severe drug abuse, which was the general feeling as
7 far as the federal laws went.

8 And one of the things in talking to
9 drug addicts and working with drug addicts, I found
10 that marijuana did not play a significant role in
11 their behavior except for one fact, and one fact is
12 the significant fact was because it is illegal, the
13 person in contact with the seller was also in
14 contact with people who sold other drugs. They were
15 more vulnerable to heroin, barbiturates and other
16 things not because of their behavior, because they
17 were in contact with people who sell illegal drugs
18 and made them more vulnerable to it.

19 So in my opinion working with addicts
20 clinically, as well as autopsy findings, I think
21 that marijuana is not any worse than alcohol.

22 MS. ALIZADEH: To clarify, Doctor, you're
23 testifying as to an expert opinion today, are you
24 testifying today that you have been qualified in a
25 court of law as an expert in toxicology?

1 **A** Not as an expert in toxicology, the common
2 way I'm qualified is an expert interpreting what the
3 alcohol level means. Half the cases we do involve
4 alcohol, either the unnatural deaths and homicides
5 and often we're asked to interpret the, not to do
6 it, I'm not a toxicologist, absolutely, I'm not an
7 expert in toxicology, but I think all forensic
8 pathologists have to be experts in interpreting
9 drugs in the body. Is it enough to cause death.

10 An example, we do an autopsy and the
11 result can come back high level of barbiturates or
12 no barbiturates and yet from the history of the
13 autopsy we determined he died by a barbiturate
14 overdose. The toxicologist would say how can you
15 diagnose a barbiturate overdose. Because we do the
16 autopsy, we see that over the five days he was in
17 the hospital, the barbiturate overdose that brought
18 him there got metabolize. By the time he dies, he
19 has no barbiturates in his body, even though the
20 cause of death is a barbiturate overdose.

21 There is a difference between what
22 the toxicologist is an expert in finding the
23 marijuana, absolutely, I don't do those tests at
24 all.

25 MS. ALIZADEH: Do you disagree they are

1 experts in how drugs affects the behavior or how
2 drugs affect the human body?

3 **A** Yes, that's how the drugs affects the body
4 is a medical knowledge, not a toxicologist. And the
5 reason I'm a forensic pathologist, certainly in New
6 York get qualified to talk about that is because the
7 judge decides hey, you're an expert in finding that
8 it is a .02 or .5 or .3 alcohol, but we're going to
9 have the doctor interpret what that means.

10 And I think a pharmacologist is a
11 little different, a pharmacologist gets more into
12 the affects of the body, but toxicologists are
13 trained in chemistry. And the smart ones get to
14 know about the affects on the body, but not from
15 training, that's just from common sense, as I'm
16 talking from common sense.

17 MS. ALIZADEH: Does anybody have any
18 questions?

19 : Doctor, I seen that each
20 person in medicine not two plus two is four, every
21 person is different.

22 **A** Yes.

23 Maybe 12 nanograms of
24 marijuana is not enough for her, but it is enough
25 for me and I got a big reaction. We don't know what

1 happened when Mike Brown, we don't know if he took
2 those 45 nanograms an hour before and that's the
3 reason he tried to fight with the police, we don't
4 know.

5 **A** Yeah, I agree very much it affects people
6 differently.

7 You can't say that not
8 happen because it is impossible the amount of
9 marijuana he has in his body. I'm sorry,
10

11 **A** No, no, no, you bring up an important
12 point. That the same amount of a drug affects
13 people differently. And I'm just saying in my
14 experience, I've written books about drug abuse,
15 drug abuse in general beyond from my experience with
16 heroin addicts and alcoholics in treatment programs
17 and I'm just, I just think that if somebody on
18 ecstasy or was having hallucinations on LSD might
19 fight with a police officer. Somebody on heroin
20 would go to sleep before fighting with a police
21 officer, somebody on marijuana, I haven't, it
22 affects people differently. I think the chances of
23 somebody taking marijuana and fighting with a police
24 officer and just explaining it on that basis, that
25 might be relative for other reasons why he fights

1 with a police officer, but that's not been my
2 experience.

3 I'm not an expert in finding
4 marijuana, but I think I'm an expert in dealing with
5 people who have spent a lifetime in smoking
6 marijuana in these different programs.

7 MS. ALIZADEH: Do you have any information
8 about Michael Brown's history of drug use?

9 **A** Not specifically, but I think the answer
10 that was being brought up is that, you are better at
11 me in this, what were people saying, how was he
12 acting before this episode would be a better
13 indication of affects of marijuana because marijuana
14 doesn't let you spend the day doing what you always
15 do and then suddenly pop off and do something very
16 different.

17 If you are on marijuana and you are
18 going to act out, you do it right away while it is
19 at its peak. Then they can do things, but that
20 would be my experience.

21 MS. ALIZADEH: So that's just based on
22 your experience?

23 **A** Yes, and my reading of the literature on
24 that.

25 : Going back to when you first

1 started the testimony today, you said the Brown
2 family attorney reached out to you, what did they
3 specially ask you to do or in what role did they ask
4 you to take?

5 **A** Yeah, the person who reached out was the
6 attorney and he said the Brown family, I
7 specifically remember this because it is not
8 surprising in some way. That the mother and the
9 father, it's now been a week, they don't know why
10 their son died and they had other questions. And
11 they're concerned that they might not, they have
12 been told it might be weeks or months before they
13 are given any information while it is being
14 completed.

15 So they wanted an autopsy largely to
16 find out what, why the son died except besides
17 reading speculations in newspapers. And also I find
18 out when I sat down with the family, I came, I sat
19 down with them first, what all families do they want
20 to know, did my son suffer, you know. Did he die
21 right away, and that was the issue.

22 The issue wasn't did he get shot by
23 the police because that was pretty obvious, but the
24 issue was what happened, how many times was he shot,
25 did he have pain and suffering because that was the

1 issue. And principally because they thought they
2 weren't going to be able to get this any other way,
3 to this day they haven't gotten it any other way.

4 MS. ALIZADEH: Let me interrupt here. So,
5 Doctor, you're unaware, I imagine, that my office
6 did provide a copy of the Medical Examiner's Report
7 in late October to the family's attorney?

8 A I didn't know that, I thought that the
9 family's attorney October, that's not far, I was
10 told that they had a copy from the St. Louis
11 Post-Dispatch or something.

12 MS. ALIZADEH: Well, so you are basing
13 this on stuff that other people have told you,
14 correct? So if I were to tell you our office
15 provided an official copy of the Medical Examiner's
16 report in late October to the attorney for Michael
17 Brown's family, whether the attorney gave it to
18 Michael Brown's family or not, I have no information
19 about that, but you're unaware then that we actually
20 provided that report to the attorney in late
21 October, correct?

22 A Until about a week or two ago.

23 MS. ALIZADEH: Late October, it is now the
24 13th.

25 A Yeah, I didn't realize, I wasn't told

1 that.

2 MS. ALIZADEH: And in your experience as a
3 medical examiner in the State of New York, I imagine
4 there were a good number of cases that you were
5 involved in that involved criminal investigations,
6 correct?

7 A Yes.

8 MS. ALIZADEH: You understand the need at
9 times for an autopsy findings to be kept, not made
10 public initially while an investigation is still
11 ongoing, would you agree that there is a, might be a
12 need or a reason that investigators might not want
13 to disclose that type of information?

14 A Yes. It might be valid or not. As a
15 medical examiner, see we are put in the middle,
16 medical examiners should be an independent
17 scientist.

18 Dealing with patients, our concern is
19 when we do autopsies, we are doing for the family
20 and for the society in general, we always have to
21 relate to the family. I spent a few years in
22 internal medicine before going into pathology and
23 that's what's important.

24 So I have found in New York that many
25 times when there have been encounters with

1 correction officers in jail, we had riots in jails
2 and encounters with police, that the sooner you're
3 able to tell the family what happened, remember we
4 do an autopsy and 95 percent of the information is
5 obtained within the day of the autopsy. We then
6 wait for the toxicology, histology, which is usually
7 not necessary legally.

8 Somebody shoots somebody or gets in a
9 car accident and is drunk, we'll call that a
10 homicide, for example, a homicide. They wait on the
11 autopsy report that we don't, that we don't wait for
12 everything to come through. Even though that every
13 shooting, every homicide there is a toxicology on,
14 but if somebody was shot yesterday, they'll come out
15 tomorrow and tell you what the cause of death is
16 even though everything is not completed.

17 So just from my experience as a chief
18 medical examiner is that the sooner that this
19 information is given out, it calms everybody down
20 because one of the things I saw happening with the
21 family here and many other families, whenever
22 somebody dies in an encounter with the police, they
23 immediately often don't trust the police. And then
24 if the medical examiner doesn't release the finding
25 right away they feel, as happened here, that the

1 medical examiner is covering up for the police, and
2 that has to be dealt with. As a physician, I have
3 to deal with that with the family.

4 Now, sometimes it's a value to not
5 release information because you are going to get
6 information, you don't want people to know what
7 happened and you don't want people to make up
8 stories.

9 MS. ALIZADEH: For example, I saw the
10 police officer stand over Michael Brown's body and
11 shoot him in the back, in the head as he laid face
12 down in the pavement, that couldn't possibly have
13 happened based upon your findings, correct?

14 **A** That's correct.

15 MS. ALIZADEH: So wouldn't it be important
16 that maybe those findings would be withheld from the
17 general public so that witnesses who may come
18 forward and report having witnessed this incident,
19 the police may be able to determine the veracity or
20 credibility of that witness if they report something
21 that we know the findings do not support.

22 **A** Yeah, that can happen. However, see in
23 the old days the way we did things was the mantra is
24 you got to find, interview all the witnesses, knock
25 on doors, telephones, whatever in the first 48

1 hours. And you got to get all the stories locked
2 down in the 48 hours and that was the police mantra,
3 or shoe leather.

4 Now oftentimes we're going to wait a
5 little bit until all the DNA and the other tests
6 come through before we interview people during the
7 time they can also make up stories.

8 In answer to your question, I think
9 that if the procedure is to interview people right
10 away, and then the autopsy findings can be released
11 within two or three days after that, it covers both
12 bases. I just think in my experience with families,
13 that the transparency in situations where families
14 don't trust what's going on.

15 When we have seen riot situations in
16 New York City, in Harlem, or specific ones, I'm
17 thinking about the fact that we said yes, the death
18 of the innocent person was caused by a police bullet
19 and not by one of the snipers. Immediately calms
20 things down. They are going to continue, they know
21 we're not going to cover it. I don't know, that's
22 my feeling as a physician.

23 : I'm trying to stay on topic.
24 I have a question for you and I know we have a time
25 crunch as well. In regards to, we have been here

1 quite awhile already, my question is going back to
2 the question I just asked you. You kind of
3 explained why the family reached out to you.

4 **A** Yes.

5 : So it seems to me when they
6 reached out to you, you started an investigation of
7 your own, would you say that's truthful?

8 **A** Yes, within my expertise.

9 Sure. In addition to your
10 role as a forensic pathologist to examine the body,
11 you began investigating on your own; is that
12 correct?

13 **A** Well, that was primarily what I did was
14 examine the body and they asked certain questions
15 about his death.

16 So how did you do that
17 investigation, outside of examining the physical
18 body, how did you investigate?

19 **A** That's my investigation is examining the
20 body and finding out from the family what kind of
21 medical problems the person may have had and any
22 history that would be pertinent to interpret the
23 autopsy findings, but it was essentially doing the
24 autopsy.

25 : You said you found a leaked

1 copy of an autopsy?

2 **A** Say that again, I'm sorry?

3 You said you viewed a leak
4 autopsy, how did that come to you?

5 **A** I think the lawyers send me something from
6 the St. Louis Post-Dispatch.

7 : Is that a credible resource?

8 **A** No.

9 : Okay.

10 **A** I didn't get the autopsy until yesterday
11 but I was leaked, there was an autopsy leaked. I
12 think I may have even gotten it from the internet.
13 An autopsy was leaked, it looked pretty good. I
14 couldn't rely on it until I saw it yesterday when it
15 was given to me by the medical examiner's office.

16 You viewed this leaked
17 autopsy report prior to your autopsy of the body?

18 **A** No, no, there was no autopsy. I spoke to
19 , the chief medical examiner, who I have
20 known for quite a while, and been told I was doing
21 it. We invited anybody from the office to come down
22 to see. I think it is always better if the person
23 that does the first autopsy is also present at the
24 second autopsy to make sure everybody is on the same
25 page. We invited them down, they couldn't come

1 down.

2 I was hoping to speak with her about
3 the results of the first autopsy when she got
4 authorization from the prosecutor's office, we
5 didn't have that conversation.

6 : I'm sorry, I don't think my
7 question was answered, I can rephrase it. Did you
8 view the leaked autopsy prior to conducting your
9 autopsy?

10 **A** I thought I answered it. There was no
11 leaked autopsy until a couple weeks ago. There was
12 no autopsy, I didn't review any autopsy findings
13 prior to my autopsy and the autopsy leaking I'm
14 talking about was from two or three weeks ago.

15 Sure. So you said you got
16 things off the internet?

17 **A** I got the leaked autopsy on the internet.

18 : Okay. So you never searched
19 the internet for any other information?

20 **A** No.

21 You provided us a lot of
22 information today then, I don't believe someone
23 could just evaluate based on looking at a body. You
24 made assumptions that his hand was in the car, I
25 don't know how you would have known there was a car

1 unless you are just looking at the body --

2 **A** I read the newspaper.

3 : Let me finish. You said
4 there were drops of blood on his hands and socks
5 that had to have come from his hand. You said that
6 you knew he knew he was bleeding, Michael Brown,
7 when he left the car. You said you've heard all
8 kind of distances that the shooting occurred, you
9 said that he, Michael Brown, could have been treated
10 and survived if he received immediate medical
11 attention.

12 I mean, these are all things that seem to
13 me to be assumptions or things that you've gathered
14 from either talking to other individuals or looking
15 on the internet and doesn't to me seem factual or
16 based on your role as a forensic pathologist.

17 **A** An autopsy can never be evaluated in a
18 vacuum, we always have to have other information
19 that we get from various sources. Somebody falling
20 out of a window will have the same injuries, whether
21 he was pushed, whether he jumped and committed
22 suicide or whether he fell accidentally. No autopsy
23 can interpret all by itself because all kind of
24 different reasons why injuries can occur.

25 What I receive, the information I

1 received initially was what the lawyers had told me
2 and what I read in the New York Times about, you
3 know, rioting in Ferguson. I don't get stuff off
4 the internet. I got the autopsy report, which is
5 just three weeks ago or something, but I think it is
6 unreliable, I agree with you, until you get an
7 official one.

8 I read about the disputes that were
9 going on. I read about how there was a leak about
10 the FBI reporting that there was Brown's blood DNA
11 in the car. I could say that that injury to the
12 hand was consistent with that, that's all, not that
13 it happened that way, but other people are doing
14 other investigations in their expertise.

15 Any autopsy report, hospital, medical
16 examiner, forensic has to include lots of other
17 information, some of which are gotten from police,
18 some from lawyers, some from family. None of which
19 can automatically be adopted as true just to see how
20 it correlates with the autopsy report.

21 : I just asked, you know,
22 we're all here to find the truth.

23 **A** Yes.

24 We are just trying to figure
25 out what is fact and what is written on the internet

1 or in a newspaper, we are here for the truth.

2 **A** I'm not, I'm not, what you call it,
3 relying on the internet. The reason I mention the
4 internet is because when the autopsy report was,
5 we've been waiting, the family has been waiting for
6 the autopsy report and finally there was an
7 announcement that the autopsy report had been
8 released. And talked with the lawyer and said it
9 wasn't released in the normal course, it was what he
10 called leaked through the St. Louis Post-Dispatch.

11 He sent it to me and I read it, you
12 know, it looked good but it's still, as you said,
13 I'm not going to rely on it as being the true thing
14 unless I knew it was the true thing. And there were
15 other things you mention that the clothing, for
16 example, I saw the clothing. I examined the
17 clothing, and the drops of blood on the clothing and
18 sometimes we can find droplets of blood to be very
19 useful in our examination and it showed that it was
20 coming from above the pants and down to the floor
21 and that the only thing I could find that would go
22 along with it would be the cut in the hand.

23 Yeah, as far as some things are, yes,
24 I rely, I'm assuming certain things are correct,
25 which may or may not be correct. Distances may not

1 be correct, how he was behaving may not be correct,
2 and your ability to gather information of what his
3 actions were and how he was behaving in the hours
4 before this episode is the best indicator of the
5 affects of marijuana than what I'm raising, you
6 know, in different forms. But I just think that
7 medical examiners always have to take other things
8 into consideration.

9 And the best example of that, the
10 biggest obligation we have is to issue a death
11 certificate. And the medical examiner, coroner's
12 job that he's responsible for, he or she has to
13 certify the name of the person through various
14 means, make sure it is the right person on the death
15 certificate.

16 Cause of death and manner of death.

17 Cause of death we find from the
18 findings at autopsy, gunshot wounds, heart attack,
19 cancer. The manner of death, natural, accident or
20 suicide, we are always relying on other people's
21 information.

22 Falling out of the window, was he
23 washing the window at that time depends on some
24 other information that may or may not be reliable.
25 So the manner of death, the accident, suicide,

1 homicide, always faces the problem that you raise.

2 MS. ALIZADEH: Doctor, you are not a blood
3 spatter expert?

4 **A** That's correct.

5 MS. ALIZADEH: And you know you testified
6 that in your opinion the blood on the pants and the
7 socks came from the hand because it came from above
8 and dropped downward?

9 **A** Yes.

10 MS. ALIZADEH: Wouldn't you agree with me
11 that the injury to the face, gunshot wound that
12 traveled through the face, lacerated the eyebrow
13 area, it ruptured his eyeball?

14 **A** Yes.

15 MS. ALIZADEH: If he were in this
16 position, blood could have spattered from that
17 facial injury onto his shorts and socks; is that
18 right?

19 **A** It's possible in the seconds before he
20 fell to the ground that could have happened, some of
21 that could have happened, yes.

22 MS. ALIZADEH: You can't tell when those
23 spatters happened, correct?

24 **A** Other than there were lots of spatters,
25 that they have been in between his getting an injury

1 and to his falling to the ground and he couldn't
2 have gotten that much blood on his pants and socks
3 just from a bullet wound that enters the scalp, went
4 through the eyeball, some blood can come out and
5 collapses to the ground. If he was standing after
6 that shot, then with his head bent over it could
7 have happened.

8 MS. ALIZADEH: And you indicated also that
9 if that hand wound, which you said was bleeding
10 excessively, I'm sorry?

11 A Bleeding, bleeding.

12 MS. ALIZADEH: Bleeding a lot you said?

13 A Bleeding a lot.

14 MS. ALIZADEH: Bleeding a lot. But at any
15 rate, the injury to his forearm, okay, the right
16 forearm?

17 A Yes.

18 MS. ALIZADEH: We don't know when that
19 occurred, if that occurred up at the car, if that
20 occurred sometime later in the incident, correct?

21 A Correct.

22 MS. ALIZADEH: If that occurred up at the
23 car, that injury could have been the source of the
24 blood spatter on his clothing, correct?

25 A If his blood is in the car, comes from the

1 car and his blood is on both on his pants and is
2 like, yeah, it could have covered, following the
3 injury to the hand in the car, yes.

4 MS. ALIZADEH: So, I mean, you really
5 can't conclude anything from the fact that other
6 than the blood that was on his shorts and socks came
7 from the body of Michael Brown and that they came
8 after he had been injured by a gunshot wound.
9 Injured with a gun, is that fair to say?

10 A I think I agree with everything you say.
11 I think also that the only way I could correlate it
12 if it came from the hand, but that would be my
13 opinion. It could come from any part of his body
14 that was bleeding long enough for that blood to come
15 out, yes, I agree with you.

16 MS. ALIZADEH: And if there are witnesses
17 that say when I saw him get shot they saw blood
18 spray come off his head?

19 A Yeah.

20 MS. ALIZADEH: That could have caused the
21 spatter that was on his socks and his pants?

22 A Yeah, I think the witnesses saw blood
23 spatter when the head was struck would be consistent
24 with what happens when somebody's shot in the head
25 with a bullet, but very little spatter occurs there

1 because blood could have come out, but it wouldn't
2 cause all of the blood, it could cause some of the
3 blood.

4 MS. ALIZADEH: Okay. Go ahead.

5 : You did say that the hand
6 wound, I guess because of the way it is superficial
7 or the way the bullet would have hit it, it would
8 have bled more?

9 **A** Yes.

10 Compared to the --

11 **A** To the bullet hole, yes. I think the
12 issue that somebody brought up was even bullet holes
13 quickly, the elasticity quickly closes up for a
14 little bit, so you get some blood. You see it in a
15 rapid camera that some blood comes out, not as much
16 that comes out of the cut surface of the hand.
17 Bullet wounds in the hand is, this one is like a cut
18 wound, it didn't go in and seal up, it is a long
19 graze so that a lot of blood vessels were exposed in
20 the hand and caused bleeding.

21 : I have a question, I'm kind
22 of curious about the original autopsy, so you did
23 get a chance to see it?

24 **A** I saw the photographs from the original
25 autopsy. Most of these are the ones you looked at,

1 the police took.

2 : Did you ever see the report?

3 **A** Then I saw recently the report, the
4 autopsy report, yes.

5 So how did the one that you
6 said that was leaked, how did it compare to the
7 original one that you saw.

8 **A** It was the same, it was the same. The
9 leaked autopsy report was the same as the final one,
10 but as was brought up, it is not as reliable.
11 Sometimes things get leaked and changes are made,
12 but in this instance the leaked autopsy was the same
13 as the official autopsy.

14 I have two questions. We
15 have heard testimony from two different agencies
16 that have performed autopsies. We had St. Louis
17 County and the Department of Justice or the
18 Department of Defense. They both come in and go
19 over their autopsies in great detail and their
20 findings. Is there any reason that we should
21 question the validity of those, of those findings?

22 **A** Well, I think, I'm not sure. I know what
23 I seen in the autopsy report from St. Louis County.
24 I haven't seen anything about the federal autopsy
25 report.

1 As far as I could see with the St.
2 Louis County autopsy, the findings are the same. It
3 is the interpretation we get into that can differ
4 depending on experience and other things.

5 For example, whether or not the
6 bullet wound in the clavicle or up by the shoulder
7 by the collar bone is a reentry or not. As a
8 forensic, we can disagree forensically, doesn't make
9 any difference in the scheme of things, except it
10 ads a bullet that struck the body.

11 So from my experience, I would
12 interpret it as a reentry wound rather than an entry
13 wound, but it really doesn't make any difference in
14 the overall interpretation of what happened.

15 I don't know if, I think as far as
16 the toxicology goes, I think the issue that was
17 brought up by the attorney was that there are
18 toxicologists who are very good at finding
19 toxicology, and an interpretation of how long the
20 drugs last in the body. They are very good how long
21 the drugs lasted in the body, for example. And that
22 would have, uh, what do you call it, many more
23 importance than a medical examiner's interpretation,
24 but I think that the point you are in a position to
25 do much more than we can is finding out his behavior

1 during the day.

2 If marijuana has caused his behavior
3 to be different than usual, that can best be
4 determined by other observations by people that
5 you've taken testimony from during the day and
6 marijuana if I smoke it now, if I start acting
7 bizarre it would be very quickly.

8 You know, if I'm normal behavior for
9 the next four hours, I'm not suddenly going to do
10 something to act differently when the level of
11 marijuana has gone down considerably, that's all.

12 : My second question is, we
13 can agree you're a pretty high profile person, and
14 you've been in the news and on the news and
15 interviewed a lot, do you recall a conversation that
16 you had with when you mentioned
17 to her that the presence of marijuana in Michael
18 Brown could have led him to act crazy was the actual
19 word that you used?

20 **A** I did say that, yes, it can, but it is
21 unlikely. And the sentence we are talking about it
22 would be right away and it is unusual, but it can in
23 the whole spectrum. Most people wouldn't have too
24 much affect on, some would have a very soothing
25 affect, you know. Medical marijuana and things like

1 that can make people feel better who are dying of
2 cancer and things like that, and some people can act
3 very unusual and crazy, but that's very unusual.
4 But I think you got it right.

5 : Thank you.

6 MS. WHIRLEY: Anybody else?

7 You know we have a copy of
8 the Department of Defense and we have a copy of St.
9 Louis County. I'm still baffled by what you see, I
10 don't have anything that shows me in writing so we
11 can compare what, what your findings are. So what
12 are the differences?

13 A Well, number one --

14 I mean, we are already after
15 12.

16 A That's okay. I know number one, that I'm
17 giving you an opinion in great part depends on what
18 I saw yesterday. I couldn't give an opinion, as I
19 said a long time ago, until I saw the autopsy
20 photographs, what the body looked like before the
21 autopsy was done, you know, which these photographs
22 that you see are all from that time, which are very
23 significant.

24 I couldn't see the x-rays, the
25 clothing, were all important to me in arriving at

1 particular opinions.

2 As far as the autopsy, and then I
3 will now write a report, but I couldn't write it
4 yesterday, I will write a report on the basis of my
5 finding.

6 As far as I could see from the St.
7 Louis report, I don't know the other report, we
8 agree with everything except that reentry wound.

9 : You agree with everything
10 except the reentry?

11 **A** In the autopsy report is there, I don't
12 know what the testimony has been, but is there
13 something particular that you think --

14 No, and that is my question.
15 My question is, you have made statements to the
16 press about how your findings are different than
17 ours and now --

18 **A** I have not made such statement.

19 : So the press is wrong?

20 **A** Of course. I am told one thing, I'm told
21 that the USA Today had an article about me. I have
22 no idea what it said, but I find often, especially
23 in forensic, that what they say they often
24 misconstrue things.

25 I know.

1 **A** So if you are referring to articles I
2 haven't seen, I can't answer that. I'm telling you
3 that the only thing I said to the press was
4 initially, way at the very first day, I did the
5 autopsy and the next day the family had a press
6 conference. And I said as a basis of my findings, I
7 find no evidence of powder on any of the gunshot
8 wounds and that they were all distant, beyond one or
9 two feet away at the time of discharge.

10 Now, yesterday, I looked at slides, I
11 looked at things and sure enough, I looked at
12 pictures that one photo shows it nicely to me of the
13 hand that there is powder and I indicated at the
14 time you recall very careful to say that, these are
15 preliminary, these are not my final opinions. And
16 if I get more information, and essentially I didn't
17 get that much information until yesterday, when I
18 went through the thing, but I would think that yes,
19 I was mistaken. There is powder, gunshot powder on
20 the hand.

21 But, and I think that the only thing
22 that's different was whether we both agree that
23 there was a gunshot wound in the back, one was in
24 the back, the others were in the front, there is no
25 difference.

1 : The reason I ask that is
2 because you did mention you got some of your
3 information from the New York Times. I just wanted
4 to point out for the record the information that we
5 do get from the media can be skewed. There is very
6 little that's correct about it. So I just wanted to
7 make sure that you know.

8 **A** You're absolutely right, but the
9 information I get you see is different kind of
10 information is a lot of turmoil in Ferguson, there
11 are people making all kind of charges. That there's
12 a problem with the interpretation, that's the
13 information that I get.

14 I don't get, I did say that if, in my
15 opinion, if the leaked report that there's blood
16 from Brown in the car, then that would be good
17 evidence that his hand was in the car. Then that
18 would be good evidence at the time he was bleeding,
19 that kind of thing, if. But all the ifs canceled
20 out when I see what the work was. I agree with you,
21 what's in the newspapers are not reliable.

22 : Malarkey.

23 **A** They are not reliable for forensic work
24 and the news media, if you haven't figured out, like
25 to create problems. It isn't to say A, B and C,

1 everybody says A, B and C, that's not news. But to
2 say he says A and he says Z, that sells newspapers.

3 : One other question and then
4 I promise no more. Do you do every autopsy you are
5 asked to perform for a family?

6 **A** No, no.

7 So what's the determining
8 factor.

9 **A** The most important factor is will the
10 autopsy make a difference. Is it important, is it
11 important, because often families want autopsies out
12 of curiosity and that may be okay, but I wouldn't go
13 out of the way to do such an option. I do about, I
14 do many less, I'm asked to do lots of autopsies and
15 I will do the autopsy where I think that an autopsy
16 or re-autopsy would be significant for the family or
17 for the society.

18 When we do autopsies on homicides, we
19 have two things, one is the family and two is
20 society. Society has a right to know what happened
21 to somebody who's murdered and how to prevent it or
22 catch the bad guy to do it. So that we have both of
23 those and sometimes that comes into conflict as the
24 prosecutor said that sometimes telling the family,
25 which is important, comes in contact with the

1 investigation from the public as far as giving
2 information out to the bad guy to make up stories or
3 something.

4 MS. WHIRLEY: Just for the record, and
5 this is it, it is not really a question. You had
6 mentioned that there was one shot from the back and
7 I didn't want it to be misconstrued that you were
8 saying he was shot in the back, you are talking
9 about you talk the forearm.

10 A Back of the right forearm, yes.

11 MS. WHIRLEY: Okay, all right.

12 A Can I just mention that, as I say, this
13 isn't my first rodeo in Missouri, I've been here
14 before, I've investigated, I just recently, a year
15 or two ago, talked to the St. Louis Major Crime
16 Unit, which works with Illinois, nearby Illinois. I
17 spent a lot of time in Columbia, Missouri
18 investigating unexplained deaths in the Harris S.
19 Truman Veterans Hospital, I've been involved with a
20 number of investigations in veteran hospitals where
21 medical personnel may have intentionally killed
22 patients.

23 And I've lectured to the Missouri
24 Highway Patrol and things like that. We always,
25 medical examiners are coming to some jurisdictions,

1 always work under the guise of being carpetbaggers,
2 and to a certain extent we are carpetbaggers coming
3 from away, but I've been accepted in other
4 situations as reasonable in Missouri.

5 So I hope what I may have may have
6 sounded unreasonable isn't as nutty as it might
7 sound. It is just after 50 years in this business,
8 one isn't afraid to give opinions.

9 I'd like to know if you
10 know, what is the reason that a lawyer from Michael
11 Brown's family don't give you official copy of the
12 autopsy, why what is the reason?

13 **A** This is the first I've heard. I don't
14 speak frequently to the lawyers, this is the first I
15 heard that they were given the official autopsy
16 before it came out in the St. Louis Post-Dispatch.

17 MS. ALIZADEH: I didn't say it was before
18 it was leaked, I just said it was in late October.

19 **A** I think I heard the I got the leak copy
20 somewhere around late October also. I didn't know
21 that, I'll ask them. If I've been under the
22 assumption that the family, it wasn't released.
23 Normal people can't interpret autopsy reports once
24 the autopsy is released, you need a physician to
25 interpret what it all means, all the different

1 organs and bodies and medical terms.

2 So I expect that once it was
3 released, I would be asked to explain it to the
4 family and I wasn't asked to explain it to the
5 family until later on.

6 Giving you the copy is not
7 released to the press, it is a lawyer, who has the
8 official copy. What is the reason they don't give
9 you the copy, I don't understand that?

10 **A** I don't know, I'll have to ask him.

11 : It don't seem correct to me,
12 but that is my opinion.

13 MS. ALIZADEH: Let me clarify, Doctor,
14 where did you get, I know you said you saw the copy
15 on the internet?

16 **A** No, I said probably. I got a duplicate
17 copy was sent to me.

18 MS. ALIZADEH: Do you know who sent it.

19 **A** I think it was an attorney or it was a
20 newspaper reporter wanting me to comment on it or
21 something. It was emailed, something was emailed to
22 me. I think it was from the reporter, from the
23 attorney, but that was from St. Louis Post-Dispatch
24 release, which I agree with the gentleman, it is
25 interesting, I'm not going to take it as gospel.

1 : Did Mr. Brown's parents ever
2 say in your questioning of them that he had like a
3 childhood behavior problem or anything like that?

4 **A** He did not. I spoke to the mom and dad.
5 One of the questions I wanted to know, the purpose
6 of the autopsy is any surgical or medical
7 conditions, and as far as I was told, was perfectly
8 healthy. I know sometimes families, especially when
9 they're grieving, just say that and without
10 necessarily thinking about it or anything. So as
11 far as I know, as I stand here today, sit here
12 today, as far as the autopsy and toxicology would
13 show, I see no evidence of prior medical conditions
14 or that he was under any treatment for medical
15 conditions.

16 : Thank you.

17 MS. WHIRLEY: Anything else? I think
18 that's it, Doctor. We appreciate you coming.

19 (End of the testimony of Dr.

20 .)

21 MS. ALIZADEH: Good afternoon. It is
22 November 13th, 1:05 p.m. We took actually a really
23 nice short lunch break. So we have our next witness
24 here is ready. Previously, I said we would maybe
25 play her taped statement first because she was

1 eating lunch, but she's done. We'll go ahead and
2 put her on and then play her statement, it is about
3 20 minutes.

4 I also did tell you, I can't remember if
5 it was Tuesday or Monday, but one of the grand
6 jurors, do we know if , the physician's
7 assistant, had said she had taken a sample that was
8 then going to be tested.

9 So I informed you that we had those
10 results and that they were negative for drugs and
11 alcohol. I asked if you wanted me to call somebody
12 to testify about that, you indicated you didn't need
13 a witness to say that it was negative.

14 I'm going to just pass out copies of those
15 reports so you can review that, Grand Jury Exhibit
16 Number 96.

17 (Grand Jury Exhibit Number 96
18 marked for identification.)

19 ,
20 of lawful age, having been first duly sworn to
21 testify the truth, the whole truth, and
22 nothing but the truth in the case aforesaid,
23 deposes and says in reply to oral
24 interrogatories, propounded as follows, to-wit:

25 EXAMINATION

1 BY MS. ALIZADEH:

2 Q At this time I'm going to ask the court
3 reporter to pause the recording, and then he will
4 continue to take down what's being said.

5 Could you state your name, please?

6 A

7 Q And, can I call you

8 A Yeah, sure.

9 Q The reason, one of the things that as the
10 foreperson said when he swore you in and the second
11 part of the oath you seemed a little confused about.
12 What he said was in taking that oath, you have to
13 promise not to talk about what we talk about in here
14 today.

15 A Okay. I kind of figured that's what it
16 was.

17 Q After you leave here or even the fact that
18 you were here and testified, shouldn't be mentioned
19 to anybody, okay?

20 A Not even my employer?

21 Q You can tell your employer that you were
22 subpoenaed to the grand jury, but the fact that you
23 gave testimony about what you saw and everything, it
24 is best that you just not say anything, okay?

25 A All right.

1 **Q** And because of that and the nature of your
2 eyewitness testimony, the court reporter is taking
3 down what's being said. I had you identify yourself
4 and do you spell ,

5 **A** Yes, I do.

6 **Q** common spelling?

7 **A** Yes.

8 **Q** And then what's going to happen here is in
9 a moment we're going to begin the audio recording
10 again for you to tell what happened.

11 **A** Okay.

12 **Q** But because we're going to keep your
13 identity unknown to the general public in the event
14 that this gets released at a later date.

15 **A** Okay.

16 **Q** We are going to refer to you after we
17 begin the recording, we're going to refer to you as
18 Witness Number 64, okay?

19 **A** Okay.

20 **Q** I will try to avoid using your name or
21 anything like that.

22 Also, before we start the recording,
23 we don't want you to necessarily disclose anything
24 that might be, somebody might be able to figure out
25 who you are or where you live or anything, so I'm

1 never going to ask you your address. You can just
2 say the general location of where you live, I live
3 in the City, I live in North County, I live in South
4 County, I live in Illinois or something, okay?

5 **A** All right.

6 **Q** And then also, just for the sake of them
7 understanding, before we begin the recording, on the
8 day that this happened, you were in a car with some
9 people; is that right?

10 **A** Yes, ma'am.

11 **Q** And who were you with?

12 **A** My mother, my dad and my sister and my
13 .

14 **Q** Okay. And your dad is ?

15 **A** Yes.

16 **Q** And your mom is ?

17 **A** Yes, ma'am.

18 **Q** And your sister is

19 **A** Yes.

20 **Q** And your , ?

21 **A** .

22 **Q** Okay. And so when we begin the audio part
23 of this again, if you could just refer to my mom, my
24 dad, my sister, rather than using their names, it
25 will help us not to have to like go back later and

1 try to take that out, okay?

2 **A** No names.

3 **Q** All right.

4 MS. ALIZADEH: So . Court Reporter, if
5 you will start that again.

6 **Q** (By Ms. Alizadeh) Okay. Ma'am, you
7 previously identified yourself, to the grand jurors,
8 and how old are you?

9 **A** I'm

10 **Q** And whereabouts do you live?

11 **A** In .

12 **Q** Did you grow up in ?

13 **A** Yes, ma'am.

14 **Q** Okay. You're here, you're aware that you
15 are here because you were in the Canfield Green
16 Apartment Complex on August 9th and witnessed
17 something; is that right?

18 **A** Yes, ma'am.

19 **Q** And do you live in the Canfield Green
20 Apartments?

21 **A** No, ma'am.

22 **Q** Did you ever live in the Canfield Green
23 Apartments?

24 **A** No, ma'am.

25 **Q** What were you doing there that day?

1 **A** I was on my way to go visit

2 .

3 **Q** So were you in a vehicle when you
4 witnessed something?

5 **A** Yes, ma'am.

6 **Q** And who was driving the vehicle?

7 **A** My mother.

8 **Q** And was there anyone else in the car with
9 you?

10 **A** My dad, my sister and

11 **Q** And , we have already said,
12 , correct?

13 **A** Yes, ma'am.

14 **Q** And is your sister an adult?

15 **A** Yes, ma'am.

16 **Q** And so do you recall about what time you
17 drove into the Canfield Apartment Complex on that
18 day?

19 **A** No, ma'am.

20 **Q** You said you were going there in part to
21 visit, you were going there to visit ?

22 **A** Yes.

23 **Q** Does she live in the complex?

24 **A** Yes, ma'am.

25 **Q** Have you been to her apartment in the

1 past?

2 **A** Yes, ma'am.

3 **Q** And, ma'am, I'm going to show you a map,
4 which is marked Grand Jury Exhibit Number 25. And
5 can you see it from where you are sitting there if I
6 put it here?

7 **A** As a matter of fact I can. It is marked
8 with a number, .

9 **Q** Okay. So you see a number of a building
10 that says

11 **A** Yes, ma'am.

12 **Q** So just in general, do you recognize this
13 to be the streets and the buildings that make up the
14 Canfield Green Apartment Complex?

15 **A** Yes, I do.

16 **Q** So when you drove into the complex that
17 day, did you come in from the east side or did you
18 come in from the west side? Do you remember what
19 major street you were on?

20 **A** West Florissant.

21 **Q** So if West Florissant is over here.
22 (indicating)

23 **A** Okay.

24 **Q** You can't see it in this map?

25 **A** Uh-huh.

1 **Q** So from West Florissant you turned onto
2 Canfield Drive?

3 **A** Yes, ma'am.

4 **Q** And did you begin to drive into the
5 complex?

6 **A** Yes.

7 **Q** Okay. And here is a laser pointer.

8 **A** Okay.

9 **Q** So if you press that right there you can
10 see, it will put a red dot on the map.

11 So just with that red dot, show me
12 the apartment where you were going to?

13 **A** Right there. (indicating)

14 **Q** And so when you were in the vehicle, what
15 kind of vehicle is it?

16 **A** A , .

17 **Q** You can't remember the make?

18 **A** No, I can't.

19 **Q** So your mom was driving and your dad was
20 where in the car?

21 **A** He's in the passenger seat.

22 **Q** In the front?

23 **A** Yes, ma'am.

24 **Q** Where were you in the car?

25 **A** I was right behind my mom.

1 different device?

2 **A** On my phone.

3 **Q** Do you recall what everybody else in the
4 car was doing, your mom was driving, right?

5 **A** Driving, I think the rest of us might have
6 been on different devices just playing games, I
7 don't know. I was playing Candy Crush.

8 **Q** Okay. So were you playing just on your
9 phone or were you and your sister playing together?

10 **A** Just on my phone.

11 **Q** And so as you came into the complex, was
12 it, you recall this being a Saturday?

13 **A** I couldn't tell you. I don't remember
14 exactly which day it was.

15 **Q** Okay. Do you remember it being light
16 outside?

17 **A** Yes, it was daytime.

18 **Q** And sunny, not raining or anything?

19 **A** Yeah, sunny.

20 **Q** When you came into the complex, where was
21 your mom's vehicle when you first heard something?

22 **A** Right here, about right here.

23 **Q** So you have the laser pointer on Canfield
24 Drive, correct?

25 **A** Yes, ma'am.

1 **Q** Which direction was your car going?

2 **A** It was pointed this way. We turn right up
3 on this lot.

4 **Q** So your vehicle was traveling, if I run my
5 finger along here?

6 **A** You know what, it might have been this
7 driveway. We went around behind some buildings.

8 **Q** Let's focus on where you were when you
9 first heard shots.

10 **A** Okay.

11 **Q** At some point did your mom then try to
12 turn around?

13 **A** Yes, she turned up onto a lot and we went
14 behind some buildings.

15 **Q** Do you know is it, did you go up around
16 here, did you go around here, do you know when your
17 mom finally turned around did she make a left or a
18 right, did she totally turn her vehicle around in
19 the roadway?

20 **A** She didn't turn around in the roadway, we
21 turned up on the lot and went behind some apartment
22 buildings and came out on the other side.

23 **Q** So just to try to figure this out when
24 you, after the incident, did you ever drive past the
25 police vehicle or the body?

1 **A** After the incident, we didn't like drive
2 directly past it, it was like down the street some.

3 **Q** Okay.

4 **A** Yes.

5 **Q** This Coppercreek Road actually goes around
6 some buildings?

7 **A** It might have been there. Yeah, there's
8 the park right there, the park, yeah. We were
9 sitting right next to the park. There was a lady
10 standing next to us. She was walking down the
11 street, I'm sorry, it was that driveway we came up.

12 **Q** Okay. This driveway?

13 **A** Yes, ma'am.

14 **Q** So now that you've kind of familiarized
15 yourself a little more with the map, where do you
16 think your mom's car was when you first heard
17 something?

18 **A** I guess right here, right before we got to
19 the driveway. (indicating)

20 **Q** Okay. And so what is it that you heard?

21 **A** I heard pow, pow, we're trying to
22 determine whether it was firecrackers or gunshots.

23 **Q** Okay. Do you remember if the car windows
24 were up or down?

25 **A** Um, I'm guessing that they were down. I

1 can't really remember. There's only two windows
2 that are let down in the van and they are two front
3 windows. I don't remember if they were up or down.

4 Q Okay. So you didn't hear anything that
5 drew your attention before you heard pow, pow?

6 A No, ma'am, I didn't hear any arguing, I
7 wasn't --

8 Q Screaming?

9 A No.

10 Q Yelling?

11 A No, don't remember any of that.

12 Q Okay. So when you heard pow, pow, did you
13 look up from your game?

14 A Yes.

15 Q And what did you see?

16 A I saw a bunch of people standing around
17 everywhere. I saw Mike Brown take off running. I
18 didn't really know him.

19 Q You said you saw Mike Brown take off
20 running. Did you know Mike Brown before that day?

21 A No, ma'am.

22 Q So you just now know that that was Mike
23 Brown, correct?

24 A Yes.

25 Q Had never seen him or met him?

1 **A** Never seen him or met him. I only know
2 his name because of the news.

3 **Q** Okay. So when you look up, what's the
4 first thing you see as you look straight ahead.
5 Could you see through the car windshield?

6 **A** Yes, ma'am.

7 **Q** Even though you're sitting directly behind
8 your mom, you could still see through the car
9 windshield?

10 **A** Yes, I could.

11 **Q** What did you see when you looked straight
12 ahead?

13 **A** When I looked straight ahead, I saw him
14 running and I saw the officer chasing him, that was
15 the first thing I saw.

16 **Q** Was he running toward your car or away
17 from your car?

18 **A** Away from my car.

19 **Q** When I say he, I mean Michael Brown?

20 **A** Away from my car.

21 **Q** Can you use the laser point and show us
22 where he was when you looked up and saw him running?

23 **A** I guess he took off right here. When I
24 saw him take off running, he was about right there.
25 (indicating)

1 **Q** Okay. He was running away from you, so he
2 was running east?

3 **A** Yes.

4 **Q** Did he stay in the street or did he go
5 into the grass or sidewalk?

6 **A** He was in the street.

7 **Q** So when you first saw him, was he standing
8 still or was he running?

9 **A** He was running when I first saw him.

10 **Q** So his back was to you when you first saw
11 him?

12 **A** Yes.

13 **Q** And then how about the officer, could you
14 recognize him immediately as being a police officer?

15 **A** Yes, he was in uniform.

16 **Q** Okay. And do you recall was he standing
17 still or was he running or doing something else when
18 you first saw him?

19 **A** When I first seen him, he was not, he was
20 standing still and then he took off running after
21 Mike after he starts running.

22 **Q** Did you notice a police vehicle in the
23 road?

24 **A** We were sitting not too far from one, I
25 can't tell you whether it was facing us or facing

1 away from us though.

2 Q Okay.

3 A I don't remember.

4 Q So you didn't see whether he was in the
5 vehicle or getting out?

6 A I didn't see none of that.

7 Q So when you first saw the officer, he was
8 actually outside of the vehicle?

9 A Everybody was outside the vehicle.

10 Q You already heard two shots at that point?

11 A Yes, ma'am.

12 Q And so then you saw Michael Brown, the man
13 we know now as Michael Brown?

14 A Uh-huh.

15 Q Run away from you?

16 A Uh-huh.

17 Q He was running when you first saw him?

18 A Yes, ma'am.

19 Q And then when you saw him, could you tell
20 at that point if he had any injuries on his body,
21 did you notice any blood or anything?

22 A No, ma'am. I didn't notice anything.

23 Q When you first saw the officer and you
24 said he was standing, did you notice a gun?

25 A Yes, he had drew his gun then.

1 **Q** Do you recall what hand his gun was in?

2 **A** No, I think he had both hands on it.

3 **Q** Can you show us how he had the gun?

4 **A** I remember him holding it like this right
5 before he took off running.

6 **Q** Okay. So for the record you have both
7 hand together?

8 **A** Yes, ma'am.

9 **Q** And your elbows are straight and your arms
10 are extended out in front of you?

11 **A** Yes, ma'am.

12 **Q** About shoulder height or chest height?

13 **A** Yes.

14 **Q** So did you, when he had his hands out in
15 front of them like this, before he started running,
16 did you see or hear him fire any shots?
17 (indicating)

18 **A** I can't recall. I think he started
19 running first.

20 **Q** Okay. So when he started running, did he
21 keep his hands in this position or did his hands
22 drop and him run, or did he run like this?
23 (indicating)

24 **A** I can't really remember all of that.

25 **Q** Okay. So did the officer run after

1 Michael Brown, so away from you?

2 **A** Yes, ma'am.

3 **Q** What did you see happen then?

4 **A** Mike got about to the corner and then he
5 turned around like he was giving up and he started
6 coming back towards the officer. I really don't
7 know what was going on at that point. I seen him
8 get shot a couple of times and he hit the ground.

9 **Q** So now you said Mike ran to about the
10 corner.

11 **A** Yes.

12 **Q** Can you use the laser pointer and show us
13 where the corner is that you saw him run to?

14 **A** I'm guessing it was right here, around
15 right there. We was sitting right here, he didn't
16 get too far before he turned back around.
17 (indicating)

18 **Q** Okay.

19 **A** He might have got back to about right
20 there. (indicating)

21 **Q** So when you say he ran to the corner and
22 then he turned around, is this the first time then
23 that you can see the front of him?

24 **A** I couldn't really see him. I was a
25 distance away.

1 **Q** Okay.

2 **A** But yes.

3 **Q** So from what you could see, did you notice
4 if he had any blood on him or anything like that?

5 **A** I didn't notice any blood on him.

6 **Q** Did you see anything in his hand, either
7 when he was running away or after he turned around?

8 **A** No, ma'am.

9 **Q** And you said that he turned around as if
10 he was, I think you said as if he was giving up?

11 **A** His hands were up at first and when he
12 turned around and then he started moving forward
13 towards the officer.

14 **Q** All right. Can you stand up so they can
15 see you clearly. Demonstrate for us, turn your back
16 so that, show us how he turned around and what his
17 hands did?

18 **A** Um, I guess it was like he stopped and he
19 turned around like this, and then he started moving
20 towards the officer and kind of looked like he
21 picked up a little bit of speed, and then he started
22 going down.

23 He was holding his chest when he went
24 down, his hands was up here on his chest.
25 (indicating)

1 **Q** Okay. So I am going to describe this, you
2 can sit down. So, for the record, when you turned
3 around, you said he put his hands up like this?
4 (indicating)

5 **A** Uh-huh.

6 **Q** I'm going to describe that you have your
7 hands about shoulder height; is that right?

8 **A** Yes, ma'am.

9 **Q** Out to the sides of your body, bent at the
10 elbows?

11 **A** Yes, ma'am.

12 **Q** Fingers pointing towards the ceiling?

13 **A** I guess.

14 **Q** And palms forward?

15 **A** Yes, ma'am.

16 **Q** Okay. And so then you said, then he
17 started to move toward the officer.

18 **A** Yes.

19 **Q** And you said you thought he began to pick
20 up speed?

21 **A** Yes.

22 **Q** So if you can try to think or guesstimate
23 or imagine how many, are you good at judging
24 distances, like 10 feet, 20 feet, such as that?

25 **A** Kind of. Estimated that he might been

1 around 8 feet away from the officer.

2 Q When he turned around?

3 A No, when he fell.

4 Q Okay. Was he more or less than 8 feet
5 away from the officer when he turned around?

6 A He was a little bit more than 8 feet from
7 the officer when he turned around.

8 Q So when he stopped and turned around, did
9 the officer continue to run toward him or did he
10 stop or did he move in a direction?

11 A There was a point where the officer
12 stopped running after him. I think he had stopped
13 by the time he turned around and was just standing
14 in one spot.

15 Q Now, when the officer took off running
16 after Michael Brown, until Michael Brown stopped and
17 turned around, did you hear or see the officer fire
18 his gun as he was running toward Michael Brown or
19 after Michael Brown?

20 A I heard a whole lot of shots.

21 Q Okay. You heard a whole lot of shots?

22 A Yes.

23 Q And you think they were from the officer?

24 A I'm pretty sure.

25 Q Okay. Now, you know, you talked to FBI

1 agents yesterday and U.S. attorney named and a
2 woman named , right?

3 **A** Yes, ma'am.

4 **Q** And you had actually made a statement to
5 the County Police back in August when they first
6 came and talked to you; is that right?

7 **A** Yes, ma'am.

8 **Q** And do you recall when you first talked to
9 the police you said that Michael Brown had gotten
10 shot in the leg and in the hip as he was running
11 away?

12 **A** I thought he was.

13 **Q** And so now yesterday you learned from the
14 people that were talking to you that there's no
15 injury to Michael Brown's hip or leg, at least a
16 gunshot injury, correct?

17 **A** Yes.

18 **Q** So does that make you rethink about what
19 you saw, them telling you that?

20 **A** Yes, ma'am. It made me think I really
21 don't know what was going on. He made body
22 movements which made me believe that he was shot in
23 the leg or in the hip.

24 **Q** Okay.

25 **A** The way his body gestured, I don't know.

1 **Q** So you say back in August that you thought
2 he got shot in the hip and the leg was based upon
3 how his body moved or jerked, or something like
4 that?

5 **A** Yes, ma'am.

6 **Q** You didn't see --

7 **A** I didn't actually see it.

8 **Q** You didn't see a bullet go in him?

9 **A** Didn't see it.

10 **Q** Didn't see blood in those areas?

11 **A** No.

12 **Q** Now, did you ever see Michael Brown, his
13 flip flops come off as he was running?

14 **A** He had on flip flops?

15 **Q** Pardon me?

16 **A** He had on flip flops?

17 **Q** Did you ever see him come out of his flip
18 flop as he was running?

19 **A** I didn't see what kind of shoes he had on.

20 **Q** If someone were running and their flip
21 flops come off while they're running, could you see
22 him like stumbling when you thought maybe you saw
23 him getting hit in the hip and the leg?

24 **A** It might have been.

25 **Q** Okay. But you now know he wasn't shot in

1 the hip or the leg?

2 **A** Yeah.

3 **Q** Okay. And so when he stops and you say he
4 turns around and he has his hands up like this and
5 then he starts to move toward the officer, did you
6 hear anybody say anything?

7 **A** I couldn't hear anything.

8 **Q** Okay. And how much does he move toward
9 the officer in feet?

10 **A** He was about 8 feet away from the officer.

11 **Q** Okay. But for Michael Brown to stop and
12 then move forward, how far forward did he move
13 toward the officer or in steps if it is easier, he
14 took so many steps?

15 **A** I can't really tell you exactly how many
16 steps he took.

17 **Q** Okay. But you said it looked to you like
18 he was picking up speed?

19 **A** Yes, when he turned around, he took a
20 couple steps and he might have been stumbling or I'm
21 not sure exactly what he was doing.

22 **Q** Okay.

23 **A** Not too long afterwards, he fell to the
24 ground.

25 **Q** And so did you, after he turned around,

1 did you hear or see gunshots after he turned around?

2 **A** There were a lot of gunshots.

3 **Q** Okay.

4 **A** I think so.

5 **Q** All right. And so as Michael Brown was
6 moving toward the officer, did the officer stand
7 still or did he move back and forward?

8 **A** I don't believe I seen him move.

9 **Q** Okay. And so if they were 8 feet apart,
10 which is, I don't know, can you give me an idea?

11 **A** Like maybe from this table to that table,
12 maybe a little bit further.

13 **Q** And that's how far they were apart when
14 Michael Brown turned around?

15 **A** No, he was a little bit further when he
16 turned around, he came back to about that distance.

17 **Q** Okay. So then you said as he was running,
18 you said his hands changed?

19 **A** Yes, ma'am.

20 **Q** Okay. And I know you said that he grabbed
21 his chest or something?

22 **A** Yeah, he had his hand folded in like this.
23 (indicating)

24 **Q** Do you know which hand it was?

25 **A** I couldn't tell you, I'm sorry.

1 **Q** Okay. And you have your hand at about
2 your chest area?

3 **A** Yes, ma'am.

4 **Q** Okay. It wasn't down here across his
5 abdomen? (indicating)

6 **A** Maybe.

7 **Q** Okay.

8 **A** It might have been.

9 **Q** Okay. I know that it's difficult to go
10 back and try to recall.

11 **A** It all happened so fast.

12 **Q** Okay. Can you give me an idea from the
13 time you first heard the two gunshots until he, you
14 saw him fall on the ground, can you give me an idea
15 how much time elapsed?

16 **A** I want to say 10 minutes, 15 minutes.

17 **Q** 15 minutes, from the time that you heard
18 the two gunshots until he fell on the ground?

19 **A** It might not have been that long.

20 **Q** Okay. 10 minutes or 15 minutes is a
21 pretty long time?

22 **A** Yeah. Maybe eight minutes, something like
23 that.

24 **Q** Okay. And so after you saw him fall on
25 the ground, did you hear or see any more gunshots

1 being fired?

2 **A** I don't recall.

3 **Q** Okay.

4 **A** I remember seeing a lot of people sitting
5 around screaming.

6 **Q** So you saw other people in the area?

7 **A** Yes.

8 **Q** Did you see other cars around?

9 **A** There was a lot of other cars, a lot of
10 other people, everybody was standing outside
11 everywhere.

12 **Q** You said there was a girl next to your
13 car?

14 **A** Yes, she was walking down the street,
15 right there by the park, right here around the park
16 area.

17 **Q** Did you see where she walked to?

18 **A** As a matter of fact, she stopped right
19 next to the van. I didn't see where she went after
20 that.

21 **Q** Was she an adult or a child?

22 **A** She might have been high school age.

23 **Q** Was she African-American or white?

24 **A** African-American.

25 **Q** Can you describe her hair?

1 **A** I can't remember.

2 **Q** But she was on foot?

3 **A** Yes, she was on foot.

4 **Q** Was she alone?

5 **A** Yes.

6 **Q** Did you ever see another young black male
7 that was around that area where the police car was
8 and where you first saw them?

9 **A** No, I don't remember. I saw a lot of
10 people around, but I don't remember seeing anybody
11 around, police car. I don't remember seeing anybody
12 there other than Michael Brown.

13 **Q** Now, with the four of you in the car and
14 you saw some or part of this?

15 **A** Uh-huh.

16 **Q** Did you all talk about it?

17 **A** Yes, ma'am.

18 **Q** Is it fair to say that you all were kind
19 of like freaked out like right then when it
20 happened?

21 **A** Yeah.

22 **Q** Was it upsetting?

23 **A** A little bit.

24 **Q** Afterwards, did you all, your mom and your
25 dad and sister, kind of talk about what you saw?

1 **A** Yes, we did.

2 **Q** And in doing that, did you realize that
3 you all kind of saw different things?

4 **A** Yes, we did.

5 **Q** Okay. But your dad and your mom and your
6 sister, they were there to see it?

7 **A** Uh-huh, yes, ma'am.

8 **Q** After speaking to them, you realized that?

9 **A** We had different points of view.

10 **Q** And different recollections of what you
11 saw?

12 **A** Yes.

13 **Q** Do you know the officer that shot Michael
14 Brown?

15 **A** No, ma'am.

16 **Q** Do you have any police officers in your
17 family?

18 **A** No, ma'am.

19 **Q** Are you friends with any Ferguson police
20 officers?

21 **A** No, ma'am.

22 **Q** Okay. How about Michael Brown's family
23 before that or after that, did you know Michael
24 Brown's family?

25 **A** No, ma'am.

1 **Q** Since then have you become friends with
2 anybody in Michael Brown's family?

3 **A** No, ma'am, not that I know of.

4 **Q** Okay. And I actually subpoenaed you for
5 you to come in today; is that right?

6 **A** Yes, ma'am.

7 **Q** You didn't want to come in?

8 **A** No, ma'am.

9 **Q** And you told me you didn't want to be
10 involved in this; is that right?

11 **A** I really don't remember a lot, you know.
12 I wasn't very sure of a lot.

13 **Q** Okay. Sheila, do you have any questions?
14 MS. WHIRLEY: Yes.

15 You talked to, I guess, the police back in
16 August, August the 21st, does that sound about
17 right?

18 **A** Yes, ma'am.

19 MS. WHIRLEY: And your recollection was
20 better then than it is today?

21 **A** Yeah, it was a little bit better.

22 MS. WHIRLEY: And they actually taped your
23 statement; is that correct?

24 **A** Yes, ma'am.

25 MS. WHIRLEY: Recorded it. Did you record

1 this incident at all on your phone or anything?

2 **A** No, as a matter of fact I didn't. It
3 happened so fast, I didn't even think to do that.

4 MS. WHIRLEY: Do you know anybody who has
5 a recording of it?

6 **A** No.

7 MS. WHIRLEY: You said you first heard two
8 shots and then you notice Michael Brown taking off
9 running and the officer chasing after him?

10 **A** Yes, ma'am.

11 MS. WHIRLEY: Was the officer shooting at
12 him while he was chasing him?

13 **A** There were a couple of shots fired.

14 MS. WHIRLEY: While Michael Brown's back
15 was to him?

16 **A** While they were running, yeah.

17 MS. WHIRLEY: And then you said when you
18 turned around he had his arms up, was it as if he
19 was surrendering?

20 **A** Yeah, like shoulder high.

21 MS. WHIRLEY: Like giving up?

22 **A** Yeah.

23 MS. WHIRLEY: That was your impression.
24 When you said he had his hand on his chest, started
25 going down, was the officer shooting at him when he

1 had his hand on his chest?

2 **A** I want to say, yes.

3 MS. WHIRLEY: Whatever you said in your
4 statement was fresher then?

5 **A** Yes.

6 MS. WHIRLEY: Um, I don't know if this was
7 asked, did you ever see Michael Brown with a weapon?

8 **A** No, ma'am, I didn't.

9 MS. WHIRLEY: Did he ever look like he was
10 trying to get a weapon when you saw him?

11 **A** I only saw him running, I didn't see
12 anything in his hands.

13 MS. WHIRLEY: That's all I have.

14 MS. ALIZADEH: Any questions?

15 : So it was just the five of
16 you?

17 **A** Yes.

18 : Were there any other people,
19 were there animals in the car, were there anybody
20 else?

21 **A** You know what, we might of had a couple of
22 dogs in the car.

23 : Where were they sitting?

24 **A** On the floor.

25 What did everybody do when

1 they started hearing the shots, did they move around
2 in their seats, did they change position?

3 **A** No, not really. We heard the shots, we
4 sat there for a second to determine whether they
5 were shots or not.

6 : Okay.

7 **A** And then we turned up onto the parking lot
8 to get away from the drama.

9 : Okay. And was your father
10 sleeping when this started?

11 **A** I don't know. I don't know. I wasn't
12 looking at his face, I was sitting behind him. He
13 might have been.

14 : Okay. Was
15 scared?

16 **A** Well, yeah.

17 : That's all I have.

18 MS. WHIRLEY: I forgot one thing. You
19 mentioned that when he turned around and was coming
20 back towards the officer, did you know whether he
21 was stumbling or running?

22 **A** That's what I couldn't determine whether
23 he was running or stumbling, I couldn't tell. I
24 don't know whether he was charging or falling
25 because he hit the ground not too long afterwards.

1 MS. WHIRLEY: Okay. That's all.

2 Did you ever see a young man
3 with Michael Brown?

4 A No, ma'am, I couldn't tell whether he was
5 with somebody or not. When I saw them, they were
6 actually in the middle of running. I didn't see him
7 talking to anybody or anything.

8 When you are sitting in the
9 seats or whatever in the seats
10 there.

11 A Yes, ma'am.

12 : In the . On that
13 particular type of vehicle, the side arm rest.

14 A Yes, ma'am.

15 : Are they moved, can you move
16 them up and down?

17 A Yes.

18 : So then you have a clear,
19 where you can swing your legs over or lean over?

20 A Yes, ma'am.

21 : Okay. Thank you.

22 MS. ALIZADEH: Anyone else?

23 (End of the testimony of .)

24 MS. ALIZADEH: We just took a break in
25 between or after that last witness. It is

1 2:01 p.m., and at this time we still have a couple
2 of witnesses to try to get through this afternoon,
3 but at this time I'm going to pass out a transcript
4 and we are going to play the tape recorded statement
5 from the last witness. It is about 20 minutes long.
6 I will tell you that in our, in my questioning of
7 her, I believe you all understood me to say she was
8 interviewed yesterday by federal agents, and I did
9 get a copy of that interview last night. It won't
10 play, I've contacted County Police, they have a copy
11 and their copy won't play.

12 I don't know if I will have a copy of that
13 interview from yesterday or not.

14 So at this time we're just going to hear
15 the interview from August 21st, 2014. And this is
16 contained on Grand Jury Exhibit Number 24. I'm
17 going to pass out a transcript, so you do not need
18 to transcribe. If you will pause the recording and
19 then we'll get started.

20 (Playing of the interview of Witness 64.)

21 MS. ALIZADEH: It is 2:23. We just
22 concluded listening to a taped statement of a
23 witness. And the next witness I'm going to call is
24 , who is an investigator at my office.
25 And he had a conversation with someone in relation

1 to this case, so he's going to testify about that.

2 So we'll pause right now, I have to tell we're

3 ready for him.

4

5

6

7

8 of lawful age, having been first duly sworn to

9 testify the truth, the whole truth, and

10 nothing but the truth in the case aforesaid,

11 deposes and says in reply to oral

12 interrogatories, propounded as follows, to-wit:

13 EXAMINATION

14 BY MS. ALIZADEH:

15 Q Would you state your name and spell it for
16 the court reporter?

17 A ,

18 Q And now, sir, the grand jurors are
19 acquainted with you because you've been assisting me
20 and them with their comings and goings on the day
21 that they are in grand jury; is that right?

22 A That's correct.

23 Q They probably know you as

24 A Some of them may now, have known my name.

25 They certainly knew who I was.

1 **Q** And so what do you do?

2 **A** I'm a criminal investigator. I'm
3 assigned, I work for the prosecutor's office. I'm
4 assigned to a team of attorneys to assist them in
5 their investigations and to fill in from time to
6 time with other attorneys as is needed.

7 **Q** Am I am one of your attorneys that you
8 assist in my cases?

9 **A** You are.

10 **Q** Okay. And you've been doing that for
11 quite a while?

12 **A** Thirteen years.

13 **Q** All right. And so ever since, well,
14 shortly after I got this investigation, I from time
15 to time have asked you to help me with things or do
16 things in regard to this grand jury investigation;
17 is that right?

18 **A** I've been given assignments, yes.

19 **Q** And one of the things that you have been
20 helping me with all this time is to arrange for
21 witnesses, their transportation, meeting them
22 downstairs, getting them upstairs, you had to run
23 out and get lunch or food for witnesses in the past,
24 so that's one of the things I've asked you to help
25 me do; is that right?

1 **Q** And I told you that she had informed me
2 , that she needed to have the
3 transported?

4 **A** That was the other issue, yes, not only
5 her, but you know, her primary mode of mobility we
6 could get that and had that brought with her as
7 well.

8 **Q** Do you recall that sometime before we
9 actually brought in to testify, do
10 you recall me coming to you and telling you that
11 had informed me that he actually didn't see
12 what he had told the police he had seen?

13 **A** You relayed that information to me, yes.

14 **Q** Okay. And you and I and Sheila Whirley
15 had discussions and have had discussions in the past
16 about whether or not if witnesses say they didn't
17 see anything when they previously had made a
18 statement that they saw something, whether or not we
19 were going to bring that witness anyway and testify?

20 **A** Correct.

21 **Q** And have them say they didn't see
22 anything?

23 **A** That is correct.

24 **Q** Okay. And we talked about doing that in
25 this case, but we talked about the fact that because

1 there were, there were unusual transportation needs
2 with s mother, that I asked you to just call
3 and try to do a telephone interview with
4 him?

5 **A** Correct.

6 **Q** And so did I give you the phone number to
7 contact

8 **A** Right, you gave me the mom's name,
9 s name and the phone number.

10 **Q** Okay.

11 **A** And when would be the best time to get
12 ahold of them, when would be home from
13 school, and in order to facilitate speaking with him
14 on the phone.

15 **Q** Okay. Did you contact by
16 telephone?

17 **A** Yes, I did.

18 **Q** And what day was that?

19 **A** It was on October the 13th.

20 **Q** Okay. And just for you grand jurors, if
21 you look back on your notes, prior to this date I
22 had already played for you a recorded statement that
23 the police had taken from

24 And so when you spoke on the phone,
25 did you identify yourself as an investigator for the

1 prosecutor's office?

2 **A** Yes, I did.

3 **Q** And did you talk to about whether
4 he actually saw what he says he saw?

5 **A** Correct, I asked him to explain to me what
6 exactly occurred that morning.

7 **Q** Okay. And then after this, did you tape
8 that telephone conversation?

9 **A** I did.

10 **Q** Okay. And after you had finished that
11 telephone conversation, did you realize that it
12 actually had not recorded?

13 **A** The first phone call with him, yes.

14 **Q** Okay. Did you call him back and ask him
15 to go over that with you again?

16 **A** Right. I explained that there was a
17 mistake on my part, that I wanted to record the call
18 and it didn't happen. If he would be patient with
19 me, I apologize for having him have to explain to me
20 once again what he had told me ten minutes earlier.
21 And he acknowledged he was okay with that, so we
22 again talked about it a second time.

23 **Q** The second phone call was actually
24 recorded by you then?

25 **A** Correct.

1 **Q** And you then burned that call onto a disc
2 for me?

3 **A** Yes, the next day.

4 (Grand Jury Exhibit Number 97
5 marked for identification.)

6 **Q** (By Ms. Alizadeh) I'm going to show you
7 Grand Jury Exhibit Number 97?

8 **A** Yes.

9 **Q** This disc, is that your handwriting on
10 there?

11 **A** Yes, it is.

12 **Q** Is that the second phone call that you
13 did?

14 **A** Yes.

15 **Q** And now you wrote on here 10/14/14, is
16 that the day that you talked to him?

17 **A** It was the day I burned the disc.

18 **Q** Okay. So you actually spoke to him on the
19 13th?

20 **A** Correct.

21 **Q** Okay. So in this second phone call with
22 him, did he reiterate what he had said in the first
23 phone call?

24 **A** Yes, he did.

25 **Q** Did anything change in his statement from

1 the first phone call to the second phone call?

2 **A** No, it was all the same.

3 **Q** Okay. So at this time I'm just going to
4 play Grand Jury Exhibit 97. It is about a 15 minute
5 long conversation. And so if you would pause the
6 recording, I do not have a transcript. So if you
7 can take it down, please.

8 (Playing of the phone interview of Mr.
9 and following is a transcription of that
10 interview.)

11 : Hi, Ms. , this is
12 from the prosecutor's office.

13 Yeah

14 I'm sorry, if I could talk to
15 again?

16 : Hold on

17 : Thank you.

18 : Hello.

19 : Hi , it is
20 again. I'm sorry to bother you, but I was asked to
21 record the conversation and I didn't do that the
22 last time.

23 Yes.

24 : I do have a recorder on now
25 and it is recording our conversation. I was

1 wondering if we could go through it again?
2 : Okay.
3 : What you had already told me?
4 : All right.
5 : I apologize for that.
6 : It's okay.
7 : This will be a little quicker
8 since we have already gone over this once again.
9 , you explained to me you are years old?
10 Yes, sir.
11 Okay. And we're talking
12 about the incident at Ferguson involving the death
13 of Mr. Brown?
14 Yes.
15 Explain to me, you were at
16 home on this particular day and you had been, you
17 were inside the apartment, you and your brother left
18 the apartment; is that correct?
19 : Yes, sir.
20 : Okay. And you live over on
21 correct?
22 : Yes, sir.
23 : So then you and your brother
24 left the apartment and what time of the day or
25 morning was this.

1 : No, no, no, not , my
2 street is .
3 I'm sorry, I got that wrong
4 then.
5 : Yeah.
6 : Spell that for me.
7 : .
8 : .
9 : Yes, sir.
10 : Okay. So you and your older
11 brother left the apartment and you went outside, and
12 where did you go when you left the apartment?
13 : Well, we went from my house,
14 went over the stone wall.
15 : There's a stone wall there at
16 the circle?
17 : Yes, sir.
18 Okay. And what were you
19 doing when you and your brother were hanging out
20 there at the stone circle?
21 : (Inaudible.)
22 : And you were using your phone
23 and Wi-Fi and going through Facebook; is that
24 correct.
25 Yes, sir.

1 Okay. And so you're outside
2 with your brother and you are doing what you're
3 doing, what happens after or while you are outside?

4 : We hear gunshots.

5 : Okay. And you recognize them
6 right away as gunshots; is that correct.

7 Yes, sir.

8 What was your thought at the
9 time when you heard that?

10 Somebody's shooting a gun in
11 the air like they always, like they do once in
12 awhile.

13 : Okay. That's something that
14 you have heard before in the past; is that correct.

15 Yes, sir.

16 Okay. And so when you heard
17 this, what do you and your brother do?

18 : We sit and think should we be
19 quiet for a second.

20 Uh-huh.

21 In case they go shooting
22 again. We sit back down and go back to Facebook.

23 : So you go back to Facebook
24 and you go ahead and you do that and then what
25 happens after you go back to Facebook?

1 A little later we hear three
2 or four more gunshots.

3 Okay.

4 Then that's when we got up,
5 start walking up the street. We join them and walk
6 up the street with them.

7 Okay. When you say you
8 walked up the street, are you talking about the
9 street that you live on ?

10 No, the street that Michael
11 got shot on.

12 Okay.

13 It is a long street. The
14 street is from West Florissant all the way down to
15

16 : Okay.

17 : The end of .

18 : Okay. So where you and your
19 brother were sitting at when you heard these
20 gunshots, you couldn't, could you see what was going
21 on?

22 : No, sir. It's a building in
23 Canfield that blocks it. You really couldn't see
24 anything until you actually got around that corner,
25 around the corner of that building.

1 : Uh-huh.

2 : You couldn't see.

3 : Okay. And after the second
4 set of gunshots, you and your brother, there were
5 other people that started walking over towards that
6 way?

7 : Yes, sir.

8 : Okay. And that's when you
9 and your brother got up and walked with them?

10 Yes, sir.

11 Okay. And I believe you
12 already told me, what's your brother's first name?

13

14 Okay. How old is ?

15

16 So he's years older
17 than you?

18 : Yes, sir.

19 : So then you and get
20 up and you are walking with these other people. And
21 then tell me what you see or what happens after you
22 get up and you start walking with these people?

23 : We see other people walking
24 and then when we get to where he got shot at, you
25 could see a body laying there, but you can't really

1 tell who it is.

2 Right.

3 We are walking up on it where
4 he got shot when I got close, I (inaudible). He
5 stays up the street, his grandmother's house is
6 across the street from my house. So he stays
7 from my little cousin's house.

8 You were familiar with
9 Mr. Brown?

10 **A** Yes, sir. I knew his cousin.

11 : Okay. What is his cousin's
12 name.

13 :

14 :

15 : Yes, sir.

16 : Okay. So you knew them from
17 the neighborhood?

18 Yes, sir.

19 And you see, at the time you
20 didn't know who it was, you see this person laying
21 down in the street. And then what else do you see
22 in the street?

23 : I see flip flops.

24 : I'm sorry, I couldn't hear
25 you?

1 : You could see his shoes.

2 : Oh, that's better, okay. You
3 said you saw a police vehicle somewhere?

4 : Yeah, it was like in the
5 grass.

6 : It was in the grass?

7 : Yeah, then they moved it and
8 put it in the street.

9 Okay. When you got up there,
10 was there something that kept you from walking
11 around or getting close?

12 Yeah. They had a traffic
13 tape going around two trees and the vehicle and the
14 car.

15 When you got there, was there
16 yellow tape already up?

17 Yes, sir.

18 It was. Okay. You are
19 getting a little hard to hear again with the phone.

20 : My fault.

21 : That's all right, you're
22 fine. So you get there and you see what you saw and
23 there's some yellow tape that keeps you kind of away
24 from things. And then what happens after you get up
25 there?

1 : It is like people are just
2 standing around looking.

3 : Uh-huh.

4 : I could see two police
5 officers in the street talking to each other.

6 : Okay.

7 : And then after that, more
8 police officers came.

9 Okay.

10 And then after more police
11 officers came. The crowd of people got bigger and
12 bigger and kept getting bigger.

13 Okay.

14 And more police cars started
15 coming, they got so far that they had run the
16 canines out too.

17 : Okay. And at some point in
18 time they did something different with the tape; is
19 that correct.

20 Yes, sir. They took the tape
21 down and they put it and they made us walk back
22 farther and put the tape back further from the body.

23 They had you all back up a
24 little further away, but you could still see what
25 was going on?

1 : Yes, sir.

2 : Okay. And you had mentioned
3 before at some point in time his mom came by?

4 : Yes, sir.

5 : And --

6 : His mom and his dad came by.

7 : What did you hear the
8 conversation to be?

9 : His dad was mad.

10 : Uh-huh.

11 : His dad was angry, screaming,
12 why y'all do this, why y'all do this, and then his
13 stepfather came.

14 Right.

15 His stepfather was mad too,
16 like you didn't have to do this to my son and all of
17 this.

18 I understand.

19 He got there, he was mad,
20 people were like, no, don't try to fight them. He
21 was like (inaudible.) They finally got him, they
22 took him in the house. They made him leave for a
23 little while. They didn't want him to get mad, walk
24 off or go back a little bit. (inaudible)

25 When mom first got there,

1 she was asking people, what was she asking people?

2 : What happened to my son?

3 : Right, okay. And then there
4 were people talking about, you heard people talking
5 about what they, what had happened?

6 Yes, sir.

7 Okay. And at some point in
8 time, you had told me earlier that there was an
9 older person that came by and can you explain to me
10 again what that older person was saying or asked you
11 or was asking?

12 : The older person, he said, do
13 you know anything? Come talk to me about it, don't
14 talk to the police or anybody.

15 Okay.

16 (Inaudible.)

17 Right. And then at some
18 point in time the police later came to you and asked
19 you about what had happened, correct?

20 Yes, sir.

21 Okay. And had you told them
22 that you were inside your apartment and saw what
23 happened from your window?

24 : No, no.

25 : You didn't tell the police

1 that?

2 No, I saw the people came to
3 the house after that happened people came, I didn't
4 know anything. The day before I really thought,
5 okay, I'm going to do it today.

6 : Okay.

7 : That's (inaudible). And tell
8 me what you know.

9 Was that the conversation
10 that you had with the people inside the car?

11 Yes, sir.

12 Okay. And I had asked you
13 this before, but I'm going to ask it again.

14 , has anyone, you know, pressured you or
15 threatened you or made you any promises of any kind
16 about talking about what happened?

17 **A** No, sir.

18 Okay. you
19 understand that if you wanted to, we could, you
20 know, you could come here and you could talk to the
21 grand jury and explain to them what you saw that
22 day, do you understand that?

23 Yes, sir.

24 If you wanted to do that, you
25 certainly, we would certainly make sure that you can

1 have that chance?

2 Yes, sir.

3 What you would tell them,
4 would that be any different than what you've told me
5 on the phone today?

6 No, sir.

7 Okay. Because, you know, we
8 would certainly afford you that opportunity just
9 like we have with other people.

10 : Yes, sir.

11 : And, again, you had talked
12 before, you know, somebody had mentioned to you
13 about a subpoena and to come and talk to these
14 people; is that correct?

15 : Yes, sir.

16 : Okay.

17 : And then she called back,
18 they said they wasn't going to do that any more.
19 She said it was a possibility that they might end up
20 doing it, but they never did.

21 That's correct. There was a
22 possibility, we weren't sure how things were going
23 to proceed and it was certainly, certainly a
24 possibility, but we didn't know for sure how things
25 were going to go.

1 : Yes, sir.

2 : Okay. All right. I think
3 that pretty much covers it. I apologize for having
4 to go over this again.

5 That's all right.

6 That was a mistake that I
7 made and so that's why I called back and once again,
8 I thanked you before, I just thank you again for
9 your time. I appreciate, you know, dealing with
10 this and explaining to me exactly what you saw or
11 what you didn't see.

12 : Yes, sir.

13 : All right. Again, thank your
14 mom and tell her I appreciate all of her help as
15 well.

16 All right.

17 All right. Listen, thank you
18 very much, , have a good evening.

19 : You too.

20 : All right. Bye-bye.

21 : Bye.

22 (End of the phone recording.)

23 MS. ALIZADEH: We just concluded the
24 playing of the conversation between and
25 . Does anybody have any questions of

1 , now is your chance.

2 All right.

3 (End of the testimony of)

4 MS. ALIZADEH: This is Kathi Alizadeh, it

5 is November 13th, 2014, it is 3:04 p.m. We just

6 took a brief break. We are resuming this afternoon

7 with a new witness, not a new witness, a returning

8 witness, but since it has been several days or weeks

9 since he testified, I'll go ahead and have you sworn

10 in.

11 ,

12 of lawful age, having been first duly sworn to

13 testify the truth, the whole truth, and

14 nothing but the truth in the case aforesaid,

15 deposes and says in reply to oral

16 interrogatories, propounded as follows, to-wit:

17 EXAMINATION

18 BY MS. ALIZADEH:

19 Q Could you state your name, please?

20 A .

21 Q And where are you employed?

22 A I'm a detective with St. Louis County

23 Police Department.

24 Q And you've previously testified before

25 this grand jury in relation to the investigation

1 into the shooting of Michael Brown, correct?

2 **A** Yes, ma'am.

3 **Q** Okay. And you testified previously just
4 on the issue of having been present during the
5 interview of one of the eyewitnesses to this
6 incident, a ?

7 **A** That's correct.

8 **Q** So for this afternoon, what I'd like to do
9 is explain to the grand jurors how this
10 investigation began, the scope of the investigation,
11 and how it progressed over time. And we have some
12 demonstrative pieces of evidence that we're going to
13 show them and then, of course, Sheila will ask
14 questions, the grand jurors will ask whatever
15 questions that they need to ask you to explain how
16 the investigation proceeded, okay?

17 **A** Okay.

18 **Q** So back on August 9th of 2014, you were a
19 detective in the Crimes Against Persons Bureau?

20 **A** Yes, ma'am.

21 **Q** And that was a Saturday, correct?

22 **A** It was.

23 **Q** Earlier that day, do you recall where you
24 were, were you working?

25 **A** I was.

1 **Q** Where were you earlier?

2 **A** I was directed to respond to St. Anthony's
3 Hospital for a robbery with a potential barricaded
4 individual in a hospice portion of the hospital.

5 **Q** And so about what time did you, were you
6 on call that day or were you on duty already when
7 that happened?

8 **A** I was called about the time I was
9 scheduled to come on duty, which was 8:00. It may
10 have been shortly before 8:00, sometime around 8:00.

11 **Q** Sometime around 8:00 a.m. you proceeded to
12 South County to the hospice care facility at St.
13 Anthony's Hospital?

14 **A** Yes, ma'am.

15 **Q** And did you remain on that scene until
16 sometime after noon on that day?

17 **A** I did.

18 **Q** And at some point in the day, you know
19 what, let's back up, let me back up.

20 So can you explain for the grand
21 jurors how your, how the Crimes Against Persons
22 Bureau works.

23 In other words, how many supervisors,
24 how many detectives are in a squad and so forth?

25 **A** Sure. The unit consist of one lieutenant

1 who is the commander, and then there are four
2 sergeants who supervise various specialties within
3 the Crimes Against Persons Unit.

4 There is the child abuse unit,
5 there's the family crime or domestic violence unit
6 and then there is the homicide, robbery, sexual
7 assault, you know.

8 One supervisor is responsible for
9 supervising detectives in each of those units with
10 the exception of the homicide, robbery, sexual
11 assault unit.

12 There are two supervisors and two
13 squads of detectives. There are seven detectives on
14 one squad and eight detectives on the other squad.
15 One squad works during the day, one squad works
16 during the afternoon for the homicide, robbery,
17 sexual assault aspect.

18 **Q** So typically a squad would be on-call or
19 working for 12 hour shifts; is that correct?

20 **A** Eight hour shifts. One squad usually
21 works from 8:00 a.m. to 4:30 p.m. and then the
22 second squads usually works from 4:30 p.m. to
23 1:00 a.m.

24 **Q** Okay. If there is an incident that
25 occurred that is not during the hours that either

1 squad is working, are detectives always on call?

2 **A** We are always subject to callback, yes.

3 **Q** So you indicated you were, you believed
4 you were already scheduled to work that day when you
5 went in at 8:00 a.m.?

6 **A** I was, yes, ma'am.

7 **Q** And then there was a call about an
8 incident occurring up in Ferguson; is that right?

9 **A** That's correct.

10 **Q** So when you were up, when you were down in
11 South County at the St. Anthony's Hospital, was your
12 supervisor present on scene?

13 **A** He was.

14 **Q** Were all of the detectives from your squad
15 on scene at St. Anthony's Hospital?

16 **A** All of them, no. Most of them, yes.

17 **Q** All right. What about other units from
18 the St. Louis County Police Department. Were there
19 other units down in South County at St. Anthony's at
20 the time?

21 **A** There were.

22 **Q** The TAC unit was there?

23 **A** They were there.

24 **Q** Were there any other squads there from
25 Crimes Against Persons?

1 **A** Several detectives from the other squad,
2 which would have been the squad that had been
3 working on the afternoon shift the previous evening
4 had been called in early, roughly around the same
5 time, 8:00 a.m. to assist with the investigation at
6 St. Anthony's.

7 **Q** And were there a number of uniformed
8 patrolmen that were also at the scene on that
9 morning?

10 **A** I couldn't say how many, but there was
11 quite a few, yes.

12 **Q** Okay. So this was an incident or
13 something that was bigger than the ordinary that was
14 occurring down in St. Anthony's that day?

15 **A** This was a significant event, yes.

16 **Q** Significant?

17 **A** Yes, ma'am.

18 **Q** Okay. And so at some point were you
19 notified that your supervisor or someone else had
20 been notified that Ferguson was calling St. Louis
21 County to assist in an investigation of an officer
22 involved shooting?

23 **A** I was.

24 **Q** Were you still down at St. Anthony's when
25 you heard about that call?

1 **A** I was.

2 **Q** And at this point, had the incident at St.
3 Anthony's resolved or was it wrapping up or was it
4 still ongoing?

5 **A** It was still ongoing.

6 **Q** And so what happened when you learned that
7 there was a call for assistance up in Ferguson?

8 **A** Essentially a skeleton crew of detectives
9 from the bureau of Crimes Against Persons remained
10 at St. Anthony's and the remainders of the
11 detectives got in their cars and drove up to
12 Ferguson.

13 **Q** So drove directly to Ferguson?

14 **A** Directly.

15 **Q** So you didn't stop and get any riot gear
16 or anything that might be necessary for, you know,
17 dealing with an unruly crowd?

18 **A** No, ma'am.

19 **Q** Were you advised that you were needed for
20 crowd control or were you advised that you were
21 needed to assist in the investigation or to take
22 over the investigation?

23 **A** We were made aware that the Ferguson
24 Police Department was requesting St. Louis County
25 conduct an investigation into the incident. And so

1 our sole purpose for going up there was for the
2 investigation aspect of it.

3 **Q** Okay. Were you aware that Ferguson, prior
4 to them requesting the County take over the
5 investigation, were you aware that Ferguson had
6 called St. Louis County as well as some neighboring
7 municipalities for the purpose of crowd control?

8 **A** Initially, no.

9 **Q** Okay. You now know that; is that right?

10 **A** Yes, ma'am.

11 **Q** Okay. About what time did you arrive up
12 in Ferguson?

13 **A** About 1:30.

14 **Q** And did your supervisor arrive up there as
15 well?

16 **A** About the same time, yes.

17 **Q** And how many detectives from your squad
18 were up there?

19 **A** About ten.

20 **Q** And now, so that's more than your squad,
21 correct?

22 **A** It is.

23 **Q** So there were about ten County detectives
24 on scene?

25 **A** Yes.

1 **Q** Did you observe a number of Ferguson
2 police officers on scene?

3 **A** I did.

4 **Q** Did observe a number of St. Louis County
5 uniformed patrolmen on the scene?

6 **A** I did.

7 **Q** So when you went up there that day, you
8 and all the other detectives, as well as your
9 supervisor, were you wearing police uniforms or were
10 you dressed in street clothes?

11 **A** Street clothes, shirt and tie.

12 **Q** And did you, were you wearing a bullet
13 proof vest?

14 **A** Initially, no.

15 **Q** So describe for the grand jurors the scene
16 when you arrived on Canfield on the 9th?

17 **A** Sure. I drove up by myself, however,
18 other detectives were arriving at the same time in
19 their vehicles. I came in off of West Florissant
20 and drove east on Canfield. I was unable to drive
21 even into the apartment complex itself. There was
22 quite a few cars, police cars and police officers
23 and then a crowd of individuals who blocked my way.
24 So I parked, I think it is 3000 block
25 of Canfield, and walked up to the scene, as did most

1 of the other detectives who were arriving at that
2 time.

3 **Q** So when you turned onto Canfield Drive off
4 of West Florissant, initially you're in a single
5 family home, residential area; is that correct?

6 **A** That's correct.

7 **Q** So the place where you said you had to get
8 out and walk, can you see it on the map, which is
9 Grand Jury Exhibit Number 25?

10 **A** It would have either been 3027 Canfield or
11 possibly even beyond 3720 Canfield to the west, so
12 further off the map.

13 **Q** So from when you got out of your car you
14 walked on foot, where did you go on to?

15 **A** I walked up and contacted the other
16 detectives from my unit who are arriving on the
17 scene and then we made brief contact with Chief
18 from Ferguson Police Department who was
19 already on the scene.

20 **Q** About what time was this when you arrived?

21 **A** About 1:30.

22 **Q** And at this time, was your supervisor on
23 the scene?

24 **A** I may have arrived a few minutes before
25 him, all within a relatively close period of time.

1 **Q** Okay. Now, at that time was the body of
2 Michael Brown still lying in the street?

3 **A** Yes.

4 **Q** Was he covered with a sheet at that time?

5 **A** Yes.

6 **Q** Did you see any emergency vehicles that
7 were nonpolice officers vehicles at that time
8 firetrucks, ambulances or anything of that nature?

9 **A** In the scene itself, no. I couldn't say
10 outside of the scene, there may have been.

11 **Q** Okay. Was the scene already taped off
12 when you got up there?

13 **A** It was.

14 **Q** And you said there were a number of people
15 on foot, or pedestrians that were in the area?

16 **A** Correct.

17 **Q** Can you describe how many and what the
18 mood or the, what was going on when you got up
19 there?

20 **A** Sure. The area was essentially taped off
21 using yellow crime scene tape.

22 **Q** You can use this laser pointer.

23 **A** For example, if you look here at Building
24 18, and you look at Building 17, the tape would have
25 been draped from 17 to 18. And then I believe from

1 17 up to the north and then again from Building 5
2 across this general direction where Canfield Drive
3 and the circle area of Canfield Drive meet, and then
4 down roughly, again, down around to Building 18.

5 Now, if a building was able to be
6 used, sometimes vehicles were used, sometimes trees
7 were used, or signs, whatever was available to
8 secure the area.

9 Q To affix the tape onto you mean?

10 A Correct.

11 Q Was Darren Wilson's vehicle still on the
12 scene?

13 A It was.

14 Q Was his vehicle in the crime scene?

15 A It was.

16 Q And to your knowledge, was his vehicle in
17 the same place where it was when he stopped the
18 vehicle and eventually got out of the car?

19 A Yes.

20 Q All right. And so was there any
21 discussion amongst your squad and your supervisor
22 about how, well, how was it decided that you would
23 be assigned to be the primary case officer on this?

24 A I volunteered. My caseload was at the
25 time what I considered lower than the other

1 detectives who were working, so I volunteered to
2 take it.

3 **Q** You said I'll handle this?

4 **A** Yes, ma'am.

5 **Q** So from that point on, are you directing
6 the investigation?

7 **A** For the most part, yes.

8 **Q** And as the primary officer, do you get
9 information from other detectives about what they
10 are doing?

11 **A** Yes, ma'am.

12 **Q** And do you assign other detectives or
13 other police officers tasks or responsibilities or
14 duties in the investigation?

15 **A** Yes.

16 **Q** And do you relay information that you are
17 learning to your supervisor?

18 **A** I do.

19 **Q** And so how long were you up at the scene
20 that day?

21 **A** I would say I left roughly 7:00 p.m.

22 **Q** And you're aware that the shooting
23 actually took place shortly, and I mean within
24 minutes after the noon hour that day, correct?

25 **A** Correct.

1 **Q** And so, and you're aware that the body of
2 Michael Brown actually laid on the roadway for
3 several hours, as much as four or four and a half
4 hours before it was eventually removed and
5 transported to the Medical Examiner's Office,
6 correct?

7 **A** Correct.

8 **Q** In your experience as a crime scene, well,
9 as a detective, is that longer than usual?

10 **A** No.

11 **Q** Was there anything going on at the scene
12 that inhibited or complicated the crime scene
13 investigation that was going on?

14 **A** Absolutely, yes.

15 **Q** And what was that?

16 **A** The crowd who essentially was standing
17 around the crime scene tape on all points was upset,
18 they were yelling obscenities on a regular basis at
19 police, they were threatening to kill the police.

20 At one point gunshots were fired from
21 an area relatively close to the crime scene and I
22 couldn't say exactly, but I would say it came from
23 roughly this area right in here around Building 16
24 and 17.

25 There were people who were attempting

1 to breach the crime scene, meaning go under the
2 crime scene tape for whatever reason. That happened
3 on several occasions. It was a very chaotic scene.
4 It was a scene that I had never experienced anything
5 like that.

6 **Q** Now, you mention that when you got there,
7 you didn't have a bulletproof vest on. Was there a
8 decision at sometime for you and your fellow police
9 officers to put on a bulletproof vest?

10 **A** After those gunshots were fired, we all
11 returned to our cars where we keep our vest and we
12 put our vest on.

13 **Q** Other than the vest, did you have any
14 other protective gear, like did you have those riot
15 helmets with the face shields?

16 **A** I did not.

17 **Q** Any batons that you were carrying?

18 **A** No.

19 **Q** Did you see other officers on the scene
20 that were dressed in riot gear?

21 **A** Riot gear, no.

22 **Q** Did you see, and you've heard people talk
23 about that there were dogs on the scene?

24 **A** Initially, no. As the incident
25 progressed, yes, dogs were requested.

1 **Q** And I assume these are police dogs?

2 **A** They were.

3 **Q** And so officers have canines that they
4 train with and that they partner with; is that
5 right?

6 **A** That's correct.

7 **Q** Why were dogs requested to respond to the
8 scene?

9 **A** In an attempt to secure the scene.

10 **Q** Okay. At about what time was it that the
11 decision was made to request canine units respond?

12 **A** I couldn't say exactly, but at the time
13 the gunshots went off we realized that we were
14 dealing with a very volatile situation and request
15 from several different units within the police
16 department were made for assistance in securing the
17 scene and in protecting the officers who were out
18 there.

19 **Q** Now, we've already heard testimony from
20 officers who were involved in processing the crime
21 scene and in your, how many years have you been a
22 detective?

23 **A** Roughly eight.

24 **Q** And how many homicides have you been a
25 part, not the primary, but been a part of

1 investigating?

2 **A** It would be a complete guess, 60, 70,
3 maybe.

4 **Q** So you're familiar with the job and the
5 duties that a crime scene, or we call them the ID
6 unit, you're familiar with what they do when they
7 arrive at a crime scene, correct?

8 **A** I am.

9 **Q** And would it be fair to say that they, as
10 the crime scene investigator, they consider that,
11 that that's their scene to control, correct?

12 **A** Correct.

13 **Q** Did you make the decision on who was to be
14 the crime scene detective in charge of that scene
15 that day?

16 **A** I did not.

17 **Q** So how is it that that, we know that
18 Officer was the primary crime scene
19 investigator. How was it that it was decided that
20 Detective would be the crime scene
21 investigator?

22 **A** The crime scene detectives have areas that
23 they are assigned and if an incident happens within
24 their given area, typically they are responsible for
25 that, however, the decision ultimately rests with

1 the crime scene supervisor to delegate out who is
2 responsible for, for example, the Crime Scene Unit.

3 Q Okay. So you all just called for Crime
4 Scene to respond and then they determine, the Crime
5 Scene supervisor determines who is going to respond
6 that day, correct?

7 A Yes, ma'am.

8 Q Okay. When you first arrived around
9 1:30-ish, was St. Louis County ID Unit on the scene?

10 A I believe they had just arrived.

11 Q And when you arrived initially, did you
12 notice that there were cones that had been placed at
13 various locations in the street and within the crime
14 scene itself?

15 A I did.

16 Q Okay. Did you ever, prior to the Crime
17 Scene Unit getting there and beginning their
18 investigation, did you ever walk the crime scene?

19 A Before they began their investigation?

20 Q Correct.

21 A Yes, briefly.

22 Q Okay. Did you walk in the street between
23 the vehicles, the officer's vehicle and the body?

24 A I did.

25 Q Did you see other detectives walking and

1 other police officers walking in the street and in
2 that area?

3 **A** I did.

4 **Q** Okay. Now, is that something that is,
5 well, given that the crime scene unit had not yet
6 arrived to begin processing the scene or had not
7 begun to process the scene, would that be something
8 that in hindsight or is that something that
9 shouldn't happen, people walking through the crime
10 scene before it is processed?

11 **A** Ideally, no. In this particular instance,
12 the scene was, obviously, an outdoor scene. There
13 was a need to take an overall assessment of what the
14 situation was at that point, and so without
15 disturbing any evidence or without walking near
16 evidence, yes. There was some walking that had
17 taken place just to get an overall assessment.

18 **Q** Okay. And so at this point then Detective
19 arrived and began processing the crime scene.
20 Was his job interrupted at any point?

21 **A** It was.

22 **Q** While he was on-scene?

23 **A** It was.

24 **Q** And what happened that interrupted his
25 job?

1 **A** Essentially the same instances that I had
2 previously mentioned. The threats coming from the
3 crowd, people trying to, as I said, breach the crime
4 scene, meaning come under the tape and come into the
5 crime scene and then, of course, the gunshots.

6 **Q** All right. Was this scene complicated
7 because it was outdoors, just in general, does that
8 complicate a crime scene?

9 **A** No, not necessarily.

10 **Q** Okay. So you believe that the primary
11 factors that complicated your job on-scene that day
12 was the crowd?

13 **A** Yes, I do.

14 **Q** Um, did you make any attempts, well, all
15 right, so detectives, describe for the grand jurors
16 then, once the crime scene was in the process of
17 beginning their processing of the scene, what did
18 you do to further the investigation?

19 **A** As I said, I originally spoke with Chief
20 who indicated that the best person from the
21 Ferguson Police Department to talk to would be
22 Sergeant . I then went over and spoke with
23 Sergeant , as long as with several other
24 detectives that I worked with, and we again, had a
25 brief conversation with Sergeant who indicated

1 to us, I'm sorry, who provided to us the information
2 that he knew at the time.

3 And then from there based on the
4 information that Sergeant had provided, we
5 initiated the investigation.

6 Q So did Sergeant tell you that the
7 police officer involved in the shooting was Darren
8 Wilson?

9 A He did.

10 Q And now, did you know when you volunteered
11 to take this assignment that the officer's name was
12 Darren Wilson?

13 A I did not.

14 Q Okay. Are you in to
15 Darren Wilson?

16 A Absolutely not, no.

17 Q After you learned that Darren Wilson was
18 the officer involved, did you make attempts to see
19 if there was
20 ?

21 A I'm very familiar with in the
22 St. Louis area, , no.

23 Q Okay. Have you ever met Darren Wilson?

24 A I've never met him.

25 Q Okay. And so did Sergeant tell you

1 what Darren Wilson had told him happen?

2 **A** He did.

3 **Q** Did you then assign detectives to go to a
4 different location?

5 **A** I did.

6 **Q** Where did you assign detectives to go?

7 **A** I assigned Detective , also of the
8 Bureau of Crimes Against Persons, to go to the
9 Ferguson Police Department where officer Darren
10 Wilson had driven to after the incident.

11 **Q** So you learned that Darren Wilson had gone
12 back to the Ferguson station?

13 **A** I did.

14 **Q** And so what about, was there any decision
15 to send a different crime scene investigator to go
16 and seize Darren Wilson's weapon and to collect any
17 other evidence he might need to collect at the
18 station?

19 **A** There was, yes, ma'am.

20 **Q** Who did that?

21 **A** Detective .

22 **Q** Okay. So now did you remain at the scene
23 and during this entire afternoon until you left
24 around 7:00?

25 **A** I did.

1 **Q** And so was it from the scene that you were
2 making decisions and directing various aspects of
3 the investigation?

4 **A** Yes, ma'am.

5 **Q** And all along the way were other
6 detectives contacting you or giving you information
7 about what they were finding, what they were
8 learning and so forth?

9 **A** They were.

10 **Q** Okay. And so when you were on the scene,
11 Detective, did you learn that there were individuals
12 who were residents or who had been down on Canfield
13 that day who had scene some or part of the incident
14 involving, between the officer and Michael Brown?

15 **A** Yes.

16 **Q** And were there, was there a decision to
17 direct a couple of the crime scene officers to
18 actually take, I don't know, I'm calling them
19 perspective videos, do you know what I mean when I
20 say perspective videos?

21 **A** I do.

22 **Q** Describe for the grand jurors what a
23 perspective video is?

24 **A** The video simply consist of a, it is a
25 video documenting where a person would have been

1 standing when a particular incident happened.

2 So, for example, if an incident
3 happened in this room, my perspective would be from
4 this chair right here, we would simply take video
5 from the chair that I'm sitting in.

6 Q And so during your investigation and, you
7 know, we know that this is a complex with several
8 buildings, several units in each building. We know
9 that the incident occurs, there's several yards in
10 between the beginning of the incident and the
11 furthest east portion of where the incident
12 occurred.

13 And so did you learn that there were
14 people in various buildings who had claimed to have
15 scene part of this?

16 A I did.

17 Q Okay. And so during that afternoon, did
18 you learn that there was oh, gosh, a woman named
19 who claimed to have scene something
20 from, I guess, Building is that correct?

21 A That's correct.

22 Q And so did you ask, I can't remember which
23 one is which, was it or was it that took
24 the view from

25 A Detective took the view from

1 .

2 Q Okay. So Detective went to
3 's apartment and took video from the
4 apartment and looking down toward Canfield to see
5 what someone standing there might be able to see, is
6 that fair to say?

7 A Yes, ma'am.

8 Q So from her apartment Building and
9 there's video that's shot down in that direction; is
10 that right?

11 A That's correct.

12 Q And then Detective is also another
13 crime scene detective that was at the scene that
14 day, correct?

15 A Yes, ma'am.

16 Q What's his first name?

17 A .

18 Q Did he also take perspective video based
19 upon what some witnesses had told you?

20 A He did.

21 Q And how many perspective videos did he
22 take?

23 A He took two.

24 Q And from whose perspectives are these
25 videos?

Page 200

1 **A** and .

2 (Grand Jury Exhibit Number 99
3 marked for identification.)

4 Q (By Ms. Alizadeh) So I'm going to hand you
5 Grand Jury Exhibit Number 99. Is that the
6 perspective video that Detective [REDACTED] took from
7 [REDACTED]'s apartment?

8 **A** Yes, ma'am.

9 Q And you now know at the time
10 was living with , correct?

11 **A** Correct.

12 (Grand Jury Exhibit Number 100
13 marked for identification.)

14 Q (By Ms. Alizadeh) And then Grand Jury
15 Exhibit 100, is that the video that Detective
16 took from [REDACTED] and [REDACTED]'s
17 perspective?

18 **A** Yes, ma'am.

19 Q These are fairly short. I'm going to play
20 these right now for you.

21 MS. ALIZADEH: I'm going to turn the
22 lights down so you can see it better.

23 This would be from 's
24 apartment?

25 **A** Yes, ma'am.

1 MS. ALIZADEH: And she is in Building
2 Number on the map?

3 A Building correct.

4 (Playing of the video.)

5 Q (By Ms. Alizadeh) Okay. That just shows
6 the placard.

7 (Playing of video.)

8 Q Okay. I'm going to a certain point in
9 this. So now, Detective , we've heard some
10 testimony and I know you were not present for that,
11 in your investigation you were also aware that there
12 were some witnesses who testified that they were, I
13 mean, witnesses who stated that they were actually
14 by a dumpster. And this would be the dumpster and
15 this could be the dumpster

16 A .

17 Q stated she was next to; is
18 that right?

19 A Correct.

20 Q And there's no other dumpster along this
21 area, correct?

22 A Correct.

23 Q And now this firetruck is right here. If
24 this firetruck was not here, is there anything, I
25 mean, I would assume that anybody looking from this

1 perspective would be able to see a little bit more
2 into the roadway than what we're seeing because the
3 end of this fire truck is in the way, correct?

4 **A** Correct.

5 **Q** So there's not another dumpster back there
6 or anything like that?

7 **A** There is not.

8 **Q** Okay.

9 (Playing of the video.)

10 **Q** So now, Detective, we have heard testimony
11 from witnesses about how their front entrances to
12 the units would be right there and then there's like
13 a wooden balcony with sliding glass doors and each
14 two units share that balcony, correct?

15 **A** Yes, ma'am.

16 **Q** So is this perspective that we're seeing
17 from 's apartment but on the, I guess,
18 as you're looking toward Canfield, is this
19 perspective, is this Canfield out here?

20 **A** Yes, ma'am.

21 **Q** So this, from this perspective, the person
22 is on which side of the balcony?

23 **A** Would be the western, I'm sorry, eastern
24 end.

25 **Q** Okay. And so from this angle, you see

1 this, this partition here kind of blocks your view
2 looking farther down Canfield, correct?

3 **A** Correct. That partition would be the
4 front of the stairway, you could say that you would
5 see, for example.

6 **Q** Like right here? (indicating)

7 **A** Correct.

8 **Q** Okay. And we saw in the beginning of the
9 video a letter E and F, those are the unit letters,
10 correct?

11 **A** Yes, ma'am.

12 **Q** And the person taking the video just from
13 there, from in front of the front door turns around
14 and films what you can see from the front door,
15 correct?

16 **A** Correct.

17 **Q** All right. I think this is just the
18 placard again, but let us see.

19 So this clip documents the building,
20 the address of s apartment?

21 **A** Yes, ma'am.

22 **Q** So she lives at

23 **A** Correct.

24 MS. ALIZADEH: Anybody want to see any of
25 those clips again? They'll be available to you to

1 look at.

2 So I'm going to play some clips that are
3 Grand Jury Exhibit Number 100.

4 (Playing of the video.)

5 MS. ALIZADEH: So now whose perspective is
6 this?

7 **A** This would be .

8 MS. ALIZADEH: And the police car in the
9 background there, that's Officer Wilson's car?

10 **A** Yes, ma'am.

11 MS. ALIZADEH: Is there a better way to
12 play this? Am I not --

13 **A** Maybe with a different player, that's the
14 only thing I can think of.

15 MS. ALIZADEH: So let me stop there. Can
16 you see on the left side of the screen, there is a
17 police car with flashing lights right here, is that
18 right.

19 **A** That's correct, yes.

20 **Q** (By Ms. Alizadeh) And the body of Michael
21 Brown is still on the scene at this time, correct or
22 is it?

23 **A** No, ma'am.

24 **Q** Is where the body was to the east of that
25 vehicle?

1 **A** It is to the west where --

2 **Q** From this perspective detective is what
3 I'm trying to get at, if the body was there, could
4 you see it in the street from this perspective?

5 **A** Yes, you could.

6 **Q** So it would have been someplace down in
7 this area?

8 **A** That's correct.

9 **Q** And then the place where some witnesses
10 have reported seeing him run to and then turn
11 around, being at a corner near a light pole, from
12 this perspective, can you see that area?

13 **A** No, you cannot.

14 **Q** Okay. And again, this is where
15 would have been standing?

16 **A** Correct. I believe this is actually a
17 moving shot moving to the east.

18 **Q** So the officer holding the video camera is
19 walking is that right?

20 **A** Correct (playing the video.)

21 **Q** An this clip now is this again the officer
22 walking from the perspective or ?

23 **A** Yes, ma'am.

24 **Q** I'm going to let it play again once it
25 goes through one time it plays smoothly after that.

1 (Playing the recording.)

2 Is he on the ground or is he
3 on her balcony?

4 **A** The individual taking the video?

5 : Yes.

6 **A** He's standing on the ground.

7 Oh, okay.

8 **Q** (By Ms. Alizadeh) So now this next clip we
9 see is a building with the number ?

10 **A** Yes, ma'am.

11 **Q** Whose perspective is this going to be?

12 **A** .

13 **Q** And I took the pointer, but can you see
14 what number the building is over there?

15 **A** Building .

16 **Q** So this would be?

17 **A** Building .

18 **Q** I can't see that far away, but this
19 pointer goes all the way there.

20 **A** Yes, ma'am, that's correct.

21 **Q** So says he was in one of
22 the front units on Building ?

23 **A** Correct.

24 **Q** Okay. My recollection is was he inside of
25 his apartment?

1 **A** He was, yes.

2 (Playing the video.)

3 **Q** Is this clip inside 's
4 apartment?

5 **A** It is.

6 **Q** So Detective from this vantage
7 point you see the fire hydrant, which is right here
8 on the corner of this little island; is that right?

9 **A** That's correct.

10 **Q** And then there is a partition, is that
11 that wall that is in front of the staircases off of
12 all of these units?

13 **A** Yes, ma'am.

14 **Q** If Michael Brown and the police officer
15 ran in this direction, there's going to be a time
16 where if you are standing here, this blocks your
17 view, correct?

18 **A** There would be.

19 **Q** And then as the camera looks toward the
20 east, well, that's looking toward the west we see
21 Officer Wilson's car there, correct?

22 **A** That's correct.

23 **Q** And as it looks toward the east, you can
24 see part of the roadway further down east on
25 Canfield, right?

1 **A** Correct.

2 **Q** Can you see from that vantage point, can
3 you see where the body came to rest?

4 **A** I don't believe so, no.

5 MS. ALIZADEH: Does anybody want to see
6 any portion of those again?

7 : I just have a question. If
8 the video of , the video from her
9 view was on the ground, I can't remember, did you
10 take any from her apartment?

11 **A** was originally in a car,
12 she had pulled up to.

13 MS. ALIZADEH: Here you go.

14 : She was never in an
15 apartment?

16 **A** No, ma'am.

17 : You were just doing her from
18 her view. She was there to .

19 **A** Yes. She originally pulled up in the
20 parking spot and pulled right here, exit her vehicle
21 and we had one so that's why you see originally
22 stationary shot but then the detective begins to
23 move and he's moving in the general direction he was
24 moving in.

25 : Okay.

1 **Q** (By Ms. Alizadeh) Now during your
2 investigation, in the early days, now this all
3 happened on the same day of the shooting; is that
4 right?

5 **A** That's correct.

6 **Q** And at this point in your investigation,
7 the FBI, the federal authorities were not involved
8 in the investigation; is that right?

9 **A** That's correct.

10 **Q** But within a day or two you learned that
11 the FBI was going to either assist or co-investigate
12 with the County?

13 **A** Correct.

14 **Q** Was there some confusion between St. Louis
15 County and the federal authorities what role they
16 were taking or whether they were assisting you were
17 you going to share information, and so forth?

18 **A** It took a little bit to coordinate the
19 logistics of how the investigation would be run
20 parallel to one another, yes.

21 **Q** And so the Saturday after the shooting, so
22 one week from the time of the shooting there was
23 talk or decision about the detectives going to the
24 Canfield Apartment Complex and doing a canvas?

25 **A** We discussed that, yes.

1 **Q** What's a canvas?

2 **A** Essentially going to a given area and
3 knocking on doors or meeting people walking through
4 the area and asking them if they had witnessed
5 anything that had taken place at a given time.

6 So, for example, in this particular
7 investigation, it would have been for August 9th,
8 the previous Saturday.

9 **Q** Okay. Now, had the County done some
10 canvassing on the day of the shooting?

11 **A** Yes, it had, yes.

12 **Q** You had not canvassed the entire complex?

13 **A** We canvassed a majority of the buildings
14 that would of had a direct line of sight to where
15 the incident took place. Either being where the
16 police vehicle stopped, or where we could say what
17 would be the furthest point to the east right around
18 here. Any building with a direct line of sight we
19 would have made attempts to canvas.

20 **Q** Of course you're knocking on doors?

21 **A** Yes, ma'am.

22 **Q** If nobody is home, you note that in your
23 report?

24 **A** Correct.

25 **Q** And if somebody is home and says I was at

1 work during the shooting, I didn't see anything, you
2 note that, correct?

3 **A** We note that as well, yes.

4 **Q** If somebody says, yeah, I heard gunshots
5 but I didn't see anything, you would note that?

6 **A** Correct.

7 **Q** And if there was somebody who says I saw
8 what happened and I saw parts of it, then you would
9 interview that person, correct?

10 **A** That's correct.

11 **Q** And when you say you, you had other
12 detectives doing that on this day; is that correct?

13 **A** Yes, ma'am.

14 **Q** And in the days to follow, did you learn
15 that there were other witnesses that maybe weren't
16 home during the canvas, were you leaving cards at
17 houses where there was nobody home?

18 **A** We were not, no.

19 **Q** But as the days progressed you learned
20 that there were people that were there, claimed to
21 have been there but you didn't talk to that day for
22 one reason or another, correct?

23 **A** Yes, ma'am.

24 **Q** And, in fact, did you learn early on in
25 the investigation that there was a person, a young

1 man who had been with Michael Brown walking down the
2 street with him and had been right beside the police
3 vehicle when the initial encounter took place?

4 **A** We did learn that, yes.

5 **Q** Now, did Darren Wilson know the name of
6 that person?

7 **A** He did not.

8 **Q** Had he ever seen him before?

9 **A** He had not.

10 **Q** And during your interview with Darren
11 Wilson, did you, well, strike that. Did you later
12 during the early days of your investigation, are
13 there officers that were monitoring the news, and
14 websites, Facebook pages and so forth just trying to
15 see if there were other witnesses to this?

16 **A** Yes.

17 **Q** And did you learn the identity of the
18 young man that was with Michael Brown?

19 **A** We did.

20 **Q** And when did you learn who it was?

21 **A** Late evening hours of August 9th, we saw
22 a, when I say we, a detective that I worked with,
23 saw a video of Dorian Johnson being interviewed by
24 one of the local media outlets.

25 **Q** And Dorian Johnson in the interview

1 claimed he was with Michael Brown and he had seen
2 what happened?

3 **A** Correct.

4 **Q** Did you then make attempts to try to
5 contact Dorian Johnson?

6 **A** Yes.

7 **Q** This was when the last Dorian Johnson?

8 **A** I'd have to check my notes for sure, but I
9 would say it was roughly, I don't know, I'd have to
10 check my notes.

11 **Q** Let me just, we'll check in a minute. So
12 you learned where he lived, correct?

13 **A** We did.

14 **Q** And did you go to his residence?

15 **A** We did.

16 **Q** And was he there?

17 **A** He was not.

18 **Q** Were there other people there?

19 **A** We left a card there. There was no one at
20 his particular residence, no. So we did leave a
21 card for him.

22 **Q** Did you learn he had a girlfriend?

23 **A** We did.

24 **Q** Did you contact her?

25 **A** We attempted to, yes.

1 **Q** And did she tell you, was he with her?

2 **A** We learned through someone that knew her
3 that they were together, yes.

4 **Q** Were you able to locate him through his
5 girlfriend?

6 **A** We were not.

7 **Q** Did you go to her place of employment to
8 try to talk to her?

9 **A** We did.

10 **Q** So there were various attempts over the
11 day to try to contact Dorian Johnson; is that right?

12 **A** We made multiple attempts, yes.

13 **Q** Did you talk to any family members of his?

14 **A** We attempted to.

15 **Q** Okay. You made it known out and about in
16 that community that you were looking to talk to him?

17 **A** Yes, ma'am.

18 **Q** And so can you check, if I give you a
19 copy, did you interview Dorian Johnson the first
20 time you met him?

21 **A** I did.

22 **Q** And where did that interview take place?

23 **A** The interview was Wednesday, August 13th
24 and the interview took place at the law offices or
25 Bosley and Associates in St. Louis City.

1 **Q** So at some point prior to that date you
2 learned that Dorian Johnson was represented by
3 Freeman Bosley, Junior and that there were, they
4 would make him available for the police to talk to;
5 is that right?

6 **A** That's correct.

7 **Q** So on the 13th you went and interviewed
8 Dorian Johnson?

9 **A** That's correct.

10 **Q** And you recorded that interview?

11 **A** I did.

12 **Q** Now, prior to that, had you interviewed
13 Darren Wilson?

14 **A** I had.

15 **Q** When did that interview take place?

16 **A** I interviewed him Sunday, August 10th at
17 roughly 10:00 a.m. at my office at the County Police
18 headquarters.

19 **Q** You taped that interview, correct?

20 **A** I did.

21 **Q** At that time were you aware or did you
22 believe that Dorian Johnson was the man who was with
23 Michael Brown on the day of the shooting?

24 **A** I had a suspicion based on his statement
25 to the media, but I couldn't say for sure.

1 **Q** Okay. Did you obtain a photograph of
2 Dorian Johnson and put it in a photo lineup to show
3 Officer Wilson?

4 **A** I did, yes.

5 **Q** I'm going to show you Grand Jury Exhibit
6 Number 19. I know this is not the original, but is
7 this the copy of the photograph lineup that you
8 prepared?

9 **A** It is.

10 **Q** And showed to Officer Wilson?

11 **A** Yes, ma'am, it is.

12 **Q** And did you make it clear to him that you
13 were wanting to see if he could recognize someone in
14 that photo lineup as being involved somehow in this
15 investigation?

16 **A** I made that clear to Officer Darren
17 Wilson.

18 **Q** Was he able to identify somebody in this
19 photo lineup or did he identify someone?

20 **A** He identified the incorrect person.

21 **Q** Do you recall which photo he identified?

22 **A** I believe 2.

23 **Q** Okay. And number two is not the picture
24 of Dorian Johnson, correct?

25 **A** It is not.

1 **Q** What position is Dorian Johnson?

2 **A** Position four.

3 **Q** So Officer Wilson misidentified the person
4 as the person in Photograph Number 2?

5 **A** He did.

6 **Q** And so you conducted an interview with
7 Darren Wilson at TCI headquarters here in Clayton?

8 **A** Yes, ma'am.

9 **Q** Did you read him his Miranda rights before
10 you interviewed him?

11 **A** I did not.

12 **Q** Was he in custody when you interviewed
13 him?

14 **A** He was not.

15 **Q** Did he have an attorney present with him?

16 **A** He did.

17 **Q** Was the attorney present during the
18 interview?

19 **A** He was.

20 **Q** Did, was there anyone else present in the
21 interview?

22 **A** Detective was also present.

23 **Q** Was this done in an interview room or in a
24 conference room?

25 **A** It was in a conference room.

1 **Q** Now, we've seen some video of interviews
2 of and ?

3 **A** Yes, ma'am.

4 **Q** And those were in interview rooms?

5 **A** That's correct.

6 **Q** Now Darren Johnson (sic) was potentially a
7 suspect in a homicide investigation, correct?

8 **A** He could have been, yes.

9 **Q** He had shot and killed somebody, correct?

10 **A** Yes.

11 **Q** Wouldn't you normally interview a suspect
12 in a homicide investigation?

13 **A** Just for clarification, you say Darren
14 Wilson, I'm sorry, you said Darren Johnson, we are
15 talking about Darren Wilson; is that right?

16 **Q** How many times have I done that, I've
17 called you and I've called Darren
18 Wilson, , I'm sorry. So, yes, I'm sorry.
19 We're talking about Officer Wilson?

20 **A** Yes.

21 **Q** And he potentially was a suspect, were you
22 treating him as a suspect at this point?

23 **A** He had an attorney present. He was viewed
24 as the subject of the investigation at this point.

25 **Q** Okay. And so you hadn't arrested him at

1 this point; is that right?

2 **A** That's correct.

3 **Q** So your investigation was about what, at
4 this point you knew that Darren Wilson had shot and
5 killed Michael Brown; is that correct?

6 **A** That's correct.

7 **Q** Did you feel that you had probable cause
8 at that time to arrest Darren Wilson?

9 **A** No.

10 **Q** And so what further information did you
11 need to make that determination?

12 **A** Well, obviously, the purpose of the
13 interview would be to gather Darren Wilson's
14 statement of what took place that day.

15 **Q** Okay. But Darren Wilson had already been
16 interviewed by

17 **A** That interview is considered a,
18 essentially a public safety statement where we are
19 obtaining brief information to gather the most basic
20 facts of the incident to insure we're not looking
21 for suspects, victims, to make sure that we don't
22 have any errant rounds into any buildings, things of
23 that nature.

24 That initial interview with
25 Detectives was not a full-on recorded

1 interview, was more of a safety statement or safety
2 interview, I should say.

3 Q All right. So we heard the term cursory
4 interview used, would you consider '
5 interview on that to be more cursory interview?

6 A That's an appropriate terminology, yes.

7 Q So now what was the purpose of your
8 interview then?

9 A My interview would have been to gather a
10 detailed statement from Officer Darren Wilson and
11 then obviously to have that statement recorded.

12 Q And have you ever been involved in
13 investigations of officer involved shootings?

14 A I have, yes.

15 Q Have you ever been involved in
16 investigations of excessive force used that maybe
17 didn't involve shooting?

18 A I have.

19 Q And did you treat this investigation any
20 differently than you would have or have in the past
21 treated any other officer involved shooting
22 investigation?

23 A No.

24 Q So after you, so when you spoke with
25 Darren Wilson, he had an attorney present, is that

1 unusual when an officer is involved in a shooting?

2 **A** There are instances where officers request
3 to have an attorney and there are instances where
4 they do not request to have an attorney, and that is
5 purely up to the officer.

6 **Q** All right. So you've seen it both ways?

7 **A** I've seen it both ways, yes.

8 **Q** Of course, if Darren Wilson wanted to
9 refuse to be interviewed, he could do that, correct?

10 **A** He could.

11 **Q** And you couldn't compel him to give a
12 statement, could you?

13 **A** I cannot.

14 **Q** So after the interview with Darren Wilson,
15 did you place him under arrest?

16 **A** I did not.

17 **Q** Why not?

18 **A** I did not believe there was probable cause
19 to arrest him.

20 **Q** And this was on the midmorning of the day
21 after the shooting; is that right?

22 **A** Yes, ma'am.

23 **Q** Was the investigation in its early stages?

24 **A** It was.

25 **Q** In fact, does the investigation still

1 continue as we talk?

2 **A** It does.

3 **Q** And you're aware that there are other
4 witnesses out there that we are trying to locate in
5 relation to what they may or may not have seen that
6 day, correct?

7 **A** I'm aware of that, yes.

8 **Q** You are still working on this case; is
9 that right?

10 **A** That's correct.

11 **Q** Um, and so after speaking with detective,
12 or I'm sorry, with Officer Wilson, you allowed him
13 to leave with his attorney?

14 **A** That's correct.

15 **Q** And as the days and weeks continued on
16 with this investigation, have you always been the
17 primary on this investigation?

18 **A** I have.

19 **Q** And can you give, now, let's go back. Now
20 we are talking about the FBI getting involved. Some
21 days after in the first week of the shooting?

22 **A** Okay.

23 MS. ALIZADEH: You have a question okay?

24 : If Officer Wilson wasn't an
25 officer, even though he done the shooting, would

1 that civilian had been arrested considering there
2 was a deceased on the ground?

3 **A** Well, the circumstances between a civilian
4 and a police officer are somewhat different. So I
5 don't know that without the specifics, all the
6 specific facts of an incident like that I could give
7 you a fair answer.

8 I will tell you that I have conducted
9 investigations in the past on civilian shootings,
10 other civilians and it has been deemed justified.
11 Is that what you are kind of asking?

12 : Well, yes and no, but a
13 shooting, just a shooting, you caught the person who
14 shot, so that person is arrested. The shooter
15 didn't flee and there's a deceased on the ground,
16 would that person have been arrested right then and
17 there.

18 **A** I think without being in a particular
19 situation like that, I don't think I could answer
20 that question. There is too many variables that go
21 into something like that.

22 MS. ALIZADEH: So let me see if I can
23 clarify.

24 Officer's allowed to use force and even
25 deadly force to affect an arrest in Missouri, you

1 are aware of that, correct?

2 **A** Yes, ma'am, I am.

3 **Q** (By Ms. Alizadeh) It all depends on the
4 circumstances, correct?

5 **A** That's correct.

6 **Q** And then you're also aware that
7 individuals, whether they be police officers or even
8 private citizens are allowed to use force to defend
9 themselves?

10 **A** I am aware of that.

11 **Q** Even deadly force under certain
12 circumstances?

13 **A** That's correct.

14 **Q** I'm going to give you a what if scenario.
15 If a woman is at home by herself and asleep in her
16 bed and somebody unknown to her breaks into her
17 house and attacks her and she obtains a weapon and
18 shoots him dead. She calls the police and the
19 police arrive. And if you had this basic
20 information that this person had broken into the
21 house. This woman didn't know him, she's in her
22 night clothes, it is 2:00 in the morning and he's
23 dead on the ground, would you have arrested that
24 person for a homicide at that point?

25 **A** Probably not, no.

1 **Q** And so you're determination on whether or
2 not to arrest somebody you feel that you need more
3 facts, or in this case at least as of the 10th of
4 August, did you feel you needed more facts before
5 you made a determination on whether he should be
6 arrested?

7 **A** I feel that it is critically important in
8 any case, including this case, to gather as many
9 facts as I can before any kind of determination be
10 made in terms of arrest, yes.

11 **Q** Now, and for purposes of educating the
12 grand jurors, you might know some of this from your
13 prior experiences with other cases on the grand
14 jury, when a police officer arrests a suspect and
15 places him in custody, he has the option of
16 releasing him pending a warrant application,
17 correct?

18 **A** That's correct.

19 **Q** And he also has the option of holding him
20 in custody and making a warrant application within
21 24 hours of him being placed in custody, correct?

22 **A** That's also correct, yes.

23 **Q** Okay. And so you chose not to do either
24 of those, you just let Darren Wilson walk out of the
25 police department?

1 **A** I did.

2 **Q** Did you discuss that decision with your
3 supervisor?

4 **A** I did not.

5 **Q** That was your decision to allow him to
6 leave?

7 **A** That was my decision, yes.

8 **Q** Did you feel that he was a threat to the
9 community?

10 **A** No.

11 **Q** Did you believe that he was a flight risk
12 at that time?

13 **A** No.

14 **Q** Did his attorneys give you assurances that
15 they would produce him if need be at a later date,
16 whether it be for further questioning or in the
17 event that charges were issued, he would surrender
18 him to you?

19 **A** They did, yes.

20 **Q** And so flight risk, danger to the
21 community, are those some of the considerations that
22 you have when you determine whether you should
23 arrest somebody and hold them in custody and make a
24 warrant application?

25 **A** They are.

1 **Q** So in this particular case on the 10th you
2 needed more information?

3 **A** Yes.

4 **Q** You didn't think he was a flight risk?

5 **A** Correct.

6 **Q** You didn't think he was a danger to the
7 community, correct?

8 **A** Yes, ma'am.

9 **Q** Now, on that date, and certainly on the
10 days to follow, you became very aware, didn't you,
11 Detective that the public was very intent,
12 not the public, but there were people in the public
13 eye and people that were making their voices known
14 that they wanted to have Officer Wilson arrested and
15 charged with an offense; is that right?

16 **A** I was aware of that, yes.

17 **Q** So that didn't happen?

18 **A** Correct.

19 **Q** And why not. Why has Officer Wilson never
20 been arrested or charged with an offense?

21 **A** Again, I don't feel that there was
22 probable cause for an arrest.

23 **Q** At some point prior, now, the grand jury
24 first heard evidence on this matter on August 20th.
25 This happened on August 9th. So are you aware, and

1 you and I talked from like maybe day one about the
2 investigation; is that correct?

3 **A** That's correct.

4 **Q** I was the attorney on-call when this
5 happened?

6 **A** Yes.

7 **Q** And so at some point was there a decision
8 made between my office and County Police that there
9 would be a grand jury investigation into this
10 matter?

11 **A** There was.

12 **Q** Okay. And so at that point is there a
13 decision made that the evidence presented to the
14 grand jury, it will be their decision on whether or
15 not charges should be brought against Officer
16 Wilson?

17 **A** At that time, yes.

18 **Q** And if this grand jury determines that
19 Officer Wilson should be charged with an offense and
20 if they sign an indictment in this case, will you
21 arrest Darren Wilson for the offense?

22 **A** I will.

23 **Q** And would you cooperate with my office in
24 the prosecution of Darren Wilson if charges are
25 brought?

1 **A** I will.

2 **Q** Now, I didn't want to cut you off. You
3 want to ask him any more?

4 No.

5 MS. ALIZADEH: If anybody has questions
6 about procedure or that nature, you know, you want
7 to ask questions about either of Detective or
8 Sheila or I, chime in.

9 So Detective , the first week of the
10 investigation we knew that the FBI was getting
11 involved, correct?

12 **A** That's correct.

13 **Q** And initially you said that there was some
14 confusion about what role they were taking if they
15 were there to assist the county or if they were
16 going to conduct their own investigation, whether or
17 not information was going to be shared, whether or
18 not investigations were going to be coordinated.
19 And there was talk the following Saturday that there
20 was going be a canvas of the entire apartment
21 complex, correct?

22 **A** That's correct.

23 **Q** And as of Friday, the plan was that the
24 FBI and County Police together were going to canvas
25 the apartment complex?

1 **A** That's correct.

2 **Q** Okay. And at some point on Friday evening
3 was there, were you advised that there was a
4 decision made that the County would not be involved
5 in that canvas of the apartments?

6 **A** I was.

7 **Q** Okay. So St. Louis County did not play a
8 role in the canvas that took place on the 16th of
9 August involving numerous FBI agents?

10 **A** That's correct.

11 **Q** When the FBI would identify people who
12 claim to have witness some part of this, would they
13 share that information with you?

14 **A** They would.

15 **Q** And when they would interview people, now,
16 on the day of the canvas, they interviewed a lot of
17 people actually in their apartments; is that right?

18 **A** That's correct.

19 **Q** Most of these interviews were recorded?

20 **A** Yes, some of them.

21 **Q** Some of them?

22 **A** Yes.

23 **Q** People that said they didn't see anything
24 or just heard shots or I was working that day, to
25 your knowledge, did they record those type of

1 statement or do you know?

2 **A** They did not.

3 **Q** So people that said they saw something of
4 substance or pertinent to the investigation, most of
5 those interviews were recorded, but they were
6 recorded on the scene by the agents, correct?

7 **A** That's correct.

8 **Q** Okay. And, in fact, when the county was
9 investigating, a lot of their interviews were done
10 at various locations, county libraries?

11 **A** Yes.

12 **Q** The NCAA headquarters?

13 **A** NCAA?

14 **Q** Did I say that wrong? What did I say?
15 You know what I meant, I'm sorry. Attorneys, some
16 of these witnesses had attorneys and interviews were
17 done at attorney's office, correct?

18 **A** That's correct.

19 **Q** So basically you would go wherever you
20 needed to go to talk to witnesses?

21 **A** Correct.

22 **Q** And same thing with the FBI, you are aware
23 that they were interviewing witnesses during their
24 investigation?

25 **A** That's correct.

1 **Q** And when they would interview witnesses at
2 FBI headquarters, would they advise you in advance
3 that they were going to be interviewing a witness?

4 **A** They would.

5 **Q** And so would you participate in that
6 interview?

7 **A** We would.

8 **Q** And would you be asking witnesses
9 questions during that interview as well?

10 **A** Yes.

11 **Q** Were there times when they conducted
12 interviews where you did not participate in the
13 interview?

14 **A** There were.

15 **Q** And on those occasions, would they get you
16 the copies of the recordings of those interviews?

17 **A** Yes, they would.

18 **Q** Okay. And so I'm going to characterize
19 some of these witnesses as FBI witnesses. You and I
20 talk about the fact that we say, oh, so and so was
21 an FBI witness. That would be somebody that the FBI
22 had identified as a witness and that they had
23 conducted the interview, correct?

24 **A** Correct.

25 **Q** So when I talk about all witnesses that

1 were interviewed, and not just the witnesses who
2 said I wasn't home, or I was home but I didn't hear
3 or see anything. But out of all the witnesses that
4 were actually talked to that heard or saw something,
5 between County Police and the FBI, can you give me
6 an estimate how many people were interviewed?

7 **A** Roughly 80.

8 **Q** And then regarding other witnesses that
9 may have been interviewed, from paramedics --

10 **A** I'm sorry, would you repeat your last
11 question? Maybe I misunderstood here.

12 **Q** Between the FBI and the County Police, can
13 you give me an idea or an estimate about as to how
14 many witnesses were interviewed, and I'm talking
15 about eyewitness type people that said they saw or
16 heard something that day?

17 **A** I'd like to clarify that. That number is
18 closer to 50.

19 **Q** Okay. So when you say 80, were you
20 including a different type of witness or other
21 people?

22 **A** I was. The 80 number is essentially those
23 roughly 50, and then in addition to those roughly
24 50, there would have been other people who have been
25 in some form or another involved in some aspect of

1 the incident itself, or someone who we during the
2 course of the investigation felt it would have been
3 important for us to talk to.

4 **Q** So the 50 relates to civilians who maybe
5 said they were eyewitness to some part of this?

6 **A** Correct.

7 **Q** So the additional witnesses are people
8 like paramedics, the hospital personnel that treated
9 Darren Wilson, correct?

10 **A** Correct.

11 **Q** You spoke to the owners of the Ferguson
12 Market?

13 **A** Correct.

14 **Q** At some point in your investigation did
15 you learn that prior to the shooting, Michael Brown
16 was involved in an incident that occurred up at the
17 Ferguson Market?

18 **A** Yes.

19 **Q** And at some point did you obtain the video
20 of that incident?

21 **A** We did.

22 **Q** And at some point did you interview the
23 owner and other people who were present during that
24 incident,?

25 **A** Yes, ma'am.

1 **Q** And during your interview of them, did
2 their statements, let me ask you this. In the video
3 we see that there's a bunch of people there?

4 **A** That's correct.

5 **Q** There's the shopkeeper who is in the video
6 and we see his interaction with Michael Brown, but
7 there's other people you can see in the video?

8 **A** That's correct.

9 **Q** Were you able to identify everybody who
10 appears in the video?

11 **A** We were not.

12 **Q** So were you able to identify some people
13 who appear in the video?

14 **A** Yes.

15 **Q** And when you spoke to, when you spoke to
16 the owner of the shop, the man who appears, the
17 shorter man in the video, he doesn't speak fluent
18 English; is that correct?

19 **A** He does not.

20 **Q** So you interviewed him with the assistance
21 of an interpreter?

22 **A** Yes, ma'am.

23 **Q** And then you spoke to another witness who
24 was present in the Ferguson Market for that incident
25 is that right?

1 **A** That's correct.

2 **Q** The statements of those people do they,
3 were their statements consistent with what you see
4 in the video?

5 **A** Their statements were consistent, yes.

6 **Q** Okay. Now, during the interviews, and
7 we've seen in the video that there is no audio to
8 the video, correct?

9 **A** That's correct.

10 **Q** And during the interviews of those people,
11 and backing up a little bit, since your interview of
12 these people, has there market been looted and
13 burglarized and damaged during the riots that took
14 place afterwards?

15 **A** It has, yes.

16 **Q** And do you know, do the people who own
17 that market feel that is because the citizens in
18 that surrounding area talk, because they talk to the
19 police?

20 **A** I believe so, yes.

21 **Q** And have they expressed a reluctance, a
22 huge reluctance to actually be assisting in the
23 investigation?

24 **A** Very much so, yes, very reluctant.

25 **Q** And so when you spoke to the man in the

1 video through an interpreter, did you get any
2 additional information about what was said or what
3 was heard during that incident?

4 **A** The male clerk, again, did not speak very
5 good English and he couldn't necessarily recall what
6 was being said, but he identified that curse words
7 were being said by the individual he identified as
8 Michael Brown.

9 **Q** Okay. So he doesn't, he didn't know what
10 the curse words were?

11 **A** He did not.

12 **Q** But he was able to, but he knows that
13 there were curse words?

14 **A** He does, yes.

15 **Q** Was there another person present at the
16 Ferguson Market who also heard words being
17 exchanged?

18 **A** Yes.

19 **Q** All right. And what did that person say,
20 if anything, does that person speak fluent English?

21 **A** Yes.

22 **Q** What, if anything, do you recall that
23 person saying about what was heard between Michael
24 Brown, Dorian Johnson, you know, any conversation
25 between them or anything that was heard during the

1 incident?

2 **A** This person missed the initial portion of
3 the encounter, however, at the end of the encounter,
4 the person indicated that they observed Michael
5 Brown pushing the store clerk and begin to walk
6 away. The clerk then, I'm sorry, the clerk was
7 pushed and Michael Brown took essentially one more
8 step back towards the clerk after having been pushed
9 and the individual said that they heard Michael
10 Brown make a comment to the effect of, what the fuck
11 are you going to do about it.

12 **Q** Okay. And that person that heard that
13 speaks English fluently?

14 **A** Yes.

15 **Q** Okay. And now during the course of the
16 investigation, getting back to this, you've
17 interviewed, you said hospital personnel, ambulance
18 people, you've interviewed people up at the Ferguson
19 Market, did you check for video surveillance in the
20 apartment complex?

21 **A** We checked several different ways. And we
22 were able to determine that there was no video in
23 the complex.

24 **Q** Um, at some point during the investigation
25 did you hear a rumor or were there people that were

1 talking about the fact that there were video cameras
2 on the buildings in the Canfield Green Apartment
3 Complex and that police officers were observed to
4 have been taking those cameras down on the day of
5 the incident?

6 **A** I did hear that, yes.

7 **Q** And after having heard that, did you
8 investigate that whether or not there were cameras
9 that had been up there?

10 **A** Well, during the initial investigation at
11 the scene on the 9th, obviously, one of the things
12 we do in this, and in every investigation, is look
13 for cameras. So that was the top of our list of
14 things to do to see if there was any video cameras.

15 A lot of apartment complexes in the
16 St. Louis area do have video cameras that they
17 maintain themselves or there is other companies that
18 come in and provide video security systems for the
19 complex.

20 So we thoroughly checked ourselves to
21 see if there was any cameras on light poles or
22 buildings or stairways, or whatever. We did not
23 find anything.

24 In addition to that, we contacted the
25 on-site property manager for the Canfield Green

1 Apartment Complex and clarified with her our beliefs
2 that there were no visible cameras, she said there
3 were not. She said that they didn't have any other
4 than one particular camera and that was an interior,
5 inside the building in a basement camera that faced
6 the laundry room that watched essentially the
7 laundry area to make sure people weren't taking
8 change out of the washing machines.

9 In addition to that, we also
10 contacted the, what I would call the corporate
11 offices for the complex and we spoke with the owner
12 of the complex who also confirmed there were no
13 cameras in the complex.

14 Q All right. You've never discovered that
15 there were ever any cameras on the 9th, at least
16 that were up in the complex that might have recorded
17 any of this incident on Canfield?

18 A That's correct.

19 Q Now, you learned during your investigation
20 that there were several people that had used their
21 phones or their personal electronic devices to
22 record portions of what happened on that day,
23 correct?

24 A That's correct.

25 Q Have you ever learned that there was a

1 recording that actually captured any part of the
2 incident from the time the officer sees the two men
3 walking down the street until after the shooting is
4 over?

5 **A** No.

6 **Q** So the videos that you discovered and seen
7 all deal with the aftermath, after Michael Brown is
8 already been shot and is dead in the street?

9 **A** Yes, ma'am.

10 **Q** Um, and you're aware that there are a
11 number of, still a number of witnesses or people who
12 have given statements either to law enforcement
13 officers or to other people that they have seen
14 something to do with this, and yet they have not
15 appeared before the grand jury?

16 **A** That's correct.

17 **Q** And that might be because we can't
18 identify them. For example, there was a witness
19 who said he was with somebody named
20 Were we able to identify that person?

21 **A** We were not, no.

22 **Q** And then talks about having
23 a female in his car, but he doesn't know her name.
24 Were we able to identify that opinions?

25 **A** We were not.

1 **Q** There is a person who talks about somebody
2 named who maybe saw something, did we ever
3 identify who was?

4 **A** Not positively, no.

5 **Q** Then there were a number of people who
6 called, whether they called into the tip line,
7 whether they made 911 calls, whether they made calls
8 into radio, media, like the Tommy Sotomayor show,
9 were there attempts to find out who those people
10 were?

11 **A** Multiple attempts, yes.

12 **Q** And there were times when you were
13 successful in finding out who those people were, for
14 example, who is the person that called into Tommy
15 Sotomayor?

16 **A** .

17 **Q** . But there are still
18 other people that you were never able to identify
19 who those persons were, correct?

20 **A** Yes, ma'am.

21 **Q** And then are there still a few witnesses
22 who you have been able to identify who have said
23 that they saw something, who refuse to make a
24 statement to law enforcement officials?

25 **A** Yes, that's correct.

1 **Q** And are there still a number of witnesses
2 who actually have made statements to law enforcement
3 officials and who refuse to come in to testify to
4 the grand jury, either because we can't find them
5 now, they're hiding, they're out of state, or they
6 might, we just can't get them in even if we serve
7 subpoenas, they refuse to come in?

8 **A** That's true, yes.

9 **Q** And so you and I and Sheila Whirley have
10 been working very closely with the presentation of
11 evidence during the investigation that began, the
12 grand jury investigation that began on August 20th;
13 is that right?

14 **A** That's correct.

15 **Q** And at times have I asked you to do
16 various things that the grand jury has asked for?

17 **A** Yes.

18 **Q** Such as locate who Darren Wilson's field
19 training officer was in Jennings?

20 **A** Yes.

21 **Q** And during your investigation did I ask
22 you to go down to Canfield and take a number of
23 photographs that again, I'll call perspective
24 photographs that were, might show what somebody,
25 what various witnesses might have seen on the day of

1 the shooting?

2 **A** Yes.

3 **Q** I'm going to show you a series of
4 photographs that are in Grand Jury Exhibit Number
5 98.

6 And you and I have gone over these
7 photographs before and looked through them; is that
8 right?

9 **A** That's correct.

10 **Q** And were you actually one of the, were you
11 with the detective who actually took these
12 photograph?

13 **A** I was, yes.

14 **Q** So describe for the grand jurors what you
15 were doing here and what the goal was?

16 **A** So essentially we made the decision to
17 identify three particular points, specific points on
18 Canfield, and stand in one particular spot of those
19 three points. Take a series of consecutive
20 overlapping photos in a 360-degree manner.

21 So you could essentially put those
22 photos together and you would get a 360-degree view
23 of your surroundings.

24 We decided to do that with three
25 points. Those points would have been essentially at

1 the police car where the police car was originally
2 located, at essentially the intersection of
3 Coppercreek Court and Canfield Drive, this point
4 right here. And then based on measurements that we
5 took, again, this is all based on measurements,
6 where Michael Brown's foot would have been the day
7 of the incident, we used those three points of
8 reference.

9 Q Michael Brown's foot when he was laying in
10 the street?

11 A Yes.

12 Q Those were measurements that you got from
13 the crime scene diagram that was done by Detective
14 on the day of the shooting?

15 A That's correct.

16 Q So really we're going to go through some
17 of these and we'll get through as many as we can. I
18 think at this point it will probably be we will see
19 Detective back on Friday just to finish up
20 with him. I know Sheila has got some more with him,
21 you all may have some questions and, of course, we
22 have evidence for you to look at and view as well.

23 So in this first image, which on the
24 back I've marked as 1A. So all of the images that
25 have a one, these are images from what vantage

1 point?

2 **A** Uh, this would have been from Officer
3 Wilson's police vehicle.

4 **A** Okay.

5 **Q** And so the detective photographed the cone
6 in the street and this is where he was going to
7 stand on top, not physically stand on top of the
8 cone, but stand over the cone and turn while he made
9 his photographs, correct?

10 **A** That's correct.

11 **Q** And so this image 1B, is that you can see
12 the cone in this photograph and is this just to get
13 a perspective of which view this is?

14 **A** It is.

15 **Q** So this is not a perspective shot?

16 **A** That's a preparatory shot to identify
17 where we're at.

18 **Q** Okay. And so on 1C, this would be the
19 first photograph that is a perspective shot from
20 where Officer Wilson's vehicle was, correct?

21 **A** Correct.

22 **Q** And what direction is this looking?

23 **A** This is looking primarily south.

24 **Q** Okay. And so if we know that the
25 officer's vehicle was right about here and you can

1 see the front of the building says 2964, that's this
2 location right here, correct?

3 **A** That's correct.

4 **Q** All right. And did you during your
5 investigation identify if there was any witness that
6 would have been in this photograph that would have
7 said they witness something?

8 **A** No.

9 **Q** And then in photograph 1D, is this, now
10 the detective who is taking the photographs, if he
11 started out by looking south on Canfield, is he
12 turning clockwise?

13 **A** He is.

14 **Q** So now from this perspective, is he
15 looking down which direction on Canfield?

16 **A** He's looking west on Canfield.

17 **Q** Okay. And so that would be looking in
18 this direction, correct?

19 **A** Correct.

20 **Q** And from this photograph which is where
21 the police vehicle would have been, can you see a
22 location where an eyewitness said that saw
23 something?

24 **A** Yes.

25 **Q** And I want you to get up and help me with

1 this. I'm going to hand you a Sharpie. What
2 witness are you talking about?

3 **A** Would have been .

4 **Q** Okay. Now, looking west from here, the
5 police officer's vehicle, we heard a number of
6 people who said they were in vehicles that were
7 actually west of the officer's location, correct?

8 **A** That's correct.

9 **Q** So , and , and
10 , and whoever was in
11 his car, ?

12 **A** Yes.

13 **Q** So those people would be somewhere on this
14 roadway, correct?

15 **A** That's correct.

16 **Q** Can you use the Sharpie and put for
17 to show where he says he was when he
18 saw that?

19 **A** (Witness marking on the exhibit.)

20 **Q** So now you see a in
21 the distance here, is tha where
22 says he was?

23 **A** It is.

24 **Q** You actually spoke to the of that
25 is that right?

1 **A** I did, yes.

2 **Q** Did confirm that had somebody
3 working, wasn't sure what day it was, but
4 had somebody who worked that day?

5 **A** did confirm that had somebody work
6 on .

7 **Q** Okay. If you're at Officer Wilson's car
8 where this photograph is, can you see the location
9 where said he was standing?

10 **A** Yes.

11 **Q** And presumably if you had taken a
12 photograph from that location, would you be able to
13 see where the police car was?

14 **A** Yes.

15 **Q** Okay. And then Exhibit 1E, in this
16 grouping is again turning clockwise so. What
17 building are we seeing in this photograph?

18 **A** We are looking at this third photograph
19 right here. This is 2973, which is part of Building
20 2 and 2969, which is also part of Building 2. We
21 can see a little bit of Building 3 on the far
22 right-hand side.

23 **Q** Okay.

24 On that
25 photo, you're saying the car would have been about

1 right at the end of the picture?

2 **A** Right. So the detective when he was
3 taking the photograph would have been standing where
4 the car was when he took that photograph.

5 : Okay. What about where the
6 body laid at?

7 MS. ALIZADEH: That's in another group of
8 photographs. There's the car photographs, there's a
9 point where he may have turned around by that pole
10 and then there's where the body laid.

11 What's the estimated
12 distance from the car to where was?

13 **A** From the car, I'm not sure I'd have to
14 look it up.

15 A couple hundred yards,
16 100 yards, someone with good eyesight would be able
17 to see clearly in your opinion?

18 **A** Yes. I would say maybe not even
19 100 yards.

20 This is 1D, that photo is
21 1D?

22 MS. ALIZADEH: Yes, 1D.

23 : That , if you were
24 standing where the detective took the picture from
25 with the naked eye would that look closer than

1 it does through the camera? Would you be able to
2 see more of it or would it be larger?

3 **A** Um, I think that is probably pretty
4 consistent with what you would see.

5 **Q** (By Ms. Alizadeh) You were out there on
6 that day, correct?

7 **A** I was.

8 **Q** When they were taking photographs?

9 **A** I was, yes.

10 **Q** And did you discuss with, was there
11 discussion between myself, my office, and you guys
12 that we wanted to have, we didn't want zoom
13 pictures?

14 **A** That's right.

15 **Q** We wanted to have a lens that would be as
16 close to the human, what an eye would see?

17 **A** Correct.

18 **Q** So none of these pictures are zoomed in to
19 what they are focused on?

20 **A** Right, that's by design.

21 : That begs a question for me.

22 When was in here, whatever that is, the is
23 right here. He said he moved over here. So he was
24 a little bit closer than the , correct, or not
25 correct?

1 MS. ALIZADEH: Well, regarding your
2 recollection of his testimony, y'all can compare
3 notes on that or look back on the transcript. I'd
4 rather not comment on where I think was or, you
5 know, and we have a map here too that is also done
6 for your assistance that also puts points where the
7 detectives involved in the investigation believe
8 people were, but that's only to assist you. These
9 are just to assist you.

10 So if your recollection is different or if
11 you do not agree with what the pictures show or what
12 the testimony is, that's your prerogative to agree
13 or disagree or have different recollections, okay.

14 So detective looking at this photograph 1E
15 and you said now in this photograph we can see
16 Building Number 2 and part of Building Number 3, can
17 you, do you know who lived in Building Number 2 that
18 said they were witness to this, do you need to look
19 at the map?

20 A In Building Number 2 would have been
21 and and .

22 Q (By Ms. Alizadeh) They testified, I don't
23 know you guys are going to have to be looking back
24 on your notes. They testified that they lived on
25 various floors in these buildings, correct? So from

1 the police car, someone who is on the balcony here
2 very well could have seen what happened at the
3 police car, is that fair to say?

4 **A** That's fair to say.

5 Who lived here, who did you
6 say?

7 **A** , and

8 . Can I look at the map just to clarify that?

9 **Q** (By Ms. Alizadeh) Just so we can make the
10 record clear, I'm going to just, I don't have
11 another easel yet today, we're going to get one for
12 you, but this is a map that has --

13 (Grand Jury Exhibit Number 101
14 marked for identification.)

15 MS. ALIZADEH: Grand Jury Exhibit Number
16 101 is the same map that has little stickers that
17 show where various people say that they were,
18 correct?

19 **A** Yes, ma'am.

20 **Q** (By Ms. Alizadeh) And you prepared that
21 for me; is that right?

22 **A** I did.

23 **Q** And I'm going to show you Grand Jury
24 Exhibit Number 102.

25 (Grand Jury Exhibit Number 102

1 marked for identification.)

2 Q (By Ms. Alizadeh) Is this a legend that
3 you prepared that corresponds with the number you
4 gave those people?

5 A It is.

6 Q Just so that you all know, you know, I've
7 been numbering witnesses as we go. The numbers that
8 he assigns here have nothing to do with the order
9 that they testified, so don't go by a witness
10 number, you know, 43 is where, okay.

11 The legend, I might as well pass it
12 all out to you, but this helps you to recall who was
13 in that Building Number 2, correct?

14 A It does.

15 Q All right. And on your little markings
16 you have Number 25, who is Number 25?

17 A It is, as I said, it is , and
18 Number 10 is and Number 9 is

19

20 Q And now looking at the corner here of
21 Coppercreek Road, there's a , who is that?

22 A .

23 Q There is also a that's over here by
24 the mailboxes?

25 A That's correct.

1 **Q** And why do you have a and .

2 **A** Individuals who we identify during the
3 course of the incident to any significance we
4 identify as best we could their starting point with
5 an A. So, for example, you are ,
6 and then to their end point as best we could again
7 who is identified by B, so , so she
8 is both and .

9 **Q** In these videos, can you see the corner
10 where would have been at

11 **A** Yes.

12 **Q** Okay. So from her location at the corner,
13 she would have been able to see the police car?

14 **A** , yes.

15 **Q** Yes, okay. And then -- all right. This
16 is F, 1F. Again, this is a perspective looking,
17 turning to the right slightly from the previous
18 photo, correct?

19 **A** That's correct.

20 **Q** And what building do you see in that
21 photo?

22 **A** There's again a segment of Building 2 and
23 it shows Building 3 and Building 4.

24 **Q** All right. And so Building 3, who was in
25 Building 3?

1 **A**

2 **Q** And so he is Number 27 on the map that
3 you've marked?

4 **A** He is.

5 **Q** Can you point with the the Sharpie, put
6 for where he was?

7 **A** Sure. (Witness marking on the exhibit.)

8 **Q** All right.

9 I've got a question. Those
10 trees we see on the left side of the road, are they
11 cut up six, seven foot off the ground if you are
12 standing under there you can see through them?

13 **A** You can walk under these trees without any
14 problem.

15 : It is hard to tell from this
16 photo.

17 **A** Yes.

18 **Q** (By Ms. Alizadeh) So Image 1G, and we are
19 going to conclude as soon as we get done with the
20 first round of photos of the police car if that's
21 okay. So, again, from the police vehicle now the
22 photographer has turned a little more clockwise,
23 what building did you see in that shot?

24 **A** Far left-hand side you can see a portion
25 of Building 4 and then it moves onto the side and

1 front portion of Building 5.

2 Q And so from these two photographs from,
3 what was this one, F and G, can you see where
4 would have been?

5 A Yes.

6 Q Okay. And so in those two photographs,
7 presumably she would be able to see the police car,
8 correct, based on what she had said where she was?

9 A Yes, ma'am, yes.

10 Q And then in 1G we see 's
11 building, correct?

12 A Correct.

13 Q And she said she was inside, but then I
14 can't remember if she says she came outside, but
15 from her building, if she were looking out a window,
16 she could see the police car, correct?

17 A Yes, ma'am.

18 Q And on 101, Grand Jury Exhibit 101, you
19 have 1A and 1B, that's because was walking
20 when this happened, correct?

21 A Yes, ma'am.

22 Q So in Grand Jury Exhibit H -- that is from
23 the police vehicle looking west or east on Canfield,
24 correct?

25 A That's correct.

1 **Q** And so from that location, what buildings
2 do we see?

3 **A** We again see Building 5 on the left-hand
4 side. And further down in the background you can
5 see a portion of Building 9. And then if we move
6 over to the right-hand side of the street, you can
7 see Building 17, a portion of Building 17 and a
8 portion of building 16 and a small portion of 15.

9 **Q** Okay. So based upon the images that we've
10 seen so far, would somebody in Building 6, for
11 example, be able to see the police car?

12 **A** No, ma'am.

13 **Q** Building 6?

14 **A** No.

15 **Q** Okay. How about a person who was in
16 Building 4?

17 **A** Yes.

18 **Q** And that was who?

19 **A** That was?

20 **Q** Sixteen?

21 **A** .

22 **Q** And so if was looking outside
23 her window, she could have seen what happened at the
24 police car?

25 **A** You will see here we were talking about

1 Building 4. A majority of Building 4 and whatever
2 photograph this is, 1G is visible, so yes.

3 Q Okay. And Image 1I. And again, from the
4 police vehicle, what buildings and what can we see?

5 A We're again looking at starting from left
6 to right. We're looking at a portion of Building
7 15, a portion of Building 16, Building 17, and then
8 in the far right-hand side is Building 18.

9 Q So in Image 1J, again, this is turning a
10 little more clockwise. What building do we see in
11 1J?

12 A We're primarily looking at Building 18.

13 Q Okay. An in Building 18 we talk about
14 that being where was?

15 A That's correct.

16 Q And then Number 30, this would be where
17 says she was standing smoking a
18 cigarette with somebody in a green shirt or black
19 shirt?

20 A Yes.

21 Q Photograph 1K. We can see this is also a
22 portion of Building 2964, which is 18, correct?

23 A That's correct.

24 Q And we can see the mailboxes in this
25 photograph where said she was

1 crouching by?

2 **A** Yes.

3 **Q** And even more so in 1L. See the mailboxes
4 in that photograph?

5 **Q** And this is the last one and then we'll
6 break. This is 1M, which again takes you full
7 circle or almost full circle. And here you can see
8 where said he was working.

9 Is that right here?

10 **A** Yes, ma'am, yes.

11 **Q** So that's something around full circle,
12 okay.

13 MS. ALIZADEH: We'll conclude for today.
14 What I would propose doing is that before next
15 Friday, I'll mount all of these on a similar board
16 and you understand the progression of the
17 photographs. I don't know that it is necessary that
18 we say what is seen. I think combined with using
19 the board there, the legend and these photographs,
20 but I will also ask Detective to return on
21 Friday to finish. I maybe just have a wrap-up to do
22 with him. Sheila will have some questions and then
23 you --

24 MS. WHIRLEY: I just have one concluding
25 question and that's it. Because I wasn't real clear

1 on something you said, I just wanted to make sure
2 I'm clear. Would it be correct to say that you're
3 not here today making a decision about probable
4 cause or telling the grand jury there's no probable
5 cause to charge Darren Wilson?

6 **A** No, I am not, absolutely not.

7 MS. WHIRLEY: That would be a
8 misstatement?

9 **A** I am not here making that statement.

10 MS. WHIRLEY: Okay. That's all I have for
11 today.

12 (End of the Grand Jury Hearing Volume
13 XXIII.)

5 I, a Licensed Certified Court
6 Reporter by the Supreme Court in and for the State
7 of Missouri, duly commissioned, qualified and
8 authorized to administer oaths and to certify to
9 depositions, do hereby certify that pursuant to
10 Notice in the civil cause now pending and
11 undetermined in the County of St. Louis, State of
12 Missouri.

13 The said witness, being of sound mind and being
14 by the grand jury first carefully examined and duly
15 cautioned and sworn to testify to the truth, the
16 whole truth, and nothing but the truth in the case
17 aforesaid, thereupon testified as is shown in the
18 foregoing transcript, said testimony being by me
19 reported in shorthand and caused to be transcribed
20 into typewriting, and that the foregoing page
21 correctly sets forth the testimony of the
22 aforementioned witness, together with the questions
23 propounded by counsel and grand jurors thereto, and
24 is in all respects a full, true, correct and
25 complete transcript of the questions propounded to

1 and the answers given by said witness.

2 I further certify that the foregoing pages
3 contain a true and accurate reproduction of the
4 proceedings.

5 I further certify that I am not of counsel or
6 attorney for either of the parties to said suit, not
7 related to nor interested in any of the parties or
8 their attorneys.

1 GRAND JURY HEARING VOLUME XXIV

2 MS. ALIZADEH: Good morning. It is
3 Friday, November 21st, it is 9:24 a.m. This is
4 Kathi Alizadeh, Sheila Whirley is present, all 12
5 grand jurors are present, as is the court reporter.

6 And we've spent about an hour kind of
7 talking about some procedural issues and matters and
8 concerns that the grand jurors had.

9 We did not discuss any of the evidence or
10 testimony so that discussion was had not on the
11 record.

12 I do want to tell you that as, since you
13 last met, which was on Thursday, last week, I've
14 taken this week to go through every transcript that
15 has been produced, which we are up-to-date. We have
16 the transcript from last Thursday and what I've done
17 is I made a chart and I made a chart that had the
18 name of every witness who testified and whether or
19 not that witness made statements prior to their
20 testimony.

21 As you know, it was originally our plan
22 that we would put on witness statements prior to the
23 witness testifying. We play statements, we provide
24 transcripts when we had them, but over the weeks
25 because of scheduling issues and problems getting

1 witnesses in, we kind of got away from that. We'll
2 put the witness on now and we'll listen to their
3 statements later.

4 I wanted to make sure that I had put
5 everything on and, of course, I discovered that I'm
6 not perfect and we have not, so I want to make this
7 representation to y'all.

8 And, again, names of witnesses will be
9 redacted from the transcripts, so I'm just going to
10 go ahead and say their names. But if you will
11 recall, there was a witness testified, her name is

12 She is the ,
13 and she did testify and I did play a statement of
14 hers that was taken on the date of the shooting by
15 the St. Louis County Police Department and that
16 statement was three minutes long.

17 Apparently there is another statement of
18 hers that was given to the FBI on September 2nd and
19 that statement is 11 minutes and 58 seconds. I did
20 not play that, but I have it hear, all right.

21 So I'm going to go through each of these
22 and then we will discuss whether or not you want us
23 to play or give you just the transcripts of what
24 have you.

25 There was another witness or another young

1 man who did not testify, but you'll recall
2 he originally made a statement
3 to St. Louis County Police on the day of the
4 shooting. It was a ten-minute recorded statement
5 that we played for you where he described having
6 witnessed the incident.

7 testified last week about a
8 phone call and we played a phone call for you from
9 that witness where he said, no, he really didn't see
10 it, he just said he saw it. So there is another
11 statement of that was given to the
12 joint investigators, so United States attorney,
13 Justice Department attorney and FBI people, that was
14 given on September 26th. It's 15 minutes and 58
15 seconds long, and I did not play that one for you.
16 I have listened to it and actually that's how I knew
17 was recanting the story. The essence
18 of that statement he says, I didn't really see it.

19 But that statement is also, I have it in
20 here. So we can play that for you if you want to
21 hear that one.

22 There was a woman testified named
23 , she's the one who, I believe, was taking
24 her trash out when she heard the shots. She made
25 two statements, one on August 9th on the date of the

1 shooting and one on August 16th to the FBI. During
2 their canvas, remember the week after they did a
3 knock on door canvas?

4 I have given you those two transcripts
5 already, and at the time you all said you didn't
6 need to hear the statement, the statement played
7 because you have the transcripts.

8 But again, I have those statements here
9 and if you desire to hear them, we can play them.

10 Then there's , you will
11 remember she's the woman from who was
12 taking a drive into Canfield Apartment Complex and
13 testified that she witnessed the shooting. I've
14 already played for you a statement that she made to
15 the joint investigators, the U.S. attorney,
16 Department of Justice attorney and FBI agents. That
17 statement was on October 22nd. It was an hour and
18 38 minutes long and there was no transcript of the
19 statement at that time, but the court reporter took
20 down the statement as we played it, and so you've
21 heard that statement.

22 There is another statement that was made
23 previously by her on September 11th to the St. Louis
24 County Police Department, that statement is 44
25 minutes and 52 seconds long. I don't have a

1 transcript of that statement, but I have that audio
2 if you want to hear that as well.

3 There was witness if you
4 recall, he was kind of like, he said he was kind of
5 like the godson to . He was on his
6 balcony trying to make a cell phone call because he
7 gets better reception out on his balcony.

8 He made a statement that I played for you
9 on September 30th. It was a statement made to joint
10 investigators. It was 33 minutes and 14 seconds
11 long. And you've already heard that one and have a
12 transcript of that.

13 He also made a statement on the day of the
14 FBI's canvas on August 16th and that statement is 22
15 minutes and 31 seconds. And I have that statement,
16 but I have not played it for you, nor do I have a
17 transcript.

18 I don't know if you recall
19 , she's the witness who says she likes
20 her gospel music and she was rocking to the gospel
21 music in her car when she pulled into the complex
22 that day and witnessed the shooting from behind,
23 from inside her vehicle.

24 She made a statement to joint
25 investigators that statement was made on

1 August 15th, 2014.

2 At the time I asked you if you wanted to
3 hear y'all told me you didn't think you wanted to,
4 but I have the transcripts already prepared at that
5 time because I was thinking we would play it. So at
6 this time I'll pass out the transcripts for her
7 statement and y'all can have those and if you want
8 to hear her statement, we can play that one as well.

9 Then there was , he's the
10 gentleman who was making internet kind of video
11 phone call to a female friend and he unwittingly
12 recorded the sounds of gunshots, and I didn't play
13 his statement. His statement was given to the FBI
14 on August 18th, it is ten minutes and 41 seconds
15 long. I don't have a transcript, but I do have that
16 statement if you want to listen to it.

17 There is , he's the
18 witness who had called into that POD cast show, that
19 and had made statements that
20 seem to indicate that he had seen the shooting. And
21 he came in and testified to you about what he saw.

22 He made a statement to St. Louis County
23 Police and the FBI actually on the day that he
24 testified in the grand jury because he would not
25 make a statement to the police he actually was

1 subpoenaed to come into grand jury to testify.

2 So when he arrived at our office, FBI
3 agent and then sat down with him and
4 took his statement and that's recorded. I don't
5 have a transcript, but I do have the statement, that
6 statement is 53 minutes and three seconds, so if you
7 want to hear that one you can.

8 , she was the physician
9 assistant who treated Officer Wilson on the day of
10 the shooting.

11 She made a statement to joint
12 investigators on August 27th of 2014. Her statement
13 was recorded and is 16 minutes and 29 seconds long.
14 I don't have a transcript, but I have a statement if
15 you want to hear that.

16 made a statement to joint
17 investigators on the 9th before he testified in this
18 grand jury. So that would have been on
19 November 12th and his statement is two hours and 40
20 minutes long if you would like to hear that.
21 Actually, I do have a transcript, they delivered the
22 transcript to me as well. So I have a transcript
23 and that statement.

24 I didn't print out the transcript because
25 obviously it is quite voluminous. If you need it, I

1 will certainly print out copies for everyone.

2 And then finally , she was
3 the woman who was in the vehicle with her mom and
4 dad and sister and her daughter, she made two
5 statements. Neither of which have been played to
6 you. One was on August 21st to the St. Louis County
7 Police, that's 19 minutes and 15 seconds long. And
8 the other one was to joint investigators and that
9 was made, I think, the day before she came in and
10 testified here, that would be November 12th. And
11 that statement is 35 minutes and 45 seconds long.

12 And maybe at a morning break, I'm going to
13 give this chart to the foreperson. I've highlighted
14 the ones missing statements so you guys can talk
15 amongst yourselves if there is any need to hear
16 those statements or get transcripts for those
17 statements, we can do that before you deliberate.

18 GRAND JUROR: Whatever happened to the
19 witness somebody who didn't want to come?

20 MS. ALIZADEH: we never were
21 able to get him subpoenaed. He's hung up on me
22 twice, he hung up on the Department of Justice
23 attorney twice, they've not been able to get him in
24 for an interview.

25 I've had an investigator to his home, to

1 his mother's home, and either people don't answer
2 the door or when they answer the door they say
3 isn't here.

4 Police are not authorized to go into a
5 house and look for somebody unless they have a
6 search warrant. And given that he's not, he hasn't
7 committed a crime, we really can't get a search
8 warrant to go into a house to find him.

9 So, you know, I did play his statement for
10 you to take into consideration the fact that he is
11 unwilling to come in and give live testimony to you.

12 When you consider how many witnesses have
13 given different statements after they come in and
14 testify, just keep that in mind, that you were able
15 to question him and observe him and judge his
16 credibility live, okay.

17 GRAND JUROR: I have one more question.
18 What would be the reason that a police department or
19 the FBI or the civil rights will get a statement at
20 the 9th hour before the witness comes in to testify?

21 MS. ALIZADEH: Well, that would be a
22 question that you would have to ask them. You know,
23 as you know, they're running their own
24 investigation, independent investigation and as you
25 probably, you might be able to tell even by looking,

1 I didn't give you the whole list. I left out a
2 page.

3 A lot of these witnesses who were spoken
4 to were spoken to by either county police officers
5 on the day of the shooting or the day after the
6 shooting and then sometimes on that following
7 weekend when the FBI did their canvas they were
8 spoken to.

9 Some of these interviews are as short as
10 three minutes. As an example, I'll use

11 . She was interviewed by a county detective
12 on the date of the shooting. I think her interview
13 was something like three minutes. Not very
14 detailed. Not very, you know, there isn't even
15 anything in her statement at that time as to what
16 car she was driving.

17 As you know, that kind of became an issue.
18 She testified she had the and that
19 kind of is an issue. I'm only speculating as to the
20 reason that they were conducting their own
21 interviews. I think that definitely witnesses
22 needed more in depth interviews and they determined
23 they were going to do those, but I can't really tell
24 you, it would be speculating on my part if they had
25 any other kind of motive or desire, but they are

1 running their own investigation. They will, they
2 are preparing a report with recommendations of their
3 own so they feel a need to actually talk to every
4 witness themselves.

5 Okay. Also we did not have it at the
6 time, but actually emailed a copy of his
7 CV after he testified, so I marked that as Exhibit
8 103.

9 (Deposition Exhibit Number 103
10 marked for identification.)

11 MS. ALIZADEH: And at this time we'll
12 proceed with who I anticipate may be the last
13 witness and that's who started
14 last Thursday.

15 GRAND JUROR: I have one quick question.
16 referenced his report, do we not
17 anticipate getting one from his autopsy?

18 MS. WHIRLEY: We don't have one currently.

19 MS. ALIZADEH: I don't even know if it's
20 done.

21 GRAND JUROR: Okay.

22 MS. ALIZADEH: You know, honestly, during
23 the break we can try to contact him if it is done,
24 he maybe can email it to us, and if it is not done.

25 GRAND JUROR: I asked about

1 report. He mentioned finishing up his report and we
2 never saw anything. If that is of interest of
3 people to inquire into it or not?

4 GRAND JUROR: What do you mean he didn't
5 saw everything?

6 GRAND JUROR: He never submitted his
7 report from his autopsy. He referenced he looked at
8 some pictures when.

9 GRAND JUROR: He should have written his
10 report by now.

11 GRAND JUROR: This is it, he didn't submit
12 his autopsy report.

13 MS. WHIRLEY: We'll contact and see.

14 MS. ALIZADEH: It is worth us reaching out
15 if he's got it and can email to us we'll get it. If
16 he doesn't, you know, the only thing would be y'all
17 would have to discuss if you want to hold up your
18 deliberations until you get it. This is, again,
19 your investigation and if there is something you
20 think you need, we're going to get it for you.

21 MS. WHIRLEY: Another question?

22 GRAND JUROR: We need to decide even if we
23 need to ask for it.

24 GRAND JUROR: I thought the only reason
25 that we would have it is because he was, he had a

1 difference of opinion as to one of the wounds as
2 opposed to the medical examiner for St. Louis
3 County, is that my understanding? Was that my
4 understanding?

5 MS. WHIRLEY: That's something you need to
6 figure out.

7 MS. ALIZADEH: We can't --

8 GRAND JUROR: I'm sorry?

9 MS. ALIZADEH: We've got email.

10 MS. WHIRLEY: I can reach out to him.

11 MS. ALIZADEH: We can make quick inquiry.
12 If he's got it, we'll get. If he doesn't have it,
13 you guys are going to have to decide if you want to
14 hold up deliberations until you get it. It is easy.

15 GRAND JUROR: I'm not sure that everything
16 that we've done so far is thorough if we would make
17 a decision before we have his report that that would
18 not reflect good on us, you know what I mean?

19 MS. ALIZADEH: Let me tell you this. In
20 any actual criminal trial, the report of the medical
21 examiner, the police reports, any reports that you
22 all have been given in your investigation, none of
23 those or admissible in a trial because the report
24 itself is considered hearsay.

25 The testimony is the evidence in the case.

1 So has now, typically we have a report
2 before the witness testifies and we may use that
3 report to prepare us for their testimony, and then
4 we may use that report if they testify differently
5 than what the report says certainly, but in this
6 case, we didn't have that report in advance.

7 If we had it and it was a trial, we
8 couldn't let the jury see it anyway, but that's
9 something, again, you guys are going to have to talk
10 about. During this break, we'll go and do, we'll
11 contact somebody right now. If we get it great, if
12 we don't get it, you are going to have to decide if
13 you want to wait for the report, okay. And that
14 will be the decision you all can make amongst
15 yourselves during the break or lunch or what have
16 you. Okay.

```
17         Anything else before we take a bathroom
18 break or stretch your legs?
```

19 (Recess)

20 MS. WHIRLEY: This is Sheila Whirley.
21 There was a request regarding autopsy
22 report. Fortunately I was able to reach him by
23 telephone during our break. He said that he was
24 waiting on some information and hadn't completed the
25 report, but he could have it ready by Monday.

1 So he wanted me to get back to him and
2 he'll work on it over the weekend. He wanted me to
3 get back to him and let him know if that would be
4 okay, should he work on it or what.

5 MS. ALIZADEH: Why don't you guys talk
6 about it during your lunch break. We'll let him
7 know after lunch whether he needs to chop-chop, get
8 that done for you guys, okay.

9 So at this time, we're going to recall
10 Detective

11 DETECTIVE
12 having previously been sworn, retakes the stand for
13 further questioning.

14 EXAMINATION
15 BY

16 Q Good morning, Detective

17 A Good morning.

18 Q This will be your third time appearing on
19 this matter in the grand jury and I will just remind
20 you, you are still under oath to tell the truth and
21 also that you are under oath not to divulge or
22 disclose anything that happens in the grand jury or
23 to even discuss that you were appearing at the grand
24 jury or any matters or for the fact that they have
25 this matter under consideration.

1 **A** Yes, ma'am.

2 **Q** So, I first want to clear something up,
3 and this actually came about at the conclusion of
4 your day on Thursday, and we were not done with your
5 testimony, but there was a question asked by Sheila
6 Whirley and I wanted to clarify something.

7 Last Thursday I had asked you
8 questions about your investigation, about your
9 questioning of Officer Wilson, your reasons for not
10 placing him under arrest after you had interviewed
11 him, the reason you did not place him under arrest
12 sometime subsequent to that and I asked you if you
13 felt that you had probable cause after you had
14 interviewed him, if you felt that at that time that
15 you had probable cause to arrest him, and your
16 answer I believe was no.

17 At that time you did not feel that
18 you did and I want to clarify for the grand jurors
19 and Sheila brought up the fact, you are not saying,
20 are you, Detective, that you do not feel that
21 there's probable cause to indict Officer Wilson of
22 any offense in this case?

23 **A** Correct, I'm not giving that opinion.

24 **Q** In fact, in preparation for your
25 testimony, did we discuss whether or not any

1 questions about your opinion would be answered by
2 you?

3 **A** We did discuss that, yes.

4 **Q** And I told you that I would not want you
5 to give your own opinion if you have one, nor would
6 I want any of the grand jurors to ask you your
7 opinion because that is actually their decision and
8 not yours?

9 **A** That's correct, yes.

10 **Q** So just to clarify for everybody, your
11 answer about not arresting Officer Wilson after he
12 was interviewed, which was less than 24 hours after
13 the actual shooting incident was not a comment on
14 your part as to whether you feel that there's
15 probable cause to indict, is that fair to say?

16 **A** That's fair to say.

17 **Q** And you all understand that at no time do
18 I think would it be appropriate for you to ask his
19 opinion as to whether there is probable cause to
20 indict.

21 Also, you may recall that during
22 testimony of certain witnesses they may have been
23 asked questions about their opinion as to whether
24 there was excessive force used and in those cases,
25 those witnesses, if you recall, were all actual

1 eyewitnesses to the incident. And so whether they
2 have an opinion or not I think might be relevant,
3 but given that Detective is not witness to
4 the incident, I don't feel it is appropriate for you
5 to ask him his opinion as to any of the issues in
6 this case.

7 He's here to testify about the
8 investigation and the facts that he's discovered and
9 I leave it to you to determine the issues of law in
10 this case.

11 Also, Detective after your
12 testimony you indicated to me that I had asked you a
13 question about whether or not the investigation you
14 conducted in this case was any different than any
15 other investigation you've done regarding use of
16 force investigations, and I believe you testified
17 Thursday that no, you have not done anything
18 differently or something to that effect. And you
19 told me that you wanted to clarify that; is that
20 fair?

21 **A** I did, yes.

22 **Q** Why don't you explain for the grand jurors
23 about what, if anything, is different about your
24 investigation in this case?

25 **A** Sure. When I answered that question last

1 week, I was referring to the fact that Darren Wilson
2 was treated no differently in this investigation
3 than other officers have been treated in any other
4 investigation we have conducted or that I have
5 conducted.

6 He received no special treatment and
7 in terms of the investigation, the same legal and
8 general procedural guidelines were followed in this
9 investigation as they were in any other officer
10 involved incident that I have conducted.

11 Having said that from the beginning,
12 there were certain aspects of the investigation that
13 were different. Typically we would do a
14 walk-through at the scene with the individual
15 involved in the incident, that wasn't possible in
16 this particular instance based off of circumstances
17 taking place at the scene. It wouldn't have been
18 safe, I felt, for him to go back to the scene and do
19 a walk-through at the scene. In a relatively short
20 period of time, there was a significant amount of
21 media attention that had been garnered regarding
22 this incident and obviously, that can impact
23 witnesses' statements if a witness sees media
24 account of it, so that would have obviously impacted
25 this investigation more so than previous

1 investigations. The FBI and Department of Justice,
2 obviously, began conducting a parallel investigation
3 within a relatively short period of time. And that
4 obviously lent itself to a variety of coordination
5 issues that needed to happen, a variety of other
6 laboratory reports that we would have needed to get,
7 other methods of doing things. In that sense, there
8 were things that we did differently.

9 And also just in terms of the sheer
10 volume of work and the amount of witnesses that we
11 contacted that was different in this particular
12 instance, based on the amount of people that needed
13 to be contacted, the amount of evidence that was
14 presented. And so in some instances, I was at the
15 same time as much a project manager as I was an
16 investigator.

17 But ultimately there were a lot of
18 things that were, I should say, different about this
19 investigation, but it is nothing that would have
20 impacted the integrity of the investigation or the
21 manner in which Darren Wilson was treated, so I just
22 wanted to clarify that.

23 Q All right. And in the course of this
24 investigation within hours of the shooting, you did
25 have a number of people who actually came forward

1 and indicated that they had witnessed the incident;
2 is that correct?

3 A That's correct.

4 Q And you learned shortly after the shooting
5 that there was an individual who was with Mike Brown
6 during the shooting and did it take several days for
7 you to identify him and to contact him?

8 A It did.

9 Q And then during this investigation were
10 there also a number of witnesses that did not come
11 forward that you were able to later identify either
12 through canvassing or through other investigative
13 techniques such as getting phone records, Facebook
14 records, Twitter records and so forth, to try to
15 locate people who might have seen something?

16 A Yes, that's correct.

17 Q And so is that something that was atypical
18 in your investigation of an officer involved
19 shooting the vast number of witnesses that actually
20 were not coming forward on their own?

21 A It was, yes.

22 Q Um, all right.

23 MS. ALIZADEH: I'm going to then kind of
24 resume with talking about this perspective picture.
25 At this time does anybody have any questions, of

1 course, you can always ask later as well. Before I
2 move on to doing these pictures again, anybody have
3 questions about the investigation itself or things
4 that were done or not done?

5 Okay, all right. So now, Detective
6 we had you testify Thursday about this map,
7 which is marked Grand Jury Exhibit Number 101. What
8 are these?

9 A Extra.

10 Q (By Ms. Alizadeh) Extra, okay, that's
11 right. And you indicated that you, along with other
12 investigators prepared this, which is your
13 interpretation based upon the statements made of
14 witnesses as to where various eyewitnesses were
15 during, when I say shooting, obviously, there was a
16 time period that goes along, the beginning of the
17 time of the beginning of the incident until after
18 the shooting had been done. And do you still feel
19 that this map accurately reflects where witnesses
20 said they were?

21 A I do.

22 Q And just for your instruction, this just,
23 this map is for your purposes in your deliberations
24 and if you disagree with anything that's on the map,
25 these little sticky things come right off. So

1 supposedly they come right off.

2 **A** They do.

3 **Q** If you feel that this witness is not in
4 the right place, you can move any of these stickers
5 that you want and put them in the places where you
6 think they belong.

7 This is just something that is
8 representative of what this witness believes where
9 people were. If you all do with this what you will.

10 Also there was a legend that was
11 provided for all of you regarding the numbers
12 because the numbers that were assigned witnesses are
13 not the same numbers as the witnesses testimony in
14 this grand jury.

15 So Witness Number 10 in the grand
16 jury is not necessarily Number 10 on this chart.
17 Actually, he's Number 6. So those numbers for the
18 map are only for the map, okay. Is that fair to
19 everybody?

20 All right. Now --

21 GRAND JUROR: I just want to clarify, the
22 red where it says Michael Brown, that is where he
23 died, that is where he fell?

24 **A** Yes, ma'am.

25 GRAND JUROR: You don't indicate anywhere

1 where he was to begin with, just where he fell?

2 A Just where he fell, yes.

3 Q (By Ms. Alizadeh) And the blue would be
4 where the police officer's car was when you began
5 your investigation, correct?

6 A Correct.

7 Q So these photographs, which we already
8 started some testimony about, I did a little better
9 job attaching them. And just so for the grand jury
10 to understand what I've done here, I have three
11 boards and each board represents a vantage point.
12 So the actual vantage point, the picture of that
13 vantage point is on the back of the board.

14 So as you see here on the back of
15 this board, there is a cone in the middle of the
16 street. That would be where the police vehicle was.
17 And so when you then look at the pictures that are
18 on front of the board, and you've heard Detective
19 testify about how the photographer stood in
20 that location over that cone, actually stood,
21 straddled the cone and would take pictures moving
22 clockwise 360, so that we would have an idea of what
23 can be seen from that vantage point to help you
24 figure out where people were, what they might have
25 seen, parts of it they might have seen.

1 And actually, when I prepared these
2 boards, I did it using what's called removable tape
3 because I wanted y'all to be able to take these
4 pictures off if you needed to or move them around if
5 you needed to. But unfortunately, removable tape
6 doesn't stay very well and the next day I came in
7 and these pictures were like all on the floor.

8 As you see they're coming off
9 somewhat and so I've provided a tape dispenser for
10 you. If you see that, see how this is coming off
11 here. This is because this tape doesn't stick well.

12 I'm taking these down so they stay.
13 You should be able to pull them off. If there is a
14 need to remove them and move them around in any way.

15 But I believe we finished up with
16 this board which I did not mark last week, but I'm
17 going to mark now.

18 (Grand Jury Exhibit Number 104
19 marked for identification.)

20 MS. ALIZADEH: Does anybody have, before
21 anybody I move onto the next board, we kind of
22 finished with the last picture. Anybody have any
23 other questions about this board?

24 And just so you all know too, you will see
25 that there are, I think, five easels in this room

1 right now. There is one in the corner that's
2 holding that flip chart, one that's in this corner.
3 The one I just put up there, there's another one in
4 the corner and one over here.

5 So when it is time for you to deliberate,
6 if you feel like you want to get all of these out
7 and put them up, it is just hard for me to move
8 around by doing it right now.

9 I'm just going to do them one at a time.

10 (Grand Jury Exhibit Number 105
11 marked for identification.)

12 MS. ALIZADEH: Next board I'm going to
13 mark Grand Jury Exhibit 105.

14 Again, I put the picture on the back of
15 the board that shows the vantage point of these
16 pictures. You see a cone in that picture, and
17 Detective looking at the photos on the front
18 of the board. Can you tell what vantage point that
19 is?

20 A This would be the far eastern point that
21 we took, the 360 degree photos from.

22 Q (By Ms. Alizadeh) And why is it that this
23 cone was placed at that location on Canfield Drive
24 or Canfield Road?

25 A As best we could tell based off of witness

1 accounts, that would have been the furthest point
2 east that Michael Brown would have went to. So that
3 intersection of roughly Coppercreek Court and
4 Canfield Drive.

5 Q If you want to point to where that is on
6 your other map?

7 A So essentially the western corner, or what
8 would be the northwestern corner, I should say, of
9 Coppercreek Court and Canfield Drive is where this
10 cone was placed roughly right about there.
11 (indicating)

12 Q And so we see in the photograph that is on
13 the back of this board, the cone there, did the
14 photographer straddle that cone and take 360
15 photographs in the same manner that she did from the
16 vantage point from where the police vehicle had
17 been?

18 A Same procedure was used, yes.

19 Q Okay.

20 GRAND JUROR: Is this from the
21 perspective, you said from the farthest point that
22 the Michael Brown got to, is this the point where he
23 stopped in the roadway and turned?

24 A Yes, ma'am. We are basing that off of
25 witness statements as best we could tell. That was

1 the point that they had made reference to and so we
2 used that as the furthest eastern point to go to.

3 GRAND JUROR: Okay.

4 Q (By Ms. Alizadeh) Now, I'm going to put
5 this up, Detective. If you want to come up here if
6 it is easier for you to see. We're going to start
7 with the top left-hand photo is the first photo in
8 the group and then we're going to move left to
9 right, and then down to the second row left to right
10 and then down to the third row left to right.

11 So the first photograph, can you
12 describe for the grand jurors where the photograph,
13 what the photographer is seeing in that image?

14 A This photograph right here would be,
15 again, if I move to this map at the intersection of
16 Coppercreek Court and Canfield Drive, the
17 photographer would have been taking a photo that
18 would have been essentially almost due east. So
19 taking a photograph due east.

20 Q And so in that photograph, can you see
21 Building Number

22 A There would be Building Number and a
23 portion of Building Number .

24 Q Can you put the laser pointer on Building
25 Number

1 **A** This would be Building Number right
2 here. And then if we move to our left that would be
3 Building Number

Q Now, from this perspective, the location
of the would, if they were,
according to their statements, can you see where
they would have been?

8 **A** They discussed being near, essentially
9 this area right here, the corner of this building
10 somewhere in this area right here. (indicating)

11 Q And there's a dumpster that you can see in
12 that photograph; is that right?

13 | **A** Yes, ma'am.

14 Q Okay. And then also there was a witness
15 in Building Number

16 **A** That 's correct.

17 Q And who was that?

18	A
----	----------

19 Q We can see Building Number from this
20 first photograph?

21	A	Correct.
----	----------	----------

22 Q And then there were also possibly two
23 witnesses that were near this dumpster?

24 **A** That 's correct.

25 Q And that would be?

1 | **A** and .

2 Q All right. Is that the dumpster that
3 appears in the top left-hand side of that first
4 photograph?

5 **A** Yes, ma'am.

6 Q Okay. Now, moving onto, well, let me ask
7 you this. Building which would have been where
8 and would have been, can
9 you see Building in this, in that first
10 photograph?

11 **A** Yes, it looks like you can see a portion
12 of Building over here.

13 Q Okay. So depending on the angle of that
14 photograph and where they would have been, it's
15 possible that someone from Building could see
16 where the photographer was standing?

17	A Yes.
----	---------------

18 Q And then the next photo, is this moving
19 clockwise or counter clockwise?

20 **A** This next photo would be counter
21 clockwise.

22 Q Yeah, did I put these up wrong?

23 | **A** I think these two are transposed.

24 Q Good thing I used removable tape, huh.

25 All right. Tell you what, let's take a pause as we

1 try to get this right.

2 (Recess)

3 Q (By Ms. Alizadeh) So we've discovered that
4 I have some photographs in the wrong order and we're
5 going to move on to the next board so that I can
6 during maybe a break we can rearrange those
7 photographs and put them up the way they should be
8 and we will revisit that after a break.

9 So the next board is going to be
10 marked Grand jury Exhibit 106.

11 (Grand Jury Exhibit Number 106
12 marked for identification.)

13 Q (By Ms. Alizadeh) Detective, looking at
14 the photograph on the back of that board, can you
15 tell me where the photographer is standing for these
16 photographs?

17 A This would be at the point where Michael
18 Brown's body was located when we arrived at the
19 scene.

20 Q All right. Before we start, can you look
21 at that real quickly and tell me did I get that
22 right or is that wrong too?

23 MS. ALIZADEH: This is what happens when
24 you do live theater.

25 A The top is clockwise. This one is

1 clockwise. This is clockwise, we're good.

2 Q (By Ms. Alizadeh) Is this supposed to be
3 there?

4 A That's correct.

5 Q All right, good. So looking at these
6 photographs starting at the top left. And what
7 direction is the photographer facing?

8 A Primarily west.

9 Q And that would be on Canfield Drive?

10 A That's correct.

11 Q And from that first photograph, is she
12 straddling the cone that appears in the photograph
13 on the back of the exhibit?

14 A Yes, ma'am.

15 Q Okay. And so from this location, can you
16 see the location where would have
17 been?

18 A You can.

19 Q And where is that?

20 A It would be at this point right here.

21 Q And in the photograph you can see kind of
22 the corner of a white house or structure?

23 A That's correct.

24 Q Is that the house where he was?

25 A That is the house where he was working.

1 GRAND JUROR: I have a question about
2 . You mentioned, I guess, when we
3 were here Thursday that you talked to the homeowner?

4 A I talked to the individual who resides at
5 that home and I also talked to the homeowner, yes.

6 GRAND JUROR: And they said, what was
7 their response to him being there?

8 A Neither one could remember exact dates,
9 but it was around that time they did both confirm
10 that there was work being done on the home around
11 that time and they both confirmed that there was an
12 individual there. They didn't know names, there was
13 an individual there that was doing some sort of
14 drywall and painting work at the house.

15 GRAND JUROR: I kind of find that a little
16 strange because when he sat down with us, he told us
17 that he specifically told whoever was at that house
18 what had happened?

19 A I asked her about that, and she said that
20 she remembered talking to him briefly, didn't
21 remember what they had talked about and that she
22 ultimately left for work.

23 Q (By Ms. Alizadeh) Let me ask you this,
24 given that you actually have been to that residence,
25 did you make any attempts for yourself to stand in

1 the location where you believe stood
2 and look down Canfield to see for yourself what
3 someone in that position might be able to see?

4 A I did.

5 Q And from where, from your observation,
6 would a person standing at the location where
7 said he was, could they see where the
8 police vehicle was?

9 A They could.

10 Q And could they see where the farthest
11 easterly point where Michael Brown, witnesses say he
12 may have stopped and turned around?

13 A Yes, he could.

14 Q Could you also see the place where Michael
15 Brown's body came to rest?

16 A Yes.

17 Q Are there any obstructions between where
18 from your observation from that vantage point to any
19 of those locations is there any obstructions that
20 would be in your way?

21 A The only obstruction would have been the
22 trunk of this tree right here. I don't know if
23 everyone can see that. There is a tree right there
24 and the trunk of that tree would have been the only
25 obstruction.

1 GRAND JUROR: How big is that trunk, how
2 wide?

3 A I don't know specifically, but clearly the
4 only reason I mention that is in the interest of
5 full disclosure, that's the only --

6 GRAND JUROR: According to your judgment,
7 it is not a big, wide tree?

8 A No, it is a grown --

9 GRAND JUROR: Full grown tree?

10 A It is clearly a grown tree, but in the
11 grand scheme of looking at a particular incident,
12 one tree that is at a distance, I didn't view it as
13 something that would have impeded my ability to see
14 the entire incident.

15 GRAND JUROR: Thank you, sir.

16 A Yes, ma'am.

17 GRAND JUROR: From his distance where he
18 was standing, could he actually see
19 the movements, you can see a person standing, but
20 could you actually physically see the movements of
21 Michael Brown?

22 A So just by chance when myself and another
23 detective were at this home right here, there was
24 quite a few people walking around in this general
25 area and up to and including someone walking what

1 would be roughly, again, at the intersection of
2 Coppercreek Court and Canfield Court. And you can
3 clearly see that individual and I could clearly see
4 that individual and I could see hands moving and I
5 could see where they were moving their hands if
6 walking like this, I would be able to see the
7 movement of their hands, yes. (indicating)

8 GRAND JUROR: Could see their facial
9 expressions?

10 A I don't remember.

11 GRAND JUROR: Okay.

12 A I don't remember.

13 GRAND JUROR: All right.

14 MS. ALIZADEH: Any other questions?

15 GRAND JUROR: How soon after the incident
16 were these photos taken?

17 A I don't, I could check for you and get you
18 an exact date.

19 GRAND JUROR: Okay.

20 A But I don't remember.

21 MS. ALIZADEH: The dates the photos were
22 taking, is that what was asked?

23 GRAND JUROR: Right uh-huh.

24 MS. ALIZADEH: I'm guessing that might be,
25 you know what, it might be the date they were

1 printed that's on the back, we'll find out.

2 Do you have your report on your laptop?

3 A I do.

4 Q (By Ms. Alizadeh) He brought that so he
5 could answer questions if there were questions like
6 this.

7 A So we were out there at roughly 8:30 a.m.
8 and it would have been on Wednesday, October, yes
9 October 1st.

10 GRAND JUROR: The 1st?

11 A The 1st of October, yes, ma'am.

12 GRAND JUROR: Could I make another
13 comment? Conceivably the abundance of foliage
14 during that course of time from August until October
15 when the photos were taken, so there may not have
16 been as much foliage? I know you are not a
17 botanist, I understand that.

18 A That was a consideration that we took, we
19 took that into consideration in doing those photos.
20 We wanted to get it, obviously, before the leaves
21 started to change. If you look in these photos
22 here. The foliage is still green. I'm not saying
23 that, obviously, there are leaves in these photos
24 right here, but the foliage is clearly green at that
25 point when photos were taken.

1 MS. ALIZADEH: Any other questions? Okay.

2 Q (By Ms. Alizadeh) And then, Detective,
3 also looking at this first image, if there were
4 vehicles that were coming around this bend and
5 proceeding eastbound on Canfield Drive, someone
6 looking out of their front windshield would be able
7 to see the police vehicle, correct?

8 A Yes, ma'am.

9 Q As well as the place where Michael Brown's
10 body rested?

11 A I believe so.

12 Q And could they see the corner from their
13 vehicle?

14 A Yes, ma'am.

15 Q Okay. And so then in the second
16 photograph, and this is turning clockwise, correct?

17 A Moving clockwise, yes.

18 Q So what building is this in the map?

19 A This building right here. (indicating)

20 Q Yes. Is that the same as this building
21 right here? You see a white SUV in front of these
22 buildings, this is same building, right?

23 A So we're moving clockwise so this would
24 be --

25 Q Looking west?

1 **A** Westbound, correct, you're asking about
2 this building right here. (indicating)

3 **Q** This building is the same as this
4 building?

5 **A** That's correct.

6 **Q** What number would that be?

7 **A** That would be Building .

8 **Q** What witnesses were in Building Number

9 **A** And in Building would have been

10 .

11 **Q** Okay. And so if they were on the front of
12 their building and looking toward the photographer,
13 who is standing in this grouping, this is where
14 Michael Brown's body was; is that correct?

15 **A** That's correct.

16 **Q** They would be able to see Michael Brown's
17 body in the street?

18 **A** Yes.

19 **Q** And this building right here on the second
20 photograph?

21 **A** Correct, that would be Building .

22 **Q** Who is in that building?

23 **A** In Building would have been

24 and would have resided in
25 the building. It would have been moving from that

1 building towards the, between her building and the
2 dumpster.

3 Q And then also somewhere in this area would
4 have been where parked her car and
5 walked over in an easterly direction, correct?

6 A That's correct.

7 Q And is 's apartment this
8 one right here? (indicating)

9 A It is actually, would be on this side, so
10 the western side of this stairwell right here, but
11 this balcony right here is connected and there is
12 obviously a balcony on this side that you cannot see
13 that would be consistent with this one on the
14 eastern end.

15 Q We talked about the fact that there is,
16 there's a balcony that's connected on the fronts of
17 these buildings, but there's a wall that will at
18 some point block somebody's vision depending upon
19 where they are on their balconies and what they are
20 looking at, is that fair to say?

21 A That's fair to say.

22 Q So depending on where somebody is on these
23 balconies would depend on whether or not they could
24 see something in the street?

25 A Right.

1 Q Okay. And so in the third image now,
2 again, moving clockwise, you see 's
3 apartment?

4 A Yes.

5 Q Okay. And then were there any other
6 people in Building Number ?

7 A Not in the building, no.

8 Q Okay. And then on the fourth photograph,
9 again, moving clockwise, we can see this memorial
10 here that's by a light pole. Is this close to the
11 area where witnesses said he had stopped and turned
12 around?

13 A It is.

14 Q And from this photographer's vantage
15 point, again, you can see that dumpster in the
16 background?

17 A That's correct.

18 Q And you can see 's building?

19 A Right.

20 Q This Building Number , would this be this
21 building back in the background?

22 A That would be Building .

23 Q Who was in Building ?

24 A Uh, and .

25 Q Okay. And then looking at the next

1 photograph, again, moving clockwise then, now we are
2 looking down Canfield Road and east down Canfield;
3 is that right?

4 A That's correct.

5 Q And, again, you can see the place here,
6 correct?

7 A That's correct.

8 Q And you can see 's building?

9 A Correct.

10 Q And what buildings are back here?

11 A That would be buildings, in terms of where
12 witnesses were located, Buildings and then closer
13 to that you can see a portion of Building and it
14 looks like possibly a portion of Building .

15 Q And so what witnesses were in Building
16 Number or near Building ?

17 A Building would have been
18 and .

19 Q All right. In Building , we didn't have
20 anybody from Building that said they were near or
21 in Building ; is that correct?

22 A That's correct.

23 Q And then the sixth photograph in the
24 group, again, turning clockwise. What building
25 number is this in the left-hand side in the

1 background here?

2 **A** I believe that is a portion of Building
3 and then in the front here would be Building .

4 **Q** And then is this a different building
5 right here?

6 **A** Same, different address, same building.

7 **Q** Okay.

8 **A** So it is and , which are both
9 part of Building .

10 **Q** Were there any witnesses in Building ?

11 **A** Yes.

12 **Q** Who is that?

13 **A** or .

14 **Q** He said he was in like the first floor,
15 which is basically slightly below street level,
16 correct?

17 **A** Correct. As a frame of reference, I would
18 say roughly about that high below street level.

19 **Q** So if he were on his patio right outside
20 his front door street level would be about three a
21 and a half, 4 feet?

22 **A** Roughly.

23 **Q** And then clockwise, again, looking at
24 Photograph Number 7, I think?

25 **A** We're looking at the same building,

1 primarily Building there.

2 Q All right. And then Number , or the next
3 photograph?

4 A Sure. Now this photo essentially is
5 facing south. And we can see, again, a portion of
6 Building and unrelated building off in the
7 distance where we didn't identify any witnesses and
8 then in the far right-hand side of the photograph we
9 can see building, a portion of Building .

10 Q All right. Would this parking lot that we
11 see here, I'm not sure on this, thinking from my
12 vantage point, would that be where
13 said that she parked her vehicle?

14 A Yes.

15 Q Okay. And she indicates that she was
16 standing in front of Building smoking a cigarette
17 with some unidentified man?

18 A Identified as building, not building,
19 Number on the map here.

20 Q Okay. And then is there another witness
21 in Building Number ?

22 A Yes.

23 Q And who is that?

24 A .

25 Q Or

1 **A** I'm sorry,

2 Q So , and he said he was
3 inside the building and looked out his window and he
4 saw some or all of this incident, correct?

5	A Yes.
---	---------------

6 Q And so then in the next photograph,
7 turning clockwise still, is that also Building
8 Number ?

9 **A** That's also Building , yes.

10 Q And then the final photograph you come
11 full circle again, now west down Canfield Drive; is
12 that correct?

13 **A** That 's correct.

14 MS. ALIZADEH: Any questions about this
15 grouping or witnesses?

16 GRAND JUROR: I didn't get the very first
17 white van?

18	A	This one here?
----	---	----------------

19 GRAND JUROR: Uh-huh.

20 | A This is Building , which is right here.

21 GRAND JUROR: Okay.

22 GRAND JUROR: Where was
23 apartment here in Building .

24 A His apartment would have been, it is hard
25 to see.

1 GRAND JUROR: Okay.

2 A So the second, yeah.

3 MS. ALIZADEH: Any other questions about
4 this group of photographs?

5 And, of course, you can always ask later.
6 At this time let's take a quick break while the
7 detective and I redo the photographs and put them in
8 the correct order and then we'll finish with that
9 board and then we'll probably just go on to your
10 questions about the investigation.

11 (Recess)

12 MS. ALIZADEH: This is Kathi Alizadeh and
13 Sheila Whirley is present, we took a short break
14 while the detective and I rearranged the photos in
15 the top row. The rest of them, apparently, were
16 right, but I had gotten the top row wrong. So let's
17 start over with this board, which is 105. And
18 again, based on the photograph that's on the back of
19 the board, you can tell what perspective these
20 photographs were from which is from where,
21 Detective?

22 A Again, this is from the eastern most point
23 that witnesses had identified Michael Brown's
24 traveling on Canfield Drive. So, again, we are
25 talking about the intersection of Coppercreek Court

1 and Canfield Drive and the northwest, northern
2 portion of the intersection right there.

3 Q (By Ms. Alizadeh) Okay. So the first
4 photograph, again, all of these photographs are the
5 photographer standing or straddling the cone that
6 was placed there, and these cones that you placed
7 for the photographer's benefit, were these based on
8 measurements that you did that day?

9 A They were based on measurements that were
10 taken on August 9th and then measurements, again,
11 that we did on the day that these photographs were
12 taken, yes.

13 Q And so you are talking about the
14 measurements that were taken by Detective on
15 the day that he documented the crime scene?

16 A Yes.

17 Q Okay. And so you used those measurements
18 and then measured for yourself to determine exactly
19 where the police car was, and exactly where the body
20 was, and of course, the exact location of where
21 Michael Brown stopped and turned around is just
22 based upon various witness accounts; is that right?

23 A That's correct.

24 Q And so for these photographs, this is the
25 best of your information that this would have been

1 the farthest east that he went before turning
2 around?

3 A The best information we had at that time,
4 yes.

5 Q Okay. Is there any change in that? You
6 said at that time?

7 A No, no.

8 Q Okay, all right. So in the first
9 photograph, again, we're looking down Canfield
10 Drive, correct?

11 A That's correct.

12 Q And the, in the background somewhat, maybe
13 midrange in that photograph, you see the memorial
14 where there is another cone and there's flowers and
15 candles and stuffed animals, is that the location
16 where Michael Brown's body was?

17 A That cone has nothing to do with the cone
18 that we placed. That cone was there when we arrived
19 and that cone was left there, obviously, when we
20 left. We brought our own cone. I would discount
21 the meaning of that cone.

22 Q Okay. But that general location, so
23 someone who was standing where the photographer is,
24 you can get a feel of how far away Michael Brown's
25 body came to rest in this first photograph, correct?

1 **A** Correct.

2 **Q** Okay. And then the second photograph is
3 moving clockwise?

4 **A** Yes, ma'am.

5 **Q** And what building is that that we see?

6 **A** Building right here. (indicating)

7 **Q** And I think we talked about it, but let's
8 recap, looking at the first photograph there, can
9 you see the corner of that white house where
10 says he was?

11 **A** You can.

12 **Q** Okay.

13 **A** It is right there. (indicating)

14 **Q** Now looking at the second photograph you
15 said you see what building number is that?

16 **A** And the second photograph that's Building
17 .

18 **Q** And that would be where lives,
19 correct?

20 **A** That's correct.

21 **Q** And I'm just going to really quickly go
22 through these again. Three, you are moving farther
23 clockwise?

24 **A** Yes.

25 **Q** And you see the dumpster where the

1 | were close to, correct?

2	A	Correct.
---	----------	----------

3 Q And that would have been where

4 | and possibly were, correct?

5	A	Correct.
---	----------	----------

6 Q And then in the fourth photograph, again,
7 turning a little more clockwise. In the background,
8 can you see what buildings?

9 **A** That is Building right here. And then
10 if we move to the left, we moved onto Building and
11 this is a portion of Building right here.

12 Q All right. And then the fifth photograph
13 now you are looking east on Canfield Drive, correct?

14 **A** That's correct.

15 Q And again, you see a number of buildings
16 in the background there?

17	A Yes.
----	---------------

18 Q Those would be?

19 **A** Building .

20 Q I'm sorry. , which is on the north
21 side of the street?

22 | **A** Yes.

23 Q And then what are the buildings on the
24 south side of the street that are visible?

25 **A** Building , Building , and that may be

1 a portion of Building right there.

2 Q Put your laser pointer on Building
3 again?

4 A Building .

5 Q And that was where the and
6 were, correct?

7 A Right.

8 Q And then turning a little clockwise. In
9 the 6th photograph in the group. What building's
10 visible there?

11 A This right here would be Building , and
12 this right here would be Building , a portion of
13 Building .

14 Q And Building is where
15 lives?

16 A Right, yes.

17 Q And then on Photograph Number ?

18 A We've moved onto it. This is entirely
19 Building right here.

20 Q And then building, I'm sorry, photograph
21 the 8th photograph?

22 A This is Building here again, and now we
23 see a portion of Building right here.

24 Q And that parking lot that is seen between
25 those two buildings, that is the parking lot where

1 says she parked her car; is that
2 right?

3 **A** Yes, ma'am.

4 **Q** And then in the 9th photograph, moving
5 clockwise?

6 **A** We are essentially seeing that is all
7 Building right there.

8 **Q** And that would have been where
9 was?

10 **A** Correct.

11 **Q** And then also in that image, let me see.
12 We talked about seeing the mailboxes in one of these
13 images. I hope it is in these. Pointing here, can
14 you put your laser pointer right here. There is a
15 black vehicle that appears to be parked there and
16 then there's something behind the black vehicle.
17 Would that be about where those mailboxes, those
18 metal rows of mailboxes were?

19 **A** It is. If you look at Photo 1 here, you
20 can see the top, you will have to take my word for
21 it, that's the top of the mailboxes right there.

22 **Q** And that would be where said
23 she was near the mailboxes where she ended up. She
24 traveled from one point to another, correct?

25 **A** Yes, ma'am.

1 **Q** Okay. And then finally in the 10th
2 photograph, again, we have come 360. You are
3 looking back down west on Canfield Drive, correct?

4 **A** That's correct.

5 MS. ALIZADEH: Anybody have any questions
6 about this group of photographs? Did I confuse
7 everybody by redoing them? Are you all okay with
8 this?

9 GRAND JUROR: I just have a quick question
10 about the photographs that were taken from the
11 vantage point of the officer's vehicle. Is this
12 taken from like where his, the door of his vehicle
13 was, you know what I'm saying, or was it like midway
14 of the vehicle?

15 **A** It was taken from the driver's side front
16 tire.

17 GRAND JUROR: Driver's side front tire.

18 **Q** (By Ms. Alizadeh) So where the cone was
19 from that perspective, was from where the left front
20 tire of Officer Wilson's vehicle was on the street?

21 **A** Yes.

22 GRAND JUROR: I just want to clarify for
23 everybody and myself, the only cones we should pay
24 attention to are the ones that are orange and white,
25 the solid color orange someone else put there.

1 A The only cone that I would pay attention
2 to is the cone that identifies in that first
3 photograph where the detective would have been
4 taking the photographs from. So I guess on the back
5 here where we've identified is where we were
6 actually taking the photographs from.

7 So, yes, you are correct, these cones
8 here, both of these cones here and this cone right
9 here were obviously already there, we didn't place
10 those there and those have no bearing in terms of
11 the measurements that we took.

12 Q (By Ms. Alizadeh) So when you would move
13 from one location to the next to take pictures,
14 would you remove the cone that you had previously
15 placed?

16 A Yes.

17 Q So any cones that appear on the front of
18 these boards are not cones that you have placed?

19 A That is correct.

20 Q All right. And then if you look on the
21 back of those photographs, the cone that appears in
22 those, on the back of the boards, the photograph
23 that appears on the back of each board shows the
24 cone where you placed it. Do show where the
25 photographer was going to stand?

1 **A** Correct. Had I known there was going to
2 be cones out there already I probably would have
3 taken something different for us to bring, but I
4 didn't know that.

5 MS. ALIZADEH: Any other questions about
6 these photographs?

7 **Q** (By Ms. Alizadeh) Just briefly talk a
8 little bit more about in this particular case the
9 investigation and about the taking of witness
10 statements.

11 Virtually, not virtually, but almost
12 all of the witness statements in this case that were
13 taken were audio recorded, correct?

14 **A** Yes.

15 **Q** And was there any reason for that, was
16 there a decision why you were going to audio record
17 certain statements or all of the statements?

18 **A** By and large when we conduct homicide
19 investigations, we record anybody with any pertinent
20 information. And that's in this particular case or
21 any other homicide investigation we are conducting.
22 So it is essentially standard procedure for us to do
23 that and so we did that in this particular instance
24 too.

25 **Q** And many of these recorded statements that

1 we've heard that other officers have taken have been
2 at libraries. Detective was at a library when
3 he talked to , correct?

4 A Yes.

5 Q Different officers or detectives went to
6 people's home to interview them. There was a
7 witness interviewed at the NAACP headquarters and so
8 would each detective have available to him a digital
9 audio recorder to take with him if he were going to
10 interview witnesses?

11 A They are assigned by the departments their
12 own recorders and we essentially carry those with us
13 everywhere we go.

14 Q I believe it was Detective and
15 Detective who talked to , and
16 , the , I think
17 it was that took the first statement from
18 them that was audio recorded, correct?

19 A That's correct.

20 Q And then Detective took another
21 statement from them later, what was the reason for
22 his second statement?

23 A The second statement was taken because we
24 had received information that both and
25 had shortly after the incident took

1 place written notes or written a document outlining
2 what they had witnessed. And, obviously, that would
3 be something that we would want to view if they
4 would give us permission. So we went out and
5 contacted them and asked for permission to view
6 those items.

7 Q So the fact that they both made written
8 statements, they did not disclose that to you when
9 you first, when Detective first talked to
10 them, would that be correct?

11 A That's correct.

12 Q So there was a decision made once you
13 found out about these written statements, somebody
14 else needed to go out there, talk to them again and
15 try to get these statements from them, correct?

16 A Yes.

17 Q Okay.

18 GRAND JUROR: How did you find out about
19 the statements.

20 A I believe it was their supervisor had made
21 reference to it when we were contacting him. So
22 they were originally told by their supervisor to
23 write down their comments or write down their
24 account of what they witnessed. So they did that
25 and that was ultimately conveyed to us and so then

1 we went out and talked to and
2 and asked that it was true, and they
3 indicated it was and we obtained those.

4 Q (By Ms. Alizadeh) Now, there was yet again
5 another interview conducted of and
6 after Detective had talked to
7 them a second time?

8 A That's correct.

9 Q What was the reason for the third
10 interview?

11 A During the course of the investigation,
12 obviously, it is an evolving investigation and we've
13 we're learned things on a daily basis. If I can go
14 back in time to when we were contacting Dorian
15 Johnson.

16 Q And that would have been on the 13th?

17 A Yes, ma'am. So during the course of
18 Dorian Johnson's interview, he talked about speaking
19 with, he didn't mention them by name,
20 and . And during the interview with
21 Dorian Johnson he made reference to
22 and talking with Michael Brown about
23 marijuana and about waxing.

24 I had no idea what waxing was. We
25 later learned that waxing delivers essentially a

1 high concentration of THC to an individual in a very
2 short period of time. So THC is the active
3 ingredient in marijuana.

4 That didn't necessarily mean much to
5 me until we learned from the autopsy report that
6 Michael Brown had THC in his system and we learned
7 that after speaking with Dr. from the St. Louis
8 County Medical Examiner's Office, that his level was
9 elevated to the point where it could have
10 potentially caused a loss in perception of space and
11 time and there was also the possibility that there
12 could have been hallucinations. He couldn't say
13 that for sure, but that is a potential effect of
14 high levels of THC in an individual.

15 So knowing that waxing delivers a
16 high level of THC to an individual in a relatively
17 short period of time and knowing that from Dorian
18 Johnson, Michael Brown had had conversations with
19 and about waxing, we
20 thought it worth exploring the possibility that
21 either gave, or
22 provided, or sold wax to Michael Brown. And if that
23 was the case, it could have potentially explained
24 some of the behavior that we witnessed from Michael
25 Brown on the audio, I'm sorry on the video at the

1 Ferguson Market and help explain some of the things
2 taking place in this particular incident.

3 Q All right. Now, had either
4 or in their first two statements to
5 County Police said anything about having discussions
6 with Michael Brown about waxing?

7 A No.

8 Q All right. Did you make a decision that
9 you were going to attempt to reinterview both of
10 those gentlemen?

11 A We did.

12 Q Now, on this occasion though, you did not
13 go out to their homes or their places of employment
14 or a library, you actually brought them into the
15 county police department and put them in an
16 interview room where you often interview suspects,
17 correct?

18 A We contacted at his home and
19 requested he accompany us back to our office and he
20 agreed to do so. We contacted at a
21 job site that he was working on and we did the same
22 thing for him. We asked him to accompany us back to
23 our office for an interview and they both
24 voluntarily agreed to do so.

25 Q So they were not under arrest?

1 **A** They were not.

2 **Q** And when they were brought to your
3 headquarters, did you bring them in during the same
4 evening?

5 **A** Yes.

6 **Q** Okay. Did you interview them separately?

7 **A** Yes.

8 **Q** And those interviews we seen were video
9 and audio recorded; is that right?

10 **A** Yes.

11 **Q** Prior to interviewing them you advised
12 each one of them of their Miranda Rights?

13 **A** We did, yes.

14 **Q** And that wouldn't be something that you
15 have done with other witnesses in this investigation
16 giving them Miranda Rights, is that fair to say?

17 **A** That's fair to say.

18 **Q** And so why is it that you felt that you
19 needed to advise these two of their Miranda Rights?

20 **A** Miranda applies if there is an incident
21 where there is custody and meaning individuals in
22 custody, and there is a potential that we're going
23 to ask guilt seeking questions. They were obviously
24 not in custody, however, we were going to be asking
25 them a series of questions and the purpose of the

1 interview was to bring them in and ask them about
2 this waxing.

3 So we were going to be asking them a
4 series of questions regarding waxing and the use of
5 it and whether they had provided or sold or done
6 anything to give Michael Brown and/or Dorian Johnson
7 marijuana or wax.

8 And so based on that, I felt it was
9 in our best interest to error on the side of
10 caution, be safe, there is nothing wrong with doing
11 this and just Mirandize them just in the sense of we
12 are going to be asking them guilt seeking questions.
13 That could potentially impact future situations if
14 they were to provide us information that could
15 implicate them in a crime.

16 Q All right. And so now when you brought
17 each of those individuals in and began your
18 questioning of them, you know, we've seen the
19 videos, they both deny having anything to do with
20 giving Michael Brown or Dorian Johnson any control
21 substances, is that fair to say?

22 A Yes, ma'am.

23 Q And they denied it from the beginning and
24 yet you continue to question them for a substantial
25 period of time; is that right?

1 **A** We did, yes.

2 **Q** Now, this interview, how are these
3 interviews different from the interviews that you
4 have done with other witnesses because these two men
5 were eyewitnesses or claim to have been eyewitnesses
6 to a shooting?

7 **A** That's correct.

8 **Q** Not suspects in the investigation, not
9 even subjects in the investigation, but witnesses?

10 **A** Correct.

11 **Q** Why treat them differently than you did
12 other witnesses in this case?

13 **A** Well, if you've seen the video, you'll
14 notice that we stayed away from discussing their
15 accounts of the incident itself. And the incident I
16 mean with Darren Wilson and with Michael Brown.

17 Our motivation in speaking with them
18 was purely to discuss the waxing aspect of it to see
19 if there was anything that we were missing in this
20 particular instance.

21 So the reality is, when we speak to
22 people, we're not always told the truth in terms of,
23 right away in terms of what is going on. That's the
24 reality of our job, sometimes people tell us the
25 truth, but in other instances they do not.

1 I mean, very few people are willing
2 to come into an office and tell a deep dark secret
3 or tell some sort of illegal activity that they've
4 done after they have just met someone in a very
5 brief period of time.

6 So as such there are various types of
7 interviews that we can do. We can do it what I'm
8 going to call just a pure fact gathering interview
9 where we sit down with somebody and we just document
10 what they've told us.

11 There are nonconfrontational
12 interviews where we can generally discuss a topic
13 with an individual in attempt to elicit information
14 and there are what I would call a direct
15 confrontation interview where we are directly
16 confronting people and calling out those individuals
17 on any inconsistencies or anything that we may
18 believe that they may not be telling us the truth
19 on.

20 I don't have a hard and fast rule by
21 in large, I don't have a hard and fast rule how I
22 conduct one interview. A lot of it is just based
23 off of how a particular individual is reacting in an
24 interview or how a particular interview is going,
25 but ultimately we are looking for the truth and

1 sometimes it is hard to get that out of people
2 initially. So we have to press them and we ask
3 questions repeatedly and kind of like a salesman, we
4 don't take no for an answer the first time.

5 We, obviously, have an obligation to
6 get to the truth to some extent and part of that is
7 pressing people to see if they're really telling us
8 the truth.

9 Q But it is true, isn't it, Detective, that
10 throughout your interview or interrogation of these
11 two men, neither one of them ever admitted or said
12 that they have been in any way involved in providing
13 controlled narcotics to Michael Brown or Dorian
14 Johnson; is that true?

15 A Yes, that's correct.

16 Q And your investigation has failed to find
17 any information otherwise; is that true?

18 A That's true.

19 Q And I think we discussed briefly and again
20 I'm going to reiterate here, to your understanding,
21 now you've completed your police report in this
22 case; is that right?

23 A I have.

24 Q How many pages is your police report?

25 A I don't know exactly, 1,100, 1,200

1 roughly.

2 Q And so you've concluded your police
3 report, but in reality does this investigation
4 continue so long as there are witnesses who might
5 come forward or want to be interviewed?

6 A I would always add a supplement to the
7 report that has been submitted if more people came
8 forward, yes.

9 Q And isn't it true, Detective, or let me
10 ask you this, if at the conclusion of this grand
11 jury investigation if there is information that
12 comes to you regarding this investigation that is in
13 any way relevant or pertinent to this investigation,
14 would you bring that to my attention?

15 A I will.

16 Q And you're aware that there is no statute
17 of limitations for murder or for class A felonies,
18 correct?

19 A I'm aware of that, yes.

20 Q And that a prosecution against Officer
21 Wilson could be brought at any time. In other
22 words, even 50 years from today?

23 A I'm aware of that, yes, ma'am.

24 Q And if there would be, let me ask you
25 this. You've reviewed a number of videos that

1 people have recorded from various devices, cell
2 phones mainly, who claim to have recorded the
3 shooting; is that right?

4 **A** That's correct.

5 **Q** Have you ever discussed a video that
6 actually shows any part of the confrontation from
7 the beginning where from the officer stopping to
8 first confront or talk to those two boys all the way
9 to the shooting itself?

10 **A** I have not.

11 **Q** Okay. Every video that you have seen in
12 relation to this investigation, video of the
13 aftermath of the shooting?

14 **A** Every one, yes.

15 **Q** Have you heard rumors that there's videos
16 of the shooting out there?

17 **A** I have heard those rumors, yes.

18 **Q** Have you done investigation to try to
19 discover whether those rumors are true or track down
20 people that have videos of the actual shooting
21 itself?

22 **A** Yes, we have.

23 **Q** And have those leads produced anything?

24 **A** No, they have not.

25 **Q** And you're aware that even after this

1 investigation by the grand jury is concluded, we've
2 discussed this, the possibility that there is for
3 some reason somebody out there has a video that they
4 have not come forward with, if that video were to be
5 discovered by law enforcement, we could represent
6 this to a grand jury; is that correct?

7 **A** That's correct.

8 MS. ALIZADEH: All have heard the term
9 double jeopardy. Double jeopardy does not apply
10 unless there is a trial jury that considers the
11 facts. And so if a case starts, if there is a trial
12 that starts with a trial jury, that's when jeopardy
13 attaches and someone can never be tried after that
14 if there's a verdict or after that they can't be
15 retried.

16 Your decision, though, does not create
17 jeopardy. In other words, there's no reason that
18 there couldn't be additional investigation in the
19 future or another consideration by probably not you
20 all probably would be another grand jury if there
21 would be something down the road, but in this case,
22 Detective, you're aware still that the federal
23 authorities have not concluded their investigation;
24 is that right?

25 **A** That's correct.

1 **Q** (By Ms. Alizadeh) They're still looking
2 for people?

3 **A** Yes.

4 **Q** Still trying to talk to people who have
5 been unwilling to talk?

6 **A** Yes.

7 **Q** And if down the road those witnesses were
8 to come forward with relevant information that may
9 change the investigation, you would bring that to my
10 attention wouldn't you?

11 **A** I would.

12 MS. ALIZADEH: Sheila, you have questions?

13 MS. WHIRLEY: Just a few.

14 **Q** (By Ms. Whirley) Regarding the accuracy of
15 these perspective photos, you don't walk it out with
16 the witness that you gave information to test the
17 accuracy of it? How do you come up with, you may
18 have already told us, I thought you did, I want to
19 understand how accurate the photos are.

20 **A** Sure. In terms of on August 9th, one of
21 our crime scene detective's jobs was to take various
22 measurements of items of evidence at the scene. And
23 he used what starts as a baseline at Coppercreek
24 Court and Canfield Court, and used this baseline
25 here and measured items during the entire, I should

1 say, within the entire crime scene and those items
2 were documented in a diagram that he completed with
3 specific measurements, feet down to inches.

4 So when we went back out there to
5 take those 360 degree panoramic shots, we based,
6 obviously, Coppercreek Court and Canfield Drive is
7 subjective in the sense that we are basing that off
8 of where, again, witnesses were telling us is the
9 furthest point east that Michael Brown would have
10 went.

11 So that is a subjective point that we
12 use that intersection, northwest corner of that
13 intersection right there.

14 However, the point where Michael
15 Brown's body was located and the point where the
16 vehicle was located, was measured on that day based
17 off the measurements that were taken on August 9th.

18 Q And when you take photographs showing
19 where people live and what building that they would
20 have, their vantage point was, that's based on
21 statements that they gave you as to where they were
22 located?

23 A Yes, ma'am.

24 Q Okay. So if you don't have that exactly
25 right, then that's not going to be accurate?

1 **A** Correct, I am basing it only off of
2 statements that they were able to provide to us,
3 yes.

4 **Q** Okay. And then you knew that swabs that
5 were taken, evidence was gathered for DNA in this
6 case?

7 **A** Yes.

8 **Q** The officer's belt, the officer's gun,
9 some other items?

10 **A** Yes, ma'am.

11 **Q** You were part of that or your team decided
12 what to seize as evidence?

13 **A** For the most part, yes.

14 **Q** Okay. And there's been testimony that
15 Michael Brown was grabbed by the throat, was his
16 throat swabbed for DNA sample?

17 **A** Was Michael Brown's throat?

18 **Q** Throat swabbed?

19 **A** I don't believe so.

20 **Q** You may not have had that information when
21 you gathered that information. Had you ever heard
22 that before that he was grabbed, the officer grabbed
23 him by the throat?

24 **A** I had heard that and as I sit here today,
25 I couldn't tell you what day I heard that.

1 Q But you do know, no one collected a swab
2 of his throat, his neck?

3 A I don't believe his neck was swabbed, no.

4 Q Okay. And if it was, you would know about
5 that; is that right?

6 A I would have a report, yes.

7 Q Okay. Now, you actually had an interview
8 with the officer, Darren Wilson, on, was it the
9 10th?

10 A Yes, ma'am.

11 Q When you interviewed him?

12 A Yes.

13 Q And you allowed him to tell you whatever
14 he wanted to tell you, right?

15 A That's correct.

16 Q You weren't stopping him from giving you
17 information at any point; is that right?

18 A I asked clarifying questions, but I did
19 not stop him, no.

20 Q You even asked him was there anything that
21 he wanted to tell you that you hadn't asked?

22 A I do that at the end of all interviews,
23 yes, ma'am.

24 Q And it was recorded?

25 A It was, yes.

1 Q And I believe when you asked him that his
2 response was, I think we're good, does that sound
3 right?

4 A That sounds right, yes.

5 Q So he never told you that he chased down,
6 chased after Michael Brown because, and continued to
7 pursue him and eventually killed him because he was
8 in fear that Michael Brown would attack other
9 officers who were coming to the scene, did he ever
10 tell you that?

11 A He did not say that, no.

12 Q Okay.

13 MS. WHIRLEY: That's all I have at this
14 time.

15 GRAND JUROR: I know that you and, I guess
16 it was Detective and Detective ,
17 Detective , I think he was responsible for
18 collecting the duty belt; is that right.

19 A Detective collected the duty belt.

20 GRAND JUROR: Detective collected
21 the duty belt?

22 A Yes.

23 GRAND JUROR: In your interview with
24 Darren Wilson, did he tell you he wanted to use his
25 pepper spray at one time, but he didn't. He thought

1 about using it and then he thought again because he
2 didn't want it to come back in on him?

3 A I don't remember the exact phrase that he
4 used, but he made mention that he thought about
5 using his OC spray or his --

6 GRAND JUROR: Mace.

7 A Mace, as you said. But he also made
8 mention that he realized he was in a confined space,
9 meaning his vehicle and in a confined space, that
10 obviously can affect other people, not just the
11 intended target I think is what he was implying.

12 GRAND JUROR: So we later found out from
13 that mace or pepper spray is
14 assigned to each patrolman and we got our report
15 from, I guess , and no pepper spray was turned
16 in. Did you know about that?

17 A No, I did not.

18 MS. ALIZADEH: Let me clarify this, okay.
19 So, Detective, the duty belt, what's a duty belt?

20 A A duty belt is essentially a belt that
21 goes, obviously, on top of the pants and shirt that
22 you always wear above a normal belt that contains
23 the equipment that a police officer is going to wear
24 during the course of his duty.

25 So it has a place for his weapon, his

1 extra magazines, his baton if he carries one, his
2 handcuffs, his radio holders, his mace, his taser,
3 anything that would be deemed necessary for an
4 officer to use in the course of his duties.

5 MS. ALIZADEH: And you are aware, aren't
6 you, that on the night or the afternoon following
7 the shooting, Detective , who is the one who
8 went to the Ferguson Police Department and seized
9 the gun, did not seize Officer Wilson's duty belt,
10 correct?

11 A I'm aware of that, yes.

12 MS. ALIZADEH: And did not inspect the
13 duty belt or photograph the duty belt, correct?

14 A That's correct.

15 MS. ALIZADEH: And was it sometime later
16 in the investigation that you contacted me and
17 indicated that Darren Wilson's attorney asked us if
18 we wanted the duty belt?

19 A That's correct.

20 MS. ALIZADEH: And what date was that that
21 Darren Wilson's attorney contacted you, asking if
22 you wanted the duty belt?

23 A I'll look it up here to be sure. Friday,
24 September 12th.

25 MS. ALIZADEH: So more than a month after

1 the shooting, correct?

2 A Correct.

3 MS. ALIZADEH: And did the attorney tell
4 you where the duty belt had been all this time.

5 A He did. He indicated that the duty belt
6 was placed in the trunk of Darren Wilson's personal
7 vehicle when he left the Ferguson police station and
8 that is where that duty belt remained until it was
9 brought to our attention. And then from there he
10 removed the belt from his vehicle and put it in a
11 box and that box was then released to us.

12 MS. ALIZADEH: So typically, Detective, is
13 a duty belt actually the personal property of the
14 officer, is that something that they go out and get
15 for themselves and it is their duty belt or did they
16 trade duty belts with other officers.

17 A I can't speak personally but for St. Louis
18 County, St. Louis County provides those duty belts
19 to each individual officer, but obviously property
20 of St. Louis County. But in the sense of trading
21 with other officers, no, there is no trading with
22 other officers. Once that belt is assigned to a
23 particular person, it is that particular person's
24 belt.

25 Q (By Ms. Alizadeh) So at the end of their

1 duty they would, they could take that belt home with
2 them that had their gun, their handcuffs, magazines?

3 A Yes, ma'am.

4 Q Whatever is on the bet, that's goes home
5 with them?

6 A It does, yes.

7 Q They don't leave it at the station for the
8 next shift?

9 A They do not.

10 Q Okay. So now when you called me up and
11 actually talked to me about having been contacted by
12 Darren Wilson's attorney about the duty belt, we had
13 a discussion about that; is that right?

14 A We did.

15 Q And we talked about whether or not we
16 should seize that duty belt?

17 A We did.

18 Q And between you and I we decided it was a
19 good idea to get it?

20 A That's correct.

21 Q And when the duty belt was seized,
22 however, the officer's gun, of course, is not in it
23 because that was seized by Detective
24 correct?

25 A That's correct.

1 **Q** The other items that are contained in a
2 duty belt, do you recall if those were in the duty
3 belt?

4 **A** I would have to look at the photos to know
5 for sure.

6 MS. ALIZADEH: Okay. I believe, have we
7 seen photos of the duty belt, have you guys seen
8 those?

9 GRAND JUROR: We have a list of what was
10 on it and what was fingerprinted.

11 MS. ALIZADEH: Let me double check because
12 I know I didn't call the witness who seized the duty
13 belt. We have the duty belt as one of the items for
14 you all to look at, but as far as whether there was
15 anything in the duty belt, those photographs would
16 show it. When we break for lunch before you begin
17 deliberating, let me go back and check and give you
18 those photos, okay.

19 But at any rate, if there was things on
20 the duty belt after the shooting, it is obviously
21 conceivable that Darren Wilson, since he had
22 possession of that duty belt from the day of the
23 shooting until it was seized September 12th, could
24 have removed things, could have changed things
25 around and what have you, correct?

1 A That's possible.

2 MS. ALIZADEH: We also discussed whether
3 or not we would try to process the duty belt either
4 for DNA or fingerprints, correct?

5 A We did.

6 MS. ALIZADEH: And we discussed the fact
7 that if you process for DNA, then you really kind of
8 destroy the prints that might be on the item and
9 vice versa, if you actually process for prints, then
10 you might obliterate any DNA that might be on the
11 item.

12 So did we discuss and talk about having it
13 processed for prints?

14 A We did.

15 MS. ALIZADEH: And you're aware that the
16 duty belt was negative for Michael Brown's prints?

17 A It was.

18 MS. ALIZADEH: I've got the duty belt, so
19 whatever is on it, if there was anything on it when
20 it was seized that would still be on it, would that
21 be fair to say?

22 A It would still be in the same condition,
23 yes.

24 MS. ALIZADEH: And that would be police
25 procedure when something is seized, you package it

1 and document it in the condition that it was when
2 you seized it and would have been photographed in
3 that condition as well?

4 A Yes, ma'am.

5 MS. ALIZADEH: I do have photographs. If
6 I haven't given them to you, I'll go get them.

7 GRAND JUROR: Considering this is a crime
8 that we are sitting here discussing, um, wouldn't
9 everything on Police Officer Wilson be considered
10 evidence? My question is, why wouldn't his duty
11 belt be detained the day of the shooting when
12 pictures were taken of him before he went to the
13 emergency room and of his uniform, why wouldn't
14 everything be considered evidence that day because
15 that is very important?

16 A Obviously, I wasn't at the Ferguson police
17 station when the items that were originally seized
18 on August 9th were seized. I agree with you in that
19 it's important. I wasn't made aware of the fact
20 that it wasn't seized until obviously a later date
21 and I can't answer that question because I wasn't
22 there.

23 GRAND JUROR: So how could you do an
24 investigation if you haven't collected evidence?

25 A Well, clearly we collected evidence. We

1 just did not seize that duty belt on that particular
2 day meaning on August 9th. We did seize, obviously,
3 his weapon and his clothing and those things, but we
4 did not seize his duty belt.

5 MS. ALIZADEH: Let me just ask, Detective,
6 how long have you been a detective for St. Louis
7 County?

8 A Almost eight years.

9 MS. ALIZADEH: And in your experience,
10 have you ever had cases where during the course of
11 the investigation, other things are made known and
12 then you wish you would have done something that you
13 now no longer have the opportunity to do?

14 A Absolutely.

15 Q (By Ms. Alizadeh) Now, Detective, I mean,
16 Officer Wilson, was interviewed by at
17 the hospital, correct?

18 A Correct.

19 Q And we know his duty belt wasn't seized
20 that day?

21 A That's correct.

22 Q And it was the next day that you
23 interviewed him at your headquarters, correct?

24 A Correct.

25 Q And I imagine was he in street clothes

1 when you interviewed him?

2 A He was.

3 Q And so whether he had his duty belt in the
4 trunk of his car that day, regardless, you didn't
5 seize the duty belt that day?

6 A I did not.

7 Q During your interview of him, did he talk
8 about mentally doing a mental, I guess, inventory of
9 the items on his duty belt during the time he says
10 Michael Brown was assaulting him?

11 A He did make reference to that, yes.

12 Q And yet you didn't make any decision at
13 that time to seize the duty belt?

14 A I think at that point I didn't know that
15 it had not been seized.

16 GRAND JUROR: In your interview with
17 Officer Darren Wilson on the 10th, what did he
18 indicate to you as the reason why Michael Brown is
19 leaving the car, why Officer Wilson exited his
20 vehicle to begin pursuit what was his justification?
21 I know what he told you us, I'd be interested in
22 what he told you?

23 A I think two separate questions there, am I
24 correct? The first question is, would you repeat
25 the first question?

1 GRAND JUROR: What did Darren Wilson
2 explain was his reason for exiting his police
3 vehicle and pursuing Michael Brown on foot?

4 A To arrest him.

5 GRAND JUROR: That's what he told you on
6 that?

7 A Yes, sir.

8 GRAND JUROR: I know we've heard evidence
9 that Michael Brown after he turned around and
10 advanced back towards Officer Wilson, and we have
11 our diagram of the crime scene with the measurements
12 on it and I just want to make sure I'm interpreting
13 all of this right. So as far as physical evidence,
14 we have the blood on the ground that was about 21 or
15 22 feet from where Michael Brown ended up. So we
16 know for a fact that's a minimum distance he might
17 have advanced and from eyewitness testimony that
18 placed him at the corner of Coppercreek, that
19 dimension looks like it is closer to 48 to 50 feet;
20 is that correct? So that would be like an outer --

21 A I'm going to look at this diagram also
22 just so I'm sure we are on the same page here.

23 So you're saying, obviously, this
24 would be zero right here, right.

25 GRAND JUROR: The distance was 48 feet

1 2 inches according to this diagram.

2 A Correct, yes, sir. So we would say, and
3 you made reference to the blood on the ground. So
4 from this point here, the red stains in the roadway
5 are identified what was later determined to be
6 Michael Brown's blood as Items 19 and 20 on the key
7 for the diagram. So Items 19 and 20, so the zero is
8 here, identified as being 31 feet and 26 feet
9 7 inches, and this direction here, and then you're
10 correct in saying if we continue to move west on
11 Canfield Drive, Michael Brown's left foot and right
12 foot for that matter are, 48 feet 2 inches, yes,
13 sir.

14 GRAND JUROR: If I did the calculation
15 that was 21 and a half feet?

16 A Yes, sir.

17 GRAND JUROR: Physical evidence,
18 eyewitness reports would have doubled that.

19 A 21, 22 feet between the blood and where
20 Michael Brown's body was when we arrived, yes.

21 GRAND JUROR: Okay. And a second
22 question. We heard the audiotape that had the last
23 ten shots on it, can you tell us exactly what that
24 timeframe was from the first shot to the tenth shot
25 there? We tried to approximate it, it was six or

1 seven seconds, but do you know exactly?

2 A I know that that audio was sent to someone
3 at the FBI in Quantico who does testing relating to
4 audio and things of that nature. I don't have that
5 report in front of me and I wouldn't be comfortable
6 in saying what those, what that analyst identified.

7 MS. ALIZADEH: I do have the report. I
8 can give it to you. He did not time, there is
9 nothing about the duration of the shots. The report
10 just indicates that there were ten, what appeared to
11 be ten apparent gunshots and a male voice speaking.
12 It was just an analyst of the audio and it doesn't
13 really say, it says nothing about duration of the
14 shots.

15 So I'd be happy to get that report for
16 you.

17 GRAND JUROR: There wasn't a craft line
18 that showed time of duration?

19 MS. ALIZADEH: No, that wasn't done.

20 A Yes, sir.

21 GRAND JUROR: In your professional
22 opinion, I'm not a blood splatter analyst, but say
23 Michael Brown is standing around the area where we
24 know his body fell and he's shot in the head, could
25 where the blood landed potentially have been, I

1 don't know some trajectory or we to expect or
2 understand that, I don't know what my question is.

3 If he was traveling from the baseline you
4 marked as zero the corner of Coppercreek and
5 Canfield that would somehow trail, is there a way to
6 know?

7 A I'm not a blood spatter analyst either,
8 but I think 22 feet would be an extremely
9 unrealistic expectation that blood is going to
10 travel that far.

11 GRAND JUROR: Okay.

12 GRAND JUROR: Did you have occasion to
13 talk to ?

14 A I did.

15 GRAND JUROR: We heard of some testimony
16 about, but we haven't heard directly, can you give
17 us a quick synopsis of what he said happened?

18 A I guess, let me clarify first. When you
19 are talking about you are making
20 reference --

21 GRAND JUROR: To the person in the video
22 that we have seen, because what I'm trying to
23 determine is, you know, what was his demeanor in the
24 store in person versus what we are seeing on a
25 screen.

1 A The and the individual in the
2 video, obviously, we may have discussed this last
3 week does not speak English. So when we talk to
4 him, we talk to him with an interpreter.

5 GRAND JUROR: Uh-huh.

6 A And through the interpreter he indicated
7 that you're saying demeanor, meaning Michael Brown's
8 demeanor?

9 GRAND JUROR: Yes.

10 A He said Michael Brown walked in and was
11 using curse words. He couldn't recall what those
12 curse words were. There was some degree of a
13 language barrier there and he collaborated
14 essentially what you saw in the video.

15 I showed him the video during the
16 course of the interview that I conducted with him, I
17 showed him the video and he corroborated that is
18 obviously what took place from his perspective, but
19 in terms of actual language, he knew that there were
20 curse words he said, but the language barrier
21 prevented him from explaining any further what he
22 was saying.

23 GRAND JUROR: Okay.

24 GRAND JUROR: In your interview with
25 Darren Wilson, his interaction with Michael Brown,

1 that he thought Michael Brown had a weapon of any
2 kind?

3 A No.

4 GRAND JUROR: He didn't indicate or no, he
5 didn't have a weapon? He didn't mention it at all
6 or he said yes, I know he didn't.

7 A I would want to check the transcript for
8 an exact account, however, at the point that I,
9 remember, at the point that I interviewed Darren
10 Wilson, there had already been one cursory interview
11 completed with him or a safety statement completed
12 with him. And in that safety statement and in that
13 cursory interview, obviously, he made no mention of
14 a weapon. So to some degree it was implied that
15 there was no weapon involved in this on Michael
16 Brown's part.

17 MS. ALIZADEH: Detective , do you
18 recall, and his statement will speak for itself and
19 you have a transcript of his statement, but do you
20 recall in his statement to you him saying that he
21 saw Michael Brown's hand go into his waistband?

22 A He did say that, yes.

23 MS. ALIZADEH: But he never said that he
24 saw a weapon?

25 A Correct. Just in terms of seeing a

1 weapon, no, he never indicated that he saw one.

2 MS. ALIZADEH: Did he ever tell you that
3 he thought Michael Brown was going for a weapon?

4 A In the sense of when Darren Wilson is
5 making reference to Michael Brown putting his right
6 hand, he described it as he put his right hand in
7 his waistband and then started coming towards Darren
8 Wilson. That would have been an instance where it
9 could have been implied that, yes, there was a
10 weapon there.

11 MS. ALIZADEH: He never said that, the
12 interview will speak for itself, I want y'all to
13 review it if you need to.

14 But he never said to you, I thought he was
15 going for a weapon so I had so shoot him, or do you
16 recall?

17 A I'm going to check my report.

18 MS. ALIZADEH: Okay. I'm going from my
19 memory as well, I don't have copy of the transcript
20 in front of me.

21 A So in the transcript here he makes
22 reference to during his first stride, he took his
23 right hand, put it under his shirt and put it in his
24 waistband. And then as he continues, he again makes
25 reference to still charging, and again, I'm reading

1 the transcript here, still charging, hand still in
2 his waistband, hasn't slowed down. And then he
3 again makes reference to the same thing, still
4 running at me, hadn't slowed down, hands still in
5 his waistband.

6 So he makes reference to it three
7 times there and then one final time when he says,
8 when he went down, his hand was still under his
9 right hand, was still under his body, looks like it
10 was still in his waistband.

11 So in that sense does he ever
12 specifically say the word weapon? No. In that
13 conversation that I'm having with him, me, as a
14 police officer knowing that if an individual has his
15 hand in his waistband, that is of concern to me
16 personally.

17 And so it was implied, in my opinion,
18 that he was making reference, that Darren Wilson was
19 making reference to believing that there could have
20 been a weapon in Michael Brown's waistband, however,
21 as you said, he never specifically mentioned the
22 word weapon.

23 GRAND JUROR: On that same note, we know
24 that Michael Brown's hand was, had the severe injury
25 with blood, so you would be able to look at the

1 shirt and shorts to be able to see if there was
2 blood in that specific area, correct? I don't know
3 if you can to verify, did you verify that? His
4 comment that he saw him at his waistband or shorts
5 or shirt, did you look to see on Michael Brown's
6 actual shirt or shorts if there is blood in that
7 area?

8 A There is both his shirt and his shorts are
9 very bloody so.

10 MS. ALIZADEH: It may be difficult to tell
11 whether it was from that or from the body laying in
12 the street and so forth.

13 GRAND JUROR: When you interviewed Darren
14 Wilson, did he at any time tell you how many times
15 he thought he shot his weapon?

16 A He didn't recall. And realistically in my
17 experience that is a normal acceptable answer to
18 hear from a police officer who has been involved in
19 a critical incident. Very often police officers
20 either don't know, or get the number of shots
21 incorrect. And I don't see that as being something
22 that frequently occurs.

23 GRAND JUROR: Did he mention it to
24 Detective in the preliminary.

25 A In terms of how many shots? You would

1 have to ask Detective that.

2 GRAND JUROR: For some reason I got he
3 said he shot four times, four shots.

4 A I'm making reference to in terms of total
5 shots.

6 GRAND JUROR: Uh-huh.

7 A Are you making reference to something?

8 GRAND JUROR: Total shots, yeah.

9 A No. I mean, clearly, I think he probably
10 could deduce that when he went back to the station
11 that his weapon carries 12 rounds in the magazine
12 plus one in the chamber. And, you know, he can,
13 obviously, I don't know that he did, count how many
14 rounds he had left. But he didn't make reference
15 to, he didn't know when I asked him.

16 MS. ALIZADEH: If you are looking for
17 where that might come from, keep in mind that I had
18 Sergeant testify about what he first told him,
19 so you can review Sergeant 's testimony. We had
20 testify about his cursory interview at
21 the hospital, so you can review that. Neither one
22 of those were recorded interviews keep in mind. And
23 then there was the recorded interview with Detective
24 , which you have that transcript.

25 And then finally, Special Agent

1 testified that she interviewed him, but her
2 interview was not recorded as well. So you wouldn't
3 maybe, you could look back at the transcript of her
4 testimony and then also keep in mind that Darren
5 Wilson testified before this grand jury and you
6 could review his testimony to see if there's mention
7 of how many shots.

8 A Yes, ma'am.

9 GRAND JUROR: What is the policy and
10 procedure of when a police officer goes to the
11 hospital to be examined as far as who is present in
12 the room with the patient and the doctor?

13 A Well, I don't know that I can answer that
14 question. Obviously, Ferguson Police Department may
15 have their own policy in terms of how they handle a
16 situation like that. I would say with St. Louis
17 County, obviously, you would have the patient and I
18 would assume that you would probably have a
19 supervisor there who is there to provide support to
20 an injured officer. I'm just talking in general
21 terms here, provide support to an injured officer.
22 And you may have another police officer there again
23 to provide support or something needs to take place,
24 but I can't specifically answer for Ferguson Police
25 Department.

1 GRAND JUROR: And they would be present in
2 the examine room?

3 A During any kind of examine taking place?

4 GRAND JUROR: (Nods head.)

5 A My guess would be that would be up to each
6 individual officer whether they were comfortable
7 with a co-worker or a supervisor being present.

8 Obviously, if they weren't
9 comfortable, I'm sure a supervisor or co-worker
10 would leave, but if they are comfortable, I'm sure
11 they could stay too.

12 GRAND JUROR: And when the doctor is
13 examining the patient, would there be a reason for
14 the supervisor to be answering questions?

15 A I guess it would probably depend on what
16 type of questions they would be answering.

17 GRAND JUROR: But they're not the patient?

18 A There is obviously an aspect to some sort
19 of workman's comp or payment issues or any number of
20 things like that could arise that a supervisor may
21 take upon his, may take responsibility for. But
22 specifically in any specific situation, I don't
23 know. I think it would be entirely different.

24 Obviously, just as if any of us got
25 hurt in a work place environment, I'm sure a

1 supervisor and/or co-worker would be there to assist
2 in whatever way they could through the process.

3 GRAND JUROR: I have one question, I have
4 a couple of questions, one in particular is about
5 his visit to the emergency room. It says in his
6 triage report that the patient presented with St.
7 Louis County Police to the emergency room for
8 evaluation from home.

9 And when we had somebody testify here, I
10 just want, do you know if he went home first?

11 A He did not go home.

12 GRAND JUROR: Okay.

13 A He went to the Ferguson Police Department
14 at the direction of Sergeant and he waited
15 there until Detective arrived. And,
16 obviously, Detective drove, not with, but
17 followed Darren Wilson and I believe Colonel
18 from the Ferguson police station to the
19 emergency room.

20 GRAND JUROR: Do you know where Darren
21 Wilson lives, or what street, or what I'm trying to
22 determine is how far away he lives from the
23 hospital?

24 A He lives quite a ways away.

25 GRAND JUROR: I just want to make sure I

1 understand what you were trying to say earlier, I
2 know everybody has asked some questions about some
3 of the things he told us here versus some of the
4 things he told you about.

5 A Sure.

6 GRAND JUROR: I want to make sure I'm
7 understanding what you are saying because with my
8 work I'll talk a certain way with my co-workers then
9 I would with this guy right here. So I'm assuming
10 that it is acceptable for things to be inferred, I'm
11 a little nervous, it is acceptable to go unspoken
12 that you know could have happened, that he would
13 have to explain to us.

14 A Can you give me a specific example of what
15 you are making reference to?

16 GRAND JUROR: Several things. I can't
17 remember what Sheila asked, but she asked a question
18 and then he asked a question about did he say he was
19 unarmed. He said, well, several times that his hand
20 was still in his waistband and I can see where some
21 people would say that he was holding an injury or
22 something, but as a police officer, and as a fellow
23 police officer, you don't know that's what he was
24 doing, you think he could be, so you're taking as a
25 police officer that doesn't have to be explained to

1 you.

2 A Correct, I think just like it is in any
3 industry or any line of work, I think there are
4 obviously things that don't necessarily need to be
5 explained or as you said, implied in any industry.

6 And you make reference to the hand in
7 the waistband. A hand in the waistband to me in a
8 situation is an alarm in any given situation because
9 I don't know as a police officer, I'm talking in
10 general terms here now, I don't know is that
11 person's hand cold or is it that they're going to
12 pull out a knife or a gun or baton or whatever.

13 GRAND JUROR: So it is possible that the
14 difference is in things that he told you and the way
15 he explained things how he told us could simply be
16 you are a police officer and you know the situation,
17 you know the type.

18 A I think that's possible, yes.
19 Specifically in the situation with the hand in the
20 waist, I believe I knew what he was making reference
21 to when he's talking about he makes mention to it
22 four times, you know.

23 GRAND JUROR: It is a concern?

24 A It was obviously a concern to him and to
25 me as a police officer, it would be a concern to me

1 also.

2 MS. ALIZADEH: Let me ask. I'm sure your
3 lunch is here. If you want to follow-up with him
4 after lunch, we can do that or you think there's
5 another five minutes worth of questions we can try
6 to finish with him. He's sticking around.

7 If for some reason during lunch you want
8 to ask him something else, you know, we'll bring him
9 back. But I know your lunch is probably here. Is
10 there anything pressing right now that you want to
11 ask him before break?

12 GRAND JUROR: When you spoke with or
13 interviewed Officer Darren Wilson, at that time was
14 he represented by an attorney?

15 A He was, yes.

16 GRAND JUROR: At any time did his attorney
17 say that there's certain things that you cannot ask
18 him?

19 A He did not, no.

20 GRAND JUROR: He did not.

21 A No. As a matter of fact, I think during
22 the course of the interview his attorney maybe said
23 two words.

24 GRAND JUROR: So he was present there with
25 Darren Wilson?

1 A Yes, ma'am, yes. He was present in the
2 conference room when we interviewed him. So it was
3 myself, Detective , Darren Wilson, and Darren
4 Wilson's attorney in the conference room.

5 MS. ALIZADEH: Correct me if I'm wrong, I
6 believe we've heard that his attorney was also
7 present with him at the hospital?

8 A He was, yes.

9 MS. ALIZADEH: Had actually ridden from
10 the Ferguson Police Department with Colonel
11 in the car with Darren Wilson, correct?

12 A I don't remember specifically if he was in
13 the car, but he definitely was at the Ferguson
14 Police Department and he definitely was at Christian
15 Northwest Hospital with Darren Wilson, yes.

16 GRAND JUROR: A public citizen or police
17 officer walking down to the park, they're sitting in
18 a car and they are strangled and beaten to death,
19 that's a homicide and there is no weapon involved;
20 is that correct? Are physical hands ever a weapon
21 or you beat me to death?

22 A Is it a homicide? Yes. A homicide is
23 simply a manner of death, but more specifically a
24 homicide is a death at the hands of another person
25 so yes, it would be a homicide.

1 GRAND JUROR: And hands would be a weapon?

2 A Could be absolutely, yes.

3 GRAND JUROR: So I'm getting to the point
4 this officer felt he was in danger of being beaten
5 to death sitting in his car, you could almost say
6 there was a weapon involved at that point, that's
7 where I'm confused a little bit. I understand no
8 weapon in the form of a pistol or handgun, if you
9 are in danger, that your life was in danger that you
10 are being beaten to death, is there a weapon there
11 or not?

12 A Well, there's a weapon in the sense there
13 is something in a hand?

14 GRAND JUROR: Right.

15 A No. Can you use your hands a weapons,
16 yes.

17 GRAND JUROR: Right. There is no
18 requirement to see a physical weapon, gun, knife,
19 for a police officer or citizen to defend themselves,
20 or in the case of a police officer to use deadly
21 force. You don't need to see a handgun to defend
22 yourself with deadly force if you are police
23 officer, you assume your life is in danger by means
24 other than a physical weapon?

25 A If a police officer --

1 MS. ALIZADEH: Let me stop you here.
2 We're going to give you prior to your deliberations
3 what the law states when a law enforcement officer
4 can use force, when a person defending themselves
5 can use force, and when they can use deadly force.

6 And so, you know, this would be maybe his
7 understanding of the law, but we have taken great
8 pains to make sure we are going to get you the law
9 so that I don't want anybody to misinterpret it. So
10 I'm just going to stop you there and we'll give it
11 to you before your deliberations okay?

12 GRAND JUROR: Okay.

13 GRAND JUROR: Kind of a follow-up on what
14 he's saying.

15 Due to Michael Brown's size and demeanor,
16 could Darren Wilson have considered him as a person
17 as being a weapon?

18 MS. ALIZADEH: You know, these are all
19 things there are, is the definition of deadly weapon
20 including in there?

21 MS. WHIRLEY: We can put it in there,
22 deadly force is in there.

23 MS. ALIZADEH: Here is the thing. You all
24 know from being a grand jury for several months,
25 that there's, you know, for example, with armed

1 criminal action, you know, you have to have
2 committed a crime by, with, through the use of a
3 dangerous instrument, a deadly weapon and there are
4 definitely definitions as to what is a deadly weapon
5 and a dangerous instrument.

6 I believe once you see the law that we've
7 written, it talks about what a person, their
8 reasonable belief is. And so those things that you
9 are asking is, could a person reasonably believe
10 that their life was threatened, that's the crux of
11 what you all have to talk about. And again, it is
12 necessarily appropriate for him to answer those
13 questions, whether or not Darren Wilson could have
14 reasonably felt that he was, his life was in danger
15 is something you all have to decide. And be guided
16 by what the evidence is and then what the law is
17 that Sheila and I have put together based on the
18 statutes and criminal instructions and jury trials,
19 okay.

20 I don't want you to, I don't think it is
21 appropriate for him to interpret the law. That's
22 going to be your job and if you have questions about
23 the law, because under the grand jury rules, we are
24 your legal advisers. So if there are questions
25 about the law as you are deliberating, you ask us

1 those questions because we are your legal advisers.

2 GRAND JUROR: Without relation to the law,
3 have you in your dealings as a police officer, ever
4 seen anyone knocked out by one punched?

5 A Have I personally seen it? No. Have I
6 responded to calls where someone has been knocked
7 out with one punch by a neighbor, a person at a bar?
8 Yes.

9 GRAND JUROR: Everything that they are
10 talking about, I just want to get back to the basics
11 of what happened or see what happened. Necessarily
12 walking in the middle of the street is not that big
13 of a deal, but when it got to the point, I've heard
14 it described as a tussle, a struggle and everything
15 like that, so when a citizen and a police officer
16 are in a tussle, that's a crime by the person
17 tussling with the police officer?

18 MS. ALIZADEH: I'm going to stop you
19 there.

20 GRAND JUROR: Why?

21 MS. WHIRLEY: We have a rule on that too.

22 MS. ALIZADEH: Because there are issues
23 about who was the initial aggressor, whether or not
24 the officer was making a lawful arrest, those are
25 all things that the law will tell you. You can

1 consider whether you believe the officer's actions
2 were lawful, and those are things that once you read
3 the law.

4 GRAND JUROR: So you are going to give us
5 those guidelines for us?

6 MS. WHIRLEY: Right.

7 MS. ALIZADEH: We're not going to give you
8 the facts and say if he did this and then this, if
9 you believe this, then this. But we're going to
10 give you what the law says when a law officer can
11 use force to affect an arrest and when that force
12 can be deadly. And then also when a person can use
13 force to defend themselves and when that force can
14 be deadly.

15 There is all kind of things about whether
16 or not the person is an initial aggressor, you know.
17 And under the law, a law enforcement officer can be
18 an initial aggressor, unless his arrest is unlawful.
19 So there is all kind of things that go into that
20 that I don't think he can answer those questions.

21 GRAND JUROR: As long as we are going to
22 get those guidelines.

23 MS. WHIRLEY: You will get definitions
24 also and you apply the facts as you know them to the
25 law.

1 GRAND JUROR: Just in case you don't come
2 back, I need this for me. When starting your
3 investigation after you already interviewed Officer
4 Wilson, okay. You heard A of the story, there's A
5 and B, but B is deceased.

6 A Correct.

7 GRAND JUROR: My question is, you heard
8 his testimony, starting your investigation, you have
9 A in your mind and then you go interview all of the
10 other witnesses. When B doesn't have a voice, you
11 don't make that your main concern during your
12 investigation, I'm asking you as a police officer or
13 a detective.

14 A Okay. What's the question?

15 GRAND JUROR: So the question is, Officer
16 Wilson's testimony told you his scenario what
17 happened. Of course Mike Brown cannot speak.

18 A Right.

19 GRAND JUROR: You only have what part A
20 said, you don't have part B. So going off what he
21 said and you are starting your investigation, that's
22 your focus point, so do you like try to put
23 everybody's investigation towards part A or you
24 trying to put this scenario together?

25 A Absolutely not. Do I try to put

1 everyone's toward part A as you made reference? In
2 the initial phases of an investigation, it's simply
3 to, I'm summarizing it here.

4 GRAND JUROR: Okay.

5 A It is simply to find as many witnesses as
6 we can and gather the facts. There is no skewing to
7 one side or to the other. It's essentially locate
8 witnesses, obtain their statements from them, and it
9 is to gather the evidence at the scene.

10 And then in this particular instance,
11 right, I present it to you, ladies and gentlemen of
12 the grand jury, and you can make the decisions from
13 there. But there is no skewing one side either way,
14 okay.

15 GRAND JUROR: Thank you.

16 GRAND JUROR: One last question. In your
17 eight years as a detective, have you ever had to
18 arrest a police officer?

19 A I have, yes, several times.

20 GRAND JUROR: Can you give one example?

21 A I've, well, this year I arrested a St.
22 Louis County police officer for an assault.

23 Several years ago I arrested a city
24 police officer for an assault. I've conducted other
25 investigations into police officers where they have

1 been arrested for a sex crime. Those are the three
2 that are popping up right now. I'm confident there
3 are a few others one.

4 GRAND JUROR: Assault, domestic assaults
5 or they --

6 A One was an on duty assault that took place
7 at a MetroLink station and the incident was captured
8 on video. The other one was an assault that took
9 place, the officer was in uniform and he was at his
10 station, he was getting off duty or had just gotten
11 off duty and he assaulted several individuals and so
12 obviously, both of those individuals I arrested.

13 MS. ALIZADEH: Any other questions?

14 And really, he won't be going far. If
15 after lunch you think of something else you need to
16 ask him to call him back, we're not going to start
17 deliberations right now. So we'll conclude for
18 lunch at this time.

19 (Lunch recess taken)

20 MS. WHIRLEY: This is Sheila Whirley, it
21 is November 21st, I'm not sure of the time, it is
22 after 1:14 or so. I did reach regarding
23 his report and he advised me that his report would
24 be more complete and detailed, and that he could
25 have it to us by noon on Monday. I asked him what

1 would be different, you know, or significant, and he
2 said that he would be able, he can derive from the
3 photos that he viewed once he was here the bullet
4 trajectory and the position that the body was in
5 when it was shot.

6 When he was here, he basically answered
7 our questions, but a report, when he would sit down
8 and write a report it would be more comprehensive
9 and detailed.

10 He said he didn't realize, he hadn't
11 started working on it, he didn't realize he could
12 submit one after his testimony, but he could work on
13 it and have it ready by Monday noon, before noon.
14 With that in mind, I know you didn't give us your
15 answer as to what you had decided about the report,
16 what do you think, do you want the report?

17 MS. ALIZADEH: Tell them the other option.

18 MS. WHIRLEY: I thought we would go to the
19 other option if they don't want the report.

20 MS. ALIZADEH: They should know all of
21 their options.

22 GRAND JUROR: If I'm hearing you right, in
23 his report is he saying that based on the trajectory
24 of the bullets he is going to show a diagram of
25 positioning of the body that resulted in those

1 injuries?

2 MS. WHIRLEY: I didn't go into detail
3 questioning of him, and that's where the other
4 option comes in and we will talk about that in a
5 minute, but what he said basically is his report
6 will talk about the trajectory of the bullets and
7 what position the body was in when it was shot based
8 on his findings.

9 Now, the other option is, as Kathi was
10 suggesting, I could find out if you want to ask him
11 a question, like you had a pretty detailed question
12 right then, I could try and reach him again and see
13 if he is available, maybe we could do a conference
14 call and you can ask him some questions about what
15 his report would say that he didn't talk about here
16 or how it may differ or how it is more complete.
17 Was there another option? I think those were the
18 two options. Am I missing one?

19 MS. ALIZADEH: The options are continue
20 without the report or without a conference call.

21 MS. WHIRLEY: That's the third option.

22 MS. ALIZADEH: Or let's just wait for the
23 report on Monday at noon, or let's get him on a
24 conference call and see if he can explain to us what
25 might be in his report that he didn't testify to

1 when he was here, or we need to have him back live
2 and in person for you all to question him in person.
3 I'm not suggesting any of these.

4 MS. WHIRLEY: Yeah, it is up to you.

5 MS. ALIZADEH: These are all your
6 decisions. Sheila is the one who talked to him
7 that's why I told her, tell him what you said.

8 MS. WHIRLEY: That's what he basically
9 said.

10 GRAND JUROR: He said that he could tell,
11 hit report is going to be tell us what position the
12 body was in when he was shot.

13 MS. WHIRLEY: He's going to be giving an
14 opinion is my understanding is, he wasn't there.

15 A That's different than what he said when he
16 was here, so if that's the case, then I think we
17 need to wait until we have the report.

18 GRAND JUROR: What he said, is a
19 prima dona. How much time he need to do a report, a
20 final report. Every time he says something, he
21 change his mind, I'm sorry, but to me he's a prima
22 dona.

23 MS. ALIZADEH: This discussion you should
24 all have by yourself and off the record. Here is
25 the thing, and this is one thing that, I wasn't part

1 of the call, Sheila was. I'm asking her some of
2 these questions because I asked her, now, I'm
3 cross-examining Sheila.

4 MS. WHIRLEY: Not going to happen.

5 MS. ALIZADEH: Is he going to say
6 something different than what he testified to?

7 MS. WHIRLEY: And my understanding is, no,
8 not necessarily different, unless that's a
9 conclusion you may come up with. It is basically a
10 more detailed and complete report regarding the
11 trajectory of the bullets and the position that the
12 body was in when it was shot.

13 If you all recall something different that
14 he said when he testified, I'm not suggesting that
15 you are, but that's, you know, for you to decide.
16 He basically said that his report would be about his
17 findings, I'm repeating it, this is verbatim, the
18 trajectory of the bullets and the position of the
19 body when he was shot. I didn't question him any
20 further than that.

21 MS. ALIZADEH: So we have the evidence all
22 set up in the room for you. First of all, do you
23 need me to call back to answer any
24 further questions at this time? No, okay.

25 Now, you all asked about the duty belt,

1 which we do have in evidence and you will be able to
2 see it, but I have the photographs of it when the
3 duty belt was seized, and it looks like this was
4 seized by Detective , who you have already
5 heard from.

6 So I will let you look at those and I'll
7 mark the envelope that contains those photos. There
8 are six images, Grand Jury Exhibit 107.

9 (Grand jury Exhibit Number 107
10 marked for identification.)

11 MS. ALIZADEH: Obviously we had some
12 matters during the lunch hour that kind of kept me
13 busy with things. I did try to look for that
14 Quantico report about the gunshots that you hear.
15 And I know I have it, I haven't had really time to
16 search through my stuff for it. So while you are
17 looking at evidence, I will try to lay my hands on
18 that as well.

19 You want to hear the interview of
20 before you go look at the evidence? Yes.

21 So, can you tell me, can I look at my
22 little chart.

23 (Playing of the interview of
24 by the FBI. The following is a
25 transcription of that interview. The Witness will

1 be .)

2 THE FBI: Today is August 25th, 2014.

3 Time is approximately 7:12 p.m. This is Special

4 Agent of the FBI along with Special

5 Agent with the FBI. We are here to

6 talk with This is regarding the

7 Michael Brown, the death of Michael Brown. The

8 civil rights investigation with St. Louis Division

9 of the FBI. We are at the offices of his attorney,

10

11

12 , if you could just state your

13 name and spell it for me?

14 THE WITNESS: ,

15 .

16 THE FBI: If you could give me your date

17 of birth and your address?

18 THE WITNESS: . Address

19 ,

20 .

21 THE FBI: And you understand that this

22 interview is being recorded?

23 THE WITNESS: Yes.

24 THE FBI: Are you fine with that being

25 recorded?

1 THE WITNESS: Yes.

2 THE FBI: Okay. So we are here to talk to
3 you today about the civil rights investigation we
4 have regarding the death of Michael Brown. If we
5 could just start we have here at the

6 . Can you take a look at this map and
7 point out to me where you think your apartment is?

8 THE WITNESS: Uh --

9 THE FBI: would be over
10 here.

11 THE WITNESS: Okay, .

12 THE FBI: You think it was .

13 THE WITNESS: Yeah.

14 THE FBI: If you wouldn't mind just
15 circling there and if you could kind of point out
16 which side of the building you're on.

17 THE WITNESS: Would be here.

18 THE FBI: Okay. Can you put like a little
19 star there? Okay.

20 How about initialing that too? So we can
21 look at this later and know that it was you that
22 marked it and exactly where it is that you are at.

23 Is that where you were at on August the
24 9th, 2014?

25 THE WITNESS: Yes.

1 THE FBI: Were you in your apartment or
2 inside your apartment?

3 THE WITNESS: Inside.

4 THE FBI: About what time is it that you
5 think that this has happened?

6 THE WITNESS: About 12:35, it is right
7 before, about 12:35 at the earliest and the latest I
8 give 12:45.

9 THE FBI: If you could tell me what you
10 were doing that day, walk me through what happened
11 right before and right through when you heard the
12 shots?

13 THE WITNESS: I was in my room, I probably
14 (inaudible) Before 12:35 but I know I was in the
15 house. I never did anything that morning. I was at
16 home all day. And I was talking at approximately
17 12:35, the time that I gave, I heard the shots while
18 I was talking to my friend on Glad.

19 THE FBI: What is Glad?

20 THE WITNESS: Glad is a social app that
21 you can download on your phone and you can have a
22 multimedia experience through texting and video.

23 THE FBI: Okay. Is that on a Google
24 phone, iPhone, what kind of phone?

25 THE WITNESS: Android phone, Google phones

1 and iPhones, I think have the access to that.

2 THE FBI: Okay. Your phone is what kind
3 of phone?

4 THE WITNESS: Android.

5 THE FBI: Android, okay. So it is an app
6 that you downloaded that you can use to video text
7 people, regular text messaging that you type out a
8 message, that kind of thing?

9 THE WITNESS: Right. It is a social app
10 where you can talk and meet people, and you can also
11 talk to friends, meet friends and send texts and
12 video.

13 THE FBI: Who was it that you were talking
14 to go on Glide that day?

15 THE WITNESS: I was talking to ,
16 .

17 THE FBI: Can you spell that for me?

18 THE WITNESS:

19 THE FBI: Do you know 's last name.

20 THE WITNESS: It is a name. So
21 it is .

22 THE FBI: .

23 THE WITNESS: .

24 THE FBI: .

25 THE WITNESS: .

1 THE FBI: .

2 THE WITNESS: Yeah.

3 THE FBI: So you were talking with
4 that day?

5 THE WITNESS: Yeah.

6 THE FBI: So you think about 12:35, 12:45
7 in that time period?

8 THE WITNESS: Yeah.

9 THE FBI: And can you tell me, what was it
10 prior to the recording that you played for us prior
11 to us starting this recorded interview, can you tell
12 us what was happening before you made that
13 recording?

14 THE WITNESS: In the house with me?

15 THE FBI: Yes.

16 THE WITNESS: I never left the room, I was
17 in the room most of the time. I was laying down on
18 my bed. Calls came in, I was just in my room. Just
19 really have the day, you know, just not doing
20 anything at that moment.

21 THE FBI: Okay.

22 THE WITNESS: But just in the room most of
23 the time laying down on the bed.

24 THE FBI: And prior to sending the video
25 messaging you already showed us, did you see or hear

1 anything prior to that relative to this case?

2 THE WITNESS: Just the shots that I
3 mentioned, and three shots before.

4 THE FBI: You think you heard three shots
5 before you sent the video?

6 THE WITNESS: About three shots.

7 THE FBI: Do you know how long that was
8 before you sent the video, before you made, I'm
9 sorry, made the video?

10 THE WITNESS: Maybe about, I don't know,
11 maybe about five, six seconds maybe.

12 THE FBI: Okay. You heard the shots and
13 you think you heard three shots?

14 THE WITNESS: Yes, it was loud.

15 THE FBI: Okay.

16 THE WITNESS: And I think, I said it to my
17 roommate, one of us mentioned that it was very loud,
18 and then I would need to send him a video. I didn't
19 when somebody talking to you (inaudible.) Then I
20 send the video, the video I heard more.

21 THE FBI: So about five seconds after you
22 heard the shots you started recording the video; is
23 that correct?

24 THE WITNESS: About then, yeah.

25 THE FBI: And then the video that you

1 showed us prior again to us starting this recording
2 has you creating a video message that has both audio
3 and video, correct?

4 THE WITNESS: Yes.

5 THE FBI: There is shots heard in that
6 message as well?

7 THE WITNESS: Yes.

8 THE FBI: And then do you hear anything
9 more after that, you stopped the video, did you hear
10 any more shots afterwards?

11 THE WITNESS: No.

12 THE FBI: Was there any time during that
13 time where you went outside of your apartment that
14 you would have seen anything?

15 THE WITNESS: No, I was inside the
16 apartment the whole time.

17 THE FBI: Okay. Can you give us your
18 roommate's name as well.

19 THE WITNESS: Uh, .

20 THE FBI: Can you spell that for me?

21 THE WITNESS: . .

22 THE FBI:

23 THE WITNESS: Yeah. I'm sorry, ,
24 her name is , . I'm sorry about
25 that.

1 THE FBI: . The , get
2 rid of that, that's not right.

3 THE WITNESS: Yeah.

4 THE FBI: and he's your
5 roommate there?

6 A She, it is a girl.

7 THE FBI: And she is your roommate at the
8 apartment. Do you have any other roommates?

9 THE WITNESS: Along with , a couple
10 people staying there, but you know, just at that
11 time it was three of us.

12 THE FBI: Okay. was there,
13 yourself, was there as well?

14 THE WITNESS: wasn't there, after
15 she moved in, he came after.

16 THE FBI: He came after.

17 THE WITNESS: Yes.

18 THE FBI: Can you spell his name for me?

19 THE WITNESS: , .

20 THE FBI: How much later did he come to
21 the apartment.

22 THE WITNESS: Um, after 1:00, maybe about
23 1:30.

24 THE FBI: All right. So definitely at the
25 apartment during the time of the shooting?

1 THE WITNESS: He wasn't there. And then I
2 remember him asking me is it okay to come in the
3 doors and he eventually came.

4 THE FBI: Okay. I think the other piece
5 of information that you wanted to tell us about was
6 a video recorder that was removed, video camera that
7 was removed. Can you tell me a little bit about
8 that?

9 THE WITNESS: That came into my mind when
10 I spoke, another eyewitness who was giving me
11 details of the entire thing.

12 THE FBI: Who was that that you are
13 talking to?

14 THE WITNESS: The eyewitness, was
15 telling me that.

16 THE FBI: Okay. And how do you spell
17 's name?

18 THE WITNESS: It is kind of a name,
19 I don't know how to. I think it is , ,
20 something it is .

21 THE FBI: Okay.

22 THE WITNESS: .

23 THE FBI: Do you know 's last name.

24 THE WITNESS: .

25 THE FBI: .

1 THE WITNESS: Yeah.

2 THE FBI: Okay. So you were talking with
3 about this incident, the shooting of Michael
4 Brown?

5 THE WITNESS: Yes.

6 THE FBI: And it sparked something in your
7 head about cameras or?

8 THE WITNESS: Well, I was just trying to
9 get information or details about what happened.

10 THE FBI: Okay.

11 THE WITNESS: Since I live in the
12 community I was just curious what happened.
13 (inaudible.)

14 THE FBI: So she's the one that told you
15 that this camera had been removed?

16 THE WITNESS: Yeah.

17 THE FBI: You didn't see the camera
18 removed?

19 THE WITNESS: No.

20 THE FBI: Okay. Do you know which camera
21 it was, did she tell you?

22 THE WITNESS: No.

23 THE FBI: Well, then that's something we
24 can follow-up with her since you don't have any
25 independent knowledge of that camera, it is

1 something that she has the knowledge of which camera
2 and who removed it from where it was?

3 THE WITNESS: Right.

4 THE FBI: Was there anything else in the
5 shooting of Michael Brown that would be helpful for
6 us?

7 THE WITNESS: No, I can't think of
8 anything.

9 THE FBI: I asked you before about whether
10 you would be willing to share the video that you
11 showed to us today, is that something you are
12 willing to share with us?

13 THE WITNESS: Yes.

14 THE FBI: We will go ahead and have you
15 sign a form that allows, you know, gives us
16 authorization to take that off your phone and take a
17 copy of that directly off your phone.

18 Okay. Anything else?

19 I don't want to get into what she told
20 you, what you talked with her. Do you have any
21 information, a way to contact her?

22 THE WITNESS: No.

23 THE FBI: You don't.

24 THE WITNESS: I mean, well, she has a
25 sister that I talk to, so her sister.

1 THE FBI: What's her sister's name? Is
2 there a cell phone number we can reach her at?

3 THE WITNESS: .

4 THE FBI: What's 's last name.

5 MS. WHIRLEY: I don't know her last name.

6 THE FBI: Okay. Do you have a number for
7 ? s sister is the one who supposedly
8 saw what happened?

9 THE WITNESS: 's sister is the one
10 who lives in the apartment complex. .

11 THE FBI: Do you know where she lives at
12 in the apartment complex?

13 THE WITNESS: doesn't live in
14 apartment complex, does. Okay.

15 THE FBI: Again, was the one
16 telling you about this camera?

17 THE WITNESS: Yeah.

18 THE FBI: Did you talk to, your other
19 roommate wasn't there, but your roommate
20 , did you talk to that roommate, did that
21 roommate, did she see anything, was she outside?

22 THE WITNESS: No, she was inside.

23 THE FBI: She was inside.

24 THE WITNESS: She was inside.

25 THE FBI: So she may have heard something,

1 she was not outside to be able to see anything.

2 THE WITNESS: Right.

3 THE FBI: Okay. Again, any other
4 questions?

5 Do you have s address?

6 THE WITNESS: No.

7 THE FBI: Okay. All right. The time is
8 now 7:26, we'll go ahead and stop the recording.

9 (End of the recorded interview.)

10 MS. WHIRLEY: Is that the only thing that
11 we're listening to?

12 MS. ALIZADEH: This is Kathi Alizadeh, we
13 just played off of Grand Jury Exhibit Number 49,
14 which is a disc, we just played a statement from
15 , which was recorded by the FBI
16 previously, previous to his testimony before this
17 grand jury.

18 Are there any other recorded statements
19 that I indicated to you that we have available?
20 Just for the record's sake, as well as for y'all to
21 know, on that list I should indicate what exhibit
22 the statements are on. So if at any time, even
23 during your deliberations you want to hear it, I can
24 play it for you.

25 Sheila and I talked about the fact that if

1 you want to listen to a witness' statement on a disc
2 where there are multiple statements, probably if you
3 can ask us to go ahead and cue it up. We can leave
4 the room if you want to be alone and talk while its
5 playing, there is a lot of people's statements on
6 there that didn't get played because they say they
7 didn't know anything or what have you.

8 And then, but I will tell you statements
9 that I did not have previously that I since have
10 gotten. This is the statement of which
11 was done, it is a two and a half hour statement that
12 was done the night before he testified, and I've
13 marked that as Grand Jury Exhibit Number 109.

14 This is a disc that has a statement of
15 that was done by the FBI on
16 September 2nd of 2014. I didn't have that
17 previously, that's Grand Jury Exhibit 108. And a
18 recorded statement of that was done
19 the day before she testified for you guys and that's
20 Grand Jury Exhibit 110.

21 So all of the statements that I've
22 indicated that you have not heard you either have
23 the transcripts for or I have them on disc for you
24 to listen to whenever you need to, all right.

25 With that being said. Any other

1 statements you want to listen to? You just let me
2 know.

3 At this point let's go ahead and take our
4 break for y'all to take a bathroom break if you want
5 and then reassemble here and then we will go look at
6 the evidence in the room, is that all right? And
7 then you guys can let us know what your decision is
8 about 's report.

9 (Recess)

10 MS. ALIZADEH: It is November 21st,
11 2:47 p.m.

12 MS. WHIRLEY: And my understanding is
13 you're ready to get instruction on the law so that
14 you can begin your deliberation. You've also made a
15 decision you asked us to check on the report,
16 autopsy report by . I checked on it, I
17 reported back and he said it was not ready, but he
18 could have it ready by noon, which is on the east
19 coast is my understanding, by noon on Monday. My
20 understanding is you have agreed that you will wait
21 for that report before turning in your decision; is
22 that correct? Yes. However, you want to begin your
23 deliberations now, correct?

24 (Jurors indicate yes.)

25 MS. WHIRLEY: We have prepared the law for

1 you, we have prepared the relevant statutes, and
2 Kathi is going to grab the indictments, they are
3 ready. We just need to bring them in here and I'll
4 pass this around.

5 We have kind of reduced down the statute
6 so that it is applicable to this case and easier to
7 understand and read. Of course, if you have any
8 questions along the way you can ask us by knocking
9 on the door or ringing the bell. I guess ringing
10 the bell would be better. And definitions that you
11 think are applicable to the statutes.

12 So we're going to the statutes, and will
13 give the foreperson the indictments and I will pick
14 up the extras.

15 MS. ALIZADEH: So the indictments that we
16 have prepared there is an indictment for murder in
17 the first degree, a Class A felony and armed
18 criminal action and unclassified felony, there is
19 two copies.

20 There is indictment for murder in the
21 second degree and armed criminal, two copies.

22 An indictment for voluntary manslaughter,
23 a Class B felony, and armed criminal action, two
24 copies.

25 An indictment for involuntary manslaughter

1 in the first degree and armed criminal action, two
2 copies.

3 And involuntary manslaughter in the second
4 degree and armed criminal action, two copies.

5 MS. WHIRLEY: The relevant statute it
6 pretty much lays out the elements of the crimes that
7 you have indictments for. It also has definitions
8 that might be applicable to the crimes that are laid
9 out in the statutes that you are looking at, it is
10 not a statute, it is an indictment.

11 The standard of proof is probable cause,
12 we did confirm that. So you guys, that is what you
13 have been working with probable cause all along
14 since you have been grand jurors and that doesn't
15 change. Even though this has been a very long,
16 arduous task going through this evidence. Your
17 standard of proof is still probable cause. You're
18 not here to determine guilt or not guilty, it is
19 probable cause, is it enough to go to trial.

20 Now, what makes this a little bit
21 different is that if you will look on page, the
22 first page, it talks about assault of a law
23 enforcement officer in the first degree. And that's
24 part of the indictment because the officer is saying
25 he was arresting him for assaulting him. So that's

1 what you would be considering in your deliberation
2 and we have provided you with definitions of assault
3 in the first degree, on the second page is assault
4 in the second degree and the third degree. And then
5 also a law enforcement officer's use of force in
6 making an arrest. An officer can use force in
7 making an arrest, got that laid out for you.

8 MS. ALIZADEH: Real quick, can I interrupt
9 about something?

10 MS. WHIRLEY: Sure.

11 MS. ALIZADEH: Previously in the very
12 beginning of this process I printed out a statute
13 for you that was, the statute in Missouri for the
14 use of force to affect an arrest.

15 So if you all want to get those out. What
16 we have discovered, and we have been going along
17 with this, doing our research, is that the statute
18 in the State of Missouri does not comply with the
19 case law.

20 This doesn't sound probably unfamiliar to
21 you that the law is codified in a written form in
22 books and they're called statutes, but courts'
23 interpret those statutes. And so the statute for
24 the use of force to affect an arrest in the State of
25 Missouri does not comply with Missouri Supreme, I'm

1 sorry, United States Supreme Court cases.

2 And so what Sheila has come up with is a
3 statement of the law as to when an officer can use
4 force to affect an arrest, that does track our
5 Missouri Statute, but also takes into consideration
6 what the Supreme Court says, okay.

7 So the statute I gave you, if you want to
8 fold that in half just so that you know don't
9 necessarily rely on that because there is a portion
10 of that that doesn't comply with the law. And then
11 the thing that Sheila is giving you, that statement
12 about use of force to affect an arrest, I don't know
13 is that what you called it, is that the title.

14 MS. WHIRLEY: Law enforcement officers use
15 of force in making an arrest, yes.

16 MS. ALIZADEH: That does correctly state
17 what the law is on when an officer can use force and
18 when he can use deadly force in affecting an arrest,
19 okay.

20 I don't want you to get confused and don't
21 rely on that copy or that print-out of the statute
22 that I've given you a long time ago.

23 MS. WHIRLEY: Did you have a question?

24 GRAND JUROR: So we're to disregard this.

25 MS. ALIZADEH: It is not entirely

1 incorrect or inaccurate, but there is something in
2 it that's not correct, ignore it totally.

3 GRAND JUROR: It is because of the
4 federal?

5 MS. WHIRLEY: Of a Supreme Court case and
6 we must follow Supreme Court of the United States.
7 It is Tennessee v. Garner, not that that matters
8 much to you.

9 GRAND JUROR: The Supreme Court, federal
10 Supreme Court overrides Missouri statutes.

11 MS. ALIZADEH: As far as you need to know,
12 just don't worry about that.

13 GRAND JUROR: All right.

14 MS. ALIZADEH: Just disregard that
15 statute.

16 MS. WHIRLEY: We don't want to get into a
17 law class.

18 That's that one and is that all you want
19 to say on that?

20 MS. ALIZADEH: Yeah, I wanted to point
21 that out.

22 MS. WHIRLEY: Use of force and defense of
23 a person, and we've added use of force and it is
24 actually, I'm sorry, we consider it a self-defense
25 instruction. So the first one is self-defense as it

1 relates to the information that you may have heard
2 regarding Michael Brown.

3 The second one is self-defense as it
4 relates to the law enforcement officer. As you
5 deliberate and looked at the indictment, if you have
6 questions about definitions, again, we have provided
7 definitions, so just refer to that sheet that you
8 have. And then also, probable cause is the
9 standard, but Kathi, something she added that, you
10 know, I need to tell you unless you want to do it, I
11 can do it.

12 MS. ALIZADEH: No, you do it.

13 MS. WHIRLEY: Is that in order to vote
14 true bill, you also must consider whether you
15 believe Darren Wilson, you find probable cause,
16 that's the standard to believe that Darren Wilson
17 committed the offense and the offenses are what is
18 in the indictment and you must find probable cause
19 to believe that Darren Wilson did not act in lawful
20 self-defense, and you've got the last sheet talks
21 about self-defense and talks about officer's use of
22 force, because then you must also have probable
23 cause to believe that Darren Wilson did not use
24 lawful force in making an arrest. So you are
25 considering self-defense and use of force in making

1 an arrest.

2 You have all the information you need in
3 those documents that we gave you to help in your
4 deliberation. But again, if you have additional
5 questions, we're here, we're not going anywhere, did
6 you have something?

7 GRAND JUROR: No.

8 MS. WHIRLEY: And that's enough to get you
9 started and hopefully this will clarify things for
10 you as you go through the indictments. And I think
11 we have already talked about, you'll decide how you
12 want to go through the indictments if you want to
13 look at them one at a time, but you must make a
14 decision whether it is true bill or no true bill for
15 each indictment.

16 MS. ALIZADEH: And as was brought up at
17 the very beginning of this and what we have
18 researched and discussed, the possibility of well,
19 what if there's, you know, five people want to
20 indict on murder first and five people that want to
21 indict on murder second, and two people that don't
22 want to indict. If you have nine people that vote
23 indict on anything, then there will be an
24 indictment. What that indictment is we will deal
25 with if that happens, but there was some question,

1 well, is it kind of like a hung jury if we all can't
2 agree on the charge. No.

3 If there are nine people to vote for an
4 indictment, regardless of what charge you are
5 indicting on, then know that there will be an
6 indictment and we will give you further instruction
7 on what that indictment, what offense it will be.

8 And the one thing that Sheila has
9 explained as far as what you must find and as she
10 said, it is kind of in Missouri it is kind of, the
11 State has to prove in a criminal trial, the State
12 has to prove that the person did not act in lawful
13 self-defense or did not use lawful force in making,
14 it is kind of like we have to prove the negative.

15 So in this case because we are talking
16 about probable cause, as we've discussed, you must
17 find probable cause to believe that he committed the
18 offense that you're considering and you must find
19 probable cause to believe that he did not act in
20 lawful self-defense. Not that he did, but that he
21 did not and that you find probable cause to believe
22 that he did not use lawful force in making the
23 arrest.

24 So if you guys need clarification on that
25 when you get down to discussing it, I can print that

1 out or something, you understand the difference, the
2 distinction, okay?

3 GRAND JUROR: Tell us those three again,
4 one is committed the offense?

5 MS. ALIZADEH: Probable cause to believe
6 that he committed the offense, which means that he
7 met all the elements of that offense. You remember
8 that from your grand jury days. And you must find
9 probable cause to believe that Darren Wilson did not
10 act in lawful self-defense and you must find
11 probable cause to believe that Darren Wilson did not
12 use lawful force in making an arrest. And only if
13 you find those things, which is kind of like finding
14 a negative, you cannot return an indictment on
15 anything or true bill unless you find both of those
16 things. Because both are complete defenses to any
17 offense and they both have been raised in his, in
18 the evidence. So any other questions about the law?

19 Okay. And then just one last thing is
20 that Sheila and I talked about making, we can't make
21 a closing argument to you and we're not going to,
22 but I wanted to say something and I asked Sheila if
23 she would, if we could prepare a statement together
24 to say and so I just wanted to first thank you. We
25 both wanted to thank you and how difficult this has

1 been and the sacrifice that we know you all have
2 family and jobs and we understand the burden it has
3 been for you to be here for now 24 days, 25 days
4 that you've actually been here.

5 We also want you to understand that your
6 decision, whatever it is, should be based on the
7 evidence that you heard in here and the law that
8 we've explained to you, not based upon what the
9 media says, not based upon public opinion, not based
10 upon your fears, you have to base it on the evidence
11 and the law.

12 And whatever that decision is, it will be
13 the correct decision and we will stand by that
14 100 percent, whatever your decision is.

15 And then finally I wanted to say, and
16 Sheila agrees, but we wanted to point out that if at
17 times it seemed like in our questions we were
18 somehow expressing our opinions either about what we
19 think the evidence is, or about the credibility of a
20 witness. We want you to understand as attorneys it
21 is our job to challenge witnesses' statements and
22 that sometimes, you know, you don't get to the truth
23 unless you challenge a witness statement.

24 We have not had any particular rhyme or
25 reason what witnesses we have taken, we have kind of

1 traded off just because we are sharing the workload,
2 but if at any time you felt that we were trying to
3 express our opinion to you, we certainly were not.

4 Sheila said, as attorneys either of us can
5 argue either point effectively and well because
6 that's what we do, but in challenging witnesses, and
7 I know that many of you have asked challenging
8 questions of the witnesses as well, it is up to you
9 to determine the facts and it is up to you to
10 determine the credibility of the witnesses that
11 testify and don't read into anything about what you
12 think our opinions are because really our opinions
13 don't matter, it is up to you and what you guys
14 think.

15 So with that being said, thank you, thank
16 you very much.

17 MS. WHIRLEY: Thank you very much. And I
18 just want to add, you know attorneys, they cannot
19 stop talking. I have to have the last word. That I
20 totally agree with that and we were trying to give
21 you a balanced presentation of the evidence. So you
22 might see us go back and forth because we are trying
23 to keep it balanced for you, and get to the truth
24 and hopefully that was accomplished.

25 And I think you are going to make the

1 right decision, I think you are very bright, I have
2 said that since I first met you many, many months,
3 ago it seems now. Do you work, if you need
4 anything, we will be out here. Thank you.

5 MS. ALIZADEH: Now, do you want to go on
6 record and say what time it is and that we are then
7 leaving the room.

8 I know I got the last word in, didn't I.

9 (Grand jury starts deliberations at 3:04
10 p.m.)

11 MS. ALIZADEH: It is approximately 5:55
12 p.m. and we are going to recess for the evening and
13 reconvene Monday morning at 9:00 a.m. We are
14 waiting on the autopsy report of and we
15 are hoping it will be here before noon Monday. So
16 with that, we are in recess for today.

17 (End of Grand Jury Hearing Volume XXIV.)

The said witness, being of sound mind and being by the grand jury first carefully examined and duly cautioned and sworn to testify to the truth, the whole truth, and nothing but the truth in the case aforesaid, thereupon testified as is shown in the foregoing transcript, said testimony being by me reported in shorthand and caused to be transcribed into typewriting, and that the foregoing page correctly sets forth the testimony of the aforementioned witness, together with the questions

1 propounded by counsel and grand jurors thereto, and
2 is in all respects a full, true, correct and
3 complete transcript of the questions propounded to
4 and the answers given by said witness.

5 I further certify that the foregoing pages
6 contain a true and accurate reproduction of the
7 proceedings.

8 I further certify that I am not of counsel or
9 attorney for either of the parties to said suit, not
10 related to nor interested in any of the parties or
11 their attorneys.
